## DIG GAME

Parties Still Continue to  
Arrive and Depart

### PLENTY MOOSE

In the Woods, Mrs. Robinson  
and Miss Lunsbury  
Shoot Caribou.

There seems to be no let up in the number of parties who are coming to Newcastle and from here to the grand hunting territory at the head waters of the Miramichi. Every week sees several parties either going or coming.

Fred Chastant and Mrs. Ida Lottimer of Fredericton who were with Arthur Pringle in the Bald Mountain district returned last week with a caribou head each.

A party of Boston gentlemen went in on Saturday with Arthur Pringle and will remain for a week or two in the Bald Mountain district. Ed. Menzies has a party at North Branch, Main Northwest.

Among the local sportsmen and women who returned last week are Mrs. John Robinson, wife of the chief game warden, and Miss Lunsbury of Fredericton. They were in with Ed. Menzies and each shot a caribou. The head of Mr. Robinson's caribou was an exceptionally pretty one.

The ladies had a rough but novel experience, but stood the hardships well. They arrived home Sunday evening. Mr. Joseph Matheson the popular drug clerk at the Newcastle Drug store took a week off and went up to Messrs. Sinclair's camp on Big Shephouse Brook. Although not after big game he went armed with a license to kill and a light double barreled shot gun with ball cartridge. He had the luck to get close to a large moose and shot it. It is a beautiful head with a spread of about 50 inches. Joe is naturally proud of his achievement.

### COBURN--STEADMAN.

A wedding which has been of great interest to Portland society took place on Wednesday evening at the home of the bride's parents Mr. and Mrs. James Moreau Steadman on Pine street, when their eldest daughter, Annie Steadman, became the wife of Dr. D. W. Coburn. The ceremony being performed by the Rev. Dr. Haley in the presence of the immediate families.

The house throughout was beautifully decorated by Miss Steadman in the parlors yellow and white chrysanthemums, garlands of southern amaranth and potted plants were used with excellent effect. American Beauty roses gave color to the dining room. The bride, who is a slight dainty brunette, never looked more charming than when she entered the parlors on the arm of her father. Her gown was of point d'esprit over liberty and tulle silk and trimmed in real lace. The long tulle veil was worn of the face in a becoming manner. Her only ornament was a diamond brooch, the gift of the groom, and she carried a shower bouquet of lilies of the valley and orchids.

The maid of honor who is a younger sister of the bride, Miss Patty Steadman was girlishly pretty in a gown of white crepe and carried yellow chrysanthemums. The groom was accompanied by Dr. Howard T. Crawford of Boston as best man.

Following the ceremony a large reception was held from half past eight till ten. The bride and groom were assisted in receiving by Mr. and Mrs. Moreau Steadman, parents of the bride, and Mr. and Mrs. David Leach Coburn parents of the groom.

The ushers were Dr. Giles Grant, Mr. Howard Stevens, Mr. Edward Blossom of Portland and Dr. Richard Goss of Lewiston. A number of the bride's girl friends assisted in serving punch in the upper rooms. They were Miss Stone, Miss Bangs, Miss Kalor and Miss Pomeroy. Pooler catered. During the evening, the Zephyr Ladies' orchestra discoursed sweet music. The gifts were numerous and beautiful.

The bride's going away gown was blue broadcloth, tailor made and she wore a pearl gray hat. After an extended tour Dr. and Mrs. Coburn will be at home Thursday after January first at Congress street.—Portland Press.

Mr. Coburn is a nephew of Mrs. J. W. Miller and during a visit here a few years ago made host of friends who join in wishing the happy couple much joy in their matrimonial life.

### FROM THE CAPITAL.

Increase in Custom's Revenue.

OTTAWA, Oct. 31.—Canada's customs revenue increased for the four months of the present fiscal year by \$2,046,066 over the same time last year. The revenue for the four months ending to-day was \$14,457,060 and for the same time last year \$12,411,018. The increase for the month of October was \$1,258,617.

## NEW BRUNSWICK BETTER.

Worcester Sportsman Say Maine Hunting is Not in It.

After having come to Maine anxiously for the last ten years, E. C. A. Becker, of Worcester, one of the best known outdoor sportsmen in the province, who has hunted in the Acadia country, because of what he terms "the invariable law" did not shoot this year in the fall. Accompanied by E. M. Reed, of H. H. H. Co., Mr. Becker arrived in Bangor from New Brunswick Monday night. They brought with them a handsome moose, shot by Mr. Becker, two caribou, a fine buck and a big bear that measures seven feet.

"This is the first time in more than ten years that I haven't come to Maine during the big game season," he says. "I don't hunt here this year was because of the Maine law. It is not because I object to the payment of the \$1000 tax, but because I think that this new Maine system is entirely unfair."

Messrs. Becker and Reed are enthusiastic over New Brunswick. They went in from Doaktown and hunted in the vicinity of the Cabot river—a flat and easily traversed country which, they say, abounds in game of all kinds.

Mr. Becker got a handsome moose, the horns of which have a spread of 55 inches, with 25 points. This will be mounted by Cosby. Mr. Becker also got a caribou. Mr. Reed missed by the merest chance getting a big moose but he was satisfied with his trip, as he secured besides a caribou, an antelope and a fine buck in the velvet and the big seven-foot bear.

Last year Mr. Becker was accompanied by his son, E. C. A. Becker, Jr., a lad ten years of age, who distinguished himself by bringing down from Ketchikan's camp two deer and a moose, a remarkable record for a boy of his age.

While in New Brunswick Messrs. Becker and Reed were guided by William and Frank Russell, of Doaktown, and they speak in high terms of these woodsmen.

### NEW MINISTER INDUCTED AT MILLERTON.

Last Thursday evening, the Rev. J. G. A. Colquhoun, B. A., formerly of New Brunswick, Presbyterian of St. John, was inducted into the pastoral charge of Grace Church, Millerton, by the Presbytery of Miramichi—Rev. J. D. Murray of Beaubien, Moderator pro-tem—in the presence of a very large congregation.

The first part of the service was conducted by the Rev. Henry Arnold, of St. James Church, New Brunswick, who delivered a very thoughtful and impressive discourse on "Angels: A Man of Prayer." The singing in Grace Church is of a high order of excellence. The Millerton people have naturally fine voices, which combined with the tasteful playing of the organist at Grace Church, and Mrs. J. W. Miller's efficient aid, presents a blending of harmony rarely to be met with in our North Shore churches.

After service Rev. Mr. Colquhoun was called forward and the questions of the Formula, addressed to him by the Moderator.

They having been satisfactorily answered, he was duly inducted into the pastoral charge of Millerton, Derby and Chelmsford, and the right hand of fellowship extended to him by the ministers present. Rev. D. H. Brown, of St. Andrew's church, Chatham, then addressed the newly inducted minister, delivered the solemn charge of the Presbytery and welcomed Mr. Colquhoun to the Miramichi. The Rev. J. D. Murray appropriately addressed the people.

A solo beautifully rendered by Mrs. J. W. Miller, added very materially to the enjoyment of the service which was, throughout, intensely interesting.

Mr. Colquhoun enters upon his duties at Millerton under the most advantageous circumstances—with every prospect of a happy and successful ministry.

He was led to the door of the church on Thursday evening by the Moderator, and cordially welcomed by the people as they retired.

Among those present at the service was Mr. James Robinson, M. P., who had just returned from his parliamentary duties at Ottawa, that afternoon.

### TWO MEN KILLED

One Knocked to Bottom of Pit,  
Other Crushed to Death.

North Sydney, N. S., Nov. 2.—One of the most horrible accidents in the history of Cape Breton mining occurred at Dominion No. 2 on Saturday. John McDonald, Boulacarie, C. B., and Daniel McDonald, Hurler at Bouche, N. S. were the victims. The men were engaged working, each on a separate staving about 1,000 feet above the bankhead of the pit by which the miners descend and ascend. The cage, with its load of miners returning from work, had just reached the surface and discharged its passengers, when, without warning, the cage shot upwards, striking John McDonald's staving, capsizing it, and allowing the man to drop 1,000 feet, where his mangled body was afterwards found. Next, the cage struck Daniel McDonald's staving, tilted it sideways and crushed the man to death. Both victims were about 40 years of age. Both victims were married men with families.

## COLLISION.

Trains Wrecked near Riverside Park.

### FIFTEEN KILLED.

And Many Severely Injured.  
College Students Going  
to Play Football.

INDIANAPOLIS, Ind., Nov. 3.—A special train on the Chicago & Indiana Harbor line, carrying students of Purdue University, was wrecked today near Riverside Park at the edge of this city.

Fifteen dead were taken from the wreck and forty passengers were injured, twenty-four of them seriously.

At a gravel pit which near Eighteenth street, a switch engine with coal cars collided with the passenger. The passenger engine and first three coaches were totally destroyed. The first coach was crushed to splinters, the second telescoped and thrown down an embankment fifteen feet high while the third coach was thrown across the track.

The crash of the two trains threw the coal cars through the first two coaches, in which were many of the players and substitutes. An engine, two coal cars and two coaches were crushed into a confused mass of wreckage. Under this pile of debris were fifty or more students of the University.

The crash of the collision was heard for blocks. All the ambulances in the city dealt wages of various undertaking firms, patrol wagons and horse wagons of the fire department responded to the alarm.

The dead were taken away as fast as they could be taken from the wreck. All the young men killed were in the first coach. They were found lying mangled and bleeding with the injured pinned against them. The coach held about seventy persons. Several of the suffering fellows absolutely pleaded that their names be not published because of the anguish it would cause their mothers or fathers.

Three miles away twelve hundred cheerleaders had arrived on a special train from Bloomington, Ind., with the Indiana University eleven eager for the contest on the gridiron. They poured out of the train with a band playing and colors flying, to be met with the news of the tragedy of their rivals from Purdue.

Instantly the band ceased, the colors were lowered and hidden beneath their coats. Tears followed laughter, and college yells faded into mournful expressions of sincere, heartfelt sympathy.

In the first coach back of the engine was the Purdue football squad. Three players, the assistant coach, trainer and seven substitutes were killed, and every one of the fifty-three other persons in the car was either fatally or seriously injured.

### Editor's Mail.

THE BLAZE AT THE JAMES HOUSE.

To the Editor:

If your strictures on the mismanagement of the brigade at this small fire does not wake up some of the town fathers, the ratepayers, at the next council election, will no doubt attend to them. There was a shaking of the dry bones a few months ago, and the chances are that there will be a worse shaking up the next opportunity the people have to handle the ballots. Ballots are potent things when properly handled (that we saw at the Provincial election). We were led to expect that there would be a reduction in the insurance rates when the water system was installed; but with such exhibitions as you describe, it is doubtful if the insurance companies will listen to any such request. Keep pegging away, Mr. Editor, and ere long some of the members of the council will hear the alarm bell. It will be a rude awakening.

### RATEPAYER.

ST. ANDREW'S CHURCH.

The Festival of All Saints, the last one of the church's year, was fittingly and solemnly observed in St. Andrew's church on Sunday. The teachings of the Festival show the oneness of the church militant and the church triumphant in their closest intimacy of being; that to us it is given to fulfill the constant prayer of the church that their works may follow them. The day comes to us as a best hallowing of the past. It shows us that amid perplexities and quarrellings of the church on earth, the greater part of it is engaged in worship, in contemplation, in purification, awaiting the glorious reunion of soul and body that is yet to come. The threshold lesson which the Festival teaches is one of faith, of endurance and spiritual joy. The congregations at both services were excellent, that in the evening filling the church. Needless to say the choir did their part in their usual excellent manner. The anthem "What are These Arrayed in White Robes," sung during the offertory, was rendered with exquisite feeling and touching sweetness.

## The Union Advocate.

ESTABLISHED 1867.

NEWCASTLE, NOVEMBER 4, 1903.

## MUNICIPAL OWNERSHIP.

We do not believe that municipal ownership is the correct policy for any town which wishes to amount to anything, to adopt.

Not only should the town own its own electric light and water systems but there are many other enterprises which would be of more benefit to the community if taken charge of by the corporation and for the people.

Even the most skeptical will admit that the electric light and water systems, in the town of Newcastle even at this stage of development are making a grand showing and it is only a matter of time when they will be earning a revenue.

But yet their strength to be considered by the community who have charge of these matters. It is common talk that the rate, (15 cents per thousand watts, less 10 per cent) is too high, and that it should be reduced or a larger discount given for prompt payment. We would suggest the latter.

The advisability of wiring residences at a nominal charge or free should also be considered, as also should some system of flat rates for such places as desire lights for only a few months during the winter, and when \$10 worth of light would not be burned during that time. We have heard of one, such application when for personal reasons no rate could be obtained one of the members of the committee being strongly opposed to it. Perhaps this was right, but it is doubtful as the rate per month suggested was a reasonable one. This matter should be looked at from a purely business standpoint.

At present there are something over a hundred electric light connections. This is a fair showing but yet there are hundreds of places which should have the lights installed and if the matter was taken up properly and the right steps taken many more connections would be the result.

Although we would like to see every building in town installed electric lights yet we do not think it fair for the corporation to be an active competitor to the present owner of the gas plant. The owner of this plant is one of the town's heavy taxpayers and as such contributes largely to the treasury of the corporation. By an active competitor we mean endeavoring to induce the present users of gas to do away with it and use electric lights instead. Of course we all know that the private individual could very easily be driven out of the business by the corporation, but would this be fair if the town wishes a free hand why not endeavor to purchase the gas works and then either run it in connection with the electric lights or close it down if it would not pay. At the present time we understand it is paying good dividends and will likely continue to do as there are many places in which gas is more advantageous than electricity.

We trust the council will take up these matters at an early date.

## A FEW SUGGESTIONS.

There are a number of minor details in the workings and regulations of the water system which might be improved and upon which some action should be taken at once.

We all know that the severity of our winter is such that if water stands exposed to the air it will freeze in a very few seconds, and even in very well protected places water pipes have been known to freeze.

In this town many of the water connections are such that they cannot be sufficiently protected to prevent them from freezing and some provision should be made whereby the pipes could be drained of all water to a depth sufficiently underground to be clear of the frost. This can only be done by insisting that what is known as a stop and waste cock be placed as above on every connection. Has this been done? In a few cases when the party installing water knows sufficiently it has been done, but we know of many places without such protection at which the pipes will freeze at the first heavy frost unless the water is allowed to run.

In making connections with the mains when there is a street to cross much money could be saved by using galvanized iron pipe, with only a short length of lead pipe near the valve to protect it. The class of lead pipe used here is much more expensive than galvanized and in many towns galvanized is used as above described.

In placing the box valves care should be taken to place them so that the cap would come through the inside plank of the sidewalk so that when covered in winter they could be easily found if required. In the past they have been placed in almost any place from the outer edge of the sidewalk to the street line. This will be sure to make confusion. In the cities and other towns you can always find the valve caps in the pavement or sidewalks.

## THE PROFESSIONAL POLITICIAN.

It is becoming more and more evident that Canadian business men must lay aside their partisanship and study politics from the business standpoint only. The present long session at Ottawa was designed by professional politicians and grafters to scare business men out of Parliament. These wily individuals desire to keep the business men and independents at home so that the professionals will have entire control of the country's venues. They know that there are few business men who can afford to spend eight months of the year in Ottawa and that a few eight-month sessions will drive the business men out of Parliament. The attempt should be frustrated. This can only be done by business men using their influence with the newspapers and the electors to frown down this contemptible trickery. The majority of the next House should be business men pledged to shorter sessions—business

Don't forget the old man with the fish on his back.

For nearly thirty years he has been traveling around the world, and is still traveling, bringing health and comfort wherever he goes.

To the consumptive he brings the strength and flesh he so much needs.

To all weak and sickly children he gives rich and strengthening food.

To thin and pale persons he gives new firm flesh and rich red blood.

Children who first saw the old man with the fish are now grown up and have children of their own.

He stands for Scott's Emulsion of pure cod liver oil—a delightful food and a natural tonic for children, for old folks and for all who need flesh and strength.

SCOTT'S EMULSION, Chemists, Toronto, 50c. and \$1.00; all druggists.

## Ayer's

What are your friends saying about you? That your gray hair makes you look old? And yet, you are not forty! Postpone this looking old.

## Hair Vigor

Use Ayer's Hair Vigor and restore to your gray hair all the deep, dark, rich color of early life. Then be satisfied.

"Ayer's Hair Vigor restored the natural color to my gray hair, and I am greatly pleased. It will you claim for it?" Mrs. E. J. VANDERBILT, Mechanicville, N. Y.

10c a bottle. All druggists. J. C. AYER & CO., Lowell, Mass.

## Dark Hair

men of both Conservative and Liberal leanings. The battle must begin in the conventions. These will soon be held all over Canada, and now is the time to plan the reform. The professional politicians, men with no visible means of support, should be beaten in the conventions. Only thus can the House of Commons be kept wholesome and efficient. It is a duty which lies upon every merchant and manufacturer in the country.—Canadian Magazine.

## DOMINION ELECTIONS.

Will there or will there not be a general election before the next session of Parliament? The conservative leader, the conservative members of Parliament just from the capital, and the conservative press insist that an election is to come off within a few months, and for this reason the country is being flooded with campaign literature. On the liberal side there does not seem to be so much certainty of an early election, and there is no effort to awaken the country such as the opposition is making. The liberals are not so sure an election is impending. Indeed, the Toronto Globe's correspondent at Ottawa wired to his paper on Wednesday that he had "heard from a reliable source confirmation of the report that another session of the present parliament will be held. The general elections will be held, therefore, not be held until next summer." This is fairly definite, but of course it is not absolute.—Globe.

## LODGE ORGANIZED.

A Lodge of True Blues Organized at Blackville

Friday evening last the officers of Alexandra Lodge, True Blues, accompanied by D. D. G. Master H. Wyse went to Blackville and hoisted the British flag of True Blues. Over thirty ladies and gentlemen assembled in the hall at that place, which was beautifully decorated for the occasion, and were organized into Blackville Lodge, No. 201, True Blues.

After being initiated into the mysteries of the order all sat down to a hot supper prepared by the ladies of the lodge, which could not be surpassed anywhere. After all had partaken of the bountiful repast the meeting was called to order and the newly elected officers were called upon to address the meeting, which they did. Bro. Kethro of Newcastle lodge, favored the meeting with a recitation which was received with great applause.

The meeting closed by singing God Save the King and cheers for the new lodge and visiting brothers and sisters.

## ROADS AND BRIDGES.

Great Activity in the N. B. Public Works Department.

The fiscal year of the provincial government which closed on Oct. 31, has seen a great deal of work done by the department of public works, over which Hon. C. H. LaBelle presides as chief commissioner. There has been considerable lodge building done in the province, all proving very satisfactory. Also there have been a large number of bridges repaired and it is expected that under the new highway act great improvement to the roads of the province will be made.

Recently a number of public works contracts have been given out by Hon. Mr. LaBelle.

The contract for the erection of the structure of the stone and steel bridge at French Fort Cove has been awarded to C. E. Fish, ex-M. P. of Newcastle, also the contract for changing some highway more than 4,000 feet of the highway between the town of Newcastle and the

Cove. This latter work is for the improvement of business conditions and will be done under the supervision of the town council of Newcastle.

The contract for extensive repairs to Bathurst Basin bridge between Bathurst town and village, has been awarded to Albert E. Savage of Alma, Albert county. The repairs to be made to Arsenault bridge in Gloucester county will be done by Peter Quinlan, of Pokenouch.

Extensive road making has been done on the island of Miscou by the provincial department of public works during the past summer under the supervision of Albert Winkler, one of the large lobster packers of the island. Wharf accommodation has been secured for the island from the federal government by O. Turgeon, M. P., for Gloucester, and this, in conjunction with the road making, which Hon. C. H. LaBelle's department has carried on, will place the island in a very advantageous position.

## BORN.

At Brainerd, Minn., on October 17th, 1903 to Mr. and Mrs. M. W. Kitchin, a daughter.

## MARRIED.

At Blackville Sept. 30th by the Rev. D. Fraser Mr. Percy P. Baynton of Derby to Miss Susie M. Warren of Blackville.

PAGE

Page Woven Wire Fence

Owing to the variations of the Canadian climate, considerable allowance must be made in all fences for contraction and expansion, which makes an ordinary wire fence unserviceable, as when it expands it becomes so loose as to prove of little value. Note this: It is elastic and self-regulating. The Page Wire Fence is made of "Page" wire, which is twice as strong as ordinary wire. Prices are particularly low this season. 60,000 miles of Page fences now in use. We also make Gates, Ornamental Fences and Poultry Netting. The Page Wire Fence Co., Limited, Waterville, Ont.

## The Country. An Epitome of Events Gathered by ADVOCATE-Reporters

### DOAKTOWN.

DOAKTOWN, Oct. 30, 1903.—We are having some pretty cold weather here at present and the roads are beginning to freeze up.

The sportsmen are still bringing in their big game.

Mr. Becker of Worcester, Mass., and Mr. Morse of Hartford, Conn., guided by Wm. Russell and sons brought a moose, a caribou, a deer and a bear from Cain's River.

Cbas. Ginnin, John Hagerty and Cliff Bartlett of Boston, Mass., guided by Jas. McDonald and Chas. Beck brought a moose and two deer also from Cain's River.

Charles Mitchell is now threatening in Hazelton, Mr. Mitchell is a very obliging thresher and will top and thresh for a man no difference how little he has to do. A farmer that caught Chas. Mitchell to thresh thinks himself luckier than his neighbour who was less fortunate.

A lawsuit was held at the house of M. Hannan Esq., last Thursday between the King on complaint of Catherine Arbo vs. Joseph Dauphey. T. Parker represented the King and E. P. Williston looked after the interest of Mr. Dauphey. Mr. Williston put up a brave fight for his client but the evidence gave him no grounds of defence and the verdict was in favour of the King.

Miss Dora Swin who was called in to do the writing at the trial deserves some special credit for the lady like way she performed that critical duty. Mr. Menzie of Newcastle was one of the spectators.

### BATHURST.

As we grow older the approach of winter, and its consequent storms and bad weather becomes less welcome, this is particularly the case in a country place where we are practically confined to the narrow limits of the town for amusements. In the summer months there are pleasant drives into the country, which on the North Shore of New Brunswick is always charming, and those of us who are fond of such sport as fishing and hunting are constantly looking forward to a day's pleasure on the river or in the woods, but such amusements are shut off when the cold winter reaches us. The consideration of this brings us to the fact that here in Bathurst at the present time, our young people are thrown very much on their own resources to find amusement during the winter. Some few years ago when the winter was younger, we had a curling rink and also a skating rink, and the latter was always crowded with our young men and maidens while to the more adult of our young men, and many

of the older men even, the former furnished a splendid way of putting in a stormy afternoon or evening, as well as furnishing to all who loved the "Rising Game" a kind of exercise not to be despised. During a few dull years in the town the skating and curling rinks were allowed to languish and finally these sports were discontinued, but now that in Bathurst business seems comparatively good, and there appears to be considerable money in circulation we should think they might be revived. We are under the impression that if one with sufficient enterprise should start a subscription he would without much difficulty find sufficient funds to put up a combined skating and curling rink and that the investment would pay. We throw out the suggestion and will be glad to give it all the publicity possible for which we shall expect to receive the thanks of our young people if it is carried out. Will not someone take the matter up and carry it through.

The weather during the past few weeks is excellent for logging, and reports from all the lumbering operations seem to point to good work done. Large quantities of supplies are constantly leaving for the woods by portage teams, and by the appearance of some of the loads which the writer has seen the lumberman should have nothing to grumble at in the way of food. Looking at a cart loaded with fresh beef and other such supplies going from Messrs. Adams, Burns & Co's warehouse a few days ago, we could not but think that things have changed in that regard very much during the past thirty years. An old lumberman standing near at the time called the attention of several others to the nature of the provisions and remarked "I can remember when we never saw fresh beef in the camp from fall till spring, unless we were fortunate enough to kill a moose, and then we had to sleep in smoky camps, without a stove, and pay for every pound of tea we used." This was no doubt true. We have seen some of the old camps, with a hole in the roof to let out the smoke. Compare these with the comfortable camps of the present day and the fact that the men get all the food and that of the best they can consume, with nearly three times as much wages, and we think even our lumbermen will grant things are very much changed for the better.

Farmers we have interviewed, report a ready sale for all sorts of produce, hay, oats, poultry, butter, etc., in Bathurst at the present time, at fairly good prices and by the number of traders seen in town during the past week we should say business must be fairly brisk. We notice by a recent paper that during the past year a great quantity of fowl has been shipped from the southern part of the

## Liver Pills

That's what you need; something to cure your biliousness, and regulate your bowels. You need Ayer's Pills. Vegetable, gently laxative.

Want your moustache or beard a beautiful brown or rich black? Use BUCKINGHAM'S DYE.

provinces to England, from King's county alone 500,000 chickens or over. 1000 tons were shipped to London. This is an item that should interest our farmers, inasmuch as it shows them how chicken raising pays. Some weeks ago we mentioned the fact that the existence of horse, had become a great industry in the west, and we now mention that it has also been taken up by the King's county farmers, a large catch of horses having been made in Sussex, and that the farmers are getting tired of the grain, buckwheat, corn, etc., they can raise with profit, and resolve to devote the land to the raising of horses. Many parts of (King's county) are particularly adapted for raising such stock, and where there is a farmer and sufficient water, for his own use and for sale. There is nothing to be done here to prevent the raising of horses, and more than in any other part of the province. In the city of Windsor there has been an increase in the number of horse raisers, and it is not unlikely that the same will be true in the whole province in a year. We know of no two towns that would pay our North Shore farmers better than the cities of Montreal and Quebec, and they should follow the example of the horse raisers in the southern part of the Province and Prince Edward Island, which each season ship an immense quantity of both, and place this matter under serious attention.

We wrote by a recent interview with one of the members of the Government that the large amount of fur from the North Shore has been received by the Province for some time past. This is very encouraging and if the present system of protection is maintained this will in the course of a few years prove a very great source of revenue to the province. At Gloucester county, particularly that portion which is at the head of the Nasipiquet and other rivers is the best hunting country in the province and an effort should be made by our members to convince the Government that we are entitled to a portion of this revenue for the purpose of improving the roads leading to that portion of the country frequented by hunters and sportsmen. We are advised that splendid tracts of farming lands lie between Bathurst and the head of the Cabotus stream, where a fine settlement might be opened if a good road was provided, such a road would lead also to the hunting grounds and if proper representations were made to the Government, now that this source of revenue is active, much might be accomplished for the future of the county, which would bear fruit in keeping many of our young men at home, instead of having them seek homes elsewhere.

Speaking of protection and such matters we are informed by a gentleman belonging to Bathurst that when crossing the main Nasipiquet bridge a few days ago he noticed what appeared to be a net set at a short distance above the bridge. Coming to town he informed the fishery overseer who on proceeding to the spot found the net and confiscated it. Surely this is a strange thing, where are our fishery officers, and what was a net doing there at this season of the year? If it is left to a casual observer to find out such a flagrant violation of the law, fishery officers are not much use.

The death of Mrs. Dr. Hastings a daughter of the late A. R. Ferguson of Bathurst which recently occurred at her home in Vermont, was a great surprise and occasion of much grief among her friends in Bathurst. Mrs. Hastings spent several weeks during the past summer visiting her sister, Mrs. R. H. Lee Young of Carleton Place and other friends in Gloucester and though her health was not exactly good when she left home her friends had no thought or intimation that she was dangerously ill until they received a telegram informing them of her death. The remains were brought to Bathurst and interred in the Presbyterian graveyard in Bathurst tillage on Friday last.

The death occurred at Bathurst Basin on Thursday last of Thomas Melanson a very respectable farmer of this parish and a brother of Samuel Melanson Esq., Registrar of Deeds of the County. Mr. Melanson has been really dangerously ill, but a short time and his death was scarcely expected by his large circle of friends and relatives.

## CREAGHAN'S BARGAIN CENTRE.

We are this season better prepared than ever to supply the wants of the general public, having purchased very heavily from the manufacturers in all lines of Ladies' and Gentlemen's Furs, Jackets and Overcoats. Blankets and Quilts, etc., etc.

OPERA HOUSE BLOCK, BATHURST, N. B.

The People's Store, Bathurst

A new store just opened by

A. T. HINTON.

Thanking his numerous customers for their former patronage, we wish to announce to the general public, that he will keep in future, a complete assortment of Dry Goods, Groceries, Hardware, Boots and Shoes, Harness of all descriptions, etc.

He also sells the best farming implements on the market, representing the Frost & Wood Co., Ltd., Smith's Falls, Ont. A large quantity of Carriages and Sleighs always in stock at prices and terms to meet all competition.

Mr. W. J. La Plante, so well known by the public, is managing all his departments. Farm produce is taken in exchange for all kinds of merchandise.

Your business is solicited. Bathurst, N. B., August 25th, 1903.

4w

A rumor was current in Bathurst on Friday last that the victim of the stabbing affray at Pokemouche had succumbed to his injuries, but this has been since contradicted and it is now said the man will recover. The prisoner who is in the goal at Bathurst was brought up for examination before Superior Magistrate MacLaughlin last week and remanded for eight days.

The election of councilors at Bathurst passed off quietly Messrs Byrne and DesBrisay being declared elected by a considerable majority. In Beresford

parish the same two gentlemen who so well filled the position last term, Messrs. Roy and Melanson were re-elected, while with some changes such as the election of Mr. John Young, M. P. P. at Tracadie and Mr. Leque from the eastern part of the county came back to the Council Board for the ensuing term.

An estimable lady, Mrs. Samuel Smith of Tracadie died on Friday evening last. Mrs. Smith has suffered for nearly two years with a lingering illness which

she bore with great patience. A husband and several children mourn the loss of a good wife and mother.

Several Theatrical troupes are billed to appear in Bathurst during the next fortnight, among them the great and only Price Webster who comes to cheer the hearts of young people with positively new material.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is a boon to any home. It disinfects and cleans at the same time.

Union

## The WHIRL of the TOWN

The Advocate from now until Jan 1st, 1905 for \$1.00.

The regular monthly meeting of the Town Council should be held this evening.

Come in and see our display of plain and fancy stationery just opened. Special values in 10 and 25 cent lines.

The young people of St. James' congregation have organized a society to be known as the "Presbyterian Guild." The first meeting will be held next Monday evening.

The schooner Roma completed discharging coal on Saturday and proceeded to Lunenburg where she will load laths at E. Hutchinson's for New York.

The wholesale price of oil to dealers has advanced on three occasions of late. The advance is about two cents per gallon. Why use oil when you are shareholders in an electric light plant?

Hallowe'en passed off very quietly here. There were the usual number of parties, and the "small boy" was in evidence about the streets early in the evening. Everything was quiet at last.

The election of Councilors for the parish of Glenelg on Tuesday, Oct. 28, resulted in the defeat of the two former councillors. The poll was as follows:—R. A. Sweeney, 162; J. W. McNaughton, 162; W. V. Ullock, 72; J. Cameron, 60.

John McKane, who was defeated by Bill Gallacher for the Dominion house in the Yale-Carlton constituency, is now a running mate of Charles Schwab, of millionaire dollar salary steel trust fame. McKane and Schwab are partners in some wildcat at Tonopah, Nevada.—Times, Greenwood, B. C.

The members of Newcastle Division S. of T. gave a very pleasant Hallowe'en party last Thursday evening which was largely attended by members and friends. An excellent programme was rendered, candy and fruit were served. Altogether it was a most enjoyable evening and the committee in charge are to be congratulated on the success of their efforts.

The American and Canadian papers contain reports of curious magnetic disturbances throughout the world which crippled for a short time telephone and telegraph lines. This was not felt on the Miramichi, but very bright aurora borealis were observed Saturday night.

A horse owned by Messrs. D. & J. Ritchie driven by Martin Murphy was killed in a peculiar accident Monday morning. Murphy was engaged hauling slab wood in a cart to a house on the bank, near the mill. When ascending the hill the horse came to a stop, and then commenced to back and despite the efforts of the driver backed over the high bank, falling a distance of about twenty feet. The horse was instantly killed, and the cart broken to kindling wood.

Mr. Chas. E. Fish, who has been awarded the contract of making the new road from Glenelg to the new bridge over the Mill Cove has a crew of men at work and good progress is being made. We understand that some of the land owners endeavored to prevent Mr. Fish or his employees from entering their property, and that in one instance the law had to be resorted to. This situation is entirely unbecoming for, and offenders should not be leniently dealt with. The government is going to a large expense for the benefit of this town and all should endeavor to aid the project instead of hindering it.

We understand that Mr. Fish has the contract for the stonework of the new bridge.

READ STATEMENT FIRST CLASS TEETH \$10 SET

### Dental Notice.

Dr. Cates, Dentist, owing to the increased business at his home office will be obliged to visit his Newcastle branch office every three months beginning with September next 28th to last, also DECEMBER, MARCH, JULY, and SEPTEMBER, on the same dates. I will make a DISCOUNT OF 20 PER CENT ON ALL DENTAL WORK Set of teeth \$10.00 etc. Will pay patients to wait for first class dental work that has been tested and proven for the last twenty years on the Miramichi. Long experience and ample proofs warrant this statement. People want value for their money and this opportunity will not be neglected by those who know as I do not feel like leaving my patients for whom I have worked for so long. Above discount made to pay in part for waiting until I can visit them which will be often enough to give teeth proper attention.

Wash greasy dishes, pots or pans with Levee's and Scott's powder. It will move the grease with the greatest ease. 30

We have a large number of old papers, suitable for under carpets, 25 cts per 100.

A telegram was received here Monday announcing the sudden death in Michigan of Mr. David Whitney of Northesk. No particulars were given.

Mr. Whitney was expected to remove here where he had purchased a property and was to reside in future. The body is being brought here for interment.

Capt. McMurray, of the dredge Cape Breton was in town the other night. He began work in 8 ft. of water, about 500 feet off the face of the wharf, digging out a channel 12 or 14 ft. deep at low water. This is to be about twice as broad as the head of the pier is long, and to extend up the easterly side of the pier with a width of 42 ft. This will necessitate the removal of the remains of the old pier, about 300 tons of rock ballast. The dredge is working in very hard and rocky ground, and the water is too shallow for it to work to the best advantage. The job will not be completed this season. Work will be stopped about Nov. 15th.—World.

After a week's illness, Mrs. Wm Lockhart died at her home on Hill st. last Saturday. She was struck with paralysis the previous Saturday. Mrs. Lockhart was highly respected by all who knew her—a good neighbor, a valued friend, a consistent and active member of the church. In church circles she will be greatly missed. The W. F. M. S. of St. Andrew's Church, of which she was a member, sent a beautiful wreath and many similar expressions of sympathy with the family, testified to the esteem in which the good woman was held by friends and neighbors. The funeral on Monday was largely attended, and the services at the house and grave were conducted by Rev. D. Henderson. The choir of St. Andrew's rendered appropriate music at the house.—World.

### FOOT BALL

Great Interest Being Manifest in this Game.

This seems to be a foot ball year on the Miramichi and the past few weeks have seen some interesting games between the Chatham and Newcastle teams.

Thursday afternoon the senior teams of the above towns played a game in the Farrell field which resulted in a victory for the visitors.

The game was very interesting and Newcastle more than held its own in the first half, the score then being Newcastle 5, Chatham 0.

In the second half the lack of practice began to tell on the home team, and it was not long before Chatham scored and at the end of the last half the score stood Chatham 8 Newcastle 5.

On Saturday afternoon the junior teams played on the same field and Newcastle won easily. Score 8-5.

### S. S. CONVENTION.

In reference to the visit of the Field Secretary, the following is the series of Conventions and meetings as suggested by the Executive Committee of the County S. S. Association. It is hoped that the dates proposed may be convenient for the districts not yet heard from, so that the plan may be carried out with as little change as possible.

Nov. 10—Tues., Newcastle, two sessions.  
" 11—Wed., Tabernaclae, two sessions.  
" 12—Thurs., Church Point, "  
" 13—Fri., Loggieville, "  
" 14—Sun., Glenelg, one "  
" 15—Mon., Miller's, "  
" 16—Tues., Blackville, two "  
" 17—Wed., Doaktown, one "  
" 18—Thurs., Boiestown, one "  
" 19—Fri., Chatham, two "  
" 20—Sat., Chatham, two "

The sessions in Newcastle will be held in the Methodist church. A good programme is being drawn out by a committee appointed for that purpose.

Rev. Mr. Lucas is well known among the S. S. Workers of the county, and it is desirable that as many as possible may attend these meetings and carry back to their Sunday Schools the help received.

### A CLOSE CALL.

Two Restigouche Men Do Some Sharp Shooting.

Two young men of Campbellton were out moose hunting a short time ago and were fortunate in capturing their moose. On their return with the carcass of the moose on a wagon they started a caribou and immediately went in pursuit in the hope of

### Social & Personal

Mr. Michael and Miss Maggie Foran leave this morning for Fall River Mass. They are returning after a pleasant visit to their home at Hallowe'en. L. S. W.

C. W. Anslow of the Advocate is spending a week visiting the lumber camps on the Little Southwest Miramichi.

Mrs. E. Hutchison, Miss Hutchison and Miss Loudon returned Tuesday night, Oct. 27th from their trip through Nova Scotia.

Mrs. W. S. Moore entertained a number of her friends at a Hallowe'en party at her home Saturday evening.

Ald. M. S. Hocken and wife of Chatham spent Sunday with friends in town.

The many friends of Miss Dalton who is in a Montreal hospital will be pleased to learn that she is steadily improving and will be able to return home in the course of a few weeks.

Mrs. James Stables will receive her friends on the afternoons of Monday, Tuesday and Wednesday, Nov. 9th, 10th and 11th.

Mr. C. S. Clark Moncton, is in town in the interests of the York County Loan & Savings Co.

Mrs. Elliott, Mrs. Troy of Newcastle and Mrs. Pallen of Chatham went to Bellefleur last week to see their sister, Mrs. Hodgins who was seriously ill.

getting a shot, leaving the teamster in care of the team. At last after a great deal of skill they obtained the coveted opportunity and fired at the animal. The ball, which was one with a steel jacket, passed right through the caribou and struck one of the horses cutting a shot jarrow through his skin and then struck the other breaking a rib and glancing along between the ribs and skin and stopping near the hip.

The teamster, when he saw his horses stagger, took to the woods and hid behind a tree thinking that a new war had broken out, and he was right in the line of an infantry charge. After the hunters arrived where the team was they received quite a scare on not finding their driver and were afraid that he also had been shot. It was quite a while before he could be lured from cover. This is rather a sharp lesson to those who are not very careful of their direction when shooting or more thoughtfulness in the safety of others.

Relief from the pains and aches caused by decayed or imperfect teeth, can be had by placing yourself in our hands.

Remember this and call on  
Dr. C. B. Mcanus,  
Over Creaghan's store. Newcastle
