## Some Persons at Ottawa Got \$3000 for Assisting To Get Farmers' Charter

Travers Refused to Tell Who Got the Money, Saying He Would Serve Twice His Term Rather Than Embarrass Anyone—How Beattie Nesbitt Became President.

Some persons at Ottawa received at least \$3000 for assisting to pave the way for the granting of the certificate to the Farmers' Bank. This was intimated by W. R. Travers during the course of a dialog yesterday afternoon at the Farmers' Bank enquiry, when the former manager was squeezed into a very tight corner by Frank Hodgins, K.C., and before he could extricate himself, some surprising admissions had been made in reference to the three blank cheques that were sent to Ottawa by Solicitor Hunter.

Travers refused absolutely to tell who got the money, stating that he would sooner return to jail for twice his term.

The World understands that the money was paid to a prominent politician, formerly a merchant, who is not now a member of the house of commons.

The list showing the notes in the hands of the bank that were extant when the shareholders' list was prepared, was quite correct, said Travers. A certain percentage of each subscription marked on this list was shown as having been paid in cash, and the amount was generally 10 per cent. of the subscription. This was done in order to work out the "spreading" of the \$100,000.

The Meaning of "W"  
Travers was then handed the list and asked what the letter "W" stood for in the margin against certain names. He thought it meant "worthless." It was after the trial commenced that these marks were made. The examiner then took the witness over a list of cheques and questioned him about them.

## Ottawa Program re Visit of Their Royal Highnesses The Duke and Duchess of Connaught.

16th May—9.30 a.m.—Arrive North Toronto and proceed to "Benvenuto."  
8.00 p.m.—Dine at Government House with His Honor the Lieutenant-Governor and Lady Gibson.

27th May—11.00 a.m.—His Royal Highness lays cornerstone, Tuberculosis Hospital at Weston.  
Garden party at "Benvenuto" in afternoon.  
11.30 p.m.—Leave for Niagara.

## GOUIN SWEEPS QUEBEC LIBERAL MAJORITY 47

Opposition Leader Toller Unable to Explain What He Admits to Be Crushing Defeat—Devlin's Loss of One Seat Only Reverse for Cabinet Member—Conservatives Gain 4 and Lose 5 Seats.

MONTREAL, May 15.—(Special.)—Sir Lomer Gouin has carried Quebec by an overwhelming majority, the Liberals returned to-day numbering 49, while the Conservatives will only number 17 in the new legislature. The Liberal host will be increased by two, as Caspe and Magdalen Islands will elect their members later on, when the 17th legislature since confederation will be complete.

The prime minister was correct in his predictions, or about so, while the opposition organizers were away out in their calculations. They expected to divide the ten members from the eastern townships, and they did not get a single man. Armand Lavergne's predictions were also astray in the Quebec district, as his own county of Montmagny, Estrie and Temiscouata were the only seats left to the opposition from that part of the province. Sir Lomer Gouin carried St. John's by 400, and Portneuf by over a thousand.

Devlin Loses Temiskaming.  
All his colleagues were elected by large majorities except Hon. C. Devlin, who was defeated in Temiskaming, although he was re-elected in Nicolet by a good majority. Hon. Jean Prevost carried Terrebonne by a thousand, and was defeated in L'Assomption by three hundred, and the Quebec lieutenant, Mr. Armand Lavergne, also defeated by Hon. Mr. Taschereau in Montmagny, carried Montmagny.  
Of the counties held in the late house by the opposition, they lost to-day Sherbrooke, Maskinonge, Charlevoix, Megantic and Beauharnois, and won St. Anne's and Champlain, while the English-speaking seats like Westmount and St. Anne's which had been Liberal, returned opposition men. The minority vote supported Sir Lomer.  
As the three French ministers took part in the election, it is quite interesting to note that, while Terrebonne and Jacques Cartier, represented by Nantel and Monk respectively, went Conservative, Hon. L. P. Pelletier's County of Quebec went strongly Liberal. Hon. C. J. Doherty's division of St. Anne's was one of the very few captured by the opposition.  
After the fight, Mr. J. M. Toller said: "I am at a loss to give a cause for the rout. I was all over the province and there was nothing in sight that portended such a crushing defeat."  
Inventions of Ancient Bards.  
It is said that the incidental music, written by Frederic Knight Logan for the new play, "Macmurchison," is founded upon some rare old Irish melodies. Some of the airs are thought to be inventions of the ancient bards, judging from the peculiarity of their construction.

WESTERN LIBERAL: Held up by an "empty," by thunder.

## CHRISTIAN X IS PROCLAIMED AS KING

Huge Gathering Before Palace at Copenhagen Manifests Strong Loyalty to Denmark's New Ruler—Late King's Body to Lie in State in Christiansberg Palace.

COPENHAGEN, May 15.—(Can. Press)—Christian X. was proclaimed King of Denmark from the balcony of the palace at 3 o'clock this afternoon, in the presence of a huge concourse of people who had gathered in the square in front of the royal residence.

Enthusiasm Ran High.  
In response to the cheers of the people, King Christian and Queen Alexandra, with their two sons, appeared again. The scene was an inspiring one and closed with the singing of the national anthem by the immense concourse.  
Royal messages announcing the accession to the throne were read in both houses of parliament at 4 o'clock.

Burial on May 24.  
The body of King Frederick VIII. will lie in state in the chapel of Christiansberg Palace.

## Mr. Borden to Attend.

Right Hon. R. L. Borden will attend the luncheon of the Empire Club at the St. Charles restaurant at noon to-day, at which A. Monro Grier, R.C.C. will speak on the subject, "Toronto and Its Place in the Empire."

## COLONIAL NAVY PLAN FAVORED BY CHURCHILL

Britain's Policy of Concentrating Fleet at Vital Strategic Points Encourages Oversea Dominions to Develop Navies to Patrol Own Shores—Earl Grey for United Squadron.

LONDON, May 15.—(C.A.P.)—Winston Churchill, speaking to-night, said that recent events had led to a greater concentration of the fleet in home waters, which meant a relative reduction in mobility. This gave a great opportunity to the self-governing dominions.

An Empire Squadron.  
LONDON, May 15.—(C.A.P.)—Captain Nash, lecturing at the Imperial Institute, denied the practicability of a purely Canadian navy and deprecated a Canadian money contribution to the imperial service, but looked more hopefully on the formation of a squadron by Canada, combined with other dominions. Earl Grey, who presided, approved this scheme.

THE SPRING RACES.  
Of all the society functions held in Toronto any season, the spring races are the most important. This year the added attraction of the first visit of royalty to the Woodbine race track has been the banner event in Canada.

## POLICE SEIZED MUCH WET GOODS

Illegal Traffic in Third Country Continues to Increase.  
The illicit liquor traffic in Ontario, especially in the north country, continues to increase. The half-yearly report, up to April 30, issued by the provincial police department yesterday, shows that there were 226 prosecutions, an increase of 38. There were 198 convictions, an increase of 46, and 17 charges were dismissed and three withdrawn.

Ernest E. Avery Tried to Jump on Running Board of Engine and Was Killed.  
While attempting to jump on the front running board of a moving G. T. R. yard engine, in charge of Engineer Robert Multhead, Ernest E. Avery, aged 21, a switchman, was almost instantly killed about 3.30 last night. The accident happened about 100 yards west of the Strachan-ave. crossing.

The Toronto Daily and Sunday World are now delivered to any address on the island. Residents or transient visitors can receive a copy of their favorite morning or week-end paper by telephoning Main 5308. Subscribers moving to the island for the summer or for a short stay can have their regular copy transferred without trouble.

## HEARST WILL BE ROOSEVELT'S OPPONENT IN FIGHT

He Will Practically Nominate Himself, and Will Be More Forceful Than Bryan at the Last—Has an Immense Following in the United States, and is Big Quantity in Fight.

NEW YORK, May 15.—(Special.)—William R. Hearst is coming to the front as the chief candidate against Roosevelt, and by much the same road that the colonel is coming by—in spite of the party machine. Hearst will practically nominate himself, and that kind of nomination is now valid and will be effective. William is striking like a disappearing star below the zenith. Champ Clark is supported by Hearst and Bryan, only to be moved aside later on; and Hearst will be more forceful than Bryan at the last. It will be Hearst and Roosevelt in the finish, and Hearst will run Roosevelt closer than any other man. He has an immense following in the readers of his papers; he has many thousands of Democrats with him; he will have many of the dissatisfied; many insurgent Republicans may yet come to him.

Hearst has Wilson extinguished; he will later on extinguish Clark because of his lack of national calibre, and he will do Bryan in the last showdown—because he will force himself into the field in spite of anyone. Bryan will not do that.

## WOODSTOCK MAN FOR TORONTO

Rev. C. S. Andrews Asked to Become Assistant Minister at Bloor St. Baptist Church.  
Rev. C. S. Andrews, B.A., professor of modern languages in Woodstock College, has been extended a call to assist Rev. W. E. Cameron, the pastor. It is likely that Mr. Andrews will accept the invitation and come to Toronto on Dec. 1. His work here will be primarily among the men and boys of the church. He is a well known preacher throughout Ontario and at one time was a member of McMaster Evangelical Band, which some years ago toured the province.

JAFF EXPUNDS FURTHER POLITICAL PHILOSOPHY TO JOHN.  
Jaff: Come on over, John! I'll present to you, I'm for megerin' 'th' president of th' Great Truck in the chairmanship of th' Railway commission an' pitin' a George P. Graham as Jit head. He's next to Sir Weirfuud, th' greatest man in aw' Canada.  
John: But can he throw baggage on to a gar like a professional? Has he riz from the ranks?  
Jaff: No, John, but he's had a broad political education. I had a lesson in his mind. An' he'd show th' commission how to gi' th' pair companies a chance an' as chairman he'd help Sir Tammas explain th' medals. Ah! he'd be able to explain to th' Conservative ministers th' need of G. T. Paffin had for mail money. He'd show that Sir Weirfuud's government had par'd things down so fine that substantial relief must be forthcoming! It's th' cheapest road that ever was built, as ye ken, John!

John: Say, die pal, how much did that railroad cost a mile?  
Jaff: Sir Weirfuud paid his world of honor that th' whole thing 'id no cost eleven millions frae yin sea to th' other.  
John: But he's a much did it cost or is it goin' to cost?  
Jaff: We'll have to leave that to Providence, John. In politics ye dinna deal w' what men say, but what they say. An' Sir Weirfuud 'id th' cost away done. That's where he's clever, John. Ye dinna doubt that he said it?  
John: But what will th' people say to that?  
Jaff: Oh that's when ye must pit your own chest, John. What I'm tellin' ye, John, is what ye canna answer, pit out yer chest. An' ye ken, John, Maister Graham belongs to oor fourth estate. Give him a lift, John, for that. How are th' Lanarkshire comin' along, John?  
John: But Th' News has topped on th' bank merger, too. Did you tip it off to Willson?  
Jaff: Ye're gettin' us all in th' soup. If I hadn't say two feet on th' Bank of th' Landmarks ye'd have me submerged.

FOUND BODY OF WINNIPEG MAN

Thompson Beattie's Remains, With Those of Two of Crew, Discovered in Collapsible Boat.
NEW YORK, May 15.—(Can. Press)—A message received late to-day by the White Star Line from the steamer Oceanic, en route to this port, reported the sinking of a collapsible boat containing three bodies. The boat was found, according to the message, on May 15 in latitude 39.25 N., longitude 41.01 W.

Local Printers Favor Lynch
Toronto printers favored the election of James M. Lynch of Indianapolis by a vote of 466 to 214 cast in favor of E. Barker of Spokane, for the presidency of the International Typographical Union. Printers are now holding elections.

Christian X is Proclaimed as King
CHRISTIANIA, May 15.—(Can. Press).—As soon as the news was received of the death of King Frederick, flags were placed at half-mast and mourning was displayed everywhere.

Will Plead Insanity
C. T. Lyon Again Remanded in Police Court.
Council for C. T. Lyon, J.P., charged with putting \$22,000 in worthless notes thru the Standard Bank, in the Temple Building, will plead insanity as his defence.

PRIZE AT OTTAWA SHOW

You Cannot Afford to Miss This Money-Saving Opportunity UNTIL NEXT WEEK CLIP SIX COUPONS
From The Toronto World of consecutive dates and present them with the small expense bonus explained under the Dictionary Coupon.
After Next Week This Same Identical Book will cost every one of you \$4.00 at the stores

Three Hurt in Gas Explosion.
CHATHAM, May 15.—(Special).—Louis Lott, Charles Houston and Baruch Bassett, employees of the Northern Pipe Line Co., were seriously injured in a gas explosion that blew them into the air and scattered them about the head and face. Houston and Bassett are in a serious condition in the hospital here, and it is thought that their eyesight may be impaired.

# AT THE THEATRES

**SOTHERN AND MARLOWE AT THE ROYAL ALEXANDRA**  
 Present Four Shakespearean Plays During Their Three-Nights Engagement, Beginning June 10.

E. H. Sothern and J. M. Marlowe will appear at the Royal Alexandra Theatre for three nights, beginning Monday, June 10. During their engagement they will give four performances, two comedies and two tragedies from their Shakespearean repertoire. The bill for the opening night will be Shakespeare's *Twelfth Night*. On Tuesday night they will be seen in *Romeo and Juliet*, with Mr. Sothern as Romeo and Miss Marlowe as Juliet. The Merchant of Venice will be the bill at the Wednesday matinee. Mr. Sothern appearing as Shylock and Miss Marlowe as Portia, and on Wednesday the last night of their engagement, Mr. Sothern will be seen as Hamlet and Miss Marlowe as Ophelia. The prices arranged for this engagement will be from 50c to \$2. In cities with theatres of limited capacity it is customary for Sothern and Marlowe to charge as high as \$4 for orchestra seats. All mail orders will be filled in the sequence of their receipt. The Sothern and Marlowe supporting company is practically the same as that which was seen with them when they appeared at the Royal Alexandra Theatre a little over a year ago. Some of the important members

There is an admirable supporting company, and in the roster may be found many well-known players' names.

**"Wish Wynn" Coming to Shea's.**  
 Manager Shea, has been securing attractions and has for the next few weeks several acts that are new to Toronto theatregoers, and some of them new to this country. On next week's bill the headline features will be Wish Wynn, the English character comedian, who has not been seen outside of New York City. Miss Wynne does clever character changes in dainty and versatile and has a repertoire of original and tuneful songs.

The special extra features for the week will be Joseph B. Howard and Mable McCane, in a little sketch made up to entertain. Mr. Howard and Miss McCane will introduce some of Mr. Howard's best known songs. The Brown Brothers, comedy instrumentalists, and Bowers, Walters and Crocker, "The Three Rubes."

Other features are included in next week's bill are Nichols Sisters, the Kentucky Belles, Walsh, Lynch & Co., presenting "Huckins Run"; Puck and Lewis, nimble footed singers; Wartburg Bros, novelty jugglers, and the Kinetograph.

**"The Deep Purple" Coming**  
 "The Deep Purple," one of the most important attractions of the season, will be seen at the Grand Opera House, for an engagement of one week, commencing Monday, May 20. It is a play

The chorus of the Popular Stock Burlesque Company at the Star Theatre who will be given a chance to shine in individual numbers at the theatre to-night.

of this unusual organization are: Fredrick Lewis, Rowland Buckstone, William Harris, Thomas Coleman, John Taylor, Nora Lamson, Ina Goldsmith and Mellicent McLaughlin.

**Chauncey Olcott in "Macaulay."**  
 The beau-ideal Irish romantic actor and singer, Chauncey Olcott, will be the attraction in the Princess Theatre for one week commencing Monday evening next, presenting his new play, "Macaulay." It will be an event of more than usual interest for the play, which is from the pen of Hilda Johnson Young, is one of the most romantic and delightful of all in which this popular star has yet appeared. It is one of the productions for which Augustus Plou has become justly famed, and in many respects is probably one of the finest ever given in Irish plays. The music, too, is unusual. Frederick Knight Logan, who wrote the incidental music of "Ragged Robin," has made a close

**Rush for Percy Haaswell Seats.**  
 That Miss Percy Haaswell is going to receive a royal welcome on Monday evening when she begins her third summer season in Toronto was evidenced by the long line of people at the office of the Royal Alexandra Theatre yesterday. The amount of money taken in will not be a record for the attractions in the regular season, but it is an indication of the popularity of the actress. The summer prices prevailing explain this fact. Miss Haaswell's first presentation in Toronto was a three-act comedy, by W. Somerset Maugham, which received its first presentation in London two seasons ago and proved an immense success. The program will consist of two acts, in which she will display her splendid talents as a comedienne. She also provides for the introduction of some of the new members of the company, as there are so many important characters in the play. During the regular season the mid-week matinees will be given on Wednesday, but next week there will be a special matinee on Friday, (Victoria Day).

**"Mrs. Calve" To-night.**  
 To-night at Massey Hall, Mrs. Emma Calve and her concert company will give the last concert of the season. Their Royal Highnesses the Duke and Duchess of Connaught and the Princess Patricia, Last night the prima donna sang in Los Angeles. The receipts were over \$100, and on Sunday night the opera house in Detroit was sold out for their appearance. It is expected, therefore, that the Toronto matinee will be a great success. The chief attraction of the concert will be the performance of Calve's own condensed version of Bizet's opera, "Carmen," in which she will sing the famous "Habanera." The operatic excerpt being staged in most theatres with complete scenic and orchestra effects. The chief attraction of the concert will be the performance of Calve's own condensed version of Bizet's opera, "Carmen," in which she will sing the famous "Habanera." The operatic excerpt being staged in most theatres with complete scenic and orchestra effects.

**CHAUNCEY OLCOTT**  
 The delightful Irish actor and ballad singer, who will be at the Princess Theatre next week in "Macaulay," a new play by Hilda Johnson Young.

Many of the music of that period, and has written some charming incidental music that is exceedingly appropriate and characteristic. Not least in interest by Mr. Olcott for the piece, and which are said to be among his best compositions.

The character of Sir Brian Fitzgibbon, one of those dancing types that one finds nowhere except in the pages of one of Lover's novels, is capably suited to Mr. Olcott's personality, and he portrays it in a most excellent manner.

**Billy Spencer Back.**  
 Billy Spencer, the favorite of last season's stock company, has again come to Toronto for the rest of the season and will play at the Star Theatre Burlesque Stock Company, starting next week. His

**ALBERT PHILLIPS**  
 in "The Deep Purple" at the Grand next week.

coming will be welcomed by crowded houses and his repertoire is one that will surprise the burlesque world. He has prepared a bright and breezy comedy in two acts to open his season that is an extravaganza of high-class merit, and with a larger company to support him he should have a most pronounced success than last season.

**What Happened to Jones.**  
 Under the auspices of the Indian board of the Toronto Western Hospital the St. Alban's Dramatic Club will present their successful play, "What Happened to Jones," at Foresters' Hall, Colborne street, on Saturday evening. Tickets at 50c and 75c may be obtained from any member of the board. The proceeds will be devoted towards providing a suitable home for the nurses connected with the hospital.

**Balmly Beach College.**  
 The dramatic department of the Balmly Beach College, under the direction of Mr. J. H. G. Ryan, will present a play at the Grand next week.

**North Sea's Harvest Worth Many Millions**

To the United Kingdom the North Sea is the most profitable fishing ground. Last year the value of the fish landed on the north-east coast was \$18,768,970, over a third of the total value of the fish landed in the whole of England and Wales, and \$200,000 worth more than was landed in the whole of Scotland and Ireland combined during the same year. The increase over 1910 was \$32,420, and compared with 1911, the total value of the fish landed in 1912 showed an increase of \$3,231,000. The number of crabs and lobsters landed showed an increase of 23,742 crabs and 15,421 lobsters, but oysters showed a decrease. Whereas in 1911 there were landed 4,960,000 oysters, valued at \$43,420, last year only 4,850,000 oysters, valued at \$39,000, were landed.

Taking the returns at the various ports, Sunderland shows a slight decrease; Hartlepool, an increase of \$5,000; Shields, an increase of \$12,000; and nearly half the value landed in 1911, Whitby, a falling-off of \$2,336; Flamborough, an increase of \$1,100; and Hornsea, a falling off of about half the value; Hull, an increase of \$2,154, 1912; and Grimsby, where the total value of fish landed in 1912 reached \$13,313,100, an increase of \$7,188,815.

During December, January and February last the amount of fish landed was 1,004,823 cwt., being an increase of 100,919 cwt., as compared with the corresponding period of last year. The total value of fish landed was \$4,609,755, being an increase of \$822,000 as compared with the corresponding period of last year.

**A NEW THEORY AS TO VENTILATION.**

Just how ozone acts as an antidote to the effects of bad ventilation does not seem to be generally understood. Two English investigators, Leonard Hill and Martin Black, point out that the air of a factory may contain as high as four per cent. of carbon dioxide without being harmful to health, and that a deficiency of oxygen does not become important until the proportion falls to fourteen or fifteen per cent.

This agrees with the fact that the lungs normally contain about five per cent. of carbon dioxide, making it impossible for any effect to result from the few parts per hundred usually considered excessive in the outside air.

The supposed liberation of organic poisons from the atmosphere, and its effects from bad ventilation, but new experiments have shown that this is probably imaginary, as animals live without other air than that already existing in the atmosphere, and containing nothing but carbon dioxide. Death from suffocation might result if the carbon dioxide should be kept at 100 per cent. It is suggested that the discomfort from lack of ventilation may be due to stagnation of the air, resulting in lassitude from diminished skin evaporation, and to nausea caused by the ordinary or imperfectly washed mass of people. Correction of the odor is supposed to be the chief value of the ozone.

**MARGARET LA VAUN**  
 With the "Bon Tons" at the Gayety next week.

tion of Ethel Bees Bunn, A.T.M.C., are presenting their second series of comedies at the Masonic Temple, Balmly Beach, Thursday, Friday and Saturday of this week. The program includes "A Pretty Piece of Business," "Topping the Question," and "The Door." The cast is an unusually strong one, all the players being well-drawn amateurs. The fact that Mrs. Bunn herself will take part raises the performance far above the average. Tickets, 50c reserved, for sale at Tammy's Drug Store, Leavenworth, or at the door.

**METHOD OF TRANSMITTING PICTURES BY TELEGRAPH.**

Less crude than it appears at first sight is claimed to be the Mortier system of transmitting pictures by ordinary telegraph line without special electrical apparatus.

The picture is divided into tiny sections, and the brightness of each is telegraphed according to a prearranged code. To give sufficiently accurate illumination of the brightness, the original is photographed thru a special screen of semi-transparent sheets, marked out into equal squares, filled with different patterns of lines and dots. The reproduction appears divided into "fields" of "cells," each having the lines and points indicating its degree of brightness, and by means of a special observing frame these varying degrees are read off in definite order.

For an average small picture of about 2800 small sections, the data can be transmitted by 320 pairs of figures combined for cheapness, as 240 words. On receipt of the code message, the picture is set up with microtyped which have varying lines and dots giving the shades required, and which are changed with obstructing the cause of justice in the fake street railway case.

**THE SEASIDE.**

As the time is now opportune to plan for the summer outing and as the lure of the sea appeals to a large number of people, those desiring a most attractive resort cannot do better than to procure a copy of the new booklet, entitled "The Seaside." This booklet deals with a number of seaside resorts on Long Island Sound, reached through New London, Conn., and are easy of access by fast well equipped trains over the Grand Trunk Railway System. It is suggested that the discomfort from lack of ventilation may be due to stagnation of the air, resulting in lassitude from diminished skin evaporation, and to nausea caused by the ordinary or imperfectly washed mass of people. Correction of the odor is supposed to be the chief value of the ozone.

**BISLEY BROS ARE WELL.**

Principal Hagarty of Harbor College received a cable yesterday from Dr. E. J. Hanson of London, stating that the Canadian boys are all well and in splendid form. Hagarty has had a massage treatment and his ankle is normal.

The boys' Bisley Competition opens on Monday.

**GARRATT NOT HELD.**  
 A "no bill" was returned by the grand jury in the case of Dr. Garratt charged with obstructing the cause of justice in the fake street railway case.

**DISCUSSED THE JUST OF WATER**  
 Committee Spends Two Hours of Questioning and Theory-Spinning — Ald. Maguire Would Meter All Houses

What Mayor Geary does not know about the waterworks, or part of what his worship lacks in data, he took a good portion of two hours in asking for at the meeting of the special committee on water meter inspection yesterday afternoon. At the end of the 120 minutes, the mayor expressed the opinion that a certain evening paper, which was not represented there, would say that they had done nothing. In his opinion, they had secured considerable valuable information. He therefore moved that the committee adjourn to meet again next Monday afternoon, to receive more information, requests for which had been noted by the secretary of the committee during the meeting.

Probably yesterday afternoon eclipsed all records for questioning, theory spinning, puzzled looks and head shaking of the Geary regime.

Chairman A. Maguire had one clear-cut opinion. That was that the metering of every house, large and small, and the maintenance and inspection was not going to cheapen the cost of the delivery of aqua pura to the thirsty household, or cause the factory engines to get up steam any cheaper.

Mayor Geary was out strong for the meter. He said the only scientific method of selling water was by meter.

Technical questions poured in on Mr. Mitchell, of the accountants branch of the water department, as to the relative cost of water when supplied in small or large quantities, and profound discussions as to whether Mr. Mitchell was right in a presumption that it could be sold at a greater profit in large than in small quantities, gave Mayor Geary and Controller McCarthy material for debate.

**Give Outskirts a Show.**  
 Controller Foster was strong for the meter on the outskirts getting a show equal to the man in the centre. He thought the manufacturers were now getting the best of the deal. So did Ald. C. J. Lohm and Controller McCarthy.

Mayor Geary said the system was practically new, and there was the sinking fund. It was small, he would admit.

Discussion drifted to the minimum charge per house. This was \$1.00 a year. The mayor wanted to carry a show for everybody, and told the committee about the time when, as a lad, he was privileged to carry pails of water round the old homestead.

Controller McCarthy wanted the rate to manufacturers raised to 15c, and to residents to cents a thousand gallons, with the minimum annual water rate per house at 85c instead of \$1.00 as at present.

Controller McCarthy said the revenue should provide something towards a fund to meet such contingencies as the city might have to face. At present the city was running its water plants from hand to mouth, with the plants becoming out of date.

Chairman Maguire said Toronto stood alone for the cheapness of its water. The charge could be slightly increased and this position maintained.

Controller McCarthy thought there should be a minimum family charge. There were more than one family occupied in a house.

Mayor Geary's motion to adjourn on the water question, was assented to by the increased new tariff, the operation will be \$41,243, with a revenue of \$2,323,000, and a surplus of \$5,889,392.

This golden era included a book-keeping revenue of \$100,017 for the corporation, and increased charges all over the board.

A more elaborate abstract will be presented to the special committee on Monday.

**NOT TROUBLED BY RECIPROcity**

The club man and the man about town have shown that reciprocity, either accepted or rejected, has little influence on their pocket pleasures. Nothing could possibly shake their faith in our good old Canadian whiskey and Radnor Water, the most popular of all mixers.

**NOT THE RUSSELL GARAGE.**

It was stated in some of the Toronto papers on Tuesday morning, but in The World, that Stanley Hallam took a motor car from the Russell garage. The machine broke down at Oakville and Hallam was arrested on a charge of theft. The car was not taken from the Russell garage.

**THIS LADY GIVES A SPLENDID REASON**

**Why She Would Not Be Without Dodd's Kidney Pills in the House.**

They helped her husband and cured her own Rheumatism, Dropsy and Gravel of thirteen years' standing.

Cando, Sask., May 15.—(Special).—"I would not be without Dodd's Kidney Pills in the house," exclaims Mrs. MacKenzie of this place. And those who have heard Mrs. MacKenzie's story do not wonder that she is so emphatic.

"I was a victim for about twelve or thirteen years of Bladder and Kidney trouble," Mrs. MacKenzie says. "It grew into Rheumatism, Dropsy and Gravel. Doctors attended me, but they did not do me any good."

"My husband had used Dodd's Kidney Pills with good results, so I decided to give them a trial. Before I had finished the first box I was greatly benefited."

Dodd's Kidney Pills benefit and cure permanently all who suffer from any form of Kidney Disease. They cure the Kidneys and cured Kidneys strain the form that causes the disease out of the blood. That's why Dodd's Kidney Pills never fail to cure Rheumatism, Dropsy and Gravel.

**WIDENING OF QUEEN STREET.**

Controllers Foster and Hocken have been appointed a sub-committee to report on the proposal to widen Queen Street to 90 feet at Spadina Avenue by taking in a 24-foot alley on the north side from James to Beverly.

**WOMEN'S RILMENTS CAUSED BY NEGLECT**

Are Quickly Cured and Robust Sound Health Restored by Dr. Hamilton's Pills.

Women of the whole are more skilful than men. One reason is that their system is more complicated; another and more important reason is that they are more susceptible to disease. The beginning of women's ailments is the blood becomes weakened and poisonous—the nerves suffer and a run-down condition takes root.

"Women of their midlife are often as a system regulator, because of their weakened power to remove congestion, irregularities, no medicine for women can compare with Dr. Hamilton's Pills. The kidneys quickly respond to the remedial action of Dr. Hamilton's Pills and the result is what you would expect, pain in the back and side, shortness of breath and bad odor disappear—the functions of the body then operate naturally, congestion and disease are prevented and perfect health returns.

Thousands of happy women say Dr. Hamilton's Pills are the greatest and best blood purifier they have ever used. The most certain and reliable medicine known. All dealers in the U.S.A. and Canada.

**DAVID PERTLE**

Man Found on Carlaw Avenue Believed to Have Come From Cobourg on a Freight.

That the body of the unknown man found in a vacant lot at the corner of Gerrard street and Carlaw Avenue is that of David Pertle, who left Cobourg on a freight train while drunk on May 10, is the opinion of a police officer, who wrote to the local detective department to that effect yesterday.

The police are of the opinion that the body is that of Pertle as they state that they saw the man get off the train and wander into the field where he was found, which is in close proximity to where the body was discovered. The body was found in a vacant lot, which is an exhortation to "Love not the world nor the things that are in the world, nor the glory of the world, because the devil and the destruction thereof." This script has proved of great value in determining the date of the volume.

The volume has been acquired by the British Museum trustees, who have written the documents in a volume titled "Coptic Biblical Texts in the Dialect of Upper Egypt."

**FOURTH CENTURY Bible Discovered**

Excavations in Egypt among the graves of Greek settlers and Copts of the early Christian era have brought to light an older translation of portions of the Greek Bible than any hitherto known to exist.

This is a Coptic version of Deuteronomy, Jonah, and the Acts, written in the dialect of Upper Egypt in the fourth century. It is clearly a copy from an older book, and the origin of the version cannot be placed later than the third century.

Greek Christian settlers were numerous at an early date not only in Northern Egypt, but in Upper Egypt also, while the Abyssinian is one of the most ancient and picturesque of the notable Greek churches. Tradition credits with the foundation of one of these churches the queen's chancellor from Mevoe (Khartoum) whom Stephen baptized, and who related in the Acts, when he encountered him, that he had come from Jerusalem and puzzled one of the suffering servant passages in the Second Book of Isaiah.

The back of the newly-found papyrus had been strengthened by a piece or two of rillum, on one of which were found the seventeenth and eighteenth verses of Daniel, and at the back of the book are sentences in Coptic, but written in the Coptic Greek hand, which are an exhortation to "Love not the world nor the things that are in the world, nor the glory of the world, because the devil and the destruction thereof." This script has proved of great value in determining the date of the volume.

The volume has been acquired by the British Museum trustees, who have written the documents in a volume titled "Coptic Biblical Texts in the Dialect of Upper Egypt."

**EATON'S**  
 The "Magic" Vacuum Cleaner Weighs Only 10 lbs

Cleaning with the "Magic" does away with the fatigue and annoyance of house cleaning by other means—no upsetting the home by moving carpets, rugs, furniture, etc.

It needs no hose for floor-cleaning, so it's most handy for daily use. The nozzle, being in direct contact with the floor, removes all germ-laden dust and dirt and deposits it in the dust-bag. Hose and attachment are used for other cleaning. Cost of electric current consumption about 1c per hour. Guaranteed against all mechanical defects for five years.

"Magic" complete with 25 ft. of conducting cord and attachment ..... 39.50  
 "Magic" complete with eight attachments ..... 52.50  
 —Third Floor.

Harness Horses Training for Opening Canadian Circuit

As the time draws near for the opening of the Canadian Circuit for trotters and pacers, the many horses that are in training at Dufferin Park are being to a certain degree rushed along.

Nettie Watson (brm.), owned by Wm. Hunter of the City and entered in the Union Stock Yards of Toronto Stakes, \$1000, for 230 paces, driven by Charles McDonald, was given a fast mile, 2:19 1/2, last half in 1:07 1/2, a pretty fair time for the day.

Roy Brooke, by Silent Brooke, owned by Jas. Noble, sent, driven by Jas. Noble, but started to give a good race, was sprung the last quarter in 33 seconds. The good judges predict for him a very fast start.

Angus Kerr worked his Fritz Binzinger, a mare, for the 214 class, at Pimlico. He stepped him a fast mile, 2:40, last half in 1:18 1/2, and the colt was carrying weight for age all right.

John Marshall worked his trotter, Black Bill, several miles, only stepping him the last end of the mile. The last quarter of a mile was done in 37 1/2 seconds.

Wentworth, 2:04 1/2, a dam unnamed in the year books, was out of a mare named Grace, bred by Col. J. A. Collier of Hamilton. Wentworth is a fine specimen of a beautiful chestnut, a prize winner at Pimlico, and was foaled May 24, 1886.

Wentworth was the only one developed in the 2:14 class, at Pimlico, May 24, 1910. He died Aug. 26, 1910. He has sired his stable of five horses, all of which are in training at Pimlico, and are being shipped direct from there to Dufferin Park.

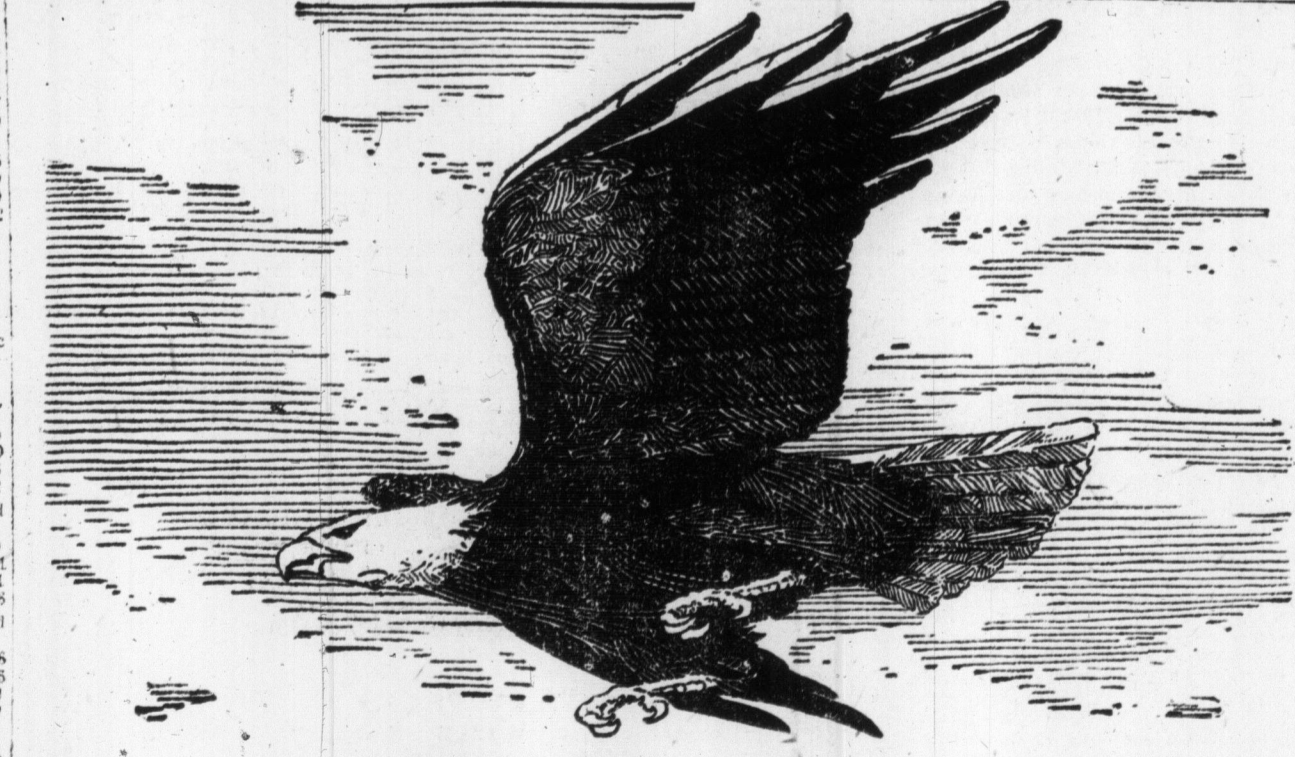

Billie Shawie, 2:14 1/2, a mare, for the 2:14 class, at Pimlico, by Pat Watson, a green pacer; Dr. Young, 2:28 1/2, pacer, by Raven Wilkes; Han Dell, green trotter, and Silver Queen, a green pacer, by Silver Brick. All of Mr. Webber's horses are well developed, so far not having used the under harness. Mr. Webber has divided the share of the money to R. J. McBride, who has given Nettie Watson, some useful work. Nettie Watson looks particularly good. In fact the many friends of Robert say they have never seen her look so well and she will take some beating in her class. Bob thinks he can give his green one a mark not worse than 2:15 this summer.

Oro B, that good black brother of Jimmie Nesbitt's, is working along beautifully in company with Lady Dillon, pacer, owned by Jas. Smith and Hal Crandell, owned by John Bailey. The three were worked a mile in 2:28 1/2. Lady Dillon is improving every week. She has developed wonderful speed in a very short time. She is perfectly green but shows a lot of class. Hal Crandell is working well. He has lots of speed but is somewhat erratic.

L. E. Brown, Maple Leaf Farm, Delavan, Ill., has sold and will ship by express in a few days to Jas. Hillman, Stratford, the promising yearling King of the Dale, by Dale Axworthy, out of Queen's Honor, 2:12 1/4, formerly a member of the Eastbrooke Stable.

Kiddo Barronmore, 2:15 1/4, has been purchased by J. E. Swartz of St. Catharines from parties in Springfield, Mass. Mr. Swartz also owns Fritz Binzinger, 2:15 1/2, by Wm. Field, 2:27, and other horses. He is the Canadian trainer, has been presented with a shoe worn from his father, S. S. Parker of Waterville, Mo., and the latter in turn from Jas. M. Patchon, who drove the mare to her record of 2:19 3/4.

Arthur Hutson's good trotter, Bertha, 2:18 1/2, by Bernardette, is ready in some fast miles. He is a beautiful, galloped, appears to be very level headed and works like a machine. He was stepped two fairly fast times last week at exhibition track, the first mile in 2:19 1/2 and repeat in 2:20 1/2 out of this position.

Budweiser The World's Favorite Bottled Beer

What made it so? — QUALITY and PURITY. 173,184,600 Bottles sold in 1911.

Bottled with corks or caps only at the Home Plant in St. Louis. Anheuser-Busch Brewery St. Louis, Mo. R. H. Howard & Company

Giants Win Close Game Pittsburg Nosed Out

Cannitz and Ames in Pitchers' Battle—Extra Innings at Cincinnati—National Scores.

At Pittsburg—New York defeated Pittsburg, 4 to 3, in a hotly-contested game. Long hits featured the game.

At Cincinnati—It took eleven innings for the home team to defeat Boston in the opening game of the season here.

At St. Louis—The home team, the Browns, won the first game of the season here.

At Chicago vs. Philadelphia, no game.

At St. Louis—The home team, the Browns, won the first game of the season here.

Acute Indigestion

There are forms of indigestion and dyspepsia which can never be reached by ordinary stomach medicines and side to digestion. The kidneys and stomach are involved, and though the stomach may be all right, it is the kidneys that are the cause of the trouble.

Comment on Home Rule Bill Arguments For and Against

Doctrine of Self-Government Rock Upon Which Empire is Based, Says London Star—Votes of 40 at Westminster Will Be Perpetually Up at Auction.

The protracted legislation of Irish Home Rule has resulted in a marked apathy on the part of the people in the bill's course thru the British House of Commons, during the present session.

The effect of this was felt the other day, when the government was forced to accept a motion from the opposition, in order to save the administration from defeat.

Any criticism of the home rule bill favorable and otherwise, has been left entirely to the press, and the more important London periodicals and dailies have been very outspoken in their comments on the latest phase of the much-vexed Irish legislation.

"The supreme contribution which this country has made to the thought of the world is the doctrine of self-government," says The Daily News.

THE TRADERS BANK OF CANADA

NOTICE is hereby given that a Special General Meeting of the Shareholders of The Traders Bank of Canada will be held at the Head Office of the said Bank in the City of Toronto, Ont., on Tuesday, the second day of July, A.D. 1912, at the hour of twelve o'clock noon for the purpose of considering an agreement for the sale by the said Bank of the Royal Bank of Canada, upon the terms set out in such agreement, a copy of which will be mailed to each shareholder of the said Bank, and if deemed advisable of passing a resolution or resolutions approving the said agreement and authorizing the President and General Manager of the Traders Bank of Canada to execute the same and to sign and execute the same and to sign and execute the same and to sign and execute the same.

THE HOME RULE BILL

It is because we believe in the idea of home rule that we are anxious to see that the bill is passed in the conduct of the bill an utter and absolute refusal to do wrong to the rest of Ireland, and not going to oppress anybody in the name of liberty.—Star, London, Eng.

The doctrine of self-government is the rock upon which the fabric of the British Empire has been built, and it is upon that rock that it rests secure to-day.—London Daily News.

Our empire is one in which, by a sort of dumb instinct, we unify the whole by giving the widest freedom to the component parts, and what we have to alter is this tendency to over-unification at the centre.—The Westminster Gazette.

What is tolerable when all parts of the United Kingdom are worked together as one system becomes intolerable when the unity of the United Kingdom is broken up by a government policy which Ireland eats her cake and has it too with a vengeance.—London Times.

As the Imperial Parliament will not concern itself with Irish domestic affairs, it is not surprising that it will have no interest in the work of the house of commons at Westminster except to extort from it what it can get.—London Spectator.

Irish cause. The names are eloquent. They are the names of the pillars of the empire. They include the premier of the Australian Commonwealth, and the premier of the South African Commonwealth, Mr. Fisher and General Botha—two wonderful figures—one a labor statesman, the other the great soldier who was fighting against us a few years ago.

"Our empire is one in which by a sort of dumb instinct, we unify the whole by giving the widest freedom to the component parts, and what we have to alter is this tendency to over-unification at the centre," says The Westminster Gazette.

"Mr. Balfour's dissection of the government's 'Federal' pretences must have staggered any Radical who still can extricate his vision for a moment from the blinkers of party," says The Pall Mall. "There is not in the scheme a single evidence of sincerity aiming at general results."

"The bill sets up a legislature on the lines of the Irish Nationalists in the parliament, supported directly and indirectly by British subsidies, which are in their real sum enormous. Yet it leaves the Irish Nationalists in the Imperial parliament to count seventy upon a division, to decide the fate of cabinets, to control British business, to press further demands," adds The Pall Mall Gazette.

"By Mr. Asquith's proposal Ireland is not to contribute one farthing towards the maintenance of the empire, and a farthing toward fleet, the army, the crown. Her due proportion at the lowest computation would amount to £4,000,000 a year. This is to be paid by British taxpayers on behalf of a Dublin parliament over which they will have not a vestige of practical control, over and above this the 'predominant partner' is to subsidize Irish domestic purposes to the tune of £2,000,000 a year to begin with, and owing to evident underestimate with regard to National Insurance, that amount will probably increase."

"We shall be told," says The Times, "that of the £2,000,000 we already pay £1,500,000; but Sir Edward Carson's answer to that plan's conclusive. What is tolerable when all parts of the United Kingdom are worked together as one system becomes intolerable when the unity of the United Kingdom is broken up by a government policy which Ireland eats her cake and has it too with a vengeance."

# Californian Officer Believed Rockets Came From 'Titanic'

## Grove Told Capt. Lord that Vessel Was Passenger Steamer, But Captain Argued Otherwise—"Scrap Log" Taken on Bridge Was Destroyed.

LONDON, May 15.—(Can. Press.)—The recovery of the board of trade inquiry into the Titanic disaster to a Californian, who was on watch when the vessel was sighted on the night of the catastrophe, was called today.

He testified that he told Capt. Lord that the vessel was a passenger steamer, but the captain argued otherwise. He also said that at 11.40 on the night of the disaster, he was on the bridge of the Californian when the Titanic struck the iceberg. The light from the bridge of the Californian was shut out. He believed that the turning of the steamer two points would account for this. Some of the members of the Titanic's crew have said that when the vessel struck the iceberg it swung two points.

Two Masthead Lights.

Grove said that the steamer for a few hours had two masthead lights. He tried to signal her with a Morse lamp, but failed. The captain said that she did not have the lights. Grove replied, "It is, sir, but she has put out her lights." The captain replied that the only passenger steamer in the vicinity was the Titanic.

Grove testified that he also told the second officer, Herbert Stone, that the vessel was a passenger steamer and that she had put out her lights at 11.40. At the time his impression was that the lights had been put out at night, generally done about that time at night.

Believer It Was Titanic.

When he was called the next morning and told that the Titanic had sunk, he went to Stone's room. Stone told him that he had seen rockets during the night of the disaster.

Lord Mersey's impression is that when Stone said that, he believed the rockets were from the Titanic. Do you believe that the steamer you saw was the Titanic?

Grove: After what I have heard since I am decidedly of that opinion.

Destroyed "Scrap Log."

G. E. Stewart, the first officer of the Californian, said he believed the vessel which was firing rockets was another steamer.

The commission concluded the evidence of the officers of the Californian, and then examined the captain and the wireless operator of the Canadian Pacific Railway Co.'s steamer Mount Hood. The telegrapher reconstructed the story of the sinking of the Titanic from the messages he heard passing between the doomed vessel and other steamers.

"Do you suggest that the log has been doctored?"

The attorney did not reply, but the witness said the positions were given from observations taken by all the officers. There was, he said, no reference in the "scrap log" to rockets. The witness continued that from the position in which the Californian was wrecked seen in the morning, he calculated that the Californian must have been thirty miles from the Titanic.

Stewart was being further examined in regard to the steamer which was seen firing rockets, when Lord Mersey said:

"Has anybody found out which steamer it was, if it was not the Titanic?"

"I have not," replied the witness. "I am not the Californian, also testified that he told the captain on the night of the disaster that he heard the Titanic was near the Californian judging from the strength of her signals."

The commission concluded the evidence of the officers of the Californian, and then examined the captain and the wireless operator of the Canadian Pacific Railway Co.'s steamer Mount Hood. The telegrapher reconstructed the story of the sinking of the Titanic from the messages he heard passing between the doomed vessel and other steamers.

### FREE TRANSPORTATION FOR SATURDAY, MAY 18th TO THE INVESTING PUBLIC

To all those desirous of seeing PORT McNICOLL, the great C.P.R. Terminal with the intention of making a safe, sure investment, we will supply transportation at single-fare rates; but will return the money on the purchase of one or more lots. Embrace the opportunity of inspecting the great C.P.R. works on the Georgian Bay.

OFFICE OPEN FRIDAY NIGHT.

**J. C. HAYES CO., Limited** 168 BAY STREET Toronto

## MORE LAKESIDE SUBDIVISIONS

Oecil White & Co. to Market 250-Acre Balance in Sandown Park and Two Other Properties.

Twenty-eight acres at Stop 18 on the Kingston-road has been sold thru Cecil White and Company to E. G. Law, at \$49,000. The vendor was John A. Palm. The property has 700 feet of lake frontage. It will be subdivided by the White Company and restricted to high-class residences.

This company has also purchased for a subdividing syndicate the A. Keith property on the Kingston-road, between Stop 23 and 26. It is named Sandown Park and the five streets thru the 250 acres are being graded now. Shade trees will be planted and concrete walks laid thru the subdivision.

### Bronte Farms Are Selling at \$250 an Acre

The Grace farm, on the electric radial, just east of Bronte Station, has been sold thru the Union Trust Co. to a Toronto lawyer for a summer home site. The price paid was \$240 an acre for the 50 acres. A 50-acre farm adjoining has been sold by the same agents at \$250 an acre, also to a Toronto man, who will make his home there.

### Another Deal On Adelaide W.

The property at 355-79 West Adelaide-st. has been sold by W. R. Frankish, thru Goulding & Hamilton, to local investing group. There is 70 feet frontage and 90 feet depth.

### STONE RESIDENCE FOR FOREST HILL ROAD

Carl McEachern has purchased from Chadwick & Rogers, 264 feet on Forest Hill-road, just south of Eglinton-avenue, on the northeast side, and will build a \$12,000 stone residence upon the land.

### Time for a Spring Tonic

In the spring we suffer from the bad effects of winter living. During the winter the clear, cold weather is a powerful germicide, and keeps us up; but when the spring break-up comes myriads of disease germs are let loose and the run-down system falls to fight them off. The enormous high death rate in spring proves this.

## THE HIGH CLASS HILL DISTRICT

We want to Show You the Finest Residential Lots Anywhere Near the Price Around This Exclusive Locality.

# FAIRMOUNT PARK

The subdivision beautiful. We are offering a limited number of lots at \$15 per foot and up.

## ARRANGING FOR MONTREAL SALE

Union Trust Real Estate Men Highly Enthusied By C. N. R.'s Model City Property.

G. R. Cottrell, manager of the real estate department of the Union Trust Company, has returned from Montreal, where with R. B. Andrew and C. G. Shaw of the sales department, he looked over the Canadian Northern's model city back of the mountain. The Union Trusts will sell J. E. Hanson's extensive holding in the model city. Mr. Hanson had first choice in the selections, and his purchases amounted to \$2,800,000.

The Union Trust realty men were more than pleased with the property and its possibilities for investment at the prices which it will be sold at. They are highly enthused. A few little details precedent to placing the property on the market have yet to be arranged, and when these are settled, the opening day of the sale will be announced. It will probably be about the first of next week. All investors will be given an equal opportunity in making their selections.

## FIGHT TUBERCULOSIS

Association for Prevention of Disease Meets Next Week.

The convention of the Canadian Association for the Prevention of Tuberculosis, which meets in the Margaret Eaton Hall on Monday and Tuesday, promises to be one of unusual interest. In the morning the secretary, Dr. Porter, will present the annual report of work being done in Canada against tuberculosis. This will be followed by papers by Dr. Craig on notification and local reports.

In the afternoon, Prof. Adams, the president, will deliver his annual address, to be followed by papers by Mrs. Adam Shortt of Ottawa on the social aspects of the disease, Prof. Frank Westbrook of Minneapolis and Sir James Grant.

In the evening a public lecture, with lantern demonstration, will be delivered by Dr. Hermann Biggs, the health officer of New York City, and the leading authority on the municipal aspect of this question on the continent.

Morning clinical papers will be given by Dr. Paterson of St. Aszathe, Dr. Harding of Montreal, Dr. Parfitt of Gravenhurst and Dr. Oliver Bruce of London.

## College, Two Blocks From Yonge--\$425

Henry O'Brien Purchases 46 Feet Frontage at This Price Close to Laplante Street.

The vacant lot next the corner property at the east corner of Laplante and College-streets has been sold by John Wilson at \$425 a foot. The purchaser is Henry O'Brien. The lot has 46 feet frontage by a depth of 90 feet. Laplante is the first street west of Teraville. There is a restriction in the deed demanding that buildings be set back ten feet from the street line. The building at the corner, occupied by a dermatological institute, is built flush to the sidewalk although the same restriction is supposed to bear upon the lot it occupies. The university reserve of a foot strip also affects the property purchased.

## NEW IMPETUS IN RUSH FOR BOOKS

Reports Show Utmost Importance of Correct Spelling and Consequent Need of Knowledge.

The World has not cornered the dictionary market, but you may think that some one has if you try to buy the book after the close of this distribution. After the World ceases its educational philanthropic work, the book will be for sale only at the store at a cost of no less than \$4.

A new impetus has been given to the World Dictionary by reports from an eastern city, showing the utmost importance of correct spelling. In the municipal civil service examinations, only three girls passed the examination, while 25 failed by reason of not being able to spell a few words which are probably regarded as words of common usage.

You may laugh at the unfortunate 25, but perhaps you could not always be sure to spell the following words correctly: Ambiguous, advantageous, accommodation, diphtheria, contagious, annual, development, elementary, efficient, judgment, laboratory, parallel, judicial, privilege, record, statistics, technical, disappoit, installment, principal, subpoena, warrant, municipal, budget and condote.

You may not be ambitious to become a municipal clerk, but you do need a dictionary.

If these girls had thought a little more about studying a few simple words than about some of the seemingly more difficult subjects in the examination they would no doubt have easily passed. "Is this the book?" "Why are the edges red?" "Will the gold letters come off?" "How many words are in it?" "Is it really leather?" "Is it un-abridged?" "Show me the fashion pictures?" "Let me see the dogs." "Girls, just look at the kittens!" "I think it's lovely." "Adorable." "Cute." "Too sweet."

Real Estate and Building--News and Opportunities

DENMARK'S RULER STRICKEN WHILE HE STROLLED ALONE IDENTITY WAS NOT SUSPECTED

King Frederick Had Apparently Recovered His Usual Health and Was to Have Left For Home Yesterday— Was at Hamburg With Family Incognito.

HAMBURG, Germany, May 15.—(Can. Press.)—King Frederick VIII. of Denmark died alone unaccompanied and unattended, in the ward of a public hospital here late last night of apoplexy.

King Frederick had been undergoing a course of treatment for arteriosclerosis with which he had been troubled for a considerable time. He had also suffered from an attack of inflammation of the lungs, from which he had been critically ill some weeks ago, but this had been completely overcome.

Stricken During Stroll.—When he left the Hamburg Hof Hotel last night after eating a hearty dinner, the king, accustomed to an evening stroll before retiring, walked toward the "Goose Market," one of the principal squares in the business section of the city and which is just round the corner from the hotel.

There was nothing on the body which afforded a clue to its identification, and it was placed in the mortuary of the hospital.

Royal Suite Alarmed.—It was only much later in the evening that the royal suite, which had become anxious owing to the king's absence, heard of the incident that had occurred on the "Goose Market."

PLAYED GAME OF HIDE AND SEEK

Court Crier Called Names Inside and Outside, But Forgot to Look in Witness Room for Men Wanted.

While Mr. Justice Middleton and his court waited impatiently for the court crier called incessantly for them, Messrs. J. Walter Curry, K.C., James Forrest, Albert Burnett and W. E. Smalling, charged with contempt of court and conspiracy to fabricate evidence in connection with the famous street railway case tried before Judge Morgan on March 21 last, sat in the witness room next to the assize court waiting for their case to be called.

The court crier was told to call the names of the four men three times inside and outside of the court, which he did, but evidently forgot that such a place as the witness room existed. His lordship became very indignant when the men did not answer to their names and announced that the case would be laid over until this morning, and that warrants would be issued for the arrest of the men if they did not appear. The court was then adjourned.

Two minutes after the court had been adjourned, the four men in the witness room became impatient about the delay in calling their case, and Mr. Curry came in to see what was the matter, only to be severely criticized for not being on the job on time. He promptly stated his side of the case, but as the jury had been excused for the day, and had left the court room, the case could not be proceeded with. It is hoped that everybody will be on time at 9:29 this morning when the case is again called.

Progressive Women of Persia

All honor to the vested women of Persia! With the constraining traditions of the past about them, with the idea of absolute dependence upon the fancy and caprice of men even before them, deprived of all opportunity to educate themselves after modern ideas, watched, guarded, and rebuffed, they offered up their daily contribution to their country's cause.

During the last five years, the women of Persia have become almost at a bound the most progressive, up to any radical in the world. The fact makes one gaze with astonishment, and unbelief at the power of the Islamic priests, the Persian women—those so-called "shades" of the Oriental lords of creation—by exerting their influence.

Persia which has recently been invaded by Russia and England would have seen early the advent of a new organ's protest. It was they, from the first, who, with the aid of the national movement of the Persian people for the adoption of constitutional forms of government, and for the institution of a political, commercial, and ethical codes.
