### State of Inner Ear of Victim Suggests Blow Before Her Death.

## NOT MADE BY A FALL FROM CULVERT

### Little Daughter of the Prisoner Tells of Last Night of Mother's Life.

Moncton, N. B., May 4.—The case of Ezekiel Berry, who is charged with the murder of his wife, was continued today in the Supreme Court, Joseph W. C. C. Chief Justice McKenna presiding. Elmore Stevens was a witness this morning. His evidence was much the same as given at the preliminary hearing. He stated that he was called to the Berry home on Sunday morning, Dec. 12th, by a telephone message from Geo. H. Prosenec to his wife. He went over and saw the body of Mrs. Berry.

### Eyes Were Closed

"Her eyes were closed and her lips were closed very tightly. I did not notice any froth both around the nostrils or the mouth. The face was purple in color. The scratch on the neck was coming blood."

"After we had viewed the body, went to the pool. Geo. H. Prosenec, Elmore Stevens, accused and myself went to the pool. This was my first trip to the pool. On going to the pool I saw moccasins, boot and handkerchiefs. The accused pointed out by the old engine where he had laid his wife's body, when he carried her from the pool."

### Snow Discolored

The snow was a little discolored at this point. This would be about 15 feet from the engine where there were some tracks, some leading to the pool. On going to the pool I saw moccasins, boot and handkerchiefs. The accused pointed out by the old engine where he had laid his wife's body, when he carried her from the pool."

### Tracks at Pool

I saw tracks around the pool. They were about three feet from the edge of the pool. There were no marks where anybody had been taken from the pool. If I then went to the house of accused. The accused told us about going to bed on the night of Dec. 12th, and said as he went, "old woman this has got to be cut out. You will have to leave or I will." Shortly afterwards he heard his wife move chairs around, then she went out of the house. He got up and went out shortly after and followed the tracks down to the road and they led in an easterly direction. He got up in the morning and went down to the road. It was too dark to follow the tracks. He came back, cooked and ate his breakfast and then he went down about 7 o'clock and found his wife's body.

## BRITISH GUNS OPEN FIRE ON POLISH FORCES

### Small Body Not Expected to be Able to Withstand Long.

## GERMANS KILL POLE IN STREET

### Crowds Parading the Streets But No Fighting Occurs Yet.

Opelein, Upper Silesia, May 4.—Colonel Bond, British control officer at Gross Strehlitz, reported to British headquarters here tonight that he opened artillery fire on 2,000 to 3,000 Poles attempting to occupy the city. The Poles brought up light field pieces and were replying. Colonel Bond, who has approximately 200 Italian troops, also reported that he probably could not hold out long. A British sergeant-major has been mortally wounded.

### What British Say

London, May 4.—Replying to a question regarding the situation in Upper Silesia, in the House of Commons this evening, Cecil B. Harmsworth, Under-secretary for Foreign Affairs, said that most unfortunately disturbances had broken out there. Mr. Harmsworth added that a plebiscite had been held in Upper Silesia under conditions of the strictest impartiality, and that the demarcation of the boundaries had not yet been settled. That was a question for the supreme council. The present trouble, according to Mr. Harmsworth, appeared to have arisen from rumors in the Polish newspapers that the Allies at ready had arrived at a decision with regard to the portions of the territory to be allocated to Germany and Poland. No such decision had been reached, he said.

## Produces Evidence Against Mrs. Stillman

New York, May 4.—Testimony that Mrs. Anne U. Stillman and Fred Beaulieu, an Indian guide, were seen together in the former's room at the Stillman summer camp in Grand Anse, Que., was given here today at a secret hearing in divorce suit, brought by James A. Stillman, wealthy New York banker. The alleged meeting was described by George Adams, 75 year old widower who claims to have witnessed it through a hole in the window curtain.

## OTTAWA CARPENTERS OUT

Ottawa, May 4.—Ottawa carpenters went on strike officially this morning following the sanction of the Brotherhood of Carpenters and Joiners of America, received yesterday. Although the decision to strike was reached last week, the actual walk-out was deferred until permission could be secured with financial aid from headquarters. Some 400 men are affected.

## BERLIN SENDS A PROTEST TO FRANCE

### Declares Certain Elements of Polish Population Responsible for Outbreak.

Paris, May 4.—The disorders in Upper Silesia are continuing, according to French official dispatches received here tonight. Although the disorders have been controlled in the mining districts, the disturbances are spreading into the rural sections of Pless, Lublitz and Rosenberg, the despatches state.

## Protests Against Poles

London, May 4.—Dr. Stahmer, the German ambassador here, tonight presented a note to the foreign office protesting against the Polish coup in Upper Silesia as an apparently concerted effort to take the province by force and refusing all responsibility for the situation and its consequences. The note has also been communicated to the other Allied Governments.

## Berlin Blames Poland

Berlin, May 4.—Responsibility for the Upper Silesian trouble is placed with "certain elements of the Polish population" in a proclamation issued by the Interior Commission, declaring a state of siege, according to Silesian messages received here. The proclamation, it is added, states that the commission "will shrink from no measure to ensure that the law is observed."

## Poles Surround Towns

Berlin, May 4.—Semi-official advice received here are to the effect that the large towns in the industrial region of Upper Silesia, are surrounded by Polish insurgents, while Richtersdorf, a suburb of Gliwicz and Klettenberg have been occupied by rebels. Various places in the district of Orensburg are reported to have been similarly occupied. The Polish flag is said to be flying from the towers of Rybnik, but the Italians have expelled the insurgents from Pless and arrested some of their leaders. The whole of the right bank of the Oder in the Ratibor area is in the hands of the rebels. The authorities have regained possession of Myslowitz.

## Army Well Equipped

Opelein, May 4.—The Poles are marching into Gross Strehlitz, north of the line mentioned, in a well-ordered manner, using motor lorries, machine guns and dynamite. Italian troops at Rybnik, well south in the plebiscite area comprising a regiment of infantry and two machine gun companies are surrounded by 3,000 Poles and a pitched battle has been going on for several hours, the informant stated this afternoon. The Italian known dead are three officers, one of them of high rank, and twelve privates. The Polish members of the plebiscite police disarmed the German members who were taken across the border, after several of the Germans had been killed. It was added that the force itself has ceased to function.

## Italians Open Fire

Opelein, Upper Silesia, May 4.—The Italian forces at Gross Strehlitz today opened with artillery fire on Poles who were attempting to occupy the city. The Poles replied with field guns.

### Police Fire on Party That Refuses to Halt and Some Injured.

Dublin, May 4.—A sergeant and seven constables were ambushed and killed this morning a short distance outside of Rathmore, County Kerry. Only one man in the party escaped. He was uninjured.

## Shooting at Funeral

Limerick, May 4.—The funeral of Henry Clancy, who was shot and killed here Saturday night, gave rise to an incident today which resulted in the police employing fire-arms, killing one civilian and dangerously wounding another. When the coffin, draped with the Sinn Fein flag was on the way to the cemetery, the police objected to the formation of the procession and turned a number of people aside. Later the procession was formed again. The police returned and some members of the funeral cortege, seeing them coming, ran across a field. Officials state these persons refused to halt and the police fired at them.

## Four More Killed

Dublin, May 4.—Four policemen were killed and two wounded in an ambush at Tourmakeady. An investigating party encountered a number of members of the "Irish Republican Army" in the Bantry mountains and a fight ensued, after which the military forces recovered the body of one of the republicans and captured another, who was armed with a shot-gun.

## 'NOT GUILTY' IS DECISION IN LONG CASE

### Temporary Insanity Plea Accepted by Jury and Margaret Long Freed.

## APPLICATION FOR FREEDOM MADE

### Judge Criticizes Action of Woman Taken in Resolution Before Trial.

Special to The Standard  
Fredericton, N. B., May 4.—Margaret Ann Long, of Miramichi, St. John was found by a jury in the York court this evening to have been temporarily insane when she pleaded to a child at the C.P.R. Hotel at Miramichi on the morning of Sunday, March 20th, and to have thus been unaccountable for the death of the child which was afterwards found in a ball-room with a shoe lace tied tightly around its neck.

The jury went out for one hour and forty minutes considering the charge of infanticide and George T. Brudley of Miramichi the foreman, announced when they returned that they found the prisoner not guilty.

Based on insanity.

Mr. Justice Crockett enquired whether their verdict was based upon the plea of insanity, which had been the main defence in the case, and the reply of foreman Brudley was in the affirmative. He therefore remanded the accused to jail, such an order being necessary because of the rule in such cases.

The large delegations from the various women's organizations that had been interested in her defence gathered about the girl as soon as the verdict was announced and showered her with congratulations while officers of the Salvation Army offered words of comfort. There was every evidence that the verdict met with an approval of a large number in attendance at the court and as Miss Long was taken away to the jail again by Sheriff Hawthorne, she smiled and seemed in better spirits.

## Apply for Release

She had every reason to be too, because every reason she had left the court room, R. L. Heston, of St. John, who had interested himself in the case and made her defence possible, and H. A. Powell, K. C., of St. John, Council of Women and the St. John's Council of Women as her chief counsel and Dr. J. V. Anglin, chief consultant of the Provincial Hospital at St. John, had left for the government buildings where a formal application for an order for her release was made by Mr. Powell before Attorney General Byrne upon the grounds that the insanity which had been temporary and had existed only during the period of childbirth.

It is expected that the necessary order for her release will soon be made.

When the afternoon session of the court opened, Mr. Justice Crockett directed the jury to retire and then referred to some statements which had been published regarding the position of men and women as to law and the also said that on the eve of this trial a resolution passed by an organization of women complaining of the inequality of the laws so far as they referred to women. His Honor stated that this act had been taken for the purpose of affecting the course of the trial and was as such a most grave and serious impropriety and an attempt of the court. In such cases an effect would be to prejudice the free and untrammeled course of justice. The resolution had been sent to the judge with an accompanying letter.

## WANTS HIGHER RAILWAY PAY

Advocate Declares Unskilled Workers Are Getting Too Little Money Now.

Chicago, May 4.—Wages of unskilled railroad employees should be adjusted upward and not downward, is the cost of living and the rates of pay in other industries are to be used as a basis in deciding the railway workers' pay, W. Jett Lauck, consulting economist for the unions, told the railroad labor board today at the hearing into the United States carriers' demands for lower wages.

Mr. Lauck declared that the figures presented by the railroads showing certain decreases in living and indicating that wages for unskilled labor in most industries were lower than the pay given railroad workers, were deceiving.

He presented a table of wages for unskilled workers in a number of industries. These workers, he said, were receiving more money than unskilled railroad employees. He particularly stressed the pay of steel workers, saying the United States Steel Corporation paid common labor 60 cents an hour. Cost of living figures based on decreases in wholesale prices should not be considered by the board, he said.

### Discussed Scandal of Westfield Road

Country Club Calls on Provincial Dept. of Public Works for Immediate Improvement

The scandal of the Westfield road was one of the principal topics of discussion at the meeting of the Westfield Country Club last evening, and as a result of opinions expressed by many of the members a drastic resolution was adopted calling upon the provincial department of public works to take immediate action toward having some improvement made.

### Reports from Members

It was also the expressed opinion of the meeting that Mr. Veniot and his road engineer should be asked to meet a committee of the club to discuss this matter. Reports from different members went to the effect that there are still many places on this road which are almost impassable, that the highway is literally covered with rocks, that the contractors appear to be making no headway, and that in certain places travel is not merely difficult, but very dangerous indeed.

### Amazement Expressed

Amazement was expressed when the report was received that the government had taken over from the contractors, as completed, the section lying between Fairville and Ketepec, on which travel is even now a matter of nerve-racking difficulty.

Copies of the resolution will be forwarded to Mr. Veniot, Mr. Hill, the engineer, and to local members.

### FARMERS ATTACK CANAL ESTIMATE

Hon. T. A. Crerar Says West Against Spending Money on Trent-Rideau Waterways.

Ottawa, May 4.—Criticism of expenditure on the canal and Trent-Rideau waterways was expressed when the estimates of the department of canals were up in the House this afternoon and evening.

### For Fair Rates

Hon. J. D. Reid, minister of railways, who was piloting the estimates, declared that he stood for fair freight rates on the lakes if the rates were not reasonable.

### Motion is Lost

At midnight Mr. J. Archambault, (Chambly-Vercheres) moved to reduce the former item by \$4,999,299.99. This motion (the terms of which caused much amusement on both sides) was declared lost by the Deputy Speaker.

### Canada's Shippers Protest U. S. Order

Argue With Courts for Right to Carry Liquor in Bond Through United States.

Washington, May 4.—Protests of Canadian shippers against former Attorney General Palmer's opinion holding transportation of liquor through the United States when shipped from one foreign country to another to be illegal, were heard today by Guy D. Goff, the assistant to the attorney general.

### Carleton Farmers Mixing Fertilizer

Will Plant Large Acreage to Potatoes Using Their Home Made Fertilizer This Season

"Carleton county farmers are not discouraged over the setback recently met by the potato market, and all appear inclined to look for their money this year where they lost it last—in the potato field." Such is the opinion expressed by W. S. Sutton, ex-M.L.A., Woodstock, who was in the city last night.

### Low Priced Seed

It must be borne in mind, said Mr. Sutton, that low priced seed produces high priced stock and high priced seed low priced stock. There is an abundance of seed this year at the lowest price ever known, and with the farmers getting their fertilizer at a low figure, because of the home mixing, indications surely point to a large acreage in 1921.

### ARMED POLES MENACE BRITISH

Seeking to Make Trouble Between Allied Forces in Mining Areas.

Oppella, May 4.—The British here are outspoken in blaming the Poles for the uprising and this has developed friction between them and the French, and there are reports in British circles that if the French fail to re-establish order and the British of ficers are not withdrawn they are likely to resign in a body.

### All Party Leaders Agree That Some Way Should be Provided to Secure Them.

Ottawa, May 4.—Better provision for the care of public records was urged on the House by Sir Robert Borden, former prime minister, this afternoon.

### All Are Agreed

The prime minister, the leader of the opposition and the leader of the Progressive were at one in recognizing the need for every care of historical documents. But Mr. Melgish emphasized the amount of money already expended on public buildings in Ottawa.

### CONFIRM EMERGENCY ACT

London, May 4.—Both houses of parliament today confirmed the continuance of the emergency regulations to meet the coal strike risk. The regulations include the power to add an hour to the present hour of daylight saving at present in force.

### Local Industries And Part They Play

Board of Trade Taking Initiative in Fight to Save Industries of East.

The Board of Trade is anxious to the importance of educating the public on a subject which should be of interest to every true Canadian.—The preservation of Maritime Province Industries. Officials of the Board of Trade believe St. John would be a dead end place if it did not have the sum and thrust and snap of active and efficient industries.

The delegates from St. John who attended the Maritime conference at Boston last week have returned home full of fight to secure that which Maritime industries are demanding for their existence—reduction of freight.

Canada needs the Maritime industries—to maintain population in the Maritime. Our industries in the Dominion; to provide return freight for railways from Upper and Western Canada; to strengthen Canada's position as an export country; and to build up the country from end to end.

To interest the people of St. John in this important matter and with the object of initiating a series of addresses on the larger industries of the locality the Board of Trade is to hold a series of open meetings, the first on Monday evening next, for a discussion of questions pertaining to the life and growth of Maritime industries.

### Subways of Paris Losing Patrons

Riders Seeking Sunlight and Pure Air Use Surface Lines.

Paris, May 4.—Parish business men, laborers and shop girls prefer to ride home from work small quantities and pure air—in other words, in omnibuses and streetcars—than descend into the gloom and foul odors of the subway.

Transportation statistics furnished the United Press by the Paris municipal bureau show that underground railways lost 41,000,000 passengers during 1920 alone. A large proportion of those shifted to the omnibuses, despite the fact that the buses charge higher fares.

Surface means of transport are crowding underground lines steadily in Paris. Last year 59,000,000 rode in tramways and 109,000,000 in omnibuses, as compared to a total of 590,000,000 in the two subway systems, the Metro and the Nord Sud.

Officials attribute the popularity of the buses both to the fact that they are speedier and more direct and to the more pleasant conditions of travel. There is no question of better advertising or competition, because all lines in Paris are owned by the city.

### See, Mama, There is Your Medicine

"YES, dear, that is the medicine which made mama well and I am sure neither of us shall ever forget it."

"Are you going to buy some?"

"No, darling, I do not need any more. You know how well I sleep now, those terrible headaches do not bother me any more and we are able to take our nice long walks every day."

"You never used to walk, did you?"

"Not for a long time. My nerves were so bad that I could not do anything, and I am afraid I was often very cross and irritable with you and daddy, but, thanks to

Dr. Chase's Nerve Food, that day has gone by and I know what it is to be well and happy."

"Why don't all the sick people use your medicine?"

"Far more of them would if they only knew of the good it would do them. I have told lots of my friends and they nearly all have been benefited just as I was."

Clear brain, splendid circulation, ruddy complexion, sound, restful sleep, good digestion, greater strength of mind and body and better health are the results of using Dr. Chase's Nerve Food.

## A P DOCTOR FOUR BRUISE MARKS ON MRS. BE

State of Inner Ear of Suggests Blow Before Her Death.

NOT MADE BY A FALL FROM CUI

Little Daughter of the ner Tells of Last Mother's Life.

(Continued from Page 1) The important evidence that Dr. Abramson, Provincialologist, who made a post mortem examination on the body of Mrs. Berry, the twelve-year-old daughter of the accused, a somewhat feature of Dr. Abramson was the statement that the death could not be determined such an examination as Dr. Berry described as making at the time. Dr. Abramson said that his years' experience as a pathologist had held upwards of 300 post mortem examinations. "In March 1919," he said, "I held a post mortem on a man's body some miles from this which had been buried for some time and the brain worked on the skull and revealed a fracture of the skull. On the right side of the skull there was a place showing of blood on the inside of the skull there was none.

Might Have Been Blown by force such as a blow from a horse or a fall from a height to cause the condition described." He gave a detailed description of the way he would see if death by such an examination. Dr. King's testimony was that a person falling into the water as has been described, could produce a fracture of the skull as was found in the case of the deceased. If I saw the throat such as have been described, I would be very suspicious that death was caused by strangulation.

Constable's Story Winford Steeves, constable of the post mortem conducted by Berry at the home of Mrs. Berry, said that he had seen evidence in effect Berry's coroner that he and his trouble on the Saturday night her home. He went to the house on the morning of the morning found her dead. He did not go to look for her mother and was not there when he heard her leave the house. He was not there on one occasion had soon returned.

Daughter's Evidence Olive Barry, the twelve-year-old daughter of the accused, testified that she had gone to bed that night in question leaving patches of clothes. She was asleep but was awakened at 10 o'clock by her father who said that her mother had gone to cry and did not return for the hours. Her father said that she was carrying her father went for her mother and was carrying her up from the witness said that while her mother were in the bath she heard her mother say she did not know her going to get through the child said she did not know mother meant.

The court adjourned Thursday morning. The case is likely to be tried Friday night.

### DOCTOR FOUND BRUISE MARKS ON MRS. BERRY

State of Inner Ear of Victim  
Suggests Blow Before  
Her Death.

### NOT MADE BY A FALL FROM CULVERT

Little Daughter of the Prisoner  
Tells of Last Night of  
Mother's Life.

(Continued from Page 1)  
The important evidence given was that of Dr. Abramson, Provincial Pathologist, who made a post mortem examination on the body on March 17 and the evidence given by Olive Berry, the twelve-year-old daughter of the accused. A somewhat sensational feature of Dr. Abramson's evidence was the statement that the cause of death could not be determined by such an examination as Dr. King was described as making at the post mortem. Dr. Abramson said he had ten years' experience as a pathologist and had held upwards of 200 post mortem examinations. "In March last," he said, "I held a post mortem on a woman's body some miles from Petticoat which had been buried 3 months. I worked on the skull and removed the brain. There was no fracture of the skull. On the right side of the head there was a place showing a quantity of blood on the inside of the ear. On the other side there was none.

Might Have Been Blow  
"The blood there would be caused by force such as a blow. The blow would have to be administered before death to cause the condition I have described." He gave a detailed description of the way he would proceed to see if death was due to drowning. Crown counsel gave a full description of what had happened at the inquest and Dr. King's testimony and asked if he could determine the cause of death by such an examination. The doctor said he could not. "I do not think that a person falling off a culvert into the water as has been described, could produce such a condition as was found in the inside ear of the deceased. If I saw marks on the throat such as have been described, I would be very suspicious that death was caused by strangulation."

Constable's Story  
Winford Steves, constable, described the post mortem conducted by Dr. King at the inquest. The evidence given by Berry at the inquest was read by the Crown counsel and put in evidence. In effect Berry stated to the coroner that he and his wife had trouble on the Saturday night she left her home. He went to bed at ten o'clock, heard her go out and next morning found her dead in the pool. He did not go to look for his wife until he heard her leave the house. His wife had threatened to leave him and on one occasion had gone but soon returned.

Daughter's Evidence  
Olive Berry, the twelve-year-old daughter of the accused, testified that she had gone to bed the Saturday night in question leaving her mother patching clothes. She went right to sleep but was awakened at twelve o'clock by her father who told her that her mother had gone. She began to cry and did not go to bed again for three hours. Her father had his pants on and was up and down stairs a number of times and threatened to leave home if she did not stop crying. Next morning at the bidding of her father she telephoned George Gildart to see if her mother was there. After breakfast her father went out to look for her mother and then she saw him carrying her up from the spring hole. Witness said that while she and her mother were in the barn Saturday night milking cows her mother said she did not know how she was going to get through the night. The child said she did not know what her mother meant.

The court adjourned until ten Thursday morning. The case will probably last until Friday night.

**BIG FIRE IN MONTREAL**  
Montreal, May 4.—One man was so severely burned that little hope is held out for his recovery; two horses were burnt to death; District Fire Chief Boucher suffered a severe cut in the face, and damage estimated at close on \$20,000 was done this afternoon at a blaze which destroyed the coal and wood yard, the office building and residence of S. Leclerc, 1646 and 1648 St. Lawrence Boulevard.

**GOVERNMENT AT FUNERAL**  
Fredericton, May 4.—The Provincial Government meeting here was about concluded tonight and Hon. C. W. Robinson, the acting premier, said that most of the members of the cabinet would leave here at noon tomorrow by C.N.R. via the Valley Railway for St. John enroute to Moncton for the funeral of the late Hon. Francis J. Sweeney.

### East St. John To Borrow For Schools

Report on Kindergartens in  
City to be Sent Back to  
Local Authorities.

Special to The Standard  
Fredericton, N. B., May 4.—The Board of Education held a meeting this afternoon Hon. C. W. Robinson, presiding, as Acting Premier. His Honor the Lieutenant Governor was unable to be present. Some other members were absent. The Board approved the application of the School Board of East St. John for powers to borrow \$10,000 to complete a new school building. Previous borrowings for the purpose had totalled \$40,000.

Back to St. John  
The special committee appointed to consider the matter of public kindergartens being added to the school system, reported. The report will not be made public until forwarded to the St. John authorities with whom the matter originated.

### LIQUOR BOARD OUTLINES PLAN FOR PROVINCE

Reports to Government After  
Visit to Warehouses  
in Quebec.

**MONEY SET ASIDE  
FOR HOUSE BUILDING**  
Two Hundred Thousand Dollars for Fredericton, Edmundston and Moncton.

Special to The Standard  
Fredericton, May 4.—This afternoon Hon. J. F. Tweeddale, chairman of the board of liquor vendors, and Martin McGuire, of St. John, a member of the board, appeared before the government and made a general report, dealing with their recent trip to Montreal and what has been accomplished in the way of getting ready to carry on their duties under the act.

Their report had to do with the rules and regulations under which the board will operate, and which must have the approval of the government. They recommended again the introduction of a system similar to that in vogue in Saskatchewan, where a board of chemists make an analysis of the liquors which are bought in bulk and place them in specially prepared and labelled bottles for distribution; the opinion was expressed that better satisfaction would result from the purchase of standard brands of goods.

**Housing Act Fund.**  
J. J. Faser Winslow, who is the chairman, and J. D. Black, appeared before the government on behalf of the newly appointed housing board of Fredericton and urged the immediate passing of an allotment of \$50,000 from the Housing Act Fund for the use of the board, and that a similar amount be placed aside for use here later.

Tonight it was announced that the government had passed the allotment of \$50,000 for Fredericton as well as allotments of \$50,000 for Edmundston and \$100,000 for Moncton.

Tomorrow morning the appointment of the new board to administer the Fire Prevention Act, which will become effective on June 1st, will probably be taken up.

### N. B. Coal For Use of The C. N. R.

Ottawa, May 4.—At today's session of the parliamentary committee inquiring into Canada's fuel situation, Hon. J. E. Michael, representing the province of New Brunswick, said it would be cheaper for the administration of the Canadian National Railway to use New Brunswick coal for branch lines in the northern part of New Brunswick than to use Nova Scotia coal.

### Steel Workers Were Expecting Slash

Labor Leaders Says Action of  
U. S. S. Co. May Influence  
Other Employers.

Hamilton, Ont., May 4.—President Tighe, of the Amalgamated Association of Iron, Steel and Tin Workers, who addressed the annual convention here today referred to the cut in wages announced by the United States Steel Corporation. President Tighe stated that the employees of the corporation were reorganized, and were hopeless to resist the cut. While normally it had no effect on the members of the Amalgamated Iron, Steel and Tin Workers of America, he thought that the action of the steel corporation would eventually influence employees of union labor. He stated that the cut was not unexpected, as he had been advised from New York early in the week that such a move on the part of the steel corporation was contemplated.

He is succeeded as sheriff of Restigouche by Stanislan Blanchard. Otherwise the list of sheriffs remains unchanged.

### "Impoco" Refloated From Blonde Rock

Yarmouth, N. S., May 4.—The Imperial Oil Steamer's tanker Impoco, which stranded on Blonde Rock, off this port, on April 15th, while on a voyage from Halifax to St. John, was refloated today by the Maritime Wrecking Company of Halifax. The ship was hauled into deep water by the tug Sarnia City and Maggie Marshall. The Impoco is the first steamer stranded on the Blonde Rock that has ever been refloated.

### FARM BUILDINGS BURN.

Westcoast, May 4.—There was a big fire at Westcoast early Saturday morning resulting in the loss of a farm house barn and part of the stock, owned by Mr. Lorne Smith. The family was awakened about 3 o'clock in the morning by the barking of the dog. Mr. Smith got up to see what was the matter and found the barn in flames. In a short time the house caught, and it was with considerable difficulty that some of the furniture was saved. The house and barn were completely destroyed, as well as some of the stock, including a horse, cow and pigs.

### LONGSHOREMEN STRIKE

St. John's, N.B., May 4.—Longshoremen at this port who went on strike at midnight Saturday night in protest against a wage reduction, today agreed to resume work at union rates in losing government coastal boats. They also consented to return to the employ of three coal supplying concerns.

The city council, owing to the threatening attitude of the unemployed, today furnished work for an additional draft of men, bringing the number of those for whom the city has found work to 540.

Temperance Delegation Com-  
plains to Government That  
Violations Are Numerous.

Fredericton, N. B., May 4.—The provincial government began its regular May meeting here Tuesday night with Hon. C. W. Robinson, acting as premier in the absence of Hon. W. E. Foster, who is absent on a European tour. A delegation appeared before the government on behalf of the New Brunswick Temperance Alliance composed of Donald Fraser, Plaster Rock, and Rev. W. D. Wilson of Fredericton, formerly chief inspector. This delegation urged that steps be taken to provide a more stringent enforcement of the intoxicating liquor act in certain sections of the province. Miramichi, Sussex, Newcastle and Kent County were particularly mentioned. The government agreed to take this matter up with the chief inspector.

Mr. Powell said that the public had learned to treat these things in a judicial way. The work of women in matters of sympathy was laudable but such actions some times go to a limit to occasion just criticism.

### Charge to Jury.

Mr. Justice Crockett's charge to the jury was regarded as being a careful analysis of the facts of the case as brought out in the evidence; it was followed carefully by counsel throughout and at its conclusion he was congratulated upon his eminent fairness and mastery review of the law on the subject. In concluding his address he said to the jury: "You should neither be sympathetic for, or prejudiced against, the accused, allow your verdict to be governed by any but the plain facts of the case as brought out in the evidence."

The jury retired at 4:25 o'clock and returned at 6:15 o'clock with their verdict of not guilty.

### MOVING PICTURES.

T. P. Regan of St. John, appeared on behalf of Famous Players Film Company, Limited, asking for leave to appeal for a decision of the Board of Censors against the motion picture, "Earth Bound" being shown in this province, and also on behalf of the Select Pictures Corporation, Limited, asking for leave to appeal from a decision of the board of censors against the motion picture "The Sin That Was His," also being shown in the province. Consideration was promised. A general report was received from Hon. E. A. Smith and C. O. Foss of the New Brunswick Electric Power Commission and the government approved of the acceptance of the New Brunswick Contracting Company for the construction of the power house at Musquash. The contract price is somewhat in excess of \$70,000. This tender was the lowest of three submitted.

### MOSHER WANTS GOVERNMENT TO GET BUSY QUICK

Says Country is Facing Greatest Crisis in Its History.

### UNEMPLOYED MUST BE TAKEN CARE OF

Situation Must be Faced in Same Way Crisis of 1917 Was.

Ottawa, Ont., May 4.—A. R. Mosher, grand president of the Canadian Brotherhood of Railway Employees, has issued a statement on the present Canadian unemployment situation, urging the government to take quick action. He states that his facts are in no way exaggerated and that the government has a duty in permitting the government to take some immediate action.

### Facing Greatest Crisis

Mr. Mosher says in part: "Prolonged business depression has brought Canada face to face with the greatest crisis in the history of the country. Only prompt and vigorous action will prevent disaster. I have no desire to be sensational or to create undue alarm, but when it is considered that nearly one quarter of the workers of this country are idle, that thousands more are on 'short time' while others are kept irregularly employed, it must follow if such a situation is not corrected and corrected immediately—the consequences can only be disastrous.

"Already we have had revolutionary speeches and the waving of the red flag at unemployment meetings. The police reserves in Toronto have been doubled in anticipation of trouble. Men are sleeping on the park benches in Winnipeg and have threatened to storm the hotels if conditions are not alleviated.

### Situation Without Parallel

"To say that we are experiencing the same reaction which follows a great war is not sufficient, the unemployment situation of today has never had a parallel in the history of the country.

"A firm and definite course must be adopted and followed out rigidly if the present situation of government is to survive.

"With a full realization of the emergency, I desire to offer the suggestion:

"Three years ago we were faced with a great emergency—men and munitions were needed to meet the onslaught of the enemy on the western front. The call went forth, the nation realized the desperation of the situation and the need was immediately met. Under the most hazardous conditions, men, munitions and food were rushed across the Atlantic—and the tide was turned.

### Need of Employment

"Today we face a desperate need—not of shells, of engines of war to destroy, but of food, clothing and shelter to sustain the life of the nation. Therefore, why cannot the same organization, the same energy and the same methods be put in operation to relieve the present situation.

"Some one will say: 'We have no money to start such a movement because we are just paying for the outpouring of treasure in the last emergency.' It is true that we are paying for an outlay which was expended in destruction and not construction. If the financial power of the country was to be utilized in reviving and stimulating industry, the outlay would come back a hundred fold.

"If the government has a better idea, let it be put in operation with out delay."

### Japan To Strike At The Soviets

Riga, May 4.—The Izvestia of Moscow prints a report that Japan is planning decisive action against the Soviets. The newspaper declares the plan includes the bringing of the army of General Wrangel to Siberia. Japan, this army to join the forces of General Semenov, the anti-Bolshevik leader. The Izvestia asserts that the Japanese military attaches in Paris signed recently with Russian officers there and promised them aid.

### POSSSESS GOOD HEALTH By Looking After THE BOWELS

A free motion of the bowels, once or twice a day, should be the rule of every one, as half the ills of life are caused by allowing the bowels to get into a constipated condition.

When the bowels are allowed to become constipated, the stomach gets out of order, and the liver does not do its work properly on account of holding back the bile so that it does not pass through the bowels, but is allowed to get into the blood, thus causing a poisoning of the whole system.

If you would escape constipation, sick and bilious headaches, heartburn, floating specks before the eyes, coal of tongue, foul breath; the costly irritating, bleeding itching and protruding piles, you should keep your liver stirred up by the use of Milburn's Laxative Pills.

These pills, being purely vegetable, keep your liver working actively, helping it to resume its proper functions, and thereby removing the bile that is circulating in the blood and poisoning the whole system.

Mrs. H. Barrows, Enfield, N. S., writes:—"I was troubled with sick headaches and constipation. One day a friend told me of Milburn's Laxative Pills. I got two vials, and found they did me a world of good. I therefore have great faith in them."

Milburn's Laxative Pills are 30c a vial, at all druggists or mailed direct on receipt of order by The T. Milburn Co., Limited, Toronto, Ont.

### Copyright Bill Committee Named

House Will Hold a Four Hour Session on Saturday Afternoon.

Ottawa, May 4.—The committee which is to conduct hearings in regard to the copyright bill was appointed at the opening of the House of Commons this afternoon. It consists of Messrs. Morphy, Mowat, Macdonald, Mackenzie, Hughes, Jacobs, Fisher, Gaultier, Wright and Johnston.

On the motion of the Hon. Mr. Arthur Meighen, it was decided that the House should meet on Saturday next at 2 o'clock with the understanding that it would rise at six o'clock. The first reading of the bill was given on Saturday. First reading was given to an act to amend the Animal Contagious Diseases Act. Third reading was given to the Senate bill amending the post office act.

### Fuel Controller

Hon. D. J. Reid, minister of railways, asked that a resolution on the order paper which provided for the continuation of the powers of the board of railway commissioners as fuel controller be dropped. The minister of railways explained that the resolution was placed on the order paper because it was thought that the Ontario Government proposed to enact similar legislation. This had not been done. The resolution was dropped. The bill to amend and consolidate the acts respecting the inspection of gas and gas meters was put through committee and given third reading.

### Gerfalcon, Trapped, Flies Off With Trap

Stole One Duck, Came Back for Its Mate and Was Caught.

Toronto, May 4.—It has been the habit of gerfalcons to prey on ducks from time immemorial. But, as a result of ambition on the part of one of these "duck hawk" to overdo this procedure established right, it is now flying about in the neighbourhood with the embarrassment of a steel trap fastened to its leg.

The gerfalcon made off with a pet canvas back belonging to Mr. G. H. Corran of Islington on Good Friday. Encouraged by this initial success, it came back the next day with "one winged pride of sky-ascending and ambitious thoughts."

Mr. Corran had prepared for the second visit by removing the other duck—the mate of the missing canvas back—and tying a detestable dead rod squirrel prominently on a post. The gerfalcon swooped down on this "easy picking" without a warning instinct that it was too easy. The powerful bird was caught in the trap, and made its first acquaintance with a human "con game."

But it was more fortunate than human dreamers of 100 per cent. dividends. Such was the strength of its long, dark, pointed wings that it wrenched the trap free from the fastenings of nails and staples which held it to the post and flew again into its native heights with the trap fastened to its leg like a stock certificate. Moreover, it took the appetizing squirrel along, too.

If any one should see a gerfalcon freighted with steel, Mr. Corran asks that he be notified, as he wishes to secure the bird for the Royal Ontario Museum, for which he collects specimens. This would also enable him to recover the trap which didn't trap. Another try may vindicate it.

### New York To Chicago In Eight Hours By Air

Giant Plane "Pullman" Will Start Service This Month.

Milwaukee, Wis., May 4.—America's air "Pullman," also the largest in the world since the recent wrecking of a great Italian plane which was to have been used in traffic between Italy and the United States, will take to the air early this month.

Alfred Lawson, South Milwaukee airplane builder, whose giant liner two years ago sailed over a greater part of the eastern half of the country is waiting only for favorable weather to test out his liner, which will carry mail under government contract between Chicago and New York, beginning May 15. It will also carry passengers between the two cities.

Lawson's liners will begin a new era in air transportation, and his fastest planes will cut twelve hours from the present fastest railroad time between New York and Chicago. Under his government contract, Lawson will have his planes make stops at Harrisburg and Pittsburgh, Pa., and Fort Wayne, Ind.—three stops between New York and Chicago. Day planes will leave each terminal at 6.30 a. m. and are scheduled to arrive at their destination at 5 p. m. Night planes will leave the terminals at 10 o'clock, and are scheduled to arrive at their destination at 6 o'clock the following morning, making New York and Chicago eight hours apart.

The giant liners are capable of carrying 6,000 pounds of dead weight. The government contract calls for 1,500 pounds of mail, and the planes will carry 4,500 pounds of human weight. If the twenty passengers the plane can accommodate weigh that much. The planes are fitted with all the comforts one expects on American best trains—berths, diner, wash-rooms, etc. Nothing is being spared for the comfort of the passengers. If this type of plane proves successful, many more will be in the air before fall.

### FOOD FOR ARMENIA

Constantinople, May 4.—Food supplies for the people of Armenia left here on the steamer Georgia, which sailed yesterday, for Batumi with a cargo of 1,500 tons of food, furnished by the Near East Relief. The vessel carried a number of relief workers.

### Made New Man Out of Benoit

Montreal Citizen Says His Troubles Have All Been Overcome by Taking Tanlac.

"For about two years before I got Tanlac I don't think I ate a meal without suffering; but now I'm eating three good meals every day without the least trouble, and actually feel like a man made new," was the statement made by Emile Benoit, 539 St. Hubert St., Montreal, P. Q., recently.

"I think I had about every kind of pain and distress had digestion can cause a person, and at times my suffering was about all I could stand. After every meal I felt so bloated and all stuffed up I could hardly get my breath, and my heart palpitated terribly. If I walked up stairs it left me completely exhausted. I had no position and at times I couldn't retain anything on my stomach, not even a glass of water, and often it seemed that my troubles would be the end of me.

"My poor state of health worried me a great deal, but the wonderful results I got from Tanlac has changed things right around for me. My digestion seems to be perfect now, as nothing I eat hurts me; and I feel so well I believe I could run a foot race without getting out of breath. In fact, I'm in the pink of condition and Tanlac gets all the credit for my good health."

### Modern Flats For London Slums

London, May 4.—Blocks at modern flats to accommodate 600 families each, are being built in London slums. They are modeled after the newest type of New York tenement buildings but are crescent-shaped in plan, and provide a greater degree of ventilation and light.

The flats will be of the self-contained type and accommodation will vary from two to five rooms. There will be bathrooms in every flat. Electric light and gas will also be installed. To make room for these new build-

### Find Homes For The Crimean Refugees

Colony of Russians in Turkey Care for Those of Their Faith.

Constantinople, May 4.—Just as the Memorialists of the United States have furnished unexpected help to those of South Russia, so the Old Believers, who came to this country from religious persecution in Russia and found refuge in Turkey, are now aiding the members of their faith who were among the hundred thousand refugees from the Crimea.

When it became a question of finding homes for this great army of fugitives from Bolshevik Russia, a committee appeared at the refugee headquarters of the Russian Embassy, speaking the Russian language of 150 years ago, and announced that it represented a group of villages of Old Believers, located near Panderma, on the Marmora Sea, and would take care of as many as possible of their faith.

The men visited their community had left what is now Cossack Russia in the early part of the 18th century, because of religious persecution by the Orthodox church and had found asylum among the Turks, who had, during all these years, permitted them to live peacefully and as a separate community. In the world war some of them had served in the Turkish Red Cross, but had not been compelled to bear arms.

Several hundred homeless Old Believers, among the Don Cossacks, were found and have since become members of the Panderma community.

### BATTLE IN PHILIPPINES

Manila, P. I., May 3.—Vincent Moore, including Maharajah Untung, a religious fanatic leader, was killed Sunday by a detachment of Philippine constabulary in an engagement near Taghilt on the Island of Sulu, 500 miles from here, according to advices received here at constabulary headquarters.

The constabulary is reported to have been engaged in a battle with the rebels which are being built by private enterprise, blocks of century old hovels are being demolished.

### Promises Plenty of Rain At Medicine Hat

Rainmaker Hatfield Assures People He Will Supply Lots of Moisture for Crops.

Medicine Hat, Alta., May 4.—"I'll tap all the clouds that come over and you'll have an abundance of moisture to mature your crops this season," declared "Rainmaker" Charles M. Hatfield, of Los Angeles, upon his arrival here to commence operations preparatory to demonstrating his ability to produce rain in the driest stretch of territory in the south country. Work on a tower twenty feet high, which will support from 60 to 70 vats highly electrified, has been started at Chippie Lake, 20 miles northwest of this city. This series of vats will contain the magic gas that is claimed to possess such marvelous properties, the secret of which is known only to Hatfield and his brother, who assists him.

The rainmaker in the past has confined his work wholly to the Pacific Coast and Arizona. One of the chief objects of his coming to Canada is

### LIQUOR ON ICE

New York, May 4.—Frosts in the centre of cases of ice, 134 bottles of liquor were found yesterday by customs inspectors on board the steamship Glendora, of the Atlantic Fruit Line. Liquor was also found in 14 automobile tires and underneath piles of coal. The total amount seized was 400 bottles.

### SHOE WORKERS IDLE

Lynn, Mass., May 4.—Five hundred employees of the Gregory and Ross Shoe Company of this city, were idle today as the result of a strike called by the local union of the United Shoe Workers of America.

Protest against a charge imposed upon an employee for damaged shoes was said to be the cause of the strike.

## GERMANY AND REPARATIONS

The resignation of the German cabinet, which has been listed at one more than one occasion recently, has now taken place, and the country may be said to be without responsible government. This climax has been brought about by the alleged inability of the German people to satisfy the Allied demands regarding reparations; the Allies refuse to accept the German statements, and the cabinet has consequently thrown up the sponge, and in effect told the Allies to come and do their worst.

It begins to look as though the Allies will now be compelled to do what many people think they should have done at the outset, march to Berlin and take charge of affairs. It is abundantly evident that the German people have no intention whatever of complying with the Allied demands regarding the amount to be paid for reparations; they never did have such intention. No less a personage than von Hindenburg openly announced some time ago that Germany could not pay, "and even if she could, she wouldn't." This assertion pretty accurately reflects the German public sentiment.

There is abundant evidence on every hand that Germany is not financially and economically in anything like such a serious plight as her public men are trying to make the world believe is the case. There is no doubt that the demands made upon her are heavy, as they naturally should be for all the reparations possible can never compensate for the material damage done by her, without taking any account of the awful loss of life. But the industrial life of Germany is in full swing to an extent almost, if not quite, equal to that of the case before the war. It is true, of course, that she must find markets for what she produces or she cannot make the money necessary to pay of her late enemies, and it is also true that she is finding it difficult to dispose of many of her manufactures, because of the restrictions placed upon imported German goods by several countries with whom she formerly did a large trade, and also because of the fact that the bulk of her manufactures must be exported in foreign ships.

The German position therefore seems to be something like this: "If you Allies expect to get the money you demand, you must come and take it. Under existing conditions we cannot pay. Perhaps if you take charge of affairs you will realize this and make such a change in conditions as will enable us to pay." The whole situation is chaotic; and it would have been better in the long run, perhaps if the Allied armies had marched to Berlin and taken it in hand to begin with.

## REFORMING THE CIVIL SERVICE

A bill is now before Parliament which will take from the Civil Service Commission some of its powers in regard to appointments and promotions in the civil service. The bill proposes to remove from the Commission power to appoint three classes of employees—manual laborers, postmasters, whose remuneration in whole or in part is a percentage of receipts of their offices, and professional, scientific and technical officers.

## CONSIDER SPINACH

Should you like to be in the spinach business for a living—raising spinach? Down in Texas the farmer who grows the spinach sells it for shipment to Chicago, says the Railway Age, at \$5 a ton. The cost of shipping it to Chicago is \$30.66—only six times as much to the railroad for hauling it as the farmer gets for raising it!

## THE LAUGH LINE

Shallow brained people bow to the clothes rather than the wearer. A man's failure to accumulate a fortune is seldom due to his liberality. A man never realizes how mean he is until he has become a candidate for some office.

## THE BAGERMAN

A June bug married an anglerwoman; An accident cut her in two; They charged the bug with bigamy; Now what could the poor thing do?

## THE PROPER RATIO

"I see by the papers that there are two hundred families for every one hundred apartments." "Well, it takes the combined income of two families to pay for one apartment these days."—New York World.

## WHAT OTHERS SAY

**Hymns for Children.**  
 In Russia little children are now taught to sing: "Long Live Our God, Liberty! Long Live Our Liberty, the Death of the Middle Classes."

**A Mystery of the Toilet.**  
 We often wonder if all the old paint has to be scraped off the girls before the new is put on, as we understand is true in the case of motor cars.—Ohio State Journal.

**The Railway Trouble.**  
 The railway muddle is bad enough now without adding to it by taking over the C. P. R. and guaranteeing the shareholders for all time a fixed dividend. The Canadian people are proud of the C. P. R., its efficiency and its service. It is an advertisement for the Dominion the work over, Canada does not want to risk ruining this wonderful system by scrambling it with a lot of unprofitable lines, which through stress of circumstances have been unloaded upon the country. The existence of the C. P. R. is a continual incentive for the Canadian National to equal its organization. The present course of the Government would seem the wisest under the circumstances, namely, to complete the purchase of the Grand Trunk and to link it up with the National lines and by economies and careful management endeavor to build up a system to compare favorably with the C. P. R.—London Free Press.

**Trouble Makers.**  
 There are persons who constantly clamor. They complain of oppression, speculation and pernicious influence of accumulated wealth.

**They cry out loudly against all banks and corporations and all means by which small capitalists become united in order to produce important beneficial results. They carry on mad hostility against all established institutions. They would choke the fountain of industry and dry all streams. In a country of unbonded liberty they clamor against oppression. In a country of perfect equality they would move heaven and earth against privilege and monopoly. In a country where property is more evenly divided than elsewhere, they cry out against the air shouting agrarian doctrines. In a country where the wages of labor are high beyond parallel, they would teach the laborer that he is but an oppressed slave.**

**Sir, what can such men want? What do they mean? They can want nothing, Sir, but to enjoy the fruits of other men's labor. They can mean nothing but disturbances and disorder, the diffusion of corrupt principles and the destruction of the moral sentiment and the habit of society.—Daniel Webster, in 1833.**

## A BIT OF VERSE

**A GHOST OUT OF STRATFORD**  
 For all the crowd that packed the house tonight  
 Marked you the vacant seat none came to claim.  
 The fourth from the front, and to the vacant, I call it now . . . But I could name  
 A thing that happened when the lights were off,  
 Of one who ailed in buckles down the aisle,  
 Wearing a great hat that he scorned to doff,  
 And who, when berthed, whist and neek in style,  
 Once in a play—I swear it—once I heard,  
 Along the thimble of our loud applause,  
 A sly and ghostly chuckle at a word  
 That Falstaff mouthed with those outrageous jaws . . .  
 I think he liked the play . . . and I stayed, no doubt,  
 Long after us, and lingered going out.  
 —David Morton.

## Benny's Note Book

BY LEE PAPE  
 Me and Pude Simkina was setting on my front steps and Leroy Shooter came up with 3 grab big pieces of rapping paper about as big as a tablecloth, saying, Look, fellows, I found these in our dining room closet, lets do something with them.

"Giving me a good idea, and I nod, Lets play politticks, my father is getting roddy to go out and we can quick print things about him on the paper with this hunk of crayon and then make a hole in the middle and stick our heads throo and wen pop comes out he will think he's being elected or something."

"Wich we quick did, and wen we stuck our heads throo the paper we looked like rapping paper with a head on the top of it, me having printing on saying, Vote for Wilyum Potts the Working Mans Friend! and Leroy's printing saying, Herroy for Wilyum Potts and Free Beer! and Pudoss saying, 3 Cheers for Wilyum Potts Our Next President, Vice President and Secretary!"

And pretty soon we herd pop coming out and we hid in the next store vestibule and pop started to wawk down the street all dressed up in his gloves and cane as if he was going some place special, and us 3 snuck out and started to wawk like a perrade a little ways in back of him, and pritty soon Mr. Simkina started to go past saying to pop, Haw haw, haw, Potts, it looks as if you awt to be elected, all rite."

Wais the big idea, cant a man carry a cane in a free country without attracting attention? pop pop.

"Haw haw haw, this is rich, haw haw haw, sed Mr. Simkina keeping on going and laffing. And pop keep on going without laffing, and about 3 more men went past and started to laff as if they knew something that pop didnt, wich they did, and all of a suddin pop turned around and saw wat was funny, only he didnt think so, and he chased us and cawt me and took me home and gave me a licking and gave me a pencil with a little bit of a rubber on the end and sed he would give me another licking if I didnt rub off every bit of crayon on my paper with it before supper."

Wich I did, taking me about 3 hours and being one of the fearest jobs I ever had to do and maybe the fearest.

## Rev. Dr. Straton Calls Stage Devil's Church

New York, May 4.—The Rev. Dr. John Roach Straton, in his sermon last night at Calvary Baptist Church, attacked the American stage of today as "a rotten proposition, reeking with moral infamy, with the tides of its pollution flowing out from New York as a centre for the corruption of the entire nation." The source of the divorce wage, Dr. Straton contended is to be found largely in the theatres.

"The theatre as developed here in New York," he declared, "attacks our whole moral fabric. Under its profligate commercialized idling the crook is made a hero, stealing becomes a joke, the swaggering swearer is a good pal and a serious double meaning is the end of wit. Marital infidelity and illicit love are regarded as the real spice of life. The home is a necessary evil. It is the place to which we go when everything else is played out. The theatre today is the devil's church."

"Of our actors, the most popular are those with the longest string of wives to their credit, and the most popular movie stars are those with a record in divorce. I wish to raise the question of why it is that in every divorce scandal that has shocked the New York public, especially in recent years, one or more actresses have figured."

Ottawa, May 4—Initiative costs of labor and materials in building work again before the conference of labor and contractors in the building trade of Ottawa today. Labor delegates objected to the figures put forward by J. B. Carwell of Hamilton, yesterday and Tom Moore, leader of the labor delegates, quoted statistics to improve on to \$1,200, but only \$1,000 for building were divided as follows:

**Continue Pensions

**Fines For April  
In Police Court**

Over \$1,200 Collected—Fines  
Struck in Opium Cases  
\$1,800.  
The fines collected in the police court during the month of April totalled something over \$1,200. Considerable of the amount was for violation of the liquor law, and will go to the provincial treasury. Fines for the unlawful possession of opium amounted to \$1,800, but only \$400 of it was collected. One of the four Chinese, Hum Sek, who was fined for this offence, was fined \$1,000 for selling opium without a license and \$200 for having it in his possession. He was unable to raise either amount and will therefore have to spend a year and six months in jail.

**Chinese Story**

Two of the Chinese fined in this connection have a very sorry opinion of British justice. They are the former proprietor and chef of the King Cafe on Prince William street, the Hum Fung Tung and Hum Wung. Hum Fung Tung says he bought over the cafe from Hum Jim when the latter went back to China, and according to Tung's story, Hum Jim asked him to take care of a few things for him which he had left in a trunk. He consented, and left the trunk in the cafe, awaiting word from Hum Jim as to its disposal. In the meantime the cafe was raided, and the detectives discovered an opium pipe and lamp and a small box full of opium ashes in the trunk, and as Tung says with much disgust, "Me fine \$200 for Hum Jim's ashes." Such is the reward the Occident holds forth to the good Samaritan from the Orient.

**FUNERALS**

The body of Hon. Francis J. Sweeney passed through the city yesterday morning on the way from Montreal to Moncton. The remains were accompanied by Michael D. Sweeney, brother of the deceased. The funeral will take place today at Melrose. A special train will leave Moncton at noon with the remains for the Moncton branch of the Knights of Columbus, which deceased was a member.

**Joint Industries.**

A recommendation in favor of the extension of the principle of joint industrial councils provoked a lengthy discussion and was generally supported. The committee was asked to draw up a sample constitution for these boards to operate under.

**Act of Kindness**

Hum Wung claims he was taxed two hundred beans for an act of kindness, too. While both the King Cafe Chinamen claim they never touched the drug themselves, they admit that Hum Sek, the Brussels street laundryman, was an addict. Hum Wung is Hum Sek's cousin, and when Hum Sek was imprisoned and deprived of the drug, which he had come to crave for more than anything else in the world, his fellow Chinamen feared the old man would die if he was suddenly abruptly cut off from the drug, so Hum Wung consented to take some "pills" to Hum Sek that another Chinaman had cooked. He went up after tea to the goal, but as it was not the hour for visitors, was refused admittance.

**WEDDINGS.**

**Wiseman-Dower**  
Chatham, N. B., May 4—The marriage of Miss Mary Myrtle Dower, daughter of Mr. and Mrs. Peter Dower of Chatham, and Percy P. Wiseman, son of Mr. and Mrs. George Wiseman of Moncton, took place at St. Luke's Methodist parsonage tonight, the ceremony being performed by Rev. H. B. Strothard. The bride wore a becoming tulle travelling suit with fennel hat and was attended by her sister, Miss Hazel Dower. Norman Crosby, of Chatham, assisted the groom. After the ceremony the bridal party repaired to the home of the bride's parents, where a reception was held, at which were present a large number of relatives and friends. The house was tastefully decorated for the occasion, with ferns, lilies-of-the-valley and other plants. A very fairly wedding luncheon had been served.

# A MUSEMENTS

**Memorial To Mrs. Geo. Steel**  
Portland St. Missionary Society Voted \$100 to Special Missionary Enterprise.

The Portland Street Women's Missionary Society held their annual meeting yesterday afternoon in the Young Men's Association Building, Portland Street, the first vice president, Mrs. R. A. Corbett, presiding. Excellent reports were heard from the officers and it was felt that a year of much interest in missions had been spent by the members.

In the secretary's report, Mrs. Andrew Myles told of two public meetings, twelve regular meetings and ten study classes held. The book taken up for the year was "The Bible and Missions." There are 125 members in the society.

Miss Florence Edwards, treasurer, stated that the total amount forwarded to the branch treasurer was \$458.72. There has been a decrease in the amount raised of \$100. The Mite Boxes amounted to \$246.80.

**A Memorial**  
A memorial to Mrs. George Steel, who for eight years was president of the society, \$100 was voted, to be devoted to some special missionary enterprise. Many tributes were paid to the faithfulness of Mrs. Steel's work and her devotion to the cause of missions which set a wonderful example for members to follow.

**Officers Elected**  
The election of officers resulted as follows:

**VERY SUCCESSFUL RED CROSS MEETINGS**

The Red Cross depot, Prince William street, is receiving a thorough house cleaning in preparation for large amount of business which will be transacted there during the membership campaign. Mrs. Kuhring, who is speaking at a number of Red Cross Circles throughout the province is having very successful meetings and much interest is being shown in all health educational activities.

**IN MAY.**

The emerald or carnelian is the May birthstone. May, the fifth month in the modern year, was the third in the Roman calendar. The Romans regarded May as an unlucky month for marriages and the superstition survives in many countries. The origin of the month's name is disputed, although the dedication from Maia, Mother of Mercury to whom the Romans made sacrifices on the first of the month, is generally accepted.

**Fig Delight.**

**Exmouth St. Church Star Mission Circle**  
Reports at Annual Meeting Show Successful Year—Miss Blanche Myles Pres.

At the annual meeting of the Star Mission Circle of Exmouth street church held at the residence of Mrs. William Lawton, Paddock street recently, reports were given of a successful year, during which there has been an increase in giving and good programmes have been arranged for all meetings.

In her report Miss Ethel Love, secretary told of ten meetings held. The society has fifty members. The treasurer reported a satisfactory state of finances. Arrangements were made for the Circle to attend the convention of N. B. and P. E. I. missionary societies to be held in St. John the first week in June.

**The Officers.**  
Officers were elected as follows: Miss Blanche Myles, president. Mrs. A. W. Estey, vice-president. Miss Edith Magee, second vice-president. Miss Ethel Love, recording secretary. Miss Jennie Bradley, corresponding secretary. Miss Laura Haslett, treasurer. Miss Mabel Sandall, stranger secretary. Miss Edith Magee, superintendent of Christian stewardship.

**OUTLINED STORY OF MRS. AIMEE McPHERSON**

At last evening's prayer meeting at Exmouth street Methodist church, Rev. Craig Nichols gave a most interesting account of the Pentecostal movement, speaking particularly of Mrs. Aimee Semple McPherson, and giving an outline of her story.

Rev. Mr. Nichols witnessed many of the wonderful cures made at Montreal last November, and the large gathering at Exmouth street church listened last night with deep attention to his account.

Altogether, I have used three boxes of 'Sootha-Salva' and two of 'Fruit-tives,' and am entirely well."

Both these favorite remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-tives Limited, Ottawa.

**Spring Greens Are Necessary**

Now is the Season When Nature Demands a Change of Diet.

While the suspicion of a wintry chill still lingers in the air, and before the gardens are planted, the human appetite has a strangely insistent desire for spring greens. Dandelions, dependable advance guards, are the first available greens, while cool, fresh comes next. Thriftily speaking, the greens boiled are delicious, the smaller of the leaves are kept usually for a salad, and the buds in cream sauce are equal to capers.

In different parts of the country, local greens are to be had for the searching by those who know them and appreciate the free treat. Leaves of the yellow dock washed and boiled with a knuckle of ham are very tasty. The tender tops of young onions, boiled, then creamed, are a surprise for those who have never tried them in this way.

Beet and young turnip greens are already well and favorably known in many localities. Young and tender sprouts of the milkweed are like asparagus when boiled and served with drawn butter, and the leaves make excellent greens.

Wild mustard leaves are a wonderful addition to a spring salad, giving a sharp but delicate flavor peculiarly their own, and the garlicky and fields abound with them. Wild peppergrass grows in neighborhood fashion with the mint, and is another delightful salad ingredient.

Paralane, before it grows big enough to be a garden pest, makes good greens, the leaves cooked in the usual way. Kale is a member of the cabbage family, and is tender enough in the early spring to chop and boil. The first tender leaves of early curly dock are often served cooked like spinach. Sorrel, after being carefully prepared, is good for greens, creamed or in a salad.

**Most Popular of Books Visualized**

"Black Beauty," Famous Classic, Makes Unique Motion Picture at the Imperial.

Still popular after running through scores of huge editions since its first mighty bid for enduring fame more than forty years ago, "Black Beauty," by Anna Sewall, is establishing a record in another field of human interest. After forty years, "Black Beauty," ranks eighth in popularity among the world's books. At the beginning of its career in motion pictures its appeal to the public promise to be even stronger than the one it made through the printed page.

"Black Beauty," a Vitaphone all star special production, is being shown at the Imperial theatre today. Extraordinary difficulties were faced and overcome in visualizing "Black Beauty," but those who at first were looked upon as the greatest, turned out to be the least. The first question raised was, "Can horses be trained to perform exactly the action of Anna Sewall's book, so that the story in pictures can be accurately and faithfully told?"

After long continued and patient experiments, it was found that for the moment, no training would be necessary, as all the action of horses in the wonderful book is natural to them at certain times under certain circumstances. The fact that the action is natural, spontaneous, is an important part in the greatness of Anna Sewall's immortal work. The filming of this action, therefore, became largely a matter of time and patience, and complete success was attained at last.

The problem of presenting "Black Beauty" as a screen drama of the strongest possible appeal, with a gripping, thrilling story, was more baffling. Mr. and Mrs. George Randolph Chester, who prepared the screen version, were unwilling to take any liberties in altering the text or changing the form of a work regarded with reverence by millions of readers. The problem was pondered for weeks before the inspiration came.

In the story as originally written a number of human characters are mentioned, and dealt with in the "Autobiography of a Horse" in their relation to the equine characters. It is related how George Gordon met death in the horse hunt, but the consequences of this tragedy in the lives of the humans were, of course, unknown to Black Beauty. Squire Gordon drove Black Beauty to town and back, under great difficulty and danger, on a stormy day. Black Beauty told of the trip and its adventures, but could not tell why the trip was taken, for he did not know, except that it was "on business."

Mr. and Mrs. Chester, in preparing the screen version of "Black Beauty," have told this human interest and compelling, in scenes alternating with those of "Black Beauty's Story." The "Indoor Story" never conflicts with nor overtones the "Outdoor Story" which Black Beauty tells.

The result is Anna Sewall's story, as she wrote it, in pictures, and in addition the human interest story of Jessie Gordon, Harry Bloomfield and the other persons in the book.

**ROYAL ARMS CHAPTER I. O. D. E.**

The meeting of Royal Arms Chapter, I. O. D. E., was held in Great War Veterans' rooms last evening with the Report, Mrs. P. H. Carter, presiding. It was decided to vote \$15 to the Boy Scouts' Association.

Plans were made for a rummage sale and for the fall work. Four new members were elected and considerable routine business was transacted.

**CROSSING THE LEGS.**

According to experts, the general health as well as one's state of mind are influenced largely by the way we use our legs. Persons with irritable tendencies invariably acquire the habit of crossing the legs. For them to keep the legs parallel is to invite a feeling of uneasiness. Brain-workers, too, find it easy to fall into the habit of crossing their legs. When overwhelmed with work, this is the favorite attitude. Engross them with important problems requiring initiative, and the legs unfold. This is because the best train of thought happens when the legs are thrust straight out. Sitting with the legs crossed is also a frequent cause of obesity. If you wish to remain slim and possess a good figure, don't cross the legs. Instead copy your cat and stretch all you can.

**WISDOM FROM THE EAST.**

If you bow at all, bow low. A man thinks he knows—but a woman knows better. Free sitters at the play always grumble most. I have seen not one who loves virtue as he loves beauty. Only imbeciles want credit for the achievements of their ancestors. The faults which a man condemns out of office he commits when in. No image-maker worships his gods. He knows what they are made of. One more good man on earth is better than an extra angel in heaven. It is not the wine which makes a man drunk—it is the man himself. If you suspect a man, don't employ him—if you employ him, don't suspect him.

**WOMAN'S CHIVALRY.**

Women are chivalrous; particularly to their own sex. It is no uncommon sight to see a young girl get up and offer her seat in the subway to an elderly woman whose entrance has been ignored by the male passengers; but I saw the real climax of this age the other evening at dinner time in a popular tea-room. A conventional appearing middle-aged woman took a seat at the same table with one of her own sex, a stranger to her, and finishing dinner politely inquired, "Do you mind if I smoke?"

## Two Hundred Horses Will Start Training

Busy Scenes on Eight Maine and New Brunswick Tracks Next Week.

Fredericton, May 4.—By the first of next week upwards of 200 horses will be in training on the eight tracks comprising the Maine and New Brunswick circuit in preparation for the opening campaign on the new circuit.

There are more than thirty horses in training at OConnell Park, Woodstock, and as many more at the Fair Grounds, St. Stephen; Fredericton will have between 15 and 20 horses training here next week and Chatham will also have a number getting their work there.

Another new one arrived at St. Stephen from Minnesota last week, and is the property of Aubrey Johnson, of that town. John Arden is the name, and he has a mark of 2.14 1/4. He is a handsome young gelding, height, stands 15 1/2 hands and weighs 1,000 pounds, and will be a contender in the 2.15 class this year.

Oro Fino, 2.03 1/2, is now in Jimmie Boutlier's stable at Woodstock, the Halifax trainer's stable now consisting of an even half dozen trotters and pacers.

In addition to Oro Fino the Boutlier stable now includes: Emotionless, 2.08 1/4, eligible to the 2.15 pace; Harmsdale, 2.18 1/4, which showed in the 1920; Northern Lady, Minnie Grant, green pacer, and Blinax, a green trotter by Bingara. Chances are there will be several other additions to this stable before racing time arrives.

Ald. James W. Gallagher's string of four horses—Togo M., 2.14 1/4; Colgate Swath, 2.17 1/4; Money Man, 2.18 1/4, and Harry Grant, green pacer are still in charge of Clarence Shuman, formerly of the Red stable. Geo. Stoddart is in charge of a stable of eight, largely owned by members of the Harland Diving Club, and is expected that Billy Brickley, of St. John, will drive them. Charles Mason, who removed from Rhode Island to Hamilton, Maine, some time ago, is now located at Woodstock with eight in his string headed by Amy, 2.09 1/4, another 2 3/4 class eligible. There are eight or nine others in training at Woodstock, including Lucky Strike, 2.16 1/4, the pacer which did so well on the ice last winter for Robert Hamilton.

## Kicks Wife's Shins; Gets Locked in Trunk

Baltimore Man Nearly Suffocated—Is Arrested. Baltimore, May 4.—After being rescued from a trunk into which he had been thrown and locked by his wife, Ludwig Levandowski was arrested, but today released by a magistrate with a warning. During a little domestic argument with his wife Levandowski repeatedly kicked his wife on the shins. The kicks were only "playful," according to Levandowski, but they aroused Mrs. Levandowski's resistance and she tumbled him into an open trunk and then strategically closed the lid and locked it, throwing the key away and calling for the police.

Levandowski was nearly smothered and on the verge of unconsciousness when the police rescued him.

## Black Hand Gang In Police Cells

Scranton, Pa., May 4.—With nineteen of its members under arrest on the oath of loyalty to the band was broken today and broken up "one of the worst blackhand gangs" that ever operated in this section of the state. All of the prisoners were held in heavy bail after hearing before a magistrate. Five of them turned state's evidence and recited on the witness stand some of the alleged practices of the band. Breaking of the oath of loyalty to the band was said to mean death to offender. Michael E. Tri, said by the police to have been a member of the gang, was slain last night, because, the authorities say, he was suspected of being an informer. Gianni Mazzarone, of this city, is under arrest, charged with the killing.

## Only Round John L. Lost

That was the only round which Sully really lost for him. Ever afterward I carefully refrained from any ring-side outbursts or a favorite fighter. The day was terrifically hot. I've never known any like it. As the morning wore on the heat became fiercer and fiercer, it was a question as to who was suffering the most—the fighters or the crowd.

## PROF. BROOKS DEAD

Geneva, May 2.—Dr. William B. Brooks, professor of astronomy at Harvard College since 1900, and recognized as the discoverer of more comets than any living astronomer, died at his home here tonight. He was born at Maudstone, Kent, England in 1844.

## Sullivan-Kilrain Fight Hardships

Never in Ring History Did Crowd Suffer More to See Championship Contest.

Three special trains ran out of New Orleans on the night of July 7, 1883, "destination unknown." Those trains made up only of day coaches, were headed into Mississippi for the John L. Sullivan-Jake Kilrain fight, but no one knew the exact location.

"Each car was packed almost to suffocation," recounted Johnson. "Hundreds of fight enthusiasts, unable to afford the railroad fare, determined to steal their way to the battleground. About 200 of these fellows on top of the coaches of our train and there they clung until we made the stop at Lake Pontchartrain.

"We arrived at the battleground—a little more than 100 miles from New Orleans—about 6 o'clock in the morning. The crowd numbered about 2400 and a portion of it was armed. Many had expected that a little shooting would be done and they came prepared to take part in any fireworks entertainment. But nothing of the sort happened.

"Little time was lost in laying out the ring on the dewy turf and the fighters got busy without delay. I was a violent Sullivan partisan, and although I didn't bet on the contest myself, many of my friends had wagered rather heavily on my say-so that Sullivan was in fighting shape and was a sure winner.

"The first round had just started and I had just settled back in the rough and poorly lighted seats. John struck Jake a powerful right hander and because of my say-so over it I took part in the fight for Blucher and his bleeding army.

"The familiar expression caught Sully's ear. He deliberately turned around and searched the faces around the crowd for the person who had cheered for him. Just as he caught my eye, Kilrain, talking advantage of his lack of alertness, had rushed Sully's eye of alertness, had rushed the champion while his back was turned.

"Kilrain might have won the fight then and there—it had been fully awake to his opportunity. Jake could hit with crushing power, and a blow to the head would have finished him. But he could have been finished in a few more rounds.

## Britons Agog Over Big Polo Matches

Great Interest in Cup Event Assures Both a Social and Financial Success.

London, May 4.—Interest in the coming matches between the picked American and British polo teams has risen to such an extent, that they are certain to be highly successful, both socially and financially as well as from the standpoint of the sport. King George and other members of the royal family will attend and the Hurlingham Club is making elaborate plans for the comfort and entertainment of these as well as other distinguished visitors from all parts of the world.

The advance demand for seats is actually beginning to embarrass the organizers, and the financial success of the matches is assured. At today's practice matches on the Sunbury field a three man team opposed the Americans. The Americans, Earl W. Hopping and Robert Stawbridge, and the British Major, F. W. Barrett, gave the regular American team a hard tussle, the regulars only winning after eight five point periods by 5 to 3.

The place of Louis Stoddard was filled by Stoddard, a promising young American from Cambridge, who recently played with Thomas Hitchcock, at Cannes. He showed excellent at No. 1, scoring four goals, Hitchcock, C. Ramsey and J. Watson Webb played in their usual places.

"The American ring history I don't think there is an instance of where a light crowd suffered more to see a championship fight. All through the audience, that eminent left hander or were overcome by heat. To add to the hardship one section of the crude stands collapsed, but fortunately, no one was seriously hurt.

"The story of the fight is simply told. It was Sullivan all the way. Kilrain prolonged it into seventy-five rounds by failing to say again and again without being hit. It wasn't trickery on his part; it was sheer exhaustion. For Kilrain was terribly beaten.

"When the end came, the crowd rushed for the trains. I was slow getting away. Then I discovered that some of the notes which I had taken on the fight were missing. I went back to the battleground. Every one had gone except one man. And that man was Kilrain.

"He sat in his corner, a bleeding, ghastly sight; beaten almost to unconsciousness, babbling incoherently, deserted by his admirers, deserted by his seconds—deserted by all. A black sun burned down upon his uncovered head. In all my life I have seen many pathetic sights, but none more so than that of Jake Kilrain, sprawling, helpless, alone in the turf that was soaked with his own blood.

## Hard Luck, Just Lamp This One

Hurler in 1884 Lost One-Hit Game in Which He Fanned Eighteen.

Quite a few of the big league pitchers of the present day have encountered defeat when they have limited their opponents to an blow, but not one of them ever has been beaten when he got a tumble from the Braves when he was fanning 11 of them for the National League strike-out record of the year, but M. DeMott youth had known of a contest played 36 years previously in Boston. He would have told the Sympathetic Hound that he was more or less lucky in losing only 4 to 3 or 2 to 2 while he was industriously collecting strike-out scalps from his adversaries.

"Boston has made a specialty of supporting two major league teams, and in 1884 she had two—one in the National League and one in the out-law Union Association. The Robin Hoods of the Hub played on their home lot against the St. Louis Maroons on July 19, 1884, and lost, 1 to 4, despite the fact that 13 of the Maroons fanned and that only one of them—John Gleason—struck a safe blow. Boston's pitcher on this occasion was Fred L. Shaw who was known to the bugs as Duke Shaw.

In 1902, when Rube Waddell was making his Philadelphia debut with the Athletics, that eminent left hander and strike-out king retired via the whiff line three players—Billy Gilbert, Harry Howell and Jack Cronin—each time they batted against him, each man coming up three times and each man going back three times.

Shaw, 18 years before that, had done about the same thing, the only difference between the two performances was that one of the three batters who was constantly on Dupe's strike-out pole came up four times. That batter was George (Uncle) Shaffer and his companions in misery were Jack Brennan and Milton Whitehead.

Eddie Wimler, Pittsburgh, won the newspaper decision over Patsy Canton, Pittsburgh, in six rounds. Wimler was defeated on points by Jack Perry, Pittsburgh, in ten rounds, according to a majority of the sport writers at the ring side.

Harry Greb, Pittsburgh, won the newspaper decision in his ten round bout with Bartley Madden, New York. They are light heavyweight. The sport writers gave the decision to Johnny Ray, Pittsburgh, right weight in his ten round go with Charles Dumm of Ambridge, Pa.

Jews are Grateful. Ottawa, May 2.—It is indeed a proud moment for Jewry when the Premier of the greatest daughter of the British Empire, Mrs. W. L. Mackenzie King, extends a welcome to the youngest child, not really a child, but a ward, not really a ward but a political organization within the limits of the British Empire. Thus spoke Dr. Chaim Weizmann, leader of the Zionist organization of the world at the luncheon given in his honor here this afternoon.

The luncheon was attended by His Excellency, the Duke of Devonshire, Premier Meighen, and more than one hundred prominent Jews of the city.

Sele's Boston flag winners, and it had no effect at all on the score, which, as told, was 1 to 0. Third baseman Gleason was the maroon who wended his way from plate to plate. He was first up in the sixth and dedicated that inning by striking out Lew Brown, the Boston catcher, accommodatingly muffed the third strike and Gleason got on. Dave Rose sacrificed him along and he counted on Shaw's wild pitch.

The St. Louis hurfer in this engagement was Henry Doyle and he managed to fan 11 men, making a total of the game of 29 possibly a major league record.

The first baseman of the losing team was Timothy Hayes Murnane later a well known baseball writer and president of the New England League, and the left fielder was a chap named McCarty. This left fielder is returning to last company shortly with the Superbas, being none other than Judge Tom McCarthy, once one of Boston's Heavenly Twins. The other H. T. was Hugh Duffy.

In the game in which Dupe's Shaw did have real hard luck the first baseman and the catchers only had 50 of the 64 points.

## STEEL WAGE CUT DID NOT BREAK NEW YORK TRADE

Market Had Discounted Company's Action So Little Change Resulted.

## STEEL COMMON IN A SLIGHT ADVANCE

Closed the Day at the Highest Figure Since First of Year.

New York, May 4.—The trend of today's stock market was somewhat disappointing to those who expected that dealings would be governed to a preponderating degree by the 20 per cent reduction in wages announced by the United States Steel Corporation after the close of yesterday's session. Steels and kindred issues were quite active and firm to strong at the outset, but yielded in prominence and strength later to various other stocks which derived their chief support from professional sources.

Although the steel wage cut had been clearly foreshadowed, it was popularly regarded as a constructive measure. Its significance, it was argued in many quarters, however, would have carried greater weight if attended by a downward revision of prices.

THE WEATHER

Toronto, May 4.—Pressure is lowest over the Middle Atlantic coast, and continues high over Manitoba and the Upper Lake region. The weather has been fair throughout the Dominion with the exception of a few light scattered showers in Alberta.

AROUND THE CITY

DOG LICENSES. Up to last night there had been taken out 38 dog licenses. Last year 1,124 were taken out.

HOSPITAL MATTERS. A meeting of the staff and board of hospital commissioners will be held this afternoon at the hospital at 415, when the matter of extension will be further considered.

TRADE INQUIRY. The secretary of the board of trade yesterday morning received a letter from a firm of exporters in Italy owning a pumice mine and asking for information regarding the pumice business in this locality.

HAVE ACCEPTED TENDER. The government has approved of the acceptance of the New Brunswick Contracting Company's tender for the construction of the hydro power house at Musquash. The price is somewhat in excess of \$70,000. This tender was the lowest of three submitted.

MUNICIPAL FINANCE COMMITTEE. The municipal finance committee will meet Friday afternoon at the office of the county secretary to consider several matters which are to be dealt with at the meeting of the municipal council on Tuesday next. Among them will be the proposed extensions to the General Public Hospital.

PREPARING FOR CENSUS. W. S. Clawson, who has been appointed commissioner for St. John, is preparing for the taking of the census which begins on June 1. He will have a staff of 32 for the city and the balance for the rest of the district. He expects an instructor from Ottawa about May 15, who will tour the province giving instructions to the commissioners.

DON'T WANT TO MOVE. The Anti-Tuberculosis Society, which has had rooms in the water and sewerage building, Carleton street, for some years free of rent, has been notified to vacate as the commissioner proposes to use the offices himself. Yesterday a delegation met the mayor and commissioner and asked that they be allowed to remain where they were.

WILL ASSIST PAGEANT. DeMonts Chapter I. O. D. E. at its monthly meeting yesterday morning decided to take part in a pageant to be held on Emory Day. Mrs. S. A. M. Skinner, the vice-regent, was in the chair. Mrs. W. J. Ambrose reported on the annual meeting held in Fredericton recently. A paper from the national chapter in Toronto on "Buying in Canada" was read. It was decided to hold a sale in the fall.

FREE LUNCH. Persons on Prince William Street last evening were amused while looking in a window where some excellent omelets, peas, barley and flax were exhibited setting forth the fine crop that is gathered in the West. Five tables were grouped on the top of the flax and oat bags enjoying a free lunch. The presence of a number of people looking in the window did not disturb them, they just proceeded to eat and grow fat.

FERRY REVENUE SMALLER. Another slight falling off in ferry revenues is noted in the superintendent's report for April, as compared with the same month last year. The figures are: Passengers 1920, 1921. Revenue \$3,767.60 \$3,543.53. Increase in passengers, 6,650; decrease in revenue, \$194.08.

RECEIVED FREE BAIT. A few days ago a few men went on a fishing trip. One of the party borrowed a pair of hip rubber boots from a friend so he could wade in the stream with the comfort of having dry feet. Arriving at the fishing grounds a delightful surprise awaited him. While trying to put his foot in one of the boots he found an obstruction. On investigation located a full bottle of gin. Needless to say this expensive boot resulted in a fair number of speckled beauties being captured. The owner of the boots no doubt took it for granted that no looking at home would ever think of peering into the bag of a boot for "Old John DeLoper."

Forty-Four Hour Week Situation

St. John Employers Refuse to Grant Printers' Demand in the Job Printing Offices.

While in many other towns and cities in Canada and the United States printers and pressmen are on strike for the forty-four hour week, the situation in St. John has not yet reached such an acute stage, although there is no knowing what the next few days may bring.

Put in Demand. In common with union members elsewhere, the members of the Typographical and Pressmen's Unions in this city put in their demand for the reduced time some weeks ago. This is the outcome of a vote taken by members of the International Union upwards of two years ago when conditions of employment were very different from what they are today.

Possible Agreement. Apparently the reduced time will not be granted in this city. Halifax has a strike on its hands, and many other Canadian cities are in the same condition, while others will be added to the list as fast as existing union contracts expire. In this city, however, there is a natural desire to avoid a break in the friendly relations which have for so long existed, and both sides are displaying a willingness to reach some basis of agreement.

Gaspereaux Fishing Absolute Failure. Speaking to The Standard last night one of the harbor fishermen stated that the 1921 gaspereaux fishing was an absolute failure, and the prospects look very bad for any success in the near future. The catch has been remarkably small, and the majority of men who have made a considerable outlay of money will be considerably at a financial loss.

Sea Dog Menace. Never in the history of the harbor has there been so many sea dogs as this season, and they are causing considerable damage to nets, as well as chasing the fish away. In one weir yesterday morning no less than three large dogs were found, while around the weirs were many others with the result that fishing, as far as the fishermen are concerned, was very meagre.

Good News. When informed by The Standard that fishing of shad would be allowed from May 16 to June 20 this year, the fisherman said that this was certainly good news, some shad are making appearance at the present time but are liberated, but some revenue will be received during the time allowed to catch these fish.

CAR DITCHED AND TWO MEN INJURED. While riding in an automobile which was travelling at a rapid rate of speed two men were quite badly injured last Tuesday night on the Golden Grove Road. The car left the road and went into the ditch. The men were thrown violently through the wind shield. One of them received a bad cut on the hip requiring about eight stitches to close the wound and two of his teeth were knocked out. His companion was also cut about the face from the broken glass, and severely bruised. The car was only slightly damaged.

DR. EMERY IN HOSPITAL. Dr. A. F. Emery who for a week has been suffering from blood poisoning in his hand was yesterday afternoon taken to the General Public Hospital.

W. S. Adams, general superintendent of the Simons Saw Company, Montreal, is in the city and is a guest at the Victoria Hotel.

Excellent News For Fishermen

Limited Amount of Shad Can be Caught from May 16 to June 20.

Last evening Hon. J. B. M. Baxter received a telegram from Hon. R. W. Wignior which certifies it is good news for the fishermen. The minister of Customs and Inland Revenue gives out the statement that it has been decided to allow fishermen to catch a limited amount of shad for this year from 16th May to 20th June both days included. For some time past shad fishing has been prohibited, but the people have been pressing so hard to have the privilege resumed that the department has granted the request.

Advances of City In Twenty Years. Tax Rate in 1900 Was \$1.53 Per Hundred; Last Year \$2.98—Valuations Doubled. In the last twenty years the city has made advances in many lines and in one at least the advance is very noticeable, that is the tax rate and amount collected. In 1900 the tax rate was \$1.53 per hundred dollars, last year it was \$2.98 and it is expected it will be about the same figure this year.

City May Lose Its Leading Pathologist. Neither Confirmation or Denial of Report Dr. Abramson Was to Leave St. John. There is a possibility that St. John and the Province of New Brunswick may soon lose the services of Dr. Abramson, Chief of Laboratories at the Public Hospital and Provincial Pathologist. Rumors were current yesterday that this noted specialist had tendered his resignation to accept a position in a laboratory at Des Moines, Iowa, (U. S. A.).

Westfield Country Club Annual Meeting—Great Activity Planned for This Season

At the annual meeting of the Westfield Country Club, held in the Board of Trade rooms last evening, very gratifying reports were heard. Those included reviews of the year's work by the president, the statements of the secretary-treasurer, auditors, golf committee and others. It appeared from all running expenses had been met, but a substantial balance of some four hundred dollars remained on hand, though the outlay during the present season will undoubtedly require additional funds.

Land Purchased. In the past few months the club has purchased a large tract of land adjoining the present golf course and are now employed in laying out the new course, which, when completed, will be among the finest in these eastern provinces. By Saturday of this week five holes will be ready for play, and work on the remainder of the course will be pushed along with all reasonable speed. This new land was secured by means of a bond issue, most of these bonds being taken up by members of the club. Yet, despite this liability, the balance sheet shows a credit of upwards of \$3,000 after all allowances are made for depreciation.

Minor Changes. At last evening's meeting several minor changes were made in the by-laws. Membership conditions will hereafter, to co-operation in the matter, permit the admission of non-residents to a total not exceeding seventy-five, and the age limit for junior members raised from sixteen to eighteen years.

NEW ADVERTISING STUNT. It is reported that an energetic Main Street grocer with the belief that it pays to advertise, expended a sum of money and had a number of circulars printed and delivered, showing prices of different articles that he had for sale in his store. Another grocer took advantage of the circular scheme without cost to himself. He procured a few of the said circulars, cut the grocer's name from the top and pasted the printed price list in his store window, thus saving himself the printing bill or the labor of making out a list.

TEAMSTER INJURED. George Kincaide, a teamster of 185 Brunsell street, received painful injuries while unloading lumber from the motor of Drury's lumber yard on Waterloo street at about 10 o'clock yesterday morning. A heavy piece of timber slid off the cart and fell on his leg. He was taken to the hospital for treatment where it was found that an X-Ray will be necessary before it can be definitely ascertained if the leg is broken or not.

NOVELTY SHOWER. A delightful surprise was given Miss Fay Johnson last evening when about twenty-five of her friends gathered at the home of Miss Helen Webb, 24 Adelaide Street and tendered her a novelty shower in honor of her approaching marriage. She was the recipient of many beautiful and useful gifts. The evening was pleasantly spent in music and games. A delectable luncheon was served by the hostess and the happy party broke up about midnight.

HAD ARM BROKEN. Robert Cohen, a young lad of 45 High street had the misfortune to break one of his arms yesterday afternoon. He was taken to the Hospital where the bone was set and was reported to be resting comfortably last night.

A HOUSE FURNISHING DEPARTMENT. Doing its best to serve you well at DYKEMAN'S, of course. Fancy Bordered Scrims. The attractive looking border shows stripes and imitation drawn work. Will give the utmost satisfaction when made into Curtains for bedrooms, Dining rooms or Sitting-rooms. It is 26 inches wide, in colors of White Cream or Ecru, 35 cents per yard.

FAIR VALE OUTING CLUB ASSEMBLY. Large Party of Members and Friends Opened Season With Enjoyable Dance Program. To take a peep into the quarters of the Fair Vale Outing Club last night one would naturally come to the conclusion that the festivities of the club had not ceased for the winter, but had been continued, but such was not the fact. Last night was the issuing of the season of 1921, and to say it was a grand success would be putting it mild.

NORWAY'S SEAMEN STRIKE. Christiania, Norway, May 4.—A strike of sailors and stokers, members of the seamen's union, has been called and will become effective May 5. The strike is the result of the refusal of the men by a referendum to accept wage reductions.

The Hudson Nuptial Gifts in Stately Silver. Of the wedding gifts most cherished, stately silverware, for the dining room or toilet table, is especially favored. Unusually rich in suggestion is our new season showing in which you'll find a wealth of the most pleasing designs in Tea and Coffee Services, Creams, Sugars, Coffee Pots, Coffee Percolators, Tea Pots, Bread Plates, Sandwich Plates, Spoon Trays, Vegetable Dishes, Entree Dishes, Trivets, Sauce Boats, Flower Vases, Epergans, Dinner, Dessert and Tea Cutlery, Candelabra, Candlesticks.

The Heart of a Refrigerator. The food compartments are the most vital, hence they are the "heart of a refrigerator." The enamelled compartments of the "La Favorite" make it so easy to clean, so easy to wipe out, no corners or cracks to fill up with particles of food. All parts are removable, and can thus be thoroughly cleaned and will last a lifetime. Call and see them or send for circular. Emerson & Fisher Ltd.
