

HE PROPHESED THE TRUTH

MON. FRANK SMITH WARNED THE COUNCIL TWELVE YEARS AGO

That it would be a mistake to bring a Water Pipe through the Bay—Whether of Wood or Iron Such a Pipe Would be a Source of Difficulty and Expense —He Recommended Taking Our Water From Humber Bay.

Editor World: I can scarcely be questioned that the most important matter now before the City Council and people of Toronto is the water supply. Much has been said and written on the subject, and it seems to be the general opinion that we can never be sure of the purity of water coming to us in a pipe or pipes across the bay. Notwithstanding this it appears to be in contemplation to continue and extend that wretched system which has already proved so costly, and is responsible for so much sickness and suffering, and which has brought death into so many of our homes.

In view of all this, I think it well to bring to your notice a circumstance that occurred in the year 1880, over 12 years ago. At that time the question of extending a pipe into the lake was under consideration, and among those who took an interest in the matter was the Hon. Frank Smith. That gentleman addressed a letter to the City Council on the subject of the water supply. This letter was read at a meeting of the council held on Nov. 29, 1880, at which Mr. Smith was present. He spoke in support of the scheme he advocated, but the authorities did not take to it and went on with that now in operation, and which has proved to be so miserable a failure.

At Mr. Smith's request I procured some information regarding his letter, and the scheme, and was present at the council meeting above referred to, and have now in my possession the original draft of his letter. As the information in this letter may prove interesting just at present, I take the liberty of inserting here an almost entire copy of it.

To His Worship the Mayor of Toronto and Council assembled:

Sir,—Having felt for a long time, in common with so many of my fellow-citizens, the absolute necessity of something being done to improve the quality of the water supplied to the city, I have been glad to see that the corporation had commenced taking action in the matter. I think there is only one opinion about the water supply, and that is: That it should come from some part of the lake, entirely free from any danger of contact with the city sewage. The scheme which has met with the approval of the council, to extend a pipe into the lake outside the Island, connecting with the wooden and iron pipes now lying across the bay, is, in my opinion, a mistake, and for this, if for no other reason, that there will always be a possibility of judging from the past experience, a strong possibility of these pipes becoming leaky or getting broken. Of course, should this take place, there would be an end to the supply of pure water, and we would then be better off to dispense of certain bonds of the St. Catharines and Niagara Central Railway was adjourned, pending agreement between the city and the company.

Kingston and St. Street Railway Company partially settled their dispute. The concessions were on the line suggested by the Private Bills Committee.

Public Accounts.—At the Public Accounts Committee yesterday Mr. Henry Smith's examination was continued. Mr. Bradshaw, an employee of the Crown Lands Department, explained some errors in the 1881 books. Certain small discrepancies were also explained.

Next Tuesday the committee will examine Mr. Stacey's books. The accounts relating to the Ontario exhibit at the Imperial Institute, London, will also be brought under the committee.

The Railway Committee yesterday morning transferred to the Private Bills Committee the bill regarding the Kingston, Smith's Falls and Ottawa Railway.

ONTARIO ASSEMBLY

A Dull Day in the House—Meetings of the several Committees.—The T.E.B. Stewart's Report.

Yesterday was an eventful sitting of the House. A number of the Opposition enquiries were answered before the House went into Committee on Private Bills.

There was a passing tempest just at the start. It is known that both parties disclaim abeying the matter bill and argue that it was strictly a matter of precedence and in accordance with the inexorable law of parliamentary usage.

Hon. Mr. Fraser's short speech quoted from page 7 of the minutes of the House, Wednesday, Friday a motion on the order which was in discussion the same shall have precedence at the evening sitting.

The little breeze having spent itself the House occupied the remainder of the afternoon in routine business.

Among the bills read a first time was Mr. Guthrie's to amend the Judicature Act. By this it is sought to confer authority on local judges of the High Court to hear and dispose of motions to continue or dissolve interlocutory injunctions which they have granted, and in cases in which all parties interested agree, to the disposal of the motion by the local judge. At present the matter was the Hon. Frank Smith's, and the parties must in all cases make their way to the High Court, thus in some cases entailing increased expense and inconvenience.

Each Will Receive One-Half.

That great and wealthy corporation, the Law Society of Upper Canada, has shown some small compassion for the little children who would be benefited by the liberal interpretation of the late T. P. B. Stewart's will.

By an arrangement effected at the meeting of the Private Bills Committee yesterday morning the Law Society consented to relinquish to the Sick Children's Hospital one-half the share upon the bequest, which aggregates some \$10,000.

Hon. Hamilton Clegg, who appeared for the residuary legatees, Albert C. Cumming and Dr. T. G. Phillip, Winnipeg, protested that both corporations were endeavoring to defraud the children, but because litigation would be too expensive.

Mr. Watts was the only dissentient when a vote of the committee was taken. He thought that it was Mr. Stewart's express intention to leave his money to the Law Society and that in justice they ought to get it.

The residuary legatees receive a parcel of land in Winnipeg, their place of residence.

After considerable discussion the bill allowing the City of Toronto to dispose of certain bonds of the St. Catharines and Niagara Central Railway was adjourned, pending agreement between the city and the company.

Kingston and St. Street Railway Company partially settled their dispute. The concessions were on the line suggested by the Private Bills Committee.

OCEAN PENNY POSTAGE

The Idea is Hoped For Favorably by English Liberal Leaders, But is Impossible at Present.

LONDON, April 28.—General W. E. Loder, Conservative for Brighton, made a motion in the House of Commons to-day for ocean penny postage.

He spoke at length in favor of reducing to one penny the postal tariff for letters passing from one British colony to another and between any British colony and the Mother Country.

Arnold Morley, Postmaster-General, Mr. Gladstone and Sir William Harcourt, Chancellor of the Exchequer, expressed their approval of the principle of the motion, but maintained that financial consideration made the change impossible at present. The motion was withdrawn.

THE ESCAPED MURDERERS.

An Alleged Clue to the Location of Roehl and Falster.

GREENWICH, Conn., April 28.—On Tuesday afternoon about 5 o'clock two boys, Willie Munson and Herbert Orr, were strolling in the woods near South Beach looking for wild flowers. They were on a lonely stretch of road called Lavin Rock, which they had heard the whistling of a train, and they had seen a light on a wagon of a peculiar make not often seen in this locality. In the vehicle was a bag of feed, a tin of grease and some blankets. They went home and reported what they had seen to their parents.

Mr. Orr went back with his son. He looked the animal over and inspected the wagon and saw that it did not belong to any of his neighbors. His thought at once that it might have played its part in the escape of the Sing Sing prisoners. He fed the horse and left it for the night, thinking that some one might come for it and thus a clue to its ownership would be obtained. He returned in the morning and found the horse still tied to the tree. He fastened it and drove it to his home. He, Rich, who advised him to Constable Gilbert and his wife, saw the horse and wagon and contents in his barn, awaiting developments. Those who have seen the horse and vehicle say that it does not belong to anyone here.

Sing Sing is about 30 miles from Greenwich, and the idea is general that it was used by the Sing Sing escaped prisoners. The horse was tied only a short distance from the Sound, and the escape route is a circuitous route to this place; but the boat was in readiness and the convicts were taken up the Sound.

An Orangeville Elopement.

A Dufferin Mother Deserts Home and the Child.

Orangeville, Ont.

Early last week a comparatively young woman who resides with her husband and only child, left her home in Orangeville, and is now the mistress of her husband's brother in some town across the border. The woman is reported to be a mother of several children, the eldest not being more than 12 years of age and the youngest a few months old.

It is quite evident the runaway couple had the whole matter planned for some time before the mother left a few days before the child was born. She secured her husband's consent to go on a visit to her father, but as she was not returning the trip from Toronto to the bridge would have been a long one. It was there that the discovery was made that something was wrong. Later on she wrote to her husband informing him that she had not treated her well and she was going to leave him. She was as good as her word, for she has not since been heard of.

It is the old, old story—a silly woman and a dishonorable man.

THE FRENCH SHORE QUESTION.

The Obnoxious German Bill Will Not Be Re-introduced.

St. John's, Nfld., April 28.—The British Government has agreed to accept the proposal of the Newfoundland Government for the settlement of the French shore question.

The Gladstone Government will not re-introduce the obnoxious coercion bill into the Imperial Parliament, but requests the Imperial Government to consent to the temporary act of 1891 for the purpose of giving time for the completion of negotiations between the two countries.

Some routine business was disposed of to both countries. The results in attribution to the action of the Opposition party in the Newfoundland Legislature, who have for several years past been in opposition.

ANOTHER BANK COLLAPSE.

The Standard Bank of Australia Suspends Payments.—Re-constructed.

MELBOURNE, April 28.—The Standard Bank of Australia has suspended payments. The bank had a large reputation and has numerous branches.

Toronto Industrial School Board.

The regular meeting of the Toronto Industrial School Board was held yesterday afternoon at 7 o'clock in the evening.

The conduct of the girls, with one exception, was reported good.

Dr. Robertson was asked for the probability of the girls named Kennedy, and a similar request was received on behalf of Mary Clow. But the superintendent is not prepared to recommend a question will for the present stay where they are.

When her mother died, a girl named Morrison was adopted by a Mrs. Connor as the result of an advertisement inserted in the daily papers by Mr. Connor. But he was not her father, and she was not his daughter. Mrs. Morrison was accordingly committed to the Industrial Home with the father's consent. He now asks to get her back, but after full investigation the Board declined to grant his request.

Some routine business was disposed of in the evening.

The China Inland Mission of Ontario celebrated its fifth anniversary by two meetings yesterday in the Y.W.C.A. Hall, McGill-street. In the afternoon Mr. H. W. Frost, the secretary, occupied the chair, and addresses were given by Miss Webb, Rev. J. McCarthy and Mr. E. W. McBrien, returned missionaries from China, and Rev. Dr. Macgregor of Aberdeen.

In the evening Mr. J. D. Namith occupied the chair, and Mrs. T. A. Stevens and Rev. Messrs. Brooks and Inwood addressed the meeting.

A \$700 Blaze at Wallaceburg.

WALLACEBURG, Ont., April 28.—Last night fire destroyed a new dwelling in the city owned and occupied by A. Maresky. Loss on house and contents about \$700. Covered by insurance in the Western and Alliance.

Personal.

Register Dickson of Huron has been stricken with partial paralysis.

Sometime since the French town yesterday attending to business. He is recovering rapidly from his recent illness.

Rev. H. H. Brock, of the Reading, England (one of the Newark Brethren), for some years past, has been in charge of the branch of the Canadian Branch of the Brethren in St. Paul's Church, Bloor-street east, to-morrow morning.

PORTABLE DISINFECTING MACHINE.

The Sanitary Commissioners of New York have ordered from Chemnitz, Germany, a portable disinfecting apparatus for use in case of cholera. The forcing out from the New York Times gives an account of the appearance of one of these machines, 15 of which have been in use in Hamburg.

The cost of the New York machine is \$200. The cylindrical disinfecting apparatus, together with the steam generator and all the belongings, is firmly fastened to a strongly-built wagon, which is drawn by two horses. The machine is so constructed that a thorough disinfection by streams of steam, a filtering and drying of the articles as well as their ventilation, thoroughly accomplished, and the articles are taken out dry and odorless and without being in the least damaged by the steam.

The ventilation is so arranged that the vapors that are drawn from the interior must pass through the fire of the steam generator and are both consumed.

FISHERMEN BLOWN OUT TO SEA.

A Terrible Storm Sweeps Over Prince Edward Island.

HALIFAX, N.S., April 28.—A terrific storm swept over Prince Edward Island yesterday morning. The schooner Anna was wrecked at Merigonish, and the Rising Dawn is ashore at Caribou. The wind blew 40 miles an hour. It was bitterly cold, with heavy snow and hail. A large number of lobstermen were blown to sea and undoubtedly perished. Several boats and their crews were blown out to sea from Canoe Cove and six boats and their crews from Black Point.

Two men named Howell and Johnson of Capraud were blown off in their life-boats, but were rescued by the schooner after terrible suffering from exposure in an unconscious condition.

AN ORANGEVILLE ELOPEMENT.

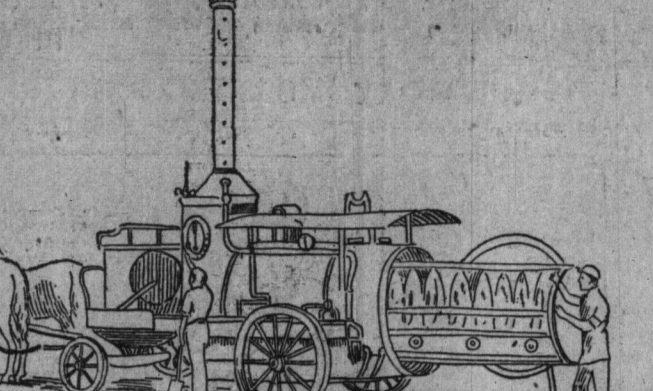

A Dufferin Mother Deserts Home and the Child.

Orangeville, Ont.

Early last week a comparatively young woman who resides with her husband and only child, left her home in Orangeville, and is now the mistress of her husband's brother in some town across the border. The woman is reported to be a mother of several children, the eldest not being more than 12 years of age and the youngest a few months old.

OUR SCHEDULED CATTLE.

British Importers Awaiting the Arrival of First Cargoes.

LONDON, April 28.—The arrival of the shipment of cattle leaving Halifax to-morrow is looked forward to by cattlemen throughout England with a great deal of interest, says a Telegram special. The Board of Agriculture is making special arrangements to secure the complete separation of Canadian from American cattle at the different ports of entry. The Board intends to employ a number of commissioners to watch Canadian animals until they have been slaughtered and their lungs properly examined.

It is understood that Sir Charles Tupper is arranging to have the Canadian Government represented by expert veterinary authority at the examination of the lungs of Canadian animals showing the least suspicious symptoms.

The general feeling here is that the Board of Agriculture's attitude is sympathetic, and that it is desirous of removing the restriction placed upon Canadian animals as soon as possible. The more cattle sent over during the opening weeks of the season the sooner the embargo will be removed.

Two Women and a Pixer.

P.C.'s Craig and McCarron raided the premises at 109 Claremont-street at 5.30 yesterday afternoon. The following arrests were made: Julia O'Connor, keeper; Ellen, Patrick and John O'Connor, inmates, and Mary Seymour, frequenter.

A lively set-to between those assembled was in progress when the police entered. John O'Connor and Mary Seymour were both rather badly beaten, as a pickaxe had figured prominently in the affair.

The two women were with difficulty presented from renewing the combat when they arrived at Headquarters.

The Province of Santiago Declared in a State of Siege.

MADRID, April 28.—El Correo, newspaper organ of the Government, states that armed bands have appeared in the interior of Cuba and have thrown the inhabitants into a panic.

HAVANA, April 28.—The Province of Santiago has been declared in a state of siege.

A despatch from Holguin, Province of Santiago, announces that 50 of the bandits concerned in the robberies in that district have surrendered themselves.

THE NAJAVO OUTBREAK

Is Assuming Alarming Proportions.—Missions Probably Massacred.

DURANGO, Cal., April 28.—The Navajo outbreak is assuming alarming proportions. Settlers are securing ammunition and arms here to protect themselves. One settler reports the Mission, Welches and other ranches surrounded and the ranchers massacred probably.

G. Wright & Co., druggists, have assigned to Elliot & Co. of Toronto. The judgment obtained against them by A. Ward, their late landlord, and the heavy fines recently imposed by Magistrate Ellis for illegal sales of liquor have been the principal causes of their difficulty.

Dye's improved food for infants is recognized as the very best possible food for children. It is easily digested, contains a most perfect barley and highly recommended. Druggists keep it.

Feet and Accidents to an Engineer.

Four Huron, April 28.—Harry Ryan, a Chicago and Grand Trunk engineer, who has figured in a number of railroad accidents for several years past, was killed by the passengers of a train that he was running, met with a peculiar accident yesterday.

While on his run between Lansing and Battle Creek, while the train had just opened the door of the firebox, a coal into it, a gust of wind blew the flames against Mr. Ryan's clothing. They immediately ignited and were nearly as if his body before the fire was extinguished.

He was brought to his home in this city last evening, where he is now in the care of physicians. He sustained severe burns on his body and legs.

Buried in Hay to Die by a Tramp.

NORTHFIELD, Minn., April 28.—J. S. Allen, agent of the United States Express Company, went into a hayloft to feed his horse yesterday morning, when a tramp cut across his head and body with a hatchet and buried him in the hay, believing his victim dead. Blood running through a crevice in the ceiling led to the discovery. Allen was dug out of the hay, where he had lain unconscious three hours. He cannot recover.

"Go to Sleep," sure cure for sleeplessness, nervousness and headache. Contains no Narcotics, gives sweet refreshing sleep in every case. This splendid medicine is especially efficacious in cases of insomnia from overwork, excitement or alcoholic excess. Guaranteed safe, sure and effectual in bottles 5c at all drug stores.

Yesterday's Fires.

At 10.55 last night the reels had a run to box 234. The fire was in a shed in the rear of 187 Parliament-street, owned by C. W. Price. No damage.

At 12.25 last night the brigade was called out to 234 Parliament-street, owned and occupied by J. W. Hewittson. The fire was caused by a coal oil lamp exploding in the kitchen. Damage to the house and furniture \$500; fully insured.

The West shore through sleeping car leaves Toronto for New York at 10.15 a.m. on Sunday. Arrives New York at 10.15 a.m. Sunday. Leaves Toronto at 10.15 p.m. on Sunday. Arrives New York at 10.15 p.m. on Sunday.

Will Furnish Gold if Needed.

New York Banks Will Come to the Rescue When Called Upon.

New York, April 28.—It was learned to-day on good authority that at last evening's meeting of Secretary Carnegie with the New York bank presidents, he was assured of their willingness to come to the assistance of the Government whenever, in his opinion, more gold was needed by the treasury.

The terms on which the gold is to be furnished were left open.

Killed by a Falling Tree.

ORONHO, Ontario, April 28.—A fatal accident occurred in James Elliot's bush, resulting in the death of Alfred Sherwood. The deceased, along with his father, was cutting down a tree.

Before it was cut through the son went to remove some brush which lay in the way, and while thus engaged the tree fell, a limb striking him on the back of the head and crushing his skull.

After receiving the blow he never spoke, and died shortly afterwards. The deceased was about 30 years of age.

The Rathbuns to be syndicated.

P. W. Backus, of Deseronto and Bell, Q. C., Belleville, are now on their way to London, England, to conclude the sale of the big Rathbun interest at the request of an Ontario syndicate of capitalists, timber limits, and all the other flourishing industries built up by the Rathbuns in the Bay of Quinte.

The Railway Committee yesterday morning transferred to the Private Bills Committee the bill regarding the Kingston, Smith's Falls and Ottawa Railway.

At the Public Accounts Committee yesterday Mr. Henry Smith's examination was continued. Mr. Bradshaw, an employee of the Crown Lands Department, explained some errors in the 1881 books. Certain small discrepancies were also explained.

Next Tuesday the committee will examine Mr. Stacey's books. The accounts relating to the Ontario exhibit at the Imperial Institute, London, will also be brought under the committee.

Mr. John Bell, solicitor of Belleville, has been accustomed for many years past to dominate over the officers of other companies having business to transact before the Privy Council at Ottawa. He carries things with a high hand, trading on his grey hairs. He is now a veteran and is seemingly not alive to the great changes being worked around him. He calls the Toronto Railway Company in his correspondence a "bur" line. Well, the bus line can laugh at that; but it shows the old man's ignorance and conceit. This line of railway consists of over 75 miles of track traversing and intersecting an area of 25 square miles. It admirably serves the wants of nearly 300,000 in this city and its vicinity, inclusive of those who constitute our daily bread of visitors. It is well-managed and it pays. It is a word over all this continent and Great Britain for wasted capital, lost opportunities, slovenly service, weak management, ineffectual inactivity, sublime selfishness, fatuous self-sufficiency, and consequently no dividends! No wonder the Grand Trunk is jealous, but if Mr. Wrage is well advised he will endeavor to remove all reasonable cause of complaint, and so stop adverse action going the length that a thoroughly disgusted community is quite prepared to view with complacency.

Steps are being taken to organize a mass meeting of East Enders and others interested in the resumption of the trolley service over the Don to take place early next week. The chief agitators are taking to this a resolution to boycott the Grand Trunk, and it certainly seems a remarkable piece of blundering upon the part of this railway to antagonize the 600 members of the Jockey Club, who are all Pullman car travelers, the immense number of persons along their line who will be finding their way to Toronto for the races, and, not least, the residents of East Toronto. It is also stated that the Jockey Club propose issuing a circular to horse owners and intending visitors asking them to patronize the G.P.R. at points where the two railways are in competition. All this makes one wonder why the Grand Trunk management invariably opposes itself to popular convenience. But in this characteristic of the English-owned and English-officed road is to be found the reason why a new rival railroad has been able to parallel the Grand Trunk and steal its business throughout this Province of Ontario. There seems to be no instance in the Grand Trunk executive rising above the level of grabbing all they can for the moment, and a one-sided policy bound to be suicidal in the end.

The most likely reason that has yet been given for the Grand Trunk's opposition to the trolleys crossing their tracks in Queen-street east is the threatened road that the electric cars are going to make in the Grand Trunk's suburban service in the East. The Weston and York suburban service brings the Grand Trunk very hard some returns, and the biggest part of the receipts come from the eastern end of the line. A large part of this business will be taken away as soon as the through electric service to East Avenue is completed. If the Grand Trunk would give better accommodation to suburban residents it could hold most of its business. But it jogs along after old-time methods, refusing to listen to the suggestions of the public. If the Grand Trunk thinks it can keep its business by such tactics as it has adopted against the Street Railway Company it will soon find itself disagreeably surprised.

Reciprocity in Banking. Mr. Thomas L. James, ex-Financial Director-General of the United States and now president of the Lincoln National Bank, was interviewed a few days ago and was asked if he had observed that Canadian banks were charging a discount on U.S. paper currency. He said: "Yes, my attention has been called to that extraordinary policy. Well, I am a believer in reciprocity, and if the Canadian banks were to discriminate against us, we must discriminate against theirs. I have no objection to the United States countries at a par. Here in the Lincoln Bank we charge a great deal of Canadian money every day as an accommodation to our customers and others. Persons who come from Canada bring it with them, and finding that they cannot use it readily here they are very glad to exchange it for our money. I have heretofore made no charge at all, but to-day I gave instructions to charge just the same rate of discount that the Canadian banks charge against United States currency."

We beg to inform Mr. James that it is the Canadian banks that are doing the "reciprocity." For years our good Canadian money, backed by gold, has been charged a heavy discount by both United States business men and bankers, while it has been the custom here in Canada to take even the cent on the dollar silver certificates at par. Our banks are now beginning to "reciprocate" by charging a discount, which has been in force against Canadian money in the States for years. Mr. James had better set his own house in order before he begins "reciprocating" toward Canadians. The Americans began it without reason; we think we have a very good reason for what we are now doing.

Mr. Cockburn a Chicago Commissioner. An Ottawa despatch says Mr. G. R. R. Cockburn, M.P. for Centre Toronto, is to be one of the Canadian Commissioners to the Chicago Fair. The appointment is an excellent one. Mr. Cockburn is a very respectable man and will reflect credit on the country which sends him.

The despatch in our issue of Thursday in reference to the arrest of Mr. John Kay of Paris, upon a charge of embezzlement, proves to be without foundation, and The World regrets its publication. A civil action was brought against Mr. Kay in October last by Messrs. Parrall & Thompson to recover \$1000. Mr. Kay filed a counter claim and the hearing of the suit is pending. No criminal proceedings have been instituted against Mr. Kay, nor is such the intention.

City Hall Notes. The tenders for asphalt pavements will not be opened today as expected, a rumor to the effect that the asphalt companies have combined to raise the price has reached the ears of the City Engineer. Engineers were busy yesterday considering the practicability of laying a new conduit from Queen's Wharf across the western end of the Island.

which it was pointed out that an auxiliary pumping plant at the Island end of the system would not only send a much larger volume of water through the conduits, but would prevent bay water from entering the pipes. If the conduit happened to leak, the leak in such a case would be outward, not inward. That report becomes one of interest at the present juncture. If such an auxiliary pumping plant will effect what has been claimed for it then the present is the very time to adopt it. The two engineers who made the report, Messrs. George C. Robb and John Galt, say the plant can be put in running order for \$30,000, and three men and three or four tons of coal per day will keep it going. As a temporary measure this idea is well worth investigating. But to whom shall we refer it? We have no Waterworks Department and Mr. Keating has enough other city work to look after to keep him as busy as any official in the city's employ. We leave it to Mayor Fleming and Mr. Robert Aude.

A Foster for the Park Hunters. While the committee is park-hunting it should not lose sight of the desirability of securing a large site over the Don, somewhere about the same distance or four tons of coal per day will keep it going. As a temporary measure this idea is well worth investigating. But to whom shall we refer it? We have no Waterworks Department and Mr. Keating has enough other city work to look after to keep him as busy as any official in the city's employ. We leave it to Mayor Fleming and Mr. Robert Aude.

Attention is called to the letter of Major Mason, which appears in another column, relative to our water supply. In that letter is quoted a report submitted to the council in 1880 by Hon. Frank Smith, in which he warned the council that it was a mistake to bring our water through the bay either by a wooden or iron conduit. He stated there was a possibility of rather a probability of the pipes becoming leaky through accidents, and recommended bringing the water from Humber Bay. The very thing has happened that the Senator pointed out, and it is likely to occur again. The idea (with modifications) will have to be carried out before we can have a supply of pure water, and the sooner it is carried into execution the better.

Successful Test of a New Machine For Welding Railway Tracks. Some interesting tests have recently been made at Johnston with a new machine for welding steel rails. The tests were made on the street railway tracks with the rails in place, and were highly successful. The machine was stopped at the joint, where the ends of two rails rested on the same sleeper, and after the necessary connections were made, the electric current was started on. In less than a minute the rails at the ends began to change color, and inside of three minutes the metal was raised to a white heat. Then the ends of the rails were brought together under pressure, and a perfect joint was made in all cases where the conditions were favorable. The trials were the most satisfactory that have been made.

The machine which produces the welding resembles somewhat in appearance a car, but is much more massive than the ordinary electric car. The current is taken from an overhead trolley wire. Inside the car is a boiler known as a "motor boiler," which transforms and changes the direct current into a current of the desired kind for the electric welding process. A big crane of special construction extends through the open end of the car and carries a peculiar apparatus, which is the welder proper. The interior of the car is lined with water tanks, which provide hydraulic motor power for some of the adjustments and a circulation of water for cooling the copper contacts which are used in the welding. At various points on the car are located independent electric motors, which operate emery grinders for cleaning of the rail preparatory to the welding.

At a meeting of the Manufacturers' Committee, held yesterday in the City Hall, there were present, Ald. Bell, chairman, and Ald. Jolliffe, Stewart and Carlyle. Mrs. Dallas was offering to dispose of a site for a factory in King-street east, the site being bounded by the street, the assessed value being \$18,000. A communication from C. C. Robinson was read, making application for a lease of the water lots in front of High Park on behalf of the Toronto Drying and Improvements Company.

W. H. Gibbs offered several lots which he claims are suitable for factory sites in the block between Sunnyside and River-street. Ald. Bell was authorized to see J. K. Kerr, Q.C., and ascertain from him which of the amendments made by the council to the proposition of the Ontario Iron and Steel Company were objectionable to that corporation. S. Frank Wilson will be given an audience by Ald. Bell this afternoon, as he has some information to impart regarding the inducements which the Waterworks Engine Company of Bradford will require should they decide to locate in Toronto. The committee will ask the council for a grant of \$100 to defray general expenses.

Always on Hand.—Mr. Thomas H. Porter, Lower Ireland, P.O., writes: "My son, 15 months old, had a cold so bad that nothing gave him relief until a neighbor brought me some of Dr. Thomas' Electric Oil, which I gave him, and in six hours he was cured. It is the best medicine I ever used, and I would not be without a bottle of it in my house."

THE PICTURESQUE MODEL ILLUSTRATED ABOVE, MADE IN PARIS, IS OF DARK CHESTNUT STRAW. A BROAD BOW OF PLAIN GREEN VELVET IS PLACED IN FRONT OF THE CROWN AND HELD BY LARGE STRASS BUCKLES. TWO LACES OF SEW GUIPURE LACE ARE ATTACHED INSIDE THE BRIM DROOP EACH SIDE OF THE FRONT IN MOST EFFECTIVE FASHION. THE BRIM IS ROLLED UP CLOSELY AT THE SIDES, CAUSING THE FRONT TO PROJECT IN A POINT. LONG-STEMMED TULIPS ARE CREST AT THE BACK OF THE CROWN. THE PRETTY PÉLERINE IN BROAD PLAINS IS OF BRISTOL-COLORED COTTON, THE NECK BECOMING FINISHED WITH A BOA COMPOSED OF PUFFS OF SILK MULLIN.—Harper's Bazar.

THE STANDARD LIFE ASSURANCE COMPANY. When To Buy And What to Buy? Where to buy? This is a question that presents itself to all and deserves our careful consideration. Reason tells us that we should go where the largest stock of the goods we need is to be found, because there is the greatest variety to choose from; there is a certainty of getting what you want, and of saving time running from store to store, and, finally, there the prices will be the lowest, simply because, as such a firm buys in large quantities, it has the benefit of big discounts.

It is an old saying, and as true as it is old, that "one might as well be out of the world as out of the fashion." Take this as your motto and buy only the latest styles. They don't cost you any more than styles three or four years old, while you have a guarantee that the goods are new and are made with all the latest improvements of modern science. Moreover, such goods look better, feel more comfortable and give better satisfaction than old styles. Take for instance that you want a pair of the latest style in spring boots or shoes. Nothing looks worse than a pair of ill-fitting boots, and nothing shows off a well-shaped foot to better advantage than a new and stylish shoe. In this line no one need hesitate to answer the question "Where to go?" The Guinness Bros., 214 Yonge-street, are easily ahead of any shoe store, not only in this city but in the Dominion. The enormous quantity of spring goods constantly pouring into and out of their establishments sufficiently vouches for this. For any goods that you have your eye on, control in two of the largest shoe factories on the continent, one in Quebec and the other in Boston, there is only one profit between the manufacturer and the public. This is the reason they can sell ladies' white, blue or black canvas, kid-faced, hand-sewn, walking shoes for \$1.18; ladies' Russia tan-colored walking shoes, hand made, flexible soles, \$1.50; ladies' red moose, big cranes, kid-faced, hand-sewn, walking shoes, 90c; gentlemen's shell cordovan walking shoes, 90c; gentlemen's Russia calf, reliable and durable goods, \$1.75. Every pair of boots and shoes stamped as manufactured by Guinness Bros. is guaranteed by them.

"Shorter" Pastry and "Shorter" Bills. We are talking about a "shortening" which will not cause indigestion. Those who "know a thing or two" about Cooking (Merion Highland among a host of others) are using COTTOLENE. Instead of lard, none but the purest, healthiest and cleanest ingredients go to make up Cottolene. Lard isn't healthy, and is not always clean. Those who use Cottolene will be healthier and wealthier than those who use lard.—Healthier because they will get "shorter" bread; wealthier because they will get "shorter" grocery bills—for Cottolene costs no more than lard and goes twice as far—so is but half as expensive. Dyspeptics delight in it! Physicians endorse it! Chefs praise it! Housewives welcome it! All live Grocers sell it!

Made only by N. K. FAIRBANK & CO., Wellington and Ann Streets, MONTREAL. Another Suit Against the City. Messrs. Fullerton & Co., solicitors for Robert Compton, Centre-street, butcher, have commenced an action against the city of Toronto for \$3000 damages caused by an alleged defective sidewalk in Carlton-street. The accident happened in February last. D'Alton at Orangeville. D'Alton McCarthy, Q.C., M.P., and E. Douglas Armour, Q.C., will be the speakers at the political meeting in the town hall, Orangeville, Monday evening.

LOOKING FOR EMILY. She Conducts a Shooting Gallery and the Police Want Her. A constable from Barrie arrived in this city yesterday in search of Emily Parral, who recently conducted a shooting gallery in Barrie. Emily was fined \$20 and costs for selling cigars to minors, but before the judgment could be collected she skipped out and is now believed to be in Toronto. Always on Hand.—Mr. Thomas H. Porter, Lower Ireland, P.O., writes: "My son, 15 months old, had a cold so bad that nothing gave him relief until a neighbor brought me some of Dr. Thomas' Electric Oil, which I gave him, and in six hours he was cured. It is the best medicine I ever used, and I would not be without a bottle of it in my house."

Messiah Church Troubles. Mr. Justice Robertson held that the plaintiffs who obtained the injunction restraining the Messiah Church vestry from electing church wardens had no locus standi in court and dissolved the injunction. His Lordship holds that it is purely a church affair and should not have been brought into court. From this the plaintiffs will appeal.

FRESH FROM THE FAMOUS LOOMS OF KIDDERMINSTER. For FOSTER & PENDER'S New Carpet House, 14 and 16 King-street East. A special importation of 45 bales of the very newest and choicest productions of the famous Kidderminster Looms, which has just passed through bond, is on exhibition to-day at Foster & Pender's New Carpet House, 14 and 16 King-street East. This superb collection of exclusive new designs in Axminster, Wilton, Brussels and Tapestry Carpets is well worth the inspection of people of good taste who desire to make selections from a special stock, embracing the very latest patterns from the best makers. These carpets are on display in the great show-room, ground floor, on level with King-street, to-day.

SPRETTLE, 11 1/2 Richmond-street, west.

HOW TO GET OUT OF IT.

A Sharp Device That Was Worthy of a Woman's Wit. "Maria," he said, as he entered the house, speaking before his wife had time to say a word, "this house is in an awful condition." "Why, Henry?" she began. "Don't try to get me out of it," he interrupted. "Look at this room! I was going to bring home a friend with me but I refrained for fear that the house would be just the condition that I find it." "If you had said word, Henry?" "Don't worry, Maria! Why should I have to say a word? Why should any one who claims to be a housekeeper have to be notified that she can scurry around and make things look respectable? And that gown, Maria! It is outrageous to be dressed in that fashion at this time of day." "If I could have changed it, Henry." "Oh, of course. You could have done lots of things, but you didn't. You should be ready to entertain your husband's friends at any time. I suppose the dinner is cold, too." "It's not as good as it was. You're late, you know." "Oh, of course; and if I had brought my friend with me he'd have had to sit down to a cold dinner or one that was burned to a crisp, and we would have both felt cheap and would have had to apologize. It isn't my fault at all."

"Well, Henry, I'm sorry you should feel that way." "Well, I wish you would try to do a little better. It is very annoying." "When he had eaten his dinner in his chair after dinner he chuckled to himself behind his paper and muttered: "George! Maria! How have you got a roasting for being late if I hadn't started it first. It's a great scheme!"—Cincinnati Commercial.

THE UNGRATEFUL PATIENT. How a Privy Car Disappointed Her. "Our lives are full of disappointments," remarked my friend, the surgeon, who is content for inability to do more than to say anything in their own language and make them forget their misery for the time. "Early last evening," she began, "my young lady was brought to my office from a western state in a pitiable condition. She had dislocated her arm and her mother, called on me to say 'good-bye' last Tuesday, and she was in the highest of spirits. She danced about the room to prove that she was perfectly strong again, and gave me this handsome silver inkstand for a remembrance. As I accompanied them to the stoop she paused on the upper step and took my hand again. 'Doctor,' said she, 'beyond the dislocation of my arm, I thank you and the eternal gratitude of mamma and myself I feel that you deserve some further reward.' 'Lean over and kiss me,' she went on impressively. 'You deserve a reward that most men would risk their necks to gain! You deserve a kiss! Mamma, kiss him,' and before I could get the pucker out of my lips she was down on her knees, and as she kissed me she was laughing and I have ever heard."

"Yes, as I said before, we all have our disappointments."—New York Herald. The General Set the Question-Rights. Miss B. asked Gen. B. of London what it was true in many of our soldiers, who soldiers, regarded card playing and petty pilfering as among the most important of their duties. He replied: "A base lie, madam—a calumnious lie. They never left a fire-line without a break down from its load of fruit; never returned to their homes without a broken-down horse; never permitted the lateral fire to cut in behind them; never allowed a never-so, never-left a wounded about the blood in young life by the roadside and as for the rest, they were as good as dead that just before the battle of Seven Pines of Ferrisville, of Murfreesboro, we as a cavalry regiment were ordered to charge the soldiers' digout for card playing."—Confederate War Journal.

Equal to the Occasion. One of the good stories of ex-Postmaster General James Wells is about a typewriter he once bought. He was a novice at it, but he proved himself a good one in an emergency. Col. James had dictated to a political speech, which he was about to deliver. He referred to a certain individual and said of him: "He knows no more about politics than I do about the tariff." The tariff was a sine die matter, but the speech was to be given at a safe conclusion, the young woman thought, in this respect.—New York Press.

On the Train. Mr. Peck Slip—I'll bet that's a married couple yonder. Mr. Murray Hill—Why? Mr. Peck Slip—Because they are 'U' so hard to act as if they were not. Sensitive. Saldie—In the winter of 1816 there were five feet of snow. Saldie—On the level? Saldie—Do I look like a liar? Undoubtedly Real. He [leaves his rival]—There is nothing about Count Minkinski that is undeniably not bogus. He—His financial necessities. A Reasonable Doubt. "Ah, Cholly, I shall come out in a week next week." "Set checks, I suppose?" "Oh, yes." "Bank checks or pawn checks?"—Ch Record.

HOW TO GET OUT OF IT.

A Sharp Device That is Worked of Woman's Will. "Maria," he said, as he entered the house, speaking before his wife had time to say a word, "this house is an awful condition."

THE UNGRATEFUL PATIENT. How a Pretty Girl Disappointed Her Clever Doctor. "Our lives are full of disappointments," remarked my friend, a doctor, who was famous for his ability to joke with patients of any nationality in their own language.

AT HAND. Looking Ranges will be in stock. We have a much demand. Ranges, guaranteed to last for 10 per cent. off for cash.

THE GENERAL SET OF THE QUESTIONNAIRE. Miss B. asked Gen. S., of Louisiana, if it was true that many of our solid citizens, while soldiers, regarded card playing and petty pilfering as among the compliments of camp life.

Equal to the Occasion. One of the good stories of Postmaster-General James tells about a typewriter he once owned, which was a novice at the art, but who proved herself equal to an emergency. Col. James had dictated to her a political speech which he was about to deliver.

Seems Recurrent. "Brown Study," of course, Brown is reading the fourth chapter of his three-volume Autobiography to Jones. Brown (pausing in his gigantic yawn)—Well, tell me honestly, have you any fault to find with it? Jones—Well—hum—It's waste finish!

One Way of Calling Him a Calf. Callow—Till he's got a calf, my father's business. Penelope—Here's a bull in Wall street. Callow—Heaven! How did you know? Penelope—I supposed so because you're his son.

His Trunk. Clerk (to emigrant)—Yes, that's all right for the passage money; and now as to your trunk. Emigrant (looking at his trunk)—Oh, but your trunk, sir? Clerk—Oh, put your clothes in. Emigrant—What! and me go naked?

Mr. Peck Slip. Mr. Peck Slip—It's that a newly married couple vendor. Mr. Murray Hill—Why? Mr. Peck Slip—Because they are trying so hard to see as if they were not.

Sensitive. Saldie—In the winter of 1916 there were five feet of snow. Herdso—On the level? Saldie—Do I look like a liar?

Undoubtedly Real. He (jealous of his rival)—There is one thing about Count Minkini that is unquestionable. What's that? He—His financial necessities.

A Reasonable Doubt. "Oh, Cholly, I shall come out in a spring suit next week." "What checks, I suppose?" "Oh, yes." "Bank checks or pawn checks?"—Chicago Record.

IT'S BETTER THAN DRUGS. ALE AND PORTER (FOR INVALIDS) WILL DO YOU A GOOD DEED. SPADINA BREWERY, KENSINGTON AVENUE.

LOCAL SECURITIES ARE UP. AN OLD-TIME BOOM STRIKES COMMERCIAL CABLE.

Bell Telephone Also Advances—Other Stocks Higher—New York. Broker Firmers—Excitement in Provinces—Cotton Higher—Wheat Higher—Heavy Run of Hogs at the Local Market—Business Embarrassment.

Local brokers are expecting a better supply of call money after the first of the month. Consols are steady at 2 1/8 for money and account. C.P.R. is higher at 8 1/2 in London.

Grand Trunk are steady at 2 1/8 for 1st preference and 3 3/8 for 2nd preference. Henry Allen & Co. wires J. Dixon that the gold reserves in the United States Treasury will meet freely, even if it goes down to \$50,000,000.

Alexander Boyd & Sons. Make immediate cash advances on goods. Reliable storage. Consignments and correspondence solicited.
