## CHIEF OF POLICE IS NOT GUILTY, IS THE VERDICT

Is Exonerated by Special Session of Police Commission—Result Received with Favor—Moncton News.

Special to the Standard.  
Moncton, Nov. 18.—The police commission met in special session today to resume the hearing of the complaint against Chief of Police G. Rideout, charged by seven provincial constables with having done police work outside the city of Moncton, and with collecting for work fees which would otherwise have gone to constables themselves. They claimed the chief's jurisdiction was limited to the city of Moncton. James Sherran appeared for complainant but failed to produce any evidence in support of the contents. Chief Rideout proved to the satisfaction of the commission that on all occasions when he was called to investigate criminal cases, he had been ordered to do so by the attorney general, whereupon the cases of the complainants collapsed. A motion was passed by the commissioners expressing their entire confidence in Chief Rideout and expressed the opinion that he had not exceeded his duties as police officer of the city. Public opinion throughout the city strongly supports the action of the commission as it is felt that the complainants were merely catagorized for Scott act violators whose enemy the chief has incurred by rigid enforcement of the law. Two junk dealers, Alex and Louis Cohen, were before Magistrate Stevens this afternoon charged with receiving stolen goods. One witness had named Doguen was examined. He swore one of the accused told him to steal brass and copper junk from the L. C. R., and that he would buy it from him. Witness also declared that the accused leaders had bought stolen junk from him at different times. Case was adjourned until tomorrow morning. The funeral of John Rev. S. T. Teed was held today from the Central Methodist church. There was a very large attendance, as the deceased was well known and respected by people of all classes throughout the city. The services at the church were conducted by a number of fellow ministers of the deceased and at the grave by Revs. Batty and Steal. Interment took place in Elmwood cemetery. The deceased was 87 years of age, and was one of the oldest ministers in the New Brunswick and Prince Edward Island Methodist conference. He was well known throughout the province. The Moncton Edmundston division of the National Transcontinental Railway will be formally opened for traffic Wednesday morning when the first train to run on the regular schedule over the new road will leave Moncton for Edmundston. Among the officials who will make the trip are A. J. Gross Supt. R. M. S.; Dr. Coulter, C. J. Ross, Jan. Ed. agent G. T. P.; W. B. Cronk, general superintendent N. T. R. and E. P. Cronk, superintendent N. B. division.

## PLANNING IT ON POLICE

Witness in Lawrence Murder Trial Swears Police Fired Two Shots Just Before Victim Fell.

Salem, Mass., Nov. 18.—Resting its case in the trial of Ettore Giovanni, the witness today produced a witness who swore he saw two police officers discharge revolvers just before the Loprozo woman fell. The testimony came after Arturo Giovanni, last of the accused to take the witness stand, had told of his connection with the Lawrence struggle and had averred he never urged the strikers to commit an act of violence. It is probable that the case will go to the jury on Thursday at the latest.

## 5,000 TURKS IN HANDS OF ENEMY Servians Capture City of Monastir and Make Prisoners of Turkish Commander and His Men—Greatest Success of War to Date.

London, Nov. 18.—Any idea that the Turkish government may have had of benefiting by continued resistance must be shattered by today's news of the fall of Monastir. In the capture of that important town the Servians took three pashas, including the commander-in-chief, Zekki Pasha, 50,000 men and 47 guns, thus achieving the greatest individual success of the war. Monastir was the second city of importance in European Turkey. It was Turkey's stronghold in Macedonia, and by its downfall Macedonia passes completely out of Turkish hands. What part the Greeks played in the capture has not yet been ascertained. It is known that the Greek army was marching to the assistance of the Servians and it is supposed that the Greeks were able to cut off the Turkish retreat to the south. The Servians naturally will be elated at this victory, which outbids the capture of Saloniki and must have a great moral effect on the course of the war.

Belgrade, Nov. 18.—A fierce fight for the possession of the Turkish fortress at Monastir continues between the Servians and Greeks on one side, and the Turkish garrison on the other. The defenders of the city, knowing that their line of communication with Ochrida on which they would naturally retreat in case of defeat, has been cut, are fighting desperately.

The loss of the Servians has been heavy. During the first day's battle 250 of them were killed and wounded. The country around the fortress is a morass and the attackers are frequently up to their knees in mud. In spite of the difficulties, however, the Servians succeeded in a series of night attacks in carrying the two important heights of Ohakove and Kocichista, 3,600 feet high.

Reported Servian Cruelty.  
Vienna, Nov. 18.—The Reichpost publishes a despatch from its war correspondent who says he is informed by the fugitive Albanian Levier Koldira that the Servian troops after occupying Brijuni turned their march on Monday to the eastward killing 111 men, 35 women and ten children. Koldira also declared that the charge of the Servians was from on during their occupation of the town was false.

Sultan Asks for Peace.  
Constantinople, Nov. 18.—The Sultan has submitted an appeal to the sovereigns of the great powers, it is stated on good authority, requesting intervention to end the war. A more optimistic tone prevailed in official circles today due to confirmation of the capture of Monastir. It is reported that cholera and typhoid fever are making ravages in the Bulgarian ranks.

## CRUSHER TO DEATH FIGHTING THE ROYAL GEORGE

James Kirk Meets Awful Fate in Elevator Shaft—Attempted to Answer Call While Machine Moves Up.

Special to the Standard.  
Halifax, Nov. 18.—James Kirk, of Pennant, a workman in the warehouse of T. F. Courtney and Co., wholesale grocers, was instantly killed in the freight elevator of the building, this afternoon. Kirk was called by someone on the place as the elevator was moving up, and put out his head to answer. As he did, he struck a beam and fell to the floor of the elevator. In the next instant was crushed to death between the elevator and the wall. Kirk had been employed at the establishment only for a week.

NEW TRIAL REFUSED.  
Richmond, Va., Nov. 18.—A new trial today was refused from Allen and his son, Claud Swanson Allen, by the supreme court of Virginia. The men are condemned to die in the electric chair for the murder of the official in the Hillville court on March 14.

Halifax Aldermen  
Vote Appreciation  
of the Government

Special to the Standard.  
Halifax, Nov. 18.—A resolution was adopted by the city council this evening warmly endorsing the government's proposals for terminals in Halifax. Only four aldermen opposed it. These were McKenna, Whitman, Upham and Hawking. These four asked in effect that the scheme be deferred till they became satisfied that the engineers on the case were such as to warrant the adoption of their plans. Sixteen aldermen present voted for the endorsement of the plans.

## PICKING JURY GIBSON SA'S JACK ROSE IS THE MURDERER FOR MURDER

New York Lawyer Faces Court On Charge of Killing Wealthy Client.

IMPORTANT WITNESSES.  
One Expert is Expected to Swear that Mrs. Szabo's Death was Due to Strangulation.

Goshen, N. Y., Nov. 18.—One hundred and ninety taxmen, most of them farmers, crowded into the little court room here today for the trial of Burton W. Gibson, the New York lawyer, who is charged with murder in the death of his client Mrs. Rose Szabo. District Attorney Rogers will endeavor to prove that Mrs. Szabo's death, while boiling, was due to strangulation, but that Gibson hurled her from the roof, which she occupied, into the water, grappled with her and choked her to death. To uphold his contention Mr. Rogers expects to place forty odd witnesses on the stand, among them Dr. Otto Schultz, of New York, the coroner's physician, who performed the autopsy.

Dr. Schultz testified at Gibson's examination that Mrs. Szabo died of strangulation by "compression from without." The defence holds that Mrs. Szabo died of drowning and that her death was accidental. It will call ten or a dozen witnesses.

"This is the crime of crimes, a challenge to civilization, a blow in the face of American law and order, I call upon you for a verdict that will vindicate the law and order and make these gunmen and their friends realize that there is a God in Israel, justice in the state of New York, and a jury that is not afraid of bullets."

"The men in the alleged murder of the state will seek to prove that Gibson coveted his client's \$10,000 estate, of which under a will drawn by Mrs. Szabo, he was named as executor.

Big Fraud  
Is Exposed

SKYS RHODES  
STUDENTS ARE  
AVERAGE AT

A Mystery How Some Rhodes Scholars Get to Oxford is Dr. Parkin's Criticism of Them.

Washington, D. C., Nov. 18.—A severe criticism of the calibre of students sent to Oxford University under the Rhodes scholarships, was delivered today by Dr. George H. Parkin, of Oxford, executive secretary of the Rhodes Scholarship Trust before the National Association of State Universities, which began its 17th annual session here today.

Dr. Parkin divided the students sent to Oxford from the United States into three classes. The first third, he said, were high grade students; the second third were fair, while the other third, "well, it is a mystery to the Oxford faculty how they ever get there." Dr. Parkin said that merit should be the determining factor in awarding the Rhodes Scholarships. Well rounded students were desired, he declared, regardless of financial or social standing.

He told the association that Oxford was the centre of the culture of the world, and that he could not understand the lack of interest by Americans in the opportunity opened up by the Rhodes scheme. He said Oxford ruled England and that at the least one-half of every cabinet formed in the last 100 years has been Oxford men.

Washington, D. ## Attorney for "Gyp the Blood", and Other Gunmen, who are Now on Trial, Makes Strong Plea for Sympathy for His Clients.

San Francisco Union Official Admits that He Knew Why Dynamiters Was on Pacific Coast.

Blames It On Rose.  
Gyp the Blood and Lefty Louie, listened to the fervent eloquence of the two attorneys with stolid faces. Their fellow defendant Whitney Lewis and Dago Frank were visibly affected.

"The hand" of Jack Rose, he said, was the guiding hand that put the shots into Herman Rosenthal, Rose a criminal for twenty years and never caught; Webber, a polluter of mind and body; Vallon, a brute and a pervert from childhood; Scheppe, the unspeakable, each of them bad, each of them wicked.

"The four are confessed murderers, but the four defendants came into court presumed to be innocent—an innocence which must be torn from them by the people, before they can be convicted."

"You must have weighed beneath the depths of the calm demeanor of Jack Rose, he degraded one and found the criminality of his character. He was the brain that directed the plot, which Webber, Vallon and Scheppe carried into execution."

Reviewing the evidence, Mr. Wahle said it proved that Rose feared the gunmen; that he sought them out to prove he had nothing to do with the framing up of "Jack" Zell, their gang leader.

"Rose's desire to prove his innocence was a God in Israel, justice in the state of New York, and a jury that is not afraid of bullets."

Post Office Inspectors Discover Scheme to Rob Public—Branches in Canada and England—Men Indicted.

Cincinnati, Ohio, Nov. 18.—According to government officials in this city post office inspectors in many cities had made an effort today to arrest a number of men who are wanted for complicity in a scheme which, it is alleged, has resulted in the loss of many thousands of dollars by unsuspecting victims. Five of these to be arrested were indicted by the United States grand jury here last month.

The men, it is alleged, operated against individuals and corporations that desired to place stocks or bonds on the market. It is further alleged that the scheme was not confined to the United States but extended into Canada and England. Post office inspectors have been in England to investigate the branch there and declare that it works on a similar basis.

The following members of the alleged ring were indicted by the grand jury: F. D. Minyard, now of Cleveland; J. Gordon Malcolm, who went to Canada before the indictment; Thomas Fishwick, now in Boston; George S. Hannaford, now in Chicago; and J. R. Long, now in Buffalo.

The plan of operations it is charged in the indictments, was for members of the concern to advertise their ability to sell stocks for promoters and inventors. Those who answered the advertisement were told that the stock could not be sold at its true value unless guaranteed by a reliable company. The customer was then recommended, it is charged, to George Hannaford, who conducted the Chicago Department Company, Hannaford, the inventors, would guarantee the stock, charging one per cent. of its par value. The promoter then recommended a purchaser for the entire issue had been found, providing the proposition was found worthy. The price rating was high as one-third or sometimes forty-five per cent. of the value would be made for this investment. After the promoter was informed that his proposition had proved to be no good it was dropped.

WILSON TO MAKE BONDS WITH GREAT BRITAIN STRONGER

President-elect Makes Address at Hamilton, Bermuda, Where He Will Rest Before Taking Reins of Power.

Hamilton, Bermuda, Nov. 18.—President-elect Wilson and his family on board the steamer Bermudian arrived at Hamilton today. Mr. Wilson was enthusiastically cheered, as he passed through the streets. The mayor of Hamilton in the course of a welcoming address said: "We trust that during your term as president the cordial relations between the United States and Great Britain will be maintained and unimpaired, and that the strong bonds of the union will be strengthened."

Mr. Wilson in response said: "As soon as I knew I had been selected to four years' hard labor, I thought of a rest in Bermuda. The friendship existing between the United States and Great Britain is a very happy and natural one. I hope nothing will happen during my administration to disturb the relations of the two countries."

Carbère, France, Nov. 18.—The Spanish police have arrested at Villar de Muero, in the province of Asturi, a man who may have some connection with Manuel Pardo, the assassin of the Spanish premier, Canalejas. The Spanish police are also searching for a notorious anarchist who left the south of France a few days ago for Spain.

## LABOR MEN THE ABOUT MUNICIPAL

Indianapolis, Ind., Nov. 18.—How Eugene A. Clancy, a labor union official of San Francisco, faint and remained unconscious without after making admissions in the district attorney's office in Los Angeles, he looked through the crack of a door and remained in another room, Orin E. McManis, the confessed dynamiter, was related at the dynamite conspiracy trial today.

Oscar Lawler, special assistant to the attorney general, and Arthur L. Veltch, who gathered evidence in the dynamiting cases in California, said after admitting in their presence that he knew James B. McNamara was on the coast to blow up our union job.

Lawler and Veltch also named Olaf A. Treitman and Anton Johansen, San Francisco, W. H. Pottman, Seattle, and J. E. Munsey, Salt Lake City, as being aware of McNamara's dynamiting missions. Pottman and Johansen are not among the 45 defendants named in the indictment.

William Flynn, employe of a powder company in San Francisco, testified that on Sept. 20, 1910, he packed in boxes 600 pounds of nitro-dynamite and delivered it to the launch used by McNamara. That was ten days before the Los Angeles explosion. Meanwhile the dynamiters had stored the explosive in a vacant house in San Francisco and McNamara had taken a sup-

Thomas P. Rice, one of the police officers, told of having been sent to the home of General Harrison G. Ray, Otis, proprietor of the Times. "At General Otis' home," Rice, "we found a suit case under a bay window. I carried the case about 75 feet and called the chief of police. When he arrived, we opened the case. In doing so we heard the buzz of an alarm clock; all ran, and another alarm clock was set off, an explosion which tore up the ground for an eighth of an acre."

Y., Nov. 18.—Fearing the introduction of the "potato wart disease" into this state, Commissioner Henson, of the State Department of Agriculture, announced today that he has issued an order prohibiting the importation of potatoes into this state for seedling purposes, from Newfoundland, the Islands of St. Pierre and Miquelon, England, Scotland, Ireland, Wales, Germany and Austria-Hungary. FRESH HELL UP BY STRIKE  
Merchants of St. Stephen Experience Some Difficulty in Securing Goods—Ganong Bros. Will Ship via Portland.

Special to the Standard.  
St. Stephen, Nov. 18.—The third week of the strike of the P. R. freight handlers finds matters much involved at the St. Stephen station, as regards both outward and inward freight. Merchants and manufacturers are compelled to handle their own freight at the sheds, and search for what belongs to them. Freight shipped at St. John returned to St. Stephen yet reached the merchants here nor can they get any trace of it and the manufacturers can only get freight out by sending men from their factories to load the cars. Ganong Bros. are experiencing much difficulty and are arranging to ship from Calais over the Maine Central to Portland and thence via the Grand Trunk to Montreal.

Some hotels and restaurants have refused to feed or house the young fellows sent here as strike breakers from St. John and they were forced to seek lodging in Calais. Boys have gathered at the station when the 6.25 p. m. train is being made ready and use ancient equipment on the two St. John lads who are loading baggage, but no passengers have been interfered with.

A BRITISH INCOME TAX CASE.

The practice which has prevailed in England of levying taxes on the authority of a resolution of the House of Commons in Committee of Ways and Means and without waiting until the Budget had been passed, has been declared illegal by a recent judgment in the British courts.

The decision is heralded in the Unionist press as a rebuke to the Government for delaying legislation and as adding one more to the list of famous judicial decisions which have helped to make English history.

the fact that "labor often speaks on the spur of the moment in hot blood and its words do not always reveal its real intentions." The Citizen will "endeavor to put an end to this state of things, which is not only bad for labor itself, but may at any moment be disastrous to society."

The Citizen promises, however, to have no mercy on scaremongers, and intends to work hard for international peace, and especially for a better understanding between Britain and Germany.

Among well known people who have written to the Citizen to give it welcome are: Thomas Hardy, the novelist; Andrew Fisher, Premier of Australia; Edward Bernstein of the German Reichstag; Mr. Massingham, now editor of the Nation; Jerome K. Jerome, the Provost of Glasgow; Lord Northcliffe; Sir Arthur Quiller-Couch, the novelist; Mrs. MacArthur; Mr. Donald, the editor of the Chronicle; Arnold Bennett, the novelist; the Bishop of Birmingham, and the Rev. Dr. Clifford.

Such a journal, as the News-Advertiser points out, should be useful as presenting the Labor party point of view to the outside world, so that there should be no innocent misrepresentation of its policy and purpose, but also as giving unity and certainty in the position of the party it represents.

HIGH COST OF LIVING IN JAPAN.

Japan, according to the reports of one of the Canadian Trade Commissioners, is beginning to feel in a somewhat tragic way the effects of her rapid and terribly costly national development.

All classes of food have risen from 50 to 100 per cent. in the last few years. Rice, the staple diet, is higher by 30 per cent. in ordinary years, and by 50 or 60 per cent. in years of shortage.

A Delicate Question.

Great Britain and the United States are in a serious controversy which threatens no break in friendly relations but which does involve delicate questions of international equity and treaty construction.

Mormonism.

It may not be generally known, but it is a fact nevertheless, that the Mormon church has entrenched itself so strongly in Southern Alberta that nothing short of a miracle will uproot it.

The Divorce Report.

England will make a serious error if the tendency to lessen the sanctity of married life finds a lodgment in the laws of the country. A crying evil in the neighboring Republic is the ease with which the marriage contract may be broken.

Lasting Friendship.

Even if our blood relationship with Anglo-Saxon England has grown weaker, our friendship with the people of the British Empire—based on a community of speech and law and custom far more binding than a fancied blood relationship—can scarcely decline.

The Church Intervenes.

As a result of the rebellion in San Domingo President Victoria and the City Council of the capital have resigned and a Provisional Government has been proclaimed with Archbishop Nouel as President.

The Board of Education has raised the compulsory school-age to 16. London is the first municipality in Ontario to take advantage of the new act.

PILES

Nothing known to Science is better for this painful ailment than Zam-Buk. It reduces inflammation, stops bleeding, ends the agony. Easily applied and cleanly. Why go on suffering? Why not try it? Read the following cures.

Some Proofs of Zam-Buk's Power. MR. THOMAS J. HOGAN, Champion Clog Dancer of Canada, 89 Chamford Street, Montreal, writes—

"For some time past I have been troubled with Piles, but this year I suffered so much that I was obliged to cancel a number of engagements. I tried all the so-called remedies that were recommended, but they seemed to do me no good. Having been advised to try Zam-Buk, I purchased a fifty-cent box and after applying it a few times I felt marked relief. I continued with the Zam-Buk treatment and the relief was extended into a permanent cure."

MR. WILLIAM KENTY, of Upper Nine Mile River, Hunts Co., N. S., writes— "I suffered terribly from Piles, the pain at times being almost unbearable. I tried various ointments but all failed to do me the slightest good. I was tired of trying remedies when I heard of Zam-Buk, and thought as a last resort I would give this balm a trial. I procured a supply, and after a very short time Zam-Buk effected what several other ointments and medicines had failed to effect—a complete cure."

Zam-Buk also cures ECZEMA, BLOOD POISON, ULCERS, COLD SORES, CHAPPED HANDS, SCALP SORES, CUTS, BRUISES, SCALDS and all SKIN IRRITATIONS and DISEASES. All ointments and sores, or Zam-Buk Co., Toronto, post free for price. Refuse harmful substitutes.

**Body of Milford Young Man Found in House of Oliver Mallett**

**MARK BEHIND DEAD MAN'S EAR CREATES COMMENT.**

**Coroner Quinton Empanels Jury and Views Body — Will Hold Inquest Today — Was there Foul Play?**

The body of James Gleeson, aged about 30 years, was found yesterday afternoon in the house of Oliver Mallett, in Milford. There was a discolored mark behind the dead man's ear.

There is such a smack of mystery about the death that it has given rise to many rumors. In Milford and Fairville to the effect that Gleeson may have been a victim of foul play. The community is worked up over the affair and Coroner Quinton will hold an inquest on the body today.

The young man Gleeson, lived with his father in Milford, and the father whose name is also James, states that his son left home Sunday evening at the best of health and was sober at the time.

Oliver Mallett and his wife live in a tumble down residence on the main road in Milford, nearly opposite the Dwyer bakery. The Malletts are French. Mrs. Mallett pretends to know but little English, but when questions are put to her she forgets French and can readily understand English. Her story was taken yesterday afternoon with the assistance of an interpreter, and it is rather contradictory and suggests that the woman may know more about the case than has been made public.

**Coroner Views Body.**  
It was after two o'clock yesterday afternoon when it was learned outside of the Mallett house, that James Gleeson was dead. In fact it was not generally known until then that Gleeson had been in the house at all. As soon as the matter was reported to Coroner Quinton he took Dr. J. A. McCarthy, of the Manawagoshish Road with him, and viewed the remains. From what they saw of the body, and the surrounding circumstances, the coroner wasted no time in empanelling a jury. The following citizens were sworn in: Oscar Hanson, foreman; J. S. O'Neil, William Pink, Glenison Allen, J. Britney, D. Crossin and H. B. Tibbets.

The coroner, with his jury, visited the house and viewed the remains late in the afternoon. They experienced considerable difficulty in obtaining a coherent statement from Mrs. Mallett. The woman was found in the house alone with the corpse, her husband being supposedly at his work in the Wilson Box Factory near South Bay.

**Mrs. Mallett's Story.**  
It was stated that Gleeson did not know the Malletts well, but Mrs. Mallett claimed yesterday afternoon, that on Sunday evening, about eight o'clock Gleeson entered their home by the back door and walking into the room,

**LOBSTER TRAP WERE OPENED AT MACE'S BAY**

**Opening of Lobster Traps Started Trouble which was Averted Before Becoming Serious—One Boat Destroyed**

Trouble among lobster fishermen of Mace's Bay which, towards the latter part of last week, threatened to become serious, now appears averted. The excitement arose because some traps placed about a mile off shore were opened last Wednesday afternoon and about 70 or 80 lobsters released. Warden Thomas Coracaddin in company with his brother Alexander, supposed to have opened the traps.

The incident happened two days before the lobster season opened. The owners of the crates are not known. Soon afterwards a dory and some of the fishing outfit belonging to Alexander Coracaddin were destroyed, which showed a feeling of bitterness among the local men. It was at first thought that further trouble would follow, but last evening the locality had regained its normal composure.

In the afternoon Mrs. Jordan had a conference with Architect F. Neil Brodie, regarding the plans for the installation of an up-to-date sewer system and lighting plant at the sanatorium. **Commissioner Wigmore Secures Right of Way for New Sewer—Building Lots to be Laid Out.**

Com. Wigmore has succeeded in securing a complete right of way from property owners for the proposed new sewer for Douglas avenue.

Yesterday the land committee of the Anglican synod made arrangements to have their property between Douglas avenue and the Strait Shore laid out in lots on a plan which will allow the city a right of way for the sewer. All the other property owners have agreed to grant rights of way.

The drain-off of the new sewer for Douglas avenue will run down the old water course by Murray and Gregory's property, pass under the C. P. R. tracks, through the Merritt property and enter the harbor below Warner's mill.

The commissioner intends to have the work of excavating for the sewer done this winter by the regular force of the department. He is also making arrangements for the extension of the water service on Douglas avenue.

While eating supper about half past six last Saturday evening aboard his schooner the King Daniel, Captain Wallace Coffill heard a splash along side and then frantic cries for help. He at once rushed on deck to investigate and found that a man had fallen off the wharf into the slip. Capt. Coffill at once threw a rope to the unfortunate who was pulled alongside the schooner and a ladder was put down to help him on board.

When he could speak the man said he was on his way home from work and in the darkness he had fallen over the wharf.

Capt. Coffill when seen yesterday afternoon said that the man had fallen off the wharf close to the bows of the schooner and that if he had fallen a little more to one side he would have struck the dock and been killed.

Capt. Coffill who is now in command of the two masted schooner King Daniel, was in command of the Lone Star when she rammed a derelict in the Bay of Fundy. At that time the captain and his crew spent 50 hours on the wreck before being rescued by the C. P. R. liner Mount Temple.

The commissioner intends to have the work of excavating for the sewer done this winter by the regular force of the department. He is also making arrangements for the extension of the water service on Douglas avenue.

The provision of water and sewer facilities on Douglas avenue extension will, it is expected, cause considerable building activity there next summer, as it is a very desirable residential section.
