GILLETTS LYE. EATS GILLETTS DIRT. MADE IN CANADA.

'Margaret', The GIRL ARTIST, OR, The Countess of Ferrers Court.

Margaret was living in an earthly paradise. Existence, indeed, was more like a beautiful dream to her than the gray and sober reality it is to most of us.

Margaret bent forward to hide the blush which the words had called up. "Who are they? And why should they make a fuss?" she asked.

Once or twice he had brought her down some presents, a ring at first, a bracelet the next time, but Margaret would not accept them.

"What shall I do, grandma?" she said to Mrs. Hale. "I am going to London to-morrow, you know. Shall I send the picture from there, or give it to Mr. Stibbings to take to his lordship?"

Windsor Table Salt. The Canadian Salt Co., Limited.

Blair, not to hear the voice she loved murmuring its passionate devotion in her ears! Her bosom rose with a soft sigh.

"Oh, Austin will take care that we do nothing imprudent," he said. "He has taken our case in hand, as he says, and we can't do better than put ourselves under his charge."

"I don't see why Mr. Ambrose should discourage you, Blair," she said, smiling. "But you can prove him in the wrong all the more triumphantly," she added.

which he had caused to be placed on an easel in the best lighted part of the gallery. He held out his hand and bowed to her with a kindly smile.

"There is a career before you, my dear Miss Hale! You are one of the fortunate ones of this earth! Great gifts—great gifts—and he looked at her absently; then he sighed and roused himself again—'but don't waste them, my child! I hope you are enjoying yourself here?'"

"No thanks, my dear," he said. "But, tut! You must not wear your heart upon your sleeve, or daws will peck at it. You have no cause for gratitude; it is I who should and do feel grateful to you. Good-bye. May Heaven watch over you and make you happy, my dear!"

"Good-bye, grandma!" she said brokenly, as she clung to the old lady. "Good-bye, Margaret, my dear! You will come again, and as soon as you can?"

"What shall I do, grandma?" she said to Mrs. Hale. "I am going to London to-morrow, you know. Shall I send the picture from there, or give it to Mr. Stibbings to take to his lordship?"

1638 - Ladies' House Dress, with Sleeve in Either of Two Lengths.

White linen, embroidered in blue, would make this a smart morning dress. Checked gingham, striped seersucker, figured lawn, drill cotton rep or poplin, is also nice.

### OFFICIAL.

LONDON, April 3. The Governor, Newfoundland: There have been Zeppelin raids the last three nights on the eastern coast. Southeast Scotland was also visited. Sixty-nine were killed and 191 injured. There was some damage to property, but no military damage. The Zeppelin was brought down and sank in the Thames Estuary, and the crew captured.

In Verdun, enemy attacks continued. The French have abandoned the villages of Malancourt and Vaux. The enemy have also entered Callette Wood southeast of Fort Douaumont. Counter-attacks recovered all but the northern corner of the wood.

The British attacked the enemy again at St. Etel, capturing the first and second line of trenches on a front of six hundred yards; also 200 prisoners.

On the Russian front fighting is now checked by a thaw.

An enemy submarine sank the Russian hospital ship Portugal in the Black Sea.

There has been heavy fighting on the Italian front. The Italians recaptured the lost positions northeast of Gorizia.

of the Mouse the Germans launched four attacks against Avecourt Wood fort. Every attack was thrown back by our cross-fire and mitrailleuses. East of the Mouse the struggle was very sharp all day. In the Vaux and Douaumont district after an extremely fierce bombardment with shells of large calibre, the Germans hurled four simultaneous attacks of over one division strong against our positions, situated between Douaumont Fort and the village of Vaux southeast of Douaumont fort. They succeeded in entering Callette Wood, but our immediate counter attacks threw them back on the northern part of this wood. South of Vaux our line runs along near the outskirts of the village, which we have completely evacuated, and is now but a mass of ruins. In Woivre there is intermittent artillery activity. At Le Pretre Wood a German aviator was brought down by our special guns. The machine fell in the German lines. In the Vosges our artillery fire exploded an ammunition depot east of Releickerkopf, west of Munster. During the night from the first to the second of April one of our bombarding air flotillas dropped twenty-eight shells on Etain Station and enemy bivouacs, situated near Nantillois village. The same night three of our planes dropped 22 shells which caused numerous fires in the villages of Azannes and Brulotte Sar-Meuse. During yesterday our aviators brought down three German machines on the Verdun front; two other German aeroplanes were compelled to land in haste in the same district. A German plane of the Drachen type was destroyed by one of our aeroplanes on the Belgian front. Belgian batteries shelled all night the German lines of Mercken. To-day there were fierce artillery duels east of Ramsappelle and in the direction of Dixmude.

### PASHA COMMEDED.

PARIS, April 3. Essad Pasha was received to-day by Premier Briand, who commended him as President of the Albanian Government for his loyal attitude to the Entente Allies, and the help he had given them in extricating the Serbian Army.

### THE SITUATION IN HOLLAND.

NEW YORK, April 3. A News Agency despatch from London to-day, says that the British Foreign Office announces this afternoon that there is no foundation for the rumor that Holland's warlike preparations are due to a threat by the Allies to violate Dutch territory. It was also stated that any decision made by the Allies at the present Paris Conference was responsible for the sudden summons of the Dutch Parliament in session, and the cancellation of soldiers' leave of absence. The Dutch Minister of War, in interviews with war correspondents, explaining reasons for Holland's military activities, made the situation even more puzzling. He hinted that from some source had come the suggestion that Holland demobilize. The force she has in arms at the present time to protect the neutrality of Holland must be ready at a moment's notice to resist with the utmost vigor any danger that may arise, he said. We must be ready to use our whole force at a moment's notice against violators of our neutrality; we have, therefore, decided to reject the suggestion that we demobilize even the smallest part of our army.

### BULGAR GOVERNMENT NOTIFIES GREECE.

PARIS, April 3. A Havas despatch from Athens says that the Bulgarian Government has notified Greece that it has given orders for the evacuation of points in Greek territory, occupied by Bulgarian troops. The Bulgars assured Greece of their intention to do everything possible to maintain friendly relations between the two nations.

### RUSSIAN TRANSPORT SUNK.

BERLIN, April 3. A 12,000 ton Russian transport, with troops and war materials aboard, was sunk by a Turkish submarine on March 30th, the Turkish War Office announced to-day.

### AUSTRIAN OFFICIAL.

BERLIN, April 3. Russian artillery displayed increased activity on nearly the whole of our northeast front, says the Austrian official statement to-day.

### RECEIVE REINFORCEMENTS.

BERLIN, April 3. Constantinople despatches given out to-day by the Overseas News Agency, say that Turkish troops on the Caucasian front have received reinforcements, and that the Russian offensive has been checked. Recently the only fighting has been between small detachments.

## Masonic Installation of Officers.

Last night at the meeting of the Masonic brethren of White Lodge the installation ceremony took place. On previous occasions it was the custom to perform this ceremony April 1st, the anniversary of the birth of the late District Grand Master, Rt. Hon. Sir William Wallace Whiteway, in whose honour the Lodge is named, but owing to that date coming on Saturday this year the ceremony was postponed till last night. Bro. William Campbell was duly installed by D. G. M. Clift assisted by D. G. M. Duizer, of Scottish Jurisdiction. Following the ceremony the officers for the ensuing year were duly invested and were:—

W. Campbell—W. M.  
A. Macpherson—L. P. M.  
H. R. Brookes—S. W.  
L. P. Chaplin—J. W.  
Rev. H. L. Pike—Chap.  
T. J. Duley—Treas.  
W. Barker—Sec.  
J. W. McNelly—Dir. of Cer.

C. Tessier—J. D.  
F. J. King—Organist.  
Lieut. H. Rendell, J. J. Long, Stewards.  
Geo. Morris—Tyler.  
On behalf of the Lodge Rt. W. D. G. M. Clift presented the retiring Master W. Bro. Archibald Macpherson with a Past Master's Jewel, and on behalf of Twilight Lodge, Past Master Patten was presented with a similar Jewel by W. Bro. Clift. The newly-installed officers received the congratulations of their brethren, and at the close of the meeting a collection was taken up in aid of the Benevolent Fund.

## Hr. Grace Notes.

The s.s. Bloodhound will be discharged early to-morrow morning.  
 Rev. Mr. Holmes, pastor of the Methodist Church, will continue the special services again this week. Services last week were very largely attended.  
 Four schooners are now on dock undergoing repairs. With the season opening so early no doubt the Dock Co. will have a very successful year.  
 The funeral of the late Mrs. Henry Parsons took place this afternoon.  
 Mrs. Charlotte Martin, widow of the late Mr. George Martin (engineer), passed away early on Saturday morning at her home, off Murray's Square. Mrs. Martin had reached the advanced age of 86 years. The funeral took place yesterday afternoon when the remains of the old lady were consigned to mother earth in the C. of E. Cemetery. Rev. W. J. R. Higgitt officiated at the grave side, while Mr. Albert Rogers did the undertaking work.  
 Mr. M. French of Water St. West was stricken with paralysis a couple of weeks ago, and, although some what recovered, is still very weak. Dr. Cron hopes to bring the sufferer through his present illness.  
 Mr. Albert Rees came in from Bell Island on Saturday on a visit to friends here. He returned to the Island again last evening. All his friends were pleased to see him.  
 Miss Bessie Tetford returned from St. John's last week after a very pleasant visit to her sister, Mrs. E. S. Coffin, and other friends.  
 Mrs. D. Baird of St. John's was in town yesterday on a visit to her mother, Mrs. Geo. Makinson. Mrs. Baird has a host of friends here who are always pleased to see her.

## Getting Quick Despatch.

The S. S. Stephano brought an enormous inward freight. However, she is expected to get away again for Halifax and New York to-morrow night and the work of unloading her now is being carried on with the utmost despatch, as there are large accumulations of freight awaiting shipment at both the American and Canadian ports.  
**LEUT. JEFFERY.**—Rev. Mr. Jeffery, of Pouch Cove, has received the good news that his son Private Edward Jeffery, of the Canadian troops, who after twelve months of hard fighting on the western front has received recognition by the army authorities and has been promoted to a Lieutenant, and is now in England under training. We take this opportunity of congratulating the young Lieutenant, also Rev. Mr. and Mrs. Jeffery, who may well feel proud.

**Lieut. Shackleton's Danger.**  
 Lieutenant Shackleton's danger is that of an explorer who, after crossing 1700 miles of Antarctic continent in the expectation of reaching a depot ship on the other side, finds that a blizzard has torn it from its moorings and left him without refuge or fresh supplies. Shackleton left South Georgia on January 11, 1914, and it is believed that he left Prince Luitpold Land, on the South American side of the Antarctic continent, in October, 1915. He should have made the journey across the continent to the Australian side in from four to six months. The relief ship Aurora duly arrived at Cape Evans on that side in January, 1915, and expected to lie there until word was received from Shackleton or he himself made an appearance, its own crew meanwhile conducting scientific investigations of their own. It now appears that in May, 1915, it was driven out into pack ice, that it had been held drifting in the pack ice until two weeks ago, and that it is just now limping back into a New Zealand port. Part of its crew were left at Cape Evans, and it is only conjectured what has become of Shackleton—whether he failed to get through to the Australian side, whether he got through but has found it impossible to maintain himself there without the expected ship, or whether he is living there awaiting a relief expedition. It is not known what supplies were landed before the Aurora broke away, or how much Shackleton carried across with him. The two grounds for hope are that they were sufficient to support him till another ship can be fitted out, or that for some reason he gave up his transcontinental trip and has turned back to Prince Luitpold Land.—(From the N.Y. Post.)

**City Property.**

After setting forth a list of City property, the Municipal Bill purposes to grant to the city the management and control of Crown Lands within the city limits, with power to collect rents and grant leases. Holders of leases of Crown Lands are called on to register them at the Registry of Deeds, or if the leases are lost or destroyed to file an affidavit verifying all facts. Persons who neglect to comply with these provisions before Dec. 31st, 1915, shall be deemed to have lost all right and title to such Crown Lands.

The City Engineer is to prepare plans on a scale of twenty feet to one inch, showing the location, boundaries and extent of such Crown Lands.

The Council is also to cause a number of plans to be made (a) relating to streets and buildings; (b) plan of city, showing watermain, sluices, hydrants and fire alarm boxes; (c) sewers, manholes, catch-basins and gullies; (d) water pipes, gas mains, electric light and telephone, conduits, etc.; (e) showing surface drains, fire-hydrants, car lines, etc.; (f) a system of levels; (g) the Engineer is to keep a Plan Book giving index of plans, etc.

No new street upon which houses shall be proposed to be erected, shall be opened or made by private persons through their own ground, within the limits of the city, without the consent of the Council.

The Council is to have control of the development within the city limits, as to new streets, improving them, laying out building lots, fire-breaks and recreation grounds. The Council shall give notice of their proposals to owners, who may make representations before the Council gives its decision, which is to be proclaimed in the Royal Gazette.

The cost of improvements shall be assessed upon the lands directly benefitted thereby, according to the frontage on the street so opened or improved. Persons objecting to assessment may appeal to a Court of Revision and thence to the Supreme Court.

The Council may lay water-mains and sewerage pipes through existing streets and assess property which benefits for cost.

No new street shall be less than fifty feet wide, and no such new street shall be opened within 140 feet of any other street running parallel to it. No street shall be opened for vehicular traffic with a greater inclination than one foot in every eight feet. No blind streets are to be opened.

**41 Years Resident Here**

The Hon. John Anderson celebrated yesterday the 41st anniversary of his landing in this city from his native Scotland. Making the passage from Halifax on the S. S. Newfoundland, then owned by the Allan Company. Mr. Anderson informs us that on landing the snow was piled so high on Water Street that while walking in the middle of the street one could see plainly through the windows on the second floor of the store of Baird and Co., some difference to anything seen for several years since.

**Arrived This Morning.**

The schr. Henry Montague, 6 days from Halifax, arrived with a cargo of oil to C. Campbell.

The schr. Leth W. reached port after a very rough and trying passage of 71 days from New York. She brought a cargo of Anthracite coal to A. Harvey & Co.

The schr. Edith Marguerite, 9 days from Louisville, arrived in ballast, consigned to A. S. Rendell & Co.

**First Turnout.**

The Sable I, the first sealer to arrive this year, finished her turnout yesterday afternoon. A specification of her cargo is:—23,707 young harps; 104 old harps and 5 bedlamers; total 23,816 seals; gross weight, 577 tons, 13 cwt., 3 qrs., 12 lbs.; nett weight, 551 tons, 4 cwt., 3 qrs., 22 lbs.; gross value, \$64,017.82; nett, \$63,656.09. The crew of 182 men shared \$116.60. Capt. Jacob Kean's share comes to something like \$3,500. The average weight of the Sable Island's young harps was 54 pounds, which is said to be the heaviest cargo of whitecoats ever brought from the northern sealfishery.

**Called to the Bar.**

This morning during the sitting of the Supreme Court, with Mr. Justice Johnson and Mr. Justice Kent present, the President of the Law Society, Hon. D. Morison, K. C., presented Mr. W. F. Lloyd, LL. Mr. Justice Johnson briefly congratulated both gentlemen and expressed the pleasure of the Supreme Court on their presentation and wished them success at the Bar.

**Vessel Leaking.**

The schooner Gertrude L., owned by J. Templeman, put into this port this morning in a damaged condition. She left Catalina a few weeks ago for Lisbon with a cargo of codfish. As a result of contact with ice on the Grand Bank she sprung a leak and fearing that the cargo would be spoiled it was decided to return for repairs. The vessel will likely have to be docked to be put in condition to resume the voyage.

**The Union Jack a Safeguard.**

The British boast that the Union Jack is a safeguard to their citizens the world over is exemplified, in Mexico. One American woman writes that the Mexican desperadoes not only have no respect for the Stars and Stripes, but that the sight of our emblem actually has the effect of inciting them to outrages. "I am utterly ashamed to admit it," she says, "but whenever trouble started we began to hunt for a Union Jack. It was by no means a bullet-proof shield, but it was the only flag I ever saw that Mexicans paid any deference to." In illustration she cites the case of a young Englishman who had committed suicide. Thinking he was an American, the Mexicans hurriedly dug a shallow hole and were about to put him away without ceremony when they learned he was an Englishman. The officer in charge immediately stopped the burial, ordered the body preserved, and for four days tried to get in touch with an English Consul. —Pittsburg Chronicle-Telegraph.

**The Way to Victory.**

Mr. S. Wilkinson on the Prime Minister's Duty.

Lecturing at Oxford on Saturday on "The Way to Victory," Professor Spenser Wilkinson said the question that millions of Englishmen, in five continents, were asking themselves was, "How are we to be led to victory?" They could and must make sure that the resources of England and the Empire should be employed in accordance with the principles of the science and art of war, and to that end they must be directed by a mind formed in the theory of war. They did not need to look for a great man, simply the man who had learned the craft of a strategist and was competent in it. As long as there was a Prime Minister, he would be the director of England's action in the war; common sense, therefore, suggested that the strategist should be brought into direct personal contact with the Prime Minister.

This arrangement, the only one possible except a military dictatorship—which would be madness before victory had revealed a great man—involved a slight change in the composition of the Cabinet. The Secretary of State for War would become a minister for the administration of the Army, and the Prime Minister would undertake the general management of the war, directing the Navy through a naval strategist and the Army through a military strategist.

The Chief of the Imperial General Staff must also be relieved of administrative duties, which should be placed in other hands, so that there would be two officers—the Minister of Operations and the Minister of Army Administration—in direct communication with the Prime Minister, who would, with and through them, himself take charge of the general direction of the war, from which no system and no device could possibly relieve them. These changes must be accompanied by a decentralization giving every commander of an army corps authority over all its business, without War Office interference in details.

They might think that the Prime Minister ought to attend to other things and leave the management of the war to one or more of his colleagues. But the war while it lasted was the chief thing, and until victory had been obtained the other things mattered nothing except in so far as they might be helpful towards victory. It was the other things that the Prime Minister must leave to his colleagues.—Times, Feb. 28th.

**BRITISH THEATRE.**

Large audiences attended the above Theatre last night and enjoyed the well-selected and excellent program of photo-plays immensely. "Mysterious Contragora" is a sensational feature in two parts and tells the story of the attempt of secret agents to secure a mysterious and very valuable invention; it contained many exciting and spectacular scenes. Pauline Bush, the universal favorite, appeared in the part of the nun in a pretty two-part drama entitled "Outside the Gates," and sustained her reputation in a most brilliant manner. "The Comedy" "Tough" but "romantic" was a riot and kept the audience in roars. The programme will be repeated to-night, and Wednesday the final episode of "The Black Box" will be shown.

**DELIGHTFUL SHOW AT NICKEL THEATRE.**

The programme at the Nickel Theatre yesterday attracted very large audiences and patrons one and all were highly delighted with all the show. The highly pictures were all splendid as they always are at the Nickel, especially the touching story: "The Runaway Wife" which is in four reels. This is a beautiful drama and met with the approval of all. The comedies were very funny and kept the audiences in roars of laughter. The acting of Hugh Mack, Flora Finch and Kate Price was immense. "This evening the programme will be repeated and no doubt there will be large attendances. All through the Lenten season the profits of the Nickel will be devoted to charity."

"The submarine controversy has reached a point where the words of Germany, written and spoken, appear to be worthless. German disavowals mean nothing. German promises are disregarded. German excuses are cynical.

"Not one of them was stopped and searched and passengers and crew removed. Several of them carried American citizens, some of whom lost their lives. Even admitting that mines may have caused a few of these disasters, the presence of submarines in most instances is well established and, in any case, the mines having been seen by Germany contrary to law, the guilt is the same."

**The Attitude of U. S. A.**

London Morning Post.—The people of this country and the people of America are the inheritors of that common civilization which is the object of Germany to destroy. Upon its ruins Germany desires to construct a hideous prison of German clay, ribbed with German steel and patrolled by German armed savages. It is the fate of America, whether she will or not, to make her choice between her gods and the idols of Germany. The spiritual decision must be made, for there is no possibility, in the face of so gigantic a crime as the German crime of suspending judgment. It is for this reason that the Allies look at America with a natural and anxious curiosity. The practical test may come, or perhaps has come, in respect of a point of the law of nations. President Wilson has sufficiently defined the situation; and in so doing he has earned the respect of the civilized world. Those who believe that all war is the ultimate result of the pressure of purely economic causes, or in other words of the lust for gain, may here contemplate the spectacle of a great nation plainly warned by her President that she is confronted with the possibility of a war out of which she can obtain no conceivable material advantage.

#### NEW YORK, To-day.

Having straightened out their line by occupying all the French positions north of Porges Brook, between Haucourt and Bethincourt, northwest of Verdun, the Germans are now engaged in shelling the region of Bourrus Wood, some five miles northwest of the fortress. East of the Meuse and around Vaux there has been considerable fighting between the French and Germans in which the French were victorious, driving back the Teutons to the northern outskirts of Caillette Wood in reoccupying the western part of the village of Vaux which they had previously evacuated. The occupation by the Germans of Haucourt and Bethincourt front followed a vigorous attack in which, however, the Germans met no foe, the French having evacuated their positions at night without the Germans observing the movement. From their new positions, south of Porges Brook and at Bethincourt the French poured a direct and flanking fire into the attacking Germans, who suffered heavy casualties. Along the remainder of the French front artillery bombardments have predominated, although there have been several raids near Verdun in which the Germans lost four aeroplanes, and aerial raids by the French on various German cantonments in Belgium. Artillery duels between the Russians and Germans continue on the eastern front. An attack by the Germans against a bridgehead at Izkul was repulsed by the Russians. Usual bombardments are progressing on the Austro-Italian line. Constantinople reports the Turks, strongly reinforced, have checked the Russian offensive in the Caucasus region and that the Ottoman forces have made advances in the Tchorsk Valley. Petrograd, however, asserts the Russians seized heavily fortified Turkish positions at an altitude of 2,000 feet on Upper Tchorsk Vorlich and have captured a Turkish position and dispersed Turkish cavalry detachments. In Arabia, according to Constantinople, the British near Sheigh Osman has been driven from fortified positions with heavy casualties and forced to retreat.

### BROUGHT DOWN GERMAN AEROPLANE.

#### LONDON, To-day.

A British official to-day says: "Yesterday one of our aviators shot down a German machine in the neighborhood of Lens. Another aviator attacked and drove off 5 hostile machines after a close combat with two of them. This morning early at St. Eloi we attacked a crater which had been held by Germans since March 30. The crater was captured and our line established beyond it. We took 84 prisoners including 4 officers. Artillery on both sides has been active in this neighborhood to-day."

### GERMANS SUFFER HEAVY LOSSES.

#### PARIS (Official) To-day.

In Argonne our batteries violently bombarded the west corner of Avaucourt wood. An enemy blockhouse was destroyed and a munition depot blown up. West of Meuse the Germans launched yesterday at the end of the day a vigorous attack between Haucourt and Bethincourt against our positions on the north bank of Porges Brook, which we have evacuated, withdrawing to the south bank on the night of March 31 and April 1 without the enemy perceiving it. Surprised by violent fire directed from our new positions and flanking fire from Bethincourt, the enemy forces suffered heavy losses without having been able to fight.

### VENIZELON AND CONSTANTINE.

#### ATHENS, To-day.

It is learned on the highest authority that King Constantine will pay no attention to a series of articles which ex-Premier Venizelos is writing on the political situation in Greece. Arguments cannot alter Greece's attitude, said this authority, only facts can bring about a change. If the material situation in the Balkans shifts so that the interests of Greece appear in some other light than to-day, nobody has ever said Greece would not adopt an attitude suited to circumstances. Further waiting and talking would only confuse the issue.

### GERMANY APOLOGIZES.

#### LONDON, To-day.

Germany apologized to Switzerland for bombing the Swiss village of Porrentruy by a German airman last week, says a Reuter despatch from Bern. A promise of punishment to the aviator who supposed they were over Belfort has been made. A despatch from Bern last Friday said

### two aeroplanes of unknown national-ity dropped 5 large bombs on Porrentruy with some damage to property. A Geneva despatch said the aircraft undoubtedly were German. The Federal Council ordered the Swiss Minister at Bern to protest.

**BARQUE TORPEDOED.**  
LONDON, To-day.  
Lloyds reports the British barque Bengain sunk by a submarine. A part of the crew was picked up. It is stated the vessel is not armed. The Bengain sailed from Seattle, Dec. 10.

### RAID SCOTLAND.

#### LONDON, To-day.

A Scottish correspondent's despatch concerning the Sunday night air raid says: "Scotland had its first experience with a Zeppelin raid last night. The Zeppelin appeared 20 minutes before midnight and circled over the town for forty minutes dropping many bombs. Warning of the enemy's approach was given to people by the electric lights being cut off. Everybody remained calm. Many persons ventured into the streets to get a better view of the raider. No building of public importance was struck, but damage was done to residential quarters."

### BRITISH BUDGET EXCITES LITTLE INTEREST.

#### LONDON, To-day.

The Cabinet yesterday considered the budget proposals which Reginald McKenna, Chancellor Exchequer, will introduce to-day in the Commons. Despite the fact that the next taxation will be heavy and varied, never before has the budget excited so little interest. The morning newspapers declare every class of people are meeting the proposals quietly, prepared to accept all burdens necessary to pay for war. The Chancellor must provide for an expenditure in the financial year 1916-1917 of nearly £2,000,000,000, revenue for same period without additional taxation calculated will amount to £400,000,000, leaving about £1,500,000 to be raised by years borrowing new taxation. In the business world it is generally believed the new taxation will be aimed less at obtaining revenue that can be raised by loan than placing an embargo on luxuries and waste.

### DUTCH STORES STRIKE.

#### THE HAGUE, To-day.

The Dutch steamer Kyndam, due to sail on Friday for New York, is still being held up owing to a "strike" of staplers and trimmers over their demands for an increase of wages.

### MAYOR MARTIN RE-ELECTED.

#### MONTREAL, To-day.

Mayor Martin, M.P., was re-elected to the Chief Magistracy of Montreal at the Biennial Municipal elections to-day by almost ten thousand votes over the nearest opponent, Controller McDonald.

### 12.45 M. P.

#### TO SALVE THE ZEPPELIN.

#### LONDON, To-day.

The British Aeronautical Institute has asked the Government's permission to undertake at its own expense the salvage of the Zeppelin L-15 which is lying in shallow water off the mouth of the Thames. The Institute believes that if salvage is undertaken by aircraft experts the Zeppelin can be saved and launched against the enemy within three months.

### LOSSES IN SHIPPING HAVE BEEN MADE GOOD BY BUILDING.

#### LONDON, To-day.

Admiral Bridge in a report on the Merchant Shipping losses, gives the following statement. As to the total losses to shipping from the beginning of the war to March 23, the loss to the British Steam Shipping says the report is less than four per cent. of the total number of vessels under the British flag and slightly over six per cent. of their total tonnage. In further comment the Admiral details the amount of Merchant Shipping built in France and Great Britain since the beginning of the war and shows that the war losses have virtually been made good, thereby in 1915, says the report. After more than a year of war the steam shipping of Great Britain increased 88 vessels and 344,000 tons. Italy and Russia also shows an increase, while France is short only 12,500 tons. It is therefore clear, says the report, that the present shortage of tonnage is due not to action of submarines but to the great requirements of military and naval forces.

### WHAT WILL GERMANY DO TO HOLLAND.

#### AMSTERDAM, To-day.

Who not for a moment suggest there is a possibility that Great Britain intends to land her new armies on the Dutch coast, said the former Minister of War, Colijn to-day in an interview regarding the recent mysterious military preparations in Holland. We have the assurance of Britain that they will respect our neutrality and we rely on that assurance but the question is

### what will Germany think of this. If the Germans began seriously to be afraid of such a contingency, namely of the landing of British troops in Holland, what influence will that have on Germany's attitude towards us.

We must assume that she is acquainted with our defensive capacity. If she judge that capacity inadequate and considers a British eruption into Germany through Holland to be feared, would it then be strange if we were approached from the German side with proposals to which we cannot submit, because that would mean abandonment of our neutrality toward the Allies. I know that against this it may be said that British will not make landing in Holland, and if they tried we are quite capable of stopping the British march eastward or southeastward, but that is not the real question. It is not what we think, but what the Germans think. Minister Colyn added that there was an increasing possibility of a conflict on both sides, and while awaiting the attitude that might be adopted toward Great Britain, something positive should be done with regard to Germany. He suggested the strengthening of Dutch forces in order to make clear to Germany that Holland has power and intention to prevent a menace to Germany's open flank.

### RUSSIANS PROTESTING.

#### PETROGRAD, To-day.

The Russian Government has sent a note to all neutral Governments, protesting against the alleged torpedoing of the Russian hospital ship Portugal, has requested the American and Spanish Embassies to bring her protest to the attention of Germany, Austria-Hungary and Turkey.

### In Milady's Boudoir.

**CLEANSE THE NAILS.**  
No woman should begrudge the time spent on her finger nails for much of the beauty of her hands is due to the tips of her fingers and their appearance. Cleanse the nails with peroxide and powdered pumice—drawing a fine straight line at the top of each nail. While doing this little particles of under tissue will appear, and these must be removed by means of a beveling file or fine sand-paper. In locating the corners of the nails the greatest care and delicacy should be exercised.

The orange wood stick and a little friction will do better work than the cuticle knife and scissors. Never scrape the nail. Scraping causes ridges and increases the thickness of texture. After grooming, each finger nail, dry with a soft bit of old linen until time to polish, when the cream may be removed, great care being taken to wipe all the emollient away from the base of the nail.

For the polishing one needs a jar of nail paste and a small polishing stone, which is more convenient and less wasteful than the old fashioned powder. Each nail is touched with a small amount of the paste, the polishing stone is rubbed over the chamois skin buffer and then the shining up process begins.

Ply the polisher briskly. Since the paste and dry substance are often worked into the cuticle to a certain extent the polishing must be followed by a "once over" with the orange wood stick, which has been dipped in the soapy water.

Rinse the hands in clear, cold water, dry very carefully, give a final polish with the palms of the hands and finish up with a few drops of violet water. The small rim of epidemics which laps over the nail should be gently released each morning with the orange wood stick after the hands have been carefully bedded.

### Died At Salmonier.

On Sunday, the 26th inst., three passed peacefully away at her home in St. Joseph's, Mrs. Catherine Daley, an old and well-respected resident. Deceased was in the 74th year of her age, and although she had been ailing for the past five years, yet she even presented a cheerful appearance, even under the trials of ill-health, and throughout her whole life she was remarkable for her entire forgetfulness of self in her continuous anxiety for the interests of her family. Her religious habits and sentiments were always a source of edification to those around, and her peaceful death on Sunday evening, about the time when the people had assembled in church for evening devotions, recalled to mind the words of a certain poet: "Oh, Grave where is thy Victory; Oh, Death, where is thy Sting?" Just one day before her death she had received the last sacraments; thus spiritually strengthened, with her husband, Maurice Daley, and four sons by her

### FALSE SHAME!

By RUTH CAMERON.

Among the heroines I have known belongs a girl who once worked in a house where she was a very hard-working girl. She earned every cent of her wages twice over, if the average maid be taken as a basis of comparison, and how do you think she spent those hard-earned dollars? One-half of her money every week went to support her father and not her mother—but a step-mother married against her wishes and a time when the father was unable to fully support himself. Her sister, who was also a house-keeper, gave up the same proportion of her wages.

And Yet The Father Isn't Grateful Are the father and stepmother properly grateful, you may wonder? The stepmother is, but the father is not. On the contrary. And thereby hangs my tale.

I asked Margaret one day why she did not buy a hat which she told me she admired. "It's such a cold winter," she answered, "and it costs so much to heat a house."

"I don't see why that should bother you," I said. "I don't like to be complaining," she said; "but if father

never mentioned her sacrifice before about her father and stepmother. "And this winter" she explained, "has been so cold that I have had to give them extra money for wood."

"I expressed my sympathy. She sighed a little. "I don't like to be complaining," she said; "but if father

only would bestir himself a little, he could get plenty of wood. They're tearing down an old schoolhouse and building a new one right near him and they let the people who want to come and pick up wood."

He Is Strong In Body But Not In Soul. "And why doesn't he get some? Isn't he strong enough?"

"Goodness, yes; he's strong and healthy, but he's too proud. He wouldn't want people to see him carrying home that wood."

I could hardly believe my ears. Too proud! Not too proud to take half his daughters' earnings every week, year in and year out, but too proud to go and help provide for himself when opportunity offered.

Being ashamed of the wrong things is a leak in character efficiency. Shame is a big force when you are ashamed of the right things. To be ashamed of the wrong things is to misdirect it and make it worse than futile.

She Wanted To Get Away From The Wind, Not To Earn Money. The daughter of an acquaintance of mine, a girl who had never done anything more strenuous before than help her mother direct the maid, took a business position recently. She is engaged to be married, and probably wanted to earn some extra money for her trousseau. But instead of advancing that simple explanation: "Margaret is doing a little work in town this winter. She simply couldn't stand the wind out here another winter. You know we live on a hill where it's fearfully windy, and it makes her so nervous."

Evidently these two were ashamed of the fact that, for the first time in her life, the girl was making herself really useful. They had never been ashamed of the fact that she had been a parasite, an extra burden for an overworked father. Oh no, the thing

they were ashamed of was that she was at last doing some honest work. Religious feeling, tenderness toward one's loved ones, work, especially the honest kind done with the hands, civility toward women, scholastic success, these are examples of the kind of things many of us are ashamed of.

A man's admirations are his goal. Conversely what he is ashamed of he shuns. Learn to be ashamed of the right things if you want to arrive at the worth-while goals.

### THE GOLDEN RULE.

Remember that we all are brothers, so let's be good and kind to others, acknowledging their rights; why make Jones better than a horner, by playing on your fute or cornet, when he would sleep or nights? Why keep a swarm of hungry chickens, which cause more trouble than the dickens, as golden spring days pass, committing crimes no man can pardon, by scratching, in the neighbour's garden, destroying garden sass? Why keep a dog, that is so batty it thinks it is outclassing Patti, or even Annie Case, when it spends all the evening howling, and pouring diabolic yowling, in torrents through its face? While of our goodly deeds we're spelling, we're stirring up much bitter feeling by little, thoughtless sins; we keep a cow that makes Brown maddish, because it eats his early radish—why bark that neighbour's shins? In pious works our zeal is splendid; to see all vice and sorrow ended we go down in our jeans; and then we keep a rooster nutty that crows until it jars the putty from neighbours' window panes.

### War Loan Salaries.

Expected Similar Scheme for M.P.'s.

The movement for the payment of part wages in War Loan, which began with the Cabinet, is expected to spread to M.P.'s. There is a "roosty" among bankers to know how far the movement is likely to go. "It is a compulsory loan," said the manager of a large bank yesterday. "I wish the Government would take a quarter of my income and keep it for me until the end of the war," said a middle-class man. "It might mean a smaller house and one servant less, no cigars, no theatres, and possibly no motor-car. I am certain that nothing will reduce my household and personal expenses except the fact that I have not got the money to spend. I am sure others agree with me."

Mr. Arthur Chamberlain, chairman of Kynochs, Ltd., said: "I think a regular reduction would only be agreed to by those who are not at ready spending up to their full salaries.

### Your Boys and Girls.

After five or six years of age stammering among children is apt to increase from imitation, association and faulty methods in elementary school teaching. Perhaps there is no greater omission in the whole public school system than that which concerns methods of communication and precision of speech. Young children acquire more bad habits of speech at school than the best parents in the world can counteract or neutralize. Many instances of stammering are picked up in unconscious imitation by association with other children in the schoolroom and on the playground. This should not be so, indeed, someone is derelict when it occurs. You might as well put a hungry wolf in a sheepfold as to allow a stammering teacher or child to mingle with your children at school.

### 25 cents Destroys Your Dandruff and Stops Falling Hair

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—when the hair falls out fast. A little Danderine to-night—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and buoyant and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—now hair—growing all over the scalp.

### Offered Loan of \$500,000 to New York City.

New York, March 25.—The story of an offer of a \$500,000,000 loan to New York City to enable it to build municipal-owned subways was told the Thompson Legislative committee today by William B. Ellison, ex-corporation counsel.

The loan was to be used not only for subway construction, but also for water improvement. Ellison said two men connected with the Standard Oil Company—Dr. Pollock and a Mr. Alexander—came to him in August, 1911, while the matter of the subway construction was pending, and asked to be presented to Mayor Gaynor.

Their offer was to furnish the sum mentioned, taking as security a lien on the subways, and a commission of 10 to 15 per cent as the work went along.

Mayor Gaynor, Mr. Ellison said, did not seem to regard the offer seriously. Newest of all handbags is one of rows of ostrich feathers forming the body of the bag, and with a top of satin.

### The Eastern Trust Company.

A few reasons why an estate can be better administered by the Eastern Trust Company than by a personal executor or administrator:

1. The Company affords the estate absolute security; it has a paid-up capital of \$931,000.00, and a reserve fund of \$229,300.00.
2. It has a long experience in the work of administering estates; it is incorporated for this business of acting as a trustee, and, unlike many other trust companies, it does no other.
3. Its existence is perpetual. Your estate, in the event of the death of a personal executor or administrator, must look around for a substitute, and the work of administration is impeded during that time, and the new executor is unfamiliar with the policy of his predecessor, and confusion results. This company's existence is perpetual, and there is a continuity of policy in its administration that the death of its officers does not break.
4. It possesses the confidence of governments, universities and prominent charities and administers their funds.
5. A number of other advantages which will appear in due course.

**Death on Way to Take Post as Colliery Manager.**

A verdict of Death from Natural Causes was returned at Newport (Mon.) at the inquest on Jabez Balfour, the author of the Liberator frauds, who died, while travelling from London in the Fishguard express on Wednesday.

Evidence of identification was given by his son, Mr. James Balfour, of Henley, who said that his father was very careless about his meals, was nearly a teetotaler, and took a cold bath all the year round.

The Coroner: Had he been abroad lately?—Last August he went out to Burma in expectation of taking up an appointment at a colliery near Swinsea. He spent last Christmas at my house at Henley. I had never known him more merry and more optimistic. He played eagerly in the children's games.

"Lately he had travelled a lot on business projects. He made three trips to Australia and New Zealand. But he was hard hit by the war. He had to give up his office in Chancery Lane."

"He always believed he would retrieve his lost fortunes. Nothing could shake his confidence in himself. Whatever his faults may have been, he never spoke bitterly of anyone who, he might justly have claimed, had made him a scapegoat."

"Many offers were made him to write of the collapse of the Liberator. He refused because he would have had to mention men now dead who could not reply. In the old days he was always working at top pressure, in trains, in cabs, even at meals. His average sleep was about four hours."

**40 CURE**  
**\$1 SPENT IN ZAM-BUK CURED**

This was the experience of Pte. C. Oakley of the 94th Highlanders, Saskatoon. He writes:  
"While employed in stone yard, I cut my leg very badly. I immediately went to a doctor who sewed up the wound and attended me for five weeks, during which time I was obliged to give up my work. At the end of that time the wound had not healed, and the doctor advised me to go to hospital. As the doctor's charge was \$40, and he had done me absolutely no good, I determined to try something on my own account, and hearing Zam-Buk highly recommended, I commenced using it. In two weeks the wound had so healed that I was able to return to my work and perseverance resulted in a complete cure. One dollar's worth of Zam-Buk did what a forty-dollar treatment had failed to do! I shall never be without Zam-Buk again—Am taking a supply with me to the front, and think every other soldier should do the same."

Profit by others' experience, after when you sustain an injury, apply Zam-Buk in the first place, and save yourself needless suffering and expense.

Zam-Buk is equally good for burns, bruises, and all other injuries; also for eczema, ulcers, abscesses, eruptions, boils, pimples, running sores, and hemorrhoids. Best for children's sores. All druggists, 50c. box, 2 for \$1.25. Sent by air. Zam-Buk Co., Toronto. Send 1c. stamp and trial box will be mailed you.

**"Our Heaven-Sent Task!"**

For the hundredth time we Germans tell Sassonoff and Asquith that we are fighting for our existence, and that, therefore, we shall make use of every weapon we may find available, be it on or under the water, on land or in the air. Germany's decision is not dependent on Washingtonian negotiations. Lansing's pronouncements, Jagow's retorts, or the Anglo-American cabal against Bernstorff have nothing whatever to do with the plans of the German fleet leaders. Our U boats are legitimate weapons. There are no decisions that render their employment impossible and endanger their existence will receive a moment's consideration, no matter from what quarter they emanate. Thus the sea will soon once more be made the scene of deeds which will dispel the English dream of the destruction of Prussianism, and cause such neutrals as are now trembling on the brink of intervention in the struggle to scurry terror-stricken homeward into the shelter of non-interference with the execution of our heaven-sent task of punishing rascally Britain.—Nachrichten (Hamburg.)

**American Simplicity.**

(From Collier's.)  
Speaking of newspapers, it seems safe to say that democracies are ruled by public opinion, and that public opinion is formed on the basis of accepted facts. A plausible statement bluntly and boldly repeated finally becomes an accepted fact, and so has its influence on public opinion, as every patent medicine vendor knows. When things get tight for Bernstorff at Washington one of his colleagues in Berlin (Bethmann-Hollweg, Jagow or Zimmermann) gives out a front-page interview and reiterates home-made "facts" as to Germany's position. Germany loves the United States, is very patient, very noble, but there are limits. Germany must insist on her rights, and can only forgive us if some of us get murdered by her submarines and so on. This bunk is set forth with all the sham realism of a good movie film, and our newspapers print it without comment or correction. The effect is to confuse public opinion in its support of our Government at Washington, and to disguise the criminal effrontery of Germany's claims regarding her methods of warfare. It is interesting to see how the Wilhelmstrasse magnates get what they want out of the press of a free country.

**April.**

By GEORGE FITCH,  
Author of "At Good Old Slivash."

April is a brief, emotional month which has only thirty days and spends most of its time weeping for the thirty-first. It arrives just after the backbone of March has been broken, and lasts until it is safe to put on a thin necktie and a cotton vest and go to a base-ball game without a foot-warmer.

April consists of sunshine and sobs in equal doses, like a Hearne melodrama, and is one of our most charming months in spots. When the April sky is blue, and the warm breezes are enticing the diffident radish from the bosom of the garden, April is so fascinating that the whole world goes out of doors in order to breathe it in larger quantities. In April, the apple, peach and cherry trees explode into blossom, and nature everywhere becomes green and fresh and tender. The country roads also lose their hard, callous nature and become soft and succulent. After April has rained for about nineteen days on an eight-hour schedule, the roads become so soft and embracing that the mail carrier has to sit on his buggy top to keep his necktie out of the mud.

April is chiefly noted in the United States for the opening of the baseball season. During the last ten days of the month a million baseball fans are suddenly turned on and life once more becomes bright and stuffed full of interest. There is no more inspiring sight than that of a baseball fan in April, as he sits in the thick weather on the port side of third and shouts hoarse encouragement to the base-runner, who is sliding grandly to third through the billows tossing up spray like a racing motor boat.

April elections also give us our mayors and aldermen. Because of this, a great many reformers are demanding that April be left out of the calendar.

April is barred by two great sorrows—the late frost and the early spring housecleaning. The late frost comes like a dastardly assassin and murders the innocent spring vegetables and the congressional boom, while the early housecleaning breaks loose with relentless fury in many a happy home and shuffles it up until the distressed husband has to find his way through the parlor at night with a guide, to say nothing of saving up enough money to buy back his second and third best pairs of pants from the old clothes man.

April is a beautiful month south of Mason and Dixon's celebrated line. North of this line, however, it is like a stock company gold mine—it consists mostly of prospects.

**Take "Cascarets" if Headachy, Bilious And Constipated**

Best for liver and bowels, bad breath, bad colds, sour stomach.

Get a 10-cent box.  
Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

**Canada and Newfoundland**

The Montreal Journal of Commerce referring to its special Newfoundland number issued last week, says that the proximity of the Ancient Colony to Canada would in itself be a reason why Canadian readers should feel interested in Newfoundland and its affairs.

There is, however, a further reason why our people should feel interested in Newfoundland. Those Canadians who have given any thought to the subject desire that Newfoundland shall one of these days become a part of the Canadian Dominion. This desire does not arise from any belief that Canada would be the gainer from union. Indeed, those best informed feel that from a dollar-and-cent point of view, Canada could not gain. But the sentimental idea of bringing in the old colony is pleasing to our people, who will still be glad to see the union, even though the vexed fishery questions which once gave the project importance are now settled. It is certain, however, that while desiring the union, Canada will have no lot or part in any confederation movement until it is made clear that the people of Newfoundland of their own free will and accord, desire to take up the question; and that if at any time, as the result of negotiations, the Canadian and Newfoundland legislatures should agree upon terms of union, these terms should not become operative until the electors of Newfoundland have had the fullest opportunity of expressing their opinion on the scheme. A clear and distinct understanding of this nature should be in the minds of all concerned.

Referring to the commercial situation, the Journal believes that Newfoundland's trade is important enough to warrant a greater effort on the part of the Canadian authorities to encourage it. The trade of the colony with the United States has increased, while that with Great Britain and Canada has decreased. Less than a quarter of a century ago Newfoundland's imports from Great Britain represented 34 per cent of the total, while they are now but 25 per cent. Imports from Canada have decreased, while those of the United States have increased. An inquiry into the cause of this should take place, and an effort to bring about better conditions should be made.—Sydney Record.

The Crescent Picture Palace was largely attended yesterday and last night and all present thoroughly enjoyed the fine show. "The Little Deceiver" an Essanay feature in three acts, with Edna Mayo and Richard C. Travers is certainly a splendid picture and all present voted it one of the Crescent's best. The Heart Sellig News Pictorial shows some very interesting happenings from all parts of the world; whilst Flora Finch and Jay Dwigins in the Vitagraph Comedy: "A Mistake in Typesetting" were up to their usual standard of excellence. ### At the House.

**MONDAY, April 3rd, 1916.**  
Mr. Lloyd asked the Finance Minister for a statement of expenditures under General Contingencies from March 30th, 1915, to March 30th, 1916.

Mr. Cliff, Mr. Coaker and Mr. Abbott also gave notices of questions asking for returns of other expenditures of the public monies.

The Bills relating to the re-building of Carbonear; Trading with the Enemy and the Volunteer Force in this Colony were read a first time.

The House then went into Committee on Supply. Discussion on the vote for Agriculture was first taken up.

Mr. Cliff pointed out that the report of the Board of Agriculture tabled did not contain a detailed statement of the expenditure of \$20,000 for last year and asked for the information. He suggested that the vote in the Estimates for Agriculture for 1916-17 be left stand until the statement is received and examined and members will be able to deal with the vote intelligently.

Mr. Coaker dealt with the report of the Agricultural Board and disbelieved the figures that the products from agriculture were twice the value of our annual fishery exports. He strongly opposed the idea of putting the vote for Agriculture on its old basis again and voting \$20,000 for it. He would like to see agriculture promoted but thought that picking up hearsay figures in all parts of the country and then have them printed and try and get people to swallow them was not the proper way to encourage agriculture. He referred also to the bad potato crop around the coast and incidentally remarked that instead of 30 barrels to the barrel, as forecasted by the Premier, the people were getting a few barrels of "marbles."

Mr. Woodford asked for more money for agricultural encouragement and suggested that bonuses be given similar to what used to be done in his district some few years ago when each member of a Society got \$2 for clearing land (and \$2 to those who didn't clear it, interjected Mr. Dwyer).

When Mr. Woodford finished Mr. Dwyer rose and in a practical and concise speech scathingly criticized the unwise agricultural policy of the Government. Reviewing the Agricultural Board's Report, which he had before him, he intimated that it was a repetition of what had happened each year since the Morris Government came into power. Thousands of dollars were squandered and no visible improvements, especially as regards the cultivation of land. All over the country and notably in the outports there were noticeable improvements and go-ahead-ness in every other industry but Agriculture was at a stand-still everywhere. The reason was, said Mr. Dwyer, that the people have not received any information from competent persons as to how their seeds should be sown, their soil tilled and otherwise shown how their work and conditions generally could be improved from an agricultural standpoint. He emphasized the need of having a thoroughly competent Agriculturist to train and direct people notwithstanding the questionable statement that you can't make a farmer out of a fisherman. He (Mr. D.) repudiated that statement and added that fishermen were upholding their best traditions in every other sphere in life, even in the throes of battle, but like all other trades and professions they required proper training and teaching to make them fit to cultivate their land in order to get the best results therefrom.

Mr. Devereaux got up and made an earnest attempt to justify his position as one of the well paid Agricultural Commissioners. He was surprised to see the Board and the report criticized by Mr. Coaker whose sincerity and excellent work he said he had never doubted inside the House or out of it. The Commissioner paid a tribute to the Leader of the Opposition, referring to his ability and fitness for the important position he occupied and in conclusion expressed the hope that Mr. Lloyd would not maintain that position for long.

Mr. Jennings referred to the unfair distribution of potato seed in the outports and another instance he said of how the Government was discouraging agriculture was the providing sheep for people with fat bank accounts, but nothing for poor people.

Mr. Halfyard and Mr. LeFevre spoke in a strain that was not at all favourable to the Government's farcial agricultural policy.

The Prime Minister then got up and in making the best of a bad defence quoted figures from the census of 1911 to try and justify the report of the Agricultural Board. Some warm interjections and retorts followed between the Prime Minister, the Leader of the Opposition and Mr. Dwyer and in the height of a fever heat temperature the committee rose at 6.40. The House adjourned a few minutes later until this afternoon.

### Annual Report.

#### Permanent Marine Disasters' Fund.

During the last session of the Legislature, an Act was passed authorizing the appointment of the Permanent Marine Disasters' Committee, thus giving legal sanction and official recognition to the permanent organization initiated in April, 1914.

On June 23rd, 1915, this Committee was gazetted, its membership consisting of Hon. J. R. Bennett, Colonial Secretary, and Mr. A. W. Piccott, M.H.A., Minister of Marine and Fisheries, both ex-officio, Hon. J. Harris, R. Watson, G. Knowling, J. Alex. Robinson, Messrs. Ellis, Hepburn and J. S. Munn. The Committee was instructed by the Colonial Secretary, that under Section 5 of the Act, it had been ordered that the Committee should determine all claims under Section 3 of the 1913 Marine Disaster Act.

In accordance with this decision all applications for the \$100 grant under the provisions of the 1913 Act have since been considered by this Committee, and when satisfactory proof has been produced, if the conditions of the Act have been met, the necessary authority has been issued for the payment of the grant. Arrangements have been completed so that these payments are made through the Committee, thus enabling it to note the date of the payments and adjust matters should the recipients later solicit assistance from the Permanent Fund.

One of the first duties devolving upon the Committee was the framing of the Regulations under the new Act. These having been agreed upon were submitted to, and approved by the Governor-in-Council.

The question arose as to whether or not the Permanent Committee should consider applications for assistance from dependents of those lost prior to its appointment. It was decided after careful consideration that the Committee's work must be confined to fatalities that have occurred since 8th April, 1914, when authority was given for the formation of the Permanent Fund.

In a few cases relief has been extended to a limited degree, where it was found necessary but no permanent allocations have been made, although it is hoped that the grants may be maintained.

The maximum scale of payments adopted, and on which temporary grants are based, whilst not so large as that of the 1914 fund, which was exceptional, is the best that it is considered the fund can stand, and is as follows:—

- (1) To widows, annuities of \$40 for a period of five years; in case of re-marriage, the annuities to cease.
- (2) To children to the age of 15 years, \$25 per year, provided such were dependent upon deceased and are in need, in accordance with Section 2 of the Act.
- (3) The cases of other dependants to be separately considered, and the course of action decided on apart from definite scale.

The statement of the Hon. Treasurer shows the sum of \$25,634.88 as having been raised for the purpose of the Fund. This income is derived chiefly from the interest on the 1914 fund and lapses that have occurred by reason of re-marriage or death of beneficiaries of that fund.

So far no special appeal has been made as it is felt that just at present our people are called upon to contribute all possible to other and at the present time, more insistent causes.

Immediately upon the approval of the Regulations, His Excellency the Governor, forwarded a cheque for One Hundred Dollars, followed soon after by a cheque for a similar amount from the Hon. R. K. Bishop, who also enclosed promissory notes for One Hundred Dollars each, covering a period of four years.

The fund is also indebted to the Grand Orange Lodge of British America for the handsome donation of Five Hundred Dollars.

The Committee hopes later on to establish branches throughout the Island, and it is believed that our people will give the fund their heartiest support.

The Committee regrets that Section 10 of the Act of 1915 is not operative. In only very rare instances are its provisions carried out. It is, therefore, suggested that if instructions have not already been issued to the Stipendiary Magistrates, they should do so forthwith. The carrying out of this Section of the Act would prove of great assistance to the Committee.

At the Committee's first regular meeting, the officers of the Disasters' Fund, 1914, were temporarily appointed, the election of officers not taking place until October 28th, when the appointments were confirmed.

It is with profound sorrow, and with a due sense of the severity of the loss sustained, that the passing of the Committee's first President, Hon. John Harris is recorded. As temporary President he presided, on several occasions, but not since his election, which took place during his illness.

Since his death the Hon. Treasurer, Hon. R. Watson has presided.

In accordance with Section 6 of the Regulations, the Election of Officers took place at the adjourned annual meeting held on February 24th, when W. J. Ellis, Esq., was elected President, Hon. R. Watson, Hon. Treasurer,

and Mr. J. Alex. Robinson, Hon. Secretary.

George Shea, Esq. has been appointed by His Excellency the Governor-in-Council as the successor on the Committee of the Hon. John Harris. The accounts for the year duly audited by the Auditor-General, are

attached.

Respectfully submitted,  
J. ALEX. ROBINSON,  
Hon. Secretary.

### At the Kirk

The services at the Kirk on Monday morning were very impressive. The pastor kept with facts and figures, and opening at the present time. The text in the morning was "Upon God," taken from the 31st chap. 31st verse. The pastor's message was a warning to the congregation to attend to their lives. The pastor said that the appearance was in evidence that temptation has been put upon us. The pastor said that the facts have come from the present day is to water from God, lack of attendance upon worship. ### At the Kirk.

The services at the Kirk on Sunday last both morning and evening were very impressive and well in keeping with facts and events happening at the present time. The subject in the morning was: "Waiting upon God," taken from Isaiah 40th chap. 31st verse. The tendency of the present day is to wander away from God, lack of attendance at Divine worship. The pastor urged upon the congregation to attend both services when possible as the good fruits to be obtained were lost when non-appearance was in evidence. Many a temptation has been put aside when facts have come from the pulpit showing clearly how to remove the danger and living right. Times are at present prosperous with us and we have not had to suffer from the effects of war as other people. This being so we are prone to wander from God, and to depend too much on ourselves. Let us remember this cannot last always, sooner or later we shall have to ask Divine help. May we not have to come back, but keep waiting every day willing to do what is right and our duty. This month of April promises to be a memorable one in connection with the war: "Who shall say the Allies will win?" God will see them through, we have no doubt, but where are your prayers? "Are you keeping with God" in soliciting His help?

The text at the evening service was taken from John 5th chap. verses 40-41, condensing the meaning of these words into "a fruitless search." Again the rev. gentleman delivered an impressive sermon. The beautiful anthem, "Abide With Me," by Dunstan was rendered by the choir.

### Fogota With Disabled Ship at Halifax.

The s.s. Fogota, assisted by the s.s. Lady Sybil, reached Halifax at 11 a.m. to-day, having in tow the disabled steamer Farley. The Lady Sybil came up with the other ships just off Halifax Harbor. Both local ships will take on board a large quantity of flour and some general cargo for this port.

### New York Man Is Jailed in London.

Held on a Charge of Fraud Against the Belgian Government.

London, March 29.—John Wesley De Kay, of New York, was arraigned in the Bow Street police court yesterday on the French government's demand for his extradition on a charge of fraud against the Belgian government. The prosecutor, speaking on behalf of the Belgian government, said the defendant had participated with a Frenchman named E. Scharite in obtaining 315,000 francs by false pretences from Belgium. He charged that De Kay was formerly the agent in Europe of Victoriano Huerta, President of Mexico, for the purpose of purchasing arms and ammunition for the Mexican government. He purchased 17,000 rifles and 1,000,000 rounds of ammunition in Spain and paid for them, but, the prosecutor added, when the European war broke out the whole shipment was still in Spain. De Kay then saw a chance, the prosecutor continued, to make a fine profit by selling the arms and ammunition, but Spain was unwilling to let the arms and ammunition go to European belligerents. Nevertheless De Kay, according to the prosecutor, entered into negotiations with the Belgian government which urgently desired the arms for the Congo.

The Belgian government agreed to purchase the consignment, agreeing to pay ten per cent down and the remainder on delivery. It was provided that in the event that delivery did not take place Belgium was to get back her deposit, less the expense incurred by De Kay and his associates in endeavoring to get the arms out of Spain.

The prosecutor said the arms had never been delivered and that no part of the 315,000 francs deposited had been refunded.

On the other hand De Kay's attorneys maintained that the transaction was entirely legitimate. De Kay, they said, had made every possible effort to deliver the goods, and De Kay would have been glad to refund the unexpended balance, but his money was tied up in Mexican securities for which there was no present market. The hearing was adjourned.

The case against De Kay dates back to last November when De Kay was arrested in London. At that time he declared there was no foundation for the charge that there was nothing wrong in the transaction.

### Riotous Scene at Southside

About seven o'clock last evening, no small amount of sensation was created at the Southside where the steamers Eagle and Neptune are discharging their sealing cargoes. The principals were a few members of the crews of both these ships and who mixed matters badly. It had not the complexion of a proverbial "flapper" row, but of a riotous character, as fists and skin boots were not the only instruments used by the combatants. A few pugilistic exhibitions, sprinkled with "claret" were being served out on the deck of the Eagle, when a sealer of the same ship brandished a knife and ran wild, determined to do harm. He frightened all and sundry for the time being and five other sealers who were making themselves scarce jumped over the side of the ship into a boat. The boat sank and they were left struggling in the water. They were rescued by the aid of gaffs, ropes, etc. On board the Neptune there was also a sum of activity in the fighting line and one man was seen getting a kick over the eye that put him down for the count and he was hurried to this side of the harbor to a doctor for repairs. Meanwhile, the enraged sealer who was flourishing the knife, came in contact with a young man named Thomas Anthony, of Bowring's North side store. Anthony, who has the peculiar knack for seizing weapons, approached the sealer coolly and fearlessly, and grasping him by the wrist, took the knife which he now has in his possession. The sealer then fled quickly after receiving the dimensions of Anthony's boot. Anthony, though only having a limited amount of physique, has frequently acquitted himself courageously in the manner referred to, when the occasion offered, as not long since on board the s.s. Coban at the Southside, he took a knife from the hand of a seaman who had run riot.

### Here and There.

WEATHER REPORT.—The weather along the line of railway is: Strong N. W. wind, fine; temperature 14 to 30 above.

AT ST. PIERRE FOR REPAIRS.—Several Newfoundland bankers, the greater number of them from the southwest coast, are now on the slip at St. Pierre undergoing repairs, and others are waiting their turn.

BAD ROADS.—The road leading from St. John's to Portugal Cove and the one leading to St. Phillip's are almost impassable. Mailmen and cabmen experience great difficulty in getting along.

ILL AT THE COVE.—Dr. Campbell drove to Portugal Cove yesterday to attend to Mrs. John Harvey, who is ill. It is expected that it will be necessary to send the ambulance to convey the sufferer to Hospital.

DIVER DESCENDS THROUGH ICE.—In raising the schooner Natoma at Rose Blanche, previously reported by us, it was necessary for Diver Butler to descend through the ice and substitute a false bottom made of canvas before the pumping could be commenced.

TO RAISE DESOLA.—Diver Butler went down this morning and examined the lower parts of the s.s. Desola. Pumps and heavy raising gear are being put in shape and an attempt will be made to refloat her. Work will commence to-morrow.

HOSPITAL FULL.—Yesterday and to-day 10 people came on the trains to enter the hospital. Mr. E. H. White-way is kept busy with the large number of applicants on hand. There are now waiting a chance to enter hospital 40 females and 25 males and 12 volunteers. Several persons came to town without first notifying the hospital staff, and as a consequence are unable to obtain admission, as every available bed is occupied.

### SHERIDAN'S WIT.

Sheridan was once staying at a house of an elderly maiden lady in the country, who wanted more of his company than he was willing to give. Proposing one day to take a stroll with

him, he excused himself to her on account of the badness of the weather. Shortly afterwards she caught him sneaking out alone.

"So, Mr. Sheridan," said she, "it has cleared up?"

"Just a little ma'am — enough for one, but not enough for two!"
