THE WAR SITUATION. §

The scene of war has shifted from Port Arthur to Vladivostock. The Japs have bombarded the city, although how many times is not certain, the reports from the spot being of very contradictory nature. In some quarters it is supposed the maneuvering of the Jap fleets the Mikado's troops, the intention being to surround the fortress. Nothing definite is known of the Russian fleet, which may be at Possiet Bay supporting operations of infantry. Port Arthur is still securely blockaded by a Japanese squadron. A startling report comes by way of Vienna that the Czar has intimated to King Edward that mediation or ar- 8 bitration may be utilized to settle the dispute between the two powers. Premier Balfour has stated that the British Government is looking into the

THE ABANDONMENT OF YIN KOW

Cossacks Adopting Boer Tactics-Mikado Cuts Out Luxuries-General War Notes.

London, Tuesday, March 8. - Cabling from Ping Yang, Korea, under date of March 6, a correspondent of the Daily Mail says that 2,000 Russian cavalrymen, with seven guns, retreated last Wednesday through Kusong and Son-chon towards Wiju. They destroyed the telegraph lines.

LEAVING YIN KOW.

A Yin Kow dispatch, dated Monday, says: The Russo-Chinese ank sent its books to Tien Tsin today. The purchase by the Russians of ten lighters is supposed to be for the purpose of blocking the channel of the Liao River when the ice goes out and after the foreign gunboats have left.

SAME OLD BOMBARDMENT.

A St. Petersburg correspondent of the Standard gives a rumor that the Czar has received a telegram to the effect that the Japanese fleet bombarded Vladivostock all day Monday. Only trifling damage was inflicted, accord-ing to this rumor but once the Land ng to this rumor, but one or two Japanese cruisers were sunk. Although there is nothing to show that there was not another bombardment of Vladivostock on Monday, this report is most likely an exaggerated version of Sunday's bombardment.

NO MORE LUXURIES.

Dispatches from Tokio speak of sacrifices being made by the Japanese nation. According to the Daily Chronicle's correspondent at Tokio the Mikado is abandoning all luxuries and the court is abandoning his example. The Kobe corrrespondent of the Daily Express says the Crown Prince of Japan and Prince Arizugava are going to the seat of war. Other dispatches say that public and private concerns are all curtailing their expenses in order to aid the Government. FOLLOW BOER TACTICS.

RAILROAD INADEQUATE.

Paris, March 7.-Representatives here States, who have been supplying extensive equipments to Russia, are receiving reports from their agents in Russia and the far east, giving the extent of the war operations and referring to their probable effect upon business. One of these reports, from an American railroad official at St. Petersburg, having ntimate Government connection, says it is the purpose to restrict Russia's military forces for the present to five divi-sions—three from Siberia and two from Western Russia, each division to num-ber between 25,000 and 30,000 men. Owing to this being such a small percentage of the total active force, it is believed that the restriction results from the inadequacy of the Trans-Siberian Railroad to carry more men to the scene of

BALFOUR'S DENIAL

ays He Did Not Jockey to Oust the Cabinet Members.

London, March 8. - Premier Balfour the House of Commons yesterday ermed as baseless the charge that he ad jockeyed men out of the cabinet by keeping Mr. Chamberlain's resigna-

week's engagement at the Grand Opera House last night, and a crowded house greeted the favorite repertoire company. The play was "Devil's Island," which hinges on episodes in the life of the famous Capt. Dreyfus, the French army officer, who was dis-honored by the French Government, sent a prisoner to Devil's Island, and was finally vindicated, after certain facts had come to light which showed that he had been the victim of a con spiracy. The company is a first-class one, and the scenery is very fine. To Miss Bertine Robison was intrusted the leading role, and she acquitted herself cleverly. Between the acts excel-lent specialties are put on and there were no tiresome waits. Tonight "The

Dangers of Paris" will be produced a

The Changes In the Scheme. It is gratifying to know that the

scheme stands in its integrity.-London Advertiser. Such is the statement made by a respectable Liberal paper about the amended agreement between the Do-Trunk Pacific syndicate. Similar intimations are made by a number of other Liberal papers. They are, as a rule, accompanied by such carefully manipulated versions of the changes the original agreement. The Govern-from the old agreement that the readment extends its credit a little further ers of these papers are likely to be unable to understand what the changes are. That is party journal-We must say it is a more discreditable and depressing sample than is usual.-Ottawa Journal.

The changes in the agreement were fully and frankly set forth in these columns, and we adhere to the statement that in its main outlines the scheme is intact. Here is the Journal's own carefully manipulated version of the principal changes:

1. Three years' additional time for the syndicate to build the road. 2. Government liability for millions more money in cost.

3. Government relinquishment of the right to foreclose on the road should the company default on its bonds. 4. Increase to five years from three of the period after default in which the Government shall not act at all. 5. Fifty years of additional running rights for the Grand Trunk on the

Government-owned portion of the 6. Agreement by the Government at the end of the first 50 years to buy all branch lines the G. T. R. does not

7. Abandonment by Government of the stipulation that the Grand Trunk should keep the common stock in 'ts own hands.

8. Relinquishment of the Government stipulation that the \$5,000,000 deposit of the syndicate shall be in

There is nothing in paragraph one to cause alarm. It is probable the company will begin the construction just as early as if the extension had not been granted. The road must be completed in eight years from Dec. 30 last; and long before that the prairie section, which is the section most urgently needed, will be in operation.

In speaking to this Dr. Barr said sections, that there were too many saloons. It was a notorious fact that, licenses were granted to places which were really saloens. Probably many of these places possessed the accommodation demanded by law, although they supplied the public with neither bed nor board and these places probably

sold more liquor than all the bona-fide hotels combined. If the Province was to have saloons they should be licensed as such, but the provisions of the law should be rigidly enforced. Another abuse was that in Ontario licenses had come to be considered as other at will. The result was the purchasers considered that they owned a franchise which it would be a hard-

This is the purest, sweetest, most speedy, permanent and economical treatment for torturing, disfiguring, itching, burning, bleeding, scaly, crusted and pimply skin and scalp humours, with loss of hair, of infants and children, as well as adults, and is sure to succeed when all other remedies

and the best physicians fail. The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in acne and ringworm; the swful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum, -all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures and humour remedies of the civilized world.

Yes, sir, this medicine is taken in air.

Thousands of cured ones testify that the only certain cure for Catarrh, Bronchitis or Asthma, is the well-known and well-tested Catarrhozone treatment.

> the diseased tissues by the air you breathe. This is how it works. Dosing for lung trouble is now discarded

Little Drops of Healing, it is, carried to

by progressive medical men. Catarrhozone has gained its remarkable and unfailing success because it is sure to cure, no matter of how long-standing is the diseased condition.

Is it not rational to apply medicine where the disease exists? How can you put ointments or washes or sprays iato the lungs? You would choke. The lungs were made for air. Catarrhozone treatment harnesses the air to be a bearer of healing. This explains why it relieves at once and completely cures.

****** STOCK MARKETS. H. C. Becher, broker, Bank of Com-nerce building, received the following by private wire from Bartlett, Frazier & Carrington today: New York, March 8-Noon,-While the market has been comparatively narrow during the forenoon session, the tone has been relatively a good one, and the net results have been generally satisfactory. The high prices of the first hour have not been maintained in every case, but prices above yesterday's closing in a number of issues. There is not much activity, trading being even less than yesterday. The traction stocks were very strong and Brooklyn Rapid Transit and Manhattan had an advance of a point. Part of this was lost, however, some of e buying of the tractions was good, and there was asemblance of activity and much bullish gossip. There was an early advance in Wabash, preferred, due, pos sibly to the announcement that a large block of that stock had been taken over by the Missouri Pacific, in addition to its former holdings. There was some activity in Southern Railway, and buying was said to be for good interests. Sugar was comparatively dull. London did very little, but a selling movement developed in Pennsylvania, which was attributed to a rumor that the company would issue \$20,000,000 car trust certificates in the immediate future. This rumor could not be verified. Sales to noon were 150,000 shares.

The increase in surplus is

633 46, and on Government standard \$878,466. The increase in surplus is \$117.483 22. During the year the demand for money was active, and the funds were fully invested, at a somewhat better rate of interest, and in a class of securities entirely outside anything of a hazardous or speculative character. The payments on principal and interest were unusually well met, there being only \$5,998 overdue interest at the close of the year, most of which has since

been paid. The executive committee examined all the securities and compared them with the records, all of which were found correct, and in accordance with the statement herewith submitted. The manager, officers and staff continue to discharge their respective duties to the satisfaction of the boar 1. You will be called upon to elect four directors, in the place of the Hon.

Mr. Justice Britton, Francis C. Bruce, M.P., J. Kerr Fisken and George A. Somerville, whose term of office has expired, but all of whom are eligible for ROBERT MELVIN, President. On behalf of the board,
