Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Seminary of Quebec
Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol $\longrightarrow$ (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Séminaire de Québec
Bibliothèque

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole $\longrightarrow$ signifie "À SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE COMBINED
Chemical
 AND
Manual
FIRE ENGINE

"Prince of Wales,"
 (DICK'S PATENT.)

*The chief
 merits of
 this En-
 gine con-
 sist in:—*

- 1st.—Its extraordinary power over ordinary Fire Engines by the introduction of Carbonic Acid, generated in the air chamber, and held in solution by the water.
- 2nd.—The immediate propulsion of the gaseous fluid upon the fire, where the Carbonic Acid Gas is evolved, thereby causing the instantaneous extinction of the flames.
- 3rd.—Its compact form, portability, and the ease with which it is worked.
- 4th.—It can be worked by one-fourth the number of men required for an ordinary Fire Engine of equal fire-destroying power.
- 5th.—Its power to extinguish Fire, without saturation or destruction of property by water—an important consideration.
- 6th.—The chemicals are perfectly harmless to life, health, or property.
- 7th.—Its adaptability to irrigation and other purposes, by simply using water without the admixture of the chemicals.

Dick's Chemical Fire Engine "L'Extincteur"

Is Portable, Self-Acting, and always ready for immediate use. Gentlemen's residences, Hotels, Public Buildings, Steamboats, Warehouses, and all Manufacturing Establishments should be supplied with them.

Guaranteed to stand a pressure of 250 lbs. to the square inch. These machines have been universally used in Great Britain during the last six years.

Department of Inland Revenue,

OTTAWA, May 27th, 1873.

THE attention of Traders and others is directed to the following provisions of the Act respecting Weights and Measures assented to on the 23rd inst:—

1st. It is enacted that "A weight of one hundred standard pounds avoirdupois shall also be, and may be called and described as a "CENTAL."

2nd. On and after the first day of January, 1874, the provisions of the present Law as to the weight of a bushel of the undermentioned articles, namely:—

Wheat, Indian Corn, Rye, Pease, Barley, Oats,

Beans, Clover Seed, Timothy Seed, Buckwheat,

Flax Seed, Hemp Seed, Blue Grass Seed,

Castor Beans, Potatoes, Turnips, Carrots,

Parsnips, Beets, Onions, Salt, Dried

Apples, Dried Peaches and Malt,

will cease to have effect, and thereafter "all the above mentioned "articles, when bought or sold by weight, shall be specified by the "Cental and parts of a Cental."

3rd. It will follow therefore that parties who make contracts with reference to the *bushel* of any of the above mentioned articles will only be legally bound by the bushel of *capacity*, which until otherwise proclaimed under the provisions of the Act, will be the *Winchester* bushel.

ADVANTAGES HELD OUT TO EMIGRANTS
BY THE

PROVINCE OF QUEBEC.

A FERTILE SOIL CAPABLE OF THE HIGHEST CULTIVATION.
A HEALTHY CLIMATE AND CHEAP LIVING.

Taxation Exclusively for Municipal Purposes.
AND THE PARTIAL SUPPORT OF ELEMENTARY SCHOOLS.

Very little capital is required to purchase a farm. Cultivated land sells at from \$20 to \$40 per acre, according to its proximity to the large towns. A farm usually consists of from 80 to 100 acres. Purchase money payable half cash; easy terms for the balance. In the neighbourhood of the new settlement, excellent farms, half cleared, can be procured for \$800 or \$1000. Agricultural produce commands a ready sale at satisfactory prices. The Banks of the Province of Quebec, which are the safest in Canada, and in fact in America, pay on an average eight per cent. to shareholders, and from four to five per cent. to depositors. Gas, Telegraph, and Navigation Companies pay as much as twelve per cent. to shareholders. Shares are always on the market, at moderate rates. The best mortgages bring from 8 x to eight per cent. per annum. The system of hypothecary registration, in force in the Province, protects the registered creditor from all fraud or loss. A descriptive schedule of all the real estate of the Province is in course of preparation. This Schedule will be on view in each registration office, and will show the names of the proprietors, together with the mortgage with which their properties may be charged. It is already in force in three counties.

The manufacturing industries of the Province, and especially those connected with the working of our inexhaustible iron mines and our timber and wool are making rapid progress.

MECHANICS, AS WELL AS ANY LABOURERS, WILL FIND READY EMPLOYMENT AT SATISFACTORY WAGES.

ABOUT 5,300,000 ACRES OF CROWN LANDS.

Surveyed in Farm Lots of from 100 to 200 acres each, are at present on the Market, can be obtained at rates varying from 1s. to 3s. per acre, payable in five annual instalments.

The Provincial Government expends, every year, large sums in opening up ready means of communication with the most remote settlements.

The grant for Colonization Roads is, \$115,000 for 1873, besides \$15,000 appropriated for Colonization Railways. The works on these roads are a source of lucrative employment to settlers, and thus assist them in their task of settlement.

FREE GRANTS OF ONE HUNDRED ACRES ARE GIVEN

Upon eight of the great Colonization Roads of the Province. The fullest protection is accorded by the Government to Immigrants.

So soon as they enter Canadian waters, or land on the shores of the Province, the law provides for their humane treatment. It even goes so far to establish the terms which hotel-keepers shall charge for board and lodging. These rates must be posted up in all boarding houses, and a heavy fine is imposed upon those who exceed the tariff, even to the slightest extent. The law only allows a lien on the effects of the Immigrant, for five days board and lodging.

FREE PASSAGES FOR EMIGRANTS FROM THE PORT OF ENTRY

To their destination in the Province.

For further information address personally, or by writing, to the following Immigration Agents of the Canadian Government:—AGENTS IN EUROPE: Wm. Dixon and W. MacAdams, Agents at London; J. A. O'Neill, at Dublin; Chas. Foy, at Belfast; James White, at Glasgow; Richard Burns, at Antwerp. AGENTS IN CANADA: L. Stafford, Agent at Quebec; J. J. Daly, at Montreal; W. J. Wills, at Ottawa. These Gentlemen will give, without any charge, Plans and Pamphlets prepared by the Government of the Province of Quebec, in which the Emigrants will find interesting details respecting the resources of the Province of Quebec, means of Livelihood, Wages, Lands for Colonization, &c.

Mr. J. A. Chicoine, has been lately appointed in lieu of Mr. C. E. Belle, as Immigration and Colonization Agent for the Province of Quebec; Office, No. 50 St. James Street, Montreal.

Immigrants landing at Quebec can obtain from the Department of Agriculture and Immigration in Quebec, whatever information they may require; James Thibault, Esq., Provincial Immigration Agent appointed for Quebec will be constantly in attendance at the Grand Trunk Wharf, South Quebec, to receive emigrants intending to settle in the Province of Quebec.

EMIGRATION AU CANADA.

AVANTAGES OFFERTS PAR LA

PROVINCE DE QUEBEC AUX EMIGRANTS.

SOL FERTILE, SUSCEPTIBLE DE TOUS LES DEGRÉS DE CULTURE,

Vie à bon marché. Climat d'une grande salubrité. Les seules taxes à payer sont pour les besoins municipaux et pour le soutien partiel des écoles primaires.

PAS DE CONSCRIPTION!

Le moindre capital suffit pour acquérir une Ferme. Les terres en culture se vendent de 100 à 200 francs l'arpent suivant qu'elles sont plus ou moins rapprochées des grands centres. L'étendue ordinaire d'une ferme est de 80 à 160 arpents. Prix d'achat généralement payable moitié comptant, termes faciles pour le reste. Dans le voisinage des nouveaux établissements on peut se procurer d'excellentes terres à demi défrichées. Les Banques de la Province de Québec, les plus sûres du Canada et de l'Amérique, paient en moyenne huit par cent à leurs actionnaires, et 4 à 5 par cent sur les dépôts. Les Compagnies de Gaz, de Télégraphie et de Navigation paient jusqu'à 12 par cent à leurs actionnaires. Il y a constamment des actions sur les Marchés à des primes assez réduites. Les prêts hypothécaires les plus sûrs rapportent de six à huit par cent par an. Le système d'enregistrement des hypothèques établi dans la Province met le créancier à l'abri de toute fraude et de tout défaut. Un Cadastre descriptif de toutes les propriétés immobilières de la Province, est en voie d'exécution. Ce Cadastre sera exposé dans chaque Bureau d'Enregistrement et indiquera les noms des propriétaires avec les hypothèques dont leurs terres sont chargées. Déjà ce Cadastre est en force dans trois Comtés. Les industries qui exploitent les incalculables mines de fer de la Province, celles qui façonnent le bois, et travaillent la laine progressent rapidement. La culture du Lin, celle qui prend de l'extension et devient lucrative offre également à l'industrie linière la plus grande chance de succès. Les artisans comme les simples journaliers trouveront facilement de l'emploi à des prix satisfaisants.

6,400,000 Arpents de Terres du Domaine Public

Arpentés en lots de Ferme de 100 à 200 arpents sont disponibles à 2 frs. 1 fr. 50 c. et même 1 fr. l'arpent payables en cinq versements annuels. Le Gouvernement Provincial dépense chaque année des sommes considérables pour ouvrir de bonnes voies de communication jusqu'aux défrichements les plus reculés. L'allocation votée cette année pour les chemins de colonisation a été de 130,000 francs. Ces travaux donnent un emploi très-lucratif aux colons et les aident à pousser leurs défrichements.

OCTROIS GRATUITS PAR LOTS DE 100 ACRES.

sur huit des grands chemins de colonisation de la Province.

Protection minutieuse accordée par le Gouvernement aux Emigrants. Dès qu'ils entrent dans les eaux Canadiennes ou qu'ils mettent le pied sur notre sol, la loi veille sur eux pour qu'ils soient traités partout avec humanité; elle va jusqu'à fixer le prix de la Pension que les Hoteliers pourront exiger d'eux. Ces prix doivent être affichés dans les Maisons de Pension, et une forte amende est portée contre ceux qui exigent quelque chose au-dessus des prix fixés. La loi ne leur accorde de privilège sur les effets de l'Emigrant que pour cinq jours de pension.

PASSAGE GRATUIT POUR LES EMIGRANTS

Depuis le Port d'entrée jusqu'à destination dans la Province.

Pour renseignements plus complets, s'adresser personnellement ou par écrit aux Agents d'Immigration du Gouvernement Canadien dont voici les noms et les adresses:—Agents en Europe: Wm. DIXON, Agent à Londres; H. G. LARKIN, à Dublin; CHAS. FOY, à Belfast; DAVID SHAW, à Glasgow; GUSTAVE BOSSANGE, à Paris; RICHARD BERNES, à Anvers. Agents au Canada: L. STAFFORD, Agent à Québec; J. J. DALEY, à Montréal; W. J. WELLS, à Ottawa. Ces Messieurs sont chargés de distribuer gratuitement des Cartes et Brochures préparées par le Gouvernement de la Province de Québec, dans lesquelles les Emigrants trouveront tout ce qui peut les intéresser sur les ressources de la Province de Québec, les moyens d'existence, gages des travailleurs, terres à coloniser, &c.

Parties requiring Steamboat Engines would do well to call and inform themselves on the great economy of our new design of Compound Steam Engine suited for Steamboats, Factories, Grist Mills, Distilleries, Breweries, &c.

Messrs. W. P. BARTLEY & Co.,

MONTREAL, 18th November, 1872.

Gentlemen.—In reply to your letter of the 8th inst., by which you ask me how the beam engine of the Longueuil Navigation Company's steamer, "Montarville," built by you from a new design of your own, on the compound principle, has performed since the boat has commenced to run; also how the "Montarville's" engine compares as to economy of fuel with that of the sister steamer "Longueuil," built by you in 1868, on the most modern design.

I would beg to state that the Company has not yet given the "Montarville's" engine the test they would have wished; but for the time it has been working it has, from the first day, given entire satisfaction in every way; and as regards economy of fuel, I do not hesitate to say that I believe the saving in fuel cannot be less than one third, and possibly more.

I remain, Gentlemen, Yours, &c., J. HURTEAU, Manager L. N. Co.

We fully endorse the above: OVIDE DUFRESNE, Pres. L. N. Co.; H. COTTE, Vice-Pres. L. N. Co.; S. BONNEVILLE, Director L. N. Co.

November 23rd, 1872.

We publish this morning a letter from Messrs. W. P. Bartley & Co., with one from the Directors of the Longueuil Navigation Company, on the subject of a new engine, designed by Mr. Bartley, for the steamer "Montarville." The letters explain themselves, and will be read, we doubt not, with great interest by all persons interested in the question of economy of fuel for navigation or manufacturing purposes. The statement made that, with the trial, already given to this engine, a saving of at least one-third in fuel is effected, is a most important one, and its full significance will be more apparent when it is remembered that the engine on the steamer "Longueuil," with which the comparison is made, is one of the best, in point of economy of working, hitherto in use. It is of the same design as those in the steamer "Quebec," of the Richelieu Company, of which Mr. J. B. Lamere is Manager, the "Magnet," of the Canadian Navigation Company, of which Sir Hugh Allan is President; and the "Lady of the Lake," on Lake Memphremagog, of which Sir Hugh Allan is President; and the "Prince Arthur," of the Upper Ottawa Union Forwarding Co., of which Mr. R. S. Cassels is President. All these are well known and favorite passenger steamers, and their engines from the establishment of Messrs. Bartley & Co. are known to be remarkable for economy in fuel. They are now eclipsed by the new engine, to which reference is made in the correspondence which we publish: and at a time when fuel is of enormously increased value, having reached almost famine prices, such an engine is a matter of great interest to all parties engaged in navigation or manufacture. We congratulate Messrs. Bartley & Co., upon having produced an engine which is thus certified to effect a saving of thirty-three per cent. over the best engines now in use of the high pressure or condensing types.—*Gazette*.

W. P. Bartley & Co., build every description of Saw and Grist Mill Machinery, High Pressure Steam Engines and Boilers for 3, 6, 8, 10, 15, 18, 24, 34, rising by 10 to 100, and by 20 from that up to 1000 horse power, for Mills, Screw Propellers and Paddle Steamers. Every description of Castings in Iron and Brass.

“**MERCHANT'S GARGLING OIL.**” ESTABLISHED 1833!
“**GARGLING OIL.**” INCORPORATED 1858.

MERCHANT'S GARGLING OIL!

The Standard Liniment of the United States.

After forty years of unparalleled success, Merchant's Gargling Oil stands unrivaled in the United States and other countries as a liniment for human and animal flesh. Merchant's Gargling Oil is the result of a series of years of study and application prior to its introduction in 1833, by a practical and theoretical chemist, and is composed of the very best ingredients that can be procured in this and foreign countries. The chemical affinities which are brought to co-operate in the union of the various ingredients constituting the liniment, renders it an article of universal potency. We have, for a number of years, published an Almanac for gratuitous distribution, and it is our intention to do so annually.

What is said of Merchant's Gargling Oil by eminent physicians and persons disinterested, fully proves that no liniment ever prepared has so high a reputation wherever it has been used. As a family embrocation, as well as for horses and cattle, it stands unrivaled.

IS GOOD FOR

Burns and Scalds,
Chilblains,
Sprains and Bruises,
Chapped Hands,

Merchant's Gargling Oil as a Family Liniment---Without Stain.

We are now, and have been for some years, preparing the Oil free from stain, to be used as a common liniment, extracting the coloring ingredient which has heretofore rendered it objectionable. This Oil possesses all the medicinal properties of that prepared with the dark tinge for horses and cattle, and will be found one of the best remedies for all purposes where a liniment is required, that has ever been manufactured. Keep the bottle well corked, and shake before using.

The Gargling Oil called “Family Oil,” although prepared intentionally for human flesh, answers as well for beasts; *vice versa*, the dark Oil answers as well for human flesh, only it will stain and discolor the skin, but not permanently.

Merchant's Gargling Oil as an Internal Remedy.

Merchant's Gargling Oil is a diffusible stimulus, and can be taken internally when such a remedy is indicated. For instance, for Cramps, or Spasms of the Stomach, Colic, Asthma or Internal pain, the dose may be from fifteen to twenty drops on sugar, or mixed with syrup in any convenient form, and repeated at intervals of three to six hours.

Caution to Purchasers of Gargling Oil.

The genuine has the signature of “Geo. W. Merchant” over the cork, “Gargling Oil, Lockport, N. Y.,” blown in the glass, and our Trade-mark engraved on the Internal Revenue Stamp.

Merchant's Vegetable Worm Tablets, a Certain and Safe Remedy for Worms in Children and Adults.

The demand for a specific remedy for that troublesome pest—*worms*, has induced us to introduce MERCHANT'S VEGETABLE WORM TABLETS, and the unprecedented success which they have met with, recommends them as the most efficacious Worm Medicine in existence. They are rapidly superseding all other Worm Remedies, arising from the completeness with which they perform their work, and the facility with which they are administered to children. The ingredients of these Tablets are *purely vegetable*, containing no Calomel, Antimony or other *poisonous drugs*, and may be given freely, with the assurance that they will effectually destroy all the worms existing in the intestines, correct and cleanse the stomach, and return the adult or child to health and vigor.

Manufactured by Merchant's Gargling Oil Co., Lockport, N. Y., United States.

JOHN HODGE, Sec'y.
