DOMINION PULP WORKS BADLY DAMAGED AGAIN

The Acid Plant Burned Today for the Second Time in Two Years—The Industry Will Likely Remove from Chatham to Newfoundland

CHATHAM, N. B., June 19.—Fire was discovered in the acid plant of the Dominion Pulp Mill across the river, about six-thirty this morning, but at that hour it had made great headway and was breaking out of the doors and windows. The mill whistle was at once sounded, and the mill pump was started. The men worked hard and were getting the blaze under control when the pump broke down, and had it not been for the arrival of the steamer St. Nicholas with her powerful fire and wrecking pump the whole plant would have been lost. The flames were shooting high up in the air, the chemical used in the pulp working process burning with great avidity, shooting up through clouds of smoke which hung low over the river. At eight o'clock the situation was so serious that an engine was sent over from the town to help the mill men, and at nine o'clock the fire was under control, the acid plant being burnt to the ground. The Dominion Pulp people had their acid plant destroyed in January, 1906. The present buildings were completed a year ago in May and the mill has been in operation but a year and is now rendered useless again.

Telephone connection from the town is destroyed and the management cannot be reached but it is felt around town that the fire will cause the loss of this industry to the Miramichi as the company is already contemplating the erection of a plant in Newfoundland and the mill is being dismantled. The mill employs 75 to 100 hands and its shut down at this season will be severely felt.

NO MORE STUDENT WAITERS

Summer Hotel Landlords Say They Flied Too Much

UTICA, N. Y., June 19.—Young college students who for years have passed their vacations acting as waiters at the hotels along the St. Lawrence river are to be banished from that profession up that way—at least the good-looking ones—because the hotel proprietors say they are too much given to flirting with the girl guests. Mr. Crossman at Alexandria Bay, who has instituted the reform, says: "I have engaged 50 Swedes, none of them any too prepossessing, but while they are short on good looks I expect they will be long on their duties as waiters. College students are too much given to cigarette smoking and flirting with the girl guests to suit me. I have cut them out. Less spilling of soup down guests' necks and less smashing of dishes by feather-brained mashers are some of the things I want."

KILLED HIS PLAYMATE OVER A GAME OF MARBLES

Wine Year Old Lad, on Trial for Murder, Fell Asleep During the Proceedings.

BALTIMORE, Md., June 19.—The youngest murderer in the history of the local criminal courts, was tried yesterday and convicted of manslaughter. He is Sydney Hollis, colored, aged 9 years. He shot and killed Wm. H. Griffiths, another negro lad of 11 years after a quarrel over a game of marbles. Hollis did not display the slightest concern in the court room today. During the trial he fell asleep several times. Sentence was suspended.

The following are the events to be contested for in the regatta during the Halifax summer carnival on August 7th: Labrador whaler, junior single scull, six oars (boys under 18), double canoe race, junior four-oared shell, senior single scull, four in a canoe, inter-club race, tilting tournament, senior four-oared shell. Entries close July 30th, 1907, with Geo. H. Parsons, secretary, 171 Hollis street, Halifax, N. S.

BRAZIL, Ind., June 19.—Mike Donovan, of Buffalo, N. Y., was awarded the decision over Joe Walcott, of Boston, at the end of 10 rounds of slow fighting last night. The decision of Referee Hugo Kelly did not seem to meet with the approval of the crowd.

FIVE ST. JOHN LAW STUDENTS WILL RECEIVE THEIR DEGREES TOMORROW

Messrs. Trueman, Turner, McKenzie, Pugsley and Barry, Having Completed the Course Will Be Honored by Kings College—Something About This Bunch of New Lawyers.

THE LIBEL SUIT FURTHER ADJOURNED TILL TOMORROW

Pleas Presented by the Defense This Morning Allege That the Gleaner Article Was in the Public Interest—Mr. Pugsley Asks Time to Prepare a Demurrer.

FREDERICTON, N. B., June 19.—In the Emmerson-Crockett libel suit this morning, J. D. Hagan, appearing for the defendant, James H. Crockett, presented on behalf of his client the following plea, for the first time the defendant was not guilty, and for a second plea that he should be dismissed and discharged because the alleged libel concerning H. R. Emmerson was true and that it was in the public interests and the public benefit that such matters should be known so that the government could be purged of men whose characters were of a degrading and disgraceful quality.

PLAYGROUND COMMITTEE PRESENTS ITS REPORT.

Miss Mabel Peters Tells of What Has Been Done and Hopes for Better Work in the Future

A meeting of the executive committee of the Women's Local Council was held yesterday afternoon in the King's Daughters Guild at 330. The President, Mrs. David McLellan, was in the chair. There was a fair attendance.

REPORT OF PLAYGROUND COMMITTEE

Some years ago a preacher in a big city complained to the police that children playing in the streets distracted his congregation when at prayer, and asked that the nuisance be abated. The captain curtly replied: "They have no other place to play, you had better pray for sense to help get them out of the streets." This minister then went down in the slums and played and prayed and sang with the children in the streets. And the public awoke to the fact that children must play.

They turned school house basements and roofs into playgrounds, they made gardens of vacant lots for the children, and set aside special parts of the parks for them. Only in part has this been done in St. John and only for a very short period of the year.

The work of your committee does not end with the closing of the vacation playground. Your convenor has written over fifty letters and as many post cards on local playground matters. Your convenor also wrote letters for the St. John press besides selecting playground articles for the same. Your convenor suggested through the press the desirability of opening the present exhibition grounds as a play centre, using the buildings for a gymnasium and salt water baths when not needed for exhibitions. Your convenor also sent a full report of the work done in St. John last summer to the National Annual Meeting of the council which will be found in the year book.

Your committee petitioned the St. John Common Council for a playground grant of \$500. They were granted \$200, for which they are very grateful and will endeavor to use to the best advantage. Your committee has at the present time \$1,000.00 at its disposal and Winter street school grounds for vacation playgrounds for six weeks this summer. It will depend upon subscriptions if the grounds can be kept open for so long a time. The Every Day Club has offered your committee a portion of the Victoria grounds for use as a summer playground. Your convenor visited the grounds and found them admirable for such a purpose, and every evidence at hand that a supervised playground was needed. On speaking to one woman on the need of a playground in her neighborhood she exclaimed, "Oh don't start one here, the boys are so bad you could do nothing with them."

Your convenor is gratified to find less distrust this season in regard to playgrounds, and more ladies are willing to act as teachers. Your committee has already engaged several teachers

and should like to engage others if funds were more plentiful. It is the desire of the committee to bring the work to such perfection that the advantage of playgrounds will be readily appreciated, and in the future have the Provincial Government make it possible for the School Board to incorporate playgrounds in their legitimate school work. Playground work not only for vacation, but for all the hours of the year when school is not in session, playgrounds with free baths. This will be realized some day in St. John, for it being proven that for citizens to be good as children, as adults, and in old age, they must be happy, joyous, and controlled by love in childhood.

The convention of the United States National Playground Association which opens tomorrow in Chicago is a proof of this. Many cities of the United States are sending delegates to this convention. The convention consists of an exhibition of model playgrounds of all nations, folk dances and songs. As soon as the convention closes the exhibit is to be taken to Jamestown.

Your convenor hopes to give you a full report of successful work accomplished in the summer playground in St. John at next fall's meeting, and she hopes to be able to state that many members of the Women's Council were volunteer workers in the grounds.

Respectfully submitted,
MABEL PETERS,
Convenor of Committee.

St. John, June 18, 1907.

A motion was unanimously carried expressing hearty appreciation of the noble work that Miss Peters has done in this connection.

By unanimous motion the executive approved of and expressed hearty sympathy with the recent probationary movement regarding children under the age of sixteen years.

At the close of the meeting of the Executive Committee the quarterly meeting of the Council was opened in due form, with the president, Mrs. D. McLellan, in the chair.

The following were then duly elected delegates to the annual meeting of the National Council of Women, of Canada, to be held in Vancouver: Mrs. David McLellan, Mrs. Henry A. Austin, Miss Annie Puddington, Miss Gillis, Mrs. Campbell, Mrs. Crockett.

All of the ladies elected as delegates as above signified their intention of taking the trip to the west to be present at this meeting.

Miss Murphy read an interesting report as convenor of the committee on citizenship.

The meeting adjourned at six p. m.

SAN FRANCISCO, Cal., June 18.—The ferry steamer Tiburon and James M. Donohue collided shortly after 8 o'clock tonight off Alcatraz. There were many passengers aboard. News was received that no passengers were hurt and that all got ashore. It was reported that the Donohue was sinking.

All of the ladies elected as delegates as above signified their intention of taking the trip to the west to be present at this meeting.

Miss Murphy read an interesting report as convenor of the committee on citizenship.

The meeting adjourned at six p. m.

SAN FRANCISCO, Cal., June 18.—The ferry steamer Tiburon and James M. Donohue collided shortly after 8 o'clock tonight off Alcatraz. There were many passengers aboard. News was received that no passengers were hurt and that all got ashore. It was reported that the Donohue was sinking.

Five young men, comprising this year's graduating class from the King's College Law School in St. John, will tomorrow receive their degrees at Windsor at the closing exercises of Kings. Several of the graduates went across the bay this morning while others intend going this afternoon. The results of the examinations recently held here were highly creditable and the standing of the five young men who have now completed the course is fully up to the high standard of the school.

At Windsor this evening the lady students will give a reception in honor of the St. John men. The graduates are as follows:

J. MacMillan Trueman, son of Judge Trueman, after attending the public schools graduated from the high school in 1900 and at once went to Dalhousie. Following a creditable course there he obtained his B. A. degree in 1904 and returning to St. John entered the law school. He was articled in Judge Trueman's office.

William D. Turner is a native of Baie Verte in the County of Westmorland. He received his earlier education at the common school there, and in the fall of 1904 successfully passed the matriculation examinations for entrance to the University of M. A. H. After spending four years at this institution of learning, he received the

marks on that subject. Mr. Pugsley, after graduating from U. N. B., went to Oxford where he took up the study of oratory. While in England he figured in the famous Windham Fours rowing race, an annual event at the University. He was a member of the winning four. Mr. Pugsley entered the St. John Law School in 1906 and articulated in the office of Trueman and Pugsley in 1905. While at the U. N. B. Mr. Pugsley was captain of the hockey team.

John A. Barry, of Campbellton, Restigouche county. He graduated from the Campbellton High School after which he attended the Provincial Normal School. Receiving a teacher's certificate there, Mr. McKenzie taught school for some time and later entered the University of New Brunswick. He graduated from there in 1902, and the degree of M. A. was conferred upon him two years later. Mr. McKenzie was principal of Harkins Academy at Newcastle from the date of his graduation until 1904. He was then appointed principal of Albert school, West

End, which position he holds at the present time. He entered as a law student, the office of Wm. Murray, of Murray & McEachery, of Campbellton and has since been transferred to the office of J. B. M. Baxter, B. C. L. of this city. Mr. McKenzie intends to practice law in Campbellton.

William Gilbert Pugsley, son of Hon. Wm. Pugsley, is a graduate of the St. John High School and the University of New Brunswick. He graduated from the U. N. B. in 1904 with honors in philosophy, standing second in the contest for the Governor General's gold medal, offered for the highest

marks on that subject. Mr. Pugsley, after graduating from U. N. B., went to Oxford where he took up the study of oratory. While in England he figured in the famous Windham Fours rowing race, an annual event at the University. He was a member of the winning four. Mr. Pugsley entered the St. John Law School in 1906 and articulated in the office of Trueman and Pugsley in 1905. While at the U. N. B. Mr. Pugsley was captain of the hockey team.

SPORTING MATTERS
ST. JOSEPHS WON FROM ST. ROSES

Errors by the St. Roses and timely hitting by the St. Josephs was the result of the latter team winning last night by a score of 13 to 8 in the inter-city league series.
There was a large attendance at the game, and while O'Keefe triumphed for the Fairville boys the champions had a new pitcher named Dooey, who showed good form and plenty of speed and will be a valuable addition to the team. The St. Josephs put up good ball and blanked the Fairville boys for the first three innings, and some of the fans were figuring on a shut out while the score was 11 to 0, but in the next two innings the St. Roses rolled up six runs.
For the first three innings the St. Roses were retired with only ten men to bat. Dooey was not so steady in the fourth. He gave two passes, was found safe once, had a wild pitch, and with a pass ball the St. Roses scored twice. In the fifth and last inning two batters, two singles and two wild pitches netted four more runs for the Fairville boys.
The St. Josephs in their first inning made five runs, three singles, two errors by Quinn, a base on balls and three stolen bases being responsible.
In the second inning there were two more errors, a base on balls and a single. O'Keefe's netted two more runs.
In the third inning the St. Josephs handed four more men across the plate, two singles and errors being responsible.
The St. Josephs were blanked in the fourth and their twelfth run was made in the last inning. O'Keefe being sent across the plate by a beautiful three-bagger by Harris. This was the first three-bagger of the season, and as it landed in deep left field the batter was given an ovation.
Wesley Friars, the old war horse of the roses was umpire and was loudly applauded as he took his position on the diamond.
The following is the score and summary:

Table with columns: AB, R, H, PO, A, E. Rows for St. Josephs and St. Roses.

Summary—Shamrock Grounds, Tuesday evening, June 18th, 1907. St. Josephs, 13; St. Roses, 8. Three-base hit, Harris. Two-base hit, Simpson, Devolving, Joyce. Bases on balls—O'Keefe, 3; Dooey, 2. Struck out—O'Keefe, 4, viz., Buckley, McGuigan (3), McCafferty, Dooey (2); by Dooey, 2, viz., Joyce, Quinn, Murphy. Stolen bases, McKinnon, Cregan, Simpson, Harris (2), Buckley (2), McDonald, Owens. Hit by pitched ball, Joyce, Simpson. Pass ball, Cregan. Wild pitch, Dooey. Double play, Simpson, unassisted. Time of game, one hour. Umpire, Wesley Friars. Attendance, 160.

RESIGNATION ACCEPTED. NORFOLK, Va., June 18.—The directors of the Jamestown Exposition Company tonight accepted the resignation of Governor W. E. Cottrill and practically made James M. Barr director general with full powers to succeed him. Cottrill had endorsed a second bond issue for \$700,000 to cover all the exposition company's liabilities.

TRIDENTON, N. J., June 18.—The court of errors and appeals today affirmed the decree of the court of chancery granting a divorce to James B. Duke, the tobacco magnate, from his wife Lillian Duke.

QUITTS. A quilt tournament between the Algerians and the Newman Brook Club was played on the grounds of the latter club last evening. The Newman won the three games, the score being 2-4, 2-15, 2-16. After the games were finished a musical programme was carried out and speeches were made by President Tilley of the Algerians and President Thornton of the Newman Brook Association. The return matches will be played in Carleton on Friday evening.

DEATHS.

A. B. WETMORE. Arthur B. Wetmore, a young man well known in this city, died at the residence of his mother, 331 Stanley street, yesterday, after an illness extending over a year. The deceased was twenty-two years of age, and before his illness had been employed as a checker by the C. P. R. He is survived by his mother and one sister. His loss will be greatly felt among a large circle of friends.

GILLIES A. CLARK. The death took place at Los Angeles, California, on Saturday of Gillies A. Clark. He was in his fifty-fifth year and a son of W. H. Clark of Massachusetts. He is survived by his wife and three children, he is survived by his father and three brothers and three sisters. Allan H. Clark and two sisters reside in Toronto. The other brother, Dr. A. W. Clark, lives in Philadelphia, and the absent sister is a trained nurse in California.

MRS. EDWARD D. BODAH. SACKVILLE, N. B., June 17.—The death of Mrs. Edward D. Bodah, formerly Miss Jennie Jones of Pointe du Bute, occurred in Boston recently. Mrs. Bodah went to Boston less than a year ago, and her untimely death is universally regretted by a large circle of friends. She was a daughter of the late Mr. J. H. Bodah and this is the first break in a family of eleven children. Deceased was twenty-seven years of age. The funeral services were held on Sunday. Rev. Dr. Steele of Amherst officiated. The pall-bearers were John Irvine, Chas. Tingley, John Wells, Walter Brownell and Arthur Tremblay. The funeral tributes were numerous and beautiful. Interment took place at Pointe du Bute cemetery.

WOODSTOCK, N. B., June 18.—James Montgomery, one of the oldest residents of Carleton county, died at the residence of his daughter, Mrs. Forrester McLean, this morning at the age of about eighty years. He kept a hotel at Florenceville fifty years ago, but for the last twenty years or more has resided in Woodstock. He was the father of Mrs. Gabe Forrester McLean, Mrs. Frank McLean and Mrs. Randolph McLean of Woodstock, and a son, William Montgomery, of Woodstock. He was a member of Woodstock Lodge, No. 10, and the funeral will be conducted under the auspices of the lodge tomorrow afternoon at half-past two.

VALUABLE HORSES. SYDNEY, N. S., June 18.—A number of Sydney gentlemen have purchased the famous Kentucky thoroughbred stallion, Madrileno, who won 10,000 Thoroughbred stakes, and also Patience, Ned's hand, and also Patience, Ned's in the blue grass state, a runner with a mark 1:12 for the mile. Both these horses are splendid animals and they will be started at races that are to be held at the trotting park on July 1st.

CHALLENGE. We, the undersigned members of the Tartars, do hereby challenge any 14 year old bare hall team in the city. W. H. Whittaker, Captain, H. Gordon, J. Moran, W. McGowan, P. Conlon, A. Moran, T. Powers, Jack Seely, Theo. Daley. Answer through Sun or Star.

IF YOU TOIL. You want more than ordinary nourishing food. A 5 cent tin of "Clark's Fork and Beans" contains even more nourishment than 1 lb. of Prime Canadian Beef and is just as tasty and appetizing. Also 10 cents and 25 cents.

USE SOZOTRICHOLINE THE GREAT HAIR REMEDY. Guaranteed to positively cure dandruff and falling of hair in 8 applications, bringing out a new growth of hair in 15 to 30 days. DR. GARIFALOS REMEDY CO. NEW YORK.

LOCAL NEWS.

No. 602, 3 doz for 25c, up at the Two Parkers, 100 Princess St. and 111 Brussels St. A few barrels of good Delaware potatoes for sale at 50c per bushel. Mrs. G. W. Hatheway will receive her friends on Wednesday afternoon and evening at 14 Adelaide street. No broken pots, no saw edges; brass buttonholes or such on collars laundered by Ungar, Waterloo St. Phone 18. Mrs. J. Theodore Shaw (nee Morrison) will receive her friends Wednesday and Thursday afternoon at her residence 118 St. James street. Mrs. Ernest Hansen (nee Habel) will receive her friends Wednesday and Thursday afternoon and evening of this week at her home 58 City Road. Mrs. James Stackhouse will receive her friends on Thursday afternoon and evening, June 20th, at her home, 118 Sydney street. Mrs. J. Percy Pettigall (nee Coleman) will receive her friends on Thursday afternoon and evening, June 20th, at 25 Golding street. Pineapples, 10c each; bananas, from 10c per doz, 3 doz for 25c, up at the Two Parkers, 100 Princess St. and 111 Brussels St. The best time to stop eye trouble is in childhood. If there is anything wrong, right glasses will correct it. Condit, D. Boyars, 83 Dock street. Blouses and shirt waists for the boys from 25c to \$2.75. Union Clothing Co., 100 Charlotte St. Old Y. M. C. A. Building. The village of St. Philippe, Quebec, was visited by a disastrous fire yesterday morning. Half the houses in the village were destroyed and the loss is estimated at \$50,000. If your clothes need cleaning and pressing, call on the tailor of 73 Princess street, (Clifton House Block). The ceremony was performed by Rev. W. W. McMaster, pastor of Germain street Baptist church, only the immediate relatives and friends being invited. The bride and groom were unattended and the bride wore a costume of pale blue silk. A large number of handsome gifts received from friends testify to the popularity of the contracting parties. The members of No. 1 Company sent a No. 1 fire station on Charlotte street was gaily decorated with flags and bunting yesterday in honor of the occasion. The newly married couple will reside at 143 St. James street. STAFFORD-SMITH. A very pretty wedding took place at Griffin Cliff House, Los Angeles, Cal., the residence of Mr. and Mrs. A. L. Stafford, when Miss Gertrude W. Smith, formerly of Salisbury, N. B., was united in matrimony to Samuel A. Stafford, formerly of Longueville, N. B. The bride was beautifully gowned in a white French lawn dress and wore orange blossoms. They sat under a canopy of roses and sweet peas while the nuptial knot was being tied. After the bride's cake was cut and all were served with ice cream, food drinks and cake, the bride changed her gown for a dark travelling suit and they left amid a shower of rice and good wishes for a trip to the islands. PARKER-KNAPMAN. A pretty wedding was celebrated in St. James' church, Broad street, last evening at 7 o'clock, when Henry H. Parker of Westfield was married to Gertrude A. Knappman, daughter of Dr. Parker of Broad street. The ceremony was performed by Rev. J. E. Hand, the rector of the church. The bride was charmingly attired in a navy blue travelling dress and was attended by Miss Gertrude Whelan, Ernest Knappman, brother of the bride, who worked the groom. After the ceremony a wedding supper was served at the home of the bride's parents, and later Mr. and Mrs. Parker drove to their future home in Westfield. HARRISON-MCCORMACK. The wedding will take place at Cambridge, Mass., tonight of Miss Bertha McCormack, niece of Mr. and Mrs. Andrew H. McKee, to Thomas McClelland Harrison, of St. John. The ceremony is to take place at the residence of Mr. and Mrs. McKee, 120 Walden street. CORKERY-ASHE. The wedding took place at 5 o'clock yesterday morning in St. Joachim's church, Silver Falls, of Miss Isabella E. Ashe, daughter of Daniel Michaud, to David Corkery, of this city. The bride was attired in a travelling suit of fawn cloth and was attended by Mrs. Geo. E. Criggs, M. T. Colohan supported the groom. Mr. and Mrs. Corkery left for a trip to Halifax. WILBUR-WOOD. DORCHESTER, N. B., June 18.—Willard D. Wilbur, collector of customs, was married today to Mrs. Wood of Port Elgin. Rev. E. H. Hall performed the ceremony. NAGLE-HANLON. The wedding took place at five o'clock this morning in Holy Trinity church, of Miss Margaret Hanlon, daughter of Mrs. George Magee, to Thomas Nagle. The bride was attired in a travelling suit of mauve blue and was attended by her sister, Miss Millie Hanlon. The groomsmen were Harry Pierce, Mr. George Magee and Mrs. Nagle. Mr. and Mrs. Nagle left on the early train on a trip through the province.

HOW WILD THINGS LEARN THE NEWS

Sense of Smell Highly Developed in Animals.

Many Animals Can Recognize Man Only When He Moves About.

The dwellers of the forests and fields are well informed about the news in their immediate neighborhood. Men tell each other what they saw; if the animals could talk they would tell each other what they smelled and heard.

The sense of smell is the great news gatherer for small woodland creatures as mink, weasel, and fisher. They can track ahead only a few feet or even a few inches in the brush or grass, where they generally hunt or are hunted, and their sense of sight has remained dull. Even larger animals, such as foxes, wolves, wild and domesticated dogs, depend on the sense of smell to a remarkable degree, and this sense is so highly developed that no man would believe it if he had not all observed it. A dog or wolf knows by scent not only that some other dog or wolf has called at a certain corner, but he knows even what particular individual among his acquaintances has called.

A small pup that I used to keep in the house lived on terms of permanent war with a mongrel farm dog. Whenever I had touched the mongrel or been near him, the little house pup would bristle and bark at the scent of his enemy as soon as he sniffed at my hands or clothing. My spotted fox terrier sometimes passes me at a distance of a few rods without recognizing me by sight; but I cannot lose him if he finds my tracks. He follows me as readily when I wear rubber boots as when I go out in common leather shoes. My water spaniel once cornered a rabbit near an old fence. The wind was coming wrong for the dog, and he gazed about within two feet of the rabbit without seeing him. At last the rabbit made his escape by jumping right over the dog.

Even the largest game animals like deer and moose depend much more on their noses and ears than on their eyes in getting the news of the woods. Again and again I have quietly rowed toward a big bull moose. His small eyes stared at me, but he could not make out what I was. But never did I approach closer to one which got my wind. At the distance of half a mile his nose told him that I belonged to a dangerous gun-bearing race.

Several kinds of birds act as purveyors of the news to the four-footed animals. No sooner does the crow say a hunter, than it begins to utter a loud "Caw, caw, caw." Every one who has ever understood that language as meaning, "Something strange," which is the same as saying, "An animal is dangerous." The bluejays have similar habits, and scream at the sight of any intruder on the woodland dwellers.

Certain dangers to the animals are well understood by young and old. After a buck has caught the hunter's wind and has uttered his sharp warning whistle, no experienced hunter will wait for any deer to show themselves. In the language of the street, "they are onto him, and the game is up."

Animals gather much news by watching others of their kind. One day I saw many moose and roamed a rich chain of northern lakes. The next day there was not a moose to be seen on any of the lakes of the whole region; they all had learned of the news and stayed in the silent forest.

On a canoe cruise in the wilds of Minnesota I chanced upon a fine buck and his doe. The doe saw me first, and was watching with tense interest. Then the buck looked up at her from his feeding. Immediately he knew that she saw something dangerous. He also looked in my direction for a minute, and then both disappeared among the cedars.

When a man does not move, an animal's eyes are often unable to differentiate him from his surroundings. I was watching a pair of muskrats that dove for roots and ate them on a willow stump. Whenever both rats were under water, I walked rapidly forward a few steps; but while they were munching their roots on the stump I stood motionless. This manoeuvre I repeated until I stood on the open bank within twenty feet of them. At last I threw a stick at one of them. The minute I moved it saw me, and plunged like a stone. His noisy plunge conveyed the news to his mate, and neither of them were seen again.

One late summer evening I was sitting on a high railroad bank. While quietly watching the marsh below, a bit of wild life rarely seen by naturalists or woodsmen displayed itself under my very eyes. Three minks came running out from under a pile of old logs. For twenty minutes they played there. A train clattered past; but they paid no attention to it. I was silhouetted against the sky, and quietly watched him through my glass; however, as I did not move they saw only a harmless stump in me. After twenty minutes they scampered back to their home under the logs.

AUTOING IN CHINESE WILDS

Experiences of Pekin Racer Going by Coolie Power.

"Push, and the Fire Carriage Will Go by Itself," They Sang—Ricky Sleeps After Huan River Was Crossed.

LONDON, June 17.—A despatch from Kaigan from the correspondent of the Telegraph who is accompanying the contestants in the Pekin to Paris automobile race says: "Our Italia car arrived here on Saturday morning after a journey of extraordinary interest. We left Chatauchang at 4.30 a. m. June 12, drawn by mules and coolies. "We soon reached the spurs of the Tenjan Mountains. No real road exists there, merely paths created by the usual traffic, and along these we dragged the automobile, just as big guns are hauled into position. It was hard work preparing space for the tires and removing boulders. The coolies worked with alacrity, uniting their efforts in time with characteristic songs improvised for the occasion. "Push, they sang, 'and then the fire carriage will run by itself.' "We met everywhere a kindly reception. The population brought fresh water and asked respectfully where we were going. "The correspondent thus describes part of the journey: "Passing through little villages we feel the indescribable pleasure which comes from having done something which seemed impossible for the first time. This race in sight of Chinese pagodas seems a dream, and we are compensated for all our fatigues. Our Umbrella and greatest fear, the spex of satisfaction. "From all houses there issue women and children, a picturesque crowd in strange habiliments, stranger than those of the Pekinese. They form vivacious throngs along the mud walls of the villages, but there is no sign of excessive wonder. On the contrary they show tranquil and benevolent curiosity. Many of them shout: 'Here's the railway, countrymen, at work. "They often look at us, but without interrupting their occupation, as if they had seen such sights as their lives. All of them know of the railway by repute, as it is from here that the Kaigan line was begun. Consequently they believe they are witnessing the passage of the first train." "June 13 is described as the day richest in fatigues and emotions. The correspondent writes: "A hundred times we ran the risk of seeing the automobile fall over precipice, dragged by rocks or buried in mud. In the neighborhood of Shouabushun the car had formed a morass and the car was buried over its axle. It was also held up by immense roots of trees, which prevented its being drawn any further. We had, therefore, to work with axes to cut the roots away. "A worse experience awaited us. Crossing the valley of the Huan River we had on the left side a precipice and on the right a wall of rock. It was like getting up a staircase cut in the rock. Every moment we ran the danger of breaking the engine on the great boulders in the path. Sometimes the road almost disappeared between narrow walls, giving the impression that the automobile was absolutely closed in and could neither recede nor advance. "The heat of the rocks warmed by the sun was tremendous. This rendered the fatigue all the worse, especially when we had to work with pick and shovel in order to smooth out a passage. A good twelve miles were passed in this manner until we entered the sand hills of the Plain of Shinwafa. "The mandarin of Shinwafa sent two horse soldiers to meet us who had the appearance of brigands. They looked us over and then went off at a gallop toward the town. These soon came a curious cavalcade formed of old citizens, functionaries and soldiers, all desirous of seeing the mysterious foreign machine in motion. The multitude surrounding us had to be dispersed by the soldiers with blows from sticks. We made a parallel entry into a suburb, where we passed the night. "The next day the car reached Kaigan after much hauling by coolies and some good running at twenty miles an hour. "The French and Dutch cars arrived at Kaigan Sunday morning in good condition. They had been delayed by the Cantal tricar, the wheels of which could not traverse the deep ruts.

THE ST. JOHN STAR is published by THE SUN PRINTING COMPANY, (LTD.) at St. John, New Brunswick, every afternoon (except Sunday) at \$3.00 a year.

ST. JOHN STAR. ST. JOHN, N. B., JUNE 19, 1907.

IN CARLETON COUNTY. The report which the Star prints today on the reawakening of agricultural activity in the Carleton-Victoria district, is the most cheerful statement in years. The rapid depopulation of this fertile section, which has been going on for some time has been viewed with not a little anxiety, for although there is no reason why anyone should hope to reap greater returns from farming in western Canada than can be done at home, yet there is a restless spirit abroad, and our people in common with others, are always looking for a change.

PRODUCING THE NUISANCE. A story of the use of phonograph records as evidence in a legal proceeding comes from Paris. A lodger sued his landlord to suppress as a nuisance the noise of a coppersmith on the ground floor. He employed a phonograph to record the sounds complained of, and no sooner was the instrument set going before the judges than they began to stop their ears in dismay. The complaint was not long in obtaining the relief he sought.

A DIFFERENCE. "Did I understand you to say that all rum selling had been stopped in your town?" "Not at all. I merely said it was strictly prohibited."

QUALIFIED. "We want a man for our enquiry office," said the manager, "but he must be able to answer all sorts of questions and not get irritated."

HIS SOLITARY JOKE. Some forty years or more ago the old pilot of the little steamer Maid of the Mist, which used to carry passengers quite up to the foot of the Falls at Niagara, until the mist from the falling waters drenched the clothing of every one on board, used to perpetrate one solitary comical trick. It always commenced and ended the same. Moving his hands along the sides of the pilot house and examining the woodwork minutely, he would look up mysteriously and remark:

"Made of what, pine and oak, isn't she?" "No, sir." "Hemlock?" "No." "Timber cedar, is it?" "Oh, no." And then the old pilot's eyes twinkled and his mouth whistled a crazy tune.

"Well, iron, perhaps?" said the stranger. "No." "What in thunder is she made of, then?" "She's Maid of the Mist, stranger—Maid of the Mist."

MAMA WAS PARTICULAR. Mr. Pounder—Won't you sing something for me, Miss Propper? Miss Propper—I can't, mamma isn't here. Mr. Pounder—But I can accompany you on the piano.

PALLIATION. Actress (angrily)—Did you write the criticism which said my impersonation of "The Abandoned Wife" was a miserable failure? Critic—Y-y-e-s; you see, you looked so irresistibly beautiful that it was impossible to fancy any man could abandon you.

RUSSIAN ENGINEERS IN ANOTHER MUTINY. KIEV, June 18.—During the night the 21st battalion of Sappers, 450 strong mutinied. They killed the commander of the third company and began firing volleys at random. Five loyal battalions were summoned to quell the mutiny, and called upon the mutineers to surrender. They replied with shots, however, wounding four of the loyal soldiers. The loyal battalions fired a volley and the mutineers broke and fled. Two hundred and fifty-eight of them were arrested, but the others escaped.

HARBIN, Manchuria, June 18.—A sharp skirmish occurred yesterday between the band of Chinese bandits who murdered Captain Veinoff and a detachment of Cossacks in Eastern Manchuria. Forty-five miles from the frontier. Three Cossacks were killed and two wounded. The bandits are retreating north.

THE RESPECTABLE PRESS. (Montreal Witness.) When the New York Herald enjoyed the sobriquet of the Satanic Press, the New York World stepped in under Pulitzer and took that eminence country life. When the World prospered greatly it had to give way to a still more conscienceless paper under Hearst, that lawless and continues to have against capital while heaping up that commodity. Still there is in New York a virtuous and independent press. It prospers; its advertising space is of the highest value, and it is the only press that has the respect of the people. There will probably everywhere and always be a press of this kind.

Unless the construction of the new D. C. Clark wharf goes ahead more rapidly that berth will not be available for next winter's traffic. A great deal of work will still have to be done after the Clark contract is finished.

A BOTANIST'S LOVE STORY. I long for the land of the pinus palustris. Where taxodium distichum faithful, industrious, and the cypripedium is waving in sadness o'er Clementine's tomb.

"Twas under the spreading hickoria poem We pledged our fond love by the light of the stars; "If any be faithful," we whispered, "then we can." While leaning at eve o'er the fraxinus bair.

A flower from the sweet salina trilobis She pinned on by coat as I bade her farewell; But her love grew as cool as the far Manitoba And my hopes like the frost-bitten autumn leaves fell.

They planted catalpa, the fair speciosa, They planted the bush and the tree and the vine; They planted a sprig of robinia viscosa, And underneath these, planted poor Clementine.

"Did I understand you to say that all rum selling had been stopped in your town?" "Not at all. I merely said it was strictly prohibited."

"We want a man for our enquiry office," said the manager, "but he must be able to answer all sorts of questions and not get irritated."

"Made of what, pine and oak, isn't she?" "No, sir." "Hemlock?" "No." "Timber cedar, is it?" "Oh, no." And then the old pilot's eyes twinkled and his mouth whistled a crazy tune.

"Well, iron, perhaps?" said the stranger. "No." "What in thunder is she made of, then?" "She's Maid of the Mist, stranger—Maid of the Mist."

BAD ACCIDENTS ON THE BORDER

St. Stephen Boy Maimed for Life; Charlotte Man Dies of His Injuries

CALAB, June 18.—A lamentable accident which resulted in the maiming for life of Reggie Maxwell, the 14 year old son of David Maxwell, C. E., St. Stephen, occurred Sunday afternoon on board a motor boat owned by Fred Hutchinson of the same place. Mr. Hutchinson's son, Sterling, and young Maxwell, took a party of friends down river in the motor and on returning landed their party at the public wharf. Then the two boys started to take the boat to her moorings in the cove, and after leaving the wharf they began skylarking. It is alleged, Young Maxwell caught his right foot beneath a set screw in the collar over the propeller shaft, and the member from the lower part of the instep was terribly crushed. The unfortunate boy was removed as speedily as possible to the Chipman hospital, where on Monday morning it was found necessary to amputate a portion of his foot. The accident is generally regretted and the victim has the sympathy of all Mr. Hutchinson was so much disturbed on account of the accident that he has decided to sell the boat, which is one of the best on the river.

EUROPE'S ART WORKS NOW UNOBTAINABLE

Sir Caspar Pardon Clarke Says He is Coming Back Empty Handed, Much to His Regret

PARIS, June 18.—"While it is somewhat difficult for me to gather works of art in France, I do not, in the least, blame Frenchmen for holding on to the good things they have," said Sir Caspar Pardon Clarke, director of the Metropolitan Museum, to a Herald correspondent. "I have obtained nothing of any particular note on this trip, for the good reason that everything of value has been discovered and chased by the government. You cannot find treasures in Europe.

JOSEPH CHAMBERLAIN SAID TO BE DYING

Reports However are Not Very Definite—He Has Been Taken to London

NEW YORK, June 18.—A cable to the World from London says—A report was current in the House of Commons that Joseph Chamberlain is dying. Mr. Chamberlain was brought to London house yesterday from Highbury, his place near Birmingham. Since his return from abroad he has shown increasing loss of nervous and mental power, and it was desired to have him within reach of the best medical advice that London affords.

THE TUPPER GAG. (Hamilton Times) We expected it! Here is the London Free Press claiming that the "all-red" line is just the old scheme Tupper had about consummated when Canada rose up and fired him and his party. It says "the all-red" fact line is the identical project which the late Conservative government brought so near to fruition that the contract was signed when they went out of office." Next we shall be told that the Grand Trunk Pacific is only a warmed-over Tory dish. And some of the faithful will be ready to believe it.

SHOT HIS WIFE WHO DIED FROM SUFFOCATION

NEW YORK, June 18.—After pressure of a merciless examination James Wardell today confessed to Coroner Arcitelli and Assistant District Attorney Manley that in furtherance of a suicide pact, he yesterday shot his wife at the latter's flat in West 25 street. At the time of his confession Wardell did not know that an autopsy had disclosed that his wife died from illuminating gas.

Wardell's admissions have added something unusual if not unprecedented to the annals of crime in this city. Mrs. Wardell, who was 19 years of age and strikingly attractive was found dead on her bed last night. Wardell was arrested and told the police that he had agreed to die together. His courage failed him when the time came for self-destruction.

At a meeting of the board of works last evening Engineer Peters was appointed provisional director. The work of rebuilding Union street was left to a committee. The I. C. R. will be asked to rush the work on the Stanley street and Wall street bridges. The telephone company will be requested to put the Water street cables underground. The engineer will give the street railway the lines for the Paradise Row second track. G. S. Mayes may move his coal shed to the corner of South Rodney wharf. The Carriage-Factorion Co. refused to take the tar contract and new tenders will be called. The team drivers ask an increase of 50c per day for single and \$1.00 a day for double teams. W. Donovan who took the hay contract at \$13.50 now asks an increase as hay is \$22.50.

TRY! TRY! TRY!

Some men go about in a half-hearted sort of way without taking any particular interest in anything. Very often the trouble is due to the uncomfortable Shoes they are wearing, for how can a man give his mind either to business or to pleasure when his corns ache and his feet are sore? Give your head a chance by putting your feet into our easy fitting Spring Shoes, modelled on the human foot. Our new Spring Shoes, made from such stock as Patent Kid, Viol Kid, Kangaroo and Russia leathers, are so easy that any troubled feet will find comfort in them. New toe shapes and all sizes. We get made through our low prices and hold it through the merit of our shoes.

ASK MISS GOULD

FOR \$100,000,000

The Requests for Loans Aggregate \$2,000,000 a Week

NEW YORK, June 18.—It would need \$100,000,000 annually to satisfy the people who send petitions to Miss Helen Gould. The requests for gifts and loans she receives aggregate nearly \$2,000,000 a week, and range all the way from the asking for \$15 for a set of false teeth to \$1,000,000 to start a colony in Cuba.

Miss Gould gave an itemized list of a week's requests recently to Franz Kattenborn, the orchestra leader of St. Nicholas Garden. A movement is on foot among the music lovers of this city to make Mr. Kattenborn's orchestra music a permanent feature in New York. For this subscriptions from wealthy persons would be necessary. Miss Gould was one of those consulted. She encouraged Mr. Kattenborn, but incidentally cited the fact that this was not the only thing she was asked to encourage. Then she gave him the list.

In the week referred to Miss Gould received 231 requests for money outright, of these 149 left the amount to her good will and discretion. They weren't particular. More than 50 wanted cash loans. Sixteen didn't specify any specific amount; they just wanted to borrow.

Miss Gould was asked in that week for \$5,000 to help form an anti-saloon league in Idaho. She received 43 requests for aid for churches, 27 for education institutions and 25 for libraries.

More than 30 were for help for charitable institutions.

One man proposed to sell Miss Gould his farm for \$2,000, which, he said, he thought, was a pretty good bargain for her. Four persons, presumably young women, wanted Miss Gould to help them to buy trousseaux. Only one named the sum she expected. The others left that to Miss Gould.

Eleven persons wanted piano, and 12 wanted Miss Gould to buy their trousseaux. One person wrote a long letter offering to give her the last chance to buy a ring for \$1,200 which was worth four times that much, if a cent. A girl wanted to sell her a brooch for \$500 and still another said she had a lovely Sevres vase which Miss Gould, "being it was she" might have for \$500. A son filled with filial love wanted to erect a monument to his father. He suggested that Miss Gould contribute \$500 toward that worthy end.

In the long list there were several requests for musical instruments. Some body wanted an organ, but another person wanted money with which to print 2,000 hymnals. Following are some of the other wants: Bibles, bicycles, a farm and three cows, one invalid's chair, enough air pillows for 100,000, five sewing machines and 15 railway tickets.

Five persons wanted Miss Gould either to buy their manuscript or help to sell them; one wanted assistance in getting out an opera, and another help for an oratorio. The person pleaded for help that he might open a photograph gallery. He said that with a gallery opened and paid for his road to fortune and happiness was clear. Another man said that if Miss Gould would give him a horse and a peddler's cart he would never ask her for another thing.

More than a hundred letters simply asked for aid—any kind, money, clothes, false teeth, organs, or anything else handy. Thirty-four were frank in asking for old clothes, and three wanted watches. Seventeen only wanted to see Miss Gould to get her advice. One asked for a house, so that he might marry his sweetheart. Another simply asked for the concession to sell Miss Gould's picture for his own profit. One wanted a tip on railway stock. Seven simply wrote that they had named children after Miss Gould, and that they would like to have a word to the wise ought to be enough.

As to the other wants, there were silk with which to do some quilting, five sewing machines, help to become a medical missionary, money to enter an Old Folks' home, money to help get a prisoner out of jail, assistance in selling lace and embroidery, and a donation wanted toward a patriotic league.

FIVE ST. JOHN LAW STUDENTS WILL RECEIVE DEGREES TOMORROW

(Continued from Page One.)

John A. Barry is a son of James Barry, Inspector of Weights and Measures, and formerly principal of St. Malachi's school. He is 22 years of age and received his early education in the public schools of this city. Mr. Barry graduated from the St. John High School in 1900. Shortly after he entered the University of St. Joseph, from which he received his B. A. degree in 1904, with honors in English, mathematics, and Greek. During Mr. Barry's last term at St. Joseph's he was chosen as the representative of the students at a reunion of former graduates. He delivered an address "Canada, Our Home," Mr. Barry figured in several debates at the college. He was chosen a leader in a debate on "Prohibition and Higher License," and was opposed by E. J. Conway, who on the 23rd of this month is to be ordained a priest. Mr. Barry was president of the St. Patrick's Literary and Dramatic Club which was composed of the English speaking students at the university. Mr. Barry figured in athletic circles also. He was president of the Amateur Athletic Association and captain of the St. Joseph's football team of 1904. He was elected captain of the baseball team but resigned in honor of Joseph Fortin, of Quebec. Mr. Barry has been in athletics in this city. He was captain of the St. Joseph's baseball team last season, and is manager of that aggregation this year. Mr. Barry has not yet decided where he will locate. He states, however, that he will remain here for a year. For the past two years Mr. Barry has been a member of the Times reporting staff. He will continue at this work for some months.

Who is there who can honestly say he or she is absolutely free from stomach disorders? It may not be chronic dyspepsia, only indigestion; it may not be inability to eat nearly all foods, only certain kinds. No matter what your digestive ailment, Heron's Dyspepsia Cure will give you relief and in short time complete relief from stomach ills. 35c. and \$1.00, at all good druggists.

SERIOUS MUTINY AT KEV WAS NIPPED IN THE BUD.

Loyal Regiments Called to Subdue Their Dissatisfied Comrades Who Made a Fuss Too Soon

ST. PETERSBURG, June 18.—Details of the mutiny of Sappers at Kev shows that it was only suppressed after a bloody engagement at midnight, June 17, between the mutineers and royal troops. About seventy men were killed and a hundred and fifty were captured, but one hundred and ninety-three eluded pursuit and hid in the southern provinces arranged for the mutineers to be taken to the front. The mutiny at Kev was arranged by Shefchenko, a revolutionist of good family, who entered the army as a volunteer for the purpose of undermining discipline and won over many of his comrades, but when he raised the standard of revolt they were frightened and the little band of ringleaders was overpowered. Three bombs were found in Shefchenko's tent.

All the mutineers will be tried by court-martial.

The workmen employed in a big factory at Kev struck after the mutiny, but they have not yet been joined by employees of other factories.

Gen. Sukholimint, the commander of Kev, is taking the most energetic measures to arrest the fugitives and the leaders of the movement. Hundreds of houses have been searched and 92 citizens have been arrested, among them being officials of the railways and telegraph service and the editors of the newspapers.

Numerous other arrests were made in Kev and a number of houses were found, but order is now restored. The city is in the hands of the military.

fire and fell dead himself at the first volley.

The fighting continued for several minutes. Half a dozen soldiers were killed and about sixty wounded. Finally the mutineers who had no officers, no leaders, and no plans, wavered, and fled. Two hundred and fifty were captured, but one hundred and ninety-three eluded pursuit and hid in the southern provinces arranged for the mutineers to be taken to the front.

The mutiny at Kev was arranged by Shefchenko, a revolutionist of good family, who entered the army as a volunteer for the purpose of undermining discipline and won over many of his comrades, but when he raised the standard of revolt they were frightened and the little band of ringleaders was overpowered. Three bombs were found in Shefchenko's tent.

All the mutineers will be tried by court-martial.

Numerous other arrests were made in Kev and a number of houses were found, but order is now restored. The city is in the hands of the military.

TODAY IN CIRCUIT COURT

Circuit court resumed its session at 10 o'clock this morning. The names of the petit jurors summoned were called and out of the twenty present, only eight remained unchallenged. Judge McLeod directed the sheriff to summon other jurors.

Before the petit jury had been called, Oscar Petersen, charged with having received goods from the McClary Manufacturing Co., knowing that the same had been stolen, was called. Clerk Willet read to him the indictment to which Petersen pleaded not guilty. Shortly before the sheriff left to summon the jurors, Judge McLeod directed Constable McBratney to summon John McDonald, a petit juror who had not appeared at court. The constable soon returned with his man and Mr. McDonald briefly addressed the court. He stated that he was in business in the market and that he had fifty rounds of best there which would spot in a warehouse at court. After some discussion Mr. McDonald was excused and allowed to depart to look after his beef. The court adjourned until the new jurors were being summoned and met again at 12 o'clock.

Hon. H. A. McKeown, representing accused of accepting stolen goods known to be stolen, and in opening the case for the defence, stated that evidence would be along the same lines as that contained in the depositions. Mr. McKeown dealt with particulars of the case which have been published. He then called his first witness, Hanford Geldart, who was employed in the McClary warehouse and who is charged with stealing therefrom.

D. Mullin, counsel for Petersen, objected to Geldart being called, as he claimed to be a witness. Judge McLeod allowed Geldart to be placed on the stand.

Witness said he had been in the employ of the McClary Company for a year. He stated that the McClary Company's warehouse was to look after the shipping. He shipped the goods only on orders from the company's office. The goods were generally conveyed by the cars to the trains and boats.

The witness said he had known Petersen for over a year.

Witness said that he asked the price of two stoves while he was speaking to the clerk at the office. He did not remember the exact price asked, but he was sure that the wholesale price of the stoves were \$30. He told Petersen a few days later that he could sell him a stove at wholesale price. Petersen asked him the price, and when told said that the price were two high. The witness said that he wondered whether or not he could get a stove over to his house. Petersen told the witness that a stove could be taken to pieces and taken to his house in that way. The witness agreed to do the stove over, Petersen promised to give him a little money every few weeks until he had paid \$18 or \$20 on it.

The witness hired a team and sent the stove over to Petersen's house a few evenings later. When the team arrived at Petersen's house the stove was taken in by the back door.

The witness accompanied the team a man named Vanvicker, the case of the stove over to Petersen's house and helped to put the stove in the house.

Wm. Mahoney was also there. Witness saw several women at the house. Petersen's wife asked him if the stove had been obtained in the right way and he replied yes.

At this point Judge McLeod adjourned the court.

The petit jury selected after so much delay was as follows—Chas. Gurvey, Joseph Noble, S. B. Lovell, James Wilkes, John P. Williams, Wm. Newcombe, Daniel Michand, J. F. Morrison, D. McIntosh, James A. Bovey, Wm. Mullin, and Charles S. Everett.

REV. MR. CAMPBELL WAS RELEASED BY CONFERENCE

To Take up Bible Society Work—A Lot of Changes Made in the Station Sheet.

ST. STEPHEN, June 18.—The ministerial session of the Methodist Conference resumed this morning. Rev. W. V. Lodge in the chair. By unanimous vote Rev. G. M. Campbell was recommended leave of absence to take up the work as secretary of the Canadian Bible Society. The following changes were made in the stationing sheet:

St. John District.
Carmarthen—C. W. Squires, M. A. B. D.
Newtown—J. Spencer Crisp.
Frederickton District.
Gagetown—W. J. Kirby.
Woodstock District.
Canterbury—H. H. Marr.
Chatham District.
Tabusiat—Patterson.
Dorby—E. A. Weorland.
Harcourt—C. H. Maston.
Two new circuits were added to this district from the Montreal conference.
Gaspé—W. J. Dean.
Chamorro—J. Constant.
Sackville District.
Eble Verte—Wm. Lawson.
Dorchester—E. O. Hartman.
Alma—E. J. Shanklin.
St. Stephen District.
St. Andrews—W. W. Lovig.
Boocbee—H. J. Gould.

SOFT HATS!

For Summer Wear there is nothing as cool and easy on the head as a Soft Hat, and you'll get more satisfaction from one of

MAGEE'S HATS than any other. They are brim full of good stock; besides, you'll be sure of having what is

Correct for Style and Best for Quality. PEARL color hats are used a great deal as they do not draw heat. We've a big variety of styles, also in black and fawn colors.

\$1.50 to \$5.00
D. MAGEE'S SONS,
83 King Street.

THE FONTAINE INQUEST.

George Sealy Admits Having Fired Five Shots—Three Wounds in the Victim's Body.

DALHOUSIE, N. B., June 18.—The inquest over the death of Peter Fontaine opened at 10.30. The court house was well filled.

Four witnesses were heard before the court adjourned at 12.30. They were Benjamin Winslow, police magistrate of Dalhousie, James Savoie, who testified to driving George Sealy and Wm. Galloway to the scene of the tragedy. No report was taken by the party. He said nothing of the proceedings. Heard the shots but did not investigate the cause, John Spinks, who assisted with the post mortem, testified to seeing two wounds made by a bullet and a piece of cotton wool over what he supposed to be a third wound. George Sealy was recalled. To Mr. Lawlor he stated that he did not load his revolver until after he left the house. He fired five shots in all. His neck was swollen where he had been choked and there were marks on his wrist.

THE BOISE TRIAL.

DENVER, Colo., June 18.—Among a number of resolutions confirmed at the general assembly of Miners was one for a general assessment of \$2 on each member of the organization for the defense fund for Moyer, Haywood and Pettibone. Another resolution amends the ritual by stating that there shall be no obligations which shall be contrary to any members "duty to his God, his country or his fellowmen."

BOISE, Idaho, June 18.—Secrecy is the watchword of the men who are conducting the prosecution of W. D. Haywood, charged with compassing the death by assassination of a former chief executive of the state and mysterious surroundings every move made by the counsel retained by the Western Federation of Miners to defend their secretary.

The case has reached the stage where the attorneys on the part of the State's attorneys is more closely watched and reported on by a score of self-confessed accomplices of the defense in order that counteracting evidence may be secured in the points in the four or five western states where the alleged conspiracy, culminating, according to allegations of the prosecution in half a hundred murders, played its part and from which the state is producing witnesses. While the state has its day in court another score of detectives sought in the employ of the defense in the hope of uncovering some new move by which counsel for Haywood hope to clear this client in these last few days, during which the state hopes to clinch and corroborate beyond a doubt, the story told by Harry Orchard, the man whose state is producing witness, a tremendous activity is apparent. Witnesses for the state are constantly arriving.

The witnesses for the defense numbering 150 or 200, will be here by the end of the week. The witness on the stand at the opening of court this morning is Ed. Boyce, now a wealthy man and one of the owners of the Hercules Mine, in the Cour d'Alene, of which Orchard owned at one time a sixteen share. Boyce was for several years the president of the Western Federation of Miners. He has been identified in the Miners Magazine as the official organ of the Federation.

The state now expects to close its case in direct by Friday night, when it is probable that the court will adjourn over until Monday.

INTERCOLONIAL RAILWAY.

TENDER.

Sealed Tenders addressed to the undersigned and marked on the outside "Tender for extension of wharf, Dalhousie," will be received up to and including TUESDAY, JULY 2ND, 1907, for the erection and completion of an extension of the present Railway Wharf at Dalhousie, N. B. Plans and specifications may be seen at the Station Agent's Office, Dalhousie, N. B. and at the Office of the Engineer of Maintenance, Moncton, N. B. where forms of tender may be obtained.

All the conditions of the specification must be complied with.

D. POTTINGER,
General Manager.
Railway Office, Moncton, N. B., June 17th, 1907.

TAKE A TENT

If You are Going to Paris This Summer Hotels are Crowded to an Extraordinary Extent

PARIS, June 18.—Parisian hotel clerks have not yet risen to the heights of some of their London colleagues, who are rather fond of drawing the long bow in the matter of stories of guests who could not be accommodated at crowded times, but the experience of the past week should speed them in that direction.

Many people who omitted to engage rooms in advance had difficulty in finding shelter. In some of the larger hotels the managers turned the ballrooms and billiard rooms into dormitories, and beds in the bathrooms were so ordinary an occurrence as not to excite remark. At one hotel in the Rue Rivoli the ballroom was divided up by screens into cubicles with a bed in each, and fifteen persons were accommodated there on one night.

WALL STREET.

NEW YORK, June 18.—Only a handful of stocks was dealt in the first five minutes of trading today, Reading absorbing the bulk of the meagre transactions. That stock advanced 3/4 and Northwestern fell 3/4. The market opened steady.

ROY INGRAM WAS QUITE BADLY INJURED

in the Portland Rolling Mills this morning. His clothing became caught in some machinery and he was cut about the legs. He was removed to the hospital in the ambulance where it was found that his injuries although painful, are not serious.

It is reported that a weekly newspaper will be established in Fairville, St. John and vicinity will soon be well supplied with newspapers.

HALIFAX, June 18.—Severe electrical storm struck the city this morning.

The house of H. I. Blais, Broad street, was struck by lightning and the chimney knocked into the cellar.

HALIFAX, June 18.—Priet Wilbur was this morning set up for trial on the charge of assault upon his wife.

County Clerk Friel conducted the case for the crown and the matter of entering indictments against Wilbur on other matters brought out in evidence including conspiracy to murder has been left in the hands of the attorney general.

Henry Levesque, who was arrested at Metapedia a short time ago by I. C. R. Police inspector D. A. Nobis for stealing express goods from Metapedia Station, had his trial recently at New Carlisle, Quebec. He was convicted and sentenced to six months imprisonment, with hard labor. J. H. Kelly for prosecution and Lawyer Masseau for defense. Levesque was a porter for one of the hotels there and during his short stay at Metapedia several express parcels disappeared from the I. C. R. station.

REVERE, Mass., June 17.—Hugh McLean of Chelsea won the one-hour motor-paced bicycle race at the Revere cycle track today, covering 29.4 miles.

James Moran of Chelsea was second, and Elmer Collins of Lynn, third.

Underwear made-to-order, for you couldn't possibly excel in fit nor equal in value

Can't think nor stretch nor bind nor bulge; cuts latest other kinds; and is sold with a guarantee that insures you against any possible fault.

Trade-marked like this in red as ure sign of value. Made in many fabrics and styles, at various prices, in women, men and children.

MORE CHINESE
ARE COMING
Promptly Paying Down the
\$500 Head Tax
Secrecy of That Class of Labor Be-
lieved to be the Cause—Unusual
Spots on the Sun Discovered

OTTAWA, June 18th.—Chinese are coming into Canada again. Owing to a protest by labor organizations in British Columbia against competition by Chinese, an admission tax of fifty dollars was imposed on the Orientals some years ago. This was afterwards increased to a hundred dollars, and two sessions ago the tax was raised to five hundred dollars a head. For a year after this not a Chinese entered Canada except merchants and a few others who were exempt from the license charge. However, word has reached China that the opportunity to work in Canada is worth five hundred dollars, or some employers of labor on the Pacific coast have come to the conclusion that the service of a Chinese is worth that amount to them, for three months ago Chinese began to arrive on the Pacific coast and pay down the \$500 fee, which allows them to become residents of Canada. The number of these arrivals has been increasing and last month sixty-six of them entered and paid \$500 each, swelling the revenue of Canada by thirty-three thousand dollars. In addition to these there were forty-five Chinese entered during the month who were exempt from tax, being merchants or Chinese who had lived in Canada before. It is expected that, owing to the demand for labor, this immigration will continue to increase. Some unusual spots on the sun have been engaging the attention of the officials of the Dominion Observatory here. This morning two of these were photographed by Messrs. Plaskett and Harper, of the Observatory. They are estimated to be a hundred thousand miles long and thirty thousand wide. They are supposed to have something to do with the unusual weather conditions which have been prevailing on this continent. The Governor General and Lady Grey leave for Nova Scotia next Saturday. They will visit a few places in the east and will then take a government steamer for a trip up the coast of Labrador. They will be away from Ottawa about a week. Word has reached Ottawa that the Duke D'Abruzzi will arrive at Quebec on an Italian cruiser on June twenty-ninth. It is understood that he is coming unofficially to look into the merits of some mining properties at Sudbury. He will, nevertheless, be shown some attention by the Canadian government and while in Ottawa will be entertained at the Government House.

PROFESSOR DOES NOT
FEAR SUN SPOTS

PITTSBURGH, Pa., June 18.—Prof. John A. Brashear, of the University of Pennsylvania, has discovered a number of observations today of the sun spots, or solar storms, discovered yesterday by Prof. George E. Peters of the United States naval observatory at Washington, and later said that there is practically no possibility of earthly disturbances arising from the sun spots. Prof. Brashear's observations were made in his private observatory in Allegheny. He said: "The spots are much smaller than those observed by me last February, but they are very beautiful and interesting. This afternoon I could see great bridges of flame on the larger spot. The position of the spots is such that they will have no magnetic influence on the earth. Electrical solar disturbances are always projected in straight lines. These spots are so low that any projections would hardly affect us. The spots have passed the sun's meridian about two days and should be discernible for about three days more." Prof. Brashear said the spots are so large that they can be observed through smoked glass without the aid of any astronomical instrument. The size of the present group of spots, Prof. Brashear says, is about 25,000 miles long and 30,000 miles wide. The spots observed by him last February measured 150,000 miles in length.

BODIES OF TWO MORE
VICTIMS RECOVERED

WASHINGTON, June 18.—Rear Admiral Brownson, chief of the navigation bureau navy department, tonight received a dispatch from Rear Admiral Emory, in command of the fleet in Hampton Roads, stating that the bodies of two more of the victims of the Minnesota's launch accident were recovered late this afternoon—Belden (probably error in transmission) and meant for Midshipman Herbert L. Holden of Portage, Wis., and Seaman Robert H. Dodson of New York. This makes eight bodies recovered, leaving only Midshipman Henry C. Murnin of Jackson, Ohio, and Seaman F. R. Plumber and Jesse Conn still missing.

THREE MEN WERE
BURNED TO DEATH

Awful Destruction by Forest
Fires Reported
Thousands of Dollars Worth of Timber
Lands Destroyed—Rain Badly
Needed—Village Swept

TORONTO, Ont., June 18.—Rain fell last night, but the forest fires in Algoma and Georgian Bay district are not checked. It is reported from Webbwood that three men were burned to death near there. Many miles of forest along Algoma Central have been burned, and the flames seem to be increasing in spite of the light rains. Thousands of dollars' worth of timber has been destroyed in the Georgian Bay district also, and many operators have lost all supplies and equipments. Destructive fires are burning on Michigan side too. Unless heavy rain falls at once the fire may burn for days. MONTRÉAL, June 18.—A disastrous fire attacked the prosperous little municipality of St. Philippe de la Prairie, about twenty miles from Montréal on the south shore at an early hour this morning. Fully one-quarter of the village was wiped out of existence, the burnt portion comprising the finest residences, post office and a branch office of the Banque Nationale. All the municipal documents, deeds of registration and other valuable papers, as well as a large sum of money belonging to the municipality, were burned in the office of LeBlanc, notary public. The loss is placed at \$25,000, with insurance a quarter of this amount.

JAPANESE POURING
INTO UNITED STATES

Exclusion Clause Is Being
Cleverly Evaded.

Japanese Land in Mexico, But on
Way to Canada, Stop Off in
United States.

WASHINGTON, June 18.—Despite the president's proclamation barring Japanese under the law passed by congress at its last session, Japanese are pouring into this country in greater numbers than ever. Japan cordially agreed to the immigration exclusion clause, and it was heralded everywhere with a great flourish of trumpets as a fine compromise, and a solution of the whole Japanese problem. The fact is, that according to the figures given by congress and the department of Commerce and Labor, 143 more Japanese came into the country for that month than were admitted in the same month last year. It is expected that this year will mark the flood tide of Japanese immigration. In May 1906, Japanese immigrants to the number of 2,134 came in; in May, 1907, there were 2,282. It is believed to be suspected that Japan had something up her sleeve when she agreed to the exclusion clause. There has been, it is true, a falling off in the number of laborers but that has been offset greatly by the increased number of clerks, students, bookkeepers and other classes exempt from the operation of the exclusion law. It has also been called to the attention of congress that a large sum of money in the aggregate has been sent to the Japanese in Mexico from their countrymen to the United States to enter them to buy tickets for Canada, on which they are allowed to enter this country. The government is watching the scheme of bogus journeys to Canada, but without any other effect than to demonstrate that it is difficult to stop them. When the Jap who has been turned back at the Mexican border gets a through ticket to Canada he cannot be stopped, but the immigration officials take the number of his passport, his name, destination and number of his train. They send word to the authorities of the town in Canada for which he has bought a ticket and also report the matter to the immigration bureau here. As soon as a Japanese arrives at his Canadian destination the fact is to be reported to Washington, and Commissioner-General Sargent is to record the fact. Up to date the commissioner-general has not recorded the arrival of a single Japanese in Canada. All who have started for the Dominion have stopped over.

MOST NEARLY PERFECT VACUUM

It was Professor Dewar's achievement in liquefying hydrogen that led to the discovery of an easy method of obtaining an almost perfect vacuum, and that in a single minute. When a glass tube filled with air and closed at one end has its open end dipped into a cup of liquid hydrogen, the intense cold condenses the air into a kind of snow that settles to the bottom. If then, the upper part of the tube, from which the solidified air has fallen, is removed by heating and cooling it off it becomes a vacuum chamber so free from air that it is difficult to force an electric current through it.

REMARKABLE
INVENTION FOR THE
CULTURE
OF HAIR

THE EVANS VACUUM CAP is a practical invention constructed on scientific and hygienic principles by the simple means of which a free and normal circulation is restored throughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy vigorous growth of hair. There is no rubbing and no drugs or chemicals of whatsoever kind are employed, there are no things to cause irritation. It is only necessary to wear the Cap three or four minutes daily.

60 Days' Free Trial!

THE COMPANY'S GUARANTEE
An EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and are not convinced that the Cap will completely restore your hair, you are free to return the Cap with no expense whatever to yourself. It is requested, as an evidence of good faith, that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company, of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that money will be returned in full on demand without questions or comment, at any time during trial period.

The eminent DR. I. N. LOVE, in his address to the Medical Board on the subject of Alopecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles (hair roots) without resorting to any irritating process, the problem of hair growth could be solved. Later on when the EVANS VACUUM CAP was submitted to him for inspection, he remarked that the Cap would fulfil and exceed in practice the observations he had previously made before the Medical Board.

DR. W. MOORE, referring to the invention, says that the principle upon which the Evana Vacuum Cap is founded, is absolutely correct and indisputable.

An illustrated and descriptive book of the Evana Vacuum Cap will be sent, post free, on application.

THE SECRETARY, EVANS VACUUM CAP CO., LTD., SECRET HOUSE, ST. JAMES STREET, LONDON, W.

ITALY TO CHECK
EMIGRATION TIDE

Country's Population Shows
Real Diminution.

Able Bodied Men Leaving, While
Feeble, the Aged and the In-
competent Are Left.

ROME, June 18.—Admiral Reymond, President of the Italian Bureau of Emigration, recently made a report detailing the advantages and drawbacks of "trans-oceanic emigration." Emigration from Italy in the last five years, the report says, has increased considerably, and in a great measure was composed of persons of the most productive age, especially in regard to agriculture. As most of the emigrants were bound for trans-oceanic countries their absence is of a more or less permanent character, and consequently constitutes a real diminution of the country's population. In many provinces the emigration has reached the utmost limit. As the countries where Italian emigrants are bound to go, as a rule, are immigration-free, follows that the prospects of the emigrants are no longer so good as they have been heretofore. Not all of them succeed in finding profitable, stable work.

It has been ascertained of late years that not only unskilled laborers and poor people emigrate but also well-to-do tradesmen, small farmers, and to a lesser degree, professional persons. Thus, while formerly only those who could not find work in Italy left the country, at the present time men forsake work here in order to improve their condition abroad. Owing to the laws limiting and restricting immigration in most countries, the emigrant has a tendency to become selected to the detriment of the mother country. Only able-bodied men, those in the full vigor of life, emigrate, while the feeble, the aged and the incompetent are left. As a result only 25 per cent of the entire male population of Italy is strong and capable of work while the rest is unproductive. This percentage is still lower in several districts in Southern Italy, such as Calabria, Basilicata and the Abruzzi.

A COUNTRY OF OLD PEOPLE.

The effects of the great difference in the proportion between the young and old population of Italy are already felt not only in trade and industries, but in the formation and composition of families. As a direct result, while the population increased at the rate of 7.38 per every 1,000 inhabitants from 1882 to 1901, it only increased 6 per 1,000 between the years 1901 and 1905, when it should have been 10.8. The results of emigration have been disastrous to agriculture, owing to the increase in wages which has been out of proportion to the fertility of the soil, and render cultivation no longer profitable, and the increase in the value of landed property without a proportionate increase in capital. In conclusion, the report recalls the case of Germany, whose emigration was considerable 20 years ago, and where, owing to the immense industrial development of the country it has now fallen to only several thousand a year. It is evident that Italy intends to check the emigration, which explains the willingness of the Government and members of the emigration bureau to co-operate with the American immigration commission which is now here, as both aim at the same object.

LORDS NOT RESPONSIBLE.

It is unfortunate also for Premier Campbell-Bannerman that his Government at this session was unable in a single instance to point to the House of Lords as responsible for its failure to fulfil the promises of legislation made in the King's speech. The Cabinet itself has been forced to withdraw its two chief bills, Mr. Birrell's Irish Council Bill because the Irish inconstantly rejected it, and Mr. McKenna's Passive Resisters' Bill for reasons which the Cabinet kept to itself. As a matter of fact, the resolution amounts to little more than a declaration that Sir Henry Campbell-Bannerman when forced to make a reluctant appeal to the country, which is disgusted with a Government which it so recently returned to power with such an overwhelming majority, will make the House of Lords an electioneering cry. Before that time, which he will try to postpone as long as possible, he no doubt hopes that some of his bills will meet their fate at the hands of the House of Lords. Meanwhile Lord Rosbery, with the felicitous touch so characteristic of his public utterances, has appropri-

Highest temperature during last 24 hours, 67.

Lowest temperature during last 24 hours, 50.

Temperature at noon, 67.

LOCAL NEWS.

The police extinguished a bon fire on Broad street last night.

A key found on Exmouth street awaits an owner at central station.

The committee appointed this morning to visit the grounds of the Union street, West End, are Aids, McGoldrick, Baskin, Bullock, Baxter and Holder.

The sale of outing costumes at M. R. A.'s, Ltd., will continue tomorrow, when new suits, blouses, and a few lower priced items. Today's sales were most satisfactory. The warm wave now on will make these goods sell very quickly.

Entries have already been received for fourteen events in Saturday's sports on the Victoria grounds. Nine medals will be awarded, and other valuable prizes. Great interest is being developed, and men are training on the grounds every evening. The grounds are free to all tonight.

Alderman McGoldrick, chairman of the board of works, received a letter this morning from the public works department at Ottawa to the effect that the new dredge is now due at St. John from Boston. It left Boston yesterday.

A new record was made today in fishing circles. At ten o'clock this morning Charles Baillie, Sr., the King street tobacco merchant, accompanied by Archibald Mitchell of Norwich, Conn., set out for Baillie's salmon pool, which are situated at Little River, a short distance below Silver Falls. Before 12 o'clock these gentlemen returned to the city with a 13-2 pound salmon which was caught by Mr. Mitchell's rod. The fish, which is a beautiful specimen, is now on exhibition at Mr. Baillie's store. This is the first salmon to be caught in this locality by fish this season.

MAGEE—MARKS

MONCTON, N. B., June 18.—An interesting wedding event took place at twelve o'clock today at the home of the bride's parents, Mr. and Mrs. J. H. Marks, when their daughter, Miss Agnes, was united in marriage to D. W. Hurrell Magee, of D. Magee's Sons, St. John. The wedding was a quiet affair, but very pretty. Only the relatives and near friends of the contracting parties were in attendance.

Rev. D. Macdonald, pastor of St. John's Presbyterian Church, performed the ceremony. The interior of the residence had been very prettily decorated for the occasion with potted plants and apple blossoms.

The bride was very becomingly attired in a gown of white lace with orange blossoms and carried a bouquet of roses. She was unattended, and was given away by her father. She wore a beautiful gold watch and chain, the gift of the groom. The wedding march was played by Miss Mary Chapman. At the conclusion of the ceremony luncheon was served. Mr. and Mrs. Magee leave on the afternoon train for a wedding trip to Halifax and other Nova Scotia points. The bride is one of Moncton's popular young ladies and the groom is very favorably known here. They have the best wishes of a large circle of friends. There were many beautiful wedding gifts including jewelry, cheques, and cut glass.

POLICE COURT

In the police court this morning a 17 year old girl of very untidy appearance was remanded to jail. She gave her name as Loreta Jemeau, aged 17 years, and claims the States as her home. She was found last night on Prince Wm. Street in company with Charles Gordon, a young man given in charge by S. T. Golding for ill-using a horse, was remanded to jail. Mr. Golding gave evidence that Gordon hired a horse and carriages at 3 o'clock yesterday afternoon, saying he wished to take his mother and sister to the cemetery. Instead of doing so he took a couple of friends out for a drive, ill used the horse and damaged the carriage. The rig was taken from Gordon at nine o'clock last night.

ALBANY, N. Y., June 18.—Governor Hughes today signed the New York city recent bill providing for a recount and re-counts by judicial process of the ballots cast for the office of mayor at the election in New York city in November, 1905. With the bill Governor Hughes files an extended memorandum discussing the matter.

GREAT FARMING REVIVAL IN UP RIVER COUNTIES

Abandoned Farms Selling at Record Prices — People Planting Great Quantities of Potatoes — Prices Away Up and Everybody Happy

Minister Butler says he has not expressed himself in favor of any particular plan of winter communication. Acting under instructions from Mr. Fielding investigations are now being made to determine practicability of either a bridge or tunnel between the Straits. Motor cars will be running on the mainland of the I. C. R. next month and on the Island Branch lines next year. General Traffic Manager Tiffin, of the I. C. R., reports business for the past three months considerably in advance over the same period of last year, the greatest volume being westward where new markets are being extended for the eastern provinces. The Island traffic shows a marked increase for the above period.

What is probably the most remarkable agricultural revival ever recorded in New Brunswick is this spring taking place in Carleton, Victoria and adjoining counties. It is not only this, but it is a striking evidence of how great a result may be brought about by a protective tariff properly applied. Two years ago the up-river farmers, although they well knew that lots of money was to be made at home, being induced by stories from the west of great crops and high prices were proceeding to the land of wheat in such numbers that there was a prospect of serious depression in the upper counties. Almost every other farm in even the richest sections was deserted, and for sale, and even though there has been a continual and strong demand for potatoes, those people who remained at home have never given the proper attention to this branch of agriculture. Now, however, all is changed. Land which could not find a purchaser a year ago is now being bought up eagerly. Within an hour's walk of Woodstock are nine valuable farms which changed hands this spring at prices ranging from eight to twelve hundred dollars more than was asked last year, and the present owners would not sell out for anything like what they paid. There is evidence of life and hustle everywhere, and the people are planting potatoes as if their very lives depended on the acreage under cultivation.

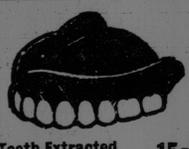

It is really wonderful change has been brought about partly by a more favorable tariff, partly by the insistent preaching of the New Brunswick press, and chiefly by a realization of their opportunities on the part of the people themselves. Adjoining Victoria and Carleton are the Arctostic counties, the great potato growing district of Maine, and buyers there have always been in the habit of crossing the border to secure large shares of the crop. It has happened too that as the Canadian tariff imposed a duty of only fifteen cents per bushel, the Maine farmers and dealers have been able to successfully compete for the Upper Canadian markets. Last autumn the tariff was changed so that it is now twenty cents per bushel or forty-five cents per barrel, and the difference of eleven or twelve cents per barrel counts in a competitive market. Last autumn potatoes in Carleton county brought farmers as low as 90c. per bushel, the price during the early winter going up to \$1.30. Today they are worth no less than \$1.25 in hard cash, and of this amount \$1.65 represents clear profit. With potatoes at one dollar a barrel—the usual price in Carleton and the Arctostic counties—the present strong demand is a literal gold mine. It costs sixty cents per barrel, under modern conditions, to raise potatoes, and this very gradually being reduced under the co-operative system. Four or five farmers club together and buy a plow and a digger, working on each others farms in turn just as threshing of wheat is carried on in the west. The sixty cents mentioned includes the cost of the barrel which is made to hold two and a quarter bushels. It is estimated that on an acre of land in Carleton a farmer can raise twenty-five bushels of wheat which will bring him on an average seventy cents per bushel, the gross return being thus \$17.50. In Carleton county one acre of land produces at least 250 bushels of potatoes which at present prices would yield \$250. The cost of production is relatively the same in both cases, for although fertilizer must be used in New Brunswick, the land needs food only once in four years. One crop of potatoes is followed by one of oats and then two of hay and as hay is now worth \$23 per ton it, too, is a very profitable investment. Carleton and Victoria farmers are awakening to their opportunities and the exodus to the west is at an end.

The production of potatoes this year will be fully five times what it was in 1905 and with double last year's prices, farmers stand a good chance of making heaps of money. The Star knows of one instance in which a man last year actually cleared \$600 from three acres of potatoes. This year he has planted twenty-five acres, and is looking for a profit from this field alone, of \$5,000.

LOTS OF GOOD THINGS FOR P. E. ISLAND

Government Promises Life Saving Stations, Lobster Hatchery and a Powerful New Steamer

CHARLOTTETOWN, P. E. I., June 19.—Deputy Minister of Marine and Fisheries Gourdeau who was here yesterday states that another lobster hatchery will be built on the island this fall at Georgetown. Two life saving stations of the most efficient type will be established on the north shore this season. Next year a third winter steamer, the most powerful it is possible to build, will be provided between the island and the mainland. Deputy
