ACTUAL BATTLE OF THE AISNE NOT YET BEGUN; ALL HAS BEEN PRELIMINARY

Great Fight Still to Come Says Bordeaux Man of London Times

Position Strong

Serious Business Ahead For Allies—Enemy Has Regular Fortresses Along the Aisne and Was Building Them Before They Lost at Marne

London, Sept. 24—Interest in the fighting today centres in Woevre, says the Bordeaux correspondent of the Times, where the enemy is making a serious effort to pierce the line of forts linking Verdun and Toul.

"To the northeast of Verdun, the correspondent continues 'east of Meuse heights and in the direction of Mouilly and Dampierre, their furious attempts have all failed. In the south of Woevre, they hold line positions running through Richecourt, Selchepy and Lionville. The general situation remains unchanged. On the left and centre the allies have the best of reasons for confidence in the result of the battle but there is no mistake. The enemy is going to give serious trouble along the line where with striking recuperative power, they managed to gather their routed hordes, facing after the battle of the Marne.

"A week has elapsed since its fire became clear that, although forced to abandon successive positions, preparations for defence, the enemy had found to the north of the Aisne, northwest of Rheims, a formidable prepared fortified position upon which they might hope to maintain themselves for many days, while their own troops were recovering from the retreat and while the fire of victory among the allies was burning out.

Regular Fortresses

"The positions, enormously strong by nature and dominating the valleys and the towns, have been turned into regular fortresses. The line of trenches, built with science and the solidity of permanent works, are covered by flanking trenches bristling with mitrailleuses and reinforced by mazes of barbed wire and block houses, whose quick fires and mitrailleuses sweep the whole front. To the rear of these works, the heavy artillery is placed in position and from its fire such places as Soissons and Rheims have suffered great damage.

"Most of the work on this line was finished while the battle of the Marne was still in progress. The allies did their best to prevent its completion and there has been some desperate fighting along the Aisne. Gallant rushes have been made toward the trenches, and fierce hand-to-hand struggles have taken place on the top of the Craonne plateau, the side of which rises like a cliff against the allies.

"Attack and counter attack succeeded one another, while the endangered crown prince's army has been picking a way out of a difficult country into a still more awkward position. On our right the enemy's army has been seeking for an opening or a weak point in the chain of forts between Toul and Verdun.

Shys Actual Battle not begun

"The allies have been progressing slowly upon the enemy's right, pushing up a wedge in the centre between Rheims and Argonne. Still the actual battle of the Aisne has not yet begun. There is already been enough fighting to constitute half a dozen battles but only the preliminary stages of the big struggle have been reached. The railways on both sides are massing troops along the front, the Germans coming from Lorraine, the British from the whole empire and the French from the south and west.

"Meanwhile the siege operations continue. The deceptive lull which preceded the battle of Liao-Yang has fallen upon the field. The situation remains unchanged in spite of the furious cannonading and the desperate fighting but with each fresh engagement, the situation becomes more clear, the plan of the staff more definite and the day of its realization more imminent."

One of The Kaiser's Big Blunders Leader of 60,000,000 of Indian Mahometans Says All Are Back of King-Emperor

New York, Sept. 24—A London cable to the Tribune says: "Germany made a mistake about India, as it did about Ireland, and anybody who counts on India to be false to England will come a cropper." In those words His Highness the Akhakhan, recognized temporary leader of sixty millions of Indian Mahometans, summed up the Indian empire's status in the world's war.

The Akhakhan has directed the Khoja Moslems, who alone number several millions, and over all of whom he is the spiritual as well as temporal head, to place their personal services and resources at the disposal of the government, and has volunteered to serve himself as a private in any regiment of infantry of the Indian expeditionary force. The Akhakhan laughs heartily over the suggestion that a Germanistic propaganda might undermine the loyalty of the Indian subjects to their king-emperor. He remarked, smilingly: "The thinking element among the Indians of all classes realize that our country, divided as it is into hundreds of principalities, each inclined to be jealous of the others, could not hope to stand alone even if British rule were withdrawn."

"ALL MY TROOPS AND RESOURCES" government, as announced by the secretary of state for India. Nearly all the Indian potentates have expressed a desire for personal service in the field, and many have offered the British government "all I possess."

The government of Madras will supply a fully equipped hospital ship of 800 beds for the use of the Indian expeditionary force.

"DOWN WITH THE KAISER!" This and Peace Cry on Posters On The Walls of Berlin

London, Sept. 24—Despite the watchfulness of the German authorities, says a despatch from Copenhagen to the London Evening News, posters proclaiming "Down with the Kaiser!" are appearing on the walls of buildings in Berlin.

Travelers living through the city between railway stations are ordered to keep the blinds of their vehicles drawn so that the posters may not be seen.

BRAMAN CASE

Matter of Frank O'Leary Deposition Occupies Court

WILL IT BE ADMITTED?

Question Had Not Been Decided by Judge at Noon recess—Magistrate and Others Give Evidence

This morning's hearing in the murder case of the King vs John H. Braman was taken up largely with the hearing of evidence and legal arguments relative to the admission in evidence of the deposition of Frank E. O'Leary. Perhaps the most important evidence intended to be presented to the jury by the crown is contained in this deposition, and the matter is therefore of vital importance. The whole question of the admissibility of this deposition hinges on the words of the criminal code, requiring that the defendant or his counsel must have had "a full opportunity of cross-examining the deponent, if he so desired."

Considerable evidence was given this morning as to the circumstances under which the deposition was taken as His Honor had said that he would like to hear further evidence before deciding the point.

Police Magistrate Ritchie told of taking O'Leary's statement in July, with O'Leary, the defendant, the police clerk, Com. McLellan, Sergt. Hastings, Doctor Malcolm and another doctor were present. It is understood the deposition had to be taken quickly as O'Leary was bleeding, and he told him to tell the facts briefly. Braman had a full opportunity of seeing the deponent. The witness did not remember whether he said to the defendant after the deposition was read over to him: "Do you wish to say anything?" or "Do you wish to ask any questions?" It was one of the two. He did not remember, whether the charge was read over to the accused before the taking of the deposition.

George A. Henderson, police clerk, said he did not read over any charge to the prisoner, or hear any charge read. He heard the police magistrate say: "Have you any questions to ask?" to the accused after O'Leary had finished giving his evidence. He did not notice any hand cuffs on the prisoner when the evidence was being taken.

Police Sergeant Aaron Hastings gave evidence concerning the taking of the deposition. He said: "The prisoner was not handcuffed at the time." Mr. Baxter, K. C., then submitted a legal argument, citing authorities to show that the facts and conditions were such that the counsel had a full opportunity of cross-examining the deponent. Mr. Sweeney was then heard. The court arose for lunch at one o'clock.

Address By Minister of Labor at Congress Meeting The War Food Prices and Other Matters—A di Report Discussion Spirited—Resolution Against Private Detective Agencies

This morning's session of the 80th annual convention of the Trades and Labor Congress of Canada in St. Andrew's rink, was of more than usual interest. President Walters occupied the chair, and Hon. Mr. Crothers was present. He gave an inspiring address of a variety of matters relative to labor, making several important announcements concerning the Canadian labor department's attitude which had been severely criticized; on unemployment, war conditions, food prices and other subjects.

In view of developments from a labor viewpoint in St. John a few months ago, much interest attaches to a resolution passed calling for legislation to abolish private detective agencies operating in the dominion. The complaint was made that the various agencies were engaged in a variety of matters relative to labor, making several important announcements concerning the Canadian labor department's attitude which had been severely criticized; on unemployment, war conditions, food prices and other subjects.

The election of officers is to take place this afternoon and a spirited session over immigration matters is hinted at.

Private Detectives An interesting discussion followed the introduction of a resolution by Delegate Moore, who had brought this matter up, had shaken his hand many times to congratulate him. "I am tired and disgusted," he said, "with what has been said behind the backs of trades officers by those who are trying to break up the labor movement. I am a Socialist, but I would rather work for a capitalist boss than for organized labor such as I have done. I have seen enough to know what I expect from those who are talking. Delegate Moore has even asked my assistance to have him placed with me. Gibbons and I worked long and hard without a cent. It probably was in Delegate Moore's heart that I was given a cabinet of silver. I don't care what he thinks, I simply did my duty for labor's sake. I don't care whether I am in office or not, and if there is any idea that I am defending any particular office it is erroneous. There is one thing that I value more than any other and that is my character and let me say whoever assails it has a big job on his hands. It's a pride to me to look at that little cabinet of silver in my house and think of how the boys in Ontario appreciated my work."

"Vote," Delegate Moore didn't help much towards getting it.

Mr. Bancroft continuing said: "I am through now, but organized labor will always have a friend in me. I'll always be willing to help in anything for its betterment."

Delegate Moore denied the statement of the last speaker that he had asked his assistance to get him into the Ontario house as a lobbyist.

Secretary Draper outlined his position in the matter. He said that paying expenses to the executive council was not a precedent. It had been done before. "My reports are an open book. Every copier is accounted for. Why should our executive council be placed in a position where their legitimate expenses should not be paid to congress? We expect fair and just compensation. It's only natural that we can't all see alike. But it should be remembered, if anything is done it must be paid for. There is about \$4,000 nothing to hide in anything done by the executive, but if you think we do not use good judgment, why let us hear it without any personal references."

GOOD PROGRESS IN ORGANIZATION OF PROVINCIAL FUND

Local Relief Committee to Meet at 12.30 Each Day

A report of excellent progress in the formation of the Provincial Patriotic Fund was made by Lieut-Governor Wood at this morning's meeting of the Soldiers' and Sailors' Patriotic Fund. He said that already organization was going on rapidly in Fredericton, Sackville, Woodstock and other towns and the committees were meeting with every encouragement and success.

The meeting was called to order by Judge Forbes. Commissioner Potts read the report of the relief committee, and Col. E. T. Sturdee was appointed in his place. The secretary of the fund was relieved of the task of issuing relief orders, this matter being now handled by a committee to meet at 12.30 daily at City Hall. The committee is composed of Commissioners Wigmore, M. E. Agar and Colonel Sturdee.

Colonel Sturdee submitted copies of forms used by the Montreal Patriotic Fund and an informal discussion took place on the relation of the local fund to the Canadian organization. Lieut-Governor Wood was in favor of the formation of a provincial executive, but the matter was deferred until the return of Mayor Fryk from Ottawa.

It was pointed out by A. P. Barnhill that in the publication of the last of totals of the several local funds, an injustice was done to St. John inasmuch as St. John's total represented actual cash, and that of other cities included subscriptions, many of which had not been paid in. No action was taken.

The decision as to the admissibility of the deposition will likely be given this afternoon.

Yesterday afternoon Braman's confession to Deputy Chief Jenkins was the subject of a lengthy argument between counsel U. J. Sweeney, Braman's lawyer, arguing that the prisoner was not warned that what he said would be used against him. The magistrate said he had asked no questions of the prisoner, but the latter had told the story voluntarily. His honor ruled the evidence out, but at the request of Mr. Baxter, who is assisting the attorney-general, he agreed to consider the matter. Mr. Sweeney also objected to the allowing of O'Leary's deposition in evidence and His Honor reserved his decision.

Com. McLellan told of the deposition being taken in the hospital, and Thomas Gillespie was cross-examined by counsel for the defense and George Stewart, an attendant at the hospital, gave evidence as to the care received by O'Leary. Margaret Trainor testified about Braman's arrest.

LOCAL RED CROSS The local branch of the Red Cross Society has received a call from the head office for a further supply of hospital necessities for the Canadian contingent. Among the articles specified as most desirable at the present time are sleeping caps, wristlets, cholera bands, soap, handkerchiefs (by the dozen), cheese cloth squares, 18 inches by 18, flannel shirts, under vests, drawers, pyjamas and towels. A supply of materials for the making of these articles has been procured by the society and will be given to all who wish to assist in the work.

BADLY HURT ON SCOW ON WEST SIDE

Larry Lawson of Queen street, west St. John, an employee of the E. M. G. Cape Company, was painfully injured this morning while working in a scow where the new wharves are being built on the west side. The accident occurred about eight o'clock. A hoisting boom on the scow fell, striking Lawson glancing blow on the head. He was rendered unconscious and was removed to A. C. Smith & Co.'s office where Dr. F. H. Neve rendered assistance and ordered him to the hospital. Mr. Lawson's left eye was injured. At the hospital his condition was reported to be somewhat serious.

BRITISH LAND TROOPS TO JOIN JAPS IN MOVEMENT AGAINST THE GERMANS AT TSING TAU

Tokyo, Sept. 24—The War Office makes the official announcement that British troops under Brigadier General N. W. Barnardiston, commander of the North China force, landed on Sept. 23 in the neighborhood of Lanshan Bay to participate in the movements against the Germans at Tsing Tau.

Further Success For Allies In Turning Of German Right Wing

Enemy Driven Back and Peronne Occupied After a Desperate Fight

CONSIDERABLE ADVANCE MADE

Heavy Fighting on the River Meuse Also Reported—Germans Make New Move in Woevre District to Cut Off Allies' Army at Nancy

Paris, Sept. 24—The allies have advanced considerably along their western wing, occupying the town of Peronne despite desperate resistance, according to the official announcement at French war department this morning.

At the eastern end of the battle line in France there has been heavy fighting on the river Meuse, the allies alternately advancing and retiring.

Further successes of the armies of the allies which are attempting to turn the German right wing, are claimed in this official announcement. It is said that the allies' western wing has advanced considerably and Peronne has been occupied after desperate resistance. Peronne is 75 miles north of Paris, and twenty-five miles north of Lassigny, in the region of which an advance by the allies was announced in yesterday afternoon's official statement. The position of Peronne indicates the movement of the allies' left wing, which is much further north than their main battle line.

GERMANS REINFORCED The turning movement of the Franco-British forces first directed against General Von Kluck in an effort to envelope his army, appears from unofficial despatches to have met resistance from strong German reinforcements.

GERMANS MAKE NEW MOVE Paris, Sept. 24—The formidable force which the Germans threw against the allies' left is still finching, according to the official information, under the unrelenting blows of the Franco-English battering ram. Even the famous Guards, as in the battle of the Aisne, are unable to stand the pressure, and are giving a little more ground daily.

The diversion attempted in Lorraine having proven ineffectual, the Germans are now making a fierce drive in the Woevre district, northeast of Verdun. The object no doubt is to cut off the army operating around Nancy. The Germans already had tried to make an opening between Verdun and Toul, between Metz and Toul at the same time. It is doubtful that they will succeed any better this time than they did in the former attempt. Nevertheless, the manoeuvre constitutes a grave menace to the allies who are resisting desperately, and thus far have repulsed attacks with heavy losses. That the Germans are losing heavily on their right is also attested by the constant arrival here of prisoners and wounded.

DEFEAT OF GERMANS BY RUSSIANS London, Sept. 24—The Paris Matin Prints a despatch from Petrograd stating that the Germans who drove General Rennenkampf back into Russia, are reported to have suffered a great defeat at Subio. The Russians have recaptured Soldau in East Prussia on the Polish frontier. It is said that the Germans are evacuating East Prussia to reinforce the line from Thorn in West Prussia on border of Poland, to Kalisz, a town in Russian Poland.

NAMES OF 60 OFFICERS LOST WITH CRUISERS GIVEN OUT BY ADMIRALTY London, Sept. 24—The Admiralty, in publishing a list of the casualties of officers aboard the Aboukir, Cressy and Hogue, which were sunk in the North Sea, says:

"We are certain among those saved by the submarines that must therefore be presumed that they lost their lives." The list contains twenty-four names from the Aboukir, twenty-five from the Cressy, and eleven from the Hogue.

In the list of officers saved appear the names of Captain John E. Drummond of the Aboukir, and Captain Wilmot Nicholson of the Hogue.

The Hague correspondent of Reuter says it has been announced there that in conformity with international law, the rescued British sailors from the cruisers cannot be interned in Holland. They have been merely taken to Gasslerland for internment in the camp there for a brief time, pending their departure for England.

ONE OF VON KLUCK'S GENERALS PRISONER Paris, Sept. 24—Three trains bearing prisoners and wounded German soldiers, arrived yesterday afternoon at the north station. One train brought 400 prisoners. One hundred prisoners from another, including a general of General Von Kluck's staff, were sent to the Invalides in automobiles. A large crowd gathered on the route but there was no manifestation. On the train with the wounded prisoners, were 182 nurses and eighty-two doctors.

ON THE EVE OF GREAT EVENTS London, Sept. 24—The correspondent of the Times in France reports that the railway yesterday blew up the railway bridge at Miramont between Amiens and Arras. He adds:

"We are certainly on the eve of great events in this region, whence the enemy is being gradually pushed out, but the Germans are still strong behind a line drawn roughly from St. Amant through Denain, Bouchain and Cambrai. The Germans are practically in touch with the French thirteenth army corps at Courchelles and Atrix, where fighting may be expected."

Rome, Sept. 24—The Giornale d'Italia publishes a despatch from Trieste stating that an Austrian general, Von Hinc, who commanded an infantry brigade composed entirely of soldiers of Italian nationality, is wounded and a prisoner in a hospital at Lemberg. The Trieste hospital is reported to be overfilled with wounded and the transfer into other hospitals is necessary.

Dark Outlook for Winter in Vienna Venice, via Paris, Sept. 24—Reliable reports from semi-official sources estimate the number of unemployed in Vienna at between 90,000 and 100,000. Hundreds more are still coming in from the country districts in spite of official warning that no labor is needed in the capital. The problem of sheltering and feeding them is causing serious trouble. Conditions are expected to grow worse at the approach of winter. Disturbances are feared, because the bulk of the gendarmerie and police have been drafted into the army.

German Cruiser Sunk London, Sept. 24—A Paris despatch to the Central News credits the sinking of a German cruiser and two torpedo boats in the Baltic to the Russian cruiser Bayan.

Montenegrins' Success London, Sept. 24—An official report at Cetinje states that the Montenegrins operating in Bosnia, after a hot engagement, took the little town of Pratzko, in the immediate neighborhood of Sarajevo, where the defeated Austrians have taken refuge after abandoning a large number of dead on the field.

Sacked by Austrians London, Sept. 24—The Russian troops occupying Senawa, eighteen miles northwest of Jaroslau, says the Petrograd correspondent of Reuter's, found that the town had been sacked by the Austrians. A large number of Austrian soldiers were captured.

ANOTHER GAIN St. John bank clearings for the week ending today were \$1,628,807; corresponding week last year \$1,660,882.

Western Shooting Case Winnipeg, Man., Sept. 24—The provincial police have been notified of a tragedy at Otterburn, Manitoba. A Galician farmer is reported to have shot two fellow countrymen. One line and the other is in a precarious condition.

A REMARKABLE POEM

Brookville Station, St. John Co., N. B., Sept. 22nd, 1914. The Editor Evening Times and Star: St. John.

Dear Sir,—I beg to enclose a copy of a poem entitled "The Day." The verses have created no small sensation in the city of Bath, England, and throughout the old country. The author is merely an ordinary luggage porter at the Great Western Railway Station at Bath. As I am a native of the same old historic city I am particularly interested in Mr. Chappell's work. It occurred to me that you would accept a copy for publication. Yours very truly, ROBERT SMART.

THE DAY
(By Henry Chappell.)

The author of this magnificent poem is Henry Chappell, a railway porter at Bath. Mr. Chappell is known to his comrades as the "Bath Railway Poet." A poem such as this lifts him to the rank of a national poet.

You boasted the Day, and you toasted the Day, And now the Day has come, Blasphemous, braggart and coward all! Watch how the Day will repay! The blasting shell, and the "white arm's" fall, As they speed poor humans home.

You spied for the Day, you lied for the Day, And woe the Day's red lips, Then strewed his seas with the ghastly mine; Not all the waters of all the Rhine Can wash thy foul hands clean.

You dreamed for the Day you schemed brought to St. John in years was the trophy of Stephen Speight at Musquash on Monday and is now on exhibition at the home of her mother, Mrs. Frank the antlers had a spread of sixty-three inches with thirty points.

A BIG MOOSE

One of the largest moose heads brought to St. John in years was the trophy of Stephen Speight at Musquash on Monday and is now on exhibition at the home of her mother, Mrs. Frank the antlers had a spread of sixty-three inches with thirty points.

DIPHTHERIA

The board of health has ordered disinfection of a room in Victoria school and another in Winter street school because of cases of diphtheria among one or two pupils. The cases by no means amount to an epidemic, and are not considered serious, in fact it was said today that there were not half so many cases of this disease now on the board's books as a corresponding period last year.

NOVELTY SHOWER

A delightful novelty shower was given to Miss Elizabeth Devine last evening at the home of her mother, Mrs. Frank Quinn, 228 Duke street, when many friends gathered to wish her happiness in an event of interest that is to take place soon. Many handsome remembrances, including several pieces of cut glass were received. A pleasant evening was spent and dainty refreshments served.

BACK FROM VALCARTIER

Alexander Corbet returned to the city this morning from Sherbrooke, Quebec. He was in Valcartier on Monday to see his brother, Dr. G. G. Corbet, who is to be married to the medical corps. Mr. Corbet was much impressed with what he saw at Valcartier. He said the boys were all in great spirits and were very eager to get to Europe and take their places in the great struggle. Soldiers all were looking well. He said there were all sorts of rumors as to the date when the soldiers would sail, but nothing definite was known. In passing through Montreal he saw twenty steamers in the harbor.

"TREV O'HEARTS" SERIAL TO-MORROW.

The first installment of Imperial Theatre's new serial story, the "Trev O'Hearts," is published today and the pictures will be shown on the curtain tomorrow and Saturday. It is obvious that to enjoy this story, the introductory chapters in which all the characters appear, should be read and seen. The "Trev O'Hearts" is to be a weekly attraction, the printed chapters to appear every Thursday and the film illustrations the two succeeding days. It is one of the most interesting kind and eclipses any other serial the Imperial Theatre has yet presented.

AN ADDITIONAL ATTRACTION is offered theatre-goers Friday, Sept. 25, at the Opera House. The 62nd Regt. Fusiliers band has offered its services gratis for the performance of Wm. C. Gillette's best comedy, "All the Comforts of Home," in aid of the Patriotic Fund. Musical numbers by Miss Valie Fenton and Messrs. Irving Beers and M. T. Morris. This performance is under the auspices of the St. John High School Alumnae.

DEPOSITION IS ADMITTED

At the opening session of the Braman trial this afternoon, Mr. Justice Crockett ruled that the deposition made by Frank E. O'Leary in the presence of the prisoner should be admitted as evidence.

THE KAISER'S PROTEST.
(New York World.)

It was Richard Croker, who enunciated the immortal doctrine, "Get your bluff in first." This seems to be the principle on which the Kaiser acted in his personal message to President Wilson. Knowing that a committee of Belgians was on its way to the United States to protest against atrocities alleged to have been committed by German troops in Belgium, the Kaiser tries to forestall the

committee by making equally serious charges against the Belgians and against the French and British.

As for what the Germans did in Belgium, "my heart bleeds," but such measures were "inevitable."

The Kaiser may match Belgian atrocity in the minds of the American people. That is, he wantonly invaded a country which was at peace with all the world and with which he had no quarrel; that he deliberately tore up the solemn treaty of neutrality to which the honor of his government was pledged and proceeded to carry fire and sword through that country when it ought to defend its independence.

If the Belgian peasants welcomed his troops with bloody hands to hospitable graves, regardless of the rules of war, the guilt rests in Berlin and not in Belgium.

Brantford, Ont., Sept. 24—The sum of \$100,000 is the objective of the Brant County Patriotic Fund Association which launched a whirlwind campaign yesterday.

SERIES OF TROUBLES

The schooner Susie Pearl owned by Joshua Prescott of Goose Creek and loaded with laths for Philadelphia lies badly damaged at the North Wharf. The schooner which is in charge of Captain McCumber, sprang a leak last evening and filled so that she is now resting on her keel in the Market Slip. Early this morning further misfortune befell her when fire caught from the gasoline tank by the upsetting of a lamp. An alarm was rung in from box 7 and the fire was extinguished after part of the laths had been thrown overboard. The captain was slightly burned about the face and hands. The rest of the cargo will be unloaded at low tide this evening when the steamer will be caulked. It is probable that a survey will be made.

RECENT WEDDINGS

Doyle-Goodspeed.
A quiet wedding was solemnized last evening in St. John the Baptist church, Rev. Walter Donohoe officiating, when Frederick James Doyle, the popular cashier of the Canadian Express Company in this city, and son of Mr. and Mrs. Frederick Doyle, was united in marriage to Miss Harriet Bertha Goodspeed, daughter of Mrs. Mary Goodspeed, of Fenwick (N. B.). The happy couple will reside at the corner of Broad and Sydney streets.

Northrup-Adams.
In the Carleton Presbyterian church a pretty wedding took place yesterday afternoon when Miss Fanny Winnifred Adams, daughter of Mr. and Mrs. J. A. Adams, of Queen street, West, was united to Northrup, Rev. J. A. Morrison, Ph. D., D. D., officiated. The wedding march was played by Miss Gladys Wilson, Mr. and Mrs. Northrup will visit New York and on their return will live at 488 Main street. The groom's present to the bride was a diamond ring and to the organist a pearl brooch.

Elliott-Haley.
Miss Jean Steadman Haley, daughter of Mr. and Mrs. Henry E. Haley, St. Stephen, was married yesterday to Dr. Malcolm Robertson Elliott, of Wolfville, N. S. Rev. W. C. Gloucester, D. D., officiated.

Davis-Johnson.
Miss Eleda Johnson, daughter of S. H. Johnson, of Midland, Kings county, was married yesterday afternoon to Beverly B. Davis of Springfield. The ceremony was performed by Rev. C. W. Waldon, assisted by Rev. J. D. Wetmore. Among the guests were Dr. and Mrs. E. N. Davis of St. John.

Bingham-Hunter.
Moncton, Sept. 24—Miss Emily Ross Hunter, daughter of Mrs. Hunter, and the late F. G. Hunter was married to William Bingham on Tuesday at noon at the residence of the bride's sister, Mrs. A. A. Allen, Church street. Rev. H. A. Goodwin of Central Methodist church officiated. Among the bride's gifts were a set of ermine furs from the groom, a beautiful tray from the Sunday School and Epworth League of the

Central Methodist church and a sterling silver jewel case from her Sunday School class there. Mr. and Mrs. Bingham left for Halifax and Prince Edward Island on a honeymoon trip. They will reside in Moncton.

WOMAN'S BEST MEDICINE

Mrs. Kelly Advises All Women To Take "Fruit-a-tives"

Hagersville, Ont., Aug. 28th, 1913. "I can highly recommend 'Fruit-a-tives' because they did me an awful lot of good and I cannot speak too highly about them. About four years ago, I commenced taking 'Fruit-a-tives' for a general break-down and they did me a world of good. We bought a good many dollars' worth, but it was money well spent because they did all that you claim for them. Their action is so pleasant, compared with other laxatives, that I found only pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women, on account of their mild and gentle action, and I trust that some other women may start taking 'Fruit-a-tives' after reading my letter, and if they do, I am satisfied the results will be the same as in my own case."

MRS. W. N. KELLY.
"Fruit-a-tives" are sold by all dealers at 50c. a box of 24, or 25c. a box of 12, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

RECENT DEATHS
Frederick J. Harding.
Frederick J. Harding, formerly agent of marine and fisheries, died last evening after a long illness. He was a son of the late Charles Harding. About seven years ago he was seized with a paralytic stroke from which he never really recovered. His wife survives him and there is one son, Royden, who is now at Sao Paulo, Brazil. One brother, James S., lives in the city and there is another brother, Charles, in Montreal. Mrs. Harding is a daughter of the late David McLellan and is a sister of Commissioner McLellan and J. Verner McLellan. Much sympathy is being expressed with the bereaved family.

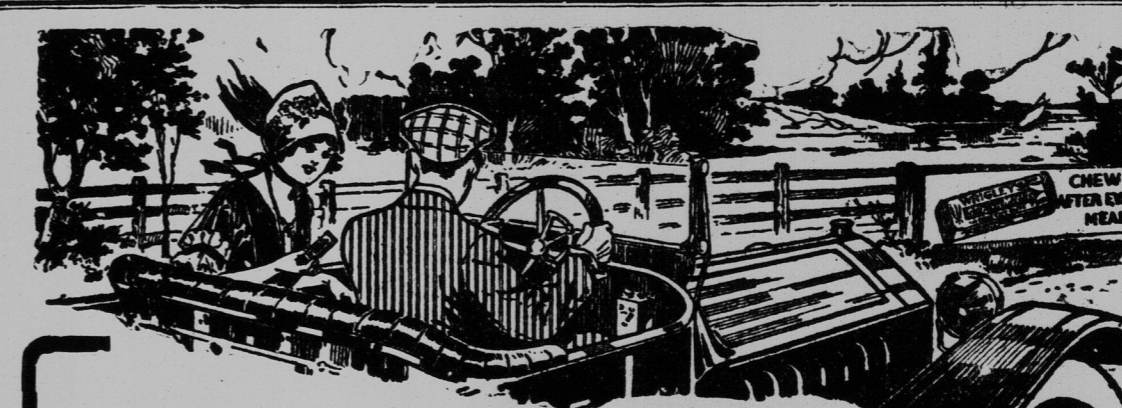

Harry H. Roop.
The death took place of Harry H. Roop on Wednesday at 1.30 o'clock after a lengthy illness, leaving his wife and two children, Harold, aged 18 and Elsie, aged 11. Three sisters, Mrs. Roop, of Liverpool (Eng); Mrs. Charles DeForest, of New Milford (N. J.), and Mrs. Frank E. Craibe, of St. John, and one brother, Charles Roop, of Truro (N. S.), also survive. The funeral will be held on Friday at 2.30 o'clock.

Mrs. George F. Lawson.
Many friends throughout the city will be grieved to hear of the death of Mrs. George F. Lawson, which occurred last evening at her residence, 200 Waterloo street, after a lingering illness. She was forty-three years of age. Besides her husband she leaves her aged mother, two sisters and five brothers. Mrs. Geo. Lob and Mrs. R. H. Myles are the sisters, and Young, Samuel, William, George and Charles, the brothers.

When the nerve force expended in the day's work and in the set of living is not replenished by restful sleep at night you have cause to be alarmed, as physical bankruptcy stares you in the face. This letter directs you to the most satisfactory cure for sleeplessness. Mr. Dennis Mackin, Maxton, Sask., writes:—"I have just finished using the sixth box of Dr. Chase's Nerve Food, and I must say that when I commenced using it my nerves were so bad that I could scarcely get any sleep. I would lie in bed nearly all night without sleep, and anyone who has this trouble knows the misery of sleepless nights. The Nerve Food helped me from the start, and has built up my nervous system wonderfully. I now enjoy good, sound sleep, and instead of feeling tired in the morning I am strong and healthy, and well fitted for my daily work."

THE WAR NEWS.

The great battle of the Aisne is still in progress. The fact that it has continued so long without a decisive result is explained by the official bureau, which says that since the Germans occupy strong defensive positions the battle takes on the character of war by assault along a fortified front.

With regard to German operations in France, the correspondent of the London Daily Telegraph says that none of the military authorities with whom he has conversed believe that the Germans will be able to take the offensive again on a large scale.

The Russian armies continue to pursue the Austrians in Galicia, and the fall of the fortress of Przemysl will doubtless soon be announced. The Serbians also have met with further success, and the Montenegrins have advanced closer to the capital of Bosnia.

Mr. Winston Churchill, speaking in Liverpool last night, expressed great gratification over the results thus far achieved in the war.

LORD KITCHENER.

In his book "With Kitchener in Khartoum," published in 1899, the late Mr. George W. Steevens, the famous war correspondent, wrote as follows:

"There are some who nurse a desperate hope that he (Kitchener) may some day be appointed manager of the war office. He would be a splendid manager."

The prophecy has been fulfilled. In his description of Kitchener at that time Steevens also wrote:

"He stands several inches over six feet; straight as a lance and looks out imperiously above most men's heads. His motions are deliberate and strong. Slender, but firmly knit, he seems built for tireless steel-wire endurance rather than for power and agility.

"He has no age but one to carry his mind; no face but one to keep his brain behind. The brain and the will are the essence and the whole of the man; a brain and a will so perfect in their workings that in the face of extreme difficulty they have never seemed to know what struggle is. You cannot imagine the Sirdar otherwise than as seeing the right thing to do and doing it. His precision is so inhumanly unerring he is more like a machine than a man. You feel that he ought to be patented and shown with pride at the Paris International Exhibition: British Empire, Exhibit No. 1, the Sudan Machine."

"This is the man who is now engaged in smashing the German war machine."

SOUTH AMERICAN TRADE

Canada should be able to gain a considerable portion of the South American trade which has been lost by Germany. If prompt action were taken to learn the needs of those markets, and the necessary provision made to manufacture the kind of articles required, Canadians should be as well able as the people of other countries to meet the requirements.

This country should have well qualified trade agents in South American centres. The opening of the Panama Canal will be of much benefit in connection with this trade. Touching the matter the Toronto World makes the following observation:

"The question of subsidizing steamship lines between Canadian ports and the principal ports on either coast of South America should receive, and no doubt is receiving, careful attention from the government. We are now subsidizing at heavy expense a line of steamers between Eastern Canada and the West Indies, which we believe go as far south as British Guiana. But there must be a considerable additional stimulus to shipping if we are to seriously compete for the trade formerly enjoyed by Germany in Argentina and Brazil, and if we are to make any serious attempt at a commercial conquest of the western coast of South America."

"Our duty in Canada is to help the Mother Country with the last dollar and the last man if need be," said Sir Wilfrid Laurier, addressing the Methodist Conference in Ottawa yesterday. The conference applauded the words of the Liberal chieftain, which give expression to the feelings of the Canadian people from the Atlantic to the Pacific.

There are evidences of further serious trouble in Mexico. General Villa has refused to recognize General Carranza as the chief executive. The request for the withdrawal of American troops from Mexican territory, on the ground that peace and order have been restored, may after all have been premature.

The Belgian delegation received a cordial welcome in Montreal last evening. The people of Canada should respond liberally to the appeal for assistance for the stricken people of Belgium. An Indian prince has set a good example. The Maharaja of Gwalior, who contributed \$10,000 for motor cars and transports for the Indian contingent, has also contributed \$25,000 for the relief of the Belgian sufferers. We send missionaries to India.

In a brief interview with The Times today a prominent and successful business man says that trade conditions are improving, and he dwells upon the importance of every individual merchant and employer doing his best to enlarge his business and keep people employed. He refers also to the important bearing which larger crops for next year will have upon the general prosperity of the province. He would have everybody talk better times and act themselves as if they believed in it. That is certainly the right spirit. Let us have more of it.

Sir John Gibson, lieutenant-governor of Ontario, recently urged the necessity of citizens accustoming themselves to the use of the rifle. Lord Kitchener recently told the British Empire that not drill but rifle shooting was now the most important thing. Every able-bodied man should be springing up everywhere. There is a club of lawyers, another of university professors and students, another of city hall employees and so on. Toronto sets an excellent example.

RELIEF AT ONCE CURE CERTAIN

Conclusive Evidence That Dr. Chase's Ointment Cures Itching Piles.

Mr. John G. McDonald, Pictou, N. S., writes: "I used Dr. Chase's Ointment for itching piles, and found that the first application gave relief. After using a few boxes of the ointment I was completely cured, and can recommend it highly to all sufferers from this disease. You have my permission to use this letter for the benefit of others."

Mr. James M. Douglas, Superior Junction, Ont., writes: "For about six years I suffered from piles, and often could not work for two or three days at a time, so great was the suffering from pain and itching. Doctors treated me in vain, and I tried many treatments before I came across Dr. Chase's Ointment. Two boxes of Dr. Chase's Ointment cured me, and for several months I have had no return of this annoying ailment."

There can be no doubt that Dr. Chase's Ointment is the most effective treatment obtainable for every form of piles. 60 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

FROM MARNE TO MAINE. (New York World.) The cruel war is ended; The carnage has been wrought, And German cannon roar; Of battered forts Dirt cheap may now be bought. What's that? The Rhine's defended And German cannon roar? Dear sir, it's plain I sing of Maine And Kaiser Theodore! The siege of Waldoboro Is lifted with a loss; At Matwoboc Looks like a double cross. The victory is thorough! Eh? What's the war's not o'er? You chump, my strain Refers to Maine And Kaiser Theodore! Old Schoodic's men Titanic Have found the fight amiss; They've lost, alas! By Wallagust And fair Piscataquis? Those names are not Germanic? Fshaw! Must I say once more? This and refrain Is all of Maine And Kaiser Theodore? Why should a bardlet Yankee Write poems on foreign strife When right at home There is a poem Of hot shot and the knife? Why hymn a monarch cranky And all your hearers bore? That theme disdain! Come! Sing of Maine And Kaiser Theodore! —John O'Keefe.

LIGHTER VEIN. Will and Mary had been busy courting for two years, meeting every night in Hope street, Glasgow. About a fortnight ago Will, in parting made the usual remark: "I'll meet ye in Hope street tomorrow night. Mind and be punctual." "Deed ay will, lad," replied Meg, with a merry twinkle in her eye. "We ha'e met noo a lang time in Hope street, an' I was jist thinkin' that it was high time we were shifftin' oor tryatin' place a street farther along. Whit wad ye say to Union street?" SALTS IF KIDNEYS OR BLADDER BOTHER Harmless to Flush Kidneys And Neutralize Irritating Acids. Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it. Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again. Jad Salts is inexpensive, harmless and is used by thousands of folks who are subject to urinary disorders caused by uric acid. Jad Salts is a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

Thin People Can Increase Weight. Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying: First weigh yourself and measure yourself. Then take Sargol — one tablet with every meal — for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple instruction. And best of all, the new flesh stays put. Sargol does not of itself make fat, but mixing with your food, it turns the fats, sugars and starches of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood — prepares it in an easily assimilated form which the blood can readily accept. All this nourishment now passes from your body as waste. But Sargol stops the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. Druggists sell it in large boxes — forty tablets to a package — on a guarantee of weight increase or money back.

JELICO IN SUBMARINE LED IN DARING ACT. Spied Out the Lay of the German Ships Before Heligoland Fight. New York, Sept. 24.—That the commander-in-chief of the British North Sea fleet, Admiral Jellicoe, did a daring bit of scouting in a submarine and actually located the German cruisers in their positions behind the Island of Heligoland, the German advance base, before sending his ships against them was the sharp naval battle of three weeks ago, was the report brought to New York by Captain Skelley of the Standard Oil British tank steamship San Lorenzo from London.

Acid Stomachs Are Dangerous. Nine-tenths of All Stomach Trouble Said to Be Due to Acidity. A Physician's Advice on Cause and Cure. A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a deranged condition of the stomach which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is interesting to note that he condemns the use of patent medicines as well as of medical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary bicarbonate of soda, which, by neutralizing the acidity of the food, removes the source of the trouble. He contends that it is as foolish to treat the stomach itself as it would be for a man who stepped on a tack to rub liniment on the foot without first removing the tack. Remove the tack and the foot will heal itself. Sufferers from acidity, sour stomach or heartburn should get a small bottle of bicarbonate of soda from their druggist, and take a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes, if necessary, this being the dose which the doctor has found most efficacious in all cases.

WIFE'S THROAT CUT; AMERICAN IS HELD BY LONDON POLICE

London, Sept. 24.—Charles Henry Weston, formerly of Salem, Mass., is in jail at Richmond, a suburb of London, as the result of the death of his wife, who was found in their house with her throat cut, and who died while being taken to a hospital.

Mrs. Weston, it is alleged by the police, said before her death, that her husband had been inflicted by her husband.

Neighbors, attracted by screams, found Mrs. Weston suffering from several gashes in the throat. Her husband was in the house at the time and he was taken to the police station.

Weston registered at the United States Consulate as an American citizen. Both he and his wife were popular in the American colony, where they were believed to live on the happiest terms.

Salem, Sept. 24.—Charles Henry Weston, reported under arrest in England, is believed to be Charles Henry Weston, formerly of this city, the son of the late Henry Weston of the old-time leather firm of Charles Weston & Son.

Weston, who is about forty-five years of age, left Salem about twelve years ago for England, and a short time after arriving there married a widow, Mr. and Mrs. Weston came to Salem about four years ago, and at that time he attracted some attention by his peculiarities.

SMART LONG-WAISTED FROCK.

will be among the very popular materials for school frocks this season. Silk and wool mixtures are serviceable and pretty, and their effectiveness is enhanced by trimmings of plain white lawn or batiste. This model has collar and cuffs of batiste, one-half yard being required, while the belt is of plain suède. It is made without a lining and has a long, slightly bloused waist. For a girl of average size 4 yards of 38-inch or 34 yards of 44-inch material are required to make the design.

All of the dress may be cut from a fold of the material if it is carefully managed. The back (B), back tunic (C) and collar (C) are laid along the lengthwise fold, and just below these parts, but slightly raised from the fold so that they rest on a lengthwise thread, are arranged the front (A), front gore (J) and back gore (K). The cuff and belt, if made of the dress material, may be cut from the material left above the back, tunic and sleeve.

The long waist first has the under-arm and shoulder seams closed as notched; then the lower portion is gathered to fit into the belt. Sew the square collar to the neck edge and finish with lace or embroidery if desired. Lap right front on left and tack to position at lower edge. The front may be scalloped and finished with button-hole embroidery if a fancier effect is desired. Make and insert sleeves.

Now lap front edges of right front gore and right front tunic section of skirt on the left, with centers even. Large "O" perforations indicate center-fronts; stitch to position. Join sections as notched. Close back seam of skirt and form inverted pleat, creating an slot perforations, bring folded edge to center-back seam and press. Turn hems in skirt and tunic on small "o" perforations. Pleat upper edge of tunic, placing "T" on corresponding small perforations. Arrange tunic on skirt, centers, side seams and upper edges even. Sew to lower edge of waist, center, even, side seams at under-arm seam.

Dainty plaid frock, featuring the long waisted blouse and tunic skirt. Batiste is used for the neat collar and cuffs.

Plaids are so fashionable that they

MARITIME PROVINCES' TRADE WITH BRITAIN

Moncton, N. B., Sept. 24.—That an organized effort should be made by business interests in the maritime provinces to place before the British public information regarding industries in the maritime provinces was urged at a meeting of the Moncton Board of Trade last night.

The secretary of the board was authorized to take up the situation with the department of trade and commerce, Ottawa and to correspond with the British public in view of calling a special meeting of that organization to consider means of bringing the products of the maritime provinces to the attention of the United Kingdom. It was suggested that a booklet should be distributed in the old country.

DO IT PROPERLY

To the Editor of the Times:
Sir,—Evidently those in charge of the soldiers stationed at Partridge Island are either careless or ignorant regarding the proper manner of handling the food supplies. While I am visiting the end of the South Wharf I was surprised to see bread wrapped up in old newspapers and thrown down on the dirty deck of a dirty boat.

It would seem necessary to point out to those in charge that such food should never be wrapped in newspapers as the latter may have been many ways contaminated before coming into the hands of the bread-wrappers. Such a practice is disgusting to say nothing of the liability of spreading disease and I would advise those in charge to secure some good strong canvas bags, (bread-bags) and use them. CITIZEN.

Conspicuous Nose Pores

How to reduce them

Complexions otherwise flawless are often ruined by conspicuous nose pores.

In such cases the small muscular fibres of the nose have become weakened and do not keep the pores closed as they should be.

Instead these pores collect dirt, clog up, and become enlarged.

Begin tonight to use this treatment

Wring a cloth from very hot water, lather it with Woodbury's Facial Soap, then hold it to your face. When the heat has expanded the pores, rub in *very gently* a fresh lather of Woodbury's. Repeat this hot water and lather application several times, *stopping at once if your nose feels sensitive*. Then finish by rubbing the nose for a few minutes with a lump of ice.

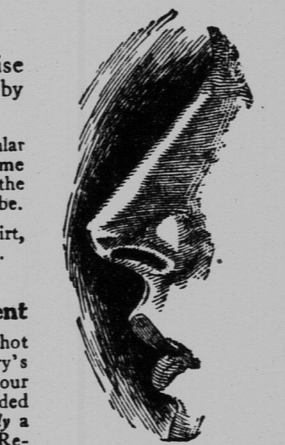

Woodbury's Facial Soap cleanses the pores. This treatment with it strengthens the muscular fibres of the nose pores so that they can contract properly. But do not expect to change in a week a condition resulting from years of neglect. Use this treatment *persistently*. It will gradually reduce the enlarged pores and cause them to contract until they are inconspicuous.

Woodbury's Facial Soap is the work of a skin specialist. It costs 25c a cake. No one hesitates at the price after their first cake.

Do this today—now! Tear out the illustration of the cake below and put it in your purse as a reminder to get Woodbury's and try this treatment. Tear out the cake now. Take it to your druggist today. Begin tonight to get the benefits of this facial soap.

Woodbury's Facial Soap

For sale by Canadian druggists from coast to coast, including Newfoundland.

TWO HOUSES IN EAST ST. JOHN ARE FIRE PREY

Early Morning Blaze Causes Damage of \$4,000 or \$5,000 and Cuts 'Phone Communication

Damage to the extent of between \$4,000 and \$5,000 was done by fire at East St. John early this morning and nothing remains but a small heap of smouldering ashes and a few charred sticks where yesterday were two fine houses.

The buildings were owned by John Neilson, County Police man who lives in the city as a wrestling promoter. He is at present out of town and the exact loss and the amount of insurance carried cannot be ascertained.

The fire broke out in the house occupied as a boarding house, managed by John Sjöstrom. One of the boarders awoke to find his room filled with smoke. He notified his eight fellow boarders and they were able to get out with a few of their personal belongings. County Policeman Saunders hurried to the city on his motor cycle and sent in a call for the chemical engine. It soon arrived on the scene, but the blaze was too far advanced for it to be effective.

In the meantime the house was a mass of flames and the building next door, separated from the other by only a few feet, caught fire and within a few hours was also in the fire grip. The latter house contained a store downstairs, owned by Miss Murray, who lost stock amounting to about \$600 and personal belongings valued at \$200. She carried no insurance. Sjöstrom's loss on furniture, etc., will be in the vicinity of \$1,000, partly covered by insurance of \$500. Upstairs over Miss Murray's shop was the residence of James Hamilton, who lost practically all his belongings and it is understood he has no insurance.

The houses destroyed were situated just beyond what is known as the corduroy bridge, a short distance beyond Kane's corner. They were erected only about a year ago and were good-sized and substantial looking buildings. The cause of the fire is unknown. The quick spread of the fire is attributed to the fact that the walls were finished with wall board.

During the fire, the N. B. Telephone Co.'s cable, which ran within a few feet of the houses, was destroyed for about

soon on the job making repairs and it was expected that it would be in working order by night.

Jemseg, N. B., Sept. 22.—The ministers' conference in connection with the Baptist Association of New Brunswick, assembled on Tuesday afternoon. In the absence of the president, Rev. H. H. Saunders opened the session. After singing, prayer was offered by Rev. Mr. Parker and Rev. Mr. McPherson.

The officers for the ensuing year were elected: Rev. J. H. Jenner, president; Rev. F. H. Wentworth, vice-president; Rev. J. A. G. Belyea, secretary treasurer. Revs. A. J. Archibald and R. M. Bynon were elected to the executive.

Fire on Arabic

Boston, Sept. 24.—According to reports here, a fire occurred on board the White Star liner Arabic at Liverpool on last Sunday. The liner arrived at Liverpool on Sept. 19 from this port and had finished discharging her cargo. She was taking on freight for her return passage to Boston.

The blaze was confined to holds Nos. 1 and 2 and was extinguished before much damage was done.

FOOD IS CHEAP IN ALL ENGLISH CITIES

Government Regulation Put a Stop to Any Unseemly Advances

London (by mail)—Food is cheap in Great Britain and in some cases prices are actually below those ruling before war was declared. The government is regulating the price of all essential staples and every few days a list is published showing the maximum price which a retail store may charge. Sugar is perhaps the most expensive commodity at this time, the price fixed being approximately one cent a pound against 6 cents before the war began. Fish is somewhat more expensive, too, on account of the restrictions in the North Sea, where disasters to shipping due to mines has unnerved fishermen. Fruit is rotting in the markets. In the first place England enjoyed a bumper fruit crop, and owing to the high price of sugar housewives are unable to preserve their usual complement. A few pennies will buy a basket of first-class fruit in London. Meat is little above normal quotations. Cereals are practically unchanged in price compared with those obtaining before the war commenced. Restaurants have not advanced their prices. Should a retail store charge prices above those allowed by the government figures, the stores are seized by the officials. Dairy products are cheap and have not advanced in price. Nearly every day a boat load of eggs, butter and cheese arrives from Denmark.

METHODIST CONFERENCE

Ottawa, Sept. 23.—Sir Wilfrid Laurier, N. W. Rowell, K. C., leader of the opposition in the Ontario legislature, Hon. Martin Barrell, minister of agriculture, and other prominent Ottawa, joined tonight in welcoming to the capital the 250 delegates to the general conference of the Methodist church in Canada, which opened its sessions this morning. In extending a welcome to the delegates, Sir Wilfrid referred to the war, and its causes. "It is a matter of pride to know that we are not the aggressor in the present conflict," he said. "It is a matter of pride that, although we defeat war, we are proud to be in this war because we are fighting for the cause of justice and truth. Records show that when the British empire was still willing to resume negotiations with the Presbyterians regarding church union. He gave an interesting outline of principles of union. In the four years there has been an increase of 28,901 in the membership of the church, the total membership being 308,812, with the number of ministers, 2,099 and number of probationers at 776. There are now 3,889 Sunday schools in the dominion, with a membership of 466,682, an increase of 75,748 in the quadrennium, with an increase of 161 in the number of schools. The Sunday school forces total 429,287, which includes those attending union schools, increase being 81,837. The number who have signed the pledge from 1910 to 1914 is 127,273. Nearly \$1,000,000 was raised in the four years for Sunday school purposes, the actual amount being \$961,074; for missionary work, \$209,886; for all purposes, \$1,469,428. The work of preparing a new hymn book which has taken up about four years has been completed.

TRIAL ENDED BY DEATH

John J. Dallas, Charged With Embroidering of \$50,000, Killed by Train While on Way to Court Philadelphia, Sept. 24.—The trial of John J. Dallas, bookkeeper, charged with embezzling \$50,000 from a wholesale jewelry firm, came to a sudden end when Dallas was killed by an elevated train while on his way to court. Dallas had been on trial for several days and his wife and sister were with him when he was killed. Dallas, on a salary of \$20 a week, owned a handsome home in Ardmore, a suburb, entertained extensively and drove an automobile, and in addition had money in several banks. To account for his prosperity he said he did expert work for outside firms, receiving liberal fees, but witnesses denied this.

ILL WITH APPENDICITIS

Lillian Russell, Actress, is Successfully Operated on Pittsburgh, Sept. 24.—Stricken with appendicitis, Lillian Russell, actress, and wife of Alexander P. Moore, publisher of the Pittsburgh Leader, was operated on at the West Penn Hospital, immediately following the operation it was said by the hospital authorities that Miss Russell was doing as well as could be expected.

30-Day Lay Off, \$100 Fine
 Chicago, Sept. 23.—Use of the "emery ball" or the "sandpaper ball" in the American League is prohibited in a ruling by Pres. B. B. Johnson.
 Managers of clubs were notified that the first offenders will be suspended for 30 days and fined \$100. In addition, the fine in which the ball is used will be set out of the records, provided it is used by the team violating the rule.
 Certain pitchers in the league, it was said, rubbed a small piece of emery paper on the ball, thus distorting the seam. The trick made the pitching over effective, it was said, as it gave the user a firmer grip.

New York Bout.
 New York, Sept. 24.—Two matches between heavyweights have been arranged for a local risk. The first one will be between Sam Langford of Boston and Joe Jeannette, a clever Hoboken boxer, who will have it out in a 10-round battle the night of Oct. 1. Billy Carson has been trying for several weeks to bring these colored "heavies" together.
 In the other scrap Al Reich, a promising young local heavyweight, will go against Jim Flynn in Pueblo, Colo., for

THE TURF
Races Postponed.
 The Grand Circuit racing at Columbus, O., yesterday was postponed on account of rain.
At Charlotetown.
 The track pacing record of the Charlotetown track—2:17 1/4—was broken yesterday by Hilda S., which paced the mile in 2:16 1/2 in the first heat of the 2:19 class. The race, however, went to Miss Akeley. The 2:24 class was won by Mayor Todd, best time 2:18 1/2. In the 2:40 class the fast time of 2:30 3/4 was made by Rex Light, which beat Mother Miller in close finishes.

Was Not Easy.
 Advice by mail from England read to the effect that the champion professional sculler, Ernest Barry, did not have nearly so easy a task beating James Paddon, the Australian champion, in their recent match as was supposed on this side of the ocean. The English reports go to show that Barry, contrary to all expectations, went slightly ahead at the start and held the lead at the half-mile mark by half a length, but that Paddon went up after this and was three feet to the good at the one-mile mark.
 Barry was the first to force the prow of his shell past Hammersmith Bridge in 3m. 34s., which was very fast time, and being pressed hard he tried to take advantage of the tide and in doing so crossed over into Paddon's water and narrowly squeezed out of a foul which Paddon tried to force on him.
 Paddon saw that his rival had gone over too far and pulled harder on his right scull, in hopes of striking, but Barry was informed of his mistake by his pilot, the veteran Tom Green, and also pulled for dear life on his right scull and kept away from the big Australian until he had secured a sufficient lead to enable him to work gradually back to his own station, being favored somewhat by the bend in the river.
 Once back from the Surrey side, Barry showed pace enough at all times to hold his rival at arm's length and at no time did he get closer than two lengths, except when the mixup was averted, it being claimed officiously by Paddon that the boats had touched, but that he did not want to score a win in that manner.
 Later in the race Barry and Paddon were in the rough chop sea and Barry lost his scull for an instant and almost blasted the hopes of his supporters. It was due to his great watermanship and management of the boat that he was enabled to right his craft and keep along, but the eyewitnesses say that the

Deafness Cannot be Cured
 by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be removed and this tube restored to its normal condition, hearing will be destroyed forever. No matter how long you have been deaf, you can be cured by the use of our "Cure for Deafness," which is guaranteed to cure you. We will give One Hundred Dollars for any case of deafness cured by our "Cure for Deafness," free of charge. Send for circular, free.

incident took very little out of him, as he was not behind for an instant after the first mile in the race.
 Barry was four lengths to the good a mile from the finish, but was content to finish 2 1/2 lengths ahead. The time for the race, 21m. 28s., is the fastest with one exception ever made in a sculling race on the Thames course. The record was made in 1908 by Barry when he beat George Towns in 21m. 12 3/8s. Paddon expressed the hope that Barry would row him a return race in Australia, to which Barry replied that he would never row for the championship on other than the Thames course, although he might be tempted to race in Australia for other than the title.
 Paddon's manager was displeased because he did not get any expense money, and contrasted the treatment accorded to other Australians. To this Barry replied that the war cut into his funds badly, and for that reason he was unable to pay expenses.

Defeated Outmet
 Greenwich, Conn., Sept. 24.—Francis Outmet, National amateur golf champion, was beaten by 2 and 1 this afternoon by Grant Peacock, a Princeton University student, in the first round of the Greenwich County Club's invitation golf tournament. Peacock's feat caused a sensation.
 It was the champion's third trip over these links and his tendency to pull his tee shots as well as weak putting caused his defeat. Over the first nine holes Outmet was 2 up. He made a wonderful 3 for the fifth, a par five hole, but spoiled his card with a 6 on the next, a par four hole, having overrun the green under par and the 10th in 3. This made him 2 up and 3 to go, and as they halved the next two holes, Peacock was winner, 2 up and 1 to go.

ISAIAH'S PROPHECY OF WILLIAM'S DOWNFALL
 Theologians, theosophians, Scriptural students, cabalists, Biblical savants and all those versed in mystic lore are always prone to discover in the ancient books and historical documents allusions and intimations of modern occurrences and present day incidents, translating sacred sayings into daily life and interpreting prophetic utterances in the light of modern events, especially when the latter assume universal characteristics and are shared by powerful nations.
 Thus, when Italy attacked the Sublime Porte and wrested away from the latter's grip a strip of land, known as Tripoli, journalists and publicists, your humble servant inclusive, pointed to passages in the Mosaic Book of Numbers, added and augmented by marginal notes and half-splitting comments, which predicted, forecasts the Tripolitan Italian imbroglio, the strivings and contentions of the implicated nations and the gain of one at the expense of the other.
 Similarly, during the savage onslaught and the brutal assaults of the Balkan States both on Turkey and upon each other, wiseacres and wizards, reading between scriptural lines and perusing their numerous addenda, turned into prophets and seers, sealing the Islamic fate and condemning Turkish predominance. In either case, Italy and the Balkan States, the Bible became pabulum for thoughts and the Scriptures food for reflection, manifesting as they would the superiority of Christian conceptions over supposedly Pagan influences and infidel notions.
 The European conflict, termed by some scribblers and scriblers the war of Armageddon (the latter is a misnomer for Megiddo; Zechariah xii, 11 and Sukkah i, 52 b), involves but Christian nations, all followers of the Holy Scriptures, and making it, therefore, above the faculties and capacities of prophets and prognosticators to venture statements and introduce surmises. Daniel was, as a matter of record, pressed into active service and its dreams, visions, calculations and computations exploited and utilized. Nebulous and perplexed, Daniel's references may accurately be deciphered, lacking the proper trend and wanting the right direction.
 The writer of these lines, having but recently translated and elucidated the Books of Daniel and Ezra into English, Hebrew and Yiddish, endeavored, time and again, to find reflections on the European battles, but had to give up the attempt and let Daniel's mystics and mysteries severely alone. Isaiah, however, deals plainly and unequivocally with the details of a horrible carnage that perpetrates his bloody operations upon numerous nations, and the Rabbits

FEELS LIKE A NEW WOMAN
 As Lydia E. Pinkham's Vegetable Compound Dispelled Backache, Headaches and Dizziness.

Piqua, Ohio.—"I would be very ungrateful if I failed to give Lydia E. Pinkham's Vegetable Compound the praise it deserves, for I have taken it at different times and it always relieved me when other medicines failed, and when I feel a woman complain I always recommend it. Last winter I was attacked with a severe case of organic weakness. I had backache, pains in my hips and over my kidneys, headache, dizziness, lassitude, had no energy, limbs ached and I was always tired. I was hardly able to do my housework. I had taken Lydia E. Pinkham's Vegetable Compound on one other occasion, and it had helped me so I took it again and it has built me up, until now I feel like a new woman. You have my hearty consent to use my name and testimonial in any way and I hope it will benefit suffering women."—Mrs. ORPHEA TURNER, 431 S. Wayne St., Piqua, Ohio.

Women who are suffering from those distressing ills peculiar to their sex, should not doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.
 If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

ADDRESS BY MINISTER OF LABOR

(Continued from page 1.)

Delegate Verville, labor member of parliament from Quebec, thought the constitution should be amended to cover the action of the executive, should such questions arise in future.

Delegate Somerville asked for information regarding payment of \$500 to Organizer W. R. Trotter for work organization. He asked if any such work had been done in Saskatchewan, and was told that there had been none such.

After a few further remarks from one or two other delegates, the audit committee's report was adopted.

Hon. Mr. Crothers.

Chairman J. T. Joy, of Halifax, of the committee on constitutional law, reported in favor of having daily printed records concerning reports adopted at each session. The debate on this was adjourned to hear Hon. Mr. Crothers, who gave an address in which he was given an attentive hearing.

"I never had so many things of which I am proud," he said, "as I am this morning. I am proud that my parents were Irish. I am proud that Draper is an Irishman, because I know there'll be no leakage and I am proud that I was born poor. And I am also proud that the best speech given from this platform was by the little Irish girl from New York. But I am especially proud I am a Canadian more than ever at this time. I fully appreciate this opportunity of hearing your views on the important questions before this congress. I shall endeavor to avoid any controversial references because I am your guest. It pleases me to meet so large a representation of labor. You have done a great work for labor, but there is a great work before you.

"You must use eternal vigilance to maintain your rights. Every workman in Canada should belong to his particular organization in the class of labor he works at. What chance has an individual workman? If he is backed up by a few thousand organized fellow workmen, his grievances are more easily adjusted. An organization will attain success in proportion to their securing public opinion with it, and I am glad the Trades and Labor Congress has public sympathy with it.

"Questions of importance find their way to this congress, and the conclusions arrived at here are persistently brought before the parliament at Ottawa. It has been said that capital and labor would always be at enmity, but in my mind this is an erroneous impression for labor to take. It seems to me also erroneous for labor to say it is entitled to all it produces. I think labor and capital should be more of a partnership, should try to work in better harmony. What is today causing unemployment in Canada? We have been expending here \$400,000,000 every year. This means \$80 a piece for every man, woman and child cut off by the war. Do we owe nothing to capital? Consider my last statement in your answer. Therefore it is that labor and capital should work shoulder to shoulder. Only by a union between the two forces are the great resources of our glorious heritage to be developed.

"Some here may not agree, but it is merely a question of private judgment; they have their views—I have mine. In all the fifty-four resolutions before your congress, I didn't find a single word of appreciation for the labor department of Canada. All citizens in this country have a right to criticism—it's the only way to get justice. I am glad you ex-

Business conditions are steadily improving. A prominent business man of this city, who is also a large employer of labor, said this morning in reply to an inquiry from The Times that a much better feeling is manifest and trade conditions are much better than most men had anticipated.

"Perhaps the best test," he said, "of conditions and of public confidence is found in the fact that collections are good. With us they are very much better than we expected."

The speaker also dwelt upon the importance of individual effort. "If," he said, "every one will do his very best to keep busy himself and give as much

LOCAL NEWS

REQUEST

The treasurer of the St. John Protestant Orphan's Home acknowledges the receipt of \$518.75 from W. E. Wallace, Przemysl, executor of the late Caleb R. Palmer, whose home had been in Penobscot of recent years.

DIED TODAY

The death of Mrs. Hannah Mourier occurred this morning at her home, 133 Sheriff street, after several weeks' illness. She was eighty-three years of age, and had lived most of her life in the South End. One son, James, of Lowell, Mass., survives.

BURIED TODAY

The funeral of Joseph Hayes was held this afternoon from the residence of Dominick Hayes, his brother, 147 Elliott Row, to the Cathedral where services were conducted by Rev. M. O'Brien. Interment was in the new Catholic cemetery. The funeral was attended by many friends, and in the cortege were members of the I. L. & B. Society and the Knights of Columbus, local council, in both of which he had been esteemed as a member.

TENTH ANNIVERSARY

A pleasant surprise was last evening tendered Mr. and Mrs. Thomas Murray at their home in Pitt street, when about thirty friends and relatives assembled to honor them upon the tenth anniversary of their wedding. They received a handsome parlor chair as an attestation of the regard in which they are held, and were also the recipients of other remembrances. Refreshments were served, and a very enjoyable time indulged in by all present. The adjutant and Mrs. Parsons felicitously responded to the warm tributes of regard paid to them.

GIVEN A SURPRISE

Adit. Parsons and Mrs. Parsons, of the Salvation Army, who will farewell on Sunday and go to Woodstock after two and a half years in St. John, were given a genuine surprise last evening. They were induced to visit No. 1 Citadel, where a surprise tea had been prepared by members of the corps. A happy evening was spent with speeches by Treasurer Barnes, Mrs. Brigadier Taylor and other members of the corps, as well as by R. H. McIntyre. The adjutant and Mrs. Parsons felicitously responded to the warm tributes of regard paid to them.

**THIRTY PRIESTS AT FUNERAL
OF SISTER LIGUORI IN BOSTON**

The funeral of Sister Liguori, of St. John, for twenty-five years connected with the Carney Hospital, Boston, was held on Thursday morning from that institution. A solemn requiem high mass was celebrated at ten o'clock by Rev. Robert J. Johnson, pastor of the Gate of Heaven Church, South Boston, with Rev. Fr. Lynch deacon; Rev. Fr. Connelly, subdeacon, and Rev. Patrick Lyons, chaplain of the hospital, master of ceremonies. There were thirty priests seated within the sanctuary. The music was by the choir of the Gate of Heaven church, under the direction of Miss Josephine Kenney, with Mrs. Julia Herick, soprano, and Miss Alice Emmet, contralto. Burial was in the Sisters' lot in Holy Cross Cemetery, Malden.

THREE ESTATES IN PROBATE

The will of Miss Sarah A. Lawton was proved. She gives to Martha Clark of Hampton, wife of Jacob Clark printer, three shares of the capital stock of the Bank of Nova Scotia for life and after her death the same to go to her daughter, Sarah Lawton; the rest of her estate she gives to Martha Clark whom she nominates as executrix. She was sworn in as such. There is no real estate; personal estate \$2,300. Clarence H. Ferguson is proctor.

The will of Miss Jennie Eliza Puddington was proved. After disposing of certain personal effects she gives all her property to her brother, David W. Puddington, of St. John, merchant in trust until her niece Margery C. Puddington, daughter of Archer C. Puddington of New York, comes of age, and on her attaining such age the principal to be divided equally among the nephews and nieces of the deceased. Others having filed renunciations, David W. Puddington was sworn in as administrator. There is no real estate; personally \$2,000. R. G. Murray is proctor.

The court took up the matter of the estate of Andrew Garrick, laborer. Deceased, who was a widower, died intestate leaving five children, Bessie L. Garrick of St. John, spinster; Jennie Edythe wife of Thomas W. Chesebrough of St. John, teamster; Peria C., wife of Ewen Williams of Pleasant Point, millman; Lilla Dorothy, wife of John Hamilton, of Randolph, N. B., millman, and Alnetta Garrick of St. John, spinster. The last four renouncing, the first named was sworn in as administratrix. There is no real estate; personally \$1,000. Francis Kerr is proctor.

Przemysl Investment Practically Completed and Communications Cut Off by Czar's Troops

London, Sept. 24.—"All possibility of the Austro-German forces near Przemysl effecting a junction with the other armies further west, has now been executed as the Russians have reached the river Wislok," says a despatch from Petrograd to the Morning Post. The message continues:

"To the south of Przemysl the Russians operations are now being directed with a view to capture of Khyrv, a junction station twenty miles south of Przemysl, which will completely cut off the Austrians' last Galician fortress from railway communication in any direction and give the Russians command of all the routes towards Cracow and the lines passing into Hungary."

"The position now held indicates the rolling up of the Austrian forces right up to Cracow. It is believed here now that the investment of Przemysl has been practically completed and that another week at least will bring news of final crushing of Austro-German forces."

A despatch to Reuter from Warsaw dated Wednesday says:

"The Germans in the northwest of Poland are quitting being weak in cavalry and thus unable to do much reconnoitering. They are strongly fortifying the region towards Cracow and the portions of the country farther north, at the same time, acting entirely on the defensive."

Volzavsk and Makoff they have hitherto been more active but now are entrenching at these points. A German advance on the Ostroleka-Augustoff line has been reported by the messengers."

London, Sept. 24.—A despatch to the Express from Warsaw says that the Russian successes in Galicia are due partly to the refusal of the Austrian Poles to fight against the Russians. Great quantities of arms and ammunition, the despatch says, were voluntarily handed over by the Austrian Polish regiments.

TO CHARGE OF MURDER**

Napanee, Ont., Sept. 24.—The grand jury yesterday found a true bill against Doctor Robinson for the murder of Blanche Yorke.

A Market in France.

Ottawa, Sept. 23.—The trade and commerce department has received advices to the effect that the French government has decreed that frozen meat, oil-cakes, flour, grains, salt meat, potatoes, horses and iodine will hereafter be duty free in France until further notice. The duty on cattle, sheep, and hogs has been temporarily removed from September 9.

German Air Scouting

Copenhagen, Sept. 24.—Zeppelin airships, evidently on reconnoitering duty, have been observed from various places in Jutland, the peninsula forming the mainland of Denmark. The airships passed about sixteen miles outside of the western coast.
