THE WORLD MEET FOR DEAD KING

Memorial Services Everywhere in Honor of His Memory

IMPRESSIVE SERVICES IN BRITAIN'S CAPITAL

Similar Services in Every Country in the World

London, May 20.—The body of King Edward VII. was carried through the streets of the capital today in the presence of many hundreds of thousands of subjects and with the king of nine nations and the kings of nine nations.

The cortege moved through solid ranks of red-coated soldiers, standing at rigid attention, and the regiments of colors dipped to the ground. At the railway station the casket was placed in a funeral carriage and the king's body was carried to the church of St. George's, where a service was conducted by the Archbishop of Canterbury.

The Duke of Orleans was given precedence as the only foreign prince present at the funeral. The procession was led by a Highland soldier just before the imperial casket. King George, Emperor William and several other monarchs of royalty wore the uniforms of British generals.

CARNEY TELLS OF THE EDMONTON TRIP

The Rowdiest Bunch of Rooters That He Has Ever Met in All His Travels

"The dirtiest bunch of rooters I have ever seen on a ball ground," was the opinion registered by Bill Carney, manager of the Calgary ball team, when they stepped from the north train yesterday.

"This fellow Longnecker appears to be buffed by the Edmonton bunch, and the league should take him away from that town for a time, as he will have the same trouble when they next play up there."

"We got it handed to us for fair. In the fifteen innings game, we had four put outs in the 15th inning, but were turned down on them and they were sure ones at that. In the game last night I had a man out by a good five feet at first and Chuck held a base runner a foot and a half from the sack at second, held him there when the fellow had slid, and called to the umpire to come and see it, but he just turned his back and yelled 'play ball.' There will always be trouble as long as Baxter is playing ball in the league for he is a trouble-maker from A to Z. I heard in Edmonton last night that one of the directors of the Edmonton club remarked that they would not be able to keep Baxter on account of the trouble he was making. When the game ended in a row last night and he was fined and suspended by Longnecker, he walked up to him and deliberately stamped on the man's foot with his spiked shoe. The rowdiest thing I have ever seen. Even when we left the grounds, a lot of cheap skates in the bleachers went after us and one hit Smithie, but Smithie was there and made a pass at him that would have broken the guy's neck had he connected. The fellow then bolted before they could mix."

"I kicked because the batter they wanted to substitute was not in uniform. He then went to the bench and started to change his clothes. The umpire called 'batter up' several times and they ordered Paddock to pitch the ball. I am sorry we did not have to play them again in Edmonton today, for I would have liked to put it over them again."

"Paddock, our new twirler, is all to the good, and is a strong addition to the team. Dugan has a very hard foot, but I think I will have him back in the game in four days' time."

"But what gets me," concluded Carney, "is the rotten bunch of rooters they have. They are the first bunch of men I have ever seen get up a deformity of one of our men and kept it up at every game."

"One of the papers up there said that Carney's kicking would not get him the pennant, but it is a cinch that the kicking of the Edmonton bunch will get them the last place in the league."

"Things look good for us in this coming series, and we are going right after those games."

Deacon Releases Two

(Edmonton Capital).

Owing to the necessity of getting down the salary limit, Manager White was compelled to let Coaches and Barnstead out last night. The former has not been hitting the ball, though his fielding has been up to the mark. But an outfielder, who cannot deliver the base hits is not of much use to a ball team.

Barney has a host of friends in the city who will be sorry to hear of his release. Deacon had five twirlers on his staff and at the outside, could only carry four, so Barney, who had shown the least promise this season of the quintette, had to go. Pitches are scarce on some of the teams, so Barnstead should have no trouble catching on.

From now on, Burridge will play the right garden until his throwing arm winds into shape. Ward and Stub Spencer will battle for the place behind the bat.

- July 4—Connecticut Valley Rowing association at Springfield, Mass.
- July 9—Long Island Rowing association at New York, on Harlem river.
- July 10—Hudson river amateur rowing association at New York.
- July 15 and 16—Southwestern Amateur Rowing association regatta at St. Louis.
- August 12 and 13—National regatta of the National League today announced the release by New York to Toronto of A. S. Shaw, and by St. Louis to Toronto of Lew Magee.

COLDS Quickly Cured

Everybody has a cold. Some resort to tablets and powders that contain dangerous drugs, and death from heart-depressing remedies is not infrequent.

It's poor policy to neglect a cold—especially when it can be cured so quickly without medicine.

You can send the soothing vapor of the pine woods, the richest balsams and healing essences right to the cause of your cold by inhaling Catarrhoxone.

Little drops of wonderful curative power are distributed through the whole breathing apparatus in two seconds.

Like a miracle, that's how Catarrhoxone works in bronchitis, catarrh, colds, and irritable throat. You simply breathe its only fragrant vapor, and every trace of congestion and disease flees as before fire.

Catarrhoxone Cures

No trace of the disease remains after Catarrhoxone is used—no more matter to clog up the nose and cause you to cough and spit—no more headache and burning ears.

Because Catarrhoxone contains such healing balsams and soothing antiseptics it can't help curing every kind of catarrh, throat, lung and bronchial trouble.

Don't experiment longer—Catarrhoxone means sure cure. Two months' treatment (guaranteed), price \$1.00; smaller size, 50c at all dealers, or the Catarrhoxone Company Kingston, Ont.

THE EDMONTON ATHLETICS IN GOOD STANDING NOW

Were Out of the Fold for a Very Short Time Only

Secretary Ballantyne of the Alberta Amateur Athletic association reports that some fifteen players of the two Edmonton ball teams, who were professionalized a couple of weeks ago for playing with professional athletes, have signed the necessary documents and are now amateurs of good standing.

A hockey player, who was admitted to a pro and playing for money last winter, blew into Edmonton and signed up with the Irish ball team. No attention was paid to his standing, and a match was played with another club with this man on the line up.

Then the fireworks started, members of both teams being put under the ban by the association's northern representative. This is the first instance in Alberta since the formation of the association that two teams have been professionalized, and it augurs well for amateur sport in Alberta by the prompt manner in which the association took the matter up.

Big Water Events Today

Philadelphia, May 20.—Forty crews and representing the pick of the colleges and clubs of the east, are here for the eighth annual regatta of the American Rowing association on the Schuylkill river tomorrow afternoon.

It is the opinion of the experts that the race for junior college eights, in which Pennsylvania, Harvard, and Columbia will compete, will be one of the best of the day. A close struggle is expected also in the race for freshmen eights between Pennsylvania, Yale and Columbia. Among the crews the greatest interest is being taken in the race for second crews, to which only clubs are eligible. There are five starters.

Entries for the Y. M. C. A. Sports

All persons who intend entering the races to be held by the Y. M. C. A. on May 24, should see that entries are sent in at once to the secretary as entries close tomorrow, the 21st, at 8 p. m. Entry forms may be had on application at the Y. M. C. A.

A large entry list is expected and the committee in charge promises a good day's sport. The racing track he being put in first class shape and a new jumping pit has been added.

Prizes are on exhibit at Black's jewelry store.

Entries Are Coming Strong

Secretary Johnson of Calgary Turf club reports that the entries for the two days' meet commencing on May 24, continue to come in from outside points and thirty more were received yesterday. Three of these were from Ed. Mackabee, who used to race Beaver Dam Lad. One of Mackabee's entries will be a full bred horse, owner and Dam Lad and is reported to be equally fast.

The entries close on Saturday night and thirty more were received yesterday. The former champion lightweight was presented with an autograph photograph of the vice-president.

American Turf Items.

The stewards of the Jockey club have appointed Messrs. August Belmont, H. K. Knapp and F. R. Hitchcock, stewards for the spring meeting at Belmont Park.

Harry Payne Whitney threatens to leave his stable in England if the racing situation doesn't soon clear in America. Several of Mr. Whitney's best horses are in England now.

Ed. Lavender has arrived in this country bringing with him two pointers for Foxhall Keene. They are for polo purposes, however, and will not be raced.

W. K. Vanderbilt's Barbarossa won the Prix des Cavaliers, worth \$500, for three-year-olds at St. Cloud, France. Although this is a famous race, it is worth only \$500. This shows the difference in turf values in France and America.

General Brayton Rose, the well known New York trotting horse owner and proprietor of Barossa Virginia which won the Kentucky Futurity last fall, is a frequent visitor to the Hudson River park track at Poughkeepsie, N. Y., where he has a select stable in training.

HOW ROD STANDON SAW BIG BATTLE

The First Appearance of the Boy Who Meets Lauder on Next Tuesday

Forsen in Calgary.

Rod Standon, the Australian lightweight, who meets Billy Lauder on May 24 in a fifteen round bout, broke into the public eye in a startling manner last night when he fought a ten round fight with a local amateur.

A championship heavyweight battle was billed for a certain date, and young Standon, then a kid of 16, determined to see the event. He was king-pin of the kid gang in his neighborhood and longed to see a real fight.

"In the first preliminary to the main bout two fighters were billed for a ten round go. On the day of the battle bright and early Standon, who had not the necessary to buy a check, hung around the entrance of the arena waiting for something to drop. Just when the big jam had passed through the gates, it dropped. A gentleman with cropped hair and a nose spread over his face, indicating that he belonged to the pugilistic profession, came out of the entrance and rubbed down the road. He gazed hard for a few minutes, he broke into a jocular smile more profane than poetic. 'That kid has lost his nerve,' he looked around and spotted Standon. 'Say, boy, can you fight?'

"Sure," says Standon, as though he ate up a couple of live ones every morning before breakfast.

"Bye, you're no states on a boy."

"I am looking for it, and I want to see the fight."

"Come on then," said the pug, and he dragged the boy through the gate. Standon says that it was his only dose of stage fright and he got it good and plenty, for he knew he was in for a beating. In fact, he thought he was with him, and he kept out of punishment. In the second on the start he got a poke in the nose that made him sting and made him grimace. He was mad. This gave him a chance to make a show, for the fight was gone. He weathered through two more rounds and started to like it, but in the fifth round he was thinking to himself, 'I am the greatest yet,' he ran into a straight left and thought the roof of his head was coming off. He did not know enough of the game to take the count, but staggered around, when bingoo! a left hook caught him on the jaw. The next he knew three trained sleepers were sitting on his chest to keep him from breathing and he could hear a dull roar in the distance. He struggled to get up and the more he struggled to move the tighter the ropes. Then some person threw him into a lake and he came to, sitting up to see ten thousand fight fans jumping around the bleachers, telling themselves hoarse. This gave Standon his first taste of the fight game and it has been a great attraction for him since. As after that he made up his mind to learn something about the manly art, and the next time he appeared in the roped circle he got his man in two rounds.

THOMAS-PAPKE FIGHT LOOKS LIKE A FRAME UP

These Who Were There Say It Was Not On the Square

San Francisco, May 20.—The Papke-Thomas fight last night and the general disappointment brought the fight followers is the main topic of pugilistic discussion here today, distracting the general attention from the moment from the coming Jeffries-Johnson fight.

It may affect the chances for the big fight.

Bitter comment from the sporting fraternity and criticism from the newspaper experts have been aroused by the middleweight contest, the progress of which was punctuated with cries of "Fake fight," "Frame up" from all sides.

Papke has made several statements to account for his showing. "I could not get warmed up," he said, "I wanted to knock Thomas out, I had my money bet that I would beat him inside of fifteen rounds. What the matter was I don't know, and I am as disappointed as anyone."

Today was expected to bring developments in the big fight. Dist. Atty. Gen. "Baving" told a committee representing the local church federation that he would decide on the city law covering prize fighting. A report was circulated that the district attorney had said that he did not think there was much chance of Jeffries and Johnson setting together in San Francisco. Attempts to confirm the rumor proved futile.

Attell Beat Murphy

New York, May 20.—The featherweight champion was at his best tonight in the ten-round fight between Abe Attell of San Francisco and Tommy Murphy of Brooklyn, before the National Sporting club of America. The first six rounds were all Attell's. In the seventh and eighth Murphy worked to close quarters and did some wicked fighting. But they were his only rounds. With a burst of speed Attell let loose all he knew in the ninth and made Murphy almost look like an amateur. In the tenth the champion was content to hold a safe lead.

Chicago, May 20.—Mayor Buse, tonight said he was determined to stop the Gotch-Zybaco wrestling match on Declaration Day. Having lost the document to the mandamus tonight brought against him to compel the issuance of a permit of the match, the mayor tonight declared he would appeal the case. The appellate court, it is said, cannot hear the case until after Decoration Day.

"Hugh Duffy calls Grandi 'Chicken.' There is no suspicion of extreme youth in Grandi's case. Mr. Duffy wants the rugged athlete to behave in a sprightly manner and thus encourage him. We would suggest 'Chanticleer.'

Pitcher Larry Cheney who was taken from the Indianapolis team to Cincinnati, grew pensive over his inactivity. Cheney asked Clark Griffith to send him back because he got tired of decorating the bench.

Manager Frank Chance, according to a report, is seriously thinking of retiring from active work as first baseman of the Chicago team. He says that he has so much to worry over the executive end that it spoils his playing.

EVIDENCE OF THE PREMIER

The evidence given by the premier was somewhat of a revelation to the public, but as a matter of fact it was pretty much what any person who has watched carefully what has transpired during the last few months expected.

The manner of the premier in the box was enough to convince the public that he was not dealing fairly with the province. He declined to meet a question and give a fair and square answer, but insisted upon dodging the simplest and plainest enquiry.

The public in this province and the public in any province are not prepared to tolerate that sort of thing, they want to be met as they are prepared to meet others. They want a fair, candid and full explanation. But the premier did none of these things. He declined to deal fairly by the people of the province, when he made explanations in the house. He refused to be any more candid when placed upon the witness stand.

However, an amount of information was secured from the hesitating premier. With some effort it was ascertained that the premier, though at the head of the department of railways, was only a figurehead in that position. He took the department from Mr. Cushing in an unbusinesslike way and then let it run itself, or let others run it as they pleased. He was director of the department, but did not direct. He was in no way minister of railways, except in name.

Of course, this all came out when the premier was questioned in his administration. It is possible that a similar state of affairs would be discovered if an investigation was made into the other departments controlled by the premier.

It was ascertained in the cross examination, that the government went into the transaction without any real information of a reliable nature. The premier when questioned upon this point referred to a series of conversations which he had in an unofficial way with a number of persons, but the government never made an investigation of affairs by its own engineers, though it had two railway engineers of its own in its employ.

Glancing through the dim information given with hesitation by the premier, one can see a government which had one object and that was to make things right for Clarke and his associates. The railway act was changed in order to make it easy for the men from Kansas. The bond guarantee was changed. Everything was shifted. Clarke was in control and the object of the government was not to get what was best for the province, but what was best for Clarke. That has been apparent since any publicity was given to this affair. It was even more apparent through the evidence of the premier.

The chief work of the premier, apparently, was to endeavor to drag Hon. Mr. Cushing down with him. The premier was never slow to give an answer when he thought it would embarrass the member for Calgary. Clouded in evasive replies for some considerable time he would come out quick and sharp when he had a chance to attach the late minister of public works to any incident. But even if the premier had said the last word, there is need of but little explanation to put Mr. Cushing right. The statements of the premier were so unreasonable that the public cannot accept his remarkable statements. He said that Mr. Cushing in a cabinet meeting had sat silent and rather favored the transaction, though just before he had written him protesting against the transaction. It may please the premier to make such remarks, but the public find it hard to believe.

The candid, unprejudiced person who comes to a conclusion both on the conduct of the government and the responsibility of Mr. Cushing. That conclusion would not be favorable to the government and not unfavorable to Mr. Cushing.

However, the evidence of the premier will be interesting, when read in connection with the sworn statement which Mr. Cushing will give.

THE DUTY ON FRUITS

The effort that is being made in Western Canada to reduce the duty on green vegetables and certain kinds of fruit should receive support, and doubtless will receive considerable support. The prices of living would be decreased and such luxuries would be brought within the range of every one.

At the present time only oranges, lemons, limes, pineapples and grape fruit are on the free list.

On strawberries, cherries, grapes and cultivated berries of all kinds the duty is two cents per pound and the weight of the package is included in the weight upon which the duty is charged, thus bringing the duty up to 40 per cent on strawberries and cherries and in some cases it even runs as high as 100 per cent. A duty of one cent per

pound would be ample on grapes, but in many instances firms purchase grapes in California at 50 cents a crate, and the duty on the same amounts to another 45 cents.

The duty on all fruits, not otherwise specified, such as cranberries, is 25 per cent. This amounts to \$1.40 to \$2.00 a barrel and from \$350 to \$700 a car, which is thought that a duty of ten per cent on these goods or those not otherwise specified would be ample to provide protection, as there are very few cranberries grown in Canada.

Peaches carry a duty of 1 cent per pound, which is exceedingly high, as peaches can be bought for 40 to 75 cents a box across the line, and the weight of the package is included in the estimated weight for duty charges. The wholesalers declare that they are fully satisfied that a duty of half a cent per pound on actual fruit would afford Canadian growers of peaches ample protection.

Muskmelons and melons of all kinds carry a duty of three cents each, and on this charge the importers declare that the tariff is "high" in need of adjustment. Muskmelons or cantaloupe usually run 30 to 40 to the crate and the wholesalers buy them from 60c to \$1.25 per crate. The duty often amounts to 20 per cent.

Before the last revision of the tariff this class of melon went under the class of roots not provided for, paying a duty of 25 per cent. The duty on watermelons which would only amount to about \$20.00 a car, cannot be complained of, but on muskmelons and cantaloupe amounts to the exorbitant figure of \$800 per car.

It is true that Ontario and British Columbia produce cantaloupe and muskmelons but the quantity is so small and the season so late, particularly in British Columbia that the trade does not demand them except in the warm summer months.

Vegetables of all kinds are dutiable at 20 per cent, and mostly all vegetables on the Canadian markets are imported when the local yield is not procurable. Again as soon as the local vegetables are offered the wholesaler is compelled to handle them as the local man can grow them just as cheaply as his southern neighbor and he escapes the long freight haul charges, thus giving him an additional advantage without considering the duty at all. The freight rate is sufficient protection. If the basis of duty were changed to ten per cent the merchants claim that one could see a good supply of vegetables on all Canadian markets during the winter months.

EDITORIAL NOTES

Let us hope that the next time that Halley's comet comes this time it will find the Calgary city hall ready for occupation.

And the most important thing to do is to cancel the A. & G. W. contract and put out of office the government that first gave it life.

The whole world mourned yesterday. The late King of Great Britain was the best known and most respected person in the world.

When the A. & G. W. contract is cancelled Alberta will have a very pretty pile of money to spend in building roads and bridges, and other useful forms of expenditure.

It will be but a few days when we can turn our eyes to the northeast from whence comes additional railway communication and see another railway creeping into this city.

It is practically impossible to find a man in this part of the country who believes that the present government can remain in power. No person can be found who has any confidence in Premier Rutherford.

Think of the condition of old man Halley, driving a comet around through space at the rate of millions of miles a day, and that comet getting separated from its rudder. That is a problem for an ancient mariner.

If Sir Wilfrid Laurier desires to have a good view of the people of Western Canada, he should make his plans so that he will visit Calgary at the time of the big exhibition. Most of Alberta and the better part of it will be here then.

If the tail of Halley's comet really turned into a water sprinkler and brought the rain, as some people be-

loved, most Alberta people will not object if it stopped found and prolongs its visit all summer. Its keep is not very heavy.

It is possible that the refining influence of a capital and provincial university has not yet penetrated all of Edmonton's merry-ball players, but it showed its imprint upon the baseball supporters who finding a Calgary player alone on Thursday started in to kill him. Great is the thing that is called atmosphere.

It is surprising that these Edmonton officials do not learn sometimes that they do not own the city, but that the public has some rights and that the reporter represents the public.

News of the City Schools

Tuesday, May 24th, Victoria Day, is a statutory holiday.

Dr. Pratt is speaking today (Saturday) in Medicine Hat.

Mr. S. Bickford called on the Normal Practice school on Thursday.

Rev. Mother Green and Rev. Mother Higgins are in Banff for a few days.

Miss M. Wignome of the South Ward school was called home on Wednesday owing to the illness of her mother.

Four of the public school teachers are attending the outings regularly this summer, and greatly enjoying them, one being Miss A. Campbell, who is the authority on birds.

This week the St. Mary's school had a visit from Archbishop Neil McNeil, who was travelling from New Brunswick to Vancouver. He gave a very

instructive and interesting address to the pupils of the school.

Teachers were accepted this week for the erection of a new school two blocks west of the high school. There will be twelve rooms in the building, and provision will be made to have this school a centre for manual training.

On Monday, May 23rd, suitable exercises will be conducted in each school. The principal and teachers have arranged an appropriate program, and speakers from the Canadian club will be present and will deliver addresses.

Further arrangements are being made for the pupils of the different buildings for a temporary school pending the erection of permanent buildings. The new school in Sideroad is already overworked, and it is necessary to make provision for the opening of the school in the fall term.

The nature study outings being conducted for the summer months by the National Committee has a very promising beginning last Friday, when a party of fourteen took advantage of the holiday to drive to Wausleyhead for the afternoon. The "Thursday" evening rambles in the neighborhood of the city are also being well attended.

Miss Campbell of Bartender, Angola, Portuguese West Africa, visited some of the rooms at the Normal school on Thursday. Miss Campbell has spent seven years teaching in Africa under the American Board of Missions, and is now home on furlough. Miss Campbell gave some very interesting addresses to the pupils of the different rooms concerning her work and life in the foreign land.

Appointments have been made and the arrangements are being completed to establish household science in the several schools of the city. For a few years the boys of the Calgary schools have had the benefit of very excellent instruction in manual training, and now the girls are going to have the opportunity of taking up a

Heart Trouble Cured.

Through one cause or another a large majority of the people are troubled with some form of heart trouble.

The system becomes run down, the heart palpitates, you have weak and dizzy spells, a smothering feeling, cold clammy hands and feet, shortness of breath, sensation of pins and needles, rush of blood to the head, etc.

Wherever there are sickly people with weak hearts, Milburn's Heart and Nerve Pills will be found an effective medicine.

Mrs. Wm. Elliott, Angus, Ont., writes: "It is with the greatest content of pleasure I write you stating the benefit I have received by using Milburn's Heart and Nerve Pills."

I suffered greatly from heart trouble, weakness and smothering spells. I used a great deal of doctor's medicines but received no benefit. A friend advised me to buy a box of your pills, which I did, and soon found great relief. I highly recommend these pills to anyone suffering from heart trouble."

course in a science which will be of untold benefit to them throughout all the lives.

Miss Morrison, who is at present teaching household science in the Ingersoll Collegiate Institute, has been chosen supervisor, with Miss Margaret Stewart as assistant. Miss Stewart is now completing her course at MacDonald college at St. Anne's Bellevue, Quebec.

Both of the above mentioned ladies are thoroughly conversant with all the branches of the work, and are fully competent to discharge their duties in connection therewith.

Weather permitting next Tuesday will be spent at Fish Creek, the party going south to Minnabopolis on the morning train and returning by the evening train. Provisions should be taken for two meals. Anyone interested in nature study or wishing a good wholesome day in the open air should meet the committee, who may be known by their white badges, at the station in good time for the morning train. If further information is desired it can be obtained from Mr. Reader, 224 1/2 Avenue West, phone 1552, or Miss M. E. Moodie, 734 1/2 Avenue West.

At the Central school the prizes in the recent essay contest conducted by the Daughters of the Empire will be awarded. All those who wrote should go to the Central school for that afternoon, teaching there by 2 o'clock, their attendance being credited in their respective rooms. No announcement will be made of the winners of the prizes awarded by Mrs. Pinkham, agent of the Colonel Macleod chapter of the Daughters of the Empire. Short addresses will be given by Colonel Crutshank, Dean Paget, as president of the Canadian club, and a representative of the Daughters of the Empire. It is expected that the essay contest will become an annual feature of school life.

SIX MEN DROWNED ON LAKE NIPIGON

Tragic Story Told By an Upturned Canoe, But Facts Cannot Be Clearly Shown.

Port Arthur, Ont., May 21.—The finding of an upturned canoe with a small amount of personal effects, establishes the drowning of six men on Lake Nipigon this afternoon on receipt of news tabulated until the conclusion of an investigation which is at present being made by a search party which left Nipigon this afternoon on receipt of news brought in by the Indian who found the canoe.

Those believed to have drowned are Roy McCallister, George Grant, fire rangers in the employ of the Ontario government and four woodmen, of whom the only name so far obtainable is that of Johnson.

Two firemen who were working on the shores of the Nipigon Lake, are said to have been engaged in an attempt to transport four woodmen across the lake from Point Alexander, a distance of twelve miles. The find of the canoe is the only evidence that has happened on the trip. McCallister is said to have been subject to epileptic fits and may have been overcome by one, thus causing the canoe to overturn. He is 18 years of age and his home is in Port Arthur, where he has two married sisters.

Geo. Grant lived two years in Port Arthur, coming here from Saint Marie, where his family lives. He was 21 years old and for two years was a member of the Port Arthur hockey team. H. Servais, who has a brother a fire ranger in that neighborhood, but is not reported as in the accident, left tonight for Nipigon.

FAT WOMEN LINGER OVER WELL BRINKLEY PICTURES

Nell Brinkley, wonderful line artist, draws sold fleshed girls, who also are purely aristocratic in line. In so doing she is the despair of all artists and faddish ladies. The point she illustrates is that aristocracy of figure is not founded on skinniness, but on proportion. In this there is hope for "dumpy" fat folks.

Under your fat is a fine, firm, flesh figure. It is yours, the fat is an overgrowth. Uncover that firm flesh and your lines will be pure and fine—compelling, as Brinkley's girls are.

Prove this by melting off that foolish garment of fat. The process is simple. Take only one Marmola Prescription Tablet after each meal and at bedtime. This will do you good, as well as drop off the fat a half to a pound a day. It will touch the eye with the sparkle of fascination, point your wit, etherealize your movements. Be yourself—elevate your self-esteem.

Marmola Tablets (made from the famous fashionable formula, 1-2 oz. Marmola, 3-4 oz. Ex. Cascara Aromatic, 4-4 oz. Peppermint Water) are safe and absolutely noninjurious. They are, also, reasonable in price, a large case (from the makers direct, the Marmola Co., 117 Fairway Bldg., Detroit, Mich.), or any drugist, costing only seventy-five cents.

THE COMING OF THE C.N.R. SHIP THE ROYAL EDWARD

Mr. D. D. Mann Watches the New Liner Come into Port

Montreal, May 20.—Half hidden in a crowd of interested cheering spectators, D. D. Mann, of the Canadian Northern railway company, stood watching his ship coming in today at the King Edward pier. With Mr. Mann was D. B. Hanna, third vice-president of the company. The vessel, the Royal Edward docked at Quebec on her first trip early this morning discharging her third-class passengers. She continued her trip up the St. Lawrence at 8 a.m. arriving here last at six this evening. It was Mr. Mann's first view of the Royal Edward and to him, it was really a dream ship for it brought to him the intelligence that his partner, William MacKenzie has secured in Europe for use in developing the interest of the firm, the immense sum of \$4,000,000.

Of this \$4,000,000 are debentures of the C.N.R., \$1,600,000 is to go for development of the Winnipeg street railway and three millions is for steamships. Seven and a half millions will be used in the recently acquired timber mill and timber rights in British Columbia by the Western Canadian Lumber company. Fourteen millions will be expended on the Dunsmuir Collieries in the same province. Six millions are to be used in the Brazilian coal fields, the railway in Alberta and the balance \$4,700,000 will be utilized for the building of the Duluth, Winnipeg and Pacific railway from Virginia, 70 miles, into Duluth, to establish a through connection with the Chicago and northwestern railway into Chicago.

POPE SOLVES PROBLEM OF WOMEN'S DRESS

Yearning of Religious Emblem With Decolletee Gowns Has Been Difficulty

Milwaukee, May 20.—The Archbishop Messmer of Milwaukee in a circular office the women of the church that he Pope had issued a special edict which will make it possible for them to wear evening decolletee gowns or peek-a-boo waists. The edict permits women of the church to carry their scalars in their pockets, "whenever they please," the reason for the edict being to permit women to dress as the customs of society dictate.

Hitherto it has been impossible for Roman Catholic women who wear the scapular to don evening clothes, for the scapular is not designed as an artistic and would not harmonize with the ordinary decolletee corsage. Catholic women for years have found the wearing of the scapular uncomfortable when wearing low-cut gowns, the brown cord being ugly as well and not pleasing when seen against a pair of white shoulders.

The Pope's letter follows: "I am interested in the affairs of his children, is desirous that Catholic women who take an active part in social affairs be not restricted in the dress proper for social requirements by any open signs of their faith, and therefore dispenses them from wearing the scapular where they will be conspicuous, or doing away with them altogether if they desire. This edict, however, does not mean that they need not be enrolled in the order, for that obligation still holds, but after they are once enrolled they may put aside the scapular and in its place carry a small medal of the Blessed Virgin in their pockets or wherever they please."

KOOTENAY CENTRAL TO BE BUILT THIS YEAR

C.P.R. to Call for Tenders for Construction at the South End

Winnipeg, May 20.—An early start on the construction of the Kootenay Central Railway is indicated by the decision of the C.P.R. to immediately call for tenders for the work. It is reported that the bids will be required to be in the hands of the chief engineer of the company in this city by the end of the present month. It is understood that this means the starting of the work this summer.

At the outset but twenty-five or thirty miles of work will be awarded and contrary to general expectation construction will be started on the south end of the line instead of in the vicinity of Golden at the northern end. Several years ago ten miles of grading was done south from Golden on the main line of the C.P.R. but the steel was never laid on that section. The Kootenay Central, following the valleys of the Upper Columbia and Kootenay rivers in the main line of the C.P.R. with the Crow's Nest branch, traversing a valley reputed to be rich in mineral and agricultural resources.

TIMBER BARGAIN IS COMPLETED

Negotiations for Purchase of Cowichan Lake Timber Lands by Americans Brought to Conclusion

Victoria, May 20.—A deal involving the expenditure of over \$1,500,000, the transfer of some 54,000 acres of timber land in the Cowichan lake district from the Esquimalt and Nanaimo Railway company to the American Finance company of New York, the construction of 25 miles of railway and the erection of a large export sawmill on tidewater on the east coast of Vancouver island, has just been concluded. Negotiations in connection with this transaction have been pending for over eight months, and were only completed the latter part of last week.

The timber lands are all tributary to Cowichan lake, and when logging is started, the timber will be rafted and towed from the points where it is put in the water to the foot of the lake, where it will be loaded on flat cars and carried over the extension of the Esquimalt and Nanaimo railway to the big mill to be erected at tidewater. The agreement between the American Finance company and the railway company provides for the construction by the latter of a line of railway from a point on its main line near Duncan to Cowichan lake, and another line from a point on the main line to tidewater, where the mill will be located. The railway is to be completed and ready for operation next year. The mill will be built and operated by the Empire Lumber company, financed by American capital.

The railway will be built under Dominion charter, which carries with it the usual subsidy. Under these circumstances the line will conform to the required federal standards and will be a common carrier under the act. This railway will be a big factor in the development of that portion of the eastern half of Vancouver island which it will traverse. Between tidewater on the east coast and the shores of Cowichan lake there is a large area of exceptionally fine agricultural land which has never been opened up because of its inaccessibility. Given transportation, this land will be rapidly settled, to the great advantage of the Cowichan district and the Victoria, in particular, to which locality it is tributary.

Big Preparations Being Made at Fairbanks—Two Thousand Prospectors

Fairbanks, Alaska, May 20.—The ice began to break at Fairbanks yesterday and before the end of the week navigation will begin on the Tanana and the lower Yukon. The first boats are scheduled to leave Fairbanks Thursday and with their departure will begin the big stampede to the interior gold fields, discovered late last fall.

Two thousand prospectors have made arrangements to go to the interior country. With fourteen large steamers and hundreds of small craft, tied up at the wharves ready to sail, the water front of Fairbanks resembles a vast highway. Machinery for use in the new goldfields has been piling up on the docks all winter and now forty

SOCIALISTS DIVIDE ON IMMIGRATION

Majority Report of Committee Advocates Exclusion of Asiatic Races

Chicago, May 20.—Delegates to the National Congress of the Socialist party became involved in a dispute over the question of immigration. The admission of majority and minority reports from the committee which has been investigating the idea for the past two years, started a flood of oratory.

The doctrine of equal privileges for all races, as enunciated by the international congress of the party at Stuttgart, was not endorsed in the majority report, which recommended the exclusion from the United States of Chinese, Japanese, Koreans and Hindus. Ernest Untermyer of California, Victor L. Berger of Milwaukee and Joshua Wanhoo were sponsors for the minority report.

The majority report endorsed all parts of the Stuttgart immigration plank except that dealing with the Asiatic races. "We advocate the unconditional exclusion of these races," says the report. "Not as races per se (not as peoples with definite psychological characteristics, but for the evident reason that these peoples occupy por-

PERILOUS BALLOON TRIP OVER LONDON

Caught in Storm Capt. Maitland and Lady Gibbons Descend on a Housetop

A thunderstorm which broke over London was responsible for a perilous adventure which befell Captain Maitland, who, accompanied by a lady, ascended in a balloon from the Crystal Palace. The balloon was caught in the storm when over London, and finally dropped on the roof of a house in Islington. The balloonists had a narrow escape and were finally rescued by means of ladders.

Captain Maitland, the owner and navigator of the balloon, is an officer in the Essex regiment and a member of the Aero club. Accompanied by Lady Gibbons, wife of Sir Alexander Gibbons, of Staines, who was making her first balloon trip, he started from the Crystal Palace grounds at about 2:30 in the afternoon. The conditions at the time were favorable and it was his intention to cross London and land in Hertfordshire. An hour after the ascent the balloon was travelling beautifully in a northwesterly direction, and maintained an unvarying altitude of 2,000 feet. The storm came on suddenly, and in a few minutes the balloon was caught in a dense cloud of hail and rain. The weight of water on the balloon caused it to descend rapidly, and by the time the cloud layer had been passed, Captain Maitland found that he was descending into the heart of London. Every ounce of bal-

last was then thrown out but the balloon continued to descend rapidly, and was carried as far as Islington.

Captain Maitland endeavored to effect a landing in the street by opening the gas valves, but the car collided with a chimney stack of a house at 45, Rotherfield street, and then hung suspended at the back of the house through the envelope being caught in the chimney-pots. As the gas escaped the basket gradually descended, and when several feet from the ground was secured by some men with ladders. Captain Maitland and Lady Gibbons were then assisted to alight, none the worse for their perilous journey. The envelope of the balloon was damaged almost beyond repair.

Captain Maitland, who is an experienced balloonist, describes the experience as the narrowest squeak of his life. Next week he starts an attempt

to lower the world's record for a balloon journey across the North sea to Russia. It was in connection with this expedition that he made the ascent on Saturday, his desire being to test the wind current at various altitudes. Lady Gibbons, who behaved with the greatest courage, declared afterwards that she would not have missed the trip for anything.

Snake Nearly Strangles Boy

Young Farmer Attempts to Snap its Head Off, but Reptile Coils About His Neck

Nashville, Ind., May 20.—Charles Cummings, a young farmer near here, had a thrilling experience with a large blacksnake while plowing. He had seen his father take reptiles by the tails and jerk off their heads.

While plowing he came across one five feet four inches long. Thinking to imitate his father, he caught it by the tail and whirled it over his head, but instead of the reptile's head flying off it coiled around his neck.

His father, who was working in the same field, saw the situation and hurried to him. The snake had strangled the boy until he was black in the face. The father pulled the snake from around his son's neck and jerked off its head.

Evening Dress Tyranny

Garb Worn More Now, Says London Sartorial Expert, Than Formerly

(From the London Daily News)

No gentleman attired in correct evening dress need fear being taken for a waiter nowadays, according to a sartorial expert. The discussion out of which this statement had arisen was on the question as to whether the "tyranny of evening dress," so to speak, had become greater in recent years. The expert declined to agree that it was tyranny, but said evening dress is undoubtedly worn far more generally in these days than used to be the case.

"The real fact of the matter is," he said, "that evening dress is more becoming to the wearer than it was a few years ago. There is more style about it. The cut is smarter, the line of the figure are displayed much more advantageously and more liberty is allowed with regard to the waistcoat. The man of taste need not confine himself to a white or a black waistcoat, and soft, pale colors—more frequently perhaps a silver gray—are extremely popular. Then the lower part of the waistcoat is cut away more than was the fashion formerly and the wearing of a black tie instead of a white is allowable more frequently than hitherto.

"The attempt to introduce color into the suits themselves was not very successful, but it was symptomatic of the desire to get away from the stiffness of the older fashions. It may be that

Courton, Miss Millie Howson, Miss Jean Fraser, Miss Foster and Miss Anna Howson were entertained by the Misses Jones, 324 Seventh avenue west, on Tuesday evening of this week. The pretty home was brightened by clusters of daybreak carnations. The function took the form of handkerchief showers for Miss Jarrett, Miss M. E. Howson and Miss Rose Jones.

Mrs. Duffus, Mrs. Mewburn, Mrs. Sibly, Mrs. Mason, Mrs. Short, Mrs. Lafferty, Madame Talbot, Mrs. Lincoln, Mrs. Ings, Mrs. Nolan, Mrs. Grogan and Mrs. Wheeler were entertained by Mrs. Mewburn on Monday of this week. The function was given in honor of Mrs. Wheeler, who is leaving for the coast in the near future. Mrs. Mewburn, wearing a handsome moire silk gown, extended a gracious word of welcome to her friends. Madame Talbot in a pretty lace gown with a dainty summer hat, and Mrs. Woods in a charming brown silk costume and becoming pink hat, presided over the tea and coffee cups. The table was very picturesque with the perfect appointments and many delicious were served in vases filled with ever fragrant sweet peas and southern greenery.

A most successful tea and sale was held at the home of Mrs. Hume, 207 Fourteenth avenue west last Thursday evening by the Redeemer Girls' Branch of the Women's Auxiliary. The pretty tea table was presided over by Mrs. Burbridge and Mrs. Page, while Mrs. Hume, with Mrs. Vigrass assisting, served the ice cream. The fancy work table, with its profusion of dainty articles, was in charge of Mrs. Brocklebank. The candy stall was in charge of Miss S. Hallett and Miss Crick, and the dainty cake table was in charge of Miss M. White and Miss Shipley. It being the first attempt of this kind in this city, the receipts exceeded expectations amounting to \$22.65. Very many thanks are due Mrs. Hume for her kindness in allowing the use of her home and for rendering her valuable assistance.

NAPOLEON SAID:

"An army marches on its stomach." By that he meant that half-starved men are not strong enough to march. And you know that half-starved men and women are not strong enough to work, or to play. You should also know that indigestion means slow starvation. The food you eat can feed and nourish you only when it is thoroughly digested, and changed, by the aid of the stomach and liver, into rich pure blood. When your stomach is too weak to do its work, and your liver is out of order, your food is not digested and therefore it cannot feed and nourish you. You are then not only half-starved but actually poisoned, for the poisonous products of indigestion pollute your blood, and this pollution is carried by your blood to every part of your body. That is the cause of most of the aches, pains, misery and weakness which men and women suffer. More than half the people who soon tire and become low-spirited, who feel life a burden and who go wearily to their day's work, would find life full of healthful happiness if they set their digestion right with Mother Seigel's Syrup—the digestive tonic made of roots, barks and leaves. The Syrup tones and strengthens the stomach in a marvelous way, and quickly restores it to perfect working order. It also gently stimulates the liver and bowels to natural activity. In this way, it makes food feed and nourish you, purifies your blood, cleanses your system, and gives you vigorous, cheerful health. Test it yourself.

"I suffered from Stomach Troubles for twenty years or more, and during that period was treated by four physicians, with no beneficial result. Then Mother Seigel's Syrup was used with good effect, and finally overcame my troubles. My wife, too, has used Mother Seigel's Syrup for heart palpitation and it benefited her greatly. In fact, all my family find Mother Seigel's Syrup invaluable. No home is complete without it."—David Warnell, Jeddore, Ontario Ponds, N.S., 11/1/10.

"In February, 1908, I was afflicted with Liver Disorder and after two months of suffering, I resorted to Mother Seigel's Syrup, as its value had been made known to me through friends. Some of my symptoms were: distressing eating, headachess, palpitation of the heart, pains between my shoulders and in my stomach. After one month's use, Mother Seigel's Syrup brought relief, and inside three months I was cured."—Madame L. Chénier, Chemist, Wright Co., Que., 24/1/10.

PEACE PROMOTERS HAVE ONE WAY OUT

Dr. Eliot Believes That the Only Ray of Hope Lies in Arbitration Treaties.

Monkton Lake, N. Y., May 20.—The business men's association of the Lake Mohonk conference on international arbitration, representing between fifty and sixty chambers of commerce in Canada and the United States, today adopted a declaration to be presented to the conference tomorrow in part as follows:—"We hold that justice and righteousness are requisite conditions to true business prosperity and while we recognize that arbitration of the disputes between individuals and nations is the best means yet available for settling them, we regard arbitration as but an intermediate station on the final way to consummation to be found in an international union whose arbitral court of justice will be found to be the final court of the world from whose decisions no appeal can be made."

Dr. Chas. W. Elliott, President Emeritus of Harvard and Rear Admiral K. B. Murdock, U.S.N., addressed the conference tonight. Dr. Elliott said in part: "On the whole, the only way in which promoters of peace can at this moment make headway against the apprehension of invasion is to urge the making of arbitration treaties which contain no exceptions and the

establishment of a permanent court of arbitration justice. The reduction of armaments on land must await the establishment of such a supreme court unless indeed, neighboring nations by twos or threes can make local agreements for reduction analogous to the invaluable arrangement made in 1897 between the United States and Great Britain concerning armaments on the Great Lakes."

Expulsions Now Taking Place in the Most Brutal Manner—Expulsions From Moscow.

New York, N. Y., May 20.—The members of the American Jewish Commission said today that in spite of the repeated reports concerning the Russian government, and the expulsion of Jews from Kiev having been postponed, the committee is in receipt of the following cablegram:—"Forcible expulsions from Kiev are now taking place in the most brutal manner, and many new expulsions of those hitherto exempted are occurring. Expulsions from Moscow are also on

the increase, involving additional hardships."

Concerning the effect of this action the committee says:—"As the victims of these expulsions will be driven into the already overcrowded cities, or else forced to emigrate to the United States, we may expect a largely increased immigration of Russian Jews within the next few months, as the measures of repression concern not only Kiev and Moscow, but practically all the other cities outside the pale in which Jews have been living; many of them for generations. It is estimated that not less than 25,000 and probably twice that number of persons are involved, and great distress will result as the unfortunates have no other homes except those from which they are being driven."

TWO ARCHITECTURAL MASTERPIECES

Two of the most magnificent pianos that have ever been made in Canada are now being displayed to interested visitors at the New Scale Williams piano warehouses. These are the New Scale Williams "Louis Grand" and "Baby Grand."

These grand pianos—with their elegance and beauty of design and finish—would be superb ornaments to any home and certainly reflect infinite credit on the master minds which created them from wood and metal. It is hardly necessary to mention the fact that the tone is fully in keeping with the appearance.

These pianos may be seen at Warehouses of **HARDY & HUNT, Agents, 715 First Street W.**

TWO-BODIED, TWO-HEADED SIAMESE SALMON

Could They Be Successfully Produced on Commercial Basis, Industry Would Be Revolutionized (Vancouver Province).

There is a wonderful sockeye salmon in Vancouver and if its like could be produced in millions in the hatcheries on the Fraser River there would be solved the problem of the people of this food-fish—a problem which has been bothering scientists and fishermen ever since the first salmon cannery was built in British Columbia.

Has the great value of this fish from a food standpoint. Having but one head it would have but one mouth to feed, thus making for economy, because it is declared by scientists that the cost of living is rapidly advancing at sea as well as on land.

Would be Sea Searcher Some people who have seen the salmon incline to the opinion that only with difficulty could it steer a course through the water; they declare that the propelling force of one body would be working against that of the other to the great bewilderment of the sense of direction located in the head. On the other hand, some who have become interested in the phenomenon insist that the salmon would have no difficulty in getting through the water and that its speed would be greatly increased because it really it would have the motive power of two bodies. Those taking this view point out that as a twin screw steamer is faster than one possessing but a single screw so would the twin-bodied fish be able to search the water where its old-fashioned brother could but make the liquid a little warm.

Practical hatchery men are, however, not very enthusiastic concerning the possibilities of introducing the new model in quantities which would make it commercially profitable. They have seen the two-bodied single header and know the conditions under which it is produced, but they declare that it is not always possible to turn out this style because frequently something goes wrong in the mixer and the result is often two heads on a single body. They also say that sometimes the product is too perfectly formed fish hatched together with a Siamese joint, or again the head is where the tail should be, or the fish is twisted till it looks like an animated interro-

gation mark going through the water. Fry Live Long Time Examples of these freak fish are in the possession of a well known cannery man in Vancouver. He is not very sanguine that the desirable two-bodied single-header could be successfully propagated because of the uncertainty that the efforts in that direction would not result in the production of the undesirable and useless freaks before mentioned, some examples of which bob about in alcohol beside the specimen which would revolutionize the canning industry if it could be hatched in millions.

A DEAD LINE AROUND THE NEST

Big Father Swan Will Fight Any Who Offer to Intrude. (New York Evening Sun.) Upon the grassy eminence that overlooks the smooth waters of the lake is the home of the Snow-Whites, in which an expected family event is awaited with the keenest anxiety. A screen of alders and lilacs, hazel bushes and brambles, cut off the view of his home from the prying eyes of the curious on the land side. In this embowered home Mrs. Snow-White paces most of her time these days, a model of patience that is born of maternal ambition. Frife is raising a family is equally strange in both parents. While Mrs. Snow-White is constantly within her view, patrolling an imaginary dead line like a picket on duty, ready to repel the invaders that seek to disturb her. There are frequent alarms, an-

bundled and stampered surprises which often lead to fierce encounters in which heavy blows are exchanged. On that placid lake, hemmed in by broken hills and wooded dells, there is being developed day by day a life drama that arouses the interest of a number of human observers to an unusual degree. It is not a drama of human life, but a swan life in which are displayed traits that would do credit to the nobler sentiments of the human family. Snow-White had lots of trouble in impressing it upon the other members of the colony that a part of the lake could not be entered upon by whom until the expected event in his family had come off. He sailed up and down within the zone he had established, which had a radius of about fifty yards from the nest. If any duck or goose or swan came that way in an idle swim or in search of food he would utter a challenging "flop! flop!" and direct his course toward the intruder as fast as he could paddle.

WHAT NEGLECT DID FOR HIM

Jan. E. Brant Suffered Torments From Kidney Diseases

Then He Used Dodd's Kidney Pills and Became a Well Man—His Experience a Lesson for You.

Athabasca Landing, Alta., May 20.—(Special).—That Kidney Disease, neglected in its earlier stages, leads to the most terrible suffering, if not to death itself, and that the one sure cure for it in all stages is Dodd's Kidney Pills, is the experience of Mr. James E. Brant, a farmer residing near here. Mr. Brant contracted Kidney Disease, when a young man, from a strain, and like hosts of others, neglected it, expecting it to go away on its own.

BURNS BOOKS SHE CONDEMNES IN PRESENCE OF A THOROUGH FRICTION WOMAN MAKES PUBLIC CEREMONY OF A BONFIRE OF WHAT SHE CALLS INDICENT READING OF TODAY

San Francisco, Cal., May 19.—With ceremonial and speeches some literature was burned publicly by Mrs. Philip Verrill Stephens the other evening when, in the presence of 100 children and a few adults, she made a bonfire on the sidewalk before her residence, 1607 Baker street, and cast thereon a collection of books which she declared, typified indecent reading of the present day.

The first book to go to the flames was "The Devil." It was dropped on the blazing logs and as the pages curled and burned the audience broke into cheers. Around the fire a group of a score of girls dressed in white, carrying green branches in their hands, waved them and sang.

"Mme. Bovary" followed "The Devil." This novel was made the special target of Mrs. Stephens' denunciations. She said that it was given to the girls in the University of California by teachers of French and hoped that its circulation would be stopped.

The surprise of the evening came when Mrs. Stephens threw a copy of Ralph Connor's "Black Rock" on the flames.

"A mixture of depravity and religion," she said.

"The Widow and the Bachelor" by Helen Rowland; "The Prince of Illusion" by John Lathrop; "Lovers' Love Letters of an Englishwoman," "Camille" and "Fables of the Elite" were added to the pyre.

THE WORK OF WOMEN'S CHRISTIAN ASSOCIATION

Its Place in Social and Industrial Awakening

Berlin, May 28.—The world's young women's Christian association which is holding its fourth conference here had for its general subject of discussion today "The place of the Young Women's Christian Association in the social and industrial awakening." Miss A. M. Reynolds presided during the discussion.

A summary of the subject compiled from reports made by leading workers in various countries, was presented by Miss Florence Simms of the United States. After reference to reports examined the speaker concluded:

"The association is entering into a social service where it interests itself in the questions of the workshop environment of life, for home life, or the lack of it, of the multitude of commercial and industrial workers. It is again teaching social service widely when it brings together the women of leisure and the women of labor where they naturally learn to know and appreciate each other and the unity of a life in Christ. What relation has the association to the industrial worker? We have perhaps no better answer than this, said one eminent educator: first by placing the means of religious instruction near to them, second by studying their physical and economic requirements and the social measures, legislative and others, for helping them, and lastly by multiplying opportunities of social life without patronage and pauperizing tendencies.

WHEN LOVE GROWS COLD

A Deserted Wife Makes Cynical Definitions of Marriage and Divorce.

London, May 20.—Curious extracts were read in the divorce court from the diary of Mrs. Clara Hill, who seeks separation from Dr. John Robert Hill of Sheffield. Some of them were: "Divorce—the only opening through which freedom can be obtained from slavery."

"Divorce—the only opening to happiness from the perfection of human misery."

"Wedlock—lying with a Gordian knot a yoke by which fools link themselves and afterwards deplore their fate."

"Marriage—An antediluvian relic, fallen of late years into disrepute, recently revived and made compulsory for obvious state reasons. Originally founded on an Old World superstition called love, but now only entered upon by persons of tender conscience with the least aversion to each other."

Mrs. Hill asked for a divorce on the ground of her husband's alleged misconduct and cruelty, but he denied the charges. According to petitioner's counsel, Mr. Hill made Miss Ada Oakes's acquaintance at Sheffield, Bodega, and the couple had been seen driving driving together, kissing each other, and in each other's company at late hours. Miss Oakes' retained counsel, had referred to the respondent as "my boy," and said she was to be married to him as soon as there was a divorce.

Owners of Bridgeland Lots PLEASE TAKE NOTICE

- (1) That a few owners are offering Bridgeland lots at a price around \$800.00, which is altogether too low. Any Bridgeland lot that is 44 1/2 feet wide is worth \$1000. Any owner selling below this is giving property away.
(2) Eighteen blocks of sewer and water go into Bridgeland this year. This will begin in two weeks. Now look. Lots twenty-five feet wide, with sewer and water, high and dry like Bridgeland lots in all other directions are selling at \$800 each, that is \$24.00 per foot, and at that price 4 1/2 feet are worth \$1000.
(3) Remember, 4 1/2 feet is just five and one-half feet short of two twenty-five foot lots. The average person simply thinks of Bridgeland lots as being like most others, viz. twenty-five feet wide, but building lots inside the mile circle are getting very scarce now and soon every one will learn to value the real value of every foot in these big lots. See that you get money for each foot. Bridgeland lots will bring \$1,000 each very soon.
(4) Hold your Bridgeland lots. Don't compare them at all with the speculative property from two to five miles out. You can get a loan any time on Bridgeland property. Hold on and get your price. You are absolutely safe to hold the property because every lot will be needed for someone's house soon.
(5) There is still a very good chance that certain railroad development will double the price of every foot in Bridgeland. Better hold and get the benefit of this good chance.
(6) The City Engineer has definitely recommended two street railway lines to be laid practically all through and all around Bridgeland this year. Calgary does not have to wait for electric power for this. It has power now for the Bridgeland extension. Bridgeland cars will be first. Bridgeland lots are good to buy and good to hold. Don't sell till you get your price.

Wage-Workers' Symposium

PARAGRAPHIC RECORD RELATIVE TO THE TOPICS, PROCEEDINGS, EFFORTS AND LESSONS LEARNED BY THE WORKERS AS THEY PLAY THEIR PART IN THE WORLD'S GREATEST MOVEMENT.

That the "Reds" in Western Canada national unionist—a man—in the face, are a factor in the organized labor movement may be true. In fact it is he who well deserves the contempt of every true member of the member of the great international labor-united industrial world. But as for movement. But as for the program mapped out for them by E. Obermeyer in the Hamilton Herald, extends chiefly in the minds of a few old grannies who abhor progress and are fond of attributing motives to those who seek to do things. So gullible are the conscience of these political fossils that Bro. Obermeyer has been inspired to mold their dreaded nightmare into the "Industrialist in the September" meeting of the International Labor Congress at Fort William is becoming more manifest than that evinced in any previous Canadian labor gathering. A moment's reflection will show that the more radical wing of the congress will make a determined effort this year to dominate the Canadian representative body. With this object in view, strenuous efforts are being made to have the Western Federation of Miners affiliated with the congress and are doing good work. It is understood that W. R. Trotter, of Winnipeg, will be put forward as a candidate for the position of secretary-treasurer and James Simpson, of Toronto, will oppose William Crooking for president. It is figured that with the anticipated large attendance of delegates from the western body, the membership in more socially inclined than the western bodies) both of these offices can be landed for their nominees.

The comrades are highly pleased over one of their admirers, Fred Bancroft, of Toronto, landing a place on the commission on technical education which is to report on the matter to the Dominion government. It is not true. The Western Federation of Miners are not eligible for affiliation with the Congress, and the United Mine Workers of America, have turned down the proposal to re-affiliate months ago. Pray by whom, and since when it has been "well understood" that Patrick Martin Draper was to have a successor? Though the probability has never been mooted in the west now that the suggestion has been raised, where could a stronger or better fitted man be secured for Dr. Draper's position?—Indeed, the latter has any notion whatever of resigning? And only a resignation would cause the west to seek a competent successor? P. M. Draper, in conjunction with James Simpson, has done more to cement the forces of labor in Canada, within the jurisdiction of the congress, than any other unionist in Canada.

After serving the congress for years in the capacity of vice-president, James Simpson was harpooned at Quebec by an enemy of a long old party-politician, as ever pulled a wire. Simpson was crucified because of his political convictions—simply because he was a socialist. Though eminently fitted for the presidency of the congress in every respect, if the organized labor in Western Canada can redeem that insult and show to the fawning wardens of Berlin and Toronto that it appreciates talent wherever it finds it, why so much the better for the congress. It can be said, however, that the "Reds" who are not so much the political level of the professionals who were responsible for his election. The executive of which he is chairman has done good work, work that is appreciated by the unionists of Western Canada. The hearty response of the west to the congress call in re the Belcourt measure is case in point. One can easily imagine the consternation in Ontario's office-seeking circles when Fred Bancroft was selected to help prepare a report for any government on any subject. Such treasonable appointments are not according to the gospel of Kennedy or the precepts of St. L. Landers.

The influence of Western Canada unionists has lifted the congress from that of a tail-end of the Liberal party kite to that of a thoroughly representative legislative expression of the needs and requirements of organized labor throughout Canada. And the west is not ashamed of it. That the west's action in the past four years has been the probable attitude of the convention in Fort William is of speculative concern to the element inspiring Bro. Obermeyer is further corroboration of the position of the position maintained by western unionists. The west was at least a good loser. Let the east brace up. The worst is yet to come.

LABOR NOTES AND COMMENTS

"The man who earned \$2 a day in 1896 ought to be earning \$20 today. Otherwise he has fallen behind in relative prosperity, due to the increased cost of living."

When wage-workers commence asking for what they want on election day they'll get it.

Every increase in the International wage-workers' political party has the same slogan as a "military display" in the kingdom of warfare.

The enemies of organized labor take delight in elaborating on the weakness of some labor official when he happens to go wrong, and attempts to prove that his misconduct is typical of the labor movement. But should any one condemn the church because some minister of the gospel smirches his clerical robes with dishonor, these enemies of labor would prize a howl of indignation and denounce the man who would cast an aspersions on the church on account of the degeneracy of a disciple who preached from the pulpit.

The labor movement has grafters and grafters, but the labor movement, in point of honor, will compare favorably with any organization on earth.—Miners' Magazine.

The Moncton, N. B., Trades and Labor Council is taking into consideration a proposition to hold a summer excursion during the summer, the proceeds to be applied to the fund now on hand for a labor temple.

J. W. Patterson, tax-dodger and economist from the International Typographical Union, Ottawa, is again making himself a very useful fanny to the equity old workers who hang around the capitol city about the time indignities are being voted. In a letter of approval to Senator Belcourt he says: "I am of the opinion that there should be some provision made for liability of a trade union holding charters from a foreign country, and governed by officials and laws of such country. It is about time these phony tools of the Canadian Manufacturers' Association were getting off the earth. Patterson ought to be ashamed to look an Inter-

COWLEY FARMERS HAVE GOOD MEETING

W. J. Tregillus of Calgary, T. L. Swift, and John Herron, M. P. Address the Meeting

Calgary, May 19.—A special meeting of the local union of the United Farmers of Alberta, was held today and a good number of the members attended, to meet the vice president, W. J. Tregillus of Calgary, T. L. Swift of the Grain Growers Grain Co., Calgary and John Herron, M. P., Pincher Creek.

W. J. Tregillus was first called on by the president, G. W. Buchanan, and said he was pleased to meet the Cowley Union and was glad to find such a strong union was in existence, the only way to keep it in a healthy condition was to keep up an active campaign to solve the problems confronting the farmers, to influence legislation and so generally improve the condition of the farming community, this could only be done by organization and co-operation, the farmers represented 4-1/2% of the population of Alberta, and if the province followed the example of the Macleod farmers and selected farmers candidates we should soon get matters that were now out of line adjusted.

The Cowley Union now it was organized should be careful not to allow anything to interfere with its harmonious working, small trivial matters sometimes upset associations of this kind, and recently so small a matter as the color of a man's skin destroyed a farmers' organization in the south.

Three Objects Necessary

Three objects should be kept in view, first the material, those things relating to the business end of farming and this was very important, however good a farmer may be as a farmer, he would not reach his limit as a successful agriculturist if he could not market his products at their full value, he should also be able to obtain full value for every dollar expended, both these ends could best be obtained by co-operation.

Second, the educational. Every farmer should aim to be master of his profession, if grain growers study the best cultural methods, if stock growers the best methods of animal husbandry, if dairymen the best methods for highest production. Men should read, think and study their particular branch of farming, knowledge is power and the meetings of the union could be made educational by having special subjects discussed, no one man alone knows all about any subject, but in the multitude of councilors there is wisdom.

Thirdly the social. This was most important and a social meeting should be occasionally held where the members, their wives, sons and daughters could become thoroughly acquainted and they would find it a great benefit. The speaker concluded by saying the Cowley District presented limitless possibilities and it rested with the farmers to what extent these would be realized.

Mr. Swift was next called on to speak and in a very thoughtful and straightforward speech explained the present system of grading grain into and out of the terminal elevators and explained why the elevator companies were re-

cently fined. It was not, he said, for using the stock they were holding for their clients, to fill contracts, there was no penalty under the Manitoba Grain Act for this, but it was for making false returns as to the quantities they held in the elevators. Mr. Swift also answered many questions asked by the farmers.

John Herron Speaks

Mr. John Herron, M. P., was next asked to address the meeting, and said he was very pleased to be present, he was a farmer and was most anxious to fully represent the farmers in the house at Ottawa, he hoped the farmers in his constituency would make him acquainted with their wishes and they would rig him anxious at all times to do his best in their interests, he briefly explained the session's work and what had been done for the farmers, which he considered was not adequate to the importance of the agricultural interests.

The meeting was considered a very successful one and the discussions were good, being bright and to the point. A good number of new members were enrolled and much enthusiasm created. A meeting of the Co-operative Society newly formed was also held and promises to have a successful career.

MR. HERMAN DYING OF STONE IN THE BLADDER

Gin Pills Passed the Stone

518 James St. Hamilton.

"Four years ago I was taken down with what the doctors called inflammation of the bladder—intense pains in the back and loins, great pain and difficulty in urinating. The pain was greatest in the region of the bladder, and the attacks, which became more frequent, amounted to unbearable agony, and I became so weak that I could not walk across the floor. Doctors could do nothing to help me. My wife read in the paper about Gin Pills and sent for a box.

From the very first I felt that Gin Pills were doing me good. The pain was relieved at once, and the attacks were less frequent. In six weeks the stone in the bladder came away and the pain stopped entirely. I have had no return of the trouble and have not lost a day's work on account of it. I cannot express myself strong enough when I speak of what Gin Pills have done for me. When I remember how I suffered, and how now I am healthy and well and strong and able to do a full day's work, I feel I should speak and tell other sufferers of my experience and of the wonderful merits of Gin Pills."

JOHN HERMAN.

You don't have to buy Gin Pills to test them. Simply write The National Drug & Chemical Co., A. D., Toronto, and a free sample will be sent you by return mail. When you have used the sample and feel that at last you have found the remedy that will do you good—then buy Gin Pills at your dealer's—50c. a box, 6 for \$2.50. Remember, please, that Gin Pills are sold on a positive guarantee of a cure or your money back. And this guarantee is backed by the largest wholesale drug house in Canada, who will take your unsupported word if you want your money refunded.

THE NEW DUKE OF CORNWALL

Loss of Will Power A Proof of Nervous Debility

"Until I had a long siege of nervousness, I could not comprehend how people could show such indecision and uncertainty in the doing of small things. I didn't know that little fears and small dreads, caused by loss of nerve tone, would force people to abandon their friends and the real pleasures of life. Too much work and worry, perhaps too little regard for healthful habits, made me nervous. I couldn't bear to be alone. I grew cross, fretful, and fearful that some ill would befall me or my family. After using Ferronone all was changed—the old-time fears and sense of oppression left me—I was braced, optimistic, vigorous, ambitious, and robust good health. I look ruddy and strong, have a good appetite, sleep well, and am getting fat. I know lots of women who need Ferronone—and they would use it, too, if they only knew what a difference it makes in the way you feel!"

Let your wife or daughter try Ferronone for a month, and watch the result. It's a health-winner—a strength-bringer—a vitalizing tonic equaled by none. Just one or two Ferronone tablets to take at meals—surely an easy way to regain and maintain perfect health. At all dealers, 50c. per box, six for \$2.50 or The Catarthozone Co., Kingston, Canada.

The Yellow Peril

Editor Albertan.

Now that the negro question is being discussed and considered by our Edmonton friends, and no doubt is likely to occupy the attention of the citizens of Calgary as well, might it not be well to include the consideration of another problem, which to my mind, is of equal, if not greater, importance—I refer to the large influx of Chinamen to our shores. On Thursday the writer witnessed the deplorable spectacle of seeing one of Calgary's most respectable citizens pursued by a band of no-

THE WORLD WEPT FOR DEAD KING

(Continued from page 1.)

The great officers of the Royal House of England, headed by the Earl Marshal, the Duke of Norfolk and followed by a non-commissioned officer of the household cavalry bearing the royal standard.

The King rode between the German Emperor and the Duke of Connaught, all in brilliant uniforms and next in line was the group of relatives, heirs to the throne, princes of great states and special ambassadors.

Members of Royal House The members of the Royal Houses on horseback followed in this order:

First file—The Duke of Connaught, King George, Emperor of Austria, King of Greece, King Alfonso of Spain.

Second file—King Haakon of Norway, King George of Greece, King Alfonso of Spain.

Third—King Ferdinand of Bulgaria, King Frederick of Denmark, King Manuel of Portugal.

Fourth—Prince Yusuff Zeyfer, the heir apparent of Turkey, King Albert of Belgium, Archduke Francis Ferdinand, heir to the throne of Austria-Hungary.

Fifth—Prince Stanislaus Fushinski of Japan, Grand Duke Michael of Russia, the Duke of Austria, representing Italy, the Duke of Sparta, who is crown prince of Greece and crown prince Ferdinand of Roumania.

Sixth—Prince Henry of Prussia, representing the German navy, Prince Charles of Sweden, Prince Henry of Holland, the Duke of Saxe Cobourg Gotha, Crown Prince of Montenegro, Crown Prince Alexander of Serbia.

Seventh—Prince Mohammed Ali Said Pasha, Zulfikar Pasha of Egypt, the Sultan of Zanzibar, Prince Tsai Tao of China. Then followed the British and Dutch representatives of a dozen German states, the members of the English royal family, the Duke of Alencron and Prince Boverand of Siam.

Queen Mother Alexandra. The mounted group was followed by twelve state carriages. The first was occupied by the Queen Mother Alexandra, the Russian Dowager Empress Marie, the Princess Royal and the Princess Victoria.

The second carriage contained Queen Mary of Great Britain, the Princess of Norway, the Duke of Cornwall, heir to the British throne, and Princess Mary.

The next four carriages carried royal ladies and ladies in waiting. The seventh carriage carried Prince Tsai Tao of China and his suite. The eighth carriage was shared by the special American ambassador Theodore Roosevelt, M. Pichon, French foreign minister and Sinad Khan Montazer.

The Colonial Representatives The ninth carriage was occupied by Lord Strathcona, High Commissioner for Canada, Sir George Reid and William Paul Jones.

The two carriages following carried persons in waiting. Arriving at Paddington station the casket was placed in the funeral car which carried the funeral party to Windsor. The royal saloon was upholstered in purple and white silk and a catafalque erected in the centre supported the casket. The car was occupied by King George, Queen Mary, the Queen Mother Alexandra, eight other sovereigns and near relatives. Special trains followed with the high officials, foreign representatives and special envoys.

It was a bitter winter day when the body of Queen Victoria was borne up the hill to the medieval chapel of St. George. Today the castle gates at Windsor opened to receive the casket of the seventh Edward with the accompaniment of an English spring on the trees and grass within the massive walls. The gray towers and battlements over which the Union Jack was flying at half mast, never appeared more impressive, in the streets below was a seething mass of people.

God Save the King. An answering murmur of "God Save the King" arose from the assemblage. The King and Queen joined in prayer, the Bishop of Winchester pronounced the solemn benediction after which, with the Bishop of Winchester, he knelt before the altar in a moment of silent prayer, as the charge moved on their feet the hush was broken and the procession withdrew from the chapel in the order of its entrance.

The body of the King, which had lain before the altar, later to find a permanent resting place in the Royal tomb house in Albert memorial chapel.

Canadians at Service. London, May 20.—It is officially estimated that the Canadian people are paying a last homage to their sovereign today. In addition to Lord Strathcona and Hon. Messrs. Aylesworth and Fisher, who are representing the Dominion government, there are also present, Mayor Evans, Winnipeg; Mayor Geary, Toronto; Sir Daniel McMillan, London; Sir Charles Stewart, Vancouver; A. C. Archibald, Winnipeg; Mayor Saunders, Edmonton; The Skinner and G. McL. Brown, C. P. R.; and Bro. Williams, Halifax, and family, Vancouver; Messrs. Shaughnessy, Montreal.

Every Canadian building in London has its flags flying at half mast. The face of the stately Canadian Pacific offices in Trafalgar Square was elaborately and tastefully draped with Imperial and Canadian flags. Limited numbers of the Canadian maple leaf and the Canadian arms in bright colors being artistically woven into designs. Emblems of mourning were also shown at the Canadian government offices, Grand Trunk offices and other leading Canadian centres, while among the Canadian firms, tributes at Windsor pointed to the Canadian flag.

Memorial Services in Washington. Washington, D.C., May 20.—Memorial services to King Edward VII. were held simultaneously today at 11 a. m. in three of the city's largest churches by 10,000 more delegates to the world's sixth Sunday school convention. Each of the edifices was packed and the doors were ordered closed to prevent the possibility of fire. Over 100 meetings were organized for those who were unable to get into the main services.

At the close of the prayers and the reading of the memorial service, the delegates sang the first stanza of the "God Save the King" which was followed by the "Dead March" and the organ played Handel's Dead March.

London, May 20.—The funeral of King Edward VII. was held in Westminster Abbey today. The King's coffin was placed in a state carriage and the procession was formed with the addition of the ambassadors, ministers and representatives of foreign states. Thus it passed through the purple draped streets to the Castle and into St. George's chapel. From the castle the coffin was placed in a state carriage and was drawn by a squad of blue jackets. Behind walked the King wearing the uniform of a general and ash of the Garter with the German Emperor on his right and the late King's brother, the Duke of Connaught on his left.

The clergy who were to conduct the service were in the chapel when the cortege arrived. They were the Archbishop of Canterbury, the Archbishop of York, and the Bishops of Winchester and Oxford, and the Dean of Windsor. The three latter, respectively, the Prelate, Chancellor and Registrar of the Garter.

The casket was placed on a purple carpet before the altar, and was fairly buried in floral pieces. As the minute guns boomed and bells tolled the casket borne on the shoulders of the three latter, was placed on the catafalque. The Lord Chamberlain and the Lord Steward took positions at the right of the catafalque. King George V. was placed on the left of the casket. His majesty's bodyguard of gentlemen of arms stood before the left of the casket, and reversed. The funeral party filed off the edifice and overflowed into the Prince Consort's chapel to the south.

The funeral service was of a profound silence when positions had been taken and then the Archbishop of Canterbury and Bishop of Winchester, advanced to the casket. The Bishop of "Man that is born of woman" and the congregation recited the Lord's Prayer, the low murmur of many voices accompanied with solemn music. The service of the church, of England was throughout. Following the Lord's Prayer the Anthem: "How blest are they that shall stand at the altar—king and—spoke as follows:

"For as much as it has pleased Almighty God to take out of this life an St. His Divine Mercy, the late most noble Prince, King Edward VII. of Great Britain, by the grace of God, of the United Kingdom of Great Britain, Ireland, King, Defender of the faith, Emperor of India, and of the most noble order of the Garter, let us humbly beseech Almighty God to give us grace, health and honor, and all most mighty and most excellent monarch, our sovereign Lord George, fifth of Great Britain and Ireland, King of Great Britain and Ireland, King, Defender of the faith, emperor of India, and Sovereign of the most noble order of the Garter, 'God Save the King'."

An answering murmur of "God Save the King" arose from the assemblage. The King and Queen joined in prayer, the Bishop of Winchester pronounced the solemn benediction after which, with the Bishop of Winchester, he knelt before the altar in a moment of silent prayer, as the charge moved on their feet the hush was broken and the procession withdrew from the chapel in the order of its entrance.
