COAL STRIKE LEADER PREDICTS END TO STRUGGLE

MINERS' OFFICIAL PREDICTS THE END OF STRIKE TODAY

"REDS" ARE ACTIVE THRUOUT BRITAIN

Says Conservative Element in the Majority—Lewis and Green Making Strong Fight for Termination of Walk-Out—Committee to Meet Again This Morning.

Indianaapolis, Ind., Dec. 9.—Settlement of the strike of coal miners tomorrow confidently was predicted last night by a high official of the United Mine Workers of America.

It also was learned that four extended caucuses, in which so-called radicals of Indiana, Ohio, Illinois and Western Pennsylvania, participated, were held tonight.

Washington, Dec. 9.—Railroad travelers were brought face to face today with the most severe curtailment in passenger service since the war.

All of this reduction is necessary, officials said, even though the holiday season is at hand to check the coal on the nation's rapidly dwindling coal reserve.

While railroad administration officials have not received detailed statements as to the identity of trains eliminated from the schedules, reports showed that a general revision of passenger train service had been ordered.

84 union heads who form the general committee. At the same time Judge Anderson granted a motion by government attorneys for postponement of a federal grand jury investigation of alleged violation of the Lever law and anti-trust acts, by both miners and operators. The contempt proceedings are set for December 15, and the grand jury investigation for the following day.

That opposition to a compromise of the president's plan developed soon after the miners' session convened, was evidenced by scraps of the speeches which could be heard outside the hall in which the meeting was being held in a hotel. The argument during the afternoon was very heated, and clearly indicated that the attitude of some of the delegates was delaying final decision in favor of ending the strike.

During the day Acting President Lewis received a telegram from Secretary of Labor William B. Wilson, urging the miners to accept the new proposal and a memorandum agreed upon by Lewis and Green and the attorney-general, was ready at the miners' meeting.

Will Not Talk.

Attorney-General Palmer would make no statement tonight on the situation, except to say that he expected to remain in Indianapolis until the miners reach a decision. None of the members of the general committee would talk of today's discussions on the president's proposal, but remarks dropped by them tonight led many to believe that the conservative members of the coal workers' executive organization will eventually win the fight for adoption of the plan.

It is known that international officers of the miners, including President Lewis and Secretary-Treasurer Green, strongly urged acceptance of the plan to end the strike today, and tonight they apparently still were optimistic about reaching an agreement some time tomorrow.

WINS AND LOSSES BY LABOR IN WEST

Results of Municipal Elections—Labor Has Majority in Edmonton Council.

Canadian Press Despatch.

Edmonton, Alta., Dec. 9.—With one of the most convincing majorities ever recorded, citizens of Edmonton endorsed Mayor Joseph Andrew Clarke at the polls yesterday, electing him mayor for 1920 with a majority that is more than four times as great as that which he secured last year. Matthew Esdale was his opponent.

For aldermen, the voting was no less emphatic. Ald. Kinney, Labor, heading the poll with 5589 votes. James East, Labor, came second, and Rice Sheppard, Labor, third. YORK COUNTY AND SUBURBS

DANFORTH STRONG AGAINST COERCION

Ratepayers Send Protest Against Compulsory Vaccination to Premier Drury.

With but two dissenting voices, the Danforth ratepayers, at a well-attended annual meeting in Frankland School, Logan avenue, by standing vote, protested against compulsory vaccination, and resolved to forward to Premier Drury the following resolution:

"Believing that improvement of public health is to be attained rather by sanitation, education and improved conditions of living than by vaccination or inoculation, we request the provincial government to make illegal the requirement of vaccination as a condition of employment, Gratification or admission to any institution."

The following officers were elected: J. Lugden, president; George Stronach, vice-president; and J. H. McLaughlin, secretary; W. P. Luke, treasurer.

Executive committee: W. G. Ingram, A. M. Harvey, T. H. Ryan, T. G. Matheson and H. Brandwood.

Controller Sam McBride, in a vigorous speech, denounced the attempt by the provincial government to force vaccination, to enforce compulsory vaccination. He said: "My sympathies are entirely with you in the matter of vaccination. I am utterly opposed to compulsion. (Applause.) The vote was fought for liberty, freedom and justice. It took millions of souls and billions of dollars to gain our ideals, and when the conflict is over, we shall find that our men come back to compulsion."

No Smallpox Here.

"One or two men in our controller, 'take it upon themselves to vaccinate their children, believing there is smallpox in the city, which is very doubtful. Let them have their wish, and let them have the smallpox. There is no smallpox in the city," declared the speaker. "Many years ago compulsory vaccination was introduced out of the public schools, and today there is not a fiver or healthier body of children in Canada."

"Since the mandate came into force many children have been vaccinated against their will. I am with the people who protest, and have taken my own boys from school, and will not fall in necessary for it. (Applause.) The speaker gave a number of cases of ill-effects caused by prematurely healthy children that should be vaccinated. He said: "The proposed order will not go through. It is a violation of the constitution. 'Vaccination is not compulsory in England,' said the controller, who charged the local board of health, consisting of Rev. Mr. Powell, Ald. Gowan, McLaughlin and Hastings, with evading the issue and causing the present general dissatisfaction by the people of Toronto with the school board's action."

"The people of Toronto must be wakened up and placed in council who will carry out their wishes," said Controller McBride, adding that he would not be a party to the proposed order. "There is more truth than poetry in this statement. The mayoral chair is a heavy burden to be retained by the wisp of a newspaper editor. I am for my own record."

Continuing, the speaker said he believed that the threat of compulsory vaccination was a business from the city and making it appear to the people of the United Kingdom in the past. The provincial health authorities. It is a sort of sheikh movement and I do not see the utility of it," said Dr. Fleming, adding that he adopted the resolution for real smallpox in England, where people died in thousands during the epidemic.

Why did not the medical health authorities order infantile vaccination previously in Canada? the doctor asked. "There have been no deaths reported, and it was decided to suppress smallpox epidemic. It is rather in the day to try and enforce wholesale vaccination," said Dr. Fleming.

MOUNT PLEASANT GRATIFIED AT LAST

The Mount Pleasant Ratepayers' Association held a most successful meeting last night at the Hodgson School, the room being crowded to hear speeches from four members of the city council—Controllers Robbins and Winnett.

All the speakers expressed their desire to see the Mount Pleasant line built without delay, and were greatly pleased with the action of the city council last Monday in passing a resolution to advertise for tenders for the construction of the line. Gratification was also expressed at the decision of the courts in refusing an application by the Metropolitan to delay the construction as they objected to the Board in sanctioning the Mount Pleasant road crossing the Metropolitan on Yonge street.

Controller Robbins said as a controller he would see there was no delay in the construction, whilst Controller Maguire received applause for his statement that he had not complied with the approval and he would do everything he possibly could to further its interests and construction, both on the board of control and in the city council.

Alderman Ball expressed gratification that the long fight for the road had ended successfully, but he promised to relax his efforts on behalf of the ratepayers until the road was in actual operation. Alderman Winnett followed on similar lines.

NOT A PREVENTIVE.

That Dr. McCullough, provincial officer of health, and the medical board had precipitated action on the part of the general public by their action in compelling wholesale vaccination is the opinion of the speaker, member of the Anti-Vaccination League, expressed to the World yesterday. "A large proportion of those now suffering from the disease are not vaccinated, and many of the successfully vaccinated within three months of the time of developing the disease," said Mr. Farmer.

CLERGYMAN MAY RUN.

Strong pressure has been brought to bear upon Rev. F. E. Powell, rector of St. Barnabas' Anglican Church, to stand for the board of education.

Good lines representing the absolutely necessary in the interests of the parents and children on the school board is the consensus of opinion among the members of the school board, and which is the largest in the city. The speaker said that the school board is a popular organization, and that it is necessary to have a man of the people in the school board.

NO SMALLPOX FOUND IN TODMORDEN DISTRICT

Have yet to see the first case of smallpox in the district, said Dr. R. H. Fleming, county coroner, Todmorden.

"While a strong advocate of infantile vaccination I disagree with the provincial health authorities. It is a sort of sheikh movement and I do not see the utility of it," said Dr. Fleming, adding that he adopted the resolution for real smallpox in England, where people died in thousands during the epidemic.

ENDORSE TOWN COUNCIL.

Todmorden Ratepayers Almost Unanimous in Approval of Present Municipal Executive.

A well-attended meeting of the Todmorden ratepayers' association, held in the entrance school, Rev. Mr. Powell, president, in the chair, the members of the association unanimously endorsed the candidacy of Ald. Macdonald, third deputy reeve, and Robert Barlow, first deputy reeve, for present positions in council, and also endorsed the re-election of the present entire York Township Council.

Fred Haxton, secretary, who was requested to become a candidate, declined to stand.

Many questions of local importance were discussed, and this was the only illumination given by the Toronto Electric Light Co. was discussed at some length, and it was decided to appoint a deputation to wait upon the T.E.L.C. Co. to request better service and additional improvements.

BUSINESS MEN FOR TRUSTEES.

A largely attended business men's meeting of the Danforth district was held at Logan avenue in the interest of Ernie Cooke, contractor who is a candidate for the board of education in Ward 1. Many speeches were made, promising support of Mr. Cooke's candidacy.

The candidate promised if elected to devote his energies in the interest of the school, and to put men with business experience were needed on the school board. "In the past there have been many failures in the school board, and it is the duty of the business men in guiding the destinies of the children," he claimed.

Adams will be present, and will explain the attitude of the Hydro-Electric Power Commission. Mayor Church will also address the electors of North Toronto. All interested citizens are invited.

TRYING TO FINISH R. B. RUSSELL TRIAL BEFORE CHRISTMAS

Accused Winnipeg Striker Showing Strain—Crowds Create Scene.

Canadian Press Despatch.

Winnipeg, Dec. 9.—That the Mathers commission to inquire into the high cost of living was an attempt by the capitalist to bolster up a capitalistic government, which form of government was soon to be defunct, was the statement credited to Alexander Susner, a socialist of Calgary, during evidence at the trial of R. B. Russell today.

This evidence was given by Jesse Geough, a mine owner of Drumheller district, who heard Susner speak at meetings held in the mining district during the strike. He also gave evidence that Susner stated that he wished to see all workers united in the One Big Union, so that in the case of a general strike they would be prepared to take over the means of production and pull down the capitalistic system.

Today's session established a record in the number of witnesses called. There were eleven heard during the session, practically all giving evidence of the strike.

Finish Before Christmas.

It was stated unofficially at the trial today that the crown will endeavor to complete the case this week, so that the defence can be put in and the whole proceedings finished before Christmas.

R. B. Russell, the accused, showed clearly today the nervous strain of the trial. He sat during the proceedings with his head bowed during the session, eyes closed, and apparently sleeping. Today's session was the first at which he had not taken notes.

Immediately court had adjourned, Mr. Justice Metcalfe was asked if he would give out the letter produced at his lordship's request in the negative. His lordship replied in the negative, stating that to publish it would invest it with too much importance.

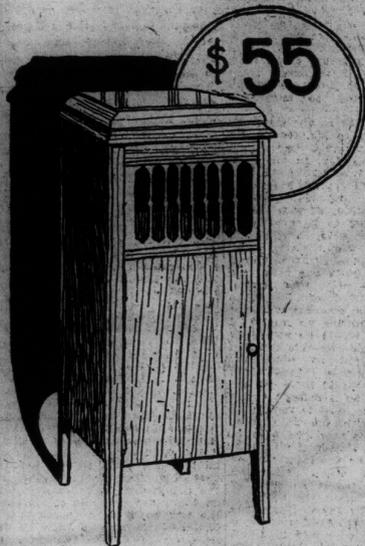

Crowds have continued to throng the court room since the commencement of the trial and a scene occurred in the hall outside the court room during the session, when a large body of would-be spectators who were unable to get in, and who evidently sympathize with the accused, commenced a disturbance. They made derogatory remarks concerning Mr. Justice Metcalfe, the presiding judge, and A. J. Andrew, K.C., senior counsel for the crown, and had to be forcibly removed to the end of the hall by Captain C. F. Wheeler, who was on duty at the time. The captain was also forced to remove from the court room during the session, when a large body of would-be spectators who were unable to get in, and who evidently sympathize with the accused, commenced a disturbance. THE SYMPHONY IS A PHONOGRAPH IN WHICH YOU CAN HAVE EVERY CONFIDENCE

As to Tone, Appearance, Service and Value

The "Symphony" is made and the parts are assembled in the EATON factory, consequently the middleman's profit does not figure in the cost of the "Symphony."

Second—as good phonograph music depends upon a perfect motor, which must meet not only the demands of the laws of mechanics, but also the rigid laws of music.

Must be precise and delicate in its operation, and yet able to endure the handling of the most inexpert.

Must turn the turn-table with perfect rhythm, without the slightest shade of hesitation or the music would be thrown entirely off key.

Must be perfect as to speed, regulation and silent in operation.

So the motor in the "Symphony" is one of the best that money can buy.

And lives up to the above demands. You'll find it silent in operation, steady in regulation and sturdy in construction.

Next, the "Symphony" has a self-stopper, a sound regulator, shelves in the cabinet for records or album. And one of the largest sound boxes and tone arms procurable.

The "Symphony" reproducer and the tone arm are designed to play all makes of disc records—two extra sapphire points can be procured for that purpose.

Furthermore, the "Symphony" has a mahogany cabinet in square design, that is good-looking and should prove quite an appropriate addition to the most select collection of furniture. Remember, in the "Symphony" you get exceptional value—splendid tone and satisfaction—and a machine that is quite striking and appealing, for \$55.00. Ask about it in the Phonograph Section—Fifth Floor. Those in attendance will gladly demonstrate its many qualities to you.

THE "DOCTOR" IS AN ANTISEPTIC BOOT

With Double Leather Goodyear Welted Soles, Dark Brown Kip Uppers, Leather Lining and Bellows Tongue

\$8.00

It's a boot that is dry in wet weather—the double soles, excellent stitching and viscolized treatment which every "Doctor" undergoes assures that fact. It's a boot that is warm in cold weather, because of two features—one is that the inside has been treated with a special dressing for the purpose of keeping the foot at an even temperature and allaying perspiration. The other feature

is that a layer of felt is between the insole and outsole, which acts as a sort of shock absorber and non-conductor. It's a shoe that is specially made for EATON'S, and one well worth trying out, if you want a sturdy, good looking shoe that will keep the feet dry and warm. Sizes 6 to 11. At the moderate price of \$8.00.

The "Gold Cross" is the Boot with the cushion sole; in other words, an inner pad of felt and cotton, covered with soft leather, forms a sort of inner sole. Has a "wearproof" lining and Goodyear welted slip sole. Sizes 6 to 11. Price, \$6.00.

At \$11.00 are Black Kid Laced Boots, built on the straight last, with toecap and Goodyear welted leather soles. Sizes 6 to 11. Price \$11.00.

At \$12.50—Tan Russia Recede Shape Laced Boots, with Goodyear welted leather soles, toecap. Widths A to E. Sizes 6 to 11. Price, \$12.50.

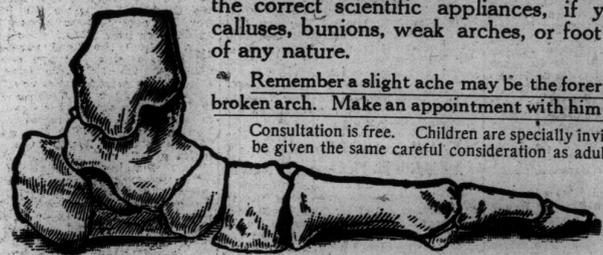

You Are Reminded That in the Boot Section, Second Floor

There is a Foot Specialist

Who will be glad to give advice and prescribe the correct scientific appliances, if you have calluses, bunions, weak arches, or foot troubles of any nature.

Remember a slight ache may be the forerunner of a broken arch. Make an appointment with him by phone.

Consultation is free. Children are specially invited and will be given the same careful consideration as adults.

Another Splendid Pair of Boots for Winter Wear at \$8.00

Are of good looking Black Box Kip, in a rather wide, comfortable shape, soles are Goodyear welted and of the double type—assuring long wear; are leather lined throughout, and in sizes 6 to 11. Price, \$8.00.

Give the Gift that Endures--- A Piece of Fine Murray-Kay Furniture

Is there anything to equal in satisfaction the gift of a piece of fine furniture—worthily built and finished? What pleasure it brings—how faithfully it serves first mother, then daughter, gathering a whole treasure of associations about it as its satiny wood ages to mellowness, until some day one says: "Grandmother wrote at this desk when she was a girl," and what a cherished possession it becomes.

Think of what a royal gift a Chesterfield would make, with its wide, inviting seat, cushioned to downy softness, and its pile of comfy cushions. What a welcome for office-weary Father! Wouldn't Mother smile at the mahogany Martha Washington work-table that tucks a whole clutter of sewing out of sight in its roomy depths, or the obliging little tea-wagon that trundles noiselessly from kitchen to guests with its steaming burden, all ready to serve? What a wealth of associations clusters around a quaint rush-seat Windsor chair and a braided Colonial rug. This Jacobean footstool would have been equally at home in a stately Old English living-room as in ours to-day. Think of the convenience of a light little bookrack with handles that will carry the newest novel right to your chair when you want it, or a nest of tables that nestles unobtrusively in a corner, and is all ready for the impromptu card party. Or—but come to see these and other treasures for yourself.

Two More Railways Likely to Go Into the National System.

If the Ontario government is willing to part with the Dominion government is no doubt willing to take over, the Timiskaming & Northern Ontario Railway.

The danger of taking over the road seems to be that an aggressive effort will be made to sell to the government at the same time some other roads that may as well be left in the hands of the promoters.

City Architect Needed.

Just before the war, the city architect's department had fallen into a disgraceful condition through want of system, want of discipline, irregularities in practice, and general incompetence.

Already signs are not wanting that the old chaotic state may be revived if the headless interregnum be too long continued.

The situation should be taken hold of at once by the board of control and an appointment made. No good end can be served by delay.

Mr. T. G. Black, engineer of the Bloor street viaduct, has been mentioned for the position. No better man could be had.

The American Conversion.

Every now and then some disrespect to a flag causes anger on one or other side of the line.

The war produced in England the Anglo-American Society. To it Sir George Watson has given £20,000 to endow a chair of American history and literature.

a remarkable growth in American appreciation of the mother country of us all. The fashion of Fourth of July oratory, which kicked George III. all over the lot, has changed.

More Than Sympathy Needed.

Impressive and important were the protest meetings held yesterday in Toronto, when 20,000 of the Jewish citizens gathered to mourn and protest against the slaughter of their brethren in the Ukraine.

The general sympathy expressed at the meetings by representatives of every phase of civil and religious life is a fine tribute in itself to the race, and a testimony to the respect in which it is held.

Henry Frick's Will.

Caesar's will was a surprise to the crowd that Mark Antony harangued after his assassination. The will of Henry Frick, Andrew Carnegie's partner, is a revelation to those who were taught to regard him as a merciless money-maker.

Grievances of Electrical Workers Heard—Finding Expected Later. Commissioners Give Fred Jowett Money Grant as Compensation.

The board of conciliation which sat on the grievances of the T. E. L. and T. R. Co. employees, finished taking evidence at the city hall yesterday and will meet in a few days to discuss the number of definite cases to thirty-one.

The board of police commissioners yesterday afternoon disposed of the assault charge against Plainclothesman Dunn by granting Fred Jowett, complainant, pecuniary compensation. Jowett claimed Dunn chased him after a window had been broken in a Greek restaurant on West Queen street.

The clothing contractor informed the board that he would not be able to fulfill the clothing contract for 1920 at the figure tendered owing to the high cost of material and labor. The commissioners will reconsider the matter.

F. G. Clark, who represented the company, said that the board had known of these men, who worked more than 50 hours a week. Mr. Gunn then introduced a returned soldier employee of the company, F. Francisco, who complained that he had received only a three-cent-per-hour increase while the average was from 12c to 15c.

The board passed a resolution allowing the men a grievance board exactly the same as had been done for the Bell Telephone employees. The report of the finding will probably be published next Monday.

Baseball National League To Open April 14

BASEBALL A MONOPOLY OF THE APPEAL FAILS

President Heydler So Announces in Report at Annual Meeting of National League.

New York, Dec. 9.—The annual meeting of the board of directors of the national league and the regular meeting of the club owners took place here today. President Heydler said much urgent business still remained unfinished and that the meeting might last thru the greater part of the week.

The new board of directors was elected consisting of Messrs. Stoneham, New York; Grant, Boston; Dreyfus, Pittsburgh; and Veck, Chicago. It was decided that in future two western and two eastern clubs will be represented on the board and that they would alternate each succeeding year.

Late in the day it was rumored that the Brooklyn club had been elected syndicate of Brooklyn men, but President Heydler emphatically denied this. Major Branch Rickey, general manager of the St. Louis club, was present during the later part of today's meeting after he had reported on the season. He still has a doubt as to whether he or some other person would manage the team next season.

The constitution was amended so that any club owner, manager, player or agent convicted of tampering with players belonging to other league clubs would be fined \$1,000. Expulsion may be the penalty for second offenses.

The league voted in favor of a 154-game schedule for the 1920 season, which will open on Wednesday, April 15, subject to the approval of the American league, which will meet here tomorrow.

The training season was extended from four to six weeks prior to the opening of the playing season.

Mr. Heydler officially stated that the lengthening of the world series to nine games and the new rules for the division series were approved by the club owners.

President Heydler presented his annual report on league affairs, part of which reads: "On the debit side of our affairs, we can place the ruling of Judge Starnes in the Baltimore suit, that professional baseball is commerce, and that the system of operating organized baseball is a monopoly or an attempt at monopoly and therefore in violation of the Sherman law."

This finding has been appealed from the higher court, which hearing, however, may not be reached until the spring or summer of 1920. We are hopeful that the final analysis the national sport will not be classified as a commodity or as an action in restraint of trade.

The breaking away of the minors from the national treatment may likewise be viewed unfavorably, for, although the majors have not suffered by this breach, yet, chaotic conditions are bound to ensue unless proper working understandings are re-established under a central government. The minors have notified us that they have appointed a committee of eight for this purpose and there is no question in my mind that the holding of a joint conference, if no new agreement can be entered into, will be the best advice of how best this can be done without running into conflict with the Washington court's ruling on the question of monopoly.

Passing to the credit side of the year's work, we are all to be congratulated on the thorough and rapid manner in which baseball matters have been handled during the time non-essential to an after-war necessity and stabilizer."

Mr. Heydler then commented upon the establishment of Sunday play in New York and Brooklyn, which, he said, had worked out for the good of the city and won public endorsement and set a liberal example for other sections of the country to follow.

Several deals were spoken of, including the rumored purchase of Shortstop Roger Hornsby by the New York Yankees. President Rickey spoke this rumor by saying "there is not enough money in the National League to buy Hornsby from St. Louis." It was said that Manager John J. McGraw had offered a record price for this popular player, which was set by the purchase of Carl Mays by the New York Americans.

President Ebbets of Brooklyn stated that he had purchased Harold Elliott, a former catcher for the Chicago Cubs, from the Oakland (Cal.) Club. The Brooklyn club also has signed Catcher Ernest Kruger again.

President Chapman of the Rochester Club bought Al Baird, an infielder, from the New York Nationals.

The constitution was amended so that any club owner, manager, player or agent convicted of tampering with players belonging to other league clubs would be fined \$1,000. Expulsion may be the penalty for second offenses.

The league voted in favor of a 154-game schedule for the 1920 season, which will open on Wednesday, April 15, subject to the approval of the American league, which will meet here tomorrow.

The training season was extended from four to six weeks prior to the opening of the playing season.

Mr. Heydler officially stated that the lengthening of the world series to nine games and the new rules for the division series were approved by the club owners.

President Heydler presented his annual report on league affairs, part of which reads: "On the debit side of our affairs, we can place the ruling of Judge Starnes in the Baltimore suit, that professional baseball is commerce, and that the system of operating organized baseball is a monopoly or an attempt at monopoly and therefore in violation of the Sherman law."

This finding has been appealed from the higher court, which hearing, however, may not be reached until the spring or summer of 1920. We are hopeful that the final analysis the national sport will not be classified as a commodity or as an action in restraint of trade.

The breaking away of the minors from the national treatment may likewise be viewed unfavorably, for, although the majors have not suffered by this breach, yet, chaotic conditions are bound to ensue unless proper working understandings are re-established under a central government. The minors have notified us that they have appointed a committee of eight for this purpose and there is no question in my mind that the holding of a joint conference, if no new agreement can be entered into, will be the best advice of how best this can be done without running into conflict with the Washington court's ruling on the question of monopoly.

Passing to the credit side of the year's work, we are all to be congratulated on the thorough and rapid manner in which baseball matters have been handled during the time non-essential to an after-war necessity and stabilizer."

Mr. Heydler then commented upon the establishment of Sunday play in New York and Brooklyn, which, he said, had worked out for the good of the city and won public endorsement and set a liberal example for other sections of the country to follow.

Several deals were spoken of, including the rumored purchase of Shortstop Roger Hornsby by the New York Yankees. President Rickey spoke this rumor by saying "there is not enough money in the National League to buy Hornsby from St. Louis." It was said that Manager John J. McGraw had offered a record price for this popular player, which was set by the purchase of Carl Mays by the New York Americans.

President Ebbets of Brooklyn stated that he had purchased Harold Elliott, a former catcher for the Chicago Cubs, from the Oakland (Cal.) Club. The Brooklyn club also has signed Catcher Ernest Kruger again.

President Chapman of the Rochester Club bought Al Baird, an infielder, from the New York Nationals.

The Great Canadian Novel Bulldog Carney

BY W. A. FRASER

AUTHOR OF "THOROUGHBREDS," ETC.

"BULLDOG CARNEY" is the superman of the foothills.

A wonderful story of romance and adventure in the great Canadian West.

A man's book—a woman's book. BULLDOG CARNEY will live as one of the finest pieces of character drawing that has been done in Canada or any other country.

With the genius of a master, Fraser has given us some marvellous convincing realism.

You shiver when you read of the blizzard; mentally you pay tribute to God when you get Fraser's splashes of mountain gorgeousness; you fall in love with BULLDOG CARNEY, desperado, when you discover in him the keen sense of honor that causes him to stake his life for the good name of a woman.

The story is NOT made up of gun play and murder and foul language; it is action, action, action all the time, and a cool, brave man the centre. There is no smallness in Carney; he is not a thief; he is a Robin Hood. And the women in the story are human in their weaknesses and in their strength.

Get a copy today at your bookseller's and slip away for a while into a land of daring and romance with BULLDOG CARNEY.

Late J. Woodburn Rode Over Thousand Winners

London, Dec. 9.—All followers of English flat-racing will regret to learn that James Woodburn, the well-known jockey, is dead from cancer.

He gave 40 years of his life to the turf, and during that period rode over 1,000 winners. He won 20 Lincolnshire Handicaps, four Liverpool Cups, two Manchester Cups, the Oaks, one Thousand Guineas, Royal Hunt Cup and the Craven Stakes.

In 1888 he rode the late Sir John Blundell's High Horse, b.f., in the One Thousand Guineas, in which the same owner had Suffisance, ridden by T. Lewis. Before the race the two jockeys had a bet of a suit of clothes, which was won by the other, and although Suffisance was favored, Woodburn managed to win by a head on his mount, which stood at 33 to 1.

In 1892 at the Liverpool spring meeting, Woodburn accomplished the feat of winning the Union Jack Stakes, Prince of Wales Plate and the Molyneux Stakes.

He had been with Senator Thorne, General McLean, M.P., and Dr. J. B. M. Baxter in a delegation which interviewed Premier Borden and members of his cabinet concerning interests here.

THO CALLED DEAD LIVED TEN DAYS

Japanese Field Marshal Received Posthumous Honors While Still Alive.

Tokio, Dec. 7.—(Special.)—All the experiences of a man who comes back from the dead fell to the lot of Japan's striking military figure, Field Marshal Count Seiki Terachi, formerly premier of Japan.

Declared dead by attending physicians after a long illness from heart disease, he returned to full consciousness, partook of food and talked gaily with his son.

Meanwhile, in the belief that the end had come, the court had bestowed posthumous honors on him, and a hearse had been ordered to Oslo, a seaport resort near Tokio, where Count Terachi was staying.

Hundreds of telegrams of condolence had been received by the family, and these were followed by messages of felicitations when the joyful news was spread that the count was actually living.

The court withdrew the honors mistakenly conferred.

"I am sorry to have given you so much trouble," the count is quoted as saying to Countess Terachi. He referred to the fact that owing to the premature announcement of his death she had counted herself a widow for about a day.

He said he virtually had made his home here for years. For a time he lived at 115 East 53rd street, where Col. House dwells.

REACH AGREEMENT WITH D'ANNUNZIO

Reports Reach London From Rome That Settlement Has Been Effected.

London, Dec. 9.—Reports that the Italian government had arrived at an agreement with Gabriele d'Annunzio regarding the question of Fiume, which city d'Annunzio has been holding with an armed force, insisting that it was and should remain Italian, were received today in an Exchange Telegraph despatch from Rome.

The agency says it understands, in connection with the ministerial council held in Rome yesterday, that a settlement with d'Annunzio was reached.

Despatches from Rome filed on Sunday announced the arrival there of Major Giurati, chief of d'Annunzio's cabinet, accompanied by Commander Rizzo of the d'Annunzio naval forces. It was reported they came from Fiume as bearers of suggestions by the post-soldier for a solution of the question of Fiume and that of Zara, the Dalmatian port recently seized by d'Annunzio's troops. It was rumored in Rome that d'Annunzio's funds were at a low ebb and that the situation had become embarrassing for him.

WANT NOT CLERICS, BUT BUSINESS MEN

Parkdale G.W.V.A. Criticizes Personnel of Government Bureau. That the Ontario Government Bureau, manned, as it is at present, by clerical and technical students, is better suited as an institution for distributing clerical patronage among the members of the church funds, for the support of unsuccessful clerics, than for solving the pressing problem of re-establishment of returned soldiers out of employment, and that the new minister of labor should wind up the clerical end of this business and place the bureau on a basis that would command the confidence of veterans... The foregoing resolution met with the unanimous approval of a meeting of Parkdale G.W.V.A. held in the Royal Templar Hall last night, and will be forwarded to Hon. Walter R. Allen, minister of labor, with a letter describing the conditions prevalent in this bureau, written by J. V. Conroy, secretary of the Ontario Bureau, as detrimental to the interests of the returned men. Other departments also came in for a share of criticism, and it was proposed that a committee investigate the grievances in this regard.
