WATERWORKS BYLAW.
The bylaw to vote \$175,000 for a new pumping engine at the waterworks was heartily endorsed. The vote upon it by wards was:

Ward	Yes	No
1	188	10
2	962	411
3	738	1186
4	1232	338
5	1102	611
6	637	428

AFTER THE WAR IS OVER.

Lord Roberts must have had a prophetic vision of the defeat of Mayor Howland when he denied the story that he would visit Canada.

Socialist Woodley did not find the walking any too good.

It was pretty hard on C. C. Woodley, but then he is getting used to it.

When the first returns came in Mayor Howland felt as if he had been hit in the chrysanthemum.

The two C. C.'s were able to retain their alphabetical pre-eminence.

Mayor Howland couldn't have been routed more effectively if his enemies had called out the militia.

Socialist Woodley never did like travelling in a bunch.

Ald. Urquhart came out later than O. A. Howland, but as Mayor he may be expected to rise earlier.

Ald. Daniel Lamb polled a heavy vote in an uphill fight.

Thomas Urquhart as Mayor-elect of Toronto appears as a sort of stormy petrel. There will now be unsettled weather around the City Hall for some time to come. The Mayor-elect has good ideas. He is full of suggestions. The burden of presiding over the Board of Control will encumber him. In Council he may confidently expect to encounter hostility to his plans.

The World is desirous of seeing fair play done to the new man. He has won the mayoralty by a daring calculation, but now that he is in, the city is entitled to the best service he is capable of giving. The only circumstance that can steady the new Mayor is the election of a good Board of Control. The best members of the Council should be placed on it. Mr. Urquhart lacks experience and business knowledge; but in this respect he is a vast improvement on his predecessor. In the course of the campaign it was repeatedly pointed out by the World that the efficiency of our civic administration depends essentially upon the capacity of the Board of Control. The last Board became a by-word not only in the Council, but among the citizens. Such a Board should never be thrown together again.

The electors have proved their intelligence by returning the best men of the old Council again. Ald. Burns in Ward 4, Ald. Oliver in Ward 2 and a couple of the old men from Wards 6, 5 and 5 would make Controllers who could carry Mayor Urquhart over the breakers. The young men do not aspire to this responsibility; and if they did they would not have a chance of advancement at the hands of the majority of their conferees. The experience and deliberation of the old alderman as vice-chairman of the Board of Control will materially assist the new Mayor.

It is an excellent thing to have a change in the City Hall; it is well to think that civic ownership ideas will come in for more sympathetic discussion in 1903. Mayor Urquhart, if carefully ballasted, will stand rough weather better for it.

Some of the advocates of economy have disappeared from the scene. Ald. Crave was the most faithful of them. Ald. Lamb was trained in the same school. It is to the credit of Ald. Lamb that he went through the fight with a dignity that never lost sight of the good name of the city. Ald. Lamb was too sturdy a citizen to think of being elected just as strongly Conservative as a Council as of yore. Mr. McGhie, the new man who heads the poll in Ward 6, and Mr. S. W. Burns, who comes to the Council from Ward 4, are of the same political stripe.

It is not worth while to speculate upon the political side of the support Mr. Urquhart received. The electors who voted him into the Mayor's chair have elected just as strongly Conservative a Council as of yore. Mr. McGhie, the new man who heads the poll in Ward 6, and Mr. S. W. Burns, who comes to the Council from Ward 4, are of the same political stripe.

Nothing to Regret, Says Lamb.

Ald. Lamb heard the result of the voting at his home. To the World he said:

"The unexpected has happened. I was confident all day, and the reports I received from my workers were of the most favorable character. How do I account for it? Well, in the first place, I did not get enough votes. When I came into the field it was not expected that the Reformers would put a man, but Mr. Urquhart took advantage of the situation. If I had known he would come out I wouldn't have been a candidate, because I had expected to retire from municipal politics. However, the result will not disturb my sleep in the least.

"I wish to thank The World and The Globe for the way they stood by me. They conducted the cleanest newspaper campaign I have ever known."

MOTHER OF FOUR.

Toledo, Ohio, Jan. 5.—Mrs. Stanislas Spychalski, is the mother of four infants, three of whom came last night, and the fourth today. The mother and her quartette are well and strong. Mrs. Spychalski was already the mother of one child less than a year ago.

Wears headquarters for ornamental, decorative, architectural and hand-hammered iron work. Come in and see our show-rooms, 14-16 King street east.

The management of Pickering College, after looking into the merits of all the European, American and Canadian architects, have contracted with the SICHE GAS COMPANY, Rossin House Block, Toronto, for a style K. Siche generator, to light the large college buildings, rinks and grounds.

TORONTO'S NEW MAYOR.

Montreal, Que., Jan. 5.—War has been formally declared between the Liberal parliamentarians and Hon. Mr. Tarte, La Patrie publishing today the correspondence between the Minister and a committee of the Liberal party. In the first place Senators Belue and Dandurand, V. Gouffron, M.P., and Hon. L. Gouin, wrote to Mr. Tarte asking him what the attitude of La Patrie, a Liberal organ, was. These gentlemen asked how much Tarte would want for the control of the paper, supporting it should be directed by a committee named by Sir Wilfrid Laurier.

A reply from the Hon. Mr. Tarte follows. The ex-Minister of Public Works opens by saying that under the circumstances the reply can only be "N." He declares that, although having no pecuniary interest in La Patrie, he has become its political director since his departure from the cabinet.

Continuing, Mr. Tarte says that, thank Heaven, during his long journalistic career, he never alienated the independence of his pen and of his mind for money considerations. He holds that there must be some misunderstanding somewhere as regards the alleged change in the direction followed by La Patrie. Ever since that journal came under the present management it advocated a truly Canadian fiscal policy and the development of our means of transport. And by continuing this it expects to remain in harmony with the majority of the Liberal party.

It is stated that certain quarters La Patrie is charged with not having shown sufficient enthusiasm over the appointment of Mr. Prefontaine as Minister of Marine and Fisheries, but Mr. Tarte reminds his correspondents that several of them violently opposed until the last moment the choice of Mr. Prefontaine made by Sir Wilfrid Laurier, while La Patrie respected that choice to such an extent as to disavow any opposition in *Maisonneuve*.

If La Patrie had to sometimes oppose Mr. Prefontaine, both in municipal and political matters, it did not last long, but very often and almost always its attitude was inspected and checked by one of whom the present letter is addressed.

Continuing, Mr. Tarte says: "Among those who attended the meeting called by Mr. Prefontaine there is not a single one who contributed financially to the purchase and development of our Journal. Not a shilling was received from the tender and the engine, and with a knife he severed his foot and crawled from under the wreck. He was partly conscious when found beside the engine, and was taken to St. Joseph's Hospital in the police ambulance. The day when I found the engine of the switch engine, and both firemen jumped from their engines and were unhurt."

The management of Pickering College, after looking into the merits of all the European, American and Canadian architects, have contracted with the SICHE GAS COMPANY, Rossin House Block, Toronto, for a style K. Siche generator, to light the large college buildings, rinks and grounds.

Write 23 York-street, Toronto, for 1903 catalog of the Siche Gas Company, makers of the only reliable gas-lighting plant in the world.

FIRED THE DESPATCHER.

London, Jan. 5.—Train Despatcher Auld, who was responsible for the collision on the Grand Trunk at Meriville on Saturday, has been dismissed from the company's service.

PATENTS—Petherston-Hughes & Co. Head Office, King-street West, Toronto and Montreal, Ottawa and Washington.

DEATHS.

GALLAGHER—At 816 Agnes street, on Monday, Jan. 5, '03, Richard Lee Gallagher, aged 72.

Funeral notice later.

KILLICKY—At the General Hospital, Jan. 5, 1903, Mary Ann Killicky, the beloved wife of John Killicky.

Funeral from her site residence, 13 Williams-street, Jan. 6.

O'CONNELL—At St. Michael's Hospital, on Sunday, Jan. 4th, 1903, Hon. O'Connell, aged 72.

HOW TO FIGHT TYPHUS.

Berlin, Jan. 5.—Prof. Robert Koch has delivered a lecture here upon typhus. He claims this disease can be combated successfully through isolation, as cholera is combated, for the reason that typhus is only contracted by contact with a person already infected.

Get our prices on our office railing for your new office building. The Case and Ornamental, Canada Building Company, Limited, 14-16 King-street east.

DUKE AGED 105.

Dubuque, Ia., Jan. 5.—Mrs. Mary Morgan, 105 years old, died today.

Six o'clock dinner at New Carlton Hotel.

STEINER—Suddenly, at his late residence, 116 Pembroke street, on Monday night, Jan. 5th, 1903, Newman L. Steiner, aged 73 years.

Notice of funeral later.

**MUST HAVE A FREE PEN
MR. TARTE TO LIBERALS**

War is Formally Declared Between Reform Parliamentarians and the Ex-Minister.

Montreal, Que., Jan. 5.—War has been formally declared between the Liberal parliamentarians and Hon. Mr. Tarte, La Patrie publishing today the correspondence between the Minister and a committee of the Liberal party. In the first place Senators Belue and Dandurand, V. Gouffron, M.P., and Hon. L. Gouin, wrote to Mr. Tarte asking him what the attitude of La Patrie, a Liberal organ, was. These gentlemen asked how much Tarte would want for the control of the paper, supporting it should be directed by a committee named by Sir Wilfrid Laurier.

A reply from the Hon. Mr. Tarte follows. The ex-Minister of Public Works opens by saying that under the circumstances the reply can only be "N." He declares that, although having no pecuniary interest in La Patrie, he has become its political director since his departure from the cabinet.

Continuing, Mr. Tarte says that, thank Heaven, during his long journalistic career, he never alienated the independence of his pen and of his mind for money considerations. He holds that there must be some misunderstanding somewhere as regards the alleged change in the direction followed by La Patrie. Ever since that journal came under the present management it advocated a truly Canadian fiscal policy and the development of our means of transport. And by continuing this it expects to remain in harmony with the majority of the Liberal party.

It is stated that certain quarters La Patrie is charged with not having shown sufficient enthusiasm over the appointment of Mr. Prefontaine as Minister of Marine and Fisheries, but Mr. Tarte reminds his correspondents that several of them violently opposed until the last moment the choice of Mr. Prefontaine made by Sir Wilfrid Laurier, while La Patrie respected that choice to such an extent as to disavow any opposition in *Maisonneuve*.

If La Patrie had to sometimes oppose Mr. Prefontaine, both in municipal and political matters, it did not last long, but very often and almost always its attitude was inspected and checked by one of whom the present letter is addressed.

Continuing, Mr. Tarte says: "Among those who attended the meeting called by Mr. Prefontaine there is not a single one who contributed financially to the purchase and development of our Journal. Not a shilling was received from the tender and the engine, and with a knife he severed his foot and crawled from under the wreck. Six o'clock dinner at New Carlton Hotel.

**MANY BYLAWS CARRIED
THROUGHOUT THE PROVINCE**

Municipal Ownership Shows It Has a Hold on Not a Few Municipalities—Money to Be Loaned Industries at Various Points.

Outside of Toronto there was nothing startling in the elections in cities, towns, villages and municipalities. So far as can be seen politics entered very little more than usual into the fights. The most pronounced feature of the day was the carrying of numerous by-laws looking toward improvements throughout the province.

Georgetown carried bylaw to buy the Light and Power Company. This shows how the idea of civic ownership is progressing. Listowel also falls into line and will take over the electric light, and water works. Bellefleur also decided to place the management of the water works in the hands of the City Council.

Brussels carried Lotteridge bylaw, providing for a loan of \$5000 to the Lotteridge Bros. to put in operation the Brussels woolen mills.

New Hamburg carried a bylaw to raise \$2500 to build a bridge across the Erie River to build a new town hall.

Waterloo carried a bylaw to loan \$10000 to the Waterloo Electric Co. for a free site and tax exemption for 10 years. The firm will build an up-holstering factory.

Dunnville carried a bylaw to grant a loan of \$15,000 to J. D. Pennington of Dundas to start a refrigerating and wool working factory.

Three bylaws were carried in Godolphin for public library, for mill exemption and knitting factory exemption.

Chatsworth decided to have the village incorporated.

A bylaw was submitted to Belleville electors, which provided that the balance of the \$2000 originally granted to Messrs. Abbott & Mitchell, to construct and operate the rolling mill, namely, \$80,000, be paid to Mr. T. M. Kirkwood, in instalments of \$5000 per year, providing he rolls 700 tons of iron or steel per year, or a less amount pro rata, providing no more.

CUT OFF OWN FOOT.

Engineer Took Only Way of Getting Free From Wreck.

St. Paul, Jan. 5.—Charles John Wood, a Burlington freight engineer, showed remarkable nerve and presence of mind in getting out of a wreck that took place between his freight train and a switch engine near the fish hatchery. His left foot got caught between the tender and the engine, and with a knife he severed his foot and crawled from under the wreck. He was partly conscious when found beside the engine, and was taken to St. Joseph's Hospital in the police ambulance. The day when I found the engine of the switch engine, and both firemen jumped from their engines and were unhurt."

The management of Pickering College, after looking into the merits of all the European, American and Canadian architects, have contracted with the SICHE GAS COMPANY, Rossin House Block, Toronto, for a style K. Siche generator, to light the large college buildings, rinks and grounds.

IDEALS OF CITIZENSHIP.

Ailments of Society to Be Remedied Only by Unselfish Men, Says Mr. Flavella.

WORSHIP OF BAAL IN PUBLIC LIFE

We Have It To-Day in Evidence of Political Power—Address to Canadian Club.

The first weekly luncheon of the Canadian Club for 1903, held yesterday, was marked by an address of unusual interest by J. W. Flavella on the subject of "The Ideals of Citizenship."

At the outset Mr. Flavella spoke of the absurdity of some men becoming indignant because others did not fall into their line of thinking. Strong instances of this were noticed in the recent referendum vote.

Mr. Flavella went on to ask why it should be said that men of business and of the professions did their best work simply to get their bread and butter out of it.

The Canadian Bank of Commerce has built a handsome marble building in the office, fronting on Jordan and Melinda streets.

The bank is now surrounded by a brick wall, several feet in height, which encloses a large area.

At the conclusion of his address a hearty vote of thanks was passed to Mr. Flavella for his highly interesting discourse.

School Attendance Decreasing. Toronto's prosperity is responsible for a considerable decrease in the attendance at the public schools.

No Official Report Yet. Superintendent McGuigan of the Grand Trunk went through to Montreal yesterday morning attending to the investigation at Merriton on Saturday.

Methodist Ministers Meet. At the meeting of the Methodist Association on Monday Rev. J. T. G. Bond, the new editor of the Christian Guardian, was introduced by Rev. Dr. Briggs.

Gratitude to Kind Donors. The sisters of St. Joseph, House of Providence, acknowledge their gratitude to all who help them to maintain the poor under their care during the past year.

Late Referendum Returns. The returns of the referendum vote in East Victoria were received at the Parliament Buildings yesterday.

Dr. Pierce's Favorite Prescription. Dr. Pierce's Favorite Prescription cures such headaches by curing the cause—irregularity, weakening drains, inflammation, ulceration or fever.

There's many a cause for headache. Men are not often troubled by headache. When they are it is generally due to biliousness or indigestion.

Dr. Pierce's Favorite Prescription. Dr. Pierce's Favorite Prescription cures such headaches by curing the cause—irregularity, weakening drains, inflammation, ulceration or fever.

SECRETARY BRODRICK MARRIED.

Mighty Public Interest Taken in the Event in Old London.

London, Jan. 5.—War Secretary Brodrick and Madeleine Stanley, daughter of Lady Jane, were married at St. George's Church, Hanover Square, this afternoon.

Among the guests in the church were: Princess Christian, the Duke of Cambridge, Lord Lansdowne, and other members of the cabinet.

This was War Secretary Brodrick's second marriage. His first wife died about a year ago.

REPORT ON ACCIDENTS.

Commander Spain's Opinion on Eleven of Them.

Ottawa, Jan. 5.—There were eleven accidents to vessels on the St. Lawrence last season. Ten of them were caused to steamers and one to a tug.

At the conclusion of his address a hearty vote of thanks was passed to Mr. Flavella for his highly interesting discourse.

At the conclusion of his address a hearty vote of thanks was passed to Mr. Flavella for his highly interesting discourse.
