## GET BUSY

On your Home Plans if you intend Building a Home. Don't sit back waiting for lower costs next spring. We anticipate building costs will increase if anything for 1922. Quit groundhog about land time and the cold hard winter and help keep the ball rolling.

## FOR GOOD TIMES

Take the middle course between the chronic pessimist and the famous optimist. See present conditions up in a sane business manner and we think you will see our advice is good.

## AND BUILD NOW

The long cold days are dandy for building and there is lots of time to complete your home before fall.

## TWO ARRESTS IN ROBBERY CASES

Two Local Young Men Now Awaiting Magistrate's Action.

It will be remembered that the Graphic a few weeks ago reported that several local stores had been broken into and a quantity of goods taken.

The break was a good deal of a mystery to the police, but Chief of Police Adams has been seeking information and on Monday he paid a surprise visit to a rough camp at Duff's lake, about four miles out of the town, right of way, and arrested the two inmates, Ernest Duncan, aged 20 and Gordon Payne, aged 18.

A search of the camp and the homes of the young men revealed a quantity of goods among which were three revolvers, a large quantity of cartridges for same, two razors, one watch, one hunting knife, two compasses, two mouth organs and flashlight.

Besides these a large number of empty tin cans were in evidence about the camp.

Some of the plunder has been identified by various storekeepers.

The prisoners came before His Honor yesterday but were remanded.

## 1,003 BIRDS, 298 MARRIAGES AND 424 DEATHS IN PROVINCE DURING MONTH

Fredericton, N. B., Aug. 30.—Dr. G. G. Melvin, registrar general of the department of public health for New Brunswick, gave out the returns of births, marriages and deaths for the month of July from the report received up to August 25th today showing a total of 1,003 births, 298 marriages and 424 deaths in the province during the month. The birth rate figured on a basis of population of approximately 400,000 is 30 births per 1,000 per year.

## SLIGHT WRECK ON C.N.R. AT NEWCASTLE

Engine and Two Cars Pitched Into Ditch; No One Injured.

Newcastle, N. B., Aug. 31.—A broken rim was the cause of a slight wreck on the C.N.R. here this morning. The north way freight had just left Newcastle when the accident happened. The engine and two cars pitched off into the ditch. No one was hurt, and traffic was not interrupted as the accident happened in the yard, and trains were able to pass on upper number one track.

## THE FOE OF LIBERTY.

I am not temperamentally in favor of prohibition. I have an instinctive repugnance to the words "Thou shalt not," when coming from another source than the Creator and Sovereign Lord, all wise and all loving, who uses them only when they are necessary to the preservation of the order He has established. Therefore, if I support the total prohibition of the manufacture, sale and distribution of intoxicating liquors for beverage purposes, I do so because I regard these as employed as the worst enemies of everything good, and the most potent promoters of everything bad.

Whenever I have in my long experience found blasphemy, filth, moral and physical defilement of laws of God and man, I had no difficulty in the great majority of cases in finding the bottle at the root of the evil. The bottle is the deadliest foe of Christianity, of industry, of liberty.

On his point I wish to briefly dwell, because the opponents of prohibition are making Liberty their watchword. Liberty, God's noblest gift, source of all glory, we hail thee! Thy sacred name has often been invoked by scoundrels, but never by a more dastardly and dishonest, and treacherous crew than those who wish to associate thee with thy deadliest foe, "Strong Drink."

—Rev. Father L. Minahan, P.P., Toronto.

And Then I Went to Its Cell.  
"This is my car," exploded the irate tourist to the garage man, "and what I say about it goes—see?"  
Just then a dirty-faced mechanic crawled out from under the dead machine and said, "See, your car."

## OPENING GUN IN THE FIGHT

Rev. W. D. Wilson Will Speak Here on Sunday Night.

The opening gun in the plebiscite on the matter of the importation of liquor will be fired here Sunday night when Rev. W. D. Wilson will address a public meeting in the Opera House at 8.15.

It is expected that Mr. Wilson will speak in the Presbyterian church, Dalhousie at the regular Sunday morning service. At 8.15 he will address a public meeting in the Athol Opera House, and will preach in St. Andrew's Presbyterian Church here at the evening service.

It is hoped that big crowds will be present at all these services.

## SHIPWRECKED CREW AT BATHURST

Men From Bernice R. Burned in May Arrived There.

(Bathurst Light.)

Yesterday while the schooner Bernice R. from Lehave, Nova Scotia—Captain George A. Haugh—was down the bay of Chaleur off East Port on the Quebec side, fire broke out in her engine room. She was carrying a cargo of coal from Kelly's Cove consigned for the Canadian National Railway at Campbellton, and before the crew could check the outbreak the flames had reached the cargo and the vessel was doomed.

Captain Haugh and his crew of five men fought the blaze for all they were worth until the sides of the ship caught fire and the very sails were ablaze, when, realizing the impossibility of saving the ship, he ordered the crew to launch the gasoline yacht. Hurriedly gathering their clothes together the members of the crew pitched into the gasoline tender and pulled away from the burning vessel, which literally burned to the waters edge before sinking.

Captain Haugh and the crew first landed at Paspébiac when the news of the mishap was wired to the owners. After that the party set sail once more and came to Bathurst where they reported the occurrence to Mr. Glen McEwen, Collector of Customs. This morning they left by train for Halifax. They stated that they had made the trip across the bay in their twenty-foot boat in less than five hours.

## TO MOVE VILLAGE A MILE.

Steel Corporation Orders Hibbing (Minn.) Placed on New Site. Pittsburgh, Pa., Aug. 31.—The United States Steel Corporation is going to undertake the task of moving a whole town—Hibbing, the world's richest village located in the centre of the great iron belt of the Mesabi Range of Northern Minnesota. Within six months this noted village, known the world over wherever steel is a commodity, will be a mile away from the site of its birth, and the great corporation's steam shovels will be digging ore where old Hibbing stood.

An engineer of the Steel Corporation said today that he was seated in his office in New York recently when a phone call summoned him to the office of Judge Gary, Chairman of the Board. He was in Mr. Gary's office only two minutes, but in those two minutes he was asked a half dozen questions bearing on the topography of Hibbing, the town founded by the late Henry W. Oliver of Pittsburgh, and then was instructed to "put that town on the move and keep it on the move until you have it a mile away"—and there was no further instructions.

And now Hibbing is to be "put on the move." Hibbing, Minn., is now what it is to be known as "New Hibbing."

NO MEETING.  
Owing to the illness of the town clerk the council meeting to have been held last night was called off.

## PUBLIC SCHOOLS OVER CROWDED

Campbellton's Population Increasing Rapidly—More Room Needed.

The Campbellton public schools opened on Tuesday with a full house in practically every room, and many rooms are badly overcrowded.

So far the Secretary of the School Board has issued one hundred and eighty-two permits for beginners, and some are yet to come.

While the showing is gratifying from a census standpoint it certainly means that Campbellton will have to provide more school accommodation to take care of its increasing population.

The following statistics speak for themselves:—

### GRAMMAR SCHOOL.

Grade	Teacher	Seats	Pupils
11	Mr. Patterson	25	24
10	Miss Murray	26	20

2	Miss Calver	45	55
1	Miss Yorston	45	54
1	Miss Brown	54	49
1	Miss Stevens	49	45

The figures as given are for pupils at school yesterday. In every room more were expected to come in after Labor Day.

The School Board are now planning how the surplus in many of the rooms can be accommodated and it is likely temporary rooms will be filled up in the basement.

The equipment for the Domestic Science room is being installed and that department will soon be under way.

Besides the teachers mentioned above there are two French teachers.

## MOOSE HIT BY A MOTOR CAR

Fredericton, Aug. 30.—Albert Kitchen while returning from Marysville by motor car on Saturday night, collided with a cow moose. The animal sprang at the car, but missed it by a narrow margin. It then made off into the woods. Mr. Kitchen and his companions were given quite a scare.

## PARTRIDGE.

A local sportsman says partridge are very plentiful. He saw several the other day feeding on the boughs of poplar trees. This is peculiar this time of year, but is common later on. He is inclined to think it is a sign of early fall.

## ELECTION FOR CO. COUNCILLORS

Eldon—Wm. A. Copeland, George A. Murray.

Dalhousie—John Dickie, Paul Dugas, M. Silais, Hugh Archibald.

Eldon—Murdoch Firth, James Chesler.

Aldington—W. D. Duncan, H. C. Gillis.

## REV. W. D. WILSON GENERAL DIRECTOR

Campaign to Make New Brunswick Bone Dry Under Way.

Fredericton, Aug. 31.—"Run out the rum—you drove it from the saloon, now is your chance to drive it from the cellar," is the slogan adopted by the N. B. Temperance Alliance for the plebiscite campaign which will close with voting on Monday, Oct. 10th, on the question of whether importation of liquor for personal use will continue to be legal in this province.

The organ was adopted at a meeting of the Council of the Alliance, which was held here this morning with Donald Fraser, president of the Alliance, in the chair, and representative prohibitionists from all parts of the province in attendance. Rev. W. D. Wilson, former chief inspector under the prohibition act and now general secretary of the Alliance is the general director of the campaign to make New Brunswick "bone dry," and operations are being carried on with Fredericton as headquarters.

Rev. Mr. Wilson made his report on the progress of the campaign, submitted his literature and revealed his plans at this morning's meeting.

Rev. H. A. Goodwin, of St. John, secretary of the Social Service Council of the Methodist church, is acting as assistant chief director of the campaign, the city and county of St. John, Westmorland county and the city of Moncton being his special sphere of action, and he also made a report to the council this morning.

## DECIDE TUESDAY ON FREIGHT RATES

Winnipeg, Aug. 30.—Definite decision as to whether or not railway freight rates will be reduced this fall will be made at a meeting Tuesday at Ottawa of the presidents of the railways with representatives of the board of railway commissioners, according to a letter from Hon. Frank Carvell, chairman of the commission, in reply to a letter dated August 25, sent by the Winnipeg Board of Trade.

## PLEBISCITE DATE EARLY IN OCT.

Returning Officer is Busy Preparing For Taking Vote.

The question of whether New Brunswick shall put the lid on the liquor traffic altogether by stopping importation and going home dry—or continue in its present dry on the surface and wet underneath condition will be voted upon during Monday, Oct. 10th.

Already the Returning Officer James E. Stewart is at work and Mr. A. G. Adams has been appointed Registrar for Campbellton and he will add for a few days any names which may not have been put on the list by the Registrars. Mr. Adams begins work on Sept. 5th.

Lists are being prepared and other necessary work being undertaken.

## FRASER CO. MAKES GOOD SHOWING

Profits for Last Year Over Two Million Dollars.

Montreal, Aug. 30.—Profits of the Fraser Companies, Limited, for the year to December 31, 1920, amounted after depreciation of inventories, to \$2,157,618. Net profits were \$1,276,301, equal to 12.7 per cent available for dividends on the common stock of \$10,000,000. Current assets for the period is \$6,833,150 and current liabilities \$4,607,498, leaving working capital at \$2,225,652.

After reviewing the year and the purchase of Dominion Pulp and Paper Company at Chatham, N.B., President Alexander Fraser said that orders were being received now in steadily increasing volume and the pulp mills at Fredericton and Chatham were operating on current business satisfactorily.

## EUGENE GODBOUT CHOSEN CANDIDATE

Provincial Liberals of Temiscouata Co. Meet.

Rivière du Loup, Que., Aug. 31.—The official provincial Liberal convention, presided over by Hon. J. E. Carver, provincial minister of agriculture, nominated Eugene Godbout, former candidate for Temiscouata County, J. F. Poitrel and J. A. Levesque were also placed in nomination, but having refused to bind themselves to support the candidate finally chosen by the convention, their names were eliminated.

Continuous clashes and uproar marked the proceedings of the convention which was addressed by Hon. Mr. Carver, Hon. A. Galipeault and Hon. P. Paré.

## SUPREME COURT.

The August session of the Supreme Court opened at Dalhousie yesterday morning. Mr. Justice Crockett presiding. There is an exceptionally large docket which it is expected will occupy the attention of the Court for several days.

THE REFERENDUM.

The attention of the public through-

out the Town and the County is di-

rected to the coming Referendum.

The campaign in reference to this great

question—that is, the question of whether or not we shall ask the Dominion

Government to prohibit the importation of liquor into the Province of New

Brunswick—is about to open.

This is a matter of grave import

and every man and woman who have

come to the years of discretion and

are interested in the welfare of this

County should be alert and deter-

mined.

We have an Act on the Statute

Books of our Province prohibiting the

sale of liquor in the Province. This

law was given to us in answer to an

overwhelming demand from the men

and women of this County and all the

other Counties in the Province.

The importance of the prohibition of

Intoxicating Liquor was made very ap-

parent at the time of our deepest need and

at that time the importance of pro-

hibiting the importation from other

Provinces and from the outside world

was also seen. It was thoroughly de-

monstrated that in order to take our

place and play our part in the great

conflict then on hand, we needed to be

a sober people and to produce this

thing, it was imperative that liquor

should be prohibited from coming into

the Province.

After the war was over, men seem-

ed to forget their high aspirations and

the Government, in answer to a de-

mand by the liquor sellers and those

engaged in the business, rescinded

this order and the country was flooded

with importations of liquor. The

Province has repeatedly asked the

Dominion Government to go back

again to the state of affairs where

liquor was prohibited from entering

the province and in answer to our

repeated demands, they have asked us

to go to the polls at a stated date and

there record our decision in the mat-

ter.

It is up to us as men and women

to decide and express our decision;

that we are standing firm for a sober

New Brunswick and a sober Resti-

gouche; that we will not stand for any

arrangement or any law that is already

our Statute Books. Let us together

determine and act, not depending upon

our neighbor, but every man for

that if they failed to show results any

men would be chosen to take their

this particular matter is concerned.

Let the councillors wake up to their

structions are issued forthwith.

VICTIMIZED BY OLD

CONFIDENCE TRICK

Montreal, Aug. 27.—Victimized by

a well known confidence trick, Andrew

Cusa, of Lachine, lost \$2,000 in cash on

Fletcher's Field, and though one of the

two men accused by him was caught,

the money was not recovered. Cusa

stated that he had met the two men in

the morning and had told them he had

\$2,000 he wished to invest. They ex-

plained a proposition to him and he

agreed to pool all his money with

theirs in a tin box. They left him

soon afterwards and Cusa examined

the box which he found to contain only

some old newspapers and about \$10 in

cash.

He immediately called for the po-

lice and the two men who were still in

sight ran in opposite directions. One

was captured and is now held on a

charge of theft.

## OUR VISIT TO THE GREAT WEST

Press Party See Sights of Can-

ada from Victoria to East

Via C.P.R.

Calgary, June 16.—Our arrival here

last evening caused quite a stir. The

Calgary afternoon papers heralded our

expected arrival and the depot was

crowded with friends of our party and

citizens generally to welcome us.

But I must commence where I left

off in my last letter.

We left Field shortly after daylight

entering the new spiral tunnel of 2910

feet under Mount Ophea. Emerging

from the tunnel the track runs back

west across the Kicking Horse river,

and then enters the cork-screw tunnel

of 2300 feet under Cathedral Mount

and after describing an elliptic

curve emerges to again run along the

Kicking Horse valley. The whole thing

is a perfect maze, the railway dou-

bling back upon itself twice, tunnelling

under mountains and crossing the

river twice in order to cut down the

grades. The grade has been reduced

from 4.5 to 2.2. The exit of these

tunnels is almost directly over the

entrance and only a little higher up the

mountain.

Our train stopped for a few minutes

at the Great Divide. Here a clear

sparkling mountain divides on the

crest of the hill. One half finds its

way to the Pacific ocean the other to

Hudson Bay. Now begins an ascent

to the prairies, but we are by no means

out of the mountains. Their snow cap-

ped peaks still stand on guard no mat-

ter which way one looks.

Our special arrived at Lake Louise

Station at 9 o'clock. We immediately

took the scenic railway up to the Cha-

teau. This little railway, which is 3 1/2

miles long, owned and operated by the

Brewster Transport Co. Ltd., winds in

and out among the mountains and

climbs steadily upwards. The cars are

operated by gasoline engines and are

much like the open street cars, each

carrying about twenty passengers.

At Lake Louise station we saw the

great national highway which is built

from Halifax to Vancouver. The road

is passable to Lake Louise and work is

being carried along at various points

further west. In another year or two

and auto road will be open throughout

the entire breadth of Canada.

At five o'clock we left for Banff

where we spent the day.

Banff Springs.

Banff is much like Lake Louise in

this respect, it is surrounded by high

mountains, the peaks of which are

snow capped at all seasons. The hotel

here is of the same design as the

one at Lake Louise.

Chateau at the lake is not so luxuriously furnished, but is larger.

Bent's is quite a town. In summer its inhabitants number about three thousand but less than half that number remain during the winter. It is noted for its sulphur baths. Many people suffering from rheumatism and other troubles come to bathe in the sulphur springs.

Here the Brewster Transport Co. Ltd. provided a service for our party and we were driven to the Bent's National Park where buffalo, elk, deer and other animals are kept. A number of buffalo with calves came quite close to our auto.

Returning to the Bent's Springs hotel, with a number of others, I enjoyed a swim in the sulphur bath. The water is very warm (90 degrees) but after the cold drive, was very pleasant.

We enjoyed the day here very much, and left at five o'clock for Calgary arriving at that city as above stated at eight o'clock.

## A WORD TO THOSE WHO INTEND TO BUILD WHY AND WHEN THE SERVICES OF AN ARCHITECT ARE REQUIRED.

Why an Architect is Required.  
An owner must have information as to what he actually desires before he can "order" either land or building to put on it to the best advantage.

An architect should know whether or not a property with some requirements for daylight distribution, economic layout and so forth.

He is able to present data which will enable you to make intelligent decisions as to type of construction and arrangement.

His knowledge enables him to provide for the proper planning of "traffic lines," the disposition of "departments" (whether in a factory or a house), the economic location of plant, the minimizing of expense and maintenance charges, artistic appearance of the building, and many other matters.

There is much detail work in obtaining prices and the letting of contracts. An owner requires expert advice and service in these things.

The Architect provides this service. When construction is under way and owner's interest should be considered in the day to day questions which come up.

The Architect is the owner's representative on the works.

Everyone wishes to have buildings pleasing to the eye, if for no other reason than to increase their commercial value. An Architect is trained to clothe utility with beauty.

Building is a very complex "manufacturing process." It involves many trades and interests. These, if left to themselves, do not consider their own tasks in relation to the whole as carefully as they should.

An Architect guides these interests into a proper relationship.

How an Architect Works.  
By means of preliminary consultations, rough sketches and approximate estimates, the requirements of the owner are brought to light. In the Architect's drafting room and office the problem is analyzed. All possible solutions should be discussed with the owner. A definite solution is then prepared in the form of working drawings and specifications, which show exactly and in detail what contractors will be required to furnish.

This gives a defined basis upon which prices are secured. The Architect obtains these prices from various contractors, and places them before the owner with any comment his experience leads him to offer.

When the contractors are decided upon, the Architect relieves the owner of the detail work of closing contracts, and sees that he is properly protected.

Constantly during construction, detailed instructions and drawings are supplied to supplement and interpret the working drawings and specifications upon which contracts are based.

The superintendent of an Architect is vital to its character. It is more the character of a director who organizes the work, than that of a policeman. When close and continuous supervision is desired, arrangements for the employment of a clerk of works should be made.

The owner is protected against risk of loss or of over-paying for work by the fact that payments are made upon the certificates of the Architect, who is experienced in such matters, and is in touch with conditions. The Architect keeps account of changes and adjustments, and safeguards the owner in these things.

The selection of an Architect.  
An Architect's selection of an owner's money. It follows that the owner should secure himself that his architect is honest and worthy of confidence, and that he commands by education and experience, a knowledge of planning and design from both the economic and artistic standpoint; in short that he has a "professional" standing.

To employ professional service on the basis of the amount of the fee, represents the practice of choosing for cheapness rather than quality. No work is more easily slighted. Incompetent service working for a small fee often means more loss in cost of error, unnecessary construction and so forth, than the entire cost of competent service.

Usually it is better for an owner to co-operate with his chosen Architect in a careful consideration of all existing projects, alternative schemes of design, than it is to be limited in selection to a few designs submitted by men who are often not closely in touch with the requirements.

Plans for buildings, except of smaller types, are not kept in "stock." Each building requires special consideration and study, and this is not very thorough if given for nothing.

After he is chosen.  
Trust your Architect and value his opinions. If you cannot do this, don't choose him.

Make your requirements and resources clear. He isn't a mind reader, and he needs to know these things in order to serve you well.

Discuss the question of his fee with him. It avoids misunderstandings.

Remember that no diet plan was ever the best one. It is easier to alter plans than to change habits and meter. Time spent in getting your plan right is well spent. Therefore it is to the owner's advantage, if he intends to start operations in any building in the spring, to choose and engage his Architect in the fall, thereby giving the owner the benefit of the largest part of the winter in which to have his Architect work out in detail his plans and have all details settled by early spring so as to take full advantage of the building season.

No Architect can get good work out of a poor machine or make a dishonest man honest. It is not always wisest to accept lowest tenders. Your Architect's advice is useful in selecting your contractor.

"Value for value, the world over," don't expect to get more than you pay for.

## RIFLES SEIZED BY GAME WARDENS

Active in the Running Down of Game Law Violators.

Great activity is evident among the Game Warden's all over the province and it seems to be the aim of all concerned to have as large a number of seized rifles, shotguns and other equipment on hand for the coming auction as is possible.

A few days ago a resident of Upper Blackville was hauled into Court on the information of a game warden charged with killing a deer out of season. A conviction was secured and a fine of \$50.00 and costs was levied.

The two cases against residents of Grand Manan for violations of the Game laws have not as yet been fined. A short time ago the advice of Chief Game Warden George F. Burden was sought in this matter and he has advised that the cases be proceeded with at once.

Two charges which have been standing for some time in Grand Falls have been amended and are to be tried in the near future.

Did Not Appear.  
One man at Green River was found with a rifle in his possession in the woods. An information was laid against him, but he did not condescend to appear, merely sending an amount of money which he evidently thought would cover his fine. This was not accepted however, and a warrant for his arrest has been issued.

On Sunday Warden Kelly of Sunbury County, seized two rifles which were in the possession of two men in the vicinity of the Portofello Stream. Neither of these men would give their names and their rifles were taken from them in lieu of fines. Game is thick this year, and the temptation is evidently great to lay in a little fresh meat before the fifteenth of the coming month, when the game will become more wild, and not so easily killed.

## EXPELLED FROM T. AND L. CONGRESS

Course Taken Against C. B. R. E. Body At Winnipeg.

Winnipeg, Aug. 24.—By a vote of 394 to 151 the Trades and Labor Congress of Canada, the Canadian Brotherhood of Railroad Employees today was expelled from the congress and its charter was revoked. The vote removes from affiliation with the congress between 7,000 and 10,000 members scattered across the whole country for the reason that their organization covers the ground occupied by an international body, the Brotherhood of Railroad and Steamship Clerks, Freight Handlers, etc. The action of the congress went into effect at once. Immediately John Bruce, Toronto, moved that the congress executive be instructed to make every effort to effect a readjustment of the differences between the organization. Carried.

**WORLD'S CHAMPION SHORTHAND WRITER**  
Niagara Falls, Ont., Aug. 27.—Albert Schneider, 20 years old, a free lance reporter of New York City, is the world's champion shorthand writer and the youngest that has ever held that title, it was announced at the convention of the National Shorthand Reporters Association here yesterday.

He established a world's record when he wrote 175 words a minute in a state literary test without making an error. On questions and answers, jury system, he wrote 240 words a minute with 44 errors. On a charge to a jury he wrote 240 words a minute with 22 errors and in one state literary test he wrote 200 words in a minute with twelve errors.

**THE UNEMPLOYED IN BRITISH COLUMBIA**  
Vancouver, B. C. (Aug. 27).—About 3,800 unemployed have been sent to the harvest fields from British Columbia and orders have been received for 1,500 more.

Employment bureau officials say they may be unable to fill orders now on hand, owing to the refusal of many of the unemployed to accept the work. City officials have warned those refusing to take advantage of the work offered on the prairies that they will not be permitted to participate in unemployment relief next winter. It is estimated that there are still more than 9,000 unemployed in the province.

**UNIQUE METHOD OF PERSONAL CONTROL**  
The Chicago Journal of July 3 says that in an old volume devoted to curious and strange happenings, it is to be found under the date of July 8, 1795, an advertisement taken from the Baltimore Gazette which is a unique method of enforcing personal prohibition.

Whereas the subscriber, through the pernicious habit of drinking, has greatly hurt himself in purse and person, and rendered himself obnoxious to all acquaintances, and finding there is no possibility of breaking off from the said practice, but through the impossibility to find the liquor, he therefore begs and prays that no person will sell him for money or on trust any sort of spirituous liquors, as he will not in future pay for it, but will prosecute anyone for action of damages against the temporal and external interests of the public's humble, serious and sober servant.

## EDITOR'S MAIL.

Editor of The Graphic,  
Dear Sir,—  
Campbellton, N. B.,  
Sept. 1st, 1921.

Last evening the "Tribune" contains  
of three columns largely devoted to the  
editor's legal opinions.

One would expect that the "re-  
buke" he and his dear friend A. C.  
Belle-Isle received by the unanimous  
vote of the council receding an illegal  
motion of his passed at a former  
meeting, would have a quieting effect  
on these agitators. We are quite for-  
tunate in having a town solicitor who's  
good judgment and legal advice has  
been the means of avoiding expensive  
law suits. As usual he takes Coun.  
Chamberlain and myself to task and  
advises the public what should be done.  
The people fully understand this is a  
case of narrow-mindedness and spite  
caused by the receding of the motion  
instructing police not to enforce the  
Temperance law. Then his dear friend  
Alphonse wrote him a long letter  
from P. E. I. commencing with,  
"I note dear Mr. Wallace," "Didn't I  
tell you and etc. etc." Then goes on  
to try and build up a charge as to the  
amount of gravel hauled this spring.  
His Mr. Parker gave me the number  
of loads and the other figures were  
taken from former year's records.  
Then there was gravel used on the  
streets, Tubique Road, park walks and  
quite a lot left in parts of the town.  
What is the use following them fur-  
ther, they will write and do most any-  
thing.

Yours truly,  
W. H. WALLACE.

REV. J. H. JENNER  
HAS RESIGNED  
Anglican Clergyman Wants the Mass  
Restored.

Rev. J. H. Jenner has tendered his  
resignation as the pastor of the Char-  
lotte street Baptist church, St. John.  
The resignation will be considered by  
a full meeting of the congregation, to  
be held on Wednesday night. Mr. Jen-  
ner has been pastor of the Charlotte  
street church for six years.

## BATHING GIRL ELECTROCUTED.

New York, Aug. 30.—An attempt  
to fasten an electric light bulb into a  
socket while she was dressed in a  
wet bathing suit, caused the death last  
night of Miss Beatrice Schwarzer, 17  
years old, a her home on city Island.  
A pool of water collected about the  
girl's feet and when her wet hand came  
into contact with the electric current,  
she received a fatal shock.

## REORGANIZATION

## OF RAILWAYS

Ottawa, Aug. 25.—The Canadian  
National Railway system, properly ad-  
ministered and relieved from its pres-  
ent handicaps will prove a successful  
venture in the opinion of Sir Jos.  
Flavelle, who since May last has been  
director of the Grand Trunk Railway  
system. Sir Joseph in a letter to

## OBITUARY.

James Reid.

A figure well known in the Mar-  
time Provinces passed away at 2:30  
o'clock this morning in the death of  
Mr. James Reid, contractor. Death oc-  
curred at his residence, 54 Church  
Street, after an illness extending over  
five months.

The late Mr. Reid was probably the  
foremost building contractor in Mon-  
ton and erected many public and pri-  
vate edifices throughout the Maritime  
Provinces. Among the more impor-  
tant buildings in this city erected by  
him were the Royal Bank of Canada,  
the Bank of Montreal, the Canadian  
Bank of Commerce, the L.M.C.A., the  
Fergusson Hotel, the First Baptist  
Church, the Central Methodist build-  
ing. Several smaller buildings were  
erected by him.

The deceased was 70 years of age  
and besides several brothers and  
sisters is survived by one son and two  
daughters. The son is Mr. D. Lorne  
Reid, the well-known builder of this  
city. The daughters are Mrs. Roy  
Reid of Sackville, and Mrs. A. E.  
Reid at home.

The late Mr. Reid was a native of  
Pictou County, N. S., and was born at  
Mount Thom. He lived for a con-  
siderable time in Yarmouth and spent  
two years in Sackville where he built  
the Sackville College. During the past  
eight years he has resided in Moncton.  
The death of Mr. Reid will be learned  
with regret by a wide circle of friends  
and acquaintances.—Moncton  
Times, Aug. 26th.

## Mrs. John Marchie.

The death of Mrs. John Marchie of  
New Mills took place at her home on  
Thursday, August 11th.

Deceased, who was much esteemed  
by all was sixty-four years of age.  
She was before her marriage Miss  
Maxwell and was a native of Fern  
Island.

A husband two daughters, Mrs. Mc-  
Nair of New Mills and Mrs. Allan  
Miller of Campbellton and two sons,  
George and Hugh at home survive.  
One sister, Miss Lizzie Maxwell and  
one brother William also survive.

The funeral was held on Sunday,  
Aug. 14th and was very largely at-  
tended. The services at the house and  
grave were conducted by Rev. Mr. Mc-  
Leod. The pall-bearers were Messrs.  
W. H. Miller, Allan Miller, George  
Miller Jr., George Miller Sr., William  
Miller and Charles Miller. Interment  
was in the New Mills cemetery.

The bereaved family have the sym-  
pathy of the entire community in their  
bereavement.

## James G. Christopher

News was received this week of the  
death of James G. Christopher of Tio-  
ndego after an illness of but a few  
days.

Mr. Christopher was born in 1848  
at Campbellton, N. B., and had been a  
resident of Tiondago, N. Y., for 32  
years. He was employed as a paper-  
maker by the Tiondago Pulp and  
Paper Co.

He is survived by his widow for-  
merly Miss Ellen Carmichael of Es-  
cumine, P. Q. Three sons Harry of  
Tiondago, John of Oregon City,  
Ore., Robert of Louisville, N. Y., and  
four daughters, Mrs. S. Hughes of  
Troy, Mrs. J. Davis of Glen Falls,  
Mrs. M. Lockwood and Mrs. G. Wiley  
of Tiondago.

## DALHOUSIE.

The Spillers' Memorial Hospital

will give a concert in the Opera House  
on Thursday evening. The building  
was filled with an appreciative audi-  
ence who enjoyed each number. The  
program was as follows:—

Opening Chorus—"Let the Best of  
the World Go By."

Duet—Miss Helen Stewart and Mrs.  
H. C. Shirley.

Solo with Violin outgrowth—Miss  
Stewart.

Quartet—Mrs. Shirley, Miss Stew-  
art, Dr. W. W. Fleck and Mr. B. Mc-  
Kinnon.

Solo—Mrs. Shirley.

Chorus—"Empire."

Intermission, 15 minutes.

Vocal Solo—Miss A. Cook.

Solo—Mrs. S. L. E. Clifford.

Solo—Miss Stewart.

Minstrel Show.

While all the numbers were good,  
the Minstrel Show caused the most  
entertainment. The nine (9) dandies, by  
quip and jest, song and dance, kept  
the audience in one long roar of lau-  
ughter.

During the intermission, Mr. W. W.  
Fleck, a trustee of the hospital and a  
generous contributor, presented a fin-  
ancial report, showing work had been  
collected and what had been expended,  
and what amount was still required to  
pay off present obligations and to  
complete the building.

The concert was appropriately brought  
to a close by chorus and audience  
singing "God Save the King."

The proceeds amounted to \$200.00.

Miss Maud Warman of Campbellton,  
was a recent visitor to town.

Frank Barriere has returned from  
a week-end visit to Richibucto, where  
he was the guest of Mr. and Mrs. John  
D. McMillan.

George McNeil formerly of the Royal  
Bank Staff here, is relieving the man-  
ager at Richibucto, the manager there,  
Mr. G. O. Long, being away on his  
vacation.

The whist party and pie social held  
in the Concert Hall on Tuesday even-  
ing was a great success. About \$700.  
were realized.

Word has been received that Mrs.  
Robert Good, a former resident of  
Dalhousie and sister to Mrs. S. J.  
Beckingham, died recently at her re-  
sidence, in San Francisco, Cal. De-  
ceased was in her 86th year.

Miss Anna Foran has returned to  
her home (Bay View Cottages) after  
spending several weeks visiting friends  
and relatives on the Gaspé coast.

St. James Presbyterian Sunday  
School held their annual picnic on  
Wednesday afternoon at Millin's  
Point. The parents, teachers and  
friends provided a beautiful supper  
for the children, who thoroughly en-  
joyed themselves.

Mrs. R. J. Coleman and daughter  
Mary were visitors at the Junction for  
a few days last week.

Miss Martha Clark, of Bathurst, is  
the guest of Mrs. Dan, Cook.

Mrs. J. MacFarlane of Montreal was  
a visitor to town last week.

Charles Belliveau and his family are  
now occupying their new home on  
Brunswick Street.

Reginald Dean, of Montreal, arrived  
in town on Sunday and will spend a  
few days in removing old acquaint-  
ances.

During Kay met with a painful ac-  
cident at a picnic one evening last  
week, when he fell over a rocky bank  
injurying his knee-cap and cutting his  
face. Dr. W. W. Fleck is in attend-  
ance.

Miss Margery Gaudinier and her  
brother Nat, left home on Wednesday  
for Winnipeg, where they will enter  
one of the city's educational institu-  
tions.

Two young, well known, were ar-  
rested last week on a charge of steal-  
ing from a railway car a case of whit-  
key. At the preliminary hearing, mag-  
istrate McNeil remanded them for  
trial.

Miss Violet McKay left home on  
Saturday for Harvey, Albert Co. where  
she will teach in the public school.

Mr. and Mrs. Ben Wither and chil-  
dren have taken up their residence in  
Amherst, N. S., where in town will  
be a trial.

Miss Farrell of Fredericton, and  
Miss Kelly of Shelburne, have returned  
to the Dalhousie convent school.

Miss Elizabeth Reid left home on  
Tuesday for Fredericton where she  
will enter the Normal School.

Andrew Wallace has been appointed  
register to prepare the list of voters  
for polling division No. 2 situated  
within the town of Dalhousie east of

The new company will be known as the Canadian National Express Co. Mr. Wallace, a native of Campbellton, N.B., has been promoted to travelling auditor for Nova Scotia with headquarters at Halifax, and will leave to take up his new duties as soon after the first of the month as he finds it possible. He expects to meet Mrs. Wallace at Campbellton where she is now visiting relatives. This promotion comes after some time spent in Montreal and about two years here of splendid service to the company, and is well merited. Mr. Wallace has a host of friends here, who will be sorry to see him go. He is a member of the Rotary Club in which he takes a great interest. "I am both sorry and glad to go," Mr. Wallace said to The Ontario today, "sorry because I like Belleville and the people of Belleville, and glad, naturally, because it is a promotion and I shall be in the part of the Dominion where I came from and know many people."

Moncton Paper Says President  
Covey Has Done Right  
Thing.

(Transcript)

The action of President A. W. Covey of the Maritime Provinces branch of the Amateur Athletic Union of Canada in suspending "Big Larry" McLean from amateurism is to be commended. McLean a patrolman on the Fredericton police force is a hockey and baseball player of no mean repute, and his wading in the ranks of the amateurs does not come as a surprise as McLean likes fast company. His reinstatement last winter during the hockey season came as a general hubbub in Maritime amateurism, and his being now placed the Fredericton hockey team in amateur hockey for 1921-22.

It is probable that McLean will never be reinstated in amateurism although it is said he played but a few innings of a pro game in Cape Breton to aid some friends out. McLean's reinstatement last winter should never have been brought about in the opinion of many fans, as it leads to his being classed an outlaw, and unless he is reinstated there is liable to be war in the Fredericton camp which may go out after semi hockey or if not, an independent amateur league, distinct from the Amateur Athletic Union and not subject to any rulings of the A. A. U. of C.

Such a step as McLean took may ultimately lead to Fredericton and Chatham jumping the ropes, and such a move should be discouraged. May be the talk in pro sport and fans, although given some good sport, never know when they are going to drop money as "fixtures" are prevailing quantities everywhere.

The amateur athletic union has shown strides in Moncton. It is safe to say amateurism was never in better shape here than now. Amateur ball is being played and amateur hockey should be the vogue this winter. If amateurs and pro are to play together what is the use of an amateur athletic union? President Covey should be supported in many of his acts although they do not, at all times, meet with the approval of some fans.

TOWN MANAGER  
ARMSTRONG SPEAKS

Delivers Address At Meeting of  
Union of N. B. Municipalities.

St. John, Aug. 26.—R. F. Armstrong, A. M., town manager of Woodstock, gave an interesting address on systems of civic government, and Adam Macintyre, Comptroller of St. John, read a paper on municipal accounting, which was also discussed.

Mr. Armstrong expressed regret on behalf of the Woodstock Council, that they were unable to be more strongly represented. The first form of civic control is the town council. It works fairly well for a time, but what is everybody's business generally turns out to be nobody's. There is friction between departments. Commission form is more centralized and there is always someone on the job, but the members are elected, and a man may be put in a position for which he is not trained. The third form is a board of control appointed by the council. This is expensive, and there is still overlapping in the departments.

Under a town manager a system like a commercial corporation is arrived at. Stanton, Va., adopted the system in 1906, being the first town to do so. They appointed a manager and gave him authority to do his work. Dayton, O., followed in 1913. Col. Goethals, builder of the Panama Canal, was offered \$25,000, but did not accept and Mr. Waite was appointed. In the next seven years 350 cities in the United States and several in Canada followed. Chatham, Ont., intends to do so shortly. Many think the system will not work in a large city, but if things are to be done right orders should come from one central authority. He cited the great war as an example. The bigger the enterprise the more necessary this is.

The real thing in civic government is to get dollar for dollar for the money spent. The scheme has brought wonderful results in almost every case. Norfolk, Va., is a striking example, and also Dayton. There are some exceptions, but in most cases where it has failed it has been because the wrong man was appointed or the council interfered with him. Under this plan things are decided in a general way by the council and its execution left to the manager. Some say it is not democratic because one man is in control. In some cities under the old system a machine was in control with professional politicians in control. Under a manager the people control the policy through their council.

In most cities it is hard to get good professional men into the civic government as they have not the time. W. G. Lee, president of the trainmen, said he could not see how a working man could oppose the idea.

The manager is the appointed head and is in charge of all departments except those in which the council wish to keep control. He is the executive head. He is adviser to the council on

DOES IT PAY TO WORRY  
ABOUT APPENDICITIS?

Can appendicitis be guarded against? Yes, by preventing intestinal infection. The intestinal antiseptic, Adier-ka, acts on BOTH upper and lower bowel removing ALL foul, decaying matter which might start infection. EXCELLENT for gas on stomach or chronic constipation. It removes matter which you never thought was in your system and which nothing else can dislodge. One man reports it is unbelievable the awful impurities Adier-ka brought out. A. Mcg. What Lydia E. Pinkham's  
Vegetable Compound Did  
for Mrs. Baker and  
Mrs. Kiever.

Veracruce, B.C.—"I am pleased to say that Lydia E. Pinkham's Vegetable Compound has done me a lot of good. I can now walk about without the aid of a support and feel real strong again. It was advised me to take the Vegetable Compound and it is certainly helping me. It seems like Heaven to be relieved after months of pain."—Mrs. H. W. Baker, 8574 10th Ave. West, Vancouver, B.C.

Albert Co., N. B.—"I have taken Lydia E. Pinkham's medicine and they have done me a lot of good. Since then I have been able to do my housework and I have a lot of work to do as we live on a farm. Seeing your advertisement in the papers was what made me think of writing to you. I hope this may help some one else."—Mrs. W. R. Kiever, Upper New Horton, Albert Co., N. B.

The reason women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends how they are helped is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved. If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co., Lynn, Mass.

their politics. He must be trustworthy and honest, with experience and executive ability and knowledge of his department; if he has technical ability so much the better. Three hundred cities in the States have made the system a success, showing that men can be obtained. In Woodstock he thought the system was satisfactory and he heard more commendations than criticisms. "Some who opposed it at first are now in favor of it. Last year the tax warrant was \$71,000, with \$17,750 for education with \$2,500 for vocational training. The rate was 1.9. This year the warrant is \$70,000, \$21,500 for school and \$2,500 vocational training. The rate is 1.62. Real estate is valued at \$2,100,000, personally at \$1,200,000 and \$500,000 income. In reply to Mayor McCreagh of Chatham, Mr. Armstrong said the manager had to look after collections, that had been one reason for his appointment. In 1920 \$5,000 arrears had been collected, while they only expected \$2,000. The operating of the water department had been decreased from \$15,000 to \$12,000, and the year finished with a \$5,000 surplus that was not anticipated. In answer to questions he said his office staff consisted of one stenographer. Under the system of accounting used he could tell at a glance where he stood. One man was kept on outside work. He was not only a supervisor, but could work on sewers, etc., himself. The discount period is fifteen days. Ten days after each account is looked up and circular letters sent to delinquents. Weekly payments are accepted. If there is no answer to the letter he is interviewed and if necessary executions issued. He would not advocate the system for a town under 2,000.

## NEW CARLISLE.

A high shark was caught by the Chishim Bros. nine miles from New Carlisle. It attracted quite a number of people.

The Roman Catholic church held a very successful weekly party in the parish hall last week. They realized nearly five hundred dollars. Rev. Father Boudin opened the gathering by a few well chosen remarks. The success of the evening is due to the efforts of the ladies of the congregation who approached all, and all responded to their efforts, thus showing the excellent christian spirit which prevails amongst all classes and creeds in New Carlisle.

Nearly all the summer visitors have returned and New Carlisle will soon be normal again.

We are sorry to learn that Miss Helen McCurdy, daughter of Rev. J. F. McCurdy, is in the hospital from typhoid fever and we hope for a speedy recovery.

Amazing fish stories are being told about a shark caught near New Carlisle.

Bliss with a twinkle in his eyes, we must suppose the stories coming from him are true. Anyway they are all good sports.

The public school will re-open next week and the boys and girls are anxious to get back to work. Mr. James Ormsby has been retained for another year and will be the principal with the valued assistance of Miss Bliss, who recently graduated from McDonald College, Montreal.

ANGUS SINCLAIR  
CALLED BY DEATH

Well-Known Engineer Dies Here  
In His Seventy-third  
Year.

(Globe, Toronto, Aug. 25.)

Angus Sinclair, one of the best known civil engineers and railway contractors in Canada, died yesterday at his home, "Roslyn" 5 Sherbourne street north, Toronto, in his 73rd year, after an illness of a month. Mr. Sinclair built many of the railway lines on the Canadian Pacific and Canadian Northern systems.

Mr. Sinclair was twice married. His first wife, who was Mary Jane Elizabeth Ferguson of Campbellton, N. B., died in 1877. The second wife, who was Annie Roe of London, Ont., died in 1916. Mr. Sinclair is survived by three sons and three daughters. He was a Presbyterian in religion, and a Conservative in politics. He was a member of the A.P. & A.M., and of the Engineers, Hunt and Ontario Clubs.

## Distinguished Career.

The late Angus Sinclair was born at Chatham, N.B., in 1849. He was educated at Campbellton and Dalhousie High School, whence later he embarked on a career of practical engineering. He was engaged on the Western Extension Railway between St. John and Bangor under the late C. C. Gregory.

He joined the staff of the Intercolonial Railway in 1869 and remained until 1875, when he supervised the completion of the road from Matapedia to Bathurst. He came to Ontario in 1876, joined the staff of the C. P. R. at Port Arthur under the late Samuel Hazelwood in 1875, and remained on that district until 1878, when he abandoned engineering for contracting, and continued on the C. P. R. as a contractor until the road was completed.

## Built Many Railways.

He built a section of the C. P. R. east of Toronto, and in partnership with the late William Doherty constructed the road from Thameville to Windsor for the C.P.R.

Later, in partnership with the late Allen R. I. McDonald, he constructed 50 miles of C.P.R. short line through Maine, built a portion of Walkerville railway and a section of the Main Central System, from north Stratford to Hazen Junction in Vermont. He was continuously employed on the C.N.R. System since 1898, during which time he has built from Point Tupper to Broad Cove, C.B., from Halifax to Mahone Bay and Middleton to Victoria Beach, N.S. He returned to Ontario in 1903, and has since built or completed from Toronto to Deseronto; Toronto to Ruel and from Caprol Junction to Pembroke, 240 miles. He was also engaged in completing the excavation of the open work of Mount Royal Tunnel through the city of Montreal.

The late Mr. Sinclair was the son of the late Robert Sinclair and only brother of Mrs. Jas. D. Murray of this town.

## ANTHRACITE COAL—1921

To those who are hoping for lower prices:

We are in the coal business. We have no new conditions.

We cannot predict future prices. We do not think further reductions are likely. Present mine wage agreements don't expire until March 31, 1922.

There isn't much hope of general reduction in freight rates.

If the proposed Pennsylvania State Tax on anthracite becomes a law, this cuts after next July 1st.

### TELL ABILITY BY HEIGHT

Dictum of Ziegfeld on Chorus Women Agreed to by Experts in Boston.

Ladies, look to your inches. Not around, but straight up and down.

The honorable Mr. Ziegfeld has just sounded the death knell for the tall girl. He's through with tall girls and through with them for good, he says. Agree With Ziegfeld.

And worse than all—the matter being duly investigated, Boston employers and character analysts, who have the employment art down to a "T" are prone to agree with him; one psychologist says there's scientific fact behind it all.

"Your height, your form, your stature, that's the way we judge, now," says the learned ones. "These qualities are an index to everyone's character," they say.

"Ziegfeld is perfectly right," said the employment manager of one of Boston's large retail stores interviewed yesterday on the Ziegfeld dictum. "Give Me A Short Girl Every Time."

"We can tell a good deal about a girl by her height and her form. And give me the short girl every time as preference to the tall girl. The tall girl is apt to be languid and dreamy. The short girl, on the other hand, is more vivacious and alert, so's quicker. Her mind really seems to work faster. In this case, I think 50 per cent of the girls are of the type known as petite, and that's the type of girl we're always looking for. She goes ahead, she's got the brains, all right."

One of Boston's professional character analysts was of the same opinion in regard to stature and the girl. "There's no doubt," she said, "that the short girl, of course generally speaking, is more apt to succeed in are most apt to go those qualities which make for success in business: perseverance, determination, ambition. The small girl will be likely to be more energetic, more enduring."

Beauty Expert Also Agrees.

"The tall, slim girl, on the other hand, is the typical lady of leisure. Her mind is more quiescent, she is apt to be an idler. Languid, perhaps vain through possession with many fine attributes, she fits much better into the social life than into the business world. The tall, stately type doesn't possess the fighting qualities that your average, petite girl has, she gives up easily."

"Yes, we find it so," says Mrs. Lamping Nolan, Boston's foremost beauty expert. "Undoubtedly, the petite girl has got the brains. The tall girl may have dignity, form, stateliness, grace and charm, but her medium-sized sister makes up for it with 'quick wits, and an alert, ready mind.'"

Girls Like At The Idea.

As for the girls themselves what do they think? From a group of girls, medium-sized, and tall, employed in a Boston insurance office, came a terrible outburst of protests, ridicule, and disdain of the Ziegfeld ultimatum.

Mostly from those over 5 foot 5 ins. "Not so much brains!" "How silly!" "Who ever heard of such a thing?" "What's the height got to do with brains anyway?" "Why, some of the best tallest girls are getting the largest salaries," were the various replies.

AN EFFECTIVE LESSON.

A prominent clergyman of a fashionable suburb of St. John taught last week, a lesson which was somewhat outside his usual work, but which was, nevertheless, timely and most effective. The clergyman was motoring home when he found the road blocked by an automobile which was at rest, at right angles to the highway. The blocking vehicle contained four young men. When the minister mildy suggested that he be allowed to pass, one of the young men went out and struck the clergyman. The latter immediately got out of his car, and recalling his knowledge of boxing, learned while he was a prominent athlete, administered to the bully a finished trouncing. The other occupants of the blocking car cut back and laughed at their companion, who was being trounced. The clergyman had no further trouble in getting the right of way.—Globe.

### MERCHANT TELLS OF A REMARKABLE CASE

Writing from Maxey, Ga., A. J. Gilen, proprietor of a large department store at that place, says:

"I have a customer here who was in bed for three years and did not go to a meal at any time. She had five physicians and they gave her up. One bottle of Tanlac got her up, on the second she commenced keeping house, and on the third bottle she did all the cooking and housework for a family of eight."

This sounds really incredible, but it comes unqualified from a highly creditable source and is copied verbatim from the letter.

Tanlac is sold in Campbellton by THOMAS WRAN, Druggist, and leading druggists everywhere.

Mgr. J. R. Leonard of Rimouski, to Visit Pope to Discuss New Diocese.

Quebec, Aug. 29.—His Lordship Mgr. J. R. Leonard of Rimouski, will leave in a few days for Rome, where he will visit the Pope and discuss the creation of a new diocese in Gaspe.

For years the question of giving a new bishop to that part of the Rimouski diocese has been considered. It would comprise Bonaventure, Gaspe and part of Matane. The seat would be New Carlisle in Bonaventure County. The possible nominees are Mgr. Ross, Vicar General of the diocese of Rimouski where it is also suggested that it may be confided to the care of the Eudist Fathers, and that the first bishop would be Rev. Father Degrand.

### To Horse and Cattle Owners

I beg to notify you that after years experimenting on Tonic Treatment of Horses and Cattle I have now put up the greatest Tonic and Invigorating Powders that you can give your animals.

They do not only keep them in good condition, but they are a preventive against Influenza which is known to all as the "Horse Disease." They stimulate the nerve supply and purify the circulation, whereby giving the animal a stronger resistance against diseases which are so prevalent at this time of the year.

Call at my office and get a package so you can see for yourself the results you will obtain after using them on your animals.
