Allies' Supreme Council Discusses Peace With Soviet Russia Management Board for Government Railways Nearing Completion

SETTLEMENT WITH RUSSIA IS ABSOLUTELY NECESSARY FOR REDUCTION OF PRICES

Supreme Council at Yesterday's Sessions Believed to Have Considered Demand of Papers—Would Cut Down Purchases in U.S.—No Decision Yet on Stabilization of Exchange.

London, Feb. 23.—High prices of necessities and the rate of exchange will be taken up soon by the supreme council in conference with the financial experts. Today's decision is separate from the earlier London decision to call the finance ministers of the powers together for a discussion of the financial situation of the world. It is believed that the members of the council have not determined what the council might do toward stabilizing exchange and reducing the high prices, and will reach a decision until they hear what the experts have to say.

The proposition to take up the financial matter came after Russia had occupied most of the day's discussions. In this connection it is considered not unlikely that the members took into advisement the demand of most of the British newspapers that some settlement with Russia is necessary in order to reduce prices. It has been pointed out that Europe could get food and raw materials from Russia if it would cut down purchases in the United States against the adverse exchange.

In dealing with the Russian question today, the members of the council are represented as recognizing an entirely different state of affairs than when the question was last discussed at the Paris meetings.

James O'Grady, who represented the allies at the negotiations with the Lithuanians, was not called to the conference. It is still maintained officially that he has been merely discussing the question of the temporarily ceased these negotiations and came to London and conferred with Earl Curzon, the foreign secretary, a few days before Russia was taken under consideration by the council, and Earl Curzon is in daily attendance at the council meetings.

Many phases of the question were discussed today, the chief being devoted to the position of the border states. It is believed that the council reached certain conclusions, but is unwilling to announce them immediately.

Turkish Question Postponed.
Turkey was temporarily discarded as the subject for discussion by the council today.

A Moslem delegation is now in Venice on its way to London and the United States. The delegation, which claims to hold a mandate for seventy million Indian Mussulmans, has sent a statement here invoking President Wilson's twelfth point with regard to assurance of a secure sovereignty of the Moslem peoples. The delegation also demands the caliphate's retention of the interested of the Holy places. Otherwise the delegation warns, "The traditional loyalty to Great Britain in India will infallibly be challenged."

Must Remove Turkish Government.
In an article in The Evening Standard today Lord Robert Cecil gives it as his opinion that the Turks must remove the Constantinople government, that the maintenance of Turkish sovereignty over that city would be a "menace to tranquillity."

To Refuse Prepayment On Goods for U. S. Points

Montreal, Feb. 23.—The adverse exchange rate between Canada and the United States today brought about a new development in international affairs, when an order was issued by the Canadian railways, effective March 1, whereby railway agents are ordered to refuse to accept prepayment of the shipping charges on shipments from Canada to the United States, except in the case of certain kinds of goods on which prepayment is required by the tariff rules.

This means that shipping charges will be collected at the point of destination and in United States funds instead of in Canada and in Canadian funds.

TO ARBITRATE ON G.T.R. Government Counsel During Proceedings to Include W. N. Tilley, K.C.

Ottawa, Feb. 23.—(Special).—Government counsel in the Grand Trunk arbitration have been announced. They are W. N. Tilley, K.C. Toronto; H. A. Lovatt, K.C., and Hector McInnes, K.C., Halifax, and Pierce Butler, Mr. Butler is a distinguished American railway counsel, who represented the Canadian Northern in the arbitration proceedings that fixed the valuation of the common stock of that company when it was acquired by the government. The counsel for the Grand Trunk nor the arbitrators for the government and the railway have not yet been announced. It is expected that the arbitration proceedings will commence in Montreal toward the end of March.

STRIKE MAY TIE UP UPPER LAKE TRADE

One Big Union Organizers Preparing for Trouble in Spring.

Special to The Toronto World.
Port William, Feb. 23.—A serious situation is developing here in connection with the opening up of the season's trade. All the men at the heads of the big lakes are being organized by O.B.U. leaders, for the purpose of striking directly the season commences. The right of collective bargaining will be the excuse, but it was learned today that the leaders of the movement hope to tie up the trade that they can spread the agitation to the towns, and thus complete the work left unfinished in Winnipeg last year. The secret of the movement has been kept, but now that it has leaked out, local authorities are arranging to meet any difficulties that may arise.

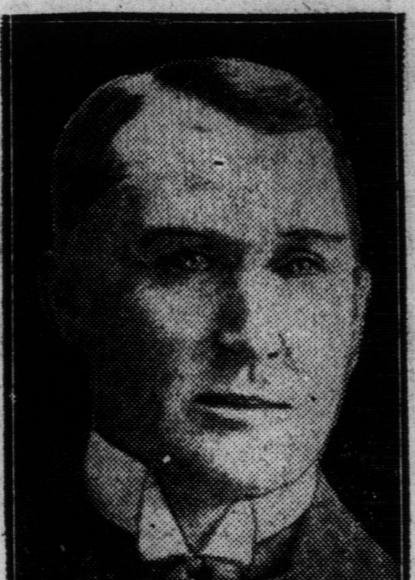

ROLLO TO SPEAK IN TIMISKAMING

Will Address Meeting for A. J. McDonald, United Parties Candidate.

Cobalt, Ont., Feb. 23.—There is little outward political activity in Timiskaming as yet, although the polling date in the federal by-election is only a little over six weeks away, and there is an extensive territory to cover. The government supporters have made no open move to select a candidate to contest the field with the Liberals and the Labor-U.F.O. combination, both of whose men have been in the arena for months. It is probable that a convention will be called for next week in English to select a standard-bearer for the government forces.

Wilson Completes Note to Premiers
Entire Correspondence on Adriatic to Be Published After Its Delivery.
Washington, Feb. 23.—President Wilson gave his final approval today to the draft of his latest reply to the entente premiers on the Adriatic situation. While official confirmation was lacking, it was understood that the communication tonight either was being coded for transmission or actually was going forward to Ambassador Davis at London for presentation.

Delivery of the reply to the entente premiers is expected to be followed by the making public of the entire series of notes. The foreign governments are understood to have consented to publication of the complete correspondence.

HON. A. K. MACLEAN
His resignation from the cabinet, in which he was minister without portfolio, was announced last night.

HON. A. K. MACLEAN RESIGNS HIS POST IN FEDERAL CABINET

Not Retiring on Question of Policy—Leaves Maritimes Unrepresented. CREATES A PROBLEM

Ottawa, Feb. 23.—(Special).—The Union government will meet parliament on Thursday with still another defection from the cabinet, as Hon. A. K. Maclean today placed his resignation in the hands of Sir George Foster, acting prime minister. This does not mean a vacant portfolio as Hon. Mr. Maclean's particular work ceased with the abrogation of the various war measures, and he has not since the beginning of the year, drawn remuneration for his cabinet services. It adds to the ex-cabinet ministers who are on the government side and makes their number a competitor for numerical strength with those commoners who remain in the cabinet.

With him will be Sir Thomas White, Sir Sam Hughes, Hon. T. A. Crerar, Hon. T. W. Crothers, Hon. S. C. Mewburn, all for a time in Sir Robert Borden's government, and now freed from cabinet responsibility, can enjoy parliamentary life. His retirement cannot but affect the government's stability, as it leaves the maritime provinces without an active member of the government. It may hasten a reorganization or make for more rapid disorganization.

Must Give East a Voice.
It cannot be recognized that to carry on government without active cabinet representation is a "babbling of English domination."

HANDSOME GYPSIES SOUGHT BY POLICE

Called on Doctor, and Candles Seem to Have Disappeared.

The police are looking for a "gypsy" camp, said to be a few miles outside of Toronto, where two women wanted by the police on charges of theft are believed to be camping. Dressed in gypsy clothing and wearing oriental headgear the two women are alleged to have entered the home of Dr. G. Silverthorn, 286 College street, and stolen two oriental candlesticks.

Both women entered the doctor's office during a busy time and were shown by the maid to the waiting room. One of the two, an attractive looking woman, said she wanted to see the doctor. When she was admitted to the office she remarked she had come to make an appointment for her mother, who was suffering from an injured limb.

Dr. Silverthorn asked where the mother was and was told she was at the gypsy camp, sleeping in a tent, three miles from the city. Becoming suspicious of the woman's actions, Dr. Silverthorn attempted to lead her from his office, when the woman, taking hold of his hand, asked permission to see his fortune. Not anxious to know "his future," Dr. Silverthorn ordered her out of his house and she retired to the waiting room where the state man joined her and both left the house.

DUBLIN DARKENED BY COUNCIL'S ORDER DURING RIOTAL LAW

Corporation Says That Danger From Criminals is at Door of Military.

Dublin, Feb. 23.—The Dublin corporation, by a large majority, today resolved to refuse permission to any employe or official to ask permits from the English military government for the discharge of municipal duties. Further, the corporation orders the cessation of any municipal services endangering the lives of its employes during the imposition of martial law, and has issued instructions to remove night watchmen and to extinguish lights, and refuses to authorize the payment of overtime to any men working by permit between midnight and five o'clock in the morning.

It is pointed out to the corporation that the darkened city would be at the mercy of burglars and other criminals, and that the new measure would obstruct the work of doctors and nurses. The rejoinder is made that the responsibility is the government's.

The streets tonight are in absolute darkness within the city limits, but electric light is still supplied to the houses. The newspapers fear that the electrical power may be stopped, compelling them to cease publication. The newspapers are already seriously hampered by the fact that telegraph messengers had not delivered any messages to them.

DUBLIN COUNCIL INSTALS MAYOR

Outgoing Chief Magistrate Denounces Treatment Meted Out to Thomas Kelly.

Dublin, Feb. 23.—The city corporation met today to instal the new lord mayor, Tom Kelly, who after his recent release from the Wormwood Scrubbs prison, is now ill in a London nursing home.

The outgoing lord mayor, Laurence O'Neill, in an address, dwelt on the serious illness of Kelly, which prevented his attendance, and on what he described as the brutal and inhuman treatment meted out to Kelly by the British government, awakening even among the most moderate a growing sensation of revenge.

Queen's College Will Share In Rockefeller Foundation

Kingston, Ont., Feb. 23.—(Special).—Queen's Medical College will benefit by the Rockefeller foundation fund, which consists of five million dollars.

Dr. J. C. Corning, dean of the medical college, received a letter from Dr. Vincent, president of the Rockefeller foundation, in which he asks that representatives of the college meet him in Toronto on March 10, to explain the needs of the local college.

HON. W. E. RANEY, M.L.A., PREDICTS BIG RISE IN SUCCESSION DUTIES

Receives Acclamation in East Wellington—Addressing Farmers in Town Hall, Also Intimates Equal Pay for Women and Men in Civil Service.

Fergus, Ont., Feb. 23.—(Special to The Toronto World).—Having received an acclamation here today from the electors of East Wellington, Hon. W. E. Raney, attorney-general, explained on the increase of provincial revenue from succession duties and told the farmers that the sons of rich men would have to succumb to the state which which is not good for them to inherit. "This principle," he said, "will be carried further than was ever thought before."

Col. Pritchard, the independent Conservative, who had announced his candidature last Wednesday, did not show up at the nomination meeting in the town hall. The candidate for Fergus in the morning from his farm and told the newspaper men he had definitely decided to withdraw. He declined to mention any reason for pulling out, and added that if he went to the nomination meeting he would add no explanation to this statement.

Mr. Raney's nomination paper was (Continued on Page 2, Column 5).

HOWARD G. KELLY.
Who, it is reported, will be appointed chairman of the joint board of management for the combined nationally-owned railways of Canada.

U. S. RAILWAY BILL PASSED BY SENATE BY THREE TO ONE

Charge That Public Treasury Will Be Heavily Drawn On Denied by Senator. CALLS IT PROPAGANDA

Washington, Feb. 23.—By a vote of nearly three to one the senate tonight passed and sent to the president the modified railroad reorganization bill, under which the carriers of the country will attempt to adjust themselves to conditions arising with the end of government control.

Thirty-two Republicans joined with 15 Democrats in voting for adoption of the conference report, while three more Republicans and 14 Democrats opposed the bill, which was warmly defended and attacked. But the measure, was passed. The bill will go immediately to President Wilson and the general opinion around the capitol was that he would sign it, citio labor leaders will urge its veto.

During the five hours of debate, led by Chairman Cummins of the interstate commerce committee, senators expressed varying opinions as to how the public and the railroads would fare under the bill, which was warmly defended and attacked. But the intense interest, which characterized proceedings Saturday in the house, was lacking. Frequent quorum calls, being necessary to get members in the chamber. Around 6 o'clock the patience of the senate apparently was exhausted after the long session of speech-making and insistent demands for a vote cut short the desire to prolong the presentation of individual views.

Discussion today related largely to the labor and rate-making provisions. Senator Cummins, with great feeling, denounced widespread claims that in fixing freight and passenger charges calculated to give the roads a return of 5 1/2 per cent, meant taking huge sums of money from the public treasury. The bill, he declared, would not take one dollar in that way. Such reports, he said, were merely a part of the propaganda put forth in an effort to defeat all legislation on the eve of the return of the roads to their owners on March 1.

Several petitions are being circulated in the township for annexations to the city, which, if carried out, will extend the city's irregular northern boundary. Owners of the district between Carlaw and Leslie want the northern limit moved north to Cronyn avenue and lined up with the boundary, as it runs north of Fulton street as far west as Broadview.

Would Enter City.
The new owners of the church property are petitioning to have the property as far east as Woodbine avenue. Mr. Poucher of the National Trust Company says he believes the syndicate would take in the Davies land west of Broadview, the Harris and the syndicate lands now seeking annexation to the township. The district between Carlaw and Leslie is already thickly settled and would be a profitable acquisition for the city.

The World here views a much larger annexation plan for this growing section, opened up as it has been by the Bloor street viaduct.

This district is confronted with water sewer and transportation problems, which have to be solved either by the city or the township with the co-operation of the city. The annexation of a slice of the township now, it is suggested, would give the city immediate control of the development already taking place and avoid the scripping of millions of dollars worth of improvements in the form of local water and sewer systems later on.

OMEN OF FATE OF TURK EMPIRE

Jerusalem, Feb. 21.—During a recent snowstorm the famous tree named "El Butini," in the Garden of Gethsemane was blown down.

According to tradition this tree would fall when the Turkish empire had fallen. Twice it was bound round with iron braces to prevent it from falling.

Give Thirty-to-One Majority For Hydro in Kincardine

Kincardine, Ont., Feb. 23.—The Hydro-electric bylaw for \$40,000 carried here today by a majority of 198. The vote was light, a remarkable feature being that only six votes were polled against the bylaw. The local vote polled was 204.

MAKE TURN IN EXCHANGE

Kingston, Ont., Feb. 23.—(Special).—The sum of \$20,000 was made by Queen's University on Saturday as the result of United States exhibitors on Canadian money. George Y. Crown, secretary-treasurer of the university, made the clean up.

HOWARD G. KELLY WILL HEAD JOINT BOARD OF MANAGEMENT FOR NATION'S RAILWAY SYSTEM

Other Members Are Likely to Be Nominated by Government and Grand Trunk in a Day or Two.

TORONTO AND MONTREAL WILL FIGHT FOR HEADQUARTERS OFFICES OF SYSTEM

Special to The Toronto World.
Ottawa, Feb. 23.—The official announcement of the board of management, which will administer the Grand Trunk, and co-ordinate its services with the Canadian National Railways, as a result of the ratification of the agreement in London last week by the Grand Trunk shareholders, is expected tomorrow or on Wednesday. But the personnel of the board can be given subject to a possible correction, due to complications within the former management of the old system.

The two nominees of the Grand Trunk will be W. H. Hinton and W. D. Robb. The government will name C. A. Hayes and S. J. Hungerford. These four will select the chairman, who will be Howard G. Kelly.

Mr. Hinton is vice-president and general manager of the Grand Trunk. His selection has been the cause of some heartburning in Montreal, as it was thought by some that Vice-President Dalrymple, in charge of traffic, was entitled to the place. Mr. Hinton's experience has been mainly in traffic departments. He went to the Grand Trunk from the Canadian Atlantic, which was taken over from J. R. Booth about fifteen years ago. He was sent to Winnipeg as passenger traffic manager when the G. T. P. began business, and afterwards succeeded Mr. Donaldson as general manager. Mr. Hinton is, therefore, an old subordinate of Mr. Dalrymple, and there is talk of dissatisfaction over what looks like a suppression of a senior officer of much ability, whose chances of high place in the National system will be discounted.

The Traffic Expert.
Obviously, where two men were required, one should be a traffic expert and the other an operating man. Mr. Robb is the Grand Trunk vice-president, in charge of transportation, and an excellent selection. While the old Grand Trunk was sure of fair play, even when it must necessarily be second fiddle in the race for the chair, the appointment of Mr. Kelly as chairman of the board will be a generous recognition of the G. T. value to the national service. Mr. Kelly's lifetime experience has been chiefly in engineering. He started as a blacksmith, has been all over the earth, and is one of the shrewdest heads in the railway world.

Of the two men taken from President Hanna's force, Mr. Hayes is the senior traffic manager of the C. N. R. He was brought to Toronto when the Intercolonial executive headquarters were moved from Moncton. The general manager of the Grand Trunk and the Canadian Northern stepped aside for Mr. Hayes, who has more than made good in control of traffic from Sydney to Vancouver Island.

A C.N.R. Man.
Mr. Hungerford is one of the quietest but ablest operating men on the continent. He was in the Canadian eastern lines of the Canadian Northern during the latter years of the Mackenzie-Mann regime, and before that had been chief of the Northern master mechanic in Winnipeg.

The immediate job before the new board, of course, is the co-ordination of the Grand Trunk and the Canadian National. Mr. Hinton, of course, comes (Continued on Page 6, Column 6).

FEDERAL WHIPS IGNORE FARMERS

Evident Efforts of Old-Time Party Men Along This Line Amuses Ottawa.

LINE UP CRERAR

Ottawa, Feb. 23.—(Special).—There is some amusement here over the evident effort of the party whips to ignore the Farmers' party. Hon. T. A. Crerar, who is the recognized head of the third party, has been assigned a seat in the chamber next to the ministers of the crown as a gesture of Sir Thomas White. His followers are also scattered among the supporters of the government. This excuse is made that the arrangement of the chamber is on a two-party basis, and the government whip therefore seated to the right of the speaker all the members returned as Unionists at the general election of 1917. This, however, does not cover the case of the members elected at by-elections as supporters of Mr. Crerar. Neither has the rule been consistently applied to Hon. W. S. Fielding, who was returned as a Unionist, and becomes a deskmate of Hon. Mackenzie King.

Leave Out Third Whip.
Suitable quarters are provided for the Unionist and Liberal whips, but no provision is made for the whip of the third party. The prime minister and the Liberal leader have spacious apartments on the main floor, convenient to the chamber of the house, but the leader of the Farmers party, who probably has a wider constituency in the country than either of the old party leaders, is given a small room among the pigeons immediately under the roof. It is also observed that small provision is made in the galleries in the house for visiting farmers and for the public who may wish to see parliament in session. Three of the four galleries is seven-eighths of the gallery space is set apart for senators, officials, wives of cabinet ministers, and others who may obtain cards of admission. The general public will find accommodation only in one small steep gallery back of the speaker's chair.

APPOINT LLOYD HARRIS.

Ottawa, Ont., Feb. 23.—Lloyd Harris has been appointed a member of the council for scientific and industrial research in succession to Robert Ross. Mr. Harris resigned from the council because of his duties as a member of the board of directors of the Canadian National Railway.

PLAIN SPEAKING BY HON. R. ROGERS TO WINNIPEGGERS

Says Canada's Industrial and Economic Conditions in Critical Stage.

BERATES UNIONISTS

Winnipeg, Man., Feb. 23.—(Canadian Press)—"Canada's industrial and economic conditions have reached a most critical period in the history of our existence," said Hon. Robert Rogers, who addressed here tonight, in the Fort Garry Hotel, an open meeting of the Liberal-Conservative Club of Winnipeg, declaring that he had "no further political aspirations of gratuity" and that he proposed to speak plainly. Mr. Rogers declared the Union government to be "a government of thieves and jobbers, a government of second-hand theories, a government of second-hand theories that are the product of the diseased brain of some poor unfortunate upstart."

The former minister urged strongly "a definite and fixed scientific tariff" advocated the dissolution of every existing government commission; pointed out "the necessity for the Liberal-Conservative party to immediately perfect their organization everywhere," and elaborated on the benefits which, he said, had been secured for the farmers of western Canada through the Liberal-Conservative party. Mr. Rogers closed with an appeal for further recognition of the claims of Canadian veterans of the war.

Mr. Rogers declared himself a "lasting believer in that traditional policy that has ever governed the actions of the Liberal-Conservative party in this Dominion." Union government might have been necessary during the war, but in peace is a different thing.

First to suggest that "I confess," said Mr. Rogers, "that at one time I thought myself that Union government was advisable for the period of the war and stood ready to make any and every sacrifice in my power to bring about such union with the Liberal party as a whole. I may surprise you when I tell you that I was the first to propose such form of union with the Liberal party. Many excuses were given why such proposals could not be accepted, among them being the exaggerated opinion of certain Liberal leaders of my ability to take advantage of such union to destroy the Liberal party."

Mr. Rogers added that he gave assurances "to those whom the matter was being discussed" that in the event of an arrangement being reached he would at once resign his position in the government, but the arrangements fell thru. "Some time later," he said, "proposals were made to form a union of individuals. In this I did not believe and therefore resigned."

Avoiding Election.
The Union government today was supported by a parliamentary majority "made up of a group of individuals with no cohesion," who regarded "approval of executive action" as their safest course to avoid a general election, said Mr. Rogers.

Mr. Rogers urged the importance in Canada of stable government, which he said, could not be expected from "an incoherent army" with "a thirst for power."

Dealing briefly with the tariff, Mr. Rogers said: "This is neither the time nor the place for compromise if we are to save Canada from the ruin of paying such enormous sums to our American neighbors for their natural products—products that under a definite and fixed tariff we can produce in our own country at practically no cost outside of the cost of development. With efficient development of our natural products we can then place our manufacturers in a position as equal to their competitors across the line. The great work of the Liberal-Conservative party for the immediate future must be the efficient development of our great mineral wealth, the construction of smelters, and the rendering available for manufacture of our unlimited natural products."

Has Faith in Future.
Mr. Rogers said he had much faith "in the sound judgment of our farming community as a whole." Thru "the untimely mistake" in handling last year's crop, prairie farmers would lose more, he said, than they had paid in duty on agricultural implements in 40 years. For 25 years the Liberal-Conservative party has not only been the party of tariff for revenue, but had been the only party that had ever made "a legitimate reduction on the articles principally used by the grain growers of Canada," he said. Mr. Rogers said a general election could not be long deferred and the sooner it came the better, he thought.

For Colds, Grip or Influenza
and as a Preventive, take LAXATIVE BROMO QUININE Tablets. Look for E. W. GROVE'S signature on the box. 30c.

STATEMENT INCORRECT

The following quotation from a morning paper is declared to be incorrect by J. J. Hoolihan, acting director of the provincial housing branch of the bureau of municipal affairs. He also states that it did not emanate from the Toronto office: "The Guelph housing commission has received notice to the effect that they have raised the standard allowance for the construction of houses this year. In future the maximum price for a frame house will be \$3,300, for a brick veneer house \$4,200, and for solid brick, \$4,600."

EYES SORE?

If your eyes or lids are sore; if they itch, burn or feel dry; if your vision is blurred, your eyesight dim; if you are obliged to wear glasses; go to your druggist and get a bottle of Bon-Opto Tablets. Dissolve one tablet in one-fourth of a glass of water and bathe the eyes from two to four times a day. Sound, comfortable eyes and improved eyesight will make the world look brighter. Note: Doctors say Bon-Opto strengthens eyesight 50 per cent. in a week's time in many instances. G. Tamblin and others.

GLASS EYES

Marriage Licenses.

CITY HALL NOTES

Dr. Hastings, M.O.H., impressed upon the local board of health yesterday the necessity for having a new and up-to-date hospital for communicable diseases in Toronto. In his report he recommended that the city purchase the old General Hospital site, on East Gerrard street, and erect a new building there. This report was presented in compliance with the request expressed recently by the board of health for a full statement from the M.O.H. on the question of further hospital accommodation.

Altho there is absolutely no doubt now in the minds of the local health authorities that the influenza and pneumonia epidemics are rapidly on the wane, a comparatively large number of deaths attributable to these infections occurred over the week-end. One hundred and seven deaths in all occurred during Sunday and yesterday—51 from influenza, 17 from pneumonia, and the rest from other causes.

A week ago the mortality list showed 112 deaths—48 from influenza, and 21 of them from pneumonia.

The Ontario Safety League is petitioning the city council not to issue a permit for a public garage at 29-35 St. Albans street. (The proposed building would be almost directly opposite Wellington street, and would be a source of children about, the operating of a garage would not be safe.)

City Architect Price explained the objections to the proposal made by Prof. C. B. Sissons before the Open Forum on Feb. 19. The professor's proposal was that the architect's department should refuse permits for other buildings until enough homes are built.

"That could not be put into effect," stated Mr. Price. "We have not the power to refuse permits for buildings if the plans conform to the building by-laws. The statute says that we shall issue a permit where the regulations are complied with."

NOT QUITE DECIDED ABOUT ANNEXATION

Danforth Park Ratepayers Think City Taxation is Too High.

The special meeting of the ratepayers of York township school section No. 24, called by the Danforth Park Ratepayers' Association to discuss important matters concerning the district and to protest against the annexation of Danforth Park to the city of Toronto, was held last evening in Second School.

Act, Don't Kick!
W. Curtis, honorary president, outlined the work and achievements of the association since its inception five years ago. He urged the ratepayers not to kick, but to act on all matters brought up before the association.

Move Eastern Boundary.
On a motion presented by Mr. Curtis, the eastern boundary of the association was moved to the Scarborough-York townline, to take in the former Eastdale Ratepayers' Association. This is a temporary action and will only continue for one year, to allow Eastdale ratepayers to reorganize. The amalgamated associations now contain all territory between the Woodbine avenue and the Scarborough-York townline, St. Clair avenue and the city limit. All future meetings will be held in the Second School, Barrington avenue.

Opposed to Annexation.
In regard to annexation with the city, G. A. Groh, president of the association, said the majority of residents in the district had come there to escape high city taxes. "The city says we can get nothing for 'seven years,'" said Mr. Groh, "and if we are to get nothing, why should we join Toronto. Personally, I am very strongly opposed to annexation. It is a matter that we should think over very carefully."

A. Jennings, who was president of the Cedarvale association for five years, said that six years ago the same matter was brought up, and a sum of money raised to fight annexation. The money was put in a fund and was used for several months, but the trustees for Danforth section was killed overseas and it had been lost track of. Mr. Jennings said it would be available for the present anti-annexation fight if it could be located.

All Not Opposed.
Mr. Davis said that all residents of the district are not opposed to annexation. He spoke of the influx of population and stated that in a very few years county taxes in the district will be as high as city rates. The lack of sewers was commented on by Mr. Davis, along with the fact that sickness is more prevalent in this suburb than in the city.

Annex School System.
Mr. Jennings advised that the school system only should be annexed to the city. He thought that city schools would be an advantage to the district. The chairman criticized the county council for not developing the Danforth district to a greater extent. He declared that the district could get all city advantages without connecting with the city and at a cheaper rate than paid by Toronto residents.

Higher Than City Rates.
His taxes, he declared, were higher than city rates, and he expressed the opinion that the sooner the district is annexed the better it will be for Danforth Park.

Following a lengthy discussion, Mr. Jennings moved that the association go on record as opposed to annexation. Mr. Jennings, with the consent of his second, Mr. Curtis, withdrew this motion after much discussion. The meeting did not feel that the association should commit itself without more discussion. The county and township engineers and the township council will be invited to the next meeting, March 10, when the question will be again brought up.

Regarding the proposed isolation hospital to be built in the county and sustained by the city, the meeting recorded in favor of the project.

Regular Service Started From Canada to Australia

Vancouver, B. C., Feb. 23.—Regular steamship service operated by the Canadian government between Canada and Australia, was started today. The steamship Canadian Importer left for Australia with a general cargo.

DISTRIBUTE BIBLES ALL OVER THE WORLD

U. C. Bible Society Told of Christianity's Progress in Foreign Lands.

The annual meeting of the Upper Canada Bible Society was held in Jarvis Street Baptist Church last night with N. W. Hoyles, K.C., LL.D., in the chair. The opening devotional exercises were led by Rev. T. T. Shields, D.D. On motion of Dr. H. Q. McLaughlin, seconded by A. M. Featherston, the report of the year's work was adopted and the officers for the coming year elected.

"Untouchables" Conquered.
An address on India was given by Rev. H. A. Haslam, M.A., who told of the "untouchables" of India and of the work of the Bible Society in that country. He said that the untouchables, some of whom, he stated, had become the finest Christians he had ever known. The untouchables, he said, had some to be had hungry every night, without complaint, but that things are changing. The country is more progressive and workmen are saying conditions will never be as in the past. The untouchables, he said, had always been a split country, but he believed that there is a tendency to drift into infidelity and agnosticism.

World in Extremity.
"No Other Name, No Other Book" was the title of an address by Rev. Robert Johnston, D.D., of the Presbyterian Church, Montreal, who said that the world in extremity, he believed, would be met with hands and feet. Education and commerce have failed. The needs of the world must be interpreted in other terms. Jesus Christ interprets these needs in terms of the spirit. Men also should interpret them in this way and not in terms of materialism. In no other way can these needs be met.

Satisfactory Reports.
Reports showing that during the year the Bible Society placed 23,000 Bibles, 25,818 testaments and 47,125 portions, a total of 94,947. The total number of Bibles distributed in 1919, 10,000,000 copies, distributed in 600 languages. Soldiers blinded in the war were given free copies of the Bible in Braille.

Bibles, testaments and portions were distributed in Arabic, 21; Armenian, 214; Bohemian, 4; Bulgarian, 1; Chinese, 938; Cree, 14; Croat, 10; Dutch, 1; Esperanto, 1; French, 2293; German, 8; Greek, 378; Hebrew, 446; Hindi, 6; Hungarian, 53; Italian, 115; Japanese, 4; Korean, 4; Latin, 13; Lettish, 1; Lithuanian, 3; Malay, 2; Norwegian, 6; Ojibway, 17; Portuguese, 7; Rumanian, 292; Romanisch, 10; Russian, 1281; Ruthenian, 107; Sanskrit, 1; Serbian, 73; Slavonic, 11; Slovenian, 5; Spanish, 40; Swedish, 45; Syriac, 5; Turkish, 2; Welsh, 5; Wenzl, 30; Yiddish, 121; Blind, 120.

LATE J. M. PRITCHARD WAS PROMINENT MASON

There passed away yesterday afternoon at his home, 529 Brunswick avenue, James M. Pritchard, who was widely known in the circles of Toronto. He died at the age of 67, after a long illness. He was a member of the Masonic Order and was prominent in the city. He was also a member of the Church of the Holy Trinity, St. Patrick's Church, and the Royal Arcanum. He was a member of the Knights Templar, and a life member of the Mystic Shrine. He was also a member of the Independent Foresters and the Lakeview Golf Club. He was an officer of the Church of the Holy Trinity, St. Patrick's Church, and the Royal Arcanum. He was a member of the Knights Templar, and a life member of the Mystic Shrine. He was also a member of the Independent Foresters and the Lakeview Golf Club.

COMES TO TORONTO.

Regina, Feb. 23.—The Canadian Council of Agriculture will hold its annual meeting March 23, at Toronto.

REV. F. HOLLINRAKE LEAVES METHODISTS

States He Will Probably Issue a Statement During the Week.

TO START NEW CHURCH

Hamilton, Feb. 23.—(Special)—That Rev. F. W. Hollinrake, who has resigned the pastorate of Barton Street Methodist Church, is contemplating a severance of his official connection with the Methodist body, and of continuing a ministry in Hamilton affiliated with any of the recognized denominations, was admitted by Mr. Hollinrake today. He said he would probably issue a statement during the week.

The congregation over which Mr. Hollinrake would preside would be similar to that of the Gospel Tabernacle, of which Rev. F. W. Philpott has been the successful pastor for over twenty years. The church would be conducted on similar lines. The congregation, it is said, would consist of a large portion of the present Barton Street Methodist Church, for Mr. Hollinrake's ministry has been largely approved.

The objects of the new church would be to maintain the fundamental doctrines of Christian belief, the inspiration of the Bible, the pre-millennial second advent, the importance of prophecy, and a life of separation from worldliness on the part of its members.

MR. E. RANEY PREDICTS SUCCESSION TAX RISE

(Continued From Page 1.) handed to Returning Officer J. B. Moon at twelve o'clock noon. It was signed by four hundred and seventy-three voters, representing all parts of the riding. The description of the candidate on the heading of the nomination paper was, "William Edgar Raney, of the city of Toronto, King's counsel."

Declared Elected.
At one o'clock, no other candidate having come forward, Mr. Raney was declared by the returning officer the unanimous choice of the electors. At two o'clock over a hundred farmers had assembled in the town hall to listen to Mr. Raney's address.

Returning Officer Moon said if Col. Pritchard was in the hall he was cordially invited to take a seat on the platform. Col. Pritchard, however, did not put in an appearance. Albert Hellyer, who sat beside Attorney-General Raney on the platform, said he desired to make only two points plain: (1) That he had not been approached to resign, and (2) that Mr. Raney was abundantly worthy of the position to which Mr. Drury had called him.

Expected a Contest.
Mr. Raney got a cordial reception. He confessed to a feeling of loneliness, he said he had not anticipated expecting a contest. When he learned that his opponent was to be Col. Pritchard he felt well satisfied knowing it was the strongest candidature that could be brought out.

A respectable resident of the riding who would poll the strongest test vote for the constituency, had the result of the announced contest been a victory for the government, the effect would have been to stabilize confidence all over the province, and the confidence of the constituency, first and equally on the part of the government by a genuine public mandate.

Under the circumstances, as events turned out, however, he felt himself to be the representative of all the people of Wellington. It was a great compliment to see electors present from all parts of the riding, and he expressed the gratitude of the government, and his own thanks for an election by acclamation.

Spoke of a "Miracle."
Mr. Raney spoke of the victory of the U.F.O. in the general elections as a miracle come to pass. Winston Churchill, he said, had informed the English people that the Labor party would be elected. But in England, also, he prophesied the impossible will come to pass.

It would have been yellow in the U.F.O. to have declined the responsibility of government. Some people had declared Mr. Drury could have formed a cabinet without going outside his elected followers. The Conservatives had succeeded in winning only 25 per cent. of the seats they contested. That meant the Conservative party had been defeated by the people. Mr. Drury could have had nothing to do with a rejected party. The Liberals elected two-fifths of their nominees, which also meant want of confidence in the Liberal party. But U.F.O. candidates and the labor men received an expression of popular confidence at the polls. Mr. Drury found himself with material for a government, but without a lawyer and was obliged to go outside his party to get an attorney-general. The choice fell to him (Mr. Raney), and today the attorney-general being elected the government is fully equipped and able to carry on.

Intended Legislation.
The farmer audience applauded in turn Mr. Raney's declaration of intended legislation at the coming session bringing back the municipalities as the basis of the franchise, mothers' pensions and minimum wage. Mr. Raney admitted that the reason for appointing a new commission of three to make a detailed report on Kapuskasing was the fact that E. Howard Ferguson had challenged the accuracy of Col. Carmichael's recently published report.

He intimated that classification of the provincial civil service with a view to the equalization of salaries for equal service would reduce unfairly high remuneration to men who were appointed because they were the favorites of cabinet ministers. Women will be paid on the same basis as men—equal pay for equal service. When civil servants are paid only for service rendered, there will not be such a scramble for government jobs, as the applicants will realize they can find better employment elsewhere.

He intimated that the reason for the probe into the Hamilton grocers' combine was that six wholesale grocers had declared two others who wanted to engage in the grocery business would not be allowed to but in "I conceive it to be the business of the government of the province of Ontario to see to it that money is available when required in places like Fergus for building purposes, now that money from Scotland and England is no longer coming over, thru the building and loan companies. This has not yet been considered in council; but I believe that money for this purpose must be found.

Appeal to the Public!

Telephone operators have not escaped in the prevailing epidemic, the result being a very high percentage of absentees in all our eleven city exchanges. Numbers of citizens, kept at home through illness, are using the telephone more than under normal conditions. As a result the calling rate is very heavy. There are, of course, necessary telephone calls that must be made. But may we ask that, until the situation clears, all telephone users assist us by making only necessary calls.

The Equitable issues all standard forms of life insurance and annuities, including the following:

A LIFE INCOME POLICY
under which the beneficiary receives a monthly income for life—the safest and the best kind of insurance for family protection.

A GROUP POLICY
by which an employer protects the families of his employees.

A CORPORATE POLICY
to safeguard business interests.

A CONVERTIBLE POLICY
which can be modified from time to time to meet changing conditions.

AN INCOME BOND
to provide for the declining years of the purchaser.

AN ENDOWMENT ANNUITY POLICY
maturing at age 65, providing thereafter an income for life.

AN EDUCATIONAL POLICY
providing a fund for the college training of a son or daughter.

A CASH REFUND LIFE ANNUITY
under which the total return may be more, but can never be less, than the purchase price.

The following provisions will be added to the policy when desired:

1. In case of total and permanent disability:
(a) Premiums will cease. (b) The insured will receive a monthly income. (c) The beneficiary will receive full face of policy at maturity.

W. A. DAY, President.
SIDNEY S. SNIDER, Agency Manager,
Royal Bank Building, Toronto.

Pointing to the bankruptcy of Europe and to the vastly increased public debt of Great Britain and Canada, he said the testing time is going to come when the nations must begin to pay up.

Settlement Problems.
"There can be no repudiation. In Ontario we will have very great problems for settlement during the next generation. The word for the situation is 'steady.' We have a government of the people by the plain people. There must be an increase of successions and there will be no injustice done if the state resumes the ownership of a portion of the hoarded wealth of the rich. "I see no injustice in taking from the sons of the wealthy a larger por-

tion of the money they inherit that way. I am not a socialist and do not carry any such principle can be carried much further than has ever before been thought to carry it."

NEWS OF LABOR

GOMPERS OPPOSES A LABOR PARTY

Rebukes Indiana Leader for Criticizing Plan of American Federation.

Washington, Feb. 22.—Formation of a political labor party would be detrimental to the interests of labor, and exactly in line with that which is most ardently desired by those who seek to oppress labor, Samuel Gompers declared in a letter to William Mitch of Terre Haute, a leader of Indiana Labor state party, made public here today.

Mr. Gompers wrote in reply to a telegram from Mitch, opposing the American Federation of Labor plan to have working men elect their friends and defeat their enemies. The Indiana Labor party declared for a labor party pure and simple.

Mr. Gompers, in severe terms, criticized Mitch, for "assuming to declare the work and policy of the federation to be impractical."

"The votes that would go to a labor party candidate would, in the absence of such candidate, go to the best man in the field," writes Mr. Gompers. "In no case would they go to an enemy of labor. There can be no hope for the success of labor party candidates. The effect, therefore, of a political labor party would be to defeat our friends and to elect our enemies."

Labor Members to Consider Selection of Party Whip

The labor members of the legislature are to hold a meeting at Queen's Park today to consider the labor legislation to be introduced to the house and to select a member of the party to act as labor whip. The choice for the position seems to rest between Mayor McBride of Brantford and Karl Homuth, member for South Waterloo.

C. F. L. INCENSED AT SHAREHOLDERS

Accuse Labor Temple Company Shareholders of Undue Discrimination.

An unfortunate situation has arisen in connection with the Toronto Labor Temple Company, an organization apparently organized alone by the international labor movement. Officials of the Canadian Federation of Labor stated to The World yesterday afternoon that despite the fact that their union, the Pressmen's Union, held twenty-five shares in the company the representatives of the union were refused a vote at last Saturday's annual meeting held at the Labor Temple.

It was noteworthy, however, that individuals belonging to the Canadian Federation of Labor were permitted to vote.

David Carey, president of the company, stated last night that the constitution of the company permitted only bona fide international trades unionists to vote at the shareholders' meetings, and that the Canadian Pressmen's Union was not an international body. Until the constitution was amended neither he nor James Simpson, secretary-treasurer, had any opinion in the matter. There was nothing in the constitution, however, which prevented individuals as such from recording their vote, no matter whether they were international or Canadian. Mr. Carey denied that he had been influential in deciding the action of the meeting on Saturday, pointing out that he had merely but clearly outlined the facts of the case.

Considerable feeling has been occasioned among Canadian Federation men at

CANADIAN LABOR FURTHER AHEAD

Gompers' Ideas Not Applicable Here, Says Hon. Walter Rollo.

Commenting on the statement of Samuel Gompers, president of the American Federation of Labor, opposing the organization of a federal political labor party in the United States, Hon. Walter Rollo said yesterday that in Canada politics were taken out of trades unionism by the establishment of the Independent Labor party.

"The policy of Mr. Gompers and of the federation," continued Mr. Rollo, "is to submit the A. F. of L. platform to all candidates, whether Democrat, Republican, Labor or of any other party, the candidate who endorses the platform would then be accorded labor support. If two or more candidates endorsed it labor men could vote for the one of their choice."

"What William Mitchell of Indiana and some of the other labor leaders want appears to be a political organization within the main labor body. In Canada labor has thus sought a step farther than the Gompers plan, while not going so far as the Mitchell plan. Trades unionism in Canada is not, of course, pledged as a whole to support the Independent Labor party."

"Mr. Gompers says that his plan ensures the election of friends of the workman. Whether or not they will remain friends after they are elected remains of course to be seen."

MARINE ENGINEERS TO AFFILIATE

Affiliated with the Trades Congress of Canada the Association of Marine Engineers has decided to affiliate with the Toronto Trades Council at the earliest opportunity. The organization is working very harmoniously with the National Association of Masters, Mates and Pilots.

MACHINISTS FORGING AHEAD

Machinists in Toronto are weak by week increasing the membership of their seven locals. It is understood that there are today nearly 4,000 members of the union in Toronto, and an aggressive campaign is being carried on for new members. Conferences are now being held between union representatives and individual employers. It was stated by officials of the union yesterday afternoon that the employers at present had no association and that conferences with individual employers was imperative in these circumstances.

FLU TAKES HEAVY TOLL

Ivan R. Barry, a member of the Toronto Street Railwaymen's Union for only a year, is the latest victim of the influenza, and died after a few days' illness yesterday morning. The funeral is to be held this evening from the Ross Craig undertaking parlors, 135 1/2 West Queen street. Mr. Barry was only in his thirtieth year. His makes the ninth death the union has suffered during the past two months. The others, with the dates of their deaths, are as follows: High, Birmingham, January 18; A. J.

DRUNK AUTOIST SENTENCED

Sentence of seven days in jail was imposed on Robert Bennett for being in charge of an automobile while under the influence of drink, by Col. Denison yesterday. An appeal was lodged and accused released on bail.

LABOR BRIEFS

Two Laborites are under consideration for the position of whip of the Labor Party in Ontario. They are Mayor MacBride of Brantford and Karl Homuth of South Waterloo. All the world knows the redoubtable representative from Brantford, who is original if not always correct in his intuitions. Karl Homuth is a young man, with a strong, vigorous personality and a charm which shares place with his strength and vivacity equally. Both are popular, but perhaps the South Waterloo man is the more popular, because he is the more progressive.

Captain George Dawson of the ferry-boat, Orleans, Buffalo-Fort Erie, is a visitor in the city, and yesterday visited friends in the National Association of Masters, Mates and Pilots, at S. O. E. Hall.

PILOTS TO APPROACH COUNCIL

Having heard of the intention of the various civic bodies in Toronto to consider a real deep waterway scheme for Toronto, the Association of Masters, Mates and Pilots is approaching the city council, the harbor board and the board of trade for a conference respecting this matter. A conference may be held within the next two days.

CONFECTIONERY WORKERS BUSY

Confectionery workers in Toronto are considering a new wage scale. The Canadian Federation of Labor has the matter under advisement. It is understood that the feeling between the union and the various firms in the city is excellent and that there will be no difficulty in getting the agreement signed.

WHAT ARE THE FACTS?

David Carey, president of the Toronto Labor Temple Company informed The World last night that he understood that there was an international union of pressmen in existence, and that if this was true the shares now held by the Canadian Union of Pressmen belonged rightfully to the International Union under the constitution of the company.

MENDELSSOHN CHORUS
ACHIEVES TRIUMPH
IN FIRST CONCERT
Shows Splendid Results of a
Year of Continual
Effort.
OVATION FOR ORCHESTRA

Last night's concert must have been very gratifying to friends of the Mendelssohn Chorus. The performance of the chorus showed a very marked advance in tonal quality, in blending of voices, in delicacy of interpretation and in general picturesqueness over last year. This, in spite of, of marked reductions in the number of the choir, amounting, it is said, to ten per cent. thru illness. The program was a varied one, and while none of the numbers was exactly of heavy calibre there was sufficient in the selections given to demonstrate the efficiency and discipline of the chorus. Mr. Fricker, the conductor, has had many difficulties to contend with in his transition period, but he has evidently bridged the gap, and his ideas and conceptions are different from those of the former choir. It is a great enough feat to be taken on his own valuation and judged accordingly. Once the difference is recognized and allowed for the listener can have perfect confidence in the conductor's judgment to present a worthy and inspiring interpretation.

The first number of the choir was the "Cappella motet by Bachmann," "To Thee, O Lord." The opening phrase was sung in double pianissimo, in very rich and soothing tones, with a gradual crescendo. The second time the passage is repeated with a more pronounced crescendo with a free and open voice effect. Not only was artistic feeling displayed in the rendering, but the Mendelssohn choir that assured well for the Requiem performance tonight.

"The Miracle of St. Raymond" is a choral ballad for 12-part chorus, arranged by Kurt Schindler. The opening itself to a very charming treatment and the dramatic quality of the narrative was emphasized. The soprano distinguished the passage in the well-sustained high note at the close, and the bell effect was rich and sonorous. Brahms' choral monolog, "A Song of Destiny," is a work of contrasted effects and in the midst of an earthy spirit of the first part the adagio was exquisitely conveyed. The adagio presents an entirely different and dramatic contrast, embodying all the vanity of the earthly state and in staccato connotation realizing the vain show of the lower life. The orchestra has an exquisite prelude, and this recurs and closes the performance with seraphine strains. The performance was highly applauded.

A very lovely rendering of Colin Taylor's "Stumblers Song of the Madonna" was given, infinitely tender in the choral movement, and Madam Florence Hinkle faultlessly clear and sweet in the solo. This number should have been better appreciated. Brahms' part song, "The Maiden," presents another set of contrasted effects, a somewhat gloomy picture being succeeded by the more cheerful joy. Following this came Somerville-Schindler's arrangement of "The Men of Harlech," which may move one to the tears, and the denunciation of the choir for introducing treasonable and seditious sentiments. There appears to be Sinn Féin influence in the lines: "Now, avenging Briton, / Smite as he has smitten, / In Saxons' rage on history's page / In Saxons' blood he writes." A picture-quest, but sombre ballad by Cornelius introduced J. Campbell McInnes as soloist. The general effect was highly impressive with the a cappella chorus in the background. Mr. McInnes received the only encore of the evening in the succeeding folk song, "I'm Seventeen Come Sunday," with my rue dum day, for the doo the diddle dum day. The concert closed with a repetition of the familiar three songs from the choral suite, "The Highlanders," by Elgar, the dainty, tripping dance, the Lullaby and the Marmoset.

The Philadelphia orchestra, under Leopold Stokowski, was present in full force. The gorgeous string choir, with its array of cellos, the brilliant brass and the splendid wood wind were splendidly at home in the rendering of Wagner's "The Meister-Singer of Nuremberg." The rich full-bodied tone of the orchestra is a delight in a season so barren of first-class music. The bass strings under Mr. Stokowski particularly thrill one as they swept along in most noble triumph. Claude Debussy's "The Afternoon of a Faun," was given once more and elicited rapturous applause and a double recall, which the conductor acknowledged with his orchestra standing. The third orchestral offering was the Paris version of the Tannhauser overture with the Vermeberg music. A glorious rendering of the Pilgrims' Chorus passages led to the delicious ecstasies of the Venusberg music, and this wonderful performance gradually died into silence. The audience gave the orchestra an ovation.

It was a magnificent audience too, quite equal to the old tradition, every seat being filled, and the choir management may be congratulated on their pluck and persistence in surmounting the difficulties of the past few years.

Mr. Henry Dworkin, agent of the Holland-America line, West Dundas street, who left Toronto recently for the purpose of investigating conditions regarding winter transportation for Polish passengers and money remittance conditions, has called from Paris stating he will be in Warsaw this week of February 23.

JAP SQUADRON AT MARSEILLES.
Marseilles, Feb. 23.—A Japanese squadron arrived here today for a visit. The Japanese admiral and the authorities at Marseilles exchanged notes.

Not in withdrawing from the world, but in keeping unspotted in the world, is one's virtue or religion shown.

CAPE OF CLOTH OR SILK
BY LILLIAN M. SCOTT.

FANCIFUL are the newest cape wraps. The designer has used velours with plain or figured borders for the above model. A smart feature is the belt across the front.

To wear with a light frock is the cape of crepe fabric developed in white crepe de chine lined with bright green. Among the many models shown at a recent exhibition was a long wrap of yellow cloth with huge collar of tulle. The effect was indeed enchanting. Over a dancing frock of apocryphal tulle was worn an evening wrap of black chiffon velvet and gold tissue elaborately outlined with fur.

However, the cape for street wear must be chosen with discrimination. It must be worn with a certain amount of poise. Not all women can wear a cape and appear well dressed. As a stylish evening gown, requiring the figure, it is principally adapted for the woman who is tall and slim.

SOCIETY NEWS
CONDUCTED BY MRS. EDMUND PHILLIPS.

His Honor the Lieutenant-Governor and Mrs. Lionel Clarke's dinner, which was postponed, will take place on Tuesday, April 6, at Government House.

The Mendelssohn Chorus took place last night under the patronage of Dr. B. A. Fricker, M.A., F.R.C.S., at the Royal Victoria Hospital, the beginning was worth the price of admission. Madame Hinkle, the soloist, wore a gown of flesh satin, draped with silver net, the low corsage was fitted with deep crystal fringe that fell in a cascade over the shoulders. The other side being arranged with a spray of deep pink roses.

Mrs. J. K. Kerr has returned from England and is at the Westminister until she finds a house.

Mr. and Mrs. McLaughlin, Ottawa, have left for Pasadena.

Miss Dorothy Stevens is leaving on Wednesday for a tour in Spain, where she will find good material for etching.

Lady Laurier, wife of Sir Harry Laurier, was in St. John a few days ago on her way to Boston. She was accompanied by her brother, Mr. George T. Cumberland, and her brother-in-law, Mr. Cumberland.

Engagements.
Mr. and Mrs. Leonard H. Lewis, of The Willard Apartments, Toronto, wish to announce the engagement of their daughter, Laura Gertrude, to Mr. Wallace Sutherland, of Chicago.

HEINTZMAN & CO. PIANO IN SOUTH AMERICA.

Influenced by the high reputation that the pianos of Ye Olde Firm of Heintzman & Co., Limited, 193-197 Bunge street, Toronto, have enjoyed during these many years, an order has just been received for one of the beautiful Empire Design Uprights, in mahogany, of this firm, to be shipped to Mr. Robert A. Guerrero, Santa Marta, Republica de Colombia. The export trade of this firm today is extending to many different points, freight shipments of the mail originally announced, Zealand, Australia and South Africa, as well as Great Britain.

PLACE OF ENTERTAINMENT CHANGED.

The entertainment to be given tonight by Mrs. Macdonald, to the local G. W. Methodist Church, corner of Earlscourt and Dundas streets, will originally announced. The proceedings will commence at 7 o'clock.

ARRESTED FOR THEFT.

T. A. G. Swanson was arrested in London, Ont., yesterday, and held for the Toronto police. Swanson was arrested in 1911 on a charge of theft, and is alleged to have jumped his bail. Detective Taylor left for London last night to bring the accused back for trial.

SWITCH OFF!

Put aside the Salts, Oil, Calomel, or Pills and take "Cascarets."

Are you keeping your bowels, liver, and stomach clean, pure, and fresh with Cascarets? They are the only medicine that acts in every few days with Salts, Cathartic Pills, Oil, or Purgative Waters.

Stop having a bowel wash-day. Let Cascarets gently cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry it out of the colon and bowels all the constipated waste matter and poisons Cascarets brighten up.

Cascarets tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, or cause any inconvenience, and cost so little.

ANNOUNCEMENTS

Notices of future events, not intended to raise money, 2c per word, minimum 20c. Notices for religious, patriotic, church or charitable purposes, 1c per word, minimum 10c; if held for a purpose, 6c per word, minimum 12.50.

UNIVERSITY organ recital, free organ recital by Mr. F. A. Moore, university organist, Convocation Hall, Tuesday, 23rd February, 8 p.m.

TUESDAY EVENING literary class, Margaret Eaton School, February 23, 8 p.m. Mrs. Xanthopoulos will read the Rubaiyat of Omar Khayyam.

UNITED WOMEN regular fortnightly meeting, tonight at 8 p.m., 212 McGill street, Toronto. Miss Margaret Russell of Bombay will speak. Subject, "The French of the West Indies." Mr. Bradshaw, Toronto Income Commissioner, will address the meeting. Men and women cordially invited.

REFLECTIONS OF A BACHELOR GIRL

BY HELEN ROWLAND.

Short skirts do not a flapper make. Nor girlish frocks a debutante! The squaw may bob her hair—but then, so do her grandmothers and aunts.

A man will spend his life looking for the ideal woman—and the other half wishes somebody had blindfolded him and held him until she got past.

Many a man fancies he is marrying a divinity, and afterward thanks heaven to discover that he has merely annexed a nice cosy little human being, who curls her hair on pins, forgets how to spell ibeans, and is not too ethereal to peel onions.

A flirt is a girl who is never satisfied with one admirer—unless it's some other woman's admirer.

Perhaps you think that a thermometer

What's in a Name?
BY MILDRED MARSHALL.

MARCIA has an ancient and noble origin. In early Rome there was a famous gens of Sabine origin which gave a king to Rome and was called Martius. His wife, it is said, came from Marcus, a name about which there is much contention among etymologists. However, the consensus of opinion seems to be that it was derived from Mars, the war god, and one of the chief of the old Roman deities.

The daughters of the Martius family were called Marcia. Another spelling was Marcia. Reaching France, the name became Marcie and of late years when Marcia returned to vogue she was used as the feminine of Mark.

Marcia is another form of Marcia, the original Marcia being one of the young Roman girls who endured the fiery trial of martyrdom under the Emperor Decius. For some reason which history does not explain, the maidenhair fern became identified with her and its prevalence in Roman gardens and as an ornament to Roman fountains is said to be in her honor.

Her name penetrated Italy, France and even England where it was used as the feminine of Martin. But it has almost dropped out of usage, Marcia alone surviving.

The cat's-eye is Marcia's talismanic stone, and is a charm against evil spirits. The maidenhair fern became identified with her and its prevalence in Roman gardens and as an ornament to Roman fountains is said to be in her honor.

Her name penetrated Italy, France and even England where it was used as the feminine of Martin. But it has almost dropped out of usage, Marcia alone surviving.

CANADIAN "BUFFS" NOW ORGANIZED

Adopts Constitution and Elects Officers for the First Year.

A special meeting of the Canadian "Buffs" (18th Battalion), was held last evening in the Central "Y," when the constitution was approved by a large attendance of members. Section 10, having reference to the "Buff" title, was left over for future consideration.

The aims and objects of the association are "for the perpetuation of the close and kindly ties of mutual respect and friendship between the members of the 18th Battalion, to preserve the memory of the fallen and disabled comrades; to promote social intercourse between members and to assist in the distribution of the 'Buffs' disability fund."

General meetings are to be held in January, May and October in each year, the annual meeting to be the May meeting.

The chairman, Major Watson, intimated that the association was in debt to the sum of \$120 but that this was being liquidated by the officers, so that the association will commence its activities on a clear financial basis.

The officers of the "Buffs" Association are: President, Major Watson, E. H. A., 37 Triller ave.; vice-president, R. W. Harrison, Birch Cliff; 2nd vice-president, Jack Toms, 34 Silver ave.; secretary, M. H. Stevens, 297 Delaware ave.; treasurer, M. Anderson, 82 Howard street; auditors, Captain Henderson, and R. Wilkinson; executive, Mr. Dale, W. Smith, W. C. Frisby, P. Saunders, V. T. Major, D. Baldwin and W. Powers.

ADMIRAL PEARY BURIED

Washington, Feb. 23.—The body of Rear-Admiral Robert E. Peary, discoverer of the north pole, was laid to rest in Arlington National Cemetery today with full naval and military honors.

KILLED IN AIRPLANE CRASH.

Eagle Pass, Tex., Feb. 23.—Second Lieutenant Horace M. H. Corey of the 28th Aero Squadron, U.S. Army, was killed today when his airplane fell 2,500 feet, after suddenly bursting into flames. Corey was 25 years old. His home was in Chicago.

ADJUSTING WOMEN'S WAGES.

James T. Quinn yesterday afternoon in conference with Dr. W. R. Riddell, deputy minister of labor for Ontario, discussed the standardization of women's wages in the manufacturing industry. Quinn, deputy minister, the average wage of women in the operation, packing house, textile work week. He advocated a policy of gradual zones to decide as to the standardization necessary to a complete and satisfactory adjustment of the problem.

The Truly Tea
of High Degree

REFLECTIONS OF A BACHELOR GIRL

BY HELEN ROWLAND.

Short skirts do not a flapper make. Nor girlish frocks a debutante! The squaw may bob her hair—but then, so do her grandmothers and aunts.

A man will spend his life looking for the ideal woman—and the other half wishes somebody had blindfolded him and held him until she got past.

Many a man fancies he is marrying a divinity, and afterward thanks heaven to discover that he has merely annexed a nice cosy little human being, who curls her hair on pins, forgets how to spell ibeans, and is not too ethereal to peel onions.

A flirt is a girl who is never satisfied with one admirer—unless it's some other woman's admirer.

Perhaps you think that a thermometer

What's in a Name?

"Always Good Alike"

ACTOR DREAMS OF NATIONAL THEATRE

Tyrone Power Considers It Unnecessary to Seek Talent Abroad.

"We have," said Tyrone Power, the eminent actor playing this week at the Grand, to a World reporter yesterday, "a slowness Canada, for the Canadians, and now we must have a company for Canadians. It has always been my dream to form a dramatic company that would play to Canadians, because I want to prove to them that it is not necessary for them to go to New York, London or anywhere else for their productions."

Mr. Power said that he had associated himself with the Trans-Canada Theatre with a view to bringing to Canadians the best form of drama. He said he was supported by the Canadian people he proposed to devote the balance of his theatrical career to Canada, bringing every season fine and beautiful plays. "I have felt that it is no reason why this Canadian theatre should be given over to American management to exploit and I fully believe that it will not be very long before Montreal and Toronto will have a full production centres and not merely plays for trying out plays," continued Mr. Power.

He considered that the Trans-Canada Company is capable of booking company after company for an entire season in Canada without having to cross the border to the States, and he proposed to bring out here the best English actors, who will tour from Halifax to Vancouver.

For Next Season. Next season Mr. Power proposes to produce three plays, "The Middleman," by Arthur Jones; "The Bunch of Violets," by John Galsworthy; and a play that he considers the most remarkable, and which has never been produced on the English stage, called "The Great Game," by a great Russian writer.

After touring Canada, Mr. Power and his company will visit Australia. "Should 'Anthem' prove successful, I will arrange to go to London and it will be something of a novelty that a Canadian theatrical organization should take great pains to produce on the English stage, called 'The Great Game,' by a great Russian writer."

OFF TO CLEAN UP MICHIGAN COUNTY

Prohibition Expedition Starts From Chicago to Arrest Interfering Officials.

Chicago, Ill., Feb. 23.—An expedition bent on cleaning up, by force if necessary, difficulties of prohibition enforcement in the Michigan peninsula, was started from Chicago tonight. Major A. V. Dalrymple, federal prohibition director for the central states, left with a party of prohibition agents for Iron county, Michigan, where county officials are said to have overpowered government agents last week and taken contraband wine, which had been seized by the government men.

"We are not starting a wild west show and we do not expect any armed resistance," Major Dalrymple said, "if we do meet resistance we are prepared to cope with it. I intend to arrest Prosecutor McDonough, of Iron county, two deputy sheriffs, and the police officials of Iron River and place them in jail charged with conspiracy to interfere with the carrying out of the prohibition law."

Major Dalrymple communicated with the headquarters of the Michigan state constabulary at Lansing today and said he had been promised the help of the troops of state police stationed at Nagsawee in the upper peninsula.

Major Dalrymple's plan of campaign involves a general "clean-up" of Iron county in addition to the arrests of the county officials, he said today. His men hold search warrants for ten persons suspected of making "moonshine," he said.

Waverly Baptist Church Raises \$5218 for Two Funds

Waverly Road Baptist Church, Kew Beach, reports splendid success in raising funds for the church forward movement. The church objective was \$4,750, but the sum of \$5,218 was realized, or nearly double the amount sought. The congregation at the same time canvassed for a total of \$1,900 needed to cover the expenses of redecorating the interior of the church. The objective for this fund was also not only passed, but doubled, the sum collected being \$2,009, making a grand total of \$5,218 for the two campaigns.

FELLOWSHIP OF ENGLISHMEN SOCIAL

The Fellowship of Englishmen in Canada, formed to promote social intercourse among the members, and to maintain English customs and sports, held their second meeting in Orange Hall last Friday night when the following temporary appointments were made: Chairman, Leopold Heathcote; secretary, T. W. Frost, 881 College street; treasurer, H. J. Warner.

50 Years Ago

a young man who practiced medicine in Pennsylvania became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. He finally made up his mind to place some of his treatments before the entire United States and, moving to Buffalo, he put up what he called his Favorite Prescription, and placed it with the druggists in every state in the Union.

That was fifty years ago this winter. For fifty years this Favorite Prescription of Dr. Pierce has sold more largely throughout the United States than any other medicine of like character. It's the testimony of thousands of women that it has benefited or entirely eradicated such distressing ailments as women are prone to.

For over fifty years some of Dr. Pierce's home medicines have been selling over the drug counters, so that more than forty-eight million bottles have been sold during that time. This speaks well for the reliability and value of Dr. Pierce's standard home remedies. Dr. Pierce's Golden Medical Discovery is a blood tonic and strength-builder which contains no alcohol, yet has tonic qualities that have endeared it to the American public. Dr. Pierce's Pleasant Pellets, composed of May-apple, aloes and jalap, have long been considered the best vegetable laxative, in the same way that Dr. Pierce's Favorite Prescription has long been known as the best tonic for disease-peculiar to womankind. More recently that wonderful discovery of Dr. Pierce's—namely, Anuric (anti-uric-acid), has been successfully used by many thousands of people who write Dr. Pierce in unequalled terms of the benefits received—that their backache and other symptoms of kidney trouble have been completely conquered by the use of Anuric.

OSGOODE HALL NEWS

Storm Responsible for Coal Shortage. G.T.R. Hauled Twenty Thousand Tons Over Week-End—Border Tie-Up Worst Feature. Fuel Controller Harrington is of the opinion that the present shortage of coal in Toronto and Ontario generally is owing to the terrific storm in the United States, which extended from New York thru to the Buffalo gateway and caused cars to be blocked at junction points. Directly these cars can get release the present shortage will cease, but the future supply, according to Mr. Harrington, will depend largely on the outcome of the conference between the miners, operators and the wage committee appointed by the United States government to investigate conditions.

Storm Responsible for Coal Shortage. G.T.R. Hauled Twenty Thousand Tons Over Week-End—Border Tie-Up Worst Feature. Fuel Controller Harrington is of the opinion that the present shortage of coal in Toronto and Ontario generally is owing to the terrific storm in the United States, which extended from New York thru to the Buffalo gateway and caused cars to be blocked at junction points. Directly these cars can get release the present shortage will cease, but the future supply, according to Mr. Harrington, will depend largely on the outcome of the conference between the miners, operators and the wage committee appointed by the United States government to investigate conditions.

BRITAIN OPTIMISTIC

F. H. Phippen, K.C., Back From Trip, Says Conditions Becoming Normal. F. H. Phippen, K.C., who has been on a business trip to England, returned to his office today. He says that conditions in the old country are regaining normality. From conversations Mr. Phippen had with some of the leading financial men in England, he concluded that they were most hopeful as to the future, with prospects promising well. In regard to labor troubles, Mr. Phippen's business friends told him that the worst of the troubles were over. Mr. Phippen had no knowledge concerning the exchange situation, but said that the national note in Great Britain was most optimistic.

DIED ON CIVIC CAR

Richard Laddin, aged 77 years, of 34 Palmer avenue, collapsed on a civic car on the Danforth yesterday morning and died. Death was pronounced from heart failure. The body was removed to the morgue, where it was identified yesterday afternoon.

INTERFERED WITH DRAIN

Evidence was heard by Judge Denton yesterday in the action for \$500 brought by Harry Hayes against William Bull and Charles Hyde. Plaintiff alleges that defendants interfered with the drain whereby his property was flooded and his wife's health was affected.

THIN PEOPLE NEED BITRO-PHOSPHATE

Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances. Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and back, and replacing ugly hollows and angles by the soft curves of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim that there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is expensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphate, bitro-phosphate should produce a welcome transformation in the appearance, the increase in weight frequently being astonishing. Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten, and pale cheeks glow with the bloom of perfect health. Miss Georgia Hamilton, of perfect health, writes: "I was so thin and weak, that I was unable to report my own experience, written in bitro-phosphate. I brought about a complete transformation with me. I gained 15 pounds and never before felt so well."

INJUNCTION CONTINUED

Yesterday Justice Orde continued to the trial an injunction restraining the Bank of Montreal and Commerce from paying out moneys deposited with them till the question as to administration has been settled in the estate of the late Rev. John A. Morrison, who died in July last. The money was in joint accounts with deceased's brother, Mr. John A. Morrison, and total \$6,103.

MRS. DONN NON-SUITED

Judgment was given for defendant yesterday by Mr. Justice Rose in the action by Mrs. Ada Dinah Donn against W. B. Donn for a declaration that she owned \$950 in an account with the Dominion Bank in defendant's name. Plaintiff alleged that defendant and she had given the \$950 towards furnishing the house.

SUES FOR COMMISSION

Claiming that under agreement he is entitled to commission of \$1,019.23, Harry Stubbins has entered an action against Robinson's Clothes Shops Limited. He also claims \$120 as two months' arrears in salary as manager.

UNDUE INFLUENCE ALLEGED

Suit to Determine Who is Entitled to Proceeds of \$1,000 Benefit Certificate. Mrs. Marinda J. Hawkins, daughter of the deceased Matthew Harding, has entered an action to have it determined who is entitled to the proceeds of a \$1,000 benefit certificate of the Grand Orange Lodge. By endorsement in 1917 the father made the certificate payable to his three children, Nelson, Harold and Edna, in equal shares. In August, 1918 he endorsed the entire \$1,000 certificate to H. N. Harding. Mrs. Hawkins' mind was impaired and that he was subject to undue influence, which defendant denies.

U. C. C. OLD BOYS

Intend Launching Big Campaign For Friends to Aid Historic School. W. L. Grant, M.A., principal of Upper Canada College, left Saturday night for Winnipeg, where he is to deliver an address before the School Trustees' Association of Manitoba on the subject of "Part Time Education." Afterward he will address a convention of educators at Regina. The "old boys" of Upper Canada College living in Winnipeg and vicinity are looking forward to the coming of Principal Grant to discuss with him organization plans for the drive of March 29th, for \$150,000 for the Toronto institution. An "old boys" association has been recently formed in Winnipeg, and it is confidently expected by the campaign executive committee of Toronto, that the "old boys" of Winnipeg and vicinity will contribute generously to the endowment and extension fund.

DEFECTIVE WIRING

Toronto Terminals Company Fight Top Floor Blaze and Flood Basement. Fire, believed to have been caused from defective wiring, damaged the warehouse of the Toronto Terminals at 590 West King street yesterday afternoon, with a loss of \$2,000. The blaze started on the top floor, close to the elevator shaft. The company's own fire brigade ran several hoses on the fire, and the water ran down the shaft, flooding the basement.

FORGERY NOT CHARGED

B. L. Parr, who is being held on a charge of conspiracy in connection with the charge preferred against D. B. Booth for forging military pay cheques, is said to be innocent of the forgery charge. Parr's connection with the matter, it is said, had to do with alleged irregularity in the passing of the files while he was in the employment of the Soldiers' Civil Re-establishment branch.

FIRE CHIEF RECOMMENDS RAISE

Chief W. Russell of the fire department will recommend to the board of control an increase of 20 per cent. in all ranks on the fire department. The 1920 estimates already include "a high cost of living bonus," amounting to \$8 a week. This bonus only runs on until next August, and amounts to \$80,000. If the 20 per cent. increase is granted it will bring the annual salary list up to \$816,000.

VIOLATED O.T.A.

Because he was found transferring five bottles of beer from his own home to that of a friend, August DeRossi was fined \$200 and costs in yesterday's police court. Had the bottles taken from the wet goods from accused's home there would have been no charge, said the magistrate.

TORONTO CANNOT AVOID HER SHARE

Protest Useless About Pensions for Mothers, Says Hon. Walter Rolfo. The drafting of the mothers' pensions bill is almost complete, and, according to Hon. Walter Rolfo, minister of labor, he is introduced to the legislature early in the coming session. The bill is based largely on the report submitted by Dr. W. A. Riddell, deputy minister of labor, while similar measures now in force in Manitoba, Saskatchewan and Alberta have also been cancelled. The reason given for the former fact is that buyers prefer to purchase in the empire, and for the cancellation of orders the exchange rate is responsible. It is impossible, for the moment, to get the relative proportions of import values or of the nature of the merchandise as between Great Britain and the States, as all such details are sent to Ottawa for classification, the Toronto collector only keeping records of the moneys he receives. All the officials, however, have noticed a distinct falling off in American imports and a big rise in English imports. Up to last Saturday the amount of customs dealt with in Toronto was \$2,802,610. If this average is kept up until the end of the month the value will have increased to something like \$3,744,000. In February last year the value was \$2,871,106. In February, 1917, when the war was on, the value was \$2,940,152. During last January the imports were very large, the value being \$4,337,112, which constituted a record for the port. The February of this year will show about \$356,890 excess imports over the corresponding month of 1919. Such being the case, and if American imports are on the downward grade and the British on the upward, it clearly shows that the portion of Canada regulated by the Toronto customs house is buying extensively in England. Colonel Morden's words, "The exchange rate will hurt the United States in the long run more than England," seem to be coming true earlier than expected.

ACTOR COMMITTED FOR TRIAL; ALLEGED ASSAULT ON ACTRESS

W. J. Dodge, a member of the Shubert Gaiting, was fined \$200 and costs for having liquor in his room in the King Edward Hotel in the police court yesterday. Dodge was also committed for trial on a charge of aggravated assault upon an actress in the same company and who was residing at the King Edward.

CHARGED WITH FRAUD

In the police court yesterday J. W. Bradford was committed for trial, being charged with obtaining money from the Toronto and York Patriotic Association by fraud. Bail was allowed.

THIRD INTEREST IN MINE

Justice Rose yesterday found the plaintiff Frank Burr Moore in his action against the Trusts and Guarantee Company as administrators of the estate of the late Bernard McKenzie. He also asked for an accounting of the mine in the well known McKenzie mine in Porcupine. Plaintiff was also given judgment for two sums of \$250 and \$10, the former due under a note and the latter for rent. Costs follow the judgment and a stay of 20 days granted.

JURY TRIAL REFUSED

Mr. Justice Middleton has refused trial by jury to Joseph Martin, miner and prospector, in his action for one tenth of the proceeds of two mining claims in the Montreal river section, sold to the Matchewan Gold Mines company. He also asks for an accounting of the mine in the well known McKenzie mine in Porcupine. Plaintiff was also given judgment for two sums of \$250 and \$10, the former due under a note and the latter for rent. Costs follow the judgment and a stay of 20 days granted.

HUSBAND SOLE BENEFICIARY

William Moffat, general manager of the Imperial Bank, is named as sole beneficiary and executor in the will of his deceased wife, Mrs. Margaret B. Moffat, who died on Jan. 29 last. The estate is valued at \$38,900.

Montreal Man Takes Pleasure In Breaking Plate-Glass Fronts

Montreal, Que., Feb. 23.—Prosper L. Lantoin, of no address, is under arrest on a charge of damaging property. The accused is reported to have wielded a hammer on a plate glass window at 33 Common street, and to have walked quietly away. Three men followed in his wake and were started by hearing another smash of glass at 175 West Notre Dame street. The glass at this place of business was valued at \$100 and St. Lantoin was pointed out by the three men. He was brought into court where he was remanded for aquittal after pleading not guilty to damaging property.

Montreal Committee Will Probe Complaints Against Landlords

Montreal, Feb. 23.—The administration of the city announced today that the committee to investigate the complaints of tenants against landlords, two members of which were appointed last week, has been named by the appointment of Dr. J. C. Polissan on behalf of the chambre de commerce, and Mrs. Louis Desay, of the Proprietary League, and other members of the committee are J. Hamilton Perne, chairman, and Mr. F. W. Stewart.

Studebaker BIG-SIX. QUALITY is the keynote of the 60-horsepower Series 20 BIG-SIX. In the most strenuous service it assures perfect satisfaction in the hands of the most critical owners. Seven-Passenger capacity; 126-inch wheelbase; 60-horsepower demountable head motor; hot-spot intake manifold; transmission carried in an intermediate position; cast back of motor; cord tires; shock absorbers; improved straight-side windshield with storm-proof ventilator base and integral side lights; and multilateral steering wheel. Distributors: G. B. M. MOTOR CO., 95-105 Richmond St. W., TORONTO. Dealer: W. H. LEE, LTD., 472 Yonge St., TORONTO.

Do you sing in your bath? Have you that feeling in the morning of being born again? This is a joy accorded only to perfect health. Racing blood and high spirits are two results of exercise, regular living and regular bowel evacuations. By an entirely new principle Nujol will keep the poisonous waste slipping out of the body. Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system. Nujol prevents constipation by keeping the food waste soft, thus helping Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. It is absolutely harmless and pleasant to take—try it. Nujol is sold by all druggists in sealed bottles only bearing Nujol trade mark. Write Nujol Nature establish case, O. C. (New Jersey), 50 Broadway, New York, for booklet, "Nujol: A New Method of Treating an Old Complaint."

COUNCIL MEMBERS SURPRISED

Attempt to Restrict Speeches to Five Minutes is Quashed.

MUCH BUSINESS COVERED

Worthy of one of David Belasco's dramatic productions was the climax to yesterday's session of the city council, with his worship the mayor and Ald. Cowan as the antagonistic characters. The council had gathered together at the regular hour of 2:30 in the afternoon and continued until after seven p.m., when it was decided to adjourn for supper. Returning from the Queen's Hotel at 8:15, the worthy members settled themselves for a long verbal battle, which it was thought would be waged far into the night.

Then, just at the crucial moment, when six different councillors were on their feet with motions in their hands, Ald. Cowan arose and moved that the meeting be adjourned. His worship the mayor, who has a way of being deaf on occasion, could not hear the members who appealed for recognition of their motion, but quite clearly caught that of Ald. Cowan. Down came the famous gavel on the mayor's desk. "There is a motion before the council that we adjourn, all those in favor please arise." Blinking dazedly, the members gazed at one another, and hardly realizing what they were doing, rose to their feet almost in a body. Down came the gavel again, and with an "I declare the motion carried and the meeting adjourned."

After holding the proposal as idle and fallacious, with no business sense in it. Mayor Church took up the cudgels on behalf of the restriction. "If the members want to be stuck here all afternoon and evening and part of the next day, it is for them to say," he declared vehemently. "The whole thing was thrashed out at the last meeting, and it is usually taken more than five minutes at one period."

Ald. Dr. Risk, I oppose it for two reasons. The first is, that it cannot be enforced. The second is, that it would not be wise to enforce it. Controller Maguire interposed that if a member required more than five minutes a motion can always be made to extend it.

The proposal was finally killed by a vote of 13 to 8. Later in the day the mayor was heard to remark to the ante room, that those members who opposed the five minute restriction had gone home.

A Tribute From Mons

Mrs. Goldwin Gregory, representing the Plenu Mons Choral Society, accompanied by Prof. J. Squair, late of Toronto University, appeared before council to present the Mons flag. Mrs. Gregory made a speech in French, which was in turn interpreted by the professor. His worship then made a fitting reply and accepted the flag on behalf of council. He spoke at some length on the part France had played in the war, particularly stressed the gallant fight at Mons, in which the Canadian troops displayed such bravery.

The recommendation of the board of control was adopted. The legislation to be applied for requiring the board of education to submit their estimates to the city council in November of each year, so that a vote of the people could be taken on the matter.

Controller Cameron was of the opinion that the necessary legislation would not be granted. The mayor differed with him, however, stating that the legislation would be wise and in the interests of economical administration. "We had a conference with some of the educational officials the other day and they agreed that the building program especially, should be submitted in November. I am not going to be responsible for a 35 mill tax rate. If the board of education want to spend money lavishly, let them collect their own taxes. Finance Commissioner Bradshaw spoke very plainly the other day about this policy. The board of education want nine million dollars for new schools this year."

Ald. Hiltz: I don't think this proposed legislation would be wise. If the expenditure went out to a vote of the people they would have to vote to spend it all or nothing. It was finally decided to send the resolution for legislation on to the provincial house.

For Women Magistrates. The report of the committee on legislation took up considerable time. The motion of Ald. Mrs. Hiltz for the appointment of women magistrates in police and juvenile courts where women are tried, was carried. The report of the committee favoring the abolition of any statutory provisions where women are incarcerated, was also carried.

When the matter of creating a fair rent court to decide the grievances between landlords and tenants came up, a vote was taken whereby the report of the legislation committee favoring the abolition of any statutory provisions where women are incarcerated, was also carried.

The first was in regard to the declaration of land value and the method of connection with assessments. In effect, it was that the architect who held the contract for any building, at the completion, turn in a report to the assessment commissioner. This report was to contain the value of the land and the building as situated and the cost price of the completed work.

Ald. Hiltz objected to this motion on the grounds that it was impossible to get all architects to value land and buildings on a standardized plan. "There are not two men in the city who would place the same valuation on work," he declared. "Their opinions would naturally vary."

In defence of his motion, Ald. Singer stated that \$7,000,000 worth of buildings by the city if this had been in effect last year. The alderman's other motion was in regard to an amendment to the assessment act.

Stables in Coxwell Avenue. The board of control reported that tenders had been received for the erection of stables on Coxwell avenue for the street cleaning work. The site for these stables as suggested is almost opposite those of the T. Eaton Company, and is favored by Commissioner Wilson.

Ald. Baker rose and heatedly proclaimed that the Coxwell avenue site was no fit place for street cleaning stables. It would depreciate the value of property in the neighborhood. He also stated that the site for these stables as suggested is almost opposite those of the T. Eaton Company, and is favored by Commissioner Wilson.

To Continue Sully Fill-in. The Crawford street extension and the filling in of Sully street are up again, and the recommendation of the works committee was passed to continue the work under the local improvement plan. This work will entail the abandonment of the wooden bridge on Shaw street, and its replacement by an earth fill, the purchase of 28 houses on Sully street and the filling in of Sully street from its present northerly terminus to College street, and the sale of surplus lands upon the completion of the works as an offset against the cost.

The recommendation of the parks committee to grant refreshment concessions on a fixed rental basis, with the city taking ten per cent. of the gross proceeds, was carried. These concessions are situated at Elkh Park, Island Park, Riverdale Park and the C. N. E. It was recommended that the filling for tenders on a straight rental basis, bids be invited for these tenders on the above plan, and that separate and bulk tenders be called for with the concessions holding good for three years.

TOWNSHIP COUNCIL PLANS TWO TOWNS

Legislation Sought for One Each Side of Yonge Street.

York township council instructed Solicitor J. H. Spence yesterday to apply for legislation authorizing council to create two towns out of the southern part of the township. It is proposed to give the township council power to define the areas of the proposed towns, but the ratepayers of those areas will have the right by vote to approve or reject the scheme. The plan at present is to incorporate a town on each side of Yonge street, running back to a limit in line with the present northern limit of the city at Yonge street.

Legislation will also be sought empowering the township to regulate the distance buildings shall be placed back from the street line on business streets of less than 55 feet width, and on private streets of any width.

With the idea of regulating business lines that are said to be in prospect for several parts of the township, legislation will be asked for, permitting the township to appoint a transportation commission.

Power will also be sought authorizing the township clerk to assess for improvement costs the flankage of lots where such flankage is turned into frontage. At present the flankage of corner lots is exempt up to 60 feet, and council has power and proposes to exempt up to 100 feet except in cases where owners build on the rear end of corner lots. Such builders will be assessed for 10 years from date of building at the same rate as prevalent on the street and the revenue from this special assessment will go into the maintenance account.

Hypothecating Debentures. Council adopted a resolution authorizing the township treasurer to hypothecate with one of the banks the \$200,000 debentures recently authorized to meet the cost of installing house and street lights in the township. The money will be borrowed to meet current outlay and the debentures will be marketed at a more favorable time.

The request of the township engineer, bylaws will be prepared calling for the construction of 12-inch water mains on Kane street, from Eglinton to Cameron, 250 feet; on Cameron street from Kane to Silverthorn, 700 feet, and on Silverthorn avenue from Cameron street to Hillary, 1,200 feet. The engineer also asked for bylaws authorizing the construction of about five miles of 6-inch mains in the Runnymede district. The application will be done with later.

Solicitor Spence reported that the city had threatened to cut off the water from the township main on Westmount avenue if an immediate settlement was not made with the city in sharing the cost of construction. The main was built by the township in 1914, and taken over by the township in 1919. The main cost \$187,211 to the township, and the township is asked to pay this amount, in view of the fact that the township now collects the water rates. The solicitor was instructed to handle the matter up with Commissioner Harris.

Up to date, the most ingenious execution of the plan that of the man who gave up keeping his diary because of the increased cost of ink.

The ex-kaiser wants to go to Peru to raise the value of his collection than "raising Cain" in Europe.

STREET CAR DELAYS

Monday, Feb. 23, 1920. Davenport cars, northbound, delayed 3 minutes at King and Shaw streets, at 9:36 a.m., by wagon stuck on track.

College cars, eastbound, delayed 9 minutes at King and Manning on College, by wagon stuck on track.

King cars, both ways, delayed 10 minutes, at 11:02 a.m., at College and Lansdowne, by wagon stuck on track.

King cars, Dundas cars, southbound, delayed 9 minutes, at 1:34 p.m., at Teraulay and Alice, by wagon stuck on track.

King cars, westbound, at 9:35 a.m., delayed 8 minutes at King and Spadina, by auto truck on track.

King cars, westbound, at 11:00 a.m., delayed 6 minutes, at John and King, by bale of wool on track.

King cars, westbound, at 1:00 p.m., delayed 35 minutes, at Portland and King, by fire tor on track.

King cars, westbound, at 3:19 p.m., delayed 8 minutes at Atlantic and King, by load of coal on track.

King cars, westbound, at 3:23 a.m., delayed 7 minutes at King and Sudbury, by lorry on track.

Yonge Avenue road and Dupont cars, both ways, at 4:15 p.m., at Louisa and Yonge by load of gravel on track.

Bathurst cars, both ways, at 9:28 a.m., delayed 5 minutes at College and Bathurst, by sleigh on track.

Bathurst cars, northbound at 8:20 a.m., delayed 5 minutes, at Bathurst and King by wagon on track.

King cars, both ways, at 7:14 a.m., delayed 9 minutes, at Riverdale crossing, by train.

King cars, both ways, at 7:42 a.m., delayed 6 minutes at Riverdale crossing, by train.

LIVELY BATTLE TO PUT OUT STAYNER

Northern Youngsters Surprise the Fans With Their Good Showing.

U.T.S. UP THREE

University Schools are ready for the O.H.A. junior semi-finals. They put Stayner out of the running at the Arena last night, but the northern kids gave the Dominion champions the toughest minutes, and there was not a druggish minute in the game. The score was 3 to 1. Stayner had a one-goal lead from Friday's game up north, and U.T.S. won the round by the goals of 15 to 12.

The Stayner team to be counted on for this year is the one that has been in the U.T.S. for the last two years. They are a well-balanced team, and they have a good chance of winning the championship.

U.T.S. were again without Rowell, and the game was a close one. Stayner played a steady game, but it was not enough to overcome the U.T.S. attack.

The U.T.S. attack time after time, and many a team would have faltered under the onslaught. In fifteen years, U.T.S. has never been defeated by a team from the north.

U.T.S. were again without Rowell, and the game was a close one. Stayner played a steady game, but it was not enough to overcome the U.T.S. attack.

U.T.S. were again without Rowell, and the game was a close one. Stayner played a steady game, but it was not enough to overcome the U.T.S. attack.

U.T.S. were again without Rowell, and the game was a close one. Stayner played a steady game, but it was not enough to overcome the U.T.S. attack.

FOUR-GOAL LEAD FOR BRAMPTON SEXTET

Brampton, Feb. 23.—A semi-final hockey match between the Francis of Toronto and the home team was played here tonight. Brampton won 10 to 6. Anderson and Barrett were the outstanding stars for the home team. The lineup—Goal: Core; first defence, Duggan; second defence, Smith; forward, Barrett; left wing, Ingholdby; right wing, Anderson; substitutes, Graham and Wilson. Referee, Mackenzie.

ST. FRANCIS GOAL BRITTON; FIRST DEFENCE, McALLISTER; SECOND DEFENCE, V. MENTON; CENTRE, STANLEY; WING, CRONIN; RIGHT WING, WAGNER; SUBSTITUTES, McINTOSH AND J. MENTON.

NIGHBOR MAY NOT PLAY

Ottawa, Feb. 23.—The Ottawa Hockey Club may be without the services of Frank Nighbor for Wednesday's game against the Canadiens here. Nighbor turned out yesterday on his regular work, and Dr. Lorne Graham, the club physician, is suffering from injured muscles in both legs. Nighbor is laid up and Dr. Graham has not been able to determine the extent of his injuries. If Nighbor is unable to play, Durrigan will hold down centre and Denenny will go to defence. Middle Guard will start out at his regular position, cover point.

OTTAWA TEAMS GETTING READY FOR ALLAN CUP

Ottawa, Feb. 23.—Hockey finals for the Ottawa amateur championship and the Allan Cup elimination round were arranged for the Ottawa Hockey Commission. Wanderers, champions of the Capital League, and Munitions, champions of the City League, will meet in a home-and-home series. The first game will be played at the Rideau second at the arena Thursday evening. The majority of goals to count on the C. A. H. A. rules will be in vogue. Penbrooke and Brockville play at Brockville for the Ottawa valley championship. The winners of which will meet the Ottawa city finalists on Saturday and Monday next.

BANK LEAGUE FIXTURES

The Bank League will hold away at the Arena tonight when a doubleheader will be staged. At 8 o'clock Nova Scotia and Hamilton will meet and at the riveting time the two teams is seen a real tussle should be the result.

HIGH PARK VICTORS

In the return game for the Hall Fountain Cup, High Park curlew defeated Burn Cup, High Park curlew defeated Burn Cup, High Park curlew defeated Burn Cup.

FIFTEEN TEAMS FOR INDUSTRIAL SOCCER

The Industrial Athletic Association met last night, when representatives from the following factories were present: Dominion Transport, Willys-Overland, Ford, Toronto Carpet, Harris Abattoir, Massey-Harris, Kodak, Cowan, Fairbanks, Nelsons, Gutter, Fercha, Goodyear, Canada Cycle and Buis.

QUEEN'S WINS ROUND

Kingston, Feb. 23.—In the junior intercollegiate hockey match tonight, Kingston defeated the Collegiate Institute by a score of 9 to 2. This gives Queen's the round by 9 to 2.

ANOTHER SLEEPER

Akron, O., Feb. 23.—Sergeant Ray Smith of Newark, New Jersey, knocked out Jack Connors of New York, in the second round of a scheduled 12-round boxing bout here tonight. The men are heavyweights.

MCCORMICK WINS AGAIN

Valdigo, Cal., Feb. 23.—"Boy" McCormick, English light heavyweight, won a decision over "Sailor" Ed. Petrovsky, in a ten round bout here today under the auspices of the Mare Island Naval Training Camp.

DOWN WITH THE DUTCH

Rochester, N.Y., Feb. 23.—Joe Stecher, champion heavyweight wrestler, defeated Tom Drank of Holland here tonight in two straight falls. Stecher got the first fall in 1 hour 9 minutes and 33 seconds, with his body-scissors and backhammerlock, and the second in 13 minutes and 10 seconds with a headlock and body-scissors.

BROSSEAU MEETS MIKE O'DOWD NEXT

Put Young Ahearn Away in First Round at Montreal.

Montreal, Que., Feb. 23.—(By Canadian Press)—Eugene Brosseau, the crack Canadian middleweight, knocked out young Ahearn, middleweight champion of Europe, in the first round of a scheduled ten-round bout here tonight.

Kitchener Draws Bye in Play-Off

Kitchener drew the bye in the play-off for the honors of O.H.A. senior group number two. Granites and Kitchener are tied at the top by virtue of Kitchener's win on Friday and Parkdale will be on the terms if they down Argonauts on Thursday night.

City Playgrounds Hockey Championships Completed

City Playgrounds completed their championships on Saturday afternoon when Carlton Park defeated O'Neill in the final game. McCormick, 3-2.

I. & D. Representatives Arrange Summer Program, Including Test Matches

At the monthly meeting of the cricket council in the Sons of England Hall, representatives from twenty cricket clubs were present. The chairman, H. C. Wooley, presided.

—THE INVESTOR'S OPPORTUNITY— THE HERRICK GOLD MINES, LIMITED

Incorporated Under the Ontario Companies Act (No Personal Liability)

A PROPERTY WITH A BIG FUTURE ONLY 100,000 SHARES OFFERED AT 40c A SHARE

Authorized Capital \$2,000,000; Shares \$1.00 Each. 1,000,000 Shares Reserved for the Treasury.

LARGER PROFITS are made possible for those who invest in gold mining properties of merit when they are in the early stages of development,

This is the case because at that time shares can usually be bought at a much lower figure than when the mine becomes an important producer. There is, of course, the element of risk in the initial proving-up of a property. On the other hand, when a property makes good the reward is usually large. Those who bought shares in the leading gold mines of Porcupine and Kirkland Lake in the early days made handsome profits. These properties were not looked upon with favor in some quarters. They had their critics. A noted engineer at one time condemned the Hollinger Consolidated, now the world's premier gold mine.

The geology of the gold areas of Northern Ontario seems to have been very much misunderstood in those days. Evidently it did not occur to the critics that the deposits showing on the surface originated probably many miles below the present surface of the earth, and that the veins went to great depth. In Porcupine development has been carried to a depth of 1,500 feet. These developments have demonstrated that ore bodies are wider and carry higher values in gold as depth is attained.

In the majority of mines in this district, a great deal of faulting has occurred. Veins exposed on the surface did not continue in an uninterrupted course to depth. They were found to be broken off and thrown in one direction or another. Where this condition existed, it meant extensive exploration to pick up the veins again.

In the case of the Herrick property it is different. The vein exposed on the surface lay in practically a straight line. This indicated that it would in all probability be found to continue in its downward course without deviation. When preliminary development work was begun, a shaft was sunk 60 feet on this vein. It continued to widen as sinking progressed, and assays indicated that it carried ore of excellent commercial grade.

The next step was to test the ore at depth over its lateral extension of 1,000 feet to ascertain if it would be continuous to depth without faulting. The diamond drills were pointed to cut the vein at various depths down to 800 feet, having regard to the dip of the vein, as shown on the surface. The holes were put down according to these calculations and in every instance the ore was cut close to the desired point. This work seems to prove conclusively the existence of an ore shoot 1,000 feet long, 800 feet deep, averaging at the very least 10 feet in width. An ore shoot like this would contain about

600,000 tons of ore. At \$15 to the ton it would have a gold content of \$9,000,000. While it is not claimed that \$9,000,000 in gold exists in this ore shoot, it may be pointed out that diamond drilling results strongly indicate this possibility. At all events the development is most significant and we feel justified in regarding the Herrick as a property of most exceptional promise.

It appears to us to be clearly proven that it is not a question of exploring for ore, but merely a matter of opening up a large vein at least 1,000 feet in length and known to exist to a depth of 800 feet. That it can be quickly developed appears quite evident.

Shaft-sinking, cross-cutting, drifting and general mining operations can be vigorously prosecuted as soon as the mining plant now being installed is ready for operation. This should be within a few weeks.

Within six months the Herrick should have a large tonnage of ore available to feed a good-sized mill. The present offering of Herrick Shares is at 40 cents a share. We regard this as a low price, when it is considered that the property has such excellent possibilities of becoming an important gold producer in a short time. This is a good time to secure some shares in this fine property. Only 100,000 shares are available at 40 cents. Orders should be forwarded to us promptly.

All balances from stock, including slightly counter-soiled garments. Middies are smartly trimmed with contrasting colors and braid. Band and waist attached styles.

Sizes 6 to 14 years in the lot, but middies up to 10 years only. No phone orders, please. Regularly \$1.50 to \$3.00. Half-price, 75c to \$1.49.

Fabric Fashion

In the Spring a young woman's fancy turns, not lightly, but very seriously, to the thoughts of her new wardrobe. How important, then, that the fabrics which go into the making of modish apparel, be chosen with an eye to smartness, becomingness and adaptability to the many occasions of the season.

Just now, as you know, our Fabrics Shop is holding its formal display of Spring weaves. To be certain of obtaining the newest and toveliest for the frock suit or coat (or, indeed, for any chic wearable your mind is intent upon) you should

Linger Awhile

among these glorious fabrics—catch the gleam of shimmering silken surface, the splendid riot of coloring, whose subtle charm glows and changes and shifts with each new vision of it—crush the soft, velvety woollen fabrics with your fingers so that you may feel their beauty. Then only will you realize that the wide-world weavers have fashioned, and Simpson's have gathered together for Spring the most fascinating silk and woollen weaves that have ever been shown.

The Craze for Embroidered Fabrics

—is one of the interesting, nay, a positively consuming phase of the mode. Black silk designs against a background of jade, Maeterlinck blue, Pekin, castor, taupe, gray or navy, in the following fine fabrics:

Silk and Wool Faillie Poplin.
Silk and Wool Satin Theresa.
Silk and Wool Crepe Ondine.
Wool Trico Jersey.
Chiffon Serge.
Wool Tricotine.

New Spring Suits for Misses

Particularly trig are the new Bolero suits with gay vestes of novelty silks, loose bell sleeves and skirts that frequently show accordeon pleating.

Out fitted tailleur and straight-line suits express a wealth of refinement and quality, gained to a large extent from the fineness of the tricotine which usually fashions them.

Where color is concerned, navy is far in the lead—a fortunate feature, too, because this year, more than ever, you look for durability in choosing your suit. For sports wear, heathertone jersey suits are very smart. Priced, \$47.50 to \$135.00.
