The Honourable
The Speaker of the Senate.

His Excellency the Right Honourable Sir Gilbert John Elliot, Earl of Minto and Viscount Melgund of Melgund, County of Forfar, in the Peerage of the United Kingdom, Baron Minto of Minto, County of Roxburgh, in the Peerage of Great Britain, Baronet of Nova Scotia, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, &c., &c., Governor General of Canada, being seated on the Throne,

The Honourable the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House,—"It is His Excellency's pleasure they attend him immediately in this House."

Who being come with their Speaker.

His Excellency the Governor General was then pleased to open the Session by the following Gracious Speech to both Houses of Parliament:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In meeting you again at the commencement of another session of Parliament, it is my first duty to express the deep sense of our gratitude to Divine Providence for the many blessings which Canada has received during the past year, and particularly for the exceptionally bountiful harvest in Manitoba and the North-west Territories.

It was very gratifying to note the cordial reception tendered by all classes of the people, to the Prince and Princess of Wales on the occasion of their visit in September and October last, the only regrettable feature being the limited time at their disposal, which prevented their visiting many important centres of population. It is however a great satisfaction to know that their Royal Highnesses enjoyed their tour through Canada and carried away the most pleasant recollections of their visit to this part of the Empire.

The assassination of President McKinley, has elicited a universal feeling of sympathy and sorrow throughout the civilized world and, though Canada has happily so far been free from crimes of the character, the close proximity to the United States may make it advisable to join our efforts to the efforts of the United States and other nations and to provide by legislation for the adequate punishment of those who, either by speech or writing, incite fanatics to the perpetration of such horrible crimes.

The returns of the late census will be laid before you and, while the absolute increase in the number of population is not so great as might have been expected, the evidences of growth in wealth and in the general tokens of prosperous development are highly satisfactory. There is good reason also to believe that the increase of population during the latter half of the decade has been very greatly in excess of the average of former years and that in the near future we may look for a much more rapid growth than occurred during the period covered by the last two censuses.

Application having been made by the Canadian Pacific Railway Company for approval of an increase of its capital, to meet the demand for additional rolling stock and other improved facilities, for handling the growing traffic, my Ministers availed themselves of the opportunity to stipulate that the long pending question of the power of the Governor in Council to regulate the tolls of the Company, should be submitted to the Courts for a judical decision. The correspondence and other papers will be laid before you.

The inventor, Mr. Marconi, having met unexpected obstacles to the carrying on of his experiments in wireless ocean telegraphy in a sister colony, my Ministers deemed it expedient to invite him to continue his operations on the coast of Nova Scotia, and they availed themselves of his presence in Canada to enter into negotiations resulting in an arrangement through which, should the project prove as successful as is hoped for, the Government and people of Canada will enjoy the benefits of the invention on very favourable terms, including rates for transatlantic messages very much below those now existing.

I am pleased to inform you that the display made by Canada of her products, at the several expositions at which they have been exhibited during the last year has attracted much attention, and has already resulted in many inquiries and orders for our goods.

I may also congratulate you on the satisfactory condition of the revenue and on the steady and continuous expansion of the general business of the country as evidenced by the increased volume of exports and imports.

With the view of still further facilitating and developing our trade with other countries, it will probably be found expedient to increase the number of our commercial agencies, and Parliament will be asked to consider the desirability of making additional provision for that purpose.

I have also pleasure in informing you that the Governments of Australia and New Zealand have accepted an invitation from my Government to attend a conference in London next June for the consideration of trade, transportation, cable and other matters of intercolonial corcern, and it is hoped that the meeting may lead to an extension of Canadian trade with those important portions of His Majesty's Dominions.

I have further to advise you that my Government, having caused inquiry to be made, has reached the conclusion that the establishment of direct steamship service with South Africa would enable Canada to secure in that country a profitable market for her varied products, and, to that end, will endeavour to arrange for such a service.

His Majesty has been graciously pleased to invite the Premier to be present at the ceremonies attending his Coronation. It is to be hoped that the presence of the leading statesmen of the several colonies upon this occasion will afford an opportunity for the discussion of subjects of mutual interest which may considerably affect the

development of our trade and commerce in the near future, with the mother country and with our sister colonies.

Gentlemen of the House of Commons:

The public accounts for the last year and the estimates for the succeeding year will be laid before you without delay.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I commit the above matters and all others which may be submitted to you, to your earnest consideration, and I rely upon your wisdom and prudence to deal with them in the manner which, under Divine Providence, may prove most conducive to the best interests of Canada.

His Excellency the Governor General was pleased to retire, and the House of Commons withdrew.

The Honourable Mr. Scott, Secretary of State, presented to the Senate a Bill intituled: "An Act relating to Railways."

The said Bill was read a first time.

The Honourable the Speaker then reported His Excellency's Speech from the Throne, and the same was then read by the Clerk.

On motion of the Honourable Mr. Scott, seconded by the Honourable Mr. Templeman, it was

Ordered, That the Speech of His Excellency the Governor General be taken into consideration by the Senate on Monday, the 17th instant.

On motion of the Honourable Mr. Scott, seconded by the Honourable Mr. Templeman, it was.

Ordered, That all the Senators present during this Session be appointed a Committee to consider the Orders and Customs of the Senate and Privileges of Parliament, and that the said Committee have leave to meet in the Senate Chamber, when and as often as they please.

The Honourable Mr. Scott moved, seconded by the Honourable Mr. Templeman, That when the Senate adjourns this day, it do stand adjourned until Monday next, at three o'clock in the afternoon.

The question of concurrence being put thereon, the same was resolved in the affirmative, and

Ordered, accordingly.

Then, on motion of the Honourable Mr. Scott, seconded by the Honourable Mr. Templeman,

The Senate adjourned until Monday next, at three o'clock in the afternoon.

The Honourable the Speaker presented to the Senate the Report of the Joint Librarians of Parliament on the state of the Library of Parliament, for the year 1901.

The same was then read by the Clerk, and it is as follows:

To the Honourable the Speaker of the Senate:

The Joint Librarians of Parliament have the honour to present the following report for the year 1901:—

During the recess the Librarians have endeavoured to complete several important collections which had lately been in arrears. In the field of natural sciences, advance is so rapid that works which were up to date a few years ago, are now almost behind time. At a considerable expense they had to be replaced by the latest editions.

Through our exchanges with other British Colonies, the Librarians have been able to collect valuable data and statistics on every part of the distant dependencies of the Empire. The vast amount of information contained in these give a very complete idea of the great resources of the Colonies in the different parts of the world.

Statistics from the United States have also been procured from Washington; among them the bulletins of the Census Report of 1900, and also the numerous Government Reports from many States, their consolidated laws and results of researches of scientific commissions.

All these valuable additions to our national collection have been classified and placed on the shelves in the best manner compatible with the limited space—always

growing smaller—to be found in the Library.

The Americana section of the Library has also received its quota of works out of print, which are more and more difficult to obtain owing to strong competition on the part of foreign libraries. Among the books and documents bought for that section, during recess, are to be found twelve volumes of the Transactions of the American Antiquarian Society; also a photographic copy of a valuable map deposited in the Congressional Library at Washington; it is designated as a Plan of Quebec, the Capital of Canada, in North America, with the bason and part of the adjacent country, showing the principal encampments and works of the British Army, commanded by Major General Wolfe, and those of the French Army, commanded by Lieut. General the Marquis of Montcalm, during the siege of that place in 1759.

Through the obliging courtesy of Lieut. Colonel Neilson, a copy was secured of certain letters exchanged between Louis J. Papineau and Pierre Bedard Joseph Moquin, a celebrated lawyer of his day, and John Neilson, M.P.P., and editor of the Quebec Gazette. These interesting letters, written during the years 1826 to 1836,

bear on the political situation of that troubled period of our history.

It sometimes occurs during the session that some Members will borrow books for friends living at a distance—a practice contrary to the interests of the Library—and that when these books are called for, the names of these parties have been forgotten. The Librarians respectfully request that, at least, the names and addresses of the persons favoured with these loans be given so as to insure a possibility of their return.

A large number of important works have been presented to the Library since last session. A list of those donations will be found annexed to the present Report, and also the list of the Canadian publications deposited in this department under the

Copyright Act.

All of which is respectfully submitted.

A. D. DECELLES, G.L. MARTIN J. GRIFFIN, P.L.

Library of Parliament, Ottawa, 13th February, 1902.

(For list of donations to the Library of Parliament, 1901, Vide Sessional Papers, No. .)

On motion of the Honourable Mr. Ellis, seconded by the Honourable Mr. Casgrain (de Lanaudière), it was

Ordered, That the said Report be taken into consideration by the Senate to-mor-

row.

The Honourable Mr. Scott, Secretary of State, presented to the Senate, General Order regulating the practice and procedure in the Exchequer Court of Canada.

By the Honourable Mr. Macdonald (B.C.) :-

1—April 9—Will inquire if the Government has taken into consideration the representations made by the British Columbia Board of Trade, as to the inefficient mail service in inferior steamers from Victoria to the West Coast of Vancouver Island? 1. Was there any correspondence between the Government of Nova Scotia or any member thereof, and the Dominion Government or any Department thereof, during the period commencing from January 1st, 1878, to December 31st, 1882, on the subject of the transferring of the minerals of Nova Scotia to the Dominion Government?

For Tuesday, 15th April, 1902.

By the Honourable Mr. Landry:-

1-April 9-That he will inquire-

Whether the Government knows that there was, quite recently, in the Legislature of Quebec, a Member who caused himself to be paid largely for his good offices in the distribution of ministerial patronage, by extorting from employees amounts of \$500 for keeping them in their positions, and causing himself likewise to be paid rather high amounts for new appointments, demanding also an usurious percentage for the remission to individuals of fines incurred for infractions of the license law, selling his influence and his vote, either way or both ways, when there was a question of supporting or of opposing certain measures or of absenting himself at times convenient for himself?

Is the Government ignorant that this toll-gate-keeper has now disappeared from the provincial scene, and that he is now in pursuit of a more lucrative position in the Federal sphere?

Is it the intention of the Government to secure for itself the services of this distinguished specialist? And does it intend to employ the person named Béland by the job or by the day?

If by the day, what will be the salary? At what percentage, if by the job?

NOTICES OF MOTIONS

For Monday, 5th May, 1902.

By the Honourable Mr. Macdonald (B.C.) :-

1—May 1—That he will move that, the Honourable the Speaker of the Senate be empowered to order that any Notice of Motion he may consider out of order, be not printed in the Minutes of Routine Proceeding, and may cause to be removed from said Minutes any Notice of Motion printed therein which he may consider out of order, or of a character which should not appear in the Journals and Records of the Senate.

The Speaker on taking such action as he is empowered hereby to take, will report the same, giving his reasons for so acting, at the first sitting of the Senate thereafter. Such action to be subject to the approval of a majority of the Senators present when the Speaker

so reports.

By the Honourable Mr. Landry:

2—May 2—That he will draw the attention of the members of the Senate to the following document, published in the month of June last:—

HOW TO THE REAL PROPERTY OF

"To the Honourable Joseph Chamberlain:

"Right Honourable Sir:

"The University of Laval has existed fifty years. It was Her Majesty Queen Victoria who signed, at Westminster, the Royal Charter which gives civil existence to the first French Canadian University in Canada. This document is very remarkable; it will remain for ever as the most evident proof of the breadth of view, and the nobility of sentiment of the Queen, whose life will form the subject of one of the most beautiful pages of the history of the 19th century.

"In 1860, Laval University received a visit from His Majesty King Edward VII., then Prince of Wales. Our institution was very young then; nevertheless it so interested the young Prince with the generous heart and brilliant intelligence that he founded a prize that has been awarded every year for forty years, and which in the month of June last gave rise to a competition in which more than four hun-

dred pupils took part.

"You will understand that the university owes gratitude to the Royal Family; and this gratitude it strives to show to it by giving to society every year enlightened citizens and convinced Christians.

"Its pupils are to-day everywhere in the different parts of the Dominion. The tongue which they speak, the Catholic religion which they profess, the teaching which they have received at the university, are far from injuring their loyalty. They are firmly attached to the present conditions of their national life; they are proud to be living under the shadow of the flag of a nation which holds the fifth of the habitable world, which counts four hundred millions of subjects, which by itself alone does one-third of the commerce of the world, which marches boldly at the head of the nations as a colonial, industrial, and commercial power; they appreciate the advantages of the liberty which they possess, they see with pleasure their institutions and their works flourishing without impediment, and enjoying the respect which this great nation knows how to render to what we have to be respected.

"As these pupils belong to the governing class, they have influence upon their fellow-citizens and they communicate their sentiments to those who surround them. Thus the Catholic French Canadians feel happy, and foreigners that visit them are struck by this air of contentment, of joy, and happiness, which they do not

notice elsewhere in the same degree.

"All the thousands of pupils to whom the University has given intellectual life are fervent Catholics, convinced ones, but all are also loyal subjects. They sincerely love the Church whose children they are; but they also love the nation whose citizens they are. They venerate the Pope who directs them for the salvation of their souls, and they honour the King to whom God has given them as subjects.

"Therefore, they are pained to see His Majesty the King obliged, on the day of His Coronation, to take an oath in which are explicitly denied truths which they admit, dogmas which they venerate. And in the name of the professors and of the pupils of the University, in the name of the thousands of citizens whom the University has formed, and who are perhaps the most loyal subjects of His Majesty in Canada, I humbly venture to pray you to use your great influence to have changed a form of oath which is so contrary to the breadth of view which Canadians are pleased to recognize, for many long years, amongst the statesmen of the mother country with whom they have had relations."

And that he will ask:

Has the Government been put in possession of this petition of the University of Laval?

Has the Government sent it to the Honourable the Secretary of State for the Colonies?

When was it so sent?

What was the answer received ?
When and by whom was it given ?

By the Honourable Mr. Ferguson :-

- 3—May 2—That an humble Address be presented to His Excellency the Governor General; praying that His Excellency will cause to be laid before the Senate copies of all:—
 - 1. Notices calling for tenders for the construction of any portion of the railway from Charlottetown to Murray Harbour.
 - Tenders received in consequence of such notices.
 Specifications for the construction of said railway.
 - 4. Orders in Council awarding or authorizing contracts on any part of said railway.
 - 5. Correspondence between the Department of Railways or any officer thereof, and any tenderer or contractor for any part of the said railway, regarding the performance of work thereon.
 - 6. Also a statement showing when the work on said railway, other than on section 2, was commenced, and the authority under which the work was entered upon.

By the Honourable Mr. Ferguson:

4-May 2-That he will inquire of the Government-

1. What steamer, if any, has been engaged to ply between Charlottetown and Liverpool during the present season?

2. Will Charlottetown be the last port of departure of said steamer?

3. How many round trips will be made and when will the service be started?

4. Will the steamer employed be provided with cold storage suit-

able for carrying meat, poultry, and butter?

5. Will the said steamer be provided with means of generating cold air and distributing the same through such portions of her space as will be used for carrying such perishable products as cheese, eggs and apples, and will an even and suitable temperature in such space be guaranteed?

6. Will sufficient space be reserved for freight offering at Char-

lottetown?

For Tuesday, 6th May, 1902.

By the Honourable Mr. Landry:-

1-May 2-That he will inquire of the Government-

Whether the Government has received from the clergy and the episcopate of the Dominion, petitions addressed to the Honourable the Secretary of State for the Colonies, in England, on the subject of the striking out from the coronation oath of the expressions offensive to the religious beliefs of the Catholics of this country?

Has it received similar requests on the part of religious institutions or others, from municipal authorities and individuals in this country?

What is the number thereof?

To whom have they been sent in due course?

What is the general tenor of the answers received?

The Honourable Mr. Gowan moved, seconded by the Honourable Mr. Templeman, That the said Report be adopted.

Which being objected to.

Ordered accordingly.

The Honourable Mr. Landry called the attention of the members of the Senate to the following document, published in the month of June last:—
"To the Honourable Joseph Chamberlain:

"Right Honourable Sir:

"The University of Laval has existed fifty years. It was Her Majesty Queen Victoria who signed, at Westminster, the Royal Charter which gives civil existence to the first French Canadian University in Canada. This document is very remarkable; it will remain for ever as the most evident proof of the breadth of view, and the nobility of sentiment of the Queen, whose life will form the subject of one of the most beautiful pages of the history of the 19th century.

"In 1860, Laval University received a visit from His Majesty King Edward VII., then Prince of Wales. Our institution was very young then; nevertheless it so interested the young Prince with the generous heart and brilliant intelligence that he founded a prize that has been awarded every year for forty years, and which in the month of June last gave rise to a competition in which more than four hundred pupils

ook part.

"You will understand that the university owes gratitude to the Royal Family; and this gratitude it strives to show to it by giving to society every year enlightened citizens and convinced Christians.

"Its pupils are to-day everywhere in the different parts of the Dominion. The tongue which they speak, the Catholic religion which they profess, the teaching which they have received at the university, are far from injuring their loyalty. They are firmly attached to the present conditions of their national life; they are proud to be living under the shadow of the flag of a nation which holds the fifth of the habitable world, which counts four hundred millions of subjects, which by itself alone does onethird of the commerce of the world, which marches buldly at the head of the nations as a colonial, industrial, and commercial power; they appreciate the advantages of the liberty which they possess, they see with pleasure their institutions and their works flourishing without impediment, and enjoying the respect which this great nation knows how to render to what we have to be respected.

"As these pupils belong to the governing class, they have influence upon their fellow-cizizens and they communicate their sentiments to those who surround them. Thus the Catholic French Canadians feel happy, and foreigners that visit them are struck by this air of contentment, of joy, and happiness, which they do not notice else-

where in the same degree.

"All the thousands of pupils to whom the university has given intellectual life are fervent Catholics, convinced ones, but all are also loyal subjects. They sincerely love the Church whose children they are; but they also love the nation whose citizens they are. They venerate the Pope who directs them for the salvation of their souls,

and they honour the King to whom God has given them as subjects.

"Therefore, they are pained to see His Majesty the King obliged, on the day of His Coronation, to take an oath in which are explicitly denied truths which they admit, dogmas which they venerate. And in the name of the professors and of the pupils of the university, in the name of the thousands of citizens whom the university has formed, and who are perhaps the most loyal subjects of His Majesty in Canada, I humbly verture to pray you to use your great influence to have changed a form of path which is so contrary to the breadth of view which Canadians are pleased to recognize, for many long years, amongst the statesmen of the mother country with whom they have had relations."

And asked :-

Has the Government been put in possession of this petition of the University of Laval?

Has the Government sent it to the Honourable the Secretary of State for the Colonies ?

When was it so sent?

What was the answer received ? When and by whom was it given ?

The Honourable Mr. Ferguson moved, seconded by the Honourable Mr. Lougheed, That an humble Address be presented to His Excellency the Governor General; praying that His Excellency will cause to be laid before the Senate, copies of all :-

NOTICES OF MOTIONS

For Wednesday, 7th May, 1902.

By the Honourable Mr. Landry:

1-May 5-That he will inquire of the Government-

Are there actually negotiations in progress on the subject of the establishment of a fast line of trans-Atlantic vessels?

With whom have these negotiations taken place ?

Upon what basis?

What is the Canadian port designed as a terminus for the ocean and river navigation in summer, in connection with the establishment of the fast line?

What is the winter port ?

What speed must the ships of the fast line have? What draught

At what approximate date or at least in what year will the first ship of this fast line make its first voyage ?

By the Honourable Mr. Landry :-

2-May 5-That he will inquire of the Government-

Has the Town of Valleyfield reimbursed the Militia Department the sums paid for the employment of the volunteer forces called out in aid of the civil authorities at the time of the last strike in the locality above mentioned?

Is it the intention of the Government to demand such reimbursement?

Has it fixed a date for such reimbursement? If not, does it intend to fix one, and to take judicial proceedings if, at the date fixed, the reimbursement in question has not taken place?

By the Honourable Mr. Landry :-

3-May 5-That he will inquire of the Government-

At the time and on the occasion of the visit to Canada, in September last, of Their Royal Highnesses the Duke and Duchess of Cornwall and York, did His Majesty's Government offer Canadians marks of the Royal favour which it had pleased His Majesty to confer on them?

What are these honourable distinctions?

To whom were they offered?

Who are the persons who refused them, and what reasons were the motive of their refusals?

For Thursday, 8th May, 1902.

By the Honourable Mr. Landry :-

1-May 5-That he will inquire of the Government-

Are the field batteries in the Civil Service equipped in such a way as to be of any use in winter? Have they sleds for the transport of their cannons, and baggage carts?

Is it the intention of the Government to make the service of these batteries as effective in winter as in summer?

By the Honourable Mr. Landry:

2-May 6-That he will inquire of the Government-

At what decision has the Government arrived on the subject of the training of the volunteer forces in camps this year? Will it be as in former years, or if there is a change, in what will this consist?

By the Honourable Mr. Landry :-

3—May 6—That he will draw the attention of the Senate to the following declaration, made December 15, 1896, at Toronto, by the Honourable Mr. Fitz patrick (then Solicitor General, to-day Minister of Justice), and reported by the newspapers of that time:—

"The programme of the Liberal party (upon the Manitoba schools question) has this advantage, that if the first attempt at a modus vivendi (that is to say the Laurier-Greenway compromise) does not give satisfaction, it may be corrected and bettered by new amicable arrangements between the two Governments. At the same time, the way of federal legislation remains always open to the Manitoba minority in case conciliation should not succeed in creating an acceptable situation..... Finally, if all that fails, there will still

and always be time to have recourse to a federal law appropriate to the circumstances. If that does not give satisfaction we will do more."

And that he will inquire :-

1. Has the Government taken communication or had it knowledge of a pastoral letter, dated March 9, 1902, written by His Grace Monseigneur the Archbishop of St. Boniface, in which, after having cited the words of the Sovereign Pontiff condemning the Laurier-Greenway arrangement, or at least the law which was the consequence of it, as defective, imperfect, insufficient, His Grace adds:—

"In reading over this page, my dear brethren, and in considering the actual state of things, and then that none of our school rights have been rendered to us by law, as well that our situation should be ameliorated, we ask ourselves how it can be, that Catholics, fathers of families, or statesmen, journalists and others, dare to say that the schools question is finally regulated to the satisfaction of the Catholic minority! Nothing can be more contrary to the truth.

No. our school question it not settled"

2. In face of the positive affirmation made by the representative of the Catholic minority of Manitoba that none of the school rights have been rendered to the latter by the law which came out of the Laurier-Greenway compromise; in face of this other equally positive affirmation, that nothing is more contrary to the truth than to pretend that the schools question has been settled to the satisfaction of the Catholic minority, is it the intention of the Government to have recourse to the expedient suggested and promised by one of the members of the present administration, and "to create and ameliorate by new amicable arrangements between the two Governments" a modus vivendi which, evidently, gives no satisfaction?

3. Does the way of federal legislation remain always open to the Catholic minority in case conciliation should not succeed in creating

an acceptable situation ?

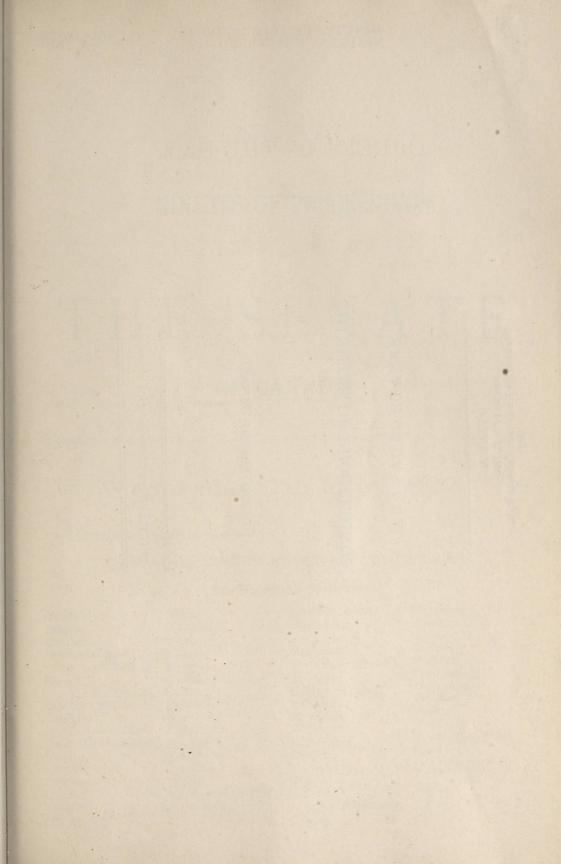

4. Is it the intention of the Government, if the actual situation is not accepted by the Catholic minority of Manitoba, and if the Legislature of that Province refuses or neglects to remedy it, to take in hand itself the cause of the oppressed, and to grant, by way of federal legislation, the remedy which the constitution itself has created, which a judgment without appeal of the Judicial Committee of the Privy Council of His Majesty indicates, and which was promised moreover by one of the members of the present administration ?

ROUTINE PROCEEDINGS

Bringing up Petitions. Presenting Reports of Committees Reading Petitions. Notices of Motions.

NOTICES OF MOTIONS

For Friday, 9th May, 1902.

By the Honourable Mr. Landry :-

1-May 5-That he will inquire of the Government-

At the time and on the occasion of the visit to Canada, in September last, of Their Royal Highnesses the Duke and Duchess of Cornwall and York, did His Majesty's Government offer Canadians marks of the Royal favour which it had pleased His Majesty to confer on them?

What are these honourable distinctions?

To whom were they offered?

Who are the persons who refused them, and what reasons were the motive of their refusals?

By the Honourable Mr. Landry :-

2-May 5-That he will inquire of the Government-

Are the field batteries in the Artillery Service equipped in such a way as to be of any use in winter? Have they sleds for the transport of their cannons, and baggage carts?

Is it the intention of the Government to make the service of these

batteries as effective in winter as in summer?

By the Honourable Mr. Landry:-

3-May 6-That he will inquire of the Government-

At what decision has the Government arrived on the subject of the training of the volunteer forces in camps this year? Will it be as in former years, or if there is a change, in what will this consist?

By the Honourable Mr. Landry :-

4—May 6—That he will draw the attention of the Senate to the following declaration, made December 15, 1896, at Toronto, by the Honourable Mr. Fitz patrick (then Solicitor General, to-day Minister of Justice), and reported by the second of the second seco

ported by the newspapers of that time :-

"The programme of the Liberal party (upon the Manitoba schools question) has this advantage, that if the first attempt at a modus vivendi (that is to say the Laurier-Greenway compromise) does not give satisfaction, it may be corrected and bettered by new amicable arrangements between the two Governments. At the same time, the way of federal legislation remains always open to the Manitoba minority in case conciliation should not succeed in creating an acceptable situation..... Finally, if all that fails, there will still and always be time to have recourse to a federal law appropriate to the circumstances. If that does not give satisfaction we will do more."

And that he will inquire :-

1. Has the Government taken communication or had it knowledge of a pastoral letter, dated March 9, 1902, written by His Grace Monseigneur the Archbishop of St. Boniface, in which, after having cited the words of the Sovereign Pontiff condemning the Laurier-Greenway arrangement, or at least the law which was the consequence of it, as defective, imperfect, insufficient, His Grace adds:—

"In reading over this page, my dear brethren, and in considering the actual state of things, and then that none of our school rights have been rendered to us by law, as well that our situation should be ameliorated, we ask ourselves how it can be, that Catholics, fathers of families, or statesmen, journalists and others, dare to say that the schools question is finally regulated to the satisfaction of the Catholic minority! Nothing can be more contrary to the truth. No, our school question it not settled....."

2. In face of the positive affirmation made by the representative of the Catholic minority of Manitoba that none of the school rights have been rendered to the latter by the law which came out of the Laurier-Greenway compromise; in face of this other equally positive affirmation, that nothing is more contrary to the truth than to pretend that the schools question has been settled to the satisfaction of the Catholic minority, is it the intention of the Government to have recourse to the expedient suggested and promised by one of the members of the present administration, and "to create and amel-

iorate by new amicable arrangements between the two Governments" a modus vivendi which, evidently, gives no satisfaction?

3. Does the way of federal legislation remain always open to the Catholic minority in case conciliation should not succeed in creating

an acceptable situation ?

4. Is it the intention of the Government, if the actual situation is not accepted by the Catholic minority of Manitoba, and if the Legislature of that Province refuses or neglects to remedy it, to take in hand itself the cause of the oppressed, and to grant, by way of federal legislation, the remedy which the constitution itself has created, which a judgment without appeal of the Judicial Committee of the Privy Council of His Majesty indicates, and which was promised moreover by one of the members of the present administration?

By the Honourable Sir Mackenzie Bowell, K.C.M.G. :-

5—May 7—That he will move, That a Select Committee be appointed, to consist of His Honour the Speaker, the Honourable Sir Alphonse Pelletier, K.C.M.G., the Honourable Messieurs Macdonald (Victoria), Ellis, Lougheed and the mover, to consider and regulate the invitations and seating of guests in the Senate Chamber at the opening and closing of Parliament.

By the Honourable Mr. Landry:-

6-May 7-That he will inquire of the Government-

In going to England to be present at the ceremonies at the Coronation of the King, does the Prime Minister of Canada intend to profit by this solemn occasion to protest, in his turn, in the name of the whole country, and particularly in the name of all those who have signed the numerous petitions sent to that effect, against the affront already offered to the Catholics of the Dominion by the statutory declaration imposed on the Monarch tending to denounce their rites and their religion as a superstition and an idolatry?

By the Honourable Mr. Landry:-

7-May 7-That he will draw the attention of the Senate to the following facts :-

1. On the 1st May of the present year the Senate adopted, unanimously, a motion which constitutes an order of this House, and which reads as follows:—

"That a Senator on giving notice either of a motion or of an inquiry which he intends to make, shall first read said notice from his seat in the Senate, to the House, before handing it to the Clerk

for insertion in the Minutes of Proceedings."

2. Before that date of May 1st, to wit, on April 16th of the present year, when the aforesaid motion had not yet become an Order of the Senate, one of the members of this House handed to the Clerk thereof a Notice of Motion for the production of the correspondence exchanged between the Department of Militia and the Commanding Officers of certain regiments of the volunteer force on the subject of the nomination of certain honorary lieutenant-colonels.

3. The Clerk of the Senate refused, upon the order of the Speaker of the Senate, to give that Notice of Motion in order that it might

be regularly printed in the Orders of the Day.

- 4. That Notice of Motion did not contain any allegation or any expression whatsoever which could have been derogatory to the honour of the Senate.
- 5. The Speaker of the Senate has never, from the 16th April to this day, acquainted this House with the act of authority which he believed he ought to take upon himself to exercise.

And that he will inquire :-

Why did the Speaker of the Senate take upon himself to prevent the regular publication in the Orders of the Day of a Notice of Motion given by a Senator?

If it is because that notice had not been read, why did the Speaker, by anticipation, give effect then to an order which only became obligatory fourteen days later?

If it is because the motion itself was against the rules of this House, why has not the Speaker, after a delay of twenty days, made his report to the Senate and pointed out the article in the Rules of this House which the publication of that motion would have violated?

In any case does the Speaker of the Senate intend at least to account to the Senate for the acts which he takes upon himself to execute without, but in the name of, the authority of this House?

By the Honourable Mr. Scott :-

8—May 7—That the Senate do meet on Saturday next, and that there be two distinct sittings on that day, and on each succeeding day during the remainder of the Session, the first sitting at 11 A.M., and the second sitting at 3 P.M., each such sitting to constitute a distinct day.

PASCAL POIRIER, Chairman.

On motion of the Honourable Mr. Poirier, seconded by the Honourable Mr. Lan-

Ordered, That the said Report be taken into consideration by the House at the

second sitting, to-morrow.

A Message was brought from the House of Commons by their Clerk to return the Bill (I) intituled: "An Act respecting the Montreal, Ottawa and Georgian Bay Canal Company," and to acquaint the Senate that they have passed the said Bill with an amendment to which they desire the concurrence of the Senate.

Page 1, line 19.—After "uncompleted" insert the following as Clause A:-

Clause A.

The company shall not exercise its powers under this Act in respect of the section from Lake Nipissing to Georgian Bay, otherwise called the French River section, until and unless an order of the Governor General in Council is passed authorizing the same.

The Honourable Mr. Clemow moved, seconded by the Honourable Mr. Dobson, That the said amendment be amended by leaving out the words "under this Act.

The question of concurrence being put thereon, the same was

Resolved in the affirmative. Then on motion of the Honourable Mr. Clemow, seconded by the Honourable Mr. Dobson, it was

Ordered, That the said amendment made by the House of Commons, as amended, be agreed to.

Ordered, That the Clerk do go down to the House of Commons and acquaint that House, that the Senate have agreed to the amendment made to the said Bill with an amendment to which they desire their concurrence.

A Message was brought from the House of Commons by their Clerk, with a Bill (11) intituled: "An Act to provide for the establishment of a Medical Council in Canada," to which they desire the concurrence of this House.

The said Bill was read a first time.

On motion of the Honourable Mr. Sullivan, seconded by the Honourable Mr. Dever, it was

Ordered, That the said Bill be read a second time at the first sitting of the Senate to-morrow.

The Honourable Mr. Landry called the attention of the Senate to the following declaration, made December 15, 1896, at Toronto, by the Honourable Mr. Fitzpatrick (then Solicitor General, to-day Minister of Justice), and reported by the newspapers of that time:—

"The programme of the Liberal party (upon the Manitoba schools question) has this advantage, that if the first attempt at a modus vivendi (that is to say the Laurier-Greenway compromise) does not give satisfaction, it may be corrected and bettered by new amicable arrangements between the two governments. At the same time, the way of federal legislation remains always open to the Manitoba minority in case conciliation should not succeed in creating an acceptable situation..... Finally, if all that fails, there will still and always be time to have recourse to a federal law appropriate to the circumstances. If that does not give satisfaction we will do more."

And inquired :-

1. Has the government taken communication or had it knowledge of a pastoral letter, dated March 9, 1902, written by His Grace Monseigneur the Archbishop of St. Boniface, in which, after having cited the words of the Sovereign Pontiff condemning the Laurier-Greenway arrangement, or at least the law which was the consequence of it, as defective, imperfect, insufficient, His Grace adds:—

"In reading over this page, my dear brethren, and in considering the actual state of things, and then that none of our school rights have been rendered to us by law, as well that our situation should be ameliorated, we ask ourselves how it can be, that Catholics, fathers of families, or statesmen, journalists and others, dare to say that the schools question is finally regulated to the satisfaction of the Catholic minority! Nothing can be more contrary to the truth. No, our school question is not settled...."

- 2. In face of the positive affirmation made by the representative of the Catholic minority of Manitoba that none of the school rights have been rendered to the latter by the law which came out of the Laurier-Greenway compromise; in face of this other equally positive affirmation, that nothing is more contrary to the truth than to pretend that the schools question has been settled to the satisfaction of the Catholic minority, is it the intention of the Government to have recourse to the expedient suggested and promised by one of the members of the present administration, and "to create and ameliorate by new amicable arrangements between the two Governments" a modus vivendi which, evidently, gives no satisfaction?
- 3. Does the way of federal legislation remain always open to the Catholic minority in case conciliation should not succeed in creating an acceptable situation?
- 4. Is it the intention of the Government, if the actual situation is not accepted by the Catholic minority of Manitoba, and if the Legislature of that Province refuses or neglects to remedy it, to take in hand itself the cause of the oppressed, and to grant, by way of federal legislation, the remedy which the constitution itself has created, which a judgment without appeal of the Judicial Committee of the Privy Council of His Majesty indicates, and which was promised moreover by one of the members of the administration?

The Honourable Sir Mackenzie Bowell moved, seconded by the Honourable Mr.

Scott, That a Select Committee be appointed, to consist of His Honour the Speaker, the Honourable Mr. Scott, the Honourable Sir Alphonse Pelletier, K.C.M.G., the Honourable Messieurs Macdonald (Victoria), Ellis, Lougheed and the mover, to consider and regulate the invitations and seating of guests in the Senate Chamber at the opening and closing of Parliament.

The question of concurrence being put thereon, the same was resolved in the

affirmative, and

Ordered accordingly.

The Honourable Mr. Scott moved, seconded by the Honourable Mr. Templeman, That the Senate do meet on Saturday next, and that there be two distinct sittings on that day, and on each succeeding day during the remainder of the Session, the first sitting at 11 A.M., and the second sitting at 3 P.M., each such sitting to constitute a distinct day.

The question of concurrence being put thereon, the same was resolved in the

affirmative, and

Ordered accordingly.

The Honourable Mr. Watson, from the Standing Committee on Internal Economy and Contingent Accounts, presented their Fourth Report.

Ordered, That it be received, and

The same was then read by the Clerk, and it is as follows:-

THE SENATE,

4. Your Committee also recommend that the usual small trunk of stationery be

supplied to Senators at the next Session of Parliament.

5. You Committee recommend that, with a view to facilitating reference, paragraphs 4, 5, 6, and 7 of the Report of the Committee on Internal Economy and Contingent Accounts adopted by the Senate on the 9th July, 1894, which are as follows :-

"4. The Clerk of the Senate is the recognized Chief of the Staff, with a general

supervision over all the officers and employees of the Senate.

- "5. He shall have power to suspend any officer or employee, pending the decision of the Committee on Internal Economy and Contingent Accounts, or of the Senate, or (in the case of officers appointed by the Governor General) of the Governor in Council.
- "6. He shall arrange, after consultation with the Law Clerk or other officer acting as Clerk of Committees, for the summoning of the various committees, the keeping of the minutes thereof, the preparing reports of their proceedings and the general conduct of their business.
- "7. He shall, after consultation with the various clerks, make such arrangements, not inconsistent with any rule, decision or regulation adopted by the Senate, with respect to the distribution of work amongst the clerks, as he may deem advisable." be embodied in this Report, paragraphs 6 and 7 being, however, so amended as to provide that any action of the Clerk thereunder may be reversed or modified by the Senate of by the Committee on Internal Economy and Contingent Accounts.

6. Your Committee recommend, that, where the Law Clerk who is also Clerk of Committee attends a meeting of a Committee, he shall act as Clerk of such Committee

and make the Minutes of the meeting.

7. Your Committee recommend that in case of the absence of any member of the clerical staff or of any vacancy in such staff, the duties attached to the vacant position shall, for the time being, be discharged by some member of the staff to be selected by the Clerk. Provided that if temporary help is required to secure the proper transaction of the business of the Senate the same may be obtained by the Clerk.

8. Your Committee recommend that paragraphs 16 and 17 of the said Report of

9th July, 1894, be revised, the paragraphs being as follows:-

"6. With a view to improving the discipline in that branch of the Senate service, Your Committee recommend that the door-keepers, messengers and pages be placed under the supervision of the Sergeant-at-Arms, who shall have power to suspend any member of that portion of the staff for a fortnight, any longer suspension to be by the Clerk.

"17. The Housekeeper or Chief Messenger to continue to direct the staff of messengers, subject to the supervision and control of the Sergeant-at-Arms."

The Clerk is so situated and occupied that he cannot exercise efficient supervi-

sion over the door-keepers, messengers and pages.

During the time when the paragraphs in question were in force, that is, from 9th July, 1894, to 17th June, 1897, there was no ground for complaint as to their working, nor any serious friction.

Paragraph 16 simply places the Sergeant-at-Arms in the same position which he

oscupies in England and under Rule 107 of the Canadian House of Commons.

9. Your Committee recommend that the Chief Messenger supervise the work of his subordinates from the messengers' room, and keep a record of all messengers sent outside of the Parliament Buildings during Session.

10. Your Committee recommend :-

(1.) That Mr. Alfred Garneau, at present first French Translator, be Chief French Translator, in the place of Mr. A. A. Boucher, who has been relieved of the duties of that office, on recommendation made in the second report of the Committee

on Internal Economy and Contingent Accounts adopted by the Senate on April 15, 1902, and that the Chief French Translator have charge of all the translation of the Senate, of whatever kind, including the *Hansard*, and apportion it amongst the Translators according to the exigencies of the work from time to time.

(3.) That the Translation Department, under the Chief French Translator, consist of the following Translators:—

Mr. J. Boutillier Trudel, at present second French Translator.

Mr. Joseph Bouchard, who is to be transferred from the work of French Hansard translation and to be available for translation generally.

Mr. William Chapman, appointed a permanent translator on recommendation of the Committee on Debates and Reporting adopted by the Senate, April 11, 1902.

(4.) That the salaries of the above named gentlemen remain as at present, namely:—

Mr. Trudel, \$1,300 a year.

Mr. Bouchard, \$1,200 a year. Mr. Chapman, \$1,000 a year.

11. Your Committee recommend that the salary of the Gentleman Usher of the Black Rod be \$1,800 a year and that his salary be paid by the Senate from the date of his appointment, and also that his uniform be paid for.

12. Your Committee recommend that, from the end of the present session, the practice introduced in 1901, of paying the barber and the keeper of the Restaurant as

sessional messengers be discontinued.

- 14. Your Committee recommend that a duplicate of the inventory of the property of the Senate in the Restaurant be filed with the Clerk of the Senate by the Secretary of the Restaurant Committee.
- 15. Your Committee recommend that an inventory of the remaining movable property of the Senate be filed with the Clerk of the Senate at the close of each session.

a shorthand and typewriter in the Law Clerk's office.

18. Your Committee recommend that leave of absence for two months be granted to Mr. W. L. Lambkin, Keeper of the News Room, on account of illness contracted by him during the campaign in South Africa in 1900, a Medical Certificate to that affect having been submitted to Your Committee.

19. Your Committee recommend that the salary of J. H. Pelletier, Keeper of the

Wardrobe, &c., be increased from \$750 to \$800 a year, from July 1, 1902.

20. Your Committee recommend that Thomas Gravelle, who for many years has been employed to light the fires and do general work about the Senate, be paid \$1.50 instead of \$1.25 a day.

To these Bills the Royal Assent was pronounced by the Clerk of the Senate in the following words:—

"In His Majesty's name, His Excellency the Governor General doth assent to these Bills."

Then the Honourable the Speaker of the House of Commons addressed His Excellency the Governor General as follows :—

"MAY IT PLEASE YOUR EXCELLENCY:

"The Commons of Canada have voted certain Supplies required to enable the Government to defray the expenses of the Public Service.

"In the name of the Commons, I present to Your Excellency the following Bill :-

An Act for granting to His Majesty certain sums of money for the public service, of the financial years ending respectively the 30th June, 1902, and the 30th June, 1903, to which Bill I humbly request Your Excellency's assent.

Then, after the Clerk of the Crown in Chancery had read the Title of the Bill,

The Clerk of the Senate, by His Excellency's command, did thereupon say :-

"In His Majesty's name, His Excellency the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill."

After which His Excellency the Governor General was pleased to close the Second Session of the Ninth Parliament of the Dominion with the following Speech:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In relieving you from further attendance in Parliament, I desire to thank you for

the care and attention given to your important duties.

The unusual number of Acts that have been passed incorporating industrial and railway companies may be taken as an evidence of the rapid progress that Canada is making in wealth and prosperity. Further proof of that satisfactory condition is afforded by the increase in the trade and revenue of the country.

It has been gratifying to note the unprecedented flow of immigrants from Europe and from the United States that are now seeking homes in Manitoba and in the Northwest Territories. The rapidly increasing population in that fertile section of the Do-

minion must yearly add to the trade of the country.

The agreement entered into with the Canadian Pacific Railway Company, when authorizing an increase of its capital, to expend over nine million dollars in providing additional rolling stock, will, it is hoped, materially diminish in the future the serious losses that have arisen from the insufficient supply of cars to earry the products of the West to Eastern ports.

The amendments made to the Manitoba Grain Act authorizing the farmers in Manitoba and in the North-west Territories to erect flat warehouses for storing their grain at railway stations, will, it is believed, be found to serve a useful purpose, and

defeat any attempt to depress prices by combinations.

The growing population in the Yukon Territory and the rapid development in the trade of that section of Canada amply justify the Act granting to its residents a representative in Parliament who will be authorized to speak for his constituency in all matters affecting the more important interests of that remote part of the Dominion.

Gentlemen of the House of Commons:

I thank you in His Majesty's name for the liberal supplies your have granted for the public service.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In bidding you farewell, I desire to express the hope that when we meet next year we shall be able to again rejoice in the continued prosperity which now prevails over this wide Dominion.

THE SPEAKER of the Senate then said:

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is His Excellency the Governor General's will and pleasure, that this Parliament be prorogued until Tuesday, the twenty-fourth day of June next, to be here holden, and this Parliament is accordingly prorogued until the twenty-fourth day of June next.

No. 43.
