WILL BE TEN NEW SEATS

Is Said that Redistribution will be decided upon shortly but Legislation may be Delayed

The West has reason to believe that on the return of Premier Scott, one of the earliest questions affecting government policy, which he will deal with will be the redistribution in this province, although owing to the municipal act which will be brought down next session, it might be found better to delay the redistribution bill till the session following, the one preceding the election. From the same source we learn that the government is practically agreed that there will be ten new seats making in all thirty-five. The larger constituencies will be cut down and one or two of the smaller ones may be added to Saskatoon city will be entitled to a representative and there will no doubt be three new seats in the north. A new seat is anticipated. While nothing has yet been decided upon, these are some of the features under consideration.

TO DISCHARGE MANY MEN

American Railways Practice Retrenchment—Men with The Dinner Pail out of Work

Chicago, May 27.—Some time ago John D. Rockefeller and J. J. Hill sounded a note in the north. The man with the dinner pail would soon see strenuous times in the United States, and it is now estimated that between fifty and a hundred thousand men will be discharged by June 1st from railways, as orders are issued that all departments be reduced to the minimum. Strict economy is ordered owing to the stringency of the money market, and, besides weeding the departments many new works and construction will be abandoned. Heavy traffic and the severe winter caused many incompetents to get on the pay roll.

C.N.R. OFFICIALS COMING

Question of Terminals to be Taken up—Regina to be Division Point

The question of terminals for Regina is now engaging the attention of the Canadian Northern, and it is understood that Messrs. Hanna, Brown and Abbott will visit the city on their return from Edmonton. With the completion of the Brandon-Regina line it will be necessary for the C.N.R. to make arrangements different from the accommodation existing at present over the C.P.R. and they will require shops and a temporary station at least. There is no doubt that Regina will be an important division point on the new system.

COLEMAN PROMOTED

Assistant to Mr. Bury goes to Mountain Division

Winnipeg, May 27.—D. C. Coleman, formerly assistant to G. J. Bury, general manager of the Canadian Pacific, left on the evening train for Vancouver, where he will confer with Gen. Supt. Busted, with reference to the work he is to undertake as superintendent of the Crow's Nest. Mr. Coleman's headquarters in the west will be at Nelson, and he will enter on the discharge of his duties next week.

NEWTON NEWS

Seeding is all completed with one or two exceptions.
Kronau is now a village with Hy. Nuton elected as overseer.
On May 24th a lot of Regina people of Kronau, wearing the red, white and blue.
A few weeks ago we stated that L.I.D. No. 5423 was supplying gopher poison to farmers. It has been supplied, but we do not hear of any of them taking the medicine.
Mac Biecum and A. H. McLean are on a visit to Findlater.
Erasmus Laugh is busy engaged improving his park setting out more young trees.
Mr. and Mrs. H. B. Gardner, of Francis, are visiting in the district. Miss Rollins and Miss Roblin of Regina spect May 24th in Newton. That chap with the nine hole drill

is doing well, he will soon have 300 acres drilled.
Thos. Archer has taken his departure for Findlater, where he will spend the summer on his homestead. Jacob Hicks has been appointed the pound keeper for 1907.
Robert Teoport is now in quite and passable possession of the S.W. 1/4 of 2-17-17. Say, Bob, where are you going for Christmas.
Weather forecasts for June—First five days very stormy with heavy falls of snow; balance of month clear and cold with thermometer registering as low as 14 below—if you want it colder, say so.

E. A. JAMES HAS RETIRED

Tired of Railway Life, former Manager now in Private Business at Victoria

Victoria, B.C., May 25.—E. A. James, formerly manager of the C.N.R. with headquarters at Winnipeg, has arrived in the city and is to become a permanent resident of Victoria. Mr. James is retiring from active railway work and will hereafter live a semi-retired life, giving attention only to the various private interests he has acquired.
Mr. James has been in the railway business practically all his life, and

EDUCATIONAL DEVELOPMENT

The educational development of this province may be judged from the fact that at the mid-summer examinations this year there will be eleven hundred and eighty-five candidates. In 1904 there were but four hundred and fifty-three for the whole North-West Territories. At present this is one of the hard worked departments of the government.

in climbing the ladder of success has touched on every rung. For years he was with the Canadian Pacific company at Winnipeg and was chief dispatcher for that road when Canadian Northern activity commenced in Manitoba. He accepted the office of superintendent of the new railway, later becoming manager of it.

WHAT NORTH-CITY CLAIMS

Prince Albert to have C.N.R. Shops—The Bridge will be Built says later Dispatch

Prince Albert, May 28.—Prince Albert will be a divisional point on the C.N.R. The local authorities of this road have received instructions to bring in five cars of crushed stone and five cars of gravel daily.
There are now twenty cars of cement here and this material will be used in the construction of a round-house. The dispatchers headquarters will also be established here. This move on the part of the C.N.R. will bring fifty families to the city.

For Bridge
Prince Albert, May 28.—It has been definitely ascertained that the C.N.R. bridge across the Saskatchewan will be built this season, and a portion of the material here is for that purpose. The provincial government is granting \$50,000 towards the construction of the bridge which must provide traffic facilities.

COAL AT SASKATOON

Alderman Calder after Steam Drill to Exploit Evidence of Fuel

Ald. Calder, of Saskatoon, was in the city Friday en route to Minneapolis to arrange for a steam drill to bore for coal in the vicinity of Saskatoon. Evidence of lignite is very strong near neighboring city and it is thought that exploration will result in the discovery of coal in paying quantity.
The very thing which that part of the country needs is a coal mine as it would be a boon to the farmers of the extensive prairie to the north, and to the city of Saskatoon.

UNITED EMPIRE

Sir Wilfrid Laurier Responds Eloquently to Toast at Great Function

At the recent Colonial Conference banquet, in responding to the toast, "United Empire" Sir Wilfrid Laurier said: The chairman has said that this institute owes its existence to a Royal Charter. I think I am well within the truth when I say that the Institute is the oldest of these associations, now so numerous, whose objects are to bring together the component parts of the British Empire with a better understanding and appreciation of one another.

It is the opinion of all London papers that Mr. Birrell's Irish bill already is dead and the government organs bitterly lament the misfortune of the Irish secretary in seeing two important measures, the education bill and the Irish council bill miscarried in his hands. The rejection of the measure by the Nationalist convention in Dublin solves for the beginning to impress ministers how to deal with the overloaded programme that was set for this session of parliament, but nevertheless there is keen disappointment felt at the discredit thrown upon the government, especially as John Redmond, the Nationalist leader himself, moved the rejection of the bill. It is believed that Campbell-Bannerman will withdraw the bill and submit measures dealing with the evicted tenants and Irish university question, but nothing is likely to be settled until the cabinet meets.

Kendall's Spavin Cure. For Sale Everywhere. "I am using your Spavin Cure and say there is nothing to be compared with it." - Gilbert Masson.

upon once more to draw the sword from the scabbard (which God forbid), from my heart I believe we should see this glorious example—that those men who fought against one another on the battlefield of South Africa would be found in that battle under the same flag fighting the battle of old England. Because the human heart is the same everywhere, man is generous, and if he is treated with generosity he will answer to generosity. You have trusted the people of South Africa and I believe you have more to be proud of than the British Empire covers men of many races, but its foundations are broad enough to give them all an equal sum of justice and fair play.

MINARD'S LINIMENT CO., Ltd. Yarmouth, N.S. Gentlemen,—In January last, Francis Leclaire, one of the men employed by me, working in the lumber woods had a tree fall on him, crushing him fearfully. He was, when found, put on a sled and taken home, where the grave fears were entertained for his recovery, his legs being badly bruised, and his body turned black from his hips to his feet. We used Minard's Liniment on him freely to deaden the pain and with the use of three bottles he was completely cured and able to return to work.

TO WITHDRAW It is the opinion of all London papers that Mr. Birrell's Irish bill already is dead and the government organs bitterly lament the misfortune of the Irish secretary in seeing two important measures, the education bill and the Irish council bill miscarried in his hands.

CLOSE INSPECTION Gordon Grant, C.E., has been appointed inspector of instruction on pointed inspector of construction on the G.T.P. It is the intention of the construction committee to keep a close watch on the work of the various contractors and see that the quality of the work is up to the standard and that reasonable progress is maintained. It is known is known that railway contractors all over Canada, but particularly in the west, have been meeting with difficulties and delays in carrying out their undertakings.

FATHER OF COMMONS George Henry Finch known as the "Father of the House of Commons," having represented Rutland in the House for forty years, died at his residence, Burleigh-on-the-Hill, Oakham, Rutland, this morning. He was born in 1835, and a politician was a conservative and in favour of the removal of all burdens on agriculture.

LAST SAD RITES The funeral of the late W. F. Luxton, the founder of the Winnipeg Free Press, took place at Winnipeg on Victoria day, and was attended by the most representative gathering of the community that ever paid the last tribute of respect to a citizen in this country. Every institution, government, civic and charitable, sent representatives. The pall bearers were Premier Roblin, Hon. Robert Rogers, Hon. Wm. Hepler, Sheriff Inkster, Jas. Fisher, ex-M.P.P., and Prof. McDermott. The funeral services were conducted at Holy Trinity church by Ven. Archdeacon Fortin and the Bishop of Rupert's Land. The floral tributes were numerous and of an exceedingly beautiful character. The members of the family have received telegrams and letters of condolence from all parts of Canada.

THE COAL COMMISSION

(Edmonton Bulletin)

The appointment of the coal commission by the Alberta government is the fulfillment of a promise made by the minister of public works last February in the legislature, when the west was in the grip of a coal famine. At that time, a most serious state of affairs prevailed in the southern part of this province, in the neighboring province of Saskatchewan and in Manitoba. At that time there was legislation before the house, introduced by a private member, to establish an eight hour law in the province. The legislature as well as the minister of public works were of the opinion that any legislation undertaken in this regard must be framed with an intelligent conception of the relative interests of the miners, the operators and the public. The interests of these three parties will form the subject of the commission's enquiry and upon the report it is the intention of the government to affect by legislative enactment, as far as is possible to do so without becoming too paternal or tyrannous, some machinery that will provide for the continuous operation of the mines, and prevent a recurrence of the suffering through fuel destitution as prevailed last winter. Coal mining in Alberta is a comparatively new industry and one that has such an essential relation to progress and development in the economy of the community, that anything that will bring into operation a system enabling the disputants to settle their differences without the painful method of industrial war will be hailed with joy by all classes.

IGNORANT PATRIOTISM An incident which is likely to arouse the suspicions of an international difficulty, occurred in Winnipeg when the American flag was torn down from the United States Consulate on Notre Dame avenue by two Englishmen. Dr. Jones of Hong Kong, has just assumed the duties of consul and in deference to the Victoria day celebration had the Union Jack run up on the consulate under the American flag. This is the first occasion since the time of Consul Taylor that the Union Jack has been flown from the consulate. Some ignorant individuals seeing the Union Jack upon the American flag, evidently considered it an insult and climbing up on the roof tore down the American flag. Consul Jones was away at the time and the house was unoccupied. The consul when interviewed said that he regretted the incident very much, but he said that he knew the sentiment expressed in tearing down the Stars and Stripes did not represent the feelings of the citizens of Winnipeg towards the Republic.

BETTER THAN NEBRASKA Davidson Farmer Reviews his Experience, and Says Canadian West is all Right Davidson, May 25.—J. Lenzen, 36-24-2, an old experienced farmer, who has watched the records on wheat raising for over half a century, has the following to say about wheat raising in the Canadian Northwest: "As early as 1850 I started in on Illinois soil where I raised wheat to perfection, both fall and spring, for twenty years, but after 1882 we had so quit and give it up for a bad job. Then Iowa got in the lead, and later the Red River country, and where are they today? All bad results and now a thing of the past so far as wheat raising is concerned. "For the last ten years Kansas, Oklahoma and Nebraska, thought wheat was the crop; and where are they today? They will find out in the future that they will also have to give it up also. Here in Saskatchewan it is different. The climate is specially adapted to wheat raising even if we have cold severe winter, and late spring, sometimes, which make it a little discouraging, and the men who stay at it will be winners. There are drawbacks in every country and far worse than that, and was in Nebraska, and did not raise a white bean for four years in succession, and still the land went up from four dollars to one hundred dollars per acre, and you can raise more on one acre in the Canadian west than on two acres in Nebraska, and the land averages about fifteen dollars

CONSPIRACY PUNISHED Robert Loughran, of Caron, was found guilty on a charge of conspiracy to defraud and sentenced to five years at Edmonton for a conspiracy A check for \$385, mailed from Winnipeg to Wm. Overfelt at Beinfalt, was stolen from the mails and paid at the bank here on December 27th to an unknown man whom Loughran wrongfully identified as Overfelt.

GIVES BACK MONEY The Rev. John Lewis Clark, pastor of the Bushwick Avenue Congregational church, New York, admitted to the trustees and deacons of his church that he had committed a wrong in marrying William Ellis Corey and Isabelle Gilman and begged the forgiveness of his church. As one act of atonement he said he has returned Corey's fee, which is stated to have been \$1,000. At a subsequent meeting the trustees consented to forgive the minister and share with him, as they put it, "the humiliation and 'gashin'" he had brought upon the church.

ATTEMPTED SUICIDE Mrs. Nicholls, alias Dunn of Orillia, was sentenced to six months in the Mercer reformatory at the police court, Toronto, for attempted suicide. She said that matrimonial troubles led to the act, but as she had tried it pretty often the magistrate decided to try a remedy. She swallowed carbolic acid in the street and was taken by a policeman in time to save her life.

C. P. R. TO APPEAL Prosecuted under the Lord's Day Act, before Justices of the Peace McDonald and Risk, at Claresholm, Alta., the C.P.R. was fined \$200 and costs, for having allowed work to go in the way of shunting freight on

Sunday. No appearance was made for the company and it is understood that the case will be appealed.

GAOL LEADERS

The Hindu revolutionist who aroused the fanaticism of the Punjab into a state of great excitement by circulating the fantastic statement that the alleged plague did not exist and that 100,000 deaths had taken place by the poisoning of drinking water by the government commissariat, was sentenced to two years rigorous imprisonment. An accomplice who put harmless tanks into the wells, alleging that he did so by order of the government, was condemned to 18 months imprisonment.

CONSPIRACY PUNISHED

Robert Loughran, of Caron, was found guilty on a charge of conspiracy to defraud and sentenced to five years at Edmonton for a conspiracy A check for \$385, mailed from Winnipeg to Wm. Overfelt at Beinfalt, was stolen from the mails and paid at the bank here on December 27th to an unknown man whom Loughran wrongfully identified as Overfelt.

per acre here, saying nothing about the hot winds and cyclones one has to go through in Kansas and Nebraska. "I have been in Canada now for four years and have not seen a failure or a bad storm or hail that would take the bark off of trees and pull them up by the roots, and to give you an idea of what we call good crops, we had from thirty-five to forty-two bushels to the acre of wheat, fifty to eighty bushels of oats and three to four hundred bushels of potatoes every year. One more feature which I will mention, our grass is the best in the world. When there is no snow on the land, horses and cattle live and get fat on it the year round."

Good GOODS AT FAIR PRICES

Developments in Rosthern Murder Case—Girl Persists That She Does not know the Criminal Rosthern, May 28.—The case of the murder of Michael Kaminsky will come up for hearing again on Wednesday. Crown Prosecutor Turgeon is conducting the prosecution. The prisoners charged are Joseph and Rogoznak, Maxim Stadnik and Michael Bunk. At the last sitting Mary Wauryk, told of walking with Kaminsky, when someone stepped up behind and hit him several times over the head with a rope. Witness fled. She swore she did not recognize the assailant. Her evidence agreed with that given at the coroner's inquest. Thos Malone was near the victim at six o'clock and met two men running apparently from the place where the murder was committed. The girl Mary Wauryk was a short distance behind. He recognised her later as the girl he met near the livery barn. A team drove rapidly up and stopped. The driver got out and looked and walked westward in the direction where the murder was committed. There was a very determined look on the driver's face. Asked to recognise this man, witness pointed out Michael Stadnik on the prisoner's bench.

WHY BE MISERABLE? When there's a "Balm in Gilead" you need it as a balm for your home? For the commoner ailments—coughs, colds, sore throat, headaches, constipation, piles, neuralgic pains, cuts on face or body, we have a balmless preparation at small prices for every ailment. We guarantee every purity and efficiency. The Regina Pharmacy LIMITED

Constipation

Baked sweet apples, with some people, being prompt relief for constipation. With others, coarse all-weather bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation. The bark of a certain tree in California—Cascara Sagrada—offers the most excellent aid to this end. Cascara, combined with Karpasia Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is made up at the Dr. Shoop Laboratories, from this ingenious and most effective prescription. Its effect on Constipation: Bloating, Sour Stomach, Bad Breath, Biliary Complication, etc., is indeed prompt and satisfying. No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful illustrated metal boxes at 50 cents and 25 cents per box. For something new, nice, economical and effective, try a box of

ALMIGHTY VOICE TRAGEDY RECALLED

(From Prince Albert Times, May 23)

Last Sunday Mr. N. H. Russell was out at the bluff where Almighty Voice made his last stand just ten years ago on the 30th of May.

I was up at Battleford and was returning when I heard that the police had the Indian surrounded in a bluff.

The story of the tragedy is interesting. His child was sick and the Indian agent on the One Arrow reserve did not pay any attention to the pleas of Almighty Voice for assistance.

The story of the tragedy is interesting. His child was sick and the Indian agent on the One Arrow reserve did not pay any attention to the pleas of Almighty Voice for assistance.

I.O.O.F. FORM GRAND LODGE

Many Delegates here from Provincial Points--Outside Representatives--Banquet This Evening

The Oddfellows of Saskatchewan met in this city and organized a Grand Lodge for the province. The lodge was instituted by H. B. Rose, district deputy grand sire, assisted by E. G. Wiswell, Brandon, Grand Master of Manitoba, A. M. McCormick, deputy Grand Master of Manitoba and the grand officers.

CHEAP LANDS

Pilot Mound, Man., May 28.—Much interest was taken today in the sale of school lands held at the Mound and long before the time to commence large crowds of farmers and land seekers had gathered in town.

SAD ACCIDENT

Duck Lake, May 28.—It is reported this week that the four year old daughter of Mr. and Mrs. Percevaux of Parkside, met her death Saturday last.

SNOW AT OTTAWA

Ottawa, May 28.—Ottawa was this morning visited by a substantial snowstorm. While the snow did not lie on the ground for any great time it fell intermittently all day long.

ENGLISH HEROINE

Toronto, May 27.—A runaway horse which was dashing down Simcoe street this morning was caught by a young girl who ran out from a number of English immigrants.

MAILS NORTH

Ottawa, May 28.—A mail has been sent to Captain Bernier, of the Canadian patrol steamer, Arctic, now in the far north.

WOMEN IN SESSION

The third annual convention of the Women's Mission Society of the Methodist church is in session here today.

Additional Locals

There will be a general meeting of the Irishmen's association of Regina next Wednesday evening.

MCPHEE'S TENT FALLS

Cartwright, Man., May 28.—The McPhee Co. played here last night in their tent. During the show the reserved seat section, which was situated collapsed.

A SOUX FAREWELL

Portage la Prairie, May 28.—A unique gathering took place at the Souix camp yesterday, when the red-skin warriors assembled in solemn conclave to smoke the pipe of peace and make a presentation to S. R. Marlett, late inspector of Indian agencies, who is leaving to live in Vancouver.

SETTLER FOUND DEAD

Rainy River, Ont., May 28.—Jabez E. Davis has been found dead on his claim on Village Island, Lake of the Woods, near Rainy River.

LICENSES OFF

Winnipeg, May 28.—As a result of the new law passed by the Dominion government cancelling all licenses

WM. CURRY DIED TO-DAY

At the ripe age of eighty-seven years and five months, William Currie died at Grand Coulee this morning.

WEDNESDAY, May 29, 1907.

THE FLAG QUESTION

The correspondence between the Winnipeg Canadian Club and the city theatres respecting the use of the American flag on the stage does not excite admiration in this province, and we believe that if there is a place in Canada upon which the impress of Americanism will be stamped it is Saskatchewan, because we are getting the larger share of the immigration from the south. Yet we do not apprehend any danger from our adopted cousins. On public occasions they hoist the Stars and stripes, but the only colors seen in their schools are the Union Jack and the Ensign, and where they are in the majority in any school district they display the national flag much more than our people and make the same use of it here as they did of the Stars and Stripes in their own country. In the town of Halbrite on 13th of December, 1905, many polled their first vote in a Canadian election, and a band of national school men, hoisted the American flag and the Ensign and put out a streamer bearing this exhortation: "Sons of Uncle Sam, Vote for National Schools." Our flag could have unfurled alone in the breeze and the warning of the homestead inspectors would perhaps have prevailed had not the last call to duty come from a source which they well understood.

We are not afraid of the use of the American flag, for the deep springs of loyalty cannot be polluted by the Americans have just as much respect for our flag as we have, and they use it more than we do, even if they also use the Stars and Stripes occasionally. The sight of the American flag and an appeal for the kind of schools which Sir Wilfrid Laurier denounced, enlisted strong support for Mr. Haultain, while government officials tried hard to make a treacherous use of the homestead privileges under the Union Jack.

REPELLING INFLUENCES

Leading Canadian papers have been advocating that the Newfoundland bait question which is such a source of annoyance between the mother country, the Island colony, and the United States, could be best disposed of by Newfoundland coming into the Union.

This advice is all very well from our standpoint, but the old colony is jealous of her autonomy and after having perfect freedom in legislation the same as the Dominion has, the people there are not easy to persuade that they would be better off as a province of the Dominion of Canada. Were they to enter confederation, if they were to have their provincial rights curtailed they would cause some trouble at Ottawa, such being the nature of the people. If Newfoundland were a province of this Dominion and were used by Ottawa as Saskatchewan were treated under the terms of the Autonomy act, there would be only one party down there and that would be the party of the whole people for the rights of the island.

In advocating that Newfoundland should enter the Dominion confederation we must not forget that Canada is driving the island farther from us every year. The fact that in this province it became necessary

to fight our first election on provincial rights issues, and that it was necessary in the interests of the province for one of the great parties to abandon old party lines to meet men of conviction of another party on common ground, is well known in Newfoundland and they realise that under these circumstances their present, independent position is much preferable to our existing status. The people of Newfoundland know that Premier Whitney has raised the provincial rights cry in Ontario, and they also know that their Premier, Sir Robert Bond, while recently in London met Premier McBride of British Columbia, demanding at the foot of the Throne the rights of his province under the British North America act. Those who talk of the admission of Newfoundland into the Union should urge upon the Dominion government the necessity of getting from each of the provinces a certificate of good conduct. Contentment among the existing provinces would go a long way in influencing Newfoundland to consider the confederation scheme, but with coercion rampant at Ottawa; and with a test case before the privy council from Saskatchewan; and British Columbia and Ontario up in arms for provincial rights, the best thing for the Canadian papers at present is to leave the Newfoundland question alone, for they are not helping it any with the people of the old Island colony.

THE WHITE PLAGUE

It is now the opinion of some of our most eminent bacteriologists that medical science will in the present century extirpate that dreaded disease which almost decimates the human race annually—the malady commonly called consumption.

It is now known to competent physicians, and it should be known to every human being, that consumption is produced by a specific organism which may be reached and destroyed. It is the extirpation of this germ that the brightest minds in the medical profession are now bent on.

There are obstructive forces of course. There are multitudes of ignorant people who will not accept the germ theory, and who will resist the attempts to subject their sick folks to what seems discomfort and suffering.

Sooner or later in spite of the halting and obstruction supplied by ignorance and prejudice, the battle will be almost wholly won. Two hundred years ago smallpox was a more dreaded scourge than consumption is now; but the disease was mastered by science, so that in our day it does little harm.

That was science in the raw. The achievement was performed with half knowledge and in a dim and uncertain light. In our day we have hold of the inner facts. The source of consumption is definitely known. It can be seen; it can be tested; it can be destroyed visibly, before the eyes of any man who will take the trouble to look through a microscope. We have, therefore, a right to expect that that which has been done with smallpox shall be more victoriously accomplished with consumption. Long before the century ends it should have disappeared from civilised communities.—Butte News.

EDITORIAL NOTES

The Toronto Globe says it will be to the utter discredit of the Ontario government if they do not reach the Hudson's Bay first with a railway. If it is so much in the interests of Ontario to get an outlet on Hudson's Bay, how much more urging is it need? The Canadian Northern have built nearly a hundred miles of the line, but we do not know how long it will be till they reach the water. The Dominion government has promised to construct a road and they will probably make a specific announcement in the next election campaign, especially if the Opposition take a definite stand on this question. There are three political leaders however, in the west, both sides of politics in Alberta, and Mr. Haultain in Saskatchewan, who urge that

the western provinces unite on this issue, and the way the scheme is dragging along it looks as if nothing will be done from this end until it is taken out of the hands of the Dominion.

Certain eastern papers are making the most of our late spring, but it will be a sorry day for Ontario and Quebec if there is a poor crop this season. The eastern homes will have to economise and that will mean many men out of employment. Big crops in the west mean manufacturing night and day in the east, and without the industries, which we out here keep going, there won't be enough life left in the east to enable them to make a kick.

This is the weather we all sighed for when there was no coal and the heronometer was frozen up.

The wheat fields have now taken to "the wearin' of th' green."

The prohibitive postage rates on American publications entering this country is not fair to the American residents of the west. Fifty-eight thousand people came over from the United States last year, and although the immigration from the south has fallen off a little during the last month, the climatic conditions of the whole country accounts for the ebb in the tide for the time being. But so long as there are cheap lands and free homesteads in these provinces, the settlers who can enjoy privileges which their own country cannot offer, will come to make their home. These people when they do settle among us want to keep in touch with their home land, but cannot do so under such an embargo as is imposed by the new postal law. We believe that the government has made a mistake in imposing these conditions which are a manifest injustice to the Americans who cannot be expected to sever all home ties after getting the first breath of our prairie air. If we want to keep the American immigration coming we must not impose such restrictions as those contained in the latest postal regulations.

The turnover of every business house in Regina exceeded last month what it did a year ago; the freight returns are larger in volume, and the Dominion express Co.'s returns show a remarkable increase. Money, however, is tight as there is so much of year's crop in the country yet that business is consequently tied up. It will keep the railways busy cleaning up the wheat of last year in time to handle this crop. Notwithstanding the stringency of the money market the prosperity of the country continues and the settlers are pouring in and taking possession of the vacant lands. Every train is loaded and the hotels are full all the time; the business houses are busy, and the carpenter's hammer beats time in the march of progress.

From the editorial comment of the Calgary Herald it appears that the question of the university site is not yet settled, and the hope of Calgary is based on a recent statement by Hon. W. H. Cushing, their member that the people of Calgary should cry out till they are hurt. The Herald comment concludes—"Mr. Cushing is a great strength to the government of Alberta,—how great, he perhaps does not himself realise. The present preponderance of government members in the legislature cannot be expected to continue past the next election, and with the shifting proportions will come a great increase in the influence of southern Alberta and also of Mr. Cushing. The government has been laying up trouble for itself in this part of the province. It has displayed a singular lack of foresight in its treatment of Calgary and the Calgary district, and it will need Mr. Cushing when the day of reckoning arrives.

"Everyone knows that Calgary was promised the university as partial compensation for losing the seat of government. The action of the premier and those who supported him in endeavoring to shift it to Strathcona was a breach of faith to this city. The fight is only at its first round and there is, as Mr. Cushing says, "much to happen yet." It is evident that Mr. Cushing is in the fight to stay till it is won and Calgary will back him up, irrespective of politics, in the firm belief that he can carry his point in the end."

BACK TO HEALTH AND PUBLIC LIFE

St. Raphael, France, May 25.—Mr. and Mrs. Joseph Chamberlain, who have been sojourning here for some time past, are returning to England in a few days. Mr. Chamberlain is much improved in health, but it is probable that a considerable time must elapse before he can re-enter public life.

SUNSHINE FURNACE UNBREAKABLE FIRE-POT The lower portion of a fire-pot is usually nearly or partly filled with dead ashes, leaving the live, red-hot coals in the upper part. The result is that the upper portion expands much more than the lower. This uneven expansion causes a strain too great for a one-piece fire-pot to stand. Sooner or later it will split, allowing precious heat and sickening gases to escape. But the fire-pot of the Sunshine is constructed to meet this condition. It is in two sections. The upper half expands as much as necessary, independently of the lower. When cool, it contracts back to its original size, fitting to the lower half perfectly. And this strong, unbreakable, fire-pot is just one of the many superior features of the Sunshine. If your local dealer does not handle the "Sunshine," write direct to us for FREE BOOKLET. W. F. LUXTON, JOURNALIST. MRS. MCKINLEY GONE. Canton, Ohio, May 26.—Mrs. William McKinley, wife of the late president, died here at noon today. The transition from life to death was so peaceful and gradual that it was with difficulty that the vigilant physicians and attendants noted when the dissolution came. There was no struggle and no pain. Mrs. McKinley was unconscious for four or five days before her death. Piles get quick and certain relief from Dr. Shoop's Magic Ointment. Please note it is made alone for piles and its action is positive and certain. Itching, painful, protruding or blind piles disappear like magic by its use. Large nickel-capped glass jars, 50 cents. Sold by the Regina Pharmacy Stores.

The Piano Loved by Musicians There are pianos living on their past reputation. There are others that do not enjoy the same reputation in Canada that they are supposed to hold in other lands. The New Scale Williams is no such piano. It is loved for itself. The ravishing tone, in all its glorious sweetness, evenness and volume—the sensitive, sympathetic touch—the power and possibilities of this magnificent instrument—make it the delight of the artist, the proudest possession of the home. The builders of the New Scale Williams make price the last consideration. It is solely a question of superiority at every stage of the work. The New Scale Williams Piano is mechanically and architecturally perfect. Its creation from wood and metal is the work of master hands, directed by the ideas of the art of piano building. It is, beyond question, Canada's finest piano, and one of the world's masterpieces. It is the virtuoso's preference—the singer's greatest assistant—the choice of the teacher—the joy of the amateur. Fill in the coupon below—take to your local dealer or send to us—and receive, absolutely free, several booklets issued by us—all beautifully illustrated and wonderfully interesting to anyone contemplating the purchase of a piano. Our easy payment plan enables practically everyone to buy one of these superb instruments. THE WILLIAMS PIANO CO. Limited, Oshawa, Ont. W. G. F. SCYTHES & CO., REGINA, SASK.

PREDICTS DOLLAR WHEAT

Big Miller Says no Decrease in Wheat (Acres)—Foreign Trade—Prices to Soar

Winnipeg, May 25.—S. A. McGaw, president and general manager of the Western Canada Flour Mills, Ltd., left for the east last night. Mr. McGaw in an interview said: "I came west on May 5 principally to look into crop conditions and since then have spent a good deal of time in different parts of the country. I think that although the seeding is later than usual the seed bed is in such perfect condition that with anything like good weather from this time on a reasonably early harvest may be looked for."

"As far as the acreage seeded is concerned, there will be little or no decrease in wheat, and there will be a very heavy increase in the acreage of coarse grains. As prices are very steadily assuming higher levels, and are likely to continue doing so, there will be more money in an average crop this year, than there has been in any bumper-crop in the history of the country."

Asked as to export to the Orient, Mr. McGaw said: "I think this trade is only beginning. The flour sent from Canada is rapidly gaining in favor both in China and Japan on account of its strength. Formerly the flour consumed was made from the weak white wheat of the Pacific coast. As far as our mills are concerned we have sold to the Orient all the low grade flour, we can possibly manufacture in the next two months. So far as our trade with Britain is concerned, their prices for flour do not as yet equal our prices for wheat, but their prices are advancing in a cautious way, and in the meantime their stocks are being depleted. Prices of wheat in the United States will prohibit flour for export and the trade must come to the Canadian miller, for the Canadian wheat market today is really the cheapest in the world. The world's wheat shortage for this year based on the most reliable figures we can get is four hundred million bushels, and it looks to me as if the European buyers will have to meet our prices. I expect to see \$1 wheat in Winnipeg before the season is out, though it may drop lower than that is at present before it reaches that point."

THROUGH HIS GETHSEMANE

Emmerson Makes Biblical Reference to his Case—Confidence Resolution is Qualified

Moncton, N.B., May 23.—Westmoreland Liberals in convention assembled have tried Hon. H. R. Emmerson and found him abundantly innocent. Yesterday they passed a resolution accepting his denial in parliament and reiterating their confidence in him.

Part of the preamble to the resolution said: "Whereas the Conservative opposition members and press, failing to substantiate any charge of corrupt or improper administration of any department or member of the present Dominion government have passed from general and vague charges of improper administration to insinuations of improper conduct by individual public men in their private capacity."

A mass meeting was held in the evening, when addresses were delivered by Senators Gilmore and Donnelly, Mr. Ferguson, Loggie and other federal members spoke. Mr. Emmerson repeated his defence. He said he was passing through the Gethsemane of his political life, but there would be a resurrection, and the man thinking he had gone into political oblivion was a liar and the truth was not in him."

He further said that he was so familiar with cabinet ministers being ejected from hotels and theatres that when general reference was made in parliament he did not realize that he was the one referred to. Consequently when the charge was made in an obscure newspaper and a prominent Liberal newspaper had called upon Sir Wilfrid Laurier to remain at home from the Imperial Conference till this matter was settled, he decided to resign to give Sir Wilfrid freedom and also that he might better fight his traducers "and by the help of God" he would win.

INDIAN LAND SALES

Fifty-six thousand acres of the Crooked Lake reserve will be placed on the market and sold by auction by the Dominion shortly, the surveyors are now at work on the block. The Inspector of Indian Agencies, W. H. Graham, was in the city this week on business connected with his office. He could not say what date the sale would take place, but arrangements are being made to hold it as soon as possible.

This land is part of a rich agricultural area and its development will greatly affect the town of Broadview which has shown considerable business activity since the announcement respecting the sale. The land will not fall into the hands of speculators as it will be sold in quarter sections.

BEEF GOES UP

Winnipeg Wholesalers Put Prices in the Air owing to Severe Winter on Cattle

Winnipeg, May 27.—Beef took another jump this morning and reached 83 cents per pound for the best quality of beef. So far this season the retailer has had to pay the wholesaler man, for as yet the price has been raised in a very few places to the consumer. The jump today was 2 cent a pound and last week the price was raised by the same fraction.

The jump, the meat men say, has been occasioned by the hard winter. There is a shortage just at present in good cattle and the demand still increases. There are lots of cattle in the country but the quality is far from being the kind the people are demanding.

The cattle are not ready for beef and this state of affairs will likely continue for some months, till the grass fed cattle come in. At present the grass in the country has not commenced to grow and the cattle will be very little use till they are fed on the green verdure. This will mean that good cattle will not be coming in in quantities till the end of July. In the meantime the price will probably be raised.

BIG J. I. CASE HOUSES

Fort William Will be Made Distributing Centre Between United States and Canada

Fort William, May 28.—English financial papers of late report that the J. I. Case Co., of Racine, Wis., have issued bonds for five million pounds to build factories at Fort William, Ont., and St. Petersburg, Russia. The Case Co. own lots in the township of Neobing, containing 192 acres, which it purchased of Col. Ray, of Port Arthur, three years ago. The company has never given any intimation that it intended to build, and has always parried every endeavor to obtain information on that point. The site has a frontage on the Kam River, and is considered an ideal location for a large factory, as it is touched by all the transcontinental railways.

GRADING G.T.P.

Grading has started on the G.T.P. just east of Edmonton by Dukelow & Sons, contractors of Prince Albert. They have about fifty teams and one hundred men at work.

What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription." Golden Medical Discovery is a most potent alterative or blood-purifier, and tonic or invigorator, and especially favorable to a cure in every way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhoea), bladder, uterus or other pelvic organs. Eyes in the chronic or ulcerative stages of these affections, it is often successful in affecting a cure.

The "Favorite Prescription" is advised for the cure of one class of diseases—those peculiar weaknesses, derangements and irregularities incident to women only. It is a powerful yet gently acting invigorating tonic and nerve. For weak worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle of these medicines, and contains full and complete directions, and also the names of the physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines. The words of praise bestowed on the several ingredients entering into Doctor Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because these are writing for the guidance of their medical brethren and know whereof they speak.

These medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extract of the roots of native, American medicinal forest plants. They are both sold by dealers in medicines. You can't afford to accept a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Pills, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

DREDGING WASCANA

It is not likely that the dredging of Wascana will be undertaken by the government until the construction of the building is complete as the water will be needed for building purposes, falling the extension of the waterworks to the south side by that time. When the time arrives, however, the dam at the reservoir will be broken and the water run off so that teams can scrape the basin to a uniform depth. The first foot of clay taken out will be kept separate from the other dirt it being vegetable matter which will serve as top dressing which will serve for fixing up the grounds around the capitol. In order to prevent vegetable impurities in the basin after being reflooded the whole body of water may be surrounded by a concrete wall rising about eighteen inches above high water mark. This would give dock facilities at every point, and would make the Wascana delightful for boating, but the concrete work may prove too expensive and this feature of the work might be abandoned. If this work, however, is carried out in connection with the dredging, together with the landscape survey, it will make the old reservoir a place of beauty.

SCHOOL FOR HOUSEWIVES

MARION HARLAND

Different Ways of Preparing Fish

EVEN if one is not a rigid churchman who eschews meat for Lent, it is well to have fish play an important part in the spring diet. Though we may not pin our faith to the old theory that fish food is brain food, we can be assured that the phosphates it contains and its digestible qualities prove very beneficial to the physical system that is relaxed by enervating spring days.

Not every one, unfortunately, likes fish, but, if possible, the taste for it should be cultivated. Probably if we were compelled to live on it, as were the old Homeric heroes, we might be inclined to complain as bitterly as did Menelaus; but as an occasional article of diet it should have a place in every family's weekly menu.

Nothing affords greater relief to the housekeeper sore beset by that ever-recurrent thought, "What shall I give them to eat today?" than to have a family with a strong liking for fish. So fortified, she can provide soup or salad, a boiled or broiled or baked second course for dinner, croquettes or scallops for an entree, and even the "piece de resistance" of the family lunch. She can be happy, moreover, in the fact that she is feeding her flock with a healthful, digestible food.

GUIDES TO SELECTION

"But," some one cries, "I cannot digest fish. Nothing disagrees with me more quickly!" Which state should be attributed to some personal idiosyncrasy; to improper selection of the fish itself; to carelessness in preparation; or to bad methods of cooking, rather than to wholesale condemnation of a fish dietary.

For whatever the exceptional person may say, fish is both digestible and nourishing to the majority of people. Where could one find greater health and vigor, for instance, than in the small fishing settlements where little or no animal food is obtainable?

Of course, not every kind of fish has equal value in this respect; the amount of nourishment varies with the species. Thus, red-fleshed fish, such as salmon, are more nutritious than the white-fleshed, the latter, however, being more digestible. Cod proves the exception to this rule. The homely and cheap herring, strange to say, possesses more nourishment than almost any other fish.

FLABBY FISH ARE STALE

Not every one is a good buyer of fish. To many housekeepers trust so implicitly to the dealer for selection that they cannot tell if a fish is fresh or stale. Yet really it is not very difficult to acquire this knowledge. A fresh fish should feel stiff and rigid—flabbiness is a sure sign of staleness. The gills should be red and the eyes bright and un-sunken. These are much better tests than to judge by the smell in these days of cold storage. If, on being purchased, a fish is not found to be

A Bag is Not Necessary if a Boiler is Used.

Hold Fish by Head and Remove Scales.

quite up to the mark, it can be somewhat improved by washing in vinegar and water.

Nothing is more disgusting to a careful housewife than a badly cleaned fish. Nowadays one usually buys them ready cleaned; but even so, it is important to go over them carefully before putting away. Holding the fish by the head, scrape with a sharp knife to remove all scales, then either wash in cold water or wipe all over with a clean, damp cloth. It is a mistake to immerse a fish very long in water, even for the purpose of cleaning, as it is apt to destroy the flavor.

The after-treatment of the fish depends chiefly upon the way it is to be cooked. Probably more people fail in boiling it than by any other method. Always, if possible, use a fish kettle with a strainer, to avoid danger of breaking. The time-honored method of tying the fish in muslin and placing it on a plate at the bottom of a large kettle is, however, not to be despised. Boil in as little water as possible, and except in the case of salmon, which requires boiling water, put the

fish into lukewarm water, as the high temperature tends to break the skin, and with cold water much of the flavor is lost.

The length of time for cooking varies with the weight of the fish. One can usually tell when it is done by the flesh separating from the bone. It can scarcely cook too slowly, however, and, after being brought to the boiling point, should simmer gently for the rest of the time. On removing, strain carefully, and keep covered until ready for use. If lemon juice or vinegar is added to the water in which whitefish is cooked, the color is improved.

Half the success of the boiled fish depends upon its dressing and serving. Always a white cream sauce, with hard-boiled eggs, or a Hollandaise sauce are the most popular. A parsley sauce, of one made of a good handful of spinach or watercress, pounded and rubbed through a fine sieve, heated over the fire with three tablespoonfuls of cream, one dessertspoonful of tarragon vinegar, yolks of two eggs, salt and pepper until it is light and frothy, makes a pleasant change.

Always serve a boiled fish in a folded napkin and garnish it with parsley, hard-boiled eggs or, if a little color is liked, with lobster coral.

Broiled fish next to planked is probably the most palatable way it can be served. There is a decided art, however, in broiling. The broiler must be absolutely clean and rubbed with soap to prevent sticking; the fire should be clear and bright, and the fish itself must be wiped perfectly dry and brushed over with oil or melted butter and well seasoned. To cook with the necessary alacrity it is well to raise the broiler on two bricks. If the fire is inclined to smoke, throw on a handful of salt.

PLANKING IN FAVOR

Planked fish are now in such favor that every aspiring housekeeper should own a plank. This should be of hardwood about two inches thick, and either grooved or slightly hollowed in the centre to retain the juices, and furnished with clips or wires to fasten the fish to it. The plank must be heated before using

While the ideal way to plank is before an open fire, the upper grade of a very hot oven is a good substitute. Planking is usually associated with shad, but any good white-fleshed fish, such as bluefish, whitefish or halibut, is equally good.

Frying is acknowledged the least digestible way to cook fish. It can, however, be done deliciously if the fish is either rolled in flour or dipped in well-seasoned egg and bread crumbs and done in very hot fat. The temperature should be slightly lower than when cooking such things as croquettes, whose interior has been previously prepared. Oil or cottolene is the best medium for frying, as lard is very apt to ignite.

Besides these staple ways of preparing fish, delicious rechanques, croquettes and salads may be made from left-overs. Escalloped fish in little individual forms or shells are good either for a family lunch or as a course at more formal affairs. It should always be served with sauce tartare, or, at least, with a rather acid mayonnaise.

Every one should own some of the indispensable fish moulds, which

now are very inexpensive. These give most attractive forms in which to prepare left-overs, or, indeed, new creamed fishes. The sauces in which the fish is prepared should always be a little stiffer than when it is not to be moulded. A very attractive way to serve salmon, either fresh or canned, is in timbale moulds. It is also very artistic as a course for a dinner when chopped, creamed and moulded in the shape of a huge curled fish and served on a flat platter, covered with caper sauce and garnished with parsley and lemon.

Various bisques and fish soups are excellent Lenten fare, and should be more generally used than they are, as should also fish salads, chowders and creams. We are not very well acquainted in this country with the fish pie of which the English are so fond, but they provide a quite delicious way to utilize cold fish and cold mashed potatoes.

Indeed, the variety in fish fare is very marked, and gives small reason for complaint. Should this sea or fresh water food be a matter of daily, or even more frequent, occurrence on the family board,

Fish Moulds are Useful for Rice and Salmon.

Fish Recipes for Lenten Fare

A Left-Over Fish Bisque.

REDUCED baked, or broiled, fish of bones and skin, pick into fine bits with a silver fork. Get from your fish moulds for a few days a pint of water, put over the fire, add a pinch of salt, and when the water has boiled, add the fish, cook for three minutes and serve. Pass sliced lemon with it.

Red Snapper Soup.

Treat a quart of white stock to a boil, stir in two cupfuls of the cold cooked fish, freed of skin and bones, and minced finely. Add pepper, salt, a tablespoonful of chopped parsley and a great spoonful of butter. Heat a cupful of milk to boiling, thicken it with white rice and a half cupful of fine cracker crumbs. When the fish is cooked, add the milk, and stir the liquid into the thickened milk and serve.

Planked Shad.

Have your fish cleaned and split down the back. Wash and wipe dry. Have ready a clean oak or hickory plank about two and a half inches thick, and of such a length that it will go readily into your oven. Put it in the oven until it is heated through. Rub your shad on both sides with an abundance of butter, and sprinkle with salt and pepper. Lay it open side up on the hot plank, and fasten it firmly in place by putting a tin tack in each of the four corners. Lay the plank on the upper grating of the oven, and rub the fish with butter every few minutes until done. You can tell when this point is reached by testing with a fork. Carefully withdraw the plank and serve the fish on a hot platter. Serve with melted butter and garnish with lemon and sprigs of parsley.

Shad Rice Croquettes.

Parboil and blanch. When perfectly cool break up and pass through a colander or vegetable press. Season with lemon juice, kitchen bouquet, paprika and salt. Have ready a cup of rich rather thick cream butter. Stir the rice into it, and add a

well-beaten egg, together with a tablespoonful of fine bread crumbs to give the croquettes consistency. Let the mixture sit in a jar and bread crumbs and serve as the crumbs settle. In the morning reheat which has been brought gradually to a boil.

Salmon Loaf.

Flake cold boiled salmon and mix with it a gill of cream, a half gill of milk and two beaten eggs. Stir a handful of the crumbs, the juice of half a lemon, a tablespoonful of butter, salt and pepper to taste, and a tablespoonful of minced parsley into the mixture, turn into a greased pudding dish, and bake in a steady oven for three-quarters of an hour then turn out upon a hot platter. Serve with a white sauce. This may also be boiled in a large covered fish mould.

A Curry of Salmon.

Chop a can of salmon two hours before using and remove all bits of skin and bone. Put the salmon in a large bowl, add to it a tablespoonful of flour mixed with a teaspoonful of curry powder, and when the mixture is blended add a large cupful of boiling water, a little salt and a dash of lemon juice. Put the salmon into the mixture. Cook for ten minutes, and serve with a white sauce.

Halibut Steak Baked with Tomatoes.

Make a rich sauce of tomatoes, fresh or canned, onion juice and salt. Season with pepper, salt, a dash of lemon juice and a dash of Worcestershire sauce. Cook five minutes. Lay the halibut in oil and lemon juice on a hot platter. Pour the sauce over it, cover the roaster, pour the sauce over it, and bake for ten minutes. When done, cover the roaster, pour the sauce over it, and bake for ten minutes. When done, cover the roaster, pour the sauce over it, and bake for ten minutes.

Marion Harland's Family Meals for a Week

SUNDAY
BREAKFAST. Fruit, cereal and cream; creamed fish on a grain, fried mush, brown bread and butter, tea and coffee.
LUNCHEON. Baked ham, Welsh rabbit sandwiches, fruit salad, cream cheese and crackers, bread pudding with strawberry sauce.
DINNER. Oyster bisque, broiled beef à la mode, broiled sweet potatoes, curled tomatoes, cabinet pudding, with brandy sauce; black coffee.
MONDAY
BREAKFAST. Fruit, cold oatmeal porridge and cream, fried shad, baked potatoes, brown and white loaf, tea and coffee.
LUNCHEON. Cold beef hash, creamed tomatoes (left-over), stuffed potatoes, custard pudding, bread and butter.
DINNER. Scotch egg soup, lamb's liver on escalloped, baked potatoes, curled tomatoes, plain, garnished with hard-boiled eggs, also cream, with bread pudding and light ticks, black coffee.
TUESDAY
BREAKFAST. Fruit, cereal and cream; fried ham, cold eggs, cornmeal mush, toast, tea and coffee.
LUNCHEON. Hatched liver on toast (left-over), potato salad, warm gingerbread and cream, tea and coffee.
DINNER. Browned potato, stewed tomatoes, spinach, with caper sauce; stuffed tomatoes, potato souffle in left-over bread, black coffee.
WEDNESDAY
BREAKFAST. Strawberries, cereal and cream; slice of ham with poached eggs, toast and coffee.
LUNCHEON. Oyster omelette, baked cream toast, potato salad, cream cheese and crackers, bread pudding with strawberry sauce.
DINNER. Bean and tomato soup, baked shad, with sauce piquante, lamb chops, string beans, green peas, creamed potatoes and sponge cake, black coffee.
THURSDAY
BREAKFAST. Fruit, mush and cream, fish croquettes (left-over), Graham biscuits, toast, tea and coffee.
LUNCHEON. Barbecued ham (left-over), cold shad, cold eggs, cold potatoes, creamed spinach, potato salad, cold cream, with hard-boiled eggs, with mustard and butter, and cold cream sauce.
DINNER. Russian soup; second day's creamed potatoes, with tomato sauce, cold shad, cold eggs, cold potatoes, creamed spinach, potato salad, cold cream, with mustard and butter, and cold cream sauce.
FRIDAY
BREAKFAST. Berried cereal and cream; shad, toast, tea and coffee.
LUNCHEON. Oyster fritters, cold shad, cold eggs, cold potatoes, creamed spinach, potato salad, cold cream, with mustard and butter, and cold cream sauce.
DINNER. Cold shad, cold eggs, cold potatoes, creamed spinach, potato salad, cold cream, with mustard and butter, and cold cream sauce.
SATURDAY
BREAKFAST. Fruit, mush and cream, fish croquettes (left-over), Graham biscuits, white loaf, tea and coffee.
LUNCHEON. Cold shad, cold eggs, cold potatoes, creamed spinach, potato salad, cold cream, with mustard and butter, and cold cream sauce.
DINNER. Cold shad, cold eggs, cold potatoes, creamed spinach, potato salad, cold cream, with mustard and butter, and cold cream sauce.

FOR EVERY WOMAN ACCORDING TO HER NEEDS

The PRACTICAL GIRL and her FOODS

SHE CONSIDERS ** APRONS INDISPENSABLE

TIME AND MONEY SAVING HINTS

To Darn Cloth

The practical girl with a cross-stitch pattern worked in colors on scrim. This apron is equally pretty made up in white linen, trimmed with a blue banding, a white embroidery ruffle and piped with blue sateen.

Unfinished Skirts

Unfinished skirts should be hung up, not folded. In fact, much unfinished work is best for this treatment; but the hanging must be properly done or the result will be worse than that of folding.

Use of Screens for Unfinished Curtains

To the under strip any amount of work may be done on the screen. The curtain falling over will protect from dust. The screen can be pretty well folded and set across a corner without injuring the work in the least.

An Ounce of Prevention

A STITCH in time saves nine," it is said, but there are some stitches that may be taken even before "in time," and thus save more than "nine."

The Iron Gray Age

This does not refer to the hair by any means, although the expression "iron gray" hair is always dreaded by every woman. It refers to the mental wear and tear which all of us feel with advancing years.

A Novel Holder

If short of a holder, did you ever try using a small safety pin in its place? If not, do so, as you will find it very effective.

Two Squares of Flowered Organdy Make this Apron

One Kind of a Worn Bureau Scarf May be Utilized

A CERTAIN old-fashioned dictionary defines an apron as "a half girde or garment covering the front of the person, used for workmen and others for the purpose of cleanliness."

Had a reader whose lot it had been never to see an apron changed on that paragraph he would have small conception of the wonderful evolution of the modern apron.

APRONS FOR MANY USES

Time was when many a woman looked on an apron as a badge of servitude, the sign of menial occupation that must be rigorously concealed; but we have changed all that.

front seams at the bottom to give fullness. The armholes are made very large, so the apron may be easily slipped on and off without crushing the most delicate waist underneath.

These gingham aprons are very pretty, made of blue and white or pink and white checked gingham of a fine quality.

Such an apron, besides being practical, is usually surprisingly becoming. Marked by absolute simplicity, yet essentially absolute, it is a little apron that may be worn about the house by the practical girl on whom de-

be lace or even ruffle, trimmed, and a full of lace can be run around the neck. If made up in heavier material, the hem may be bair-stitched all around.

See the Best

An Excellent Apron with Red Sateen Pippings

GINGHAM FOR SERVICE No apron proves more serviceable to the practical girl than a blue, straight one of pretty checked gingham, built on the lines of a child's pinafore.

Patterns for such cooking aprons are easily procured, but should one wish to dispense with a pattern it can be easily made from two squares of gingham long enough to reach to the bottom of one's dress, and allow a two-inch hem, with enough more material to make the sleeves. Five yards of gingham will make one apron for a woman of medium height.

The front is formed of one breadth, while the other is gored to make the two backs. A gingham is reversible, this gives a full breadth at the bottom, tapering to twelve inches at the top. Two four-inch gores are added to the

gomed and neat, she, too, often takes small points to do so. Yet, there are few positions short of actual manual labor where sleeves and shirtwaist fronts are so quickly soiled and soiled as at a desk.

Such an apron requires 3 1/2 yards of linen, 3/4 yard of banding, 2 yards of embroidery and 3/4 yard of sateen. The apron is made with a gored front and two side breadths, the seams be-

Local and General

D. A. Donaldson of Bethune was in the city yesterday.

Miss L. J. Greives of Spokane is a guest at the Clayton.

Mr. and Mrs. Devine of Strassburg are guests at the Clayton.

The addition to the Assiniboia club was commenced yesterday.

J. A. M. Patrick of Yorkton is in the city attending the Grand Lodge of the I.O.O.F.

The remains of an infant were found in the backyard of a house on Toronto street.

Died—At Regina on May 28th, Harry, son of John Kusch, aged one year and three months.

Beaton is and Beaton will be. Free trip to B.C. Write Steele Bros., Steele Block, Winnipeg, Man.

Thomas Smith of Foxleigh left last week for England to spend a well-earned holiday.

Dr. Charlton went to Broadview last evening. There is a mild case of smallpox reported from that district.

J. Y. Griffin & Co., have opened their Regina branch in the R. E. Mickleborough block. The local agent is Mr. Macnamara.

A prairie fire was raging in the Tregarva district on Saturday. Robt. Doig lost some buildings and feed as a result.

Robt. Roe of Grand Coulee was in the city Saturday. He informed The West that he seeded more wheat this year than he first intended and he has grain well above the ground. He has been farming for twenty-four years and he has seeded much later than this season.

A meeting of the finance committee of the city council was held on Monday to deal with the assessment and while the figures have not been officially announced it is learned that Regina's assessment for 1907 will almost double that of last year and will be between twelve and thirteen million dollars.

H. J. Anderson, manager of the Tudhope Carriage Co., recently said: "For implement purposes this country has been divided into three sections, the distributing houses at Calgary, Regina and Winnipeg issuing their own price lists. It is absolutely necessary for the distributing houses to open these points as the territory became out of all reach and handling the amount of business from Winnipeg was impossible."

Supt. Abbott of the C.N.R. was in the city Thursday accompanied by the Soo Line agent, Mr. Preston and another old friend, Mr. McCort. Mr. Preston went to Brandon from here to attend the Concatination of the Hoo Hoo's of which he is a member. During the absence of Gen. Supt. Brown at Banff, Mr. Abbott assisted in his office at Winnipeg. His many friends are pleased to see him back on this division.

J. H. Young, provincial manager of the Canada Life, was in Winnipeg last week attending the convention of the Brotherhood of St. Andrew, an auxiliary association of the English church. Speaking to the press after the convention, Mr. Young said: "This is my first Canadian convention experience, but after an experience in brotherhood conventions in the United States of thirteen years, I think that so far this gathering has been most helpful and successful in every way, and it is bound to be a great benefit, not only to the Brotherhood in Winnipeg, but to the whole church in this western country. Our convention is not nearly so large in numbers as many held in the larger centres, but more than makes up for lack of numbers by enthusiasm of the members in attendance, the excellence of the addresses and the helpfulness of the conference. We have a good strong senior chapter in Regina doing good work. The members are all active and anxious to work."

Mr. and Mrs. Frank Ford and family have returned from Toronto, and will make their home with Wilmot Haultain till their new residence is completed.

Messrs. Alex. Fleming and S. Bartlesman have taken a contract from the Massey-Harris Co. to erect warehouses for them at Saskatoon, Warman and Humboldt.

Messrs. Dawson and Lambert, of Rae street, who have been looking after the C.P.R. coaches in the yards here during the last year left yesterday for the coast. They will send for their families later.

D. Findlay, C.P.R. operator at Fleming was in the city for a couple of days. He was accompanied by Miss Findlay, and while here they were the guests of Mr. and Mrs. Bartlesman.

Dr. Cook, recently of Calgary, who has had twelve years' experience in dentistry, arrived in the city on Monday to take charge of the plate work in the new York Dental Parlors.

Ald. W. R. Ball, of Bolton, Que., was in the city for a few days, the guest of his brother Ald. W. S. Ball. He went west as far as Steettler, Alta., to visit another brother.

E. C. Channel of Concord Junction Mass., was in the city for a couple of days, the guest of Ald. Ball. H. D. McCoy brother of Mrs. Ball was also here for a short visit.

G. Haight and F. J. Collum employees on the C.N.R. were brought to the city in a state of illness a few days ago and are under treatment at the Park Sanatorium.

On the return today from St. Boniface of the assistant Superior General, plans will be definitely decided upon respecting the Grey Nun's hospital. They are at present in possession of the old presbytery, occupied until recently by Mrs. Keenan.

Mr. and Mrs. R. Bourne spent yesterday in Moose Jaw travelling that far with two nieces who were on their way to Pincher Creek.

Members of the railway commission were in the city Sunday in the government car "Ottawa" and went to Saskatoon to inspect a railway bridge.

Mrs. Wallace and children arrived from the east on Saturday to join her husband, proprietor of the barber shop at the Clayton. They have taken up their residence on Rae St.

Thos. Sanderson, M.L.A., for Kinistino was in the city last week on business with the government. Seeding was well advanced in the Carrot River country and there are no complaints respecting the late spring.

TRADING COMPANY STORE NEWS

To-Day We Inaugurate
A New Overall Business

"Carharrrt" Overall

'TIS the secret of good storekeeping to hunt out and select lines that are from time to time being placed on the market. When a certain manufacturer whom we know is reliable "hits on" new methods of buying raw products and of better ways of manufacturing, thus producing goods at lower prices. We believe we would be failing in our duty to the public if we were found without these same goods. Go through this store from end to end and you will find the current markets of the world reflected in all our stocks. If there is anything new, we have it.

"Carharrrt" Overalls have many commendable features

Every garment large and roomy. Made of the very finest Overall fabrics. Unquestionable washing qualities.

Will not rip or tear. Lapped double-stitched seams. All buttons detachable with ring fasteners. Union Made Garments.

Carharrrt Overalls come in plain Blue, Black and Stripes.

Per Garment **\$1.25**

To Make Cooking Easy in Summer Homes

Get a Blue Flame Wickless Oil Stove

Burns the same oil as a lamp and is ready at the scratch of a match, gives a steady clean heat, and does not warm up the house. The blue flame wickless quits work when you quit.

Gasoline Stoves

Two burner gasoline stoves, japanned and neatly finished, complete with lid and lifter, etc. Thoroughly serviceable,
\$4.25

OVENS for either the Gasoline or the COAL OIL STOVES
