The Meaning of Values

Some people think that because a garment is low in price it is a "value" This is not always true. "Value" means something more than low price. It means low price and high quality. Many low priced garments look well for the moment, but second grade materials, skimmed seams, cheap trimming soon tell in poor wear. Such garments are not values They are merely cheap merchandise—nothing more.

Real Values---Farrah Values

are something quite different. They are garments that represent the best in material, in tailoring, in finish. They are garments that have quality and style, garments for which you would willingly pay more. But because our buying organization enables us to purchase at great concessions, because our volume of business enables us to sell on a smaller margin of profit, we are able to offer them at prices which means real & consistent values.

Our Merchandising policy is to sell a large volume of goods on a small margin of profit. That means better goods at lower prices—real values.

To demonstrate this we are offering values in
Women's Suits

The essential points to study in a suit are its style and its material. Is the suit smart? Is it correctly tailored? Does it fit the line of your figure? And is the material so firmly woven that it will retain its shape through all weathers and all wear? The suit values we are offering in this great demonstration meet every one of these demands.

REDUCED FREIGHT RATES
Chief Commissioner F. B. Carvell, has announced that on Dec. 1, a ten per cent reduction in freight rates will take place on all roads under the jurisdiction of the Board of Railway Commissioners.

From all sections of the County, encouraging reports are coming in of the support given to the Government candidate Mr. McCurdy. Farmers particularly are rallying to the ranks. They know where true Protection comes from.

"More Men Than Women Have Nervous Troubles"

This is the statement of a specialist on Nervous Diseases who comes in contact with many thousands of cases. The increase in diseases of the nerves during the last five years has been enormous.

Is it any wonder that men's nerves are giving out?

Look back over the history of the last few years.

Think of the enormous burden of responsibility which has been put upon the shoulders of business executives.

The excessive mental strain. The worry and anxiety. The physical effort.

This has surely been great enough to break the nervous systems of the strongest men.

The war strain. The unsettled conditions of business and employment.

These are responsible for the rapid aging of men which you notice everywhere.

You feel out of sorts. You do not sleep well.

You find yourself losing your grip on business.

Your daily task is more than you can stand.

There is, perhaps, no organic disease.

But you find your energy and ambition petering out.

Your doctor tells you to take a rest for a few months.

But you do not want to be put upon the shelf.

Your business cannot spare you at this critical time.

Perhaps you cannot afford complete rest when living expenses are so high.

But you can take things easier. And you can profit by the experience of others and build up your exhausted nervous system by using Dr. Chase's Nerve Food.

This is the most rational treatment available and is endorsed by more common-sense, reliable people than any medicine recommended for the restoration of the nervous system.

Dr. Chase's Nerve Food is universally used by women as a means of restoring the nervous system. Your wife, or sister, or mother, will be able to tell you something about its remarkable upbuilding influence.

But more men than women now have nervous troubles.

And Dr. Chase's Nerve Food is no respecter of persons.

It builds up new energy and strength in the most natural way imaginable by enriching the blood.

It supplies to the blood in condensed, easily assimilated form the elements which nature requires in order to replenish the depleted nerve cells and restore the vitality of the human system.

These certified letters may be from people you know. They are worth reading, anyway. For they are the honest opinion of people who have been benefited by Dr. Chase's Nerve Food. Edmanson, Bates & Co., Ltd., Toronto.

Overwork

Mr. D. F. Armstrong, R. R. No. 3, Mallorytown, Ont., writes:—"Through overwork and an extra amount of mental strain, I became very nervous and rundown. I began using Dr. Chase's Nerve Food, and it certainly touched the right spot. It almost seemed for a time as though I fairly lived on it, and I can recommend this treatment to anyone requiring a medicine of this kind."

"Sworn before me at Mallorytown, this 7th day of March, 1921—D. S. Clow, J.P."

Sleeplessness

Mr. W. J. Van Dusen, Centre St., Napanee, Ont., writes:—"For some time I suffered from sleeplessness and all the weakness and tired feelings that follow continual loss of sleep. Gas would accumulate in my stomach, and this also caused a great deal of trouble. Upon the advice of a friend I began a treatment of Dr. Chase's Nerve Food, and soon found it to be just what I required. By the time I had completed the treatment, my nervous system was in splendid condition and I felt much stronger."

(Endorsed by S. Casey Denton, Mayor.)

Rheumatism

Mr. Charles R. Tait, Newtown, Kings Co., N.B., writes:—"I suffered with rheumatism and my stomach was in a very weak state. I could eat no fruit of any kind and suffered nearly all the time. I tried several doctors, but got no relief from any of them. I was in a drug store one day and overheard two men talking—one was telling the other about Dr. Chase's Nerve Food completely relieving him of rheumatism. I bought a box, thinking it would be like all the rest of them, but after taking this one box, I felt so much better that I continued the treatment, and now I can eat anything and do not suffer any more with the rheumatism."

"(This is to certify that I am personally acquainted with Mr. Charles R. Tait, and believe his statement is true and, to my knowledge, correct.)"—(Signed) A. S. Mace, J.P."

AN ENGLISH WAY OF FIGHTING RUM

(New York Times)
The liquor problem has been solved without prohibition in the Carlisle district, England, according to K. M. Chance, who comes from there and who is at the Hotel Pennsylvania on a shopping trip.

In my district at home," said Mr. Chance, "they created a Control Board which has absolute rule over the sale of liquors in the district. Every public house was commandeered. Managers or owners were de-throned and new managers appointed by the Central Board were installed. Naturally the latter were exponents of law and had no real financial interest in promoting the sale of liquors, and so the whole character of our

public house was changed. "Attractive fixtures were installed and delicious foods were displayed. Soon we had the continental atmosphere. Men brought their wives and their children and ate while they had their mug of ale. Hours for the sale of liquor were greatly reduced, and now the public house is a delightful place which no woman need fear to enter, and drunkenness in the Carlisle district is reduced to a minimum.

"Carlisle district is full of romantic interest. It was here that Wordsworth wrote most of his poems, and we are right next door to Gretna Green, where back in the eighteenth century, the village blacksmith, the toll-keeper, or the ferryman used to unite the loving hearts of elopers from England over the border into Scotland, for fees varying from half a guinea to as much money as these early profiteers, the self-appointed Magistrates could extort.

"In that district the scene changed to a munition centre during the war. A very rough element came in and there was much drunkenness, so the law abiding people took matters into their own hands and the present reforms are the result. In our own way we solved the important problem, and it seems to me much more effectively solved than you have done in America, with your prohibition and your bootleggers."

McCurdy at the head of the poll, will give Northumberland the right swing, in the March for true progress.

WORKING MEN JUST THINK OF THIS

For 43 years, the protective tariff, has guarded your interests. If by your votes you place in power parties who advocate Free Trade; a revenue tariff only, or a tariff insufficient for the needs of our common interests, you will strike a blow at yourselves. Do you realize that if the protective tariff is lowered, Canadian factories and industries, in which you earn your living, will be subjected to such overwhelming competition, from the highly protected American factories; that many of our home manufacturers, will be forced out of business; and you their working men must suffer the consequences. These agitators for a lower tariff, are striking at you and your job. This is simply a solid fact. Think it over. Are you prepared to see factories, workshops, industries closed down; and our workmen out of work? Help the laborer's interests along, by voting for E. A. McCurdy.

Shooting at Stars

Many curious and amusing instances can be given of meteors, stars, and other heavenly bodies having been mistaken for something connected with the earth. Quite recently a very brilliant fireball which was seen from various parts of the country was thought by large numbers of people to be a rocket sent up in celebration of some important event. Others took it to be the headlight of a big motor-car. The latter only discovered their error when the supposed headlight turned from white to yellow, then to green, and finally to a beautiful pink, and vanished in a shower of glowing sparks.

Another magnificent meteor, or fireball, which traveled from the south of England to the west of Ireland, shortly before the war, was mistaken by some observers in Cork for an airplane searchlight. A boatman in the district described it as a "thing made with fancy powder."

Bright planets like Venus and Jupiter have often led people into thinking they belonged to aircraft or distant lighthouses. In one of the southwestern provinces of Russia, quite eighteen months before the war broke out, Venus was taken for the light of an airplane carrying Austrian spies. The fact that the brilliant planet reappeared every evening in almost the same spot only increased the mystery.

Some years before that, however, a sensation was caused at Cherbourg by a dazzling object in the evening sky, and some boats actually left the port to bring in—Venus. The Queen of Planets had been taken for a prowling balloon.

Even more amusing was the bombardment of Venus by German artillery during the war. The gunners thought they were firing at a Russian air-ship. It was not often that Whymper, the famous mountaineer, was mistaken in matters of this kind. On one occasion, however, he was caught napping, a fact which he himself frankly records. He had been exploring the cloudy skies during a certain difficult climb, but one night was able, as he thought, to congratulate himself upon the stars having come out at last.

Alas! the most brilliant "star" turned out to be a luminous beetle, which he promptly caught and put into methylated spirit. His light was so intense that, even after the insect died, it glowed for several hours, and was bright enough for him to tell the time of his watch by, as well as to read the small writing in his journal.

Bright stars, when low down near the sea horizon, sometimes puzzle even the most experienced sailors as to whether or not they are ship's lights. Reference to this fact has occasionally been made in connection with collisions between vessels in the open ocean.

The writer has himself heard ship-masters at Board of Trade inquiries admit some difficulty in distinguishing, under certain atmospheric conditions, between bright rising or setting stars and lights at sea. Is it not recorded, too, that during the siege of Ladymith the superb Dog Star was mistaken for a balloon light.

Winnipeg Man Says the Way Tanlac Restored Him Was Biggest Surprise of Life

"The way Tanlac has helped me is one of the greatest surprises of my life," said Theo. L. Baker, 405 Qd' Appelle Ave., Winnipeg, Man. "My health was bad for two years. I had a terrible case of stomach trouble and could hardly eat and digest anything. My food hurt me so bad I often thought I just could not stand it, and nearly all the time I was in misery and distress on account of gas on my stomach which bloated me up tight as a drum. I was nervous and restless at night, and always seemed to be tired and worn out."

"Well, I was getting pretty weak when I got Tanlac, but it wasn't long until I was feeling better. Six bottles of Tanlac have made me feel like a brand new man. My stomach is in the best shape, nothing I eat hurts me and I've gained several pounds in weight. All my lost strength has returned, I sleep like a log and feel good all the time. Tanlac is certainly the best medicine I ever saw or heard of."

Tanlac is sold by all leading druggists everywhere.

ELECTED BY ACCLAMATION

The first gun has been fired and the first Candidate chosen to represent his constituency. Nominations produced one-only one-acclamation for the whole Dominion, and that the beginning of a Government victory. Mr. Gus Porter, Conservative Candidate in West Hastings, (Ont.) is the first member to be chosen. He must be the right man in the right place for he has represented his Constituency for fully 30 years.

SELFISHNESS: Morrissy is running in the Federal Election for one reason only. That reason is Morrissy only. Northumberland wants no such selfishness.

STATEMENT BY Mr. A. D. Farrah

FRANKLY, FOLKS! I believe in true value giving. I never knowingly misrepresent or mistake a value. When I state a former price as in this double page advertisement, it means that it formerly sold at that price. I do not exaggerate values. When I offer you an article at a sale price it means that the reduction is genuine and that the original price tag has not been tampered with.

This store has built a reputation during the last 28 years on the foundation of honest dealings, honest advertising and the handling only of first class merchandise. I therefore believe that honesty is the best policy and I am sincerely going to try to give you the best merchandise values possible during the progress of this sale.

THE PREMIER OF CANADA

In Mr. Meighen, Canada has a Leader, who has won his way, by sheer force of Character, in public affairs, in which he has displayed power and weight, added to courage, industry and a keen insight to National requirements. He is absolutely conscientious and sincere in his devotion to Canada, so much so, that he has become the most popular personality in the list of Leaders. He is an able advocate of the policy he undertakes to uphold, logical, aggressive, defiant, consistent, and as he has proved during the campaign, absolutely fearless, a man of true courage. He believes in what he advocates, and he advocates the tariff policy, best suited to Canada. As a thinker, reasoner, and worker in the field of politics, he is acknowledged to be in the front rank of Parliamentarians. He has gone on and up, from the position of "farm boy to be the Premier of his country, his sympathies still with the farmer, and every branch of Labor. There are those whose opinion is worth having, who declare that "his is incomparably the most powerful intellect in the house of commons; and that he is the most powerful debator of his time." In the House, he has shown such ability, that even the late Sir Wilfred Laurier said of him "he is among the most brilliant minds that Canadian Conservatism has produced, and this tribute was paid to him by the Grand Old Chief after he had experienced the strength of the fighting spirit, Mr. Meighen could display in attack.

This is the man, whom the National Liberal and Conservative party, values as their Leader. A man eminently fitted in every way to be the Head of the Government, the Premier of Canada. He appeals to us. His candidates appeal, and every Northumberland elector who values Canada in the right spirit, will render support on election day, by marking their ballots for E. A. McCurdy. Meighen is good enough and Canada needs him.

For the Good of Northumberland and of the whole Dominion be sure to mark your ballot thus on December 6th.

1 EDWARD ADAMS McCURDY
of the Town of Newcastle, Insurance Agent

2 JOHN MORRISSY
of the Town of Newcastle, Merchant

**MORRISSY'S
NOMINATION
DAY SPEECH**

The electorate of Northumberland have heard it repeated for 20 years or more.

"We want to get together and build up our towns. Build factories, build industries, etc."

This is one of John's favorite themes at election times. We have had a spool factory here in his home town, also a furniture factory. At the present time we have the Gear Works and Planing Mill and any one of these industries would have been a splendid opportunity for Mr. Morrissy to get together and put some cash in them.

How much stock does he hold or has he held in any of these enterprises in his home town? Not a dollar. How much cash has he in the Max Aitken Steamer? Not a dollar. How much has McCurdy in these enterprises? He is the largest shareholder and these companies are giving employment to a number of men.

Morrissy in his nomination day speech almost shed tears of sympathy for the Laboring Men. How many does he employ? Where was his sympathy for Vanderbeck? Did he give them his assistance?—NO! He hiked to Neguac and induced Mr. Allain to contest the election and gave his support against them.

Speaking of the Railway from Newcastle to Tracadie he said; MacKenzie King said, "Yes Jack, I will build it for you", notwithstanding King has repeatedly stated he would build no more railways until the railway debts on Canadian Railways were wiped out.

Mr. Morrissy was Minister of Public Works in the Provincial Government. A charter was already granted for this Tracadie Railway and the Dominion Government ready to grant assistance when the Local Government gave a guarantee of bonds. Morrissy missed a golden opportunity of getting this road for his county—Poor old Northumberland County as he calls it on the hustings.—What was his attitude in Parliament? He voted and assisted in granting a guarantee of bonds to the Valley Railway of five million dollars and later on gave another large grant to this road, a road which never should have been built and which has plunged this province into millions of dollars of debt. Had he such great interest in Northumberland County, he would have refused to sanction the guarantee of bonds unless "the same was granted to the Railway in his own County, but he chose rather to let his own County and its people suffer the inconvenience of doing without Railway facilities ever since.

John said on the hustings he could say a lot of things he did not say. Certainly, he could have told the people that the Meighen Government have done what no other Government ever had done viz—making a grant of \$500,000 to our highways. He did not tell the people that the Meighen Government paid their soldiers better, equipped them better, paid the widows and dependants better

than any of the Allied nations in the war, built hospitals for the invalids, taught them trades, thus giving them an opportunity of earning a comfortable living for themselves and family.

He did not tell of the thousands of soldiers whom the Meighen government assisted in taking up farms, and advancing hundreds of thousands of dollars to assist them in buying stock, machinery etc. In fact there was a multitude of things John could have told the audience, where the Meighen Government had assisted, not only the returned soldier but benefitted every citizen of Canada. No No John does not believe in giving credit where credit is due.

**THE MEN AND
THE ISSUE**

From the very fact, that changes are proposed in the tariff, it is impossible in the face of the approaching election to refrain from making it an issue.

The tariff that should most concern Canada is that which would best maintain Canadian enterprises and industries, to the benefit of all, a tariff which would support home workers whether employers or employed, and foster a prosperous home market.

Three men are before us seeking the position of guiding spirit in the Governmental affairs of our Country. Each represents different ideas as to what should be the fiscal policy of the country. We have in the columns of the Advocate discussed them all, but it is still necessary to drive the truth home that only one policy will be of real value to Canada, in the present crisis.

During the present campaign it has become very noticeable and undeniably established, that of the three men, seeking place and power, as the result of next Tuesday's election, one and only one of them, has from first to last advocated, and declared from every platform he occupied, one and distinct policy, without shadow of change, in East, west and middle Canada. The same true voice rang out in every portion of our Dominion, that Canada needs a protective tariff, moderate as the needs of our Country will permit, not only to produce revenue, and while producing that necessary revenue, shall at the same time be sufficiently protective in character to foster and develop home industry, and home market, and meet the honest demands, and honest debts of the Dominion. This has been the aim and object of a Protective tariff in the past, and no other policy, will meet the needs of Canada under present conditions. A protective tariff, is an absolutely necessary agent for raising sufficient revenue for the National Treasury. It is for this policy that our Premier, Mr. Meighen firmly stands, unflinchingly and unalterably. We know just where he is.

Mr. Crerar advocates a policy, which will utterly kill the principle of protection. We take it for granted, that there is enough common sense left in Canada, to keep any great portion of our people from joining him in this scheme of National suicide.

Mr. King it is said, advocates a tariff for revenue only. We give him credit for that much; though his hedging and turning, makes it almost impossible, to place him upon any particular plank. It seems, however that his policy is, a tariff for revenue alone.

Let us remember that he advocates a tariff which is for revenue only. This kind of a tariff, never created an industry and never built a factory in Canada; it never fostered or developed home industry, and opens no avenue of work for the laborers, of the Dominion. On the contrary, should Canada adopt, under her present fiscal necessities, this tariff for revenue only, it would inevitably result in the injury, or closing down of many factories now in existence, which would bring in its train, a crushing blow to labor men, now employed in them.

Under a revenue tariff, we would

To Editor of Advocate
Newcastle, N. B.

Dear Sir:—

To my way of thinking, the County of Northumberland is going to have her chance on next Tuesday of redeeming herself. Our country's politics were for a good many years a bye-word in the mouths of the rest of the Province and Dominion. It is hardly necessary for me to state why such has been the case as the whole county knows why. Morrissy has been the cause and every one knows it. We must get rid of him this time and we must make it positive. We have our chance and we must take advantage of it. When we do this on Tuesday next, Northumberland will arise to her proper place and our politics will once more be on the plane that they should be. As long as Morrissy is permitted to crop up, we will never get anywhere. You all know this. Get rid of him and matters will be changed entirely. It is our duty to our county and we must do it. With him in control we are ruined. We want no one family controlling our politics. Let us clean our house on Tuesday. Everybody get busy house cleaning.

CLEAN UP DAY

Mr. Editor:—

I have met with a few young married ladies, who think that because they are married women, they have the right to vote on next Tuesday, Dec. 6th. I know of one case in which the lady thinks because she is married—she is the mother of one child—her name ought to be on the voting lists, and this lady will be on her next birthday only 19 years old. I informed her, that the law did not allow her to vote, while she was under 21 years of age, and that all per-

Answer—You were quite right. There is no vote for any one, under 21 years of age. The Government party, wishes for no illegal support. We want a legal, and clean election.

Can anyone give us, just the exact time of Morrissy's last political change? He has turned three ways already. His next turn will be "The stay at home" route.

MORE GOOD NEWS

Prominent Liberals of high character and National reputation are rallying to the support of Hon. Arthur Meighen. There are no public men who stand higher in Western Canada than Isaac Pitblado K. C. and Isaac Campbell K. C. Both are staunch Liberals, and Mr. Campbell, was a close personal friend of Sir Wilfred Laurier and his advisor, in Western Canada. Both have now come over to the support of the Government and Mr. Meighen. They believe in his tariff policy, and they have faith in his government, besides Mr. Pitblado considers Premier Meighen one of Canada's noblest sons. This is gratifying news, and in line with many other Liberals, who refuse to support King—and Morrissy.

Northumberland has made up its mind that it wants McCurdy and is going to elect him.

EDITOR'S MAIL.

Nelson, N. B. Nov. 28, 1921

To the Editor of "The Union Advocate:—

Dear Sir:

Please publish the following:—

We are to have an election on December 6th, and I have very carefully considered the policies of each party. For the past twenty five years I have been a strong supporter of the Liberal party, but I have come to the parting of the ways. It is not an easy matter for me to break with my old party, but very reluctantly, I am compelled to do so.

The policy of Mr. King is not the policy which Canada requires today and as a consequence I am forced to vote against it. Mr. King's policy spells ruin for Canada and I do not wish to see this fair Dominion of ours placed in such a position. We have too much at stake and cannot afford to see our years of toil, swept away at the polls on election day. Mr. King has no definite policy for all Canada, but goes about from province to province, offering any and everything which he thinks might gain him some votes. It matters very little to the country whether Mr. King is successful or not in becoming Prime Minister, but it does matter whether Canada's interests are safe-guarded. To my mind Mr. King is only interested in winning the election, whereas Mr. Meighen, who has a definite policy for all Canada says it is a matter of no personal importance to him whether the people place him in power again but that it is his duty to place the issues fairly and squarely before the people and allow them to decide for themselves. There is a big difference between Meighen and King and I am sure that if the electors will think this matter out for themselves, they will have no difficulty in deciding that it is proper for them to cast their ballot for the Meighen Government candidate, McCurdy.

It is a fore-gone conclusion that Meighen will be the Premier after election day, and I have no hesitation, (as a Liberal) in saying, that by making him such, Canada is doing the wise thing. It is not easy for me to admit this, but never-the-less it is a fact, and we must forget party politics when the future of Canada is in the balance. With Meighen placed in power, it naturally follows that a supporter of his will be in a much better position to look after Northumberland County, and I would strongly urge my Liberal friends throughout the length and breadth of the county, to layaside their party politics in this election and vote for McCurdy, the Meighen candidate, and by so doing, you will save Canada, and get something for our county. Thanking you for space, I am,

Respectfully Yours
A LIBERAL

REPENTANCE

That is so. After announcing to us benighted Conservatives, that there must be no flag waving because, they knew we are fond of it our fellow humans of the Liberal ranks, in this locality, are waving it and it floats proudly from the window of their nearby Committee room. Quite right. We are glad to see it. Of course, what they do it for is another question. After saying "there must be no flag waving," there has been a change of heart a self-determined repentance. Let us rejoice "While the lamp holds out to burn 'The vilest sinner may return.'"

ONE FRANK AMERICAN.
He Deplores Country's Lack of Refinement and Culture.

Whenever persons, communities and institutions on this continent feel themselves indicted for lack of culture, aesthetic taste, artistic sense, reverence for the incubation of the race, and all that sort of thing, don't you know, the defence is: "We are pioneers, we are in the creative stage, fashioning a new heaven and a new earth out here in God's country; we haven't had time and leisure yet for this highbrow, long-haired stuff, but just you wait and see; watch our smoke when we once get started, and go after that line, oh boy!"

To all of which Sinclair Lewis says, "All bosh, ballyhoo and bunk." And the author of Main Street, that iconoclastic best-selling novel, is a splendid Lord High Executioner of "the Pioneer Myth." Bro. Lewis has no use for "the Americans who for a hundred years have justified by the pioneer myth their unwillingness to ponder anything but book-keeping and amours." Perhaps his words will apply to Canadians who are just as full of this pioneering, empire-building talk as their more or less beloved neighbors "to the south of us."

"It is somehow inconsistent to boast, that it has one motor for every five or six inhabitants, and to sigh unctuously that we cannot yet take the time for economics or belles-lettres. We can afford everything but leisure."

So asseverates Sinclair, coming more nearly to the crux of the situation when he exclaims, "And all the while it's doubtful whether America is doing or ever has done more pioneering than Europe!" His argument is that, as a town of any size, New York is just as old as Berlin or Petrograd, almost as old as Liverpool or Manchester. The United States has had within reach for four centuries, he insists, all the advantages that have come to northern Europe.

Has our thrusting of the frontier from Philadelphia to Nome and Manila been a greater labor or a more burning adventure than England's expropriations in Africa, India, Australia, Canada, and a thousand islands?"

In other words, Europe has pioneered as much as America, and during the same period and yet has found time and energy to read books, paint pictures, adventure into new fields of art and science, and undertake most of the intellectually and spiritually creative work that goes to make up culture. Meanwhile Americans have been "kidding themselves" that every real American is a cowboy or a lumberjack or a "he-man," too great and simple and wonderful to trouble about sissified things such as belles-lettres, incubation and all that sort of thing, don't you know.

"It's a great myth," says Lewis, and, really, it does seem to be just a myth, only that and nothing more.

A Geological Freak.

The geological freak of a great mountain disintegrating so fast that it is discernible day by day—a thing that ordinarily takes thousands of years—is occurring in the mountainous regions near Vienna. The Saussee Sandling, rising over 5,000 feet, is simply collapsing. Its great cones and pinnacles of rock are crashing and tumbling as if undermined by gnomes; the forests that clothed the slopes lie flat or move slowly and steadily downward, piling into the valleys, and the turf carpet moves with them. Over three and three-quarter miles of territory are involved in the movement, and hundreds of sightseers view the convulsions from opposite slopes. The phenomenon has been in progress for nearly a year, with gradually increasing acceleration. One scientific explanation is the presence of an abnormal quantity of water in the chalky limestone core of the mountain, causing the collapse of great caverns and the slipping of strata.

Bricks From France.

The shock of war has jarred us loose from so many of our ancient beliefs and practices that we have become somewhat hardened to surprises. But we have not entirely lost the faculty of being startled. We have known France as an exporter of bronzes, jewelry, hats, gowns, perfumes, beautiful and delicate things of adornment and pleasure. We were somewhat bewildered, therefore, to learn recently that the French are showing great activity in the making of the unlovely and prosaic brick. It seems that bricks fashioned in France are being offered in Kent at ten shillings a thousand less than the quotation on the local product. And Kent, mind you, is the citadel of the British brick industry.

The Shah In England.

When the old Shah of Persia visited England in 1873, some 8,000 begging letters were posted to him during his sojourn. He was much pleased with them and felt highly honored to receive so many letters, each of which he treated as a compliment. He had all of them securely packed into a trunk and despatched to Persia, where they were deposited in his museum.

John Is Unlucky.

Ancient history shows much in support of the contention that John is an unfortunate name for a ruler; for there is a long list of monarchs bearing that name who had much trouble while on the throne and many of them lost their lives.

Holland's Coffee.

Holland is resuming its pre-war importance as a coffee market. At the end of last June 32,000 bags were on the way there from Java and 206,000 from Brazil.

KING ON WESTERN FARMERS

Addressing a meeting at Moosejaw Mr. King, issued a warning, that by forming a third class group or party, the people of the Prairie provinces, would bring political isolation upon themselves. He held that in seeking to defeat both old parties, by forming themselves into a third party, they were taking a wrong course. The Liberal leader, is evidently not in favor of a farmer party, but he would like to get all of their votes, he could, and his record shows he would not be against them, or any other party if they would form a union with him or take any other course to defeat Meighen. He has slapped them in the face, gone on record as going against "third party tactics, but he is prepared to pat them on the back, and give them a smiling smile, as hail fellow well met, if he could only make sure, that should he be elected, and win the fight; they would stand at his back.

DONT FOOL YOURSELF

The "Leader" says that the Labor Leaders are supporting Morrissy. If the thought gives either Morrissy or the Leader any comfort they, are welcome to it, but at the same time they are only fooling themselves, which will be positively proved to them on Election Day. The poor souls need comforting thoughts but Oh the dreadful awakening.

That little mark on the ballot, will settle your fate, so far as Government is concerned. It will mean either good government or worthless government. A vote for McCurdy means the protection of your own interests.

Photos of Spirits.

Proof that spirits have bodies possessing exactly the same form as our own has been furnished by Dr. Geley, a famous and competent investigator, in an article published in the Revue Metaphysique, Paris. This announcement has caused great excitement in the bona-fide spiritualist circles of France and England.

The Revue publishes a series of photographs of the hands and feet of spirits "materialized" in moulds of paraffin wax. The experiments were conducted under conditions which make fraud and trickery impossible.

The casts of the hands and feet bear no resemblance to those of the medium who aided Dr. Geley. They show clearly the lines of the palm and folds of the skin. Although the same medium was used in every case the casts show an amazing difference in the size and form of the hands and feet and in the lines on the fingers and palms.

Dr. Geley created a sensation a short time ago by the publication of an article on the results of experiments during which he obtained facial photographs of spirits. In those seances also every precaution was taken to make faking impossible.

It is hoped that in the near future some spirit will be kind enough to permit his whole body to be photographed. Then it will be clear that spirits are not the ethereal, ghostly vapors which popular belief has held for centuries, says Dr. Geley.

Author as Marriage Broker.

The amusing experiences of Mr. Allen Upward, the famous author, as legal assessor in Northern Nigeria, are told in "Some Personalities." "It comforts me to remember that my first official act was to visit the Freed Slaves' Home, and to hand the poor superintendent a cheque on my own bank, telling her to get whatever was wanted, and let me know when it was spent. (I need scarcely say that His Excellency saw me reimbursed.)

"I told her to look on me as her assistant rather than her official superior; and she thoroughly deserved my confidence. The Home contained women as well as children, all rescued from slave caravans.

"The women were usually disposed of in marriage, and I acted as marriage broker. A Hausa soldier would come to me with a note from his commanding officer certifying him to be a man of good character and able to support a wife, or another wife, as the case might be.

"I then turned over a corner of the note and scribbled: 'To Lady Superintendent, Freed Slaves' Home. Please let bearer have one wife.'"

Expression of Ancient Corpse.

In connection with various festivities on the occasion of the Dante Centenary an interesting ceremony took place at Verona. The lid was taken off the tomb of the Can Grande Della Scala, which is one of the most beautiful of Italy's monuments.

The Can Grande, a famous soldier of fortune of the Middle Ages, died in 1329. His body, which had been embalmed, was found marvellously preserved; even the expression of the face was still noticeable. The body was wrapped in artistic silk draperies with old Verona's banner at his feet. At his side lay a big sword, slightly damaged by rust.

The tomb was opened because of doubts raised whether the body was really there.

**Queen Sophia of Greece,
As Well as Her Children,
Turns Against Germany**

Were it not for the fact that Queen Sophia is of Hohenzollern birth and a sister of the former kaiser, there would be little in Greece to recall to the mind of the people the existence of Germany. Since the elevation to the throne of the late King Alexander there has been no German envoy or legation at Athens and there are no German consuls to be found anywhere in Greece, not even in Salonica, which, by reason of its commercial importance, has often been described as the Liverpool of the Levant.

The ubiquitous and irrepressible drummers of Teuton trade and industry who formerly swarmed in Greece are now conspicuous by their absence. Even the Hellenic newspapers, which were wont to recognize Germany, have ceased to accord her any space in their columns, now that there is nothing more to be expected from her in a financial way, and, in one word, Germany is in a fair way to be forgotten in Greece.

Moreover, German is virtually barred at court, and among members of the royal family the language in which they speak to one another is English. True, they have all been brought up from their very infancy to talk it. It has been the vernacular of their nursery. Formerly it was to them a matter of custom. But now it is something more. For, whatever may be the feelings of Queen Sophia, her children have be-

QUEEN SOPHIA OF GREECE.

come anti-German. To-day they regard Germany as responsible for all the troubles to which they have been subjected in the way of exile, monetary straits and the boycott of the court of Athens by Great Britain, France, the United States and other nations.

The influence of the beautiful, clever and strong-minded crown princess upon her husband has been wholly hostile to Germany. For she shared with her parents, King Frederick and Queen Marie, the abominable treatment to which they were subjected when the former kaiser's armies invaded Roumania, plundering the royal palaces and putting nearly the whole country to the fire and the sword. The humiliations to which Queen Marie and her daughters were then subjected by Field Marshal von Mackensen, and by Prince William of Hohenzollern, who commanded one of the German divisions, were of a nature never to be forgotten or forgiven by high-spirited women.

Neither are the relations between Queen Sophia and her brother very cordial any longer. For when she and her husband were driven out of Greece, and into Swiss interment, in 1917, for having espoused the cause of Germany in the great war and found themselves in monetary difficulty, the former kaiser is known to have turned a deaf ear to her appeals for pecuniary assistance, and to have bitterly criticized Constantine and herself for having failed to retain the upper hand in his behalf at Athens.

Nor have either of them been edified by his craven flight into Holland in November, 1918, abandoning his troops to their fate; nor yet by the extraordinary lack of dignity with which he has behaved since. Indeed, there is much of a nature to confirm the reports to the effect that Queen Sophia has reverted to the contempt and ridicule, which she in common with her sisters entertained for her eldest brother in her girlhood, and the profound resentment which she manifested against him during the first fifteen years of her marriage.

Electric Popcorn.
The popper that pops popcorn by electricity is a brand-new invention; much more convenient than the old style of popper, and less danger of scorching the corn.

It is a small pan of aluminum with a rectangular wire cage on top and a wooden handle. Through the handle passes an electric cord, which has simply to be plugged into the house circuit. Then you are ready to pop.

Queen Elizabeth's Nose.
Queen Elizabeth of England had a red nose and was much ashamed of it. She always took pains to have it well powdered before making her appearance on a state occasion.

MORRISSY'S DREAM
Morrissey's dream of a conversation between two conservatives, is as much of a myth as his chances are for election on December 6th. Don't worry John, every-one knows that no such conversation ever took place, and your chances of securing any Conservative votes are Nil.

PLENTY OF WORK
Morrissey says, if elected he is going to give all kinds of employment. Well won't that be fine for the Chinks and Japs, but it won't help Northumberland workmen very much. Morrissey believes in hiring Orientals and not Northumberland Workers.

AN IMPOSSIBILITY
We do not believe in personalities and in the first of the campaign we hoped they would receive no place in the campaign. However, fire must be fought with fire, and as Morrissey started these tactics, we propose to meet him. His record for this kind of campaign literature is well-known, and as soon as his name is mentioned in a political fight, the electorate know what to expect. It is therefore an impossibility to have a clean cut political battle with a man of his record in the fight.

A FARCE
Morrissey's meeting held in Redbank on Friday night was purely and simply a farce! He had with him one of his Newcastle, supporters and both of their speeches were of a childlike nature. Promises galore were made but the audience did not swallow them. Good order prevailed and Manderson who was scheduled to speak, failed to show up. The audience was largely supporters of McCurdy and looked upon the statements made as jokes. Poor "Honest John" is receiving poor encouragement in this campaign, and after election day will be a bigger grouch than ever, and that will be going some. Redbank is strong for McCurdy and will roll up a large vote for him, notwithstanding Morrissey's many vague promises.

**The Case Stated in a Few Words of
Powerful Meaning.
by the Prime Minister**

THE moment you adopt a policy which puts your industry at a disadvantage compared with a bigger industry that competes beside it, that has a bigger market beside it, a wider labour area beside it, you turn the faces of your industries over there because they can do better over there, and once they do that and begin to move, the first man that suffers is the labouring man of this country. He finds that he has to sell his home. He finds that his earnings of years put into that home are gone. He suffers first, and most keenly.

The Tariff has never been oppressive, has never been unfair to agriculture, under any government, Liberal or Conservative. It never will be so long as I have anything of authority to say in determining the tariff policy of Canada.

The tariff policy of this Government is to keep Canadian working men in Canada. When you find working men's houses put up in hundreds for sale you will soon find hard times for everybody. The policy of the Government is to enlarge the employment market and add to the size of Canada. The policy of the Government is to make goods here and keep people here with plenty of work for every class of men. The policy of the Government is to give Canadian industries of every kind just enough advantage in the Canadian market as to make it pay them better to stay here and expand than to diminish their plants or leave.

When revising the tariff wherever there is a tax or schedule that is not absolutely necessary it will be wiped away.

We intend to see that no interest, however powerful, gets more than those requirements. We intend to see that no theorists, however enthusiastic, imperil the well-being of this country by blindly fixing less.

Success in Retailing

An essential factor in achieving success in a retail business is ADVERTISING—telling the buyers of your community what you have for them.

One doesn't need to be exceptionally clever or a genius to be a success, but one must have an aim, and pursue it resolutely and intelligently.

The businesses that are prospering and expanding are those that purposefully seek out new customers and place before both old and new customers the news of their service, in the form of Newspaper Advertising.

What about McCurdy doing things? The smelt fishermen say, he is all right

To Eat Well is to Work Well!

We realize the importance of good food, how important a part it plays in a man's or woman's daily work—and Mitchell's Meat Market is achieving a great success by keeping this idea in view. The chops and steaks are the choicest, the vegetables are the market's best, the fish the best that can be obtained. The Mitchell's Market is easily the best in town. It is clean, well kept.

BRONCHIAL ASTHMA

Choking and Gasping for Breath Relieved by "FRUIT-A-TIVES"

MRS. PENNINGTON

NEW ROCKLAND, P. Q.
"In 1919, I was taken with Bronchial Asthma and no one knows what I suffered with it during the winter. I began having Choking Spells—gasping for breath and could not speak. I would have one of these had spells in the evening, one during the night, and one in the morning. The doctor said he could do nothing for me."

"In the spring of 1920, I started taking 'Fruit-a-tives' and in a few days, the choking spells stopped, and I have had none since May 7th, 1920. I have so wanted to tell other sufferers who have the same trouble about 'Fruit-a-tives' for I know how they must suffer."

Some thought the Asthma would come back on me as winter came on but it has not, thanks to 'Fruit-a-tives' Mrs. J. M. PENNINGTON. 50c a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

AND NOW IT IS OUR FISHERMEN

Not content with shutting out the produce of Canadian farms, there is now, a loud wall against allowing the lobster catch on our Coasts, into the United States. The farmers of the U. S. made sufficient noise for a high tariff, to keep out Canadian farm produce, and the fishermen of the U. S. taking a leaf out of their book want a high tariff, against Canadian lobsters, thus aiming a blow at our fishermen. It seems it is the Director of the Maine sea and shore fisheries, who is the leading spirit in the attack upon us, and this is what he says:—

The Canadian open season for lobster fishing began on Nov. 1 and 15 and our markets are flooded with the inferior grade of lobsters because new shell lobsters will not stand up to ship so far. The dead and weak ones are boiled and put on the market at a very low price and this has a tendency to reduce the price of the native stock considerably.

"In what condition does this leave the United States fishermen with gear still expensive and at least one-third more fishermen on the coast? Could anyone imagine conditions more serious for the lobster fishermen?"

"The prices of line fish have been far below normal this season, lines and hooks are still expensive and when a fishermen's expenses have been deducted from his gross earnings there is nothing left to support his family, therefore lobster fishing is really the only means of support for the small boat fisherman. Until Feb. 1st our markets will be flooded with foreign lobsters because the 15th of November marks the beginning of the open season at Grand Manan and it continues until Jan. 1st then it will take nearly a month for the dealers to clean up their stock. March 1 Canada's open season again begins so the United States lobster fishermen have the month of February only to look forward to and this is one of the hardest months of the year, for the water is cold and the lobsters do not crawl into the traps, for they are not as active."

The U. S. Official who strikes this blow against our fishermen is Mr. Fred H. D. Crie of Rockland, and it will be well to watch for the result. They clamor for protection, and they want Canadian lobsters kept out of their market. Every intelligent Canadian can take the hint. It is another Argument for Protection, as the only safe Canadian policy.

TAKE NOTICE

We Want a Clean Election

It is possible that some parties, have got their names on the voters list, who are under 21 years of age. This is their own fault, not the fault of the Registrars, who cannot possibly know the exact age of "grown ups."

In case any person under the age of 21 attempts to vote, agents of the Government will take action. Should they still insist upon voting, while under 21 years of age, and take the oath that they are of legal voting age while they are not so, they will be prosecuted for perjury. This will be carried out impartially without fear or favor.

It is known, that on previous elections, this matter was not attended to as carefully as it might have been. We are assured that with regard to the age-limit, there are persons on the lists to be used at the approaching election, who have no right to be on the lists—they are under 21 years of age. Election day will test their cases.

The National Liberal and Conservative Party, and their candidate Mr. E. A. McCurdy, desire

A CLEAN ELECTION

In every respect, and hope that the Opposition Party and their Candidate, will take similar action, against those attempting to vote, who have no legal right to exercise the franchise. We ask no favors.

THE FASTEST TIME ACROSS CANADA

"Continental Limited" on Canadian National Railways, the finest Medium of Trans-continental Travel.

Across Canada—from Ocean to Ocean, the finest medium of travel is the through trains of the Canadian National Railways.

From the Atlantic to the Pacific the fastest time is made, and the most luxurious of train service furnished. From all Maritime Province points the finest of connections are afforded at Montreal, via the "Ocean Limited" and the "Maritime Express," with the famous "Continental Limited" leaving Bonaventure Station, at 9.00 p. m. daily, for Ottawa, North Bay, Cochrane, Winnipeg, Saskatoon, Edmonton and Vancouver. Leaving Montreal for instance on a Sunday evening, the traveller arrives in Vancouver early the following Friday morning, after five nights and four days of travel, on one of the best equipped and most modern trains on the continent.

The "Continental Limited" is a solid steel train of standard sleepers, Compartment Observation Car, tourist sleeper, colonist cars and first class coaches. The finest of dining cars are attached, and the passage is the acme of travel comfort, with the important factor of making the fastest and most direct transcontinental journey.

The route taken by the "Continental Limited" affords the traveller the finest variety of scenic views and the most interesting sections of Canada are traversed. The road bed is regarded by experienced travellers as the best and smoothest, while the modern coaches are easy riding. The rigors of old time travel are eliminated and train weariness unknown. There is no train on the continent that affords such luxurious and convenient service.

Particulars regarding this through Transcontinental Service, and all information can be obtained from all Ticket Agents, or by writing the General Passenger Department, at Montreal, N. B.

ABLE TO DO HER WORK

After Long Suffering Mrs. Peasey Restored to Health by Lydia E. Pinkham's Vegetable Compound

Toronto, Ont.—"I suffered with irregular menstruation, was weak and run down, could not eat and had headaches. The worst symptoms were dragging down pains, so bad I sometimes thought I would go crazy and I seemed to be smothering. I was in this condition for two or three years and could not seem to work. I tried all kinds of medicines and had been treated by physicians but received no benefit. I found one of your booklets and I was inclined to try Lydia E. Pinkham's Vegetable Compound. I received the best results from it and now I keep house and go out to work and am like a new woman. I have recommended your Vegetable Compound to my friends and if these facts will help some poor woman use them as you please."—Mrs. J. F. Peasey, 267 King St., Toronto, Ontario.

If you are one of these women do not suffer for four or five years as Mrs. Peasey did, but profit by her experience and be restored to health.

CANADA SECOND IN WHEAT PRODUCTION

Canada is now the second wheat producing country in the world according to 1921 statistics. We produce about half as much wheat as the United States, but, they, it must be remembered, have ten inhabitants to our one. Russia, at one time an important factor in the fundamental industry, has apparently fallen by the wayside, for she does not appear in the 1921 list. The C. N. R. has carried this season September 1st to November 13th, 41320 cars or approximately nine and three quarter million bushels. For the similar period in 1920, the number of cars handled was 21,858.

If the 55,000 employees of the C. N. R. were domiciled in one spot, instead of being spread from one end of the country to the other, they would constitute a city larger than Hamilton, Calgary or Halifax. For it must be remembered that it is not only the people who actually work for the C. N. R. that are sustained by it, but their wives and families. This tremendous body of workers are actuated but by one motive, to make the C. N. R. the most successful publicly owned enterprise in the world, to run it as purely a business enterprise, divorced entirely from politics.

CAPTURING A NEW MARKET

Canada's flour is the standard of the world. This is pretty generally admitted. The writer knows one citizen of the United States who, on every visit he makes to Canada, carries home, under strict instructions from his wife, a number of loaves of bread, she claiming that no bread obtainable in the United States can approach that made from Canadian flour. As an instance of the increasing popularity of Canadian flour, it is interesting to note that Dr. A. H. Stafford, born in Winnipeg but for some time past domiciled in Jamaica, recently said that until the steamships "Canadian Forester" and "Canadian Government Merchant Marine Services" came into Kingston last spring, every pound of flour used on the island came from the United States. Now it all comes from Canada. This very valuable market for Canadian products has been captured by three ways, Dr. Stafford affirms: First, the fact that Canada had ships to deliver it there; second, the quality of the flour itself; and third, the fact that the people of Jamaica desire closer commercial and social relations with the people of Canada.

Catarrhal Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRHAL MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRHAL MEDICINE acts through the blood on thus reducing the inflammation and restoring normal conditions.

WORTHY ATTENTION

Ottawa, Nov. 18—The members of the crews of the Canadian registered merchant vessels, who lost their lives at sea during the war as a result of enemy action, are to be commemorated by monuments erected by the Imperial War Graves Commission at Halifax and Vancouver.

In order to secure a complete list the naval department is communicating with the owners of all Canadian ships lost during the war. The department reports that replies so far have been satisfactory, but that there are a number of companies who have lost ships who have since gone out of existence.

The naval department will be pleased to receive any information from officials of companies who have not been communicated with.

SOME CANADIAN AUTHORS OF TO-DAY

If any evidence were required of the growing interest in Canadian literature, one need only point to the remarkable progress of the Canadian Authors' Association, which already numbers over seven hundred members, although it was organized only eight months ago. Canada ranks exceptionally high in the world of poetry, with names such as Bliss Carman to her credit. In the world of fiction Arthur Stringer, Ralph Connor, L. M. Montgomery, Basil King, Bertrand Sinclair, Isabel Ecclestone Mackay, Madge Macbeth, and Frank L. Packard, are only a few of an army of popular novelists. Life on the prairie has been admirably depicted by Janey Canuck (Judge Emily Murphy), Nellie McClung, Robert Stead, and Sergeant Ralph Kendall with his stories of the North-West Mounted Police. The chief object of the Canadian Authors' Association is to create a wider interest among Canadians themselves in their own literature. It has an official organ called the "Canadian Bookman." It has helped to organize Canadian Authors' Week for the third week in November, in which libraries and bookstores will make special displays of Canadian books, and it has conducted a vigorous campaign for the improvement of Copyright laws in Canada.

RULES FOR BALLOTING

Ottawa, Oct. 29—In a general election when there are a number of new voters, who have not before exercised their franchise, there is usually more or less doubt in their minds as to the procedure to be followed on their arrival at a polling place, in order that their ballots may not be wasted. For that reason, and in view of the fact that this year's general election will see, as voters, a great number of women voters who have never previously marked a ballot paper, it is perhaps fitting to describe what is necessary on the part of the voter who presents himself or herself at a polling station to vote for the candidate of his or her choice.

It is important to remember that in urban polling districts the only persons who may vote are those whose names are included in the list of voters on polling day. The procedure by which names may be placed on the lists, or other names struck off, has already been explained. In rural districts names may be added to the list on polling day where the would-be voter must be sworn and must also be vouched for by someone whose name is on the list.

The wrong Christian name or the misspelling of a voter's surname, or the wrong designation or the wrong number of the voter's lot or property, are not sufficient to justify the returning officer in refusing that voter a ballot, as long as voter can swear that he or she is the person designated on the list. If a voter has been personated, that is, someone else has voted by claiming to be the voter in question, that voter may still obtain a ballot on taking the oath that he is the person properly entitled to vote. If a voter spoils his ballot he is entitled to receive a new one, the spoiled ballot being destroyed and the deputy returning officer making a note of it.

If a voter cannot understand English he is entitled to have an interpreter sworn to explain the oaths, etc. to him. If a voter, however, once refuses to take the oath, he cannot again be admitted to vote. In this case the deputy returning officer makes the notation, "refused to be sworn."

Once a voter receives a ballot from the deputy returning officer he has a right to use it, whether he has been sworn or not and cannot be sworn once he has got the ballot. Once the ballot has been received it is important to remember that the following methods of marking ballots are good:

(1) With a proper cross with a black lead pencil on any part within the white space containing the name of the candidate.

(2) An irregular or awkward mark in the nature of a cross, so long as it does not lose the form of a cross, and the lines cross at any point.

(3) With an ill-formed cross, or with small lines at the end of a cross or with line across centre of one of the lines of the cross, or with a curved line like the blades of an anchor.

(4) An irregular mark in the figure of a cross, so long as it does not lose the form of a cross.

(5) A cross with a line before it.

(6) A cross rightly placed with two additional crosses, one across the candidate's name and the other to the left.

(7) A double cross or two crosses.

(8) Ballot paper inadvertently torn.

(9) Inadvertent marks in addition to the cross.

However, while all these markings are good, and will not result in the ballot being rejected, it is much safer and simpler to mark the ballot paper with an unmistakable cross, opposite the name of the candidate for whom the voter wishes to vote. Ballots are bad which are marked

as follows, it is pointed out by an authority on the Election Act:

(1) A single stroke instead of a cross.

(2) Two single strokes not crossing.

(3) A ballot with the candidate's any writing or mark by which the cross.

(4) Ballots marked with a number of lines.

(5) Ballots with a cross for each candidate.

(6) All ballots on which there is writing or mark by which the voter can be identified.

The procedure for the voter to follow on reaching the poll station is simple. At the door of the station his or her name will be checked on the list by one of the agents posted there. Then, on entering the voter must give his or her address to the deputy returning officer or poll clerk, who will run through the list and see that the voter is entitled to a ballot. That formality completed with, and everything being in order, the voter will be handed a ballot paper and given instructions as to how it is to be marked by the returning officer. Then he or she will be shown to a room or compartment where the ballot can be marked with secrecy.

Then, having marked the ballot as he or she desires, the voter will return to the ballot properly folded to the deputy returning officer, who will tear off the counterfoil and place the ballot in the ballot box.

The voter, having thus exercised his or her franchise, is then required to leave the polling station.

Canada for the Canadians

What Is To Be Canada's Destiny?

Shall it be that through the destruction of the Tariff as proposed by both Crerar and King, the development of Canada is to come under the domination of the United States, to be followed by gradual financial domination and as a consequence, political domination?

—OR—

Is Canada's destiny to be that of a great free nation within the British Empire group of Nations, developing her boundless resources of mine, river, water power, forest, and cultivating her millions upon millions of acres of arable land? Is her development to surpass that of any other nation?

Shall her manufacturing industries develop her minerals and raw materials into implements and goods for the benefit and comfort of her people and for foreign trade? Shall she become a self-contained nation within the Empire, her great railways interchanging, the products of factory and farm among her own people, and her ships sailing every sea?

Shall she maintain her integrity within the Empire and protect her farms and factories against unfair competition from foreign countries?

IF THIS IS TO BE CANADA'S DESTINY THEN CANADA NEEDS MEIGHEN.

On December 6th, Canada should once again protect her farms, her factories and her workmen against the unsound theory of Free Trade, and should hold fast to her reasonable Protective Tariff, her national entity and her British connection.

On December 6th Canada should declare with no uncertain voice that she will not tolerate the false trade theories of visionaries and group leaders which tend toward her economic destruction, toward the separation of her people and the weakening of the ties that bind Canada to the British Empire.

On December 6th Canada should demonstrate unmistakably to the outside world her fixed determination to keep Canada for the Canadians.

On December 6th Canada's destiny is at stake.

Canada Needs Meighen

The National Liberal and Conservative Party
Publicity Committee

Local and General News.

Great Scott what is there anyway, in the Canvas for Morrissy? What on earth could he do, if elected? Canada is going for Meighen.

John cannot catch the whole Liberal vote of Northumberland. They are sick, sore and tired of him. McCurdy is receiving handsome support from the best Liberals in the County, and Morrissy will not be long now, in finding it out.

ENGAGEMENT ANNOUNCED

Mr. E. E. Benson announces the engagement of his daughter Ruth Lillian to John V. Argyle of Montreal. The wedding to take place in December.

All indications are that the people, are taking the approaching election very seriously. Especially are our Farmers and working men, reading and thinking for themselves, and are taking no stock in the vote catching claptrap which opponents of the Government are serving out. Common sense tells them, to support Meighen by voting for McCurdy.

Morrissy says that the Labor Party is only a flash in the pan and must be stamped out. How about it Mr. Laboring man? Are you going to give him the chance to stamp it out? Nothing doing.

REFUSE TO SUPPORT

The Liberal policy, represented by a political failure such as John Morrissy cannot expect to receive the support or endorsement of the rank and file of the grand old Liberal Party. The Liberal party has many influential and respected followers but they will not stand behind a man with the political record of Morrissy. He has been a Conservative, an Independent, a Liberal and any old thing to suit his own purposes.

The genuine Liberal Party supporters refuse to recognize a man of that calibre. Not for them.

Mr. A. E. LAUNDREY, EDMONTON, writes: "I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best Liniment made."
Minard's Liniment always gives satisfaction. For any ache or pain, it gives instant relief.

There is weeping and wailing and gnashing of teeth in the opposition Camp. John has failed to "farm the farmers", and the Labor men, wont labor for him worth a cent. Lots of them prefer to boss themselves, and vote for McCurdy.

Moody & Co. have changed their Bargain Day Sale from Wednesday to Thursday on account of train service over river.

Rousing Rallies

Morrissy is always strong on rousing rallies. It does not take much of a gathering to make him say it was a rousing rally. What does he call his Douglastown, Maple Glen and Doaktown meetings? Certainly they must have aroused him.

Permission has been granted by the Town Authorities, to Mrs. Capt. Goodwin of the Salvation Army, to take up a drumhead collection, at the courthouse on the 6th of Dec.—Election Day, to assist the funds of the local corps, in their good work among the needy.

QUEER BED-FELLOWS

Yes John, politics make queer bed-fellows. What about this combination—Morrissy, who has been a Conservative, a Liberal, an Independent and any old thing to suit his purpose Manderson, the one time Labor Leader, whom Morrissy betrayed and who strongly denounced Morrissy from the Newcastle Band Stand. Necessity knows no law. People living in glass houses should not throw stones.

The Labor men, cant get over the Vanderbeck election, and the skulking of the two Morrissy's. They gave Vanderbeck a big majority, and they will roll another one up for McCurdy. They know him, and trust him.

John cannot catch the whole Liberal vote of Northumberland. They are sick, sore and tired of him. McCurdy, is receiving handsome support from the best Liberals in the County and Morrissy will not be long now, in finding it out.

What about McCurdy doing things? The smelt fishermen say, he is all right.

WHO DOES THINGS?

McCurdy has been successful in having the dredge "Lawrence" wintered in Chatham—The smelt fishing season opened ten days earlier, and the Tracadie Railway survey is to be commenced at once. What has Morrissy done? Nothing but making all kinds of promises. What Northumberland wants is McCurdy the man who does things and not Morrissy, the man who makes all kinds of promises and does nothing. Vote for McCurdy.

To maintain Meighen, by voting for McCurdy, is the safe and same way.

SOME MORE TRUTH

"Honest John" in his Douglastown meeting on Saturday night thought he was going to get by with some of his truthful statements, but he got left. "Honest"—the word is now looked upon with bad grace—it is a shame that it has been so mal-treated. We will leave it out and say plain John tried to make it appear at his Douglastown meeting that E. A. McCurdy was not recognized or endorsed as the government candidate by Hon. J. B. M. Baxter, Minister of the province. Oh, such honesty? We quote a telegram received by Mr. E. A. McCurdy from Hon. J. B. M. Baxter which is self explanatory, and which shows up John's honesty?
E. A. McCurdy, Esq.
Newcastle, N. B.
There is no question but that the government recognizes you as their candidate.
JOHN B. M. BAXTER

From all over the County, we hear the call for McCurdy. The people are aroused to action. They dont want Morrissy.

Good Treatment

The "Leader" says that Morrissy will look after the interests of the laboring man, Charlie did in fine style and his father will treat you like-wise. Don't give him the chance. Once ought to be enough.

The smelt fishermen, and the merchants who have helped them out, recognize what Mr. McCurdy did for them, in obtaining leave to fish some days earlier. This was not only a benefit to the Miramichi, but others too, will reap the benefit. McCurdy acts, others talk.

IN DESPERATE STRAITS

(Morrissy's paper)
The "Leader" still carries the advertisement, which has been proved to be absolutely without foundation. This is an indication that they are sadly in need of good, sound, sensible campaign matter. Anything to take up space is their motto.

FOR RURAL CORRESPONDENTS

Owing to the space taken up by the present busy Election campaign; and largely increased business advertising, some of our rural correspondence, had to be left out for this week. We are sure our regular correspondents will understand this, and agree with us. The Advocate is always glad to receive the very welcome notes of our excellent correspondents, so keep at it. The election once over, our columns will be ready, and open to them.

LATEST FROM MARS

Hello! Hello! Did you hear that John says, he had a letter from Sir Wilfred, wishing him success, and hoping he would win the election? Answer from Earth. Yes we heard he said so, but we take no stock in it. Dead men tell no tales and they don't write letters. You folk in Mars, better mind your own business, we mortals of Earth will attend to John, and eliminate him. What? Oh yes yes. Goodbye b-t-r-r-r.

Morrissy is strong on promises but they don't go down with the electorate
