### PERMISSION TO SWEAR.

The chauffeur of one of the most distinguished residents of the Heights was sent to the Grand Central station the other day, with the electric handson to bring home two of the women members of the family. They were on their way back when the handson got in a bit of a tangle with other vehicular traffic on Fifth avenue and one brawny driver got a notion that the man in charge of the handson was to blame. The horseman was not at all choiced in his remarks, but abused the Brooklyn man in terms that made the latter's blood boil. The situation was tense, but the chauffeur had respect for the duty charges, and while anxious to make a few remarks kept his peace. But the atmosphere was surcharged with pent up emotion. The women in the handson could feel it. The chauffeur was at the bursting point when the trap in the roof was opened and a gentle voice came from within.

"James, James," it said. "If you want to say anything, say it. Never mind us. We're not listening."

But James kept his peace. The license to boil over kept him in good humor, and he, generally, is a good-natured man.

### WHERE THE VICTORY PERCHED.

A dispute had arisen in the Ferguson family.

Mr. Ferguson wished to invite Aunt Abigail to come and spend the winter at his house. His wife objected.

"She's a vineyard old maid," said Mrs. Ferguson, "and I don't want her here. We've got enough to do to support ourselves without having another mouth to feed."

"I'm able to look out for that. I want you to understand, Laura, that I'm the bread winner of this family, and I say she shall come."

"And I want you to understand, George Ferguson, that I'm the bread-maker for this family, and I say she shall stay."

Aunt Abigail didn't come.—Chicago Tribune.

## WHAT CAN THE POLICEMEN DO?

Magistrate Orders One Thing: the Chief Another.

Chief Clarke Says Officers Have No Right to Arrest Boys for Smoking Cigarettes.

There is considerable difference of opinion between the police magistrate and Chief of Police Clark over the cigarette habit, or, to be more precise, as to the duty of the police when they find a lad smoking cigarettes. Both gentlemen agree that the habit is a pernicious one and most injurious to the victim and both are anxious that the law shall be carried out. The matter has received some attention of late in the court and is a live topic among the men of the force, who are a little in doubt as to the course they shall adopt.

Two days ago, while imposing a fine of \$50 or six months on J. Spedwards for selling cigarettes to a child, his honor told the policemen to arrest any boy found smoking cigarettes or having them in his possession and bring them before him and he would deal with them.

Chief Clark says that the magistrate has exceeded his authority in this, that the act does not provide for the arrest of a minor for smoking a cigarette and that the members of the force will be so instructed.

The chief says that he realizes the injury done to the lad of this city by smoking cigarettes, but that no matter how grave the danger may be the law does not allow of their arrest. Had the men followed the magistrate's advice instead of his instructions, they might have left themselves liable to an action for false arrest.

His honor when spoken to with reference to the matter, said he was perfectly conversant with the law, with his duties and with the regulations governing the police. He admitted telling the police to bring before him any boys they found smoking cigarettes. He could not impose any penalty, but might give good advice.

### A PAST YACHT.

Sloop built by A. O. Cunningham, of Lorneville, is a wonder.

A small vessel, sleek, rapid, and of much attention as she came up the harbor yesterday. She sailed up to the Market Slip under full sail at an astonishing pace. The pilots in particular took note of her sailing qualities and generally conceded that she was the fastest vessel they had seen in these waters for many years.

The sloop which attracted so much notice is owned by Mr. Cunningham, of Lorneville. The vessel has only recently been taken from the blocks and this is her first trip to St. John. Mr. Cunningham designed his sloop so as to make her speedy, with the intention of entering her in inter-provincial yachting contests. The sloop's sailing ability, he says, has exceeded anything he ever expected.

### LOST ALL ON ELECTION BETS THEN KILLED HIMSELF.

NEW YORK, Nov. 11.—Because he had lost his election bet, it is said Frederick Grice, 75 years old, have committed suicide by shooting himself in the head with a revolver at Ridgewood Heights, L. I., today.

Grice, a native of Germany. It is said that he had wagered all his savings on the election of Parker and Herick and that despondency over the loss of his money drove him to suicide.

## ARBITRATION MAY YET SETTLE RUSSO-JAP WAR

Members of Hague Tribunal Confident of Ending All European Disputes—Queen Alexandra Working For Peace.

LONDON, Nov. 11.—The despatch of the Associated Press from Washington yesterday confirming the statement made in these despatches that Japan had indicated her willingness to enter into peace suggestions from King Edward or President Roosevelt created much interest here. Hayashi, the Japanese minister, said today: "After the fall of Port Arthur, Japan would, I believe, be ready to treat for peace on no higher essential basis than that Russia would evacuate Manchuria. Japan also agreeing to a similar evacuation. The two great difficulties in the way of any suggestions of peace are: the present apparent opposition of Emperor Nicholas' present advisers to a settlement of any kind; second, the preservation of the Russian prestige. When a nation's prestige, if not gone, is severely impaired, it is a difficult matter even with the best of intentions to preserve it."

The Associated Press learns that Queen Alexandra has been in constant communication with the Dowager Empress of Russia and Emperor Nicholas himself during the last few days. This is interpreted here as a hopeful sign and as possibly likely to lead to the establishment of some most vivacious whereby steps looking to arbitration might be initiated without offence to Russia.

NEW YORK, Nov. 11.—According to the Tribune, Oscar S. Straus, who is a member of the Hague Tribunal, when asked yesterday if he saw any significance in the reference in the speech of Lord Lansdowne at the Lord Mayor's banquet in London to the widely prevalent desire "that arbitration might be resorted to in the case of the present war in the Far East," said: "I have long had the impression that we shall wake up some morning to find that through the good offices of Great Britain, the cabinet, and the signatory powers to the treaty of Berlin, an arrangement has been agreed upon by which the Near East and the Far Eastern questions have been settled by one stroke. That is to say Russia has come to an agreement with Great Britain and secondarily with the signatory powers for having free access to the sea through the Dardanelles in return for which a permanent adjustment of the Afghan boundary was made."

### KING EDWARD'S TREASURES.

(Brooklyn Eagle.)

Few people outside the immediate tourage of the court are aware that Windsor Castle and Buckingham Palace contain the treasures that are priceless, and with no equal in any other royal castle or palace in Europe. The cabinet, and the signatory powers to the treaty of Berlin, an arrangement has been agreed upon by which the Near East and the Far Eastern questions have been settled by one stroke. That is to say Russia has come to an agreement with Great Britain and secondarily with the signatory powers for having free access to the sea through the Dardanelles in return for which a permanent adjustment of the Afghan boundary was made."

The work is now completed, and in the most perfect manner, as may be seen by a visit to the state apartments at Windsor. The king's collection of pictures, and the more fully every detail of interest to the expert collector. The expert collector's visit by informing the king that he was prepared then and there to pay \$400,000 for the contents of a single cabinet, which they had just inspected in one of the state apartments. The offer pleased the king immensely, and he does not fail to tell his friends when showing them the cabinet.

This collection was almost entirely bought by George III., who always trusted the buying of these treasures to his chief-Laurens by name—who attended all the important sales both in England and on the continent, and, as time shows, though only a cook, he rarely, if ever, made a mistake in buying.

The pictures at Windsor Castle have been arranged so that each artist has a separate room for his works and as far as possible the furniture, china and contents of the room are of the same period as the pictures. As each sovereign from earliest times always bought the best pictures of the artists of his reign, these collections are of extraordinary value. At Windsor alone the collection is estimated to be worth \$2,000,000.

### GOOD TIME FOR LECTURER.

(Will Carleton's Magazine.)

A well known doctor of divinity and a certain Methodist minister are great friends, but they dearly love a joke at each other's expense. The former once delivered a series of lectures, and one of the expert advisers to the king, the latter was not interested enough to "hold" the audience, which gradually withdrew before his conclusion.

Not long afterwards the doctor's house was entered by a burglar. He gave a graphic account of the affair to his friend the preacher and ended by saying: "I had him flat on his back. I held him so that he could not move an inch."

"Good!" exclaimed the other: "but, my dear sir, what a splendid opportunity that was to have delivered to him your lecture on Palestine!"

### NEW MINISTER REVERSES RUSSIA'S INTERIOR POLICY.

ST. PETERSBURG, Nov. 11.—The Russian Jews are greatly pleased by the reception accorded by interior minister Sviatopolk-Mirsky to a deputation of the co-religionists on which occasion it was announced that the deal at which he was aiming was the equality for all the elements of the population of the empire. Evidence also extending to show that it is the purpose of the minister to reverse the Von Plehve policy regarding the Armenian church and the management of the Armenian schools, which have again become independent and is believed that this will be followed by the restoration of the church funds.

### WOMAN SLEEPS 18 YEARS.

She Wakes Up and Feels as if Only Night Passed.

The remarkable case of a woman named Gesine, who has slept for eighteen years, is related in the Matin, of Paris.

She was born in a small town in the north of Germany in 1856, and until seven years old enjoyed good health. Then she had a fall which hurt her head. She began to have spells of sleep lasting for months, from which she was aroused only to relapse into longer periods of unconsciousness.

Finally, in 1888, she fell into a sleep which was not broken until a few months ago, when she again awoke in the full possession of her senses. She remembered distinctly facts which happened before her sleep, and asked all about her brothers and sisters as if she had been asleep only one night.

She was, however, too feeble to raise herself, and had to learn again like a little child how to walk. She has improved greatly since, and is again able to do light work.

Her case is exciting great interest in the medical world, and is being made the subject of a special investigation by Dr. Paul Pares, professor of the School of Psychological Studies.

## TERROR REIGNS IN VIRGINIA.

Town Captured by Band of Outlaws.

Who Avenge Their Brothers Death by Killing the Sheriff—Bloodhounds in Pursuit.

CHARLESTON, W. Va., Nov. 11.—As the result of the killing of Constable Walter Jackson in Montgomery by Policeman Elliott on Wednesday and the subsequent capture of the town by four brothers of Jackson at the head of about forty of their friends, a reign of terror exists here.

When Sheriff Daniels and John Rolf were killed by Ed. Jackson yesterday, the saloons were at once closed and Governor White was asked to send troops. The governor replied he would hold troops in readiness, but advised forming a large posse. If the posse should meet with serious resistance, troops will be sent to their relief. The Jackson followers escaped to mountain strongholds with which they are familiar.

Ernest and Bob Jackson were arrested and brought to this city by Deputy Sheriff Davis and others and placed in jail. A posse, headed by Marshal Ash, of Thurmond, is scouring the mountains near Montgomery. Two bloodhounds were placed on the trail today. The officials in Montgomery fear further trouble as the sentiment against the slayer of Daniels is strong. Before the murder of Daniels the sentiment was with the Jacksons against Policeman Elliott. Elliott is in the custody of Chief Hundley at the Ruffin Hotel. A relative of Jackson's appeared at the hotel and attempted to break through to the policeman and was checked.

### MUSTN'T MONKEY WITH U. S.

Turkish Brigands Attack American Caravan and the Sultan Must Make Full Reparation.

CONSTANTINOPLE, Nov. 11.—The American legation here has addressed a note to the Porte demanding reparation for the recent attack near Aleppo, by brigands upon a caravan belonging to the American house of McAndrews and Bobes, of Smyrna. The raid resulted in the killing of six of the caravan's camels and the carrying off by the bandits of sixty camels and a considerable sum of money. The legation insists upon the arrest and punishment of the outlaws, the restitution of the camels and money and the adoption of efficacious measures for the prevention of a recurrence of the outrage.

### ELECTION RETURNS ARE CLOSE IN MARYLAND.

BALTIMORE, Md., Nov. 11.—The official counting of the ballots in Baltimore and the counties of Maryland was resumed today. The returns for this city will be completed tomorrow or Monday.

In the twenty-three counties of the state about one-third have been counted and it will probably be late tomorrow or Monday before all of them are heard from.

So far the Roosevelt plurality keeps about 100 ahead, with the indication that ex-governor Frank Brown, Democrat, has been chosen elector along with seven Republican electors.

**PEACE OVERTURES.**  
Much though peace is undoubtedly desired by both belligerents and great though the concessions which Japan is prepared to make may be it is impossible that under present conditions, any terms can be arranged not humiliating to Russia and it is improbable that the Bear's pride is yet sufficiently broken to allow him to consent to such humiliation and its attending loss of prestige. The report that Japan has unofficially made overtures of peace which Russia has refused to consider is probably well founded. Japan has already accomplished every end for which she went to war. She has guaranteed the integrity of Korea, has broken the Russian's grip on Manchuria and has practically driven him within his own boundaries. She has nothing to gain by further aggression, for it is impossible that she would be allowed by the powers to seize and hold any purely Russian territory had she any desire to do so. Moreover, she has already won a proud place among the first of the nations. So she is in a position to be gracious and to offer any concessions short of permitting a renewal of the conditions which led up to the war.  
But if the Russians make peace now on any terms except those which Japan manifestly cannot grant—renewed occupation of Manchuria and Port Arthur—it will be an acknowledgement of complete defeat. They will have nothing to look back on save an unbroken series of disasters relieved by nothing save individual instances of bravery; they will carry away no pride, they will have the memory of many stinging defeats at the hands of a foe they despised and a knowledge of a loss of prestige that will set back their development in the East for a century if not forever. Had they won a single decisive victory, had they done one thing to convince at least their own people, that they had the power, if the war were continued, to turn the tide of battle, it would be different.  
No man or nation likes to quit a loser while there is a possible chance of a change of luck. And great as Russia's reverses have been they are not yet enough to convince that stubborn nation that it has met more than its match, not enough to shake the belief that mighty Russia, by sheer weight of numbers if in no other way can in the end crush its plucky foe. So until Japan has utterly beaten him past all hope of retrieving or until he surprises the world by winning some great victory that will enable him to make peace, if not with all honor at least with some grounds for self-complacency, it is improbable that the Bear will listen to overtures of peace or to any offers of retreating unless they are so made that refusal means war with more than Japan. And it is very unlikely that any power or combination of powers is prepared to interfere to that extent in this quarrel.

**ONE WOMAN KILLS ANOTHER.**  
Fataally—Woman Arrested on Charge of Manslaughter.  
NEW HAVEN, Conn., Nov. 10.—Mrs. Cora Cassidy, wife of Christopher Cassidy, of Highwood, is dead, as the result, it is claimed of injuries inflicted by Mrs. Elizabeth Barnes, a friend during a quarrel. Awaiting the result of the autopsy, Mrs. Barnes is held on the charge of manslaughter. She is 45 years of age and lives at 145 Duane street. The story told to the police is that the woman got into an argument over a trivial matter and in the heat of passion she struck Mrs. Cassidy on the head with a hairpin, inflicting internal wounds. The woman was treated for peritonitis.

**PRESBYTERY CONSIDERS CALL.**  
Rev. J. F. Polley Declines Attractive Offer for Duane's Sake.  
At a meeting of the St. John Presbytery yesterday afternoon, Rev. J. F. Polley, of Waterford, refused a unanimous call to the Richmond pastorate. The call to the Richmond charge was something to be jumped at, as the charge, besides giving the incumbent a large salary in connection with an excellent manse and globe, Rev. Polley, however, thought that Waterford held a claim to his services for the present and so elected to decline. This example of devotion to duty was commended by the Presbytery.  
The following calls were sustained: Rev. Angus A. Graham, of Petrolia, Ont., to St. David's church, city.  
Rev. Herbert R. Reid, of Bathurst, to the Carlton church.  
Arrangements for the induction of these clergymen have been made as follows:  
Carlton—Rev. A. H. Foster to preside and induct, Rev. Dr. Fotheringham to address the minister and Rev. J. W. A. Nicholson to preach.  
St. David's—Rev. David Lang to preside and induct, Rev. Gordon Dickie to address the minister and Rev. Frank Baird the people.  
Rev. D. McDermid, of Moncton, read the Augmentation report.

**HIGH SCHOOL ALUMNAE.**  
The second meeting of this season of the Alumnae Association of the High School was held last evening in Miss J. W. A. Nicholson's parlors. Several members had prepared the greater part of Shakespeare's play, "As You Like It," for the occasion. It was a member taking a character. It was presented and won warm applause from the large company assembled. Miss Helen Pink made the necessary announcement and the play was read by the following members: Misses M. A. Winter, Hazel Hall, Muriel Gillis, E. Hannah, Messrs. S. Bridges, W. Belding, C. McAvaney, B. P. McCafferty, P. Archibald, R. Ledingham, Pollard, Levin and B. Smith.  
Miss Mary Gilchrist presided at the piano and Walter Belding, during the evening, sang two of the songs included in the play. Arrangements were made to hold the annual meeting in the High School on the first Tuesday after Christmas. It was also announced that Henry Lawrence Southwick, dean of the Emerson School of Oratory, Boston, would give a lecture in the High School this evening, when he would interpret "Twelfth Night." Light refreshments were served before the company broke up.

**MORE TOBACCO.**  
It is notable that in spite of all the anti-tobacco crusade work the consumption of the soothing weed in its various forms is rapidly increasing. In Canada last year there were consumed exactly 15,521,002 pounds of tobacco, cigars and cigarettes, which represents 2,745 pounds for every man, woman, and child in the country. This is the largest consumption in the history of the country. The average of the last 35 years has been 2,178 lbs. In 1902 it was 2,401 lbs. In 1903 it was 2,548 lbs.  
In England also the amount turned into smoke during 1903-4 was the greatest on record, 75,754,000 pounds of raw tobacco and 2,751,756 pounds of manufactured being sold. But even this is rather less than 2 pounds per head of population, so that in spite of John Bull's record as a smoker he will hereafter have to take a place at the table of My Lady Nicotine lower than his ambitious son.

**BRIBERY IN CARLETON CO.**  
Following is the comment of the Woodstock Dispatch on the recent election in Carleton County:  
"There is a reasonable suspicion that politics in Canada is not getting any cleaner than it has been, and possibly, may be, perhaps, it is getting a little dirtier. There was a day in Carleton when to purchase a vote was looked upon as a terrible thing; and a man who sold his vote was beneath contempt. Bribery and corruption is rampant here today and neither party can say its hands are clean. At the most conservative estimate over \$30,000 was spent in this campaign in Carleton county, which is over \$600 each for every voter in the county. Each party spent all the money it could get. It is only natural to think the government party had the largest vote.  
"Where was the waiting end? Democratic government has hardly justified itself. Manhood suffrage is a good thing, but doghood suffrage, as it is called, is not good. And what better than a dog or a skunk is the man who sells his vote? If \$25 is the average price paid for votes in this county, then about 1200 of the free and independent electors of Carleton County today are electing a government.  
The late George Gee and the unfortunate Thomas Cammack are not the worst enemies of our supposed civilization. There are meaner men than the murderer. The poor men are not the first to sell their votes."  
\*\*\*\*\*  
**ROUNDUP.**  
I do not know what life may bring sweeter than this: that wild wing blow  
Fresh from the skies, and whither wing I do not know.  
The why, the wherefore, let them go:  
My love shall laugh, my laughter sing,  
And my full heart shall ever flow.  
Love is the best, and love shall bring Glad scorn to all that doubt may show:  
Question's a slave whose loveless king I do not know.  
—C. Rann Kennedy in Harpers.

**ONE WOMAN KILLS ANOTHER.**  
Fataally—Woman Arrested on Charge of Manslaughter.  
NEW HAVEN, Conn., Nov. 10.—Mrs. Cora Cassidy, wife of Christopher Cassidy, of Highwood, is dead, as the result, it is claimed of injuries inflicted by Mrs. Elizabeth Barnes, a friend during a quarrel. Awaiting the result of the autopsy, Mrs. Barnes is held on the charge of manslaughter. She is 45 years of age and lives at 145 Duane street. The story told to the police is that the woman got into an argument over a trivial matter and in the heat of passion she struck Mrs. Cassidy on the head with a hairpin, inflicting internal wounds. The woman was treated for peritonitis.

**PRESBYTERY CONSIDERS CALL.**  
Rev. J. F. Polley Declines Attractive Offer for Duane's Sake.  
At a meeting of the St. John Presbytery yesterday afternoon, Rev. J. F. Polley, of Waterford, refused a unanimous call to the Richmond pastorate. The call to the Richmond charge was something to be jumped at, as the charge, besides giving the incumbent a large salary in connection with an excellent manse and globe, Rev. Polley, however, thought that Waterford held a claim to his services for the present and so elected to decline. This example of devotion to duty was commended by the Presbytery.  
The following calls were sustained: Rev. Angus A. Graham, of Petrolia, Ont., to St. David's church, city.  
Rev. Herbert R. Reid, of Bathurst, to the Carlton church.  
Arrangements for the induction of these clergymen have been made as follows:  
Carlton—Rev. A. H. Foster to preside and induct, Rev. Dr. Fotheringham to address the minister and Rev. J. W. A. Nicholson to preach.  
St. David's—Rev. David Lang to preside and induct, Rev. Gordon Dickie to address the minister and Rev. Frank Baird the people.  
Rev. D. McDermid, of Moncton, read the Augmentation report.

**HIGH SCHOOL ALUMNAE.**  
The second meeting of this season of the Alumnae Association of the High School was held last evening in Miss J. W. A. Nicholson's parlors. Several members had prepared the greater part of Shakespeare's play, "As You Like It," for the occasion. It was a member taking a character. It was presented and won warm applause from the large company assembled. Miss Helen Pink made the necessary announcement and the play was read by the following members: Misses M. A. Winter, Hazel Hall, Muriel Gillis, E. Hannah, Messrs. S. Bridges, W. Belding, C. McAvaney, B. P. McCafferty, P. Archibald, R. Ledingham, Pollard, Levin and B. Smith.  
Miss Mary Gilchrist presided at the piano and Walter Belding, during the evening, sang two of the songs included in the play. Arrangements were made to hold the annual meeting in the High School on the first Tuesday after Christmas. It was also announced that Henry Lawrence Southwick, dean of the Emerson School of Oratory, Boston, would give a lecture in the High School this evening, when he would interpret "Twelfth Night." Light refreshments were served before the company broke up.

**MORE TOBACCO.**  
It is notable that in spite of all the anti-tobacco crusade work the consumption of the soothing weed in its various forms is rapidly increasing. In Canada last year there were consumed exactly 15,521,002 pounds of tobacco, cigars and cigarettes, which represents 2,745 pounds for every man, woman, and child in the country. This is the largest consumption in the history of the country. The average of the last 35 years has been 2,178 lbs. In 1902 it was 2,401 lbs. In 1903 it was 2,548 lbs.  
In England also the amount turned into smoke during 1903-4 was the greatest on record, 75,754,000 pounds of raw tobacco and 2,751,756 pounds of manufactured being sold. But even this is rather less than 2 pounds per head of population, so that in spite of John Bull's record as a smoker he will hereafter have to take a place at the table of My Lady Nicotine lower than his ambitious son.

**BRIBERY IN CARLETON CO.**  
Following is the comment of the Woodstock Dispatch on the recent election in Carleton County:  
"There is a reasonable suspicion that politics in Canada is not getting any cleaner than it has been, and possibly, may be, perhaps, it is getting a little dirtier. There was a day in Carleton when to purchase a vote was looked upon as a terrible thing; and a man who sold his vote was beneath contempt. Bribery and corruption is rampant here today and neither party can say its hands are clean. At the most conservative estimate over \$30,000 was spent in this campaign in Carleton county, which is over \$600 each for every voter in the county. Each party spent all the money it could get. It is only natural to think the government party had the largest vote.  
"Where was the waiting end? Democratic government has hardly justified itself. Manhood suffrage is a good thing, but doghood suffrage, as it is called, is not good. And what better than a dog or a skunk is the man who sells his vote? If \$25 is the average price paid for votes in this county, then about 1200 of the free and independent electors of Carleton County today are electing a government.  
The late George Gee and the unfortunate Thomas Cammack are not the worst enemies of our supposed civilization. There are meaner men than the murderer. The poor men are not the first to sell their votes."

**20<sup>th</sup> Century Overcoats.**

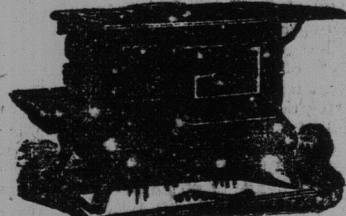

Many people say, "oh, a coat's a coat. But take a look at a '20th Century' garment then at one from elsewhere. There's that style, finish and go to the '20th Century' garment that the other seems only a parody. Canvases are thoroughly shrunken, the fabrics are carefully handled, so that no shrinking occurs after the garment leaves the factory.

The collars are closely hand-padded by hands that do nothing else. Buttons holes are better than most hand-made. Pockets are extra well stayed.

**THE "CUMULATIVE FORCE"  
OF GOOD ADVERTISING IS THE SAME  
AS THE "CUMULATIVE FORCE"  
OF GOOD FOOD.**

Here and there a merchant believes a little too much in the force of advertising—that is, in the wrong way. He is convinced of the "cumulative force" of good advertising; and he thinks that two or three good ads. a week will generate enough of this "cumulative force" to run his business for the other days of the week on which he does not advertise at all—but on which he still hopes to do a good business.

The rule will apply to eating with just the same force as to advertising.

No one doubts the "cumulative force" generated by good food, in ample quantities.

But no one imagines that because of this "cumulative force" he may do without eating on one, or two or three days a week.

Of course he COULD do it—and live, and "jolly" himself into the belief that he was thriving very well on "cumulative" nourishment.

But yesterday's good dinner does not do away with the desirability of as good a meal to-day—or a better one. And yesterday's good advertisement may well be followed by a better one to-day—and still a better one to-morrow.

**REV. MR. DICKIE ACCEPTS.**

Will Come to St. Stephen on Novem-  
ber 27th.

**HALIFAX, N. S., Nov. 10.**—At a meeting of the Sydney presbytery held this evening at North Sydney, Rev. Gordon Dickie, pastor of Little Bras d'Or church, accepted a call to St. Stephen Presbyterian church, St. Stephen. He will preach his induction sermon probably on Sunday, Nov. 27. Rev. Mr. Dickie is considered one of the coming ministers of the Presbyterian church in Eastern Canada.

**HOW SHE FOOLED HIM.**

The wife of a Park Slope real estate man played him rather a shabby trick the other day. Brown had formed the habit of staying out late at night. He wore all the regulation excuses to threads and had to devise new methods of either side-stepping his wife's reproaches, or of keeping her in blissful

ignorance of the hour of his arrival home. By dint of long practice he succeeded in getting into the house without disturbing his sleeping better three-fourths. This went on a long time and poor little wife never knew what time Brown came home unless she was awake when he came in. Usually, having a clear conscience, and some confidence, she was asleep.

The other night Brown, after kissing his wife an affectionate good-night, said he had left his latch key in the office and would like to borrow her's. Seeing her opportunity, she slipped into the bedroom and handed him a key.

Brown came home that night, or more properly, the next morning, a trifle later than usual and showing plainly the character of entertainment in which he had participated. He tried the key which he was trusting wife had given him, and, of course, it did not fit, for it was a trunk key. Brown swore a little but nothing availed, and he had to push the button and awake Mrs. Brown. Brown says he never borrows a key now from his wife without examining it closely, and he is not so often at the club as he was formerly.

### FOOTBALL.

St. Joseph's, 6; Neptune's, 0.  
St. Joseph's College football team defeated the Senior Neptune Rowing Club team on the Shamrock grounds yesterday by a score of 6 to 0.  
The weather was a trifle cool and the frost made the grounds slippery. St. John was handicapped by the loss of several of the old team though the substitutes gave a good account of themselves, lacking only the combination of the other players. Patterson at quarter played a star game, and Burpee at half, played the best game for the locals. Coll's dribbling was also a good feature, as well as the heavy punting done by White at full.  
Memramcook lined up with the strongest possible team, and one that is as fit as a fiddle. The forwards play well together, the quarters are quick and good tacklers, and the half line is particularly speedy. All the back division played particularly well, and of the forwards Bourque, McCarthy and Leblanc played the best forward game.  
Neither side scored in the first half. After some hard work in the second half, St. Joseph's scored two tries, but were unable to get the ball over the bar. Mr. Cocq refereed.

**CHATHAM ADVANCE IS NO MORE.**

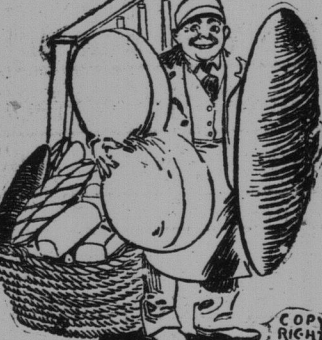

Paper Founded by D. G. Smith in 1874 Has Ceased Publication.

The Miramichi Advance, which has been published at Chatham since 1874 ceased publication temporarily at least with its edition of yesterday. Its editor, D. G. Smith, announces that owing to other demands upon his time he has been unable of late to give the paper the attention it demands, and that consequently it has ceased to become profitable.  
Regarding the paper's future Mr. Smith says he has no plans. He says: "I am conscious of the fact that there are many who would be sorry to see it go out of existence, although some of them have taken little interest in assisting to maintain it by an adequate patronage. They were, no doubt, willing that I should maintain it without their troubling themselves about the cost in money, time and thought involved in its weekly production as a creditable publication of the Miramichi. Chatham will need a good paper, and I shall be glad to make a sacrifice to assist in re-establishing the Advance in future and younger hands, but I cannot longer continue to be its editor and publisher."

### BENGOUGH AT ST. DAVID'S.

In St. David's school room last evening Bengough chalked and talked to the amusement of a large audience, among whom the younger portion seemed to be the happiest.  
The entertainment was an enjoyable one, and Bengough's skill with the pencil excited much admiration. He made several political remarks, one of which Blair's present position was cleverly depicted. Several of the other sketches were of an amusing nature and there were a few local hits introduced. Between times and also while he worked, Bengough told stories and proved himself equally at home with his hands and mouth, which, as one of the audience expressed it, was quite a feat.

### FIRST IN 1000 YEARS.

LONDON, Nov. 6.—The mayor-elect of Stamford, Councillor Daniels, claims that he is to be the first testator mayor of the borough for over 1,000 years. As a consequence, in his invitation to the annual mayoral banquet, he intimated that no wines would be included in the menu, adding that they would be obtainable from the caterer.  
The caterer, however, applied for an occasional license for the town hall, where the banquet is to be held, but was refused by the magistrates.  
The position was an awkward one, for the mayor-elect refused to entertain the idea of providing wines.  
Fortunately, however, the magistrates have relented, and yesterday granted the license until 10 o'clock.

### CONSISTENCY AND THE LAW.

An American judge, says Motoring Illustrated, overshot himself on the morning of the trial of a motorist for exceeding a speed-limit of twelve miles an hour. The court house was twenty-five miles from the judge's residence, but, nothing daunted, he hired a motor-car, and got comfortably seated on the bench well within the hour, where he collected \$5 from the motorist.

# CONSOLIDATION

Was Given a Great Boost

at Kingston.

The Evening Meeting at the Opening of the School Was Most Interesting of All.

The proceedings at the formal opening of the Macdonald School at Kingston were continued on Wednesday evening. The large hall at the school was filled to overflowing with the parents and friends of the pupils, and the utmost interest was manifested in the proceedings. Austin Weimers, chairman of the consolidated school board, presided.

During the assembling of the people the Kingston orchestra rendered several acceptable selections. Principal Hamilton was the first speaker. He stated that the average attendance before consolidation was forty-four per cent, and the opening of the central school the average daily attendance has been ninety-three per cent. If no other results followed this alone would justify the consolidation. The total enrollment has increased by over one hundred and sixty per cent. Professor Hamilton gave other interesting evidence of the popularity of the institution among the residents of the various sections. He said that in many cases persons who had been very lukewarm in their support of the new movement, were now its most enthusiastic advocates, and that opponents were not now to be found. He spoke of some of the special features of the school work and expressed his gratitude for the help he had received during the somewhat difficult work of organization.

The next speaker was Dr. Inch, chief superintendent of education. He referred to the difficulties in connection with the rural schools and of the great hopes he entertained for the solution of these difficulties by the principle of consolidation of the rural schools. He paid a splendid tribute to the generosity of Sir Wm. Macdonald and referred in the highest terms to the noble efforts of Prof. Robertson in connection with this and other educational work. While this was the only consolidated school in existence in New Brunswick, he stated that at Riverview, Albert Co., the foundations were now being laid for an even larger school than the one at Kingston, and in many other places in the province a great deal of preliminary work has been done. The success of this Kingston experiment meant a great deal to the future of education in the province, and he hoped and believed from the success which has already attended it, that this consolidation movement was likely to be a most potent factor in the improvement and uplifting of our rural schools.

Prof. Robertson followed in one of his characteristic addresses. He contrasted the happy, contented appearance of the children in this beautiful building with its pleasant surroundings with the conditions prevailing in so many of our rural schools. He mentioned many different scenes, which he carried out would contribute very materially to the advancement of the interests of Kingston.

Professor Robertson's interests are so wide and his concern for the welfare of the rural communities so great that there seems to be no limit to his ideas for the betterment of the existing condition of affairs. He spoke in the highest terms of the state of teachers, all of whom had been especially selected for the work because of their proven capacity in other places. He was confident that a better equipped school did not exist in the dominion. He also spoke of some of the modern branches of education, which would be particularly exemplified in the Kingston school. Nature study, manual training, household science, school gardening and other modern methods and subjects with reference to education were dealt upon, and their affiliation to the business of life shown. Professor Robertson's remarks were listened to with the greatest attention throughout, and made a profound impression upon those present. Addresses were also made by T. B. Kilmer, director of manual training, Inspector Stevens and John Brittain. The meeting closed with enthusiastic cheers for Professor Robertson and the singing of the national anthem.

# FATHER AND SONS.

H. G. Tilley, Grand Worthy

Patriarch,

Is One of a Family of Temperance

Workers—Sir Leonard Held

the Same Position.

At a session of the Grand Division of the Sons of Temperance last Wednesday H. G. Tilley was elected Grand Worthy Patriarch for the province of New Brunswick for the coming year. It is interesting to note that the same position in this order was held away back in the early history of the division by Mr. Tilley's father, the late Sir Leonard Tilley. During April and May of 1847 nine divisions were organized, two of which were in the city of St. John. The others were in Charlotte and York counties. H. G. Tilley was one of the charter members of Portland Division, No. 9, of the city of St. John. In 1848 he was elected Worthy Patriarch of New Brunswick. In 1854, at the sixth annual session of the national division in St. John, he was elected Most Worthy Patriarch of the divisions of North America. Previous to that at the fourth session he had been made Most Worthy Patriarch of the division of the St. Joseph's College. He held the office of Most Worthy Patriarch for two years. At the next provincial session Mr. Tilley secured a nomination as a candidate for a seat in the assembly. The large vote which he polled at that election was due very substantially to the untiring efforts of his faithful friends and followers, the temperance people of St. John, on his behalf. When Mr. Tilley entered the legislature he did not lay aside the temperance question to be dealt with when the time would be ripe for its introduction into the house, but true to his principles and his pledges, and to the temperance people who had placed their confidence in him, he introduced a bill for the prohibition of the sale of liquors in New Brunswick. The bill passed the house and the act was law. Mr. Tilley's prohibitory law, however, was not destined long to stand. The lieutenant governor at that time, Hon. John Henry Thomas Munro-Sutton, dissolved the house.

From the new house, which met in 1854, Sir Leonard Tilley was missing. His prohibitory law caused his defeat by a small majority. After entering public life, Sir Leonard Tilley, although he no longer filled any important offices in the Sons of Temperance, remained an active member and a faithful, consistent temperance worker. Many divisions, which were losing heart in the fight and falling away in membership, were brought again to action and inspired with fresh hope by his timely visits and cheering words. Many who had lapsed into total inactivity were again reorganized and started in afresh.

This work, which Sir Tilley laid aside only at his death, has been taken up and carried on with renewed vigor by his second son, in the Grand Division which met in 1902, L. P. D. Tilley, second son of Sir Leonard, was elected Grand Worthy Patriarch for the year 1903. Mr. Tilley discharged very creditably the duties of his office, and now the same office, with added responsibilities, falls on the shoulders of his brother.

## A REQUEST FROM HALIFAX.

LIFAX, Nov. 10.—The Nova Scotia branch of the Canadian Manufacturers' Association at a meeting tonight decided to ask the government to place in express companies under the jurisdiction of the railway commission, and also that the Intercolonial Railway be put on the same footing as company railways in the matter of bringing legal suits against it. At present the conduct of the government is such that the railway company can be done.

## TRAINS DELAYED.

The Quebec express, due in the city at 12.50 p. m., since the election has lapsed into its old way of arriving late. On Tuesday it was 1 hour and 40 minutes late in arriving, on Wednesday 1 hour and 15 minutes late, and on Thursday half an hour late. For some days before the election this train was sent along from Moncton on time, and a special brought the northern passengers and mails in during the afternoon, just as soon as the election was over the same old service was doled out.

## POLYMORPHIAN SMOKER.

The Haymarket Square Polymorphian Club held their monthly smoker last evening in the Tabernacle Hall. About 200 were present and all were in the best of spirits. The room was literally a cloud of smoke. An entertainment, mostly musical, was carried out. Songs were given by B. Hicks, F. Hicks, John Nuttal, L. Comeau and Mr. Davidson. A mandolin solo was given by Alfred Gorman. Besides this there was music by the Boys' Brass Band and violin solos by Messrs. Atkinson, Malcolm and Christie.

## R. K. Y. C. SMOKE TONIGHT.

A meeting of the executive committee of the R. K. Y. C. was held yesterday afternoon and four new members, A. M. Rowan, H. H. Harvey, H. E. Ellis and A. J. Charlton, elected to membership.

The first smoker since the club has moved into its new premises will be held this evening. The committee have made extensive preparations for this occasion, and it is expected to be one of the most pleasant affairs of the kind that has taken place here for some time. Prof. Gilley has been engaged to furnish music for the occasion.

## 1,000,000 HIT THE PIPE.

Optim smoking is not as purely Oriental a vice as is usually supposed, for it is estimated that there are 1,000,000 devotees of the pipe in the United States.

## Y. M. S. OF ST. JOSEPH.

Annual Reunion Last Evening—A Pleasing Presentation.

The annual reunion of the Young Men's Society of St. Joseph was never held under more auspicious circumstances than was the case last evening, when this annual event took place in its rooms, St. Malachi's Hall. An extremely large number of members were present, and in addition the members of the St. Joseph's College football team, who played here yesterday, were present on invitation.

The president, T. Heffernan, occupied the chair, and on the platform also were Rev. L. Guertin, C. S. C., Ph. D., D. D., of St. Joseph's College; Rev. C. P. Carleton, spiritual director of the society; Judge Ritchie, president of Branch 134, C. M. B. A., and Rev. W. Holland, of the Cathedral. After an opening address by the president the following programme was carried out: Opening selection, orchestra; recitation, Norman McGloone; mandolin selection, Wm. Gale; solo, James Daley; piano solo, E. J. Condon; step dancing, Alvin McGloone; solo, John A. Barry; orchestra selection; recitation, Rev. C. P. Carleton; solo, John Henry Thomas Munro-Sutton, dissolved the house.

From the new house, which met in 1854, Sir Leonard Tilley was missing. His prohibitory law caused his defeat by a small majority. After entering public life, Sir Leonard Tilley, although he no longer filled any important offices in the Sons of Temperance, remained an active member and a faithful, consistent temperance worker. Many divisions, which were losing heart in the fight and falling away in membership, were brought again to action and inspired with fresh hope by his timely visits and cheering words. Many who had lapsed into total inactivity were again reorganized and started in afresh.

This work, which Sir Tilley laid aside only at his death, has been taken up and carried on with renewed vigor by his second son, in the Grand Division which met in 1902, L. P. D. Tilley, second son of Sir Leonard, was elected Grand Worthy Patriarch for the year 1903. Mr. Tilley discharged very creditably the duties of his office, and now the same office, with added responsibilities, falls on the shoulders of his brother.

The gift is the most useful one, and much appreciated by the recipients. The chair stands almost seven feet, and is of oak, richly upholstered. On the chair is inscribed: Presented to the Y. M. S. of St. Joseph by Branch 134, C. M. B. A., 1904.

During the evening presentation of prizes to the members of the recent pool tournament held among the society's members, the winners being: Father Carleton, the winners being: William Garrett, 1st; Geo. T. McCafferty, 2nd, and P. Sweeney, 3rd. The first prize was a valuable stockpin and the second a fountain pen.

Speeches in a happy and also inspiring manner were made by Father Guertin, Father Carleton and Father Holland, while Captain Rive of the St. Joseph's football team, 3. Moroney, president of the Father Matthew Association, and the St. Joseph's president spoke in a light and pleasant manner.

The singing of the hymns terminated the proceedings, but before leaving the college boys gave their well wish good will. Cheers were called for the collegians and heartily responded to, bringing forth responsive cheers from the visitors.

## ING EDWARD TAKES A HAND.

ST. JOHN'S, N. F., Nov. 10.—Governor Sir William MacGregor, at the St. John's banquet here last night, conveyed a personal message from King Edward to the people of Newfoundland, branching out to the west coast of the French shore question and to relieve them of the difficulties arising from French occupation of the west coast.

People do not "pass by on the other side" of stores that are advertised—unless the stores on the "other side" are better advertised.

## MORE STEALING FROM THE I. C. R.

Nineteen Flasks of Whiskey Gone This Time—Marriage in Jamaica.

MONCTON, Nov. 10.—The marriage took place at Kingston, Jamaica, recently of Joseph R. N. Bruce, son of J. R. Bruce, I. C. R. traffic auditor, and Miss Frances Alexander of Kingston. Mr. Bruce has recently been transferred to the branch of the Bank of Nova Scotia at Montreal and promoted to the position of assistant accountant.

Stealing is still going on at the I. C. R. transfer shed here. Recently nineteen flasks of whiskey were missed from a freight car and the authorities believe that the theft was committed at Moncton station. This fact and rumors that have been circulated for some time, tend to confirm the suspicion that thefts have been committed by parties whom certain grit heaters are not anxious to see brought to justice.

## DEMAND FOR SMALL COINS.

(Philadelphia Press.)

That the demand for small change to supply the retail trade is rapidly increasing is shown by a statement issued by Superintendent Landis of the United States mint. This demand is generally taken as a criterion of the prosperous condition of the United States and is considered one of the most accurate gauges.

The following figures represent the smaller coinage at the mint since President Roosevelt became president: \$5,000,000 in half dollars, \$7,800,000 in quarter dollars, \$5,800,000 in dimes, \$4,500,000 in nickels and \$2,600,000 in cents. This makes a total of \$25,000,000 of subsidiary silver and minor coins during the three years. The nickel coinage during the three years mentioned represents about one-fifth of the entire nickel coinage of the country and the cent coinage represents about one-seventh of the entire cent coinage since the organization of the federal government.

## GOT THE SEATS.

(New York Tribune.)

At a recent dinner Abraham Benedict told a story of a Rochester lady who is somewhat corpulent, and to provide for her comfort sent a messenger boy to get two seats instead of a silver plate at the Lyceum Theatre in that city. She was quite indignant when the boy returned with one seat in the orchestra circle and one seat in the balcony.

## ONTARIO ELECTIONS

Will Probably be Brought Along Very Soon.

TORONTO, Nov. 10.—Perplexed as to the best course to pursue at the present time, whether to bring on by-elections and be defeated piecemeal, or to bring on the general elections and be defeated all round, Premier Ross has called a convention of the liberal party for Nov. 23rd. The questions to be discussed at this convention will be dissolution, cabinet reconstruction, and prohibition. It was intended that dissolution should have taken place Tuesday afternoon and that Stratton should announce his retirement when accepting the cabinet of silver on Tuesday night from the employees in his department. The expected arrangements did not materialize. The mandate has gone forth to all liberals to select their candidates in readiness for the coming elections.

## ORIGIN OF SHOE-SHINING.

The memorandum just issued by the army council to the effect that soldiers' boots "should be blocked only for full dress parades and for walking out" recalls the fact that for the introduction of blocking we are indebted to a soldier.

Some 200 years ago a soldier called upon a barber named Martin, who kept a small shop in Doncaster, and while being shaved mentioned the fact that he was walking back to York to rejoin his regiment, not having enough money to travel by coach. The kind-hearted barber advanced him the necessary money which the soldier repaid soon after, also enclosing with his letter a receipt for a blocking that he and his fellow soldiers had found useful for their boots. A little later Mr. Martin entered into partnership with Mr. Day, a harness maker of Tavistock street, London, with the result that everyone knows.

## BARRYMORE ON ABSINTHE.

Actor Barrymore was once at a table with a young woman who was to taste absinthe. She wrinkled her brows for a few moments and then said: "It is like something I had when I was a child. I mean it's just like paregoric."

"You are quite right," remarked Barrymore. "Absinthe is the paregoric of second childhood."—Cleveland Leader.

### **JERRY DALEY FREE AGAIN.**

Made His Second Escape From Custody Yesterday Afternoon.

Jeremiah Daley, aged 35, who was arrested on Friday last for assaulting and beating John McKullen, was sent to jail under a hard labor sentence. He started out yesterday morning for work in Rockwood park and worked well until about 4:30 o'clock, when he made a run for liberty, and was soon lost in the woods.

Daley had only been out of jail a few days when he was arrested for assaulting McKullen. This is not the first time that he has escaped from lawful custody. The first time he made a successful break for liberty from the Water street lock-up. On that occasion he was in some way worked the nut off the bolt that held the door and quickly broke his way out. The police are on the look out for Daley, but are of the opinion that he has left the country.

### **NEW WHOLESALE LIQUOR BUSINESS.**

David A. McLeod, William A. Cathers, James McCarthy, William White and Frank McCarthy, all of St. John, are seeking incorporation as the Imperial Wine and Spirit Company, Ltd., with a capital stock of \$25,000, divided

into shares of \$50 each, to carry on a general wholesale and retail wine and spirit and tobacco business. All the gentlemen are well known in the city and province. Mr. McLeod was for some time in the life insurance business. Mr. Cathers and Mr. White are popular commercial travellers, while James McCarthy is conducting a liquor business on Dock street. The new company have secured the premises at the west end of Union street recently occupied by John O'Regan. At present they have but a portion of the building, but on January first will take over the entire premises. The object of the company is to conduct a general wholesale liquor business. Messrs McLeod and McCarthy will act as managers. Scott E. Morrell is the solicitor of the company, the head office of which will be at Hampton.

The winter time-table of the I. C. R. will go into effect on Wednesday, Nov. 10. As yet the officials here have not received a copy of the time-table, but expect that it will conform with the C. P. R. departure and arrival as was arranged at the meeting held in Boston some months ago.

### **FOOTBALL TOMORROW.**

Two Interesting Games Will be Played in the Local League.

Two games of football are to be played on the Shamrock grounds tomorrow (Saturday) afternoon. They will probably terminate the league series. The games for tomorrow are: Carleton vs. Neptune and Neptune vs. Trinity. As both the Neptunes and the Carletons stand at the head of the league with the same percentage, to their credit, the success of either will give the winning team the trophy for which they are battling. Should both the leading teams be successful tomorrow they have to play out next.

The Neptunes' line-up for tomorrow's game will be: Full-back—Kenney. Halves—Ellis (captain), Townsend, Mooney and Howard. Forwards—Leddingham and Simmons. Forwards—Finlay, McMichael, Masters, Grace, Setchell, Powers, Outram and Desbriay.

### **SWAPPED SCHOONERS.**

It is a common thing for people to swap horses but it is seldom that schooners change hands in this way. However, a case of this kind occurred this morning when two schooners changed hands. Just what the terms of the transfer are is not known. The schooner Nellie D., a comparatively new vessel, now at Market Slip and owned by Raymond Devan, of Moville, N. S., was transferred this morning to Messrs. Connors Bros., of Black Harbor. Messrs. Connors Bros. have transferred to Capt. Raymond Devan the schooner Linnie and Edna.

### **NEPTUNE CLUB'S NEW MEMBERS.**

At recent meetings of the Neptune Rowing Club, the following gentlemen were elected members of the club: Roy Carritte, Daniel A. Webb, C. H. Abbott, M. M. Jarvis, D. W. Harper, E. L. Rhine, W. H. Hayward, K. E. McDonald, F. Murphy, B. Thompson, Albert H. Sears, George E. Moore, Otty L. Barbour and Frank McCafferty.

### **STREET CARS COLLIDE.**

There was a slight accident at the corner of Mill street and Paradise row shortly after midnight, when two street cars, Nos. 50 and 53, collided and the front vestibule of one of the cars was smashed up. One car was en route to the North End when the other rounded the corner rapidly to switch onto the main line to go to the shed for the night.

## **STRANGE BANK CLERKS.**

City Men are Being Put to a Lot of Trouble Getting Themselves Identified.

A Star man had occasion today to get a cheque cashed. (How he got the cheque is another story). He went to one of the city banks and presenting the document, properly endorsed, waited for payment.

The newspaper man was a native of St. John, has worked here several years, and considered himself fairly well acquainted with its citizens. But he didn't know one man in that bank and the man knew him. The manager was out and each member of the staff walked to the wicket, gazed suspiciously at the applicant for funds and shook his head with an air that made the scribe feel as if he ought to give himself up to the police at once and confess all.

But he hardened his heart instead, and in response to the bank dignitary's demand for identification, started out to secure an accomplice. Across the street he met one of the best known insurance men in town, with whom he returned.

"He's all right," said the insurance man, confidently to the doubting official. "But who are you?" was the supercilious response and it began to look as if he also, though his name and face were familiar to two-thirds of St. John people, would have to be identified. Fortunately, a clerk was found who unobtrusively, and to the grudgingly expressing belief in the insurance man's statement.

"Say," said he to the newspaper man after they left the bank, "this business ought to be showed up. Nearly all the banks in town are filled up with strangers who don't know even the regular patrons. I had trouble of this kind a short time ago in a bank which has handled my business for years. It's a mighty funny thing that the banks can't keep men in the teller's boxes who have some slight acquaintance with the bank's clientele and a few people about town. It's not very pleasant for a man who has lived and worked in this city all his life to have to chase around and get someone to swear to him for the satisfaction of some back-woods bank clerk."

And the writer said "Amen," loud and clear.

## **DENNIS SULLIVAN'S RECORD**

Has Been Arrested 25 Times Since Jan. 1—His Sentences Aggregate Over Four Years.

In the police court this morning there were but two drunks. One was fined four dollars or ten days in jail while the other case is a puzzle to the magistrate. He is Dennis Sullivan, a well known character who has probably been arrested more times in a short period for drunkenness than any man in St. John. Sullivan pleaded guilty this morning and his honor asked that the books be examined to see how many times Sullivan had been arrested since the first of January. Turnkey Cunningham of the jail furnished the required statistics revealing that Dennis has just been committed to jail twenty-five times since the first of the year.

His honor said that if ever a temperance lecture was delivered that was one. Twenty-five times and each time, if the fine was not paid, the sentence would have been two months. This would be equivalent to fines of 250 or four years and two months imprisonment.

When last arrested, a few days ago Sullivan was informed that the next time he came back he would not be sent to the penitentiary but would be fined a fine. He was remanded, his honor remarking that he could keep him there for six months.

## **NAVIGATION ALMOST CLOSED**

Only Two Steamers Went Up River Today—Boats Can't Get to Fredericton.

All was bustle at the steamship wharves, Indiantown, this morning. As the river navigation is about closing the steamers which arrived yesterday brought unusually large cargoes, the farmers and produce raisers seizing the opportunity of sending what stock they had on hand to the city. What they sent was not long in being cleaned up, as grocers by the dozen were on hand bidding keenly for the supply.

Only two steamers made their usual trips today, the May Queen and the Champlain. There is as yet no ice in the Grand Lake and the May Queen will be able to make what will probably be her last trip this year. It is doubted if the Champlain can reach her destination, as above Gagetown the ice is forming rapidly.

Should a warm spell take place the steamship lines might continue their service for some days to come. There is quite a number of persons in the city from points along the river and they would be put some inconvenience in returning to their homes if the freezing of the river should close the navigation.

The steamer Elaine brought a large number of passengers this morning who intend returning as they came, provided it be possible.

Among the steamers at Indiantown this morning was the Aberdeen, which, during the spring, was on the Fredericton-Woodstock route. She arrived yesterday with a cargo of hay and will remain here for the winter. The Victoria left yesterday on her usual trip, but did not reach Fredericton, as the ice extended a bar across the river, and she stopped at Oromocto. So much ice was running that Capt. Taylor decided to get out of the danger zone and worked his way down towards Gagetown, where he stayed over night. If the river closes this week it will be the earliest closing since 1885, when navigation stopped Nov. 10 in 1902. The river was open till Nov. 23.

## **TRANSATLANTIC MOTOR BOATS.**

According to a writer in the current Harper's Weekly, an ocean race for high-speed motor boats is in prospect. A prize of \$20,000 has been offered in Paris for the first motor boat to cross the Atlantic. There have been seven entries thus far and rules to govern the contest will shortly be formulated. Supplies of petroleum will be available along the route, carried by accompanying steamers, as each boat will require between 1,000 and 2,000 gallons of this fuel for the trip, and it would be hardly possible for them to carry more than two or three hundred gallons apiece.
