This is the best photograph yet to be published of Mrs. Beryl Curtis Ward, wife of Walter Ward, and their two children, since Ward went on trial at White Plains, N. Y., for his life for the slaying of Clarence Peters, former sailor. It was taken at Sutton Manor. She is a happy wife today for her husband was acquitted yesterday.

Eight mourners were drowned at Louisville, Neb., when the house where the body of Mrs. Mary McCreary lay was washed into Mill Creek, which had become a raging torrent after a cloudburst.

Persons living near Salt Creek, in the western part of Lincoln, Neb., were forced to flee to higher ground when that creek, which at this time of the year normally is dry, left its banks. Prisoners at the state prison were used to build dams around the prison power plant.

SAGES SEND WARNING TO MAGISTRATE

Chinese Pamphlet Bearing Prophecy of Tribulations for the World.

When Magistrate Henderson arrived at the Police Court this morning he found on his desk a Chinese paper, addressed in Chinese characters, and bearing the lines appearing in English: "Magistrate, St. John, N. B."

Upon opening it, he found a pamphlet, printed in English, which was published by the International Union of Religions of the Six Sages of Chentu, Szechuan, China. It was printed on July 25, 1923, and contained a list of warnings, paragraphs in the form of coming tribulations, which were as follows: "There will be severe earthquakes; the sun and the moon will be darkened for five days; great stars will fall on the earth; there will be unusually great thunders, tempests and hailstones; the oceans and seas will overflow their banks and sinners will be drowned."

Magistrate Henderson said if it was published on July 25, as printed, then the sages have at least made a good guess in one or two instances, especially in the case of the appalling disaster in Japan.

FOUR CHARGED WITH OFFICER'S MURDER

New Bedford Patrolman Shot in Roadhouse—Two Women Are Held.

New Bedford, Sept. 29.—Four men have been charged with murder, and two women are held as material witnesses in connection with the shooting of Patrolman Thomas A. Chisnell early Thursday morning at a roadhouse in New Bedford, where he was taken by the men charged with his death.

The four men implicated are Joseph C. Kelly, druggist; Clifford A. Hurley, cook; James W. Walsh, real estate dealer; and James E. O'Hearn, fireman. The first two are the proprietors of the house. Both of them were slightly wounded. The other men were present at the shooting. All are in New Bedford.

Mrs. Minnie Dory and Mrs. Mary Souza, both of this city, were material witnesses. They had lived at the roadhouse since Aug. 4.

In the investigation the local and state police learned much to cast doubt on the stories of the affair told by the men involved. The proprietors said that they were scuffling, and that Patrolman Chisnell tried to separate them; that Hurley's revolver, in his coat pocket, was accidentally discharged and that the bullet entered Chisnell's abdomen.

Their tale accounted for only one shot. Persons living in the vicinity of the roadhouse, and one in the neighborhood of the shooting, took place in the pantry. No signs of a struggle were found in the house, but there were bullet holes and blood spots outside.

There were eight bullet holes in the window of a henhouse, and one in the wall of the roadhouse. Near the back door somebody had apparently wiped bloody hands on the wall. The empty cylinder of Kelly's revolver was found on a shelf in the pantry. The weapon itself had been found. There was no trace of Chisnell's revolver, but a blackjack, thought to be his, lay near the back door.

TO BE A NURSE

Miss Gladys Finnmore, daughter of Mr. and Mrs. Charles Finnmore, of Maryville, N. B., left this morning on the Bay Steamer Express for Digby en route to Yarmouth, where she will enter the Yarmouth General Public Hospital to train for a nurse. She was accompanied by her father.

AT THE HOSPITAL

James A. Hurder, who is in the General Public Hospital, suffering with an infected hand, was reported today to be somewhat improved. The condition of Robert Gibson, who was reported to be unchanged today, Miss Maud McAfee is still making slow but steady progress. He had shot Peter on an automobile on Tuesday, was terrible plain. His condition is considered serious.

A HAPPY EVENING

On Wednesday, Sept. 26, 1923, about thirty friends of Mr. and Mrs. Wm. Higgins motored to their summer home on the Manawanagish road, where a delightful dance was given. The house was artistically decorated with Japanese lanterns and cut flowers. Music was supplied by an orchestra refreshments were served by the hostess. The party, very much enjoyed over the delightful evening spent by all, motored to their homes in the city.

IN THE MARKET

STABS BOY OF 8 OVER GIRL

Boston, Sept. 29.—An argument between Robert Finney, 11 years old, and Frank Barrett, 8 years old, over a 10-cent girl friend led to the stabbing of the latter, according to the police.

Matthew Slater, aged 11, an acquaintance, was listening while Finney accused Barrett of waiting for "his girl" after school, it was said. Finney said to Barrett: "Aw, go on, you heit the police and pushed toward him with a knife he had in his hand, cutting the younger boy in the abdomen. The wound is not believed to be serious.

BOY RUN OVER; HIS CONDITION SERIOUS

Gordon Dunham's Leg Crushed by Train; Amputated in Hospital

Gordon Dunham, a six year old boy son of Walter Dunham, 65 Erin street, was run over by a C. N. R. train yesterday afternoon near the Erin street crossing. No one saw the accident but it is supposed the lad caught a ladder on the side of a car as it was passing and slipped, falling under the wheels. The train was in charge of Foreman Coughlan with Charles Waldron as engineer.

After the train passed the boy was seen lying at the side of the track by Police Constables Coughlan and Corner and Dr. A. McCarthy, who were near, rushed to the aid of the boy. It was seen he was very badly injured and the doctor took him to the hospital. His car. It was found necessary to amputate the right leg at the ankle, where it had almost been severed. The boy was also very badly lacerated.

This afternoon the boy was reported to be resting somewhat easier. His condition however is considered to be very serious, and he has a heavy loss of blood, in addition to the severe shock.

Cheers For Verdict Of Acquittal

(Continued from page 1.) The jury's deliberations had lasted less than four hours. As the verdict was announced Ward became the center of a swirling mass of humanity. Women and girls cried hysterically and climbed over the railing to reach him. He fought through them. They hung to his arms and legs. He was held back by a row of chairs upon which a number of women were standing. One woman, with gray hair, threw her arms around his neck.

Wife Affected. While this dramatic scene was going on, Ralph Ward had reached Mrs. Ward's side. She was waiting in a side room.

"Oh, Rery, acquittal," he cried. "Thank God," murmured the woman as she sank into his arms.

Still fighting his way through the crowd, Ward came out into the corridor where Mrs. Ward was waiting for him. The crowd already had surrounded her. She saw him coming and rushed through the throng, locked her arms about her husband's neck and was swung up to meet his lips with hers. It was not learned until all this had happened that A. B. Campbell, assistant defense counsel, had fainted when the verdict was announced.

While the trial itself was not unusually long, events that preceded it dragged out over a period of more than 16 months. Peters was a former sailor. His body was found on a lonely shore near Kennebec on May 19, 1922. It was several days before his body was identified. Then Ward came forward with a statement from his attorney that he had shot Peters in self-defense as the result of an alleged attempt to blackmail him.

Investigation after investigation followed. All attempts to learn the secret of the blackmail plot failed. It has never been learned by the public. One indictment against Ward was returned but finally another, locked her in self-defense as the result of an alleged attempt to blackmail him.

ROCKEFELLER GIVES \$10,000 TO AID WAR ON DIABETES

Philadelphia, Sept. 29.—Provost Josiah H. Pennington of the University of Pennsylvania said today that John D. Rockefeller, Jr., has given to the university \$10,000 to be used for the purpose of treating with insulin a large number of public ward and diabetes patients suffering from diabetes and to teach physicians in general the proper method of employing insulin in the treatment of the disease.

Since the announcement of the discovery of this new means of combating diabetes the medical staff of the university hospital has been studying the treatment and has had under its care a limited number of patients. Arrangements are being made to give instruction to physicians and nurses in the use of the insulin which will be made to physicians.

DOWN BY THE SEA

(Toronto Star) Those who speak of the Maritime Provinces as standing still, or developing but slowly, have been given something to think about by the Sydney Post, which compares the progress of Nova Scotia and New Brunswick with that of the neighboring states of Maine, Vermont and New Hampshire.

Taking the matter of population between the years 1860 and 1920 it is found that Maine increased from 228,279 to 798,014, or 2 per cent.; New Hampshire from 226,443 to 443,083, or 85 per cent.; Vermont from 315,088 to 382,428, or 12 per cent.

In the same period Nova Scotia increased its population by 192,680, or 55 per cent.; New Brunswick by 135,429 or 53 per cent.—an increase much greater than that of the neighboring states.

In the first twenty years of the century the Maritime Provinces increased in population by 15 per cent. The field crops of the Maritime Provinces increased four-fold in value; that of the three states named three-fold. The manufactures of the provinces increased in value six times, those of the states three times.

The England states alike have done much to build up the population of the western half of the continent in the last twenty, and the last sixty years. As compared with each other our provinces seem to have had the better of it in progress. It might be a good idea to keep such facts in mind. This is an advertising age. A country that boasts is sure to have an advantage over one that knacks.

CAUSE TO CURE

A CAUSE MUST BE ADJUSTED. MADE RIGHT. CHIROPRATIC. Adjusts all causes.

CHIROPRACTIC is based on fundamental natural laws. The organs of the body are the motors, the nerves are power lines which carry vital energy or life to all parts of the body. Engagement or plucking of the nerves interferes with their life-carrying power and disease is the result. The Chiropractor adjusts with his hands the misaligned vertebrae and the impinged nerves are freed. The flow of life enters the part diseased, normal functions are resumed and health restored. The Chiropractic way is Nature's way.

EDUCATION FOR PRISONERS

"Their Only Hope"

Butler R. Storkie, Columbus, O.—Why not a correspondence school for prisoners?

Butler R. Storkie, then a prisoner in the state's prison here, asked himself a question some months ago, as he noticed how much idle time convicts had. And the more he thought of it, the more he realized it was the solution of the prison problem.

So he started the idea, which recently culminated in the incorporation of the National Intra-Wall Institute, which is destined, if successful, to carry knowledge into every federal and state prison cell in the country.

Free Now. Storkie, convicted of forgery in connection with a financial deal, passed 2 months in prison. Now he is free—conditional pardon that he continues with his work.

Storkie interested Prison Chaplain T. O. Reed of Columbus and Napoleon Hill of New York in the idea. They eagerly took it up.

For his services he consents to draw but \$100 a month, instead of the \$250 offered him.

"I have but one wish," Storkie says, "and that is to serve others who are in need of the light of justice in the dark of the country. When I went into the penitentiary, I was but a wreck of my former self—after months spent on the battlefields of Europe, spent on the battlefields of Europe, shell shocked," he said.

"I will soon be 31 years of age, physically, but my life in the prison has made me twice as old in experience and lessons taught."

"I am convinced beyond any doubt that the prison school organization is going to be a wonderful success. We have men of national prominence back of the organization who have pledged substantial gifts."

Belfast, Sept. 29.—The English Football League defeated the Irish League today before a crowd of 14,000 spectators. The score was 6 goals to 2.

Glasgow, Sept. 29.—Glasgow Rangers won the final of the Glasgow cup today, when they defeated Third Lanark by a score of 8 to 1.

\$100,000 BLACKMAIL PLOT CHARGED BY HOTEL OWNER

Chicago, Sept. 29.—An alleged plot by blackmailers to extort \$100,000 from John B. Drake, one of the owners of the Drake and Blackstone hotels here, has become known through the activities of four state inspectors working with city and hotel detectives.

Threats of death if their demands were not met were made by the blackmailers in letters to Mr. Drake and to his son, John B. Drake, sent during the last two weeks. It all parts of the blackmailing plot.

BIG INDEMNITY FROM GREECE TO ITALY IS PAID

Fifty Million Lires Handed Over and Trouble is Ended.

Rome, Sept. 29.—The 50,000,000 lire indemnity paid by Greece to Italy as a result of the Janina incident was received by the director-general of the Bank of Italy from the Bank of Switzerland today. This indemnity had been deposited in the Swiss bank by Greece and was turned over to Italy by order of the Inter-Allied Council of Ambassadors after Greece had signified her acceptance of the ambassador's ruling.

This definitely settles the Greco-Italian trouble, starting with the assassination of the Italian member of the Albanian boundary commission on August 27. All the other stipulations in the settlement have been complied with, and the chapter may be regarded as closed unless Italy decides to appeal to the Permanent Court of International Justice for reimbursement of the expenses to which she was put in the occupation of Corfu.

Paris, Sept. 29.—The Council of Ambassadors today authorized the Swiss National Bank to pay the Italian Government the 50,000,000 lire deposited by Greece as security for the indemnity awarded Italy as a result of the Janina incident.

Gas On Stomach Won't Let You Sleep

Gas often presses on heart and other organs, causing a restless, nervous feeling which prevents sleep. Simple buckthorn bark, glycerine, etc., as mixed in Adlerika, expels gas and relieves pressure almost INSTANTLY, inducing restful sleep. Adlerika often removes surprising old matter from BOTH upper and lower bowel which poisoned stomach and caused gas. EXCELLENT to guard against appendicitis.—J. Benson Mahony, druggist, 2 and 4 Dock street.

Paint Protect & Preserve

Wintry Blasts will soon be here!

PAINT and varnish usually suggest beauty, but they are protection and preservation. Here is a freshly painted house, glistening in its new coat, ready to outdare every storm of the coming winter. Indoors, varnish safeguards the woodwork in like manner. How proud and glad the owner of this house should be. He has that confident feeling which one experiences when fully protected. His home is insured against fire, and now, with the blanket of safety which paint and varnish yield, it is insured against time and the elements. Paint and varnish this Fall and then—let storm clouds gather and burst, let winter come, no matter how far behind be spring, you may smile at the wintry blasts from your cosy fireside.

CORK LEG A GOOD BRAKE

Washington, Sept. 29.—A new use for artificial legs has been reported to the Veterans' Bureau, which implies at least one advantage over the natural variety.

A claim has just been received from an Indian veteran for replacement of a cork leg destroyed recently in an emergency. The claimant says that while he was hauling coal up a hill it became necessary to brake the wheel. Lacking a brake, he took off his leg and stuck it in the wheel. The wagon was stopped, but the leg was destroyed.

Stamers-Melick.

A quiet but very pretty wedding took place at the home of the bride's mother at 16 Peters street at 2:30 o'clock this afternoon when the Rev. J. S. Bonnell united in marriage Miss Clara Louise, only daughter of Mrs. and the late F. C. Melick, and Ronald Copeland Stamers son of Mr. and Mrs. C. F. Stamers of this city. The drawing room was very beautifully decorated with ferns and flowers. Only immediate relatives were present. The bride, who was given in marriage by her uncle, Robert A. Watson, was becomingly attired in a traveling suit of navy with hat of fawn velvet and wore a seal tie and carried a bouquet of Ophelia roses. The only attendant was little Patricia Stamers, niece of the groom, as flower girl. She looked very cunning in blue organdie and carried a basket of sweet peas. After the ceremony a dainty lunch was served after which Mr. and Mrs. Stamers left on the early C. P. R. train for Montreal to spend their honeymoon. On their return they will reside at 16 Peters street. The many gifts of furniture, silver

Buy Less Coal This Winter

YOUR coal bill can be smaller this winter—and you can make sure of it right now. Stop the waste of coal. Put a furnace in your cellar that will save a day's coal every week—a Clare Bros. furnace. From coast to coast thousands of owners report lower fuel bills, more heat, healthier heat from these famous furnaces. They are built with fifty years' experience behind them—with exclusive coal-saving and comfort-giving features found in no other furnaces.

They save money for householders every winter. Settle your own heating problem by getting the facts about Clare Bros. furnaces.

HECLA

The Hecla is the furnace with the Steel-Ribbed Firepot—a fuel-saver to the tune of one ton in seven. It has Fused Joints that we guarantee to be proof against leaks of gas or dust. It supplies mellow, healthful air. It lasts a lifetime, and costs no more than other good furnaces. Pipe or pipeless.

STANDARD

An all cast-iron furnace of the most modern type—especially adapted for soft coal. Has many of the famous Hecla features. Special provision for consuming smoke and gases. Saves coal. Heavy construction throughout gives long life. Made in both pipe and pipeless.

HILBORN

Built only for wood—and burns wood better than any "coal and wood" furnace could. Burns any kind of wood—boards, slabs, knots, and stumps. Saves its price by using waste wood. Low-priced and a wonderful heater. Pipe or pipeless.

Let Us Help You Plan

Anyone who would like to plan now for the day when he will install a heating system should write for the help of our heating experts. Catalogue, plans and estimates will be sent entirely free to all who send rough plans of their homes, whether new or old.

CHATHAM FAIR IS SUCCESSFUL EVENT

Exhibits and Entries Numerous and of a High Order

Chatham, N. B., Sept. 28—Today was the final day of Chatham's big fair. It was also children's day. All the children in the Chatham schools were given free admission tickets. On the midway the prices of the various amusements were reduced to accommodate the children.

The usual big throng, augmented by large numbers of children, crowded the grounds all day. Tonight the exhibition wound up with a big dance, music being furnished by a visiting orchestra. A large number enjoyed the dancing. A feature was the exhibition dance by Miss Peggy Mann, of Chatham, and Mr. Cummings, of Boston. The Newcastle Band was present during the evening and its selections were very well received.

On the whole this year's fair was a success and the directors may feel pleased with the results of their hard work. The exhibits and entries in all classes were both numerous and of high order. The attendance at the fair was very good, probably surpassing in numbers fairs of other years. This is attributed to the uninterrupted run of fine weather enjoyed here this week. Today was the finest of all, there being a distinct touch of summer in the air.

History Made Modern.

"Willie" asked the teacher, "what was it Sir Walter Raleigh said when he placed his cloak on the muddy road for the beautiful queen to walk over?" Willie, the ultra-modern, gazed about the class room in dismay, and then, taking a long chance, replied: "Step on it, kid!"

Happy Thought Ranges Make Happy Homes

Happy Thought Pipe Furnaces defy winter in any part of the home. Happy Thought Stoves have stood the test of years in Canadian homes.

You—the woman with a family—know what it means to have a range that is so easy to regulate, that is a good cooker and a dependable baker. There is no single fixture in your entire house that is as important as your range.

Every woman who does her own cooking knows what it means to have even heat and plenty of room in the oven. She realizes what a large cooking surface means and the benefits of regulated heat.

Three hundred thousand Canadian women know the dependability of Happy Thought ranges from actual every-day experience. They have found them consistent and satisfactory, economical in fuel and easy to operate. Ask any of these happy women about these ranges.

FRANCE PROSPERS, NO UNEMPLOYMENT

Bishop Slattery Back Home Tells of Conditions in Europe.

(Boston Herald.)
 Bishop Coadjutor Charles L. Slattery of the Episcopal diocese of Massachusetts, returning yesterday from a three months' trip abroad, spoke encouragingly of conditions as he had observed them in France and England.

"France is very prosperous," he said. "Everybody where I went appeared to be busy, the farms were in fine condition and the churches well attended. The fields have been cultivated to the last inch. The people are industrious and no traces of unemployment are visible. The fact that France is not taxing itself leaves it free to develop its resources, whereas England is under a terrible strain of taxation, which is borne with amazing fortitude."

"There is in France a note of sadness among the older people. Only the children are gay. The people are more serious than ever before and the attendance at the churches was impressive. France today is a deeply religious country."

During his travels in France, while notes were passing between that country and England, the bishop said that he noticed an air of confidence among the French people that there would be no break in the relations between the two countries. It was a great relief to England when France announced definitely that she had no intention of permanently seizing German territory.

This open declaration, he observed, is apparently the reason why Germany today is willing to abandon unconditionally her policy of passive resistance in the Ruhr.

"In England," he continued, "one cannot help feeling the stubborn heroism with which the English are bearing huge taxes to keep up the national credit. I cannot imagine that any other European government would be able to secure from its people the same sacrifice."

The most serious problem in England, of course, he said, is unemployment, more than 1,000,000 persons being out of work. In Hampshire, where he was recently, he said, this condition would not be suspected on the highways. He happened in Petersfield on market day and saw a scene of tremendous activity in the auctioning of cows and pigs and the selling of produce of all kinds. There is considerable criticism, he added, of the "doles" paid to the unemployed, but the latter seem willing to accept them, he observed, rather than do work that is not congenial.

As to religious conditions in Eng-

land, he regarded them as even more encouraging than in France.

"From what could be seen of the great numbers of people who went to church and from the quality of the people along the roads in towns and villages I should say that religious work in England is very effective."

FREED OF KILLING; SELF-DEFENCE PLEA

Wetaikwin, Alta., Sept. 28—After relating how he shot A. B. Wilkinson,

a big man of thirty-five years of age, Charles Clynne, fifty-seven, a cripple with a paralyzed arm, misshapen, almost deaf and almost blind was acquitted of murder here late last night, after the jury had been out only twenty minutes. Clynne swore that he shot in self-defence after Wilkinson had threatened to kill him during a quarrel.

unknown, were drowned in the St. Clair River about five miles south of this port last night when the gravel barge Province heeled over suddenly and sank.

The barge, in tow of the tug Weaver,

was en route to Detroit and Windsor when, without warning, it suddenly started to list. The tug master immediately reversed his craft and came alongside the sinking craft and some of the members of the crew of the latter

jumped aboard the tug, while others, including Maggs and Wynne, leaped into the river and swam to the tug. The latter two were not strong swimmers, however, and sank before reaching the tug.

Dragging operations to recover the

two bodies are going on today. Maggs is a married man with a family of five and Wynne has a wife and family in England.

Minard's Liniment for Corns.

A nice pattern for the Living Room, one of the many attractive designs available in tasteful colorings

Dominion LINOLEUM is Appropriate for Every Room

DISCRIMINATING women everywhere, adopt Dominion Linoleum and Dominion Linoleum Rugs for all their floors as part of the permanent furnishing scheme for their homes. They try it first in one room, where it proves durable and attractive and it becomes such a time and labor saver that other rooms are soon covered with it.

Whether living room, dining room, bedroom, hall, kitchen or bathroom, there is a Dominion pattern to suit it and blend with hangings and furniture. A few such patterns are illustrated, but without the aid of color it is difficult to do them justice. You must see them to realize their beauty.

Every floor covered with Dominion Linoleum or a Dominion Linoleum Rug means less housework, more time for rest and recreation, and long years of satisfactory wear. Dominion products are highly sanitary. Their smooth, bright surface is stain-proof and non-absorbent and they cannot harbour dust or germs, neither can spilled liquids hurt them. They are warm, cosy and comfortable to walk on.

Let Your Dealer Assist You

His advice will be helpful for he has long experience. Tell him the room you have in mind; give him an idea of the style of furniture it contains and the color of wall paper and draperies. His recommendations will greatly aid your choice. Let him show you, too, the genuine quality that is built into Dominion Linoleum and Dominion Linoleum Rugs, and above all, note the moderate prices.

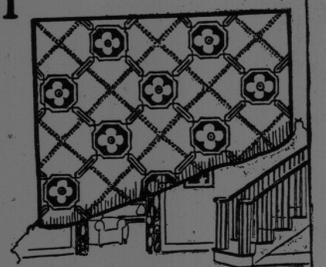

Each piece of genuine Dominion Linoleum and each genuine Dominion Linoleum Rug has a strong convex back. This and the Dominion trade mark on its face, assure years of satisfactory service.

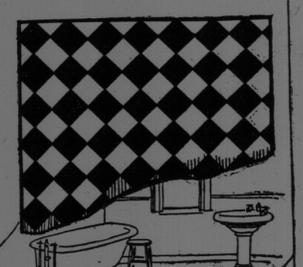

An attractive block pattern that looks well in any kitchen.

This pattern lends just that touch of brightness the Bedroom needs.

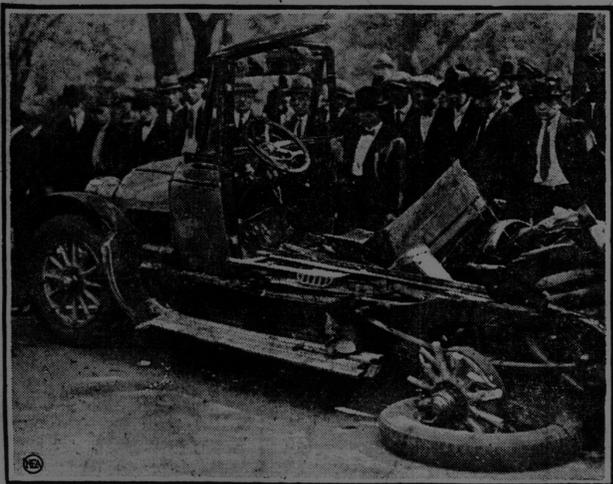

This refined design is particularly appropriate for Hall or Dining Room.

For the Bathroom, there is nothing quite so suitable as a simple tile design.

Another Right-of-Way Argument

TOURIST TRAFFIC
A REAL INDUSTRY

A New Yorker in Halifax
Urges Nova Scotia to
Sound Trumpet

(Halifax Chronicle.)
William S. Miller of the firm of Vile, Blackwell and Buck, 49 Wall street, New York, and Vice-President of the Southern Power and Development Company, Montgomery, Alabama, is at the Halifax Hotel. Mr. Miller's official duties take him to all parts of the United States and Canada. He is in Nova Scotia for the pur-

pose of investigating the further possibilities for hydro-electric development in this Province. After a tour through a considerable portion of Nova Scotia he gives it as his opinion that this province so far as its scenery is concerned is not excelled by any other country in America and is equalled by very few.
To a representative of The Morning Chronicle, Mr. Miller said that on his travels throughout North America he has had an excellent opportunity of studying the various methods whereby countries are successful in securing large numbers of summer visitors. He has made a study of tourist advertising and expresses the opinion that newspapers afford the best medium, with certain special magazines, such as sport publications, running them a close second. He stated that he had examined the methods evolved for advertising Nova Scotia as a recreation country and gave it as his belief that the right procedure had been adopted. In his view it would be beneficial to

have representative pictures of Nova Scotia scenery nicely framed and placed on view in the lounge rooms of the principal clubs in the larger cities of the United States.
What Not Nova Scotia?
Mr. Miller stated that throughout the Southern States there are many thousands of citizens who are practically forced by climatic conditions to come up north every summer. These people go to Michigan, Maine, Vermont and other Northern States, as well as to Ontario and Quebec. There is no reason why a large number of these folk should not come to Nova Scotia every year. They can come by steamer from Savannah, Georgia, for something like \$27.00 and the trip from Boston to Yarmouth is only a few hours. Nova Scotia is, therefore, within easy reach of the heat-stricken peoples of the South. He expressed the belief that forty per cent. of the people of the Southern States suffer periodically from attacks of hay fever. That disease cannot thrive in this climate. By coming here every summer re-cure attacks can be avoided and the disease perhaps ultimately stamped out of the system. In the opinion of this visitor Nova Scotia is, therefore, in a position to be of tremendous benefit to Southern people and in return to receive the blessings of a lucrative business.
"I wonder how many persons here realize the enormous benefit of the tourist industry to a country," said Mr. Miller. "It is actually one of the outstanding movements in the world today. I am gratified to find that the Nova Scotia Government recognizes that it is a real business and, judging from observation, I would say that it is in the hands of progressive men who are building up a permanent foundation to support a heavy super-structure. Into this foundation must come

of service to Nova Scotia. Sound your trumpet clearly. Throw down your dikes of indifference, of apathy, of insularity. Let this rich tide, which otherwise will sweep by, flood your country, with gold.
"Let it not be forgotten that the development of the tourist industry frequently leads to an industrial re-

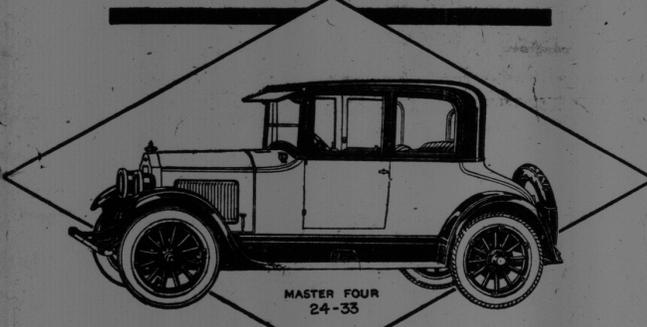

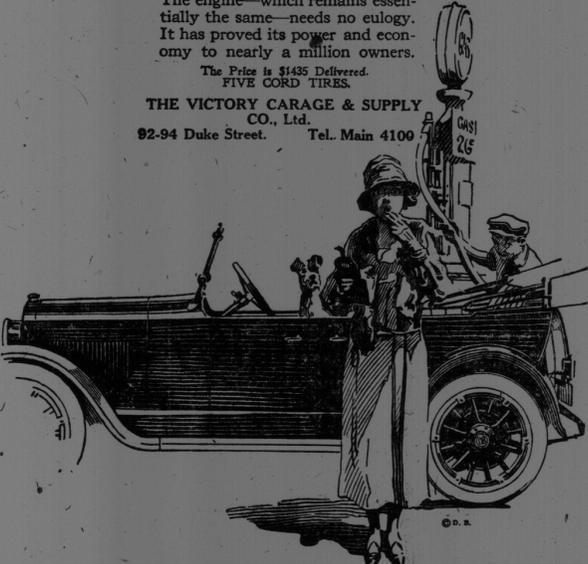

vival. Florida is a living example of the value of the tourist trade. Before tourists flocked there, Florida was a land of swamps. Economic conditions have been revolutionized there. These waste areas are now being reclaimed. California and Washington States have been 'made' by the tourist trade."
Mr. Miller intends to return to Nova

Scotia next summer with his family and plans to spend two months in the Province. He has arranged to take a deep-sea fishing trip with Capt. W. H. Conrod, who commanded the Canadian in the Provincial schooner races last year.

Many motorists who have always insisted on the best in everything they buy, have discarded their heavy, bulky, high-priced cars and have replaced them with the Studebaker Big-Six. And they report that, in every way, it represents precisely their conception of what a really fine motor car should be. They are enthusiastic over their all-round satisfaction with the Big-Six because of its dependability, surplus power, extreme comfort for seven passengers, the completeness of its equipment and its fine appearance.

The series 24 model—the finest Big-Six Studebaker ever built—presents a value unapproached by other cars at anywhere near the price. And its nominal cost of operation is a source of continual satisfaction.

Everything for which one can wish in motoring convenience, comfort and utility has been provided—even to an extra disc wheel complete with tire, tube and tire cover; handsome nickel-plated bumpers, front and rear; automatic gasoline signal mounted on instrument board, and many other features.

The low price of the Big-Six is due to large volume, the fact that Studebaker overhead is shared by three models, the manufacture of all vital parts in Studebaker plants and Studebaker's vast physical and financial resources.

After 71 years of service, the name Studebaker enjoys confidence and respect more than ever.

**SAYS EAST FARMER
CAN GET BRITONS**

Ottawa, Sept. 28.—The farmers of Ontario have an opportunity to obtain next year's farm help, according to A. R. Mitchell, field supervisor for the Soldiers' Settlement Board. Mr. Mitchell, in his travels around the country, has made a careful study of the farm labor situation. The railways, he says, have fortunately brought to this country about 11,000 harvesters to assist in harvesting the western grain crop. In a short time they will have completed this work and will be seeking other employment which will not be available in the prairie provinces.

Many of these men, says Mr. Mitchell, have had farming experience in the Old Country and among them there must be some good herdsmen and farm laborers. Dairy farmers in eastern Ontario, who usually carry a large herd through the winter, might do well to get some of these men. It was quite probable many of them would wish to remain in Canada rather than go back to the Old Country. They might be willing to stay in this country at small wages, says Mr. Mitchell, during the winter and be available for spring work and harvest. The Soldiers' Settlement Board will assist these farmers in obtaining this help.

WAIT TILL AFTER LONDON MEETING

Advertising Men Here Confer on Matter of Writing Clubs.

The members of the St. John Advertising Club listened to an interesting address yesterday on the subject of advertising clubs in various cities of Canada and the possibility of forming a Canadian group, separate and distinct from the organization known as The Associated Advertising Clubs of the World. The address was really an informal talk by H. S. Van Scouyoue, publicity manager of the Canada Cement Co., Ltd., acting president of the Canadian Advertising Clubs of the World, and president of the Montreal Advertising Club.

There was some discussion and Mr. Van Scouyoue was asked questions by various members concerning the advisability of forming a Canadian group. The opinion was expressed that nothing definite along this line should be done until after the London convention. A vote of thanks was moved by F. W. Daniel and tendered to the speaker by the president, Stanley Emerson. Mr. Van Scouyoue, who was in the city attending the convention of the Engineering Institute, left on the afternoon train for Montreal.

MACK'S HELPMATE NO. 4 LAUDS NOS. 1 AND 2

New York, Sept. 29.—A spotlight on theatrical domesticity—has come to light. A couple of weeks ago when Thomas Wilkes, San Francisco and Los Angeles producer, offered George Middleton's new play, "The Road Together," with Marjorie Rambeau as the star, he informed her that he had engaged Maude Leone, who was wife No. 1 in the Willard-Mack Series, for a principal role. Miss Rambeau, who was wife No. 2, offered no objection, and the two ex-wives of the playwright actor appeared together.

Now Wilkes, who has just reached New York, reports that the biggest event of the opening night at Los Angeles was when Mack took wife No. 2 backstage to compliment his two former helpmates on their performances.

Chicago, Sept. 29.—Employment experts who say they can judge an applicant's ability by phrenology and physiognomy were termed "psychological fakers" by Prof. A. J. Snow of the psychology department of Northwestern University, speaking here before a meeting of assistant managers of a chain store company.

"It's about time we stopped such indefensible practices, permissible only because of the ignorance of the general public," he said.

WANT FORT HOWE TO BE MADE PARK

The New Brunswick Historical Society, at its meeting last night, by unanimous vote recommended that an endeavor should be made to have Fort Howe made a national park and reaffirmed its former motion calling for greater consideration being given Maritime Province historical sites by the Historic Sites and Monuments Board. Rev. William Armstrong, the president, was in the chair and there was an unusually large attendance at the meeting.

There was general discussion of the proposal which Dr. Clarence Webster and brought from the Parks Commission at Ottawa that the idea of a park at Fort Howe should be abandoned and memorial slabs placed in Market square and on the sites of some of the forts.

The W. M. S. of St. David's Church held their annual birthday social last evening. The guests were received by Mrs. P. C. Johnston and Mrs. Hugh Miller. The programme included a piano duet by Mrs. J. M. Barnes and Miss Phyllis MacGowan; vocal solo by Miss Erminie Climo, piano solo by Mrs. Frances Climo, and vocal solos by Mrs. Hugh Miller.

A case against the Royal Hotel, charged with allowing moose out for one week yesterday, was put off for one week until October 8. W. M. Ryan is appearing for the prosecution and E. J. Henneberry for the defence.

Traffic was held up on the C. N. R. between St. John and Hampton for some three hours yesterday afternoon and evening by the derailment of a ditches at Quispamsis. A wrecking crew was hurried from Moncton and had the line cleared about nine o'clock last night. As the Halifax train had about 200 passengers for U. S. points, the Boston train held until 10.20 last night to make connection.

Use Puffed Grains in home made candy

Have you tried Puffed Wheat or Puffed Rice as a substitute for nuts in your home candy-making? They give you all the delicious, mellow flavour of the nut—they are lighter—they are more digestible—they are more nutritious. In candy which you give to the children, Puffed Grains are particularly good. The little ones will love fudge or taffy made with these delicate, crispy grains, and at the same time, it will be much more digestible and better for them.

PRIEST FEARS CONSEQUENCES IF DRY LAW IS NOT CHANGED
Chicago, Sept. 29.—Dire consequences will result unless the Volstead act is changed, the Rev. Francis C. Young, assistant pastor of St. Raphael's German Catholic Church, author of verses entitled "The March to Victory" and "Our Nation's Prayer," declared in a statement. It was at his church that the funeral of George ("Spot") Bucher, who was shot and killed with George Meaghan Sept. 17 by unidentified assailants, supposedly in a war between rival beer runners, was held.

"The Volstead act is a law. It is, however, one of the biggest farces in our country, and must be changed," said the assistant pastor. "The general disregard for the Volstead law is the cause of much of the present disrespect for all law.

"Why are bootleggers and beer-runners in such large numbers, if there is no demand for their stuff?" "There is no doubt in my mind that the majority of the people want the Volstead law changed. This can be done. Let those who represent you understand that it must be modified if they care for your support in the future."

Until the law can be changed, he said, the authorities must enforce the law and the people must respect it.

500,000 Turkeys for Thanksgiving. Regina, Sept. 29.—Local dealers estimate that half a million turkeys will be available from Saskatchewan for Thanksgiving Day. They state that the price will certainly not be higher than last year when the best birds sold at 80c a pound.

Fred Kondrak, 37 Long Wharf, an employee of the Sugar Refinery, had one of his toes badly injured last night. He was cared for at the hospital and the man later taken to his home.

This new liquid polish won't peel off

As good for a lasting brilliance as Cutex is for soft smooth cuticle

The most famous manicure house in the world has perfected the ideal liquid polish.

One that won't crack or peel off. That was especially formulated to spread smoothly and quickly and leave no ugly ridges or brush marks.

This new and better liquid polish dries so quickly and goes on so smoothly, you will be surprised and delighted. The dainty little brush which comes with each bottle holds just enough to give a shining even polish for one nail. Then that nail is dry and firm almost before you turn to the second.

Best of all, the new polish gives the rose tinted brilliance everyone wants nowadays.

This perfect new liquid polish is made by Cutex. Try it at the end of your very next manicure. You will be delighted at the way it keeps its brilliance and makes your manicure last a whole week.

No separate polish remover needed! Here is just another convenience that Cutex planned in making this new liquid polish. When you are ready for a fresh manicure, just put on a drop of the polish itself and wipe it off before it dries. This makes the nail smooth and clean, ready for its new application of its week-long luster.

Cutex Liquid Polish may be had separately for 35c. Or in the \$1.00 and \$3.00 sets. Sets with other polishes are 60c and \$1.50.

Introductory Set including the new polish—now only 12c

Shine the Surface and You Save the Shoe

Anyone can understand that a well polished shoe is like a well painted house. Water, mud, dust, etc., instead of being ground into the leather is kept off by the polish. Thus the shoe is preserved and its life materially lengthened. Use BLACK-O for Black, TAN-O for Tan and WHITE-O for White. They are excellent polishes. Substitutes will not give you the same satisfaction.

BRAINS! That's What Dolph Has Nothing Else But

DOLPH, MARVEL POLICE DOG.

(By NEA Service.) Portland, Ore., Sept. 29.—Dolph, a police dog here, does more than bark. Scientists call him the canine with a super brain.

They say he is possessed of telepathic powers because of the seemingly uncanny way in which he interprets commands most times even before his master, Max Muller, utters them.

Among the many wondrous things Dolph can do is ferret out the hiding place of any lost article or purposefully concealed one.

Experts Are Puzzled. Experts attribute his inexplicable trailing power to an over-developed faculty of scent. But they are at a loss to explain why he will run along a trail and then cut short, catching up with it at the other end, to save himself a lot of useless chasing.

Likewise they are puzzled to know how he is so unflinchingly certain that an article has been buried or placed upon a post or building out of sight.

Dolph can be locked in a room and still he continues to perform his trick of finding hidden articles though no audible command be given.

Spirit-Chasing Mate. "Mental telepathy," says Muller, "He can read the human mind," in which opinion several scientists who claim to know concur.

Dolph has a mate called Borah, whose particular task is that of pursuing spirits. She recently put a whole army of spirits to rout after they completed mystic invasion of a home here.

And now Dolph is going into the movies. Achievement of the flickering screen may have been reached before by others through virtue of a pretty face behind which a more or less vacuous brain sometimes functioned.

But Dolph—be it to become a dog-dog star because he has brains.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

RUTH TEN POINTS BEHIND HEILMAN

Chance for the Leadership—Hornsby Keeps Margin in National

Chicago, Sept. 29.—Babe Ruth, proclaimed the most valuable player in the American League for 1923, facing a fighting chance to add the American League batting championship to his laurels.

Ruth got only four hits in his last four games, giving him an average of .385, while Heilman is pounding away at a .395 clip.

Babe, however, is secure in home run honors with 38, and is so far in front as a scorer, there is no possibility of being overtaken.

Other leading batters: Speaker, Cleveland, .375; Sewell, Cleveland, .361; Williams, St. Louis, .353; Collins, Chicago, .338; Jameson, .344; Cobb, Detroit, .343; Manush, Detroit, .334; Harris, Boston, .332.

Hornsby Leads Nationals. Rogers Hornsby, of St. Louis, seems likely to retain the 1923 batting championship of the National League.

Other leading batters: Fournier, Brooklyn, .354; Roush, Cincinnati, .351; Fritsch, New York, .347; Grimm, Pittsburgh, .342; Young, New York, .340; Barnhart, Pittsburgh, .340; Traynor, Pittsburgh, .338; Har- grave, Cincinnati, .335; Cy Williams, .332.

SISLER TO PLAY AGAIN. Chicago, Sept. 29.—George Sisler, first baseman for the St. Louis Americans, who was forced into leprosy this season because of defective vision, will play again next year, according to word received by Ben Johnson, American League president.

PAPYRUS ARRIVES. New York, Sept. 28.—Papyrus, winner of the English Derby and matched to meet America's fastest race horse for a \$100,000 purse on October 20, arrived tonight on the Aquitania.

HARRINGTON WINS AND MAKES RECORD

Scores 1028 Pins in Ten Strings—Bowling Enthusiasm Keen.

The interest manifested in the ten-string match on the Y. M. C. I. alleys last evening between Joe Harrington and Noel Jenkins augurs well for a big match here this season.

Veterans of the game who were present at the match predict that more interest is being manifested this season than ever before.

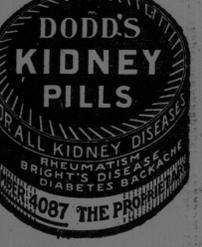

On next Friday another interesting bill is to be staged on the Y. M. C. I. alleys, when two five-men teams will meet to compete for honors.

a hope expressed that one of the other quintette will continue the good work already started and establish a new alley record.

The scores of the match last evening were as follows: Harrington—95, 126, 102, 124, 82, 99, 90, 101, 97, 109. Total—1,028.

SMOKING AND CIRCULATION.

Johns Hopkins Blood Pressure Tests Give Vague Results.

Experiments have been carried out at Johns Hopkins University to try to determine the effects of smoking on blood pressure, according to The Journal of the American Medical Association, but the results are indefinite.

The writer says: "Among the habits that almost invariably are interdicted by the physician in the treatment of illness is the smoking of tobacco. Heretofore this interdiction has been based on a large empirical observation, but not founded on any extensive scientific study. In the course of a series of investigations on the effects of cigar and cigarette smoking on certain physiologic and physiologic functions, Dr. Robert L. Bates of the Psychological Laboratory of the Johns Hopkins University has made a number of observations on the effects of tobacco smoking on the systolic and diastolic blood pressure and on the heart rate.

"Readings were made over a long interval on volunteer students, who were seated comfortably and smoked extensively during the observations. The tests indicated briefly that, following the smoking of a cigar or three cigarettes, there is a rise in systolic and diastolic blood pressure and in the heart rate. The rise in blood pressure usually amounts to only a few millimeters, and, as Dr. Bates remarks, "The normal irregular variations in blood pressure, due to various causes, are practically as great as the variations which may be ascribed to tobacco."

"The rise in heart rate is irregular, usually less than ten minutes in most cases, but in some cases as much as
