ANOTHER BOXER OUTBREAK FEARED

Advices Received in Washington Indicate Trouble Much Discontent

Rice Famine, Dynastic Difficulties and Dissatisfaction Over Acts of Peking Government as to Foreign Investments in China

Washington, D. C., Sept. 30.—China is declared to be on the verge of another upheaval, similar to the Boxer uprising and the lives of foreigners are in jeopardy. Advices received here recently from government officials in China express the belief that an outbreak at any time would not surprise them. The state department has instructed officials to maintain a close watch on the internal condition.

Altho the summer months there have been mutterings of discontent in some of the Chinese provinces due to the rice famine, dynastic difficulties and dissatisfaction over acts of the Peking government as to foreign investments in China. Good harvests mitigated to some extent the gravity of the situation, but there is still a general feeling of unrest, according to special letters received here from men on duty in that quarter.

Authentic advices from those charged with keeping in touch with the conditions indicate that the only thing lacking to parallel today's situation with that preceding the Boxer troubles is the matter of organization and that it only needs a leader to effect that end.

THE LUMBER MARKET

Little Improvement in the American Market—Shippers Hope for Better Conditions to Follow Light Shipments Now Being Made

The New York lumber market shows little if any improvement and there does not seem anything on which shippers can build up any hope for a betterment of conditions in the immediate future at any rate.

MONKTON ASSULT CASE ADJOURNED

Mr. Demers pricked the Bourassa case

Mr. Rivet was as eloquent as usual and the three members were convinced by the passage of a unanimous resolution approving of the principle of the navy as a further development of Canadian nationality within the empire.

MARK ABEONA AGROUND

Philadelphia, Sept. 30.—The British bark Abona from Philadelphia for Lunenburg is aground at the Delaware Breakwater full of water, the result of a leak sprung yesterday. The bark passed out to sea on Wednesday and was picked up after the leak was discovered by the pilot boat Philadelphia and towed back to the breakwater.

FAMOUS ARTIST DEAD

Burlington, Me., Sept. 30.—Winslow Homer, the famous artist, died at his home in Scarborough, yesterday aged 74. He had been ill for four weeks. Homer had practically lived the life of a hermit in his Scarborough studio for several years past. His life work many years ago won him a national place as one of the ablest and most original of American artists.

THE WEATHER

Moderate to fresh south wind, fine today and on Saturday. Stationary or a little higher temperature.

NOTED IRISHMEN WHO ARE TO TOUR THE UNITED STATES AND CANADA

FROM LEFT TO RIGHT: T. P. O'CONNOR, JOSEPH DEVLIN, JOHN E. REDMOND, T. P. O'CONNOR, JOSEPH DEVLIN, DANIEL BOYLE

New York, Sept. 28.—Four envoys delegated by the Irish Nationalist party to seek support for the Home Rule movement among Irish emigrants in the United States and Canada are now in this city. John E. Redmond, T. P. O'Connor, Joseph Devlin and Daniel Boyle, all members of Parliament, are the delegates, and the representatives of the Ancient Order of Hibernians United Irish League, Board of Erin and other societies greeted the arrivals.

The visitors declared that they were bringing the most optimistic reports and that it was not unlikely that they would be the last appeal they would ever have to make to their countrymen in America for money to carry on the home rule fight, a fight in the thick of which Messrs. Redmond, O'Connor and Boyle have been for thirty years.

MANY LIVES LOST

Chinese and Japanese Ships Go Down With 250 People in Severe Storms

Victoria, Sept. 30.—(Special)—Several steamship disasters with heavy loss of life resulted from recent storms in Japanese and Chinese waters.

The Yvel Kéio Maara, plying between Hong Kong and Amoy, went down and 200 passengers were drowned.

The river steamer Anson ran into a bridge on the Sida river, near Bangkok, and foundered, fifty of the eighty people on board perishing.

ENGLISH BISHOP DISCUSSES THE DIVORCE EVIL

American Prodigal for Divorce Due Largely to Lack of Respect for Law—Physical and Spiritual

New York, Sept. 30.—In the opinion of the Right Rev. John Wordsworth, Lord Bishop of Salisbury, England, who arrived here the other day, to attend the twenty-seventh annual conference of the American Episcopate, the American prodigal for divorce is due largely to a lack of respect for law—physical and spiritual.

The frequent recourse to it, he says, has commanded much attention in England, and is one of the sad and unfortunate features of our life. Contributing much to the breaking of the entire cord here, he thinks, is the fact that in large American cities the husband rarely goes home to lunch and sees nothing of his wife from early morning until late at night.

The long periods of separation and concentration upon business enforced by our ways of living tend to create a breach in that feeling of intimacy which makes for the happy, well-ordered home.

"It is a great question that the church faces here," he said. "In England we have not the same evil to contend with. There are many reasons for this condition and a great deal has been said on the subject."

"This is a very large country, and it is easy for a man to get lost here. Of course much money may have its effect, and the fact that there is not enough home life. There comes a slackening of home ties."

"To suggest a remedy would require a deep study of the subject. Others have given this subject much thought, and there has been much discussion. I think a country wide law on the subject, instead of the many laws which hold in different states, would have a great influence in lessening the divorce evil. Women of the world are good, but upbringing and environment must have their effect."

DOG WAS ACQUITTED

"Spot" Was Accused of Causing the Death of a Cow But the Jury Said "Not Guilty"

Spokane, Wash., Sept. 30.—"Spot," a big brown bird-dog, owned by Robert Boddy, accused of driving "Beth," a cow belonging to Byron A. Wilson, into a barbed wire fence and causing its death, was acquitted by a jury in the Spokane county superior court, where Judge William A. Hunsake presided.

The jurors were out eight minutes. The dog was a playful until taken out of the court room by the bailiff. A dozen men and women also gave testimony for and against the dog, but as there were no eye-witnesses and the evidence was purely circumstantial, as Judge Hunsake said in his charge, the jury gave "Spot" the benefit of the doubt, and returned a verdict of "not guilty." Wilson, who sought \$75 damages for the loss of his cow, may appeal the case to a higher court on technical grounds.

NEWSPAPER OWNER DEAD

Kansas City, Mo., Sept. 30.—Witten McDonald, formerly owner of the Kansas City Times, died at his home early today. He was found dead in bed by his daughter. The cause of death is unknown. He was 64 years old.

THE TIMES' NEW REPORTER

HIRAM IS REMINDED. "That reminds me," went on Hiram, "how many people there is that don't get out in their eyes. They get so they can't see any further than their nose. Now, there's Sil Jones. Sil sees me take three cups of alfalfa off a piece of my land this year, an' seen how my cattle thrived on it, an' how I fed it to the pigs an' poultry; an' yet he told me of the neighbors last week that I was an old fool to try any new-fangled notions at my age. Sil's reasoning logic wouldn't say that, nor see cattle, neither. But he's got his eyes full of the dust of old ideas."

THE FARMERS AND THE PREFERENCE

Lord Ure Says Colonial Preference is Doomed TUPPER'S VIEWS

The Question of Labor for G. I. P. Construction Work—Thousands of Navvies Available, Say Railway Agents in Bristol—The Q. O. R.'s Eyes Opened

Times' Special Cable London, Sept. 30.—Lord Ure, speaking in Glasgow, said Canadian farmers have blown colonial preference clean out of the water. The preference could not survive Laurier's tour of the west. The words and acts of the western farmers, although dictated by the very practical motives of enlightened self-interest, have caused the preference to ever.

Sir Charles Tupper interviewed today, said Canada owes her present greatness to protection and that policy should be maintained. The question of amendment was settled for good in the contest of 1891.

With reference to the reported proposal to import Chinese for G. I. P. construction work, the Morning Post says there shouldn't be the slightest chance of Canada trying again the disastrous experiment of importing Asiatic labor, and points out the benefit of employing white navvies.

The C. N. R. agents in Bristol report that there are thousands of navvies of the right quality available for railway construction if the men could raise the fare to Winnipeg.

Mr. Blackford, in the course of an article in the Clarion, regarding the army manoeuvres, says the Queen's Own Rifles brought the conviction that the mother country was decadent and Englishmen degenerate. The Rifles are returning astounded with the inability of this army.

The Bank of Montreal having purchased one million sterling 4 per cent registered stock of the C. N. R. of Montreal, offers the same for subscription at £10, 10 per cent. The list closes fifth October.

London, Sept. 30.—Mr. Aylmerworth expressed great surprise at the statements published in Canadian newspapers that he is to be knighted. He had not heard a word about it on this side of the water.

Hon. Fielding's many friends in London were greatly relieved to learn by a private cablegram received today, that he is far from being as ill as leads to the London newspapers make him.

Liverpool, Sept. 30.—Justice Grantham arrived today on the steamer Empire of Ireland. He has recovered from the moon hunting accident. Judge Grantham wishes to prevent Americans from getting the whip hand of Canada. Canadians, he said, are intensely loyal, but economic reasons might outweigh this.

Aldershot, Sept. 30.—Captain George M. about the same as yesterday. Lieutenant George and Muntz are going on nicely.

THE AUSTRALIAN STEAMER SERVICE

Will New Zealand be Included?—Murderer of Russian Youth Captured—Curfew Law Discussed in Victoria

Melbourne, Sept. 29.—The postmaster general has received a cable from Sir Wilfrid Laurier urging that New Zealand be included in the mail service by the mail service to Vancouver. Mr. Thomas, however, is indisposed to make any concessions to Auckland, in consequence of the antagonism of the postal office of the Commonwealth.

The next move in the matter is awaited with interest, as it is expected that New Zealand will not give up any opportunity she may find to be supplied with a steamship service commensurate with her growing importance.

The murder of a Russian youth of large possessions in the back blocks, while on a hunting trip with a companion has had a dramatic outcome. The assailant turns out to be the friend of the deceased who was arrested in Melbourne and found to be in the possession of money supposed to belong to the murdered man. He has now confessed his crime, which he says was suggested by the reading of sensational literature of the "Deadwood Dick" variety. His name is Himmovitch and with the man now dead, he left Russia in March last in search of adventure. On a hunting trip they quarrelled and he declares he killed his companion with an axe while he slept. He robbed the body of the money and made his escape.

Early spring rains in New Zealand have aided the crops wonderfully, and a splendid wheat crop is expected. In all probability it will be a record.

In Victoria the annual church assemblies are all debating the gradual slackening of moral restraints in the state. A curfew law for young people was advocated by several speakers. The idea is that young people should all be indoors at a certain time in the evening. The general body of public opinion seems to be in favor of some drastic scheme of this kind. The risk of coming a cropper never appeared to enter her head.

Melbourne, Australia, Sept. 29.—In the federal parliament today Attorney General Hughes introduced a bill amending the constitution giving the commonwealth complete legislative control over trade and commerce, corporations and industrial matters, including employment, wages, settlement of disputes and giving power to deal with combinations. The monopolies' bill was read a first time and when passed will be submitted to a referendum.

Berlin, Sept. 30.—The ministry of war today announced that it would give £25,000 as a prize for an overland aviation competition.

LABOR TROUBLES

London, Sept. 30.—The Board of Trade intervened today in an attempt to avert the lockout in the cotton industry, which is threatened for October 3. An official of the Board went to Manchester to interview members of the Federation of Master Cotton Spinners and representatives of the employees and hoped to be able to arrange a round-table conference.

FAMOUS GEMS OF PROSE

MASSACHUSETTS

By John H. Clifford

From an address as governor of Massachusetts at the celebration of the 3rd anniversary of the embarkation of the pilgrims from Delft Haven (Holland) at Plymouth Mass., Aug. 1, 1883.

IR, I love to speak, as her magistrate, of what Massachusetts has done, and is doing, in the glorious cause of popular education, of her schools, her colleges, and all the appliances and means that she has devised to carry out that leading idea of the fathers, that "knowledge with virtue, must be the saving grace of this people;" and when I reflect that we have now accumulated in her treasury an amount which the pilgrims in their wildest dreams, could never have imagined, devoted to the cause of education, that her school fund exceeds a million of dollars, and is still increasing, and when I contrast this with the first school fund of the Plymouth colony, which, as the records tell us, was a contribution of the herring fishery of Cape Cod, appropriated to the support of the first free school in the colony, I thank God that Massachusetts has at least been true to one of the "conditions of her existence."

What, sir, was the pilgrim's idea of a nation's progress and a nation's glory? He was content to labor and to suffer, to "build better than he knew," looking forward to no reward but that which came from the approving smile of the great Taskmaster himself. He was content to do the duty that lay nearest to him, and to leave events with God. He was content—ay, and with him who could stand by the couch of the dying, and close the eyes of the dead, when the famishing babes were clamoring for the life which they alone could give, they were content, even then, in humble confidence and trust, to leave their destiny to Him in whose hands are the destinies of nations and of men. They asked for no manifestations. They fostered no self-sufficiency, presumptuous pride, in the idea that it was the "manifest destiny" of the colony of New Plymouth, the tree that they had planted and watered with so many tears, to grow into an empire, until its branches overshadowed a continent.

But what is the "manifest destiny" doctrine of our day, with which we are constantly stimulating our national arrogance and self-conceit? Is it, Mr. President, and sons and daughters of the old colony, of the true pilgrim stamp, and will it bear the test of their Christian chemistry? I believe the most recent and authoritative exposition of it is—almost forgetting that there is a God who ruleth the nations of the earth—that it is the "manifest destiny" of this country of ours, and one of the inexorable conditions of its existence, to "march, march, march!" in the path of pagan Rome, as restless as the eternal tramp of the wandering Jew, which is taken for its emblem through fields of battle and of blood, till it is accomplished. Mr. President, who relishes this foredoomed and predestined tramping for a nation like this? Who is not rather reverent to see his country cultivating the glorious arts of peace, a reverence for God, a respect for law, and an observance of the great principle of justice towards others?

Sir, are we content to abide by the example of our fathers in this respect, or do we desire to go on and make it one of the conditions of our national existence, that we should march, march, march? No, sir, the pilgrims had a better mood and watchword than that, under which to advance and conquer; they saw, with an undimmed eye, in the clear sky above them, more distinct than the faded cross of Constantine, God's great admonition to all the dwellers on the earth, "Work, work, work!" "Pray, pray, pray!" and as they were faithful to the heavenly vision, the great march will go on, as it will continue to go on, and we are faithful also, industry, piety and frugality, with an unwavering trust in God, they were content to follow, as the unerring guides to national prosperity and honor.

STOMACH DISTRESS

INDIGESTION AND

HEARTBURN VANISH

A Little Diapiesin Will Make Your Out-of-order Stomach Feel Fine in About Five Minutes

As there is often some one in your family who suffers an attack of indigestion or some form of stomach trouble, why don't you keep some Diapiesin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a sour, gassy stomach five minutes after eating.

Let your pharmacist let you read the formula, simply stated on these 30-cent cases of Diapiesin, then you will readily see why it makes indigestion, sour stomach, heartburn and other distresses, such as flatulence, gas, eructations, a sour, regurgitated food, nausea, headache, dizziness, or any other disorder of the stomach, disappear. Some folks have tried so long to find relief from indigestion and dyspepsia or an out-of-order stomach, with the common, every-day cures advertised that they have about made up their minds that there is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

"This, no doubt," you say, "is a serious malady. It is not to be trifled with. It is not to be digested; instead, it ferments and turns to acid, Gas and Stomach trouble, which irritates the digestive tract and intestines, and, besides, poisons the breath with nauseous odors."

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the stomach, is waiting for you, as you decide to try Diapiesin.

DEATH AFTER A SCRATCH

Morris Quatman, an eleven-year-old Windsor boy, fell on his bicycle and scratched his wrist. He thought nothing of the injury, but blood soon set in and he is dead.

Such incidents as these—by no means infrequent—ought to make people realize the danger that may lie even in the smallest flesh wound.

Take a simple illustration. When a knife, a rusty needle, a splinter of dirty wood, a barbed wire fence, or a thorn scratches the hand, the latter is inoculated with germs, of which the air about us is full. Directly these germs are introduced through the breach in the skin, a battle royal ensues between them, and certain organisms in the blood.

The way to avoid serious results is to cleanse the wound and apply Zam-Buk. Zam-Buk is a powerful, yet painless germicide, which when applied to the broken skin is absorbed into the tissue, instantly destroying the germs that spread disease and infection.

As soon as applied to a sore or a cut Zam-Buk stops the pain and an amazing. This is why it is so popular with children.

The flesh that soothes and protects the wound is made perfect, healthy, and smooth, and when applied to the broken skin is absorbed into the tissue, instantly destroying the germs that spread disease and infection.

Zam-Buk must not be confused with ordinary ointments. Zam-Buk is a simple preparation, containing anti-bacterial, soothing and healing qualities. It is not to be confused with the ordinary ointments. It is not to be confused with the ordinary ointments. It is not to be confused with the ordinary ointments.

"GOON AND PROSPER"

SAYS SIR CHAS. TUPPER

Former Canadian Statesman, Now in His 90th Year Says Only Necessity Keeps Him From Returning to Canada

London, Sept. 29.—After the stress of nearly half a century in the political life of Canada, Sir Charles Tupper, one of the fathers of Confederation and former Prime Minister, is living a secluded life in rural England.

"It is a case of 'goon and prosper,'" he said. "The healthy of Lady Tupper, which I have improved, will not permit her to take an ocean voyage. I should certainly prefer to live in Canada."

Speaking to Sir Charles it is difficult to believe that Canada's famous statesman in his 90th year; the fact is that at this advanced age he still plays golf, evidences his wonderful vitality. The past few years he has made little impression on the renowned soap of Nova Scotia; that familiar story is not more pronounced.

WHEW, HOW I HATE HEAT!

Say Mr. and Mrs. Fat

Is it any wonder that the fat people hate hot weather? If you have any lungs and stomach were bound around with Jayer after layer of flesh that gave out a terrible unnatural heat and that interfered with their normal functions you would understand the aversion of fat people to hot weather.

There is absolutely no reason for fat people staying fat in this age of triumph. We do not advise dragging yourself, dieting, or exercising yourself to death, but there is a method that has been proven successful. It is the famous Marmola tablets which do the work of removing fat exactly like nature intends it should be done. They stop the digestive organs from producing the fat, and they also act as a laxative, carrying off the fat already in the system. They are a meal in your pocket and you carry them in your pocket and you carry them in your pocket.

READY TO TALK

Ottawa, Sept. 29.—There will probably be no communication on reciprocity sent from Ottawa to Washington for two or three weeks.

Hon. W. S. Fielding, who looks after such matters for Canada, reached Ottawa today after an absence of several months and found much departmental business pressing for attention. He will spend several weeks dealing with this and about the middle of October will write Hon. Mr. Knox, secretary of state for the United States, that he is in a position to undertake the reciprocity negotiations proposed last spring by President Taft.

Mr. Knox whether he would prefer to have the reciprocity conference held in Ottawa or Washington and how he would prefer to have negotiations carried on.

There is a belief at Ottawa that these negotiations will lead to substantial results which will be beneficial for both countries.

RECIPROcity SOON

Springfield, Ills., Sept. 29.—Aviator Walter Brookins alighted gracefully with his airplane in the state fair grounds at 4:27 p. m., seven hours forty-three minutes out from Chicago, after having sailed his Wright biplane 192-1/2 miles with two stops. He descended at Gilman (Ills.), 75 miles from Chicago, at 11:30 a. m. and at Mount Pulaski (Ills.), 163 miles from Chicago, at 3:20 p. m.

Brookins thus broke Charles K. Hamilton's record for sustained cross-country flight of 86 miles from New York to Philadelphia in a motor-driven plane. His flight was the longest sustained flight in America and thereby won the \$10,000 prize offered by the Chicago Record-Herald.

Members of the Sons of Temperance in this city last evening celebrated the 68th anniversary of the founding of the order in America. E. S. Hennigan presided and addresses were delivered by J. R. Woodburn, P. Y. W. P., Ex-Ald. Baslin, and Rev. W. R. Robinson, pastor of Ludlow street Baptist church.

POPULATION TO OUTSPUR KINGDOM

The present generation," he replied, "will outspurge the population of Canada surpass that of the United Kingdom, but I see no reason to suppose that Canada will be able to support a more commanding position in the world."

"Do you think that Canada as it develops in importance will want to take a larger part in the government of the British Empire?" was asked.

ANNEXATION—NEVER!

"The question of annexation was settled on the contest of 1861 and in my judgment settled for ever," he said.

Speaking of the German war scare, Sir Charles was asked what the importance of a European war to the event of a European war. He declined to give an opinion. When it was suggested that a defensive alliance between the United States and Great Britain would be a happy solution and would dispel any fear of England being overwhelmed in an European conflict he was warmly sympathetic.

"If Great Britain and the United States would stand together," he said, "no combination of powers could affect their position. They could keep the peace and prevent the antagonisms of European countries among themselves, but they could maintain the supremacy of the Anglo-Saxon race."

GO ON AND PROSPER

"You ask me to give you a message to Canada. It is this. Go on and prosper. No country in the world, in my judgment, is prospering to such a great extent as Canada or on so sure a foundation and it would pass the most prophetic vision to say that position will be obtained in the not distant future."

ANOTHER TOWERING PEAK,

GRIED CHAVEZ, DYING

George Chavez, the Peruvian aviator, who succeeded in crossing the Alps, only to meet death from injuries he received in making a landing.

The last hours of the intrepid aviator were spent in a hospital.

"Is there no hope for me?" he asked in moments of calm consciousness. "I do not want to die."

The doctors tried to reassure him. "You have youth and strength on your side, and the whole world is watching your progress. Cheer up," they said.

But Chavez was not convinced. "It is good of them to think so much of me," he said "but in dying I am so full of pain."

According to the doctors, Chavez, in a delirium, said:

"Still more snow, more glaciers, another towering peak ahead. Good God, it's frightful. When will it end?"

Italy is deeply touched by the aviator's death. The bed in which he died was covered with flowers.

Family Reunion

An interesting family reunion was held at the home of J. Albert Lester, recently at the home of J. Albert Lester. There were present representatives of four different generations, at the head of which was Benjamin Lester, Sr., aged 84 years. He was born on Long Island, on the St. John river, and moved to Millstream, where he has lived during his lifetime. His wife was Mrs. Catherine Jones, Springfield, since lived with Benjamin Lester, Jr., his son. There were five children: two of whom, Benjamin, Jr., and J. Albert, are living and reside at Millstream. The four males representing four generations, who attended the reunion were Benjamin Lester, Sr., 84 years; J. Albert Lester, Rev. E. W. Lester, of Millville, York Co., and James Lester, aged 5 years. The gathering was one full of interest to those who participated in it. Mr. Lester Sr. is still hale and hearty and can still indulge in a good long talk.—Sussex Record.

Believes in Protection

Sir Charles is an ardent believer in the benefits of Protection.

"Canada owes all its present greatness to the protective policy and that policy will not be abandoned."

Discussing the question of Imperial Preference, Sir Charles said: "I look upon a mutual preferential tariff between the British Empire and the other portions of the British Empire as a policy that will be attended by the happiest results, by creating a strong bond of mutual self-interest, and to the sentimental loyalty that now exists in all parts of the Empire."

Very Good Golfers

Charles's recreations are driving and fishing. Frequently he is to be seen on the links which adjoin his house.

"I am very fond of golf," he said, "but my medical adviser restricts my participation in the game to 'putting.' It is a consolation, however, to know that all championships are decided on the 'putting green,'" he added jovially.

Sir Charles's son, J. Stewart Tupper, K. C., of Winnipeg, and his wife and family are at present visitors at "The Mount." Mr. Tupper is in England pleading cases

TREASURY BOARD

The meeting of the treasury board last evening was remarkable only for its brevity. So quickly was the business transacted that the chairman, Ald. Baxter, said it was the shortest treasury board meeting he had ever attended. Besides the chairman, Ald. Hayes, Sprout, Willet, Potts, Vanwart, the chamberlain and comptroller were also in attendance. Director Wisely appeared before the board and said that in making repairs at the exhibition buildings he had exceeded the appropriation of the additional expenditure. He felt that he should have first applied to the board and got their vote on it.

Ald. Potts thought as long as the money was well spent the bills should be paid. He would make a motion to that effect.

The chamberlain and comptroller here rose to their feet and asked "where is the money going to come from?"

Ald. Hayes said that he considered the matter should be first brought before the safety board. The chairman agreed with Ald. Hayes. In the event of the safety board's motion the matter was referred to the safety board.

The chairman read a letter from M. G. Teed, K. C., acting recorder to the effect that the city was not legally bound to provide lighting and fencing at or near Rodney's wharf, as recommended by the grand jury. The letter was referred to the attorney general.

Alderman McGoldrick said that he considered the street railway to be responsible for the dangerous condition of Rodney wharf.

The chairman was authorized to receive \$1 in payment for one year's rent for all occupied by Mr. Gunn in the city market. The bill of Mr. Teed, who acted as recorder during the illness of the late recorder, amounting in all to \$315, was ordered to be paid.

W. C. T. U. Officers

Hardland, N. B., Sept. 28.—The W. C. T. U. convention will not close until Friday. At last night's session Mrs. A. O. Ruthford, honorary president for the day, gave an address on the work of the order which proved of intense interest.

At this morning's session the election of officers resulted as follows:

President—Mrs. J. H. Gray, Fairville.

Vice-president—Mrs. Howard Sprague, Seaboard.

Recording secretary—Mrs. C. R. Flandra, St. John.

Treasurer—Mrs. Margaret McWha, St. Stephen.

Auditor—Mrs. R. G. Ross, St. Stephen.

Secretary—Mrs. Geo. Colwell, Bristol.

Mr. Ruddick Invited

J. A. Ruddick, Dominion dairy and cold storage commissioner, has received an invitation to address the National Poultry, Butter and Egg association of the United States at their next annual convention to be held in Chicago, on the subject of "Reciprocal Trade Relations between Canada and the United States." The incident is significant as showing the attention which is being given to this subject in that country. Mr. Ruddick's other engagements will prevent him from accepting the invitation.

General News

Montreal, Sept. 29.—(Special)—In the police court this afternoon Mrs. Amy Conolly was committed for trial at the next session of the Westminster district court on a charge of obtaining money under false pretences in connection with a W. C. T. U. leaflet advertising a sale in Montreal, Sept. 29.—(Special)—As a result of the collision between the C. P. R. steamship Montclair and the Cozier Kron Olav, a few miles below Quebec recently, a warrant was issued by the exchequer court here today for the arrest of the Montclair and for \$15,000 damages by the owners of the Kron Olav.

Sydney, Sept. 29.—(Special)—Charles Ladru, aged 25, locksmen, on the Dominion Coal Company train from Sydney, was cut in two this morning by a train on which he was working. His body lay for some time on the track before it was discovered by H. J. Davis, the conductor of the train.

Scatched Until It Tore The Flesh

"It was in the latter end of the year 1908 that a nasty lish on me through my skin, and scratched it until it tore the flesh. I tried several ointments, but I went to a skin hospital. They advised me to go to the U.S. and buy Cuticura Ointment. I could not get it with me, so I bought a box of Cuticura Soap and Ointment. I used it for a week and the lish was all right, and no traces after it. I have not had a return of the same since, and I shall always praise the Cuticura Remedies as being the best means of my cure."

(Signed) JOHN TYRELL, 94, Scotland Road, Liverpool.

In a further letter Mr. Tyrell adds: "The first appearance of my skin eczema was a burning itch which it tore and left my body lacerated and open masses of sores. It caused sleepless nights, but now I can sleep as well as ever."

Brookins Successful

Springfield, Ills., Sept. 29.—Aviator Walter Brookins alighted gracefully with his airplane in the state fair grounds at 4:27 p. m., seven hours forty-three minutes out from Chicago, after having sailed his Wright biplane 192-1/2 miles with two stops. He descended at Gilman (Ills.), 75 miles from Chicago, at 11:30 a. m. and at Mount Pulaski (Ills.), 163 miles from Chicago, at 3:20 p. m.

Brookins thus broke Charles K. Hamilton's record for sustained cross-country flight of 86 miles from New York to Philadelphia in a motor-driven plane. His flight was the longest sustained flight in America and thereby won the \$10,000 prize offered by the Chicago Record-Herald.

DYSPEPSIA

READY RELIEF

The symptoms of indigestion are known and often to a half of our population, and observation to the fact that the stomach is the most important and the most delicate of our organs. Take Radway's Ready Relief as its principal cause. It does not only soothe the stomach, but it invigorates the organs. Avoid excitement. Live on simple nourishment. By observing these rules any case of dyspepsia may be permanently cured. Dyspepsia persons should closely study their diet, and avoid what disagrees.

WHEW, HOW I HATE HEAT!

Say Mr. and Mrs. Fat

Is it any wonder that the fat people hate hot weather? If you have any lungs and stomach were bound around with Jayer after layer of flesh that gave out a terrible unnatural heat and that interfered with their normal functions you would understand the aversion of fat people to hot weather.

There is absolutely no reason for fat people staying fat in this age of triumph. We do not advise dragging yourself, dieting, or exercising yourself to death, but there is a method that has been proven successful. It is the famous Marmola tablets which do the work of removing fat exactly like nature intends it should be done. They stop the digestive organs from producing the fat, and they also act as a laxative, carrying off the fat already in the system. They are a meal in your pocket and you carry them in your pocket.

THE HALIFAX OUTLOOK

The recent visit of Messrs. McNicoll and Bosworth of the C. P. R. to Halifax has caused a lively discussion in that city, and given rise to great hopes of commercial growth. So many citizens attended the banquet tendered the C. P. R. officials that the overflow had to go to another dining room.

The Merchant deals with another matter of great importance not only to Halifax but to the two provinces. President Johnson of the board of trade, appears to have taken advantage of the presence of the C. P. R. officials to make an onslaught on the I. C. R. Mr. Johnson has a somewhat reckless habit of expression, and the Merchant remarks:

DECLARES FARMERS WANT RECIPROcity

Master of Dominion Grange Says Ontario, Quebec and Maritime Farmers are Against Protection

Toronto, Sept. 30.—E. C. Drury, master of the Dominion Grange, in a letter to the press on reciprocity, says in part: "Emphatically the farmers of Ontario and I believe, of Quebec and the Maritime Provinces, stand with the farmers of the West, in their demands for real and substantial tariff reduction. In regard to the proposed arrangements with the United States for free trade in farm products and agricultural implements, the farmers of this country have everything to gain and nothing to lose."

RECIPROcity

Along with the statement from Ottawa that the government will next month take up reciprocity negotiations with Washington, believing that valuable results may be obtained, comes an interesting expression of views from the other side of the border. Henry Cabot Lodge, Republican of the Republic, has declared himself very strongly in favor of reciprocity with Canada. He says: "You know, all our people here are anxious for reciprocity. I have always been anxious for the best trade relations with Canada, and I should be very glad indeed if we could make a reciprocity treaty that would be beneficial to both of us. I think it can be done. I know the president is working very hard for that object, and I sincerely hope it will come to pass. We have been settling all our outstanding questions with Canada—and I have been very glad to do so—and I hope that now we can get some reciprocal arrangement in trade. I think it would be a very great benefit to us all."

Another notable statement is made by Eugene N. Foss, whose election to congress on a reciprocity platform in Massachusetts last spring set the whole country talking about this new factor in New England politics. Mr. Foss says: "I won on a reciprocity and tariff revision platform by 8,000 in a district formerly Republican by 14,000. After that I assisted in the Roosevelt campaign, when Mr. Havens did practically the same as I had done here on a platform for better trade relations with Canada. Subsequently I found in Vermont and in Maine, and I spoke that the opposition to reciprocity which the farmers there are supposed to entertain has practically disappeared, if it ever existed. The farmers, like the manufacturers, want Canadian farm products admitted free in the hope of reducing the cost of living."

The most significant statement made by Mr. Foss is in these words: "I believe that it is the duty of the United States to reduce her duties to a level of those of Canada, as a basis upon which to negotiate. This would indicate our good faith and the Canadian government would be more ready to treat with us under these circumstances than otherwise."

This is not the statement of a man seeking to make gain for the United States at the expense of Canada. He would be gain by lowering the American tariff before asking any concessions at all from Canada. More than that, he would strike the American duty on food products, fish, wood-pulp, and pulp-wood, which Canada did the same or not. After all that had been done he would negotiate for reciprocity in regard to manufactured goods.

SAY NOT THE STRUGGLE

Say not the struggle nought availeth, The labor and the wounds are vain, The enemy faints not, nor faileth, And as things have been they remain.

If hopes were dupes, fears may be liars; It may be, in yon smoke concealed, Your comrades chase e'en now the fiend, And, but for you, possess the field.

For while the tired waves, vainly breaking, Seem here no painful inch to gain, Far back through creeks and inlets make, Comes silent, flooding in, the main.

And not by eastern windows only, When daylight comes, comes in the light, In front the sun climbs slow, how slowly, But westward, look, the land is bright.

The Late William Bowden

Probably no man in the province was more widely known than the late William Bowden, who died Thursday morning after a week's illness. His wide general knowledge gave him a high standing among his colleagues in this trade. Mr. Bowden was born in Fredericton in 1834, and was, therefore, in his 76th year. For upwards of forty years he was the St. John manager of Mr. Alex. Gibson's large lumbering and shipping business, which brought him in close touch with all the business and shipping community. During the past few years Mr. Bowden has been the manager of the St. John Forwarding Company, an organization closely connected with the Gibson business. Mr. Bowden was not a society man and never sought public honors, but few in the community were better informed on general civic matters. Quiet and reserved he was, but nevertheless found opportunity to do much good. Mr. Bowden married Miss Phoebe Comford, daughter of Patrick Comford, the first shipping master of St. John. Mrs. Bowden has been for some time in the west with her two daughters, Mrs. D. Resler, wife of Prof. Resler, and Miss Florence. She is not in very robust health, and so will not likely return to St. John. Mr. C. Bowden, the well-known musician of this city, is the only son. The funeral will take place at 2:30 o'clock on Saturday from his residence, 74 Sydney street.

CARE OF RUGS. Carpets and rugs should not only be beaten frequently to keep them free from dust, but should be scrubbed thoroughly to raise the pile and brighten the colors. A solution for such scrubbing is made as follows: Place into a large saucepan four ounces of Peruvian soap bark, pour over it about four quarts of boiling water and set on the back of the stove to steep for an hour. Strain and add sufficient cold water to make a pailful of the vegetable soap. If ox gall can be obtained, add a pint. Let the mixture stand until congealed. Have the carpet, entirely free from dust, dip a soft brush into the thick soap solution and moisten about a yard of the carpet thoroughly, scrubbing gently with the grain; then remove all suds and moisture with the edge of a small flat board or other thing that will serve as a scraper. It is necessary to do the scrubbing thoroughly, as the suds and moisture carry with them the grease and dirt from the carpet. Go over the entire surface in this way and then, if ox gall has not been added to the solution, sponge the carpet with water that has been made quite strong, with ammonia. Open all doors and windows and let the carpet dry thoroughly before the room is used.

OPPORTUNITIES FOR TRADE WITH WEST INDIES

Montreal, Sept. 28.—Referring to trade with the West Indies, D. W. Campbell, general manager of the Elder Dempster line, when seen, said that there were splendid opportunities for the development of trade and that an essential feature of this development would be the establishment of improved communication. The government has been and is spending millions to develop the inter-colonial and the Transatlantic lines. They need feeders for those lines. Why not foster a good steamship service to St. John, Halifax and Montreal from the West Indies and British Guiana and secure trade for the railways? Mr. Campbell considers that there is a splendid opportunity for the development of this trade because the islands want foodstuffs, flour, fish and lumber, all of which could be supplied by Canada. On the other hand, Canada can take all the sugar and molasses offered and can develop the fruit trade. We have everything they want and they can sell their products in Canada. But a good steamship

The Evening Chit-Chat

By RUTH CAMERON. I WANT to take exception to a very old proverb today—Half a loaf is better than none. In an application that is true, of course, but in another sense I think it is more often wrong. For although in getting into a venture of any sort, it doesn't pay to go in on a half-loaf style. On a paper on which I once worked the management decided to feature a certain "big festival." "Feature," let me explain to the uninitiated, means "give a lot of space to." "We will send all our special writers and cartoonists to this affair," said the editors, "and have them write and draw a lot of stuff that will interest and amuse the people. Then we will advertise on the grounds what splendid accounts we are giving of the Such-and-such Convention, and that will make all those people buy our paper, and we shall get more money back in advertising." All of which would have been very splendid if they had only done it in a whole-loaf style. But they didn't. Somewhere in the process the management evidently lost its courage and spending all that money, and instead of advertising the paper's intention to devote so much space to its reports of the convention it stuck up a few posters so small and obscure that they could hardly be seen. The man who puts all he can afford, and then some, into a venture, burns his bridges behind him and therefore goes ahead with a desperation and determination that are almost sure to bring success. He doesn't lose and therefore he doesn't. All of which, although I have put it in terms of money because that was the easiest way to express it, is meant to apply just as much to the whole-heartedness of other things—time, and energy, and self, for instance. If you are about to start any venture whether it be getting up an entertainment, winning a man's love, or going into business for yourself, remember that half a loaf is better than none applies to getting not to spending, and go about it in a whole-loafed way, or not at all.

Daily Hints for the Cook

CHOCOLATE NUT FROSTING. Three-quarters cup of sugar, 1/4 square chocolate, 3 tablespoons of milk, 1 egg yolk, 1/4 cup chopped nut meats. Cook the chocolate, sugar and milk. Cook in double boiler three minutes. Add egg yolk, well beaten, cook one minute more. Then add nut meats and spread on cake. CHEESE MADE FROM SOUR MILK. In making cheese from sour milk the best results are obtained through not heat the milk. Use freshly clabbered milk. Place in a cheesecloth bag to drain overnight. Turn into bowl and add 1/4 teaspoon of salt and 1/4 cup of cream to each pint of curd, breaking up well with a fork. Two tablespoons of melted butter may be used in place of the cream, though the latter is preferable. HAM A LA VENISON. Put one tablespoon butter and one tablespoon currant jelly in a frying pan over a rather slow fire. When melted, lay in some slices of cooked ham and fry each side until almost ready to burn. Remove to a hot platter and garnish with parsley. MARCARONI AND NUTS. Cook macaroni until tender. Put layer of macaroni in baking dish, cover with layer of chopped nuts and continue till flesh is full. Season with salt, butter and milk. ICE CREAM COOKIES. One-half pound white sugar, 3 whites of eggs beaten good, few drops of vanilla and some cocoa, if liked. Drop a tablespoonful for each cake on a piece of white paper. Bake in hot oven. SALAD DRESSING. Four tablespoons butter, 1 tablespoon flour, 1 teaspoon salt, 1 heaping teaspoon mustard, 1 tablespoon sugar, speck of cayenne pepper, 1 cup milk, 1/2 cup vinegar, 3 eggs. Let the butter get hot in saucepan, add the flour. When smooth add milk and boil up. Beat eggs, sugar, salt, pepper and mustard together, then add vinegar. Stir into boiling mixture and stir until it thickens like soft custard. Cook in double boiler. When cold put into ice-box.

PROTEST WILL BE SENT FROM OTTAWA TO ROME

By French-Canadians Regarding the Appointment of Archbishop Gauthier. (Ottawa Journal). On, or shortly after October fourth next, as a result of an important conference of French-Canadians from all parts of the province that will be held here, a cable will probably be sent either directly to His Holiness, the Pope, or to some high official at the Vatican at Rome, directly protesting against the choice that has been made with respect to a successor of the late Archbishop Duhamel, as head of the diocese of Ottawa. They have no fault to find with Archbishop Gauthier, but they want a French-Canadian appointed. It is alleged that certain documents which should have reached Rome, and which were in the interests of French-Canadians here specially, have not reached there, and French-Canadians here intend to ascertain why they did not. French-Canadians generally are much dissatisfied with the decision of Rome with regard to the choice of a successor to Archbishop Duhamel. Almost all are of the opinion that Rome was influenced by a well organized movement. Speaking to a well known French-Canadian today, he voiced to The Journal the opinion that a stout protest would be sent to Rome shortly. He said: "The best word has not been heard yet. French-Canadians are thoroughly aroused and will see whether their rights are going to be so flagrantly denied owing to underhand influences. Communication has been had with different districts. A meeting has been called for the 4th of October, in Ottawa of the Educational Congress of Canadians (The Educational Congress of Canadians) in which representatives will meet from all parts of the province. "Steps will be taken to obtain from Rome a recognition and an agitation will be maintained against what appears to be a well organized plan to destroy the French language and French-Canadian institutions. "Rest assured we are not going to allow this iniquitous move to succeed without healthy protest, and perhaps when we are through, it will be found that there is in this a well-concerted plan to rob us of our unquestionable rights."

WILFRED T. GRENFELL, JR. Son is Born in Newfoundland to Famous Medical Missionary of the Labrador Coast

Thursday's Boston Herald says:—The birth of a son to Mrs. Wilfred T. Grenfell, wife of the famous medical missionary of the Labrador coast, was announced in a cablegram received in Boston today from Dr. Grenfell at St. Anthony's northern Newfoundland. The boy, who has been named Wilfred T. Grenfell Jr., was born at St. Anthony's on Sunday, Sept. 25. Mrs. Grenfell, previous to her marriage to Dr. Grenfell, was Miss Anna MacClanahan of Chicago.

GREAT Y.M.C.A. CONVENTION

International Gathering Planned for October in Toronto. (Toronto Citizen). One of the great conventions to be held in Canada during 1910 will be the thirty-seventh international convention of the Young Men's Christian Association of North America, which will gather in Toronto from October 28 to 31. "The coming convention will be the greatest and most notable of its kind ever held by the association. It will be worldwide," said R. B. Nelles, general secretary of the local association today. Delegates will be present from all over the civilized world and some of the most able speakers will be present, including Messrs. F. Brockman of China, foreign representative; D. A. Budge, Montreal, general secretary; John R. Motz and J. C. Spear, of New York city, and others. The local association will send a large delegation. The convention will be held in Massey hall. Over two thousand delegates are expected from every part of the dominion, every state of the United States, and many from foreign lands. It will thus be a remarkable and representative gathering of men closely connected with an institution that has been called one of the great religious organizations of the century. It is expected that fifty visitors from the British Isles will be among the number, while several of the European countries will send representatives. In addition, all the great delegates present through their Y. M. C. A. secretaries or otherwise. "The last convention of the Y. M. C. A. of America held in Canada was away back in 1876. Wonderful has been the growth of the association since that time, until today there are nearly one million members in 6,000 associations in fifty countries, of five continents. The meetings will be of practical moment to the higher life of the nation. The program will be more over, exemplify the widespread nature of the association's activities as they touch the young manhood of the land, in city, town and country, in the shop and school and home; as they relate themselves to the soldier, sailor or emigrant; to the industrial worker, the lumberman and miner, the railway navy—all sorts and conditions of men come within the purview of this man-making institution. The convention, therefore, held fair to be a highly important one, and its conclusions will be followed with deep interest."

MANY ATTENDED FUNERAL OF LIEUT. GUY FRASER

New Glasgow, N. S., Sept. 29.—The body of Duncan C. Fraser, lieutenant governor of Nova Scotia, was laid at rest this afternoon, with people of all ranks of life and of all faiths, in the funeral home of the late Archdeacon. Twenty-five clergymen took part in the ceremonies which were conducted by Rev. W. McMillan, minister of the dominion government, and represented as well as the legislature of Nova Scotia, and other places. The pall-bearers were intimate friends of the late distinguished statesman.

MORNING NEWS OVER THE WIRES

The fisheries to the north of Newfoundland have been a complete failure this year and the catch for the season, which will soon close, will be one of the worst ever known in that country. The fisheries of Labrador are also reported in a very weak condition. Dr. Grenfell, the noted missionary, is preparing the people for the coming winter. Capt. Taylor, of the Montreal fire brigade, prevented a panic in a moving picture house there yesterday, by warning the proprietor in time, of a fire which was in the roof.

WEDDINGS

Riley-Record. St. Joachim's church, Silver Falls, was the scene of a pretty wedding Tuesday when Louise Record, daughter of W. H. Record, Colbrook, was united in marriage to E. K. Riley, Miss Frances Record, sister of the bride acted as bridesmaid and E. J. Walsh supported the groom. The happy couple left on a honeymoon trip to Boston.

ROURKE-PERRON

A very pretty wedding took place Thursday in Albert, N. B. when Charles E. Rourke of St. John, was united in marriage to Miss Helena L. Perron, of Harvey Bank, by the Rev. W. Kirby. They will reside in St. John.

HANLON-DRISCOLL

St. Rose's church, Fairville, was the scene of a pretty wedding on Wednesday, when May E. Driscoll, of Lorneville, was united in marriage to David Hanlon, Miss Catherine B. Hanlon, a sister of the groom, acted as bridesmaid, and the groom was supported by John W. Driscoll, brother of the bride.

HAIR RESTORER

The fresh fish supply is reported about as bad as it can be and the worst in many years. A prominent fish dealer who has just returned from across the bay reports that large schools of dog-fish are creating havoc. One fisherman said that on a travel of 4,000 hooks he had nine hundred and the remainder dog-fish. The dog fish are driving out the ground fish such as codfish, haddock and hake. The herring fishing in the bay and on the Nova Scotia shore waters has been a failure this year and mackerel fishing is the smallest on record. Salmon fishing has been a good season, and the season for catching fish for salting, which has just closed, has been a good one.

FASCINATING HAIR

Women Who Use Parisian Sage Have it and Keep it. You never saw a beautiful woman who didn't have beautiful hair. The charm of a beautiful woman lies in her hair. Many women do not realize the attractions they possess because they do not give proper attention to the hair.

BELL'S PIANO STORE 38 King St., Opp. Royal Hotel. OBITUARY James R. Cameron. The death occurred yesterday of James R. Cameron, who had been for the last two years a private patient at the Home for Incurables. Mr. Cameron was seventy years old. For thirty-five years he carried on a business in kerosene goods, latterly on Prince William street, but retired seven years ago. He was a native of St. John, and a son of Donald A. Cameron, who was the publisher of the Observer. Mr. Cameron was never married. He leaves three brothers, John of Fredericton, Augustus of St. Stephen, and Robert K. of St. John, and one sister, Miss Mary Cameron. He had a wide circle of friends and acquaintances and was highly respected by all. The funeral will take place to-morrow afternoon at 3.30 o'clock, from the residence of his brother, R. K. Cameron, 85 Mecklenburg street. Members of the organizing committee of the Imperial Order of the Daughters of the Empire are on their way to the Maritime Provinces. They will sail from Sydney for Newfoundland and returning will stop at Charlottetown, Halifax, Amherst, Moncton, St. John and Fredericton, in the lower provinces.

MUCH INTEREST OVER TECHNICAL EDUCATION

(Ottawa Free Press)

That the Maritime provinces already are now enthusiastic over the work of the technical commission than they ever were over a heated election campaign, was the statement made by Dr. J. W. Robertson, chairman of the commission, in an address to a gathering of representative citizens in the western members' room of the House of Commons yesterday.

The commission announced its Ottawa sitting until January, when it will convene here during the parliamentary session. Dr. Robertson said that already the commission had visited 40 places, had examined 600 witnesses and gathered enough evidence to fill 4,000 pages of footsaps. The commission did not propose to interfere with provincial rights in the matter of education. The report was to be made to the Minister of Labor, primarily for the use of the provincial governments.

In Nova Scotia he had never known any movement, even a heated campaign, which had been received with such enthusiasm. The loss of life in the Nova Scotia mines, he said, had been reduced to a minimum through the education of the men in technical subjects.

Sufficient money has been collected by the St. John Art Club to purchase a valuable painting, Morning in the Harbor, by Mr. Fleming, and which was one of the leading pictures in the art gallery at the Dominion Exhibition.

ONE OF BOSTON'S MERRY COMPANY OF MODERN MERMAIDS

ANNIE MORSE-CROFT

New York, Sept. 29.—Boston is surely sending a fine crop of feminine swimmers to the metropolis. Last week it was Rose Pitino, from the Hub, who made a sensational swim from New York to Connetquot, and now it is Miss Annie Morse-Croft, also from Boston, who has joined the merry company of modern mermaids. Miss Morse-Croft was to swim from the Battery to the Sandy Hook light-house, a distance of twenty-two miles, but on account of the heavy weather, the attempt was abandoned. Instead Miss Morse-Croft, who is fifteen years old, decided to swim up the Hudson River. She started from the Battery, proceeded directly up the river and reached Twenty-third street, fifty-six minutes later, a remarkable performance considering the adverse conditions.

SPORT NEWS OF A DAY; HOME AND ABROAD

Bowling Alley for Sussex.

It is likely that a bowling alley will be laid down in the basement of the new Sussex Institute building. The sport is not only exciting but provides much needed exercise for those who are occupied with light clerical duties. There is a fine opportunity to lay down two well equipped alleys and there is no doubt that they would be well patronized. Bowling is very popular all over the province, and some of the team contests in recent years have been productive of good clean sport.—Sussex Record.

Winnie McKinney, the granddaughter of the great McKinney, and one of the best bred colts in the province, is dead, following an accident in which she broke her leg. Her owner, George W. Fowler, valued the colt at \$200. An effort was made to set the limb but without avail.

Sussex Races.

Considerable interest is being taken in the horse races, which will be held at the Sussex trotting park on October 11th. The entries will close on Wednesday, the 6th inst. It is expected that both events, 2:20 and 3 minute classes will have good fields. Entries are being received by George Dyard, chairman of the race committee.

Running

Walker to turn "Prof."

"Reggie" Walker, the Olympic champion sprinter, has decided to go over to the professional ranks, and has challenged J. Danahoe for a 100-yard race for \$200 a side, to take place in South Africa about Christmas. Walker claims he has not been fit this season in England, although his general condition has improved since he lost the A. A. U. championship to Ransford of Pennsylvania, but he thinks he will recover his best form in his native air. Walker proposes to challenge the winner of the Holyday-Postle match at 100 yards if successful against Donaldson. He says he will visit Australia and, if the opportunity offers, Canada and the United States. He will be prepared to meet Cartwell in a series of races or may challenge for the world's furlong championship.

Hundred Yards in 8 4/5 Seconds

Waldo Throop, the University of Southern California sprinter shattered all records for the hundred yard dash on a down grade track, in Los Angeles, Saturday by covering the distance in 8 4/5 seconds. Throop will represent California at New Orleans in October in the A. A. U. championships.

VOICES OF THE SETON INDIANS.

These are the voices of the Seton Indians:
Not to rebel.
Not to kindle a wild fire; nor to leave a fire in camp without some one to watch it.
To protect the songbirds; not to injure or frighten songbirds; nor to disturb their nest or eggs; nor to molest squirrels, etc.
Not to make a dirty camp; nor to bring firearms of any kind into the camps of those under fourteen; nor to point a weapon at any one.
To keep the game laws.
Not to smoke (for those under eighteen).
Not to have fire-water in camp.
To play fair.
To keep his word of honor sacred.
There are now scattered over the country between a hundred and fifty and two hundred thousand of these Seton Indians. Although of course, only a few of these, from fairly near by, can attend the National Council at Wyanogou, their organizations are strong and vigorous and are run on the same general plan throughout the country. These boys have opened to them a new and understanding fashion, the book of the woods and fields and the open sky. Put one of the Seton Indians down at random in any part of the world, and it would be hard for him to be bored. They early became learned in the art of self-government, and are a radiating force for the diffusion of the qualities that make for manliness. They are safe and sane.—Everybody's Magazine.

CAPTAIN OF THE FOOTBALL TEAM OF ANNAPOLIS

Annapolis, Md., Sept. 28.—Theodore Starr King, of California, is the new captain of the Naval Academy football team, having been elected to take the place of Henry S. McK. Clay, who resigned. Mr. King is a remarkable athlete and is just as prominent as a scholar among his comrades. He has played an excellent game at left tackle for two seasons and has won on the Academy crew for the same period. He is president of the graduating class and one of the leading scholars.

CARTOONISTS TO TOUR THROUGH U. S. AND CANADA

Spokane, Wash., Sept. 29.—W. C. Morris of The Spokane-Review will enter into correspondence with cartoonists of 150 prominent journals in as many cities in the United States and Canada, with the view to arranging a tour of the continent, so planned that every newspaper on the circuit will have the services of each man some time during the twelve months required to complete the journey. Every state, territory and province in America is to be visited.

"While the present plan is to treat only national subjects as developed in the news," Mr. Morris said in outlining the undertaking, "it is probable that the visiting cartoonist will also interpret the leading state or local stories in the city to which he is assigned at the time. Other features may be added."

The primary purpose, with the cartoonists of the country, the plan will be submitted to owners and managing editors of from 100 to 150 journals, as is expected by a committee. It is planned to give one newspaper in each city on the circuit the exclusive scribble of every man assigned there, in addition to a daily travel column by its own artist, during the progress of the tour.

The primary purpose, is to make the trip one of education and inspiration, familiarize the pen and ink men with all parts of the continent and study the makers of its history; also to acquaint the people with the work of America's foremost cartoonists.

"Details of itineraries, transportation, expense, and the management of the tour from a central office, probably located in Chicago, will have to be worked out; but there is ample time to do that, as the tour will not begin until next summer, unless it is decided by a majority of newspapers to start earlier in 1911."

DRUNK OR SOBER, A MAN HAS A RIGHT TO A GOOD ROAD

(Montreal Star)

In clear, definite terms, the Court of Appeal this morning laid down the duty of municipalities in regard to the upkeep of roads. "Municipalities," declared Mr. Justice Tremblay, rendering the judgment of the court, "are not allowed to kill a drunken man by bad roads, any more than they are allowed to kill a sober man." It was the duty of a municipality, His Lordship added, to keep roads in good order, and safe for passage day or night.

The action was one brought against the Corporation of the Parish of St. Herbert. A man named Oatway was driving along the Chambly road, when his vehicle struck a hole, and he was thrown out and killed. The proof showed that Oatway was intoxicated at the time. The widow sued for \$15,000 damages, but the action was dismissed by the Superior Court, on the ground that the accident was the fault of the deceased.

A contrary view was taken of the case by the Court of Appeal. It was held that while the condition of the deceased contributed to the accident, this did not relieve the defendant municipality of its responsibility in not keeping the road in proper condition. The appeal was therefore allowed, with costs, in both courts. Damages, however, were reduced to \$1,000 on the ground of contributory negligence.

The Dessert Problem Solved

That ever bothersome question, "What shall we have for dessert?" has been solved by Mooney's Sugar Wafers.

This delightful confection is taking the country by storm. Mooney's Sugar Wafers are now served in thousands of homes in place of pastry and cake. At dinner, luncheon or tea—for picnics or the unexpected guest—with berries, fruits, ices or beverages there is nothing better.

AMUSEMENTS FOR OURSELVES AND OTHERS

OPERA HOUSE.

A strong attraction has been booked for the Opera House next Friday night, Oct. 7, in the big musical show, The Alaskan, now controlled by Wm. P. Cullen. The Alaskan comes here from a phenomenal success in Chicago, where the press agreed that it was, in its new dress, one of the cleverest, brightest and funniest productions seen there in years. A prodigious hand has given it beautiful new costumes and also many novel effects in staging. The Equinox dog train, the great snowballing scene all lend an unusual atmosphere. The already large advance sale indicates a lively interest.

THE GEM

A motion picture story which sounds a note of true love and affection, is always a source of pleasure to those who see it. It appeals instantly to their warmness of heart, and at once demands their attention. Such is the tale told in the Vitagraph film at the Gem Theatre, today and tomorrow, entitled, "How She Won Him." A story of love and brave men for an equally brave woman, and the hardships they endured in seeking a fitting end to their affection. A comic picture of the day, showing Miss Maggie Hoolihan getting a job, which is certain to provoke hearty roars of clean, wholesome laughter. The last picture subject on the bill is by no means the least interesting. It will prove a big attraction, and is entitled, "Mephisto and the Maiden."

Miss Doris Dean, and Donald McGregor, both of whom have many admirers in the city through their vocal progress, will be heard in new songs, with music by an increased orchestra. A big souvenir matinee will be given tomorrow.

LYRIC.

In addition to the excellent vaudeville turn of Miss Faladaux, which was heard for the first time last evening, the week-end picture bill at the reliable Lyric, is by the management expected to draw more than the usual weekend audiences, as it is claimed to have features of sterling merit, including The Cowboy's Generosity, a wild west drama of the choir raising variety; Aria's Ideal Drama, Olinio Takes Lodgings, comedy; Ceremony of the Allegiance to the Flag, patriotic; The Reserve Shot, drama, Brown and Hazard, a clever team of singers and dancers, is announced as the vaudeville bill for the first three days of next week.

UNIQUE.

An excellent programme of four subjects is promised at the Unique for the week-end. Mrs. Rivington's Pride is announced as an exceedingly strong drama, a triumph of the Lyric studio. Resourcementful Robert and Lucy at the Boarding School are regarded as prospective good things in comedy, while it is expected that The Belgium Army will prove most interesting as affording information in detail regarding the 108,000 army of this country. Mac Colyer, will be heard in a very taking ballad entitled, Answer.

CANADA'S TRADERELATIONS

(New York Commercial)

For years past Canada has in her tariff enactments extended to Great Britain, "the mother country," preferential import duties that have given British exporters a decided advantage over all their competitors with which the Dominion deals; in the case of the United States this preferential against us has averaged about 33 per cent; and yet, in the face of it, we have increased our exports to Canada from year to year in a much greater proportion than Great Britain has. Now, however, Canada has removed the super-tax formerly imposed on German imports, and German exporters enjoy the same trade privileges with Canada that the British are conceded. In consequence, German manufacturers are making a most determined and concerted effort to outdo England and the rest of the kingdom in the volume and the value of their exports to Canada. Merchants, both privately and in their organized capacity, are sending their trade envoys into Canada to study market conditions there with a view to the upbuilding of international trade interests. Referring to this German movement the Washington Post says:

In these days when reciprocity with Canada is so much talked about, the United States may reflect upon the value of that trade in German eyes when so thorough and systematic an effort is made to get a share of it in the face of the apparent domination of commercial interests by Great Britain. Such zeal contrasts very strangely with the little tariff-fighting at regularly recurring intervals that the United States has done with Canada while our larger activities were directed to soliciting markets in the remote corners of the earth. What Germany lacks in the way of successful development or markets by colonization is apparently more than made up for by the enterprise of her associations of manufacturers and merchants.

"Tariff-fighting at regularly recurring intervals" is good. The United States has most certainly been guilty of it. And the time has now come when, apparently, Canada won't flirt any more with us Yankees. We were too long frivolous. And meantime Canada has been rapidly building up her industries and trade by an intelligent and conservative system of protection. The United States is handicapped by an international arrangement bringing not only Great Britain but France and Germany as well. And Canada has ceased to be in a receptive mood as to American reciprocity.

Is it possible for President Taft and the department of state and the tariff board to overcome this handicap? They have a big job on their hands.

On Monday evening, there will be a vegetable and fruit sale, commencing at 8 o'clock, for the purpose of increasing the Harvest fund in connection with the Citadel. Special music will be rendered at both meetings.

It is understood that a vigorous development of the Baryta mine at Memramcook, Westmorland County, is now going on. Considerable machinery has been placed on the ground and the ore body has been struck showing very gratifying results. The work is being prosecuted by the Canada Faint Co., of Montreal and Toronto, under management of J. Bradley, of Three Rivers, P. Q., who spent some time in Sussex and vicinity this spring examining mineral deposits at various points. The existence of a good body of Baryta is known within a very few miles of Sussex.—Sussex Record.

Rev. David Long, formerly pastor of Victoria street Baptist church, but now in charge of a church in Vancouver, B. C., who has been visiting old friends in the province for the past month, will return to the Pacific coast in about ten days. With Mrs. Long and his daughter, he is now making a visit at the home of his brother-in-law, Thomas Hamilton, in Elliott Row. Mr. Long, since leaving here, held a pastorate in Calgary and went from there to assume charge of the church at Grandview, Vancouver. He is meeting with a large measure of success and expects to take on new work on his return in the organization of a church at Collingwood, Vancouver, where he will conduct services on Sunday afternoons.

PREPARATIONS FOR WINTER STEAMSHIPS

The Work of Loading and Unloading Will be Handled by Three Societies

With the winter port season close at hand preparations are already being made for the arrival of the big liners and in a comparatively short time now Sand Point will be a busy spot. Those who derive a direct benefit from the presence of the steamers here are eagerly awaiting the opening of the season, and restaurant keepers, merchants, and tradesmen in general are laying their plans for the extra business it brings their way.

There will, as usual, be nine lines making this port their winter terminus, the C. P. R., Allan line, Donaldson line, Manchester line, Head line, Furness line, West India line, Elder-Dempster line, and Thomson-Cuba line. The September work among the lines, from present indications will be divided among the two organizations. Longshoremen's Union and Ship Laborers Society, the same as last year. The former have a five year contract with the C. P. R., Donaldson line and Elder-Dempster line, which expires in 1913 and the Ship Laborers Society have a contract with the Manchester and Furness lines. They last season also had the West India, Head line and Cuba service and Messrs Wm. Thomson & Co., the agents of these lines said that they could see no reason why they should change their arrangement of last year. The Allan line have their own organization for the loading and unloading of their steamers.

COACHMEN IN POLICE COURT

One Pleads Guilty to a Violation of the Rules and is Fined \$2—Two Others Deny the Charges and Cases Will be Taken Up This Afternoon

Three coachmen appeared in the police court this morning to answer charges that they had violated the rules applying to hackmen, at passenger depot, at Murray Northrup and Louis Kerr were charged with having gone beyond the stand allotted to coachmen at the Union depot, while a like offence was registered against Dennis Murphy, the place being the D. A. R. landing, Kerr pleaded guilty, and a fine of \$2 was struck, while the others denied the charge and their cases were postponed, to get witnesses.

Policeman Smith of the F. C. R. gave evidence that Northrup had violated the city ordinance by going inside the rail at the Union depot, of the 22nd inst, and that the coachman said he was at home at the time. In the case against Murphy, quite a number of complainants took evidence, between him and Sgt. Campbell, who reported him, and he threatened to bring evidence to show that the officer was in the wrong. He said he had engaged Daniel Mullin, K. C., to appear for him this afternoon, to which time the case was postponed.

Three men, charged with drunkenness, Wm. Smith, John Kelley, and Henry Wheeler, were before the court, and the last two had fines of \$4 struck against them, while Smith was remanded.

COUNTRY MARKET WELL SUPPLIED

There was every indication in the country market this morning that tomorrow would be a good day for housekeepers to do their week-end provisioning as produce of all kinds was quite plentiful, and by reason of this, prices of almost all commodities were slightly lower than during the past few weeks. Meats were especially plentiful, including a fine supply of moose meat of excellent quality, which is selling quite readily, although the demand is becoming less than at the opening of the season. Reports from all districts are to the effect that moose and deer are abundant, and travelers on the different railway lines speak of having seen deer in fields at various points throughout the neighboring country.

BAND CONCERT TONIGHT

By special request of the many friends of the City Cornet Band they have been repeatedly asked to perform the same programme of music which they rendered on Boston Common two weeks ago, before over 10,000 people, as they have decided to give a special concert this evening (Friday) on the bandstand, King's square at 8 p. m. sharp. Mayor Frank will present a beautiful gold plated cornet to D. J. Gallagher, the popular cornet soloist of the band which has been subscribed for by his St. John friends. The programme is a very long one as follows:—

O Canada.

Comparison Will Prove That It Pays to Buy Suits Here

In order to fully appreciate the value of our Suits you must compare them with Suits sold elsewhere.

There are three questions that enter in when you begin to compare prices of clothing, they are, first quality, second, fit, and third, style. If you can get all these equal, then prices count. You cannot tell by looking at a garment through the window whether it contains all these qualities or not. You must get your fingers on the goods, examine the linings, and try one on. If you will compare our suits in this way with others, you will then understand why this has been the biggest Suit year we have ever had, and that our Suits have no equal at the prices.

Men's Tweed and Fancy Worsted Suits, \$9.00, \$7.50, \$8.75, \$10.00, \$12.00, \$13.50, \$15.00, \$16.50, \$18.00 and \$20.00.
Men's Blue and Black Suits at \$7.00, \$10.00, \$12.00, \$13.50, \$15.00, \$16.50, 18.00 to \$20.00.

Are You Ready For The Winter?

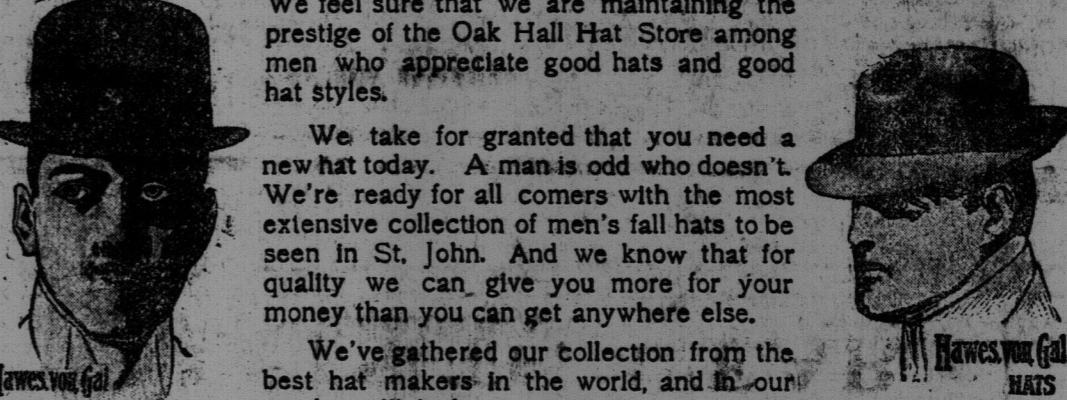

The chilly mornings and evenings make one think that once more we must prepare to keep warm through the coming winter. This can only be done by having the right kind of a stove in the right place. A Glenwood Oak Heater will warm your house and throw the heat to the floor and you can burn wood as well as coal. They are made with nickel trimmings and, like our Glenwood Bangles, the nickel can all be removed for cleaning. They can't be beat in parlor, sitting room or hall, and will give you satisfaction. We make them in two sizes, 14 and 16. Call and examine them for yourself. All made in St. John by St. John men.
