

## AUSTRIANS ARE MAKING STAND NORTH OF CZERNOWITZ

### BELIEF IS GROWING THAT GREAT ALLIED OFFENSIVE IN WEST IS ABOUT TO BEGIN.

## Italians Counter Attack Austrians With Great Success on Monfalcone

### GREAT BRITISH DRIVE IN THE WEST, IT IS SAID, WILL BE LAUNCHED VERY SHORTLY

#### Evidences Point to an Impending Offensive to Become Active When Germans Before the British Line Were Reduced to a Minimum—British Outnumber Enemy in Ratio of 13 to 8.

By Special Wire to the Courier.

New York, June 15.—A Paris cable to The Times says:

Great interest has been aroused here by a statement made by Bonar Law to the Matin that the British army, completely in accord with General Joffre, was prepared to move whenever the French headquarters staff saw fit. The statement is accepted as a sufficient answer to the charge of British indifference to the French losses before Verdun. The press expresses much satisfaction over Bonar Law's frank statement. From the outset the military authorities here have insisted that it would be playing Germany's game for the British to move before the psychological moment, and have scouted anti-British rumors as idle or malicious gossip. Bonar Law's statement will go far to reassure the people here.

There is reason to believe that in addition to the great Russian offensive under way against the Austrians and northward along the Carpathians, the Germans on the northern part of that line, a third is about to be launched by the British in the west, if this last is not now under way.

For weeks there have been unmistakable signs of a great British offensive impending, which would become active when the Germans before the British line had been reduced to a minimum, and propitious offensives had been begun by the allies in other quarters.

#### NOW EXTENDS NINETY MILES

The British front formerly extended from the Belgian front, which ends about ten miles north of Ypres, for thirty-two miles down to about the same distance from Arras. In the last week in March the British replaced the French as far as the Royal railway south of the Somme, and thus occupied a front of about ninety miles, or a quarter of the entire western front. The substitution of British for French troops in the southwestern sector, the French going, it is believed, to the Verdun defences, was made without any offensive on the part of the Germans.

#### EXPECTED LAST WINTER

From the beginning of the German campaign against Verdun a British offensive had been weekly expected by visitors to the large British concentration camps, parade grounds and storehouses in the rear of the British front. Particularly was this so when a great

movement of German troops was observed going east and south in the week of February 18, through central Belgium and northern France. However, subsequently the gigantic proportions of the German offensive at Verdun were said to have diminished the chances of an offensive by the allies in the near future, as it was pointed out that the defense of Verdun must necessarily make great inroads on their accumulations of munitions and men.

#### GERMANS HAVE MORE ON LINE

From the internal evidence of Sir Douglas Haig's report of May 19 the British have 450,000 on the line and the Germans 500,000. It is well known that the Germans keep the bulk of their forces on the firing line, while the French and English, unless attacked, do not have more than a third of their forces exposed in the front line. They depend on the vigilance of their officers on the first line to notice the signs of an attack in force on the part of the enemy when the reserves are brought up. They thus save thousands of lives during the daily artillery duels.

#### AS 13 IS TO 8.

"In these circumstances the British force under Sir Douglas Haig should be about 1,350,000 men. Opposite him there are forty German divisions, exclusive of cavalry, or 800,000 men of all ranks. This aggregate, according to a British military expert, may represent in combatants 600,000 rifles and over 3,000 guns. It is an accountable concentration, and we must further assume that the drafts to make good losses are in the field depots behind the German lines."

#### Lieut. Harris Walsh Hurt?

To-day's casualty list says: "Wounded, Lieut. H. L. Walsh." At first this was thought to refer to Lieut. Harris L. Walsh, former city editor of the Courier. No address of the wounded man is given, nor do any of Lieut. Walsh's family in town know anything of his being hurt.

There is a strong possibility, therefore, that the wounded party is none other than Lieut. Harris L. Walsh of Pte. C. Stanley Moore of Princeton, wounded.

### RUSSIANS GOING FORWARD WITH GREAT RAPIDITY

#### Great Contrast in That Respect to Drive of Last Winter.

### CZERNOWITZ LOST TO THE AUSTRIANS

#### Russian Artillery Fire so Heavy, Smoke Darkened the Sun.

By Special Wire to the Courier.

London, June 15.—(New York Times cable)—A despatch to the Daily Chronicle from Petrograd says: "In Bukovina, the Russians are progressing with lightning rapidity, which is particularly astonishing when one recalls the slow and stubborn fighting on the approaches to Czernowitz during the December offensive last year. The Russians already hold the right bank of the Pruth, from their own frontier up to Nepokopits, 20 miles beyond Czernowitz, on the railway from the Bukovina capital to Kolomea.

#### FIGHTING FOR TIME

"As to Czernowitz itself, the Austrians are defending it desperately, probably not without any hope of preventing the Russian entry, but in order to gain time to secure the retirement of their terribly battered army. Whether this army can be saved seems highly problematical, since the Russians are not only advancing along the Pruth but along the lower Strypa, have forced the Dniester at several points, have taken the important bridgehead at Zale Szczyk-Kolomea, 23 miles from Kolomea. Even now, General Pflanzer's Bukovina army apparently is cut off from the main Austrian army in Galicia, and the only way of retreat open is down through Bukovina and over the high Carpathians.

#### IN VOLHYNIA

"In Volhynia, the Russians are not rushing on with such amazing speed as in Bukovina, but are making steady and rapid progress. Forcing back the Germans have advanced from Rostjische to the River Stekhd at a point 20 miles from Kovel, which is the junction of the railways leading to Brest and Cholm and serves as the link between the Austrian and German fronts in Russia. In view of the great importance of Kovel, the Germans are defending it with energy, and there is fierce fighting on the Stekhd due west of Lutsk. On the road to Vladimir Volynski, the Russians have advanced as far as Torcin, and from Duvoe they have swept on to Kozin and even, according to private reports, to Radivilow, a station on the frontier of Galicia, on the main railway to Lemberg.

#### DARKENED THE SUN.

"All the prisoners declare they never experienced such a terrible fire as that dealt out by the Russian artillery. Eye-witnesses say the smoke of the bursting shells darkened the sun and made the work of Austrian aeroplanes impossible. No interval could be discerned between the detonations and the bombardment was one indescribable and deafening roar."

### MEXICANS AND YANKEES CLASH

#### Two American Soldiers Killed—Refugees Flocking to Juarez.

By Special Wire to the Courier.  
San Antonio, Tex., June 15.—Two American soldiers were killed early to-day in a fight with bandits near San Ignacio, 40 miles southeast of Laredo, according to a report to General Funston. Six of the Mexicans were killed in the engagement and the approaches to Czernowitz, but they were carried away by their companions. The American wounded were seven.

#### MANY REFUGEES.

El Paso, Texas, June 15.—Two thousand refugees are in Juarez to-day, having arrived from Chihuahua and the district around Torreon. Americans declare that famine conditions prevail around Torreon, and that the civil population would welcome any measure that would relieve them from the dangers of starvation. The newest issue of Carranza currency, they say, is without purchasing power.

#### More Mail Trouble.

By Special Wire to the Courier.  
Berlin, June 15 (via Sayville wireless)—A Copenhagen despatch quotes the Danish Postmaster-General as stating that the British authorities removed all the mail from the Danish liner United States; from Copenhagen, June 1, for New York and all the first-class mail and parcels from the Danish liner Frederick VIII from New York, May 31, for Copenhagen.

## Critical Stage Reached in the Irish Settlement

### Ulster Demands That Proposed Settlement Shall be Definitive and Final, and Other Side Will Not Accede to This Request.

By Special Wire to the Courier.

New York, June 15.—A special cable to The World from London under yesterday's date says:

Negotiations for a settlement of the Irish question have reached a highly critical stage and there is little optimism among those engaged in them.

In the first place the Ulster Unionist settlement shall be definitive and final. This all hopes of agreement, as the proposed arrangement is only an offshoot of the other provinces for John Redmond, the Nationalist leader, and Cardinal Logue at Armagh. Sir Edward Carson, the Ulster Unionist leader, was engaged at the same time to induce them to accept a

### LLOYD GEORGE WILL SUCCEED EARL KITCHENER

#### Will Not, However, Sever Relationship With Munitions.

### PEOPLE DEMAND STRONG MAN

#### Official Announcement of Appointment Expected Shortly.

By Special Wire to the Courier.

New York, June 15.—The London correspondent of The Tribune cables: "David Lloyd-George is to succeed Earl Kitchener as secretary of state for war, according to well authenticated reports current here to-day. It is understood, however, that in accepting the war secretaryship, Mr. Lloyd-George, will not entirely sever his relations with the ministry of munitions.

Various successors have been suggested for Lord Kitchener, including Lord Milner and Col. Winston Churchill. The latter, returned from the front, is again enjoying Premier Asquith's favor, while his quarrel with Lord Fisher or responsibility for the Gallipoli disaster has been patched up and they are again fast friends.

#### MILNER AND CHURCHILL ELIGIBLE

Both Lord Milner and Mr. Churchill, as far as the cabinet is concerned, might be entrusted with the direction of the War Office. Since the creation of the War Council and the turning over of responsibility for the operations in the field to General Robertson, chief of staff, Lord Kitchener's duties had become almost civil and administrative.

But, unfortunately for Mr. Asquith (Continued on page four).

### BERLIN REPORTS RUSSIAN DRIVE IS BEING HELD

#### Austrian Troops Making Stand North and East of Czernowitz, and Beating off all Attacks.

By Special Wire to the Courier.

Berlin, June 15.—(By wireless to Sayville)—Austrian troops in Bukovina are making a stand north of Czernowitz, capital of the Crown land, and also are holding the Russians to the east of the city. The repulse of the Russian attacks from both of these directions is announced in the official headquarters statement from Vienna under date of June 14. Russian troops in dense formation attacked the Teutonic lines near Przewlaka, but were repulsed by General Von Bothmer's troops, it was announced by army headquarters to-day.

A delayed official report from Vienna, issued under date of June 14th,

reports the capture of more than 1,500 Russians and 13 machine guns on June 10, when three Russian regiments that had crossed the Stryk near Kolk, were driven back across the river by an Austro-Hungarian outflanking movement. Northeast of Tarnopol, the recapture of a height that had been taken by the Russians was reported.

On the Italian front, according to the same statement, Italian detachments that had maintained themselves near the summit of Monte Leric, were surprised and defeated, and more than 500 of them captured. The Austro-Hungarians thus obtained complete possession of the mountains. Italian attacks elsewhere were repulsed.

#### TOOK TRENCHES AND MEN EAST OF MONFALCONE

Italians Make Surprise Attack on Austrian Forces.

By Special Wire to the Courier.

Rome, June 15 via London.—A surprise attack was made yesterday on Austrian positions east of Monfalcone. The official statement of to-day announced that Italians captured Austrian trenches after a severe engagement taking several hundred prisoners and seven machine guns.

The communication follows: "Between the Adige and the Brenta rivers yesterday there were reconnoissances and intense artillery actions on both sides. Our artillery dispersed enemy columns on the march and shelled hostile battery positions at several points.

"Two attempted attacks by the enemy in the region of Novogno, made in the direction of Monte Giove and Monte Brazze, were repulsed. "After intense artillery preparation yesterday evening a gallant Naples' brigade, supported by dismounted cavalry detachments, in a surprise attack penetrated enemy lines east of

Monfalcone. The trenches remained in our possession after a severe struggle. We captured ten officers, 488 men and 7 machine guns.

#### Charged With Forgery.

By Special Wire to the Courier.  
Regina, Sask., June 15.—David D. Bennett, a former employee of the Dominion government remount depot, is undergoing a hearing before a magistrate here on a charge of forging five bills, including in connection with the delivery of hay to the remount depot.

#### Saturday Half Holiday.

By Special Wire to the Courier.  
Vancouver, June 15.—New Westminster and Vancouver have voted by a large majority in favor of observing weekly half holidays Saturday instead of Wednesday.

"Keep the Supreme Court out of politics," seems to be the battle cry as Democrats gather in St. Louis for convention.

southwestern army has hurled at least six million men, not counting reserves, against our defensive positions between the bend of the Stryk and Czartorysk and the zone of Czernowitz. Involved in the struggle are Germans in the region west of Kovno, as far as the army of Count Bothmer, this last named army, and the army of General Pflanzer-Baltin.

"All will be forced to struggle hard, but at present we need not give credence to the Russian reports. That fable of the great number of prisoners and great losses was ever a Russian characteristic."

#### WILL NOT STOP GERMAN OFFENSIVE.

"The general situation of the war forces us to seek the impulse for the Russian attack in agreements reached at the Paris conference. The purpose of the Russian offensive from the standpoint of great strategy would be attained if the armies of the Central powers were forced to stop their own offensives and weaken their forces. This, however, is not noticeable, nor will it ever be achieved by the Russian attack.

"For a short time the Russian spring offensive against Von Hindenburg showed some small success. Four weeks later it ended in defeat. We hope the same thing will happen to the Russian offensive in the south-east."

## Great Offensive of the Russians a Surprise to Germany, Admits Critic

### Major Morant Calculates That Six Millions of the Enemy Are Being Employed, Munitioned by Japan and America—Will Russ Attack Break Off German Offensive?

By Special Wire to the Courier.

Montreal, June 15.—A Berlin despatch to The Gazette says: Major Morant in The Tagblatt writes as follows concerning the Russian offensive:

"That the Russians' newly collected forces would be so numerous as to carry on a general offensive along a front of 400 kilometers was hardly to have been expected. We must therefore, recognize an extraordinary energy in this gathering together of forces.

"If we are optimistic we can say that Russia is staking her last great force. If we would judge that carefully, we must bear in mind that populous Russia produces at least two million young men annually, whom Russia has so far been able to turn into soldiers. The truth, however, will always remain that this new prolongation of the fighting in the east is mainly due to the furnishing of guns and ammunition by America and Japan.

#### AT LEAST SIX MILLIONS.

"The Russian March offensive against Von Hindenburg, which was smothered in 'blood and mud' was undertaken by about fourteen divisions. Judging from the extent and ferocity of the present fighting, we see that the Russian forces are twice as great here, and that the enemy's

The Situation.

Frederick Palmer, one of the most reliable correspondents at the front reports that the operations in the vicinity of Ypres, have passed "into a new and for the British a most satisfactory stage."

That the remarkable Russian advance in connection with the Galician operations is not in any sense of a sporadic nature is abundantly proved by the fact that the great drive still continues without any sign of diminution.

Premier Hughes. During his visit to the Old Country Mr. Hughes, the Prime Minister of Australia has been talking out in vigorous fashion.

That little affair in Mexico has been largely lost sight of in view of the European war, but latest indications are that matters are becoming more and more disquieting.

According to a recent official statement in the Old Land, the authorities now have in hand over \$22,000,000 of prize money to go to sailors in connection with the war.

Washington, June 15.—Secretary of State Lansing laid before President Wilson to-day the completed draft of a note to General Carranza, replying to the demand that American troops be withdrawn from Mexico.

Andrew Shandro, leader of his fellow countrymen in the Alberta Legislature, is a Galician by birth, having immigrated to this country when thirteen years of age.

Mary Garden, operatic star, has sailed for Liverpool. She will sing to the soldiers of the Allies in the trenches.

After announcing several decisions, the Supreme Court of the United States adjourned until October 9 next.

Victory can only be achieved by organization. We must organize to win the war. We must organize to reap and retain the fruits of victory.

—Let me speak more particularly of industrial organization. Organization is absolutely essential to success in the modern industrial world.

NOTES AND COMMENTS

Russia's winning all right. It is significant that service held in New York, in memory of the late Lord Kitchener was attended by Chauncey Depew, and other prominent Americans.

The bear has always been known as a pretty good finisher, and now the Kaiser realizes that with regard to the Baltic incident.

It is stated that Eloy George is likely to become War Secretary, while at the same time not releasing his connection with the Ministry of Munitions. He also still has in hand the attempted settlement of the Irish difficulty.

Marconi is said to have invented a device which will prevent the danger of vessels colliding at sea in a fog. If he would only discover "some other contraption for preventing people from running into hard luck, then indeed he would be called doubly blessed.

Since Russia started to land those wallops on Austria's anatomy, the official reports from Berlin have referred to the "German troops" only.

STEAMER ASHORE ON SUGAR LOAF

Southbound Liner With 100 Passengers, But All Got Away Safely.

By Special Wire to the Courier. San Francisco, June 15.—The steamer Bear of the San Francisco and Portland Steamship Company, south bound with 100 passengers and crew of 82 men from Portland, Ore., for San Francisco, went ashore last night on Sugar Loaf, Cape Mendocino, and passengers and crew were compelled to take refuge in the ship's lifeboats.

FIVE BODIES RECOVERED. Eureka, Cal., June 15.—Five bodies have been recovered from the Steamer Bear wrecked last night on Sugar Loaf rock. Two boat loads of survivors have come ashore.

LLOYD GEORGE WILL SUCCEED

(Continued from page one). The British public demands as the successor to Lord Kitchener a man of equal calibre. The people will not be satisfied with the appointment of a mere civilian or politician to the post they have been accustomed to associate with the greatness of "K. of K."

LLOYD GEORGE THE MAN

Hence Premier Asquith, as he did in the munitions crisis and in the recent situation in Ireland, has had to turn to Mr. Lloyd-George. He has been reluctant to do this for several reasons. In recent months the relations between the two men have been somewhat strained.

The vivid experience of one of the first men to enlist in Kitchener's army. Its chief importance and distinction lie in the fact that it is perhaps the first narrative of actual experience of a soldier at the front to appear absolutely uncensored.

## OLD WORLD NOTES

### England and Wales—Old World.

The Rev. H. Biddell, vicar of St. Paul's Nottingham, made an interesting announcement the other night to the members of the Nottingham Shakespeare Society. He said he was very keen about developing the use of living pictures in education—"The moving picture has become an established fact in the social life of our people," he continued, "and it is developing in very alarming directions for those who have real care for the education of the people. I have expressed my desire to do something towards extending the scope of the cinematograph as far as education is concerned, and two ladies interested in the same object have made me a present of a good cinematograph machine with sufficient money to start the use of it, so that I am hoping in the next few weeks, during the time the Shakespeare wave is over the country, to hire films of the works of Shakespeare and to give some idea of his acted plays to those who care to come and see them." "I am going on with this work," Mr. Biddell concluded, "in other sections in order to guide the minds of our young people towards the things that are really good and healthy."

**SHOCKER AND HIS SPIT BALL** Winnipeg Telegram: When Umpire Arundel, one of the Northern League arbitrators, was here recently, he made the statement that Urban Shocker, former Ottawa pitcher, possessed the greatest spit ball he ever pitched behind. This statement has a whole lot of truth to it, judging by the International League records, which show that Shocker is the leading twirler of the circuit, with four wins and no losses to his credit. Before the former Canadian Leaguer was released to Toronto by the Yankees, the Leafs were hopelessly tail-enders; now they are doing better, with prospects of making a great fight for the pennant.

Umpire Arundel is also an ex-Canadian leaguer, having officiated here for a time last season.

THE ONLY WAY The Government of the United States is at last forced to the conclusion that there is but one course to pursue.—President Wilson's speech in Congress.—The Passing Show, London, Eng.

CANADIANS HAVE RETAINED TRENCHES THEY GAINED FROM ENEMY IN YPRES SECTOR

Artillery Gave the Canucks Splendid Support as They Went Into Action-- Attacked at 1:30 a. m. in Downpour of Rain, and Now the Canadians are Happy.

(By Frederick Palmer.) London, June 15.—The Canadians are still holding to the positions they captured from the Germans Tuesday near Zillebeke, east of Ypres, although they have been heavily shelled by the Germans, according to an official communication issued at midnight.

Last night (Tuesday) and to-day, says the official communication, "there have been no infantry actions. The positions regained yesterday east of Ypres have been heavily shelled. During the day more prisoners were taken chiefly wounded men, who were found during the clearing of the ground. The total number taken is 3 officers and 158 men of other ranks."

British Headquarters in France, June 15.—The operations in a vicinity of Ypres have passed into a new and, for the British, a most satisfactory stage. The Canadians yesterday retook the greater part of the ground lost on June 2, including the Armagh Wood and Observatory Ridge, and the British front line has returned to its original position. The German losses were large, and the latest reports show about 150 prisoners, including four officers, in British hands.

ARTILLERY DELIGHTS CANADIANS. "We were delighted with the way the guns supported us," say the Canadians. "They gave the Germans a taste of their own Verdun tactics. We are getting Lloyd George's munitions now, alright."

A German officer who was taken prisoner paid tribute to the increased power of the British artillery.

CAN HOLD THE OLD LINE. The attack began at 2 a. m., the ground was quickly gained, and by noon the situation was comparatively quiet. The Germans apparently did not anticipate so speedy and determined a counter attack, and abundant evidence was found of the destructive effects of the British artillery fire. Whether the British shall choose to hold the old line, now almost destroyed, cannot be said, but it seems assured that the option now rests with them. At any rate, the operation was a most gallant and successful incident, in which the Canadians amply repaid any debt they owed the Germans. The outcome has caused great rejoicing in the ranks of the Canadians.

BIG FOOD STORES CAPTURED. It was after two weeks of the most unseasonable, cold, rainy weather known to the oldest inhabitants of this region, making the low ground around the Ypres salient a morass, that the Canadians charged in the midst of a downpour at 1:30 o'clock in the morning and recovered Observatory Ridge and Mount Sorrel, important high ground which was still held by the Germans after the first stage of the third battle of Ypres on June 2-3. So heavy and continuous had been the British artillery fire on the Germans vainly trying to fortify Mount Sorrel during their ten days' occupation, that they had been unable to remove the munition and food stores left there.

GRAND JURY MAKES REPORT

Recommend Certain Improvements in House of Refuge and "San."

The case of Wilcox vs. Quinlan, a suit for damages to property rented by the plaintiff from the defendant, was heard yesterday before His Honor, Judge Hardy in the County Court. Verdict was brought in by the jury for the plaintiff, who was awarded \$400. The court was then adjourned until Monday next at 10 a. m. The Grand Jury, which inspects the usual public buildings, reported as follows: We, the grand jurors, at the present sessions, beg to report as follows: We have visited the county jail and found it in very poor condition, and that any necessary change be made. We would also recommend that the sewerage system, which is at present in very bad condition, be connected with the city sewerage. We would further recommend that the walls be renovated, they being in a very bad condition in several of the rooms. We then visited the Brant Sanatorium, and were much impressed by the accommodation, situation and provision made for the comfort and welfare of the patients. The buildings are modern and supplied with all the requirements necessary to meet existing conditions, except the sewerage system, which we would recommend be connected with the city sewerage. The staff is very efficient, and anyone treated at this institution, is sure to find the best of care and attention there.

Appeal For Aid For Shantymen's Missionary Assoc.

Rev. Mr. Joplin Gave Address at Zion Church Outlining the Work.

Telling of the laudable and righteous work being accomplished in the wilds of Northern Ontario by the Shantymen's Missionary Association, Rev. Mr. Joplin last night made another appeal for aid in the work of carrying the word of God to the lumbermen of Canada. In graphic and stirring words, the speaker depicted the life of the men in the lonely camps, and the eagerness with which they receive the word of the Association, which is strictly non-sectarian, are greeted. "A great deal has happened," admitted Rev. Mr. Joplin, in opening his address, "since I visited Brantford a year ago. In Ontario, there are over 80,000 lumberjacks in camp in Ontario. If the workers in construction and railway camps are included, a grand total of 350,000 men will be reached." Yet even this, continued the speaker, was not the full extent of the Association's work. Endeavor was being made to do something for the thousands who live lonely lives upon the prairies. "The most fascinating service which anyone can render," declared Mr. Joplin, "is to carry the Gospel to lonely hearts." He went on to tell of the excellent work done last season: 400 camps visited, and an estimated number of 140,000 men.

DISCUSSION ON VOCATIONAL AND TECHNICAL WORK

Dr. Merchant of Toronto Met With Several Educationists.

Bad weather and lack of sufficient advance notice served to keep down the attendance at the council chamber last night to hear Dr. Merchant, Inspector of Technical Training for Ontario, and whose headquarters are in Toronto, deliver his lecture on vocational and technical training, especially for returned soldiers. Only a few members of the Board of Education, some school officials, and one or two aldermen, were present, so as a result, instead of a speech, a round table conference was held, Dr. Merchant discussing the whole question with members that were present. The discussion wandered considerably, and covered not only the matter of returned soldiers but the advisability of extending the work of technical education in Brantford. Dr. Merchant paid high tribute to the work of Brantford in this regard, saying that pupils who had received training in its technical and industrial school were to be met with all over the province. A rather surprising fact was revealed

THE SUN IS WANING Germany may have to be content with a place in the Sunset.—Brooklyn Daily Eagle.

By Dr. Merchant when he stated that by the amendment put through the Ontario House last winter, the Board of Education here could by a by-law extend the period of compulsory attendance at school to anywhere beyond 14 years of age. Furthermore the board could take any public school boy or girl out of any place of employment so many hours each school day, and send them to school and the employers would by law be compelled to allow this to be done.

Regarding training returned soldiers, Dr. Merchant said nothing definite could be said. The great problem would be, in his opinion, not the training of the wounded, but the training of the vast number who would come home, having gone too young to war to have learned a trade. As for vocational work for soldiers, it was as yet only optional, in convalescent homes. The Soldiers' Aid Commission of Ontario were about to take up the matter, but on what lines it was not yet determined. It was likely thought, Dr. Merchant, that an official would be appointed to take charge of the whole problem, working through the local branch of the Soldiers' Aid Commission which existed in each town or city. All the cost in this matter would be borne by the Dominion government.

LITERARY GIFT BUT NOT THE TEMPERAMENT

Briand, French War Premier, Always a Man of Feeling.

An admirable sketch of the French War Premier, Aristide Briand, appears in Current Opinion. No other living statesman has the genius of Aristide Briand in disclosing himself intimately to his countrymen; and that accounts for the swiftness of his rise, the facility of his unexampled success in life. Not so long ago he dwelt in a cheap flat in one of the back streets of Montmartre. A dozen anecdotes bring the man before us, afford glimpses into his soul. Consider, says our British contemporary, that visit to the poor in the almshouse at Marcellines. Only Aristide Briand would have known how to comfort the aged dame with a sore palate. She had just lost the one thing in the world left her to love—a dog. In an agony of grief, the old woman tried to kill herself. Briand knew just what to say. Her feeling for the animal was noble, he told her. Mr. Briand avowed his own passion for dogs, for all animals. Nevertheless, dogs cannot live long. When death overtakes the pet, there is still success of sorrow. We can transmute our love to a pup. Whereupon M. Briand had the prefect send a pup to the sick old woman.

M. Briand is always doing something like this. No one was ever more human. Some character sketches attribute this to his peasant origin; but the Matin has looked into the matter and finds him a bourgeois. His father was comfortably situated after a career in business at Nantes and no difficulty was found in educating Aristide for the bar. He had from his early youth what the French call the flux of words. He thought of becoming a novelist like Balzac, whose novels he devoured when young. He had the literary gift with the literary temperament. He was a man of words but likewise a man of action.

To the Grave

JAMES B. HOLT. The passing away of James B. Holt removes from the community one of the oldest and most respected residents of the city.

The funeral took place from his late residence 151 Dalhousie St., to Mt. Hope cemetery, Wednesday, June 14th, the services being conducted by Rev. Dr. Henderson of the Wellington St. Methodist church, of which the deceased was for many years an active member, filling the capacity of the church treasurer for several years.

He came to Brantford in the early seventies, and for a short time carried on business as a gold and silver plater, afterwards engaging in the carriage goods and hardware business, carrying on the business for a number of years, on Colborne street in the Kerby Block, and later in the grocery business on George street, opposite the Market Square.

LOSS OF VITALITY is loss of the principle of life, and is easily indicated by faintness, and by diminishing strength and endurance. Hood's Sarsaparilla is the greatest vitalizer—it acts on all the organs and functions and builds up the system.

Why You Are Asked to Vote For The Hospital By-Law!

LADIES AND GENTLEMEN: In view of the fact that voting will take place on Monday, June 26th, in connection with a by-law authorizing the sum of \$58,000 for hospital purposes, the Board of Directors take this opportunity to place the facts before the public.

The need for providing increased accommodation became an imperative duty, and under a money by-law, authorized by the electors, the work was proceeded with, and the outlay, to make a complete job, exceeded the moneys available. Your Governors felt, however, that the public would not desire the needed work to be either skimped, or halted, and therefore completed the necessary improvements, secure in the knowledge of public approval.

Disbursements made up to May 31st last, and liabilities due at that date in connection with new hospital buildings and furnishings, new operating rooms and furnishings, the Nurses' Home, the acquiring of additional land, elevators, etc., etc., represented an outlay of

Table with financial figures: Towards this sum the receipts have been as follows: City \$85,000, County 15,000, W. H. A. for Nurses' Home (exclusive of payments for other things) 20,715, Sundries and bequests 6,076. Total required \$65,000.

Of this amount the County has generously agreed to contribute the sum of \$7,000. Contingent upon the City passing a By-law for \$85,000.

Citizens are cordially invited to visit the Hospital and to see for themselves that there has been no extravagance. The buildings, although of an attractive appearance, are plain in design and finish, and there has not been one dollar of outlay except for value received, and in accordance with the Hospital needs of the City and County.

The cost of sinking fund and interest during each of the 20 years of the debentures will be 17.9 cents per head of population. Trusting that this By-law will meet with the cordial support of all classes of Ratepayers. Signed on behalf of the Board of Governors.

C. H. WATEROUS, President.

COLWELL'S PITCHING TOO GOOD FOR LEAFS

Toronto, June 15—There are several reasons why Toronto didn't win the final game of the series from Montreal yesterday. Trout's fumble of a fly ball with two runners on bases and two out in the sixth, didn't help the Leaf cause to any noticeable extent, nor did McTigue's wild pitch, which immediately followed it. The real reason of the loss of the game by Toronto is found in the fact that the Leafs couldn't hit Colwell. That is to say they couldn't hit him when hits would have turned the tide of the battle. So the Leafs took to the road for a long eastern trip after losing two of the series of three games to the Royals. Said Royals are scamp- aring along at a great rate just now, and it was no disgrace to be beaten by such pitching and such fielding as was turned loose against the Birmingham boys yesterday.

Giants Get One Hit Off Jimmy Lavender

New York, June 14—Chicago won its third straight game from New York yesterday, the score being 4 to 0. It was the first time New York has been shut out this season. Kauff's in- field hit which took a bad hop from Lavender in the seventh inning, was New York's only safety, and pre- vented Lavender from duplicating the no-hit game he pitched against the Giants last season. The veteran Mathewson pitched well for New York but was recorded wretched support. Score: R. H. E. Chicago . . . 000 010 021—4 8 1 New York . . . 000 000 000—0 1 5 Lavender and Archer; Mathewson and Kariden.

Braves Come Through in Twelfth Inning

Boston, June 14—The Braves de- feated Cincinnati 4 to 3 in a 12-in- nings contest yesterday. A triple by Molwitz during the seventh inning drove in two runs and tied the score at 3-all. In the twelfth with two out, Magee doubled over first base, scoring Snodgrass, who had singled. Score: R.H.E. Home Run by Niehoff Wins for the Phillies

Philadelphia, June 15—Niehoff's home run with two men out in the twelfth inning ended a pitching duel between Rixey and Jacobs and gave Philadelphia the victory over Pitts- burg yesterday 3 to 2. Galloping Brooklyns Beat Cardinals Again

Brooklyn, June 15—Brooklyn made it three out of four from St. Louis yesterday, winning 8 to 5 by hitting the ball for long drives, while the Cardinals were making errors. Score: R.H.E. Chicago, June 15—Jim Scott out- pitched Walter Johnson yesterday and made a fluke single which scored two runs in the fourth, giving the locals a good lead. The score was 4 to 1. Scott was given perfect support. The R.H.E. Washington . . . 000 000 000—1 8 2 Chicago . . . 000 000 000—4 8 0 Johnson and Anismith, Henry; Scott and Schalk. WAGE CONFERENCE LIKELY TO END IN A DEADLOCK

Strike May Result in Rail- way Circles as a Result. By Special Wire to the Courier. New York, June 15—Railway man- agers and officials of railway unions who have been discussing wages and hours of work believed that this would be the last day of their con- ference and that it would end in a deadlock. The conference has been in session most of the time since June 7, and is estimated to have cost up- wards of \$100,000. More than 800 delegates from the unions of railway employees have attended the meet- ings representing 350,000 workers. The union men have rejected flatly a proposal by the managers that no man shall be paid twice for the same time, although his day may be divid- ed between two classes of work. Some of 105 questions submitted by the men to the managers remained to be answered to-day. After this it was expected the conference would adjourn. Labour leaders said the next step would be to submit to the unions a referendum vote as to whether the officials should be empowered to ex- ercise their own judgment in calling a strike.

PREPAREDNESS IN WASHINGTON

Seventy-five Thousand Men Paraded Pennsylvania Avenue. By Special Wire to the Courier. Washington, June 14—Led by Pres- ident Wilson carrying the Stars and Stripes, nearly seventy-five thousand men, women and children of Wash- ington marched up Pennsylvania ave- nue to-day, in a preparedness par- ade arranged to emphasize the national capital's demand for an ade- quate army and navy. Besides marching himself and then reviewing the parade, the president had prepared an address on "America First," to be delivered in the after- noon at an open air meeting south of the White House. Washington was brilliantly dec- orated for the occasion. It was a holi- day, for under an executive order is- sued by the President all govern- ment employees were excused from work and many stores were closed. The parade was a strictly non-parti- san affair.

GETTING BACK TO THEIR WORK

U. M. W. of America Have Agreed to Temporary Arrangement. Pittsburgh, June 14—Miners of Dis- trict No. 5, United Mine Workers of America, who refused to accept the agreement made by their officers with the Vesta Coal Company, one of the largest in the district, resumed operations thus insuring a fuel supply for some of the most important steel mills along the river, and reports from the other mines said that numbers of men were appearing for work. The miners insist that the arrangement is to be in force only until a new scale has been decided upon. Fifty thou- sand miners were affected by the strike.

AUTO THIEVES ROUNDED UP

Their Operations Said to be World-wide—Have Sto- len 200 Cars. By Special Wire to the Courier. San Francisco, June 15—Four sus- pected agents of a group of automo- bile thieves whose operations were said by the police to have been world- wide, are under arrest here to-day, while an investigation was conducted into their alleged activity in stealing and disposing of more than 200 cars. Many of the machines were stolen in California and disposed of in other states and countries as far distant as England and New Zealand. The police said the men operated on a large scale and were able to dispose of the cars easily by re-ar- rangement of tires, wheels and en- gines. Agents of the gang were maintained in New York, the police asserted. The men under arrest are: William Miller, W. F. Gorman, John Cubase and Frank Cooper. All are automobile mechanics.

London, June 14—The amalga- mation of certain shipping and colliery interests into a corporation having a capital of £100,000,000 has been com- pleted, according to persistent rum- mers in business circles to-day. It is stated that colliery proprietors and ship owners with large holdings have come to an agreement for mutual ser- vice and interchange of commercial facilities. The intention is to make use of the maximum power of coal and shipping for the benefit of inter- national customers at the close of the war.

The bill has been passed by parliament. The strikers will resume work to-night.

Bill Introduced in Spain to Ex- clude Foreign Capitalists From Shipping Industry. By Special Wire to the Courier. Madrid, via Paris, June 15.—Rafel Casset, former minister, has intro- duced a bill in the chamber of deputies to-day to prevent fore- ign capital from obtaining control of Spanish shipping. The bill provides that the stock of shipping companies shall be nominal, and that only 25 per cent. can be held by foreigners. ATTITUDE OF THE ALLIES DENOUNCED

Meetings in Athens Declared for King and Govern- ment. Athens, June 14, via London, June 15.—The attitude of the Allies to- ward Greece was denounced at a num- ber of meetings held here to-day, at which resolutions were passed ex- pressing loyalty to King Constantine and confidence in the policy of Premier Skouloudis. The resolutions protested against the blockade of Grecian ports estab- lished by England and France, and de- nounced the conduct of the allies to- ward neutral nations and "especially toward the president of the United States of America." A feature of the resolution was that the king was referred to as "our glori- ous sovereign, King Constantine XII." This title placed the monarch in the line of the ancient rulers of Constantinople.

## SPLENDID FACES THESE CANADIANS

Russian Novelist Pays Tribute to Boys of the Maple Leaf.

GREAT SHOTS AND WALKERS

Siberians Are Sombre. Canucks Have Joy of Life in Them.

A fine tribute to the morale and fighting quality of the Canadian troops is paid by Nemirovitch-Danchenko, a famous Russian novelist and war correspondent who writes the London Times of his visit to the western front. He says:

"They have splendid faces, these Canadians, with a sincere and happy look. I saw them afterwards at the front, after an ordeal of forty-eight hours' stay in flooded trenches; they wore the same expression. One could see the stuff they were made of, the race that is used to relentless fighting with nature and can stand cold and hardships of which we, in the Old World, can form no idea.

"The Canadians are excellent shots and walkers; our Siberian fellows, who take aim and shoot a hare through the eye, resemble them. The quiet, however, are sombre. The chaps of the Siberian forest has made them taciturn. The Canadians on the contrary, have the joy of life in them. They wavered at first under the heavy German fire, but now they form an iron wall which no fire of the enemy can break. The best quality of the Canadian soldier is calmness in attack. He is not hasty, and therefore wastes no energy.

"The relations between officers and men are too intimate and cordial. The officers behave like senior comrades. They share with the men the hardships of trench life. The Canadians feed well and are well dressed. The Canadians are stationed the Germans have no peace day or night. The enemy has to look sharp, because in spite of all our entanglements the Canadians crawl right up to the enemy's trenches, pour down a shower of bombs, and organize little expeditions, reminding one of the times of Fenimore Cooper."

## Blinded Soldiers Well Cared For

Only Four Such Men Have Returned to Canada—Warning Issued.

Ottawa, June 5.—Mr. E. N. Scammell, Secretary of the Dominion Hospitals Commission, has issued a warning against unauthorized persons who are collecting money for the alleged aid of Canadian soldiers who have been blinded in battle. Mr. Scammell states that erroneous ideas have got around concerning the number of men blinded in the expeditionary forces. "Up to the present," he says, "four blinded soldiers have returned to Canada—not four hundred or four thousand as some people imagine. Of these four one was trained at St. Dunstan's, England, and is now earning his livelihood as an insurance agent in his home town, his typewritten letters being a model for many sighted typists. Another lives on a farm with his wife and children, and is doing a good deal of work on the farm. A third is suffering from shock blindness and may regain his sight. This man returned from Liverpool on the Hesperian and the ship was torpedoed but regained his sight temporarily, but has since had a relapse. He will probably recover as there is no organic trouble.

**UNAUTHORIZED AGENCIES.**  
Various agencies have been started for the collection of money in order to provide homes and special training for blinded Canadian soldiers, and unauthorized persons are making collections for that purpose. It should be distinctly understood that these collections are quite unnecessary. The Military Hospitals Commission is entirely competent to deal with all blinded soldiers who come under its care."

**A GOOD TRAINING SCHOOL.**  
All Canadian blinded soldiers are given a period of training at the Blinded Soldiers and Sailors' Home at St. Dunstan's, England, together with other blinded soldiers from the Empire forces. This place was started with fourteen blinded soldiers in March, 1915. The number has now grown until there were 140 non-coms, and men there, including five Australians, two New Zealanders and seven Canadians. The soldiers learn to read and write in Braille, to type, and to acquire some occupation useful in their future. Fifty-one men already have graduated. It is stated that the total number blinded in the British forces is only 201. "The collection of money, therefore, for the benefit of blinded Canadian soldiers," says Mr. Scammell, "also the suggestion that a special institution should be erected to care for these men, should be discouraged."

**Railwaymen Meet.**
