GERMANS BOMB LONDON IN BIG NIGHT RAID

Another Violent Battle Proceeds at Verdun With Repulse of Germans

FRENCH LEAVE LINE TO MEET FOE'S ASSAULT

Five German Attempts Fail to Advance Front on Meuse.

BATTLE FOR WOODS

Allies Inflict Heavy Punishment for Rash Enemy Attacks.

Paris, Sept. 24.—The Germans made repeated attacks against the French lines today, particularly north of Verdun, where they were driven back under the French fire along a front of about a mile and a quarter. Secondary attacks north of Bezonvaux and near Beaumont were also repulsed with sanguinary losses, according to the statement of the war office tonight. The text reads: "On the Aisne front the artillery action was very spirited in the neighborhood of Bray-en-Laonnais, Cerny and Hurltebis. We repulsed a surprise attack against our small posts north of Bray.

"On the right bank of the Meuse, following the bombardment reported in the morning communication, the Germans attacked our trenches north of Bois-le-Chaume along a front of about two kilometers. The attack was carried out by four battalions, supported by special assaulting troops. Disorganized by our fire, the enemy was unable to reach our lines on the greater part of the front of the attack. In some trench elements succeeded in gaining a foothold, but after a few minutes they were driven back, leaving heavy losses on the advance. The remaining positions remained in our hands.

"At the same time two secondary attacks were delivered, one north of Beaumont, these likewise suffered sanguinary check by reason of the valor of our troops, who, leaving their own trenches, advanced fiercely to meet their assailants.

"In the course of the afternoon two new attempts were made against our trenches in the Bois-le-Chaume region, in only augmenting the number of losses suffered by the enemy, without gaining for him the slightest advantage. We took about fifty prisoners in the neighborhood of Bray-en-Laonnais. The artillery was quite active on the Verdun front. On September 23 the Germans succeeded in gaining a temporary foothold in a work in the first line east of Lake Prebe. They were driven out almost immediately by a Russian counter-attack.

DISSOLUTION OF PARLIAMENT NEAR

Proclamation at Beginning of Next Week is Anticipated.

Ottawa, Sept. 24.—Parliament will be dissolved next week, probably at the beginning. The formal step is that the prime minister in such a case recommends to the governor-general that parliament should be dissolved, and the latter issues a proclamation to that effect. October 7 is the last day of the life of the present parliament, which was extended one year. However, it is certain that the prime minister, who is expected back in the city on Monday or Tuesday, will not wait until parliament automatically dissolves. When the general election will take place is problematical. Most agree that it will be held during the first fortnight of December, but there are those who believe that it will not take place until spring or early summer.

HOMELESS

A Frenchman returns to his home in Flanders to find his house in ruins. Two women and three children were buried beneath the house. None were killed.

British Down Fourteen Aircraft

Aerial Fighting in Flanders Completely Destroys Eight German Machines.

London, Sept. 24.—An official communication respecting aviation operations, issued tonight, reads: "On Sunday again there was a slight lull in the aerial operations, but our airplanes and balloons continued to observe for our artillery. Successful bombing raids also were undertaken, in the course of which the airplanes dropped 167 bombs on hostile billets, hutments and airbases. "In the air fighting, eight enemy machines were brought down and six were brought down out of control. Another machine was brought to earth on Saturday in addition to those already mentioned. Three of our machines are missing."

W. F. NICKLE DECLINES TO SEEK RE-ELECTION

Conservative M. P. for Kingston Calls Upon Parties to Unite in Electing Candidate on "Win the War" Platform.

Special to The Toronto World. Kingston, Ont., Sept. 24.—Quite a sensation was caused in local political circles this afternoon when W. F. Nickle, Conservative, who has represented Kingston in the house of commons for the past six years, announced that he would not be a candidate for re-election. He made the announcement in a letter to the newspapers. In his statement, he said: "I urge on you that the differences of the past be forgotten, that we count as nothing the opinions that may have made us members of this party or that but that as Canadians we in this election will not reach her decision on the domestic problems that have in times past interested and influenced us. The necessity for reinforcements and the vigorous determination of the war take priority."

Prior to going to the Ottawa house, Mr. Nickle served a term in the Ontario legislature for Kingston. He is a leading lawyer here, a member of the firm of Nickle, Farrell and Day, and previous to entering politics was active in municipal affairs, serving many years as alderman. He has long taken a prominent part in the welfare of this city.

"An election becomes inevitable due to the refusal of a substantial number of the Canadian members of parliament to occur in a further extension being granted. To me it is a matter of regret that at a critical time in our history like the present, there should be discord and difference in place of harmony and co-operation. "The questions before the Canadian people for consideration and determination are vital. Canada in this election will not reach her decision on the domestic problems that have in times past interested and influenced us. The necessity for reinforcements and the vigorous determination of the war take priority."

CANADIANS HOLD POST UNTIL CARTRIDGES FAIL

Valiant Fight Made for Wrecked House Near Lens-Bethune Road—Many Aerial Combats Fought Over Coal Town.

By Stewart Lyon. Canadian Headquarters in France, via London, Sept. 24.—The Canadian front is still inactive, except for occasional outpost affairs. A small party of our men, who held a wrecked house near the Lens-Bethune road, well beyond the front, were attacked last night by a much more numerous enemy group. They held on till their ammunition was exhausted, and then they made their way back, thru a heavy fire, to our lines. German aviators are active along the front, and aerial combats are frequent.

AIR ATTACK ON LONDON CONTINUES 45 MINUTES

German Raid on Large Scale on Points in Kent, Essex, Lincolnshire and Yorkshire During Night—Six Persons Killed and Twenty Injured, Says Early Report.

London, Tuesday, Sept. 25.—Hostile airplanes attacked the southeast coast of England last evening. According to the official announcement the raiders came in different places in Kent and Essex. A few of them followed the Thames and attacked London. Bombs were dropped at several points. The casualties so far reported are six persons killed and about twenty injured.

The raid on London occurred between eight and nine o'clock and lasted about 45 minutes. Hostile airships early this morning appeared off the coasts of Lincolnshire and Yorkshire. An official announcement says the raid is still in progress and that no details have yet been received.

British airmen engaged the raiders, but with what results is not yet known. The Germans used a number of aerial torpedoes.

Raiders Scattered. The German planes appeared over the southeastern district of London soon after eight o'clock and the engagement lasted until nearly half past nine. The raiders were scattered and did not come in compact formation. Many star shells were used by the defence guns, giving the appearance of spectacular fireworks. The scream of the torpedoes used by the Germans was distinguishable easily from the explosions of guns or bombs.

The people of London behaved extremely well. They followed police instructions for taking cover and there was no panic.

German zeppelins also appeared across the coast of Yorkshire and Lincolnshire. The result of their visit has not yet been learned.

Best on slaughter, there being perfect weather Monday night for air operations, Londoners expected a visit from German craft and their expectations were fulfilled. Shortly after eight o'clock last night, guns were heard firing in the suburbs, and the metropolis had a repetition of the experience to which it has become accustomed.

Between eight and nine o'clock the noise of battle was heard throughout the city. Anti-aircraft guns were being fired from numerous points and bombs could be heard dropping. Searchlights played over the city and the rocket-like bursts of shrapnel furnished an interesting spectacle.

The purpose of the Germans apparently was the indiscriminate slaughter of the civilian population. As far as investigations of the Associated Press, up to two o'clock this morning, were able to discover, the casualties were few.

The Germans did not attack any points of military importance, but dropped their bombs, as usual, on the residential districts, mostly upon the dwellings of the poorer classes.

In Three Squads. The performances in the majority of the playhouses proceeded without a break. The second night of the grand opera in Drury Lane was on and the program was carried thru to the end, only a few people leaving the house.

Many persons living in the neighborhood of the underground railways took refuge in the stations. The work of the police, firemen, civil constables and Red Cross, as well as the women's auxiliaries was prompt.

No reports of any serious casualties have been received by the press association, and the suburbs have not been heard from.

The latest report indicates that the Germans came in three squadrons. The first warning was given in the outlying districts at 7.20 o'clock and the police announced "all clear" about 10.20 o'clock.

GERMANS LOSE BATTLE FROM ITS BEGINNING

London, Sept. 24.—(Via Reuter's Ottawa agency)—Telegraphing from French headquarters, Reuter's correspondent says: "The terrific power of the Anglo-French bombardment is forcing the German high command to revise its entire tactics of defence on the west front. A few months ago, the enemy still relied on earthworks, trenches and deep underground shelters to repel our assaults. Under the smashing violence of the Anglo-French bombardments in Flanders, in Champagne and at Verdun, he realised that in a recently captured enemy army order the general command itself admits how fallacious his hopes built on sand and concrete proved.

"The document begins by plainly recording the fact that the German lines are regularly battered to pieces by our artillery before the actual battle begins. Power of defensive, it says, depends on the possibility of hiding the means of defence. Trenches, shelters, machine gun emplacements and batteries once photographed by the Anglo-French airmen are doomed to certain destruction by their artillery.

Under such fire it is hopeless to attempt to repair damage. An entirely new principle of defence is needed and the order proceeds to explain it. It says: "For the old system of positions on which the enemy airmen can register and which the enemy can therefore destroy, there must be one substituted. A zone of defence, organized in depth is recommended towards the rear. This system, with its defences hidden as much as possible from enemy observation and troops schooled in depth in such a manner that their lines thin in front, because progressively denser towards the rear ought to enable us to pass from the defensive to the offensive with troops occupying thickly-held positions in the rear.

GERMANS FINANCE PEACE PROPAGANDA

Thirty Thousand Dollars Offered Chicago Pacifist for Influence.

Chicago, Sept. 24.—J. J. Tobias, chancellor of the Chicago Law School, once leader of the Friends of Peace, an organization at one time active in furthering peace talk, told today he had received an offer of \$30,000 to work for an embargo on munitions and to favor of peace with Germany. The offer, he said, came from a man calling himself E. J. Thyme, a banker from Stockholm, Sweden. The \$24,000 with which the convention of the Friends of Peace, Sept. 6, 1915, was financed, also was raised by 25 local Germans and German-Americans, according to Dr. Tobias, and the money which supplied funds for the organization's mail propaganda, came from the German committee in New York, he said.

Dr. Tobias said he became suspicious and withdrew from activity in the organization when he was convinced it was becoming pro-German.

AUSTRIANS DRIVEN BACK

Rome, Sept. 24.—The Austrians made a counter-attack yesterday on the position which the Italians recently captured in the Marmolada region. In this effort the attacking forces suffered heavy losses, according to today's war office announcement.

DINEEN'S MEN'S HATS

They are becoming scarce, as these English hard and soft felt hats, but Dineen's exclusive sources of supply are still available. Christy hard felts, the absolutely genuine, in the new style, \$2.65, regular three-fifty value. Soft felt hats, \$2.50 and \$2.65, including some splendid English makes.

The foremost store in Canada for silk hats—English, American and French styles, \$6 to \$8. Dineen's, 140 Yonge street.

Sir George then reviewed the wonderful contribution already made by Canada towards the winning of the war. He did this, he said, in no boastful manner.

Get It Good And Get It Early

WE are right into the work of opening up and marking off our new Fall and Winter garments for Men, Young Men and Boys. At no time in our history have we exercised so much discretion in the selection of materials. As you must know, market conditions are fitful and uncertain. An order placed six months ago has no assurance of being delivered on time, and in many cases it may never be delivered at all. So we think we are particularly fortunate, as we open up case after case of splendid Suits, Top-coats, Reefers and all the many styles that go to make up the sum total of the good dressers of Toronto. There isn't any city on the map better favored than we are with discriminating buyers and people of good taste and judgment. None but the most reliable materials find their way into our stock, and from the smallest boy to the biggest man we have it good and we have it right.

"Always at your pleasure in the matter of service."

We are, yours truly,

HARDEN HOPES WILSON WILL ARRANGE TRUCE

Germany Has Attempted the Impossible, Says Famous Writer, Who Calls for Avoidance of Further Carnage.

Berlin, Sept. 23, via London, Sept. 24.—In response to a request for his opinion of the German reply to the Pope's peace note, Maximilian Harden, in a statement to the Associated Press today, prefaced his remarks with the reminder that every nation and every government is more or less tradition-bound, none probably with a tighter cord than Germany. This tradition, he said, heavily impedes any effort to break thru the charmed circle with which the war encompasses them. "The German reply," said Herr Harden, "is the first visible attempt to escape from this charmed circle, whose final obligation is a preliminary condition to an enduring peace."

Herr Harden proceeded to declare that the note reflects the honest and sincere will of the majority of the people as unequivocally expressed in the Reichstag resolution, adding: "So far as lies in our power, we want to stop the war and prevent the possibility of new wars by the cultivation of a new spirit which will so completely fill international feeling that never again shall humanity behold the day when force will strangle right."

Denying that the German people ever seriously intended to apply open force to the people of government of Belgium, he said: "The words that were so construed were intended to serve the purpose of war tactics."

"The German Empire will now be told that its answer is not sincerely meant and that, in addition, it is a plain indication of the beginning of exhaustion. If in this most tragic hour of all human experience it is unable to rise above the unclean va-

RIFLES AND BAYONETS AGAIN COME TO FORE

Battle of Menin Road Restores Small Arms to Place of Principal Weapons—Hand Grenade Already Displaced.

By R. T. Small, Staff Correspondent of The Associated Press.

British Front in France and Belgium, Sept. 24.—Recent months have seen a striking change in the attitude of British soldiers toward the rifle and bayonet as implements of war. Until a comparatively short time ago the soldiers were inclined to regard these weapons as excess equipment, and useful only to retard his movements.

The individual preferred the hand grenade, largely because circumstances had taught him to rely on the method of defence and offence.

Now, however, the rifle and bayonet stand beside the artillery in importance. "Tommy" is drilled carefully

SOLDIER FROM THORNHILL MENTIONED FOR BRAVERY

Pte. F. P. Jackes Helped Carry Out Dangerous Survey Under Heavy Shelling.

Pte. Franklin P. Jackes, of Thornhill, Ont., now at the front, has received special mention in regimental orders as a result of gallantry displayed in the face of the enemy. The following extract from battalion orders tells of the incident referred to:

"The officer commanding wishes to express his appreciation of the conduct of the Pte. F. P. Jackes, who has been on duty in an advanced area on the 23rd inst. During a period of shelling by the enemy and high explosive enemy shells, the undermentioned officers and other ranks carried out a dangerous and extremely important survey in the vicinity of the shelling: Headquarters—2188336, Acting-Sergeant Selphaine, C.W.; 'D' Company—1102128, Sgt. P. H. Jackson; 1102495, J. Stalker; 2188409, J. Bushman; 1102580, W. H. Furze."

INCREASE IN WAGES FOR C.P.R. EMPLOYEES

Station Agents, Operators, Train Despatchers and Linemen Affected.

Ottawa, Sept. 24.—An increase in wages in the one recommendation made by the board of conciliation under the Industrial Disputes Investigation Act, which has completed an inquiry into the dispute between the Canadian Pacific Railway and its station agents, operators, train despatchers and linemen. The board recommends an increase for station agents, operators, relief agents and linemen of not less than 12 per cent. upon their present monthly wages, and an increase for train despatchers of not less than 12 per cent.

The board further recommends that these increases in rates be distributed as requested by the employees having regard to a reduction in the differential between eastern and western rates due to the difference in the cost of living in the east and west. A number of the requests made by the employees are not recommended at the present time, but are reserved for future consideration and negotiation between the parties.

ITALIAN AVIATOR FLIES FROM TURIN TO LONDON

Capt. Laureati Makes Long-Distance Non-Stop Flight.

London, Sept. 24.—Captain Laureati of the Italian army, accompanied by an observer, today made a non-stop flight from Turin, Italy, to London. He covered the 666 miles in seven hours and 12 minutes.

Captain Laureati on August 29, last, established a new world's long distance record when he flew from Turin to Naples and return. The distance was about 900 miles.

HAMILTON OFFICER ON MILK PROBLEM

Question Will Come Before Board of Health Meeting.

By a Staff Reporter.

Hamilton, Sept. 24.—Consideration of the milk problem will, amongst other things, engage the attention of the board of health when it meets at noon tomorrow. During the past few weeks Dr. Shain, food inspector, has made many tests of milk supplied by local dealers. The results were not unfavorable to a majority of the dealers, but warnings will be handed out to others to bring the quality up to standard.

The local branch of the Letter Carriers' Association at a meeting tonight passed a resolution expressing dissatisfaction with the recent grant of a wage bonus of \$1.00 instead of a raise, and decided to join with the Toronto association in asking for an increase in wages instead.

BANKER RESIGNS POST.

Paris, Sept. 24.—H. Harman Harjes, of the banking firm of Morgan, Harjes and Company, has resigned as high commissioner of the American Red Cross Society for France and Belgium.

MORE GERMAN RAIDS IN JAMAICA KILLED

Hostile Parties Suffer Repulse From British Fire in Scarpe Area.

London, Sept. 24.—The official report from British headquarters in France tonight reads: "Under cover of the bombardment alluded to in today's report, the enemy attempted two raids early this morning in the neighborhood of Monchy-le-Preux and another south of the Arras-Douai railway. In all three cases the hostile parties were repulsed by our fire, leaving a number of dead in front of our trenches."

Another enemy party raided our trenches early this morning west of La Bassée. One of our men is missing. The report this morning that some of our men were missing as a result of a hostile raid carried out last night near La Basséeville has since been found to be incorrect, as none of our men were missing.

"On the battlefield our patrols have been active today; a number of prisoners were brought in. Artillery action continues, but no infantry engagements occurred."

THIRTY-FIVE MILLION DOLLARS MORE ADVANCED TO BRITAIN

Washington, Sept. 24.—The government today advanced \$35,000,000 to Great Britain, bringing the total advanced that country thus far up to \$1,190,000,000, and the total of all credits to the allies up to \$2,420,400,000.

Kingston, Jamaica, Sept. 24.—Nine persons were killed and much property damage was caused at Port Antonio in the hurricane which struck the island of Jamaica yesterday. The customs house there was destroyed and a large hotel was damaged badly. Coasting vessels at various points around the island were injured by the wind.

Advices from the interior and north side of the island indicate that considerable damage was done to buildings. No reports have been received from the western end of the island. Railway and telegraph service is still suspended, except for a few miles outside Kingston.

The banana crop is believed to have suffered the most damage, although some injury was done to coconuts.

CANADIANS DECORATED.

Son of Sir John Gibson Becomes Chevalier of Leopold.

London, Sept. 24.—Recent Belgian decorations awarded were distributed as follows: Chevalier Order of Leopold to Captain Colin Gibson of the Royal Fusiliers. Captain Richard Thomas Young received the Ordre de la Couronne and Lt.-Col. MacCauley King the Decoration Militaire, also, Corp. Frederick Charles Bennett, Sgt. Roy Campbell, Pte. Joseph Fox, Sgt.-Major Walter Headlam and Capt. Revell and Lieut. W. D. Stroud, both of whom left Toronto with the Royal Artillery, have been awarded flying officers in the Royal Flying Corps.

QUEEN CITY LODGE, I.O.O.F. RECEIVES OFFICIAL VISIT FROM GRAND LODGE OFFICER, WHO REPORTS ON RECENT SESSION.

The regular meeting of Queen City of Ontario Lodge, No. 58, I.O.O.F., was held last evening in the Oddfellows' Temple, the chair being taken by C. Humphrey, noble grand. It was reported that one of the oldest members, Bro. (Major) A. Arthur, of Canton Kingston, No. 6, of Kingston, has died. He joined Queen City Lodge in 1879, and was one of the most valued and hard working members. He was also on the staff of the patriarcal militant and held the office of brigadier-general to that branch. An official visit was paid by Dr. G. M. Herminson, who has just returned from the sovereign grand lodge meeting in Louisville, U.S.A. He reported a very successful session and stated that a resolution had been adopted favoring the stand that the allies are taking in asking for a peace that will insure world-wide democracy. It was also resolved that all the military members be kept in good standing, and another resolution was passed upholding the government.

CONTROLLER TO ANNOUNCE PRICES TO BE FIXED

Will Shortly Name Articles on Which Legal Prices Are to Be Set.

Within a few days Hon. W. J. Hanna, the Dominion food controller, will announce precisely what action he intends to take in the matter of price regulation. It is his intention to name the articles on which he will fix prices and others on which he will not, giving his reasons for not doing so.

For some time past the food controller's staff has been engaged in compiling statistics in regard to price, and when the task is completed, as it will be in a few days, the food controller will take the public into his confidence.

Mr. Hanna states that already he has made a start along the line of price regulation by cutting down the profit of the middleman. This is not difficult in the case of commodities such as flour and butter, but is decidedly so in imported goods.

NEW PLANS RELIEVE THE COAL SITUATION

United States Administrator Will Control Shipping of Fuel Into Canada.

What appears to be an entirely new feature in the coal situation was shown in a communication received yesterday by H. A. Harrington, secretary of the coal section of the Retail Merchants' Association, from Dr. Garfield, the fuel administrator of the United States, outlining a system by which the distribution of coal from the United States into Canada will be entirely in his hands from September 25 on. This, according to Mr. Harrington, is a great boon to the Ontario dealers in coal, because it is bound to ensure an even and impartial distribution of coal, and the elimination of the coal broker.

Dr. Garfield, in this letter, which has been forwarded to every American coal operator, wholesaler and shipper of coal to Canada, asks these three bodies to send him a detailed statement of Canadian shipping as handled by them. This includes routing, tonnage on order, and amount of tonnage on order filled from shipment to any and all parts of Canada. Dr. Garfield also wants to know to what towns, district and province, the coal is going and whether by rail or water.

Mr. Harrington further maintained that this system will show Dr. Garfield what dealers have been suffering and it will also materially remove the burden from the consumer.

QUEEN CITY LODGE, I.O.O.F. RECEIVES OFFICIAL VISIT FROM GRAND LODGE OFFICER, WHO REPORTS ON RECENT SESSION.

The regular meeting of Queen City of Ontario Lodge, No. 58, I.O.O.F., was held last evening in the Oddfellows' Temple, the chair being taken by C. Humphrey, noble grand. It was reported that one of the oldest members, Bro. (Major) A. Arthur, of Canton Kingston, No. 6, of Kingston, has died. He joined Queen City Lodge in 1879, and was one of the most valued and hard working members. He was also on the staff of the patriarcal militant and held the office of brigadier-general to that branch. An official visit was paid by Dr. G. M. Herminson, who has just returned from the sovereign grand lodge meeting in Louisville, U.S.A. He reported a very successful session and stated that a resolution had been adopted favoring the stand that the allies are taking in asking for a peace that will insure world-wide democracy. It was also resolved that all the military members be kept in good standing, and another resolution was passed upholding the government.

TORONTO LODGE, I.O.O.F.

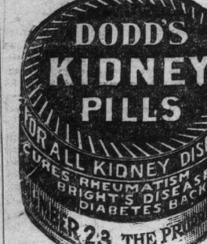

A presentation of a 25-year veteran's jewel was made at last night's meeting of Toronto Lodge, No. 71, I.O.O.F., in the Oddfellows' Temple to T. Carroll, by W. D. Slaght, past grand master, and a 45-year veteran's jewel to G. Quarrrington by E. M. Clapp, grand representative. The chair was taken by J. Rutven, noble grand, and during the evening the final arrangements were made for a fraternal visit to be paid to Danforth Lodge to confer the initiatory degree.

Continuing the Fall Exhibit of Furniture and Housefurnishings

Featuring Specially for Wednesday the Magnificent Showing of Draperies, Furniture Coverings and Wall Papers

New Fabrics for Curtains and Coverings

A Multitude of Lovely Weaves and Patterns—Cretonnes, Printed Linens, Shadow Cloths, Figured Velvets, Velours and Tapestries in Designs and Colors Befitting All Manner of Practical and Aesthetic Schemes of Furnishing.

WITH HAUNTING VISIONS of gardens and other loveliness of summer we turn now to live indoors. But bid regrets depart. Every prospect may still be pleasing. Here are flowers and 'luring color—velvets and tapestries that glow with rich hues, chintzes that abound with winsome patterns. Choose these for the curtains at your windows and the covers on your chairs, and your rooms will be places of charm—liveable and lovable.

The Drapery Department has been converted into a vast show-ground of fabrics suitable for all schemes of furnishing, from hand-woven Portuguese tapestry at \$8.00 a yard down to the little casement silk at \$1.00. Here are some of them:

Panne velours in deep old blue or mulberry, striped or figured with camel color—for portieres, heavy curtains, and coverings for Chesterfields and arm chairs. 50 inches wide. \$5.00 to \$13.00 a yard.

Plain Velours (for same purposes), in blues, amethyst, gold, grey and rose. 50 inches wide. \$1.35 to \$6.00 a yard.

Brocaded Damask, in blue and tan, mulberry and tan, and black and gold. For curtains and furniture covers in the handsomely furnished drawing-room. 50 inches wide. \$5.00 a yard. Plain silk of same weave, \$3.50 per yard.

Tapestry—for living-rooms, libraries, dining-rooms—in conventional, verdure and flower and fruit designs, many of them reduced from old hand-made wall tapestries. In cotton weaves, \$1.75 to \$4.00 per yard. In wool, \$5.00 to \$7.00.

Shadow Cloths in all-over floral patterns, in light and dark combinations of shades, suitable for practically all the rooms in the house. 50 inches wide. Prices, \$1.49, \$2.00, \$2.50, \$3.00 and \$3.50 per yard.

Printed Linens, in designs from old hand blocks in use in England two hundred years ago, the majority showing gay-plumed birds and quaint garden effects. 50 inches wide. \$2.00 to \$4.00 per yard.

Chintzes 30, 31 and 36 inches wide—a multitude of charming designs, many of them copies of old English glazed chintzes, others showing the formal art motifs of more modern usage. Priced 60c, 75c, \$1.00 to \$1.50 per yard. —Fourth Floor, Yonge St.

New Wall Coverings That Will Surely Charm You

Grass Cloth, English Chintz Designs, Stippled Effects, Tapestries, Two-tones, Stripes and Conventional Patterns, Dimities, Chambrays—Everything Fashionable and Fascinating for the Walls of the Large or Small Room.

SHABBY WALLS—the very breath of dreariness in a house! You who suffer from such will be ready to go into raptures over this showing of new papers. Their variety is infinite, running all the way from the quaint little rose-patterned bedroom paper at 10 cents a roll to the handsome Japanese grass cloth at \$1.50 a yard, and including beautifully soft stippled effects, for plain backgrounds, charming jaspe stripes in self tones and delightful English chintz designs.

Just to mention a few of the particular attractions:

Grass cloth in a whole rainbow of shades—blues, greens, browns, red, grey, sand, buff, yellow and rose, also silver, bronze and gilt effects. 36 inches wide, 50 cents, 75 cents and \$1.00 per yard. Patterned with stork and willow tree designs, \$1.50 per yard.

Stippled papers—in plain plaster grey, buff, cream and leather brown; ideal for living-room and dining-room walls. 22 inches wide. Price, \$1.25 per roll. With all-over stencilled design in self-tone, \$1.50 per roll. Borders stencilled in tones to match rugs and coverings, 10 and 15 cents per yard.

Self-striped papers in the buffs, greys, putty and tan shades much in demand for living-rooms and drawing-rooms. 21 inches wide. 40c to \$1.25 per roll.

English chintz papers, patterned with old-fashioned flowers, birds and vines—charming for drawing-rooms, bedrooms and morning rooms. 21 inches wide. Priced 50 cents, 75 cents and \$1.00 per roll.

Collection of winsome little papers for bedrooms and simple drawing-rooms—chambray and dimity, floral effects, jaspe stripes and dim, shadowy, conventional patterns. 18 inches wide. 25 cents per roll. —Fourth Floor, Queen Street.

Some of the Special Values in Furniture and Furnishings

BRASS BEDS—in bright or satin lacquer finish, with 2-inch continuous posts in simple attractive design. In sizes 4 ft. and 4 ft. 6 in. widths. Special, Wednesday, \$16.50 each.

Kitchen Cabinets, Canadian and American makes, clearing at a price at which they could not be bought at the factory to-day. These cabinets are in oak, dull wax finish, the tops have white enamel interior, and are fitted with wood and metal shelf, large automatic flour bin and sifter, glass and metal sugar bins, coffee, tea and spice glass canisters, 5 glass and wood paneled doors, base has 42-inch metal rust-proof extension top, cutting and baking boards, large cupboard for baking and cooking utensils, cutlery and linen drawers and large metal bread, pie or cake drawer, sanitary base, all complete for a rush clearance. Wednesday, extra special, at \$24.50. —Furniture Building.

Oriental Rugs—Shiraz and Kazak designs in characteristic colorings of blue, Persian red and ivory. In oblong and runner shapes up to 5 ft. by 8 ft. in size. Special value, \$49.50 each.

Stippled wall papers in plain plaster grey and soft leather tan shades, and in a two-tone brown stencilled pattern. Suitable for living-rooms, libraries, dining-rooms and halls. 30 inches wide. Special clearing price, Wednesday, 65 cents per roll.

Printed Linens for curtains and furniture covers—two charming designs: one shows large magnolia and green foliage patterning a purple, rose, or old blue ground—the colors delightfully blended. The other is a quaint English garden design of pink and red peonies, blue and green birds and lots of feathery green foliage. 50 inches wide. Wednesday, reduced to \$1.83 per yard. —Fourth Floor.

Be sure and see how the Marshall Sanitary Mattress is made—the famous mattress with 1,000 springs. There is an interesting demonstration of it in the Furniture Building.

Bedroom Furniture in the Fashionable Ivory Finish

Queen Anne and Louis XVI. Designs That Will Adapt Themselves Delightfully to Simple or Elaborate Plans of Furnishing, Being Especially Happy With Flowered Chintzes or Wall Papers.

IT COULDN'T HELP LOOKING interesting and charming—any bedroom equipped with the cream enamel furniture mentioned above. It is so essentially dainty, and, withal, so dignified, so pleasing in line, and so well fitted to the various needs of the room. Moreover, this ivory finish is particularly fashionable at the present time, lending itself so admirably to flowered papers or cretonnes.

Three suites are especially deserving of mention. Thus:

A delightful set in ivory enamel in Queen Anne style, shows the characteristic cabriole leg and shell motif, and boasts besides a quaint Chinese decoration of the willow scenic order in self tones. It consists of dresser with 48 x 22 inch top; cheftrope, 22 x 35 inches; toilet table with triplicate folding mirror, 20 x 40; cane-seated bench, night table, and double bed, 4' 6" wide, with chair and rocker to correspond. The 8 pieces complete, \$284.50. The same design may also be had at the same price in black walnut.

Another enamel suite is in Louis XVI. design, distinguished by the usual fluted legs and rope beading, antique gilt handles, and marked by a general simplicity of line and treatment. It consists of dresser with 26 x 38 inch plate mirror, 46-inch top, 3 long drawers, top one being divided into 6 compartments. Price, \$55.00. Chiffonier to match, \$51.00; triple-wing dressing table, \$42.00; full size bedstead, \$41.00; rocker, \$10.00, and chair, \$9.00. This design, too, may be had in black walnut.

A third suite in simple modern design is characterized by the familiar reed and ribbon motif of decoration, and consists of dresser, 44 x 21 inch top, at \$48.00; chiffonier with mirror, \$40.00; toilet table with triplicate mirror, \$38.00; bench to match, \$9.50; double bed, \$38.50; chair, \$9.50, and rocker, \$10.25. —Furniture Building.

Rag Rugs for Dainty Bedrooms—Blue, Pink, and Green

You May Have Them in Real Old-time "Hit-and-miss" Weave, or Plain With Flowered Bands Across the Ends—Either Kind Ideal for the Simple Cottage-style Bedroom.

FOR THAT QUAINT LITTLE BEDROOM with the chambray wall paper and white muslin curtains, what kind of rug are you going to choose? At any rate, before you make up your mind, look at these interesting rag carpets. You will find them in practically any color you could want—heliotrope, rose, green, brown, blue, grey or yellow. The choice includes two styles.

The old-fashioned "hit-and-miss" rag rug, priced as follows:

27 x 54 inches.....\$1.95
4 ft. x 7 ft.....4.75
Also larger sizes, up to 9 x 12 ft., at \$16.50.

Rag rugs, with plain centres and chintz borders, in the colors above quoted, at these prices:

24 x 36 inches.....\$1.25
36 x 63 inches.....3.50
27 x 54 inches.....\$1.95
Also larger sizes, up to 9 x 12 feet.

And when you visit the department make a point of seeing the old hand loom at work—turning out rag carpets of the real old "hit-and-miss" style. —Fourth Floor, James St.

You Were Inquiring?

"Cornflower."—For that room with the faded complexion, curtains of clear blue silk would make a vast improvement. There is a denim in the right cornflower tint with a self-tone diaper pattern that would serve the purpose excellently. It could also be used to cover the chair. It is 36 inches wide and 75 cents a yard. Or, if you thought it too heavy for the curtains, there is a china silk of the same shade—60 cents a yard, and a sundour casement cloth (50 inches wide) at \$1.00 a yard. Any of the materials mentioned would make an admirable foil for the white enamel dressing table, etc., and blue is always charming in a sunshiny room. We shall get the "Shopping Service" to send you a few clippings of the different materials mentioned.

Vivian.—The hat of your desire may be had for \$5.50—black velvet sailor, high crown, medium brim and band of black corded ribbon. The only "stall of difference" is that the bow is tied in front instead of the back. But 'twill be a mere detail to swing the band around.

"Alice Ben Bolt."—Well, "Sweet Alice with all the brown hair," you seem to have a very pretty room in which to ensconce yourself. One felt particularly interested in looking out a chintz for the old walnut chairs. What would probably harmonize best with the Persian rug is a certain shadow cloth—a rather unusual, formal design of roses and foliage, with a touch of the blue-purple you describe. It is 50 inches wide and \$3.50 a yard. In a single width chintz—30 inches wide—there's a charming pattern of blue cornflowers and deep rose peonies, which you may have on either a cream or tan ground—priced, \$1.50 a yard. If the two blues will not clash it should serve admirably with your rug.

"Knitter."—Are you going to knit your scarf single or double? For a set of cap and scarf, the latter 10 inches wide and 60 inches long, it would take 6 skeins if the scarf is to be single, and 12 inches if double. You may have the Columbia Shetland flees in a deep shade of cerise—also red. It is 40 cents a skein.

The Scribe.

For Wednesday, the Third Day of the Opening Display of Fall Millinery, Will Be Featured

Dress and Tailored Hats for Misses and Children

Hats for School, Playtime and "Best," in Which Will Be Emphasized the Ever-popular Mushroom Shape, the Jaunty Little "Chin-chin" Sailor With the Brim Rolling Upward, and the Broad Flat Hat to Be Worn On Sundays and Special Occasions.

Velvet is the material in highest favor, with chenille, velour and beaver also in evidence. And four out of five hats shown have soft crowns. Navy blue, brown, taupe, grey and beetroot are the ruling colors. Prices run from \$3.50 upward. —Second Floor, Yonge St.

MILK PRODUCERS WILL STAND OUT
Association's Executive Decides to Insist Upon New Prices Set. STATEMENT IS ISSUED
Organized Farmers Explain Why Their Prices Are Being Advanced.

At the meeting of the executive of the Toronto Milk Producers' Association in the York County Chambers on Adelaide street yesterday afternoon it was practically decided that the producers would stand by their prices, namely \$2.50 for an 8-gallon can of milk delivered to the city dairies, and 66 cents per pound butter fat for cream, freight prepaid. The following resolution was passed:

"Moved by E. A. Orr, seconded by W. Forester, that the secretary be instructed to notify the secretaries of all the local associations, requesting them to inform their members of the decision arrived at at their annual meeting recommending the price of \$2.50 for milk and 66 cents for sweet cream."

Dealing with the price paid for milk by the various evaporating plants throughout the country E. H. Stonehouse of Weston, president of the association, said that taking everything into consideration the price mentioned was practically equivalent to the new price fixed by the producers to be charged the dairies.

"We are asking \$2.30 net only, per can, while buyers representing firms in the United States have been paying as high as \$2.47 net per can, in the neighborhood of Brockville, for milk to be taken across the border. He added that "in the United States an agitation to stop the natural rise in the price of milk had resulted in a serious condition, namely a decrease in production. In Canada, he said, we are trying to fix prices that will encourage producers to remain in the business and in this way serve the interests of the whole trade."

The food controller's desire that the producers wait until after October 31 before attempting to raise their prices to the retail dealers has apparently been pointedly refused. The Producers' Statement. The Stonehouse gave out the following statement: "For many years the producer has been operating at a loss. This is due to the fact that in the beginning he sold milk as merely a side line, and some other branch of his business made good the loss, but since the demand for milk and its products has increased so enormously, many hundreds of farmers have gone exclusively into the production of milk as a business. It soon became evident that if this great industry was to prosper, business methods must be applied and some plan adopted whereby the interests of the milk trade could be conserved. To this end the Toronto Milk and Cream Producers' Association was formed and its efforts have been directed not only to obtain fair prices for milk producers and protect its interest, but to co-operate with every effort being made to place milk in the hands of the consumer in a wholesome and sanitary condition and at a reasonable cost."

The reasons for the present advance in price from \$2 to \$2.50 per can delivered at dairies are as follows: (1) Increase in cost of feed which has been shown to have advanced 30 per cent. in five years, whereas milk has advanced but 25 per cent. (2) Labor, which has advanced 100 per cent. (3) Milk cows, 80 per cent. (4) Cartage, which has come up 5 cents to 8 cents per eight-gallon can. (5) The utensils and machinery used in our business as well as the high cost of living which we feel as acutely as any other class in the community.

May Stop Production. "If the increase is not obtained large numbers of farmers will go out of the business, indeed many have expressed their intention of so doing, claiming that it will become profitable to dispose of their high-priced grain and fodder, and obviate the necessity of buying high-priced concentrates, and of obtaining costly and often inefficient labor. "Also a large demand has developed from the United States. Buyers from across the border are buying milk at higher prices than those asked by the association. I am informed that large quantities have been disposed of in the vicinity of Brockville at 87 cents hundred at the farm, which would be equivalent to \$2.67 1/2 per can delivered. In setting the price our association has taken all these things into consideration, our object being to obtain a fair price for the producer, to conserve the interests of the consumer, to stimulate and encourage production and avert a condition the seriousness of which is only known to those who have made a careful study of the whole situation. "In conclusion let me say that I cannot understand the position taken by milk dealers and others who presume to dictate to us without knowing the conditions, and why the milk producer should be singled out when the price of every other article of domestic consumption has been so enormously increased and no effort put forth to find where the responsibility rests."

Western Opinion. In an editorial entitled "The Dairy Industry," the Winnipeg Farmers' Advocate of September 19, says: "The conditions surrounding the dairy industry of western Canada are, in general, compared with those of eastern Canada and the United States. In the latter country thousands of dairy cattle have come to the shambles. Milk and butter prices have not advanced in proportion to feeds and labor necessary for production. "The American dairy farmers are strenuously clamoring against any advance in retail milk prices. This is natural since they wish the goodwill of the consumers in which cities

their circulation is located. The retailers with difficulty raise prices opposed by public opinion, and they cannot afford to give higher rates to the milk producer. The latter find the present remuneration unprofitable because of advancing feed, and labor prices, and the sequence, due to discouraging conditions, is the sending of their breeding stock to the butcher. Milk prices will soar, forced by the inevitable increasing shortage of it. When the point has been reached in its avian that the producer is assured of good profits then the demand for milk will be satisfied by increased production. "Our dairy industry in western Canada is on a more favorable basis than this. In the main dairy products come from the 5 or 10-cow herd of only one or several lines of production. The feed cost has not materially increased because milk is chiefly made from the cheap pasture and hay lands and not with high-priced grain. The outstanding problem the farmers are meeting is the labor problem. However they are mostly family farms where milk is produced and the increase in the price of butter fat for the most part being sufficient to offer the farmer as good returns for his labor, as in most other lines of production. The farms on which the selling of milk, cream or butter has been discontinued are invariably those that require hired help for this work and those located in natural wheat-producing sections, where the labor can be more remuneratively employed in the production of wheat. The dairy industry continues to prosper in the natural stock districts, and more especially on family farms there located."

A Producer's Opinion. A. J. Reynolds of Hampton, Ont., secretary of the Milk Producers' Association, has sent the following to The World: "Editor World: In view of the fact that milk and cream producers are asking for an increase in prices, I deem it a duty to give some reasons for the proposed increases. It is true there is a good crop of hay and oats, but the corn and root crops will not be quite an average yield, but the high prices of all kinds of grain necessarily cause correspondingly high prices for all concentrates. To the producers usually purchase. To show some of the increases I give comparative prices for 1912 and present prices: It was considered when the price was raised to \$2 per can in the fall of 1916, that the producers could make a little profit, but the unprecedented rise in prices of grain and concentrates later in the season prevented any such anticipated returns. It must not be forgotten that in the case of milk the producer has freight and cartage to pay, which will average 25 cents per can or more besides having to deliver it at the station and assist in placing it on the train. It seems about time that farmers were beginning to think and act for their own benefit. Does it seem unreasonable that a farmer should expect to receive a reasonable return on his investment as well as fair wages for himself and his family? To quote a short paragraph from a leading agricultural journal which I read recently will put the case very forcibly: "If the farmer receives wages he gets no interest, or if he gets interest, he receives no wages, and the boy leaves the farm."

The producers of cream consider that the prices which have hitherto been paid for sweet cream are not in proportion to the increase in the price of milk. The producers do not wish to unduly criticize the methods of retail dealers. They do not, as a rule, expect to realize more than 62 cents from an 8-gallon can, as there is always some waste in handling. Then, their expenses have materially increased in wages, cans, bottles and other accessories as well as the restrictions of the board of health. I believe if consumers will take a reasonable view of the difficulties and expenses necessary in the production of the milk, they will have a better understanding of the situation. The price of food, they must expect to pay increased prices. A. J. Reynolds.

Dealers Will Not Talk. R. H. Pihl, secretary of the Toronto Milk Dealers' Association, was asked for his side of the story, and replied: "Yours to hand, re kind offer to publish in your paper the city milk dealers' side of the present price contract issue with the producers. We thank you, but it is not our wish to enter into anything controversial in regard to anything that has been said or done, and that it will have a tendency to lessen conditions, especially with the poorer classes of our citizens. R. H. Pihl.

OTTAWA MILK DEALERS ARE READY TO ACCEDE But They Say That the Producers Must Be Equally Willing. Ottawa, Sept. 24.—"We are willing to accede to the food controller's request not to advance the price of milk to the consumers until November 1, provided the producers are equally willing," said an official of a local dairy company this morning, who explained that on September 1 the producers received an advance of one cent a gallon and were promised an additional increase of two cents a gallon on October 1. "This would necessitate an advance of one cent a quart to the consumers on October 1," he said, "but if the producers are willing to forego their increase until November 1 we will be equally willing to keep the old price."

CONFER ON MILK SUPPLY. Vancouver, Sept. 24.—In response to a request from Hon. W. J. Hanna, Dominion food controller, Mayor McBeth has appointed Ald. Hamilton to represent the city at a conference with the food controller on the question of the milk supply and the supply of produce. Ald. Hamilton will leave for the east on Wednesday.

MINIMIZE THE FIRE PERIL BY USING EDDY'S CHEMICALLY SELF-EXTINGUISHING "SILENT 500'S" EDDY The Matches With "No Afterglow." EDDY is the only Canadian maker of these matches, every stick of which has been treated with a chemical solution which positively ensures the match becoming dead wood once it has been lighted and blown out. Look for the words "CHEMICALLY SELF-EXTINGUISHING" on the box. THE E. B. EDDY COMPANY LIMITED HULL, CANADA

MR. CHARLES RICHMAN The distinguished Lasky star who won fresh laurels in "The Public Be Damned" at the Strand yesterday.

Trade Topics. The week opens with little change in trade conditions; general receipts well maintained and a light failure list. In drygoods, wholesalers are busy, and travelers are sending in small orders freely, and good sorting-up demand for textiles mills are working to capacity. Seasonable weather has brightened up the retail trade. In boots and shoes, manufacturers are sending out spring samples, but buyers are moving cautiously. Some army orders are reported, and the trade expects further government commands when conscription comes in force. There is only moderate activity in hardware, as building operations are restricted. There is an export movement in paints, and manufacturers are busy for the season. In groceries, staples are moving freely and there is little change in values. The shortage of the apple crop has resulted in the speculation of orders for evaporated apples by western packers. Prices are firm in canned goods, and canned meats are in demand. Druggists' houses report slow delivery from the mills. The hide market is easier and stamping, clearing portions of the land, building roadways and railway sidings and getting the place into a habitable condition. Considerable progress is being made in the returned soldiers' colony at Kapuskasing, according to Albert Grigg, deputy minister of lands and mines, who has just returned from a visit to the colony. Sines cottages are finished and occupied, and 13 of the men have their wives with them. During the past two months the soldiers have been engaged in the construction of the land, building roadways and railway sidings and getting the place into a habitable condition. AVIATOR SAW BLAZE. Flying low Sunday afternoon, an aviator from Camp Borden informed a boy that the barn of Harry Legge, Oak Ridge, was on fire. The boy told some men in the vicinity, and they rushed off to the scene of the blaze, but despite their efforts the barn was destroyed. The fire is believed to be of incendiary origin. The aviator had noticed the fire while on a trial flight.

MISSIONARIES FOR CHINA. Among missionaries who are returning to China this week by the steamer Empress of Russia are Miss Margaret Macdonald of the Presbyterian Church, who is proceeding to her post in Honan, and John L. Macpherson of the Y. M. C. A., bound for Hongkong. Mr. Macpherson will be accompanied by his wife and family.

SUES FOR DAMAGES. Before Judge Denton in the jury court yesterday morning an action for \$500 damages was begun by William Worthington, a carpenter contractor, against David Springman, for injuries claimed to have been sustained through being hit by defendant's motor car. Rev. Trevor H. Davis, the newly appointed pastor of Metropolitan Methodist Church, is expected to take his first services here on Sunday, October 7. Word has just been received that the new pastor is on his way from England on an army transport. HAMILTON BOATS—CHANGE OF SCHEDULE. There will in future be but one boat a day each way. Boat leaves Toronto at 5.30 p.m., Hamilton 9 a.m. (Sunday service has been discontinued.) Boats are running to Niagara as follows: Sunday service, 8.15 a.m., 2 p.m., 5.15 p.m. Daily service all this week: 7.30 a.m., 11 a.m., 2 and 5.15 p.m.

FOR THE EMPIRE. Pte. Ryman Chapman, of Newmarket, is reported killed in action. He was 20 years of age. Bomb. L. Ashill, formerly of 81 Bolton avenue, was killed in action Aug. 1. He was 29 years of age, and a reservist of the Royal Field Artillery. Pte. Walter J. Brown, 10 Vennahy street, reported in previous list as missing, is now listed as killed. He was 22 years old. Pte. F. W. Stanley, previously reported missing, and presumed dead, is reported killed in action. His wife and little daughter live at 262 Bellwoods avenue. Pte. Joseph Blanchfield, whose relatives live at 681 St. Clair avenue, is reported killed in action. He was 18 years of age. Bomb. W. F. Burley, severely wounded on Sept. 8, is now reported in the list of wounded. A sister lives at 150 Taddington avenue, North Toronto. Lieut. C. H. A. Bell, 56 Indian road crescent, is reported slightly wounded, but able to remain on duty. He is 25 years of age. Lieut. E. Miles, son of Sergt. William Miles, of the Toronto police force, is reported wounded. His wife is resident at present at Centre Island. C.S.M. A. C. Macmillan, 87 Langley avenue, is reported wounded. He is 24 years of age. Sergt. F. C. A. Houston, 58 Ashburnham avenue, is reported wounded. He is 20 years of age. Sergt. A. C. Baillie, 10 Toronto street, is reported as wounded in the face and left arm. Lance-Corp. J. C. Struthers, 881 Carlaw avenue, was wounded on Sept. 17. He is 24 years of age. Pte. Ewart L. Baird, 136 Symington avenue, has been wounded in the arm. He is 19 years of age. Pte. Robert McLennan, who joined the army in Toronto in July, 1915, is reported wounded. Pte. G. W. Shebridge, 933 West Queen street, is suffering from gunshot wounds in the head by gunshot on Sept. 17. He is 34 years of age. Pte. Alex. Ingram, 25 Eglon place, is suffering from an accidental wound in the arm. He is 35 years old, and married. Driver Howard R. McComb, 272 Crawford street, is listed as wounded. He is 24 years of age. Pte. W. J. Chapman, 50 Arnold avenue, is suffering from gunshot wounds in the hand. He is 32 years of age. Pte. J. Templeton, 39 Arlington avenue, is reported wounded. He is 21 years of age. Pte. George Stead, 47 Seaton street, is suffering from concussion. Pte. T. L. Trusler, 453 Meagher street, is reported gassed. He is 33 years of age. Driver J. V. Robertson, 55 Alexander street, was gassed on September 8. He is 20 years of age. Lieut. S. Lorne Crowther of the 29th Squadron, France, is reported missing since September 20. He is 21 years of age.

SEVERAL VARSITY MEN HONORED FOR GALLANTRY. Capt. R. W. Catto, Capt. J. S. Bell, and Lieut. A. B. Fennell Win Military Crosses. The latest list of Canadians decorated for gallantry contains several names of varsity men. Capt. J. S. Bell who came down to University College from Cheshley with the class of 1911, has been awarded the Military Cross. He went overseas as lieutenant of an infantry battalion in the spring of 1915. Similar honor has been conferred upon Lieut. Arthur Bertram Fennell, a B.A. of Victoria College and later a master of arts at the university. He subsequently taught at Albert College. He went overseas as a lieutenant with a university company early in 1916, and was transferred to the Canadian Field Artillery. Capt. Ronald Wallace Catto, son of James A. Catto, 21 Roxborough street, has also won the Military Cross. He is a B.A. of 1915. He went overseas in 1916 with the R.F.C. as second lieutenant, and last December was transferred to the C.A.S.C. Later he served as lieutenant of the 19th Battalion, and was promoted to captain.

GERMAN PAPER SUPPRESSED. Guatemala City, Guatemala, Sept. 24.—The German daily newspaper Eco Aleman, published in Spanish, which has been active in its hostility to the entente, has been suppressed.

Repeal Order Canceling Working Pay for Veterans. According to official information received by the G. W. V. A., the order in council of January, 1916, cancelling working pay for returned soldiers, has been repealed. Army tradesmen discharged on stoppage of working pay will receive the pay due to them to date of discharge. Chauffeurs of mechanical transports in particular were penalized by the working pay stoppage, but to blacksmiths, cooks, tailors, cobblers and all classes of tradesmen the working allowance of 25 cents to \$1.50 a day, as the case may be, will be paid now. The ledger sheets have been transferred to the casualties paymaster from England to Ottawa. PROV. REVENUE INCREASES. The provincial revenue has increased \$250,000 this year over last through the sale of motor licenses, according to W. A. McLean, deputy minister of highways. Last year there were 50,000 licenses issued in the province, while to date the total this year is 75,000. The total revenue from this source totals \$900,000. JUDGMENT RESERVED. On a charge of breaking into the bakery of H. Gonla, 181 Elizabeth street, on the night of August 19, Morris Billinski of 109 Walton street appeared before Judge Coatsworth in the session court yesterday. It was charged that he stole the sum of \$294, but judgment was reserved until today, bail being fixed at \$1000 as before.

AIRMEN MOVE SOUTH FOR WINTER TRAINING. Detail, Under Major J. S. Scott, Leaves to Prepare Camp in Texas. According to reliable authority the migration of the Royal Flying Corps for winter training in Texas has begun, and a detail in command of Major J. S. Scott, an English flying ace, is en route now for the purpose of preparing for the flyers, who will constantly follow until the designated number for the south has left Canadian soil. By the end of the year, at least, it is anticipated that every man assigned to the southern training grounds will be there, and two aviation camps in Canada will be deserted. But this will make no difference to the training of the cadets already undergoing preliminary training here, nor to the enlistment of additional men for the R. F. C. The Military Service Act is accelerating enlistment in the R. F. C., and recruits of high standing are dribbling in daily. Owing to the promotion of Col. Hoare to brigadier-general, the following promotions have been necessary: Lieut.-Col. D. L. Allen to A.A.G.; Major J. Rubie to signal master; Lieut. J. M. Mitchell to staff captain in the R. F. C.

CANADIAN PACIFIC RAILWAY. Effective Sunday, Sept. 30, general change of time will take place. Consult changes of time table. Consult passenger agent, Toronto, for particulars.

G.N.W. OPERATORS NOW ON STRIKE

Many Tickers Are Silent and Men Are Confident of Victory.

COMPANY EQUALLY SO General Manager Says Comparatively Few Have Gone Out.

A large and enthusiastic meeting of the striking Great Northwestern Telegraph Company operators was held last night in the Labor Temple on Church street, the international president, S. J. Koenenkamp, occupying the chair and addressing the meeting.

A. Dawson, general chairman of the Canadian Pacific Railway operators, also addressed the meeting, and pledged the support of the C.P.R. operators, both financial and otherwise. He also pointed out the strong bond of sympathy that united the operators of the two companies in the fight for better wages.

Of the 70 Morse operators employed in the Toronto office of the G.N.W. only seven refused to join the strikers and remained on duty. The Canadian financial world felt the effect of the strike yesterday afternoon when the ticker services at the various stock exchanges were suspended. These services were run entirely by women, and all of these walked out yesterday afternoon in sympathy with the Morse operators.

It was stated at the Labor Temple last night that every office of any size was being worked by officials, who were doing their best to keep up the service of the company. It was also said that the statement made to the effect that the government had submitted a counter-proposition was entirely without foundation.

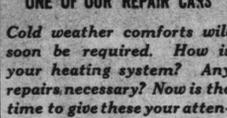

In Hamilton the wire chief and manager are trying to handle the business. At London three of the four operators are out, also one city lineman, the foreman and six district linemen, while at Winnipeg the office is practically closed, several of the junior officials walking out with the men.

Company Makes No Statement. An official in the G.N.W. offices, when asked by a reporter for The World as to whether the strike was interfering with the usual run of business, stated that he had nothing to say, but that things were running smoothly.

Pickets were placed outside the company's offices at an early hour last night, and an elaborate system of relief planned so that the conveying of the remaining workers could be carried out when they were leaving and the shifts being changed. It was also stated that the company had bought several beds and had placed them in the lunch room so as to keep the operators as much as possible on the job. The girls that are at present employed by the company are working an average of 15 hours a day, and the

Cold weather comforts will soon be required. How is your heating system? Any repairs necessary? Now is the time to give these your attention. We are ready to help you. Phone your address today.

men are practically at the key all of the time.

All of the strikers spoken to at the meeting last night were more than enthusiastic, and were quite sure of a successful outcome of the strike. Senator Robertson of Welland will address a meeting of the operators in Montreal tomorrow.

"We have the right on our side, and we are confident of success," stated Mr. Koenenkamp. "About 95 per cent. of the men from the Toronto office are out on strike."

Geo. D. Perry, general manager of the company, disagrees however, with the estimates of the men, his contention being that not more than 77 of the men have gone on strike.

"Do you expect to import operators for the purpose of breaking the strike?" he was asked.

"I do not think such a step will be necessary," he replied.

The men are prepared for a siege of 10 days or two weeks.

Strike is General.

Reports received in Toronto last night indicate that the strike is general. A despatch received from Saskatoon stated that all eighteen operators employed by the G. N. W. worked at 8:30 yesterday morning, while at Regina both operators and linemen went out on strike, leaving only the manager to maintain the service. With the exception of the manager and one girl clerk, the Moose Jaw office of the telegraph company is entirely deserted. All telegraphic business was refused.

Prince Albert is feeling the situation very keenly, all the operators there being out on strike also. One man alone is left in the office to take care of the batteries of the Canadian Northern wires which are located in the G. N. W. office. All towns in northern Saskatchewan are being exclusively by the Canadian Northern Railway, and considerable inconvenience is being experienced as a result. The operators desire to transmit all messages. O. H. Daniels, local manager of the G. N. W. Telegraph Company in Vancouver, B.C., stated that the strike of the operators had not extended west of Calgary, and that consequently the service in British Columbia had not been affected.

CIVIC EMPLOYEES GET INCREASES

Council Approves of Advances After Several Hours' Warm Discussion.

OTHER MONEY VOTES Adopts Recommendation to Pay for School Board Investigation.

Fresh from a vacation extending over two months, the members of the city council gathered at the regular meeting yesterday afternoon full of vigor, talk and fight, and for more than six hours there was a debate with very few dull moments.

As is generally the case after the period of rest, the board of control, which is responsible for the government of the city during the holiday, was subjected to a somewhat severe verbal bombardment, and Controller O'Neill had a strenuous time defending their position. The board was chiefly assailed by Ald. Beaslieh and Ald. MacGregor, who declared that the presentation of a section of the report dealing with salary increases to employees did not encourage intelligent discussion. Casting aspersions on the Canadian and O'Neill had a strenuous time defending their position. The board was chiefly assailed by Ald. Beaslieh and Ald. MacGregor, who declared that the presentation of a section of the report dealing with salary increases to employees did not encourage intelligent discussion. Casting aspersions on the Canadian and O'Neill had a strenuous time defending their position.

As anticipated, the recommendation of the board of control authorizing increases in salary to a number of officials in several of the departments, provided the best of the discussion. Controller O'Neill led the opposition to the recommendations, and declared that the council should have been settled by the council when the estimates were considered.

Mayor Church very emphatically stated that the whole matter was illegal and reiterated this statement many times during the discussion. But strangely enough he voted to increase the salaries of H. A. Rowland, of the finance department, and W. E. Braden, of the juvenile court. This peculiar action puzzled the members of the council.

Without discussion the council adopted the recommendation to provide the necessary funds for the purpose of investigating the affairs of the building department of the board of education. Ald. Beaslieh originally strongly favored the Lyle law providing for the construction of the new court which will connect Danforth avenue with Broadview avenue with the Blue street. Controller O'Neill voted alone in opposition when the bill was presented to the council. Asked for an explanation of his vote, Ald. Beaslieh stated that there was no good reason for the payment of the money.

War Grants Discussed. Council sanctioned the appropriation of \$100 for repairing a section of the street from Farnham avenue north. After a long discussion on the distribution of the money, the council decided to refer the matter back and hold a conference with the finance committee on the subject.

The chairman of the various committees with Alderman Dunn as its president, appointed a committee to consider what action the city should take to reduce the high price of meat.

Objected to Increases. When the recommendation of the board of control asking the council to authorize salary increases in a number of special cases came up, a favorable report had been submitted by the head of the department in each instance, but the council was not prepared to accept the recommendation. It was contended that when the estimates were being considered, the council should have considered the question of salary increases and held that further consideration should be delayed till next year.

If any official was not satisfied with his salary, as far as he was concerned, he would be free to go and do better elsewhere. He moved that the question of increases be referred back for consideration.

Ald. Beaslieh declared that if the council adopted the recommendation it would make a hornet's nest for itself. There would be applications from every official in the city for an increase, he said. Ald. Ramsden objected to increases at this time of the year, and thought that there should be some time for dealing with them. The only increases he would favor would be to the soldier employees overseas, who had been overlooked in the last adjustment.

The mayor told the members that they had no authority to give increases, and that the whole discussion was illegal. There would be no more applications if any increases were given. The action would open the flood-gates for all the employees in the city. The proper time to deal with salaries was when the estimates were being considered, and the council should have provided for it in the estimates.

Must Pay. "If you want to get service you must pay for service," said Controller Cameron. "It is unfair," he said, "that you should be content to stay at that salary, and then trouble a mechanical institution. The heads of the departments have demonstrated that they cannot give efficient service without proper salaries. I would not say to the head of a department that this council does not care for the needs better than he does. We have the bright spots in the city, leaving no other institutions behind. We have no other departments. Mr. Nixon, in his opinion, had shown capacity above any other member of the department. The city so badly equipped as it was, could not afford to dispense with his services."

Ald. Maguire had a word of praise for the special cases to be dealt with. Since that time the matter had been before the present time. Every business man in the city knew that to keep their competent officials they had to pay their high wages. He did not hold any brief for Braden, but he thought that he should be paid a just salary under the present conditions. Some of them were indispensable and had been the means of saving the city thousands and thousands of dollars.

Controller O'Neill said that it was understood that special cases were to be dealt with by the council, and that the principle of permitting the heads of departments to have a right to some salary if they were not able to properly hold their positions they should be discharged. There was only one way to have efficient officials, and that was to have good men and pay them their proper worth.

Salaries Too Low. Ald. Gibbons said that it would be all right to have a set time for increasing salaries if there were a fixed time for increasing the cost of living, and Ald. Whetter ridiculed the idea of asking people to sign their names to a living wage and wages very low. Some of the officials of the city could not live on their salaries, he said.

When the council reached the recommendation to increase the salary of W. E. Braden of the juvenile court, the council was split. The mayor remarked that the application was right, as Braden had been promised \$1200, but didn't get it. He favored the increase. Ald. Nesbitt stated that Braden came to the city employ from the Mimico Industrial School, where he was only receiving \$600 a year. He said that partially had been shown in the juvenile court as there were more competent officials with longer service who had not been recommended for an increase.

Discussing the Nixon recommendation Ald. Beaslieh said that the standard of the assessment department was not as high as other departments. Mr. Nixon, in his opinion, had shown capacity above any other member of the department. The city so badly equipped as it was, could not afford to dispense with his services.

Ald. Maguire had a word of praise for the special cases to be dealt with. Since that time the matter had been before the present time. Every business man in the city knew that to keep their competent officials they had to pay their high wages. He did not hold any brief for Braden, but he thought that he should be paid a just salary under the present conditions. Some of them were indispensable and had been the means of saving the city thousands and thousands of dollars.

Home From the Country--Your Children Are Back to School Again

WE do not need to ask if the children have enjoyed themselves. It is plainly written on their well-tanned, happy faces. Summer sun, country air and lots of country milk have put new life in them. Have made them able, mentally and physically, to make a success of their studies.

But in order to maintain the good work of the country they must have all the country milk you can give them. Such milk as the Farmers' Dairy milk which comes fresh from the farms of our own shareholders to our modern, sunshine

flooded, sanitary dairy. Here it is scientifically pasteurized and bottled by machinery. This milk is rich in cream, pure and wholesome. It will help to keep your children healthy and happy.

Get This Healthful Milk Today

As you have your children's welfare at heart you should get this milk. Duty demands it. It is better than ordinary milk, yet it costs no more. Order today and have our salesman call tomorrow. Write or phone your order—or, better still, give it to our salesman who passes your door.

argued that the brothers and sisters of the men residing outside the city had a right to the insurance, but Ald. Gibbons contended that only those dependent on the soldiers should be made beneficiaries.

For Palestine Relief. Controller Foster and Ald. Robbins wanted information on the recommendation to grant \$2500 to the Palestine War Relief Fund, and the latter moved that it be stricken out of the report. Ald. Singer explained that the money was for purely war relief work. Jews had been rendered homeless in Palestine, and the money was being used to assist them. It was similar to the work of the Red Cross.

Controller O'Neill said \$2500 was not too much for the city to give. They were all fighting for the same cause and were all suffering in the same manner. He hoped there would be no discrimination on a racial basis. Ald. Ball said the grant was a distinct assistance on behalf of a large portion of the city, and thought that the sum was a very modest request on the part of the Jewish people.

GERMANS DEPORT BELGIANS. Havre, Sept. 24.—The Belgian Government is advised, according to official announcement, that the Germans continue numerous deportations of men from Roulers, Menin, Werwiq and Warneton, sending them to forced labor on trench and fortification work behind the lines and in Germany.

WAR SUMMARY THE DAYS' EVENTS REVIEWED

THE enemy carried out over England last night the largest airplane raid yet recorded. His machines attacked Kent, Essex, London and the northern counties. The assault in London lasted 45 minutes. He has concentrated upon the building of airplanes, and this menace, from being a nuisance, is passing into a danger. It is generally recognized that possession of the Belgian coast is giving the enemy a great advantage for beginning these raids. He has only a few miles of sea to fly over before reaching the English coast, so his machines often begin the bombing before the alarm is sounded and people seek refuge in their cellars. An attack on Paris is an altogether different matter from an attack on London. To reach Paris the German machines have to pass over a stretch of land bristling with anti-aircraft and other guns, so that if a machine escapes being shot down the alarm has preceded it long enough to enable the French defence to prepare a warm reception.

The chief news afforded by the despatch from Sir Douglas Haig in Flanders last night is the fact of German raids at Monchy-le-Preux, at a point south of the Arras-Douai Railway, and west of La Bassée. This activity betrays the anxiety of the enemy concerning British projects and preparations in the triangle formed by La Bassée, Monchy and St. Quentin. The Germans evidently expect an attack from the British of the artillery fire, but they are uncertain as to the exact site of the battlefield. British patrols on the Belgian battlefield have passed an active day, bringing in many prisoners.

The capture of a German official report by the general staff shows that the enemy has placed the allied superiority in munitions rendering the German defensive system untenable. The new scheme recommended by German commanders for defence is the holding of a deep zone by a concentration of troops and to mass the bulk of the soldiers in the subterranean recess far in the rear. These are elaborately described. The whole aim is to screen the German soldiers from the allied shell fire. This new system shows that the enemy is banking on resources to confront and maintain his ground against an allied advance preceded by the full weight of allied gunfire.

The object of the Russians on the Riga front appears to be the fighting of fierce local actions to worry and wear down the Germans. Their latest exploit is the capture of German positions in the Silzeme sector, south of the Pakoff high road. These fights serve greatly to raise the morale of the Russian soldiers after the weakening of their fibre by propaganda. The enemy remained inactive in the Jacobstadt region, west of the Dwina, and his vague claims of capturing food and so on rather betray the barren results of his attack. It is a rule of German official communication, whenever Germany achieves something important, to give full statistical details. It is a strong characteristic of the German to be statistical. When he cannot indulge in this fondness, it is evident that he has few statistics to reveal.

The German crown prince forced on the French at Verdun yesterday a heavy action. It ended in the defeat of the enemy. No fewer than five assaulting waves of Germans dashed themselves to pieces against the allies' unshakable defence. The battles surged about the Bois-le-Chaume, Bezonvaux and Beaumont. The French, sometimes, did not wait for the Germans to reach their trenches, but went out to meet them. The Germans, as usual, in the defeat of their massed attacks, suffered quite heavy losses. This action was preceded by heavy bombardments, and it lasted for several hours. It was an engagement joined to wear down the French by compelling them to make costly counter-attacks, but as a rule the French fire sufficed to defeat the German intention without the soldiers exposing themselves.

President Wilson, in his political exposures of the working of the enemy in the United States, is going to disclose the names of a great many persons in German pay. The activity of the foe extended even to Canada and it affected a Montreal league of anti-British agitators. The allied peoples are just beginning to realize the gigantic branchings of the German spy system. France is cleaning up her government and officialdom and ferreting out the German agents. These have long revealed to the enemy the plans of the allies. After this house-cleaning is finished, the allies will be able to fight with one less big handicap to their success.

Ready-to-Wear Suits

Great display of the choicest and latest productions in Women's Autumn and Winter Suits, our stock being constantly renewed with every late model developed. In spite of advanced cost in materials, we maintain standard of quality at prices that meet economy requirements. Our assortment of styles is exceptionally attractive and is displayed in all the favored fabrics and colors for Autumn wear.

Ladies' Coats

Our assemblage of Autumn and Winter Coats is very select, embracing the latest in style and fabric, and including a fine range of single pattern garments. The materials are Wool, Velvet, Broadcloth, Kerseys, Flannels and Tweed mixtures, and are shown in the new shades of Burgundy, best, navy, green, brown, navy, black, etc.

Cloth Skirts

Fine range of Women's Separate Walking Skirts in black and navy of good quality. Gabardine, broadcloth, etc. and is displayed in all the favored fabrics and colors for Autumn wear.

Taffeta Underskirts

Beautiful range of colors in plain colors and spot effects, including navy and black, are shown. The newest features favored for Autumn wear being introduced in our collection. Splendid collection of good wearing quality taffeta, ranging in price from \$5.50, \$6.00 and \$6.50 each.

Silk Sport Coats

Attractive display of new Autumn styles in knit being made in Ladies' Sport Knit Sport Coats. The newest features favored for Autumn wear being introduced in our collection. Splendid collection of good wearing quality taffeta, ranging in price from \$7.50 to \$15.00 each.

STILL A HOPE FOR UNION GOVERNMENT

(Continued from Page 1)

ful spirit, but merely to show that the Borden government, having done well so far, could be expected to persevere, to the end. Unfortunately the voluntary system had broken down and we must turn to the firing line or we must reinforce them by compulsory military service. During the first two weeks of September the casualties among the British had exceeded 5000, yet during that time only 584 recruits had volunteered. At this rate there would be no Canadian soldiers at the front in eight months hence. The only way to keep our fighting force up to strength was by properly enforcing the conscription law.

"Conscription," Sir George continued, "is the supreme issue. Party labels lose their significance and party issues fade into insignificance. The people will divide upon winning the war or virtually withdrawing from the conflict. Sir George said that he believed the majority of the Canadian people favored the great bulk of Liberals were not as sincerely anxious as the war as the great bulk of Conservatives. Unfortunately, Sir Wilfrid Laurier had taken upon himself the serious responsibility of opposing conscription as a nefarious measure. He hoped to convince the Canadians all over the country. He counted on the aid of the newspapers, and he would also have the moral support and sympathy of every man from the Kaiser down to the humblest soldier in the ranks. (Applause.)

For Union Government.
The speaker then detailed at considerable length the negotiations for a union government. The prevailing opinion among the two parties in 1914 and 1915 began to disappear in 1916, and by 1917 the two parties were merged into one. Hence Sir Robert Borden's overtures to Sir Wilfrid Laurier. These overtures, Sir George said, were approved of the government, and every member of the cabinet had placed his signature in the hands of the prime minister. These resignations were still in his hands and the prime minister might still form a union government and avoid having the next election a party fight.

"If Sir Robert Borden tomorrow appoints a Liberal to succeed me as minister of trade and commerce, I will be a staunch supporter of the Borden Government."
Sir George said that 27 Liberal members of parliament had voted against their leader for conscription. He believed the vast majority of people were opposed to an old-time party contest. It seemed a name that ministers of the party ought to be devoting all their time to the winning of the war, should have to occupy themselves for the next four or five months with winning the election.

Defence Franchise Act.
Sir George Foster then defended the Defence Franchise Act. If the government had to win the election as a necessary step towards winning the war, it is only right that the sterling sentiment of the country should prevail over the fastidious vote. Hence the mothers, wives, sisters and daughters of men at the front have been enfranchised, and

KEEP YOUR HEALTH IT'S A VITAL NECESSITY

A former associate of the immortal Curie, discoverer of radium, and Röntgen, discoverer of the X-ray, is now in Toronto, and extends a hearty invitation to all afflicted people to consult him the balance of this week, including Sunday, absolutely free of charge.
This world-renowned scientist has successfully treated over 50,000 cases in the leading medical centres of the world during the past three years, without the record of a single failure. It has been customary for the leading physicians and medical institutions to send him their hardest cases, and the wonderful results he obtains for paralysis, rheumatism, stomach, kidney, liver and female troubles seem almost incredible. What you have tried or how much you have spent does not concern this gentleman at all. He is here to cure you by the latest modern methods at the offices of the Ham-Lax Co., 16 King West, Room 22, from 10 till 5. Sunday, 11 to 12 only.

DEATHS

DORMAN—On Monday, Sept. 24, at her late residence, 122 Simpson Avenue, Toronto, Elizabeth Dorman, beloved wife of William J. Dorman, in her 55th year. Funeral from above address, Thursday, at 2 p.m., at St. James' Cemetery.
HENDERSON—Suddenly at Boston, on Sunday, 23rd, Reginald Sherin Henderson, dearly beloved husband of Mary Henderson, in his 45th year.
Funeral from 80, Bayview Avenue on Wednesday, 25th, at 2 p.m., at Mount Pleasant Cemetery, Toronto.
JOSE—At the Wellesley Hospital, on Sept. 23, 1917, Margaret J. Jose, beloved wife of John E. Jose, and daughter of Mr. and Mrs. J. A. Bonham, in her 47th year. Funeral from her late residence, 47 Harbord Street, on Tuesday, Sept. 25, at 2 p.m., at St. James' Cemetery, Toronto.
McCORMACK—Suddenly, on Sunday, Sept. 23, 1917, at her late residence, 335 Annetta Street, Toronto, Victoria McCormack, aged 63 years. The remains will be taken to Victoria Presbyterian Church, at 1 p.m. on Wednesday.
Funeral service will be held at 2 p.m. at the residence of the deceased, 335 Annetta Street, Toronto.
Harper, customs broker, 39 West Wellington St., corner Bay St.

MARRIAGE TOOK PLACE SOME DAYS TOO SOON

Before Judge Coatsworth yesterday Mrs. Shackleton appeared on a charge of bigamy. It appeared that she was married in Lindsay in 1893, and lived in Rochester until February, 1910, when she married a man named Fountain. An interlocutory judgment was given on 25th April, 1910, and a man named Fountain, who was her New York lawyer, who in 1910 married her, was at liberty to marry. In September, 1910, the final judgment was pronounced by his honor, the judgment handed out by his honor, if she had waited until the final judgment was given before getting married, she would have been all right, but again she was found guilty. Both she and the man were sentenced to 30 days in jail. It was noted that according to the Criminal Code of 1892 the criminal code an honest belief on the part of the defendant that she was divorced would be a defence that she was divorced under this section of the criminal code.

FIRE RELIEF COMMITTEE ISSUES ITS REPORT

In the report of the Northern Ontario Fire Relief Committee, formed Aug. 9, Hon. G. H. Ferguson, minister of lands, forests and mines, outlined the situation in the north of Ontario. The report, which was issued on July 25, 1917, and it was decided to appeal to the public for assistance for those who had suffered loss. Help was not long coming in the form of subscriptions and donations of clothing. Free transportation was arranged on the part of the C.P.R., and many of the sufferers took advantage of this to go up and work in the munition factories or secure other employment. As the relief work progressed, trouble arose as to the supplying of building material. The relief committee decided to supply this free.
Special attention was given to the losses of men who had enlisted for overseas, and \$9 grants, valued at \$464, were given to the widows of these men. The report stated that 919 losses had been considered and 492 grants made, and every effort was made to locate the heirs of those who had lost their lives.

THE SKY PILOT PROVES A SENSATIONAL DRAMA

Ralph Connor's Play Given Premier at Royal Alexandra Theatre.

A dangerous rival for "Little Eva" appeared at the Royal Alexandra last night in the person of "The Sky Pilot," an epic adaptation of Ralph Connor's well-known novel. There is a general atmosphere and the exceeding rationalism of the west is illustrated by the somewhat licentious tendencies of some of the people. Poker, delirium tremens, horse-stealing, abduction and a few other occupations are the loose or evil-minded character of the atmosphere, provided with moral electricity, which quite excites in intensity the meteorological display of the first act. The company is a very capable one, and the play is a very attractive little affair, who gives the most attention to draw eyes to Charles Bradhorn ever thought of doing. She represents the ingenuit brand of femininity and does violence to the unworthy theory that the influence of the sublime in nature indicates early piety. Elka, competing with "The Peak" so to say, The Pilot, who is a Unitarian, if one may judge by Regina Wallace, is a spirited and attractive little individual, who gives the most attention to draw eyes to Charles Bradhorn ever thought of doing. She represents the ingenuit brand of femininity and does violence to the unworthy theory that the influence of the sublime in nature indicates early piety. Elka, competing with "The Peak" so to say, The Pilot, who is a Unitarian, if one may judge by Regina Wallace, is a spirited and attractive little individual, who gives the most attention to draw eyes to Charles Bradhorn ever thought of doing. She represents the ingenuit brand of femininity and does violence to the unworthy theory that the influence of the sublime in nature indicates early piety. Elka, competing with "The Peak" so to say, The Pilot, who is a Unitarian, if one may judge by Regina Wallace, is a spirited and attractive little individual, who gives the most attention to draw eyes to Charles Bradhorn ever thought of doing. She represents the ingenuit brand of femininity and does violence to the unworthy theory that the influence of the sublime in nature indicates early piety. Elka, competing with "The Peak" so to say, The Pilot, who is a Unitarian, if one may judge by Regina Wallace, is a spirited and attractive little individual, who gives the most attention to draw eyes to Charles Bradhorn ever thought of doing. She represents the ingenuit brand of femininity and does violence to the unworthy theory that the influence of the sublime in nature indicates early piety. Over Two Million

MORE than two-million Ford cars have been made and sold, and more than 140,000 of this vast number have been "Made in Canada".

The Ford enjoys the largest sale of any motor car, because it represents the greatest motor car value. Its name has always stood for low cost, and the car has everywhere given satisfactory service.

Ford Endurance, Ford Dependability, and Ford Universal Dealer Service have made the Ford car universally popular.

Every third car in Canada today is a Ford. The judgment and decision of these 2,000,000 satisfied Ford owners should convince you that the Ford is a superior car, and equal to your needs.
