ROYAL TEMPLARS OF TEMPERANCE Object to the Increase of 15 per Cent in Insurance Rates. HAMILTON, April 1.—About 100 members of the Royal Templars of Temperance attended a gathering last night that was something in the nature of an indignation meeting over the recent action of the Dominion Council in increasing the insurance rates 15 per cent, and bringing the order members to their attained ages in the year 1906. George H. Lees, director of the Dominion Council, objected that the meeting was not legal, called, as all the select members in this district had not been notified. This objection did not count, as it was not a district council meeting. The majority present strongly protested against the changes which would double or triple the insurance rates of order members. Being acted against by the Dominion Council, Mr. Lees defended the Dominion Council's course. After protracted discussion, Frederick W. Watkins and T. Mitchell were appointed a deputation to Toronto tomorrow to present the case of the board of directors of the Royal Templars not to go ahead on the basis of the new rates till the various exceptions in Canada could be heard from on the matter.

STRONG PLEA FOR THE BLIND PRINCIPAL SHAREHOLDERS OF SUN AND CANADA LIFE CO.'S

Touching Letter from Helen Keller Read at a Meeting of New York State Association for Promoting the Interests of the Blind.

A new poem by Richard Watson Gilder, a striking letter from Helen Keller, an appeal for funds by Joseph H. Choate, and a letter from Mark Twain, who provided, for the programme of the meeting held in the ballroom of the Waldorf-Astoria, New York, Friday night by the New York State Association for Promoting the Interests of the Blind, about 1,500 persons were present, including many blind.

The feet which once bore him to his task with firm and confident stride, stumbled and fell, and the forward step, like a creaker, creaked, the mind and the body, the beautiful faculties. Memory confronts him with his lighted past. Amid the tangle of his life as it is presented to be groped for in the dark. You have met him on your busy thoroughfares with faltering feet and outstretched hand, holding out for sale his petty wares, his cap for your pennies; and this was a man with ambitions and capabilities. It is because we know that these ambitions and capabilities can be fulfilled that we are working to improve the condition of the blind. You can teach back the sight to the vacant eyes, you can give a helping hand to the sightless along the dark pilgrimage. You can teach them new ways, for work they once did with the aid of their eyes you can substitute work that they can do with their hands. We seek only opportunity, and opportunity is the torch of darkness. They crave no charity, no pension; but they satisfaction that comes from lucrative toil, and this satisfaction is the right of every human being.

Before beginning his address, Mr. Clemens presented Frank O'Brien of Boston, a graduate of the School for the Blind, Montreal, who played upon the piano Chopin's ballad in A-flat with a technique that was marvellous. He was followed by Miss Christine Baroque, also of Boston, the only blind woman who has been admitted to a bedroom in a hotel known in forty-seven years. "If there was one word that I could say," said the humorist, "it is to read the history of the blind, I would cordially say it, whether I meant it or not."

A MARRIAGE QUESTION Ontario Law Forbids a Man Marrying His Brother's Widow.

The provincial secretary's department has recently received several letters from issuers of marriage licenses, who ask whether licenses should be issued for a man to marry his brother's wife, for so the statute defining marriages which are prohibited on the grounds of consanguinity reads. The department's answer in every case is the same, and it is to the effect that under the statute of Ontario, a man cannot lawfully marry his brother's widow or his brother's divorced wife. Most of the enquirers ask the question apparently in detail of parties who want to marry lawfully, and it is said that several such marriages have recently taken place in the province.

A "COMING" N. B. BOY.

The Boston Herald says: One of the Cambridgeport gymnastic candidates for the B. A. A. Marathon run, counted on to fill Fowler's place, now that the latter is going to Athens, is Edward S. Farnsworth. He started last year in the Marathon, the first race he ever ran, and finished fifth, three minutes behind Lorz, the winner. It was then believed that with a little more experience and knowledge of race tactics, he could have pushed Lorz seriously for first place.

He has been training all winter with Fowler on the road, the pair doing about two long runs a week, gradually increasing the distance until both are now doing about 15 miles comfortably. There is a team of Cambridgeport gym. Marathon runners, most of whom have done much less work, and Farnsworth is the chief's relative in the race.

Farnsworth was born at St. Stephen, N. B. 30 years ago, and has lived all his life on a farm until five years ago, most of the time in Maine. Lately he has been a milkman in the city, a line of work that consists largely of running in the open air and in which a man is kept "hard" all the time. It was this circumstance that prompted the original candidate for the Marathon, which he ran last year after some training, but without the long preparation such a race really calls for.

**THE RING**

**BOXING NOTES**

The three contests in Los Angeles during the first week in May represent an unusual layout of money, in the neighborhood of \$30,000 in purses. The popularity of the lightweights is shown by the fact that Nelson and Herrera will battle for the long end of \$20,000, which is the most extravagant prize of the trio. Of this amount the winner will receive \$8,000 and the loser \$4,000. In addition to this the Duro, who is now on top and in a position to dictate, gets a \$4,000 bonus, which was exacted by his astute manager, Billy Nolan.

It is safe betting that O'Brien and Burns, although fighting for the handed-down, world's heavyweight championship title, are playing second fiddle in the matter of money to at least the one pair of little fellows, white Brits and Hermans, are probably to receive as much for their services as the Quaker and Canadian.

Pedlar Palmer, the English boxer, who was one of the cleverest lads of his weight a few years ago that was in England, is still being defeated in bouts on the other side. A few weeks ago Palmer met Charley Lampey, a young English boxer, in a fifteen-round bout before the London Sporting Club, Palace boxing.

**MCLOOD DEFEATED**

Testimonial for Hardy.

A number of friends of Eugene Hardy, the popular wrestler, have arranged to give him a benefit in the York Theatre on Friday night. Hardy, who has been here for some months, has given the St. John public some excellent exhibitions of his wrestling game, having met and defeated some of the best wrestlers at his weight. But recently Hardy has made little or nothing. He taught a wrestling class, but this did not prove a success. In fact, the class, this wrestler says he has lost money in St. John. As he is desirous of going to England, the benefit idea was arranged. It is hoped that a large number will attend. Several other bouts are being arranged for.

**A SERMON BY REV. J. D. FREEMAN**

"Life on the Uplands" was the theme of an impressive university sermon preached on Sunday morning in Wycliffe Convocation Hall by Rev. J. D. Freeman of Bloor Street Baptist church, Toronto.

Taking as his text psalm li, 10-13, Rev. Mr. Freeman spoke of three levels of life: rising one above another like terraces—the clean life, the filial life and the joyous life. Each of these is reached by the power of the spirit, the first by the removal of a right or steadfast spirit, the second by the gift of the holy spirit, the third by the upholding of a free spirit. Mr. Freeman said in part: "The first installment of the debt owed to college and to country is to be clean. It is a black disgrace to any college, and a peril to the nation, when any man or woman goes out from college an unclean soul. The danger to science is not from the low-browed thing, but from the cultured man and woman; not from the man with the hair, stoic and indifferent, but from the man with the pen the man with the portfolio, the one who has entered overwisely. The surgeon is sceptically clean, for he has his fingers in the life blood of his patient; the college graduate must be clean of heart, for they are touching the rich arterial blood of the nation, and so I charge you, seek this first level on the hills of life.

"College men, be not ashamed to be known as religious men! The hallmark of the highest culture is religion. A college man should be ashamed not to be a religious man; that argues an atrophy in the very core of his being, a failure to measure up to the highest possibilities of man's nature."
