30TH YEAR.

NO DECISION YET St. Ry. Arbitration Continues OPTIMISM FADES

Members of the Board Had
Nothing to Say Last Night
—See Mackenzie Again

No agreement has yet been reached in the street railway situation. The members of the arbitration board had practically nothing to say as to the outlook last night, and even Judge Barron, who had entertained such an optimistic view the previous night, was disinclined to talk.

"We have only been considering the conditions of the award, and all we can report is progress," was the way Judge Barron and Mr. Mullerkey, who is representing the company, put it, after returning from a conference with President Mackenzie at his residence late in the evening. What transpired at the conference was not made known other than that the board, as stated, reported progress.

"If there is a strike, the newspapers of Toronto are to blame," said President Mackenzie yesterday, who professed to be annoyed by the optimistic reports which had been circulated with regard to the situation. As to any new proposal of wages having been made, Mr. Mackenzie denied that he had made any other offer than contained in the ultimatum already published.

Members of the men's committee were also silent yesterday as to what may be the outcome of the situation.

"It looked from your reports this morning," said Joseph Gibson, "as if we had settled the dispute."

"Not until there is an award can we do anything more," said one of the committee. "We had a talk with Mr. O'Donoghue this morning over the situation." Mr. O'Donoghue, who represents the men, said yesterday that the gulf was far from bridged.

It is thought now that the award may not be handed out till to-morrow night, in which case a mass meeting of the men will be called to consider it at once. The members of the board will hold a session this morning and further discuss the conditions to be contained in their decision.

"The less that is said about the situation the better, because giving it so much publicity is only complicating matters," said Mr. Mullerkey last night. He was personally indignant over a report that he had offered a position to Mr. Thompson, a member of the union committee, because, as it was said, he was so impressed by his business ability as displayed at the conference.

BALFOUR SOON IN POWER
Prediction of Lord Brassey at Montreal Luncheon.

MONTREAL, Aug. 17.—At a luncheon given here to-day by Major Stephens, president of the board of harbor commissioners, in honor of Lord Brassey, the guest of honor, in rising to reply to the toast to his health, in a bright, cleverly thought out and worded speech, predicted that there would be a change of government in the old country very shortly, and that Mr. Balfour would gather around him in his new parliament representatives from the states beyond the seas.

The aged peer also predicted that the present tariff difficulties would eventually be settled by true British common sense, settled favorably for the old country and the empire without any particular regard to the political child of any party.

CHILD CRIMINALLY ASSAULTED
Condition is Critical—Her Assailant Arrested.

NIAGARA FALLS, Ont., Aug. 17.—(Special.)—Six-year-old Mary Tom is in a precarious condition as the result of a criminal assault. The child, two years old, a Pole, is charged with having criminally assaulted the child. The man was arrested by the provincial police to-day, and made no attempt to deny the charge.

Early to-day neighbors noticed that the house of Charles Weir, Kitchener-street, was on fire and sent in an alarm. Because the alarm system was out of order the house was beyond saving when the firemen arrived. Mrs. Weir, in a weak condition from typhoid fever, had to be carried from the building. Loss about \$4,000.

HAS STOLEN COINS
Aged Man Found Here With Winnipegger's Property.

Robert Irvine of Winnipeg came to the city Tuesday with his wife. Yesterday afternoon Detective Wallace found him in King-street trying to dispose of a number of valuable old coins. He gave a fictitious name at first, and afterward explained this by saying that he had deserted from the United States army and feared extradition for that offence.

He is held on a charge of vagrancy, and will be charged with theft of 95 coins, many of which are over a hundred years old. Winnipeg was queried, and it was found that the coins had been stolen from Frank Alexander, 503 River-avenue, in that city. They are valuable.

Twenty-five coins were got on Irving-street at 70 more at a house on Macmahon-street, where he was boarding.

IT IS TO BE HOPED.
Editor World: It is to be hoped that the Rev. J. A. Macdonald will write a pleasant letter to Hon. G. E. Foster. R. R. K.

LABOR MINISTER IS A TRIFLE EARLY

MONTREAL, Aug. 17.—(Special.)—Before boarding the Royal Edward to-night, which sails in the morning, Hon. Mackenzie King, minister of labor, expressed his deep satisfaction that the Toronto Railway difficulty had been adjusted.

"I am delighted to hear that this dangerous dispute has been so happily settled," he said, "it goes to show the usefulness of the Lemieux Act, for if it had not been for the friendly offices made available by this measure, the dispute might have led to a strike, and Toronto already knows what a street railway strike means. I have wired my personal congratulations to Judge Barron."

TWO CHANNELS IN TEETH OF STORM

Young Chicagoan, Amateur at Aviation, Eclipses All Records by Carrying a Passenger From Calais to Deal.

DEAL, Eng., Aug. 17.—It has been reserved for an American citizen to perform one of the most daring feats in the history of aviation. John B. Moisant of Chicago to-day flew across the English channel from Calais to Tilmanstone with a passenger.

The two-man flight was the more astonishing as it was only a month ago that Moisant learned to fly, and he made so few flights, and was so little known among aviators, that even his nationality was not disclosed. He was reputed to be a Spaniard, and only when he landed in England was it revealed that he was a young architect from Chicago.

To make the feat still more surprising, Moisant was totally ignorant of the geography of his course. He had never been in England, and was obliged to rely entirely on the compass while crossing the channel as well as the teeth of a strong westerly wind.

The channel flight was an incident in the aerial voyage from Paris to London. Moissant left Issy, France, yesterday in company with Herbert Latham, and reached Amiens in two hours. The plane was wrecked and this morning Moissant, leaving Amiens at an early hour, headed for Calais. His mechanic, Albert Frantz, who accompanied him across the country, took his place in the machine when the motor was set in motion for the dash across the channel. Thousands who had gathered to watch the daring aviator were amazed, and the daring aviator were amazed, and the daring aviator were amazed.

A SUDDEN DEATH
Edmund Beltz of London Expired on Return From Toronto.

LONDON, Aug. 17.—(Special.)—Edmund Beltz, one of London's oldest and best known business men, dropped dead to-night as he sat on the veranda of his son's residence. The drinking water here is exceptionally good. The principal medical officer of the Quebec garrison tested it and declared it to be excellent.

The general health of the men is very good. The hospital is tenanted by trivial cases only, such as sore feet. Only accidents so far have been minor. Probably the longest worked men are the cooks, and the least worked are the band. The musicians sit down under the trees and practice during working or playing hours. They are unfortunate, too, because they are missing a fine chance for physical improvement. They do not worry about it, however. They are up at 8 a.m. and get thru around lights-out. The work is not pleasant on account of the excessive heat.

Some of the latest drill has been introduced. The troops are being drilled as an order. The only time it is used is when the order to march at ease is given.

THREE BOYS ESCAPE
Got Away From the Industrial School Last Night.

Samuel Brown, aged 15, Albert Thomlan, 14, and Morris Matterson, 14, inmates of the Victoria Industrial School, ran away at dusk last evening.

The boys watched their chance to escape from the cottage where they lived, and slipped into a corn patch where they remained until there was a storm which blew them down. It is believed they went west. They were incorrigible, and their term was indefinite.

KILLED BY LIGHTNING
Farmer Near Meaford Victim—Hired Man Stunned.

MEAFORD, Ont., Aug. 17.—A fatal accident occurred about fifteen miles south of here during the severe electric storm which visited the vicinity this afternoon.

Wm. Muxlow and his hired man, Bruce Tickey, were sitting in the house when the lightning struck it, killing Muxlow instantly. Tickey was badly stunned, but will recover. Mr. Muxlow leaves a wife and two children.

HARD TRAINING TAKING FUN FROM TRIP

Queen's Own Finding Out That
Tommy Atkins Can Be a
Pretty Severely Worked In-
dividual—Physical Drill and
Stiff Marching.

LEVIS, Que., Aug. 17.—(From Our Man with the Regiment.)—The propleas of Lieut.-Gov. Gibson and Premier Whitney regarding hard work, made at the armories at the end-of-tendered the Queen's Own, have been fulfilled. The men were expected to do a month's work within four days (only one day on guard and a getting-away day reducing the number of drilling days), and they are being forced to do it.

To-day was the hardest so far. The men, unaccustomed to physical labor, got up stiff and sore as a result of yesterday's work, but they had to drill, nevertheless. In the afternoon an 8-mile march and the tactical manoeuvres were included in it, not because the men wanted to.

Almost immediately after leaving camp the ascent to the top of the ridge of hills to one side of the camp, was commenced. Major-General Otter, Col. Pellatt and other senior officers were mounted. It was intensely hot, and the men were dressed in heavy khaki serge, trousers and mittens, and were carrying side arms, rifles, water bottles and great-coats, so none enjoyed the gallop. Even in the tents it was very warm.

Trotted to the Top. A rather warm pace was set, and the men were heated before they reached the top. When about 200 yards from level ground, the order to double quick march was given, and the run was continued until all reached the top. The men were breathing hard and perspiring in great measure. They were halted. However, they were allowed to rest long enough to regain their wind.

The troops then proceeded to Fort No. 2, and advanced in attack formation. If any enjoyed the affair, they did not advertise it.

In the evening all were given a long physical drill. One man fainted on account of the exercise and heat. The companies were also reorganized and posted in order of seniority among the non-coms, assigned.

It was really a very hard day, and those averse to hard labor grumbled. No sleep was had last night. It is said hard work makes hard men. If it continues as hard as it was to-day, the boys will be a husky crowd when they get home.

The officers are being put on in all ways. The clerks, university students and others whose activities in civil life are largely mental are being given the treatment meted out to recruits for the regular army. They are being lectured on the duties of a soldier, and get into hot water if they do not toe the scratch. If a man fails to perform a task assigned to him, such as keeping his accounts, or cleaning his rifle, or his clothes, he is given extra duties, or something else more distasteful. If not dressed for parade on time, he must stand nearby and listen to an emphatic lecture from a superior.

All will have benefited greatly by the trip, and doubtless all of the underdogs will be glad to get back home. In the short period between work, the men certainly enjoy the respite. The more energetic play catch with balls, while the others stand around or rest.

Close to the camp there is a shallow pond which is used for bathing purposes. At first orders were issued against bathing in it, for fear of typhoid, but it was found to be all right. The drinking water here is exceptionally good. The principal medical officer of the Quebec garrison tested it and declared it to be excellent.

The general health of the men is very good. The hospital is tenanted by trivial cases only, such as sore feet. Only accidents so far have been minor. Probably the longest worked men are the cooks, and the least worked are the band. The musicians sit down under the trees and practice during working or playing hours. They are unfortunate, too, because they are missing a fine chance for physical improvement. They do not worry about it, however. They are up at 8 a.m. and get thru around lights-out. The work is not pleasant on account of the excessive heat.

Some of the latest drill has been introduced. The troops are being drilled as an order. The only time it is used is when the order to march at ease is given.

CAUGHT STEALING STAMPS
Shipper is Nabbed by Private Detective at Midnight.

Hubert Bogart, 21 years, a shipper for the Standard Fashion Co., at 23 West Richmond-street, was caught last midnight by an operative of the Thiel Detective Agency stealing stamps from the printing shop of the Methodist Book Room, in the same building. He had about \$4 worth on him when taken and is believed to have been stealing in this way for some time. He waited until the watchman entered the premises and followed him in. He was taken to the Court-street station by Policeman Lawlor. The young man lives at 229 George-street.

FOREIGN CAPITAL INTERESTED IN CANADA

Nearly \$78,000,000 Now In-
terested in the Dominion,
According to Careful Esti-
mate—How it is Dis-
tributed.

The Monetary Times prints in this week's issue the results of its preliminary investigation regarding the amount of capital, other than British and American, invested in Canada. The enquiry has extended over several months and information has been gathered by the editor, Fred W. Field, from almost every known source of value, particularly in the countries of Europe. The result shows that a sum of at least \$77,839,650 of foreign capital has been invested in the Dominion.

The following is an approximate and carefully compiled estimate:

France: Manufacturing and industrial development, \$8,500,000; lands, \$4,750,000; loans on mortgages, etc., \$21,000,000; Canadian industrial, railroad and other securities, \$10,000,000; municipal and school bonds, \$1,000,000; total, \$45,250,000.

Russia: Doukhobors' land investments in British Columbia, \$960,000; Turkey: One bank's investment in Canadian railroad and government bonds, \$2,000,000.

Holland: Western lands, \$1,000,000; Belgium: Western mortgages, \$3,000,000; Saskatchewan lands, \$1,500,000; Newfoundland lands, \$750,000; Canadian railroads, \$500,000; total, \$6,750,000.

Germany: Western lands, and mortgages, \$1,500,000; western coal lands, \$1,500,000; total, \$3,000,000.

Foreign holding of Canadian bank shares: Total, \$1,489,650.

Where Investments Are. The following figures give details of some of the leading companies which have interested or are at present interesting foreign capital in the development of Canada.

German Development Co. of Germany, capital \$1,000,000; development of their oil property in Alberta. Alberta Soda and Ammonia Sales and Refining Co., Canadian of Belgium, \$1,600,000 mortgage.

Western Canada Farm Lands Co. of Belgium, \$200,000; land company. Societe Hypothecaire du Canada de Belgique, \$2,000,000; loans on mortgages.

La Caisse Hypothecaire Canadienne de France, \$2,000,000; loans on mortgages.

Revelion Brothers, Limited of France, \$5,000,000; fur posts, a number of points in western Canada; merchants. Belgio-Canadian Fruit Lands Co. of Belgium; British Columbia fruit lands. German Agricultural Co. of Canada, Belgium; western lands.

Credit Foncier Franco-Canadian, of France, \$3,000,000; loans. Societe Immobiliere des Fermes Canadienne of France, \$1,000,000; land.

Naturalized Now. The Credit Foncier Franco-Canadian has been so long established in Canada that it is recognized as a Canadian institution. Its offices are in Toronto, Winnipeg, Edmonton, Vancouver, Montreal, Quebec and Paris, France, and is reported to have attracted at least \$2,000,000 of French capital into this country in twenty years. Messrs. Revelion Bros., Limited, a company conducting a business in western Canada similar to that of the Credit Foncier, is also considered a Canadian house, although it is a corporation of French origin.

Generally speaking, foreign capital investments have been made chiefly in western Canada, the chief exception, perhaps, being the Province of Quebec, where there is naturally a considerable French interest. The capital of other French other than Canadian, British and American registered to do business in Alberta, amounts to \$1,000,000.

Regarding the investment of foreign capital in British Columbia, the amount might be approximately placed at about \$8,000,000. This does not include the investment of a company which controls the railway in British Columbia, and which is of French origin. French capital in British Columbia is mainly confined to loans.

In real estate about \$500,000 of French capital is invested in British Columbia, and the amount is steadily expanding. Approximately \$2,000,000 of German capital is invested in British Columbia, principally in real estate, with a few industrial and speculative enterprises.

MORE ABOUT THE BIG RAILWAYS IN TORONTO

As a foreword, we ought to say that Farmer Maclean's wheat was hustled out of command siding at great pace yesterday morning; if it gets into Miller Campbell's siding at the Junction as rapidly, the improvement will be fully recorded. It might prove that the freight jam had at last been broken. But for Farmer Maclean's wheat substitute fifty business men of Toronto who are waiting from ten to two hundred cases of goods that were put thru the customs ten days ago and have not yet been delivered! Where are they?

The World is said to be too hard on the big roads. Too fault-finding. We haven't said a quarter of what should be said. And now The Globe has been inspired to talk. Yesterday's editorial: One way of improving the occasion offered by this announcement is to call attention to the singular fact that the great railway companies persistently discriminate against the system; sending English ladies passengers who are going over the system; making with them for the safety and comfort of the provisions made by them for the safety and convenience of the public. Why they do this is difficult to comprehend or imagine. Toronto has never been unfriendly to these corporations.

We can tell and have been telling The Globe why. The why is because of Montreal management of railways in Ontario that should have independent and fully-powered executives in Toronto. Ontario's railway needs are referred to Montreal, where they are neglected. Sir Thomas Shaughnessy or C. M. Hays never come to Toronto!

Sir Thomas is busy with Alpine clubs (for the Rocky Mountain tourists); receiving distinguished English passengers who are going over the system; sending English lady novelists in his car across the continent; in order to locate a romance in a C.P.R. diner under the summit dome of Mount Donald; seeing that the Chicago dead-meat trade is hustled across Canada at express speed and at half the rates collected on slow-moving (or "stalled," mostly) Canadian farm produce; or at that great centre of Montreal industry, the Mount Royal Club!

Sir Thomas gives unlimited time to the style of teapots for the diners, the linen for the big hotels, the monograms on the plates, and, most of all, testing the viands for the "hotel system" (page 50 of the Folder). The C.P.R. is the greatest hotel keeper, feeds and sleeps more people than any other concern, in the world. It takes a lot of time, for instance, in passing on the brands of Scotch that go on the wine lists of the company! Generally, this work is said to be assigned to Messrs. Whyte and McNeill, but when they are overworked Sir Thomas has to help in the sampling!

In the whole of that closely packed and yellow-backed Folder (62 pages) of the C.P.R. there is hardly a word about local freight or local passenger service, or about suburban trains. It's all about "daily double transcontinental train service," "scenic routes," "the Rockies," "steamship lines," "telegraphs," "hands," "express," "hotel system!"

Not a word in all this Folder about the great things, the improvements, for the benefit of local traffic! Not the name of a single man, executive head, whose mission is to help the local manufacturer, the local farmer, the local storekeeper, the local traveler, to get railway service. And yet the prime object of the road, of the franchise, of the bonuses, of the land grants, was to do this very thing!

Why, in all seriousness, should not this highly paid executive in Montreal get down to the primal objects of the line—local service? Or why not, if the power must pass to another, let it be delegated to an executive in Toronto with ample power? Were a Toronto official to put on another train, to improve the service in any way, he'd lose his job that day; and if he should dare to give Toronto a suburban service, with commutation rates like Montreal, he'd be degraded to the rank of a stoker on the "Japan and China" service. "Can't you cut off another man?" is the one refrain from the Montreal executive to the local boss in Ontario!

The truth is, Toronto and Ontario are growing in spite of the inferior railway service doled out from Montreal by Hays and Shaughnessy. Does Mr. Hays not think his trains are overworked? Shouldn't they leave earlier in the morning? Chicago dead meat goes from Toronto to Cobourg in two hours; live Canadians, paying three cents a mile, are moved from Cobourg to Toronto in three hours, from 8 p.m. to 10 p.m. daily!

Again! The World says this thing will continue until Toronto and Ontario put up a protest and then a fight. Where's the board of trade? Where's the Ontario Government with a railway policy? If Sir James Whitney started in to build a line, say, even to Oshawa, what a change there would be next day! How a provincial fast electric road—up-to-date—from Toronto to Niagara Falls, by Hamilton, would pay and make the others sit up! Perhaps it will come yet.

But, in the meantime, if you have any railway trouble, read over that 64-page yellow-backed Folder of the C.P.R., which tells about everything, glorifies everything but the local services that it does not give. Here is the latest feature on the Folder aforesaid:

A NEW DEPARTURE
This Company has established a General Tourist Department for the purpose of organizing and conducting car or special train parties to all points on, or reached via, the Canadian Pacific Railway. Owning and operating its own sleeping cars, dining cars, hotels, lake and ocean steamers, the Company has unrivaled facilities to offer the tourist, and the greatest care will be exercised in perfecting details to insure every comfort and enjoyment. For rates and particulars, apply to C. E. BENJAMIN, General Tourist Agent, Montreal, Que.

What a surprise it would be to the common Canadian people if Mr. Shaughnessy were to announce that he had made another Benjamin, a Mr. Joseph, steward of the local traffic, who would place "the unpeeped facilities" of the company at the service of the common herd who supply the big end of the business, and certainly the profitable part of the company's revenue.

Oh, you Magnates in Montreal, who have our futures in your hands, what about the freight jam at the Junction?

The Canadian people are not looking for transportation frills but for good common every day local railway service. And this apparent frill is not the concern of the new kind of railway magnate that we've made our masters in Canada!

HITCH IN CONSTRUCTION OF CITY ELECTRIC LINE

100 Men Laid Off Last Night Because of Difficulty in Getting Poles to String Wires.

One hundred members of the International Electrical Workers, Local 854, out of the 144 employed in the city by the hydro-electric commission, were laid off last night. The reason given is that the poles on which the wires are strung have been delayed in transportation, and that there are not enough poles to be had in the city to keep the men employed. No intimation was given them when they will be taken back.

The men registered a complaint at the union meeting last night. They claimed that, had the poles been brought last winter, and from a Canadian contractor, as they should, there would be plenty on hand now to keep them busy. Instead of this, they claim, the contracts for poles were made with cheap American concerns, so that the poles are first shipped out of Canada and then reshipped for use in Toronto.

CHOLERA IN ITALY.
Several villages of this province are suffering from an epidemic of cholera. The disease is especially severe at Trani, a seaport on the Adriatic Sea.

MANY BULLSEYES IN QUICK MATCH

Eight Tie for First in Quick-Firing Competition—High Scoring General—Dundas Cadets Again Win School Cadets' Trophy.

LONG BRANCH RIFLE RANGES, Aug. 17.—(Special.)—Riddled with 230 bullets in a minute and a quarter! What chance would a man with shoulders 20 inches wide have in a fusillade of that kind? Yet that is just what would have happened to a man if he were exposed to eight fellows who were shooting here to-day.

In the Macdonald match, which is a quick-firing contest, in which the 20-inch bull's eye is exposed for 75 seconds at 500 yards, eight tied for first place with 100 points each. The other competitors were six others who scored six "bulls," and an "inner," and seven others who were only one point behind these.

To-day was distinguished through by record-breaking scores, and, at that conditions were not ideal, it is still very hazy out here and the dull light is keenly felt where the shooting is at the new "figure" targets. The light did improve some at 4 p.m., but the wind dropped to a light steady left breeze.

Twelve Tie for First. Better still than the Macdonald match was the shooting in the "Macdonald" match at 300 yards. Twelve men tied for first place with perfect scores—35 for 7 shots. Twenty-four others followed with 34 and 33, and others followed with 32 and 31's and a considerable quota of 20's were within the awards. And last year there were only five perfect scores.

In the Macdonald match last year only two scored perfect scores; and this year; and only four made 34's against seven to-day. Twenty-nine and thirties were counted last year, and this time only one thirty got in the winnings.

Sergeant Major Utton of the R.C.R. and Lieut. E. L. Forrester of the Canadian High School were the only men to make perfect scores on the "figure" targets. They each got five straight bulls and each put on three extra bulls. In the extra series, matches were more scores and scores of 20's were at all ranges.

The reason for the remarkable work being done is attributed by all to the "peep" sights. Chief Range Officer Major Mercer, says a man can be trained with this contrivance to shoot well in a quarter of the time as with the open application, and a man can score 200 rounds with less fatigue to the eyes.

Dundas Cadets Win.
Dundas High School will be the first holder of the new Pellatt trophy for cadets. They won the former trophy three times, and now possess it for good. Harbor Street Collegiate, Toronto, gave them a run for the money before, but to-day the Toronto boys could get nothing better than third place. The shooting was at 300 and 500 yards. The scores were as follows: 300 yds. 50 per man. The teams were five men each, and the total possible was 350. Dundas High School won with 214 points, securing the trophy with 20 extra points. The scores were 23; Hamilton Collegiate was second with 204 points and 20; Harbor Street Collegiate, 198 points and 15; Seaford Collegiate, 192 points and 10. Other competitors were Dundas (second), Brantford, Jarvis Street Collegiate and Guelph. Seaford Collegiate won first for the military district No. 1, team prize \$20. Dundas High School won first for military district No. 2, team prize \$10.

Russell Leads for Aggregate.
In the Bankers' match to-day three men scored 80 out of 100. The highest score was 80, and there was only one of these, only one of 87 and three of 85. To-day there were seven of 86, five of 87 and sixteen of 88. Last year 59's got inside the prize money; to-day there were ten 88's counted out for being too small. The "gross" this year had to get 59 or over to receive cash.

Sergeant G. W. Russell of the Fort Guard, Ottawa, is in the lead for the grand aggregate, with Lieut. Forrester, C.A.E. Ottawa, Sergeant E. A. Eastwood, 90th Winnipeg, Lieut. Morris, 18th, Lieut. Blackburn, 9th Winnipeg, Sgt. Major V. Dymond, R.C.R., Sgt. Major Utton, R.C.R., Staff-Sergeant H. Kerr, 48th Toronto, and Blair Mitchell, 48th Toronto, close up second place.

Two youthful phenomena came to the fore to-day, Corporal Austman of the 90th Regiment, Winnipeg, 18 years old, made a possible in the Macdonald match, and in the "gross" he has never been east in competition. Howard

Continued on Page 7, Column 3.

A RETROSPECT.

Aug. 18, 1843: George Brown and his father began The Banner, a free church paper, in Toronto.

1853: The Marquis of Lansdowne was appointed governor-general of Canada.

Panama Hat Bargains.
There is no better bargain to-day than a Panama hat, provided you buy it at Dineen's. This company is putting on some splendid bargains in these hats rather than store them for the winter, and remember that the Panamas wear for three or four years and will be as good as any new time during that period. A little soap and water gently applied revives its newness. Store open every evening, 140 Yonge-street.

HAMILTON HAPPENINGS

STILL WITHOUT TRACES OF MISSING MURDERERS

Ontario Police Do Not Believe They Have Crossed the Border—Day's Doings.

HAMILTON, Aug. 17.—(Special.)—The Hamilton Asylum authorities stated late to-night that there was still no word of the escaped murderers, Moir and Taggart. Detective Miller went to Buffalo to-day to investigate the alleged automobile clues, but it is believed that he went more for the purpose of making sure than because of any hope he had that the cars seen were either of them. The one in which the insane murderers were spirited away.

A special from Niagara Falls says: "That Taggart and Moir have not crossed to the States, but are still in Canada is the belief of the Ontario police, who have gone over the Canadian Niagara frontier in search of evidence substantiating the rumor that men crossed the upper bridge in an auto owned by a Buffalo man. They also scout the idea that Constable Tufford of Beamsville knows the auto owner's name."

Frank Wilkinson, the well-known grain buyer, who lives on the mountain top, near the road leading to the asylum, saw an automobile, with lamps extinguished, dashing down the hill at 1:45 o'clock Monday morning.

John Tucker, 387 North John-street, played rough house with the family abode to-night, according to the allegations of his wife, and she had him arrested last night.

Detective Cameron arrested John Kavanaugh, a north ender, on a vagrancy charge.

At St. Joseph's Hospital to-night the condition of Miss Dorothy Hobson was reported unchanged. She is very low, and little hope is now entertained for her recovery.

The annual picnic of the Irish Protestant Benevolent Society was held at Oakland Park this afternoon. One of the features of the outing was the donation of Dr. Anderson, the president, of a box alleged to contain a complete set of medical instruments, but when opened revealed a plumber's wrench.

New Customer for Power.

Hon. J. S. Hendrie stated to-day that negotiations were in progress between the National Fireproofing Co. of Pittsburgh and the hydro-electric commission for a supply of power to its works near Watertown station. There appears to be no doubt that satisfactory arrangements will be made with the commission, as plans have been prepared for the erection of a sub-station at Port Credit for the purpose of serving all the industries in that locality. The branch line will, therefore, be constructed from Dundas to Port Credit and the Pittsburgh industry will be supplied from this.

Publicity Commissioner Mullins has arranged for a public meeting in the city council chamber of all those interested in the improvements to the Burlington Canal, on Tuesday night.

Sutherland for Canada?

According to information received to-day, the Duke of Sutherland has definitely decided to come to Canada.

It was rumored that he contemplated settling in western Canada, and this has practically been confirmed by the reported sale of A. B. Mackay's fine city of large tract of land in the west to his grace.

An epidemic of poliomyelitis, or infantile paralysis, which is attracting much interest among medical men, is world over has broken out here. A score of cases have been reported to the health department, and the disease seems to be spreading. It was first noticed here four weeks ago when a little girl, supposed to be suffering from hydrophobia, was taken to the hospital, where she died. It was later discovered she was a victim of infantile paralysis.

COL. GORDON RETIRED

NO REASON IS GIVEN

Military Circles in Eastern Canada Given a Surprise—Had the Quebec Command.

MONTREAL, Aug. 17.—(Special.)—The curt announcement in the militia Gazette, issued in Ottawa, that Col. W. D. Gordon, officer commanding the Quebec command, is retired, Aug. 1, 1910, has set military circles in Montreal wondering. Both in Ottawa and Montreal official circles there is complete reserve as to the reason.

At the militia department in Ottawa to-day it was stated that no successor to Col. Gordon had yet been appointed.

"Why was he retired and where will he be sent?" was asked.

"I can only say he is retired," stated the deputy minister, who referred enquirers to Col. Lessard. The latter took the ground that any announcements should come from the deputy minister, and declines to discuss the case.

At militia headquarters here to-day it was stated that Col. Gordon was in Kingston, and that Lt.-Col. Roy, chief staff officer, was in Three Rivers. The statement issued at the militia department this afternoon is to the effect that while Col. Gordon is to be retired, the announcement went into the militia Gazette to-day prematurely. It seems it has not yet been approved by his excellency, but that is a formality.

Col. Gordon has been in ill-health for some time, and at times was unable to attend to his duties. Two weeks ago, during such a period, some difficulty arose in the brigade office, which made his presence necessary. As a result he was called to Ottawa last week, and the announcement in to-day's Gazette is supposed to be the sequel.

Col. Gordon entered the militia service Dec. 10, 1867, as ensign in the 14th Regiment, Prince of Wales Rifles, Kingston, becoming lieutenant in June, 1872, captain in 1873, major in the I. S.C. 1883, major in R.C.R.I. in 1889, lieutenant-colonel in the militia staff in 1899, and colonel in 1905, when he was given command of eastern Ontario command. He was transferred to the Quebec command following the death last winter of Col. Buchan. His field service includes the Fenian raid and South African war.

Day's Doings in West Toronto, North Toronto, East Toronto

PARALLEL ROADWAYS COMPANY TEE WORK HARD

Fair Progress is Being Made—Y.M.C.A. Have Great Day—County Happenings.

NORTH TORONTO, Aug. 17.—(Special.)—An enormous amount of detail work is said to have developed in connection with the "parallel roads" that are being put thru by the town east and west of Yonge-street, and negotiations for which have been under way for the last two years.

It is gratifying to know that good progress is being made along this line, and there is no longer any doubt as to the ultimate success of the undertaking. A most successful garden party was held last night on the lawn of Mr. and Mrs. Kingdon, 378 Don Mills-road. Much of the evening was given to something along poultry lines which will probably hold things fast for a while. Frank Kingdon, from B. Lawrence a setting of eggs which were hatched out on May 14, and on August 10 or more of them began laying. The chicks were of the Rhode Island Red breed. No use competing with people like this.

TODMORDEN.

Volunteer Lodge, O.V.E., of Todmorden, held a most successful garden party last night on the lawn of Mr. and Mrs. Kingdon, 378 Don Mills-road. Much of the evening was given to something along poultry lines which will probably hold things fast for a while. Frank Kingdon, from B. Lawrence a setting of eggs which were hatched out on May 14, and on August 10 or more of them began laying. The chicks were of the Rhode Island Red breed. No use competing with people like this.

EARLY HARVEST, GOOD CROP.

Throughout the length and breadth of Ontario, down thru Ontario, and practically all through the province, the harvest is now nearly all safely gathered in the barns, and in many places the crops are likewise well advanced. It is doubtful if taking all things into consideration, the harvest has ever before been gathered in so early and under more favorable conditions. The crops are yielding well, and even a little over is a good average crop. The crops are yielding well, and even a little over is a good average crop. The crops are yielding well, and even a little over is a good average crop.

Foreign Capital Invested in Canada

Continued From Page 1.

ized. The Montreal Stock Exchange is now notified daily through France.

Germany is a cautious investor, but C.P.R. shares are traded largely in Berlin for speculative reasons only. German financiers, however, who have become interested in Canada think the best companies for the purpose of acquiring good lands and advancing of the country to settlers as an extra inducement for good investment opportunities. German capital may also play an important role in the Canadian best-sugar industry. Its cultivation in Canada is one of the biggest and best paying industries there. A glance at the names connected with the promotion of best-sugar companies in Canada reveals the fact that practically all the good investments in the industry are at present very largely associated. It is not unlikely that one day a German bank co-operating with a Canadian one, will be especially to the financial needs of the various German colonies in the Dominion. It is thought by this way that a far greater amount of business will be attracted to the Dominion, and the German surtax there is thought to be an opening for German-Canadian trading companies. If Canadian partners can be found, this development may be an early one.

Turkey Waking Up.

Land, loans and, to a small extent, Canada railway routes appear to be attracting Belgian capital. It seems unlikely that Dutch money will be placed in Canada to any extent for other than the purchase of agricultural land. The investment in Canada, Russia is mostly interested thru the Doukhobor colonies. Canadian Government and railway securities are being bought by a Belgian bank, practically no investment in Canada. Russia is mostly interested thru the Doukhobor colonies. Canadian Government and railway securities are being bought by a Belgian bank, practically no investment in Canada. Russia is mostly interested thru the Doukhobor colonies.

WANT A C. I. R. LINE

Chesley, Port Elgin and Southampton Making Representations.

PORT ELGIN, Aug. 17.—It has come from a reliable source that the C.P.R. may come thru here in the not distant future. It has been the hope of the people in this section for some time that the C.P.R. might extend as far as Southampton and while their hopes may be realized, the extension will not be from Walkerton, as has been talked of, the company claiming it would be from Chesley, as the route would require too many bridges.

The ground which the company will cover will be from Owen Sound, and a line will likely be found thru Chesley had been endeavoring for some time to induce the company to extend to that town, and the prospects look bright that they will get the road.

It is understood that a deputation from Southampton will visit Montreal in that connection, and possibly Port Elgin may also join.

Accidental Death.

A verdict of accidental death was brought in last evening by Coroner King's jury, in the case of Robert Nightingale, who was run over by a child on Dufferin-street on Aug. 8. The evidence showed that the deceased, while trying to jump into the front of the wagon while it was moving, slipped, the hind wheel passing over his body.

Safe Bathing Beach

For ladies and children at sand-bar. Hanlan's Point. Manager Atkinson of the Island Baths reports temperature of the water as 73.

Arbitrators Named.

MONTREAL, Aug. 17.—(Special.)—Hon. Mackenzie King, minister of labor, has appointed J. H. Lawer, secretary of the Builders' Exchange, as representative of the shipping companies under the Lemieux Act, to investigate the troubles between the companies and the Longshoremen's Union, and the ship liners, Jon. Polquin, will represent the men.

Arrested in Buffalo.

BRANTFORD, Aug. 17.—(Special.)—Pedro Feduk, a Hungarian wanted here on a charge of wounding Steve Kavaliak, who is lying in a critical condition at the hospital, has been arrested in Buffalo.

HAMILTON HAPPENINGS

STILL WITHOUT TRACES OF MISSING MURDERERS

Ontario Police Do Not Believe They Have Crossed the Border—Day's Doings.

HAMILTON, Aug. 17.—(Special.)—The Hamilton Asylum authorities stated late to-night that there was still no word of the escaped murderers, Moir and Taggart. Detective Miller went to Buffalo to-day to investigate the alleged automobile clues, but it is believed that he went more for the purpose of making sure than because of any hope he had that the cars seen were either of them. The one in which the insane murderers were spirited away.

A special from Niagara Falls says: "That Taggart and Moir have not crossed to the States, but are still in Canada is the belief of the Ontario police, who have gone over the Canadian Niagara frontier in search of evidence substantiating the rumor that men crossed the upper bridge in an auto owned by a Buffalo man. They also scout the idea that Constable Tufford of Beamsville knows the auto owner's name."

Frank Wilkinson, the well-known grain buyer, who lives on the mountain top, near the road leading to the asylum, saw an automobile, with lamps extinguished, dashing down the hill at 1:45 o'clock Monday morning.

John Tucker, 387 North John-street, played rough house with the family abode to-night, according to the allegations of his wife, and she had him arrested last night.

Detective Cameron arrested John Kavanaugh, a north ender, on a vagrancy charge.

At St. Joseph's Hospital to-night the condition of Miss Dorothy Hobson was reported unchanged. She is very low, and little hope is now entertained for her recovery.

The annual picnic of the Irish Protestant Benevolent Society was held at Oakland Park this afternoon. One of the features of the outing was the donation of Dr. Anderson, the president, of a box alleged to contain a complete set of medical instruments, but when opened revealed a plumber's wrench.

New Customer for Power.

Hon. J. S. Hendrie stated to-day that negotiations were in progress between the National Fireproofing Co. of Pittsburgh and the hydro-electric commission for a supply of power to its works near Watertown station. There appears to be no doubt that satisfactory arrangements will be made with the commission, as plans have been prepared for the erection of a sub-station at Port Credit for the purpose of serving all the industries in that locality. The branch line will, therefore, be constructed from Dundas to Port Credit and the Pittsburgh industry will be supplied from this.

Publicity Commissioner Mullins has arranged for a public meeting in the city council chamber of all those interested in the improvements to the Burlington Canal, on Tuesday night.

Sutherland for Canada?

According to information received to-day, the Duke of Sutherland has definitely decided to come to Canada.

It was rumored that he contemplated settling in western Canada, and this has practically been confirmed by the reported sale of A. B. Mackay's fine city of large tract of land in the west to his grace.

An epidemic of poliomyelitis, or infantile paralysis, which is attracting much interest among medical men, is world over has broken out here. Turkey Waking Up.

Land, loans and, to a small extent, Canada railway routes appear to be attracting Belgian capital. It seems unlikely that Dutch money will be placed in Canada to any extent for other than the purchase of agricultural land. The investment in Canada, Russia is mostly interested thru the Doukhobor colonies. Canadian Government and railway securities are being bought by a Belgian bank, practically no investment in Canada. Russia is mostly interested thru the Doukhobor colonies.

WANT A C. I. R. LINE

Chesley, Port Elgin and Southampton Making Representations.

PORT ELGIN, Aug. 17.—It has come from a reliable source that the C.P.R. may come thru here in the not distant future. It has been the hope of the people in this section for some time that the C.P.R. might extend as far as Southampton and while their hopes may be realized, the extension will not be from Walkerton, as has been talked of, the company claiming it would be from Chesley, as the route would require too many bridges.

The ground which the company will cover will be from Owen Sound, and a line will likely be found thru Chesley had been endeavoring for some time to induce the company to extend to that town, and the prospects look bright that they will get the road.

It is understood that a deputation from Southampton will visit Montreal in that connection, and possibly Port Elgin may also join.

Accidental Death.

A verdict of accidental death was brought in last evening by Coroner King's jury, in the case of Robert Nightingale, who was run over by a child on Dufferin-street on Aug. 8. The evidence showed that the deceased, while trying to jump into the front of the wagon while it was moving, slipped, the hind wheel passing over his body.

Safe Bathing Beach

For ladies and children at sand-bar. Hanlan's Point. Manager Atkinson of the Island Baths reports temperature of the water as 73.

Arbitrators Named.

MONTREAL, Aug. 17.—(Special.)—Hon. Mackenzie King, minister of labor, has appointed J. H. Lawer, secretary of the Builders' Exchange, as representative of the shipping companies under the Lemieux Act, to investigate the troubles between the companies and the Longshoremen's Union, and the ship liners, Jon. Polquin, will represent the men.

Arrested in Buffalo.

BRANTFORD, Aug. 17.—(Special.)—Pedro Feduk, a Hungarian wanted here on a charge of wounding Steve Kavaliak, who is lying in a critical condition at the hospital, has been arrested in Buffalo.

PRIZE NUMBERS

THE WILLIAMS & SONS CO. Limited

LINE COUNTING CONTEST

TOTAL NUMBER OF LINES 444

FIRST PRIZE—Mrs. R. Abernethy, 74 Lansdowne Ave.

SECOND PRIZE—Mrs. L. M. Stephen, 499 Pope Ave.

THIRD PRIZE—Lizzie Peterman, 9 Sunnyside Place.

FOURTH PRIZES

Catherine Earle, Creemore, Ont.
Mrs. D. Montgomery, Chesley, Ont.
Mrs. D. Shuert, Milton West, Ont.
T. W. Fraser, 844 King St. West.

The letters were all placed in one large pile and thoroughly mixed up. One of the judges was then blindfolded and drew from the pile, thus giving everybody an equal chance.

THE JUDGES' REPORT

Toronto, August 15th, 1910.

We, the undersigned, having acted as judges in the recent Line-counting Contest conducted by the R. S. Williams & Sons Co., Limited, hereby certify that the same was conducted in a perfectly fair manner, and that all the contestants had an equal chance in the awards.

E. S. DEAN, Telegram.
E. S. SAVERS, The News.
A. G. DONALDSON, The Star.

We wish to thank all who participated in this great advertising contest, and extend a cordial invitation to call at our warerooms at any time.

143 YONGE STREET

ROOSEVELT TO TOUR WEST

Will Air His Views or Principles in Politics Only.

NEW YORK, Aug. 17.—Col. Theodore Roosevelt is preparing to break the long silence he has observed on matters of vital moment to the American people.

On his coming tour thru the west the colonel will deliver a series of speeches dealing with pending questions and setting forth in vigorous language the views he entertains thereon and which he expressed repeatedly in messages to congress and addresses delivered while president of the United States.

His opinions will be vitalized by the reflections and experiences of the seventeen months of private life as an American citizen. There will be no debating about the bush in his remarks, no attempt to evade discussion of those matters in which the people are manifestly so keenly interested at the present time.

This does not mean the former president will speak on personal or party politics. He is expected he will make any reference to the Taft administration or indicate any criticism or commendation of his acts. He will deal with principles and not with men, save in Indiana, where he will speak in behalf of the re-election of Senator Beveridge; in Massachusetts, where he will advocate the return of Henry Cabot Lodge to the United States senate, and in New York, where, under certain conditions, he will manifest his interest in Republican gubernatorial success.

Roosevelt leaves New York, Aug. 25, and will visit, among other places: Chicago, Cheyenne, Wyo., Denver, Omaha, Sioux Falls, S.D., Fargo, N.D., St. Paul, Milwaukee, Cincinnati, and Pittsburg.

On Oct. 8, he leaves for Atlanta, Ga., Hot Springs, Ark., Peoria, Ill., and "one night only" in Indiana.

To Establish New Unions.

MONTREAL, Aug. 17.—(Special.)—The Emperor William, after a quarrel of 14 years' standing, Edward assayed several times to heal the breach, but failed. Now the aged Emperor Francis Joseph has stepped in, and as his war time was responsible for the quarrel, he has appropriately used every effort to promote a lasting peace. The duke and kaiser will meet for the first time in Vienna, on the occasion of the emperor's birthday, on Aug. 18.

NOT MUCH BAD SILVER

Finance Department Says There's Very Little in Circulation.

OTTAWA, Aug. 17.—(Special.)—Enquiry was made at the finance department to-day

THURSDAY MORNING, AUG. 18, 1910

MORE BREAD.

The Globe will have to take a loaf of its own if it expects to get the weight and quality which it demands on the market generally. Either that or The Globe's idea of quality in bread is more complacent than that of people who buy bread in Toronto. We can scarcely believe that the writer of The Globe editorials on the bread question has been out doing his own shopping. Let him go and buy bread around the city and eat it afterwards and give his opinions.

We can admit The Globe's desire to be fair on this question, but there is a wide margin for possible misinformation or misunderstanding. The Globe has not given sufficient consideration to the fact that the public have now to pay five cents for the twelve-ounce loaf, which The Globe has insisted upon having baked, and which the law decrees is the largest size that can be sold under The Globe law, if less than twenty-four ounces. The Globe attempts to get people to believe that the quality sold in the twelve-ounce loaf is the same that is sold for five cents in a twenty-four-ounce loaf. This, as Euclid would say, is absurd, and if The Globe has a palate, it can make the demonstration for itself. The Globe declares that "the delusion about fancy bread and household bread has been exploded." If it has, it is remarkable how many people are still laboring under it.

The Globe must surely think it knows about bread in the old country or it would not make such positive assertions. But why will it get the testimony of English bakers? There are plenty of them in the city. Old country bread is of a different texture altogether from that which is in favor here. The usual Toronto quality is called "pan" loaf bread there. The ordinary loaf there is baked "on the brick," and The Globe cannot get a loaf in Toronto "baked on the brick" without a search or a special order. Moreover, the denser texture of the old country bread, which immigrants here will tell The Globe, gives them something to bite on, is attained by mixing potatoes in the sponge, and this also has the effect of keeping the bread fresh for a longer period. English bakers do not consider the best Canadian flour the best for loaf bread, and they do not as a rule use it. English bread is darker in color on that account. Here there is a prejudice in favor of very white bread, and this is an item which, on account of the quality of flour used, increases the cost of Toronto bread. The Globe can satisfy itself on these points by enquiry.

The bakers are trying to give as good value as they can. The Globe recognizes this when it uses the argument that competition is a valid force in reducing prices. It is a pity that either the bakers or the police should be reduced to such a pitiful quibble as is involved in the point of breaking a portion of bread into four to make it legal to sell. It is cheaper to bake and sell in its four-fold state, but unless these divisions are made actual they are illegal. The breaking of bread thus takes on a new sanctity. The World does not think that the breaking of the bread changes it from "household" to "fancy," as The Globe suggests, but it does believe that the bread thus sold is of a better quality than the baker will sell if he has to give twenty per cent. more weight for the same price.

The point that has been lost sight of is that no one but The Globe, perhaps for Scotch reasons, ever objected to paying five cents for a twenty-ounce loaf of "fancy" bread. The Globe started a campaign to raise the quality of household bread to that of fancy loaves. That is where the mistake was made. If it can persuade the bakers to sell more bread of a better quality than they can afford, this will be a boon, and The Globe will get all the credit, but The World doubts if it is a feasible proposal.

We would call the attention of The Globe to the statement of The London Morning Post that the ordinary bread sold in London is of a common quality and inferior to the bread sold in the west end. The east end bread is sold as low as fourpence or fourpence halfpenny. The west end bread is sold at sixpence halfpenny or sevenpence. This is for a four pound loaf. The Globe wants the Toronto baker to sell at a rate of thirteen and a third cents for the four pound loaf, which is cheaper than the English bread of the same standard, while the Toronto bread is of even better quality.

THE TARIFF IN THE UNITED STATES. If anything substantial comes of the agitation for tariff reduction in the United States, the trusts, combines

and monopolies that control so many of its principal industries will have themselves to thank. They have not given the public a square deal nor observed the principles which justify a trade protective policy. By destroying effective competition and extracting the highest possible prices they have been largely instrumental in creating the economic evils which afflict the republic and it is only just that as they have sown the wind so they should reap a whirlwind which may tear from them the privileges and opportunities they have abused. If protection of what was once a world standard of national living has to be put on trial and adjudged in default the responsibility can only be theirs. By inflating the prices of the necessities of life in order to secure unreasonable profits they have created conditions which cannot endure and are indeed self-destructive.

This truth is plainly seen by the insurgents in the Republican party. A revision of the tariff with duties fixed on the basis of the difference between the cost of producing dutiable commodities in the United States and the cost in other countries is one of the main planks of their platform, and it only repeats the rule prescribed in the regular Republican platform of 1908. The stalwarts stand by the Payne-Aldrich Act, tho it is evident public opinion in the central and western States supports the movement for re-opening the tariff question. It is freely stated that the cost of production in the United States is less than it is in competing nations, and the whole controversy suggests the prudence of cautious going on the part of Canada in the matter of a reciprocal trade agreement.

NEEDS AN ANSWER. In the statement made by city solicitor that William Crawford is entitled to a half-pay pension because he is "injured and wholly incapacitated in the discharge of his duties" there is an indictment of the Whitney government which Sir James cannot afford to overlook, and one which no doubt the opposition will make the most of at the next session of the legislature. Is a man wholly incapacitated worth \$1500 a year to the people of Ontario merely because he happens to be a hanger-on of the party in power? After this the Minnie M. and other historical arguments lose their weight.

DOING BUSINESS EVERY DAY. The Interstate Commerce Commission of the United States is busy on the job every day. No two months' holidays. When will the Canadian commission hand out its ruling on express and telephone rates?

The Armada is revenged. A blooming Spaniard has flown across the English Channel.

They have snubbed Theodore Roosevelt. This is like giving cayenne pepper to the elephant.

An Ottawa man has discovered how to change copper into iron. R. J. Fleming doesn't want him to come fooling round his trolley wires.

Dr. Sheard says Toronto milk is very poor. Would a little Toronto water not thicken it up to standard?

Sir James Whitney has gone to England, but William Crawford is still at the Parliament Buildings, so the party is safe.

Brantford has a boy who coughed up a lizard. That is nothing to what Sir Charles Hays and William Mackenzie will have to cough up.

There are 400,000,000 people in the British Empire, and 400,000,000 in the Chinese Empire. Then there are the others. But they do not count as many more.

Port Credit was once the Toronto of the province. It is going to make a new start with a power station and will be the centre of a manufacturing district with Brampton, Milton, Georgetown, Mimico, New Toronto and other places as tributaries.

Brantford has just reported the story of a boy who coughed up a lizard. Stories of this kind are heard in every country district, but medical men with one consent declare that a lizard could not exist under the circumstances. Are the doctors always right, or is this one of the places where fact is stranger than science?

The Ontario Power Company suffered to the extent of \$134,657 in fighting the big flood and ice damage in the spring of last year, but in spite of this immense incidental outlay the transactions of the year showed a good balance. This in spite of the fact of severe competition we hear so much about. We feel confident that Ontario business men are quite equal to American, and judge that the Electric Development Company, which had no injury, must be in clover or on velvet. Hon. Adam Beck is not such a calamity after all as an ice-jam.

PRICE OF LONDON BREAD. There is some alarm in various parts of London owing to a statement that within the next few days the price of bread would be materially increased. It was rumored that at least one halfpenny, if not a penny, would be added to the cost of the 4-lb. loaf. Some reports put the future price of the 4-lb. loaf at 6d., or even 7d. Various causes were assigned: the crops in the Argentine were shorter last year than usual; American harvests had been

Writs issued. The Smith Stacker and Foundry Co. of Hamilton has issued a writ against W. Smith, seeking to restrain him from interfering with the officers of the company unless so directed by a majority of the directors. H. J. Martin of Toronto is suing the Peterboro Meter Co., Ltd., of Peterboro, P. E. Clark of Uxbridge and J. Knox Leslie, for \$1000, claimed due on a promissory note.

LAW HAS A MEMORY. And it will likely baffle motorists to Contradict. A weary looking individual marched into police headquarters yesterday morning and presented Deputy Chief Stark with 25 summonses, which he produced from a shiny little valise, asking that they be served. The summonses are addressed to leading auto owners of this city and call upon them to appear at the Village of Aldershot, in the Township of East Flamboro, in the County of Wentworth, of which county he is a constable. His name is J. T. Sinclair, and he says that he has been saving up these for some time, and saving up all at once. Some of the alleged over speeding was done as far back as June.

TOGETHER IN DEATH. One Brother Dies From Paralysis, Other From Poison. WASHAGO, Ont., Aug. 17.—Henry and William Robinson, brothers, and life-long residents of this village, were buried side by side this afternoon in the Anglican burial grounds at Orillia. The brothers died within a day of each other, one after lying for 23 years a helpless paralytic, the other a victim of carbolic acid poisoning.

"O TELEGRAM!" Ottawa Free Press: The commendation of "O Canada" as a better national air than "The Maple Leaf For Ever" will be calculated, instead of the Editor's Toronto Capital upon the index of The Toronto Telegram.

AN ACKNOWLEDGMENT. Mrs. E. J. Jacob of Oshawa writes: "On Friday last I was agreeably surprised to find in my paper a notice that the 'Maple Leaf' had been published in District No. 10 of the late contest. Please acknowledge same in The World."

Berlin and Return, \$115, Saturday, August 20th, via special Grand Trunk train, leaving Toronto 8:15 a.m.; return special leaves Berlin 7:30 same evening, but tickets are valid returning until Monday, Aug. 22, including meals. The Grand Trunk is the only steam line reaching Berlin, and as Berlin is situated on the main line of the Grand Trunk, it is the desirable route; no change of cars. See that your tickets read via Grand Trunk. Full information and tickets at city ticket office, northwest corner King and Yonge-streets. Phone Main 4209.

Howard Hill's Body Found. The body of Howard A. Hill, who was drowned in Humber Bay on Saturday, July 9, by the upsetting of his canoe, was found yesterday morning. Hill was 20 years of age and the son of J. J. Hill, 103 Givens-street. The funeral will take place to-day at 3 p.m. from the family residence to Prospect Cemetery.

Robert Marshall Dead. Robert Marshall, the secretary of the Kingston Old Boys' Association of Toronto ever since its inception eight years ago, died suddenly yesterday of pneumonia at Victoria Memorial Hospital, Toronto. Mr. Marshall was 41 and unmarried, and was with the W. A. Murray Company. He is survived by father, two brothers and three sisters. The funeral will take place from the residence of one of his sisters, Mrs. Horace Wilm, 289 Carlton-street, at 2:30 p.m. on Friday to Mount Pleasant Cemetery.

D. R. A. Entries. OTTAWA, Aug. 17.—The 43rd Regiment, Ottawa, to-day established an entry record when they registered 23 men for the D.R.A. meet. The 13th Regiment, Hamilton, with 23 men, is also above its usual record. The entry from the west is unusually heavy.

G. T. R. Laying Heavier Rails. WINDSOR, Ont., Aug. 17.—The Grand Trunk is preparing to improve its roadbed in Western Ontario by laying 80-pound rails in place of the 50-pound rails in use now.

Not Connected. C. M. Gilchrist & Co., wholesale clothing, 25 Temperance-street, have no connection with the Gilchrist Clothing Co., Wellington-street, which has assigned.

RADNOR WATER. Cook your trout as soon as possible after catching it. Add a bottle of RADNOR and you have something worth sitting down to. Radnor mixes with anything.

CARLISTS ISSUE SUMMONS FOR ARMED GATHERINGS

Aug. 28 May Prove Bloody Day For Catalonia—An Explanation of the Crisis.

BARCELONA, Aug. 17.—The Catholic Carlists of Catalonia are engaged in active preparations for a series of open air demonstrations throughout Catalonia. Aug. 28, altho the government to-day forbids the gathering. The proclamations issued by them summon the faithful to come to the defence of "holy religion and the mother church." They refer to the "accursed government" and adjure the people to come armed and ready to sacrifice their lives for the Pope, who has sent his blessing from Rome. The proclamations terminate in these words: "Exterminate the incendiaries of convents and the violators of nuns. May God aid us to overthrow this impious government."

A semi-official note, issued to-day, characterizes as utterly misleading the intimations published recently in The Observator Romano, in connection with the demand of the Vatican for the withdrawal of the bill interdicting the presence in Spain of religious organizations not now in the country until such time as the law permitting non-Catholic bodies to display insignia of worship is passed.

This note says, first, that the principle of requiring government authorization for new religious establishments in Spain has existed in the country for centuries, and was categorically affirmed in the royal decree of 1880; second, the intention to introduce the bill forbidding the presence of religious organizations was communicated May 26 to Cardinal Merry Del Val, the secretary of state, who at that time agreed thereto, and who has not since denied that he so did; third, the king, in his speech from the throne, announced that the bill and the reply voted by the cortes had been approved, consequently the Vatican has been dealing with the Spanish Parliament as well as the government; fourth, General Merry Del Val's demand for the withdrawal of this bill was presented only a few hours before the cortes adjourned; it was therefore his design to humiliate the civil power and provoke a rupture under the delusion that such rupture would mean the fall of the government; and, fifth, the Liberal groups in Spain are now more united than ever, while the Vatican impatiently awaits the re-opening of the cortes.

In conclusion, this note says the government now intends to rely on its own resources, and that the measures necessary to put an end to the conflict will be voted with enthusiasm.

CITY'S MILK SUPPLY. Official Tests Are Not Altogether Reassuring. The city engineer is to submit a report to the board of control on the advisability of getting weed-cutting machines from Toronto Bay. At the meeting of the board yesterday the letter of the National Yacht Club was discussed, and it was the general opinion that the weeds were becoming a great nuisance to navigation.

A deputation from Robert-street protested against the erection of the hydro-electric light poles on the street. There are two lines there already. Toronto's milk supply isn't good, according to Dr. Sheard's report to the board. The following shows the tests made: "Out of 180 samples collected in 1909, 726 were of inferior quality, containing less than 3 per cent. of butter fat," said the report, "and 1200 could contain less than 2 per cent. of butter fat. The solids in good milk collected in 1910 to the 31st of July, 1910 were deficient in butter fat, and 250 deficient in solids. The solids in good milk should amount to at least 12 per cent."

The board decided yesterday to add the strip of land along the exhibition waterfront.

CHARRED BONES IN BARN. Tramp Is Supposed to Have Been Cremated. CHATHAM, Aug. 17.—(Special).—Five charred bones, proven to be those of a human being, were found this morning in the interior of Alexander McKenzie's barn in Dover, which was burned to the ground night before last. The cause of the fire was said to have been a gasolene combustion in a bin of barley, but now it is supposed to have been started by a tramp who sought shelter in the barn. It is supposed that the tramp was burned with the building.

Alex. Jamieson, the city dog-catcher, was assaulted this afternoon by a Italian fruit vendor, Giuseppe Favette. The latter's dog was running without a muzzle and Jamieson tried to catch it. Favette pursued him, pummeling him with his fists.

Valuable Old Wreck Located. CHATHAM, Aug. 17.—The wreck of the vessel Brunswick, which is said to contain \$400,000 worth of walnut and oak lumber in a good state of preservation, has been located in Lake Erie some distance from Wheatley. The Brunswick was lost about 50 years ago in a storm on the lake when the captain and three of his crew made their escape by swimming to shore.

C. N. R. Employees Want Increase. WINNIPEG, Aug. 17.—The joint grievance committee of the Brotherhood of Railway Trainmen and of Railway Conductors of the C.N.R. arrived here Monday to confer with the company regarding the drafting of a new schedule, necessitated, they claim, by the increased cost of living. They will also ask for improvements in working conditions.

THE LADY WAS INSULTED

And She Didn't Hesitate to Tell the Manager So. At 5:30 yesterday afternoon, a woman of uncertain age and formidable appearance strode into the tea-room of a downtown hotel. Fixing the presiding genius with a steely eye, she spoke winged words. "I," she observed, in a vibrant contralto robusto, "have never been so insulted in all my life. I am a respectable married woman, and I am going instantly to see the house detective."

After that her remarks came so thick and fast that it defied shorthand to record them. Anyway, she didn't wander from the text for a moment. She continued to pour forth well-chosen sentences for about five minutes. And a little bit more.

Finally, having apparently exhausted her singularly copious supply of opprobrious adjectives, the lady turned abruptly and her heel and speedily left the scene. Let none seek to discover where she wended, and let none assign a reason for the rash act.

AGED CRIPPLE INJURED. Samuel Trewin, an aged cripple, who lives at 69 Harvard-avenue, was knocked down by a team of horses belonging to the J. J. McLaughlin Company, and driven by Archibald Cameron, 33 Alcoa-street, while crossing Queen and Yonge-streets yesterday morning. His left hip was fractured. He is 78 years of age, and has had only the use of one leg for several years. He was taken to the General Hospital.

FISHERIES AWARE. THE HAGUE, Aug. 17.—The fisheries decision will be announced on or about Sept. 10. Premier Morin, interviewed, stated that he was struck with the earnestness of the tribunal.

Another Bullish Day on Wall St.—Prices Are Higher

Wall Street Moves Up Further And Closes Near Top Prices

New York Stocks Develop Renewed Buoyancy and Speculators Follow Rise—Advances in Local Market.

World Office.
Wednesday Evening, Aug. 17.
Market sentiment has undergone a complete change in regard to domestic securities, as was evidenced by operations at the Toronto Exchange to-day. Speculation entered readily into the session's dealing, but professional in-and-out trading had very little effect on the tenor of prices.

For the first time in many months the theory has gained ground that money will be easy throughout the coming fall, and with securities down to abnormally low prices, compared with their dividend returns, speculators are getting in advance of investors, being satisfied that values will go materially higher.

Almost every stock in the list today made an advance on yesterday's prices, the active issues being in excellent inquiry. A special movement in Toronto to Ralls occurred on account of the belief that the strike will be settled without difficulty.

Mackay was sought by numerous brokers and found very little stock offering. The rumor on the street in regard to this issue is that there is another increase in dividend impending and that the shares will sell materially higher when the announcement is made.

Two City, Rio, Sao Paulo and Duluth Superior were all bought on the belief that prices will work higher later on.

The buoyancy in New York was of course a factor in framing sentiment here, but the fact that there was a small amount of stock offering in the market easily facilitated the bidding up of securities without anticipating sales.

Among the investment issues perhaps no stocks have attracted as much attention of late as the Maple Leaf Milling shares, the common stock today selling up to 50, while 52 1/2 was bid for preferred at the close. The buying of these shares has been practically all for investment, purchasers being induced by the high prices ruling for Ogilvie and Lake of the Woods stocks. Orders for Maple Leaf preferred shares came from all directions to-day and several were unfilled at the close of the day's business.

The close of the market was decidedly firm and sentiment was much more buoyant than it has been at any time during the recent advance.

2 1/2 per cent interest on the \$3,000,000 outstanding income bonds payable Oct. 1. This payment amounts to one-half the annual interest and is first dividend since October 1, 1906, at which time 5 per cent was declared.

London View of Steel Trade.
London Iron and Coal Trades Review attributes American restriction in iron trade to over-production. Pig iron supply growing faster than demand. Estimates blast furnace capacity at \$4,000,000 tons and thinks it will be several years before demand can reach such capacity. It thinks prices of pig and finished product will decline until a good many producers are forced out of business, leaving field to United States Steel Co., and largest independent.

DEMAND FOR MACKAY

Rumor That Dividend May Be Increased Later in Year.

The advance in Mackay common yesterday came somewhat as a sensation in local brokerage circles, a sensible enquiry for that stock has been noted for many months.

Notwithstanding the fact that at the inception of the company a large block of the shares were held in Toronto, it is now recognized that most of the stock has gone into the hands of British investors, as his office was practically bare of the security and he found that other offices in the city were similarly situated.

One broker speaking in conversation with The World says that much of the stock must have gone into the hands of British investors, as his office was practically bare of the security and he found that other offices in the city were similarly situated.

There is a rumor on the street that Mackay common may be placed on a 6 per cent basis later in the year and the belief that the shares are being bought up now in advance of the announcement.

IRON AND STEEL TRADE

Stagnation in Market Continues—Large Tonnage Moving From Mills.

NEW YORK, Aug. 17.—The iron age to-morrow will be a day of stagnation in iron and steel markets continues to contrast sharply with the large tonnage that is moving from blast furnaces and rolling mills to distributors and consumers. New orders are as deceptive as a measure of consumption now that buying is for immediate needs, as they were in the fall of 1909, when on a rising market certain contracts were being made running months ahead. The principal rail order reported is for 10,000 tons for the National Railway Company of Mexico taken by the Lackawanna Steel Company in close competition. Those lines are expected to make further purchases this year. The Illinois Steel Company has taken a domestic order for 8000 tons of bessemer rails. Pig iron buying has become even more important. A few large melters have made offers under the lowest price actually done but furnaces have promptly refused them. The situation will bear close watching.

WALL STREET POINTERS.

New railroad law in effect.
Western bankers report improvement in financial condition.
Railroad not demanding lower steel rail prices.
Railroad managers say they can prevent their side of rate increase hearing in four days.
State 4 per cent canal improvement bonds awarded at 101.80 and accrued interest.
Illinois Cent surplus for stock should improve in future.
Rumor of big copper trust in London, with capitalization of \$200,000,000.
Joseph says: Reading is going much higher; it should be bought on any little dip. C. & O. is good for 50. Hold some Steel. Buy Gas stocks.

ON WALL STREET.

Erickson Perkins & Co. had the following: The interests in control of the stock market moved prices up easily to-day, closing them near top. The three leaders—E.P., Reading and U.S. Steel—again did service. The sentimental effect of the rise in these issues helped the remainder of the list, and it showed a broader tendency. We doubt the propriety of the advance, so far as basic conditions are concerned, although prices may be warranted. We think that long stocks should now be sold and a substantial reaction waited for before making re-purchases, although before the pendulum swings the other way. In some banking quarters today an attempt was made to attach to insolvency because the turning over of the proposition to make Mr. Roosevelt temporary chairman of the New York State Convention. But bankers as a whole do not regard this as being a factor in the advance in stocks. On the contrary, they consider the political situation as much mixed, and as likely to cause a decline later on in the market. The point of these banking comments is that many reasons are apt to be offered to explain a rise in stock prices, but in fact it is due to pure manipulation. We think the shorts have been pretty well eliminated. Expected advances in freight rates and higher prices because the railroads may get only trifling concessions, and at a distant date.

London Copper Statement.

LONDON, Aug. 17.—The visible supply of copper abroad, as reported in the fortnightly statistics, published to-day, was 96,700 tons on Aug. 15, compared with 92,250 tons on Aug. 15.

EASY MONEY AN INFLUENCE IN MARKET.

World Office
Wednesday Evening, Aug. 17.

There is a growing impression that the contest as to prices in the stock markets in the near future will be governed by money rates. It has been predicted for some time that there would be a scarcity of money this fall, and extraordinary measures were taken to conserve resources, and it is now a question whether the piling up of reserves has been wise or not, and whether there may not be a contest for selling money which will result in considerably lower rates for that commodity. This seems to be essentially the reason for the advances in values of securities, and, with the stimulus which has now been given to the various markets, it is hard to see just to what extent prices may carry. At the Toronto exchange to-day the first evidence of actual speculation for a rise was noticeable, and prices showed decidedly that sentiment for the time being is very largely one way, and that in an upward direction. It is not improbable that the Toronto market will run into a much broader affair before sufficient obstacles are encountered to check the advance, but in any event to-day's market does not indicate that such a possibility is near at hand.
