RESPONSIBILITY FIXED FOR THE IMPORTATION OF JAPANESE COMMERCE

W. L. M. King's Report Cites Activity of Immigration Companies Co-operating With Railway and Mining Companies.

JAPAN NOT TO BLAME FOR HAWAII CONTINGENT.

In his conclusion, Mr. King says: "The preservation of harmony between the several classes in the Province of British Columbia, no less than the furtherance of friendly relations between this country and Japan, demands that there should be an effective restriction of the number of Japanese who shall be admitted to Canada each year. With the immigration from Hawaii the Japanese government has had nothing to do. Were the immigration of Japanese from Hawaii and all other points beyond the jurisdiction of Japan absolutely prohibited, and a stop put to the immigration of contract labor at the instance of individuals and companies in this country and immigration companies in Japan, and a ban reserved on the future in the granting of passports to all other classes of persons, as appears to have been practiced in respect to these classes during the past year, the Japanese immigration to this country would not be such as having regard for numbers, would be likely to cause any serious embarrassment to this country or as to which exception could reasonably be taken.

On the other hand, unless methods are adopted sufficiently effective to prohibit absolutely all immigration from Hawaii, and the importation of contract labor from Japan, there are strong grounds for believing that the numbers of Japanese likely to enter Canada from the former islands will greatly exceed within a few months the numbers of the latter from the latter.

W. L. M. KING
OTTAWA, Jan. 20.—(Special).—There was laid upon the table of the house to-night by Hon. Mr. Lemieux, the report of W. L. Mackenzie King upon the enquiry conducted by him last autumn into the methods by which oriental laborers have been induced to come into Canada during the year 1907.

Daily sessions were held in Vancouver and Victoria, between Nov. 11 and Nov. 30, during which time 101 witnesses were examined, including 27 Japanese, 15 Hindus and 35 Chinese.

Mr. King's opinion is that the abnormal influx of Japanese last summer, which caused all the trouble of the Japanese government, but to the operations of the Nippon Supply Co., a concern engaged in the importation of oriental laborers for employment principally on the Grand Trunk Pacific, but also in other works in British Columbia.

This company dealt with emigration companies in Japan, who have to deposit the necessary security in the shape of a cash-bond with the government, which they in turn secure themselves by having the emigrants obtain securities among relatives and friends. For their services the emigration companies are allowed to charge a proscriptive commission from \$10 to \$12 being a customary amount. Emigrants are only allowed to leave Japan on passport, and the companies engage to bring back when required for military services such emigrants as they may send out.

Concentration Excusable.
There were at the beginning of the year in Canada about 7500 Japanese, and Mr. King does not think it a matter of surprise that the arrival of 2500 more in British Columbia during the year should have created consternation in certain quarters. He adds that if anything were needed to occasion unrest it was to be found in the simultaneous arrival from the Orient of Hindus by the hundreds, and Chinese in the thousands.

He adds that if anything were needed to occasion unrest it was to be found in the simultaneous arrival from the Orient of Hindus by the hundreds, and Chinese in the thousands.

A Mysterious Monopoly.
The Nippon Supply Co. is described as a mysterious, but it had a complete monopoly of both sides of the Pacific. It had a contract with the C.P.R. sufficiently large to ensure its continued existence, was in successful operation first placing on the coast of the Wellington Coal Co. for the supply of miners from Japan and had prospects of a labor contract with the G.T.P.

Mr. King points out in justice to the change made by Japan last April in her emigration regulations that it was only made upon proof of the bonafides of the companies and the assurance from responsible parties that laborers were needed.

"If," he says, "there was a change in the policy of Japan it was not one which could adversely affect the interests of the country, without a Canadian citizen or a Canadian corporation first placing upon it the seal of his or its approval."

The Nippon Supply Co. was incorporated in Canada with a capital of \$1,000,000. Its contract with the C.P.R. called for the supply of between 500 and 2000 Japanese laborers per annum for five years. The agreement with the Wellington Colliery Co. called for the supply of 500 miners. Evidence was put in to prove that the contract was not a promise of contract with the Nippon Company.

The report dealt exhaustively also with the immigration of Japanese from Hawaii, which appears to have been due to the cutting of wages by the Hawaiian Planters' Association, and to speculations, by individuals in Honolulu. The commissioner does not

180 BARRISTERS WILL TAKE UP SILK GOWN AND ATTACH THE TITLE.

Big List of Lawyers who Can Now Wear the Silk Gown and Attach the Title.

A list of 188 barristers has been added to those previously distinguished as "his majesty's counsel learned in the law." They will take precedence in the courts of Ontario as between themselves in accordance with the dates of their being respectively called to the bar, but next after those appointed May 27, 1902. The list includes among others: Hon. W. J. Hanna, Hon. A. J. Matheson, R. L. Borden, M.P.; E. J. Bristol, M.P.; A. Claude Macdonell, M.P.; E. A. Lancaster, M.P.; E. Guss Porter, M.P.; F. F. Pardee, M.P.; W. H. Bennett, M.P.; Peter White, M.P.; Haughton Lennox, M.P.; E. A. Pringle, M.P.; Col. H. A. Ward, M.P.; L. B. Lucas, M.L.A.; T. H. Lennox, M.L.A.; T. W. McGarry, M.L.A.; C. R. McKeown, M.L.A.; G. H. Ferguson, M.L.A.; A. A. Mahaffey, M.L.A.; ex-Mayor J. C. Judd, London; Mayor E. S. Wright, Windsor; T. W. Crothers, St. Thomas, who was chairman of the school text book commission.

Among the local notables are ex-Mayor Coatsworth, G. R. Geary, Ald. McGhie, P. H. Drayton, County Crown Attorney, George Kappele, E. W. J. Owens, T. P. Galt, J. A. Macdonald, ex-controller S. A. Jones, now of Haliburton; C. the fact that in many years back, B. Morine, Angus MacMurphy, Lally McCarthy, W. D. McPherson, R. S. Neville, E. Raney, E. B. Ryckman, J. R. L. Starr, J. Russell Snow.

The Why and Wherefor.
The appointment of King's counsel has been a question difficult to deal with and the accounts of the process in the making of this list," says the official statement.

Up to 25 years ago, barristers outside of Toronto as a rule sent their more important business to a few leaders of the bar here, and the selection of Queen's counsel, made on strictly professional grounds, was much easier than it is to-day, when the argument of important cases is not confined to a small group of professional men in Toronto. To-day the majority of the members of the bar in this province are capable of handling any case that deal with, any important litigation which may come in their way.

The situation is further complicated by the fact that in many years back, at each creation of Queen's counsel, a large number of Conservative barristers have been passed over, although well qualified. Indeed, since 1860 60 gentlemen have received silk at the hands of the Ontario Government, less than the number of Conservative barristers who were out of contract of the Japanese Government. The significance of this so far as Japanese immigration to Canada is concerned is that whatever may be the power of Japan to control immigration from her own shores, the power may end when the territorial limit is covered, says the report. The conclusion is thus submitted.

O. R. A. APPOINTMENTS.

New Secretary and Treasurer—Artillery Association Officers.
Capt. A. A. Miller, 48th Highlanders, was yesterday appointed secretary of the Ontario Rifle Association in place of Capt. Harbottle, former secretary and treasurer, the office now being vacated by the council made the appointment. Capt. S. P. Biggs of the Canadian Engineers was appointed treasurer.

Col. S. P. Biggs (48th) was appointed caretaker of the Rifle Ranges. The associations lost the sum of \$42, the amount of last year's profits, divided between the United States officials, and allowed to remain in Canada; 200 were Japanese returning to Canada, and 200 were merchants, students, etc.

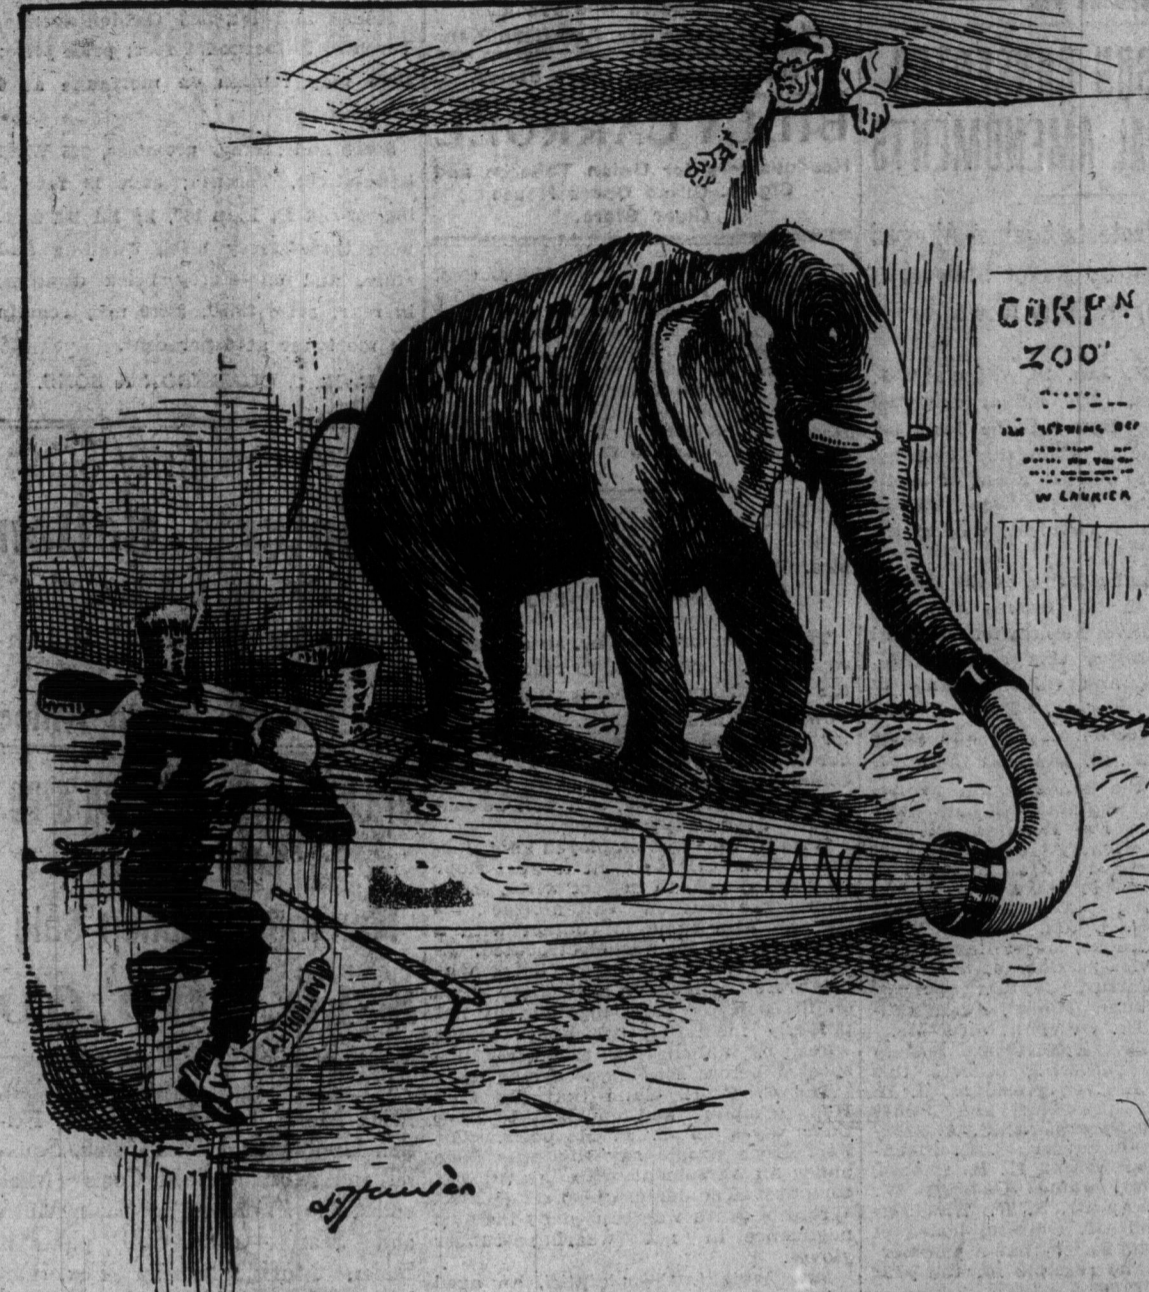

POLITICS AND BUSINESS.

Protection Menace to Good Government in Canada.
LONDON, Jan. 20.—(C.A.P. Cable).—The Tribune, editorially referring to Canada's fiscal history, says: "The main lesson of the Canadian fiscal history is the danger of the inevitable breakdown of moderate measures where protection is the starting point. There are trusts more powerful in business, or sectional business interests more powerful in politics."

The Tribune quotes a passage from a recently-published book by Edward Percit, stating that "nowhere in the Anglo-Saxon world does industry lean more on the protection than in Canada. No other has protection become a greater menace to good government, central or municipal, or a greater burden to the individual."

FIREMAN KILLED IN CAR BARN BLAZE

Roy Green Caught by Falling Wall in a Bad Fire at Hamilton—Wm. Seal was Injured.

HAMILTON, Jan. 20.—(Special).—Fireman Roy Green of the King William-street squad, was killed outright, and Fireman William Seal painfully injured this evening while fighting a fire that completely destroyed the street car barns at the corner of Herkimer and Locke-streets, causing a loss of about \$50,000.

The fire broke out at 7.30. When the firemen arrived the whole building was a mass of flames, and all they could do was to keep the fire from spreading.

Captain Robert Aitchison, with Fireman Green, William Seal and A. Simpson rushed into a shed at the north side of the building to save three cars that were standing there. While they were working at the cars, they noticed the north wall of the building beginning to fall, and all ran. Green stumbled, falling into a ditch, and was buried under the falling bricks, being killed instantly. His body was recovered with difficulty.

Fireman Seal was struck on the head by falling bricks, but escaped serious injury.

The three cars were destroyed, along with another that was in the building.

How the fire started is a mystery, but it is believed that defective wiring was the cause.

During the progress of the fire the electric wires caused a lot of trouble, several of the firemen getting severe shocks.

CARELESS WITH RUBBISH.
Coroner's Jury Censures Cleaners of Hees Building.

The jury enquiring into the death of George Fry, who died of tetanus, developed in St. Michael's Hospital, after his being hurt upon the head by a heavy ink bottle thrown from the window of the Hees building, censured those in charge of the work for removing the rubbish in "an improper manner, contrary to the regulations of the hospital."

The evidence showed that the crowd gathered on Piper-street, to the south of the building, were running in to secure trunks from the debris. They were warned to keep back, but continue to come forward, while the workers continued to throw out the rubbish.

BRYAN TO SPEAK HERE.
William Jennings Bryan, who is expected to again be the Democrat, presidential candidate in the next United States elections, will visit Toronto and Montreal within the next month. He will speak at Massé Hall.

THE PREMIER CORRECTS

The following statement was handed out from the office of the premier yesterday evening:
"The News of to-day, speaking of Mr. Whitney, uses this language: 'He adds that it would be strange if the government wished to purchase a company which has not been a financial success.'"
"With regard to the above, Mr. Whitney says: 'I deny positively having made use of this expression. Let the News quote time and place where I used any such language.'"
"I did say, however, more than once, and I now repeat, it is strange that the government should be asked to spend from ten to fifteen million dollars of the people's money in purchasing an enterprise which its chief organ suggests is not a commercial success; and I have, in common with a great many others in the community, expressed surprise that the Electrical Development Company should submit, apparently without complaint, to this crying down of its commercial standing by its organ."

"The fact that The News has succeeded in getting itself entirely out of touch with public opinion is no excuse for putting words into my mouth which I did not use."

MIDNIGHT YONGE ST. FIRE LOSS IS ABOUT \$20,000

Fire in the Slater Shoe Building—Damages Barber Shop and Dental Parlors Above the Store.

Having origin with electric wires, fire broke out in the basement of the Slater Shoe Company's building, 117 Yonge-street, at 12:07 o'clock this morning. H. E. Jones, 18 Proege-street, who was coming down the street at the time, observed a small knot of people on the opposite side of the street and then saw the smoke. He turned in an alarm from box 31, at Yonge and Adelaide-streets.

The firemen found the basement, which is occupied as a barber shop by William E. Griffiths, in flames, and five streams were turned into it from the street and from the lane in the rear.

The flames spread along the line of wires to the Slater shoe premises, on the ground floor, but there the fire damage was light. It stopped between that ceiling and the floor of the next storey, which is occupied by the Toronto Painless Dental Parlors.

The interior of the building was renovated in the late fall and the barber shop fitted up handsomely at a cost of \$1000. These fixtures will be a total loss, but are insured in the York Mutual.

C. C. Cummings, who handles the Slater shoe, places his loss at about \$17,000, being one-third of the amount of stock carried. He had \$100,000 in stock in the basement. He carries \$32,000 in insurance, placed by Cawthra & Cawthra.

Dr. Henry of the Toronto Painless Dental places the loss at \$20,000, of which \$900 is in manufactured work, which was ruined by smoke. The loss is insured.

The Cawthra estate own the building, and the loss to it is about \$1000. The Lugsdin Saddlery Company, next door, may have a loss from smoke.

Owing to the difficulty of approach, the fifteenth annual meeting of the grand chapter of the Royal Arch Masons of Canada will be held at the Temple tomorrow.

LET SENATE DIE OFF UNTIL 50 ARE ELECTED

Then Pension Others and Have Body Cease to Exist—A Liberal's Plan.

OTTAWA, Jan. 20.—(Special).—The house of commons to-day indulged in an academic discussion of the best method to be adopted to bring the other arm of governmental authority, to wit, the senate, more into touch with popular opinion. Three resolutions were before the house, one to abolish the senate, one to change the mode of appointment to limit the term and to rearrange its duties, and the third to take a plebiscite of the people of Canada on the question whether the upper chamber should be abolished or reformed.

There was unanimity of opinion on the need for a change in constitution of the senate, but only one, H. H. Miller of South Grey, went so far as to advocate abolition. Sir Wilfrid Laurier and Hon. C. E. Foster concluded the debate. Sir Wilfrid favored the suggestion that there should be a limit to the number of senators to be elected by the provinces and a limited term, and he advanced an entirely new suggestion, that the senators might be elected by the coming in groups of three. In this case Sir Wilfrid thought the opposition would be sure to elect one out of every three. Mr. Foster favored the election of senators by such large constituencies that they would represent the people's best interests.

Mr. McIntyre said he realized that he was not breaking new ground. Two years ago he moved a similar resolution and at that time had questioned authorities, some of them former Liberal statesmen, all of whom indulged in hostile criticism of the senate. To-day Mr. McIntyre asked the house to take it as a postulate that dissatisfaction with the senate had been proven, and he intended to point out the reasons for the senate's failure. He intended to exercise certain proper functions. It should revise hasty legislation and restrict the action of the commons, where there may be doubt of the popular will. In short, it should represent the sober second thought of the people. It was intended to secure in a government stability and permanence, to protect the rights of minorities to represent the people as a whole and to protect provincial rights.

Mr. McIntyre did not believe abolition was practicable. It was not the proper time to abolish the senate without considering what remedies might be applied. What would abolition mean? It would mean the senate without considering what remedies might be applied. What would abolition mean? It would mean the senate without considering what remedies might be applied. What would abolition mean? It would mean the senate without considering what remedies might be applied.

The people could not afford to leave the government entirely to one set of men. The senate was a check on hasty legislation. All arguments yet heard were against the senate as a body constituted. There was considerable work done in the senate, but this was done very quietly and without any works. It but once in a generation the senate stood as a bulwark against an ebullition of popular feeling, or if but once in a parliament the senate as a body of public expenditure, it would warrant its existence.

The Conservatives had reason to commend the senate. When the body dealt the Yukon Railway deal and the Drummond County Railway deal, the faults of the senate as perceived by Mr. McIntyre were its lethargy or inertia from old age. There was too great a feeling of permanence or conservatism in the senate as perceived by Mr. McIntyre were its lethargy or inertia from old age. There was too great a feeling of permanence or conservatism in the senate as perceived by Mr. McIntyre were its lethargy or inertia from old age.

To overcome its defects we must give the senate an increased feeling of responsibility, but we must not do anything biological and mechanical. We must limit there would not be adequate reform. Life senatorship was not in accordance with the spirit of the age.

Speaking on the second proposition, as outlined by his resolution, Mr. McIntyre suggested the election of members of the upper chamber, but this, too, had its disadvantages. There might be the objection to too many elections, but he would favor a system of election for a limited number and for a limited term.

Mr. McIntyre proposed that in order to increase its usefulness it might be given more to do. It might be appointed a standing committee to search out new lines of legislation, such as questions of public ownership, or rural, and delivery and it could send to the lower house pre-digested food for thought. He did not believe the senate should have absolute veto power, and in questions where there was antagonism provision might be made for joint sessions at which amendments might be proposed and the two bodies brought together.

Matthew and Ashley have an old but welcome stunt in "A Smash-up in Chinatown," into which, as a dope fiend and a Jew, they inject considerable humor.

Gillette's Dogs and Monkeys are a whole holiday for the children. A new setting has been provided for the act, which makes a dog village of the scene. The music is plentiful, tuneful and well-rendered, and the dancing is of the best. In the olio an odd feature which was received with great favor was Bazon's dog burlesque managerie, in which is introduced a genuine novelty in the way of racing cats.

The two burlesque offerings are breezy and mirth-provoking. They are presented under the title of "Dooley's Drug Store" and "Down on the Panama." Frank Finney leads the company, and his well-known abilities as a comedian are much in evidence. The music is plentiful, tuneful and well-rendered, and the dancing is of the best.

At the Star. This week's attraction at the Star is "The Dreamland Burlesques," produced and made famous by Miner and Marion. New songs and new music, new dances and new jokes, pretty girls with their bright new costumes all going with an swing provided an entertainment that has not been surpassed by anything on the boards of the Star this season. Besides Marion's musical snapshot in two acts on "Newport," the olio provided was better than the average. The Manhattan Bink Jones, grand boy of the boards, a jockey, and Joseph Winow, a scion of the company's aristocracy, were the singing stars.

At the Majestic. "FROM SING SING TO LIBERTY." Jack Dorris, superintendent Warren Safe and Lock Co... Mr. Cunningham Frederick Winston, vice-president Warren Safe and Lock Co... Charles Lindbergh, secretary of the company...

A novelty in melodramatic productions is "Sing Sing to Liberty," the offering at the Majestic Theatre this week. It is a play written for Cunningham, who is known theatrically as "the scientific jail breaker," as it allows him plenty of opportunity for displaying his wonderful talent in freeing himself of handcuffs and shackles.

Two large audiences witnessed the performances yesterday, and during one of the intermissions at the matinee, the public were invited to place their own handcuffs on him and he would endeavor to gain his liberty. Doubly shocked and handcuffed he stepped behind a screen and in about three minutes had freed himself. He also obtained his liberty from a difficult position, he having his handcuffed together behind his back with one arm over his shoulder.

It is Cunningham's first appearance as the hero in a melodrama and he shows considerable histrionic ability. He announced that on Friday evening he would endeavor to get out of a large packing case, which will be securely nailed and roped.

At Shea's. The bill at Shea's this week is a bright one. It opens with the whirlwind act of Emma Francis, with personified ginger added in the persons of two Arabs. "The Great" Willie Pantner follows. Money cannot buy better Coffee than Michie's finest blend Java and Mocha, 45c lb. Michie & Co., Limited

60 CARS AT JUNCTION QUALITY OF CATTLE FAIR

Prices Easy—Trade Slow—Sheep, Lambs, Calves, Steady—Hogs Lower at \$5.50.

Receipts of live stock at the Union Stock Yards were 60 carsload, composed of 1300 cattle, 120 sheep, 4 calves and over 200 hogs.

The quality of fat cattle was fair, trade slow and prices easier, excepting for a few choice picked butchers' and exporters.

Exporters.
Prices ranged at from \$4.75 to \$5.25 per cwt. for steers, and \$3.75 to \$4.25 for bulls.

Butchers.
Choice picked lots sold at \$4.75 to \$5 per cwt.; loads of good, \$4.50 to \$4.65; medium, \$4.10 to \$4.25; common, \$3.50 to \$3.80; cows, \$4.25 to \$4; canners, \$1 to \$2 per cwt.

Veal Calves.
Trade firm for veal calves, at \$4.50 to \$5.25 per cwt.

Milkers and Springers.
Only a limited number were on sale and none of extra quality. Prices ranged at from \$35 to \$52 per cwt.

Sheep and Lambs.
Receipts of sheep and lambs less than 200 sold readily at \$10.50. Exporters, \$4.25 per cwt.; lambs, \$3 to \$3.25 per cwt.; picked ewes and wethers, \$4.25 to \$5.25 per cwt.

Hogs.
Dealers quoted selected, fed and watered, \$2.25 lights and fat, \$2.25. Prices were also quoted by these same dealers at \$1.25 to drovers at country points, 1.25 to 1.50. Many of the drovers stated that they would not be able to get hogs at these prices.

Representative Sales.
W. B. and Alex. Levack bought for the Levack Dressing Company 1000 lbs. of cattle, 100 lambs and several calves at prices quoted above.

A. W. McDonald bought for Gunns, Limited, six cartloads of cattle at \$4.50 for fair quality and \$5 to \$5.50 for good quality.

Westley Dunn bought 25 lambs at \$2 per cwt., 15 sheep at \$4.25 per cwt., 7 calves at \$4.50 per cwt.

The Farmstead.

Big sheep sale of Hamner's. Now is the time to talk live stock business.

Ottawa's Live Stock Show is now in progress. Diverse young Shorthorn, besters and bulls are doing well.

Read the farm ads. and write the men for particulars. The railway commission must do something for the fruit shippers.

The United States demonstrated their unreliability as an apple market this year.

It will soon be maple sugar-making time again. Already some dealers advertise new goods. Strange, isn't it?

The 1907-8 citrus crop of Florida is unofficially estimated at 2,295,072 boxes, against 3,325,015 in the season of 1906-7.

Germany is said to produce about one-fourth of the total hony crop of Europe. Her annual production is estimated at 20,000 tons.

The cultivation of silas hemp in the Bahamas is steadily increasing. The area now under crop is officially reported as 25,000 acres. The fibre produced is said to be of good quality and strength.

In 1906 54,000 horses were slaughtered for food in Paris, furnishing about 12,000 tons of meat, says The U. S. Crop Reporter. Formerly horse meat was eaten by only the poorer classes, but now it is no longer regarded as refuse meat, and its consumption by the working classes is rapidly increasing throughout Europe.

If you think the world is dreary, start a fruit farm. This will give you a good digestion, which is what most people lack. Small inextensive farming is both profitable and pleasant.

Don't ever place a five-line advertisement in a paper once, and then claim that you have tested the medium. Remember the Indian who tested the feather bed idea by placing one feather upon a plank and lying upon it all night. He reasoned that if one feather made him so comfortable, a whole mattress full of them do?

If farmers had so much business enthusiasm about their work that they would have no time for destructive gossip about other people's affairs, the farm for more of the country life would be far more attractive to the young man. Nothing so brights country social life as this know-it-all phlegmatic table d'hôte of heavy-laden, downy, downright prodigals is often to be preferred to such "genteel" people.

There ought to be branches of the Dominion Grange established in various parts of every county. Huron County is a story of the finest place in Ontario for agriculture, and as the grange formerly had a footing in that county, it would be comparatively easy for it to recognize. Just so with Ontario County, which formerly had granges former in various parts. The early days of the vendible, the late Wm. Hall of Hall's Marsh, Ottawa, succeeded in opening and re-organizing many branches. The Farmers' Institute meetings should start this work going.

ENROLLING STALLIONS FOR 1908.
There is every reason to believe that the Horse Breeders' Enrollment Act will be rigidly enforced in Manitoba this year. Some excuse was made last season for those who neglected to enroll on the ground that some horse owners were unfamiliar with the act, but this year less leniency will be shown. The act makes it compulsory that every owner of a stallion for public service shall send the pedigree of the horse to the department of agriculture, Winnipeg, and receive from the department a certificate to the effect that the horse is purebred, cross or grade as the case may be, and if the horse is purebred and a declaration is duly made or a veterinary's certificate forwarded of the horse's freedom from unsoundness or hereditary disease the department will endorse the many branches. The fee for enrolling purebreds is two dollars, and for the renewal of their enrollment certificates 25 cents. When a transfer of ownership has been effected the renewal certificate is \$1.00—Advocate.

HORSE BREEDERS' SHOW.
The following railway rates have been granted to the Ontario Horse Breeders' exhibition in St. Lawrence Arena, Toronto, Feb. 12 to 14:
1. General public. Tickets will be sold to Toronto at lowest one-way first-class fare for the round trip on Feb. 11 and 12, 1908, from all stations in Ontario; also on Feb. 13 and 14, 1908, from points where the lowest one-way first-class fare does not exceed \$2.50. All tickets good to return until Feb. 15, 1908.
2. Judges and exhibitors. On sur-render of standard form of Judges' and exhibitors' certificate signed by the secretary, A. F. Westervelt, round trip tickets will be sold to Toronto from all stations in Canada, good going Feb. 8 to 14, 1908, inclusive. Valid for return until Feb. 18, 1908.

HAMNER SELLS SHEEP.
Our readers will note by the advertisement in this issue that Mr. J. G. Hamner of Brantford will sell on the 20th instant about 140 breeding Shropshire ewes of the highest grade, over one-half being imported shearlings safe in lamb to rams on the other side.

Sheep have been declining in numbers in Ontario of recent years and now is the time to get out and purchase a few of these choice ewes.

Mr. Hamner is a breeder who needs no introduction to the people of Ontario, or North America. His winnings have placed his judgment where the people will be proud to possess sheep of his breeding. Every accommodation will be given the visitors on that day.

WORLD'S FARM PAGES PAY
The results are bound to flow both to implement and seed men, and to farmers and all interested in agriculture by the advertisement in those pages.
Now is the time to get into the race. This is anything to sell for spring should show his wares by means of printer's ink now.
When answering an advertisement in these pages you will do us a good turn if you say you saw the ad here.

TO DIAGNOSE ANTHRAX.

Aid Given Farmers by the Dominion Department of Agriculture.

In suspected cases of anthrax (charbon) the diagnosis can be positively confirmed by microscopic examination. A few drops of blood, placed on a clean piece of notepaper, if allowed to thoroughly dry in the air before folding, will furnish sufficient material for diagnostic purposes.

In suspected cases of black-leg (charbon symptomatique), the bloody serum from an affected portion of the animal, prepared in the manner above described for a positive diagnosis.

Where it is impossible to exclude either of the diseases above mentioned and it is probable that the placing of a small amount of blood in an equal amount of pure glycerine will enable a positive laboratory diagnosis.

A draught of this blood-glycerine preparation is all that is required. Anthrax bacilli are always dying from the disease. The bacilli of the black-leg are found in small numbers only, but are sufficiently numerous to infect susceptible animals.

Glycerine prevents growth of putrefactive bacteria, but does not affect the spores of either anthrax or black-leg. Full information concerning history, clinical symptoms, etc., should be given.

All specimens should be addressed to the Biological Laboratory at Ottawa, Ont.

Rabies.
An animal suspected of being affected with rabies (hydrophobia) should, if possible, be captured alive, placed in a cage where it can do no harm and where it will appear within forty-eight hours and death will occur within a few days. No affected animals recover.

That other causes of death may be excluded, material should be forwarded to the laboratory for confirmation. Full instructions as to the necessary transmission to the laboratory does not exceed twenty-four hours.

The head may be severed from the body and forwarded by express, packed in ice. In winter, the severed head, frozen, may be sent any distance, provided instructions are given to keep frozen.

Where the distance from the laboratory exceeds the time of the continued section of the nervous system (brain or spinal cord), the medulla or base of the brain is preferred, may be placed in pure glycerine and forwarded by express. There should be an excess of glycerine over the bulk of material forwarded.

All information concerning history, clinical symptoms, etc., should be given, and specimens should be addressed as above.

Specimens exceeding five pounds in weight, after being securely packed to prevent breakage of the container, should be sent by registered mail. Canada Postal Guide, should be sent by mail. Over five pounds weight should be sent by express.

AGRICULTURAL SOCIETY MEETS.

WILL MAKE A REPORT ON SAFETY OF HALLS

Civic Fire Committee Appoint Commission to Make Places Safe.

The suggestion that certain public halls are not provided with sufficient means of exit, so that serious results might follow in the event of a panic, was made by Ald. Church at yesterday afternoon's meeting of the civic fire and light committee.

The alderman referred particularly to Brockton Hall, which is owned by the city, pointing out that a largely attended party by way of meeting had been held there, and that owing to there being only one exit and a narrow stairway, any stampede might have proved very disastrous. He proposed that a report should be had showing whether the city had the right to regulate public and private buildings, and whether the use of any defective halls could be prohibited.

In seconding Ald. Church's motion, that Chief Thompson, City Architect McCallum and City Solicitor Chisholm make a report, Ald. McMurrich remarked that the city had already done much to make its buildings safe, but that, while a large number of halls were in excellent shape, there were some that needed overhauling. There was no intention of causing any alarm. The committee unanimously agreed to the proposal.

Controller Ward complained that residential streets were not properly lighted, and moved that a report be had on a "better" system and plan, which was carried.

Chief Thompson was instructed to report on Controller Harrison's proposal that a fire hall be located near the corner of Bathurst and London-sts., to serve the northwest section.

As some doubt existed whether the city had power to permit the installation of gasoline tanks containing more than ten gallons, an application for a permit to install a large tank under the

sidewalk in front of the premises 34 West Adelaide-street, was laid over. The committee appeared to regard the project as a somewhat dangerous one.

Secretary MacGowan of the fire department presented a statement showing approximate receipts for 1907 of \$306,638, with expenditures of \$301,320, leaving a deficit of \$5,318. This was attributed to the increase in the cost of horse feed.

Of the street lighting appropriation of \$122,581.89, the expenditure was \$122,581, leaving a surplus of \$10,147.08. For insufficient street lighting the amount deducted was \$2425.27.

So successful was the city's experiment in doing its own gas lighting of the streets that, whereas the estimated cost was \$25,000, only \$19,000 was expended. Under private ownership, the cost now is \$31 per lamp, or \$31,000.

Among the matters to be dealt with by the island committee this afternoon will be Ald. J. J. Graham's proposal of the city continue its policy of urging that a street car line be run over the York-st. bridge to the ferry wharves.

W. G. MacKendrick, president of the Toronto Island Association, has written suggesting how the city might benefit from the use of the wharves.

Mayor Oliver has received a letter from Col. Eugene Fleet, deputy minister of militia, saying that under the conditions by which Garrison Commons were sold to the city, the property must be used exclusively for park or exhibition purposes, and that the Old Fort and buildings "must be retained in their original condition as nearly as circumstances will permit."

The mayor holds that there is nothing to prevent the car line, as none of the buildings will be interfered with. While in Ottawa on Thursday regarding the viaduct, he will try to see the minister of militia also re the car line.

The property commissioner reports that some of the life-saving appliances along the waterfront have been stolen. Mr. Rawlinson appeared before the committee and spoke in high terms of praise of the work of the fire department at the blaze in his storage warehouse the previous week.

Board of Trade Finances.
The report of the treasurer of the board of trade, Mr. J. W. Woods, for the year 1907, has been prepared. It shows receipts of \$19,482, of which the chief items are a balance of \$5492 from 1906, and \$13,320 in fees. There was a balance of \$5318 in the bank on Dec. 31.

JUNCTION LAUNCHES OUT ALONG CITY LINES

Council Are Unanimous in Support of Mayor's Proposal—York County News Notes.

TORONTO, Jan. 20.—That the present council is not going to delay in the matter of forwarding the best interests of the municipality, was clearly shown at its meeting to-night. A resolution, proposed by the mayor and carried unanimously, to petition the provincial legislature at its next sitting to have the town of Toronto Junction incorporated as a city, and to change the name to that of "West Toronto," was carried in proposing the name Mayor Baird said that it seemed to him that West Toronto would be the most appropriate name for the most progressive suburb of this city.

As the city of Toronto was of wide reputation, Councillor Vesco supported the mayor in preserving the name of the city in its western suburb, and the other members of council heartily agreed with the idea. "As it is at present," said the mayor, "the name Toronto Junction gives to strangers the idea of a junction crossing with half a dozen stores and an hotel, not by any means a large town of 12,000 inhabitants, as is really the case. I believe it is more desirable to attract manufacturers to locate here, which would never be the case with the old name of Toronto Junction. The Councillor sheppard moved an amendment to the mayor's motion suggesting that the new name be "York," but the amendment was defeated. Councillor Hain also objected at first to the mayor's proposed name for the city-to-be, on the ground that the names of the villages such as the names of East Toronto and North Toronto suggest. Mr. Hain, however, withdrew his objection, and supported the mayor's motion.

Additional clauses decided on for the petition to be presented to the provincial legislature are: For the town to borrow on and issue school debentures not to exceed \$25,000 to enable the public schools to carry out urgent improvements and enlargements in the different schools of the town, and that the municipal elections be held on the 1st day of January instead of Jan. 6, as heretofore. The form of these clauses resulted from the application to-night of Chairman Hackett and Trustees of the school board, who stated to the council that the board were short of funds. "At the beginning of the year," said the chairman, "we had an enrolment of 1400, and this has been already increased to 2000. We simply must have the money to carry out improvements to be brought about, and so we come to the council as early as possible so that there may be no misunderstanding."

"Keeping the school rate as it is at present we can raise \$900. If the town will lend us \$20,000 or \$25,000, we can undertake to pay it back at \$1000 a year."

Chairman Hackett stated that if the town be incorporated as a city, the limited would have to be extended, and on this account he suggested the corner of Louisa and Elizabeth-streets as an excellent site for a new school. In view of some sort of understanding which the chairman stated must necessarily result between the two schools, the school section beyond the western town limits in providing accommodation jointly for the pupils.

Mayor Baird suggested that the amount to be petitioned for be fixed at \$25,000 maximum. The finance committee had no objection to the matter, and then produced a definite communication covering the matter to the council.

Socialists Win Out.
Town Solicitor Anderson asked for a check of \$4 to the firm of Gribble and Peel, who were fined \$3 without costs by Police Magistrate Ellis for obstructing the street traffic. The decision being appealed, the firm was ordered to pay the fine to be repaid.

High School Wants Gym.
Chairman McEachern of the Collegiate Institute Board petitioned council to grant \$17,000 for additional classrooms and gymnasium for the Collegiate Institute. Mayor Baird and the council could not decide to grant the request this year.

Councillor Armstrong proposed a motion that one-third of the fines received for violations of the local option bylaw be devoted to still further preventing the violation of the bylaw. The proposition was carried.

Mrs. Phoebe Norris of 443 West Dundas-street died early this morning, in her 78th year. The funeral will take place on Thursday, arrangements for which will be completed when Mrs. Norris' son arrives home from Winnipeg to-morrow.

A sign of approaching spring is evidenced in the numerous transfers of town real estate for farm property. Already many such transfers have taken place and negotiations for others are in progress.

Exceeded Original Estimate.
Town Solicitor Anderson asked that an additional clause be added to the petition to the legislature, providing for the authorization of the town's additional expenditure of \$20,000 in connection with the Dundas-street paving. The amount asked for was \$80,000, some of which was to be devoted to improvements in the waterworks system.

The improvements in the water system had not been carried out and the paving expenses had risen to \$100,000. The town solicitor stated that some of the purchasers of debentures had objected to this on technicalities. The council granted his request, therefore, to have the matter settled.

A nettie street, hitherto centrally situated, cor. High Park and Annetta St., has been purchased by the Toronto City Trust and is to be used for a select patronage.

NORTH TORONTO.

Ratepayers' Meeting Discussed a Number of Important Matters.

NORTH TORONTO, Jan. 20.—The regular meeting of the Ratepayers' Association was held at 8 o'clock, at the location on Saturday night, at the town hall, which was well attended as its predecessors, largely owing to the fact that the meeting was not advertised. A general discussion occurred on various topics, the principal of which was the opening up of a street thru Mount Pleasant Cemetery, and seeking relief from inadequate street lighting by the council. A resolution was adopted asking the council to promote legislation as to the filling and on the railway matter a committee composed of Messrs. W. G. Ellis, H. Waddington, and H. H. Ball, was appointed to bring the question before the council on Tuesday, and to ask that body to try and secure relief by a special act modifying the Metropolitan Railway's charter. To act in conjunction with a special committee of the council re annexation to the city, the following committee was named: W. G. Ellis, H. Waddington, D. D. Field, J. Jarvis, C. J. Jury and H. H. Ball. The chairman announced that he would endeavor to get a specialist to address next Saturday night on the idea of the annexation. It is also probable that a building bylaw, imposing restrictions for certain portions of the municipality, will be taken up the same night.

The weekly entertainment of St. Clement's Literary and Musical Society will be held to-morrow (Tuesday) evening at 8 o'clock, at the residence of George Humphries of Balliol-street, a motorman on the Metropolitan Railway, in leaving for England next Wednesday, on a three months' visit.

Charles C. Davis of Merton-street has secured a patent in the valuable patent, which is said to be highly effective in the cure of tuberculosis.

Rev. W. H. Madden occupies the position of minister of the Wesleyan Methodist Church yesterday, in the absence of Rev. Mr. Wellwood, who is preaching in the north.

T. W. Powell, rector of St. Clement's Church, was in Brockville yesterday, arriving home to-night.

The town council will meet to-morrow night at 8 o'clock at the home of Mrs. Baird of Scarborough, 1904 Johnson-st., in connection with the meeting to be preceded by a session of the finance committee.

YORK TOWNSHIP COUNCIL.
Members Meet, But There Was Little Doing.

COUNCIL CHAMBER, Jan. 20.—At this afternoon's council meeting a certified copy of order of the board of railway commissioners of Canada, Jan. 19, was received. This map shows the proposed highway crossing between lots 20 and 21, concession five, York Township, on the line of the Toronto, Grey and Bruce Railway.

Rev. T. Beverley Smith of Toronto Junction asked assistance for a resident in the township near Toronto.

R. C. Young and F. C. Young, chartered accountants, were appointed auditors to audit the books for 1907, at a salary of \$200 each.

Robert Hazelton of Tomdorman protested against the closing up of the New York-street. No action was taken in the matter.

The officers of the local board of health received a bonus each for their work done during the year 1907, as follows: Dr. Warren, M. H. O., \$25; W. A. Carter, \$30; and C. V. Michell, \$20.

The inaugural meeting of the local board of health was also held this afternoon and John Watson, first deputy reeve, re-elected chairman.

Dr. Warren, M. H. O., reported 15 cases of scarlet fever, five of diphtheria and three of typhoid fever.

The King's secretary's report, in a letter, protested against the proposed opening of Mr. Young's rendering factory at Doncaster. Referred to the inspector for East Toronto.

A complaint about the emptying of a cesspool into a pond at Berkeley-avenue, polluting its water, was aired at the meeting.

Mr. Miller promised to make a change for the better as soon as the weather will permit.

BRACONDALE.
Concert for Most Worthy Cause—Library Board Elect Officers.

BRACONDALE, Jan. 20.—The monster concert to be held in the new assembly hall of the Hillcrest School, on Thursday next, promises to be a great success. Already a large number of tickets have been sold, a good program has been arranged by the committee, and it is expected that a substantial sum will be realized for the relief of the poor.

At a meeting of the Bracendale Library Board this evening, the following were elected officers for the year: President, E. Boggie; secretary-treasurer, H. Holmes; official librarian, E. Grummitt; librarian, E. Simons. The secretary's report showed a balance on hand, after all accounts have been paid, of about \$100. Nearly 4000 books were issued last year.

RICHMOND HILL.
Newly Items From Village and Nearby District.

RICHMOND HILL, Jan. 20.—A hockey match on Thursday evening between the team of this village and Thornhill in the new rink of the latter resulted in a win for the home team 4-3.

The revival services being held at Maple with Evangelist W. A. Rodwell leading are stirring up a great deal of interest.

Dr. J. I. Cassidy was appointed by the council as medical health officer. The regular W.C.T.U. meeting will meet today at the home of Mrs. J. H. Sanderson.

The division court for this district will sit in Lorne Hall on Saturday at 10 a.m.

A number of our young people purpose enjoying the carnival to be held on Wednesday evening at Thornhill on Wednesday evening.

A sale of the implements and stock of Mr. E. A. Stone of Headford will take place on Thursday.

Revs. Mr. McRoberts and E. H. Toye occupied the pulpit of the Methodist Church yesterday. Rev. A. P.

Brace was at Caledon East preaching at a missionary anniversary. M. Patton, our local cattle dealer, lost a valuable horse as a result of a runaway.

WHO WILL BE WARDEN?
Contest This Year Promises to Be a Triangular One.

One of the most momentous questions agitating at present the minds of the municipal fathers of York County is with respect to the wardenship.

Who will be warden for 1908? By tacit agreement in the past history of the county, more especially within the last 30 years, the honor has devolved over the great metropolitan county. Prior to that time the honor was less coveted, or the candidates qualified were less in number, for the position was in some cases retained for a number of years.

A brief review of the county dating back to its formation along kindred lines, is not without great interest.

The first warden of York County in 1850 was Francis Jackson, who occupied the position for two years.

In 1864 William Tyrrell, representing York Township, was elected warden and in 1865 was re-elected. He was in York County is that up to the present time, the honor has not again been conferred on a representative of that wealthy and populous municipality. For five years in succession

In the present contest three candidates are definitely in the field. They are George S. Henry, Reeve of York Township; Wm. Keith, reeve of Newmarket; and Wm. A. Rodwell, reeve of East Toronto. Mr. Henry has shown marked ability, and his election this year by acclamation is well-deserved tribute to an efficient representative and his colleagues.

Reeve Keith of Newmarket has been in municipal life one year, and is generally very popular.

The political complexion of the incoming county council is said to be Conservative by a small majority, but party lines have not hitherto, nor are likely to play a prominent part in the selection of wardens.

The county council will meet on Tuesday, Jan. 23.

DOVERCOURT.
Davenport Church is Carrying on Great Dual Work.

DOVERCOURT, Jan. 20.—Practical Christianity is much in evidence at Davenport-road Presbyterian Church. All this week, and longer if necessary, earnest evangelistic services will be held every night (Saturday excepted), to bring men, women and children into personal contact with Jesus Christ, and at the same time to relieve, if possible, genuine cases of need and destitution. The clergyman of Dovercourt Parish, Dr. Abraham and the deaconess, Miss MacFarlane, and other workers, will be present to deal with those who apply for help, of whatever class, creed or nationality.
