SIR R. TOBY ADDRESSES THE TORONTO U.N.I.A.

On Sunday, April 20th, a very interesting, inspiring and brilliant address was given by Sir Richmond Hilton Toby, High Commissioner of the U.N.I.A. Hall at 553 Jueen Street West, beginning at 9 p.m.

The Hall was crowded with expectant people, as it was rumored that the speaker was a good one, and a world-wide traveller.

The subject of this discourse was "The Greatest Movement of Modern Times, Its Policy and Its Growth."

He spoke on this subject under the following headings: Its Commercial Policy, Its Educational Policy, Its Religious Policy, and its Social Policy.

He very truly said, that often the aim and object of the association have been misconstrued, and that it has been caused by several reasons: 1—Those who misunderstand the meaning of what is said or done and in talking about it in the wrong way cause others to stumble. 2—Those who think they know it all and can be taught by nobody. 3—The efficient ones neglecting to do their duty and causing the nonefficient ones to mislead others.

He explained the last trouble of Marcus Garvey thus:—The U.N.I.A. made an arrangement to purchase a new ship. While Marcus was in the West Indies, the head officers of the association, found out through detectives, that the shipbuilders were about to sell them an inferior vessel instead of the one they expected to have. Hence, they cancelled the contract, and neglected to take the advertisement out of the paper, "that the said ship would make a tour at a specified time."

Some jealous negroes notified the U.S. Government about the aforesaid error, and therefore caused Marcus to be brought up for "Defrauding Through the U.S. Mail." He, however, without the aid of any lawyers, spoke so intelligently, that out of eleven charges, he was able to bring them down to one. That about "Defrauding".

The Government also soon found out that Marcus in prison, was stronger than Marcus out of prison by the ready support of the people in raising \$35,000 in a

Supt. S. R. Drake Replies To Editorial On Co-Operation

To The Editor,
The Dawn of Tomorrow.
Dear Sir:—

This is my first letter to your well edited paper since its inauguration, therefore I must pay my respects to you as Editor. From my own observation, and I take it to be the opinion of many others, you have given general satisfaction from every viewpoint, and have helped the race by your splendid, sane editorials. My hope is that a greatly increased subscription will enable you to carry on on even a larger scale. Several letters and editorials have appeared in The Dawn on the question of Co-operation among the race in Canada in some business enterprise. These editorials and letters have all been very suggestive and should awaken a new interest and give a new outlook on the possibilities of our race in the business world.

There have been one or two hints of calling a Convention that further time and study might be given to the development of a plan or basis as a starting point. I think this is a splendid idea, and I offer the following suggestion. The Dawn of Tomorrow will soon be a year old. I

don't know the exact date. Why not Mr. Editor, have an Anniversary, as the Observer did, under Mr. Whitney some years ago, and at the same time call a Convention of those interested in launching some scheme of Co-operation in the business world. With those who would gather in the interest of The Dawn, and these interested in Co-operative work, it ought to result in a representative gathering.

AMERICA'S OLDEST WOMEN DIES

Hayti, Mo.,—With the death of Mrs. Maranda Cute, the claim is being made by residents of this town that the oldest woman in America has passed away. There was documentary evidence to prove that Mrs. Cut was 130 years old. Like many other old persons she was said to remember many of the men and events of the period soon after the revolutionary war. She came to this town during the recent migration and was able to care for herself until within a few years of her death.

NEGRO EDUCATOR MILLIONAIRE.

(By The Associated Negro Press)
Greensboro, N.C.,—According to report, Dr. D. C. Suggs, president of Livingstone College, is the richest Negro educator in the world. His property and other holdings in this state and in Washington, D.C., are conservatively valued at \$1,285,000.

HARRY COURSEY WINS THREE TRACK EVENTS

The first weekly twilight track meet of the East London Athletic Club was held last night with Mayor Wenige acting as one of the judges, at Jueen's Park. Fast time was made, especially in the 600-yard run, which was negotiated by Harry Coursey in 1.13 2-5, being only split seconds from the Canadian Record.

Ken Hunter, on the scratch in this event, ran a strong race, but failed in the stretch, while Wanless, 10 yards out, finished in a long sweeping stride and was not nearly run out.

The 50-yard sprint was thrilling. Wanless won the first heat, from scratch, in 5 2-5 seconds. In the second heat Coursey, with a yard handicap, won in the same time. Coursey proved the winner by inches in the final, Wanless and Harry Reynolds finishing a dead heat for place.

Coursey, the colored athlete, made a clean sweep of the card when he also won the broad jump, in a fine leap of 10 feet and one-half inch, with a four inch handicap. Armstrong, a 15-year-old, placed.

L.E.A.C. officials are more convinced than ever that Coursey is the man they will send to Montreal for the Olympic trials in the broad jump.

PETTY PREJUDICES.

We often hear expressions among our people which savor of narrow-mindedness and petty prejudice. For instance: "He is a bright mind, but he is a West Indian, or he is from the States, or he is a Canadian, or he is a Methodist, or he is a Baptist." Of all of the silly things which we might do or say, this is the most absurd, and yet this very spirit has, in many cases, prevented us from doing our best good. We have known cases in which men advocated causes which would have benefited the entire race, but which were frowned upon because the promoter happened to be from this country, or from that, because he was of this creed, or that faith.

Such a viewpoint is both childish and foolish, and I am sure it is high time that we should begin to have a greater perspective, a broader outlook of things affecting our people. The thing we should ever remember is that whether we are from the remotest islands of the South Sea, from the heart of the West Indies, from Canada, the States, or from heaven, we are members of a common race with a common lineage, and that the Caucasian races have placed us all in the same category. Again we should remember that while we are standing still fighting over creeds and squabbling over differences in countries, other races have risen beyond these arbitrary dividing lines and are forging ahead.

We discussed with one of our leading ministers, the advisability of attempting to bring more of our own people into Canada. He objected to the scheme and his objection was that in this country race prejudice increases in the same ratio with the increase of colored citizens. "O ye of little faith." Suppose his observations were well founded. Is that a reason why we should not love our own any the less or that we should not seek to better their conditions and not to strengthen our own position?

Suppose the Jews, the Irish, the Germans and the "whatnots" took the same view of their problem in this country? We verily believe that one of the greatest drawbacks in this country is, not prejudice, but our fewness in number.

We are longing for, praying for, a

"Dawn of Tomorrow" in Canada, when our leaders will actually LEAD. More than that, when our leaders shall be chosen because of their worth, their merit and their ability, and not because of birth, country, or creed.

Letters to the Editor

Windsor, Ont., April 23, 1924.
The Editor,
The Dawn of Tomorrow.

Dear Sir:—

This may be of interest to you, if so I will be glad if you will publish it in your paper, which I read every week.

Rev. I. H. Edwards, B.A., formerly the pastor of the B.M.E. Church of this city has been appointed to the staff of the Board of Education with his office in the Collegiate building. This is a step in advance for the race. It is to be hoped that more of our men will aspire to such positions, especially our young men.

A READER OF THE DAWN.

BELIEVES IN HARD WORK.

Chicago, Ill., (By the Associated Negro Press). "Hard work will cure almost any ailment, according to C. Satchell Morris, Jr., orator, who besides telling the story of racial glory, preaches the gospel of always being on the job. Mr. Morris claims that he learned the value of always doing something from a father who never kept still.

Meeting precept by example he is now engaged in pursuing a special twelve weeks' course in the University of Chicago and is booked up for 20 speaking engagements in the Middle West. As soon as the one week's studies are over, he is off to work. These week end trips, he says, are his vacations.

At the completion of his present course at the University, he will leave Chicago for California, in which state he will fill engagements in Los Angeles, Oakland, Pasadena, and a number of other places. Stops will be made in other states going to and from California. This work is scheduled to take up a large part of the summer.

RACE RELATIONS BOARD BUYS DAY NURSERY

(By The Associated Negro Press) Atlanta, Ga.,—Through the interest of the local Race Relations Committee, a house has been purchased on Roc Street which will be used as a day nursery, serving the needs of colored women. The committee plans to provide clinics, furnish milk for infants and supply clothes for needy children. In addition thereto, there has been made possible a Sunday School and Missionary Institute, lasting a week, for colored women. Two hundred and fifty women have already enrolled.

IN MEMORIAM

In fond and loving memory of our dear son and brother, Wilfred Lloyd Drake, who departed this life seven years ago, April 27, 1917.

There is no flock, however watched and tended,

But one dead lamb is there;

There is no fireside, howsoever defended,

But has one vacant chair.

REFLECTIONS.

(By S. E. G. Allen)

The mistakes of my long life can never be told,

And the good deeds have been all too few.

I pause on the threshold of seventy odd years

And would like to begin life anew.

The vista before me is glorious to view,

'Tis the vista's behind that so grieve;

'Tis the lost opportunities sadden me so,

And the "might-have-beens" hard to believe.

Now if I could start sweet life over again,

One more trial of dear fleeting time;

And such powers as my Father has given to me,

Were as strong as they were in my prime.

But God knows what is best, and he chooses for me,

I can surely trust love that's Divine,

Were a second term best for His chosen ones here,

I am sure that that term would be mine.

CLEAN

The baking ready, the cooking finished. Then the meal and afterwards: the washing up, of course.

What a task it would be if the glassy, smooth surface of the enameled cooking utensils did not help to reduce labor.

There is satisfaction in washing enameled ware. The surface is like flint. Sediment and grease cannot lodge in crevices or seams because there are none.

Clean! Just like china, yet stronger than steel. Washed thoroughly with soap and water only.

Bright! and colorful. A pleasure to look at in daily use. Make the kitchen attractive—always retain their gloss and shining beauty.

Sir R. Toby At Toronto U.N.I.A.

(Continued from page 1)
very short time for his bail.

Continuing his address in regard to "Education," he said that every successful nation has been built up by educated people, therefore, parents should educate their children so that they will be able to express themselves intelligently, upbuild the race, meet the need of the time, and be able to read and understand the history of their ancestors. That is why some of our people do not like to be called "Negroes" is because they are ignorant of the history of their forefathers.

It was an African who gave mathematics to the world; but because of the fact, the white people have called it Geometry, because they did not want to call it the Negro Man's name. When you speak of Science, you have to come back to the Negro.

As to Religion, the Association does not interfere with the Churches. We have been living under a wrong psychology. We have been taught that the white fellow is our superior, hence, even at school, our children see the difference; and until we get away from such silly ideas and realize that all men have certain equality, we will not be able to reach that stage of progress.

Socialism is one of the greatest powers of the day, said Sir Richard Toby. The Negro boys should stop marrying white girls, for while the white boy has only one kind to select his bride from the Negro has from a high yellow down to the cinnamon to choose from.

When you talk about Commercialism, Negroes laugh you to scorn. You have heard of men like Columbus discovering America; but thousands of years before America was discovered, Negroes had come to America and introduced such articles as the pampam belts, peanuts, etc. They were called Phoenicians, and the Phoenicians were black people, who traded with different parts of the world.

By all means take an interest in this Association and become a member, for if it meets with success, it means success for every Negro; and if it goes down, then every Negro goes with it, for the whites look on all Negroes as members of the said Association, whether you are one or not.

In conclusion, he said: "But not until the sand on the sea shore and the stars in the heavens be enumerated, will the U.N.I.A. fail to carry on its work."

GUNMAN USES PISTOL

85 YEARS OLD

Memphis, Tenn.—An ancient cap and ball pistol, made in 1838, was used by Plez Walker, when he shot Mrs. Josephine Sanders after an altercation on Webster St. The woman was shot in the head and will probably die. Walker escaped, leaving the old pistol hanging on a door. It had been loaded with bird shot.
