CURRENT CONDENSATIONS.

CANADIAN.

Another death has occurred in the family of Mr. Maher, Ottawa, making four deaths in the same family in less than a fortnight from diphtheria.

The following assignments are reported in Ontario by a mercantile agency: Brantford House Furnishing Company, Brantford; A. Marion, grocer, Chevalier; J. V. Locklin, baker, Consecon; Robt. Eldon, general store, Kintore; P. D. Doran, Peterboro, drygoods; W. P. Reynolds, general store, Picton.

AMERICAN.

Frank McIlvaine, cashier of the Sulphur Deposit Bank, Sulphur, Ky., has left for unknown parts, and is believed to be $10,000 short in his accounts.

Incomplete returns from all counties in Oregon give Hermann, Republican, for Congress, 8,977 majority; Pennoyer, Democrat, for Governor, 3,466 majority. It is thought these majorities will be increased by the official count.

Willis S. Phillips, only son of Mr. and Mrs. E. F. Phillips, of Detroit, was drowned in Watkins Lake, Pontiac, Wednesday afternoon. The young man, in company with two or more companions, was out for an afternoon's boating, and he jumped from the boat in a spot where the water was supposed to be shallow, but which proved quite deep. Being unable to swim, he was drowned before his companions could aid him.

Gobbling up Brick-Making Plants.

CHICAGO, Ill., June 5.—The Hydrulic Pressed Brick Company, of St. Louis, Mo., is reported to have purchased all the brick-making plants in Chicago, except one.

A Farmer's Loss.

SARNIA, June 5.—A stranger entered the residence of George Menzie, Sarnia township, yesterday, and stole $150. He was pursued to the woods by Menzie and some neighbors, but has not been captured. Menzie had just received the money for cattle sold.

Binding Twine Trust Broken.

MASON CITY, Ia., June 4.—Agent Beech has been instructed to sell binding twine of various kinds at an average of 4 cents below the price of last year. This is believed to indicate that the binding twine trust which has imposed such burdens on the farmers of this and other States has been broken. This reduction of prices will save many thousands of dollars to Iowa farmers alone.

Another Veteran Gone.

TORONTO, June 5.—Another of the small and rapidly-decreasing band of York pioneers has passed away. Mr. James Farquhar died yesterday at the ripe age of 78 years. Mr. Farquhar, who has lived in Toronto nearly half a century, was a native of Aberdeenshire, Scotland. He was a builder and contractor, amongst the buildings erected under his supervision being the present City Hall, Front street. To him was entrusted the erection of Brock's monument at Queenston Heights. The deceased had been ill about twelve months. He leaves a widow and grown-up family of two sons and three daughters.

Birchall's Actions.

WOODSTOCK, June 5.—The Sentinel-Review says: The wild rumor that has been afloat for several days that Birchall had attempted to escape from durance vile by means of filing the iron bars of his cells asunder, is untrue and without the slightest foundation. It was stated that he had managed to sever two bars, but as these bars are an inch and a half thick this would be a hazardous undertaking, especially as a guard sleeps in the same corridor all night. His cell is examined daily and the governor says that the public need not fear but that his charge will be delivered up in due course when the day for his trial arrives. Birchall is as docile as when he was first incarcerated and does not appear to desire escape in this way. He seems confident of getting free through a "legal process."

Sad Result of a Boating Accident.

TORONTO, June 5.—A sad accident occurred on the bay on Sunday afternoon. Mrs. Dussette and her daughter, Miss Mary Dussette, aged 18, from Sutton, county of York, arrived in the city a few days ago to visit some friends. Sunday afternoon Miss Mary Dussette, accompanied by a gentleman companion, went for a row to the island. They capsized the boat and both were thrown into the water. They were rescued by the occupants of another boat and taken ashore, wet through, but apparently not any the worse for the ducking. Miss Dussette laughed at the accident. She got up on Monday morning in her usual spirits and feeling none the worse for the accident. Towards evening she complained, but nothing serious was anticipated. Her mother left for Sutton by the afternoon train on Tuesday, her daughter saying she would leave for the same place by the afternoon train yesterday. Tuesday night Miss Dussette was taken seriously ill and she died early yesterday morning, presumably from the effect of the accident. Her remains were sent to Sutton by the same train she told her mother she would travel by.

Messrs. Deacon & Small, of the Hodgins House, King and Talbot streets, have made a contract to have the election returns posted in their office this evening by wire direct from the telegraph office.

Those Bombs.

PARIS, June 5.—The analysists' report on the bombs found in the possession of the captured Nihilists shows that they were merely for experimental purposes.

For Peace.

ROME, June 5.—The Italian Peace Arbitration Association is about to send to President Harrison an address congratulating him upon the debates in the Peace Congress and expressing a hope that other countries will imitate the example set by the United States.

The Panitza Affair.

SOFIA, June 5.—After a strong protest from the German consul who now represents the Russian Government, the Bulgarian public prosecutor in the absence of proof has formally withdrawn the charges against Russia of complicity in the Panitza affair.

Rich Silver Find in Russia.

ST. PETERSBURG, May 5.—A silver lode yielding 45 per cent. of pure metal has been discovered in the bed of the River Donetz in Southern Russia. An excellent yield of cotton has been obtained from American seed in Turkestan and other Provinces beyond the Caspian.

The Suez Canal.

PARIS, June 5.—M. De Lesseps presided at the Suez canal meeting yesterday. The profits for 1889 amounted to 37,212,925 francs. The net dividend was 85 francs per share. The receipts from night traffic amounted to 71 per cent. of the total, against 46 per cent. in 1888. The average duration of transit has been diminished four hours.

Bismarck Will Be Heard.

BERLIN, June 5.—The Hamburger Nachricten says: "If Prince Bismarck enters the Reichstag he will never engage in party politics, but he will always freely express his views regardless of the Government. He will, especially, try to show that the State police in Alsace-Lorraine cannot fulfill their objects owing to the renewal of the settlement treaty with Switzerland, which Prince Bismarck terminated in 1890.

The Pardoned Duke.

PARIS, June 5.—Upon his release from prison at Clairvaux, the Duke of Orleans said he regretted having to leave France. The Duke of Luynes accompanied the exiled Prince to Basle, whence the latter started for England. The Socialists in the Chamber of Deputies intend to propose that the Government declare a complete amnesty. The Duke of Orleans, in a manifesto to French conscripts, says the sorrows of exile are a mere exchange for captivity. His ardent desire to serve the country is unchanged. He asks his dear comrades to keep a place for him and he will come and take it for God and France.

Cardinal Manning on Ireland's Sorrows.

LONDON, June 5.—Cardinal Manning in a letter to Mr. O'Brien says his reading of the latter's novel has more deeply than ever impressed him with Ireland's inextricable sorrows. The Cardinal continues: "The Irish people, the most profoundly Christian on the face of the earth, have been afflicted with every kind of sorrow, barbarous and refined, for centuries. Race and religious hatred is their inheritance, but a day of restitution has nearly come. I hope to see the dawn and I hope you will see the noontide of the day when they are admitted to the possession of their own soil and the administration as far as possible of their own local laws, while still sharing in the legislation which governs and consolidates the Empire."

Preferred Death to a Prison.

MANISTEE, Mich., June 5. — William Finchey committed suicide in the county jail yesterday. He was arrested Friday for assault and fined. His son paid the fine and he was immediately afterward arrested on the complaint of the prosecuting attorney as an habitual drunkard and sentenced to 90 days in the Detroit House of Correction. He borrowed a knife from a fellow prisoner and cut his throat from ear to ear, dying a few minutes after. He left a note pinned to his shirt front in which he blames the prosecuting attorney and sheriff for driving him to self-destruction, as he preferred killing himself to being sent to the House of Corection. He leaves a family af grown-up children by his first wife. His last wife was the widow of Louis Mickelson, who was shot a couple of years ago, and she accidentally shot her daughter about eight weeks ago.

Prince Arthur at Ottawa.

OTTAWA, June 4.—The Duke and Duchess of Connaught arrived at 1 p.m. sharp by C. P. R., a quarter of an hour before the appointed time. They were met at the depot by the Premier, Hon. Messrs. Tupper, Bowell, Haggart and Costigan, and a guard of honor from the Governor-General's Foot Guards. They drove direct to the Senate, escorted by the Dragoon Guards. At the Senate an address of welcome was read by the mayor. There was a brilliant attendance of the highest and most distinguished at the capital. Afterwards they drove to Earnscliffe, and lunched with Sir John and Lady Macdonald and invited guests. They afterwards drove around the city and left at 4 p.m. for Montreal, arriving there at 11 p.m., and proceeded to their stopping place with Sir Geo. Stephen. A dinner party was given by Sir Donald Smith, at which they were present. After this a reception, attended by 200 persons, was held.

NEWFOUNDLAND.

Intense Feeling Created by the St. George's Bay Outrages.

A British Gunboat Present, but Fails to Interfere.

HALIFAX, June 4.—Newfoundland papers received by the steamer Mirandi to-night are filled with articles on the St. George's Bay outrages. In giving latest particulars of the affair one of them says: "Dark as were the colors which we employed in painting the picture of French outrages in St. George's they were not half black enough to portray the actual scene. When a British gunboat calmly looked on whilst a French man-of-war forbade British subjects to fish in their water we thought there could be no words capable of adding to the reputation of the British navy, but we were mistaken, for this outrage upon imperial and colonial rights was aggravated in the highest degree by the circumstances of

INSOLENCE AND VIOLENCE

which attended its perpetration. The Pelican did not merely submit to an usurpation by the French of a title to sovereign dominion in our waters, but to a usurpation that should not occur in the employment of the arts of diplomacy or strategy, but by the terrors inspired by the threatening presence of an armed force. It is a fact that an armed body of French marines went in their boat to the place in the harbor of Sandy Point, where the nets of the Newfoundland fishermen were set, and there and then, under the very guns of the Pelican, ordered them to be taken out of the water. This was a 'forcible invasion' by a foreign power of the maritime jurisdiction of Great Britain and Newfoundland; yet it was, as we know, acquiesced in by the commander of the British man-of-war. But there was another outrage of

EVEN A MORE FLAGRANT CHARACTER

to follow. Having usurped our maritime jurisdiction, the French next proceeded to assert, on behalf of their nation, territorial jurisdiction in Newfoundland, and again they enforce their uprighteous claim by force of arms. A French officer fully armed came on shore at Sandy Point and read to the assembled British citizens a notice commanding them to take up their nets. Even this more impudent outrage failed to stir the blood of the British naval officers to resistance. Each one of these acts of violence constitutes, as we believe, such a contempt for an invasion of British dominion over the soil or waters of Newfoundland as to warrant war. Britain has the absolute sovereignty of the island of Newfoundland and the waters surrounding it, and the French have only the right to exercise fishing privileges in our waters and to use the coast line during a portion of the year for certain rigidly defined purposes in connection with the fishery France herself has never until this moment set up the smallest claim to any sovereignty within this colony. It is true that claims have been made of an exclusive right of fishing in the waters washing a portion of our coast, but even if we conceded to them, which we do not, that exclusive right of fishery, they would still be as far as ever from establishing 'any sovereign title' to our soil or waters. Newfoundland has suffered an

INVASION BY AN ARMED FORCE

belonging to a foreign power, and up to the present no steps have been taken by Britain to avenge the outrage. There can be no doubt that this was a deliberately planned attempt on the part of France to force an admission from Britain of a right of sovereignty in the French Republic to a certain portion of the waters and territory of Newfoundland. No other motive than this could influence them to take the measures they adopted. They will not even pretend that their step was taken in order to secure to their own people an uninterrupted fishery in those waters, for there was not a French fisherman within 200 miles of the scene of the outrage."

THE DELEGATES IN LONDON.

LONDON, June 4.—The Newfoundland delegates, who are in London, are "carrying the war into Africa." The Morning Post having incautiously remarked in the course of an article on the fishery dispute that the French had never interfered with British subjects in British waters, the delegates have addressed a letter to that paper denying the statement. The denial is couched in strong, not to say violent, language, and is signed by the full delegation. It may be mentioned that the aggressive manner of the delegates is in keeping with the belligerent attitude of the Newfoundland Legislature, and has had a bad effect upon the cause they came here to advocate.

The division superintendents of the Michigan Central Road held their regular monthly meeting Wednesday at Detroit for comparison of notes. Nothing of special interest came up.

Collapse of a Building.

FONTHILL, Ont., June 4.—At 4:30 while workmen were tearing out the front of the large brick building known as the new registry office, used as the Welland county building for the registry and surrogate offices to Welland in 1875, the roof suddenly parted, and the last half of the structure—estimated at 100 tons—fell with an awful crash, burying Alonzo T. Smith under the debris. Young Smith made a desperate leap for his life by jumping from a ladder against the north wall, but unfortunately could not leap far enough to escape the flying bricks and morter. He had one leg broken, also the right arm and his scalp badly cut. Hopes are had of his recovery.

Mothers

Castoria is recommended by physicians for children teething. It is a purely vege table preparation; its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrho a and wind colic, allays feverishness, destroys worms and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 25 doses, 35 cents.

WITH A HANDSPIKE.

Shocking Murder in the Vicinity of Mitchell.

Terrible Outcome of a Dispute About a Fence.

George Houghton Beaten to Death by Ward Rumford.

MITCHELL, June 4.—A young man named Geo. Houghton was killed yesterday afternoon on lot 2, con 14, Logan, about two miles north from here, while engaged at work logging with Ward Rumford. Houghton's wife, who was on the ground where they were working, was having a dispute with Rumford about the work when the husband interfered, and Rumford struck him a blow on the head with a hand-spike, fracturing the skull badly. Rumford, realizing what he had done, came to town for a doctor. The doctor started at once for the spot, and on arriving found Houghton dead, he having lived only a short time after the blow. Rumford has been living under the same roof with the Houghton family, and is in some way related to it. Rumford has given himself up. The inquest is now going on before Coroner Shaver, of Stratford.

Another Account.

STRATFORD, June 4.—It was reported on the street to-day that a murder had been committed at Bornholm, about seventeen miles from Stratford in the township of Logan. Bornholm is a small country place, with a hotel, store, postoffice and blacksmith shop. The scene of the murder is in the 14th concession of Logan. The facts of the case, as nearly as can be gleaned, are as follows: William Rumford and Robt. E. Houghton are neighbors. They both own small farms in Logan. On Thursday they were logging in a field, when they had some words over a line fence. Mrs. Houghton was also present. The men's temper got the better of them. Rumford

PICKED UP A CROWBAR,

and without further ceremony sent it crashing down on the skull of Houghton, smashing the frontal and parietal bones and killing him almost instantly. When he became conscious of what he had done he sobbed bitterly and seemed to be very repentant. The body was taken to the house of the deceased and a medical man sent for, who, after viewing it, stated that the man had been dead for several hours. County Crown Attorney Idington was notified, and the coroner, P. R. Shaver, was instructed to go out and hold an inquest.

THE WIDOW'S STATEMENT.

A court was opened at the house of the deceased, and the statement of the murdered man's wife was taken. She detailed how the two were logging, and that they had a quarrel, with the result above stated. The coroner issued his warrant for the arrest of Rumford, and ordered the body to be buried.

THE VICTIM.

The deceased is a young man of about 24 years of age; a blonde, with a slight mustache, and good-looking. There are a hundred and one rumors as to there being an old grudge between the two, and that Rumford was waiting for the opportunity which he availed himself of on Tuesday. Drs. Hurlburt and Murray, of Mitchell, will hold a post-mortem examination of the body to-night. The court was adjourned until Friday at Bornholm.

ABDUCTION.

A Cleveland Sensation—Eugene Cowles Forcibly Carries Away His Little Daughter.

CLEVELAND, June 4.—A sensational abduction has taken place here. Eugene H. Cowles left Monday afternoon on the Conneaut accommodation for the east, and took with him his little daughter, a child under 10 years of age, dragging her bodily away from her aunt in order to do so. Mr. Cowles is the eldest son of the late Edwin Cowles, editor of the Leader, is a man about 40 years old, wealthy, of one of the most respectable families in the city. He married a daughter of E. B. Hale, the banker. They have one child, this little girl. Of late Mr. and Mrs. Cowles have not been living together, as the result of domestic difficulties which bid fair to render the separation permanent.

Cowles had been in Lockport a great deal. When here the child was with him with its mother's consent. Sunday the little girl spent with her father. Monday morning Mr. Cowles sent word to his wife that he was about to leave town permanently and would like the privilege of saying good-bye to his child at the train. Accordingly, Cowle's sister, the child's aunt, took her to the depot with him. He talked a little while to his daughter, and as his train was about to move out of the depot, exclaimed: "Come on, little girl; you are going with me."

"Indeed, she is not; she is going home with me," exclaimed the aunt, grabbing one of the child's hands, the other being held by the father.

The excitement drew a crowd around the carriage in which the child and her aunt had driven down.

"The child is mine and I will have her," exclaimed Cowles, as he began dragging the little one towards the train. "I will shoot anyone who attempts to interfere with me."

The frightened aunt let the child go by default, she was so unstrung by the occurrence. The train moved out of the depot, and the aunt, jumping into the carriage, drove home as fast as she could to tell the distressing news to the child's mother. On her arrival the excitement ran high. Mr. Cowles' father-in-law went down and sought legal advice. Instantly a writ of habeas corpus was taken out and the sheriff started in pursuit of the father and child.

Mr. J. R. Allen, upholsterer, Toronto sends us the following: "For six or seven years my wife suffered with Dyspepsia, Costiveness, Inward Piles and Kidney Complaint. We tried two physicians and any number of medicines without getting any relief, until we got a bottle of Northrop & Lyman's Vegetable Discovery. This was the first relief she got, and before one bottle was used the benefit she derived from it was beyond our expectation."

"Do you know anything new for a birthday present for my husband?" "Oh, yes. Tell him to-day that your dressmaker's bill is $500, and then on his birthday tell him it was only $30. You have no idea how he will enjoy it."

FATAL FLASHES.

Disastrous Results of the Recent Thunder Storms.

Many Buildings Struck by Lightning and Burned.

Long List of Casualties in Canada and Across the Border.

PARRY SOUND, Ont., June 5.—During a thunder storm which passed over this place last evening, the house of Jos. McGee was struck by lightning, and his little daughter Josie instantly killed. Another child close by escaped, although for some time after was affected by the shock. The lightning tore a hole through the roof, and smashed the partition.

HEAVY LOSS AT BROOKLIN, ONT.

BROOKLIN, Ont., June 4.—A heavy thunder storm passed over this village last night and the large granary owned by Wm. Murray & Co. was struck by lightning. The bucket brigade succeeded in confining the flames to the burning building. Loss about $20,000. Insurance about $10,000.

AT BRIGHT.

BRIGHT, June 4.—On Tuesday evening the barn of Mr. John Waldie, con. 6, Blenheim, was struck by lightning and burned to the ground, with two calves and farm implements. The barn was built last year. Insurance, $400.

THREE BARNS DESTROYED.

DELHI, Ont. June 4.—The thunder storm last night was the most disastrous known for years. Three barns with contents, as far as heard, have been destroyed—one owned by Matthew Buchner, another by W. W. Clinton, and the third by Peter Kemp.

BARN AND STABLES BURNED.

WESTON, Ont., June 4.—Last night the barn and stables owned by W. Chew were struck by lightning and burned. He managed to save the stock, but the implements and grain were all lost.

TWO MICHIGAN FARMERS KILLED.

CARO, Mich., June 4.—Last evening news reached this place that four farmers had been struck by lightning at the residence of I. T. Taggett, four miles west of Caro, in Fairgrove township. About twenty rods from the barn I. T. Taggett, Edward Goodchild, Wm. Holmes and Matt Ringle, were a short time previous engaged in performing an operation upon a young horse when a thunder storm came up suddenly and the first bolt of lightning struck in the midst of the men. Assistance was soon secured, and within a short time Ringle and Taggett regained consciousness, but Goodchild and Holmes were dead when assistance arrived, although no marks or traces of the current could be found upon their persons. Goodchild was a farmer 37 years of age, and had a family of five children. Holmes was 31 years of age and unmarried. It was one of the greatest electric storms that ever passed over this section.

THE WORST OF THE SEASON.

SCOTLAND, June 4.—The most terrific electrical storm of the season in this vicinity passed over this place last evening. Lightning flashed and thunder pealed almost incessantly from 8 p.m. till 5 a.m., and was accompanied by the severest rain and flood of this year. The Oakland mill dam burst during the early part of the night and carried away the bridge and about seven rods of the approaches on the highway leading through the village from Brantford and Watford.

SEVERAL SCHOOL CHILDREN KILLED.

MINNEAPOLIS, June 4.—A special from Cester, Ia., says: "A cyclone passed near this place at 3:30 this afternoon. A school house was struck and completely destroyed. Several pupils were fatally injured.

GRAIN ELEVATORS BURNED.

GALENA, Ill., June 4.—During a fearful storm of wind and rain on Monday night the Chicago, Milwaukee and St. Paul Railroad depot at Platteville, Wis., and the Smart grain elevator were struck by lightning and burned. At Scales Mound the extensive barns of Newton Smart were burned by lightning.

AT ST. THOMAS.

ST. THOMAS, June 4.—The most severe and long-continued storm for many years passed over this district last night. Commencing at 9 a.m. it lasted till 4 o'clock this morning, the rain descending in sheets. This morning Kettle Creek had assumed the dimensions of a river, the briges at Talbotville and New Sarum being carried away and much damage done to fences, etc., and crops on the low lands. Eight inches of rain fell during the night. The barn of Mr. Thomas Johnson, New Sarum, was struck by lightning, and with its contents totally destroyed. The house of Edward Miller, on the Edgeware road, was struck and damaged to the extent of $300, Mr. Miller, being thrown out of bed by the force of the stroke. His barn was also struck and took fire, but the flames were extinguished. At 2 a.m. the street electric lights went out, a dynamo at the electric light works being struck by lightning and badly wrecked, besides the belting and shafting in the room. The M. C. R. station at Werdtman, on the St. Clair branch, was damaged to the extent of several hundred dollars by lightning, and two barns at Courtright were struck and burned up with their contents. A mill dam at Oakland, near Wyndham Center, gave way and caused much damage. A M. C. R. engineer who came in during the night from Buffalo, reports that he saw nine fires on his way here.

A TROTTER KILLED.

PLAINFIELD, N. J., June 5.—During a thunder storm last evening, a tree was blown down across the roadway. It carried down a live electric wire. John Chandler's $3,000 trotter, Rambo, while being driven back from the race track by his trainer, Geo. Sadler, shied at the tree, ran into the wire and was killed. Rambo had a record of 2:20.

CHUNKS OF ICE.

LAPEER, Mich., June 5.—Tuesday night one of the worst storms of the season visited this vicinity, consisting of rain and hail, during which chunks of ice as big as hen's eggs fell forcibly to the ground, doing considerable damage to the fruit and in some cases breaking in the windows. The lightning was also severe. It struck farmer Emerson Higley's barn, killing a horse. The wind was fierce and blew down many fruit trees.

WORK AND WAGES.

Montreal Coal-Handlers on Strike—The Toronto Bricklayers' Trouble Nearly Over—Labor Disputes Elsewhere.

MONTREAL, June 5.—The majority of the coal-handlers are still on strike and evidently have no intention of resuming work until their demands have been granted. Messrs. Peter Ferns & Sons have agreed to pay 35 cents an hour for eight "holers," one leading stagman, and all other men 25 cents per hour for day and 30 cents for night work. These men are returning to work. Everything is quiet and orderly.

THE TORONTO BRICKLAYERS' STRIKE.

TORONTO, June 4.—The trade war between the striking and the master bricklayers bids fair to follow the stonecutters' strike to a peaceful conclusion. A meeting of the bricklayers was held last evening to consider the propositions tentatively put forward at Tuesday's meeting at the Board of Trade. The trade was very fully represented and the discussion most amicable. Negotiations will be renewed with the master bricklayers.

GOING OUT.

SAGINAW, Mich., June 5.—Planing Mill and Wood-Workers' Union, No. 248, this city, has decided to go out on a strike Friday morning for nine-hour day. The union has 300 members and expects the co-operation of other unions. President Albert Kager, of the union, states that the average wages received by planing mill employes working ten hours has been only $1 25 per day.

AN EVENTFUL DAY IN DETROIT.

DETROIT, June 5.—In all probability this will be an eventful day in the history of the present carpenters' strike, and what will result from the action to be taken by the strikers remains a matter of conjecture. When the strike was inaugurated about five weeks ago it was generally expected that a settlement would be reached before this. Committees from the five unions are considering the advisability of calling out men now at work for those contractors who have signed the agreement. The committees arrived at the conclusion that the time was ripe for the adoption of severe measures in order to force some kind of a settlement. A ratification meeting is to be held to-night, and measures will be taken to call out every man now at work. About 800 men are working under the scale, which, added to the 1,900 already out, will make a total of about 2,700 men on strike. The bricklayers in a recent conference with the District Council of Carpenters, expressed their willingness to strike if necessary to aid in the movement.

STRUCK FOR AN ADVANCE.

COLUMBUS, Ohio, June 5.—The employes of the Consolidated Street Railway went on a strike yesterday morning for an advance. The 250 employes have been getting: Conductors, $1 70; drivers, $1 55, and grooms $1 40 a day of twelve hours, the grooms working ten hours. The men demanded: Conductors, 16 cents; drivers, 15 cents an hour; and barn men $1 50 a day. The company offered an advance of five-eighths of a cent an hour, which would make an increase of $12,000 a year in total salaries paid employes.

DELUGED.

Underwood, Ia., Ten Feet Under Water—Many Dwellings Wrecked.

COUNCIL BLUFFS, Ia., June 5.—A devastating cloud-burst early yesterday morning constitutes the third terrific storm that has visited this section this week. A special from Underwood, fifteen miles north of this city, states that about 7 o'clock a cloud burst some miles north of there nearly over Mosquito Creek. Scores of dwellings were totally wrecked while others were twisted from their foundations. The lower part of the city is standing in ten feet of water. It is impossible to estimate the damage.

The dwelling of Joseph Barrier was wrecked and its occupants narrowly escaped drowning. The total loss in Underwood and vicinity will aggregate $150,000.

Another special from Weston, a village seven miles below Underwood, and on the Mosquito Creek, shows that the damage there is not less great. The best part of the town is under from five to fifteen feet of water. The total loss about Weston will reach $100,000.

Further advices higher up the valley, at Neola, and as far as Persia, on the line of the Milwaukee, says the storm raged with savage effect. The loss there will reach $20,000. The valley, which varies to a mile wide, is under water to an average depth of fifteen feet. The indications are that this valley for a distance of 30 miles is submerged. The tracks of the Milwaukee and Rock Island are washed out for a distance of twenty miles.

ABOUT HAIR

Editor of the ADVERTISER:

Sir,—I have, as you know, for some time advertised in Canada and the States a preparation for the hair called "Dr. Dorenwend's Hair Magic." I have received some thousands of flattering testimonials from those who have used it as to its merits as a restorative of gray or faded hair; also as a promoter of the growth and a certain cure for dandruff.

A great many of my correspondents ask the questions: "Why is my hair turning gray so early? Why is my hair falling out?" As it is impossible for me to answer every one, I take the liberty of encroaching on your valuable space to make a general reply. A great many persons do not seem to be aware that excessive washing and rubbing is injurious to the growth of the hair; such is the case, however. Constant washing and rubbing the scalp and hair causes over irritation and removes the oily substance which gives strength to the hair; undue heat caused by the wearing of heavy headgear is also injurious. Anything that will tend to dry up the sap or life of the hair will cause dandruff, falling out of the hair, gray or faded hair and finally baldness. Of course there are other causes as diseases, hereditary tendencies, etc., but the first mentioned are the main and most common.

Dr. Dorenwend, an eminent German physician, has given to the world after years of toil and experiment his now famous "Hair Magic." The object of this preparation is to assist nature in the production of this oily substance absolutely necessary to the growth of the hair. It is now sold by all reliable druggists at $1 per bottle, or six bottles for $5, or will be sent on receipt of price to any address. See that each wrapper bears the seal and signature of the manufacturer.

STOLEN GOODS.

Peculiar Discovery in a Heap of Ashes at Thorndale.

A Thorndale correspondent writes: "While J. A. Vining was passing through his woods situated on lot 15, con. 5, Nissouri, he came across a heap of ashes in which were found several articles of interest. He noticed moreover that the goods were burned since the last shower, which was on Friday. On Tuesday afternoon Messrs. Garner, J. P., and Vining made an investigation, which resulted in the finding of the following articles near the place of burning: One lightish green hair pin, one frame of an umbrella, the covering of which had been burned off; two cards on which had apparently been cuff-buttons, price marked 35 cents, trade mark and number also plain; four cards on which some pins or broaches had been attached, price marked 25 cents; two boxes which doubtlessly had contained some kind of jewelry. Also in the ashes were found remains of several combs, another skeleton of an umbrella, about one and a half dozen of necktie fasteners, a dozen of common white shirt buttons, a large number of glove buttons, some remnants of gloves and cloth of neckties. The general impression around Thorndale is that these were stolen goods. A suspicious couple were seen tramping through the village on the following Mondny carrying a basket. They were seen last near Wyton resting. Passers-by were unnoticed by these strangers, who were apparently very busily engaged at work in connection with their basket.

"ACCIDENTALLY DROWNED."

The Springbank Disaster—Verdict of the Coroner's Jury.

The inquest on the body of Adam Johnston, who was drowned at Springbank on May 26, was held before Coroner Smith last night in the Interim Session rooms at the Court House. The room was well filled, more than half the number being girl friends and acquaintances of Miss Doherty.

Howard Shannon, one of the occupants of the boat, was sworn, and gave the particulars of the accident, as previously published in the ADVERTISER. He denied that the object of approaching the dam was for the purpose of seeing how near they could go, but they wished to view the foam on the other side. He saw some men warning him by signals at the pumphouse, and when the girls mentioned their fears the boat was immediately turned back, but the force of the current was too strong and they were carried over. He saw nothing of Johnston or Miss Doherty after being thrown out, but saw Miss Doherty's hat floating.

The Coroner—Was not this fool-hardiness on your part?

Shannon—No; we had no idea of danger and merely wished to see the foam over the dam.

Coroner Smith spoke in strong terms of Shannon's carelessness.

County Crown Attorney Hutchinson was present and took occasion to censure the authorities for not having notices placed near the dam as a warning of the danger.

Miss Edith Phillips, the companion of Miss Doherty, was sworn and corroborated the previous witness with one exception. She had not heard the reason for approaching the dam and thought it mere pleasure. She admitted having heard Shannon say that he blamed himself for the accident.

Wm. Milling, Robt. W. Blynn, J. H. Carson, Thos. Summer, Maggie Bell, L. Keenleyside, B. B. Allen, Jas. H. Carson, and other witnesses were called and testified to having seen the boat near the dam.

The jury brought in a verdict of accidental death by drowing.

Guelph Cattle Fair.

GUELPH, June 4.—The regular monthly cattle fair held here to-day was well supplied with fine cattle, ten loads being shipped for export. Prices ranged from $4\frac{1}{2}$c to $5\frac{1}{2}$c.

Drowned at Port Stanley.

Wm. Payne, G. T. R. fireman, aged 22, well known in this city, was drowned at Port Stanley yesterday, close to the pier, by his boat upsetting. The lake was very rough.

Killed on the Track.

SYRACUSE, N. Y., June 5.—Harvey Hopin, 70 years of age, while walking along the D. L. and W. R. R. tracks near Jamesville yesterday morning was struck by a locomotive and killed. The engine and tender were thrown from the track and down a steep embankment. The engineer and fireman escaped by jumping. Hopin was walking to Syracuse to attend the circus.

Steam Barge Burned.

AMHERSTBURG, Ont., June 5.—The steam barge W. C. Westmore, owned by J. H. Palmer, of Cleveland, with Capt. Chas. J. Wallace in command, bound up from Cleveland to Chicago, coal laden, burned to the water's edge one and a half miles from the Dummy Light, in Lake Erie Tuesday night at 9:45 o'clock. The crew probably escaped.

Capt. B. Chambers, of the schooner Burnette, which was in tow, is here, and reports that when last seen two steamers were playing on the burning boat. Nothing further can be ascertained at present.

We have no hesitation in saying that Dr. J. D. Kellogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhœa, cholera and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. Mothers should never be without a bottle when their children are teething.

Wall Papers.—House-cleaning time is here, and to help you brighten up your homes, we have just opened out the largest and best-selected stock of wall-paper we have ever shown. Our 5, 6, 7, 8, 10 and $12\frac{1}{2}$ cent papers are great bargains. Beautiful gold papers from 15 cents upwards. Window shade, cornice poles, picture frames, etc., at exceedingly low prices. Come and see. E. N. HUNT, 190 Dundas street

Gilmore's Band and visitors to the concerts will do well to see our new neckwear for Saturday. JAS. W. T. PARK. 45u

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and cause a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

The aimless man never hits the bull's-eye of success.

NIAGARA.

HAMILTON, June 4.—The ministers and laymen of the Niagara Conference of the Methodist Church met here to-day. About 120 laymen and visitors were present at the Gore Street Church. Judge Jones, of Brantford, was appointed chairman, and W. J. Robertson, of St. Catharines, secretary. The transfers made into and out of the Niagara Conference were as follows: Into the Conference—Revs. E. Hurlburt, E. H. Taylor, Dr. D. G. Sutherland and Robert L. Ockley; out of the Conference—R. R. Maitland, W. J. Maxwell, G. Young, D.D., and A. R. Elliott (superannuated). W. G. Dean is transferred to the Manitoba Conference.

In the contest for the presidential chair Rev. John Kay, Brantford, was the nominee of the ministers, and Rev. Dr. Burns was the chosen candidate of the lay voters. Out of a possible vote of 187 Mr. Kay received 94, seven more than necessary for a choice. Dr. Burns secured 33 votes, being beaten by Rev. John Wakefield, who got 35. Rev. R. W. Woodsworth was elected secretary.

The report of the Sunday school department shows that during the past six years 43,000 more children have attended the schools than during previous years. Dr. Withrow spoke highly of the Epworth League movement, stating that 120 leagues now flourished from Newfoundland to British Columbia.

MONTREAL.

OTTAWA, June 4.—The Montreal Methodist Conference met to-day. There was a full attendance, there being 100 delegates, and in addition General Superintendent Carman and Rev. Dr. Dewart as visitors.

The election of officers resulted: President, Rev. T. G. Williams, D.D., of Montreal; secretary, Rev. D. C. Sanderson, of Kingston. Rev. W. J. Crothers, of Ottawa, was first elected secretary, but declined the honor.

The general superintendent, Rev. Dr. Carman, occupied the chair after dinner and delivered an address. He dwelt on the great issues now before the church, shortly to be dealt with by the General Conference, college confederation being the greatest. He referred to Albert College, Belleville, and said they ought to have in the west—Stratford, he would say—an institution similar to Albert. Turning from purely church affairs, Dr. Carman referred to the movement to resist ultramontane aggression and read a very peculiar periodical he had written out, setting out the state of affairs at Ottawa. This document, which nearly every delegate afterwards denounced as most extraordinary and injudicious, described Ottawa as a political Sodom to whose vices poth parties contributed in a bid for Roman Catholic votes. It was an arena of meanness, suspicion and fraud. Both political parties were denounced as unprincipled and unscrupulous. Men here in high places were lacking purity, whose example, if followed throughout the Dominion, would leave a desolating track of death. The marriage contract was not respected, and that a man occupying the high position of a Minister of the Crown like Mr. Foster, should marry a divorced woman was a scandal.

This portion of the address created a sensation, and to mark their disapproval a dozen delegates rose and left the church. Two of the delegates are actually being entertained at Mr. Foster's residence. Dr. Carman referred to the debauching of constituencies by Sir John Macdonald, to the Ontario Government, to the Jesuits' Act, the separate schools and the dual languages.

At the close of the harangue Rev. Dr. Shaw rose and protested strongly against the introduction of such matter into the Conference proceedings, and his protest was indorsed by the Conference, to judge by the "hear, hears," which came from all sides.

The annual statement of the superannuation fund, shows that the capital fund now stands at $174,648. The annual account showed the receipts, $78,265, to balance the disbursements.

Rev. Dr. Dewart spoke in behalf of the Guardian and received a vote of support.

A statement showing the embarrassed condition of the General Conference fund was submitted. In the evening a public temperance meeting was held.

Some remarkable information about the favorite beverages of European sovereigns has been published by an American journal. The Queen is described as preferring "the old-fashioned wines," port and sherry, and she is fond of hock and tokay. Formerly the Queen drank champagne and claret, and she never cared for either port or sherry. It was the Prince Consort who liked tokay so much, and he invariably drank a bumper of it after dinner, regarding it, and very rightly, as a liqueur. Of late years the Queen, by advice of Sir William Jenner, has usually taken Apollinaris Water and Scotch whisky, and even when she drinks a glass of claret it is often mixed with Apollinaris. The distillery of Lochnagar, from which the Queen obtains her whisky, is on the Balmoral estate. There is a very large cellar of wine at Windsor, containing a great quantity of very fine old port and claret, and some wonderful Cabinet Rhine wines of the great vintages.—[World, London, May 21, 1890.

HOW SEPARATE SCHOOLS WERE GUARANTEED.

The first separate school law of this Province was passed in 1841 with the unanimous approval of the representatives of the Province in the Parliament of the old Union of Upper and Lower Canada. The second law was enacted in 1850 with the same unanimity, Protestant and Roman Catholic members voting for it. Then followed some twelve or thirteen years of agitation on the subject, one party gradually becoming strenuous opponents of the system and the other party steadily supporting it. A year after the federation of the Provinces became a live issue, and one of the most difficult last Separate School Act passed the conmatters to be settled was found to be the rights of the Roman Catholic and Protestant minorities of Upper and Lower Canada respectively to their separate or dissentient schools. Finally, however, it was agreed between the delegates representing the Provinces that the rights of the two minorities should be guaranteed as then existing, and the terms of agreement were embodied in the resolutions submitted for the consideration of the Provincial Legislatures. In Nova Scotia and New Brunswick there were no sectarian schools at that time, and consequently the guarantee was not necessary in their case. But in the Province of Upper Canada these schools had been established for nearly a quarter of a century, and in Lower Canada for a longer time, and it was found that unless a basis of agreement could be arrived at upon the school question and some other questions of like character, a federal union could not be attained. In speaking of this basis of agreement, when the resolutions were taken up in the old Parliament of Canada, in 1864, John A. Macdonald spoke as follows:

John A. Macdonald—These resolutions were in the nature of a treaty, and if not adopted in their entirety, the proceedings would have to be commenced de novo. If each Province undertook to change the details of the scheme, there would be no end to the discussions and conferences which would have to be held. * * * All he could say was this, that the representatives of the various colonial Governments, after this TREATY had been made, agreed to go home and press upon the Legislatures of their respective Provinces this measure as a whole, and to present in all the colonial Legislatures addresses identical in their nature to her Majesty, asking her to pass an act based upon these resolutions, such address being an expression of the deliberate opinion of the colonies. * * * THERE WAS A GOOD DEAL OF APPREHENSION IN LOWER CANADA ON THE PART OF THE MINORITY THERE AS TO THE POSSIBLE EFFECT OF CONFEDERATION ON THEIR RIGHTS ON THE SUBJECT OF EDUCATION, AND IT WAS THE INTENTION OF THE GOVERNMENT, IF PARLIAMENT APPROVED THE SCHEME OF CONFEDERATION, TO LAY BEFORE THE HOUSE THIS SESSION CERTAIN AMENDMENTS TO THE SCHOOL LAW, TO OPERATE AS A SORT OF GUARANTEE AGAINST ANY INFRINGEMENT BY THE MAJORITY OF THE RIGHTS OF THE MINORITY IN THIS MATTER. AS REGARDED UPPER CANADA THE MATTER TO FORM REMAIN IN STATU QUO, AS THE PRESENT LAW THERE WAS QUITE SATISFACTORY TO THE MINORITY. * * * Before Confederation is adopted, the Government would bring down a measure to amend the School Law of Lower Canada, protecting the rights of the minority, and which, at the same time, I believe would be satisfactory to the majority who have always hitherto shown respect for the rights of the minority, and, no doubt, will continue to do so. * * * I ask each member of the House to lay aside his own opinion as to particular details, and to accept the scheme as a whole if he thinks it beneficial as a whole. As I stated in the preliminary discussion, WE MUST CONSIDER THIS SCHEME IN THE LIGHT OF A TREATY. * * * We made the arrangement, agreed upon the scheme, and the deputations from the several Governments represented at the conference went back pledged to lay it before their Governments, and to ask the Legislatures and the people of their respective Provinces to assent to it. I trust the scheme will be assented to as a whole. I am sure this House will not seek to alter it in its unimportant details; and, if altered in any important provisions, the result must be that the whole will be set aside, and we must begin de novo. If any important changes are made, every one of the colonies will feel itself absolved from the implied obligation to deal with it as a treaty, each Province will feel at liberty to amend it ad libitum so as to suit its own views and interests; in fact, the whole of our labors will have been for nought, and we will have to renew our negotiations with all the colonies for the purpose of establishing some new scheme.

Mr. Brown, who represented the Liberal party of Upper Canada in the coalition Government formed to carry the confederation scheme, dealt at some length on the school question, being the member of the Government whose former attitude on separate schools enabled him to speak with the highest authority upon the terms as agreed upon at the conference. He is reported in the Confederation Debates as follows:

Mr. Brown—I need hardly remind the House that I have always opposed and continue to oppose the system of sectarian education, so far as the public chest is concerned. I have never had any hesitation on that point. I have never been able to see why all the people of the Province, to whatever sect they may belong, should not send their children to the same common schools to receive the ordinary branches of instruction. I regard the parent and the pastor as the best religious instructors —and so long as the religious faith of the children is uninterfered with and ample opportunity afforded to the clergy to give religious instruction to the children of their flocks, I cannot conceive any sound objection to mixed schools. But while in the conference and elsewhere I have always maintained this view, and always spoken against sectarian public schools, I am bound to admit, as I have always admitted, that the sectarian system, carried to the limited extent it has yet been in Upper Canada, and confined as it chiefly is to cities and towns, has not been a very great practical injury. The real cause for alarm was that the admission of the sectarian principle was there, and that at any moment it might be extended to such a degree as to split up our school system altogether. There are but 100 separate schools in Upper Canada, out of some 4,000, and all Roman Catholics. But if the Roman Catholics are entitled to separate schools and to go on extending their operations, so are the members of the Church of England, the Presbyterians, the Methodists, and all other sects. No candid Roman Catholic will deny this for a moment; and there lay the great danger of our educational fabric, that the separate system might gradually extend itself until the whole country was studded with nurseries of sectarianism, most hurtful to the best interests of the Province, and entailing an enormous expense to maintain the hosts of teachers that so prodigal a system of public instruction must inevitably entail. Now it is known to every honorable member of this House that an act was passed in 1863 as a final settlement of this sectarian controversy. I was not in Quebec at the time, but if I had been there I would have voted against that bill, because it extended the facilities for establishing separate schools. It had, however, this good feature, that it was accepted by the Roman Catholic authorities and carried through Parliament as a final compromise of the question in Upper Canada. WHEN, THEREFORE, IT WAS PROPOSED THAT A PROVISION SHOULD BE INSERTED IN THE CONFEDERATION SCHEME TO BIND THAT COMPACT OF 1863 AND DECLARE IT A FINAL SETTLEMENT, SO THAT WE SHOULD NOT BE COMPELLED, AS WE HAVE BEEN SINCE 1849, TO STAND CONSTANTLY TO OUR ARMS, AWAITING FRESH ATTACKS UPON OUR COMMON SCHOOL SYSTEM, THE PROPOSITION SEEMED TO ME ONE THAT WAS NOT RASHLY TO BE REJECTED. (Hear, hear.) I ADMIT THAT, FROM MY POINT OF VIEW, THIS IS A BLOT ON THE SCHEME BEFORE THE HOUSE, IT IS CONFESSEDLY ONE OF THE CONCESSIONS FROM OUR SIDE THAT HAD TO BE MADE TO SECURE THIS GREAT MEASURE OF REFORM. BUT ASSUREDLY, I FOR ONE, HAVE NOT THE SLIGHTEST HESITATION IN ACCEPTING IT, AS A NECESSARY CONDITION OF THE SCHEME OF UNION, AND DOUBLY ACCEPTABLE MUST IT BE IN THE EYES OF HONORABLE GENTLEMEN OPPOSITE, WHO WERE THE AUTHORS OF THE BILL OF 1863. (Cheers.) But it was urged that though this arrangement might perhaps be fair as regards Upper Canada, it was not so as regards Lower Canada, for there were matters of which the British population have long complained, and some amendments to the existing school act were required to secure them equal justice. WELL, WHEN THIS POINT WAS RAISED, GENTLEMEN OF ALL PARTIES IN LOWER CANADA AT ONCE EXPRESSED THEMSELVES PREPARED TO TREAT IT IN A FRANK AND CONCILIATORY MANNER, WITH A VIEW TO REMOVING ANY INJUSTICE THAT MIGHT BE SHOWN TO EXIST, AND ON THIS UNDERSTANDING THE EDUCATIONAL CLAUSE WAS ADOPTED BY THE CONFERENCE.

Mr. T. C. Wallbridge—That destroys the power of the local legislatures to legislate upon the subject.

Hon. Mr. Brown—I should like to know how much "power" the honorable gentleman has now to legislate upon it? Let him introduce a bill to-day to annull the compact of 1863 and repeal all the sectarian school acts of Upper Canada, and how many votes would he get for it? Would twenty members vote for it out of the 130 who compose this House? IF THE HONORABLE GENTLEMAN HAD BEEN STRUGGLING FOR FIFTEEN YEARS, AS I HAVE BEEN, TO SAVE THE SCHOOL SYSTEM OF UPPER CANADA FROM FURTHER EXTENSION OF THE SECTARIAN ELEMENT, HE WOULD HAVE FOUND PRECIOUS LITTLE DIMINUTION OF POWER OVER IT INT HIS VERY MODERATE COMPROMISE. AND WHAT SAYS THE HONORABLE GENTLEMAN TO LEAVING THE BRITISH POPULATION OF LOWER CANADA IN THE UNRESTRICTED POWER OF THE LOCAL LEGISLATURE? THE COMMON SCHOOLS OF LOWER CANADA ARE NOT AS IN UPPER CANADA—THEY ARE ALMOST ENTIRELY NON-SECTARIAN ROMAN CATHOLIC SCHOOLS. DOES THE HONORABLE GENTLEMAN THEN DESIRE TO COMPEL THE PROTESTANTS OF LOWER CANADA TO AVAIL THEMSELVES OF ROMAN CATHOLIC INSTITUTIONS OR LEAVE THEIR CHILDREN WITHOUT INSRUCTION? (Hear, hear and cheers.) But, Mr. Speaker, I am further in favor of this scheme because it will bring to an end the sectional discord between Upper and Lower Canada. It sweeps away the boundary line between the Provinces so far as regards matters common to the whole people—it places all on an equal level—and the members of the Federal Legislature will meet at last as citizens of a common country. The questions that used to excite the most hostile feelings among us have been taken away from the General Legislature, and placed under the control of the local bodies. No man need hereafter be debarred from success in public life because his views, however popular in his own section, are unpopular in the other—for he will not have to do with sectional questions; and the temptation of the Government of the day to make capital out of sectional prejudices will be greatly lessened, if not altogether at an end. WHAT HAS RENDERED PROMINENT PUBLIC MEN IN ONE SECTION UTTERLY UNPOPULAR IN THE OTHER IN PAST YEARS? Has it been our views on trade and commerce, immigration, land settlement, the canal system, the tariff, or any other of the great questions of national interest? No, sir, it was from our views as to the applying of public money to local purposes, the allotment of public lands for local purposes, the building of local roads, bridges and landing piers with local funds, the chartering of ecclesiastical institutions, the granting of public money for sectarian purposes—the interference with our school system—and similar matters, that the hot feuds between Upper and Lower Canada have chiefly arisen, and caused our public men, the more faithful they were to the opinions and wishes of one section, to be the more unpopular with the other. A MOST HAPPY DAY WILL IT BE FOR CANADA WHEN THIS BILL GOES INTO EFFECT AND ALL THESE SUBJECTS OF DISCORD ARE SWEPT FROM THE DISCUSSION OF OUR LEGISLATURE."

Such were the strong views entertained by the old leader of the Liberal party of Upper Canada, and if anybody could speak with authority as to the desirableness of bringing the fierce sectarian controversies of fifteen years to an end that man was the Hon. George Brown. And it is a curious commentary on the sectarian agitation of the present day, that apart from the professional politicians who are ready to raise any cry to help a party bankrupt of principles, the chief agitators are men who were not then in the country or men who were too young to take part in the struggle or to know what its bitterness meant.

One other feature of the settlement deserves to be considered. When the House proceeded to vote on the terms of union Hon. John Sandfield Macdonald offered an amendment against the adoption of the clause for the settlement of the school question, and made a speech in which he expressed his preference to the disposal of minority rights by the majorities of the respective Provinces. Mr. Macdonald had always favored separate schools, and the last act was passed while he himself was Premier. In reply to him Alexander Mackenzie spoke as follows:

Mr. Mackenzie—If the honorable member for Cornwall (Hon. J. S. Macdonald) had shown the same zeal against the separate school system when he had the power to prevent legislation on the subject he would have saved himself and the party which kept him in power some trouble. It seems curious that he who was so anxious to promote the separate school system then should now be anxious in quite another direction. (Hear, hear.) This can only be done for the purpose of party strife, to put as many of us Upper Canadians as he can in a false position; but I CAN ONLY TELL HIM THAT I, HAVING STRUGGLED AS MUCH AS ANYONE TO PREVENT LEGISLATION TENDING TO BREAK UP OUR COMMON SCHOOL SYSTEM, AND HAVING FOUND MY EFFORTS UTTERLY INEFFECTUAL, DO NOT SEE THAT OUR POSITION WOULD BE ANY WORSE IF THE RESOLUTIONS WERE CARRIED INTO LAW. (Hear, hear.) I formerly stated that I thought the separate school system would not prove very disastrous if it went no further. I do not now think they will do much harm, if they remain in the same position as at present, and therefore, though I am against the separate school system, I am willing to accept this Confederation, even though it perpetuates a small number of separate schools. (Hear, hear.) Under the present Legislative union we are powerless in any movement for the abrogation of the separate system; it is even very doubtful if we could resist the demands for its extension. (Hear, hear.) We will not be in any worse position under the new system, and in one respect we will have a decided advantage, in that no further change can be made by the separate school advocates. We will thus substitute certainty for uncertainty. I deeply regret that the honorable member should have thought it necessary for any purpose to move this resolution.

The amendment was thrown out upon a vote of 8 yeas to 95 nays; a vote which showed how earnestly desirous the members of the old Legislature of the country were to finally settle the sectarian school question, and which was practically a vote indorsing the Separate School Acts of Upper and Lower Canada as they then stood.

In the face of this statement of the facts of the matter we cannot understand how reasonable and honorable men can favor the reopening of the controversy, the breaking of a solemn compact between the Provinces and the plunging of our people into a bitter religious and sectarian feud which would divide our citizens into two hostile camps, result in disaster to Confederation and end, as it almost certainly would, in one or more of the Provinces seeking the solution of its troubles by annexation with the United States. Russians, Turks and Arabs may think nothing of breaking the terms of a treaty without cause, but different conduct is expected of a civilized and Christian people.

HALIFAX (N. S.) CHRONICLE: We have only had four years of local Tory Government in this Province since Confederation, and the prospects are that Liberal rule will continue to the end of the century at least.

PETROLEUM in paying quantities has been found near Gallup, New Mexico.

THE Common Council of the City of Mexico is allowing itself to be rent in twain over the question of whether the laboring classes shall or shall not be compelled to wear pantaloons in place of the cotton—er —well, pants, now in vogue.

Modern science accomplishes many wonders, but none of its miracles can exceed in interest that of giving speech to the dumb. This seeming impossibility has been accomplished at the celebrated Perkins Institute for the Blind in Boston. Two little girls, deaf, dumb and blind, have been taught to speak. The process of training was arduous, and as yet the vocabulary of the pupils is limited, but they have acquired the power of vocalization and something of a knowledge of words and their sounds. After this a complete acquisition of speech ought to be merely a matter of steady growth in intelligence and of practice in the exercise of new-found faculties.

IN ENGLAND in 1868-69 there was 1 known thief to every 1,000 persons; in 1887-88 the percentage had fallen by nearly half, and there was only 1 known thief to every 1,945 persons. The decrease in the receivers of stolen goods is still greater. In 1868-69 there was 1 to every 8,430 people; in 1887-88 there was 1 to every 25,599. In 1869 there were 1,962 houses kept by receivers of stolen goods; in 1888 there were only 778. The number of suspected public houses, beer shops, and coffee shops has fallen within the same period from 3,197 to 753. In 1868-69 there was 1 policeman to every 858 people; in 1887-88 there was 1 policeman to every 769 people. Such are the last statistics.

VERY nearly 1,000 applications have already been made to the Quebec Provincial Government for the bounty of 100 acres of land to families of twelve or more living children. The act of the Legislature authorizing these grants was only sanctioned on April 6 last. Up to 1st May 547 applications for 100-acre lots, accompanied by satisfactory proofs of the existence of as many families of patriarchal size, had been addressed to the Provincial Secretary. On May 15 the number of applications had been increased to 720, and since that date others have been filed at the rate of 10 to 25 per day, so that up to the present time the Government has been placed in possession of proof establishing the existence and whereabouts of nearly 1,000 Canadian families in the Province of Quebec alone in which the husbandman and his fruitful vine have a dozen and upward of olive branches around about their table.

Catarrh

Is a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of **Ayer's Sarsaparilla**—the best of all blood purifiers. The sooner you begin the better; delay is dangerous.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physicians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint and completely restored my health."—Jesse M. Boggs, Holman's Mills, N. C.

"When Ayer's Sarsaparilla was recommended to me for catarrh, I was inclined to doubt its efficacy. Having tried so many remedies, with little benefit, I had no faith that anything would cure me. I became emaciated from loss of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was badly deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and referred me to persons whom it had cured of catarrh. After taking half a dozen bottles of this medicine, I am convinced that the only sure way of treating this obstinate disease is through the blood."—Charles H. Maloney, 113 River st., Lowell, Mass.

BASEBALL.

LONDON UNLUCKY.

TORONTO, June 4.—Rain stopped the game between London and Toronto this afternoon in the last half of the seventh inning, with the Tecumsehs at bat. Jupiter Pluvis was certainly unkind to the visiting team, for he deprived them of the credit of a run, two hits and the opportunity to overhaul the home team. The game was full of fine fielding, and both pitchers were effective. Atkisson, late of the Torontos, umpired under instructions from Secretary White. The Torontos scored a run in the third inning on McLaughlin's scratch hit in front of the plate, a stolen base, and two sacrifice hits by Newman and Bottenus. Their second and last run came in the sixth, when Bottenus got in a rap for three bases, and scored on Coleman's single. The Tecumsehs' nearest approach to scoring was in the fifth inning, when, with one out, Parks and Wright singled and were advanced a base on a wild pitch, but Murphy bit to Ike, who threw Parks, out at the plate, and McLaughlin by brilliant work threw Jones out at first. In the last half of the seventh Lutenberg went out on a fly. Reidy hit for two bases. Parks put up an easy fly, which Wood captured. Wright singled, but McLaughlin tried to deprive him of it, and made a low throw to first. Wood took his time in picking the ball up, and when he discovered that Reidy was running for the plate he made a poor throw to Grim and Reidy scored. Rain then fell, and the game was called, the score reverting back to the sixth inning. Score:

THE MONTREAL CLUB.

The season opens here on Monday next with three games here with the Torontos. Now the team that represents Montreal just wants to beat Toronto two out of three games and make the western men hustle for the third. Then Montreal will wake up, and the old-time rivalry between Toronto and Montreal will be aroused, and the grand stand will be up on its hind legs inside of three weeks, and the umpires will be anathematized with all the fervor and vigor of an educated baseball crank. Baseball has got to come in the long run, and it might as well come now to stay. There is a better opening now than ever before. Give us winning ball; above all things whip Toronto and Hamilton and the scheme is an assured success.—[Montreal Gazette.

FLYS.

Lem Felcher, on behalf of the Toronto Hotelkeepers' Club, offers to make a match with the hotel men of any city, town or village in Canada, Hamilton or London preferred.

DRAUGHTS.

THE "HERD LADDIE" AND THE AMERICAN CHAMPION.

Mr. James Wyllie, the champion draught player, who is at present in Australia, some time ago issued a challenge to play any draught player in the world a match of 70 games, wins and draws to count, for a stake of from £200 to £1,000 a side, and offering at the same time to give one game of a start. No one cared to take up the challenge, and latterly the old man of a hundred battles offered to play J. P. Reed, the American champion, a match of 50 games, restricted or unrestricted, for the championship of the world and a stake of £100 or £200 a side, and offering to play the match in Chicago if allowed $100 for expenses. Word has just come to hand that Reed's friends have promptly accepted the challenge on his behalf. They propose a match of 30 games, restricted or unrestricted, for either of the above sums mentioned by Mr. Wyllie. The allowance of the $100 for expenses to come out of the main stakes. The "Herd Laddie" some time ago announced his intention of returning home in August next, but was undecided whether to go by San Francisco or not; he has been advised to do so, and then cross the continent to Chicago, and come home by New York. In answer to the challenge put forth by Mr. Freeman's friends to back him for $1,000 against any player in the world, Mr. Wylie writes from Melbourne that he will play the ex-champion of America for the amount mentioned, at Providence, R. I., on condition of receiving $100 for expenses. Barker, however, was before the "Herd Laddie" in accepting Freeman's challenge, and it is not likely the latter will come to terms with Wyllie till he sees how he fares with Barker.

THE TURF.

LONDON, June 4.—In to-day's race for the Derby Orwell led to the distance post. Here Sainfoin drew to the front, and, coming on, won by three-quarters of a length. There was a neck between Le Nord and Orwell. Surefoot the favorite, came in fourth. The result of the race created the most tremendous excitement. Surefoot had been backed to win to the extent of hundreds of thousands of pounds. Among his backers were large numbers of the aristocratic classes, and they suffered severely. The time of the race was two minutes.

The race for the Stanley stakes was won by Rothchild's Bumptious, Lord Randolph Churchill's Inverness second, Milner's March Past third.

THE DRAWINGS AT MONTREAL.

MONTREAL, June 4.—The drawings for the Derby here amounted to $60,000 but for a variety of reasons the only indication that is given as to who the holders are is a list of numbers. The managers, Carslake and Ebbetts, are bound to secrecy, as the possession of such an amount as the starters bring to a holder might embarrass him with his creditors, who would at once enter a seizure. Besides, many holders are averse to having their names appear in a lottery transaction. In Carslake's—Three Surefoot tickets stayed in Montreal, while the fourth went to Dundas, Ont.; two Sainfoin tickets went to Hamilton, one to Toronto and one to the Western Hospital, Montreal; St. Serf is divided up between Montreal, Hamilton, Barrie and Midland, Ont. Of the fourth, Le Nord tickets, two in Montreal, and one each went to Sherbrooke and Toronto. Riveria went one each to Fort McLeod, N. W. T., Milton, Ont., Ottawa and Montreal. Two Rathbeal tickets came to Montreal, one to Toronto and one to Ottawa. The Heaume tickets were owned in Montreal, with the exception of the fourth, which went to Niagara. Garter went two to Torontonians, one to Carleton Place, and one to Quebec. Four Right-away tickets went to Toronto. Martagan sent two tickets to Toronto, one to Montreal, and one to Hamilton. Killowen was in Galt and in Ancaster, while two tickets stay in Montreal. One Astleys ticket went to Newcastle, N. B., one to Collingwood, Ont., and two to Montreal. Golden Gate has been opened twice to Montreal, once to Toronto and once to St. Catharines.

In Ebbetts' drawing Surefoot went to a Montreal and Ottawa syndicate, Sainfoin stayed in this city, St. Serf was held in Guelph, Rathbeal was owned in Hamilton. Both Martagan and Golden Gate went to London and Toronto again captured Right-away.

RACING AT EPSOM.

LONDON, June 5.—The race for the royal stakes at Epsom to-day was won by Iddlesleigh. The race for the Epsom grand prize was won by St. Serf, Ornatus second, Ben third.

LACROSSE.

Paisley defaulted to Owen Sound Wednesday.

At St. Marys on Wednesday the home club defeated Stratford in four straight games.

A lacrosse match was played at Brantford Wednesday between Niagara Falls and Brantford, resulting in a draw.

The intermediate championship of the Canadian Lacrosse Association will be contested for at the Industrial Fair, Toronto. The association will give a $100 banner to the victorious club.

LONDON CLUB ORGANIZED.

A well-attended meeting of the lovers of lacrosse was held in the Tecumseh House last evening with a view of organizing a team in this city. A spirit of enthusiasm prevailed and it was decided to proceed with the formation of the club. The following officers were elected: Honorary President, Mr. C. S. Hyman; honorary vice-president, Colonel Tracy; president, Mr. C. W. Davis; vice-president, Mr. George Sayers; captain, Mr. D. Mills; secretary-treasurer, Mr. A. D. Huff; committee, Messrs. A. T. Davis, J. A. Tune and H. L. Parsons. The club will be known as the London Lacrosse Club. A general meeting is called for Friday when the members will be pleased to see all who are interested in the use of the stick.

BILLIARDS.

J. F. McCleery says he will accept Ive's challenge to play 2,000 points straight billiards against his 3,000 points for $1,000 a side, if Ives will deposit $500 as a forfeit.

A billiard-playing reader wants to know how Jacob Schaefer's all-rail run of 2,996 consecutive points, in his San Francisco match with J. B. F. McCleery, affects the billiard record. His curiosity is excited by the claim that this is the highest all-rail run on record. This is not so. Under the rules of professional billiards runs must be made upon a standard table to be counted in the record. Schaefer's achievement with McCleery was upon a 4½x9 table, which is the smaller style. The standard measurement is 5x10. Vignaux ran over 1,500 in a match with Slosson in Paris on a standard table, and Slosson himself rolled up over 1,100. Schaefer's San Francisco run is interesting as an evidence of great steadiness of technical execution at the nurse stroke. He made it in a game that was divided into three sections of 1,000 points each, in which he was to discount his adversary. He did it, if anything, easier than he might have rolled off a log. The score was: Schaefer—0, 4, 0, 2996—3,000. Average, 750. McCleery—0, 2, 13—15. Average 5. Schaefer might have gone on and made 1,000,000 in the same fashion.

THE TRIGGER.

The statement that in the London Gun Club gun contest each contestant would shoot at 300 birds with the privilege of shooting at 300 more was incorrect. There is no second trial, eaoh man being given but 300. The time for completion of the cup contest has been extended to Aug. 1.

LAWN TENNIS.

Now that the tennis championship is decided, Pettitt will soon return to this country, but not until he has a go with Champion Kerr for lawn tennis honors. The match between himself and Kerr will be played in Dublin, on the grounds of the Fitzwilliam club, in a few days. It will be for a purse, and if the players so decide it will be for the professional lawn tennis championship of the world. After the grand fusilade of Kerr at Newport last year, it is not reasonable to expect Pettitt to come out of a tennis court and play a championship game on the lawn. A dinner and reception will be given Pettitt on his way home.—[Boston Herald.

Total Destruction of the Town of Bradshaw.

Nine Persons Reported Killed Outright—Several Mortally Injured.

LINCOLN, Neb., June 5.—Reports from the scene of the tornado in Bradshaw confirm the worst reports received of the destructiveness of the storm of Tuesday night. Bradshaw is a town of 500 people, situated on the Nebraska Railway, about 60 miles west of Lincoln. The storm struck the town at 8:30 Tuesday evening, coming from the southwest. Scarcely a moment's warning was given, the

ROAR OF THE WHIRLWIND

being the first notice that the terrified people heard. It struck the town fairly, and there was not left a single building. Every business house was made a total wreck, and the principal streets were filled with the ruins. In the extreme western part of the village a few houses are left with a semblance of their former appearance, but they are without windows and doors and their contents were scattered broadcast over the prairie. The depot building was crushed into kindling-wood and every car standing there was wrecked, except one that was loaded with stock, and which was blown, without leaving the track, to York, a distance of nine miles. The physicians say that in all 12 are dead, 8 are mortally wounded and perhaps 21 hurt, more or less seriously.

THE KILLED.

John Miller.
Child of J. Brumsey.
Child of Mr. Chapin.
Wife and child of Isaac Pennock, living in the country.
Two members of Mr. Shaw's family, living in the country.
Wife and child of Mr. Wink, and hired man.

THE INJURED.

Dr. O. M. Moore, Mrs. Alex. Miller, Lulu Miller, Carrie Miller, Mr. and Mrs. John Babcock, Mr. and Mrs. John Brumsey, Isaac Pennock, Mrs. Chapin, wife of the R. and M. agent, four members of the Cutshaw family, Mr. Kehar, Miss Nellie Dorsey, Mr. and Mrs. Wiliamson, Prof. McDermott, Thomas Ross, Mrs. Wiggins, R. Logan, wife and two children, Tylan Colby and many others.

Gov. Thayer ordered the York militia to the scene to assist in caring for property. He also sent 60 army tents and other supplies on a special train.

A FIGHT IN MID-AIR.

Two Painters on a Scaffold Attract a Large Crowd.

[Detroit Free Press, June 4.]

Yesterday afternoon two painters at work on a swinging scaffold that was suspended above the fourth-story window of a brick block on Farmer street, near Monroe avenue, became involved in a quarrel which finally led to blows. The perilous position of the men as they stood on the swaying scaffold, striking vicious blows at each other, was so apparent to the hundred or more spectators below, that each instinctively held his breath in horrible suspense, expecting every second to see either one or both of the combatants dashed to pieces on the pavement beneath them. At one juncture of the fight, the smaller man of the two made a sudden lunge at his brawny adversary, which caused the scaffold to careen violently to one side. "Now," thought every onlooker, they must fall." But no! quick as a flash the large man seized one of the side ropes, and swung the frail, suspended platform into place, and the men were safe again.

Sergeant Culver, chief of detectives, happened to be passing along the street and had his attention attracted by the threatening attitude of the men, each toward the other. Taking in the situation at a glance, the Sergeant darted into the hallway of the building on which the men were working and hurried up four flights of stairs as rapidly as a man approximating 200 pounds in weight can when the mercury is above 80°. Some friendly voice below sent up the warning cry, "Look out for the copper," and the belligerents at once suspended hostilities. One of them jumped into a neighboring window and secreted himself somewhere, while the other climbed up one of the scaffold ropes to the roof of the building and when last seen was sprinting along the roof tops at a gait that would do credit to a professional.

Every one breathed a sigh of intense relief. Sergeant Culver mopped his perspiring brow and said he was glad it wasn't any worse, traffic on Farmer street was resumed and peace and quietness once more prevailed.

Dr. Wistar's Balsam of Wild Cherry is "a combination and form indeed" for healing and curing diseases of the throat, lungs and chest. It cures a cough by loosening and cleansing the lungs and allaying irritation; thus removing the cause, instead of drying up the cough and leaving the disease behind.

A Dinner Pill.—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the sytem. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convers the food partaken of into healthy nutriment. They are just the medicine to take if troubled with Indigestion or Dyspepsia.

Not a Pimple on Baby

Baby one year old. Bad with Eczema. Hair all gone. Scalp covered with eruptions. Cured by Cuticura. Hair splendid and not a pimple on him.

Cured by Cuticura

I cannot say enough in praise of the CUTICURA REMEDIES. My boy, when one year of age, was so bad with eczema that he lost all of his hair. His scalp was covered with eruptions, which the doctors said was scall head, and that his hair would never grow again. Despairing of a cure from physicians, I began the use of the CUTICURA REMEDIES, and, I am happy to say, with the most perfect success. His hair is now splendid, and there is not a pimple on him. I recommend the CUTICURA REMEDIES to mothers as the most speedy, economical and sure cure for all skin diseases of infants and children, and feel that every mother who has an afflicted child will thank me for so doing.

MRS. M. E. WOODSUM, Norway, Me.

Fever Sore Eight Years.

I must extend to you the thanks of one of my customers, who has been cured by using the CUTICURA REMEDIES, of an old sore, caused by a long spell of sickness or fever 8 years ago. He was so bad that he was fearful he would have to have his leg amputated, but is happy to say he is now entirely well—sound as a dollar. He requests me to use his name, which is H. H. CASON, merchant.

JOHN V. MINOR, druggist, Gainsboro, Tenn.

We have been selling your CUTICURA REMEDIES for years, and have the first complaint yet to receive from a purchaser. One of the worst cases of Scrofula I ever saw was cured by them.

Live Stock Markets.

TORONTO.

June 4.—There were 35 loads of live stock brought in to-day, including 150 sheep and lambs, and about the same number of hogs and calves. The general market was firm, active and steady, and in most lines the prices were maintained. Export cattle continued dull and weak, with prices lower. The British market is rather steadier this week, but is still in an unsatisfactory condition. Cables received to-day of sales made in Liverpool on Monday quote a loss of from $10 to $12 per head to shippers. The average price for export cattle was from $4 90 to $5, and one or two lots went slightly above 5c per pound. Butchers' cattle were in good demand at firmer prices, and all brought in were readily disposed of. Picked lots went at 3c per pound, and one or two extra lots went at $5 12½ per cwt. Loads were quoted at $4 62½ to $4 75 per cwt.

Sheep and Lambs.—Spring lambs steady at $4 to $5 each. Sheep are in fair request at $6 to $7 each. For butcher's slipping sheep are quoted at 5c per lb with the wool on, but there is no particular demand for them as yet.

Calves.—Market steady. Prices ranged from $3 50 to $6. All the offerings sold.

Hogs.—Offerings all mixed, not a single straight load coming in. On this account prices were lower. The highest paid was $5 20 per cwt., and values ranged from that down to $4 50 per cwt. for sows. Stores were not in demand.

MONTREAL.

June 4.—At the Montreal stock yards despite the unfavorable reports from the other side, the receipts continue larger. Trade for the past week has been unsteady, and prices closed if anything lower. But few butchers' cattle were received, but this shortage was more than met by the over-supply of shippers, owners in many cases selling here instead of shipping. No improvement in the hog market worth speaking of. Receipts of calves are falling off. We quote the following as being fair values: Cattle, export, 4¾c to 5c; cattle, butchers' good, 4½c to 4¾c; do butchers' medium, 3¾c to 4c; do., do. culls, 3c to 3½c; sheep, 4¾c to 4¾c; hogs, 5c to 5¼c; calves $3 to $5.

The Horse Market.

MONTREAL.

June 4.—Receipts of horses at the Montreal Horse Exchange for the week ending May 31 were 174. The horse trade, though dull, was better than was generally looked for at this season, as far as numbers are concerned, but prices continue low, and the outlook for next week is quiet.

The Dairy Markets

BROCKVILLE.

June 4.—About 4,300 boxes of cheese boarded, 1,000 colored, balance white. Five hundred (white) sold at 8¾c; balance (white) sold at 8 7-16c; colored sold at 8¼c.

The Oil Market.

PETROLEA.

June 5.—Oil opened and closed to-day at $1 08.

TO "ADVERTISER" AGENTS

By the earliest mails to-morrow you will receive the morning edition of the ADVERTISER, with full election returns. Look out for it.

LONDON AND PRECINCTS.

The river is higher than it has been in two months.

"Jack Gordon; Knight Errant," at the Grand Opera House to-night.

Mr. H. Cline, of this city, has been appointed to the agency of the G. T. R. station in Glanworth.

Mr. W. R. Meredith came to the city last night tired out with the campaign. He will here await the results of the elections.

The Glencoe Choral Union will be assisted by Dr. Karl Verrinder, of London; Herr Standhaft, of Strathroy; Mr. Wm. Taylor, of London, and others, on June 12.

Mr. T. Rendall and wife, of San Francisco, are visiting Mr. Jabez Harwood, Princess avenue, this city. After staying here for awhile they intend going to England.

Mr. John S. Saul, of Ashland, Wis., was in Strathroy during the week, the guest of his sister, Mrs. W. H. Armstrong. Mr. Saul has disposed of his newspaper interests in Ashland, and is taking a well-earned vacation.

Mr. A. Beverley, of Huron College, London, paid a visit to the sanctum Monday morning. He was a pupil of the editor of this paper eleven years ago. He filled the pulpit of St. James Chruch here very creditably on Sunday last.—[Ingersoll Sun.

Detective Graham arrested William Lumsden at Parkhill and brought him to this city this morning. Lumsden was wanted for interfering with the pound-keeper of that place. Squire Jarvis allowed Lumsden to go on bail until Monday next.

The company in which Miss Alice King Livingston will appear here to-night presents "Jack Gordon: Knight Errant"—Mr. W. C. Hudson's society play. A telegram received from the Stratford Opera House says: "Jack Gordon Company playing here last night, gave a splendid performance to a delighted audience."

Postmaster Miller, of Vancouver, spent Saturdry in the city with his old schoolmate, Capt. Douglass, of the Leland House. Mr. Miller has lived on the coast for 28 years. He is a native of Middlesex, Ont. and is now returning home from a visit to the scenes of his childhood. He is now one of the "solid" men of the Terminal city.—[Winnipeg Free Press.

Mr. John Hanley, son of Councilor Hanley, of Strathroy, who served his apprenticeship to the drug business with F. W. Meek, of Strathroy, has succeeded in carrying off the highest honors at the Ontario College of Pharmacy at the last examination, taking two gold medals, one for general proficiency and the other for chemistry. Mr. Hanley has decided to spend the summer with his father in Marlette, Mich.

Rev. Geo. Brown, the respected pastor of the Frank Street Methodist Church, Strathroy, accompanied by Mrs. Brown, has left for Toronto and Montreal, from whence should his health permit they will sail for the old country in a short time. The reverend gentleman has been suffering for some months past from an attack of la grippe, the effects of which left him in a very weak state, and it is with the expectation that a change of climate would be beneficial that the trip is being taken.

The residence of Mrs. Kerr, Adelaide street, was the scene of a very interesting event last evening, it being the marriage of her daughter Lizzie to Mr. Chas. Currie, secretary of the Street Railway Company. Mr. Crossin acted as best man, and Miss Maggie Kerr, sister of the bride, as bridesmaid, the ceremony being performed by Rev. Mr. Harrison. A large number of invited guests were present, some from a distance, who wished the young couple much happiness. Many valuable presents were received, which attested to the esteem in which the young people were held.

A Tinsmith's Heavy Fail.

Harry Braddon, tinsmith, a young man about 24 years of age, and a boy named Wilkinson, went out to a farm yesterday near Mount Brydges to take the measure for an eavestrough on a barn. The ladder was not quite long enough, and standing on the side pieces at the top he went to shift his position and fell about 32 feet. He lies in a serious condition, and it is not known whether he will survive or not.

The New Waterworks Springs.

The Water Commissioners met at the Mayor's office this morning. In the matter of the purchase of additional spring property west of Springbank the City Engineer reported that he had obtained the following prices from the owners: (1) J. Dufton, 12 acres, $1,200, will not sell river lot alone; (2) P. Flint, 25 acres, will sell 16 acres river lot for $3,000, and remainder on which is a house, barn and orchard, for $4,000, he to remove the buildings; (3) J. Coombes, 16 acres and house, $2,000; (4) J. W. Colville, 35 acres, $100 per acre and one year's revenue from additional water thus secured, with permission to remove buildings. The Engineer recommended that the necessary lands be secured at once in order to allow the necessary work to go on and that the question of payment be placed in arbitration. The Board decided to instruct the Solicitor to take immediate action towards having the cost placed in arbitration. The request of the C. P. R. for a fixed water rate was considered and laid over until the regular meeting of the Board, the Secretary in the meantime to ascertain how much water the railway intends to use. A resolution was carried requesting the Council to furnish the Commissioners with the moneys required for the purpose of increasing the water supply and extending the mains in accordance with the statute passed at the last meeting of the Legislature.

SOUTH LONDON.

A scarlet fever card was posted to-day on a house in the sixth ward, over Clark's bridge.

Mr. John Mason, 135 Wortley road, London South, and formerly the well-known host of the City and Western Hotels, this city, has been lying dangerously ill for some time at his residence. Serious doubts are entertained as to his recovery.

NEIGHBORHOOD NEWS.

—Essex farmers will join with Kent farmers and have an excursion to the Model Farm, Guelph.

—During the storm the other night lightning struck the barns belonging to the Karn Hotel, Beachville, and they were burned to the ground.

—The Cluff property, on the north side of Maria street, Sarnia, was sold by public auction last Wednesday. A farmer from Warwick was the purchaser at $1,800.

—Mr. W. Gilbert, of the car wheel foundry, St. Thomas, had the top of the second finger of the right hand taken off by a car wheel falling upon it Wednesday morning.

—The storm on Tuesday night blew over two shanties occupied by colored people on McDougall avenue, Windsor, but no one was injured. An elm tree on Aylmer avenue, considered the largest tree in the county, was also blown down.

VOICES OF THE PEOPLE.

READERS OF THE ADVERTISER.—Let us hear from you on all questions affecting the public. Make your communications brief and send your name as a guarantee of good faith.

School Board and Salaries.

To the Editor of the ADVERTISER:

Kindly correct an error in the ADVERTISER'S report of the last meeting of the Board of Education. My communication to the said Board did not refer to a "reduction of salary for month of June," but was an application for an increase of salary. I have not at any time received an over-payment, so that no reduction was made in my case.

L. J. WRIGHTON.

London, June 4.

Rev. Mr. Porter's Case.

To the Editor of the ADVERTISER:

Allow me, please, to correct a mistake or two in yesterday's report concerning me. I did not say that "all," or even any "of the influential members of the church were anxious for me to remain." I said I thought a large portion of the church would like to have me remain, and even many who voted to accept my resignation, had only the friendliest feeling toward me, personally and pastorally; but thought, under all the circumstances, a change might be best, both for me and the church. Let me add here, that whatever other ideas may be formed, my only anxiety is, or has been, that my staying or going, might be according to his will, "who holdeth the seven stars in his right hand," etc., as only thus could blessing be in either. Again, I did not answer your reporter that I had "received calls from several churches" since my resignation, but that I had received several communications concerning our church, but I had no plans formed for the future. Finally, allow me to say that my knowledge of the previous night's church meeting was derived solely from the Free Press' statement of it, the Clerk's report to me having been simply what he published.

Yours,

W. H. PORTER.

BASEBALL.

PROBABLY FATALLY HURT.

In the fifth inning of Tuesday's game between Omaha and St. Paul, Umpire Leach, while standing back of the pitcher, was hit in the pit of the stomach by a batted ball and taken from the grounds unconscious. He will probably die.

New Drygoods Store.

The excitement at the new bargain drygoods store continues unabated. They are selling the finest quality of dress goods there, at fully one-third less than regular value. Parasols one-half the regular prices, sateens, prints and ginghams at one-fourth the regular market value. Hosiery, gloves, corsets and trimmings away down. Some very fine table linen two yards wide at half price. In fact it is a regular bonanza for the ladies of London and surrounding country. We are sure the London ladies are too wise to let such an opportunity go by unheeded. Their place of business is 136 Dundas street, opposite the Market lane. b

Coughs, Colds, Croup.

Allen's Lung Balsam was introduced to the public after its merits for the positive cure of such diseases had been fully tested. It excites expectoration and causes the Lungs to throw off the phlegm or mucus; changes the secretions and purifies the blood; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect that it is warranted to break up the most distressing cough in a few hours' time, if not of too long standing. It contains no opium in any form and is warranted to be perfectly harmless to the most delicate child. There is no real necessity for so many deaths by consumption when Allen's Lung Balsam will prevent it if only taken in time. For Consumption, and all diseases that lead to it, such as Coughs, neglected Colds, Bronchitis, Asthma and all diseases of the Lungs. ALLEN'S LUNG BALSAM is the Great Modern Remedy. For Croup and Whooping Cough it is almost a specific. It is an old standard remedy, and sold universally at 50 cents and $1.00 per bottle. The 25-cent bottles are put out to answer the constant call for a Good and Low-Priced COUGH CURE. If you have not tried the Balsam, call for a 25-cent bottle to test it.

FLORENCE KNITTING SILK

THIS IS NOW MUCH USED FOR FRINGE and for tassels, as its soft finish renders it superior to other silk for this purpose. It will not untwist and become frayed in wear.

Those elegant costumes seen in the show rooms of our leading merchants are often beautifully "Feather-Stitched" by hand. Examination shows that the work is done with No. 300 Florence Knitting Silk, thus securing beauty, durability and economy. Every enterprising dealer sells it, but if your dealer does not have it in stock, send the price (75c. per ounce—38c. per ball) in postage stamps to

COLONEL QUARITCH, V.C.

By H. RIDER HAGGARD.

[Copyrighted by Rose Publishing Co., Toronto, Ont., and printed by special arrangement, through the American Press Association.]

As soon as he was gone the envelope was opened by Mr. de la Molle, who took from it two legal looking documents which he began to read. Suddenly the first dropped from his hand, and with an exclamation he snatched at the second.

"What is it, father?" asked Ida.

"What is it? Why it's just this. Edward Cossey has transferred the mortgages over this property to Quest, the lawyer, and Quest has served a notice on me calling in the money," and he began to walk up and down the room in a state of great agitation.

"I don't quite understand," said Ida, her breast heaving, and with a curious light shining in her eyes.

"Don't you," said her father, "then perhaps you will read that," and he pushed the papers to her. As he did so, another letter, which he had not observed, fell out of them.

At this point Harold rose to go.

"Don't go, Quaritch, don't go," said the Squire. "I shall be glad of your advice, and I am sure that what you hear will not go any further."

At the same time Ida motioned him to stay, and though somewhat unwilling he did so.

"Dear sir," began the Squire, reading the etter aloud—

"Inclosed you will find the usual formal notices calling in the sum of £30,000 recently advanced upon mortgage of the Honham Castle estates by Edward Cossey, Esq. These mortgages have passed into my possession for value received, and it is now my desire to realize on them. I most deeply regret being forced to press an old client, but my circumstances are such that I am obliged so to do. If I can in any way facilitate your efforts to raise the money, I shall be very glad to do so, but in the event of the money not being forthcoming at end of the six months' notice, the ordinary steps will be taken to realize by foreclosure.

I am, dear sir, yours truly,
W. QUEST."

"James de la Molle, Esq., J. P."

"I see now," said Ida. "Mr. Cossey has no further hold upon the mortgages or on the property."

"That's it," said the Squire; "he has transferred them to that rascally lawyer. And yet he told me—I can't understand, I really can't."

At this point the Colonel insisted upon departing, saying that he would call again in the evening to see if he could be of any assistance. When he was gone, Ida spoke in a cold determined voice:

"Mr. Cossey told me that when we were married he would put those mortgages in the fire. It now seems that the mortgages were not his to dispose of, or else that he has since transferred them to Mr. Quest, without informing us."

"Yes, I suppose so," said the Squire.

"Very well," said Ida. And now, father, I will tell you something. I engaged myself—or to be more accurate, I promised to engage myself—to Edward Cossey on the condition that he would take up these mortgages when Cossey & Son were threatning to foreclose, or whatever it is called."

"Great Heavens!" said her astonished father, "what an idea!"

"I did it," Ida went on, "and he took up the mortgages, and in due course he claimed my promise, and I became engaged to marry him, though that engagement was most repugnant to me. You will see that, having persuading him to advance the money, I could not refuse to carry out my share of the bargain.

"Well," said the Squire, "this is all new to me."

"Yes," she said, "and I should never have told you of it had it not been for this sudden change in the position of affairs. What I did I did to save our family from ruin. But now it seems that Mr. Cossey has played us false and we are to be ruined after all. Therefore, the condition upon which I promised to marry him has not been carried out, and my promise falls to the ground."

"You mean that supposing he lives you will not marry Edward Cossey."

"Yes, I do mean it."

The Squire thought for a minute. "This is a very serious step, Ida," he said. "I do not mean that I think that the man has behaved well, but still he may have given the mortgages to Quest under a pressure of some sort, and might be willing to find the money to meet it."

"I do not care if he find the money ten times over," said Ida. "I will not marry him. He has not kept to the letter of his bond, and I will not keep to mine."

"It is all very well, Ida," said the Squire "and of course nobody can force you into a distasteful marriage, but I wish to point out one thing to you. You have your family to think of as well as yourself. I tell you frankly that I believe that, as times are, it will be possible to raise £30,000 to pay off the charges, unless it is by the help of Edward Cossey. So if he lives—and as he has lasted so long I expect he will live—and refuse to go on with your engagement to him, we shall be sold up, that is all, for that fellow Quest, confound him, will show us no mercy."

"I know it father," answered Ida, "but I cannot and will not marry him, and I do not think you can expect me to. I got engaged, or rather promised to get engaged to him, because I thought that a woman had no right to put her own happiness before the welfare of an old family like ours, and I would have carried out that engagement at any cost. But since then, to tell you the truth," and she blushed deeply, "not only have I learned to dislike him a great deal more, but I have come to care for some one else, who also cares for me, and, who therefore, has a right to be considered. Think father, what it means to a woman to sell herself into bodily and mental bondage—when she cares for another man."

"Well, well," said her father, with some irritation. "I am no authority upon matters of sentiment; they are not in my line, and I know that woman have their prejudices. Still you can't expect me to look at the matter in quite the same light as you do. And who is the gentleman, Col. Quaritch?"

She nodded her head.

"Oh," said the Squire; "I have nothing to say against Quaritch, indeed, I like the man; but I suppose that if he has £500 a year, that is every sixpence he can count on."

"I had rather marry him on £500 a year than Edward Cossey upon £50,000."

"Ah, yes, I have heard women talk like that before, though perhaps they think differently afterward. Of course, I have no right to obtrude myself, but when you are comfortably married, what is going to become of Honham, I should like to know, and, incidentally, of me?"

"I don't know, father, dear," she answered, her eyes filling with tears; "we must trust to Providence, I suppose. I know you think me very selfish," she went on, catching him by the arm, "but oh, father! there are things that are worse than death to women, or, at least, to some women. I almost think that I would rather die than marry Edward Cossey, though I would have gone through with it if he had kept his word."

(To be continued.)

FUN, FACTS AND FICTION

A Judicious Compound of Wit and Wisdom.

Do not think you can cultivate a man's acquaintance by giving him an occasional dig.

"Hair Magic"

Is a good name of Dr. Dorenwend's German preparation for the hair. It really works like magic. All who have used it pronounce it to be unequaled for remedying the lost vitality of the hair roots, restoring gray hair, removing dandruff, etc. Just try it. It is first-class. All druggists sell it.

Why is an auctioneer like a king? Because the people must do his bidding.

A man's wife should always be the same especially to her husband, but if she is weak and nervous and uses Carter's Iron Pills, she cannot be, for they will make her "feel like a different person," at least so they all say, and their husbands say so, too.

There is really no tangible objection to violently plaid trousers, except that they keep one constantly wondering whose move it is.

Carter's Little Liver Pills must not be confounded with common Cathartic or Purgative Pills, as they are entirely unlike them in every respect. One trial will prove their superiority

Any fine-looking man is brave enough to strike an attitude.

Nothing impure or injurious contaminates the popular antidote to pain, throat and lung remedy, and general corrective, Dr. Thomas' Eclectric Oil. It may be used without the slightest apprehension of any other than salutary consequences. Coughs, rheumatism, earache, bruises, cuts and sores succumb to its action.

KINGS IN DANGER.

"Uneasy Lies the Head that Wears a Crown."

"The crowned heads of Europe are having a great deal of trouble in these days, not only from the cares of royalty, but also from bodily ailments," says the Medical Record. The Czar of Russia is melancholy and his nerves are terribly shattered. His wife is even worse, and is subject to attacks of intense nervous prostration. The Emperor of Austria, in consequence of the suicide and the sad circumstances attending the death of his son, is a melancholy, nervous, heart-broken man, while the Empress is said to be a martyr to sciatica and melancholia. The King of Holland is paying the horrible penalty of a dissipated life. The King of Italy suffers from chronic dyspepsia.

The list might be continued still further, but this is enough to show that nervous diseases are alarmingly prevalent at the present day. In our own country we daily hear of the death of some prominent person from heart failure, paralysis or other fatal disorder, directly traceable to the shattered nerves that result from overwork and overworry. In this city there are hundreds of men and women who are suffering from peculiar depression of spirits, anguish of mind and gloomy forebodings, while headaches, disordered digestion and poor sleep are a few of the bodily ailments with which they suffer. They are nervous, excitable, irritable, and morbidly fearful of coming evil. The muscles are wasted, and there is a general sense of weakness and lack of ambition. The skin is sallow, and perhaps is marked with unsightly eruptions. Instead of being cheerful and contented, they are morose, fretful and easily inclined to take offense. Loss of appetite, failure of strength and general debility are common, while perhaps a dull and heavy ache right across the back makes the patient think himself a victim to serious kidney diseases.

All of these grave troubles are the result of weakened, overstrained nerves, and can be readily cured by the use of Paine's Celery Compound. It will give strength to the nerves, tone to the brain, and infuse new vitality, vigor and ambition. The muscles will be strong, the step brisk, and appetite will return. Aches and pains will be no more, sleep will be restful and refreshing, and the patient will be in better condition for work than in many years.

Stock and Farm Jottings.

Corn planting was practically completed in the Western States by May 20.

It is better to use Paris green in solution on potatoes than to try to apply it dry. There is then no danger of inhaling the poison.

Fabulous prices were paid for the Early Rose potato on its first introduction—$50 for a peck, $3 per pound, $2 for five ounces tuber, or at the rate of $384 per bushel.

Paris consumes, on an average, 300,000 litres (quarts) of milk per day. In summer this quantity falls to 210,000 litres, and the difference is used in making cream and fresh cheese. Four-fifths of this milk is furnished by milk companies, which gather it from as far as 60 or even 100 miles from Paris.

A Connecticut farmer who has kept sheep for twenty years without the loss of a single individual from dogs, though his neighbor's flocks have suffered severely, attributes his immunity to the use of bells; he has a flock of 100 sheep, on which he puts 50 bells, preferring the cow-bell pattern as most durable.

DR. WEISMAN, a ponderous pundit among German biologists, is trying to show that artificial modifications of living forms can be transmitted from one generation to another. He has cut the tails off some 900 white mice in the hope that they will breed a race of mice without tails.

My Toothache!

Is an exclamation heard every hour in the day. Toothache is the most common ailment of young and old, and in the aggregate inflicts more suffering than perhaps any other single complaint. A one-minute cure is what everybody desires to possess. Nerviline—nerve pain cure—acts almost instantly in relieving the agony, and as a sample bottle affords a quantity sufficient for 100 applications, 10 cents fills the bill. Polson's Nerviline is the only positive remedy for toothache and all nerve pains. Sold by all dealers in medicine.

Those census questions include about everything that is possible in such an inquisition. But there is one inquiry which has been forgotten. It is, "Where did you get that hat?"

CERTIFICATES OF STRENGTH AND PURITY

OFFICE OF THE PUBLIC ANALYST.
MONTREAL, Sept. 9, 1887.
To the Canada Sugar Refining Co., Montreal.
GENTLEMEN,—I have personally taken samples from a large stock of your Granulated Sugar, "REDPATH" brand, and carefully tested them by the Polariscope, and I find these samples to be as near to absolute purity as can be obtained by any process of Sugar Refining.
The test by the Polariscope showed in yesday's yield 99.99 per cent. of Pure Cane Sugar, which may be considered commercially as ABSOLUTELY PURE SUGAR.

MONTREAL, Sept. 9, 1887.
To the Canada Sugar Refining Company:
GENTLEMEN,—I have taken and tested a sample of your "EXTRA GRANULATED" Sugar and find that it yielded 99.98 per cent. of Pure Sugar. It is practically as pure and good a sugar as can be manufactured.
Yours truly,
G. P. GIRWOOD.

THE WEATHER.

TORONTO, June 4—11 p.m.—Since last night the pressure in Canada has changed very little, but a depression which was over the Southwestern States is now moving towards the lakes with increasing energy. The weather has been generally fair and very warm, with local thunder storms in Ontario and fair and comparatively cool in the Eastern Provinces. The wind has been moderate and variable on the lakes. Maximum temperatures: Winnipeg, 68°; Toronto, 80°; Kingston, 72°; Montreal, 70°; Quebec, 60°; Halifax, 68°.

LOCAL TEMPERATURES YESTERDAY.

For 24 hours ending 8 p.m.—Observations taken at 3 a.m., and 8 p.m.: Highest, 83°; lowest, 62°; mean (daily), 75°.

PROBABILITIES

For the next 24 hours for the lakes: Fresh to strong winds, mostly south and west; fair to cloudy; warm weather, with local showers and thunder storms.

ELECTION RETURNS.

The ADVERTISER has made special arrangements for receiving the returns of to-day's elections not only from the three Middlesexes, but from every constituency in the Province. For the convenience of the public, these returns will be bulletined as they come in immediately in front of the ADVERTISER office.

LONDON AND PRECINCTS.

Two drunks were remanded till Monday and one was discharged by the Magistrate this morning.

Geo. Jackson and Wm. Phillips appeared at the Police Court this morning to answer for a breach of the bylaw for allowing their horses to roam at large. Jackson was not present, and Phillips was acquitted.

The report that Charles Mummery, formerly of this city, fell and broke his leg at the corner of Michigan avenue and First street, Detroit, was erroneous. The small bones of his left foot were broken during a friendly wrestling bout in the Wolverine Club's parlors in that city.

Thomas Halliday, aged 10 years, was arraigned at the Police Court this morning, charged by Geo. Burness, 211 Dundas street, with the larceny of several toys, including a drum. The complainant did not push the charge, and the prisoner was bailed to appear in a week's time, when several other boys implicated with Halliday will also be tried.

The election in the west ward of Tilsonburg, to fill the vacancy of the Town Council, occasioned by the death of J. F. Tribe, resulted in the return of Jeff. N. Wood, who obtained a majority of sixteen votes over his opponent, Andrew Slater. Mr. Wood is well known in this city being a brother of Peter and Fred Wood. The three brothers took part in the minstrel performances by the Young Liberals last winter.

South Huron.

A rousing meeting was held at Exeter last night, addressed by Messrs. R. H. Collins, Mr. McLean, editor of the Seaforth Expositor, and Mr. Geo. C. Gibbons, Q.C., of this city. Mr. Bishop is certain of re-election. The Tories, to counteract the effect of the meeting, got up a roorbach about an alleged murder of a Protestant by a party of Catholics. The lie was discounted and fell flat.

Wedding Bells.

A pleasant and quiet wedding took place at Trinity Church Wednesday at 3:30. Rev. John Ridley, rector, assisted by the Rev. E. M. Bland, performed the ceremony. The high contracting parties were Miss Minnie Blain and Mr. J. E. Warnock. The bridesmaids were Miss Sara Blain, sister of the bride, and Miss Morgan, of Hamilton; the groom was supported by Mr. Adam Beck, London, and Mr. R. O. McCulloch, of Galt. The happy couple left at 5:23 for New York.—[Galt Reformer.

Toronto Proud of Paul Peel.

The awarding of the gold medal for especial excellence to Paul Peel, of this city, by the Paris Salon causes the Toronto Globe to devote nearly a column to a laudatory sketch of the artist. Among other things it says: "Indirectly, Toronto can claim some share in the young artist's success, as this is the home of two of his sisters. Miss Mildred Peel, who is employed by the Education Department modeling busts of public men, has established her reputation as a sculptor and has also done some good work in painting. For the Ontario Government's collection she has modeled busts of Sir Thomas Galt, Sir Adam Wilson, Sir Alexander Campbell, Lord Dufferin, Lord Stanley, etc., and has just returned from Montreal, where she was engaged in making a bust of the late Hon. John Sandfield Macdonald. The other sister is married to Mr. R. B. Belden, of the Belden publishing firm, and resides on Yorkville avenue."

Gilmore on Saturday.

To-day's Globe referring to the Gilmore concerts yesterday says: Gilmore's band has long been famous throughout the United States and Canada as the great military band whose excellence exceeds that of all competitors in its field, and its popularity has been no less general than its fame. Mr. Gilmore has mingled classical and popular music with such a liberal hand in his programmes that all tastes would be able to find some features which would appeal to their sentiment, and as a result every one went away from the Pavilion pleased and happy. One new feature of the programme was the "Benediction of the Poignards," a highly dramatic scene which was splendidly played. Miss Ida Klein, the soprano of the organization, has a brilliant soprano voice, combining great sweetness with power, and she gave excellent renderings of the "Garden Scene," from "Faust" and the "Roberto Aria." Gilmore will be at Queen's Avenue Rink on Saturday afternoon and evening. Preparations are being made for large crowds.

SHOWING HIS HAND.

Mayor Taylor on the Stump—Anything to Beat Mowat.

One of the most interesting meetings of the campaign was held at Ballymote last night. The principal speakers were Mayor Taylor and Mr. Newton Rowell, a young law student, who proved himself more than a match for his Worship. The Mayor launched out by assuring his audience in the most emphatic terms that he was not a Tory, that he was neither a Reformer nor a Conservative, but that he was an Equal Rights man, but he was so lavish of his commendations of Sir John that he left no doubt on the minds of his audience of his true character. He complained bitterly because the ADVERTISER had said that at the next election he would be out in full force in support of Carling. It will be interesting when the Dominion elections come round to note if his Worship is equal to the job of swallowing his own tongue. He raved about the Jesuits' Estates Bill, but what connection that had with Provincial politics he failed to make clear. He then discussed the timber limits question and endeavored to show that the Dominion timber limits were not so valuable as those of Ontario. From this he branched off to separate schools, and succeeded in convincing the audience that he was not acquainted with the question. The license commissioners next came in for a scathing. He told his audience that the commissioners had added two unnecessary licenses to London and that it was a political engine for compelling hotel-keepers to vote Reform. But strange to say, this Equal Rights man neglected to state that one of these licenses was given to a Conservative or that the commissioners had cut off five licenses. He next referred to the ballot and charged that it was not properly a secret ballot. The most of his speech, which was drawn out for half an hour, was composed of reading tedious extracts from campaign literature.

Mr. Rowell then followed and in a masterly speech discussed the questions of the day in a manner most interesting to his audience and certainly instructive to his Worship. He took up the various points referred to by the Mayor and answered them in a manner that left nothing to be said.

Although Mayor Taylor posed as an Equal Righter, his conduct soon proved the insincerity of his claim, for although Mr. Rowell had never interrupted him once, he frequently interrupted Mr. Rowell.

Mr. Rowell held the attention of the audience for an hour and a half, after which Mayor Taylor attempted a reply. He wandered off to Manitoba, talked Riel, the rebellion, the Catholic schools in Manitoba, and went back to the Jesuits' Estates Bill, until someone in the audience informed him that Oliver Mowat did not rule in Manitoba and had not passed the Jesuits' Estate Act. Finally, to prove the sincerity of his Equal Rights principles, he left, refusing to listen to Mr. Rowell's reply. The audience did not fail to remark that it was strange to see the Mayor of London afraid of a boy. However, he shortly came back, and, looking in at an open window, shouted at Mr. Rowell, who was speaking, after which he got into his conveyance and started for London, a crestfallen but a wiser man.

The Day After.

He doffed his tile and looked thereat,
And to himself he said:
"Yes; that is certainly my hat,
But where did I get this head?"

An Enviable Reputation.

Gentlemen desirous of obtaining the best possible value for their money in cigars should smoke the "Highland Lassie" 5-cent cigar, manufactured by H. McKay & Co., of London. This cigar has been subjected to the most complete tests by the great majority of the smokers of the Dominion, and all of them pronounce it one of the best articles in the Canadian market. Messrs. H. McKay & Co. take a special pride in its manufacture and are particular that none but the choicest specimens of fillers and wrappers enter into its composition. The "Highland Lassie's" reputation is of sufficient repute to satisfy the most skeptical of its worth.
