WE SELL GILSON FARM EQUIPMENT *Goes Like Sixty*

BACKED BY SIXTY YEARS' EXPERIENCE! DOMINANT IN QUALITY AND SERVICE!

Sixty years of leadership—of giving good value, heaping satisfaction and real service! That's why the Gilson name wins respect and confidence from coast to coast. That's why we are proud to sell this dependable farm equipment.

THE GILSON ENGINE All Sizes
Costs You Nothing

"THE WONDERFUL GILSON"
"The Wonderful Gilson" stands supreme. More Gilson Silo Filler were sold in Canada last year than any other make. It is guaranteed to be the lightest running blower-cutter made.
Be independent—get a Gilson Silo Filler and fill your own silo—with your own engine, 4 h.p. or larger—at the proper time, when your corn has the greatest feeding value.

HYLO SYLO
The Hylo Sylo insures sweet, fresh, succulent ensilage down to the last forkful. It is built to last indefinitely. Exclusive patented features of design and construction explain why the Hylo is chosen by the discriminating farmer. Pays for itself in the first season. Then year after year, pays 100 per cent profit on your investment. Can you beat it?

THE GILSON SPREADER
Manure is the best fertilizer. You have it. Use it! The best Manure Spreader made in the world. It has a wide spread. It is low down. It has light draft. It will take a real load. It is free from clutches, gears and all complicated parts.

Call and see our nearest dealer, name below. He will save and make you money on the equipment illustrated and on Gilson Thrashers, Dixie-Ace Tractors, Wood Saws, Grinders, Pump Jacks, Belting, etc. Write for Catalog.

A large crowd assembled on Sunday afternoon to witness the immersion when H. Lawson, Pentecostal Preacher, baptized two more converts.

Mrs J McKenney and children, and Miss Doris Andrew, Frankville were week end visitors here.

Hard Island

Recognizing the great importance of the mission work of various kinds

in which many are engaged, as a branch of the work of the Church which has reference to the Propagation of the Gospel amongst the masses around us. Amidst the diversities of operations by the one Spirit, it may well be expected that some of the methods found useful in this field of labour will not be identical with those employed for the edification of persons brought up in a more uniform knowledge of the truth, yet even here the the wise and prayerful worker, will under his Lord's teaching and guidance distinguish between that which may excite the sensibilities without feeding the Soul and that which is otherwise The Church of Christ if true to her allegiance cannot forget her part in the command, "Go ye into all the world and preach the gospel to every creature" It is the operation of the spirit of God that prepares and qualifies the instruments who shall fulfil this command.

Depending on his guidance, waiting on Him for the renewal of strength, the disciple is found still sitting at the feet of Jesus, listening that he may learn, and learning that he may obey. He humbly places himself at his Lord's disposal and when he hears the call "whom shall I send and who will go for us is prepared to respond in childlike reverence and love "here am I send me"

Gather us in thou love that fillest all, Gather our rival faiths within thy fold Rend each man's temple-veil and bid it fall, That we may know that Thou hast been of old, Gather us in, we worship only thee,

In varied names we stretch a common hand,
In diverse forms a common soul we see,
In many ships we seek one spirit land.

A YEAR FOR LIFE

A CANADIAN GOVERNMENT ANNUITY PROVIDES IT

- No better life investment available
- No better security obtainable
- Cannot be seized or levied upon for any cause
- Will be replaced if lost, stolen or destroyed
- Not affected by trade depression
- Free from Dominion Income Tax
- No medical examination required

Anyone over the age of 5 years resident or domiciled in Canada may purchase.

Any two persons may purchase jointly. Employers may purchase for their employees—school boards for their teachers—congregations for their ministers.

Apply to your postmaster or write, postage free, to S. T. Bastedo, Superintendent of Annuities, Ottawa, for new booklet and other information desired. State sex and age last birthday.

FIT BEES FOR WINTER

Get Them in Shape for Their Long "Shut In."

Be Sure Your Queen is a Good One—A Strong Colony and Plenty of Stores the Next Requisites—Pay Less for Better Bulls.

(Contributed by Ontario Department of Agriculture, Toronto.)

It is taken for granted that the beekeeper has introduced a vigorous Italian queen to every colony in which a failing or poor queen was found, late in July or early August. If this has been done and room provided, so that the queen could lay to capacity and the bees still store any surplus honey that might be harvested, then the beekeeper is in a fair way to winter the bees successfully. There are two other manipulations, however, which should be completed to assure successful wintering.

First, unless one has a first-class cellar, it does not pay to attempt to winter weak colonies in the cellar. Weak colonies or nuclei cannot be wintered outdoors with success at any time. All colonies covering less than three frames, on both sides, should be united with other colonies. The best way to unite is to place a sheet of newspaper between each brood-chamber and allow the bees to unite without any further attention, except that in a week or two the paper should be removed and the bees left in one hive-body.

The second manipulation, and equally important, with having a good queen and a strong colony, is the question of the winter food supply. Beekeepers who are willing to make an investment of not less than fifty pounds of first-class honey per colony, are the beekeepers who next season secure the large crops of honey. If the fall honey is not of known quality, then it will be better to feed each colony from ten to fifteen pounds of sugar syrup, mixed in the proportion of two of sugar to one of water. The sugar should be thoroughly dissolved, but the syrup must not be burned. This syrup should be fed while quite warm in an inverted Mason fruit jar or honey pail with perforated cover; and if fed inside an empty super, with the entrance reduced, there will be very little fear of robbing. Feed the warm syrup in the evening and before the end of September. Then if the colony has 50 pounds of natural stores and is headed by a good Italian queen, this colony will then be in shape to either pack for outdoor wintering or to place in the cellar. In the winter of 1919-1920 the winter loss throughout Ontario was over 50 per cent., yet even in a winter when the loss was so heavy, many successful beekeepers wintered practically without loss. It is unnecessary to have a heavy winter loss in bees, provided the beekeepers will give the same thought and attention to the apiary, which successful business men in all walks of life give to their individual business.

The office of the Provincial Apiarist, Ontario Agricultural College, Guelph, is always ready to assist beekeepers in any way to make beekeeping more successful. Consult him, if in doubt.—F. Eric Millen, O. A. College, Guelph.

Paying Less for Better Bulls.

A survey recently made in connection with the "Better Sires—Better Stock" campaign carried on by the United States Department of Agriculture shows a general ratio of one bull to every 18.9 cows. Experience, however, in Pennsylvania, the state which leads in the number of bull associations, shows that 93 bulls are sufficient for the 5,604 cows belonging to members of the bull associations, or an average of about one bull for every 60 cows. These figures are taken from the bull association directory recently issued by the Dairy Division, United States Department of Agriculture.

If the members of these associations owned their bulls individually, at the usual ratio of one bull for every 18.9 cows, they would need 296 bulls instead of 93. Yet the 93 bulls give the required service as effectively as 296 would do, and in fact better, because the resulting offspring are better. The association bulls are of better quality than the ordinary run of sires privately owned, and their daughters are apt to be better-producing cows.

Even this does not tell the whole story. After an individually owned sire has been used for about two years it is usually necessary to get a new one. In eight years, therefore, these Pennsylvania farmers, if they owned their bulls separately, would have to provide themselves with four times 296 bulls, or 1,184; whereas in the bull associations at the end of two years they simply move each bull to another block. The original 93 bulls, if they all live and do well, can be used for the whole eight years. There is quite a difference between the cost of 93 bulls and that of 1,184, to say nothing of the difference in their usefulness.

The members of bull associations sometimes pay less and always receive more for their money than cow owners who go it alone.

Clean Thrashing Saves Wheat.

Members of the farm bureau of Kittson County, Minn., last year saved \$77,000, or about \$500 to each thrashing machine, by using tight-bottom racks, canvas under the feeder, cleaning up when required and after each getting of the machine during the thrashing season. A conservative estimate of the saving by clean thrashing in this county was 27,500 bushels of wheat, 20,400 bushels of oats, and 10,000 bushels of barley.

GREAT BRITAIN - JAPAN - UNITED STATES ALLIANCE TO GUARANTEE PEACE

Lloyd George Advocates Pact Between Three Powers as the Surest Way to World-Wide Peace.

A despatch from London says:—"If the alliance with Japan could be merged into a greater understanding with Japan and the United States on all the problems of the Pacific, that would be a great event, and it would be a guarantee for the peace of the world."

Thus spoke David Lloyd George, the British Prime Minister, before the House of Commons on Thursday in outlining the work of the recent conference of the Imperial Premiers.

The Premier was dealing specifically with the Anglo-Japanese alliance at the time, and explaining how the conference had unanimously recognized that Japan loyally had carried out her obligations to Great Britain during the war in letter and in spirit.

Mr. Lloyd George asked if it was to be suggested that Great Britain now should turn her back upon Japan with a mere thank you and good-bye, after Japanese aid had proved one of

the turning factors in the war, in that it had given protection to the transit of Dominion and Indian troops across seas.

Even countries disliking the Anglo-Japanese alliance would despise the British if, after such services, Great Britain turned her back upon Japan.

The Premier said he saw no reason why it should be impossible to remember obligations to Japan and at the same time preserve a spirit of fraternity with the United States.

It was a cardinal principle of British policy, the Premier continued, that Great Britain should act in as complete accord with the United States as possible. He did not know of any country in the world with whom it was more important to act in concert. He declared that the surest way to make a success of the disarmament conference was first to reach an understanding on Pacific questions, and he hoped his view in this respect would be taken at the Washington gathering.

A RACE FOR HIS LIFE

SCOTTISH SCOUTS GO WITH SHACKLETON

Chosen by Explorer to Sail on Two Years' Voyage.

A despatch from London says:—Two Scottish boy scouts will shortly embark on a cruise of adventure, such as their comrades throughout the world daily dream about, for Sir Ernest H. Shackleton, the Antarctic explorer, has selected them from among 10 competitors to accompany him in his coming Antarctic expedition as cabin boys aboard his ship The Quest.

The youths are Patrol Leaders J. W. S. Marr of Aberdeen, aged 19, and N. E. Mooney of Kirkwall, in the Orkney Islands, aged 17. The 10 picked applicants came to London from all parts of the United Kingdom. Sir Ernest interviewed them to ascertain their qualifications and found so much talent that he could not make a decision until Thursday.

Young Mooney came all the way from the stormy Orkneys, a journey of 600 miles. He had never seen passenger railway trains before and was so confused by the big city and its strangers that Sir Ernest could not get him to talk. However, Mooney has a winning personality and knows all about boats and the sea, so does Marr.

The Quest will sail at the end of this month, to be gone two or more years.

Saskatchewan Farm Brought \$84,000

A despatch from Winnipeg, Man., says:—A farm of 1,120 acres, in the Gull Lake district, Sask., sold recently for the sum of \$84,000. It was a typical example of the agricultural progress in prairie districts. Another indication of agricultural growth with the settlement of new lands is shown in reports on tractor sales. Western Canada has purchased 10,279 tractors in the last year, and orders for 7,500 more are expected to be placed by the three prairie provinces this year.

JOIN SPANISH FOREIGN LEGION

British Unemployed Enrol for Service in Morocco.

A despatch from London says:—Scores of unemployed former British service men are reporting daily to the Spanish Consulate here for enrollment in the Foreign Legion of the Spanish army.

Information which led to this recruiting is said to have been circulated secretly among the unemployed. Applicants for enlistment are asked only two questions: "Can you fight?" and "Will you fight?"

Although the men are informed of the dangerous nature of the prospective campaigning against tribesmen in Morocco, they readily enlist in view of the inducements offered. These include a bonus of 700 pesetas for a five-year enlistment, and 400 pesetas for a four-year enlistment. Other attractions are eligibility for medals, decorations and promotion to commissioned rank, as well as daily pay of four and one-half pesetas on final acceptance at the headquarters of the Foreign Legion in Ceuta, Morocco.

Volunteers rejected in Ceuta are promised return transportation. It is stated that the number of enlistments acceptable for the Foreign Legion is unlimited.

The gallery of the Lyceum Theatre, London, holds 1,000 people.

Mrs. Walter Parby, M.P.P. Minister without portfolio in the new Alberta Government.

REVIVAL OF IRISH EMIGRATION

Equal of Present Population Have Left Erin Since 1851.

A despatch from London says:—Irish emigration, which practically ceased during the war on account of the British Government's restrictions, is now reviving, according to an official report just published. In 1920 the emigrants numbered 15,585, as compared with 2,975 in 1919, when the prohibition was still on. Last year's figure, however, is only about half the pre-war rate, and this undoubtedly is partly because the "Irish Republican Government" discouraged the emigration of able-bodied men. In fact, there were only 6,044 men as compared with 9,487 women.

The sensational feature of the report is the statement that from 1851 to the end of last year, 4,388,199 Irishmen and women emigrated—only 131,801 less than the present population of the country.

China to be Represented at Conference

A despatch from Washington says:—The United States Government's invitation to participate in a discussion of Pacific and Far Eastern problems at the disarmament conference was formally accepted by China on Thursday with a pledge that her representatives would approach their task with a solemn sense of its significance and with a spirit of "perfect frankness and cordiality."

The Chinese acceptance was the first of a formal character to be received from the nations invited to confer here.

Hon. Herbert Greenfield The new premier of Alberta. A seat has yet to be found for him in the Legislature.

Fein for months. Its verdict is not yet ready. But Lloyd George has laid his case before the world, and it has strengthened the English position immeasurably. It will have a profound effect upon public opinion in England, Ireland, the United States and the world.

A world that is weary of strife and the sounds of war will note it was England who opened the door and made the concessions. In the United States, where the Irish movement has drawn much of its strength, a settlement has been expected since the outlines of the British terms were made known.

The door is closing. The next, and maybe the last, move possible for a weary time waits upon De Valera and Sinn Fein. It is theirs to choose between going the road that Canada, South Africa and Australia have chosen, and found good, or that other road that leads to war.

New King of Serbia is Ill in Paris

A despatch from Paris says:—A crisis has developed in the attack of appendicitis from which King Alexander of Jugo-Slavia is suffering, in a hospital in Neuilly, which probably will necessitate an operation immediately, the Charge d'Affaires of the Serbian Legation here declared on Thursday.

The charge d'Affaires explained that Alexander now is King of Jugo-Slavia, which is composed of Serbia, Croatia and Slovenia, although during the lifetime of his father, the late King Peter of Serbia, he bore the title of reigning Prince.

Rain Quenches New Brunswick Fires

A despatch from St. John, N.B., says:—A heavy downpour of rain throughout the province on Thursday destroyed the fire menace which still lingered in many parts of New Brunswick. The rainfall during the day was almost as great as the entire precipitation during the month of July.

The Closing Door.

The door to peace in Ireland was unlocked by King George in his speech at Belfast. Lloyd George opened it in his "final appeal" for a conference. It was thrown wide by Jan Smuts, Premier of South Africa.

That door is being closed by Eamon de Valera and the Sinn Fein, writes the editor of the Philadelphia Ledger. There is a lingering hope in London and Dublin that a way will yet be found to avoid the return to roadside murders, ambushes by day and by night and the sordid horrors of "guerrilla warfare." This hope is without base or conviction.

Last week the British Government unexpectedly gave to the world three documents. The first was the British offer of dominion status to Ireland; entire self-government, complete autonomy, everything but political independence. The second was De Valera's reply, demanding complete and absolute Irish independence. The third was the British rejoinder to the Irish claim of Irish right to secede from the empire. "No such right can ever be acknowledged by us," says Lloyd George, who points out:

"Our proposals present to the Irish people an opportunity such as has never dawned in their history before. We have made them in a sincere desire to achieve peace, but beyond them we cannot go."

In his reply dealing with these same proposals, De Valera has said, in rejecting them:

"Obviously we are unable to urge acceptance of such proposals upon our people."

Great Britain has gone as far as she dares to go. Lloyd George explains the dangers to England of going any further, reasons that every Englishman knows and that the world has noted and recognized. This is by no means as far as Sinn Fein demands. The deadlock seems to be complete.

This is the sum and the pith of the situation. The negotiators dealt with other things, with Ulster, with stipulations and with guarantees, but the rock that was struck was the rock of Irish determination to be independent. Offered independence in practically everything but the name, the Irish would have that or reject all.

London and Dublin profess to find hope in the conciliatory tone of the correspondence. It is true that there is neither arrogance nor anger in the communications, but there is a note of finality on both sides.

The Irish problem that was withdrawn from the world during the negotiations is before it again. The world will note that England has made the concessions; that Ireland has gone further than the British public expected; further than the world expected. Sinn Fein clings to the one idea, independence or war.

What now? Such little hope as remained of possible conciliatory action by the Dail Eireann is shadowed by word that it will reiterate the demand for independence. The only reply that England can make to this has been made by Lloyd George.

The world has been watching, sitting in judgment on Crown and Sinn

'ROYAL FAMILY UNEASY OVER STATE OF QUEEN-MOTHER'S HEALTH

A despatch from London says:—A sudden change for the worse in the state of Queen Alexandra's health is causing the greatest anxiety to the Royal family. It has resulted in her cancelling all of her social engagements on the urgent advice of her physicians. Queen Alexandra has not been in the best of health for the past three years. In recent months ear and throat trouble has been causing her intense discomfort, which explains

why she has been seen so little in public.

Much against her own wishes she has been obliged to participate in important functions, but even this has been stopped for fear of overtaxing her strength. At the present moment she requires the most careful nursing at Sandringham, where it is hoped that the quiet and the bracing air may aid in her recovery.

King George and Queen Mary are most anxious about Queen Alexandra's condition.

LINK IN EMPIRE WIRELESS CHAIN

First Messages Sent to All Stations Within Range.

A despatch from London says:—Hon. F. G. Kellaway, British Postmaster-General, on Thursday sent the first messages through the first link in the chain of Imperial wireless communications. The transmitting station at Deafield, Oxfordshire, has just been completed.

Kellaway sent a message to all British stations within range, and another message to all European and other foreign stations in range, receiving within a few minutes messages of felicitation from stations in Malta, France, Rome, Budapest, Posen, Norway, Sweden and Germany.

The links to follow, as decided by the recent Imperial Conference, will be: Cairo, East Africa, South Africa, India, Singapore, Australia, with a branch from Singapore to Honk Kong, and a link from Britain to Canada.

Prepared to Pay Indemnity Due

A despatch from Berlin says:—Germany has bought all the foreign exchange necessary to pay the remaining 750,000,000 gold marks for reparation due before August 31, according to semi-official statements. If the Government really has the reparation sum, the mark will rise, otherwise speculators expect to see it fall to 100 to the dollar.

A Gigantic Job.

There have been famines that have menaced more millions of people than are now threatened in Russia. In famine-stricken districts in India the British have dealt with 70,000,000 people endangered by lack of food.

The trouble in Russia is that civilization, government and transportation have broken down. A further difficulty is that the whole population in many districts has been on the verge of hunger for years. There is no reserve strength in the nation. It is all burned out, wasted, used up in mad experiments.

That is what makes the Russian problem the most gigantic job of all famine relief undertakings. The British in India were dealing with an orderly people who had not been hungry long, and they had rail lines and unaffected sections of the land to aid them. There was a trained official class ready to take over the work.

In Russia there is none of these things. Rail and river transportation had ceased to exist in many areas. Roads have not been mended for years. The people have been hungry for a long time. There are no officials accustomed to dealing with such problems.

It will not be a job of a month or six months or a year. It is likely to require several years. As Herbert Hoover says in his cable to the Swiss President, famine in Russia is beyond the reach of charity and will recur yearly until the economic system is changed.

Unemployed in the United States number nearly 6,000,000.

It's a Great Life if You Don't Weaken

By Jack Rabbit

SIMPLICITY: THE KEYNOTE OF SUMMER LIFE OF COTTAGE COLONIES IN EVANGELINE LAND

Nova Scotia's wealth of woods and water-ways lends itself most agreeably to summer cottage life and draws greater numbers of sojourners each summer. The many-miles-long bays flooded and then laid bare by the shifting tides, have a unique charm and make ideal bathing beaches—beaches that are a huge delight to kiddies. Summer accommodations of Evangeline Land do not run to vast hotels, although there are a number of fine large ones, the greater number of visitors live in comfortable country-side hotels and boarding houses and cottage colonies.

First among the latter stands the Kedgemakooeg Rod & Gun Club, located on the shore of Lake Kedgemakooeg, at the end of thirty miles of good motor road which begins at historic Annapolis Royal. Kedgemakooeg is in the heart of a wild, rich sporting country. Here the fisherman may enjoy excellent fishing, and here the hunter may bag the biggest of moose. The cabins are rustic in design, but modern in equipment, fitted with fireplaces and running water. The general club house is all that a country club should be.

Other well known and popular cabin colonies are found at North West Arm, near Halifax, Annapolis Royal, Evangeline Beach, Milford, Port Lorne and Smith's Cove. Cottages are run in connection with The Pines Hotel at Digby, the Bay View Hotel at Yarmouth and The Gainsborough at Hubbards, while Camp Acadia for girls, located at Hebron, a short five miles from Yarmouth, and Aldercliffe Camp for boys at Weymouth, are old established institutions.

These resorts are either in or close to farming centres and guests are fed on fine fresh dairy and garden products. Bathing, boating and fishing are the principal pastimes. Tennis, golf, squash and croquet grounds are provided at most resorts. Then there is always the lovely historic country to be explored. One cannot travel many miles in any direction without passing spots of historic interest. Here the painter finds inspiration for new canvases; the writer for songs and stories; the tired business man and weary teacher find balm and strength for mind and body, and the busy mother peace and rest while her lively youngsters, safe from city perils, disport themselves in daisy fields or on the red mud flats that at high tide are glorious bathing beaches.

RURAL SUMMER HOTEL OVERLOOKING LAKE AT HEBRON

HEALTH EDUCATION

BY DR. J. J. MIDDLETON

Provincial Board of Health, Ontario

Dr. Middleton will be glad to answer questions on Public Health matters through this column. Address him at the Parliament Bldgs., Toronto.

There are reasonable and scientific grounds for the belief that during recent years the average span of life is lengthening—that is, that people on the whole are living longer than formerly. To Public Health activity, including the control of communicable disease and generally improved sanitation and observance of public health principles, this increasing longevity is chiefly due. Because, counteracting these reforms are the stress and strain of modern conditions with resulting wear and tear on the human system which have during the past quarter century reduced the average lifetime to 55 years or thereabouts, instead of the allotted three score and ten.

heart, through its efforts to pump enough of the weakened blood through the system to keep the body strength to normal, is strained or overexerted. One can readily see how an increased vigilance both on the part of Public Health officials and the general public, can curtail the spread of communicable disease and thereby prevent weakening or injury to the heart, especially in young people who are more susceptible to infectious disease than adults. In fact, there is a noticeable low rate of deaths from heart disease reported in localities not visited by communicable diseases or where protective and quarantine measures are enforced for the prevention or spread of any outbreaks. Child mortality, however, results from many other causes outside that due to organic changes of the heart due to infection. One very noticeable and regrettable of these causes is the motor-car. In Toronto alone, there have been four or five fatalities within the past few days due to children being run down by automobiles. In some instances, of course, the driver is not to blame, but generally speaking, a careful man or woman at the wheel seldom meets with an accident. If so, it is the exception and probably only occurs once. Newspaper readers were interested last week in a despatch from England stating that a motor-car driver was given one year's imprisonment for running over a child with fatal results. There are many cases in Canada that could be thus summarily dealt with to advantage, and it would have the result of making our streets safer for pedestrians. Fatalities to children as the result of automobile accidents must be stopped, and to this and the recent recommendations of a Toronto cor-

oner to have school playgrounds kept open all day, is very commendable. Popular sympathy is nearly always with the injured child, but when youngsters are allowed to play indiscriminately on the streets it is practically impossible to lay the blame entirely to the motor driver. It should be made a criminal offence to allow children under six on a city street without a parent or guardian. Children, however, must play, and the school playground seems the most suitable recreation place for them in large cities. Arrangements might be made to have vacant lots or institutional grounds set apart for children to play in. To prevent damage to property extra caretakers would of course be necessary, but reforms and precautions of this nature are of such vital importance that the question of expense should not be allowed to enter—especially when human life is at stake.

Then, of course, there are avoidable accidents in industry due to lack of protection for the worker at his trade, and often to carelessness on the part of the worker himself. Add to this the appalling list of deaths of children resulting from improper feeding in childhood and some idea is given of the tremendous but preventable infant mortality amongst us every year.

KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours' illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if the trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

How They Advertise in the Orient.

Oriental countries, having awakened within very recent years to the worthwhileness of advertising, have adopted methods of their own which are rather odd and picturesque. In particular they go in for street processions. Enterprising advertisers in Chinese and Japanese cities organize parades, with banners and strange devices, such as dragons and other monsters, carried by men or on wagons. This is real jazz as applied to publicity work. We have nothing equal to it in its way. In the Philippines similar methods are pursued. Not long ago, in Manila, to advertise a new cigar, there was a very striking procession in which gigantic walking cigars took part, accompanied by men carrying huge placards lettered in English and Spanish, extolling the product and inviting the public to try it. Africa embraces nearly one-fourth of the total land area of the globe.

THE CAUSE OF BACKACHE

Only in Rare Cases Does Backache Mean Kidney Trouble.

Every muscle in the body needs constantly a supply of rich, red blood in proportion to the work it does. The muscles of the back are under a heavy strain and have but little rest. When the blood is thin they lack nourishment, and the result is a sensation of pain in those muscles. Some people think pain in the back means kidney trouble, but the best medical authorities agree that backache seldom or never has anything to do with the kidneys. Organic kidney disease may have progressed to a critical point without developing a pain in the back. This being the case, pain in the back should always lead the sufferer to look to the condition of his blood. It will be found in most cases that the use of Dr. Williams' Pink Pills to build up the blood will stop the sensation of pain in the ill-nourished muscles of the back. How much better it is to try Dr. Williams' Pink Pills for the blood than to give way to unreasonable alarm about your kidneys. If you suspect your kidneys, any doctor can make tests in ten minutes that will set your fears at rest, or tell you the worst. But in any event to be perfectly healthy you must keep the blood in good condition, and for this purpose no other medicine can equal Dr. Williams' Pink Pills. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Scouting and the Kiwanis Clubs.

If a man can write a better book, preach a better sermon, or make a better mouse-trap than his neighbor, though he build his house in the woods, the world will make a beaten path to his door. Literary men have been having a squabble over the author of this mouse-trap quotation. Some credit it to Elbert Hubbard. But he has been eliminated as he did not begin to write until after the quotation had become famous. Then Emerson's works were looked into. But no comfort has been found there. But who cares who wrote it? It fits the Boy Scouts. That is the only reason it appears in our thoughts today.

Business men are peculiar ducks. To say they are egotistical is putting it so mildly as to be complimentary. They have such confidence in their own powers that one cannot interest them in a proposition which does not entail miraculous accomplishment. They really believe that they can work miracles. So when a gang of fellows goes parading by bearing their miracles with them, the Kiwanis Club blinks its eyes, stares, wonders, and then, as if seized by one common impulse, falls in behind to do what it can, as tickled as a boy carrying water for the elephant at the circus. It's hard to fool men. But you can't fool boys at all. And when men realize the work of the Boy Scouts, they are not being fooled. Neither are the boys who compose the Boy Scouts. They get training, mentally and physically, and if there are any other ways they get them too—real downright valuable stuff, that makes men out of them. And they like it, just as our boys who entered the army liked the intensive training that was handed out to them by their superior officers. The Scouts have made good in spite of the ridicule which was heaped upon them only a few years ago, when their elders first heard of them. The police and the rest of us laughed at the idea of having Boy Scouts help handle big crowds. But now—why, they are the first ones we turn to when something big and difficult has to be done.

That is the reason why the Kiwanis Club is for the Boy Scouts. Their lives are open books by virtue of the honesty which they are taught. They preach better sermons than the rest of us usually here—right in the lives which they lead. They make better mouse-traps than the rest of us—and in the woods—and our happiest hours are spent in our pilgrimages to them. They have done much. They have dared much. They have done that which was assigned them. Worthy of our confidence! Not worthy of our confidence? Who, then, is worthy of our confidence? MONEY ORDERS. Dominion Express Money Orders are on sale in five thousand offices throughout Canada. In Praise of London. I, the son of London men, Give thanks to London once again. Here was I born; and I will die Under this friendly leaden sky— Like grandier's grandier, so will I. City of beauty, flower of cities all— Where "Themmes" runs swiftly, and the buses roar (Even down the stately reaches of Whitehall) While chocolate trams invade the Surrey shore— Yours is a glamour which the years enhance And in your grimy streets lives all romance.

ASPIRIN
"Bayer" only is Genuine

Warning! Take no chances with substitutes for genuine "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Drug-gists also sell larger packages. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacturing of Monacetailed-deter of Salicylic acid. Minard's Liniment Relieves Neuralgia

FEARED SHE HAD HEART TROUBLE

MRS. SMITH SUFFERED AFTER EVERY MEAL.

Toronto Woman Says Since Taking Tanlac All Her Troubles Have Disappeared.

"Before I had taken half a bottle of Tanlac I began to straighten right up and now I feel just fine," said Mrs. O. E. Smith, 169 Yarmouth Road, Toronto, Ont. "I was told that I had high blood pressure, but whatever my troubles were they began to disappear when I got Tanlac and now I haven't a trace of any of them. For one thing, I suffered from indigestion something awful. After eating, the gas from my undigested food would press up into my chest until my heart fluttered frightfully and at times I actually thought it would stop beating. My head ached terribly at times and I got so dizzy I couldn't stand up. My kidneys also bothered me and my back and legs hurt constantly. My legs hurt worse while lying down and nights I couldn't sleep any to speak of, so that I always felt tired and worn out. "But all my troubles are gone now. My digestion is just perfect and I never have a headache or dizzy spell any more. Even those pains have disappeared from my back and legs and I'm so thankful for my good health that I just want to praise Tanlac all the time." Tanlac is sold by leading druggists everywhere. Adv.

Pine Needles.

If Mother Nature patches The leaves of trees and vines I'm sure she does her darning With needles of the pines! They are so long and slender; And sometimes in full view, They have their threads of cobwebs And thimbles made of dew. —Wm. H. Pay.

Minard's Liniment for sale everywhere

Old Greek Coins.
Coin collectors regard the collecting of old Greek coins as their most formidable task, not because of their rarity, but because fully 1,000 independent cities had a distinctive series of coins. In Honduras 90 per cent. of the people cannot read and write.

Cuticura Is Just Right For Baby's Tender Skin
Bathe him with Cuticura Soap and warm water. Dry gently and if any sign of redness, roughness, irritation or rash is present anoint with Cuticura Ointment to soften, soothe and heal. Finally dust on a few grains of the fragrant, delicately medicated Cuticura Talcum. Soap 25c. Ointment 25c and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Agents: Lyman, Limited, 344 St. Paul St., W. Montreal. Cuticura Soap shaves without mug.

DO ALL MY HOUSE WORK

Before I took Lydia E. Pinkham's Vegetable Compound I could hardly get about.

Cobourg, Ont.—"For many years I have had trouble with my nerves and have been in a general run down condition for some time. I could not do my work half of the time because of the trouble with my monthly sickness. I was told of Lydia E. Pinkham's Vegetable Compound by friends and advised to try it. It has done me good, and I strongly recommend it. Since I have taken it, I have been able to do all my own work, and I also know friends who have found it good. You can use these facts as a testimonial."—Mrs. ELLEN FLATTERS, Box 761, Cobourg, Ont. Why will women continue to suffer so long is more than we can understand, when they can find health in Lydia E. Pinkham's Vegetable Compound? For forty years this good old-fashioned root and herb remedy, which contains no narcotics or harmful drugs, has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

This food builds strength

Maximum nourishment with no burden to the digestion is secured from that famous food—Grape-Nuts.

The nutriment of wheat and malted barley, from which Grape-Nuts is made, builds strength and vigor—and delights the taste.

"There's a Reason" for Grape-Nuts

Sold by all grocers

Give us a Hand!

CITIZENS of Ontario—The only salvation for Ontario's revenue-producing forests is the prevention of forest fires. Your support and co-operation is absolutely essential.

Forest fires are rapidly diminishing our resources of timber and pulpwood. Over 90 per cent. of Ontario's forest fires are caused by human carelessness.

If everybody was careful to prevent the start of fire, Ontario's Forest would be safe.

Save Ontario's Forests They're Yours

BUSINESS MEN of Ontario—Lend us a hand. The various business associations—of bankers, boards of trade, manufacturers, merchants, lumbermen, engineers, educationalists, tourists, and sportsmen, and all other bodies of weight and influence, can do a great work for this province and for their own interests as well by actively promoting educational propaganda to reduce forest fires.

RAILWAY OFFICIALS can help. Railways cause 40% of Ontario's Forest fires. The Forestry Branch is being well supported by improved co-operation on the part of railway officials and by the Dominion Railway Board. Let us reduce the number of railway fires one-half this summer. (The train passenger in Northern Ontario who nonchalantly throws his cigarette or cigar out of the window during the forest fire season is deserving of a jail sentence!)

CAMPERS, tourists, fishermen, picknickers, berry pickers, prospectors and hunters should

feel their responsibility even though out of sight of the policeman.

SETTLERS can co-operate by exercising more care in setting out fire on their own property.

LUMBER FIRMS can help by impressing on all foremen the need for carefulness. River-drivers in dry seasons should be specially warned. Gangs of men going in and out to the camps need special attention, because of the danger along the slash-lined trails from the inevitable cigarette.

THE PRESS could do more public-spirited constructive work to reduce forest fires than any other single agency. This is a non-political campaign in which the whole press could join.

LEADERS OF PUBLIC OPINION in every community should be the first to extend a helping hand. Tell the Chief Ranger or write the Head Office any time you have information or suggestions to impart, or questions to ask.

GIVE US A HAND!

Ontario Forestry Branch

Parliament Buildings, Toronto

OBITUARY

Mrs. G. E. Thomas

The funeral of Mrs. G. E. Thomas who died suddenly at Three Rivers, Que., was held on Tuesday morning August 16, at 10.30 o'clock from the residence of her brother, Clayton Wiltse, Athens, to the Methodist Church, where service was conducted by Rev. T. J. Vickery of Iroquois, assisted by Rev. C. J. Curtis, in the presence of a large gathering of friends of the deceased.

Those attending from a distance were the following: P. E. Thomas of Preston, S. W. Thomas and Miss Edna L. Thomas, Toronto, Mr and Mrs Brocklinzen, Rochester, Miss Joyce Broad, Toronto, Mr and Mrs J. E. Easter, Brockville, Mr and Mrs A. J. Love and two sons, Lyndhurst, Mr and Mrs H. Stevens and Clint Boggart of Piquet Hollow.

Floral tributes were received from the following: Anchor office staff of American La France Fire Engine Co., Elmira, NY; Pillows, the family, receipt on committee Fire Chiefs' Association, Three Rivers, Quebec; Dominion Fire Chiefs' Association of Canada; Wreaths, office staff American La France Fire Engine Co. of Toronto; Messrs Tobey and Wilson, Rochester; Messrs Boehmer, of St. Thomas; Chief Pritchard, Chatham; Mr Harrington, Chatham; Chief Russell, Toronto; Chief Phillips, Sault Ste Marie; Crosses, Hugh Logan of New York; Chief and Mrs Heath of Saskatoon, Sask.; Chief and Mrs Smart, Calgary; Basket, Mr and Mrs Love, Lyndhurst; Sprays, Chief and Mrs. Armstrong, Kingston, Chief and Mrs Brady North Bay; chums of Edna, Toronto; Mrs Crampton of Toronto, Mr and Mrs Crampton and Mrs Zilliax, Toronto Mr and Mrs Brocklinzen, Rochester; Mr and Mrs J. M. Wiltse and family, Escott; Mr. and Mrs Clayton Wiltse, Athens, Star, Mrs N. Earl and Mrs Peterson Athens.

The pall bearers were, Chief Brady North Bay; Chief Burnett, Ottawa; Chief Phillips, Sault Ste Marie; Chief Heath, Saskatoon; William Towriss; and Richard Latimer, Athens. Interment took place in the Athens Cemetery.

Now Is The Time To Paint

If you have delayed painting, your property has suffered. Do not put off any longer. Save the surface and you save all. Look around and you will find many places, both inside and out that call for a coat of paint. Now is the time. Nature is re-decorating, get in line and do the same. The most economical method is to use

MARTIN-SENOUR 100% PURE PAINT AND VARNISHES

Their covering power and lasting qualities are very great. It will pay you to insist on getting this popular brand. For whatever painting or varnishing you do, there is a special MARTIN-SENOUR Product, each one guaranteed to best serve the purpose for which it is made

Consult us as to your requirements. We have a full stock and complete information as to decorative schemes. Let us advise you.

Earl Construction Co.
ATHENS, ONT.

Guarantee

We guarantee the Martin-Senour 100% Pure Paint (except inside White and a few dark shades that cannot be prepared from lead and zinc), to be made from pure white lead, pure oxide of zinc, with coloring matter in proportionate quantities necessary to make their respective shades and tints, with pure linseed oil and turpentine dryer, and to be entirely FREE from water, benzine, whitening and other adulterations, and SOLD SUBJECT TO CHEMICAL ANALYSIS.
