Italy and Belgium Also Favor Compulsory Arbitration

CHINESE ARMIES ARE MAKING BUT LITTLE PROGRESS

ARE DISCUSSING THE REDUCTION OF ARMAMENTS

Debate in League Assembly is Expected to End Tonight.

TO COMMISSION

Italian and Belgian Premiers Also Support Compulsory Arbitration.

Geneva, Sept. 6.—The general debate in the League of Nations Assembly on the reduction of armaments is expected to come to an end tonight, when the whole series of questions touching on the subject will be referred to the Assembly Commissions.

Six speakers are scheduled for addresses at today's session, completing the debate begun by the British and French premiers, and followed by ex-premier Salsandra of Italy, Premier Theunis of Belgium, and others. Its keynote is the establishment of compulsory arbitration in disputes between nations as the best effective safeguard for maintenance of world peace.

Some students of international politics profess to see a hopelessly irreconcilable position between England and France, despite their acceptance of obligatory arbitration, because of England's loathness to commit herself to engaging military penalties and France's insistence that arbitration must be accompanied by military sanctions.

The French statesmen in Geneva are optimistic.

An Amusing Incident.

Geneva, Sept. 6.—Open-air diplomacy of M. Herriot visited astounded the calm Geneva yesterday. The French premier and the gray-bearded Count Apponyi, the Hungarian delegate, seated in an open touring car alongside a curb, engaged in a perfectly audible discussion, with frequent gestures, seemingly entirely oblivious of the wondering crowd that stood about.

Hatless, the statesmen argued away for a good half hour. Then they became aware of the presence of the crowd, and adjourned their argument by simply ordering the chauffeur to move on to a less frequented square in a portier portion of the city. There, still without their hats, they continued the discussion for another hour.

At first the inhabitants of the quarter to which they had gone did not recognize either of the protagonists. But finally a big crowd gathered, and Swiss secret service authorities were sent to flank the statesmen's car, thus permitting them to continue their discussion, undisturbed by the jostling people.

Want Germany In.

Geneva, Sept. 5.—Definite development of the question of Germany's admission to the League of Nations is expected before the adjournment of the Assembly.

Some of the delegations, including the British, favor initiative by the Assembly to get Germany into the League. Others, like the French, prefer to treat Germany like any other country not yet a member of the League, and have her candidacy conditional upon the article of the covenant which provides that any power may join by agreeing to adhere to the pact and by satisfying the League concerning the condition of its national armaments.

Present indications are that, with the Berlin Government willing, Germany could be admitted to the League at any time because all nations are unanimous that Germany should be a member in the interest of Germany and the rest of the world; especially in view of the new plans to make compulsory arbitration a basis of international life and to conduct a new disarmament conference.

Has "Fit" in Court And Gets 4 Years

New York, Sept. 6.—Eugene Kearney, 27 years old, of Brooklyn, was sentenced to four years in Sing Sing in the Bronx County Court by Judge Louis D. Glavin, who characterized him as a "thoroughbred faker of epileptic fits." Kearney had pleaded guilty to grand larceny, but was arrested after he had disappeared with \$20, which was a messenger at Fordham hospital, he was instructed to take to Bellevue Hospital.

TEN MEN MISSING FROM FISHERMAN

Ten of schooner Raymond's crew are not yet accounted for.

St. Pierre, Mig., Sept. 6.—Ten men of the crew of the three-masted fishing schooner Raymond, wrecked on the Newfoundland coast near Fortune in a heavy gale last night, were unaccounted for last night. When the vessel broke from its moorings all but six of the 35 members of the crew took to the dories. The six who remained aboard were reported safe last night and two dory loads had been accounted for, one boat reaching shore and the other being picked up by a Canadian steamer.

CURIOUS CHANGES IN WORLD EVENTS

The Irony of History As Illustrated in Three Countries in Europe.

London, Sept. 6.—(United Press)—Three curious examples of the "irony of history" took up in the day's news, from widely separated situations. The first is the fact that the British Empire is now being built up in the same way as the British Empire was built up in the days of the late Queen Victoria.

Article 12 of the Anglo-Irish treaty, whereas the late rebellion in Ireland was the result of the British Empire's policy of "divide and conquer," is now being used to bring about the union of the British Empire and the United States.

From Vienna, comes word that one Hans Herz has turned Roman Catholic. He is the only son of the late Theodore Herz who was the founder of modern Jewish Zionism and the prophet of what has been described as the "Jewish revival." The son's baptism into Christianity took place just two days before the Jewish people all over the world were commemorating the 20th anniversary of Herz's death.

8. Dispatches from Berlin record the establishment felt there at the discovery that when, on August 12, Germany celebrated the anniversary of the Weimar Constitution and the birth of the new German Republic, the only one of the foreign embassies in Berlin which remembered to fly the Republican flag was the Soviet embassy. Berlin found this disconcerting because, rightly or wrongly, Berlin firmly believes that at heart the Soviet embassy was sent to see the Republic overthrown and a "dictatorship" established. But what Berlin can't figure out, according to the dispatches, is whether the "irony" was intentional or not.

A Steamer Wrecked In Tonga Islands

Apia, Samoa, Sept. 6.—The Norwegian steamer Mesna, carrying passengers and freight, has been wrecked in the Tonga Islands, south of here, according to reports received here. The wrecking of the Mesna was reported to be the result of the Mesna's passengers. The Mesna is listed in Lloyd's Register as a ship of 6,424 tons, 985 feet long, owned by Den Norske Afrika of Australialine. She was last reported en route from Haiphong, French Indo-China, to Suva, in the Fiji Islands.

WILL TURN DEFICIT INTO A SURPLUS DECLARED ROBB

He was Telling English Newspaper Men About C. N. R. Situation.

PRAISE OF CANADA

Sir Henry Thornton Described as an Ideal Man for His Task.

London, Sept. 6.—(Canadian Press)—"We do not only think but we know that, given a fair opportunity, we shall be able to turn the deficit into a surplus and show the Dominion that its investment in the Canadian National Railways is one of the best of the Government has ever made," declared W. D. Robb, vice-president of the C. N. R. last night when he met a considerable number of English newspapermen at dinner.

A ROYAL PICTURE

"Being a Canadian myself, it may be a royal picture I am presenting to you, but to me it is real, and any man coming to live with us will see the same picture. The progress of the country and the prosperity enjoyed by the bulk of the people is positive proof of my assertions. It is the same picture in the whole world the same opportunity exists for the worker to become his own master."

RUSSIAN WORKERS MAY MAKE TROUBLE

Riga, Sept. 6.—In Moscow and in all Russian industrial centres, particularly of food and clothing, there is a growing hostility to the Government's grain export policy.

VERY SAD NEWS FOR DIVORCE SEEKERS

Over a Hundred Look to Progress But Look in Vain.

Houston, Tex., Sept. 6.—A report that Progress, Mexico, has become a Mexican El Reno and that divorcees are easy to obtain on almost any grounds after 30 days' residence, has become so widespread that the agents of a Galveston steamship line, whose ships touch at Progress, have been besieged with requests for passage to that port.

Masonic Conclave In Portland Next Week

Portland, Me., Sept. 6.—A general committee of more than 125 Masons and their wives are making plans for the entertainment of members of the Masonic fraternity who will be in this city from Sept. 8 to 12 for the triennial convales of the General Grand Chapter of Royal Arch Masons and the General Grand Council of Royal and Select Masters. FLIERS WAITING FOR GASOLENE THIS MORNING

Had to Get a Supply From Brunswick, Seven Miles Away.

READY TO HOP OFF

Weather Favorable and Air Squadron From Boston Off to Meet Them.

(Canadian Press.)

Boston Air Port, Mass., Sept. 6.—The escort squadron took the air to meet the world-girdling fliers, starting in a speared formation northeastward, at 8.10, Standard time. Twelve planes hopped off.

Weather reports from Merz Point were favorable. Lieut. Smith estimated that the distance to Boston by air was 120 miles and expected to make it inside of two hours.

The start of the fliers from Merz Point to Boston was delayed this morning by discovery that their gasolene supply was short of the amount to supply the necessary margin of safety. An order for immediate delivery of 75 gallons was sent to Brunswick, seven miles away.

The United States airman, who passed over St. John yesterday afternoon in an effort to make a non-stop hop from Pictou to Boston, were forced to land at Orr's Island, about 20 miles from Portland, Me., and spend the night at that place, about 100 miles short of their objective. A Boston despatch this morning says:

"Shortly after 9 o'clock this morning, General Patrick, Air Service Commander, received at the Boston airport a message from Lieut. Lowell J. Smith, world flight commander, saying that the fliers were going out to their planes off Merz Point, Maine, and expected to hop off for Boston in a few minutes.

"Fog and thick weather that rolled up along the Maine coast brought about an unexpected landing by the United States world-girdling army aviators at Merz Point, near Brunswick, Maine, yesterday, while a crowd of nearly 40,000 persons awaited them at the Boston airport. Reaching the mainland of the United States after an absence of nearly five months, in which they completed the virtual circumnavigation of the world by air, the fliers received by telephone the congratulations of high army officials who had gathered here to meet them.

"Forced by fog to turn back with his squadron of eleven planes which he hoped to escort the aviators to Boston, Major-General Master M. Patrick, chief of the air service, found a telephone call from Lieut. Smith, leader of the world flight, awaiting him here. Smith's first greeting to his chief was: 'Sorry we had to disappoint you, sir, but the fog was too thick for me to take a chance with these men and our ships.' General Patrick replied: 'Mighty glad indeed to have you so near home. I know you did the best you could to get through today. We went up to meet you and realize what the conditions were.'"

German Boys Are Keen on Football

Berlin, Sept. 6.—The boys and young men of Germany are intensely devoted to football. Where there was one football club ten years ago, there are 15 today. The season play runs through the entire summer and well into the cold of winter.

First Picture of Prince As He Reaches U. S.

Here is the only close-up picture made of the Prince of Wales as he left the Berengaria for the yacht Black Watch, which carried him to the left of the Berengaria, Long Island, New York. The Prince was dressed in a gray suit, with white stripes. He wore a blue shirt and collar with a red tie, and a red kerchief in the top pocket of his suit. A gray hat with black band sat jauntily on his head.

Didn't Tell Customs Men About Gowns; Women Pay Thousands

New York, Sept. 6.—For failing to declare goods they had purchased abroad, upon their arrival in the Port of New York, three persons were fined a total of \$5,073.49 following a hearing at the custom house before Edward Barnes, Assistant Solicitor of the Legal Division.

The two referred to were those two sisters-in-law, Mrs. Sally M. Livingston of Kanakake, Ill., and Mrs. Lewis Sands, wife of the head of the Livingston Manufacturing Company of Cleveland, Ohio. Both women arrived on the Berengaria late last Friday. They brought several gowns from Paris, which, it was said, they failed to declare in the paper filled out by the passengers before the vessel reached port.

After the hearing Mrs. Livingston paid duties and penalties totaling \$9,314 in order to recover her goods. The seizure was made at the pier by Deputy Surveyor James F. Long upon the information given him by Inspector George Elide, who examined the baggage of the women passengers. Mr. Long told the Collector that after her goods had been seized Mrs. Livingston said she knew "a friend was doing and had done the same thing before through having "a friend at court."

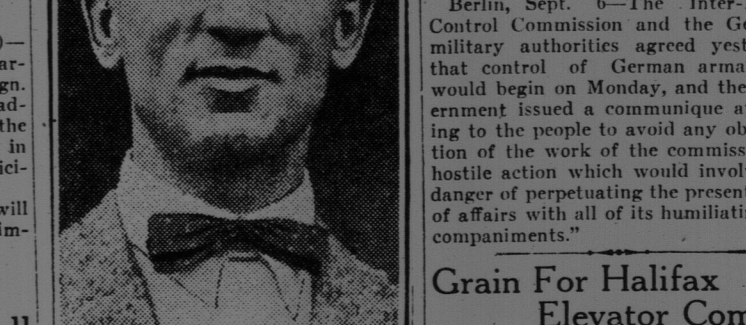

Mrs. Livingston denied having made any such statement to Deputy Surveyor Long, when questioned by the collector of the port. Her sister-in-law, Mrs. Sands, had to pay \$983.20 to recover her gowns which had been seized.

She remarked as she handed the money to the assistant solicitor, "It's the old, old story; it's the woman who pays and pays." Mrs. Sands was fined \$176.21 for failing to declare some embroidered articles when he arrived on the Levathan.

Deputy Surveyor Long also made two other seizures from passengers on the Levathan, alleged to have been undeclared by Miss Edna Bartlett of 840 West End Avenue. The other was an undeclared fur coat, said to have been brought in by Miss Eileen McCarthy Adams of Los Angeles, Cal.

LOCATELLI WILL NOT MAKE VENTURE

Believes Dirigible Better Than Airplane to Reach the North Pole.

LIEUT. LOCATELLI

New York, Sept. 6.—Lieut. Antonio Locatelli today announced he had called off his proposed flight to the north pole with Capt. Raald Amundsen, the Scandinavian explorer. His reason for making this decision, he said, was that he had learned from his disastrous airplane trip, ending in the Arctic waters near Greenland, that there is a better chance of reaching the pole by dirigible than by airplane.

CHINESE ARMIES ARE MAKING BUT LITTLE PROGRESS

Manchurian Governor Says He Will Not Interfere in the Strife.

WRETCHED SOLDIERS

Men Roped and Handcuffed in Shanghai and Sent on Military Duty.

(United Press.)

London, Sept. 6.—The powers have intervened in China to the extent of sharply warning the combatants that the battle before Shanghai must be kept within certain limits, where the foreign colonies will not be jeopardized, according to the Times Shanghai correspondent.

A note was dispatched to General Ch Hsieh Yuan and General Lu Yung Hsiang warning them that they must not fight along the Hetang Pu River from the Woussing forts below Shanghai to the Kiangan Arsenal above the city.

The Times' correspondent also reports General Lu, who is defending Shanghai against the attacking forces of General Chi, issued a lengthy manifesto declaring war against President Tsao Kun of the Peking government. The manifesto denounced Tsao Kun as an "illegal President and arch robber."

This declaration, the correspondent says, is believed to be preliminary to entrance of Chang Tso Lin into the struggle. Chang is a powerful northern war lord, opposed to the present government at Peking.

An Encircling Movement.

Shanghai, Sept. 6.—A despatch from Lieuchou, 20 miles north of here, states that the Kiangan troops of General Chi Hsieh-Yuan are attempting an encircling movement, and that there was intermittent fighting there this morning. No trenches have been dug, and the soldiers are holding their positions behind natural mounds, graves, or anything else that offers the slightest protection. Many of these warriors fire into the air instead of aiming at the enemy. They are fed mostly on biscuits or bread and mixed meats.

Using Artillery.

Shanghai, Sept. 6.—Attacking Kiangan forces in the Lihoo sector, about 30 miles northwest of Shanghai, continued their assault Thursday night and late yesterday afternoon appeared to be preparing for another night of continuous fighting. The firing was becoming more intense as hours passed, it was stated, but both sides were using artillery, mainly three-inch guns.

Whether the main battle is to be fought on this wing is not yet clear. Apparently General Lu Yung-Hsiang, the commander of Chekiang forces, feels that his left wing at Hwangtung on the Shanghai-Nanking railway, east of Shanghai, where he has established his headquarters, and whence he is sending reinforcements, needs guarding to prevent the enemy penetrating into his province and menacing the Sung-kung Hangchow railway.

No Field Hospitals.

Some wounded have arrived in Shanghai, there being no field hospitals at the front, and the Chinese Red Cross units have retired.

Interest still centres in the possible attitude of General Chang Tso Lin of Manchuria and General Wu Pei Fu of Chihli, both of whom have declared they have no intention of interfering in what they declare is a local fight between the two Tsuchis. It is felt, nevertheless, there is a possibility of Wu's soldiers retreating west of the fighting center drifting into the Kiangan army, the cause of which their chief is understood to favor.

Dr. Sun Yat Sen, the head of the South China Government, who has been short of funds for some time, it is thought is not in a position to intervene at present.

Will Not Intervene.

Peking, Sept. 6.—Denial that Chang Tso-Lin, military governor of Manchuria, has any intention of interfering (Continued on page 2, third column.)

MORE BOOSTERS FOR N. B. GO TO WOODS

Spotting Party Away This Afternoon to Cain's River Country.

No more effective boosters of Brunswick's hunting and fishing news are to be found on this continent than a group of sportsmen who arrived in the city this morning from Newfoundland and leave this afternoon at 4 o'clock for Cain's River, York county, to have another crack at our famous salmon.

These gentlemen are Frederick M. Peet, laundry magnate, Chicago, renowned as the champion fly-caster of America, inventor of fishing flies and other lures with which to catch game fish; William E. Kidder of Kalamazoo, Mich., a fisherman and hunter of international repute who travels almost continuously throughout the year from Alaska to Florida, the Rockies to Newfoundland; Mr. Tuttle, banker, of Chicago; Mr. Kidder, Jr., Mrs. Kidder, Mrs. Peet and Miss Peet.

The ladies of the party are returning to the States this afternoon while the men folk proceed to river. This will make the second trip of Messrs. Peet and Kidder to the Cain River this year. They caught the spring run of salmon while the snow was yet on the ground and had wonderful success. Mr. Peet relates that in no more than twenty-five casts he caught four monster fish in one pool alone. The Americans landed a record-breaking catch.

Saw Much Game. On this spring trip they saw twenty-eight deer and several moose, one of which—a towering bull—was killed from the inner recesses of the woods to the stream-bank, just to show our tundra-foot member, Mr. Shakespear of Chicago, that there really was such game on call whenever we wanted to get a different kind of a thrill! said Mr. Kidder. Mr. Shakespear said he had gotten his money's worth with this exploit alone, the mere seeing of the animal about which he had heard so much.

Mr. Kidder this season is equipped with a miniature movie picture camera which he uses daily. He has made some wonderful shots, filled with stirring action both in salmon fishing and of animal life. With these he will regale his friends all winter. Mr. Kidder is a lumber, woodworking and pulp magnate of the United States. See Hotel Great Asset.

The visitors were glad to see the new hotel started here. They are sure it will be a great asset to the city and Maritimes, and speaking for the well-to-do hunting and fishing fraternity it will be an added attraction to the city that they will be in touch with the leading hotel system of their own country.

While on the Cain River the party will be under the special guidance of Harry Allen and his nephew, George Allen.

SAYS FAST-LIVING AFFECTS STATURE

Americans Have Lost Two Inches in Height Since Civil War.

Detroit, Sept. 5.—People of America have lost two inches in stature since the Civil War, according to Dr. John Harvey Kellogg, dietitian and superintendent of the Battle Creek Sanitarium. "Stunted growth is resulting from our modern 'eat and run' habits," Dr. Kellogg said. "The American public gives little or no thought to the proper consumption of food. Our modern business activities are so hurried and intense as to allow no consideration for the most important element of health—food. The proper selection and careful mastication of food consumed."

The stature of the American people has dropped two inches in the last 60 years, due to the modern American custom of boiling out the fat from the food. "Food is fuel to the body, and poor fuel means a deficient output of energy just as too much fuel chokes the fire of health and retards normal development."

"A height in stature of over six feet prevailed in the early states; today the average normal height in stature of the American people is much below six feet, a condition attributable to our modern quick lunch counters and hurried mode of living."

Will Stage Some Real Log-Rolling. Eau Claire, Wis., Sept. 5.—An old-time sport for woodmen of the western states will be revived with the staging of an interstate log-rolling tournament here Sept. 7.

Not since 1914 have woodmen of the northwest gathered in competition. Recently numerous challenges have passed between woodmen of the northwest region, which has led to a revival of the tournament. The "world champion log roller" will be determined at the meet.

No Parking Space in All Germany. Berlin, Sept. 6.—In all of Germany there is not a single parking space for automobiles. This fact came to light as a result of an investigation to determine the condition of the motor industry in the country. Police regulations do not permit automobiles to stand in the streets unless attended by the driver, and even then for only a short time.

In order to popularize locally the pastime of driving one's own car, a movement has been started in Berlin and some of the other cities to set up automobile parks within the city centres.

It is estimated that nearly \$2,000,000 will be necessary to complete the proposed improvements. The Bremen senate has offered to co-operate in bringing about the harbor extensions.

The business large are meat packing, automobiles, machinery, iron and steel, cotton, railroads cars and trams. Beauty comes ahead of newspaper and magazine publishing, bakery and women's clothing, the remaining billion-dollar businesses."

Poor Fighting Men. Shanghai, Sept. 6.—Foreign observers from the battlefield state that the most noticeable feature of the campaign just opened are the primitive and utterly unsanitary arrangements provided to deal with the wounded, and the rapacious type of the Chinese soldiers involved, following the usual Chinese custom of putting the loot and spoils in their pockets.

ARMSTRONG AND BRUCE SITE FOR PROPOSED SCHOOL

Committee Recommends Expropriation—Opinion was Much Divided.

The vocational committee of St. John last night voted in favor of the Armstrong and Bruce Limited property fronting on Dufferin avenue, as the site for the proposed vocational school.

The committee also gave authority for F. Neil Brodie, the architect, to proceed at once to prepare working plans from the sketch he had previously submitted, which was approved by A. Crawford, Dominion director of technical education. It considered the advisability of appointing a superintendent of construction to have oversight of the erection of the building and suggested the name of George F. Hennessey, Richmond, Prince Edward and St. Patrick streets as most desirable.

He considered the matter of making the school a success was of greater importance than destroying taxable property which reason had been given for the discarding of the suggestion that a Paradise Row site should be used.

The chairman said Mr. Crawford had inspected several sites and had given three from which the selection must be made and the chairman believed that the committee must make a decision that evening or shut down and agree that there was no suitable site to be found.

Mr. Hennessey asked who was going to build a road to the Armstrong and Bruce property and Mr. McIntyre said the city would. Mr. Hennessey then inquired if the road would be built in time to get the material in. Mr. McIntyre said the material would be got in regardless of whether the road was ready or not.

Judge McKewon said the only site with a road to it was the Murray Kay site and Mr. McIntyre said he believed \$2000 to be a fair price for the site. Mr. Hennessey said the complete committee, A. Gordon Leavitt, Secretary of the School Board, and S. A. Worrell, acting superintendent of the city schools.

Crawford Report. The report of Mr. Crawford was received and stated that of the eight sites he had inspected he considered the three mentioned the most desirable. The selection, he said, had resolved itself into the problem of determining which of the three he mentioned had the least objectionable drawbacks. The report also gave for each site the price he thought should not be accepted without actual negotiations and they were: "Practically" Clerical College, \$12,000, grading and excavating \$9,000, total \$21,000; the Alexandria Heights property, \$10,000, grading and excavating \$10,000, total \$20,000; Armstrong & Bruce, purchase \$80,000, excavating and grading \$9,000, total \$89,000. The distance from Elm street corner to the Dufferin Avenue site entrance was 1,350 feet.

Question of Price. Mr. Nagle said he could not agree to the price of the Armstrong and Bruce property, \$80,000, and would want to see expropriation proceedings taken. Judge McKewon considered the committee would be condemned from the start if it agreed to any such price. Mr. Nagle recalled that when the C. N. R. was expropriating land around the Marsh bridge the owner's estimate of the value of the property had been \$70,000 and the price awarded by the expropriation judge had been \$13,000. He then made comparison with prices of other lots in the North End, saying that the North End playgrounds, a site almost as large as the one under consideration, had cost \$10,000 and was almost adjoining.

Judge McKewon said that at that stage in the proceedings there should not influence the committee in its decisions as he feared the prices of all three sites would come down to about \$10,000 or \$12,000.

Mr. Hennessey said that the school should not be put in a place that could not be got at at night or in a place where it would be necessary to walk through a snowbank to reach the entrance. Night students, he said, would always take the street cars and a man who had worked all day would not go to a place difficult to get at to take up night studies.

The question of whether the committee would have the right to expropriate was then considered and it was agreed that the committee had no such power but must request the school site committee's report.

The report of the site committee was submitted. Mr. McIntyre and Mr. Green had composed the committee and had reported on the score of the location of the school population, accessibility, desirability of physical conditions and surroundings and improvements. The committee also considered the question of the score of inadequacy.

Mr. McIntyre, speaking against the Alexandria Heights property, said he was informed that the minimum of trains passing there between 9 a. m. and 9 p. m. would be 80 and the maximum 300. He thought there would be only one good entrance as the height from Chesley street to the entrances on that site was impracticable.

Mr. Hennessey, who favored this site as he believed it had been favored by the school board, said the auditorium blank wall and machine shops would face the railway, that the trains ran mostly before or after school or during the noon recess and that down trains coated and made no noise. He said it would be an easy matter to grade the Chesley street side to give two good entrances there.

Mr. McIntyre said that he was informed that in spite of the fact that the school population was 100 to be found east of a line drawn along Prince William street and continued north.

Mr. McIntyre thought it would be a pity to put a building such as was proposed on any of the sites suggested. Mr. McIntyre explained that Mr. Crawford would not consider any site outside the city boundaries and it had been necessary to choose between the three sites.

Mr. Nagle was told the size of the proposed school was 260 feet by 100 feet, extreme measurements. He said he believed he was the only member of the committee with unblinded views. He pointed out that for the first few years the school would in all probability be a high night school and he suggested the site of the Fleming Foundation where the population was densest. The site there was 350 feet by

450 feet and he believed if ground was necessary the land could be taken through to Dorchester street or if necessary to Garden street. He did not see why so large a site as six acres was necessary and thought as the citizens had to pay for the site they should have the say in the selection of the location.

Has Other Suggestions. He considered if Mr. Crawford was willing to endorse a Government grant for the three sites he had named that he would be willing to endorse a Government grant for any site. Mr. Nagle was not satisfied with any of the three Mr. Crawford had endorsed. Mr. Nagle later said he believed some location in Prince Edward street would be most central and he suggested a section bounded by Richmond, Prince Edward and St. Patrick streets as most desirable.

He considered the matter of making the school a success was of greater importance than destroying taxable property which reason had been given for the discarding of the suggestion that a Paradise Row site should be used.

board to take action as the committee's expenditures are approved by the school board and the property would have to be vested in the school board. Result of Ballot. It was decided to have each member present write the names of the three sites in the order of his or her preference.

The result of the ballot on the three names was as follows: Murray-Kay, two first places, three second places and two third places; Armstrong and Bruce, three first places, two second places and two third places; Alexandria Heights, two first places, two second places and three third places. Another ballot was taken with the Alexandria Heights site discarded and this ballot resulted in a four to three for the Armstrong and Bruce property. A third ballot was taken with the Murray-Kay property discarded and resulted in a four to three vote for the Armstrong and Bruce property.

As it was apparent that the Armstrong and Bruce property had the majority vote the committee's report that it be selected was adopted after the clause with regard to cost had been eliminated.

With reference to the \$30,000 price which the owners place on the property, Mr. Hennessey said that that figure of \$5,000 an acre seemed excessive in view of the fact that the rifle range adjoining had cost only \$400 an acre.

On the motion of Mr. Green, the majority vote the committee's report that it be selected was adopted after the clause with regard to cost had been eliminated.

MAN IN STREET ROW**

Off Duty, Becomes Involved
in Altercation With
Wedding Guests.

New York, Sept. 6.—On Avenue A wedding party broke up in the early morning and some of the guests gathered at the avenue and Eighty-fifth street. An altercation started. Policeman Richard Graham of the East Sixty-seventh street station, off duty and in plain clothes, became involved. When three policemen arrived on the scene they found Graham holding two prisoners and a third man lying mortally wounded on the sidewalk. Graham said he shot the man after he himself had been attacked. The policeman had been attacked of a doctor from Flower Hospital. The wounded man died at the hospital.

He was John Slattery, 20 years old, a chauffeur, of 428 West Fifty-second street. The two prisoners were booked as George Gallagher, 35, a chauffeur, and Edward Schaefer, 25. They were charged with felonious assault.

Graham, after being questioned by Captain John J. Noonan, went home on sick leave. He is reported to have told his superior that he had been visiting some friends in the neighborhood and that he was merely doing his duty in trying to stop an altercation. He had fired two shots after the men had attacked him, "to drive them off" and "to bring help."

Graham was not in the Harlem Court when the two prisoners were arraigned before Magistrate Corrigan. The Magistrate expressed surprise that Graham had not been held. "There are, too many people being killed by the police, it seems to me," was his comment. According to the story told in court, Graham was about to enter a taxi cab, when three men attempted to drag him out of it. In the fight that followed, Slattery in the abdomen. Mrs. Slattery, carrying her six-month-old daughter, Rose, was with the men. "The police have got this all balanced up," Gallagher said in court. The wedding had been held at his home, he said, and he took no part in the affair, but ran into the street when he heard the shots. He said he found Graham alone and lying on the sidewalk, drunk.

Detective Cordes testified that Graham was intoxicated. He said the police surgeon who examined him found he was "fit for duty."

Gallagher said a policeman who arrived told him to go back into the house, and he did so. Later, he returned to accompany Slattery to the station house and was arrested by order of Graham, who said: "I'll make charges against him, too." The prisoners were held in \$1,000 bail each for examination. Policeman Graham has been on the force four years and has borne an excellent record, it was said. He lives with his wife at 274 West 199th street.

EMMA'S VIEWS CHANGED.
Miss Emma Goldman, an American Socialist, one, indeed, sometimes called an anarchist, has been telling the International Anti-Militarist Congress at The Hague some things about Soviet Russia where she went to find her spiritual home. She says, after experience there, that the Bolsheviks have built up a state as capitalistic and militaristic as the Russia of the Romanoffs, and in doing so have permitted less individual freedom than prevailed under the Czar. Miss Goldman, says the Victoria Columnist, is disillusioned about Russia and possibly about many other of the Communist doctrines she held in the past.

PARAGON BY DAY; BURGLAR BY NIGHT

Amazing Double Life Story of Young Woman is Disclosed.

London, Sept. 6.—One of the most amazing cases of dual personality of recent times has just been revealed. It is the case of a woman—a singer in a chapel choir, a devoted mother, conducting a little shop by day, respected by all her neighbors; by night, secret trips to the West End, dressed in costly furs and jewelry, and carrying through an amazing series of burglaries. The defence of this extraordinary woman is of unique interest and importance.

On Sundays a sweet-voiced chorister in the choir at a Wesleyan chapel in Kilburn, where she once won a prize for singing; by day a devoted mother, conducting a little shop by day, respected by all her neighbors; by night, secret trips to the West End, dressed in costly furs and jewelry, and carrying through an amazing series of burglaries. The defence of this extraordinary woman is of unique interest and importance.

Such is the amazing double life of a young and beautiful woman as revealed at the Middlesex Sessions when she was sentenced to 14 months' imprisonment for breaking into two houses at Hendon. Smartly dressed, and with a strikingly intelligent face, Mrs. Bertha Crouch bore no resemblance to the daring adventuress of fiction as she stepped into the dock to face the charges against her. There was nothing suggestive of the cunning and resourceful house-breaker. Yet, the fact that during the last nine months she has perpetrated no fewer than 10 of the most mysterious and profitable burglaries without so much as leaving a trace behind her, stamps her as one of the most amazing crooks of the day.

Sought for Months. For months the police have been looking out for the mysterious individual who has succeeded in carrying off hundreds of pounds worth of clothes and valuables undetected; for months the district has been combed for known criminals who might have been responsible. But never for one moment was the smartly-dressed woman, young and innocent looking, even suspected. Mrs. Crouch is only 26 years of age, and when on occasion she went out attired in a rich and costly evening dress of the very latest fashion, she looked even less than her age.

How completely she hoodwinked those who knew her, and how thoroughly she kept dark her nocturnal adventures, may be gathered from the plea of the pastor of the chapel where she had been a member of the choir. On hearing of her arrest, and the terrible position in which she found herself, he wrote to the court, saying that she was a woman whom he thought should be given a "chance to make good." "Never was there a finger-print left by which they could put their theory to a test by identifying them, for this little lady with the slim fingers, clad in the thinnest of thin kid gloves, was careful not to leave any." "She used to go out in the evening somewhere between 7.30 or 8 o'clock," her husband said, "and she came back as a rule any time before midnight. This was the cause of many quarrels and misunderstandings, as it angered me when she would never tell me where she had been. In fact, she seemed to

think it an impertinence on my part to want to know, and would tell me that it was no business of mine. "I could not understand where she got all her beautiful clothes, and it used to worry me when I saw her wardrobe packed with choice frocks of every description, including evening gowns and costumes."

Even when trapped she displayed the same unruffled calm with which she carried out all her exploits. She remained in the drawing-room awaiting the arrival of the detective who had been summoned, and when he came greeted him with a charming and genial smile.

NO BIGOTRY THERE

(Westminster Gazette.) If Sir Alfred Bower, as is likely to be the case, is elected Lord Mayor of London for the coming year a situation will be created which is without precedent since the Reformation. Sir Alfred is a member of the Church of Rome, and so are the two sheriffs elect, Alderman Barthorpe and Mr. Harold Dower. There have been several Roman Catholic Lord Mayors in recent years—the Kalle, father and son, de Keyser, and Sir William Dunn, for instance—and probably Sheriffs of the same faith; but that the three offices should be held in one year by Catholics is extraordinary.

JAPAN ALSO SUFFERS

Tokio, Sept. 6.—Unemployment is increasing in Japan, according to figures compiled by government employment offices. During June 85,000 men applied to these offices for work, an increase of 100 per cent. over the figures for June, 1923. Industrial depression and the effects of the earthquake are blamed.

CASE SET OVER TO NEXT WEEK

The case of Dr. Mayes' Case vs. Crandall C. Prescott was continued yesterday afternoon in the County Court before His Honor Judge J. A. Barry and jury. The defendant called only one witness, B. W. Van Blarcom, driver of the truck which was alleged to have collided with the plaintiff's car in Main street in January, 1923. The jury, after remaining out two hours, were unanimous in the answer to some questions propounded,

but were unable to come to an agreement on three. The case was accordingly set over until court convenes again on Monday. Mr. Van Blarcom testified that the car he was driving was following the plaintiff's car down Main street, and he blew his horn to pass the other automobile when, without warning, the doctor's car swerved to the left and was struck. He also said that there was no team ahead as contended by the plaintiff. Dr. Case was called in rebuttal, and this closed the case. G. H. V. Belyea, K. C., appeared for the plaintiff, and J. H. A. L. Fairweather and A. E. Richard for the defendant.

N. B. NURSES WILL MEET NEXT WEEK IN ST. JOHN

The New Brunswick Graduate Nurses' Association meets in annual convention in St. John on Tuesday and Wednesday of next week, and will hold its meetings at the Health Centre. A programme of much interest, touching upon subjects of special importance to the profession has been prepared, and the local members will extend hospitality to the visiting delegates at a dinner and a luncheon. On Tuesday afternoon Mayor Potts will give the address of welcome, and the two professional addresses will be given by Hon. Dr. W. F. Roberts, Minister of Health, who will speak on public health and other matters, and Dr. H. A. Farris, superintendent of the St. John County Hospital, who will speak on tuberculosis. On Wednesday there will be morning and afternoon business sessions. In the morning Dr. W. E. Rowley will address the meeting on child welfare, and Miss H. Melkjohn, director of public health nursing, will speak on some new phases of public health work. On Wednesday afternoon it is hoped to have Miss Jean Browne, president of the Canadian Nurses' Association and director of the Junior Red Cross in Canada, give an address, but no definite word has been received as to whether Miss Browne will be able to be in St. John at that time. On Wednesday afternoon the chief speaker so far arranged for is Miss H. E. Hamilton, organizer of home nursing classes for the Red Cross Society in Canada. At that meeting also Miss Mabel McMullin, of St. Stephen, will lead a discussion on private duty nursing, which is one of the most important of the discussions that will take place during the convention. Expected to be Representative. It is expected that all parts of the province will be represented in the attendance at the meeting, but the demands of their profession make it impossible for nurses to give any notification of attendance any great length of time before hand. Miss Margaret Murdoch, superintendent of nurses at the General Public Hospital, St. John, is the president of the provincial association, and will preside at the convention. The other officers are: First vice-president, Miss E. Mitchell, matron of the General Public Hospital; second vice-president, Miss A. Brancombe, superintendent of nurses of the Chipman Hospital, St. Stephen, and secretary-treasurer, Miss Maud Retailick, St. John. The additional members of the executive are as follows: St. John, Miss Sarah Brophy and Miss Melkjohn; St. Stephen, Miss Maud McMullin; Fredericton, Miss Victoria Winslow and Mrs. C. D. SPORT NEWS OF CLEANER FROM WORLD'S CENTRES

CHAMPION CANDLE PIN BOWLER HERE

Archie Walsh Enjoying a Vacation at Cedars—Has Fine Record.

Only a few sport followers in this city are aware that during the summer months Archie Walsh, world's champion candle pin bowler, has been enjoying a vacation at his bungalow at the Cedars on the St. John river.

Archie's Record.

In the Boston Arena last April he won premier honors, capturing the world's championship for candle pin bowling. His total for three strings was 880, which was considered exceptionally good.

In the same tournament he was a member of the Eagle team of Roxbury, which won the five-man championship with a total of 1,620. Over 2,000 participated in the big classic.

There is talk of having Archie perform on some of the local alleys before his departure for home and if this materializes it should prove a feature attraction at the opening of the bowling season.

PROMISING YOUNG SWIMMER FOUND

Experts Predict a Bright Career for George Young.

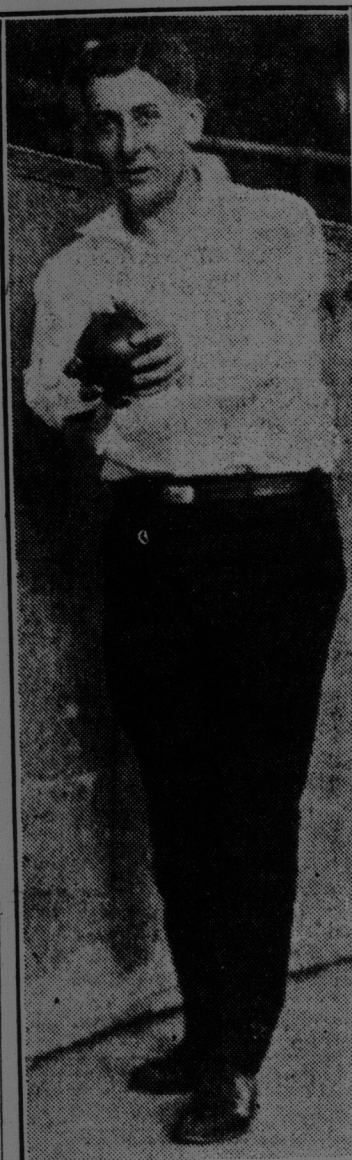

Followers of aquatic sports in Canada as well as practically all of the critics are almost unanimous in their opinion that in George Young, the 15-year-old Toronto swimmer, the Dominion possesses a star. Despite the fact that he has not yet won a long-distance swimmer of the world, if not an all-around star of the first magnitude.

PORTLANDS AND TROJANS TO PLAY

South end fans, while they were greatly disappointed when last evening's game failed to materialize, will have probably their last opportunity to witness a baseball battle on the south end diamond when the Portlanders and the Trojans, winners of the City Senior and south end leagues, respectively, meet this afternoon at 2 o'clock.

The city council of Geneva has decided to name a street after Woodrow Wilson.

ST. LEGER STAKES NEXT WEDNESDAY

Derby Winner Will Have Plenty of Opposition.

More than usual interest is being shown abroad in the running of the St. Leger Stakes, the final British turf classic of the season, at Doncaster on Wednesday, Sept. 10, and when Sansovina, Lord Derby's entry, winner of the English Derby, and admittedly the best thoroughbred of the English turf, will be much in demand.

To begin with, close students of form in England have come to the conclusion that Sansovina's victory at Epsom was somewhat in the nature of a fluke, despite the fact that he cantered away with this event. It is being pointed out that track conditions aided in his victory.

Next to Polyphontes the chances of Salmon Trout are the best. Salmon Trout is owned by the Aga Khan and is a son of The Tetrarch, which has furnished two St. Leger winners in England.

The records disclose that one of the most improved three-year-olds of the season is Polyphontes. As a two-year-old last year he showed his mettle against Stratella at Goodwood, though beaten in a close race.

Of course, his surprising victory in the Elitico Stakes at Sandown, when he beat Lord Astor's St. Germans, set the British turf world to thinking. St. Germans had run second in the Derby, but he was five lengths behind Polyphontes in the Eclipse.

McCarthy and Towle, two popular members of the Vets, left for their homes yesterday. The former went to Providence, R. I., and the latter to Brownville. The latter is to pitch three games in Quebec before the close of the season.

ERNEST TORRENCE AND ANNA Q. NILSSON In The Story of a Clown Who Rose to be Brigadier-General in the British Army During the Great War.

"The Side Show of Life"

SINCE 1906 PEOPLE HAVE TALKED ABOUT "The Beloved Vagabond," making it the most famous book Locke ever wrote. Now they will talk about "The Mountebank" with no less enthusiasm. For it is the story of a man who is probably the most "beloved" of all the wonderful characters Locke has immortalized—a man born in a circus tent; who had lived a fun-maker's life until the great war came, who was a private at its beginning, a brigadier-general at its end, who could then have married into the English aristocracy, but chose to honor, until fate released him, the ties that bound him to a woman who had shared his Beloved Vagabond—a man you will love. And Locke has done it.

WILL BE HERE THIS AFTERNOON Adjutant and Mrs. Wright Come to Salvation Army Posts.

Adjutant and Mrs. J. T. Wright, of the Salvation Army, are expected to arrive here this afternoon from Stratford, Ont., to succeed Adjutant and Mrs. Ritchie, who were transferred to Sydney, N. S. The new officers will be installed in their position here at the same time as Major and Mrs. Burton, on Monday evening, by Colonel Miller, field secretary for Canada East with headquarters at Toronto.

Adjutant Wright was born in England and came to Canada 10 or 12 years ago and has been stationed in several Canadian cities during that time. Adjutant Wright and Mrs. Burton were last at Stratford, Ont., during the last three years. Colonel Miller passed through the city en route to Sydney, where he installed Adjutant and Mrs. Ritchie in their new post on Thursday evening. Darius is seen funder than the rest of us—yes, sir. An' when I looked at that there machine flyin' along yesterday after noon round the world I felt like takin' off my hat to every crank in the country that folks laughs at because he's got some great scheme an' they think he's a nut. He may not hev the reel dope—but he may be on his way, jist the same. I f'ose it won't be long now till you'll be layin' out parkin' space fer flyers instid o' flivvers. I guess you an' me was born too soon."

"We may soon have wings ourselves," suggested the reporter. "One of us might," said Hiram, "but I hev my doubts about newspaper men—yes, sir."
