1860.

BANK OF MONTREAL.

ANNUAL GENERAL MEETING.

Held June 4th. 1860.

BANK OF MONTREAL.

The annual meeting of the Shareholders of the Bank of Montreal was held at their Banking House, Place d'Armes, vesterday at one o'clock.

T. B. Anderson, Esq., Vice-President, occupied the chair.

Among the Shareholders present we noticed Sir George Simpson, the Hon. Mr. Crawford, the Hon Judge Gale, Mr. Sheriff Boston, Dep. Com. Gen. Lane, Dr. Campbell, Messrs. T. Ryan, Jas. Logan, W. Macrae, W. Molson, J. Redpath, H. Thomas Chas. Phillips, James Torrance, W. Murray, F. Griffin, Robt. Anderson, A. Clerk, B. Holmes, J. Dods, D. L. Macdougall, B. Hutchins, H. O. Andrews, John Smith, D. Torrance, W. Rae, L. H. Holton, T. Hart, Jas. Court, J. Crawford and others.

Moved by Deputy Commissary General Lane, seconded by Sheriff Boston:

That the following gentlemen be appointed to act as scrutineers :- Messrs. James Court, William Rae, and Alexander Clerk, and that Mr. Thomas Lee be the Secretary of this meeting.

Mr. ANDERSON in opening the proceedings, said that he had again this year to express his sincere regret at being called upon to fill that place, owing to the ill-health of the Hon. Mr. McGill. A regret in which he knew all the Shareholders would participate. (Hear.) With respect to the affairs of the Bank he need only refer them to the report of the Directors which Mr. Davidson was about to read. He could not congratulate them upon any extraordinary return of previous prosperous times, but upon a safe, carefully managed business, yielding the usual dividend without any deduction from the Rest.

Mr. DAVIDSON then read the following REPORT OF THE DIRECTORS TO

THE SHAREHOLDERS AT THEIR

the Directors have had occasion to advert prominently to the depressed state of the trade and business of the country as exerting an unfavorable influence upon its monetary institutions.

monetary institutions.

The Directors, in now presenting their Forty-second Annual Report, have to express, regret that they again might the shareholders under very similar circumstances, another-year 'haying passed without any marked'or general improvement having taken place in downercial affairs, while large and important sections of the Province continue to suffer from modetary embarrassment and inactivity in business.

embarrassment and inactivity in business.

The Agricultural and other products of
the country can alone afford the desired
relief, and it is a matter for congratulation
that there is no cause to deplore, as in previous years, a recurrence of a deficient
harvest. The crops gathered in last season
were, in most districts, much more productive, and all kinds of grain have found a
ready market at remunerating prices.

The Timbar trade was extensive and

The Timber trade was extensive and, upon the whole, successful, and from these and other sources the Province has, no doubt, been materially benefitted, although the such a degree as would indicate any rapid return to general prosperity.

difficulties, and open a wider and safer field for the employment of banking capital.

THE SHAREHOLDERS AT THEIR
FORTY-SECOND ANNUAL GENERAL MEETING, HELD 4TH
JUNE, 1860.
In several of the recent reports submitted
to the stockholders of the Bank of Montreal,
entire absence of imprudent speculation. The present year has not opened with

A large quantity of timber has been manufactured during the winter, and the markets of Great Britain and the United States are favourable for this important article of export.

The anxiety which was some weeks ago felt with regard to the Autumn Wheat has felt with regard to the Autumn Wheat has been very much removed; farming operations have been carried on with advantage during Spring, and the reporte received from various parts of the Province both as regards the quantity of wheat sown, and the present appearance of all the Cros, are very encouraging. Should the approaching harvest be even as productive as the last, the effect upon every branch of trade will be very beneficial.

A general statement of the position of the Bank at the close of the financial year, is submitted in the usual form, for the information of the shareholders.

The final payments upon the capital stock of the Bank have been made, thus completing the amount of \$6,000,000, (£1,500,000.)

ready market at remunerating prices.

The Timber trade was extensive and, upon the whole, successful, and from theen and other sources the Province has, not to the extent that was probably anticipated, or to such a degree as would indicate any rapid return to general prosperity.

The Directors have to report that the bineaus of the Bank, during the past year, had not to the extent that was probably anticipated, or to such a degree as would indicate any rapid return to general prosperity.

The transition from so wide-spread and protracted a state of depression to the full vigor of commercial activity, must necessarily be the work of time, but the Directors are encouraged to hope that a favourable change has already commenced in many parts of, the country. Abundant harvesta combined with economy in expenditure, and industry and enterprise in developing the resources of the Province.

\$12,718.43	:	12	12	£3,179 12 2	Profit and Loss Accounts The Net Profits of the year, after deducting all the expense of

The balance has been carried forward to the present year, together with the Rest of \$740,000. (£185,000.)

The above statement, the Directors feel confident, will be satisfactory to the Shareholders, and they hope that reviving commerce will, at no distant period, afford an opportunity of still more safely and profitably employing the resources of the Bank.

The Shareholders are no doubt aware that resolutions were recently introduced to the Legislature, by the Government, upon the subject of Currency and Banking.

Any changes affecting the monetary system of the country must, at all times, give rise to much anxiety, more especially if the principles upon which they may be based, have not received elsewhere the sanction of successful experience.

The Directors are therefore gratified that the proposed measure has not been pro-oceded with, and they entertain the hope that before the existing system is seriously disturbed, the whole subject, which is of such manifest importance to the welfare of the community, will receive the fullest investigation.

In moving the adoption of the report the Hon. Mr. CRAWFORD said, he thought the report just submitted was much more favorable than could have been expected seeing the hard times the country had just passed through. Eight per cent. was a good interest for one's money at any time. It was true that by withdrawing his money from the bank and lending it on

money from the bank and lending it on mortgages nearer home he could get the promise of ten per cent.—but the difficulty was to get it in. Eight per cent which they could have paid to them by the bank when they asked for it was better than ten per cent. with the chance of being com-pelled to call in the assistance of the sheriff. He hoped the hard times which had troubled them were about closed. The prospects of the country were bright-ening. Everewhere they heard of good crops growing up. In his neighborhood they had never seen them look so well. But he hoped that these hard times had But he hoped that these hard times had taught the directors of all the banks a lesson of caution which they would not lesson of caution which they would not forget when prosperous days came back. With regard to the measure introduced by the Finance Minister to establish an institution commonly known as the Bank of Issue, he had been prepared to oppose-that measure in his place in Parliament had it come up to the Legislative Council, and was much pleased when Mr. Galt consented to withdraw it. But he hoped that in the interval, before the next session, the Finance Minister and the officers of the several banks might come to an underseveral banks might be underseveral banks mig Finance Minister and the officers of the several banks might come to an understanding with reference to some measure which would be satisfactory to all parties and settle the banking system of the country upon an entirely satisfactory basis. One other topic mentioned in the report called for some comment. No man who knew the Hon. Mr. McGill would hear of his retirement from the Board and the knew the Hon. Mr. McGill would hear of his retirement from the Board and the cause of it without the most profound regret. For his part, he felt he was losing on the board as very true friend and a most catiful and accellent efficient of the Institution. He hoped the shareholders would not separate without some mark of their appreciation of his long and most valuable services. And before the resolution was put, he desired just to say one word about the filling up of the vacancy. He had had some conversation with some of his fellow shareholders, and he and they were of opinion that, so long as Mr. McGill filled the place they would never have spoken of a reduction of his allowance, it might yet be better that hereafter a mere chairman of the Board should be appointed with but a small allowance in addition to that made him for attendance at Board meetinge as a small allowance in addition to that made him for attendance at Board meetinge set that a man should be selected, not actively engaged in business.

The VICE-PERSIDENT said the views. in community, with the control of th

has occupied the position as President of the Bank.

The circumstances which have at length led to the retirement of their respected colleague, the Directors feel assured will call forth an expression of sympathy from the shareholders.

Moved by the Hon. G. Crawford, seconded by John Torrance, Esq.:

That the report of the Directors now read be adopted, and printed for distribution amongst the Stockholders.

In moving the adoption of the report the shareholder than the shareholder in the shareholder in the shareholder.

Moved by William McCrae, Esq., seconded by Chas. Phillips, Esq.:
