RAIN GIVES WAY TO SUNSHINE. THEY WILL PLAY AGAIN TODAY

Marquard or Crandall Likely Against O'Brien

"WAS ALL IN," SAID MATTY

Both Teams Glad When Yesterday's Game Was Called—Boston Crowd Seat Attendance up Above Record

(Canadian Press) Boston, Oct. 10.—Following a night of rain which extended into the early morning hours, the Giants and Red Sox were prepared today to play off the second game of their series for the world's baseball championship.

Yesterday's nip and tuck struggle which was ended in a tie at 6 to 6, as darkness fell, after the champion teams of the National and American leagues had fought back at each other gamely for eleven innings, brought the contest again to Fenway Park. The score of the first today stood Red Sox one game won, tied, Giants, one game lost, one tied.

Prospects for playing today's game were dubious until an hour or two after sunrise. The sun shone brightly on the desolate grounds at Fenway Park, drying up the moisture to the satisfaction of ground keeper Jerome Kelly, who had earlier begun an attempt to obtain the same result by artificial means. It had rained intermittently all night, at times heavily and the grounds were soggy in spots.

The rain failed to dampen the spirits of a small number of fans who sheltered by boxes, boards and newspapers, kept their places at the bleacher gates, through much of the dripping night. Despite the occasional downpour, they clung to their seats, saying an hour before daylight, that it would surely clear up, and that a game would be played. One man who sat yesterday's game, said he had not seen a game in Fenway grounds in thirty-six hours, only long enough to get shaved. He appeared to be in fairly good circumstances and he came from out of town.

Managers McGraw and Stahl, in common with nearly all their players, were ready to greet the announcement of postponement with satisfaction. Darkness ended yesterday's exhausting struggle and one particularly lame player, who had been pitched for the first time in the opening game of the series in New York last Tuesday, and the one time redoubtable Mathewson, who finished yesterday's game under a severe mental and physical strain.

Expected Matty to Win "Matty" said today, "It was the hardest game I ever went through. I certainly fell all in when it was over. Mathewson's failure to win was most frequently voted by the Boston players as a blow to McGraw's plans.

Managers Stahl also had a problem to solve. With one game tucked safely away, and with Joe Wood pitching in New York, on Tuesday, Boston has to win three games to succeed to the championship. But Stahl has set up four pitchers in two days, Collins, Hall and Bedient figuring successively in the Boston box yesterday.

Marquard was regarded as the best available pitcher for New York by baseball sharpshooters who were of the opinion regarding Buck O'Brien of the Red Sox twirlers. These will probably be the pitching selections for today's game. Each of these two men is primed to pitch in the third game of the series. But it had been expected that the third game would be played in New York and it was McGraw's object to bring Marquard into the box before a home crowd.

"TWIN FREAK" IS DEAD

Millie Christine Was Apparently Two Separate Beings in One Body

Wilmington, N. C., Oct. 10.—Millie Christine, said to be the greatest "twin freak" of human anatomy, exhibited all over the world, once presented to Queen Victoria, and possessing apparently two separate and distinct beings with one body, died yesterday at the old home in Columbus county, this state, where "they" were born in slavery and were subsequently educated and exploited in many countries, a puzzle to scientists and anatomists.

AFTER FIFTY-EIGHT YEARS

Bomb Hurler Into Russian Town in Crimean War Exploded the Other Day

Petropavlovsk, Russia, Oct. 10.—A citizen of this town was wont to show his friends a bomb which was thrown into the town when the British attacked it during the Crimean war, and to laughingly remark that English bombs are not much good, as this one failed to explode. The relic was kept in the bathroom. A servant put it into the empty Russian stove of huge size. Suddenly the bomb burst the other day, wrecking the house, but causing no casualties. It had been the best of the joke after fifty-eight years.

THE DAY'S WAR NEWS

(Canadian Press) Sofia, Bulgaria, Oct. 10.—The Bulgarian premier and minister of foreign affairs, I. E. Gousheff, declared this morning that he did not yet despair of war being averted at the last moment. The council of ministers held yesterday, he said, had not reached any decision, and the exchange of views between the Bulgarian government and the cabinets at Belgrade and Athens was continuing. As Montenegro had begun hostilities against Turkey, he said, the naturally has no more to say in the matter, in any case Bulgaria's decision would not be delayed.

Greek People Want War

Athens, Greece, Oct. 10.—The Greek premier, Eleftherio Venizelos still hopes for peace. Addressing a great crowd which had gathered outside his residence late last night, he said: "I still hope that peace will be maintained. Our allies do not desire to make conquests and what we ask for also corresponds to that of the neighboring countries. It represents a first and indispensable condition for the peaceful existence of the Balkan people and the Ottoman empire."

Constans Intervention

Paris, Oct. 10.—A scurrying letter of constans was sent today to King Nicholas of Montenegro by Baron D'Estournelles de Constant, secretary of the international committee for the delimitation of Montenegro in 1880, and who was awarded the Nobel prize for peace in 1909.

WOODSTOCK'S FINEST RESIDENCE BURNS

The Beautiful Home of John Dickinson Destroyed in Early Morn

Family Able to Save Only a Little Furniture—House, Barn, Outbuildings and Harvest of Wm. Armstrong at Lakeville Lost

(Special to Times) Woodstock, N. B., Oct. 10.—The beautiful residence of John Dickinson was destroyed by fire early this morning. The fire when first seen had a good start, and it was impossible to save the place. The cause, it is supposed to have been from an open fireplace.

It was half past four o'clock when the fire was seen. The family were all sleeping and had only time to get out, not saving any wearing apparel. Only a few pieces of furniture were saved. The house was a shabby but fine place in town, and had been built by the late John Dickinson.

Fire on Monday evening destroyed the residence, barn and outbuildings of William Armstrong at Lakeville. The flames were a complete sweep, nothing whatever being saved. Mr. Armstrong's loss is very heavy as he farmed extensively and the crops had been gathered and stored in the winter.

He had only a small insurance.

WHERE ARE THE FLAG TRAPPERS?

Is Canada Rushing Headlong To Annexation?

Her Imports From United States Are Now \$1,000,000 a Day as Compared With Half That Three Years Ago

(Canadian Press) Washington, Oct. 10.—Exports from the United States to Canada are now averaging \$1,000,000 a day. Three years ago they averaged a half million dollars a day, and a dozen years ago they averaged a quarter of a million dollars a day. The August statement of exports just completed by the bureau of foreign and domestic commerce shows that the value of merchandise exported to Canada during the quarter from January 1 to August 31, 1912, is practically \$244,000,000, or to be exact, \$244,721,771.

In the corresponding eight months of 1912 the value of merchandise exported to Canada was \$120,428,382, or an average of \$1,505,355 a day, the total value of exports to Canada during the period of 1909 the value of our exports to that country was \$67,200,000, or an average of a little more than \$770,000 a day. This large growth, in the exports to Canada in recent years—an increase of about 250 per cent in three years, occurs chiefly in bituminous coal, automobiles and other carriages, manufactures of steel, iron, lumber, corn and manufactured cotton.

NATURAL GAS BRINGS MONCTON ANOTHER LARGE INDUSTRY

Underwear Company Capitalized at Half Million—L. C. R. Pass Inquiry Tomorrow

Moncton, Oct. 10.—The Times today says: "A group of enterprising capitalists and business men in New Brunswick and Halifax have associated themselves to take advantage of the cheap power and central location at Moncton to establish another industry in this flourishing city and share in meeting the ever-increasing demand for woollen underwear."

UNDERWEAR COMPANY CAPITALIZED AT HALF MILLION—L. C. R. PASS INQUIRY TOMORROW

The company has been incorporated under a dominion charter. E. A. Reilly, solicitor, is in charge of the legal side of the company. The incorporators who took out the charter are William Givan Jones, Alexander B. Macdonald, James Cabot Lodge, James McDonald Cooke, Richard Freeman Kinners, Henry Clifford Charter and Albert Reilly, who are authorized to carry out the initial incorporation, in view of placing the company in the hands of the financial interests behind it.

HE DIES A PAUPER

Berlin, Oct. 10.—Death has come in a pathetic circumstance to Alvin Hupph, a broken-down old comedian, who had been living in semi-destitution after a once prosperous career on the stage. His hair grew white, Hupph found it in vain to get employment and after playing small parts in the lower class provincial theatres he returned to Berlin to starve.

HETTY GREEN SELLS HER CHICAGO REAL ESTATE

Chicago, Oct. 10.—Hetty Green is rapidly disposing of her Chicago property by sale or long term lease. Two years ago her Chicago holdings were estimated to be worth \$5,000,000. Now she has left only a few scattering pieces worth about \$500,000.

LABOR LEADERS CASE

Washington, Oct. 10.—Charging that error was committed by Justice Wright of the district supreme court, in allowing the trial on contempt of court to proceed before the testimony had been concluded from a referee, Samuel Gompers, John Mitchell and Frank Morrison, labor leaders, yesterday filed a bill of exceptions with the supreme court. Their case is now on its way to the district court of appeals.

ALL WANT TO HEAR CARUSO

Berlin, Oct. 10.—The seats for the first Caruso performance at the Royal Opera House have already been applied for more than ten times over. No fewer than 60,000 people have sent in their names as willing to pay the special performance price, and the management of the opera is in doubt, as to how to act, it being possible that the tickets will have to be distributed by lot. The Caruso mania is the more remarkable as the performances have not been advertised, indeed, have barely been mentioned in the newspapers.

LA MARQUISE de FONTENOY Russian Prince Gets Wealthy Bride—The Vacant German Embassy in London—Lord Cranworth as Author

Emperor Nicholas has given a reluctant consent to the marriage of his young kinsman, Prince Alexander Romanoffsky, fifth Duke of Leuchtenberg, to Marianna Friedlander-Fuld, daughter of an enormously wealthy Berlin privy councillor of that name and who, though a Lutheran, is of Jewish origin. The Czar, however, stipulates that the marriage shall be of a morganatic character; that is to say, the bride shall be neither Princess Romanoffsky, nor Duchess of Leuchtenberg, but will receive, either from the Czar, or perhaps from one of the many petty German sovereigns, the title of baroness or countess with some other name, both of which will be born by the children of the union who, as of morganatic birth, will be debarred from the succession to their father's name and honors.

The duke, who is far from rich, and therefore glad to marry a great heiress, is a captain of the Russian Hussars of the Guard, an A. D. C. of the Czar, a knight of the Order of St. Andrew's, and is twenty-nine years of age. He is the eldest son of the late Duke George of Leuchtenberg, who died in Paris last summer, by the latter's first wife, Duchess Therese of Oldenburg. The late duke afterwards married Princess Stana of Montenegro, who, however, divorced him and married Grand Duke Nicholas Nikolaevitch, the late fact generalissimo of the Russian army.

Young Duke Alexander of Leuchtenberg is the senior descendant of Eugene de Beauharnais, son of Empress Josephine by her first marriage and stepson of Emperor Napoleon. It may be remembered that Eugene married a daughter of the King of Bavaria, bestowed upon him the Bavarian dukedom of Leuchtenberg. His eldest son entered the Russian army and married Grand Duchess Marie, favorite daughter of Czar Nicholas I, who created him Prince Romanoffsky. Duke Alexander is his grandson and principal heir.

With regard to the German embassy in London, now vacant through the sudden death of that most masterful and able of German diplomats, Baron Marschall von Bismarck, the only three men mentioned as likely to be appointed to the post are Count John Bernstorff, German ambassador at Washington, who married Miss Jeanne Luckesmyer of New York; Baron Wilhelm von Stunna, who is secretary of state for foreign affairs in the Wilhelmstrasse, at Berlin and whose uncle, Baron Ferdinand von Stunna, is married to Miss Pauline Hoffman of New York, and Prince Hermann Hatzfeldt, formerly secretary and chargé d'affaires at Washington, and whose mother was Miss Helen Moulton of New York.

The Inconsistent Sex By RUTH CAMERON

W HICH is the inconsistent sex? The older I grow, the more I protest against the accepted answer to that question. Women, to be sure, are very inconsistent about some things, but if anyone can point out a greater inconsistency in the feminine character than the average male shows in the discrepancy between what he thinks he likes in a woman and what he actually likes, I shall be ashamed for my sex.

Once upon a time there was a young woman who dressed her hair with Parisian simplicity, which was not becoming to her. She did this because her husband had always told her that he disliked anything in the nature of rills and puffs, that he could instantly tell when a woman had them on, and that he thought they were always disgusting.

Now every day a girl friend, who was visiting the woman, persuaded her husband to let her do the latter's hair in fluffy ruffles style. The result was surprisingly becoming, but the husband insisted that she must take it down before her husband came home as he would not approve. Finally, however, she was persuaded by the author of the new hairdress not to change it. "I bet he'll like it," said audacious one. "You don't know him," said his wife.

But as it proved she knew him better than she knew his hair, she was soon to learn that she was wrong. "Why how nice you look dear. What have you been doing to yourself? It's that gown, I wish you'd wear it every night."

A doctor's wife told me she once adopted all her husband's suggestions as to needless shoes, needless corsets, shapeless dresses and needless hair, and never saw that she wasn't delighting his eyes until she heard him entreat her to change. Now every day she gets the opposite of his suggestions to her.

Again, men will almost invariably tell you that they dislike any sort of perfume on a woman, and yet they cluster like bees about the attractive woman whose affection of some particular fragrance is one of her attractions.

It is not just in little matters like this that men do not know their own minds. Indeed, no man will describe his ideal woman to you one day as a quiet, unassuming, simply-gowned girl with some intelligence and character, and the next day will throw himself at the feet of some underbred, over-dressed creature with about as much intelligence in her head as in the pulps that cover it.

Which really deserves to be called the inconsistent sex? I wonder. No, on second thought, I don't.

HAD BAD SORE FOUR YEARS Zam-Buk Has Healed It. Mrs. Wilson, 110 Wickson Ave., Toronto, says: "About four years ago a sore spot appeared on the right side of my face. This spot increased in size until it became about half an inch in diameter and very painful. I went to a doctor, but the ointment he gave me did not have any good effect. The sore continued to discharge freely, and was most painful. I had it cauterized, tried poultices, and all kinds of salves, but it was no good, and I continued to suffer from it for four years."

Lord Cranworth, whose book entitled "A Colony in the Making," published by British Africa, contains a number of references to ex-President Theodoros of the Somali rebellion, was defeated in single combat in the New Forest by Prince Edward, afterwards Edward VII, who subsequently pardoned him and entrusted him with high office. The arms granted by Edward to his defeated adversary are still borne by the Gordon family of which Lord Cranworth is the chief.

Lord Cranworth served through the South African war, married, in 1903, Miss Vera Ridley, a niece of Lord Ridley, and one of the prettiest girls of her season, and is very popular among the English colony in East Africa, where he is an extremely important member of the community. He is well known as an African traveler, and probably knows more about the remote districts of Abyssinia than any other Englishman now living.

The Chatham World says—Wm. Russell of Chatham, in fact than on Tuesday, says he is going to carry block and tackle with him on Sunday out of town, in the Indian town bridge road. He lost two jobs of this kind last Sunday, he says, and saving the necessary rigging with him.

HERE'S ANOTHER JOLT.

Tory papers in St. John and Fredericton are gleefully quoting a statement of the Canadian world that potatoes there are selling at \$1.75 a barrel and the farmers get \$1.50. The truth of the matter is, however, by the Chatham Gazette, which says—

"If the arguments of the Standard had no groaning foundation in fact than did those of the World, the Telegraph should be awarded the honors in this potato contest. Potatoes selling here for \$1.00 per barrel and are being purchased right along at this price. The World could have ascertained the price of potatoes here had it read The Gazette more carefully."

SALUTE TO REGIMENTAL ORDER.

The following regimental order for the new Brunswick regiment Canadian artillery was issued by Lieut. Colonel Baxter.

St. John, N. B., 10th October, 1912. Pursuant to Divisional Order No. 425 the 8th day of October, 1912, a salute of 15 guns in commemoration of the centenary of the death of Major General Sir Isaac Brock at the battle of Queenston Heights, will be fired from Donchester Battery, at noon on Saturday the 12th inst. This service will be performed by No. 2 Battery, strength of detachment to be as authorized by P. A. & R.

HARVESTERS' EXCURSION.

Advices from the west indicate that the demand for labor is more urgent than it has been at any time since the harvest commenced. This is consequent upon the fact that a greater number of men are required to assist in the work of gathering the immense crops, which are the greatest in Canada's history.

It will be readily understood that the great task of gathering the crops requires a greater amount of assistance than the mere work of cutting. At the present time there is work for 20,000 men to help in harvesting, and the wages are higher than ever before paid. The extra help cannot be provided in the west, and for the purpose of helping to meet the requirements the Canadian Pacific railway will run a Harvesters' Excursion from St. John and points on its line in New Brunswick on Oct. 14. The rates from all points will be \$12.00 going to Winnipeg and \$18.00 returning. Those from other points in the province will come to St. John or nearest junction point with C. P. R. Adv.

DEFINED.

"Will you have a bipinose or a monoplane?" asked the salesman. "What's the difference?" "With a monoplane I believe you hit the earth a little quicker when the smash comes."

When baking potatoes prick a few holes in the skins. This will prevent them from bursting when in the oven.

MOVE BY NORWEGIAN CANNERS OF SARDINES

Christians, Oct. 10.—Some thirty firms of sardine tilters at Stavanger, representing a yearly production exceeding half a million chests of tins of sardines, have established a common sale agency in that town. The new development is supposed to be connected with the Watson case, which was brought before the English courts, the decision in which is thought to have made it difficult for Norwegian firms to hold their own individually.

ONE OF MISSING \$10,000 BILLS PAID TO ROYAL BANK

Havana, Oct. 10.—The missing \$200,000 from the National Bank of Cuba which was mailed to the Park National Bank in New York was stolen here, as one of the listed \$10,000 bills has been found. It now seems certain that the money was stolen either in the National Bank of Cuba or in the Havana post-office.

The Royal Bank of Canada, a branch of which is located in Havana has notified the National Bank of Cuba that it has in its possession one of the missing \$10,000 notes, which formed part of a large payment made by the latter to the former bank on October 5. The note was not covered at once as the package in which it was contained was not opened for some time after receipt.

ABDUCTION OF GIRL BY INDIAN ON ST. MARY'S RESERVE

Agent to Take Matter up—A Court Case Over Valley Railway

(Special to Times) Fredericton, N. B., Oct. 10.—It is understood that legal proceedings will be taken against an Indian who recently abducted a fifteen year old girl from the St. Mary's reserve. Indian Agent Smith has been advised by the department to take the matter up. As the alleged offence was committed in Victoria County, proceedings will have to be instituted there.

The dispute New Brunswick is now digging out the slip at Temple's Landing. Deputy Sheriff Timmins visited Kingsclear yesterday and served papers on Havelock Kelly and Delaney Allen. It seems that they have a dispute with the St. John Valley Railway Company over the right of way and a judge's order has been secured to enable the company's employes to go upon their lands. It is likely the case will be submitted to arbitration.

John T. Jennings has resigned as chairman of the publicity committee of the board of trade.

"WONDER DOCTOR" FAILED TO SAVE THE CHILD'S LIFE

Remarkable Story of a Woman's Credulity—Practitioner Sent to Prison

Berlin, Oct. 10.—A remarkable story of feminine credulity is reported from Neukölln, a suburb of Berlin. A simple carpenter, Gabriel, who had made a name for himself as a "wonder doctor," was alleged to be capable of working miracles. In despite the woman told her husband the child was brought to the hospital bed the medical authorities to suspect exceedingly careless treatment at home. Inquiry was made through the police, who were scarcely prepared for what they discovered.

RECENT WEDDINGS

A quiet wedding took place at the St. James church rectory last evening, when the Rev. H. A. Cady united in marriage Sergeant George Robert Baxter, one of the most popular police officials of this city, and Mrs. Melissa Caldwell, of Cumberland Bay, Queens county. The happy pair were attended by the bride's sister, Mrs. H. E. Brown, and Mr. Brown, Mr. and Mrs. Baxter will reside at 108 St. James street.

Moncton, Oct. 9—(Special)—A pretty wedding took place this evening at the home of Mrs. N. L. Rand, Campbell street, when her daughter, Miss Minnie, was united in marriage to J. S. Mann, manager of the Bank of New Brunswick at Hantsport (N.S.). The ceremony was performed by Rev. J. L. Batty, pastor of Central Methodist church. The bride, who was given away by her brother, John C. Rand, was attired in duchess satin, cut crystal ornaments and point lace trimmings and carried a bouquet of white roses. She was attended by Miss Ruth, a sister of the bride, acted as flower girl. Mr. and Mrs. Mann left on a wedding trip to the upper provinces. On their return they will reside in Hantsport.

At the home of Wm. Corbett, South Bay, yesterday afternoon Rev. B. H. Noble united in marriage Miss Ida Armstrong, of Boston, formerly of Armstrong's Corner, Queens county, N. B., and Edward Dunn, of this city. The bride wore white satin with veil and wreath of orange blossoms and carried a shower bouquet of white roses. She was attended by Miss Mary Morrison, who wore pale blue crepe-de-chine and carried a bouquet of carnations. Edward Armstrong, brother of the bride, acted as best man. Following the ceremony luncheon was served and Mr. and Mrs. Dunn left on a honeymoon trip to Montreal and Toronto. They received a large number of beautiful presents.

The wedding of Miss Greta May Lunn, daughter of Captain John P. Lunn, of Albert, N. B., and Zen William Graves, of Moncton, took place at the home of the bride's parents yesterday. Miss Bertie Graves was bridesmaid, and Edgar B. Wilson of this city was groomsmen. Miss Rebecca Farley played the wedding march. Mr. and Mrs. Graves will leave for the west in the spring to locate.

KINGS COUNTY FAIR. The annual fair and exhibition of the Kings County Central Agricultural Society was held at Hampton yesterday. The attendance was very fair, and some of the exhibits were not as good as those of last year. The display of apples was very good, and the quality of the cattle, horses, sheep and swine, and the agricultural and horticultural entries were of the highest order.

The Highest Expression of Costume Stylishness for Ladies and Misses

The magnificent assemblage of suits to be seen in this department will meet with the instant approval of the most critical observer. There has been long preparation and careful elimination of mediocre models, in order to make this exhibit perfectly meet the requirements of our costume patrons.

The majority of suits this season incline to plainness, but the lines are beautiful in their symmetry and exactness of detail. Narrow skirts still prevail, but permit of perfect freedom in walking by the clever introduction of let-in pleats, which are carefully stitched down to better preserve the present straight line effect.

Ladies' Costumes, in grey and fawn mixed tweeds, brown and myrtle cord velveteens and whipcords, serges, chevots, ratine, in black, navy, purple, brown, fawn, reseda, bronze etc. Sizes 34 to 44. Prices \$12.75 to \$40.00. Special values at \$12.75 and \$25.00.

Also grey, brown and blue Shot Silk Costumes, at \$55.00 and \$65.00. Misses' Costumes, many Norfolk style, in ratine, serges, whipcords, chevots, in a great range of new shades; also grey and fawn tweed cord velveteens, in myrtle and brown. Ages 14, 16, 18. Prices from \$12.75 to \$25.00.

AMUSEMENTS IN ST. JOHN: WHAT THE PLAYHOUSES OFFER

EXCELLENT ATTRACTION AT UNIQUE. One of the most interesting programmes of motion pictures seen in St. John for some time was presented at the Unique Theatre yesterday. The principal feature was a magnificent portrayal of two parts of The Merchant of Venice, by the Theatre Co. No better picture of this nature has ever been given in St. John and it is decidedly worthy of patronage. The play is given by Mr. Hurley on the subject greatly enhances its interest, it not only being a treat dramatically, but a scholarly interpretation of the famous tragedy. A pretty scene and a western comedy make up the balance of the programme.

BURGLARS GET \$12,500

Johannesburg, Oct. 10—Burglars made a haul of \$12,500 worth of jewelry by an ingeniously-planned raid on the premises of a jeweller, according to a report from Jeffer. The premises had been used as a bank and included a strong room. The proprietor went away for the week-end on Saturday, requesting the police to keep a special watch on the shop. On his return he found the wall of the strong-room had been broken sufficiently to admit the passage of a man, and that the place had been ransacked, the floor being littered with empty jewel-cases and discarded jewelry of small value. The front door which, in addition to having an ordinary heavy lock, also had a Yale lock, showed no trace of having been tampered with. The back door was secured by two heavy iron bars, which were not displaced, and the windows had also iron bars, none of which was interfered with. There are hotel bed rooms over the premises, and the occupants of these say that they did not hear a sound. The burglar must have been some hours at work and, fearing the existence of steel lining to the strong room, brought detonator and dynamite, which they left behind. They also brought gloves, so as to avoid leaving finger prints. The gloves were turned inside out by a wire, and bloodhounds were given the scent, but they simply rushed into the middle of the street and commenced to gambol.

INSURANCE SCHEME MEANS 1,500 EMPLOYES

German Project Cause of Trouble Over Discrimination Against Women. Berlin, Oct. 10—Owing to the extension of the German national insurance scheme to employees of private offices, which will come into operation on January 1 next, 1,500 new officials are to be created by the government to deal with this branch of the work, of whom 500 are to be women. These 500 women employees, however, although they will have to pass a government test of efficiency, are to be discriminated against inasmuch that they will not be considered under the direct employ of the government, will receive no pension upon retiring, and can be discharged at the pleasure of the head of the department. The Commercial Union of Women Employees have entered a vigorous protest against this differentiation of treatment.

Exhausted Nerves Sleepless Nights

Continually Grew Worse Until Dr. Chase's Nerve Food Restored Vigor and Strength.

Mrs. Campbell. What misery to lie awake nights and think of all sorts of things without being able to get the rest and sleep which is necessary to restore the nervous energy wasted in the tasks of the day. This symptom of sleeplessness is one of the surest indications of an exhausted nervous system. You must have sleep or a breakdown is certain. Dr. Chase's Nerve Food feeds the feeble, waxes nerves back to health and strength. In a few days you obtain the natural, restful sleep which helps so materially in restoring vitality to the nerves and strength to the whole body. Mrs. Sarah Campbell, 108 Alma street, St. Thomas, Ont., writes: "For months I was so bothered with nervousness that I could not sleep nights. There were other symptoms of exhausted nerves, but none caused so much misery, and I found myself continually getting worse. I began using Dr. Chase's Nerve Food, and it was not long before I noticed great improvement in my health. It built up the nervous system wonderfully, strengthened the nerves and enabled me to rest and sleep well." Dr. Chase's Nerve Food, 50c a box for \$2.50, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

DOCTORS GIVE THEIR BODIES FOR SCIENCE

Two Hundred on Long Island, New York, Agree to Dissection.

New York, Oct. 10—With the object of breaking down the prejudice that exists against autopsies, two hundred prominent doctors, members of the "Associated Physicians of Long Island," have pledged their bodies for purposes of dissection. This action was taken at a meeting of the association held on Hoffman Island. The members of the association had been the guests of Dr. Joseph P. O'Connell, health officer of the port. They went down the bay for a sail, visiting the various islands, and then returned to Hoffman Island, where the meeting was held. Some time ago the question of doing something that would make for more autopsies in the interest of science was discussed by the society. Medical and surgical science, it was urged, had been benefited by autopsies performed, where death was caused by some not fully understood disease than through any other medium. It was agreed that some action should be taken that would tend to show to the public at large that an autopsy was of benefit to the living and could not hurt the dead. A committee was appointed, with Dr. William A. Browning, chairman, to look into the matter. At the meeting this committee presented a report which was adopted, pledging the members to do dissection in the interest of science.

ROOT CULTURE

In a paper read before the senate committee on agriculture and forestry, John Fister, farm superintendent at Macdonald College, Quebec, takes the ground that dairy-men and beef producers find that when roots and fed animals keep in better condition, and the flow of milk and the production of flesh increase with lessened cost. Poultry keepers and hog raisers find that when there is no grass, roots form the best and cheapest substitute. There is nothing fed to animals that is more relished. Roots appear to act as a tonic and help to make all dry feed palatable. Mr. Fister says that the average yield of roots over Canada is 402.38 bushels an acre and that the yield secured at the Macdonald College farm was more than 1,000 bushels an acre. He goes on to describe how large yields may be secured in every province of the dominion and then tells how to successfully harvest and store the crop. This paper, which is issued in pamphlet form for free distribution by the Publication Branch of the Department of Agriculture, Ottawa, concludes by saying that the greatest success in growing roots will be obtained when the following are observed: A systematic rotation of crops; roots to follow a fresh clover sod; manure once in the rotation; thorough cultivation in preparation for the crop and after the roots are sown.

STRANGE TRAIN ACCIDENT

Train Hits Trunk. Causes Panic, One Man is Cut in Two

Paris, Oct. 10—An accident without parallel occurred at the Austerlitz station of the Orleans line, in the heart of Paris. Two trains were due almost at the same moment. The first was a local train from Juvisy, driven by electric power. The platform was filled with a dozen hand-trucks, piled with heavy luggage, known by the name of "devils." One was top-heavy, and on being shaken by the vibrations of the incoming train it spontaneously rolled over the edge, just in front of the engine, which sent it flying like a projectile, with terrific force, into the middle of the other trucks, round which had gathered a group of porters. The various articles were sent flying in all directions, and the men, seized with panic, dashed into the six-foot way on the opposite side of the platform, without noticing the Toulouse express coming in. The engine caught one man and cut him in two and injured seven others more or less severely. Fortunately speed had been reduced.

SHE SUFFERED TEN MONTHS

Mrs. Blankenship Tells of Her Restoration to Health by Lydia E. Pinkham's Vegetable Compound.

Elliston, Va.—"I feel it my duty to express my thanks for what Lydia E. Pinkham's Vegetable Compound has done for me. I was a sufferer from female troubles and had been confined in bed over one-third of my time for ten months. I could not do my household work and had fainting spells so that my husband could not leave me alone for five minutes at a time. "Now I have been restored to health and it has come from taking Lydia E. Pinkham's Vegetable Compound. Whenever I see a suffering woman I want to tell her what this medicine has done for me and I will always speak a good word for it."—Mrs. ROBERT BLANKENSHIP, Elliston, Va., Montgomery Co.

Was Helpless—Now Well. Trenton, Mo.—"About two years ago I had female trouble and inflammation so bad that I was literally helpless and had to be tended like a baby. I could not move my body or lift my foot for such severe pains that I had to scream. I was very nervous and had a weakness. "Lydia E. Pinkham's Vegetable Compound has helped me to such an extent that I think there is no medicine like it for female troubles. I am up and able to do my work again and I give you full permission to publish my letter for the sake of other suffering women."—Mrs. W. T. PURNELL, 320-10th St., Trenton, Mo.

DARKNESS ENDS SECOND GAME; A TIE AT END OF ELEVEN INNINGS

Boston, Oct. 9.—The second contest of the world's series between the Boston American Leaguers and the New York Nationalists today went eleven innings to a tie score of 6 to 6, when darkness put an end to the battle that kept 30,000 spectators on the edge of keenest excitement throughout every inning.

With one victory registered for the Red Sox, Manager McDrew sent out his star twirler, Mathewson, to capture the second game for the Giants. Mathewson has been rested for about two weeks to win the first game he twirled, but tonight the Red Sox will gladden over their one victory away no game lost, with the dreaded Mathewson worn out with a hard-pitched eleven-innings game.

The Speaker, the Red Sox middle fielder, furnished the dramatic climax in the contest, where fortune played fickle favor with first one and then the other team. The ninth inning found the Red Sox and the Giants locked in a tie score of 5 to 5. The Red Sox left hander Collins had been driven from the box and Hall sent in to relieve him. Merkle smashed out a three-bagger in the tenth inning and the home club host was in gloom when he scored on a sacrifice hit.

Speaker's Home Run.
In the falling light it was difficult for the Red Sox to follow the course of Mathewson's big drop and New York felt confident. Yerkes and Becker swung back to the bench and the big crowd looked to Speaker. The trio of Giants' outer gardeners moved and sent a fast inshoot up to the plate. Speaker gave a wicked swing and the ball was hurtling far over Becker's head in center. Speaker rounded first, then second and raced to third. The ball caromed from the back fence and Becker missed it and threw to Shafer, who momentarily juggled it. Speaker hesitated at third, then sped for the plate and slid under Catcher Wilson, who juggled Shafer's relay throw, and tied the score, and the crowd went wild. To make sure that he had touched the plate, Speaker returned and touched the plate a second time before Wilson recovered the ball.

Boston Made a Flying Start.
Red Sox fans were not loath tonight to give the Giants credit for a game fight. The Bostonians took three runs by batting Mathewson hard, but the Giants, undismayed, fought back and by peppering away as Collins' delivery picked up a run in the second and another in the fourth inning.

Boston talked another in the fifth inning, but New York was not to be denied, and when Lewis dropped Snodgrass's fly at the opening of the eighth inning, they started a batting bee that caused Manager Stahl to hurry Hall to Collins' relief. Three runs were already on the plate on an error, a single and two doubles, which gave New York a lead of one run.

The Giants held their lead but a moment for the Red Sox attacked Mathewson's drop curve savagely and coupled with an error by Fletcher, the tying run was sent over the plate. Then came the exciting tenth, with Merkle's hit and Speaker's mighty smash to the center field fence.

Fletcher Made Three Costly Errors.
Fletcher was broken-hearted tonight over his poor game at shortstop for New York. Two of his three glaring errors added materially in the making of runs for the Red Sox.

HE PITCHED GREAT GAME

Wagner starred at shortstop for Boston, accepting ten chances and executing a brilliant play in the ninth inning when on the dead run he speared Fletcher's grounder with his gloved hand, turned and with rifle shot speed threw it to Stahl, who took it with one hand and nailed Fletcher at first base.

There was an unusual bit of base stealing in the game for a world series contest, five bags being stolen. Of these Hooper stole two and Stahl one for the Red Sox; while Snodgrass and Herzog each beat Carrigan's throws.

Hooper, for the Red Sox, had a field day. He knocked out three hits, stole two bases, scored once and gathered in three runs in the outfield. Murray and Herzog were heavy hitters for the Giants. Murray duplicated his telling work of yesterday with the stick by hammering out a single, a double and a triple. Herzog also garnered a single, two-bagger and a three-bagger and sent up a sacrifice fly opportunely.

Mathewson's control was perfect. He did not issue a base on balls, and fanned

four men. Doyle played a scintillating game as second for New York. The first firework in the game was set off immediately Boston went to bat. Hooper opened with an infield hit to Mathewson and beat Matty's first effort. He stole second. Meyer's throw being a little wide. Fletcher then made his throw to first, muffing Yerkes' liner. Speaker came to time with a bunt which Mathewson failed to field, and let run along toward third base. Hooper and Yerkes moving up. The best Lewis could do was to drive a bounder to Herzog, who flamed the ball to Meyers at the plate, forcing Hooper. Gardner hit one through the pitcher's box, which Mathewson could not hold, and Doyle, running in, scooped up the ball and threw Gardner out while Yerkes came across the plate with the first run of the game.

Stahl swung viciously at one of Mathewson's outcurves and drove it to left for a single, sending home Speaker and Lewis. Doyle took Wagner's high fly, ending the inning.

The Red Sox rooters sang, while the

H. Price Webber Helped Out Fellow Actor—A Generous Act

The older citizens of St. John may easily recall the days when H. Price Webber's appearance at what is now the Michel Theatre was an annual event of interest. Mr. Webber's long career on the stage is one which no actor living can claim, he having played every season since 1877. During this time he has established himself in the hearts of his fellow professionals through his gentility and kindly spirit.

Upon one occasion a certain well known opera company of over fifty members visited St. John and after two weeks of the engagement, during which it stormed every day, they found themselves without funds sufficient to carry them to New York. The opera manager meeting H. Price Webber on the Victoria Hotel explained his predicament and lamented his not being able to arrive in New York in time to fill an engagement which promised good profits. With the hotel clerk as witness, Mr. Webber peeled off five one-hundred dollar bills, the amount required, and gave to his fellow manager, with only a hand shake as security. Telephone and telegraph wires got busy and after holding the American boat a half hour extra, in which to load the scenery, the company was sent on its way rejoicing. In three weeks Mr. Webber received a bank draft for the entire amount.

After the St. John fire in 1877, a number of theatrical performances were given for the sufferers, and H. Price Webber was the leading spirit in each occasion. It is not surprising to learn of the great local interest which is aroused in the appearance of Mr. Webber and his company at the Opera House on next Saturday evening, after an absence of a number of years.

band played. Opening the second, Collins struck Merkle out on three pitched balls. Herzog drove out a smashing three-bagger to right centerfield and crossed the plate a minute later when Meyers laced out a single which struck Gardner in the face. Fletcher put up a high fly to Hooper and Mathewson forced Meyers at second. Yerkes to Wagner, ending the inning.

New York scored again in the fourth. Murray hit to center and scored on Herzog's sacrifice fly. Boston made its four-to-two in the fifth. Hooper made his third hit and stole second. Yerkes' three bagger brought him home.

There was no more scoring till the eighth when New York forged ahead by getting three runs. Snodgrass was given a life by Lewis. Doyle singled but was forced at second. Murray hit a bagger, scoring Snodgrass. Collins was taken out of the box and Hall sent in. Merkle was out on a foul. Herzog doubled and scored Becker and Murray. Boston led the score, Lewis

made a two bagger and scored on Fletcher's error on Gardner's grounder.

There was no scoring in the ninth. Yerkes opened the Red Sox tenth by dropping a grounder in front of the plate which Wilson got and threw to Merkle. Then Speaker made his long triple on which he scored on Wilson's error at the plate. Lewis' double but was left on the path, Gardner going out Doyle to Merkle and Stahl to Herzog.

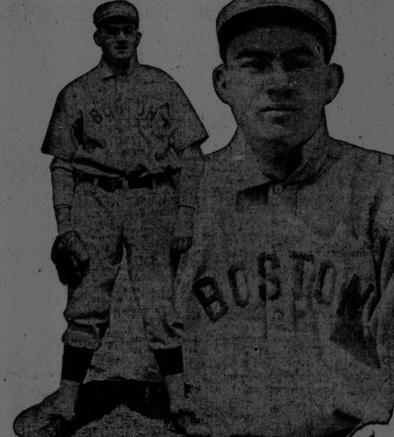

Bedient took up Boston's pitching burden in the eleventh. He hit Snodgrass and struck out Doyle. Snodgrass went out stealing. Carrigan to Wagner. Becker received a base on balls and he too was out trying to steal. Carrigan to Wagner. Boston went out in order in the eleventh. Shafer knocking out both Wagner and Carrigan and Mathewson throwing out Bedient.

Boston handled the big crowd without trouble. With the exception of a few bare spots in the outfield stands every seat was taken. Tickets brought three times the regular price of \$3 for the grand stand.

Umpire "Gus" O'Loughlin announced that a ball that went into the small temporary stand that extended along the left field fence would be a home-run, and a drive into the stands in center and right field would go for a home-run.

THE WORD "SAUCE"

What are the first essentials of a Sauce? Many professors of cookery and eminent chefs have, from time to time, set forth their views on this subject. Many solid varieties of food, soluble only by digestion are not rarely dry in substance, but are somewhat unattractive and insufficiently flavored. A sauce is intended, amongst other things, to lubricate dry food, and thus increase its palatability, by the addition of flavors or the production of contrast. A sauce is intended to stimulate the organs of taste, and to promote the salivary secretion. Thus, by enhancing the appetite and augmenting the juices capable of digestion, it increases the pleasure of eating, meanwhile assisting the mechanism of nutrition. The preparation of a sauce suited to one special dish is, in general, a simple affair, but the making of a bottled sauce, capable of fulfilling scores of demands, and happily alloying itself with hundreds of dishes, is a matter necessitating great experience and elaborate skill. Such a sauce is now obtainable. It is imported from England, where it is produced in the largest food factory in the world and is known as "H. P. Sauce," and takes its title from the initials of the "House of Parliament," where it is used on the dining tables, both in the home country and in Canada. The makers tell us that its delicious flavor is obtained by blending together the choicest oriental fruits and spices with pure Mass Vinegar by a secret process, and we are sure our readers will find that a personal trial will confirm all the good things that are said of H. P. Grocers over here are already selling it freely.

HOW TO RUN A NEWSPAPER.

To run a newspaper, all a fellow has to do is to be able to write poems, discuss the tariff and money questions, compile a baseball game, report a wedding, draw wood, describe a fire so that the readers will shed their wraps, make him do the work of 500, shine at a dance, measure the calves, abuse the liquor habit, test whiskey, subscribe to charity, go without meals, abate free silver, wear diamonds, invent advertisements, sneeze at snobbery, overlook scandal, sprain babies, delight the disgruntled, fight to a finish, and type, mount, optimize, sweep the editor's desk at the prayer meetings and stand in with everybody and everything—Pulse in time (Kan.) THERE TO STAY.

Doris was radiant over a recent addition to the family, and rushed out of her house to tell the news to a passing neighbor.
"Oh! you don't know what we've got upstairs!"
"What is it?"
"It's a new baby brother," and she settled back upon her heels and folded her hands to watch the effect.
"You don't say so! Is he going to stay?"
"I guess so"—very thoughtfully. "He's got his things off."

NO OPENING.

A man had been absent from home for some time, and during his absence had raised a luxuriant beard and moustache. A little after his return he paid a visit to his sister, who had a little daughter of whom he was especially fond.
The little girl made no effort to embrace or offer him a kiss, but hung back, reluctantly.
"Why, Eleanor," said the mother, "why don't you give uncle a kiss?"
"Well, mother," returned the child, with the most perfect simplicity, "I don't see any place."—Harper's Bazaar.

HOLE IN THE ELBOW.

A teacher in a suburban school, hearing a smothered laugh, inquired who dared to be so rude.
"Please, sir, it was me," answered a loud voice, "but I did not mean it."
"Did not mean to do it?" queried the now angry teacher.
"No, sir, I laughed up my sleeve, but I did not know there was a hole in my elbow."
PROCEEDING WITH CAUTION
"Think before you speak," said the prudent person.
"I always do so," replied Senator Sorghum. "I have never given an interview without having a reputation ready in case it should prove unsatisfactory."

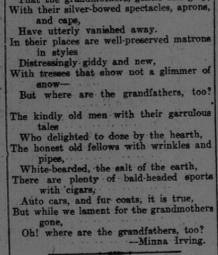

IN THE PIE BELT.

Guest—"Bring me some breakfast food."
Waitress—"What kind?"
Guest—"What kind have you?"
Waitress—"Peachapuhbackrasknik muntandunstard."
Guest—"All right. Bring it along."

PREPARED

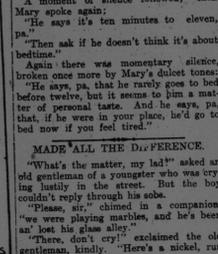

Clarence—"Why don't you keep something for a rainy day?"
Clara—"Don't be silly, dear. Have it's the prettiest raincoat and umbrella you ever saw?"—Judge.

THE REAL REASON

Householder: "That furnace isn't mended properly. It smokes all the time."
Workman: "Did you light a fire in it?"
Householder: "Of course I did."
Workman: "Ah, that's what done it, you may depend."

MEANNESS ITSELF

First Club Man: "Poor old Jones was terribly mean."
Second ditto: "Mean! Why, they say that when he knew he could recover, he tried to walk to the cemetery to die, to save his heirs the expense of caring him there."

PREPARED

Clarence—"Why don't you keep something for a rainy day?"
Clara—"Don't be silly, dear. Have it's the prettiest raincoat and umbrella you ever saw?"—Judge.

CERTAINLY

He—"Don't you think, now that the woman of today in her endeavor to imitate man is acting like an idiot?"
She—"What of it? Don't you think the imitation is successful?"—Fun.

GRATITUDE INDEED

Visor: "Well, Mrs. Grundy, amid all your troubles, I am pleased to see you gratitude to Providence does not fail."
Mrs. Grundy: "No, sir, rheumatism is bad indeed, but I thank heaven I still have a back to 'ave the rheumatism in!"—London Opinion.

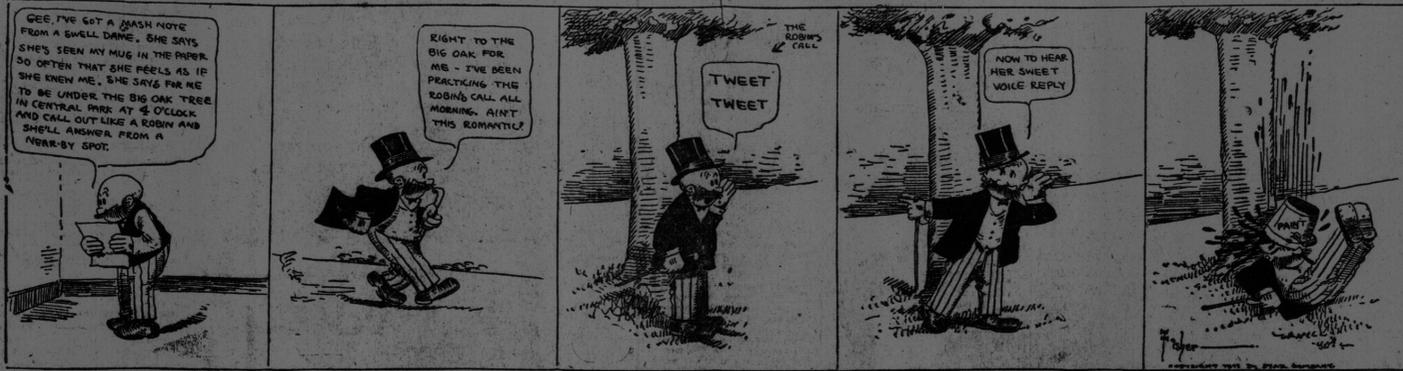

EASILY EXPLAINED

Mr. Homespun (taking his first dip):—"My word, Sarah! No wonder folks sick when they go to sea, if they have to drink water like this!"—Comic Life.

SPORT NEWS OF A DAY; HOME AND ABROAD

Baseball No Score. The Chicago Americans and the Chicago Nationals played a great game of ball in Chicago yesterday, neither team scoring in the nine innings. Walsh pitched for the Americans and Lavender for the Nationals. The receipts for the game were \$11,024.

Americans Won. The Philadelphia Americans defeated the Philadelphia Nationals 4 to 0 in their game in Philadelphia yesterday. Houck pitched for the winners and Chalmers for the Nationals.

Two Fans From Halifax. Boston Globe.—Among the first fans to arrive from Halifax, N. S., for the world's series were P. J. Mulcahy and Walter J. Delahanty. Both are well-known Knights of Columbus in the province and will participate in the parades in Boston on Columbus Day.

Child is Dying. Baltimore, Md., Oct. 9.—Clarence L. Childs, known familiarly by baseball fans as "Cap" Childs, is dying of Bright's disease at his home here. Childs was one of the greatest second basemen of the eighties and nineties, and was a member of the Cleveland "Spiders" of the National League, made a reputation as a batsman of the hardest sort. He is forty-five years old.

Will Have to Hustle. St. Louis, Oct. 9.—The new contract which Roger Bresnahan has signed as manager of the Cardinals gives him a per cent of the total profits earned by the team next year in place of a raise in salary. This puts it strictly up to Roger to develop a winner.

Had Ticket, Let Go To Game. Brooklyn, Oct. 9.—The plea that he had arranged to go to New York for the first game of the world's series was a continuation of his case for Joseph H. Daley, arrested as a bookmaker. When Daley pleaded not guilty, and Judge Reed that he had made arrangements to take in the opening game, the court did not have the heart to rob him of the privilege and allowed the continuance, while everybody in the courtroom followed Daley with envious eyes. Daley, who lives in South Boston, was charged with having "made books" on the races at the fair, working about the quarter-stretch under the very eyes of President and Mrs. Taff and many police officers.

A Fatality. New York, Oct. 10.—An impromptu demonstration of baseball technique growing out of a good-natured argument over the world's series led to a pitiful tragedy in a downtown street. A 212-foot file, the batting machine of a favorite player, Frank Groshaus, an eighteen-year-old metal worker, picked up a 212-foot file with a wooden handle for a bat and George Brown, seventeen years old, a fellow employe, pitched to him with a bit of metal. Groshaus missed the first "ball" and the file, insecurely fastened about the handle and saw correctly at Brown, the sharp point piercing his left eye. He died two hours later in a hospital. Groshaus was arrested on a homicide charge.

Football In Fredericton. Fredericton Mail.—Coach Chubb had the U. N. B. squad out again yesterday for a hard workout. The practice was largely spoiled, however, by the absence of many players. Injuries were the cause of absence in some cases. The feature of the practice was the slowing of "Cory" Balkum, who ran through the whole fifteen he was playing against for a nice clean try. He was used as both full back and half. His experience gained in former seasons should stand him in good stead and make him a valuable player this season. Some of the candidates for the first team half-line will have to hustle to get places with Balkum going good. Atkinson, who was playing half in yesterday's practice, showed marked improvement and it would not be surprising to see him land a place on the first team.

At Harvard. Boston Globe.—Closed gates prevailed at the stadium yesterday for the first time this season, while the entire squad was given a valuable workout. Most of the time was given to individual drill and criticism. Before the squad turned out on the field yesterday, Coach Haughton, assisted by some of the other coaches.

went through a long blackboard talk in the locker building, explaining the play which are to be tried out this week. It was after four o'clock when the players entered the enclosure inside the stadium to commence actual practice. The men were divided into two squads, according to the position for which they are candidates, and the coach for each special department took charge of his men for the regular Monday drill in the elimination faults which crept out in Saturday's game. The short signal drill and scrimmage without tackling, which ended the work of the afternoon, had to be completed in the twilight. For the longer scrimmages and other practice, which will be likely to occur behind closed gates again today and tomorrow the squad will have to get started earlier in the afternoon or else resort to the use of a white ball and artificial lighting.

The Ring Corbett's Regret. Philadelphia, Oct. 9.—"My only regret over being laid up is that it has to come at this time, so that I must miss the world's series," said James J. Corbett, the ex-heavyweight champion on his bed at Jefferson Hospital, while he is recovering from his operation for appendicitis. "I am going to get well now, I know, but I am broken up over not having this trouble come either sooner than it did so that I could be at the big games. But they're going to bring me all the papers to read about the series, which will be better than nothing."

Miss Thomson Won. Miss Dorothy Campbell of Hamilton defeated Miss Ada McKenzie in their match at the golf championships in Toronto yesterday. Miss Campbell will play Miss Nesbitt of Toronto today in the semifinals. Miss Mabel Thomson of this city had the best individual drive in the driving competition, 198 yards.

St. Louis Golf. Berlin, Oct. 9.—The Berlin Golf Club, a militant organization of Britishers, Americans and Germans, is the first in the world to launch a project for state-subsidized golf. Dissatisfied with a wretched nine-hole course with which it has long had to content itself, the club has petitioned the Prussian government for permission to have modern eighteen-hole links out of a primeval forest on the shores of Lake Grabinitz, near Potsdam. The club undertakes, in return for the gratis use of government lands now serving no other purpose, to lay out a magnificent "sportsplatz" for golf, tennis, hockey and football, which shall be in every respect commensurate with the greatness of modern Berlin. The club's petition is based on the fact that links of the question, because of the rapid and moderate rise of land values in and around the metropolis.

The Prize Winners. The following are the names of the prize winners at the St. John Club meet: James McGowen, Dupont watch fob and first prize, a gun case; J. M. Robinson, second prize, a thermos bottle; H. J. Morvatt, third prize, a camping outfit.

Lucerne Easy for Vancouver. Vancouver, B. C., Oct. 10.—Playing the athletes of St. Catharines in every department of the field, Vancouver retained the amateur championships of Canada yesterday when they beat the challengers in the second game, 17 to 1, making the total count 34 to 1 on the series.

The visitors never had a chance from the start. Vancouver forged ahead in the first two minutes, and it was just a question of how many goals they would score in the second quarter. Aubson scored their only goal of the series.

Records Go. The Kentucky Trotting Horse Breeders' Association at Lexington, Ky., on Tuesday opened its 49th annual trotting meeting and held the 29th annual renewal of the great Kentucky futurity. The weather was ideal. Manrico won the Kentucky trotting classic after six grueling heats. In the sixth, Baldy McGregor led Byrtnell and Manrico for the first three quarters, and it was thought Manrico would not have a chance to get in time to capture the heat and race. When the contesting turned into the stretch, however, Manrico moved up with a rush and after an exciting brush beat Baldy McGregor to the wire in 2:07 1/4, which is a new world's mark for the sixth heat of a pace race also was productive of the fastest six heats ever trotted.

The "Black wonder" Uhlau, went out for an effort to lower the track record for trotting, 1:59 1/2. The track was in superb condition and the son of Bingen made the circle in 1:58 flat. This not only breaks the track record but also the world's record for a trotter, which heretofore was held by the trotting queen, Lou Dillon in 1:58 1/2 made at Memphis, Tenn., seven years ago. Uhlau was driven by his trainer Charles Tanner.

The Tennessee 2:05 pacer was only a walk-over for the game little pacer Braden Direct.

In making selections of horses for service in the Tropics the color line should be drawn, according to reports made at Colonel Woodruff, surgeon in the United States army. At Manila the only horses to survive after a few years are gray, white, light yellow and tan. One hundred mules were taken to the Philippines in 1903 for the use of the constabulary. After seven years there were four survivors, all with black skin and snow white hair.

WILLIAM LOEB, JR., COLLECTOR OF THE PORT OF NEW YORK, WHO SEIZED FRANK GOULD'S TRUNKS

New York, Oct. 10.—William Loeb, Jr., collector of the port, immediately after his return from Washington, where he appeared before the senate committee investigating campaign funds, was called upon to decide whether or not Frank J. Gould was a resident of the United States. Mr. Loeb decided in the affirmative, and fifteen trunks that Mr. Gould had with him when he landed at the pier were seized and sent to the appraiser's stores for appraisal. As a foreign resident Mr. Gould would be permitted to bring his clothing and other personal effects in without paying duty, a course he has followed on several previous visits. This picture of Mr. Loeb was made in Washington.

Wonderful Dog Was Pink. Pink, the most famous field trial sheepdog that ever lived, has just passed away, and her death is taken as a universal calamity among followers of the working sheepdog. Whichever the fact was known that Miss Ovestrey had entered Pink at any sheepdog trials it was sufficient to attract thousands of spectators from all over England who have been spellbound by her wonderful intelligence, and have, times without number, burst into rapturous applause as Pink subtly succeeded in putting her charges, often wild and uncontrollable, through various obstacles and finally penned them.

Under the able tuition of her owner this sagacious creature seemed thoroughly to understand his every movement and gesture; and every habit and idiosyncrasy of her master's charges she admirably overcame. She was obedient, persistent, and at a glance from her trainer would dart away with the gracefulness and speed of a swallow, sweep over the hills and valleys after her charges and show the most marvelous powers of reasoning and instinct in performing her task.

"I never patted her," Mr. Moses said. "If I was displeased I told her so and her ears went down. If others patted her she took no notice of them, but looked at me as if to ask if it was all right." She was as gentle with chickens, pigs and other animals as with sheep and with the latter never distressed or irritated them, but if one were stubborn she would stand facing it and at her master's signal, promptly walk up and seize it by the nose and the sheep had to go where she willed.

Pink was a smooth coated collie built on rather racy lines with steel-like bone and sinew. She apparently was in perfect health up to within a week of her death, which was caused by a jaundice.

FIELD CROPS AND LIVE STOCK IN DOMINION (Report for the month ended Aug. 31, 1912) The cold, wet weather which prevailed throughout Canada during August delayed ripening and the harvest is everywhere later than usual; but no serious frosts have as yet been reported. All crops show an improvement since the end of July, excepting peas, beans and corn. The average condition of spring wheat is 84.7 p. c. of the standard or full crop, which is represented by 100; rye is 84.14, barley 87.29, oats 88.15, mixed grains 88.27 and flax 87.84. These figures are higher than those of a month ago by about 1 p. c. for wheat, rye and flax, 4 or 5 p. c. for barley, mixed grains and buckwheat and 7 p. c. for oats. On the whole they compare not unfavorably with the figures at the corresponding date of last year, oats, barley, rye, buckwheat and mixed grains being in fact higher, while spring wheat is about two points lower. Peas are 74 against 76 last month, and 77 1/2 last year; beans are 78.71 against 79.27 last month and 80.92 last year. Corn for husking is 69.66 and for fodder 76, compared with 70.57 and 73.10 last month and with 81.46 and 88.53 last year. Root crops and pasture show an excellent condition, the figures ranging from 88.86 for sugar beets to 92.10 for potatoes and 91.70 for pasture.

From the reports furnished by correspondents it is calculated that the area sown in Canada 3 p. c. of spring wheat, 2.3 p. c. of oats, 2.1 p. c. of barley and 3.5 p. c. of flax will from various causes, such as hail, flood, pests, etc. be entirely unproductive, and the following preliminary estimates of yield are therefore based upon the areas to be harvested. Of spring wheat the average yield per acre for Canada is provisionally placed at 21.08 bushels, which upon a harvested area of 8,677,000 acres makes the total yield of spring wheat to be 189,236,000 bushels. This quantity, added to the estimate of 18,773,300 bushels of fall wheat as published last month, gives the wheat total as 206,009,300 bushels compared with the final estimate for 1911 of 215,631,500 bushels. The yield per acre in 1911 was 22.19 bushels for fall and 20.43 bushels for spring wheat.

EDISON HOLDS THEM TILL TROUBLE MASTERED Inventor and Five Workmen Fourteen Days Steadily in Work-room Because of Hitch

New York, Oct. 10.—After a fourteen-day grid, Thomas A. Edison and five of his skilled men, nearly worn to exhaustion, staggered from the perfecting room of the Edison laboratory at Orange, N. J. Fourteen days before they had gone into the long, low many-windowed room. They had expected that they would come out the same day; he too, he expected they would come out then. But something had gone wrong with the last touch he was putting on an invention, and it had taken just fourteen days to set it right.

He sent messages to their wives telling them they were engaged and might not be free for a long time.

FRANCE TO RESTORE THE GRAND CHARTREUSE Geneva, Oct. 10.—Tourists in all parts of the world will be interested to learn that the famous Grande Chartreuse monastery is to be repaired and restored by the French authorities. Every year it is destroyed by fire eight times, and if a small entrance fee were charged the monastery could be kept in good condition.

SCHOOL BOY'S CAP ONE CAUSE OF THE TROUBLE

Centennial School Had a Bit of a Flood—A New Arrangement for Future

An overflow from the five ton water tank at the top of the Centennial school building late last evening caused some damage to the interior of the walls of the building, besides injuring the furniture and books in some school rooms.

A leak had been discovered in the tank and it was to have been repaired yesterday, but the plumber did not arrive. Last night the water pipe from the tank burst and the water overflowed. Upon investigation it has been found that the pipe was plugged by a boy's cap which was reported missing last winter. It had evidently been thrown into the tank and eventually got into the waste pipe. The situation last night, the salvage corps were summoned. The water was turned off in the street, and the furniture covered for protection.

Trustees Day this morning ordered a change, which will hereafter make it unnecessary to go out to the street to turn off the water in case of emergency. The schools were in session today as usual.

The races will start and finish at the corner of the Marsh Road and Westmorland Road.

NEW GOLF COURSE IS PROPOSED

A meeting of the St. John Golf Club will be held on Thursday, October 17, to discuss the advisability of purchasing the Douglas farm at Riverside for the establishment of a new course and a comfortable club house of its own. The land is now held by a syndicate composed of members of the club pending a decision. If the club decides to proceed with the project it is expected that the new links would be laid out in the best style and that a club house of ample proportions, somewhat along the lines of those used by country clubs elsewhere, would be erected.

GAIN THIS WEEK REACHED \$343,395

The St. John bank clearings for the week ending today were \$1,825,459. For the corresponding week last year they were \$1,482,064.

THE POLICE COURT

James Murray aged thirty and Edward Kelley aged twenty-eight, were arraigned in the police court this morning on the charge of stealing two meals from Louis Pader's restaurant in Pond street yesterday afternoon. Murray pleaded guilty to the charge, but Kelly pleaded not guilty. Mrs. Pader, wife of the complainant, testified that the two went into the restaurant yesterday afternoon and ordered two meals. Murray ordered beans and Kelley ham and eggs; that after eating the meal they walked out without paying, and she summoned the police and had them arrested.

Kelley told the court that Murray had asked him to have the lunch, and that he did not know that Murray had not the money to pay for it. Both were remanded. John Melanson, charged with stealing a suit case valued at \$1.75 from Isaac Williams' store in Mill street—was remanded to jail. One prisoner charged with drunkenness was fined \$8 or thirty days in jail, and another \$8 or two months in jail.

MANY AUTOISTS TO WORK ON ROAD

Thirty-Five or Forty Cars Out on Saturday for Repairs to St. John-Hampton Highway

What those in authority have failed to do in the matter of good road making in New Brunswick, the members of the New Brunswick Automobile Association will endeavor to perform to a certain extent on next Saturday. If the day is fine, it is expected that between thirty-five and forty automobiles, or perhaps more, will assemble in King street East at half past one o'clock. Each car will carry its owner and friends, and will also carry picks, rakes and shovels, which will be used by the occupants in fixing up the road between St. John and Hampton. Whenever the road is bad, and according to the autoists, that is the general case, a halt will be made and a crew will be put to work making repairs.

It is expected that the party will reach Hampton in time to have dinner at the Inn, and after dinner a smoker will be held at which speeches will be made by prominent citizens. An impromptu programme of songs and musical numbers has also been arranged, and a general good time will be held. The cars will leave Hampton about nine o'clock. Prominent T. P. Regan of the New Brunswick Automobile Association, will lead the party. A committee is now busy engaged in talking the matter up, and a very successful day's work is expected.

CONSUL'S DECISION IN CHAMCOOK MATTER

The Norwegian Workers—Work at the Plant is Being Rushed

The workmen at Chamcook, taking advantage of the good weather lately, have made rapid progress on the new factory plant and dwelling houses, says the Beacon. Within a few weeks they will be sufficiently advanced to enable packing to begin.

The officials of the American Canning Company, which company will manufacture tins for the big concern, are now on the ground getting their outfit installed. W. E. Taylor, a young man of energy and experience, is in charge of the department. The output of the can machine will be about 1,000 cans a day. As more machinery is installed this output will be increased.

The Norwegian girls, who have been occupying the clam factory as a boarding house for several weeks, were taken to Chamcook and were assigned rooms in their new boarding house. This is a very comfortable building, with a beautiful outlook, and provided with all sanitary necessities. Miss Robertson is the matron in charge of the boarding house. She is a very competent young woman.

J. Roydon Thomson, Norwegian vice-consul, who was in Montreal on Saturday, said that the consul at Montreal had handed down his decision in connection with the complaints of the Norwegian male workers. The substance of his decision was that the company was liable for the board of the men while they were waiting for the plant to be installed. When work was ready for them they were to go to work according to contract. If the men refused to go to work he would award the men for alleged breach of contract.

TO INDUSTRIAL HOME

Boys Arrested on Theft Charges Are Given Indeterminate Sentence

Oscar Beckwith and Lawrence McCarthy the boys arrested in Tenakebeque, Mass., by Detective Killen a few days ago on the charge of breaking and entering the store of H. Hamlin in Wall street and stealing \$400 and also entering the store of J. V. Russell in Main street and stealing \$7 and a revolver, were arraigned in the police court this morning and, after pleading guilty, were sentenced to an indeterminate term in the Boys' Industrial Home.

"Under the law," said His Honor, "I could send you each to the penitentiary for seven years, but I don't want to be harsh with you, and will send you to the reformatory, not altogether in the interests of justice, but for your own good and welfare, to take you away from your bad companions, and give you an opportunity of reforming and becoming better boys. Both of you are only young, mere lads and you will have a chance now to make up your minds to become better boys, and lead better lives when you come out. I am not sentencing you to any definite term, I will leave that to yourselves. If you behave yourselves, and are good boys, you may get out in a year or so. It depends wholly on yourselves to say how long you shall be confined. You have made a mistake, and it is a bad one, but you will have a chance now to make good."

The boys were asked by the court if they had spent all the money they had taken and they replied in the affirmative. "Well just imagine," said His Honor, "that you had spent the money in a good way, in thirty days. Why there are many prominent men in the city, making lots of money, who would hardly spend that much. You had a good time while it lasted, but you see the position you are placed in now. Both you boys are Christians and know the commandments of God. The law says that you must be punished, but the law of God says that you must make restitution for what you have stolen, when you get out of the reformatory, you must remember that you owe \$400, and you will have to get your heads together and pay back the money."

I. L. & B. SOCIETY

At a very large and enthusiastic meeting of the Irish Literary and Benevolent Society last evening, Frank J. Casey was re-elected as president of the society; John Daley was elected first vice-president; James T. McEldown, second vice-president; O. McWilliams, financial secretary; D. Roy O'Neil, recording secretary; John O'Brian, treasurer; John Callahan, sergeant-at-arms; Matthew O'Neil, J. W. Doody and Arthur McHugh, trustees. Plans for the winter months were discussed and it is probable that several literary and social events will be held for the members and their friends.
