The Lumberman Monthly Edition, 20 pages ) \$1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

TORONTO, ONT., MAY 8, 1895

VOL. I.

CANADA LUMBERMAN

PUBLISHED BY

C. H. MORTIMER Confederation Life Building - TORONTO.

Branch Office : NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday ontains reliable and up-to-date market conditions and mencies in the principal manufacturing districts and ading domestic and foreign wholesale markets. A rekly medium of information and communication be-seen Canadian timber and lumber manufacturers and porters and the purchasers of timber products at home ad abroad.

and abroad, Lumberman, Monthly. A x-page journal, discuss-ing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character stetches and pertraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

ubscription price for the two editions for one

## WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of is cents per line each insertion. When four or more consecutive insertions are ordered a disc unt of is per cent, will be allowed. This notice shows the width of the line and is set in Nonpareil type, and no display is allowed beyond the head line. Advertise-ments must be received not later than 4 o'clock pun, on Tuesday to insure insertion in the current week's issue.

FOR SALE OR EXCHANGE -50 H. P. EN-BOX 50. CANADA LUMBERMAN.

#### FOR SALE.

Double FRICTION FEED, CONSISTING of spole, cable shafting, &c, complete, made by Wm, Hamilton Mfg. Co., of Peterborough; used part of me season, good as new. Write for particulars. J. W. Howry & Sons, Fenelon Falls.

# NOTICE.

TENDERS WILL B". RECEIVED AT THIS Department up to and including the Mth day of Jume next for the right to cut pine trees over seven index in diameter on the stump, on that part of the township of Vankoughnet, in the District of Algoma, Jung outside the boundaries of the Hatchewaung Indian Krerve, except the following part sections SE 1-4 of section 11, SW 124, section 12, SW 1-4, section 14 and the SE 1-4 of section 25. Parties making tender will state the amount they are prepared to pay as hours, or for the right to receive a bonse to cut the pine trees over seven inches in diame-ter on the sump, which, when cut, will be subject to the following rates of dues; on sawlogs \$1.25 per thou-stal feet, board measure. No pine trees of a less duameter than seven inches on

No pine trees of a less diameter than seven inches on le stump shall be cut.

be sump shall be cut. The department reserves all timber except the pine exciter with the right to dispose of such other timber i any time, and purchasers of the other timber will are the right to make mads and to do whatever may increasery in the premises to cut and remove the same. Terms of payment 1-2 cash, balance in 3 and 6 months,

Notes for balance to be endorsed by parties satisfac-to the department. A marked cheque for 5° of coffer must accompany each tender.

for further particulars and conditions of sale apply P. C. Campbell, Est., Crown Timber Agent, Suilt Marie, or to the Department of Crown Lands,

A. S. HARDY. Commissi er of Crown Lands

Department of Crown Lands ) Teronte, April with, 1895.

WANTED. IO CARS OF 2 INCH NO. 1 AND 2 ROCK Elm, 7, 8, 14 and 16 feet long. 10 cars of 2 inch No. 1 and 2 Maple, Hard, 7, 8, 14 and 16ft. long. RUF-FALO HARDWOOD LUMIBER CO., 940 Elk St., Buffalo, N. Y.

THE PIPE FOUNDRY

ST. THOMAS, ONT.

Will be sold at a bargain; easy terms. Free taxes and water till 1700. Railway switches into yards connect-ing with four railways. Buildings and plant cost \$37,000.

Will be sold for \$15,000.

Tais is a rare opportunity. Apply to P.O. Box 154, ST. TROMAS,

#### CURRENT TRADE CONDITIONS. ONTARIO.

THE best that can be said of lumber conditions in Ontario is, that trade is somewhat better than it was a few weeks\_ since, though the mending process goes on slowly. Whether large stocks are held by the mills is a point on which opinions differ. We learn of some mill men, who have more lumber than they would like to hold at this season of the year, whilst others could be named who have sold out of dry stuff and are waiting on the new cut, finding it necessary to buy stock to fill current orders. A more healthy tone exists in country trade throughout the province, both east and west, and the volume is swelling. Shipments keep going forward to the United States, but the demand from that quarter is not at all large. Mill men like Robt, Thompson & Co., who manufacture deals for the British market, say they have no reason to complain of trade. The firm named send their stock to Glasgow, and their resident manager, who is at present in this country, says lumber trade is in good shape in Scotland, and in Glasgow this summer a large amount of building will take place. Ship building there is active, which, of course, is helpful to the lumber trade. The enquiry made of a local mill man as to whether there was any break in white pine prices, was answered in a qualified manner. "It would not be fair to say," remarked this party, "that there is any break, but there is doubtless a shading in prices when sales can be made in sufficient size and in good hands."

QUENEC AND NEW BRUNSWICK.

The movement at Quebec and New Brunswick ports is being augmented from week to week. A study of exports from various New Brunswick ports, both going to the United Kingdom and also the United States, shows a very considerable

volume of trade. The figures are given in our Stocks and Prices column. The spruce market record tells of large sales that have been effected for points in Great Britain and Ireland. At the same time, it has to be said, that generally speaking, British buyers are not as eager to make contracts for lumber as it was hoped would be the case at this season of the year, whilst equal caution is manifest on the part of United States lumbermen. Among shippers who have already done a large business in spruce deals in Great Britain, Messrs. A. F. and D. McKay figure prominently. They are reported to have sold more than they had done up to a corresponding time last year, adding strength to the very prominent position they hold in the wood trade of New Brunswick and Nova Scotia.

#### BRITISH COLUMBIA.

The news contained in our shipping column that lumber vessels continue scarce at British Columbia ports, and rates are keeping up, server as an index to the measure of activity existing in the lumber markets on the Pacific coast at the present time. All throughout the coast a more hopeful feeling exists, and a decidedly improved demand from the outside world is manifesting itself. Large quantities of lumber are being exported to various foreign markets, considerable going to the United Kingdom. We learn also that car load shipments of lumber to the east are becoming frequent, indicating that domest'c trade is improving.

#### UNITED STATES.

The market for white pine in the United States is much duller than it ought to be at this season of the year. There is more doing at lake mills, now that navigation is open, but even this does not bring business up to nearly like a satisfactory level. Developments in railway circles, there being a strong disposition on the part of leading companies to manufacture rolling stock in good volume this year, is helping to give a stimulus to business, where in other directions it has been suffering. It must be noted that wholesalers are usually slow to make contracts, being possessed in some cases with the idea that prices may decline a little, later on, though it must be admitted there does not seem to be any strong ground for this supposition. The substantial advance that has taken place in yellow pine ranging from fifty cents to two dollars a thousand, with the determination on the part of the mills to maintain higher figures, is a feature of the present season's trade, that gives backbone and strength to every other department of lumber. It is believed that it will only be a matter of time when pro-

nounced strength will show itself in the white pine field. The decline in prices, if it does come, is more likely to be seen in coarser grades than anywhere else. Better stocks, in fact, will hold firm to present figures, and, as is pointed out in an article elsewhere in these columns, there is some reason to suppose that an advance will take place.

No. 18.

#### FOREIGN.

Lumber trade in Great Britain has not resumed even its usual share of activity since the Easter holidays, a circumstance that always breaks into business to a considerable degree. The building trades in London, Eng., still flag, and there are rumors of a possible strike, which further tends to dullness. At Liverpool condiare somewhat better, whilst reports from Glasgow, tell of a good business doing. British Columbia is benefited by some strength given to trade with South Africa. Hopes are held out that orders from Australia will be more encouraging in the near future, and a fair trade is being done in South America

#### HARDWOODS.

A review of the hardwood markets of the United States is summarized in these words by our contemporary Hardwood : "There is a great improvement everywhere in the demand for dimension stocks of oak and other hardwoods, which, with a fair price now obtained for all the finishing grade of both red and white oak, both plain and quartered should be encouaging." An analysis of the individual markets across the border confirm this view. With building operations assuming a good size in New York, an increased demand is showing itself for hardwoods for house finishing. The greater interest in the New York market, as is the case at Buffalo and other points, is in quartered oak, which is in strong demand. Dealers are taking all of this lumber that comes their way, and yet are not having their wants fully supplied. Birch is receiving considerable attention in the United States markets, but the demand is hardly as strong for it as a short time since. It is expected that the demand for maple for flooring will show itself at an early date. At the same time, at some points, Buffalo, for instance, maple is slow, and prices not at all firm. Canadian elin is reported to be finding a good outlet through the Buffalo market. The market in Philadelphia is somewhat quiet. Locally, hardwood men are not disposed togrumble. They'are not doing so large a trade as is desired, but they recognize the fact that things are moving nicely, and the outlook is strengthening.

Subscribe for the LUMBERMAN, \$1.00.

#### STOCKS AND PRICES.

#### CANADA.

W. H. Murray, St. John, N. B., has sold to Stetson, Cutler & Co., 15,000,000 feet of logs at \$9 per thousand.

The American sch. Meteor is on her vay from Vancouver, B. C., to San Francisco with 602,000 feet of dressed lumber. ana 310,000 laths, valued at \$6,000.

Some handsome logs of Douglas fir, measuring 75 feet in length and averaging 18 inches square, have been shipped by the Royal City Mills, New Westminster, B. C., to New Brunswick.

A timber berth in Westmoreland county, New Brunswick, was sold at the Crown Lands Department last week for \$34.50 the square mile. Mr. P. G. Mahoney, of Melrose, was the purchaser.

Four vessels, the R. W. Bartlet, bound for San Pedro, the Mary Winkleman, for San Francisco, the Falcon for San Francisco, and the Lucy, for San Pedro, loading at British Columbia ports, will carry away an aggregate of 2,200,000 feet of lumber.

Quotations for Douglas Fir lumber at British Columbia points in cargo lots for foreign shipment :

The Ogilvie Milling Co., of Winnipeg, Man., has purchased 1,500,000 feet of lumber from the Ontario & Western Lumber Co. The major part of this will be used in the erection of elevators, the Ogilvie Co. proposing to expend \$100,000 in this way this year.

Brandon, Man., dealers are selling lumber retail at less than ordinary wholesale prices, a result of stocks of lumber being brought in from the States and sold at cut prices. Puget Sound shingles have also been brought into Brandon, and added fuel to the fire.

The large vessel Olivebank has taken from the Hastings mill, Vancouver, B. C., bound for South Africa, a cargo consisting of 2,323,684 feet of lumber, valued at \$15,453.95. The Glanivor takes from the same mill 788,054 feet of rough lumber, valued at over \$12,000, for the United Kingdom.

Exports from St. John, N. B. last week were as follows: To United States ports over 2,000,000 feet of long lumber, nearly 4,500,000 shingles, nearly 1,000,000 lath, and 550 cords of wood. To British ports over 1,000,000 feet of deals, including part spruce and part birch, and a cargo of boards, planks, shingles and clap boards for Grenada.

Among exports from New Brunswick ports are the following: Per bark British America for Londonderry, by A. Gibson, 863,404 deals and battens, 36,751 ends. Per sch. Vinton for Hyannis, by Stetson, Cutler & Co., 5,064 scantling, 5,236 plank, 40,000 laths, 955,000 shingles, 21,025 clap boards. Per sch. Joseph Hay for New York, by L. M. Jewitt, 103,349 deals, 319,-200 laths. Per sch. Georgie E. for Boston, by Chas. Miller, 1,261,000 cedar shingles. Persch. Fanny for Boston, by W. C. Purves, 95,692 deals, 31,200 boards. Per sch. L. T. Whitmorefor New York, by Hilyard Bros., 312,656 deals. Per schooner Glenera for Boston, by A. Cushing & Co., 86,182 boards, 28,292 scantling. Per sch.

. •

Arichat for Liverpool, by W. M. McKay, 1,147,198 deals and battens, 1,611 scantling. Per sch. Marguerite for Newark, by A. Cushing & Co., 41,627 plank, 5,-200 scantling, 8,174 deals, 47,967 boards, 188,400 laths. Per sch. Corsica for Boston, by Stetson, Cutler & Co., 362,000 laths.

#### UNITED STATES.

Pitts & Co., Bay City, Mich. have 25,-000,000 feet of logs to cut.

The Michigan Cedar Co. has completed cutting on Hunt Spur 400,000 feet of fine birch, which will be sold to the furniture factories at Grand Rapids.

Considerable purchases of timber have been made by Sharpless Bros., of Quebec, in Michigan. The lumber will be forwarded to Quebec, and thence by vessel to Great Britain.

Merrill & Ring, of Duluth, Minn., have sold 2,000,000 feet of dry lumber to T. G. Patterson, of New York, and the Cranberry Lumber Co. has made a sale of 2,-000.000 feet.

Buffalo and Cleveland parties bought last week 6,000,000 feet of lumber at Bay City, and Pells & Co. sold 1,500,000 feet to Sawyei & Co., of Tonawanda. Log run is selling from \$14 to \$18, box \$10 to \$10.-50, and bill stuff \$8 to \$8.50. Better grades of lumber are in chief demand at Saginaw.

At a joint meeting of the Arkansas & Missouri Yellow Pine Co., held a few days since, the prices of yellow pine were advanced, the lists representing an increase of \$1.25 per 1000 on flat grain A and B; \$1 per 1000 on various items of beaded ceiling; 50c to \$1 for siding; \$1 upon most items of common boards and common ship lay; 50c on dressed fencing, and 50c to a \$1 on dimensions.

#### THE LOG OUTPUT.

A cut of 5,000,000 feet of select logs has been made the past winter by J. & W. Flatt, of Hamilton, Ont., in the upper peninsula of Michigan. The logs are from 18 to 48 inches in diameter, and range from 12 to 40 feet in length, but are perfectly straight and hewn square. They will be towed to Quebec and thence shiped to England.

The following estimate is given as very nearly the log cut in Canadian waters to be rafted to Michigan points this season :

Holland-Emery Lumber Co 52,000,000
A WINCH CO FISHER, AND AND AND AND AND
Eddy Bros

D	10,000,0.0
Booth & Gordon.	4,000,0.0
J. W. Howry & Sons.	10,000,000
C. K. Eddy & Sens.	. 10,000,000
Gardy Lumber Company	
Untario Lumber Contiens	0
Viciona flathor Lumber Co	
Moore Luniber Company	10.000 000
KOUL BOOLD	3 000 00U
Della Lumber Co	
Browniec & Co	9
Alger. Smith & Co	0,000,000
Geo. N. Fletcher & Sons	
Other Alpena parties	
	20,0%0,000
Thompson, Smith's Sons.	20,000,000
Total	305,000,000

With other lots that may be added to these the output will swell, it is believed, to at least, 380,000,000 feet. Rafting is about commencing.

The Ontario Lumber Co. has taken out about 13,000,000 feet in the vicinity of French river.

Things are in bad shape for the drives on the Mississipp, this river being at the lowest water mark for thirty years. At several points in Michigan, the mills will be forced to come to a standstill, if the

water in the streams does not rise so as to bring down the logs.

The cut of logs on the Tobique, N. B., is as follows : F. H. Hale, 8,000,000 ; Donald Fraser, 5,000,000; R. A. Estey, 3,500,000 ; James McNair, 4,000,000 ; G. T. Bairil, 2, 500,000 ; A. Y. Beveridge, 2,-000,000; 01 25,000,000 in all, a large amount. Driving on the St. John and tributaries has commenced.

There is a log pile at Dollarville, Mich., which contains over 11,000,000 feet.

Large quantities of logs will be rafted from the Georgian Bay side, to Bay City, Mich., this season, and tug owners who are engaged in towing Canadian logs are looking round for more tugs.

The various lumbermen of St. Lawrence County, N. Y., have made a partial estimate of the winter's cut of logs and report 53,000,000 feet on the skids ready for the drives as soon as the ice goes out, These figures donotanywhere nearly cover the total cut for the winter, which is said to be of gigantic proportions.

Five hundred drivers are at work on the Tobique waters, New Brunswick. Fraser has nearly 300 engaged on the Odell. Hale has at least 150 morking on Cedar Brook and Little Tobique, as well fifty or sixty on Sission Brook.

The Lake Erie and Detroit River Railway will transport nearly 5,000,000 feet of logs for various companies this spring.

At least 25,000 cords of pulp wood have been got out during the winter in the territory tributary to Port Arthur, Ont.

R. D. Richardson, of Chipman, says the cut of lumber in Queen's County, N. B., last winter was unusually large. The drivers are now at work, and it is felt that the whole cut will be got out.

#### PINE UPPERS AND PRICES.

The view has been expressed in these columns a number of times recently that prices for the better grades of white pine lumber are likely, not only to remain firm, but possibly advance slightly during the coming season. All lumbermen, we are aware, do not hold to this opinion, but the judgment of many leaders in the trade is in this direction, and have been so quoted by the CANADA LUMBERMAN. The Timberman in a leading article gives several reasons why the tendency would seem to be towards higher prices for pine uppers at the present time. We are reminded, not: withstanding the large inroads being made by yellow pine, that the country at large, still pins its faith for a large number of purposes, to white pine; and uppers, and better are always wanted in large quantities. The white pine production of 1894 showed a falling off from 1892 of about 22 per cent., and the output was, on the whole, ample for all requirements. During these years of deression, uppers have held their own. It is claimed by our contemporary that the aggregate production of white pine is decreasing year by year, and of the decreased aggregate production, the proportions of uppers is also constantly decreasing. Say that there is a decrease of 10 per cent. in the total output, it is taken as a safe estimate that there is a decrease of 20 per cent, in the most of the better This last fact is for two reasons: grades. First, because the older producing dis-tricts are cutting a smaller average stock of logs each year : and the second is that he newer producing districts are now turning out a greater proportion of the

total product every year, and have a poorer average of timber than districts which were in their glory ten or twenty years These are reasons, the Timberman avo. claims, for the belief that white pine uppers are going to be good property this vear.

#### SHIPPING MATTERS.

The log towing rate from Georgian Bay 1.9 Bay City, Mich., is \$2.

The barque Arcturus is chartered to load lumber at Vancouver, B. C., for Santa Rosalia. The sch. Competer is loading lumber at 5. Cassady's mill, Vancouver, B. C., for San Francisco.

Freight rates from Montreal to Liverpool, Eng., have opened low, a fixture being reported at 323 6d.

The American sch. Comet has been chartered to load lumber at the Royal City Mills, New Westminster, B. C., icr California.

On the Lake of the Woods last year 30, On the Lake of the work towed, the larger 250,000 feet of logs were towed, the larger part of these going from the American side to Canada for sawing.

The first shipment of pine deals, boards, from Canada, is expected to reach the United Kingdom about 20 inst.

The British ship City of Florence has been chartered to load lumber at the Hastings Mill, Vancouver, B. C., for Cork, Ireland, at  $\angle 3$ 5s, and the barkentine Wrestler to load for Shanghai, at  $\angle 2$  5s.

Alex. Gibson, of Chatham, N. B., has chartered sufficient tonnage to carry 30,000, 000 feet of lumber to British potts. Some of the rates run as low as 33s 9d. The vessels will load at St. John, N. B.

A squall on the lake near Duluth a week ago caused trouble in rafting, and a tow of 1, 000,000 feet, en route for Merrill & Ring's mill, was broken up. The logs can be re-covered, it is said, at a cost of about 50c a thousand.

Lumber vessels at British Columbia Lumber vessels at British Columbia ports continue scarce and rates keep up. Freights from British Columbia or Puget Sound are quoted as follows: Valparaiso for orders, 40s to 425 6d; Sydney, 30s; Melbourne, direct 40s; Port Pirie, direct 38s 9d to 40s; United Kingdon, calling at Cork for orders, 65s; Shanghai 47s 6d; Tientsin 55s; South Africa, 62s 0d nominal. 62s od nominal.

#### BUSINESS DIFFICULTIES AND CHANGES.

40,000 feet of pine lumber was destroyed by fire at Mason's mill, Ottawa, Ont., a few days ago.

The saw mill and salt works of Whitney & Batchelor, at Melbourne, eight miles below Saginaw, Mich., were burned a week ago.

Charles Hawkes, of Hopewell Hill, N. B., has shipped wood to the 2 ed 322 car of hardwood cord Albert Manufacturing Co., Hillsboro', N. H.

A loss of \$10,000 was sustained by lumber-men of New Brunswick last week through the ice of the south west Miramichi, tearing away landings and taking with it nearly 2,000,000 feet of logs, chiefly owned by William Rich-

#### LUMBER FREIGHT RATES.

LUMBER FREIGHT RATES. LUMBER Freight rates for pine on the Grand Trunk Railway have been made a fixture, as below. Of any intended change due notice will be given lumbermen. General instructions in shipping by Grand Trunk are modeled in these words in the tariff schedule: On lum-ber in caribada, minimum weight, 30,000 lbs. per car. unless the marked capacity of the car be less, in which case the marked capacity of the car be less, in which will be charged, and must not be exceeded. Should it be impracticable to load certain descriptions of light under up to 30,000 lbs. to the car, then the actual weight only will be charged for, but not less than 24, ooo lbs. The rates on lumber in the tariff will not be higher from an intermediate point on the straight run than from the first named point beyond, to the same de-tination. For instance, the rates from Tara or Hep-worth to Guelph, Brampton, Weston or Toronto, would not be hearne points. The rates from Cargill and Southampton to points east of Listowel and south and west of Straiford will be the same as from kincardine, but in no case are higher rates to be charged than as per mileage table published on page 9

charged than as per mileage table published. on page 9 of tariff. Rates from leading lumber points on pine and other softwood lumber, shingles, etc., are as follows: From Glencairn, Creemore, Aurora, Barrie and other points in group B to Toronto, 6½c.; Colling wood, Panetang. Coldwater, Waubauhene, Sturgeon Bay, Victoria Har bor, Milland, Fenelon Falls, Lowgford, Gravenhurst and other points in group C, to Toronto, 6½c.; Brace-bridge to Toronto rc.; Untervon, Hanreville, Navor, Emsdale, Katrine to Toronto, 7½c.; Burk's Falls, Ber-riedale and Sundridge, to Toronto, 8c.; South River, Powassen and Callender to Toronto, 8c.; South River, Powassen and Callender to Toronto, 6½c. These rates are por too Ibs. Rates from Toronto cost. to Belleville are 7½c. per too Ibs.; to Deseronte, 6c.; to Beckville nd Prescott, toc.; to Mostreal and Ottawn, 1tc. The

£

ÿ

rates on hardwoods average about from rc. to 2c. per 100 B4. higher than on softwoods. For rates on railway res, mahogany, rosewood, walnut, cherry, and other freight agent. On the Canadian Pacific the rates on pine and soft-woods may be illustrated as follows: Cache Hay, North By, Sturgeon Falls and Warren, to Toronto, 100: Al-goma, Cook's Mills, Massey, Spanish River and White-fah to Toronto, 13C; Ottawa to Toronto, 100: From Ottawa, Hull, Aylmer and Duchesne Mills to station on the Lake Erie and Detroit River, Erie and Huron, Toronto, Hamilton and Buffalo, and Michigan Central Raiways, the rate is 14%c. per 100 lbs. Regulations apply as to minimum size of carload of 30,000 lbs., and advanced rate is charged for hardwoods. Lumber freight rates on the Canada Ailantic Rail-way are as follows: Ottawa to Tororto, 10 cents per roolls.; Ottawa to Oswego, \$1.00 per M ft., (3,000 lbs. and under per M ft.); Ottawa to Moutreal, \$1.00 per M ft., (3,000 lbs. and under per M ft.); Armprior to

Montreal, \$1.50 per M fl., (3.000 lbs and under per M fl.); Ottawa to Quebec, \$2.00 per M fl.; Arnprior to Quebec, \$2.50 per M fl., Ottawa to Buffalo, 12 cents per 100 lbs.; Ottawa to New York, five carloads or over \$3.00 per M fl.; Arnprior to New York, five carloads or over \$3.00 per M fl.; Arnprior to New York, 53.50 per M fl.; Ottawa to Boston, Portland and common points, local 15 cents; exports 13C, per 100 lbs.; Amprior to Boston, Portland and common points, local 17 cents; export 15 cents; per 100 lbs.; Ottawa to Albany, 10 cents per 100 lbs.; Ottawa to Albany, 10 cents per 100 lbs.; Arnprior to Iumler, lath, shingles, etc.; 10 conton points, except when quot-1 per M fl. the minimum carload charged is 10 M fl.; aber not exceeding 300 lbs, to the M feet. Ottawa rate, apply on shipments from Rockland and Hawkesbury.

MODIFICATION OF HARDWOOD RATES. THE Grand Trunk Railway and Canadian Pacific have made the rates on hardwoods from certain punits to Toronto and Hamiltor, is follows. The regulations are over the signature of Mr. John Earls, W.D.F.A., of the G. T. K., and given in reply to a letter from Toronto hardwood men.<sup>3</sup> "After careful consideration we have come to the con-clusion that, on and after Jan. 1st, 1895, a modification will be made in the present arrangements for hardwood lumber, to the effect that the rate will be fact per 100 ibs, from our Northern and Northwestern branches to apply from main line points and the straight run be-tween Toronto, Sarnia and Windsor; also that so far as rates on common lumber to points like Guelph, Galt, London, Woodstock, Ingersoll, etc., from all lumber shipping stations the rate will be the same on hardwood as on pin." On the old principle, we suppose, that half the loaf is better than none, hardwood men have something, possibly, to be thankful for, though there

Will pay your subscription to the weekly and

monthly CANADA LUMBERMAN for

YEAR

ONE

is no good reason why the rates generally of har-wood should not be as low as on pine. It is underster a that the C. P. R. rate will be made uniform at 7/2c. from same points.

CEDAR -ORDERS PROMPTLY FILLED FOR C telegraph, telephone or electric poles, ties, posts, cedar shingles and cedar light wind; also hemlock di-mension lumber - J. E. MURPHY, Hepworth Station.

Business Wisdom : "Some men are so busy puttering over things not worth doing that they cannot hear ordinary knocking."-

The Price Lists that here follow will be revised each week up to the hour of yoing to press, and in connection with these we would draw attention to the week's trade review under the heading of 'Current Trade Conditions" on the first page, immediately followed with matter marked "Stocks and Prices," which presents the lumber situation of the week, together with a record of the week's sales and transactions.
