**NEWS BY THE ENGLISH MAIL.**  
**DEFEAT OF THE RUSSIANS AT KARS.**

**THE DETAILS.**  
ERZERUM, Oct. 5.—Yesterday evening there arrived here an express with letters of the 30th of September from Kars. The letters were written in the evening, and contained the intelligence that on the morning of that day, the Russians invested Kars on all sides in full force. The batteries at Kars opened a murderous fire on the besiegers. Three times did the Russians gain a footing in the Turkish intrenchments—and three times were they driven out by the Turks at the point of the bayonet. Colonel Lake distinguished himself in the contest, not only by his courage, but by his skill. It was he who drove the enemy from the Inglis Tabia. Eight hundred Russians were slain before a redoubt defended by four hundred Turks. The firing lasted seven hours and a half, when the Russians took to flight. The Turks performed prodigies of valour, and the European officers—Colonel Lake and Captains Teesdale and Thompson—distinguished themselves. Mr. Churchill, formerly *attache* of our embassy from Persia, and now secretary to General Williams, commanded at one of the redoubts, and showed himself a thorough Englishman. A postscript of a letter of the 1st instant adds, that the loss of the Russians is estimated at about eight or nine thousand killed or wounded. About four thousand corpses lie under the walls of Kars. The Turks are busied now in burying them. The enemy lost besides this a great quantity of stores; and about three hundred prisoners were taken, amongst whom were many officers. Four guns are said to have been taken. The loss of the Turks is reckoned at about seven hundred and fifty killed and wounded.  
This great battle, which had so fortunate a termination—thanks to the skill of the commander, General Williams—shows clearly enough, that the Turkish soldier, when well led, is not only brave, but able to distinguish like the soldier of any other nation. At the same time, it must convince Europe in general and the Turkish government in particular, that the latter has no good native officers, since, from the commencement of hostilities in Asia until the present moment, this is the only victory the Turks have gained, and this is owing to General Williams. When the Turks were under native commanders, they experienced nothing but defeats.  
This evening I saw a letter written by a Bey of Livana (Turkish Georgia). He says that Omar Pacha having concentrated his troops in Churuksu, had marched on Urzughet, and that he had made himself master of the place without much difficulty. He received there a deputation from the Georgian nobility who made their submission to the Porte in the name of the inhabitants of the district. According to this letter Omar Pacha was marching toward Akaltzick, for the purpose of making a diversion in favour of Kars, and of ultimately coming to the assistance of that city. This last news tallies with that contained in letters received the day before yesterday, which say, that Omar Pacha has communicated with the Muchir in Kars, telling him to maintain his position for twenty days, at the expiration of which he would be at Kars with his army. He must be near there by this time; and it would be most fortunate, if he should arrive in time to cut off the re-

treat of General Mouravieff, and be able to invest Alexandropol.  
P. S. Not one of the European officers at Kars was killed or wounded.

(LETTER FROM AN ENGLISH OFFICER.)  
KARS, Oct. 1.—Here I am on the Caradagh again, none the worse for my late illness. Last night the Russians attacked us in force, and (between you and me and the post) very nearly took Kars. The fight was a most bloody one, and lasted seven hours and a half, without one second's intermission. The Russians left upwards of 2000 men dead on the field; and their loss in killed, wounded, and prisoners must have exceeded 6000 men. What do you think of us Kars chaps after that? I was not actively engaged, as they knew better than to attack my almost impregnable battery a second time; but I did great service with my heavy guns, and twice drove them out of a battery they had taken, and turned upon us. It was a nasty sight—the field—afterwards. It was completely covered with dead bodies, mostly Russians, as our men did not lose more than five or six hundred altogether. The defence was commanded by dear old General Kineti; and when our general thanked him in the name of Queen Victoria, for his gallant repulse of the enemy,—I thought the brave old boy would have burst his heart open—he was so proud. The Turks fought—not like lions, but like fiends. I never saw such desperate recklessness of life. You can form some idea of what a desperate business it was, when I tell you that the Russians had their whole force concentrated upon General Kineti's division, which, with the reinforcements he afterwards received, did not amount to 8,000 men. The reports have just come in, and there are more than 3,000 killed on the side of the enemy.

Dr. Sutherland, the chief sanitary commissioner in the Crimea, will leave London for the seat of war in the course of the present week.

General Sir George Brown has gone on a continental tour, accompanied by Lady Brown. The gallant general purposes to pass the winter at Nice.

It is now stated, as if upon authority, that Cardinal Wiseman has been formally appointed successor to Cardinal Mai, in the Librarianship of the Vatican.

Mr. James Wilson, editor and proprietor of the *Economist*, has just been made chairman of the inland revenue board. The office has a salary attached of £2500 a-year.

Sir Hamilton Seymour, late Ambassador at St. Petersburg, is named as likely to succeed Lord Westmoreland as Ambassador at Vienna. The name of Earl Granville is also mentioned.

It is rumoured at Manchester that before the re-assembling of parliament, Mr. Bright, M. P., intends to meet his constituents in public, when doubtless the war question will be hotly debated.

NAVY.—There has been an unusual mortality amongst the higher class of naval officers lately, upwards of twenty admirals having died this year.

Numbers of military officers on sick leave in Ireland have received orders to proceed instantly to the Crimea. Several of the gentlemen had to leave without their luggage.

THE MOVEMENTS IN THE CRIMEA

The allied troops detached to Eupatoria have received fresh reinforcements. Numerous Russian wagons appeared to commence the evacuation of the northern forts of Sebastopol.

EXPLOSION OF ANOTHER INFERNAL MACHINE.

A letter from Sebastopol, of the 9th, says: "Nothing new has taken place, except the explosion of a new infernal machine in the Karabelnaia but it only killed one man."

A DARING RUSSIAN ADVENTURE.

One night three boats, taking advantage of the darkness quietly crossed from the north side, and, entering Karabelnaia port, proceeded toward some of the sheds on the Dockyard quay.

ANECDOTES OF THE FRENCH ARMY BEFORE SEBASTOPOL.

A WELL TIMED ADDRESS.—While the attack against the Malakhoff and Little Redan was going on, a powder magazine suddenly exploded in the left curtain of the Malakhoff, between it and the Little Redan.

INCIDENT IN THE CAPTURE OF THE MALAKHOFF.

The front of the Korniloff bastion was taken at once, for it was quite a surprise; the few Russians who were on the alert fired one round and fled.

officer was ordered to provide at once against the chance of an explosion. Collecting some men on the moment, a trench was dug between the magazine and the ground on which the gabions were being; other necessary arrangements were completed, and in a few minutes all was secure again.

THE AFFAIR AT TAMAN.

A letter from Kertch, dated the 2d inst., and published in the Constitutionnel, gives some further particulars respecting the successful attack on Taman: "You will not be much astonished at hearing of the complete destruction of Taman, Fanagoria, and some of the surrounding villages, but a few words of explanation as to the position of those places, and their valuable resources, will suffice to demonstrate the necessity of the late expedition."

EARTHQUAKES IN HONDURAS.

[Correspondence of the New York Tribune.] TRUXILLO, Sept. 27.—As there is a vessel going to New Orleans, I write a few lines to say that the severest earthquake that has ever been felt here occurred day before yesterday, the 25th, or rather finished then, for there were for several days violent tremblings of the earth, and twenty seven distinct shocks within forty hours.

EDWARD ISLAND is rather too small, population too insignificant, for an independent government. Now, candidly speaking, I do not think so yourself! This quiet and unobtrusive candour has been made of candidly and we now give for answer—we candidly.

The Island was meant for a separate and if it gets fair play, will, in the end, be very far from an empty one. In point of territory, it will be true, bear comparison with either New York or Nova Scotia; the area of the former in square miles 27,700, and that of the latter 21,800, while the Island is computed to be more than 2,130. Let us, however, go further south, and among the United States we find in the first place, Rhode Island, which, as far as respects territory, is less than our own Island, its area in square miles being only 1,200. It, however, contains a population double that of this Island—four last being correct—going still farther south, we find the State of Delaware; area in square miles population, 92,000. We quote from an author at work—“Connell's Immediate Geography”—published this year, (1855.) in New York.

Thus we have two independent Sovereign States with less territory than ourselves, and only 20,000 more of inhabitants. And these States have been open to immigration from all quarters of the globe ever since the year 1783, while Prince Edward Island, strange though it is stipulated in the grants, each Township should be settled with Protestants, cannot afford a permanent place to a foreigner of any description, Catholic or Protestant. Our young people are in numbers that we had no conception of, and we have nothing to counterbalance the natural increase as manifested by the census of the years 1841 and 1848, 1855 ought to have given 82,000, only less than that of the State of Delaware, of which, we have only 71,000. Now, were there during the interval between the two preceding censuses, any dire pestilence that had decimated the inhabitants, as has been the case in other countries, had there been such scourge as the famine in Ireland, probably the loss of the potato and other crops, might have attributed the diminution of our population to either or both of these mysterious causes of Divine Providence. But there happened nothing of the kind. The cholera has been around us, making full ravages, but as to the Almighty, we have been hitherto from the stern visitation. No one has ever died of even a bogger dying of starvation, young have married as they were wont, both streets and roads, city and country, that a growing population is not wanting. The deficiency, therefore, must be owing to migration. It becomes our rulers to look to it carefully, and apply a remedy to it, for an evil more likely to increase than decrease. Unfortunately, the children of farmers all take to farming, or if brought up to here are so many stories of more fertile lands with milder climates, that youth, content, ever dissatisfied with the present, finds a change. And in this they are often misled by their parents, who are unwilling their children should work as hard as they do. Now, the remedy for this, is to encourage immigration. Prince Edward Island is only part of America where the foreigner is permitted to settle. In all other countries, their colonies or independent states, he may make a denizen, may purchase land and leave his children, in most places encourage him to be held out to him to enrich with capital, knowledge and industry, the country which he may fancy affords him a fair chance of remuneration. Here, and here alone drive from our shores, that which would render them ten times more valuable. Want capital, and we spurn it. With thousands of acres of wilderness, we refuse the means of rendering them into fertile fields. We drive children from our sides, and suffer the country to be depopulated though the means in our power of preventing both.

The Watraw Courier relates that a man has been condemned to hard labour for quitting the Methodist Church and joining another Christian sect.

MICMAC MISSION.

On Tuesday November 6th, the Temperance Hall was filled by a most respectable audience, assembled to listen to a lecture given by the Rev. S. T. Rand, on the subject of the mission of the Evangelization of the Micmac Indians. The most fixed attention to an address which occupied the evening by any evidence, then we infer there is a deep interest felt for this neglected and still degraded race, and a sympathy awakened in the efforts now making to ameliorate their condition, both religiously and socially; by teaching them “to observe all things whatsoever are commanded of God,” by

educating the young, and by training the adult to habits of industry and sobriety.

The Rev. gentleman spoke of Charlottetown as the place which had given birth to the mission, of its gradual and steady progress since that time. As before the Russian troops, holds, the sap of the besiegers made steady and continued progress, whilst the telegraph wire flashed to an impatient public the oft repeated tale, “nothing new from the Crimea;” so though he had no signal victories to proclaim, the work was progressing, not less surely to its ultimate success—that steady advance was being made, & obstacles overcome—their language, their customs, their habits had been learned; their prejudices had yielded, their confidence had been gained, their love and affections (in many instances) won, thus the sap of love had destroyed many of the out-works opposing, and had advanced to the very Malakoff—or Key of the stronghold of the superstition and ignorance which has so long encircled them. He also combated the prevalent notion that the Indian will not work—by the fact that the eight or ten families living on the mission premises had realized the sum of £400 as the proceeds of their industry. The various incidents related of his intercourse with the Indians, were valuable, showing the adaptation (we think in an eminent degree) of the missionary for the work to which he has been so providentially called, and we will conclude by hoping that the Micmac Mission will take its place amongst the various other Religious and Benevolent Institutions which are encouraged by the aid, live in the affections, and are remembered in the prayers of the people of this place.

Read Minutes of last meeting. Read Letter from Mr. Stewart to the Secretary, Ordered, that the consideration of the said letter stand over until next meeting. Presented, Mr. Cundall's Bill for arranging, posting and balancing the Society's Account Books to the 8th August last. Ordered, That the said Bill amounting to £15, be paid by the Secretary, and that the subject be again brought forward for discussion at next monthly meeting. Read Letter from Depot Keeper at Park Corner relative to old seeds on hand. Ordered, That the Secretary write to Mr. Crosby and state that the Committee decline taking back said seeds, being contrary to rule; and that the seeds furnished to that Depot last year, were the same in kind and quality as those furnished to the other Branches and Depots. Mr. Smith presented Report of Turnip Inspectors for Queen's County, which was read and ordered to be published. Resolved, That Mr. Morpeth be excluded from competition, in consequence of his piece of Turnips not measuring an Acre, as required by the rules of the Society. Prizes to be awarded to the following competitors:

Table with 2 columns: Prize, Name. 1st Prize, George Smith, Royalty, £3 0 0. 2d do. Chas. Binns, do, 2 10 0. 3d do. John Thorne, do, 2 0 0. 4th do. Mr. M. Daly, Govt. Farm, 1 10 0. 5th do. Mr. J. D. Hazard, Royalty, 1 0 0. 6th do. Mr. John Wright, W. River, 0 10 0.

Resolved, That the thanks of the Committee be given to the Inspectors for the care and ability displayed in the execution of their duties.

By order, Wm. W. Irving, Secretary. Committee Room.

The Inspectors of the Fields of Turnips entered for Competition in Queen's County for the prizes offered by the Royal Agricultural Society, have to report, that they visited the different Fields mentioned in the Table annexed, and after making careful examination, have to present the following as the result:

Table with 5 columns: Competitor's name, When sown, No. of drills in a Chain, Average No. and weight of half-chain of drills, Weight of Roots on one acre. Lists names like Geo. Smith, John Thorne, etc.

GEORGE SMITH, GEORGE LEWIS.

In presenting their Report of the Turnip Crop in Queen's County, the Inspectors have great pleasure in congratulating the Society on the high averages which, notwithstanding the generally unfavourable impression regarding this year's Crop, the returns show, thus establishing the fact, the Turnip is about the most sure crop that can be raised in this Island, which, taking into consideration, that with tolerable cultivation, 1000 bushels per acre can be readily obtained, shows that, at least according to the British standard of agriculture excellence, there can be no Country in the world, whose farming might be carried on more successfully, or when, taking into consideration the favourable state of the market, it might be made more profitable in a pecuniary sense.

The Inspectors however, feel it their duty to say, that in their opinion the recent regulation of the Committee for excluding the gainers of any former prize from competition, is not calculated to keep up the high character of the Island as a Turnip-growing country, a fact they think of the highest importance. The exclusion of the gainers of a first prize, and that only for a limited period, they think would effect all that could be reasonably desired, for preventing anything like a monopoly in prize taking; and they think further that it would rather stimulate exertion, than otherwise, to have to enter the lists with the old leaders in Turnip cultivation, who never raise less than 1000 Bushels per Acre; at all events, they think the society should keep up as a standing fact that such is generally done.

The Inspectors would also refer with pleasure to the increased desire shown by the people for agricultural information whenever the Inspectors had any opportunity of conversation; and to the rapidly improving state of the Country. Any one who has only been here but for a few years, cannot fail of being struck with the improved appearance of the various farms, the great number of new buildings in course of erection, and the many fine fields of Turnips, which the Inspectors would have been very glad to have examined, if the owners (in many cases they believe out of delicacy not having confidence in their goodness) had not neglected to enter them for competition.

The fields belonging to the Inspectors were examined, as on former occasions, by the Secretary, assisted by the party who did not own the field inspected. The Inspectors also add a statement of Mr. Morpeth's crop and extent of land under Turnips, which, according to their survey, contains a little less than three-fourths of an acre; by the weight of Turnips, Mr. Morpeth would stand fourth in the list, and it will be for the Committee to say whether or not he is entitled to a prize.

(Signed) GEORGE SMITH, Inspectors. GEORGE LEWIS, Inspectors.

SALE OF STOCK.—Our readers will please not forget, that the sale of improved Stock at “Binstead,” the Farm of R. A. Fellowes, Esq., takes place to-morrow, Thursday, 15th instant, at 12 o'clock.

We omitted to make favorable mention of a basket of potatoes exhibited by Chas. Binns, Esq., at the Royal Agricultural Society's Industrial Exhibition, since when, we have been reminded of our negligence by receiving specimens of two kinds of potatoes, accompanied by the following note of the produce of each of them respectively. No. 1, were of the kind that goes under the name of “McAllister.” We like the idea of planting potatoes for the table without the stimulus of fresh manure. Those in question were uncommonly well-flavored.

No. 1.—123 bushels from 2 and a-half bushels planted in Stubble Land, without manure. No. 2.—50 and a-half bushels from 3 pecks, planted as above.

FROM THE WEST INDIES.—The cholera had made its appearance at L. Guyana. It is stated that about forty cases occur daily, of which ten prove fatal.

THE AUTUMN WINDS.

The Autumn Winds, the Autumn Winds, How mournfully they sing, What sad and speechless musings With every gust they bring.

Not like the early breezes Of young spring's bursting bloom Are the hollow winds that whisper now An echo from the tomb.

Not like the perfum'd breezes That fan'd bright summer's brow, Are the bodding tones of sadness That sigh around us now.

No! then the winds were singing Of life and beauty's bloom, But now, each blast is telling Of death, decay and gloom.

Yes, death; thy seal is printed On nature's wide domain, Thy crimson hues have tinted The forest wide again.

On every leaf is blushing Thy fatal hectic dye, That last, sad, mocking beauty That tells thy step is nigh.

Death, death, thou art the victor, Thou art the victor here, But yet thou canst not enter Yon bright, eternal sphere.

October 1st, 1855.

THE SLAIN SOLDIERS.

They are gone, they are gone from the battle's loud roar Beneath a strange sky they are lying, They are gone from the carnage and fields of gore And o'er them the cold winds are sighing.

They are gone from the fields where their life-blood was shed These the foemen like chaff flew before them, And they heed not now, though the booming gun Of the strife is sounding o'er them.

They are far, far away from their own lov'd land, In the soil of the enemy sleeping, And no sorrowing, riven household band O'er their lonely graves is weeping.

The tempest may howl, and the loud cannon roar, They may howl; but their fury can't wake them, They have fought their last fight, and the war cry no more To victory's shout can awake them.

Let them rest, let them rest from war's tumult fierce; Let us weep with their rest and their cherish'd; Those desolate bosoms, keen anguish will pierce When they think of the loved that have perish'd.

Weep, weep with the sorrowing ones who lament Hopes broken and buried forever; Oh! weep for the ties all shattered and rent That death, and death only could sever. 24th Oct. 1855.

MISCELLANEOUS.

A WORD TO THE OVERSENSITIVE.—A man strikes me with a sword and inflicts a wound. Suppose, instead of binding up the wound, I am showing it to every body; and after it has been bound up, I am taking off the bandage continually, and examining the depth of the wound, and making it fester, till my limb becomes greatly inflamed, and my general system is materially affected—is there a person who would not call me a fool? Now such a fool is he who, by dwelling upon little injuries and insults or provocations, causes them to agitate or inflame the mind. How much better were it to put a bandage over the wound, and never look at it again.

FACTS ABOUT BULLETS.—We are finding out all sorts of curious things about bullet wounds. It appears that a bullet, instead of going straight through a man in defiance of all obstacles, is diverted from its course by very slight circumstances.

A writer gives an instance in which a bullet entered on the side of the head, passed around beneath the scalp and fell out upon the opposite side, as though it had passed directly through the brain.

In another case a bullet struck the "Adam's apple" passed entirely round the neck, and lodged in the orifice by which it entered. A soldier being struck in the right arm, the ball was found beneath the skin of the opposite thigh; and in another who was wounded in the ankle when running, the bullet was found above the knee.

AN OLD CLERGYMAN.—REV. Mr. Sawyer, who is about 100 years old, preached in Hebron, Ct. his native town, last Sunday. He left Hebron 67 years ago, and returned on this occasion to preach once more in the place of his nativity. He said: "It is now ninety-nine years since my good father and mother brought me to the meeting house upon this green to give me up to God in the ordinance of baptism. I have come after almost a hundred years to administer in the same church, and to inquire, is it well with you?"

Carding Machines, &c.

THE Subscribers offer for Sale Carding Machines, Machine Cards, Crank Plates, Cleaners, Wool Pickers, Power Treadmill Machinery on a new construction. Orders punctually attended to. Address John Morrice & Son, Sackville, County of Westmorland New Brunswick, or David Stewart, Charlotte-town, July 18, 1855.

Under the Patronage of Mrs. Daly. A BAZAAR will be held, (D.V.) on the 27th of DECEMBER next, in the TEMPERANCE HALL, by a Committee of Ladies appointed from all denominations, on behalf of the poor of Charlotetown and its immediate vicinity.

N. B.—No relief will be granted from the Bazaar Fund to residents in the Island, who may remove into Charlotetown after the publication of this Notice. Contributions will be thankfully received by the undermentioned Ladies:—

- Mrs. BAYFIELD, Mrs. LLOYD, Mrs. BREWSTER, Mrs. LYDIARD, Mrs. COLES, Miss E. McDONALD, Mrs. DEMPSEY, Miss C. McDONALD, Miss S. DESBRISAY, Mrs. MACKIESON, Mrs. FORGAN, Mrs. McMURRAY, Mrs. P. GAUL, C. LIVER COMPLAINT.

JAUNDICE, DYSPEPSIA, Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a disordered liver or stomach, such as Constipation, inward Piles, fullness, or blood to the head, acidity of the stomach, Nausea, Heartburn, disgust for food, fullness or weight in the stomach, sour eructations, sinking, or fluttering at the pit of the stomach, swimming of the head, hurried and difficult breathing, fluttering at the heart, choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, fever and dull pain in the head, deficiency of perspiration, yellow ness of the skin and eyes, pain in the side, back, chest, Limbs, &c., sudden flushes of heat, burning in the flesh, constant imaginings of evil, and great depression of spirits, can be effectually cured by

DOCTOR HOOGLAND'S CELEBRATED GERMAN BITTERS, prepared by Dr. C. M. JACKSON, German Medicine Store, No. 120 Arch St., one door below Sixth Philada.

Their power over the above diseases is not equalled, if equalled, by any other preparation in the United States, as the cure attests, in many cases after skilled physicians had failed. These Bitters are worthy the attention of Invalids. Possessing great virtues in the rectification of the liver and lesser glands, exercising the most searching power in weakness and affections of the digestive organs, they are withal safe, certain, and pleasant. Testimony from Maine.

CAPT. DANIEL ABBOTT, Brooklyn, Maine, July 16, 1843, says: "I was taken sick one year ago, last April, upon my passage from Havana to Charleston, S. C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of 'Hooiland's German Bitters' in it, I sent for some immediately, this was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me, that I had a good appetite for supper, and rested well that night, and the next day found me a well man. I have not been without your medicine since, having been sailing between Baltimore, Charleston and the West India Islands ever since. I have now given up going to sea, and reside in this place, where you should have an agency, as you could sell large quantities of it."

Messrs. Jos. B. Hall & Co.—Gentlemen—In answer to your inquiries, I will state that my daughter, aged about 16 years, had been complaining of a pain in her side, for six or seven years, and about the first January last, was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hooiland's German Bitters" I was induced to try it in her case, and sent to your store and purchased one bottle. She had taken it but a few days when she began to improve, and now, after taking only one bottle, she is enjoying better health than she has for years. She feels no pain in her side or in any part of her body, and attributes her cure entirely to the German Bitters. WILLIAM CLARK, Salmon Brook, Aroostook Co., Me.

You should bear in mind that these Bitters are ENTIRELY VEGETABLE, thereby possessing advantages over most of the preparations recommended for similar diseases. For sale by respectable dealers and storekeepers generally. T. DESBRISAY & Co., General Agency

The Infallible Remedy!

HOLLOWAY'S PILLS.

ERYSIPELAS OF EIGHT YEARS' DURATION CURED.

Copy of a Letter from Geo. Sinclair, Esq., of Paris, Canada, dated the 18th July, 1854.

To Professor Holloway. Sir,—I feel a pleasure and a pride in bearing witness to the wonderful benefit I have derived by the use of your inestimable Ointment and Pills. For eight years I suffered uncessantly from attacks of erysipelas; large purple blotches came all over my body; in addition to the unpleasant feeling of itching and burning, which affected me both night and day rendering life a misery to me, as well as to all around,—so severe was the attack. I used several repaid remedies without deriving the least cessation to my misery. At last, I determined to try your Ointment and Pills; after taking them for a few weeks, a visible improvement took place, and I feel considerably better;—in three months, by continuing with your medicines, I was completely cured, and now enjoy the best of health. The truth of this statement is well known here, hence there is no necessity for me to request secrecy.

I am, Sir, yours respectfully, (Signed) GEO. SINCLAIR.

ULCERS IN THE LEG.—REMARKABLE CURE.

Copy of a Letter from Mr. Edward Tomkinson, of Cape Breton, Nova Scotia, dated the 4th May, 1854.

To Professor Holloway. Sir,—My sister, Miss Jane Tomkinson, suffered for a great number of years from a bad leg; in which there were several deeply seated and old wounds, defying the skill of some of the most eminent of the medical faculty, a variety of remedies were also used unsuccessfully; and it seemed to me that there was not any thing capable of mitigating the agonies she endured. At length, she had recourse to your Ointment and Pills, and after using them for about five weeks, she was completely cured, after all other means had failed to afford her the slightest relief. I have no objection to these facts being published, if you feel disposed to make them known.

I remain, Sir, your most obedient servant. (Signed) EDWD. TOMKINSON.

A BAD BREAST CURED WHEN AT DEATH'S DOOR!

Copy of a Letter from Mr. Henry Malden, of Three Rivers, Canada West, dated July 9th, 1854.

To Professor Holloway. Sir,—My wife suffered most severely after the birth of our last child with a bad breast. There were several holes in it one as large as a hand; and the devices and stringencies I tried would not heal them, but it assumed an aspect more frightful than before, and horrible to behold. As a last resource I tried your Ointment and Pills, which she persevered with for seven weeks, at the expiration of that time her breast was almost well; by continuing with your remedies for two more weeks, she was entirely cured, and we offer you our united thanks for the cure effected. (Signed) HENRY MALDEN.

The Pills should be used conjointly with the Ointment in most of the following cases:—

- Bad Legs, Cancers, Sore-throats, Bad Breasts, Contracted and Stiff Skindiseases, Burns, Joints, Scoury, Bunions, Elephantiasis, Sore-heads, Bite of Mosquitoes and Sand, Gout, Soft Corns, Fleshy Swellings, Glandular swellings, Tumours, Coco-bay, Lumbago, Ulcers, Chiege-foot, Piles, Wounds, Chilblains, Rheumatism, Yaws, Chapped hands, Scalds.

Sold at the establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar,) London, and by all respectable Druggists and Dealers in Medicines throughout the Civilized World, in Pots, at 1s 3d, 2s 3d, and 5s each.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot. GEORGE T. HASZARD Agent.

CERTAIN HELP.

Numerous Extraordinary, Anatomical, Exploratory Coloured Engravings. In Six Languages. Fifty-third Edition. Price 2s. 6d. in a sealed envelope through all Booksellers, or sent post free from the Author, for 42 Postage Stamps.

THE MEDICAL ADVISER on the physical decay of the system produced by delicate excesses, infection, the effects of climate, &c.; with remarks on the treatment practiced by the Author with such unvarying success, since his settlement in this country. Rules for self-treatment, &c.

By WALTER DE ROOS, M.D., 35, Ely Place, Holborn Hill, London, where he may be consulted on these matters daily, from 11 till 4. Sundays excepted.

Sold also by Gilbert, 49, Paternoster-row, London; Watt, 11, Elm Row, Edinburgh; Powell, 15, Westmoreland-street, Dublin; and through all others.

Dr. De Roos, from long practical experience in the most celebrated institutions of this country and the continent, has had, perhaps, unusual opportunities of observing the peculiarities relating to the physiology, pathology, and general treatment of the disorders referred to in the above work, and having devoted his studies almost exclusively to this class of diseases, he is enabled confidently to undertake their removal in as short a time as is consistent with safety.

PERSONS IN ANY PART OF THE WORLD, may be successfully treated by forwarding a correct detail of their case, with a remittance for Medicines, &c. which will be returned with the utmost despatch, and secure from observation.

THE CONCENTRATED GUTTE VIVE, or Vegetable Life Drops, are recommended to all those who have injured themselves by early excesses, and brought on Spasmodic, Nervousness, Weakness, Languor, Low Spirits, Aversion to Society, Study or Business, Timidity, Trembling and shaking of the Hands and Limbs, Indigestion, Flatulency, Shortness of Breath, Cough, Asthma, Consumptive Habits, Dimness of Sight, Dizziness, Pains in the Head, &c.

Their almost marvelous power in removing contaminations, Secondary symptoms, Eruptions, Sore Throat, Pains in the Bones and Joints, Scoury, Scrofula, and all other impurities, must be felt to be believed. 4s. 6d.; 11s.; and 33s. per bottle. The £5 Packages, by which £1 12s. are saved: and the £10 packages, by which a still greater saving is effected, will be sent from the Establishment only, on receipt of the amount per draft on a London house, or otherwise.

PAINS IN THE BACK, GRAVEL, LUMBAGO, RHEUMATISM, GOUT, Indigestion, Bile, Flatulency, Headache, Nervousness, Debility, Diseases of the Bladder and Kidneys, Stricture, &c.

THE COMPOUND RENAL PILLS, as their name Renal (or the Kidney) indicates, are the most safe and efficacious remedy for the above dangerous complaints, Discharges of any kind, and Diseases of the Urinary Organs generally, which if neglected, frequently result in stone in the bladder, and a lingering, painful death. They agree with the most delicate stomach, strengthen the digestive organs, increase the appetite, improve the general health, and will effect a cure when other medicines have utterly failed. Price 4s. 6d., 11s., & 33s. per Box, through all Medicine Vendors.

GUARD AGAINST the recommendation of spurious or other articles by unprincipled Vendors who thereby obtain a large profit. To protect the PUBLIC against FRAUD, Her Majesty's Hon. Commissioners have directed the words "WALTER DE ROOS, LONDON," to be printed in white letters on the Stamp affixed to the above, to imitate which, is felony.

Sold by HASZARD & OWEN, Queen Square, Charlotetown.
