MERGER OF TELEPHONE COMPANIES PROBABLE Postal Believed to Have Se-

cured Control of Thousands of Miles. Columbus, O., Nov. 17.-The an-

As the Bell concern has announced that a large holding company is to be formed to merge the telegraph and telephone companies, it is believed here that a similar deal will be made by the Postal. The purchase of the independent long-distance companies gives the Postal thousands of miles of new line in Ohio and Indiana and would make it a formidable competitor of the Bell company.
