HARBOR GRACE NEWFOUNDLAND, THURSDAY OCTOBER 15, 1874

NUMBER XXX

### HOLLOWAY'S PILLS

Let no one be longer oppressed with the notion that his malady is incurable till the purifying Pills have had a fair trial. A few doses will remove the more urgent symptoms and therefore completely control all disordered actions, rouse the torpid liver, relieve the obstructed kidneys, cleanse the pure blood, and confer on every function healthful vigour.

#### Impurities of the Blood.

These wonderful Pills are valued at the humblest hearts as well as in the houses of comfort and wealth. They work a thorough purification throughout the whole system without disordering the natural action of any organ, and eradicate those germs of complaints which consign tens of thousands to an early grave.

#### Indigestion, Bilious Complaints and Sick Headache.

No organ in the human body is so liable to disorder as the liver, and none is more apt, when neglected, to become seriously diseased. Remember when nausea, flatulency, or acidity on the stomach warns us the digestion is not proceeding properly, the Holloway's Pills regulate every function, give strength to every organ, speedily remove all causes of indigestion, bile, and sick headache, and effect a permanent cure.

#### Weakness and Debility.

In cases of debility, languor and nervousness, generated by excess of any kind whether mental or physical, the effects of these Pills is in the highest degree bracing, renovating, and restorative. They draw from the system the morbid causes of disease, re-establish the digestion, regulate the secretions, strengthen the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigour.

#### Turn of Life and Dropsical Swellings.

The turn of life is the most distressing period in woman's existence; it destroys thousands. The whole of the gross humours collect together, and like a tide sweep away health and life itself, if not timely and powerfully checked. The most certain antidote for all these dangers is Holloway's Pills. Armed with them the fiery ordeal is passed through, and the sufferer is once more restored to the possession of unimpaired health. It is but little known that at the so-called "turn of life," man also, when verging on fifty or fifty-five, discovers that his health is considerably deranged and knows not the cause—a critical period in his life. All perils to both sexes are at once removed by recourse to these Pills.

#### The Kidneys—their Derangements and Cure.

If these Pills be used according to the printed directions, and the Ointment rubbed over the region of the kidneys for at least half an hour at bed-time, as salt is forced into meat, it will penetrate the kidneys and correct any derangement. Should the affliction be stone or gravel, it is particularly recommended that the Ointment in such cases, be used night and morning, as by its judicious application the most astounding cures may be performed.

Holloway's Pills are the best remedy known in the world for the following diseases—  
 Ague, Rheumatism, Retention of Urine, Bilious Complaints, Scrophulous, or King's Blotches on the Skin, Evil, Bowel Complaints, Sore Throats, Dropsy, Stone and Gravel, Secondary Symptoms, Female Irregularities, Tic-Doloureux, Fevers of all kinds, Ulcers, Gout, Venereal Affections, Headache, Worms of all kinds, Indigestion, Weakness from Liver Complaints, whatever causes, Lambago, &c., &c., Pills.

The Pills and Ointment are sold at Professor Holloway's Establishment, 533, Oxford-st., London; also by every respectable Vendor of Medicine through the civilized world, in Boxes and Pots, at 1s. 1/2, 2s. 6d., 4s. 6d., 11s., 22s., and 33s. each. The 2s. 6d. contains three, the 4s. 6d. size six, the 11s. size sixteen, the 22s. size thirty-three, and the 33s. size fifty-two times the quantity of a 1s. 1/2. Box or Pot. The smallest Box of Pills contain four dozen; and the smallest Pot of Ointment one ounce.

Full printed directions are affixed to each Box and Pot, and can be had in any language, even in Turkish, Arabic, Armenian, Persian or Chinese.

### NOTICE

IMPORTANT TO THE

Citizens of Newfoundland

THE CONTINENTAL,  
 LIFE  
 INSURANCE  
 COMPANY  
 OF NEW YORK.

In order to complete their line of Agencies from London to San Francisco California and to extend universally the benefits and advantages offered by their Company and to place within reach of all the means of making provision for the Widow and the Orphan have decided on establishing Agencies in

St. John's and Harbor Grace, Newfoundland.

The CONTINENTAL beyond all comparison the most successful and most popular Company ever established in Europe or America. It has only been SEVEN YEARS in existence but at its organization men of enlarged views and great experience in Life Insurance, were placed in its management, who, having discarded all useless and annoying restrictions, and adopted all the improvements known in Life Insurance—many of them original with themselves, it at once received, and continues to receive a support unprecedented; and it now stands far ahead of many companies TEN YEARS older than itself. It has issued over FIFTY-NINE THOUSAND POLICIES, and has over \$6,750,000,000 assets, all securely invested, as required by law, in Bonds of the United States, Bonds of the State of New York, or in Real Estate. For that portion invested in Real Estate, it holds in all cases Double Security. So popular is its management and so great the public confidence that there are only Two Companies in the World that now approach it in the amount of business done.

By the Laws of the State of New York Life Insurance Companies are not allowed to do Fire Insurance or any other business, the importance of which law cannot be over-estimated by all who desire to protect their families by Life Insurance, and who do not wish to have their funds put in jeopardy by Fire Insurance.

By the Laws of New York Life Insurance Policies are held sacred to the families of the insured, free from the claim of Creditors.

The CONTINENTAL issues all kinds of Policies, viz: Ordinary Life, Endowment, Joint, &c.

All losses in Newfoundland will be paid at the Agency here without subjecting claimants to the trouble and expense of going to New York.

All Policy holders can vote and are eligible to office.

### Directors.

- L. W. FROST, President.
- HON. GEO. HILTON SCRIBNER, Secretary of State.

### SAILMAKING.

### The Subscriber

BEG respectfully to acquaint the Ship-owners and public of Harbor Grace and the outports that he has taken the Workshop lately occupied by Mr. Robert Morris, No. 10 Victoria Street, where he is prepared to perform all work in the above line in a satisfactory manner, and hopes by strict attention to merit a fair share of public patronage.

GEORGE CARSON.

May

THE STAR
HARBOR GRACE, OCTOBER 15.

The steamer "Hercules" arrived here yesterday morning from Labrador, and having landed her passengers and mails proceeded to St. John's.

We observe by the "Chronicle" that the St. John's Candidates are in the field, Messrs. R. J. Parsons, J. J. Dearin and R. J. Kent, for the East Division; and Messrs. L. Tessier, M. Fenelon, and P. J. Scott, for the West Division.

His Lordship, the Most Rev. Dr. Carfagnini, arrived here on Saturday evening last from a visit to Antigonish and Quebec, where, we understand, his Lordship had been invited to assist at some religious ceremonies in connection with the Church in those places.

The meeting of our Quarter Sessions have come and gone, and we find that no steps have been taken in the matter of the Public Landing east of Messrs. John Munn & Co's, premises. We had every hope that the nuisance which obstructs the entrance of said dock, would receive the attention of some of our Grand Jurors.

It must be matter of hearty congratulation to the friends of the late Anti-Confederate government to hear of the success which awaits their cause at the coming Election. When one views the acts of the Shea-Carter Administration, with an unbiased conscience, he must naturally come to the conclusion that the country has derived little advantage from the change.

They have sub-divided the Protestant Education Grant, giving a vast amount of dissatisfaction to the majority of the people, and numerous other tricklings which have so characterized their short-lived term of office.

The Telegraph Monopoly Question, one of the most important measures that has ever yet been brought before the country has been treated with indifference, notwithstanding the large and numerous signed petitions that poured into the Assembly last spring. Thereby causing a loss to the country of £40,000 per annum.

Our hardy Fishermen are now daily returning to the bosom of their families after an absence of months of toil and hardship. It is cause for thankfulness that their labors have so far been crowned with success. Now will be the time for them to assert their rights.

Let the fishermen look to the present, and not be frightened by the plea of no employment; stand forth at the present time and demand the free use of your franchise; for nothing is dearer to man than a free liberty of conscience.

The great and increased advantages of the extension of steam communication to the Labrador coast, is becoming more and more perceptible. The commercial importance of that long range of fishing stations has called forth the attention and co-operation of the Government, in endeavouring to put within the reach of the country the facilities for communicating reports, and means of advancing and fostering the successful operations of our merchants and fishermen, on that rugged and desolate coast.

The Confederation question, of course still holds its own, and is kept in the foreground. The people perfectly understand the peril of returning a majority to support the Confederate party and these gentlemen may rest assured that such majority they will not get.

Trusting that this important matter may be represented and brought under the notice of the government, and in future be organized and successfully carried out.

Yours, &c., MEDDLE.

There are a variety of circumstances which warrant us in believing that the majority of five Representatives returned last fall in support of the late Bennett Government will this fall be considerably augmented. Whatever may be said to the contrary it is certain that during the existence of the Anti-Confederate Administration the interests of the people of the country were carefully regarded.

Under the late Anti-Confederate government a special grant of 2000 dols. for each district was expended in building wharves, school-houses, bridges and other similar necessary erections wherever required.

Another cause of dissatisfaction is the apathy exhibited by the present Government party towards the interests of the Church of England, and their extraordinary zeal in behalf of the Methodist body. We fully admit that the Methodists have a right to their fair share of consideration, and we would be one of the last to permit their claims to be ignored.

The Confederation question, of course still holds its own, and is kept in the foreground. The people perfectly understand the peril of returning a majority to support the Confederate party and these gentlemen may rest assured that such majority they will not get.

I am not going to write angry words or give expression to indignant feelings, but this I will say—that the fishermen residing all over the island have just cause of complaint against some of the men they selected to attend to their interests in the house of Assembly.

TO THE FISHERMEN OF NEWFOUNDLAND.

The Newfoundlanders, with that dishonesty which has ever characterized it, continues its misstatements each publication. The last issue contains the following choice morsel: "In political matters there has been nothing new or inviting particular comment since our last publication."

It appears to me that the Telegraph Monopoly question should have called forth the undivided opposition of both sides of the House of Assembly. The Government side of the House, I must say, used very unjust and quite uncalled-for arguments to sustain the Monopoly against the best interests of the country.

The following is taken from a New York paper, Forest and Stream, of Feb. 21 1874—Newfoundland holds a peculiar interest to the people of this Continent for upon it rests one end of the Atlantic Cable, and across it passes the single land wire which, connecting with the Cable, puts the business world under constant tribute and dictates the cost of telegraphic messages.

Newfoundland fishermen! What do you think of the Editor of an American newspaper who would take such an interest in the affairs of your country, while the men you depended upon to sustain you through thick and thin betray you, one and all, for their own pecuniary benefit and aggrandizement?

Mr. Little produced in the House of Assembly a printed copy of paper setting forth that the Telegraph Company received the enormous sum of £1,941 stg per day, not one penny of which reaches the pockets of the poor fishermen!

Fishermen, bear in mind that if the Shea-Carter Government acted fairly towards you, and stuck to the true intent and meaning of the Telegraph Charter, there would now be landed in this Island new submarine Cables, and of course new Telegraph roads opened and made, an new and extensive establishment erected giving lucrative employment to hundreds of men who are not able for the arduous duties required of them for the prosecution of the fisheries.

Respectfully submitted by your friend, MICHAEL CARROLL, BONAVISTA, Oct. 2, 1874.

The Newfoundlander, with that dishonesty which has ever characterized it, continues its misstatements each publication. The last issue contains the following choice morsel: "In political matters there has been nothing new or inviting particular comment since our last publication."

been altered. Fir t. Bowring, Burton and McNeilly were the men. Burton being considered weak, he was dropped and Warren taken from Trinity Bay to fill his place. The latest rumor is that McNeilly is now to be dropped, and that the three candidates for that district are to be Duder, Bowring and Warren.

Mr. Rendell, in the person of Mr. Watson is to contest Trinity Bay in the place of Warren. Mr. Wood is made to abandon the mountain district, and Mr. A. Moore is to take his place. W. V. Whitway was to contest Fortune Bay, but he was found so weak that Mr. Alexander has been put forward in his stead.

PROPOSED INTERNATIONAL FOUR OARED RACE FOR \$10,000—UNITED STATES VS. ENGLAND.

There is every prospect of an international four-oared race being arranged between the English champion crew of the Tyne and a four to be selected by the Hon. Bernard Biglin of this city.

About two weeks ago the Tyne crew composed of Sadler, Bagnall, Winslip and Taylor, issued a challenge offering to row a four or pair-oared race against any crew in the world for £500 a side. After consulting with several sporting men, Bernard Biglin determined to organize a four to meet the English champions, as will be seen by the official document: New York, Sept. 15.—To the Sporting Editor of the News—DEAR SIR: In reply to the challenge of Joseph H. Sadler, to match four men to row any four men in the world, please state that I accept Sadler's challenge and will match a crew to row Sadler's four for \$5,000 a side, to row a five or six mile race—straightway or with a turn for \$2,500 or \$5,000 a side.

At the Halifax regatta, August 21, 1871, the Biglin crew composed of Barney John Biglin, Joseph Kaye and Henry Coulter, defeated the Renforth crew of England, Tangier crew of Nova Scotia and the Halifax crew. In this race, the Biglin four were defeated by the Taylor and Winslip crew of England and the Geo. Brown crew of Halifax, but they would have won the first instead of the third prize, had their boat not struck a floating log, and Coulter having proved next to useless in the boat. In the great race at Saratog the Ward crew won the first prize, Renforth crew second, Biglin crew (Coulter sick) third.

In this race the Biglin crew defeated one of the English champion crews. After the race the Biglin crew got a substitute for Coulter and offered to row the victors or either of the English crews, but none accepted.

The recent challenge was the opportunity the Biglins had to again secure a match with the English champions, and they are eager to arrange a race. The American four will be selected from Berryard Biglin, John Bigin, Dennis Leary of New York, Eph Morris and Wm Scharff.

The typhoon in the Southern part of Japan, which took place on the 20th of August, wrecked several foreign vessels, over 100 junks and 600 houses were destroyed, several hundred lives lost and thousands of cattle killed.

The "Faraday," after taking in provisions and coal, will attempt to recover the lost cable. Ten thousand Chinese troops en route for Japan; war between China and Japan seems inevitable. The Emperor of Russia decorated the members of the Arctic expedition. The Spanish government issued a protest against the conveyance of arms to the Carlists by sea.

The Pope has written to McMahon acknowledging the efforts of France in his favour. The Spanish steamer "Juan" now at Sligo is detained by the authorities; orders were issued to prevent her departure, she having 13 Armstrong guns on board, supposed for Carlists. The captain says the guns belong to the Spanish Government and he was taking them to England for repairs.

The British and French Ministers in presenting credentials to Serrano addressed him as President of the Executive power, carefully avoiding the word Republic. Pius, in reply to McMahon's announcement of the withdrawal of the "Ereouque" recognised the reasons for removing the frigate, but declares that he would not have used the vessel to quit Rome under any circumstances.

The British and French Ministers in presenting credentials to Serrano addressed him as President of the Executive power, carefully avoiding the word Republic.
