SPECIALLY IMPORTANT
TO
MERCHANTS AND BUSINESS FIRMS.

Incorporated by Special Act of Parliament A.D. 1872.

Authorized Capital $250,00.

THE ACCIDENT
Insurance Co. of Canada.

Has instituted a system of granting Insurances on the lives of the members of Commercial Professional Firms, covering death resulting from accidental injuries, at the reduced rate of

$25 per annum for $10,000.

OR SMALLER SUMS IN PROPORTION.

This form of Insurance especially commends itself to all Partnerships. An accident resulting fatally to a member of a firm may be of material financial moment to the surviving partners. Bad health and declining years CAN be seen advancing, and may be provided against; but SUDDEN CALAMITY cannot be discounted, and the unexpected loss of a valuable member of a firm, and consequent withdrawal of capital, may be of vital financial importance to the house—whereas, if the firm have made it a charge on the profits to provide against this, by this inexpensive system of Insurance, the difficulties which might arise are materially averted, and the trifling cost of the provision cannot be held a useless or extravagant expenditure, any more than provision against Fire, which no prudent firm neglects.

Accidents occur much oftener than fires—experience shewing that one person in every thirty is during the year accidentally injured—and in not a few cases with fatal results.

The Insurance can be effected in a few minutes, no Medical Examination being required.

Persons whose lives are uninsurable by ordinary Life Assurance can be covered by this system, whilst those who have been prudent enough to insure their lives against death by *disease*, should certainly shew further prudence by adding to the provision in case of their death being caused by circumstances of *accident* over which they have no control.

THE ACCIDENT is the only Company in Canada or the United States strictly confining itself to the business of Accident Insurance.

The number of Policies issued last year was more than twice those issued by all the Canadian Companies combined. **It has paid over 800 claims**, and never contested a claim at law, and it is the only CANADIAN COMPANY which has made the **special deposit with Government** for the transaction of Accident Insurance in the Dominion.

1st. Its simplicity; being easily changed from full light to the small night lamp blaze.

2nd. It leaves no smell or odour; the small wick having all the advantage of draft that the large wick has.

3rd. It prevents all explosion, giving no chance for gas to accumulate in the lamp.

4th. Only one wick burns at once, as one is extinguished as soon as the other is lighted, both wicks being operated by the same ratchet

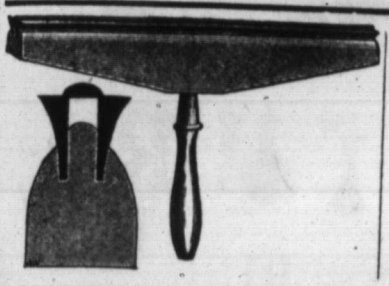

5th. Great saving in oil, chimneys and matches.

6th. It is cheap being easily applied to any lamp.

PREFATORY.

We present our edition for 1880, with every confidence that it will meet with the approval of our patrons.

In the present issue, we have taken extraordinary pains in canvassing, &c. —in many instances sending back as often as five or six times for a single individual —and if omissions occur at all we can scarcely be blamed as many *refuse* to give information, or give it wrongly for reasons which perhaps it is not our province to inquire into.

We may allude to the many difficulties encountered by some who seek the Directory for information, and we would suggest that great caution should be exercised before condemning the book on the part of those who hastily glance into it for the name of a person which they do not easily find. It must be remembered that all names are arranged in strictly alphabetical order, according to the manner in which they are spelled instead of their pronunciation ; therefore, in looking for the name of a person which is spelled BROWNE, remember it *cannot* be found in the same arrangement as BROWN, and that such names as *Bailey, Bailie, Baillie, Baily, Bayley, Bayly*, are each to be found in different places.

The custom of borrowing Directories has become so general that, though seldom proffering advice, we cannot refrain from suggesting that a chain attaching the book to the counter will most effectually abate the nuisance, and compel those to purchase who, if not so ready, are just as able as their more liberal neighbours.

We are happy to state that the number of our subscribers is steadily increasing, but still we think the public fail to fully appreciate the merits of a Directory, not only for locating individuals, buildings and all points of interest, but as an advertising medium. An advertisement in the Directory brings your name and business before the public for one year at a mere nominal price, possessing an advantage over ordinary advertising in its being carefully preserved with the book, and not read and thrown aside.

We feel under obligations to our advertising patrons, and those who have occasion to consult the Directory should feel the same ; for without this patronage

much of the valuable information herein contained would necessarily have to be omitted, or a greater price charged for the book. It is with us as with newspaper publishers ; we sell copies of our publications, at a price far below the cost of production, and it is the income from this advertising patronage alone that enables us to do so. We wish to impress upon the minds of more of our business men the importance of aiding us, through their advertisements, to keep this indispensable Annual up to its present high standard. It is a duty which they owe to the community and themselves, and which is trifling in amount for them to pay ; it is solicited but once a year, and as a rule, they reap a handsome profit from the investment, instead of it being any loss to them.

We subjoin a tabular statement shewing the increase in population in the city and suburbs over last year.

In returning thanks to our numerous patrons for their support, we think we may justly claim that in comparison with other works of this description, there are none more reliable and, with one exception, our Direotory is the cheapest issued on the Continent of America.

NOTICE.

We have not in this, nor shall we in any future issues of the Toronto City Directory, ask or authorize the collection of any moneys in advance of the delivery of the book.

Our Canvassers have strict orders to that effect. We are led to mention this from the fact that certain parties, fraudulently claiming to be our agents, and on other pretences, have been soliciting payment for patronage in advance.

MIGHT & TAYLOR.

THE MONTREAL TELEGRAPH COMPANY.

This popular Company, which has its wires laid along the line of railways and connections, was incorporated in the year 1847, with a capital of $60,000, and began its operations with 12 or 15 offices between Montreal and Quebec. Its history has been an uninterrupted success from that start; its lines having been extended to the remotest sections of the country wherever they can be maintained, and offices opened in nearly every village and hamlet throughout the country. Its capital stock has been increased to $2,000,000; its miles of lines to 22,000; and its number of offices to over 1,500. Extensions are constantly going forward into newer and remoter sections of the country as routes are opened up, and now offices are almost daily being opened.

This Company is apparently unaffected in its prosperity by rival schemes, having outlived several in the course of its history. No country in the world is probably better served in the matter of telegraphic communication than Canada. The great abilities and enterprising spirit of Sir Hugh Allan, the President of the Company, have been as serviceable in developing the organization we are now describing as in founding the magnificent system of Oceanic communication with which his name is so familiarly identified. An enterprising, but at the same time shrewd and far-seeing, policy has, in fact, characterized the Company's operations from the very outset. In this respect, and in all questions demanding liberal and comprehensive action, this Company has been greatly assisted by possessing in Mr. H. P. Dwight, the Superintendent of the Western District, a gentleman who has had regard not so much for an immediate return for the work undertaken as the certain, steady expansion of business in a corresponding ratio with the increase of trade or population. Mr. Dwight's management extends over the most important section of the Company's territory.
