# NOMINATIONS IN CIVIC ELECTION

### Election for Mayor, Councillors

Two.

Tuesday was nomination day. Civic parties and despite the fact that the city is a Republican stronghold, two full tickets in the city were put forward, for mayor and for councilmen. The candidates for mayor were J. M. Moore, P. M. Smith, Maclean, Peterson, and councillor for Ward I were four candidates in the field.

The nominations were as follows:

For Mayor, A. A. McKee, Norman C. Jones.

For Councilmen, Ward I—W. H. Wallace, A. C. Bell-Johns.

Ward II—A. Fred MacLean, James M. Moore, P. M. Smith, Maclean, Peterson.

Ward III—John Bostert, J. J. Chambers.

Ward IV—Charles East, Lawrence Charles, Geo. G. Smith, Oscar Johnson.

For Mayor, J. M. Moore, P. M. Smith, Maclean, Peterson.

Lodge and Cunningham, of Ward I, will take places now vacant.

As usual about a fourth of the voters are absent from the polls because they are out of town.

INFORMATION

## Plea Made to Keep Labor Arbitrators Out of

Ottawa, Jan. 14.—In the discussion that arose yesterday afternoon, at the meeting of the Canadian Labourers' Association, over the report of the executive committee of 1920 some rather strong language was used in connection with the proposed increase, or what the speaker termed extreme action of the province of Ontario in connection with the Workmen's Compensation Bill.

When one speaker said the province proposed at next session to pay injury compensation at the rate of 70 per cent of salary or wage instead of 70 per cent as now, A. T. Clark termed the move "so utterly ridiculous" that he said "anybody should get together and take action."

Action was taken to commit a proposal pending before the Ontario Legislature to a committee of five members, because of the fire conditions. This was strongly opposed by a committee appointed to deal with matter.

F. McCrea, M. P., Sherbrooke

W. B. Snowball, Chatham, N.

He would have legislation if necessary to accomplish this.

### MEETING OF TOWN COUNCIL

O'Leary Matter Now Adjusted After Years of Misunderstanding.

A meeting of the Town Council was held last Thursday evening. His Worship Mayor Murray presiding. There were present Councillors Matthews, Shannon, Belle-Ile and Jamieson.

The minutes of the previous meeting were read and confirmed.

Wm. McIntyre wrote asking for a reduction of taxes. Referred to Assessment and Appeals Committee.

F. W. Holt C. E. submitting his account in full, \$676.30 for services, re water system. Referred to Water and Sewerage.

Dr. Brennan wrote notifying that he would hold town liable for any damage or depreciation to his property if Imperial Oil Co. erected proposed plant near his lot. This was placed on file.

A communication was read from Hon. W. E. Foster stating that the charge for pauper patients at the Provincial Hospital would be increased to \$2.50 per week.

On motion a committee was appointed to memorialize government that the Council was opposed to such increase.

W. H. Wallace and P. Dupuis also wrote protesting against erecting of Imperial Oil Company's tanks on the proposed site—Letter filed.

The lease from R. L. Duncan for ground for horse shed was submitted and was ordered signed after approval. Jas. H. Adams submitted an account for \$18.70 for commission on licenses collected. Referred to Police and License Committee.

Coun. Belle-Ile in the O'Leary matter moved the following resolution:

"That the Town Solicitor be authorized to accept Mr. W. J. O'Leary's offer and this guarantee as to future assessment be made only as far as the town has legal authority so to do and that the Town Solicitor be instructed to draw up necessary deeds with Mr. W. J. O'Leary concerning the transfer to the Town of all streets on the O'Leary property according to plans now on file at recording office at Dalhousie.

This motion was carried.

On motion of Coun. Matthews the Water and Sewerage Committee was authorized to install a water tank at or near Mr. Joseph Duncan's house on Roseberry Street.

On motion of Coun. Belle-Ile the Town Clerk was requested to write T. R. Buxton to have road from Cross Point to lower end of town bushed.

On motion of Coun. Belle-Ile the Water and Sewerage Committee were authorized to adjust amount of damages to Mr. Wallace's building on Union Street.

Coun. Belle-Ile spoke of the number of street lights which are out of repair, and moved that all be put in repair at once—Carried.

The Mayor and legal adviser were authorized to meet Mr. David Smith re his claim for damages and make settlement if possible.

The Council then adjourned.

LOBSTERS ASHORE.

Shippagan, Jan. 9.—The ice and harbors of this section of the coast are free from ice. In a recent northeasterly gale large quantities of lobsters were thrown up on the beach, indicating that the lobsters did not leave the shallow water for winter-quarters in deep water.

PAINS SO BAD  
STAYED IN BED

Young Mrs. Becroft Had  
Miserable Time Until She  
Took Lydia E. Pinkham's  
Vegetable Compound.

Hamilton, Ont.—"I have suffered for  
three years from a female trouble and  
consequent weakness, pain and irregu-  
larity which kept me in bed four or five  
days each month. I nearly went crazy  
with pain in my back, and for about a  
week at a time I could not do my work.  
I saw Lydia E. Pinkham's Vegetable  
Compound advertised in the Hamilton  
Spectator and I took it. Now I have no  
pain and am quite regular unless I over-  
work or stay on my feet from early  
morning until late at night. I keep  
house and do all my own work without  
any trouble. I have recommended the  
Compound to several friends."—Mrs.  
Emily Becroft, 289 Victoria Ave., N.  
Hamilton, Ontario.

For forty years women have been  
telling how Lydia E. Pinkham's Vege-  
table Compound has restored their  
health when suffering with female ills.  
This accounts for the enormous demand  
for it from coast to coast. If you are  
troubled with any ailment peculiar to  
women why don't you try Lydia E.  
Pinkham's Vegetable Compound? It is  
made from native roots and herbs and  
contains no narcotics or harmful drugs.  
For special advice women are asked to  
write the Lydia E. Pinkham Medicine  
Co., Lynn, Mass. The result of forty  
years experience is at your service.

GAME PRESERVE  
IN CANAAN COUNTRY

Movement on Foot to Increase  
Supply of Deer and Moose—  
Game Wardens Active.

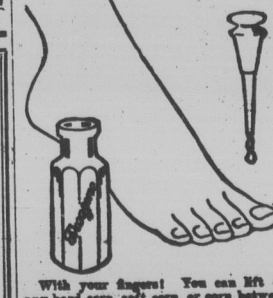

Moncton, Jan. 14.—A movement is  
on foot in this section of the province  
for the establishment of a game pre-  
serve particularly for the preservation  
of deer and moose. The land sug-  
gested for the preserve is a wild  
territory extending north of Nerves  
Brook to Canaan Station, to the origi-  
nal intercolonial railway line on the  
east side and the Canaan River on the  
west. The area would be about one  
hundred and fifty square miles admi-  
rably suited, it is said, to the propa-  
gation of game animals.  
Petitions asking the government to  
close this block of land to all settle-  
ment and to place in it an adequate  
staff of wardens to protect the deer  
and moose, are in circulation and have  
been widely signed. The overflow  
from the preserve would make game  
animals more numerous in the prov-  
ince, it is argued.

A considerable revenue flows into  
the coffers of New Brunswick each  
year because of the "good hunting" in  
her forests. In the season just over  
1275 moose were slaughtered in the  
province. This was about 125 less  
than in 1919. In 1920, 2,450 deer  
were killed, about the same number as  
in the previous season.

The game wardens have of late been  
very active, and there have been a  
large number of prosecutions for vi-  
olation of the law.

## Lift off Corns!

Doesn't hurt a bit and Pains  
costs only a few cents.

With your fingers! You can lift off  
any hard corn, soft corn, or corn between  
the toes, and the hard skin calluses from  
bottom of foot.  
A May bottle of "Painex" costs little  
at any drug store, supply a few drops  
under the corn or callus. Instantly it  
dissolves, then shortly you lift that  
annoying corn or callus right off, red  
and all, without one bit of pain or com-  
plaint. Truly! No humbug!

RESCUING A  
DYING RACE

Good News About the Bison—  
Canada Stops the  
Slaughter.

It has just been announced by the  
Canadian Government that there are  
now in Canada over five thousand  
head of bison.

This is a wonderful piece of news.  
For it means that an interesting and  
useful animal which, owing to wanton  
slaughter, was on the point of extinc-  
tion, is once more multiplying and be-  
coming one of the world's important  
animals.

Half a century ago millions of bison  
roamed the great prairies of North  
America. One herd alone was esti-  
mated to contain as many as four million  
animals, and to cover an area on the  
plains equal to over twelve hundred  
square miles.

It might well have seemed impos-  
sible then that such vast herds could  
ever be exterminated. But without le-  
gal restraints there is no limit to the  
wifil and wanton waste of wild life  
that men will bring about.

In an English Rose Garden.  
A million and a half were butchered  
to feed the builders of railways, and so  
vast were the stocks of bison left lying  
about on the plains that for years  
the Indians made a living by collecting  
the bones and selling them for arti-  
ficial manure. Many an English rose gar-  
den owed its beauty in past days to the  
pulverised bones of the one-time  
monarch of the prairies.

The world's stock of bison was re-  
duced to a few score pairs, and it  
seemed that by the nineteenth century  
the creature would be as extinct as  
the dodo.

Then men of science and lovers of  
Nature pleaded for the poor bison, and  
the governments of Canada and the  
United States were persuaded to pro-  
tect the creature and prevent its exter-  
mination.

Herd Of Five Thousand.  
They set aside large national parks  
in which they placed a few animals,  
leaving them free to live their natural  
lives and multiply unaided. Canada  
built a great fence 206 miles long to en-  
close the precious animals. The hundred  
bison existed in these preserves, while  
a few were kept in parks in other  
parts of the world.

Every encouragement was given to  
the animals, and while ten years ago  
the Canadian herd amounted to only  
700 it now numbers over 5,000. Per-  
haps the best assurance that the ani-  
mal will be allowed to go on multiplying  
is the fact that though their preserva-  
tion had its origin in sentiment it may  
now be classed as a distinct financial  
success. In other words, the Canadian  
Government has proved that it pays to  
protect the bison.

The authorities value the animals at  
\$300.00 apiece or \$150,000 in all; but  
this is a low estimate, for of the few  
that have recently been killed the  
mounted heads realise anything up to  
\$100.00, the skins \$125.00 each, and  
dried composites \$20.00 each—more  
than two shillings a pound.

Experiments are being carried out  
in the utilization of bison wool, and  
though there are difficulties in manu-  
facture, owing to the admixture of  
coarse hair, it is believed that the wool  
will prove a valuable product for car-  
pet-making.

When one remembers that in a little  
more than twenty years at the close of  
the nineteenth century over fifteen  
million bison were killed in North  
America the wonder is that any should  
be alive today to carry on their race.

The bison is an interesting and pic-  
turesque creature, and, although so  
fierce-looking, it is harmless. The  
world would be the poorer if such an  
animal were allowed to die out, and the  
Canadian Government's splendid  
example is well worthy of being fol-  
lowed in other countries where rare  
creatures are in danger.

Such animals as the bison are a part  
of the nature resources of the country.  
And, as President Roosevelt said not  
long before he died "No generation has  
the right to use more than the interest  
of any natural resource. It is the duty  
of a state to preserve the capital intact  
for succeeding generations."

distress at once.

Time it! In five minutes all stom-  
ach distress, due to acidity, will ge-  
nerally disappear. Indigestion, heartburn, sourness  
belching of gas or eructations of undi-  
gested food, no distress, bloating, flatu-  
lence or headache.  
Pape's Diapysin is noted for its  
speed in regulating upset stomachs.  
It is the surest, quickest stomach sweet-  
ener in the whole world, and besides it  
is harmless. Put an end to stomach  
distress at once by getting a large fifty-  
cent case of Pape's Diapysin from any  
drug store. You realize in five minutes  
how needless it is to suffer from indi-  
gestion, dyspepsia or any stomach dis-  
order caused by fermentation due to  
excessive acids in stomach.

Marquis & Company, Ltd.  
BIG STOCK-TAKING SALE!  
January 13th to January 20th.

WE start to take an inventory of our stock on January 20th and before  
beginning we have decided that we will hold a big stock-taking reduc-  
tion sale, at prices that will make the goods move and mean big savings to  
the purchasers. Remember, these prices are good for one week only. No  
samples—no goods on approval, and sold for cash only.

EXCESS PROFITS  
TO BE PROBED

Senate Committee Calls for  
Speedy Prosecution of  
Fuel Profiters.

Washington, Jan. 7.—The Senate  
Coal Committee to-day called upon the  
Department of Justice to begin pro-  
secution of coal profiteers, who, accord-  
ing to Senator Kenyon of Iowa, have  
overcharged the War Department \$5-  
500,000 and "robbed the American  
people of hundreds of millions of dol-  
lars."

Announcement of the committee's  
action was made in the Senate to-day  
by Senator Calder of New York,  
Chairman, in the course of a debate  
in which Senators took turns denoun-  
cing the coal men whose activities have  
been brought to light in the pending  
investigation.

## Prosecutions at Once.

"We have sent information concern-  
ing the recent revelation to the De-  
partment of Justice and having sug-  
gested that prosecutions be begun at  
once," said Senator Calder. He add-  
ed that the committee would move  
within a week to lay measures before  
the Senate to deal with the coal in-  
quiry.

Debate over the coal question be-  
gan when Senator Smoot of Utah re-  
quested the committee to investigate  
why anthracite coal is selling at \$15.80  
a ton in the District of Columbia.  
Senator Calder promised to turn the  
committee's attention to this subject.

## Excess Profit Paid.

Senator Kenyon gave a brief re-  
sumé of what the committee has un-  
derstood about coal prices. He stated  
that the War Department purchased

765,000 tons for current use for \$5-  
447,000, and 150,000 tons additional  
for average at \$1,300,000. He de-  
clared the figures of the National Coal  
Association showed the \$2.82 at the  
mine was a fair price for coal during  
the first nine months of 1920. Add-  
ing 50 cents a ton as a fair profit for  
the operator, he declared that \$3.32  
would have been a reasonable average  
price for coal at the mines. Calculat-  
ing from this basis, he declared that  
the War Department had paid in excess  
profit \$5,600,000 on its coal purchases.

## Hundreds of Millions.

"If the whole American people have  
been robbed on coal as the Govern-  
ment has been robbed the aggregate  
of the robbery will run into the hun-  
dreds of millions of dollars," said  
Senator Kenyon.

WHEN YOU DECIDE  
to purchase a diamond ring,  
you should patronize

A JEWELER  
on whom you can absolutely  
rely. We invite you to come  
in and see our stock and to

**MASTER MASON**

PLUS SMOKING TOBACCO

It's the characteristic fragrant aroma of MASTER MASON that has made it so popular with discriminating smokers. But it has other qualities: it burns longer, holds its fire better and is sweeter than most pipe tobaccos.

Smoke Master Mason  
It's good tobacco

MASTER MASON—ready rubbed—for those who like it that way in the same good plug tobacco cut and rubbed ready for the pipe. It is put up in tin tins and paper packages.

**FRIENDS ADVICE  
MADE MAN OF HIM**

Was Just About all in when They Urged Him to Try Tanlac—Now Feels Like Old Self.

"I'm only too glad to tell you what I think about Tanlac." This is the fourth bottle I have bought and it wasn't doing me good I wouldn't be wasting my time on it," said Charles Noel, of 31 Meadow St., St. John, N.B.

"When I returned from overseas my digestion was so upset I couldn't eat a thing scarcely without suffering the worst kind of distress and pain afterwards. After every meal I had a heavy feeling like I had swallowed a lump of lead, and my food would soon and blast me up till I was in perfect misery. I also had such pains in the back I could hardly get around, and could sleep so little on this account I often heard the clock strike every hour of the night. I was tired and wearied all the time and in fact became so run down I was just about all in when I started on Tanlac.

"When my friends saw what a terrible shape I was in they urged me to try Tanlac, and it has made a new man of me. By the time I had taken two bottles my stomach was in fine condition and I could eat anything I wanted and never suffer the least ill effects. I have gained ten pounds in weight and am so much stronger I can do as much work in one day as I used to be able to do in two. I am no longer bothered with pains in the back, I sleep like a log all night and get up in the mornings feeling ready for a good day's work." TANLAC is sold in Campbellton by, THOMAS WRAN.

**McINTOSH BROS. ASSIGN**  
Bathurst, Jan. 14.—McIntosh Brothers, lumbermen and planing mill owners, one of the most important industries in Bathurst and West Bathurst, have made an assignment for the benefit of creditors to the official assignee. Insufficient capital and too rapid expansion are given as the cause of the embarrassment. Slow collections and a dull lumber market also contributed to the financial difficulties of the firm.

The liabilities are estimated at \$60,000 and the assets at \$40,000.

**A Quick Relief  
for Headache**

A headache is frequently caused by badly digested food; the gases and acids resulting therefrom are absorbed by the blood which in turn irritates the nerves and causes painful symptoms called headache, neuralgia, rheumatism, etc. 15 to 20 drops of Mother Selge's Syrup will correct faulty digestion and afford relief.

**CHAPPED HANDS,  
FROST BITE,  
COLD SORES.**

**Zam-Buk**

WINTER weather means rough, blotchy faces, chapped hands, cracked lips, chilblains and cold sores. Besides these being painful and disagreeable, there is a danger that disease germs or dirt particles may get into the broken skin and set up eczema, scurvy, or even blood-poison.

The only safe policy is to apply Zam-Buk whose rich herbal essences sink into the pores and exert their soothing, healing and antiseptic influence on the affected tissues.

Zam-Buk is ideal as a winter skin dressing. Unlike fatty ointments Zam-Buk suits the tenderest skin, and it never fails to restore a soft, smooth and healthy condition. For the most delicate of hands, face and cuts, for dealing with any winter skin trouble, Zam-Buk is the price by itself. Get a 6c. box to-day.

**FREE TRIAL SAMPLE**  
Type name and address on card, for sample, for 6c. box to-day.

**YOUR GROCER IS  
NOT A PROFITEER**

He is Passing Along to the Consumer the Reduced Prices.

Have a heart! Your grocer is not a profiteer! He is passing along to you reduced prices, as fast or faster than they come to him. Just because prices on many good things are still high, don't blame him. It is generally the poorest quality of everything that shows the greatest decline.

If he is as good a man as the average, your grocer is still doing his utmost to give you the best value for your money. Don't push him to hard. He is only human.

You don't know, but we do, that he is recommending goods that pay him less profit than other well known brands which he might easily persuade his customers to take if he cared to do so.

We know this because he pays us more for Red Rose Tea and sells it at less profit than other teas, so when he recommends you to buy Red Rose Tea, you will know it is because he believes it is the best and is willing to take a little less profit for the sake of giving you the best value he can.

We are publishing this because we believe the more our people know of the true facts concerning the profits made by those they deal with, the more generous they will be in their judgments.—T. H. Estabrooks Co., Ltd., St. John, N. B.

**WRITERS POKE FUN  
AT FATHER OF 34**

"I'm a Lucky Guy," Wrote The Parent of Eight, Children in Ohio.

Raleigh, N. C., Jan. 11.—Since wide publicity was given to the fact that Reuben Bland of Robertsonville was the proud father of 34 children, Mr. and Mrs. Bland have been swamped with letters from all over the United States and Canada.

The letters are both from women and men. A man in Ohio wrote: "I read the story about your large family aloud to my wife. There's a man who ought to be given a medal, I told her. There's a man who ought to be hanged," she retorted.

A writer in Oregon sent this: "Reuben, Reuben, I am thinking you are quite a nifty man. To your health I am drinking. You have done what few men can." From Navarro, O., Mr. Bland received this: "I am the father of eight children and I have an awful time keeping them in food and clothing. I've worried a lot, but since reading about your large family I realize that I'm a lucky guy."

**GIVE 'SYRUP OF FIGS'  
TO CONSTIPATED CHILD**

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! It coated, your little one's stomach, liver and bowels need cleansing at once. When parents, or babies, don't sleep, eat or act naturally, or if feverish, stomach sour, breath bad; has sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the food, constipated waste, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, pleasant child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

**MARK TWAIN'S DREAMS.**

Author Was Strongly Impressed by Them.

"Mark Twain had three recurrent dreams," says Mr. Van Wyck Brooks in his new book entitled "The Ordeal of Mark Twain," "one of them long and without significance, but the other two of the most suggestive kind. There is never a month passes, he wrote, that I do not dream of being in reduced circumstances, and obliged to go back to the river to earn a living. It is never a pleasant dream, either. I love to think about those days; but there's always something sickening about the thought that I have been obliged to go back to them; and usually in my dream I am just about to start into a black shadow without being able to tell whether it is Selma, Buff, or Hat Island, or only a black wall of night.

"Another dream that I have of that kind is being compelled to go back to the lecture platform. I hate that dream worse than the other. In it I am always getting up before an audience with nothing to say, trying to be funny; trying to make the audience laugh, realizing that I am only making silly jokes. Then the audience realises it, and pretty soon they commence to get up and leave. That dream always ends by my standing there in the semi-darkness talking to an empty house."

"I leave my readers to expound these dreams according to the formulas that please them best," says Mr. Brooks. "I wish to note only two or three points. Mark Twain is obsessed with the idea of going back to the river. I love to think about those days. But there is something sickening in the thought of returning to them, too, and that is because of the 'black shadow,' the 'black wall of night' into which he, the pilot, sees himself inevitably steering. That is a precise image of his life; the second dream is its natural complement. On the lecture platform his prevailing self had 'revolted' in its triumph, and he says, 'I hate that dream worse than the other.' Had he ever wished to be a humorist? If he had, he would not have made the audience laugh, the horror of it is that he has lost, in his nightmare, the approval for which he had made his great surrender."

**Verbena a Sacred Plant.**

The verbena plant was held in the greatest veneration by the ancient Romans, who believed that a few leaves of it worn on the person would protect against injury, and Roman brides who gathered and wore a wreath of verbena were considered fortunate.

The plant came by its name from an old Roman custom. Whenever a dispute was had with another nation an official called verbenarius was sent to discuss it with the offending country. This official wore a wreath of verbena. If war was decided upon an iron-tipped spear with a sprig of verbena tied to it was shot into enemy territory as a declaration of war.

The Druids dedicated the verbena to their priestesses, gathering it at the full moon. No one was allowed to touch it with the hands. It was supported by being tied to the foot of a young girl. Hungarian gypsies believe that it is a magic plant in the palm of the hand and a tiny piece of verbena leaf is placed in it and the wound allowed to heal over the person will be able to open all locks with a single touch.

**Rectifying an Error.**

A well-known traveler once related his American experience apropos the "extras" made by some of the New York tramway car conductors. The conductor, he said, all carried a registering machine on their breasts, and for every fare collected they were supposed to pull down the bell, and thus register not only the actual receipts, but the number of passengers carried per journey. One day an inspector jumped on a car and inquired of a new conductor, who had only been on duty three days, "How are you getting on?" "Fine, sir," replied the conductor, a young man who hailed from Glasgow. "So I think," dryly remarked the inspector. "I see you've only registered eight fares since starting your journey, and there are fifteen people on the car." "Is that so?" was the cool reply. "We'll soon make that right." Then, looking inside the car, he shouted out, "Here, you chaps in there, seven o' ye have as paid yer fares, an' it's hae to get off."

**Can Such Things Be?**

With a wild shriek the rain dashed through the country station without pausing.

"I say, porter," cried a startled passenger, waiting at the station, "isn't that the 4.15 to Newton? Why didn't it stop here?"

The porter shook his head.

"It don't stop here now, sir," he explained. "The lady engine driver has quarrelled with our station mistress."

**Why hens never lay half an egg!**

The usual method of feeding poultry grain, makes yolks but not enough whites to complete the eggs. The hen cannot lay these half-made eggs, she absorbs them back into her system. Purina's Experiment Station tests showed that 100 lbs. of wheat, corn, oats, barley and kaffir corn make (above bodily maintenance) an average of 1 1/4 pullets lay only 154 whites. Based on data from the same experiments, Purina formulas produce (above bodily maintenance) as follows:

Purina Scratch Feed	217.10	yolks	142.11	whites
Purina Chicken Chowder	182.05	"	262.55	"
Combined Ration	400.00	yolks	404.66	whites

Note the perfect balance of yolks and whites and the large number of each. This combination of Purina Feeds makes the maximum number of eggs—above maintenance—of each hen will lay. That's why we can absolutely guarantee 4 made eggs or money back on Purina Chicken Chowder if fed with Purina Scratch Feed as directed. You take no risk.

**Strengthen Your  
Business "Morale"**

Soldiers know what it means when an army's "morale" is shattered.

The fighting spirit is gone, the men invite defeat. What is true of military forces is true of some industrial armies.

At the first serious jolt their morale weakens—hope flies, courage disappears—their fighting spirit is lost. There is no place in business today for the "calamity howler." He is drawing salary or wages under false pretences. More distressing still, he is weakening the "morale" of other workers, and of the business itself.

Strengthen your business morale.

Take stock of your men as well as your goods.

Venture into new fields for business.

Trade and Prosperity are interdependent. The sooner Capital, Labor and Management realize this the quicker will conditions improve.
