to the public an investment security which Collars, Cuffs and Bosoms twice the amount loaned.

Troffic. As officially reported, the gross earn ings of the present Pacific Railroad (Union and Central) for 1871, the second year of through business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 65 per cent. is from Local business, and, it is stated, fully 55 per cent., or nearly Nine and a Half Millions, are net over operating expenses.

An equal traffic on the Northern Pacific Road

\*\*Will pay a dividend of more than 9½ per cent. on its total cost. With its great and unquestioned advantages in distance, grades, climate and tri-WILLIAM JONES, butary fertile country, the Northern Pacific is assured of a vast and profitable business from the outset, with a large increase for the future. BEGS to state that after the first of January next he will adopt the cash principle in his business, in order to enable him to fill orders as promptly as he would wish.

So Orders, on these conditions, will be attended to at the lowest prices.

GERMAIN STREET, GERMAIN STREET, Near "Victoria Hotel."

Near "Victoria Hotel."

Near "Victoria Hotel." Northern Pacific Road are admitted, by all who have seen them, to be better and more salable than those of most other grants, but, sold at the general average of \$7,04 per acre, they will yield more than \$161,000 per mile of road—more than three times the possible cost of construction and equipment; or, at the lowest average of any MANCHESTER, ROBERTSON & ALLISON. grant (\$3.07), they will produce more than \$70, 000 per mile. These facts regarding Pacific Railroad earnings, and the market value of Railroad Lands, as shown by actual sales to tlers, show the three-fold security of Northern Pacific Railroad Bonds.

Construction. The road is now completed across Minnesota, (255 miles); work is progressible of the progressible of th sing westward through Dakota, and 65 miles are under construction on the Pacific coast. Including purchased lines, the Northern Pacific Company now has under its management 575 miles of finished track. Contracts are let for the instruction of 635 miles more, to be finished before the close of 1872.

The 7-30 Gold Bonds. The first mortgage honds of this company, which, after full investi-gation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country, have the following leading features; 1. They are exempt from United States tax: the Principal and Interest are payable in gold the principal in 30 years, and the interest semiannually at the rate of 73-10 per cent. per

annum, Denominations, from \$100 to \$ 0,000. Present selling price-par and accrued interest in United States currency at pres nt rate of gold (109) these bonds yield 8 per cent gold 2. The bonds are a first and only Mertgage on the Road, its Equipments and Earnings, and also on a Land Grant which on the completion of the Road will average 23,000 acres to each mile of track, 3. They are at all times receivable at 10 per cent, premium (1.10), in payment or exchange for the Company's Land at market prices—a for the Company's Land at market prices—a provision which practically gives the holder the power of foreclosure at will.

4. The proceeds of all sales of Land are required to be devoted by the Trustees of the bondholders, (Messrs. Jay Cooke and J. Edgar Thompson), as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or temporarily to the payments of interest thereon if necessary.

New York Sun for 1872. TO ALL WHO CAN READ. The New York Weekly Sun Doubled

With the beginning of 1872, THE WEEKLY Sun has been doubled in size. It now contains eight pages instead of four, making it equal in dimensions to any other weekly secular journal published in this country. At the same time its dollar a year for each copy. To this rate no exception will be made and no reduction will he possible, either to clubs or agents. Every

subscriber who sends a dollar will receive a copy While THE WEEKLY SUN thus furnishes as much reading matter as other papers published features which will add greatly to its interest and value as a family newspaper. Its independence of opinion, and its unqualified hos-tility to Tweedism and Grantism, and every form of public robbery, bribery, and corruption, will be maintained, while in point of political news its readers may rely upon always receiving the most accurate, as well as the freshest, intelligence that can possibly be obtained. The enlargement enables us also to devote additional space to valuable agricultural intelligence, and to print interesting stories and romances more extensively than hitherto. For miscellaneous reading, presenting the quaint and humorous aspects of life, and for useful information repecting not only what takes place in this mepecting not only what takes place in this metropolis and this country, but in all other parts of the world, we now have ample room.

In its new form THE WEEKLY SUN is the cheapest paper of its class in the United States; and we appeal to such of our readers as approve its ideas and objects, and find it interesting and relaable to the cheapest paper of the state of th

valuable, not only to renew their own subscriptions, but to recommend the paper to their friends and neighbors.

This year is destined to be a memorable one in the history of the country. We are on the eve of a most significant Presidential election, be watched with unusual interest. As a journal, free from the trammels of party, THE WEEKLY true republican government. Its readers are invited to sustain it in that work. The truth, irrespective of party prejudice or official in-
