

Two Million Drop on
Toronto-St. Catharines Line.

Reductions have been made in the Hydro radial estimates, to Thomas V. Parille, chief of the Hydro Electric Power Co., who, in giving evidence at a Sutherland commission at Hamilton yesterday, showed a saving of \$1,200,000 in the costs of the whole Toronto-St. Catharines line from \$17,294,000 to \$16,094,000.

Costs of the Toronto western line were reduced from \$5,825,000 to \$4,625,000 as the result of changes in the design of the viaduct from Bay Street to the eastern end. The Sunnyside bridge also reduced the cost by \$1,000,000 as the present bridge will be replaced by a steel one.

Toronto-Bowmanville line will be no grade crossings in the right-of-way would be made ground along the bay there would be forty grade crossings in the country, but these would be eliminated by 1925. Parille said he was working on a plan which would be ready shortly, and which would reduce the cost of Hydro radial lines, including options.

CARRYING OUT MERGER PLANS

Meetings of Different Holders Likely to be Called.

Proceedings for the completion of the merger of the various power companies in Canada have been delayed in the present, pending the receipt of certificates from the Ontario government showing exactly the existing liabilities of the various companies. Additional steps are taken at the meetings, it is likely that the different companies will be called.

ARMED MEN CHOSEN

Following appointments were made yesterday: Captain Charles Mason, Oshawa, license in Ontario county, and Don Douglas of Blenheim, local supreme court of Ontario, clerk and surrogate register of the County of Kent. Both are men.

THROW LIGHT ON SECRET NEGOTIATIONS FOR TIMBER AREAS

Germany Will Not Accept Reparation Terms Presented by Allies

TARIFF BILL MEANS AN ADDED BURDEN TO THE CONSUMER

Democrats in U. S. Senate Administer Some Hard Knocks to Measure.

SIDE-TRACK PROBABLE

Washington, Feb. 1.—With Senator McCumber, North Dakota, as its only consistent defender in the debate, the Fordney emergency tariff bill went thru a series of hard knocks in the senate today, opponents of the measure accepting every opportunity to attack it.

Whether the bill is to be sidetracked or its consideration continued under either of debate will be decided when the Penrose resolution comes to a vote. The supporters of closure and its opponents admitted tonight that they were in a deadlock.

The vote on closure is set for 1 o'clock tomorrow, and as all amendments must be submitted before that time, there was a deluge of proposed amendments today. Opponents of the measure today stressed the argument that its passage would increase the cost of living in the United States.

Senator Walsh, Democrat, Massachusetts, declared that the bill, if passed, would mean an additional tax of fifty dollars per family, or about thirty-five million dollars, on the people of Massachusetts. The items he mentioned included wheat, beans, sugar, meat, butter, milk, cheese, rice, potatoes and onions.

Senator Harrison, Democrat, Mississippi, said that under the bill the United States would be taxed something like \$300,000,000 by the rate of 40 cents a bushel on wheat. On all the items covered by the measure, the added tax on the people would be higher than \$1,000,000,000.

Senator McCumber, defending the measure, argued that farmers receiving fifty cents a day for their labor should be entitled to relief even at the expense of workingmen receiving 18 a day.

CRERAR DISCUSSES FEDERAL PROBLEMS

Wants Immigrants Settled Along Government's Railway Lines.

Moose Jaw, Sask., Feb. 1.—An ovation was accorded Hon. T. A. Crerar when he addressed the 3,000 delegates and visitors attending the night session of the Saskatchewan Grain Growers' convention.

He began by referring to the development of the Farmers' Association in the movement, and paid tribute to pioneers in the movement. The provincial political organization had caused Dominion-wide comment, he said, and in the broader field of federal politics, the association is faced with many new problems. He referred first to the railway problem, which he said was one of the most important demanding consideration. This problem must be faced courageously, and hundreds of miles of track which were not paying the capital outlay must be operated at a loss.

Immigrants should be settled along the government lines to build up business. Government activities in regard to immigration amounts to very little, he declared. A different policy must be followed and immigrants who can go on the land should be encouraged. Immigrants, he continued, must be taught the principles of good citizenship and past practices must be stopped. Standards, he said, must be raised, and added: "We don't want any more war-time elections and." Discussing the tariff, he referred to the fallacy of the present government policy which, while it tends to a self-governing country, is advocated by a government which is sending its trade commissioners soliciting trade to all parts of the world. The population of Canada, he said, cannot, and should not, be dependent on the production of Canadian farms and the establishment of a home market by protection is no benefit to the basic industry. The government, he said, has spent \$70,000,000 on shipbuilding, and yet puts a barrier on their usefulness by the customs tariff.

CARL HELE, EX-SECRETARY OF HON. G. H. FERGUSON

Mr. Hele has been much in the limelight at the timber limit inquiry since it became known that he had removed a number of papers, the return of which is ordered by the investigators. Mr. Hele, the born at Bellefleur, Ohio, about 33 years ago, is a Canadian by birth and came to Canada when but four years old. He went to the city hall 18 years ago as private secretary to Capt. Joseph E. Thompson, then commissioner of industries and publicity. From 1911 to 1919 he was private secretary to the Ontario minister of crown lands. He is now acting as Canadian industrial trustee for several U. S. interests.

AGITATION IN ONTARIO AGAINST MONOPOLY IN DRUGS GAINS HEADWAY

Doctors All Over Ontario Are Taking Up Fight for Freedom in Obtaining the Drugs Needed — Montreal Physicians Meet Today.

Officers of the Canadian Medical Association are considering at Montreal today steps to be taken to do away with the monopoly in Canada of drugs dealing with arsenical preparations for the treatment of blood diseases.

Today the Ontario Medical Association, which has already, with the support of the provincial board of health, memorialized the Ontario minister of health in a series of strong resolutions protesting against the commercial monopoly of the Canadian market, will consider ways and means of launching a publicity campaign to have these restrictions removed and to allow the medical profession of the country free access to whatever remedy they may consider the most effective.

Protest Province-Wide. Meanwhile, throughout the province the feeling of resentment is spreading at least in the ranks of the medical profession, where the seriousness of the wrong is most clearly understood, and action is shaping to meet the situation in combating this menacing disease.

Dr. T. C. Routley, secretary of the Ontario Medical Association, has spoken in the matter before the medical associations of a number of cities and towns in the province, notably Niagara Falls and St. Catharines, and is in still others. Today he is in Montreal in conference with officers of the Canadian Medical Association in connection with this matter.

Hamilton Agrees. Hamilton, Feb. 1.—Regarding the proposal that arsenical products for the treatment of syphilis should be allowed to be imported with no restrictions, except as to purity and effectiveness, Dr. J. E. Davey, one of Hamilton's most prominent medical men, made the following statement to The World: "I agree completely with the idea, but there should be restrictions. The drug should be administered only by specially qualified practitioners in hospitals, if possible. Where hospitals are not available the administration should be guarded by adequate restrictions. The drug should be supplied at cost to all who administer it, and the public should be aware of the fact."

Kingston Unanimous. Kingston, Ont., Feb. 1.—Kingston doctors are unanimous in their support of the resolutions recently passed by the Ontario Medical Association, in urging upon the Ontario minister of health the removal of any restrictions (Continued on Page 3, Column 3.)

ALL GOES WELL WITH AFFAIRS OF ONTARIO, SAYS PREMIER DRURY

Thanks Opposition for Support They Have Given Government.

STRONG FOR HYDRO

Premier Drury had a flattering reception in the legislature yesterday when he spoke on the address in reply to the speech from the throne. The floor of the house and galleries were jammed. The prime minister spoke well, but if the crowd expected fireworks, it was very much disappointed. His speech was in general a sort of official announcement that "All's Well," and that the affairs of the province are getting along very well, thank you. W. A. Crockett, the labor member for South Westworth, and Sam Clark, the Liberal from Northumberland, also spoke, and M. M. MacBride, the legislative free lance, moved the adjournment of the debate. He will speak when the house resumes today.

Hon. W. R. Rollo told M. M. MacBride, (South Brant), he personally had no intention of bringing down any legislation this session regarding the establishment of a public utility of an eight-hour day.

The premier told Mr. Dewar that the government knew nothing whatever about the propaganda matter being sent out by the legislative commission.

Hon. Col. Carmichael, government representative on the Hydro Commission, said there was a publicity bureau in connection with the Hydro. Spracklin Squad Again. Dr. Fergusson today called the attorney-general's attention to the newspaper report that one of the Hatlam brothers had secured his revolver from the attorney-general's supply, and his officers with revolvers? he asked. "I have not supplied any of the officers of my department with revolvers," he replied. "Does your department supply them?" "If the hon. member puts his question," he replied.

WILL REDUCE WAGES OF STREET CAR MEN

Cleveland Co. Announces a Twenty Per Cent. Cut on Pay First.

Cleveland, Ohio, Feb. 1.—Motormen and conductors of the Cleveland Railway Company will receive wage reductions of 20 per cent. when the present wage agreement expires May 1, 1921.

Special compensation agreements, including time and one-half for overtime, ten hours pay for eight hours work on night cars and a straight eight-hour day on Sunday also will be discontinued.

Union officials tonight refused to comment on the announcement. Thirteen hundred other employees of the company, including President John J. Stanley, received wage reductions of 10 per cent. today.

MORE RIOTING IN INDIA

Alahabad, India, Feb. 1.—Further reinforcements have been sent to the Rai Bareilly district, where there is a recurrence of last week's rioting. Several persons have been wounded by police fire at Fyzabad.

C.N.R. LIKELY TO IGNORE CONCILIATORS' REPORT

Ottawa Feeling Is That President Hanna and the Canadian National Directorate Will Retire Before They Will Recede From Position When "No Politics" Order Was Promulgated.

Ottawa, Feb. 1.—(Special).—The report of the conciliation board on the famous "no politics" of D. B. Hanna, president of the Canadian National Railway, is expected to be ignored by the railway directorate. The Canadian National president and directorate refused to acknowledge the jurisdiction of the labor department in this issue, and their representative on the conciliation board was not named by them. It was reported here that some days ago the president and directorate had decided that in the event of a hostile verdict they would refuse to accept it, and in the event of the government insisting, would forward their resignations. The government has always taken

MEN MUST DISPLAY READINESS FOR WORK WHEN ASKING RELIEF

Number Who Went to Niagara Missed Bright Lights of Toronto.

INDUSTRIES OPEN UP

Those seeking city relief must prove their willingness to work. Thirteen men, who had previously been obtaining relief found this out to their sorrow yesterday, when, after being found jobs, they rejected them as being too strenuous for their liking.

In speaking upon this phase of the unemployment problem The World yesterday, Brig.-Gen. Fraser said that cases of men being refused relief after turning up their nose at work offered were becoming a daily occurrence. It had the good feature, however, of bringing to light those who were merely in the loafing class and who were trying to impose on the good nature of the relief officials at the expense of the city.

Were Out Welcomes. A number of men who had been sent to Niagara Falls to work on a construction job for the Hydro-Electric Commission, did not like the combination of hard work coupled with an absence from the bright lights during their leisure hours. When they were reported to the Krausmann Hotel they found they had won out the welcome sign.

The general situation showed very little improvement over the previous day, 2,150 men being handled, compared with 2,200 on Monday. Families receiving relief in the way of food, fuel, rent, etc., now number (Continued on Page 2, Column 5.)

OFFICIAL AND WIFE VICTIMS OF ATTACK BY SHUN FEIN GANG

Woman Dead, Inspector Seriously Wounded and Railwaymen Shot.

Belfast, Feb. 1.—Captain King, district inspector, was seriously wounded and his wife was shot dead last night near the Malloy railroad station in County Cork.

The curfew goes into operation at nine o'clock in the evening in Malloy. The attack occurred at 10:20 p.m. The police, hearing shots, rushed to the railway station, where it is alleged that they were fired upon from a bus of them was slightly wounded. Several railway men ran up the tracks and a fusillade rang out behind them. One of these men fell dead and several were wounded, one of them succumbing to his injuries later.

Captain King was on the staff of Commissioner Smith, divisional commander of the Royal Irish Constabulary for Munster, when Smith was murdered in the Cork Country Club last July.

A railwayman said repeated volleys were fired at the station. Twenty railwaymen were lined up on the platform for a long time, during which they were compelled to keep their hands raised. Then they were marched off, being told that they must go to the barracks.

"We had not gone far," the man added, "before a volley was fired. Many were wounded. We all ran to a turn in the road and then scattered to seek shelter. The firing continued all the time, but there was no pursuit." (Continued on Page 4, Column 2.)

ALLEGED SECRECY IN NEGOTIATIONS FOR MORE TIMBER LIMITS

Shot for Possessing A Loaded Revolver

Cork, Feb. 1.—Cornelius Murphy, of Rathmore, County Kerry, was shot today after being found guilty by a court martial of having in his possession a loaded revolver. This is said to be the first execution to be carried out on such a charge since the declaration of martial law in Cork.

GERMANY WILL NOT DEAL ON THE BASIS OF ENTENTE TERMS

Foreign Minister in Reichstag Says She Will Formulate Counter-Proposals.

NOT ASKED TO LONDON

Berlin, Feb. 1.—Since the national assembly met at Weimar to vote on the Versailles peace treaty there had been no such intensity of interest in governmental affairs as was displayed this afternoon when Dr. Walter Simons, the foreign minister, divulged the German government's attitude toward the decision of the recent supreme council held in Paris concerning reparations.

The reichstag building was crowded all day with excited members and leading politicians of all the parties, who were standing about in groups, eagerly discussing the terms of the entente and generally denouncing them as impossible of execution.

When the reichstag was called to order at 4:30 this afternoon all the galleries were filled by impatient auditors, but most of them were unable to hear the declaration which Dr. Simons read in a low tone of voice. Women were nearly as numerous as men in the galleries. Many of them carried hand baggage. Apparently they had rushed into Berlin and gone direct to the reichstag to hear the government's decision.

The early part of Dr. Simons' declaration was chiefly a criticism of the entente proposition. This probably was heard by the members sitting on the level which carried hand baggage. Apparently they had rushed into Berlin and gone direct to the reichstag to hear the government's decision.

BRISK CAMPAIGN ON IN PETERBORO

There Are Many Meetings and Speakers Thruout Constituency.

Peterboro, Ont., Feb. 1.—(Canadian Press).—Another day passed in the West Peterboro by-election campaign without anything of an eventful nature happening. The candidates are working overtime in an effort to cover the riding between now and Saturday night. Speakers from Montreal to Vancouver are in the city and meetings are being held each afternoon and evening in all parts of the constituency.

GIRL AND ESCORT PERISH IN RIVER

Helen O'Neil and Norman Rinker of Welland Skate Thru Hole in Ice.

Welland, Ont., Feb. 1.—(Special).—Helen O'Neil, daughter of J. S. O'Neil, grocer, of this city, and Norman Rinker, a youth who lived with his parents in Welland, were drowned last night while skating on the Welland River. No one saw them break thru the ice, but anxiety was aroused when they failed to return to their homes, and searchers found a hole in the ice about half a mile from Welland, between the city and Port Robinson. Both bodies were recovered.

Miss O'Neil was about 17 years of age and Rinker about the same age. No inquest will be held.

Spanish River Company Said to Have Issued Statement of Perpetual Pulp Resources

When Limit Had Been Practically Reached—Trips to Toronto Rather Than Put Anything in Writing.

Another sensation was sprung at the Riddell-Latchford timber probe at Osceola Hall yesterday afternoon, when evidence was given tending to show that at the very time the Spanish River Pulp and Paper Company were asking the minister of lands and forests for an additional timber grant of some thousands of square miles on the ground of having practically reached the limit of their available pulp resources, they had apparently issued a statement appearing in a leading Canadian financial review in which prospective investors were told that the S. R. P. & P. Co. then possessed an unlimited and perpetual reserve of pulpwood.

This claim of perpetual pulp resources said to be possessed by the timber corporation appeared, it was stated, in Houston's Financial Review, published in June, 1920, at which time an additional 4,000 square miles were being secretly negotiated for because of alleged exhaustion of present supplies.

Ferry Wilson, of Sault Ste. Marie, vice-president and controller of the S. R. P. & P. Co., questioned regarding the claim made in the financial review, declared the company would assume responsibility for it.

Mr. Justice Riddell then stated that if the statement emanated directly or indirectly from the company it was of the utmost importance, but if it was just a broker's guess, it was not. He suggested that Stanley Denison, K.C., get in touch with the publishers and have the source of the information officially investigated.

Conducted by Interview. Questioned regarding the negotiations for the additional timber grant Mr. Wilson stated they had begun in 1917 and were conducted verbally in interviews between Hon. G. H. Ferguson and George B. Gray, supervisor of the company's operations on the timber limits, and between the minister of lands and forests.

He admitted that these negotiations had been carried on secretly, and under questioning of Mr. Justice Latchford admitted that rather than have anything appear in writing, Gray or himself, as occasion warranted, made the journey all the way from the Soo to Toronto to have personal interviews with Mr. Ferguson.

He said that the custom when anything was wanted from the department was to complete all negotiations verbally before anything was put in writing. Dealing with the need of the new timber limit, Mr. Gray gave the new yield from the Soo, Sturgeon Falls and Espanola mills as 375,000 cords, and stated that owing to improved machinery, the output of the Espanola mills had increased over the previous year from 60,000 to 100,000. (Continued on Page 2, Column 2.)

VICTIM OF SHOOTING, MRS. R. CROSS, DIES

Stanley Hallam, Who Fired Shot, May Face Murder Charge.

Mrs. Ruby Cross, aged 21, who was shot by a revolver in the hands of Stanley Hallam, at 12 Wood street, a week ago Sunday, died in St. Michael's Hospital late yesterday afternoon. The bullet, which lodged in her abdomen, was never removed, an operation being considered too dangerous.

Stanley Hallam, who, following the shooting, admitted full responsibility and was arrested on a charge of criminal negligence, is still in custody. It was stated that detective headquarters last night that the charge against him would be enlarged to that of murder.

NEW WAY OF NAMING CENSUS ENUMERATORS

Ottawa, Feb. 1.—(Special).—Enumerators for the decennial census in June will be named by the government and not by the civil service commission. In all about 15,000 enumerators will be required, and these will be selected for the government by the census commissioners.

CALDER RETURNS. Ottawa, Feb. 1.—Hon. J. A. Calder, president of the privy council, arrived back in Ottawa today from Escondido, Calif. Calder has just recovered from his recent attack of grippe.

BRITISH PICTURES OF PRINCE'S TOUR

Interesting Scenes of Royal Visit in Various Parts of the Empire.

TRICKS OF NEPTUNE

Fifty Thousand Miles Around the World Shown on Screen in Toronto.

"Fifty thousand miles around the world with the Prince of Wales" was the remarkable journey enjoyed by the representative audience at the Allen Theatre yesterday morning.

The interesting occasion being the private screening of a British production by the Canadian Universal Film Company, of which Clair Hague is the general manager.

The pictures are a general record of the Prince's tour, which included many notable scenes, which occurred in his remarkable journey.

Among the things in which the council was active during the past twelve months were the operations of the municipal voters' league bureau...

Mr. Campbell MacIver, convenor of the committee on household economics, made an earnest plea for women...

At Honolulu, Hawaii, once the old Sandwich Islands, the Prince of Wales had another, altho the British residents and veterans of the city were by no means outshone.

It was on the way from Honolulu to New Zealand that the Renown picked up the first of her world-wide all the time-honored pranks so dear to the sea dog were indulged in.

The pictures showed King Neptune coming aboard with his entourage, and the handsome scenes which followed were as much enjoyed by the audience as they would be by those who actually participated in them.

The prince had a paint brush, shaved with a wooden razor and the royal party had a large motor launch, which was used for the purpose of the trip.

Then there was the big reception in the streets, the welcome by thousands of school children and other people, and the visit to the geyser, mud and sulphur baths, and here some striking situations were shown.

On Tuesday, February 1st, at 2.30 p.m., from the residence, 230 St. John's street, Toronto, Ontario, Monday morning, Jan. 31st, at the residence of her sister, Mrs. Elizabeth A. Brown, 42 Power street, Sarah Wilkinson, widow of the late Wallace Walton, in her 82nd year.

On Tuesday, February 1st, at 2.30 p.m., from the residence, 230 St. John's street, Toronto, Ontario, Monday morning, Jan. 31st, at the residence of her sister, Mrs. Elizabeth A. Brown, 42 Power street, Sarah Wilkinson, widow of the late Wallace Walton, in her 82nd year.

CUTICUR HEALS ITCHING

Burning On Hands, Could Not Put Them In Water, Lost Sleep.

"My hands were very sore and I could not put them in water to wash them. There was some itching on my hands, and the itching and burning were so intense that I could not sleep at night."

The trouble lasted two weeks before I tried Cuticura. When I had used two cakes of Cuticura Soap and one box of Cuticura Ointment for about two weeks I was healed. (Signed) Reginald Deagle, R. F. D., Maine.

Use Cuticura for every-day toilet purposes. Baths with Soap, soothe with Ointment, dust with Talcum.

See Mr. Deagle at the Toronto Dispensary, 545 St. Paul St., W. Montreal. (Cuticura Soap and Ointment sold everywhere.)

ERNEST SEITZ PLEASAS MASSEY HALL AUDIENCE

Ernest Seitz at Massey Hall last night made good the claim that has been made for him on former occasions of being one of the greatest of Canadian pianists.

In appreciation of the fact a large audience was present to testify to the place the young Toronto musician has in the estimation of his fellow-citizens.

In the opening group, containing compositions from Schubert, Brahms and others, and ending with the "Moto Perpetuo" by Weber, the versatility of Mr. Seitz was given full opportunity.

The "Andante in the Olden Style" being an exemplification of exquisite interpretation of the Weber number an example of flexible fingering and perfect rhythm that was astounding in its musicianship.

At the close of the first group Mr. Seitz was recalled three times before he responded by an "extra." Other numbers were the "Sonata B Flat Major" by Schybe, played by request, and a Chopin group, beginning with the "Nocturne in Minor" and concluding with the "Ballade A Flat Major." Mr. Seitz will be heard soon again with the Orpheus Society of Toronto.

NEW MERCHANTS' BANK FOR EARLY OCCUPATION

The Merchants' Bank will be in their new building on the north side of King street, near Yonge street, before April 1, according to present plans.

The new building is a fine example of modern architecture and will be a credit to the city.

The bank is being built on a site which was formerly occupied by the old Merchants' Bank building.

The new building is a fine example of modern architecture and will be a credit to the city.

GIVES ADVICE ON CARE OF CHILDREN

Dr. Hastings Speaks of Ignorance of First Domestic Science Principles.

That the problem of malnutrition was one of under development rather than under feeding, and was induced more often than not by a lamentable lack of intelligent application of the most elementary principles of domestic science in the home, was the gist of an address delivered last night by Dr. C. H. Hastings, M.O.M., Toronto, before a large gathering of mothers at the board of education administration building on College street.

Too many people, said Dr. Hastings, stressed the need of calories in feeding, not realizing that calories induced warmth rather than nutrition, and that the essential need of the system was vitamins in sufficient quantity. Another regrettable fact was a lack of appreciation among some estimable people of the great value of pasteurized milk and orange juice.

While it was true that the pasteurization of milk by heating it to a temperature of 145 degrees Fahr. decreased the vitamins by 50 per cent, it was equally true that a teaspoonful of orange juice every day supplied all the necessary vitamins for an infant from six to twelve months.

Touting upon the factor of tuberculosis, the doctor stated that non-pasteurization of milk was responsible for 28 per cent of all the cases of tuberculosis noted in the statistics of the day.

The essential needs in the upbringing of the child was, said Dr. Hastings, proper nutrition of the child, and the proper application of the principles of domestic science in the rearing of the child.

Milk, orange juice, bread and butter, regularity of meals, hours of sleep, and lots of fresh air and sunlight formed the basis of proper development.

Dr. Hastings strongly criticized the tendency on the part of many mothers to feed their children with cakes, candies and meats. He quoted the words of a young child, "I don't like to eat anything but my mother's milk."

Dr. Hastings stated that the nation would have been enabled to supply another million men for field service against Von Hindenburg in 1918.

In conclusion the speaker expressed his appreciation of the co-operation shown by the board of education with his own body, the board of health.

Various shorter addresses followed, notably those by Dr. Caroline Brown and Mr. McCready of the Red Cross Association.

A campaign is to be instituted shortly to show the need of a better appreciation of the value of domestic science.

Mrs. Byers, president of the Home and School Circle, was in the chair.

NEW GOLD TREATMENT

Druggists Instructed to Refund Money in Every Instance Where Satisfactory Results Are Not Obtained After First Few Doses.

RESULTS FROM USE ALMOST IMMEDIATE

Thousands Using It With Gratifying Results—Great Superiority Over Ordinary Remedies is Clearly Demonstrated.

Apixolax, the new scientific cold remedy which has been accomplishing such remarkable results, and which provides the safest, surest and quickest, as well as the most practical treatment for colds and influenza.

A dose taken every two hours until three doses are taken usually breaks up the severest cold and ends all Grippe misery. The very first dose unstops the head, relieves difficult breathing and penetrates deep down into the air passages.

It also checks running of the nose, relieves those dull headaches, sneezing and the feverishness which so often accompanies a cold. Don't stay stuffed up. Clear your congested head. No other remedy brings such prompt relief.

Apixolax contains no quinine or nauseating, harmful drugs. It has a soothing effect on inflamed mucous membranes of the nose, throat and bronchial tubes, and a gratifying feeling of relief takes the place of distress and discomfort. Apixolax relieves a cold by removing the cause. It is a combination treatment and acts as an antipyretic, expectorant, laxative and antiseptic.

The next time you have a cold go to your nearest drug store and ask for a bottle of Apixolax. Have the clerk open it for you, take a teaspoonful, repeat the dose in an hour and again in two hours. If you are surprised and delighted with the result, go back to your druggist and he will refund your money without question.

All Drug Stores are now supplied with this wonderful new prescription.

Y VARSITY 7 ARGONAUTS 4

LUCKLESS SCULLERS AGAIN ARE BEATEN

Had Just as Much of the Play as the Varsity Team.

The Argonaut seniors take their beating regular, but anybody who says they are easy picking have another thing to think of...

It was a right smart hockey game. The millage was of the fastest for the whole murrey, and if Argos ever shake the hoodoo they will run up a string of victories...

THREE GOALS EACH IN GROUP PLAY-OFF

De La Salle and Varsity Stage Sturdy Battle in Junior Fixture.

Varsity and De La Salle go into the second game for the championship of section B of the prep. college group...

The second was a rousing period. Lantry drew a penalty and while he was resting Argos hit in two goals...

The unlikelihood of any immediate prospect which mattered to me had more ambitious calibre.

Varsity Goal - Argonauts - Crook Ramsay - Defence - Cain

1. Varsity - Carson 5.00

2. Varsity - Ramsay 8.00

3. Varsity - Brown 3.00

4. Varsity - Olson 7.00

5. Varsity - Carson 10.00

6. Varsity - Carson 10.00

7. Varsity - Carson 10.00

8. Varsity - Carson 10.00

9. Varsity - Carson 10.00

10. Varsity - Carson 10.00

11. Varsity - Carson 10.00

12. Varsity - Carson 10.00

13. Varsity - Carson 10.00

14. Varsity - Carson 10.00

15. Varsity - Carson 10.00

13 SINGLE RINKS LEFT

KITCHENER STILL HOPEFUL OF FLAG

Parke Not Badly Injured, and Team Is Ready for Final Dash.

Kitchener, Feb. 1.—Despite the fact that Kitchener went to the ice at the Toronto Arena on Saturday night...

It was an awful gloom-bomb that showed the phone-hungry fans on Saturday night when reports of the game broke...

This was the first time that the fans had seen the arena since the game...

The one sore spot was that the fans had not been informed of the condition of the rink before the green shirts went on to the ice...

It is not the loss of a few shillies that over the loss of the game, but the thought, in justice to themselves, that they should have been better informed...

Parke had the injury X-rayed here on Sunday, and the result was a covering of the torn ligaments...

Local fans have evidently got their second wind and are now discounting the loss of Friday's game...

The condition of Bill Lee for Parke and Hiller in the Blue fixture, the condition of Bill Lee...

The standing of the Toronto Garrison Ontario Indoor Baseball League is as follows:
