Sad Death of Mrs. Wm. Murray

Esteemed Resident of Doaktown Passes Away After Short Illness

Doaktown, Oct. 9.—Mrs. Barkhouse has returned to town after visiting her uncle, Mr. Guy Alexander at Blissfield.

The sad death of Mrs. William Murray, a young and respected resident of Doaktown, occurred at her home on Thursday afternoon at 4 o'clock at the early age of 46. Mrs. Murray who has been ill for several weeks seemed to be improving slowly and every hope was held out for her recovery and the sad news of her death came as a great shock to the whole community. Mrs. Murray was a faithful worker in the Presbyterian church and her work will be much missed. She is survived by her husband and one son, John, four daughters also survive, Elsie, Annie, Gracie and Jessie. Her mother, Mrs. Elsie Russell also survives her.

The funeral was held on Saturday at 2.30 p. m. and was very largely attended. Rev. C. Younger Lewis of Fredericton attended the services at the house and grave, assisted by Rev. Mr. Squires.

The pallbearers were her brothers Messrs. Miles, Adam, Frank and Ernest Russell.

Miss Mary Swim who is attending Fredericton High School returned home to spend Thanksgiving with her parents.

Misses Clara and Doris Donnelly of Fredericton, were called here on illness of their father, Mr. ...

Mr. ... Sam Pottingill of New Hampshire arrived in town one day last week and are guests of Mrs. Pottingill's sister, Mrs. Irvine Robinson.

Mr. and Mrs. Lewis of New York arrived in town on Monday's Whopper en route to Hopewell Lodge where they will be guests of Dr. and Mrs. Potter.

Miss Isa Whitehead of Chatham is visiting friends in town this week. She was the guest of Miss Florence Hinton on Tuesday.

Mr. and Mrs. Bradford Ogilvie who have been visiting their daughter, Mrs. Ernest Logan of, Fredericton have returned home.

Several auto parties attended the Thanksgiving services at Ludlow and Carrolls on Sunday Oct 7th, conducted by Rev. A. J. Patstone, all of which were well attended. Special music was rendered by St. Andrew's choir in each place.

Misses Ida Sutherland and Zilla Betts who are attending Provincial Normal School at Fredericton, spent the holiday with their relatives here.

Mr. Benedict Layton of Blackville, was in town on Saturday evening.

Mrs. Stafford and three children of Marysville, spent Sunday with Mrs. Stafford's sister, Mrs. Percy Crocker. Miss Dora Holt of Quarryville, is the guest of Miss Mildred Russell this week.

Mr. and Mrs. William MacMillan of Boletown, attended the funeral of Mrs. William Murray on Thursday.

Mrs. Fannie Holmes who has been quite ill for sometime and who was in the Victoria Hospital at Fredericton, arrived home last week, accompanied by Mrs. William McCready of Fredericton. We are glad to learn Mrs. Holmes is much improved in health.

Mrs. Jennie Ogilvie and daughter Miss May, who have been in town for a few days, returned to Carrolls Crossing on Tuesday.

A BUSY YEAR FOR NEWCASTLE RED CROSS

Annual Report Shows An Enormous Amount of Work Being Done by The Ladies.—All the Officers Re-elected

Newcastle Red Cross Society held its annual meeting Tuesday afternoon with a good attendance.

The following report was read by the Secretary:

Madam President and Members of the Newcastle Branch of the Canadian Red Cross Society, I have much pleasure in submitting the following annual report for year ending Sept. 30th, 1917:

When our Society organized in 1914, over one hundred active members were enrolled in our Membership Roll. It is to be regretted that some twenty of these have lessened their interest in this great work. We have reason though to be proud of our Membership Roll for 1916-1917. Our Life Membership Roll now totals 43 (twenty seven being new for the year) with 64 active and four associate members, which is a very creditable showing for a town of our size.

We were sorry to lose during the year one of our valued members, Mrs. Rundle, who moved out of town. Mrs. Rundle was convener of the cutting committee, and was succeeded by Mrs. McMaster who is carrying on the good work in this department. When the materials leave the hands of the cutters they are handed over to the needlework committee, Mrs. Sinclair and Mrs. Maltby, who look after the making up of the garments most faithfully.

In the knitting department Mrs. Davidson and her associates are always busy with the knitted articles, and this year a greater number of socks than ever has been shipped. Sox and still more socks has been the cry from all our soldier boys and knowing the great need Mrs. Davidson advertised for knitters. Many from all parts of the country have been provided with yarn and numerous pairs of lovely socks sent in return. Much credit is due this department for their faithful work.

The materials used by the convenors of these different committees was purchased by the Convener of the buying committee, Mrs. Doyle with Miss Davidson assistant. During the year these ladies have handled \$2033.97 and much praise is due them for devoting so much of their time to this work.

In the early part of the year an appeal was made for the collection of waste paper. Anxious for an opportunity of making money for the society, Mrs. O. Nicholson, convener of the Surgical Committee asked and was given permission from the society to undertake this work. Money being donated a baler was purchased and after months of strenuous work a carload was collected and sold which netted \$142.72 to the society. \$60 of this was voted for Red Cross needs and the balance was used for purchasing materials for Comfort Bags. I am sure the members had a feeling of great pride when they beheld the 44 well filled Comfort Bags and forgot all the hard work in connection with the paper. Too much praise cannot be given, Mrs. Nicholson and her committee in the success of their undertaking.

Thanks is due Mrs. C. Sargeant, convener of the entertainment committee for bringing Mrs. Warren to speak to us on the work of the Blind soldiers and sailors in St. Dunstan's hospital, Ramsgate, England. All who had the privilege of hearing Mrs. Warren were much interested in her talk and the message was so appealing that many took cards. An official visit to Lodge No. 17, on Friday evening when degree work was exemplified.

The students of St. Mary's Convent and St. Thomas College each gave delightful concerts, under the patronage of the entertainment committee which netted \$137.20 to the funds of the society.

In October the work and entertainment committees gave a food sale which netted over \$100.

Mrs. Armstrong, convener of candy committee is ever ready to help out and sold candy at the St. Thomas' College Entertainment.

Much thanks should be given Mrs. Robinson and Miss Fleming for their arduous task of packing.

The mite money organized the second year has proved a satisfactory way of raising money. Miss Harley Treasurer, is convener of this committee, and during the year \$868.35 has been raised.

A great many appeals have been received during the year, but always the members were anxious to assist and in many cases most generously. The first appeal was from the British Red Cross and to meet this the Cutting committee gave a tea, one hundred dollars was sent to the B. R. C. Xmas Stockings were asked for in October and \$1 well filled with goodies and best wishes were sent. For this year we received the appeal much earlier and in September 11th Xmas Stockings were sent each filled with a Letter Pad, Pencil, Envelopes, Knife, Handkerchief, Talcum Powder Soap, Tobacco, Cigarettes, Pipe, Post Card, 1/2 lb. Box Chocolates and Chewing Gum. For the Stockings money was solicited from the people of the town and \$276.36 was collected.

In December it was announced by the Executive Council at Dominion Headquarters that the Canadian Red Cross Society was building and equipping in Paris a Hospital to be presented to the French Government, each province was given a portion and to New Brunswick the part given was called the Severy, to this the Newcastle Branch sent \$100.

In January Mrs. Sinclair asked that a box be sent direct to Major L. C. Harris, who had charge of the Canadian Camp Hospital, Shoreham-by-Sea, England, a large shipment of all kinds of hospital supplies were sent and a very grateful letter of thanks was received in return.

During the winter the High Jinks girls gave the proceeds of a Hockey Match, \$54.60, and with this money a bed was paid for in the Princess Patricia Hospital in Ramsgate, Eng. The Society also donated money for two beds.

In July we received an appeal for help for the wounded French soldiers to meet this a Tag Day was held, and \$284.00 was forwarded to Headquarters.

During the second year of the war our Society adopted two Prisoners of War. We are still supporting these \$150.00, being sent this year and we are very interested to know that the parcels are received and acknowledged with grateful thanks from Capt. Walters and Pte. Foot.

We have also sent to Provincial Headquarters, \$750.00 for Red Cross needs.

Recently we had much pleasure in having Mrs. Khirling at one of our meetings who gave us a talk on War Economy.

It is to be hoped that all our members increase their efforts this year and the help of new members will be greatly appreciated.

Respectfully submitted,
Bessie C. P. Crocker,
Secretary

Newcastle Women's Institute Meet

Will Send Xmas Boxes Overseas.—Addresses of Soldiers Sought.—Will Meet Next Tuesday

The Newcastle Women's Institute met on the 9th instant, Mrs. C. C. Hayward in the chair. Thirteen ladies were present.

Mrs. G. G. Stothart, G. G. Stothart and A. E. Petrie, and Misses Jennie M. Fellows and Louise Harley were appointed a committee to superintend the sending of Xmas boxes to the men overseas. All who know the addresses of any Northumberland boys in the army are requested to send the names to the Committee.

Mrs. G. G. Stothart reported for Miss Harley that the yarn committee had distributed about all of the yarn entrusted to their care.

A rummage sale was suggested, and the Institute was adjourned for one week, to meet next Tuesday evening at Mrs. Hayward's, to receive report of the Xmas Boxes Committee and decide about the sale.

Those present at the meeting were Mesdames C. C. Hayward, Bessie Gough, G. G. Stothart, A. B. Leard, H. Williston, A. E. Petrie, John McCormack, W. F. Copp, C. C. Hubbard and Wm. McMaster and Misses Jennie M. Fellows, Annie Reid and Smith.

Canadian Enlistments

Ottawa, Sept 23—Figures up to August 31, 1917, show that 431,455 Canadians had enlisted in the Canadian Expeditionary Force. Canada is represented on many fields. From inland transport workers, of whom one thousand are Canadians and who, amongst other things, help to take supply barges up the rivers of the Far East, to aviators flying over the battle fronts, the North Sea and the Mediterranean, of whom upwards of 1,550 are Canadians, this country has contributed an important part of the Allied war effort.

As to the work woman is doing, it is interesting to note that 1,801 Canadian nurses have gone overseas in the Canadian Army Medical Corps service and 314 in Queen Alexandra's Imperial Military Nursing Service. This, of course, is apart from the enormous accomplishments of women's patriotic and social service societies all over the country.

Canada's strength as a belligerent nation is shown rather strikingly in the realm of finance. While Britain has loaned millions to a number of Allied nations, she has received from Canada \$109,000,000 more than she has been asked to give.

Canadians returning from abroad report a widespread recognition in other countries of Canada's importance and value to the Allies as the fiscal stages of the war seem to approach. A-2.

"SEVEN PEARLS" HAS MOLLIE KING AND CREIGHTON HALE

"The Seven Pearls," Pathe's new-ent serial, the first episode of which will be shown at the Happy Hour Oct 22nd, is from the pen of Charles Goddard, who also is responsible for the scenarios.

The serial revolves around what happens to Ilva, an American girl, played by Mollie King. She is the foster daughter of Mustapha Bey, a high Turkish official, and seeks to regain seven priceless pearls, which were stolen from her father by an American after the pearls had been given into Mustapha Bey's care by the Sultan. Ilva is given the choice of seeing her father beheaded, of herself entering the Sultan's harem or of recovering the pearls within six months. She chooses to go in quest of the pearls but the Sultan in the meantime is in doubt whether he would rather have the seven invaluable pearls for his treasure chest or the one living pearl for his harem. Her adventures furnish thrills in plenty. She enlists the aid of the thief, Harry Grant, the part played by Creighton Hale and their adventures with Nemesis, the villain, played by Leon Barry, eclipse any adventures seen on the screen to date.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, fall of solid, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

Extract from a letter of a Canadian soldier in France.

To MRS. R. D. BAMBRICK: The Rectory, Yarmouth, N.S.

Dear Mother:— I am keeping well, have good food and well protected from the weather, but have some difficulty keeping uninvited guests from visiting me.

Have you any patriotic druggists that would give something for a gift overseas—if so do you know something that is good for everything? I do—Old MINARD'S Liniment.

PHYSICIANS PRESCRIBE—DRUGGISTS RECOMMEND

TAROL

Because they know its composition and its effects.

TAROL is recognized today as the most efficacious remedy for the relief and cure of diseases of the Throat, Bronchi, and Lungs. It is not a secret remedy; its composition is well known and numberless cures are proof of its curative power.

TAROL relieves the cough and acts as an expectorant and tonic to the bronchi and lungs. This is why it should be used in preference to all other preparations for the relief and cure of

Coughs, Colds, Bronchitis, Grippe, Asthma and Tuberculosis.

Needless to look elsewhere for a cure; needless to try new remedies, "TAROL" is the remedy which will cure you promptly, pleasantly and surely.

FARMERS OF NEWCASTLE AND NORTH WEST HOLD FAIR

Creditable Exhibition at Whitneyville Under Auspices of Agricultural Society No. 122

The Fair held by Agricultural Society No. 122 for the parishes of Newcastle, North Esk and South Esk, at Whitneyville, on Wednesday, October 3rd, instant, marked an epoch in the farming history of this section of the county.

The day, dull in the morning, soon turned fine, and by two o'clock was all that could be desired.

There was a good attendance, a large number coming in cars and teams from Newcastle, as well as from the surrounding villages of the other parishes.

Edward Dalton's ponies, harnessed in their little go-carts, were a great source of amusement to the children, free rides being given to all who could hang on.

The judges were Messrs. S. B. Hatheway and Wm. H. Moore, who gave in writing, for the benefit of the exhibitors, a most valuable criticism of the articles put into competition, most of which they pronounced very good.

The committee in charge Messrs. Howard Williston, Hiram Whitney, Jas. Young, John McCole, John D. Goodfellow, W. M. Johnstone, G. G. Stothart, were well satisfied with their venture, and hope for a greater number of exhibits next fair, especially of live stock.

A poor loser in the show ring never makes a good farmer. The prize winners were:

Judges.

Considering this is the First Show of its kind to be held by the Society, we can congratulate you on the general excellence of your exhibits.

Your Live Stock while not offering much competition presented some quality in the Pure Bred classes.

We wish to draw your attention to the presence of several grade males, in Horses, Cattle and sheep. The Dept. of Agriculture is very desirous of stamping out the grade male and we strongly advise you to forbid any grade animal on the grounds. They cannot be acknowledged in the Prize Ring.

Would Not be Without Baby's Own Tablets
Mrs. A. C. Smith, Goodwood, Ont., writes:—"I have used Baby's Own Tablets for the past two years and have found them the best medicine a mother can give her little ones and I would not be without them." The Tablets never fail to banish the simple ailments of childhood. They regulate the bowels, sweeten the stomach and make the cross sickly baby bright, healthy and happy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

SOCIALIST HEADQUARTERS SEIZED
The U. S. A. authorities have enclosed many Socialist papers from the mail since June 1st. A few days ago the Chicago headquarters of the Socialist Party, and also of the Independent Workers of the World—a Labor organization that takes in all workers, skilled and unskilled, into the same union and aims to finally abolish the Wage System and replace it with universal cooperation—were raided by detectives and all papers and plant seized.

NEW CHAMPION RANGE A GREAT BAKER

Ranges are wonderful bakers because the oven is always just right. The heat is evenly distributed at all times around all sides of the oven, and a steady temperature results.

An oven thermometer tells you the temperature of the oven instantly, and the perfect regulation of heat enables you to have any temperature you want at any time.

Fawcett Ranges are the handsomest, most economical, durable, and satisfactory, as well as the best bakers.

Send for our booklet explaining why. It contains facts about ranges that you, as a housekeeper, ought to know.

SCHOOL FAIRS.

The school garden fairs being held all over the province, good exhibitions having lately been given at Miller ton, Chatham, Douglastown, and elsewhere in this county—are a source of profit and pleasure to the pupils, their parents and the county. School gardens have proved a success, fulfilling their purpose of arousing the children to take interest in home plots.

A GOOD SHOW

The officers and members of Agricultural Society No. 122 who planned, and all those who exhibited at, the Whitneyville Fair last week, deserve the highest praise for the success of their undertaking. The exhibits were of a wide variety and very good, the show being a credit to the county. We trust this is only a beginning, and that this show for the parishes of Newcastle, North Esk and South Esk will be an annual affair, getting bigger and bigger each year.

PROGRESSIVE NEWCASTLE

During the season just passing, a large amount of building has been done in Newcastle. This movement, which began last year, has gone on increasingly, and this summer some very fine residences have been erected, which are a credit to the town. Industrially, the enlargement of Buckley's mill at French Fort Cove and the enlargement of the Lounsbury Co.'s buildings, as well as other improvements of a similar nature in other quarters are worthy of note. The taking on of new lines, such as the manufacture of box shooks, in the Canadian Gear Works, is making that industry one of great importance to the town and county. The new Stothart grist mill is maintaining and extending its activity. Clearly Newcastle, with its unsurpassed geographical advantages and the progressive spirit of its people is on the high road to prosperity.

The Trades and Labor Congress

The 33rd annual convention of the Trades and Labor Congress of Canada, was held at Ottawa last week. On the question of conscription the congress maintained the opposition of labor to this measure, but decided not to take any drastic action to oppose conscription. The proposal of a general strike remains in abeyance. On the question of soldiers' pensions, the congress advocated an increase in pay for privates to \$2 per diem, an increase in the pay of non-commissioned officers in proportion; an increase in the separation allow-

Retrenchment the Watchword

(By Bernard K. Sandwell.)

Canada's Imports from U. S. A. \$684,219,663
Canada's Exports to U. S. A. \$280,616,330

EVERY dollar unnecessarily spent by a Canadian (individual, corporation, or government) today is a dollar diverted from the urgent task of maintaining the economic activity and national prosperity of the country.

Only the most rigid retrenchment—economy in too mild a word—will suffice to keep this country in a sound and safe position during the remaining period of the war and the opening months of the peace readjustment.

The need for economy has been preached by far-sighted citizens for several years past, but with very little effect on the public at large. Urged to practice thrift for various academic reasons, and in preparation for certain distant and vaguely-understood contingencies, Canadians have curtailed a few specific extravagances and gone cheerfully on with most of their ordinary expenditures, comforting themselves with the thought that the country had managed to do without thrift for the last twenty-five years and should therefore be able to continue.

But Canada is to-day faced by an entirely new situation. This country, for years among the heaviest per capita borrowers in the world, is now not merely precluded from any further borrowing of new capital, but is unable to collect cash for her own present output, and must either contribute to finance her own customers or cease to find a market for a large proportion of her products.

With the entry of the United States into the war, and the mobilization of the financial resources of that country for the service of the Allied cause, the last available market for funds was closed to Canada. In the month of August not a dollar of Canadian municipal financing was done in the United States. The terms exacted for the recent Dominion Government loan in New York made it evident that no further assistance need be looked for from that quarter.

While the United States is making, and will continue to make, large advances to various Allied countries, the condition of these advances is that practically the whole sum supplied shall be spent in the lending country. This condition debar Canada from participating in such advances, for Canada's need is for cash for the carrying on of her own industries of war equipment and food production.

At the same time, the willingness of the United States to finance the orders of the Allied belligerents, when placed with American producers, has naturally led the Allies to refuse to place orders in any country which cannot grant the same terms. The present reduction in activity in Canadian munition plants is due not to any cessation of demand from Europe for munitions, but to the fact that Canada cannot compete with the United States in offering financial accommodation to the purchasers.

Until she was excluded from the American money market, Canada had been able for some time past to extend partial financial accommodation to the Allied countries for the supplies which they obtained here, and this without enforcing upon herself any strict regimen of thrift. But this was due in part to the fact that while lending to her customers she was herself borrowing from her neighbor. The sales of Canadian bonds of all classes in the United States in 1916 were \$184,000,000, and in 1915 \$207,000,000. This year the Dominion Government has sold \$100,000,000 and municipalities about \$7,000,000. Under these circumstances it was not difficult for Canada to make advances to the Allies, on the purchase of munitions in this country, which at the end of July totalled \$285,000,000. The difficulty consists in continuing this process without

any aid from the United States; and not only in continuing it, but in increasing the range of the transactions upon which such credit is granted—for the Finance Minister recently announced that arrangements had been made by the Government to furnish Great Britain with \$40,000,000 for the purchase of Canadian cheese and \$10,000,000 for hay, oats and flour. There is good reason to expect that a similar accommodation must be extended to Great Britain for a large part of the export of foodstuffs for the present fiscal year; the magnitude of this item is instanced by the fact that the export of wheat alone to Great Britain for the fiscal year ending March 31 last amounted to \$194,839,995, and wheat flour to \$55,908,600.

The only way in which Canada can possess herself of the funds necessary for this immense and unprecedented task of financing her customers is by rigidly curtailing her own expenditures on all unnecessary objects. Particularly is it necessary that superfluous imports should be stopped. In the last fiscal year Canada imported from the United States no less than \$684,219,663 worth of commodities, while exporting to that country only \$280,616,330. These imports included \$15,000,000 of automobiles and parts thereof, \$10,000,000 of fresh fruits, \$2,400,000 of musical instruments, over \$3,000,000 of furs and manufactures thereof, \$2,000,000 of "fancy articles," \$2,500,000 of vegetables, \$4,850,000 of tobacco and its products, and many millions of dollars of smaller items for articles which can be dispensed with wholly or in large part without grave difficulty. In addition to these articles, which reach Canada in the form of finished luxuries, there is an undistinguishable amount, which must be very large, of serious raw materials which are employed in the manufacture of luxuries in Canada itself; to say nothing of the commodities which, while not luxuries in themselves, are made so by extravagant consumption or by being used where cheaper or domestic products would do just as well. Canada, while compelled to extend credit upon almost everything which she herself sells abroad, is obliged to pay cash for all of these imports, which are consequently draining the resources of the country without conferring any real benefit upon any part of it.

Few if any luxuries that are consumed in Canada do not contain a considerable proportion of imported goods among their raw materials, even if they are not wholly of foreign origin. But even in the case of luxuries entirely produced in Canada, if any such there be, the case against their consumption is equally strong. The labor from the production of such articles saleable abroad, and there increases the balance of trade against this country; and the funds employed in their production are needed for the financing of export trade.

Under the heading of "luxuries" and "unnecessaries" come, at the present time, all capital expenditures which will not be immediately productive of an increasing export of commodities. This includes all municipal and government works which affect merely the convenience or comfort of the citizens. Broadly speaking no public works are justified at the present juncture except those which remove an immediate menace to health or an immediate obstruction to the processes of production or trade. This is a time for the mauling up of old plant rather than the substitution of new, however much outworn the old may be.

To repeat: Every dollar unnecessarily spent by Canada (individual, corporation, or government) today is a dollar diverted from the urgent task of maintaining the economic activity and national prosperity of the country.

ances of approximately 60 per cent; the abolition of the patriotic fund in keeping with the increased allowance; an elimination of discrimina-

tion in disability money—officers to or vice versa for total disability—\$100 a month to be the amount irrespective of rank.

HEALTHIEST ONE IN THE FAMILY

No Sign Of Dropsy And Kidney Trouble Since Taking "FRUIT-A-TIVES"

HATTIE WARREN
Port Robinson, Ont., July 8th, 1915.
"We have used 'Fruit-a-tives' in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with Kidney Disease. The Doctor said she was threatened with Dropsy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-tives'. She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. We can not say too much for 'Fruit-a-tives' and would never be without them."

WILLIAM WARREN.

Rally Day at Loggieville Sunday

Interesting Exercises at Knox Presbyterian Church—Loggieville Personals

Loggieville, Oct. 9—The 7th that was observed as Rally Day in the Presbyterian church here. The special program carried out by the members of the Sabbath School at 2:30 p. m. proved a most interesting affair. As the church bell ceased ringing, the children who led the singing, filed in taking their places in the choir loft of the church. Miss Florence Harvey presided at the organ. The other members of the school attending the service occupied the centre pews in the auditorium. The service, conducted by the superintendent, Mr. Herbert Edwards, was a particularly interesting one. Recitations were given by Miss Thelma Johnstone, Miss Ella Young, Miss Vera Lockerby, Miss Hazel Loggie and Master Carlyle Edge. The choruses by the little ones were heartily sung and the service throughout was a splendid one. The autumn leaves, kochia, wheat and cut flower decorations, made a pleasing appearance. A fine address was given by the pastor Rev. W. B. Rosborough, Mrs. Rosborough and little daughter Anna, arrived home from Nova Scotia on Saturday.

Workmen's Compensation Act Explained

Meeting at Chatham Last Wednesday Evening—Employees Favor New Act

F. T. G. Knowlton and L. Sugrue of the Government Commission to enquire into what the employers and employees think of the new Workmen's Compensation Act, asked for by the N. B. Labor men, by which the employees would all be assessed so much on the pay roll of their particular industry and compensation paid injured workmen by a commission out of that fund, held a meeting at Chatham on the 3rd instant. W. B. Snowball J. P. Burchill, Sheriff O'Brien, D. T. Johnson, F. M. Tweedie James Deveridge, testified for employees, all agreeing that assessment and commission would be better than the present system, but most thought that the employee should contribute. Richard Galovay complained that the doctor's bills of injured workmen were not always paid by the employer and Dr. Loggie that the doctor often lost his fee.
The Commissioners, it is hoped, will hold a meeting at Newcastle soon.

Irene and Olin Carson have returned from a pleasant visit to relatives at Kingsclear and Fredericton.

ONE AMATEUR'S RECORD

An amateur farmer who rather late in the summer season planted \$6 worth of strawberry plants on his estate at Rothsay, was able recently to pick six large, ripe berries. On Sunday last he plucked two berries, and the other four were culled last week. He acknowledged this morning that strawberries at a dollar apiece would be rather expensive to produce. He consoles himself with the thought that his berries came, even though they were late in developing. The amateur also confessed that he had paid \$8 for a barrel of seed potatoes last spring, and that he had received in return a yield of three-fourths of a barrel. These he could have sold at the rate of \$3.50 per barrel; but he intends to eat the tubers himself. His black berries, he boasted, were a grand success.—St. John Globe.

Farming West Not Troubled

No Fear Expressed of Intensified Shortage of Labor After the Draft is in Operation

Reports reaching Ottawa from the agricultural districts in Western Canada indicate that no trouble is anticipated from intensified labor problems as a result of the operation of the Military Service Act. Experience at the time of the harvest this year, when sufficient labor was supplied through the co-operation of many patriotic forces in addition to the regular supply, has caused the farmers to view the prospect with complacency.

In the first years of the war, a large number of farmers left the land to join the armies. The exodus was led by the large number of men from the Old Country who had taken up farms in the West. The operation of the Exemption Boards under the Military Service Act will tend to prevent any serious withdrawal of farmers or their assistants in future as agriculture is one of the industries which will be given particular care.

Strong People Needed

The need for people to be healthy is urgent. Those whom illness has put outside the ranks of robust men and women feel their position keenly. They are handicapped in every walk of life and weak men and nerve worn women need more earnestly than ever to put their health right and become active and strong. Many who begin "rattling" months ago are as ill as on the day they began vainly tinkering with common drugs. Every ailing man and woman should remember that theills of debility, nerve exhaustion, indigestion, sleeplessness, neuralgia, and depression come from a faulty blood supply. Worry, over-work or other causes have impoverished the blood and left the life-stream impure. The nerves thereby are starving and the whole system is languishing for new blood. In this condition many thousands have won back strong nerves and new health and strength through the new rich blood. Dr. Williams' Pink Pills actually makes. In a weak or bloodless condition it is not only a waste of time and money, but also a further menace to your health to tinker with common drugs. Follow the example of so many thousands by giving Dr. Williams' Pink Pills a fair trial, and they will transform you into healthy, active, men and women.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

How To Start A Cancer

Some Very Common Practices It Would be well to Avoid

An English scientist, interested in the attempts to conquer cancer, suggests the following methods by which a cancer may be produced:

"Encourage your patients to smoke clay pipes with the varnished ends broken off or to retain sharp edged stumps of teeth in their jaws, and you may fairly expect now and then to witness the de novo production of cancer.

You may tell a patient who has a little wart or an irritable crack in his lip that he may go on smoking and amuse himself by picking off the crust whenever he has a little spare time and come to you again in six months. This is a very certain method. In another instance you may assure a man with a little pimple near the angle of the eye that it is of no consequence, not worth an operation, and advise him to apply cold cream. In a year or two's time he will probably be able to show you a very interesting example of rodent ulcer (a form of so called skin cancers.)"

The Englishman might have added that although "it is not easy to produce cancer artificially," it is still less easy to cure it artificially or otherwise."—Los Angeles Times.

RACIAL WELFARE

VERSUS ALCOHOL

Alcohol in its relation to race degeneracy has been receiving increased attention for years. It has been observed that where the drink habit has been conspicuous for more than a generation there have been signs of physical and mental weakness.

Of 1200 cases of idiocy and feeble-mindedness at the Royal Albert Asylum, 10.25 per cent. were attributed to alcoholic parentage, 19 per cent. of the epileptics in the Craig colony in New York had alcoholic parentage.

A case is recorded where a normal woman married a normal man, and had three normal children. Of three children by a second marriage to a heavy drinker, one became a drunkard; one was infantile; both contracted tuberculosis (the first in the family history; the third was a social degenerate and drunkard. By a third

marriage to a sober man the children were sound.

Sullivan in England found that of 600 children of 120 drunken mothers, 55 per cent. died in infancy, and that several of the survivors were defective. Many of these women had sober women relatives married to sober husbands. The mortality among their children was 23.9 per cent.

Unhygienic conditions in the home of the drinker increase child mortality.

Money spent for drink cannot be spent for rent or for plenty of nourishing food, or for fuel or clothing. Conditions thus created tend to child mortality, especially if the mother is obliged to help "keep the wolf from the door," because of a drinking father.

THE REASON

Once a minister preached a sermon

on restitution. At its close he invited all who paid their honest debts to stand up. Everybody in the house stood up except one little man who sat on the front seat. The preacher looked at him and said:—

"Why is it that you do not pay your debts so that you can stand up with the rest of the crowd?" The man replied "I am editor of the town paper, and all of these people standing up owe me, but won't pay me. Therefore I can't pay my debts."

Pay Will Be The Same

Men selected under the Military Service Act will receive the same pay as those now on active service receive. Pay will start from the time a man reports for duty. Money from the Patriotic Fund and Separation Allowance will also be available for selected men.

Canadian soldiers are well paid. The fact that wages in Canada are generally higher than those paid in Europe is recognized in the system of remuneration for men on active service. Clothing and all equipment in addition to food is also supplied to the Canadian soldier, leaving him with no expense except personal incidentals.

The rate of pay for men in the Canadian Expeditionary Force, other than commissioned officers, is as follows:

	Pay	Field Allowance
	\$2.00	30 cts.
Warrant Officers	1.85	20 "
Regimental Sergt-Major, if not a Warrant Officer	1.80	20 "
Quartermaster-Sergeants	1.50	20 "
Orderly Room Clerks	1.50	20 "
Orderly Room Sergeants	1.50	20 "
Pay Sergeants	1.50	20 "
Squad, Batt., or Co. Sergt-Major	1.60	20 "
Colour-Sergeant or Staff-Sergeant	1.60	20 "
Squad, Batt., or Co. Q.M.S.	1.50	20 "
Sergeants	1.35	15 "
Lance-Sergeants	1.15	15 "
Corporals	1.10	10 "
Lance-Corporals	1.05	10 "
Bombardiers, or Second Corporals	1.05	10 "
Trumpeters, Buglers, and Drummers	1.00	10 "
Privates, Gunners, Drivers	1.00	10 "
Sappers, Batmen, etc.	1.00	10 "

As in the case of those already gone overseas, Separation Allowances will be available for those dependent for livelihood upon selected men. The Separation Allowance is \$20.00 per month for the rank and file, \$25.00 for sergeants and staff-sergeants and \$30.00 for warrant officers. The experience is that many men can afford to assign half their pay to dependents, in addition.

A considerable number of men who have enlisted in the Canadian forces have found themselves better off under the army rate of pay, which is granted in addition to board, lodging, clothing, equipment, transportation, etc., than they were while in civilian positions. Their wants are provided for, and they receive a steady addition to the bank account each month.

Nerves Weak Had Hysterics

Orillia Lady Tells of Her Pitiable
Condition When the Nerves
Gave way and She Be-
came Sleepless, Ir-
ritable and
Excited

Orillia, Ont. Oct. 11th.—There is an abundance of proof found right here in Orillia that Dr. Chase's Nerve Food is unrivalled as a means of forming new, rich blood and building up the exhausted nervous system.

At this season almost everybody feels the need of restorative, tonic treatment to keep up vitality and ward off the tired, languid feelings. This letter will give you some idea of the splendid results to be obtained by using this great food cure.

Mrs. Percy Moulding, 28 West street, Orillia, Ont., writes:—

"Some years ago my nerves got the better of me. I became so bad that on one occasion during a thunderstorm I had a severe attack of hysterics. Then I became anxious about my condition. It was sleeplessness and nervous debility that were my trouble. Some nights it would be 1 o'clock before I could get to sleep. Knowing the good results obtained from the use of Dr. Chase's Nerve Food, I commenced a treatment. I took about seven boxes, and gradually I could feel my nerves becoming steady and my appetite returning. I could sleep well, and stay alone without any difficulty. Some little time ago I commenced losing in weight, and I began using the Nerve Food again as a tonic. I used only two boxes, and recovered the weight I had lost. I cannot speak too highly of Dr. Chase's Nerve Food, and when I see anyone looking ill or nervous I say, 'Get busy and use some Nerve Food'.

Dr. Chase's Nerve Food, 50 cents a box, full treatment of 6 boxes for \$2.50, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

She Might Have Been Your Daughter

(In Conversation)

She married in her early twenties. The dew of heaven was on her brow. The light of heaven was in her eyes. In her heart the love throbbed big and glad, that makes for all the world the Eden of innocence and beauty and truth. As she walked down the aisle of the church, going out on that strange new journey of life, so queenly was she, so winsome, so undefiled, had she been your daughter your heart would have swelled with holy pride, and hope for her in her new home would have been high and confident and strong.

But when the home door closed her good angels must have wept, for in the darkness an enshrouded pestilence walked, whose coming cast no shadow and whose footsteps made no sound upon the stairs.

Never again was she to know happiness, or purity, or health. Children came to the home, one, two, three, each with its own entail of sorrow, and bearing, seen or unseen, the brand more inescapably, more inevitable, more mysteriously persistent than any brand of Cain. And through years of torture, in every joint of agony, and along every nerve of pain, she herself in her own body and soul paid the wages of his sin that was not her sin. The innocent suffered for the guilty. The harvest of horrors and unspeakable anguish was reaped long years after, by hands that did not sow the accursed seed.

Yes! she might have been your daughter.

Her name is Legion. You will find her in every hospital in Canada, in every Home for Incurables; and her ill fated children, whom even her divinest love could not save from the penalty of their father's unspoken heedless sin against the inexorable Law of Nature, they jabber in the words of the feeble minded, and are in that endless procession which, through all the centuries, has crowded the asylums for the insane.

Of course it is the Old Story. It is old as human sin. It is monotonous as the endless procession of human life. It is majestic and merciless as the organic law of human society. No man liveth to himself, or dies to himself alone. The law of transgression runs "unto the third or fourth generation of them that hate," but the law of chastity and purity and obedience works redemptively "unto thousands of them that love."

She might have been your daughter—that innocent victim of our enshrouded social sin. The sin is still here in a thousand forms and guises. The pestilence walks every night in the social world where he lives who one day may be the partner of your daughter's home. Is it nothing to you that he be warned and that she be saved?—The Toronto Globe.

Available statistics tend to the conclusion that approximately one-eighth of all patients admitted to public wards in Canadian hospitals are syphilitic. Of these, two-thirds do not know they are suffering from the disease.

CORRECTIONS AND CRITICISM

Blackville, N. B. Oct. 1, 1917
Editor Advocate:

Allow me a little space to correct a few errors of type in "The Pioneers."

On pages 6, 7, line 20, for "blood" read "flood" in the poem on Breboeuf. On page 10, line 6, insert "loyal" before "sotils."

On page 12, line 8 in the poem on Lord Durham, for "arranged" read "arrayed."

I observe "The World" has a notice of the book, in which it says: "Michael's muse is murdered."

Well, the Commodore's paper was a corker at the business of "murdering" my muse in days gone by as former files of "The World" could amply testify.

"People with 'glass houses' etc. I have reason to be grateful" to the publishers of "The Pioneers" for the pains they have taken with the work and feel sure intelligent readers will be able to make sense despite the few mechanical errors.

Girls! Lemon Juice Is Skin Whitener

How to make a Creamy Beauty
Lotion for a few Cents

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in. Then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

Farmer Fined £5,500

George Thompson, a Lincolnshire farmer, was recently fined £5,500 for selling potatoes at above the maximum price fixed by the Food Controller. Thompson sold his potatoes at an average of £15 per ton, while the price fixed by the Controller was £11 10s. There were 55 charges against him to which he pleaded guilty, and he was fined £100 on each charge, in addition to £250 costs. Thompson sold more than 1,000 tons of potatoes above the legal price.

"Let Me Help You Carry the Burden, Mother"

"If Canada fails us in October, we must curtail many of our activities."

Sir ARTHUR STANLEY,
Chairman, Executive Committee,
British Red Cross.

It now costs \$300,000.00 a week to carry on the work of the British Red Cross, or \$16,000,000.00 a year.

Every minute of the day and night it costs \$30 to minister to the sick and wounded and dying.

Last year Canada's magnificent contribution paid for the entire work of the British Red Cross for nearly seven weeks.

This year, in view of the greater need, it is earnestly and confidently hoped that Canada's contributions will be as great proportionately as the magnificent offering of last year.

Our trust is, that the Citizens of Canada will give generously to this noble cause on—

"OUR DAY", OCTOBER 18th

A Few Facts about British Red Cross Work.

The British Red Cross Society is the only institution which carries voluntary aid to the Sick and Wounded of the British forces on land and sea in every region of the War.

Its work is therefore the concern of all classes of British subjects, whether living in the British Isles, in the Dominions and Colonies beyond the seas, or in foreign countries.
