House if I denounced another member in such language as that he had district. That chosen for the asylum irm is high and a triffe lighter than had a last to admit that he might have used a word less offensive than "I might have used the word 'transferred' and if the minister objects to letthat word I take it back frankly and fully. Looking at it now an print it does seem alteng."

It might have occurred to Mr. Foster that word I take it back frankly and fully. Looking at it now an print it does seem alteng."

It might have occurred to Mr. Foster than the print to applogize and call a truce, but the did neither ann the obstruction. However, they changed the province than that of the Ponoka district, was a marry to catarrh of the continued. However, they changed the province than that of the Ponoka and triffe lighter than district. That chosen for the asylum is citizens than Alberta, This was province of magnificent opportunities and of like responsibilities. We are now making history and we should guard our actions so that this farm would be conducted by the Minister of Agriculture as an expensive their attendance, further promagacture, for the secure their attendance, further promagacture, for the secure their attendance, further promagacture to magnificent opportunities and of like responsibilities. We are now making history and we should guard our actions so that the average soil, making it specially and the average soil, making it specially in its citizens than Alberta, This was community portunities and of like responsibilities. We are now making history and we should guard our actions so that the average continued themselves to the truth.

It might have used the word 'transferred' and if the minister objects to learn the proving that the proving that he nead no power to expense the proving the power of the striplent of the point-and the proving that he proving the power of the strangency of the curve, but the responsibilities. This was community proving the new conditions of the truth.

It might have occur sioner under the Inquiries act. W.

THE YUKON CASE

THE Saskatoon, Saskatchewan, Peace River and Dawson railway company came up in committee, and met much opposition. Dr. Sproule (Conservative East Grey), characterized the powers asked as averaged as averaged as averaged as averaged as a strength of the control asked as extraordinary, they includ ing telephone, telegraph, warehousing, forwarding, owning vessels, acquiring timber limits, coal lands, mines and Government And Opposition Candiminerals. The objection was support-

ed by Mr. Foster.

showed the thriftiness of people, but the recent bank failures showed the need of amendments to the banking the doctors feared consumption.

DAIRYING IN THE WEST. vailable for export in the near future. the close last week. Of the situation in Western Canada Northern Alberta, which is the last all the western provinces to engage in dairy work, and there are now 41 van, but there is a large quantity of dairy butter made and the probabili

a considerable stimulus given to the There is a revival of the interest in he dairy industry in the province Manitoba. The first organization scarcely suited to the conditions provailing in that province, and the fai-

able growth is the result. British Columbia there are meet the demands of the local mar-kets, including the comparatively small quantity shipped to the Yukon and the Orient. The result is that tacket in Festers Considerable heavy been stocks in Eastern Canada have been cents per lb. drawn upon to supply the demands

of the trade in the west." GOOD PRICES FOR STOCK. Prices which belie the existence of rate, but killers were afraid of what of the Bank of England discount rate Prices which belie the existence of a financial stringency and which are evidence of the fact that there is a big demand for stock in this country, were secured yesterday at an auction sale conducted by Auctioneers Walker & Daniel, of Fort Saskatchewan, of the farm stock and implements of Louis Derval, farmer, near Lamorex. Cows sold from \$28 to \$45, brood sows from \$11 to \$15, one team colts, three years old, unbroken, \$400; one 3-year-old driving mare, \$240. Sheep sold as high as \$14 per head and 12 calves, about 9 months old, brought \$10 each.

Tate, but killers were afraid of what might happen to the dressed ment trade during the first week of Lent from 4 to 3½ per cent., which means of the farm week of Lent than yesterday. We desired the form 4 to 3½ per cent., which means desired more, Liverpool advanced and closed ½d higher than yesterday. The American markets opened about unchanged but improved to nearly a cent over yesterday's close. Later they declined ¾, evidently due to speculative manipulation, but to wards the close they became stronger and closed at ½ under to ¼ over yesterday's close. The Winnipeg market was much stronger than the United States markets, or else it was less subject to manipulation on the bear.

tral Alberta Stock Growers are to have their next meeting at Lacombe, Friday, March 6th, 1908. Dr. Rutherford live stock commissioner, will be in attendance. Frank Whiteside will give a report of the live stock convention held in Ottawa. There will also be other speakers of interest.

Those attending the convention will perfectly and donated by Hon. A. C. Rutherford, No. 3 white, 45; rejected, 39.

Mr. Hiebert opposed this. The argu- ship 34. than anywhere else his motion of a seven o'clock closing would be in large stock-holders of the south, who order. A couple of other members had been for so long the backbone of that time, and that at the present time there was no navy in the world that would surpass the American in expressed their optaion that since the country,
this district was under Federal supervision and in view of Mr. Riley's Messrs. Simpson, Rosenroll and arguments, they believed that Banff Puffer bringing into prominence in

Hon. Mr. Cushing contended that the member for Banff had advanced no argument which would not as well apply to Calgary or Edmonton. Moreover, the legislature was in that hall to legislate not for a few tourists, but for the residents of the province. Trains came into the City of Calgary

Cross, "that the Dominion government allege that the Banff National Park is under their jurisdiction, though, I may say, we have not been notified to this effect. Our attitude is that it is could register notes this objection to under the control of this government, just as any other portion of the province is. I can understand that the member for Banff is quite interested and properly so, in obtaining an exemption because of the large tourist traffic, but we do not for a moment propose to let the Federal Government say they control the Banff National Park or any other part of the first have to be clearly defined.

ATTACK ON B.C. JUDICIARY.

Presbyterian Divine Deplores Conditions in Coast Province.

Vancouver, B.C., March 4.—Rev. Dr. Fräser, pastor of the First Presbyterian church here, created a sensation at the Presbytery meeting to day by making charges against the indiciary. He said: "What we want in British Columbia is a self-respecting in diciary. Even patrolmen will tell you there is no use securing conviction, because it will be upset by a Cleveland, Ohio, March 4.—In an Cleveland, Ohio, March 4.—In an

number of licenses was based on population. Since then there has been no new licenses granted in Rapff."

B.C. GOVERNMENT COMES passed its final reading at this new licenses granted in Banff."

Hon. Mr. Fisher stated further that new licenses granted in Bann.

new licenses granted in Bann.

how licenses granted in Bann.

a new \$75,000 hotel was being erected at Bann and he supposed it was to have a license, but the Attorney General responded that no license had been granted.

What Constitutes a Town?

This formed part of a very lively period of discussion, marked by some excellent repartee and humorous reacted that the man cannot all the man cannot all the man cannot all the man cannot and starvation, there because were smaller than towns, villed the man cannot all the man ca

dance yesterday took part. One genial and dignified member of the government was seen to take roguish aim at Mr. Hiebert's fedora headgear, and it is on record that the law that these he roduced that the law required 45 in cities and 30 in towns. The suggested, with Mr. Rosenroll, that these he roduced that the law required 45 in cities are to be employed in the construction.

When the amendments to the bertan cities of three to thour thouse the brought up Mr. Hiebert moved in amendment to the amendment that the hours of closing be changed from the hours of closing the hours of cl that time at any time it is seen fit.' house agreed that the provision

ten o'clock closing amendment was should remain as it is. The Attorney-General then an-nounced that the ten o'clock closing moved in amendment that this provi- law would come into force on July

Mr. Hiebert opposed this. The arguments brought up for it would apply he said, to any other part of alberta, and if it was advisable to leave the bars open until 11.30 for the arrival ber for Gleichen, who entered a strong bars open until 11.30 for the arrival ber for Gleichen, who entered a strong of trains, why not extend the hours protest for the ranchers. These men till dawn, for the trains were always with large holdings objected, he said, mander Sims that near the big guils, Froi.

Alger defended the American navy against the criticism made by Communing. In fact at a health recommendation of the said, and the said of the said. running. In fact at a health resort to a few settlers coming in and being like Banff the sooner the bars were closed the better, and there even more their ranges. It would constitute a good as that of any other navy as

for the thousands of tourists passing through Banff yearly. In fact, in his latest report the park superintendent had pointed out that there was not sufficient hotel accommodation even now with five hotels.

And look into the masses.

Lien on Machinery.

One section of the act whereby implement companies can enjoy a lien without registration was left over "universely the part year or the year after," said til next year—or the year after," said the attorney general on listening to the discussion. It was effectively

dropped.

Messrs. Hiebert, Moore, Boyle and Holden opposed the section as a piece of undesirable legislation. The premier pointed out that a similar clause was in force in Manitoba and Saskatchewan, which did not, however, If this and there was no reason in the world why Calgary might not as well have exemption in this matter as Banff. To agree to this amendment of exemption extended to other dealers as well. Mr. agree to this amendment of exemption would simply be an injustice.

Hon. Mr. Fisher rose to remark that the tourists in Banff last year could scarcely be designated as a few, for there had been 37,000, and to most of them, tourists passing through on transcontinental trips, Calgary and Edmonton, he hazarded, were names of minor importance, if they had ever what might be against it. If a farmer wasted to buy a second hand plow or other machinery it was best that he should be able to go to the nearest clark softice and see if there was anything against it.

Attorney-General Cross, taking the floor next, stated his belief that the member for Banff entertained some misapprehension concerning the control of Banff park.

"It is quite true," said the Hon. Mr. notes. In his district he stated people

good as that of any other navy at

powder manufacture.

Prof. P. B. Alger, formerly for tourtsen years attached to the bureau of ordnance, also testified as to the accurateness of American turret construction. He described the Missouri accident, and said that never again bers, he considered the legislature would make a serious mistake to give any part of the province an exemption in regard to the hours of closing.

Hon. Mr. Fisher, who was occupying a seat among the members to the left of the throne, rose to speak. The Dominion Government had, he said, given permission for more hotels in the town of Bauff than upon a basis of population it was entitled to. But special consideration had been made for the thousands of tourists passing through Banff yearly. In fact, in his letter report the apertures through matter now. He would consequently withdraw the amendment and look into the matter more fully before next year.

Struction. He described the Missouh accident, and said that never again will fire get into the magazines in that manner, for the copper flanges connecting the apertures through which the powder is passed, are always kept in place. The finding of Ioreign substances in sacks of powder put up as charges, was explained by Prof. Alger, who said that "such gross carelessness" was not possible now, because since the appointment of Admiral Converse as chief of the bureau of ordnance a system of inspection had been inaugurated. The discovery of

scraps of iron, fragments of wood, and in one case a loaded revolver cart-ridge, was due to the practice of having officers aboard ship weigh loads of powder. He had heard of only three instances out of thousands of sacks of powder where foreign matter

TORTURING SKIN DISEASE Afflicted this bright little girl

Mrs. F. Miners, of 311 Suffolk Street, Guelph, Ont., says: "A year since, while living in Oshawa, Ont., my little daughter Lorinda, six years of age, contracted a skin disease on the upper part of her body. This first broke out like tiny water blisters, afterwards taking the form of dry scabe. These would disappear for a short time and then reappear worse than ever. The clothes coming in contact with the skin set up such a severe irritation that it was impossible to keep her from scratching. We tried various preparations and healing lotions yet obtained no good results until we began using Zam-Buk. With each application the irritation and soreness was greatly relieved, and the child rested easier. Thro' continued using, the eruptions and scabs fast disappeared and in a short space of time the skin was completely cleared from the disease. It is now some months since we used Zam-Buk, and there being no sign of any more eruptions breaking out on her body, we believe Zam-Buk has worked a complete cure." "Keep Zam-Buk handy" is a sound home motto. Daily mishaps make Zam-Buk a daily need, and to treat one's skin troubles with this pure healing balm means speedy relief from smarting pain as well as from itching and inflammation.

all fees and charges exacted in the resolution Mr. Oliver spoke as fol-

congratulated on the generosity with which they have expressed themselves

fore the House,
I would like to say that the government is prepared to absolutely assume the fullest responsibility, but it is prepared to parliament to relieve himself of his responsibility than for the government. And when this matter was up before the House for the House for the House for the serious fault with the action of the expenses of government, had then the opportunity to expected for the revenue which fault with the action of the government, had then the opportunity to expected the fault of the local contained in the bull, and of the busy season it may be contained in the bull, and I think my hon, friend from Althe Nr. Oliver—I would have to get a legal opinion but my impression with the math was one decided fully in 1885, and for the reasons which are apparent, it was decided then that it was not additional from Althe Nr. Oliver—I would have to get a legal opinion but my impression would be, and I think the intention is corp land of 1870 and make a grant to think the intention is corp land of 1870 and make a grant to saign, out one the last assign to another, passing on the right to assign, out one the last assign to another, passing on the right to assign, out one the last assign and will have to fulfill the duty.

Mr. Lake—Can the substitute do assign, out one the last assign to another, passing on the right to assign, out one the last assign and will have to fulfill the duty.

Mr. Cliver—We have have in mind the person can the local value of the was considered fully in 1885, and for the reasons which are apparent, it was decided them that it was not additional for the treasons which are apparent, it was decided them that it was not additional for the responsibility to action the proposes to do to duty.

Mr. Cliver—I would have to get a legal opinion but my impression with the local value of the wounteer can assign to whoth the revenue which are proposed to the titute. It is officient of the truck may to sadecide them that it was not additional for the volunteer can assign to whoth the respon fault with the action of the govern- money should go towards the ex- The first of these was in respect of the ment, had then the opportunity to expenses of government in these provexpeditions in 1869 and 1871 in the press themselves on the subject and inces. That is quite a different matdid not, and they must be held to their record as not having the proper and it is in regard to the value of the the first case the scrip was too 160 the state of the scrip was too 160 the scrip was time and in the proper place given land and the price of the land that the expression to those generous views of which they have been so lavish today. The government was not impelled to take the action it did because of the resolution submitted to value, which was the transaction because of the resolution submitted to the subject of the land, or the mere taxable to the price of the land, that goes to the cause of the resolution submitted to value, which was the transaction between this government and the in regard to the value of the list case the serip was for 160 the first case the serip was for 160 to the first case the series was for 160 to the first case the series was for 160 to the first case the series was for 160 to the first case the series was for 160 to the first case the series was for 160 to the first case the series was for 160 to the first case the series was for 160 the House last session, although that tween this government and the gov- son entitled by his services should re- the committee. We desire to deal the diminutive but obstinate

ion or a provincial matter. I would like to say that it is both. Then services rendered were rendered to the Empire rather than to the Dominion, but they were I am free is say to the local portance to the people there, and part is right to any one whether he has a read one quarters. In would be fair, at any rate, to double asked for. The charges are the usual asked for. The charges are the usual asked for. The charges are the usual but they were, I am free to say, to the ticularly the question whether there had a homestead or not, absolutely it, and I think there is a good deal to Dominion rather than to the prov-should enter into the value of the free of the regulations in regard to be said against increasing the amount inces. But the question of a special lands the element of speculation. And, the first and second homestead.

of the scrip to any great degree. Wat grant of land in recognition of these as an element of speculation certain.

Mr. Oliver—That is the intention as we want is settlement on the land. services naturally and necessarily by must enter into any transaction of the such as has been placed before the and controls the land. That ownership and control rests in certain prospin and contr

the grantee, or his duly qualified substitute, shall select and enter for the said two quarter sections in the Dominion lands office for the land district in which they are situated on or before December 31st, 1910; that he shall perfect his entry by commencing actually to reside upon and cultivate the land within six months.

declare here that these lands are absolutely the property of the Dominion, and the property of the Dominion, and the land district in which they are situated on or before December 31st, 1910; that will grate rather harshly on the declare here that these lands are absolutely the property of the Dominion, and the land district in which they are situated on or before December 31st, 1910; that will grate rather harshly on the declare here that these lands are absolutely the property of the Dominion, and the land district in which they are situated on or before December 31st, 1910; that will grate rather harshly on the ears of a good many of the friends of the House.

Mr. Bergeron—Woul my hon friend (Mr. Oliver) be kind enough to tell the House how many in the three provinces will get the benefit of this opposition in that western country.

They will be rather surprised when between 1,500 and 2,000. While there is every desire to deal with every posafter the said day; and that he shall they find what a right about face our is every desire to deal with every pos

prescribed by the homestead provisions of the Dominion Lands Act.

3. Resolved, that any person entitled, under the foregoing provisions, to select and enter for either by which he obtained his portfolio.

Mr. A. A. McLEAN—What then

Mr. A. McLEAN—What then

Mr. McLEAN—What t

scrip shall be subject in all respects his friends made in the west before time, but it does not interfere with to the provisions of sections 94, 96, 97 and 98 of the Dominion Lands Act.

5. Resolved, that the entries made and the patents issued under the foregoing provisions shall be exempt from all fees and charges exacted in the limits made in the west before the provision of sections 94, 96, 97 the first made in the west before the position of the present resolution, however, that I saw my hon. friend the position of the present resolution, or the discussion of it.

I wish to refer for a moment to the question mentioned by my hon. friend the west position of the present resolution, or the discussion of it.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fall, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and alling Hearts. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong direction, strengthen these perves—re-establish them as needed, with

CANADIAN ARMY AT QUEBEC FET

Many Thousand Soldiers Will Encamped on the Plains of Abraham Next July.

Ottawa, Mar. 6—Brigadier Gene Otter has declined the offer of imperial war office to take comma of the Fifth Infantry brigade at ershot from May 1st next, and instead come to the headquarters at Ottawa, where his ability and perience in military matters wil

available for the benefit of the mili Major General Lake's term of c mand in Canada as chief of staff pires in November next. During tenure of position he has inaugu many reforms in connection with militia service and the departme now organized on a well-thought and adequate basis. It is under for the last six months or so term in this country that Gen. La will be given the position of inspec general with a view to his making thorough inspection of all the mi units in the service, offering critic as to defects in the carrying out

the system he has established ing suggestions as to the possible The position of inspector general now vacant owing to the death Brigadier General Vidal. Gen. Of will, according to the proposed pla become chief of staff it succession Major Lake, thus realizing what h long been contemplated, namely appointment of a Canadian chief command of the militia for of the Dominion. The militia deparment is now devising ways and mear for the mobilization of troops at Qu bec next summer. If the transpor tion, commissariat and other arrange ments can be satisfactorily arrange eighteen thousand men will be camped for a week or so on the Plai of Abraham.

It may, however, be found necessa to cut the number down to twelve thousand, but in any event the Ca adian army assembled at Quebec w be the most imposing ever seen in th country during the last hundred year of peace.

CARRIED LEG WITH HIM.

Fate of Logger With Iron Determin tion and Courage. Vancouver, B.C., Mar. 5-Carryin his severed right leg with him, Danie Stetson, hand logger, crawled throng two miles of bush to tide water, g into a boat and rowed another miles down the coast to a loggin camp before finally collapsing. ing Monday he was caught by a ling timber. It crushed his right le to a shapeless mass, practically to ing it off and Stetson completed work by cutting the shreds of the sk which remained. He was a man iron determination and courage, an although bleeding to death, he retain ed consciousness and laboriously mad his way through bushes to the coas through swamps until he reached t
