

# CUBA--THE LAND OF SUNSHINE

## CANADA-CUBA LAND AND FRUIT COMPANY, LIMITED

INCORPORATED UNDER "THE ONTARIO COMPANIES ACT."

### Second Issue of Ten Thousand Acres Only Will Be Sold at \$20.00 an Acre

After this is sold a further issue will be sold at \$40.00 per acre. Buy Now and Save Money. You can't duplicate this land for less than \$50.00 per acre to-day in Cuba. Buy a business lot at \$50 to \$75 which will rapidly increase in value. Terms cash; or 25 per cent. cash and 25 per cent. each month till paid for.

## WINTER RESORT

Cuba will be a favorite winter resort for the people of North America, because of its favorable location and uniform temperature. At the time when the Northern States are clothed with snow and ice, this island has the climate of June. With its fine sandy beach for bathing, its land-locked harbor for yachting, the rolling lands in the background for beautiful scenery, and Canadian people for neighbors, Ocean Beach should be the most desirable as a winter resort. The scenery on Guadiana Bay is grand and inspiring. Our Estate is covered with tropical foliage. The water is so clear that the gravelly bed from ten to twenty feet below can be seen distinctly, abounding in certain sections with Spanish mackerel, a species larger than the mackerel of our Northern markets, and fully as palatable.

### PURPOSE OF THE COMPANY.

Since Cuba obtained its independence, and since its favorable climate and fertile soil have become known, there is a growing demand among the people from "The States and Canada" for real estate holdings in this island. Naturally the desire is to be located among the Canadian people, and to know that titles are clear and valid. As the company's property is especially adapted for the establishing of a colony, and as it contains more acreage than the company could put under cultivation in many years, we have concluded to offer for sale fifty thousand acres of land divided into ten-acre lots or upwards. The balance will be put under cultivation for the benefit of the company. This suggested establishment of a colony is especially desirable in order to make a port of entry at Ocean Beach. The part of the tract facing the ocean near Guadiana Bay is set apart for a business and residential site. The land which we are offering for sale is the best portion of the property, as regards location for shipping facilities, being nearest the water front. The quality of the soil also is all that can be desired.

There is no tax on improved real estate in Cuba. In Cuba the conditions for intensive agriculture are ideal. The staple crops of the island will be oranges, grapefruit, lemons, limes, early vegetables, coffee, tobacco, cotton, bananas, coconuts, mangoes and such products as olives, grapes, almonds, etc., which can be successfully raised. All of these are very valuable and yield most bountifully when cultivated intensively. The labor required to plant, care for and harvest them is much less than farm labor usually is in Canada, and the climate is more temperate and pleasant. The soil is light and easily worked, and the opportunity for keeping bees and poultry and for dairying offered by the closeness of the large Havana markets, where products from these lines sell readily at high prices, greatly multiplies the sources of income for the planter and furnishes something for each member of the family to do—work both pleasant and profitable.

Bailou, the historian, writing of Cuba, says: "Nowhere on the face of the globe would intelligent labor meet with a richer reward. Nowhere on the face of the globe would repose from labor be so sweet."

And, finally, it may be added that the expenses of living are far less once a start is obtained.

Bearing these facts in mind, let us take up the conditions and purposes which make up the present undertaking of those engaged in developing this favored spot.

Extract from "Commercial Cuba in 1903," published by the U. S. Department of Commerce and Labor, August, 1903: "It will unquestionably be easy and natural for Cuba to export to the United States and other countries large quantities of vegetables, especially those of a tropical or semi-tropical habitat, and those which are in demand early in the year in northern communities."

"One great advantage possessed by the Cuban vegetable grower is that almost all kinds of vegetables enjoy in that island a perennial growth, one crop following its predecessor immediately. In this way the producer reaps the reward of two, and sometimes three, crops annually of all the different kinds of vegetables which he cultivates."

Extract from report of A. A. Quint of Quibra Hacha, Republic of Cuba: "I planted a quarter acre with tomatoes; the yield was sixty crates of very large, fine tomatoes. The price in New York at time of picking was \$2.50 per crate."

## LAND IS THE BASIS OF ALL WEALTH.

As a permanent place of residence as well as a health and pleasure resort, Cuba, owing to its climatic and scenic charms, is attracting wide attention. Any person from a northern climate can live in Cuba in Summer with as much comfort as in Canada, while the winter months are, of course, very much more comfortable than in a land of snow, sleet and blizzards.

### SOIL AND PRODUCTS OF CUBA

In no part of the United States or Canada is found a soil so rich, so fertile, so productive as in Cuba. There is no garden like this favored spot. It is perfect in soil and climate. Three crops a year can be grown.

Four hundred years of Spanish misrule prevented the development of more than a small portion of this beautiful island, and thousands of acres of virgin soil now await the thrifty and energetic Canadian to make it the most productive spot in the tropics.

### REMARKABLE GROWTH OF ORANGE TREES

In a letter recently received is the following item: I visited a fruit farm and photographed an orange tree three years ago from setting. It was six inches in diameter at the base and about eighteen feet high, with branches five or six feet long and full of fruit. I also photographed a tree five years old which bore 6000 oranges last crop, and another seven years old, which bore 7000 oranges. Grapefruit attains perfection in Cuba.

### ORANGES

It is claimed by the best authorities on citrus fruits that if all the available lands suited for the purpose in this part of the west were put into cultivation it would be more than twenty years before the market would be supplied to the same extent that it was previous to the freezes in Florida and California.

It must be remembered that an orange grove will mature here in one-third less time than in California or Florida.

Governor-General Charles H. Allen says: "A ten-acre orange grove once in bearing, gives a comfortable income, sufficient to support a family in the best country style."

"When an orange tree is set in Florida it is valued at \$100."—Florida Fruits and How to Grow them.

### PROFITS ON ORANGES AND OTHER CITRUS FRUITS

As an indication of the profits to be derived from raising oranges and other citrus fruits, I quote from an Official work on Cuba, recently published: "The person owning an orange grove in a country free from frosts is the most independent and happiest person on earth. A full-grown orange tree will yield from 1000 to 5000 oranges yearly, and, like the lemon tree, begins to bear the third year. Before Cuba got its setting back during the war orange lands were selling from \$150 to \$300 per acre, and a three-year-old grove was worth \$1000 per acre. The oldest trees in Cuba are some 100 years old, and each year the crop is greater than the year before. No limit is placed upon the age of the orange tree; so in beginning an orange grove, whether in four or five years are required to bring it into bearing, it will then continue to yield its golden harvest for generations to come, and when once in fruit you can sit beneath its shade almost in idleness and have an abundant competency."

### CATTLE RAISING

Grasses in Cuba have a most wonderful growth. Green all the year and nutritious, cattle-raising has always been the chief occupation of the natives, who have a natural disinclination to the labor necessary in cultivating the soil for market. Pasture always green and no winter storms or no feed to prepare. Large numbers of cattle and hogs in fine condition and good breed are found in all sections of the island. Havana and other points Cuba furnish the market for beef and mutton higher since the Spanish-American war than in the United States.

### COST OF TWENTY-ACRE BANANA PLANTATION.

Including Care of Same for Each Year.

300 banana plants to the acre.	
Selling price at plantation, 35 cents per bunch.	\$100
Cost of land, at \$20 per acre.	400
Cost of clearing, at \$5 per acre.	100
Cost of 6000 banana bulbs, at 3 cents each.	180
Cost of planting banana, at 2 cents each.	120
Cost of care of land, at \$10 per acre.	200
Total cost.	\$1000

Estimated Income from a Twenty-Acre Banana Plantation at End of Each Year.

Estimating 85 per cent. of plants bearing.	\$1785
Cost of care and marketing products.	800
Net profits.	\$1485

Note: An owner of a ten or twenty-acre banana plantation can largely reduce his cost of "care" by doing much of the work himself.

### TRUCK GROWING IN CUBA

Of all agricultural pursuits, that of growing vegetables, as a commercial venture, has hidden in the possibilities much to attract not only the tiller of the soil but many of those who have surplus money accumulated in other than agricultural pursuits.

It is easily within the bounds of probabilities to estimate a crop of vegetables that can be grown during the winter months at a thousand dollars per acre. The profit per acre, and if one takes into consideration the small vegetable places worked by the Chinese around Havana it would be reasonable to say into thousands of dollars per acre.

### NO DANGER OF OVERDOING

Won't this fruit business be overdone? we are asked. Will, provided that the United States and Europe get growing and our wide-wake transportation companies all get flat wheels and not boxes. The United States is now buying millions of boxes of lemons yearly from Mediterranean ports. Cuba can grow every one of them. In 1894 Florida exported 250,000 boxes of early oranges to Liver-

pool that sold at 20 to 30 shillings per box. This market alone could be worked up to 1,000,000 boxes of early oranges to go in before Mediterranean oranges are ripe. All we need is the fruit to ship and we will have more markets than fruits. It will be at best ten years before Cuba can begin to cut any great amount of ice in the markets of the fruit world.

And to do this we must plant at once ten to twenty thousand acres yearly. We can pay the duty and land our products in the markets cheaper than Florida or California can, and as to quality, we are without a peer.

### FISH, GAME AND ANIMALS

Seven hundred varieties of fish, also crabs, oysters, lobsters and turtles, are found in the waters surrounding the Isle of Pines. The sea and rivers which empty into it are literally alive with them. Sea-bass, red-snapper and pojoana are the choicest eating.

Parakeets and beautiful humming birds, brilliant as winged jewels, quail and wild pigeons are found in the woods and dunes along the coast. Each game is plentiful, as very few natives own guns, owing to the license of \$10 a year required of those who keep them.

There are positively no poisonous snakes or insects or dangerous wild animals on the island. The largest four-footed animal found is the "tuta," about the size of a large squirrel. You can sleep in the open air in the woods or in a tent without the slightest danger from beast or reptiles. Mosquitoes and even common house flies are never troublesome in summer.

### TO MERCHANT, MECHANIC OR CLERK

The condition under which the average mechanic or clerk exists to-day is one of ceaseless toil, from morning till night, year after year. If he has a family, after paying the landlord, grocer and doctor, and buying coal and clothing, there is little left to provide for an emergency or old age. Contrast this condition with that under which one can live in Cuba. The owner of ten acres of land under cultivation will have an income double that which is earned by most mechanics, with the expenditure of one-half the labor.

For a small sum he can construct a suitable house. His vegetable garden and fruits will supply a large portion of his food. There will be no rent bills, no coal bills and no winter clothing to buy. Under these conditions he can lead an independent, comfortable life, having a sufficient margin between his expenses and income to enable him to put aside each year a portion for the future. His property, moreover, is constantly increasing in value.

Do you want a guarantee of independence in old age? Do you want insurance against poverty? If you do, read every word of our Prospectus. It points the way to a comfortable and profitable life. It shows you how you can easily provide for the future. Give it your earnest attention. Read it carefully. Do it today.

### WOULD NOT HOLD OUT HAND WAS WHIPPED ELSEWHERE

Principal Wallis Says He Only Followed the Rules in Punishing Young Brown.

Did Martin Brown, aged 13, schoolboy attending the Hamilton street school, deserve the punishment that he received at the hands of Principal Wallis of Hamilton-street school last Thursday? Principal Wallis is of the opinion that he did. "That the boy was brutally beaten," the principal denies. That he struck him about the nether limbs, he admits, but only after the youngster had refused to hold out his hands. In this the law sustains the schoolmaster.

Young Brown and his father have complained to the board of education, and last Saturday the boy showed the marks of the thrashing he received. Wallis about the leg and bruises about the shoulder and neck were exhibited.

### Afflicted with Erysipelas For Ten Years.

Cured by Four Bottles of Burdock Blood Bitters.

Mrs. N. Peister, of Brighton, Ont., was Cured Two Years Ago and Has Had No Return Of It Since.

"Read what she says:—It is now about two years since I was cured of a terrible attack of Erysipelas, with which I had been afflicted for ten years. I had tried almost everything, including medicine from several doctors, but could get no relief. I had given my case up as hopeless, but I procured five bottles of Burdock Blood Bitters, and it completely cured me. In fact, the cure has been permanent. It is now two years since I took Burdock Blood Bitters, and I have not had the slightest sign of the disease returning. I fully believe that your wonderful remedy has taken it so completely out of my system that I shall never be bothered again with it. I have the greatest of faith in Burdock Blood Bitters."

Three Minutes Ahead of Time.

New York, June 19.—The Twentieth Century Limited train on the New York Central Railroad arrived in this city from Chicago at 9:27 to-day, 3 minutes ahead of time. It left Chicago at 2:30 p.m. (central time) yesterday, and made the run in 17 hours and 57 minutes. This was the Twentieth Century's first easterly trip at a 15-hour train.

Reprieve at Last Moment.

Albany, June 19.—Governor Higgins has reprieved until Aug. 1, Emil Tetterman, who was to have been executed to-day at Sing Sing Prison for the murder of a woman in New York.

### LEFT IT TO THE CHILDREN.

And Suggestions for Parting Sermon Were Hard on Hamilton.

In Duane-street Methodist Church Sunday night the Rev. Mr. Treleven had farewell to the members of his flock, among whom he has labored with such success during the past four years. No limit is placed upon the age of the orange tree; so in beginning an orange grove, whether in four or five years are required to bring it into bearing, it will then continue to yield its golden harvest for generations to come, and when once in fruit you can sit beneath its shade almost in idleness and have an abundant competency."

### The Open Air Horse Show.

Entries for the Open Air Horse Show, to be held on Dominion day morning, in the Queen's Park, King-street, all day yesterday, were in the total was made up in the evening there were upwards of 30, and they were still coming. Some classes are of course better filled than others, but the indications all point to a splendid show of harness and saddle horses, single and double. A meeting of the association will be held at the club this evening to go over the entries and complete sundry details. Every member, every judge and every marshal is expected to attend, as business of much importance will be transacted.

### SOLDIER THIEVES SENTENCED.

St. Catharines, June 19.—(Special).—The two soldiers, Edward Wheeler and Samuel Kelly of the 44th (Welland) Regiment, who were accused of stealing at Niagara camp, had their trial here this afternoon before Judge Carr. Kelly pleaded guilty to stealing shoes and other articles from comrades, and was given two weeks in jail.

### PASTOR WROTE THE HYMNS.

Choir of Carlton St. Methodist Rendered Dr. Smith's Hymns.

In Carlton-street Methodist Church yesterday the Rev. Dr. Smith preached morning and evening to large audiences. In the morning Dr. Smith based his remarks upon Acts xv. "25 and in the evening his subject was: "Last Words" from 1st Cor. xv. 25. A unique feature of the services morning and evening was the rendition by the choir and congregation of a number of hymns written by Dr. Smith. On July 4 the body was completely made and the Rev. Dr. Smith will follow the former at Carlton-street.

### APPETITE WAS POOR.

Dizzy Most of The Time. Could Not Sleep at Night.

Many people are unaware of having anything wrong with their heart or nerves till some little excitement or overwork makes them feel faint and dizzy, or perhaps simply going up or down stairs causes dizziness and specks to float before the eyes. People troubled in this way should heed the warning, and not fail to take treatment before something more serious occurs.

### Milburn's Heart and Nerve Pills.

We do not claim that they will cure chronic heart disease, but we do claim that they will strengthen the weak heart, and build up the shaky nerve system.

Here is what Mrs. Sidney Hoffman, Hillside, Ont., says:—"I was troubled greatly with my heart, and was so very nervous that the least little thing startled me. "My appetite was very poor; I could not sleep at night, and was dizzy most of the time. I took three boxes of Milburn's Heart and Nerve Pills, and I am very pleased to say that they did me a wonderful lot of good."

Milburn's Heart and Nerve Pills are 50 cents per box, or 3 for \$1.25. All druggists, or mailed direct. THE T. MILBURN CO., LIMITED, Toronto, Ont.

### A MYSTERY OF THE SEA.

New York, June 19.—With a wound in his breast, his head crushed, and a large wound in his abdomen, the body of a man was found floating in the harbor of Governor's Island to-day. It had been in the water only about 48 hours, and the body was completely made and the right leg and left arm were broken.

### THE MUNDY SHOWS.

A Wonderful Exhibition of Brute Sagacity and Endurance.

The great Mundy Shows inaugurated the opening of the London Old Boys' carnival yesterday. The display is a fitting honor to the name of the founder. Everything connected with the enterprise is new and the paraphernalia and properties are highly ornate. It has been said that it was impossible to put on an exhibition of trained animals of this magnitude under canvas. Mundy's staff has solved the problem with its shifting cages leading to the immense steel arena. Act No. 1 consists of four black bears captured in the Rocky Mountains, two years ago. Display No. 2 is called miscellaneous group, and is one of the cleverest exhibitions of animal training of lions, tigers, leopards, bears, pumas and great horned dogs. This act is under the direction of Milo Van Lorder. Display No. 3 shows the steel cage in which Col. Mundy's \$190,000 challenge group of nine performing lions and tigers go thru the remarkable exhibition of jumping thru hoops of fire, forming groups, high leaps, all at the word of command, from the greatest of animal trainers, Col. P. J. Mundy. Display No. 4 is that of Anita, the lion tamer. Display No. 5 is that of Capt. T. L. Bertie and the only wrestling lion on earth. Schley, there are twenty big attractions with the Great Mundy Shows, and the fronts are all carved gold, and with a myriad of incandescent lights of every hue. The effect is dazzling. Another attraction of the Mundy Shows, will be exhibited in Harbor Park, the foot of Yonge-street, the entire week of June 28.

### MARKING THE IMAGINARY LINE.

St. Albans, Vt., June 19.—Special Commissioners J. C. Rainworth of Ottawa and J. P. Baylor of Washington have established headquarters at Albany Springs for their task of re-surveying the boundary line between Canada and the United States in this section. The iron monuments which mark the line have been marked by granite markers.

### THOUSAND ISLANDS AND ST. LAWRENCE.

Many who annually take in this trip consider the month of June the best time of the year. You can leave Toronto, at 10:30 p. m. in Pullman sleepers, via Grand Trunk, and in making bounteous connections at Kingston wharf with steamers for trip through Thousand Islands and River. Canadian securities as a rule were firm today, and there was a display of buoyancy in some. Sentiment was not improving, but the market was quiet.

There was no explanation given in selling these properties, but it is safe to assume that in the case of Brooklyn the buying was inspired by reports of good earnings, while in general way the iron and steel business, according to recent reports, is showing a better feeling.

Notwithstanding conflicting statements, there is reason to believe that Hendricks' report will become public either Tuesday or Wednesday of this week, and it is expected to be drastic and conclusive in dealing with the subject under discussion.

Today's market may present more strength and activity than now appears probable, as most influences are favorable and the market's condition would rather encourage operators to take the long side than the reverse upon the development of any favorable influence.

While no great activity is promised, there is every reason to expect the market to be sustained.

Rate of production of pig-iron continues high even for the week ending June 17.

Regular dividend announced on American Steel, and increase to 7 per cent, based on next declaration.

Plenty of stock in the loan crowd.

One hundred and one rods for April show an increase of 6.17, and for May 7.15 per cent.

Thirty-eight rods for week of June show average gross increase of 5.44 per cent.

The banks have gained \$150,000 from securities since the sub-treasury cleared a debtor at clearing house for \$884,000.

76 CARLOADS AT JUNCTION

QUANTITY OF CATTLE GOOD

Prices Steady at Last Week's Quotations—Hogs Steady at Saturday's Prices.

Receipts of live stock at the Union Stock Yards were 78 car loads, composed of 1500 cattle, 3 sheep and 37 calves.

The quality of fat cattle was good, better than last week.

There were none offered, but H. P. Kennedy bought 1170 lbs. each, at \$5.25, and \$6.75 for cows.

W. R. LeVack bought 9 spring lambs, at \$5.00 each.

Wm. LeVack bought 20 loads of fat cattle, butchers and exporters, at above different classes of fat cattle.

McDonald & Mayne sold 16 exporters, 1400 lbs. each, at \$5.37 1/2; 25 exporters, 1200 lbs. each, at \$5.37 1/2; 2 exporters, 1200 lbs. each, at \$5.25; 25 exporters, 1200 lbs. each, at \$5.25.

Isaac Groff of Elmhurst, Waterloo County, sold 4 exporters, 1200 lbs. each, at \$5.25 per cwt.

Dunn Bros. bought 8 loads of exporters, 1200 to 1300 lbs. each, at \$5.25 to \$5.30 per cwt.

Wm. LeVack bought 37 veal calves, at \$4.00 to \$4.25 per cwt.

Wm. LeVack bought 30 butchers, at \$4.80 to \$5.00 per cwt.

J. L. Rountree bought 22 butchers (mixed), at \$4.00 to \$4.25 per cwt.

Wm. Hawkins, Kingston, Ont., one export bull, 1820 lbs., at \$4 per cwt.

John Leadale, farmer, Richmond Hill, York County, sold 36 export cattle, at \$4.80 to \$5.00 per cwt.

McDonald & Mayne topped the market at \$5.50, having sold Mr. Leadale's cattle.

Stock yards will commence the Union Stock Yards, Peterborough, Ont., at 10 o'clock.

Wm. Craig of Montreal was a visitor at the market.

Brown & Wilkinson of Galt had a shipment of 5 cars of export cattle on the market.

John Sheppard, one of the oldest cattlemen of the west, had a weekly sale of his own feeding, the fattest and best of most of his stock.

It seems that many of the drovers having bought the cattle to rear from the farmers are anxious to give quotations, which are very low.

Some other losses of the same kind, which are very heavy, have been reported.

William LeVack is at present shipping some fine yearling calves.

BUILDS A MAUSOLEUM

Senator Cox Erecting Magnificent Monument in Mount Pleasant.

What will be at its completion one of the finest mausoleums in America has been started in the last few weeks by Senator George Cox. It is to be built in Mount Pleasant Cemetery, and is the finest work of marble in the southern part of the cemetery, in the new portion.

The background is a beautiful wooded hillside, 26 feet wide and 22 feet high. The work will probably be finished by fall.

WHO PAYS COSTS? J. B. Mackenzie Cannot See Why Cain and Gilhula Should Pay

Unable to understand why his clients Cain and Gilhula should be called upon to pay the costs of deciding a constitutional question, J. B. Mackenzie has asked that costs be paid by the government.

Judge Anglin, it was announced, intended to insert a clause freeing Col. Sherwood from any liability on a charge of false arrest. Mr. Mackenzie intends to ask that this order be stayed until Judge Anglin returns from Sandwich, where he is holding weekly court.

HOUSEHOLDER—WHAT IS IT?

Judge Winchester Reserves Assessment Case Till He Finds Out

Appeals are coming in from Ward One against the new business assessment.

Governor Van Zant of the jail had a kick before Judge Winchester yesterday morning. He objected to the \$1000 assessment on the ground that he was not a householder and therefore not entitled to 24-hour exemption.

Thomson Wilson, also of the jail, has a similar protest.

Now, what is a "householder"? The assessment act does not say.

Will Report on Immigrants.

H. E. Kyle of Oakville, sent over to England by the Ontario government, called at the buildings yesterday, on his way home from his trip. He visited various parts of the British Isles, including the Channel Islands, with a view to securing suitable immigrants for Ontario.

His report will be presented on Wednesday. He was most successful in his efforts.
