

ITALIANS KEEPING ENEMY IN CHUCK

GERMANS MAKING STRONG EFFORT TO CRUSH ENTIRE ITALIAN ARMY

BRITISH AND FRENCH TROOPS NOW HASTENING ACROSS THE WESTERN ITALIAN FRONTIERS TO HELP THE ITALIAN ALLIES

AS RESULT OF TEUTONIC ALLIED OFFENSIVE INTERNAL CONDITIONS IN ITALY ARE DECLARED TO BE UNIFIED

From the head of the Gulf of Trieste, northward along the Carnic Alps region to the Ploekken pass, forming the eastern and northeastern boundaries of the Austro-Italian war front, the Germans and Austro-Hungarians are operating fast and strongly against the Italians in an endeavor to crush the forces of General Cadorna.

Already the enemy, according to the German official communication, is standing before the town of Udine, the former grand headquarters of the Italian army, having driven on past Cividale. The press westward from Gorizia he has captured the town of Gorizia, ten miles to the southeast of Udine, and the entire Italian front southward to the head of the Adriatic is reported to be in retreat.

In addition to the wedges driven into the Italian front on the west and northeast, the Teutonic allies have started a third wedge from the north, their hope evidently being to cut off the retreat of the Italian command-in-chief, however, reports that his army is checking the advance in this region. Evidently the weakness among the Italians has been entirely overcome, as Cadorna reports that all movements ordered by the general staff are now being carried out in regular order and that the Italians are fulfilling their duty by keeping in check the enemy's advance into the plains.

INTERNAL CONDITIONS UNIFIED

Maritime in order to aid the Italians in their hour of trouble, Great Britain and France are preparing to lend immediate aid, and the possibility is that already troops are being hastened across the western Italian frontiers by way of Turin and Milan to the battlefront in the east. As a result of the Teutonic allied offensive, internal conditions in Italy are declared to have been unified, the preponderating idea of the entire population now being to abolish party lines in order to meet the situation in the best interests of the country. Even the cabinet crisis is expected to be solved with comparatively few changes in portfolios.

On the western front in France and Belgium little fighting has taken place except in the nature of bombardments, though on the Italian front the Germans in an attack near Chame wood captured a portion of a French trench. Later, however, they were driven from the most of it.

The Americans daily are shelling the Germans with the German answering their fire. Snow has fallen in the region where the Americans are entrenched.

From the entire Wender peninsula projecting to the Moon sound in the Gulf of Riga. The possibility is that their success in landing further forces last week caused the decision to withdraw the troops.

MAXIMUM AWARD IN C.N.R. TO BE TEN MILLION DOLLARS

C.N.R. SHAREHOLDERS WILL GET NO MORE THAN THAT AMOUNT AND MAY GET CONSIDERABLY LESS THAN THAT

Winnipeg, Oct. 29.—In a dispatch tonight the Ottawa correspondent of the Free Press says: "It is stated tonight that tentative agreement has been drawn up between the king, represented by the minister of finance, and the receiver-general of the first part, and Mackenzie and W. M. Kenyon, and the Canadian Bank of Commerce, pledgees of the Canadian Northern, of the second part, providing for a maximum award of ten million dollars in connection with the arbitration regarding the valuation of the capital stock of the Canadian Northern to be acquired by the government. The agreement, which must be ratified by the full cabinet, provides that the value so determined shall be the sum of \$10,000,000 or more, the price shall be \$10,000,000; if the value so determined be less than \$10,000,000, the price shall be the value less than \$10,000,000 so determined. In other words, a maximum of ten million dollars has been fixed, above which the Mackenzie-Kenyon (the value) stock of the Canadian Northern railway to be acquired by the government. The order-in-council embodying the agreement has been drawn up and awaits ratification by full cabinet council this week. It is expected that the ministers will be at Ottawa by Wednesday or Thursday next."

U.S. FOOD PLEDGES

More Than 30 Million Homes Have Signed Up

Washington, Oct. 29.—Food pledges were actively under way today with half a million canvassers throughout the country securing pledges from 22,000,000 homes for the observance of the food administration's directions and advice in food economy which President Wilson has endorsed. With effective enrolment of families to save throughout the war, the United States will be able to export all the wheat, fats and sugar its allies in Europe sorely need to enable them to maintain their fighting strength.

SENATORS ATTACKED

German Submarine Got After U.S. Passenger Ship

London, Oct. 29.—The steamer on which were United States Senators John Kendrick and W. M. Kenyon, and Representatives J. J. Rogers of Massachusetts, and Jas. Parker of New York, was attacked by a German submarine off the coast of Wales Saturday. The gunners on the steamer opened fire immediately and the submarine submerged before having time to launch a torpedo.

PROFITTEERING IMPOSSIBLE IN U.S.

Washington, Oct. 29.—Profiteering by retail dealers in foodstuffs will be made impossible after November 1, the food administration announced tonight under a plan to cut off supplies to those not satisfied with reasonable margins. Manufacturers and other handlers of food, whose businesses will go under license, will not be permitted to sell to distributors who seek undue profits.

"This is one of the most sweeping safeguards," the announcement says, "against high prices which will be incorporated in the licensing system, for which complete rules and regulations will be made known within a few days."

FIGHTING ON THE ITALIAN FRONT

GIOLITTI AGAIN IN FULL CONTROL OF ITALIAN PARLIAMENT

One Time Pro-German Leader Has Once More Gained Support of Italian Members

SAYS HE IS LOYAL

He Changed Attitude When Italy Joined in the War With the Allies

Turin, Italy, Oct. 29.—The fall of the cabinet of Premier Bossoli is attributed to Giovanni Giolitti, former premier, who thus reasserts his old power as Italy's political leader. Before the entrance of Italy into the war he was in favor of the country's neutrality, representing conservative opinion.

The political situation now enters into a new and interesting phase, which is being watched closely.

It is assumed that the new cabinet will be far stronger at home, in view of the overwhelming majority favoring the colors and government during the war.

U.S. PACKING HOUSES UNDER FULL CONTROL OF U.S. GOVERNMENT

Control Will Be Absolute and Action Will Be Taken Nov. 1

Chicago, Oct. 29.—Official announcement was made today that every packing house in the country is under full control of the government and that after November 1 the control will be absolute, operation of the plants then being under license.

CELEBRATE VICTORY

London, Oct. 29.—A school holiday has been proclaimed throughout Germany in celebration of the Austro-German victories against Italy, and the display of flags has been ordered. Emperor William and Empress Charlotte are expected to meet on the Isonzo front in a few days.

POSTIES GET BONUS

Regina, Oct. 29.—Regina letter carriers and postal clerks were notified today that the long expected war bonus has been granted. Men getting \$1,000 or under are raised \$300, and salaries between that amount and \$2,400 go up to \$1,600. There is no increase for salaries over \$1,800. This is a Dominion-wide measure.

I.W.W. IN LONDON

London, Oct. 29.—In the house of commons today, Sir George Cave, the home secretary, said an attempt had been made to establish a branch of the I.W.W. in London, but that it had received little or no support. The home secretary added that all necessary steps had been taken by the government to deal with the matter.

FOOD CONTROLLER MAY ELIMINATE ALL TRAVELERS

An Unofficial Report from Winnipeg States That the Controller Will Prohibit Sale of All Goods Through Commercial Travelers

GREAT SAVING

If the 500 Men Traveling Out of Calgary Were Put in Other Positions, Consumer Would Save \$137,000 Monthly

"What are we going to do?" is a question many commercial travelers will ask themselves if the unofficial report from Winnipeg that the food controller contemplates issuing an order prohibiting every commercial house in Canada selling their goods by means of commercial travelers, proves true.

Local wholesalers state that while it will entail overwork on the local staffs it would go a long way towards reducing the B.C.L. salaries paid commercial travelers in western Canada.

The expenses will average \$300 a month. At least that is the traveling allowance the majority of firms allow their representatives.

Were the salaries of the Road, who make up the bulk of the force, eliminated from the sphere of activity, there would be a saving of \$137,000 a month.

The average salary at least a month and the allowance of the wholesaler as seen by the Alberta yesterday stated that undoubtedly the food controller had the power to call off the dogs.

Greater priority of whom would be looking for a job. An approved salesman would be a good business proposition for business as a whole.

LIBERTY FOR IRELAND

T. P. O'Connor Tells of Progress of Conference

Chicago, Oct. 29.—The Irish-American constitutional liberty committee was formed here today as a meeting of Chicago Irish-Americans under the guidance of T. P. O'Connor and Richard Donohoe, members of the Irish parliamentary party in the British house of commons. Michael J. Flaherty was elected chairman and W. P. Hailey secretary.

"The constitutional movement in Ireland is working successfully to secure self-government for the Irish people," he said. "It refuses to purchase liberty for Ireland at the price of the liberty of the rest of the world."

ITALIAN ATTACK WILL BE BOOMERANG

SAYS GEN. SMUTS

Cardiff, Oct. 29.—"The German offensive against Italy is a repetition of the history of the previous autumn," said General Smuts today. "You remember the first autumn of the war when Germany crushed Serbia. She had to offer her people some encouragement to call off the dogs. In the autumn of 1915, she brought Rumania's head on a platter and now we see the onslaught against Italy. 'Italy already knows that the allies will stand by her to the end. We shall not see her head on a platter. I shall not be surprised to see this boomerang come back on the German. The war was not decided in Serbia nor Rumania and will not be decided in Italy.'"

COULDN'T SEND GUNS

Italy Made Appeal to Britain Some Months Ago

London, Oct. 29.—The Pall Mall Gazette, referring to the fact that the entente allies have taken steps to send assistance to the Italians, says it is recalled that some months ago an appeal was made by Italy for guns. The newspaper adds that this appeal was strongly supported by Premier Lloyd George, but at the time the exigencies of the campaign on the western front, which was then opening, rendered full compliance impossible, as the front was making demands for guns which were impossible to resist.

GRANTS SAFE CONDUCT

Washington, Oct. 29.—Safe conduct for Count von Luxburg has been granted by the French and British governments and the former German diplomatic representative to Argentina will sail for Germany by way of New York very soon. The Argentine government requested this country to obtain permission for Von Luxburg.

MUST CARRY CARDS

Rio Janeiro, Oct. 29.—A general census of the German population of Brazil is now in progress of preparation. Hereafter it will be necessary for German residents to carry identification cards.

ONE AIR RAID FAILED

London, Oct. 29.—Hostile airplanes endeavored to carry out a raid tonight on the southeast counties of England, but none of them was able to penetrate the outer defenses, according to an official statement issued late tonight.

Warning of the raid was given Londoners by police and special officers, but in the absence of gunfire in the city area, there was no excitement. A few persons entered the underground railways or sought refuge in basements. As usual, the streets were cleared quickly, except that here and there automobiles, buses and a few pedestrians were going about their business apparently unconcerned. Crowds in the theaters and restaurants remained there until the bugles sounded their "All clear" message, which was greeted by cheers.

CANADIAN TROOPS, WAIST DEEP IN MUD, ARE FIGHTING HARD

CANADIANS NOW MASTERS OF LOWER SLOPES WITH STRONG ENEMY POSITIONS ON LEFT AND RIGHT FRONT

(By the Canadian Overseas Correspondent)

Canadian Headquarters in France, Oct. 29.—Subject to intense artillery fire and fighting machine guns and gas, waist-deep in slimy mud, the Canadians are steadily strengthening their positions on Bellevue spur. On Saturday night the Germans gained a foothold on our right flank, only to be repulsed with heavy losses, when our infantry met them with bayonet and bomb and drove them back. A further enemy attempt to weaken our hold on the right flank, though supported with successive and intense artillery bombardments, has proved unavailing.

Our forward position is now within 1,000 yards of Eschschendelsch itself. While the number of prisoners taken by us up to Saturday night amounted to 25 officers and nearly 600 other ranks. On the left, where Bellevue spur runs on to Eschschendelsch, with the slimy stretch of the Ravobek valley between, our men have made slow, stubborn progress through an almost impassable country.

As the result of the last three days fighting the Canadians now masters of the lower slopes, have before them strong enemy positions at the Great farm on the left front, and Meechels on the right. In reply to the enemy's employment of gas in the attack, Saturday night, our artillery bombarded the opposing batteries with gas shells, to which he retaliated with heavy shelling of our forward area. Again in the afternoon he shelled our right flank yesterday evening he opened a heavy fire on our left position.

Reports taken from captured prisoners show that the Germans in this area admit the superiority of our artillery, "which destroys everything in its path," and the excellence of our command, "who dominate our zone of defense and report everything to their artillery."

Examination of prisoners has further proved that the enemy was informed of the Canadian movement from Lens to this salient, and he hurried up fresh forces, including the Fifth Bavarian division, to meet the expected attack.

FIRST DIVISION TO HAVE FURLOUGH

Winnipeg, Oct. 29.—The Free Press' Ottawa correspondent, in a despatch tonight says:

"All the militia who went overseas with the original first division—and who are still in France—will be brought back to Canada on furlough, on a proposal now under consideration by the government, if found practicable by the militia authorities. The idea of the government is that if adequate reinforcements can be provided and the change that might be necessitated in the ranks and among the officers of the battalions would not interfere with the military requirements and the efficiency of the first division as now constituted, the 3,000 or more men who have survived the hardships and fighting from the first terrible conflict at Langemarck down through the battles of the Somme, Vimy ridge and Lens, should be brought back to Canada in a body and given a well-deserved rest."

CREW OF GERMAN RAIDER CAPTURED IN THE PACIFIC

Members of Raider Seeadler Which Was Captured Early in Month

A Pacific Port, Oct. 29.—Count von Luckner, commander of the raider Seeadler, and five German members of the crew, were captured September 31 of the Fiji Islands, when an armed launch was taken by Fijian constabulary in pursuit aboard the steamer Amra. News of the capture was brought by a steamer from the Antipodes.

The report of the capture of the Germans confirms a message to this effect received some time ago from Australia, which became of others of the Seeadler's crew is not definitely known. One report was that they were at sea in a commandeered vessel. The Seeadler, wrecked on the Mahopas island in the South Pacific several months ago, sank three American vessels during her cruise in the Pacific. Previously in the Atlantic she put an end to 16 vessels of various types.

News of the destruction of the Seeadler was announced in Washington, October 4.

GOAL CREEK STRIKE BEING ARBITRATED; MINES OPEN TODAY

Men Return to Work Pending Decision of Commissioner Armstrong After Long Session; Vote Taken

Pernie, B.C., Oct. 29.—The miners employed at Coal Creek voted to return to work tomorrow pending the receipt of the decision of Commissioner Armstrong, who has the matter in hand for final adjustment. This decision was reached after a lengthy session of Gladstone local here this afternoon and the mines will be working tomorrow.

TO ITALIAN FRONT

Italians Are Hurrying Along Further Reinforcements

London, Oct. 29.—A dispatch to the Exchange Telegraph from Rome says it is reported from Rome that the Austro-Swiss frontier again has been closed and that the Germans are hurrying reinforcements to the Italian war front.

BRITISH NAVY IS STEADY ANCHOR OF ALLIED CAUSE

If It Lost Hold Hopes of the Allied Cause Would Be Utterly Shattered, Says Premier Lloyd George

ITALY WILL NOT FAIL

British Premier Outlines the Great Work That Navy Has Done Since War Began

London, Oct. 29 (via Reuters' Ottawa Agency)—Premier Lloyd George, in showing the resolution expressing the thanks of the government to all branches of the forces, said that even had he leisure in these terrible times, especially during the anxiety of the last few days, he felt he could not do justice to this great theme.

The deeds referred to in his resolution had been the admiration and gratitude of every subject of his majesty and he felt no words were needed to commend the achievements of the fleet to any body of Britons throughout the world.

Anchor of Allied Cause

Referring to the navy, he said it was like a vital international organ, the existence of which we are unconsciously until something went wrong. It was taken for granted, but it was the anchor of the allied cause. If it had held, the hopes of the allies would be shattered. It was not only the anchor of the navy, but it was the anchor of the allied cause. If it had held, the hopes of the allies would be shattered. It was not only the anchor of the navy, but it was the anchor of the allied cause.

Our armies in France, Mesopotamia, Salonika and Egypt would have languished and died without the steady support in men and materials. France would have been deprived not merely of a steady support, but of the great element which the British navy anchored still to get from abroad and would have been almost probably in a defenseless position against the overwhelming hordes of the foe.

What Navy Has Done

The Prussians would have been isolated in the Balkans and the present Europe would have been a different place. Never in the whole history of the world had the British navy been a more potent factor in the great events of the world. It was the great element which the British navy anchored still to get from abroad and would have been almost probably in a defenseless position against the overwhelming hordes of the foe.

RUSSIAN OFFICERS TELL SOME TRUTHS

Cannot Answer for Men in Petrograd Garrison

Petrograd, Oct. 29.—The officers of the Petrograd garrison met today to discuss the position of the Russian army and adopt a resolution declaring that authority on the part of its chiefs is virtually non-existent. The resolution says in part:

"The community, as it is at present, cannot defend Russia. On the contrary the approach of winter and the present subversive aspirations of the army and its lack of any sense of responsibility will complete the ruin of the country. It renounces its duty, but answering for ourselves we do not answer for our men. The time has come to make this declaration openly so that nobody may be deceived or trust in vain delusions."

KAISERS' CONGRATULATE

Charles and William Gloat Over Triumph on Italian Front

Amsterdam, Oct. 29.—A dispatch received here from Vienna says Emperor Charles of Austria-Hungary has congratulated Emperor William on the capture of the Italian town of Gorizia by the German troops and has thanked the emperor for placing at his disposal "a number of your splendid divisions."

"The attacking energy of your troops," said the monarch's message, "proved, as ever, to be unequalled."

Emperor William, in reply, sent the following telegram to Emperor Charles: "The operations so successfully begun under your command against the Italian army give promise of progress. I rejoice that beside your well-trained Irons fighters the German troops in command of arms have beaten our former ally. Congratulations on the recapture of Gorizia and the Carso plateau. Forward with God."

CONTEST NOTES

The number of votes secured during the term of the Ford special is on a bearing whatever in determining the winner. The candidate collecting the largest amount of subscription money for the Ford special is the winner. He has to declare the winner. Nothing complicated about this method of awarding.

The call for more receipt books has increased very materially. We have plenty. Phone or wire if it will take too long to get returns by writing. We want nothing to stand in the way of a candidate getting the maximum returns from his or her efforts.

Be sure and get your letter containing today's report in the mail before midnight. When it reaches the contest office it will then be allowed in the \$5,000 extra vote club and tabbed up to your credit for the special Ford prize. City candidates may turn in their report up to 10 or 11 o'clock tonight. Be sure and gather one club today—two would be better and three better still.

Don't hesitate about sending in your nomination if you want to work for the Ford special. Your chance is just as good as the next candidate's, more particularly if your territory has not been covered by a candidate or one who failed to make good.

TWO CHANGES IN RULES FOR COAST HOCKEY

Off-Side Area in Center Ice to Be Enlarged by Extra Ten Feet

Two changes are to be made in the Pacific Coast Hockey association playing rules this season, according to an announcement by President Frank Patrick. He plans to increase the area in center ice in which off-sides are eliminated, giving at least an additional 10 feet to the present size. He will also legalize the accidental kicking of the puck in center ice. In the past play has been halted when the puck had accidentally lodged against the skates of the players. In future play will continue, although deliberate kicking of the disc will be penalized. These are the only changes to be made in the rules this year, states Patrick.

Following the suggestion of Secretary Martin Rosenthal of Ottawa it is most probable that the N.H.A. will appoint a permanent board of referees to handle the games this winter. It is proposed to use home officials for all games, and, therefore, cutting down expenses and avoiding delays in starting play when trains are late. Charlie McKinley, Jack Roberts, and Al Smith have been suggested as the Ottawa officials. Tom Melville will in all probability replace Cooper Smeaton at Montreal, the latter having left the city, and Bob Meldrum may be the other representative. Dr. Leclair and another one will act at Quebec.

ASSOCIATION TO TALK OF FUTURE

Convention in Milwaukee Next Sunday Will Decide

Chicago, Oct. 29.—Reports that three or four clubs of the American association plan to withdraw and merge with certain clubs in the International league caused President Hickey, of the American association, to issue a call for a conference of the club owners today to be held in Milwaukee next Sunday. "If the Indianapolis, Louisville and Toledo club owners have decided to secede, it is only proper that we should know about it," Hickey said. "I know nothing of these reports, but we shall expect at our Milwaukee conference to have them either denied or admitted." President Hickey wants an explanation of the reported movement in advance of the annual meeting of the association which is to be held in Louisville on November 13.

BOYS' PHYSICAL COMMITTEE MEETS

At Last Night's Session Various Schedules Were Arranged For

The boys' physical committee met in the Y.M.C.A. last night to arrange a gymnasium and swimming schedule for the "high" boys' classes. The high schools and colleges were represented, and Frank Halliday, of the old high school class took charge of the meeting. General Secretary Brent and Doc Wallace were present. It was brought out at the meeting that the high school class had been a failure in previous years, but the officials are working hard to make this year's class a success. The high school boys elected the following officers to keep in touch with the boys' "high" class at the Y. Chairman, Fred Halliday; vice-chairman, Edward Porterfield; secretary, Louis Doll. The high school class meets every Monday and Wednesday at 4:30 p.m. and every Saturday morning, Doc Wallace being in charge.

BASKETBALL TEAMS ORGANIZE TONIGHT

Meeting to Be Held at 8.30 Sharp in the Y.M.C.A. Rooms

There will be a meeting of the Y. M. C. A. Basketball league tonight at 8.30 p.m. in the Y.M.C.A. rooms for the purpose of organizing and electing officers for the coming season. The following teams are asked to have representatives present: Also any individual personally interested in basketball: Hillhurst, Alberta Farmers, Business Men, Magpies, Ford, High School, Regent-Vics, 78th Battery, Dentals, 103rd Regt. and Old Timers. The other clubs of the province are keenly alert. Edmonton University of Alberta has already written to find out about home and home games during Christmas holidays, however, this matter will have to be taken up by the new executive.

WILLIAM'S BULL DOGS EAT TANKS

Trial Game at the Exchange Alleys Proves Fatal to Tanks

In the five-pin league there was a battle royal on Saturday when "Park's Tanks" were taken into camp by "William's Bull Dogs." The game was not a league fixture, simply a workout to test the ability of the two teams. In the last game the Bull Dogs were without two of their best players, Young and Bradley, so they treated to a severe boiling down process as regard players' salaries. It is also considered likely that the season may be started later, some say about the first of May.

MILITARY BOWLERS FORMING LEAGUE

Fourteen Teams Will Battle for Season's Honors at Woodbine Alleys

At a meeting last night of military representatives it was decided to organize a Military Bowling league and judging from the information brought before the meeting the formation of the league will have one of the largest leagues in the city. Representatives of the headquarters club, the A.M.C. Ordnance corps, and 78th Field battery were on hand. The adjourned meeting will be held on Friday night in room 427 Judge Travis building at 7:15 sharp, when the organization will be completed and a schedule drawn up. The new league will hold its first meeting on Tuesday and Thursday nights. Corporal Wood, who represents the military in the league, says that there would be 14 teams in the Military league, among the number being those from Ordnance, Veterans club and the instructional staff at Victoria park barracks.

HOURLY SUPERIORITY ADMITTED BY EXPERTS

With only the dissenting voice of Omar Khayyam's trainer, Richard Carman, racing fans and experts are generally agreed that August Belmont's French-bred Hourless is the greatest racehorse in America today. His victory over Wilfrid Vian's Omar Khayyam was so clear-cut and decisive that it leaves little room for argument. Trainer Carman's claim is that his horse was carried along too fast at first, and therefore was unable to do himself justice, but the fact remains that Hourless followed closely the pace set by Omar, and that after the first quarter of a mile he was running just as fast as the leader, but was under a pull until Robinson let him down for his supreme effort in the stretch.

Jockey Frank Robinson, who rode the winner, came in for almost as much commendation as Hourless himself. It was Robinson's smart judgment which enabled him to keep a restraining hand on Hourless in the early running, and which sensed exactly the proper time to give the great French colt his head, and let him flash away at full speed in the stretch to mow down the Kentucky Derby winner's lead and capture the big honors. Robinson replaced Butwell at the last moment, and rode a superb race.

NEW HOCKEY LEAGUE N.H.A. Will Probably Suspend Operations Soon

Montreal, Oct. 29.—A meeting of the directors of the National Hockey association will be held within a week, when the N.H.A. will suspend operations for the season, and in all probability a new league will be formed with teams in Montreal, Ottawa and Quebec. This was the opinion expressed today by Sam Lichtenstein, president of the Wanderers, back from Toronto, where he was in consultation with the legal representative of the Toronto Hockey club which was invited to suspend operations this season.

UNIFORM LIMIT OF 20 PLAYERS IN MAJORS

Baseball Season Is Likely to Start Later Next Year, About May 1

Although the baseball season just ended proved far more successful financially than many believed it would, the United States entered the war, club owners and officials are agreed there is a good deal of work to be done between now and next spring to put the sport on a firmer and more substantial business basis. It is a well-known fact that many minor leagues will not attempt to play unless the war has ended, of course, the minor leagues are a valuable unit in baseball organization. But more concern is felt for the majors just at this time, and major league conditions will be the first thing considered by the "big boys." Once this important problem has been settled, then every ounce of energy will be extended to the minor leagues. There was a prevailing tendency on the part of all leagues not only to cut salaries, but in the majority of instances, to reduce player limits as well. More attention was paid to the forming of schedules than ever before. Efforts were made to reduce the mileage as much as possible, and in a great measure the officials succeeded. But a year proved they had not gone far enough. The winter of stern opposition may have put it up, it is probable, the player limits, 25 in the American league and in the National, will be reduced. The owners of these two circuits are seriously considering adopting a uniform limit of 20 players. Expenses in the two circuits are being treated to a severe boiling down process as regard players' salaries. It is also considered likely that the season may be started later, some say about the first of May.

ALBERTA AT PLAY

Rugby Games Are Postponed

Interscholastic rugby has been laid on the shelf until Old Sol smiles. The interscholastic rugby chairman, Prof. Reebore, is alive to the situation and will take advantage of the slight improvement in the weather to finish off the schedule. Arnold Clark has had his Crescents practicing in the horse show building and is rising early each day to look for a checkmate so that the North Hill students can get down to regular work again. Many rugby fans who have just lately returned to Calgary are surprised to learn that the snap-back amendments are used by the students in their games and practically all are enthusiastic in their endorsement of this progressive measure. The local interscholastic body, the snap-back, has certainly provided a much cleaner and faster style than the old rules.

ROCHONS DEFEAT ROYAL BOWLERS

In a ten-pin league game at the Exchange alleys last night the Royals were severely mauled by Rochon's aggregation. The score was as follows:

Royals		Rochons	
Brown	187	202	548
Bruce	192	183	180
MacIntyre	196	165	345
Ward	124	133	124
Kennedy	171	143	128
Totals	771	711	784

BRITTON SUSPENDED

Fighter Gets Six Months' Leave From Wisconsin

Milwaukee, Wis., Oct. 29.—The Wisconsin boxing commission today suspended Dan Morgan and his string of boxers, including Jack Britton, from engaging in any contest in Wisconsin for a period of six months because of Britton's failure to post a forfeit in connection with a bout between Britton and Kid Billings at Superior on October 28. The commission set November 12 for a hearing covering the recent bout in Milwaukee between Fred Fulton and Bob Devere, heavyweights. Devere was apparently stopped by Fulton in the fifth round, but some members of the commission are of the opinion that Devere "laid down."

DANISH GOV'T WILL RATION CIGARS, USING CARD SYSTEM

300,000 Head of Hogs Will Be Slaughtered and Reserved for Population of the Towns

Copenhagen, Oct. 29.—The Danish government food council, after considering the growing difficulties of supplying the home population with an adequate ration of fats, has rejected the proposal prohibition upon the export of swine and, instead, 300,000 swine will be slaughtered and reserved for the population of the towns. Farmers will be permitted to kill swine for their own use and the balance will be available for export. It is stated that both Germany and England have expressed themselves as satisfied with this arrangement.

Butter Cards Used

Butter cards allowing a weekly ration of a half-pound at half-a-dollar a pound will be introduced. The government will assume the financial burden of nearly 50,000,000 crowns involved and will reserve enough butter from export to provide this ration. Milk and cream cards are also proposed.

New Zealand Reverses Conscription Policy.

Wellington, N.Z., Oct. 29 (via Reuter's Ottawa Agency).—Telegraphing from British headquarters in France, Reuter's correspondent says: "The story of how the Canadians captured the important strategic point on Passchendaele ridge adds another chapter to the Canadians' great records. Their objective was a little moss-covered spur curving around U-shaped from the main ridge. Its capture was the principal achievement in a day of heroic struggling against the overpowering elements. The Canadians attacked from two directions, their right pressing along the main ridge and the left working around toward the Bellevue spur. These positions lay in a broad gully which heavy rains had made impassable, preventing the attackers from attacking frontally. Progress was slow but the whole face of the spur was thick with blockhouses spitting forth death salvos. Prisoners taken were unanimous in the belief that the defenses were regarded as the strongest organization of resistance on this day of heroic struggling against the overpowering elements. The Canadians attacked from two directions, their right pressing along the main ridge and the left working around toward the Bellevue spur. These positions lay in a broad gully which heavy rains had made impassable, preventing the attackers from attacking frontally. Progress was slow but the whole face of the spur was thick with blockhouses spitting forth death salvos. Prisoners taken were unanimous in the belief that the defenses were regarded as the strongest organization of resistance on this day of heroic struggling against the overpowering elements. MR. IRVINE'S REASONS

In his address to a private meet-
ing of the executive of the West Can-
adian Liberal Association, John A.
Irvine, the opposition candidate, de-
fended his action in declining to sup-
port the union government, by giving
three reasons.

The first was that Sir Clifford Sifton
and the big monied interests in
Canada had largely organized and put
through the union government, and
were attempting to get control of
Canada in the guise of patriotism.

This is a very important statement
from one who has the responsibility
of being a candidate for one of the
biggest cities in Western Canada.
This is a very serious condition of
affairs, if true, and the people should
be fully informed of the fact. The Al-
bertan has enough confidence in Mr.
Irvine to believe that he is not re-
peating empty gossip, but that he has
some real information which he be-
lieves justifies him in making such a
charge.

Because of the importance of this
serious charge, The Albertan hereby
invites Mr. Irvine to place before the
people in the columns of this paper
the facts which he has in his posses-
sion, which leads him to such a con-
clusion. It will not limit him to space,
because if these things are true, the
people of the province want to know
about it, and should know about it.
We shall give Mr. Irvine any reason-
able time to prepare his information,
but all will be much disappointed if
he does not avail himself of the op-
portunity.

Mr. Irvine also says that he is
opposed to union government because
he does not like the way that the
union government is selecting its can-
didates. This, too, is a matter which
might be explained. If Mr. Irvine has
been improperly approached to be-
come a union government candidate,
ask says some candidates have been
improperly approached, it is his duty
to the riding to expose the plot.

Mr. Irvine further says he is op-
posed to union government because
he does not believe in arousing race
hatred. One race in Canada, the
smaller race, which, according
to the leader of the opposition, has
killed in its duty to its country in
this trying time, is opposed to con-
scription. The predominant race has
done nobly, wonderfully. Mr. Irvine's
idea of keeping peace between the
races apparently is to join with the
smaller race in opposing the reason-
able policy of conscription favored by
the dominant race. That is not a
reasonable position to take. We be-
lieve that Mr. Irvine in this respect
is wrong.

The fourth reason given is that Mr.
Irvine does not want to join in sup-
porting a government made up partly
of Conservatives. That is the main
point. Mr. Irvine, even at this time
of terrible crisis, believes in standing
by his party, opposing conscription,
uniting with people who believe that
Canada should draw out from the
war, because he does not like the
Conservative party.

The Albertan awaits with some
considerable interest, as the people
of the province await with interest,
Mr. Irvine's facts, justifying him in
making his serious charges.

The only politics that we can af-
ford at the present time is Canada,
is the very truthful remark of Ralph
Connor.

The Albertan is opposed to any
attempt to extend the term of either
mayor or commissioner without a
vote of the people.

October, with its premature winter,
has been a disagreeable member, soon
to depart. It has not interfered with
business in these parts.

SELECTING CANDIDATES

There is much resentment through-
out Alberta at the report that the
union government is giving orders
that a Conservative shall run in this
place and a Liberal in some other
place. That is not democratic, and
it is not the way that we have been
accustomed to do things. And as a
matter of fact, it is not the right way
to do things, and it is not what is
being done.

It has been explained that the sol-
diers' voting act will make it im-
possible or very difficult to have two
unionist candidates run in one riding.
According to the act, the premier
must determine which is the govern-
ment supporter. That would be an
autocratic and difficult thing to do.

On the other hand, it is thought
advisable to have as nearly as possible
a fairly equal division of candidates
from the old parties.

The members of the union govern-
ment have given their advice in the
matter. They have not set down any
definite rule in the matter. They do
not say that the unionists of this city
or this riding shall have this man or
that man, or of this party or of that
party. They have made certain sug-
gestions, which, without doubt, for
the most part will be followed.

There is nothing autocratic about
it. The nomination is still in the
hands of the people.

And here let it be said that all
this and many other difficulties would
be solved if we had a proper system
of voting at elections. If we had the
proportional system, everything would
be satisfactory, and we could have as
many candidates as we pleased with-
out making it impossible to elect the
man whom the people wanted.

However, as we do not have prop-
ortional representation, the supporters
of the union cause will proceed to
select the candidates they desire,
merely taking greater care in the
candidate they select.

Before there is any extension of the
term of office of the mayor and com-
missioner, the recall must be made
somewhat more workable.

And while this question is under
consideration, does Mr. J. A. Irvine's
connection with the insurance busi-
ness link him up with the Big Inter-
ests in the Dominion?

The Italian collapse, or partial col-
lapse, means that neither the United
States nor any other country can
afford any unnecessary delay in get-
ting troops to the front.

The next thing on the program is
the Victory loan. You can kill two
birds with one chunk of gold or its
equivalent. You can make a good
investment, and at the same time help
the country along.

One of the serious features of the
collapse in Italy is that it has occur-
red at the very time that Giolitti,
former dictator in the Italian parlia-
ment, and at one time pro-German,
has regained control.

The world is now looking for the
United States to do its part in the
great world struggle. Its adoption
of the policy of conscription has
greatly increased its chances of be-
coming a factor when such is needed.

Level-headed George Lane looked
at the union government from all
sides and angles. He is a business
man, who is interested in developing
the resources of the country. He
took his time, and he decided to sup-
port union government.

And now the report is that R. B.
Bennett will not run in Calgary or
any other place, after all, after all.
He is the changeable young person,
and the worst of it is, keeping John
A. Irvine in the utmost suspense re-
specting his method of campaign
in West Calgary.

There is nothing mandatory in the
suggestion of the Alberta members of
the government about the candidature
in the different ridings. A nomina-
tion carried out in this fashion at this
time is much more democratic than
the selection of candidates three years
ago before any of the burning ques-
tions now under consideration were
even thought of.

KITCHENER

By
R. J. C. STEAD

Gilbert Parker gave us
prairie scenes in his tales of
Pierre; Mrs. McClung and
Ralph Connor have added to
the literature of the prairies,
and Robert W. Service has
been the Kipling of the Yukon.
In their various spheres these
authors have made valuable
additions to Canadian litera-
ture, but it remained for Robert
J. C. Stead, a quiet Calgary
author, to write books and
poems that make Western
readers involuntarily exclaim,
"This is the living truth, and a
story of mine own people."

Many of the poems included
in this, Mr. Stead's new vol-
ume, have appeared in the lead-
ing newspapers in Canada and
England. The title poem,
"Kitchener," is already well-
known wherever the English
language is spoken. It was
eulogized by the London Spec-
tator, was reprinted by English
admirers for distribution in the
army hospitals, and subse-
quently found its way around
the world in the press of east
and west. It is probably the
only poem by a Canadian
which was ever included in its
entirety in a telegraphic news
service.

When a 17-year-old girl marries a
70-year-old man it is our belief, that she
ought to be in a hospital, by drawing in
black all the time.

A lot of men don't realize that there
is a thing as the high cost of
living until whiskey jumped from a dime
to 15 cents per quart.

Maybe the man of few words would
be more popular if he didn't repeat them
so often.

Any old time you feel like an also-ran
when you face the barrier you are going
to run like one.

When you see a fellow trying to get
drunk, it is hard to tell whether the girl
threw him over or married him.

There are a whole lot of rates through
which you may achieve success. But
this one is as good as any. Keep your
feet warm and keep your head cool.

Some men have such poor memories
that if they could live their lives over
the chances are that they would make
the same mistakes.

It is hard to make a prince believe
that some day she will be so old that
she will want to lie about her age. But
she will.

It doesn't help a narrow-minded man
any to wear padded shoulders in his coat.
It doesn't pay to knock a man. It is
a mighty poor man who hasn't enough
friends to make it dangerous to abuse
him without a comeback.

ORIGINAL FIRSTS
SHOULD BE GRANTED
LEAVE TO CANADA

Late C.P. Representative to
Allied Front Urges Peti-
tion; Believes War Will
Be Won on West Front

Toronto, Oct. 29.—Stewart Lyon,
late representative of the Canadian
Press, Ltd., in France and Flanders,
returned to this city this morning.

"The people of Canada," he said,
"ought very seriously to urge on the
military authorities that leave to
Canada should be granted to the 'original
firsts.' It is the thing that the Cana-
dian corps in France wants more than
anything else.

"The number of the 'original firsts'
as the men of the first division are
called, is pitifully small. The highest
number in any battalion is 110." That
means that of the 1,000 men who origi-
nally formed the battalion, just one-
tenth remains in the field. In some
battalions the number of 'original
firsts' is less than 50."

"There is no military reason," said
Mr. Lyon, "why they should not come
back."

As to conscription Mr. Lyon said that
the feeling among the men at the front
was overwhelmingly in favor of that
measure. There were some, not many,
who were opposed to conscription.

Where a family had made a sacrifice,
where two or three boys were at the
front and the father had left Benjamin at
home, there was a feeling that they did
not want to see conscription.

Not Won in East
Commenting upon the general aspect
of the war, Mr. Lyon said that it would
be the shrewdest folly to try and mini-
mize the Italian and Russian disas-
ters. "But the war will not be won in
the east," he averred. "It will be won
in Flanders and northern France. We
may feel confident during this trying
period that ultimately the three great
democracies—the British peoples,
France and the United States—will
make an end of the whole autocratic
system of government. It must go if
civilization is to remain."

Referring to the Canadian conting-
ents, Mr. Lyon said:
"The Canadians have proved them-
selves really excellent shock troops.
The fighting around Lens, at Vimy
Ridge, Hill 70 and other places adja-
cent there involved considerable initia-
tive on the part of the troops. This
is particularly applicable to the sub-
urbs of Lens. Among the ruined tides
there it is quite easy for men to hide
themselves until led forward by their
commanders. It can be said with a
great deal of confidence that all the
Canadian troops needed was restraining
rather than leading when a battle was
on.

The experience of the arms of the
men at home 'out on their own'
was also invaluable when it came to
fighting in the cellars, often in the
dark, or crawling from shell hole to
shell hole to stop the Boche. To this
more frequent use of initiative is due
very largely the reputation the Cana-
dian troops, British-born and native-
born, have acquired in the various as-
saults launched this season. In the
early part of the war they showed up
their tenacity in holding positions in
the Somme that they were equally val-
uable.

Morale Splendid
"The morale of the men is splendid.
That the utmost confidence is reposed
in them by the allied leaders is evi-
denced by the fact that they were uti-
lized as shock troops around Ypres. The
relationship between the Canadian and
British troops is cordial. Closer con-
tact between the two has led to a bet-
ter comprehension and appreciation of
each other's abilities. The British
troops are ardently admired by the men
of the Dominion as courageous and un-

will not be a candidate in the coming
election.

TURKS WANT KAISER DEFEATED

A Majority of Common People Inclined
Toward United States
Washington, Oct. 29.—Most common
people of Turkey hope for the defeat
of Germany, and were disappointed at the
temporary failure of the British army
in the Euphrates district, Dr. Otis A.
Glassbrook, American consul at Jerusa-
lem, said today after a call on President
Wilson.

"The Turks know they are beaten, par-
ticularly since the entrance of the United
States into the war," he said. "But I see
no indication that Turkey is seeking a
separate peace. The people of Turkey
are very favorably inclined toward the
United States."

Mr. Cross' thoughtfulness in sending his able lieutenant, M. Lucien Boudreau, to comfort and advise the men in Calgary, shows the remarkable tact of the leader of the anti-conscriptionist opposition in Alberta.

The Macleod convention is the sample of many other conventions which will be held throughout the province during the next few weeks. Many politicians are opposing union government, but the people themselves are sympathetic with the principle of union, and have confidence in the men in the union government.

ASHDOWN'S BEAUTY CHATS

The Dreamy Eyes

Every girl fancies she's the heroine of an as-yet-unwritten novel. Just as every girl fancies there's a strong resemblance between herself and the heroine of any of her favorite books. And heroines are always beautiful—and invariably dreamy-eyed. That may in some manner account for the large demand for wide and dreamy eyes on the part of the feminine population—and the lengths to which most any girl is willing to go to acquire them.

But, alas, few things are harder to get by artificial means. One's complexion is a matter of cleanliness and a well kept digestion; one's figure is the result of health and exercise; a good dentist can do wonders for a bad mouth, and if the nose is hopeless a neoplastic surgeon can even fix that—but the eyes are not so easily changed.

The most one can do is to cultivate the eyelashes and brows, thus forming an effective frame that will emphasize the color and contour of the eye. Certain glances tend to give a dreamy effect; the slightly-upward look is almost always charming; though if it is even slightly exaggerated it is apt to give a "dying cat" expression instead. The far-away look is always the dreamy one.

But the beauty of the eye lies almost entirely in its expression. The woman with a clean soul and an intelligent mind is usually the possessor of pretty eyes.

FIELD COMFORTS OF \$10,000 SENT CALGARY MEN IN TRENCHES

Supplies Valued at That Figure Sent Overseas in Last Five Months

With the raising of about \$7,000 to its credit, and a balance of some \$300 on hand out of that amount, the Calgary branch of the Canadian War Contingent association is asking for most assistance for its tag day on Saturday. The chief work of the association is the supplying of field comforts for Calgary and other Alberta men in the trenches. Those who saw the shipment of 215 boxes, a total weight of 21-2 tons, of Christmas supplies, which left last week for overseas will have some idea of what the C.W.C.A. is doing. Since June of the present year the branch has raised the approximate sum of \$7,000, and its expenditures have been for field comforts. The sum of \$2,000, to which \$100 has recently been added, was sent to Toronto for a shipment of socks direct overseas. The remainder of the \$3,800 was spent in Calgary, and as purchases were made from local firms, wholesale prices, it is estimated that supplies sent overseas total well in value for the \$10,000 mark. The socks sent for the Christmas supplies numbered 5,000 pairs of splendid quality, and were filled with valises, pipes, candy, gum, etc. Altogether 7,200 pairs of socks have been sent Calgary men, and were proportioned as follows: 10th battalion, 1,200 pairs; 18th, 1,200; Princess Patricia's Light Infantry, 1,200 pairs; 56th battalion, 1,800 pairs; 21st battalion, 1,600.

The demand for woolen comforts increases daily during this season, and the great necessity of the men must be the driving-force in collecting the money.

"There are any number of women in the city who could help us for one day a month if they would only make it a point to go," said Mrs. H. H. Riley, convener of the series of tag days, when asking a request for help to be published. "The cause is one that should not need any special request for help," continue the convener. "Everyone must realize what our men are doing overseas, and everyone should be as willing to make a small sacrifice as they are in making the biggest they know how."

ETHEL LEGINSKA WINS HIGH PRAISE IN NEW YORK AND BOSTON

Wonderful Pianist Plays Here Thursday Night at Al Azhar Temple

That the Leginska piano recital will attract a very large audience is evidenced by the way in which the seats are being sold rapidly at Heintzman & Company. Season ticket holders are urged by the Calgary Musical Agency to exchange their tickets before Wednesday night, as the choicest seats are being sold very rapidly.

Ethel Leginska stands at the top of all women pianists, and has been called the "Woman Paderewski." Music lovers on the European and American continents have paid tribute to her great art and she has met with unparalleled success for so young an artist, being only 35 years old. The agency predicts that Calgary music lovers will have one of the rarest treats that has ever been brought to this city and will appreciate their tickets before Wednesday night, as the choicest seats are being sold very rapidly.

A few press comments from eastern cities are as follows:

New York Tribune: One of the most remarkable woman pianists now before the public.

Phillip Hale in the Boston Herald: As a player of Chopin she stands close to Mr. Vladimir de Pachmann. We doubt whether he could rival her in the performance of the mysterious Prelude in A minor. We know of no pianist that can be classed with her. She is singularly original as a pianist and interpreter.

The parish hall of St. Michael's church, Crescent Heights, was thronged with a gay and merry crowd last evening, when the Girls' Auxiliary of the church gave a Halloween party. After the opening remarks, when several spots were appeared in the red light, all sorts of fantastic and novel costumes made their debut and created a gay amount of excitement. Games and dancing, with supper of doughnuts and pumpkin pie, provided the program of the evening and one of the most attractive spots covered the witch's corner, where Mrs. Dean told marvelous futures for the guests. The prizes were presented by Mrs. Kemp to the following winners: Miss Edith Hollingshead and Master Jimmie Inge for best Halloween costumes and to Miss Edith Cross and Mr. Ralph Young for comic costumes. The committee in charge of the affair to whom the credit of the evening's success was due, consisted of the president of the auxiliary, Miss P. Young, Miss Dorothy and Miss Rita Inge, Miss Margaret Gideon, Miss Ada Young, Miss Violet Hollingshead and Miss Dorothy Francis.

New Skin Peeler In Great Demand

Since the discovery that mercurized wax possesses remarkable absorbent powers when applied to the skin, the demand for a cosmetic remover has been tremendous. Druggists in every city are now offering a variety of peeling devices, but the most popular is the "New Skin Peeler." It is a simple, safe, and effective device, which removes the outer layer of the skin, leaving the skin smooth, soft, and free from blemishes. It is especially adapted for use on the face, neck, and hands. The wax is applied to the skin, and then the peeler is used to remove the wax and the outer layer of the skin. The result is a smooth, soft, and clear complexion. The wax is applied to the skin, and then the peeler is used to remove the wax and the outer layer of the skin. Mr. Carl A. Scholl is in the city on his return to the University of Alberta at Edmonton, after spending the summer in Winnipeg.

ANNUAL MEETING OF PARKHILL RATEPAYERS' ASS'N

Consideration of the matter of a children's playground was left over until the evening of the annual meeting of the Parkhill Ratepayers' association last evening. The meeting was well attended and the executive was instructed to propose a set of by-laws and submit these to the next meeting of the association.

Officers elected for the ensuing year were as follows: President, Bert Orman; vice-president, J. R. Harris; secretary, Thomas Coleman; executive, Joseph Whaley, L. Fowler, Mrs. Brookhurst, A. Hollingshead. Representative to the Vacant Lots Garden club is Thomas Watson, and to the Federation of Ratepayers' associations, Mrs. E. Orman, Robinson, Pearson, Harris and Fowler. Meetings will be held regularly on the second and fourth Mondays of the month.

GOODS VERY MUCH CHEAPER HERE THAN IN THE EAST

Eastern Bridge Crew Buy Supplies Locally; Prohibition Helps Out Labor Proposition

On Saturday a crew of the Hamilton Bridge Company from Hamilton, Ont., arrived in the city en route to the glacier country where they will tear down and haul away steel bridges on the old C.P.R. right-of-way.

After securing the winter's supplies in Calgary the superintendent, Mr. Clayton, moved his crew west to the field of operations on Sunday.

Mr. Clayton when in Calgary made the statement that goods of all kinds can be purchased much cheaper in Calgary than in Hamilton, and all his crew outfitting while in the city. As an instance he stated that gloves costing \$2.50 a pair in Hamilton were purchased for \$1.50 in Calgary.

The superintendent also commented on the change that prohibition has produced in Calgary. When passing through Calgary with a crew some years ago he spent 48 hours and \$200 getting his crew rounded up from a two-days' lay over. On this occasion the crew was kept in the train waiting to pull out, and kicking because they had to spend a day in the Calgary hotels.

COUNCIL TAKES STAND ON WEIGHT OF BREAD; BAKERS DISSIDENTING

Agrees to Withhold Action on Previous Cases, But Will Proceed With Future Violations

GOV.-GEN.'S VISIT City Council Had Important But Very Mild and Gentle Meeting Last Night

While the city solicitor succeeded in having the injunction forbidding the bakers from prosecuting the bakers guilty of a breach of the bread bylaw quashed yesterday afternoon, the council refused to stay beaten. Last night they appeared before the council, represented by E. Varley, and asked that they be allowed to continue to make and sell 20-ounce loaves of bread until such time as the food controller should be satisfied that the bakers were complying with the provisions of the bylaw. The council, however, refused to do so, and the matter will be held over until the next meeting.

be spent. Ald. Arnold wished to limit the expenditure to \$250. Ald. Adhead thought that for the present government are necessary evils, and supposed they must have a respectful reception. But at the same time he did not favor the expenditure of much money for entertainment, and would not do so while we cannot afford to spend money in welcoming the returned soldiers.

Mayor Costello did not think the government would expect much of a fuss made, but still thought he should be received with becoming dignity. Ald. Arnold would like to see a governor-general in Canada for many years to come, but did not want to see much money spent. The matter was referred to the reception committee with power to act.

The Farmers' Convention. Swallow, of stealing four pigs from a neighbor, also with stealing a sow from the same neighbor.

ONLY A TEMPORARY DEFEAT, OPINION OF ITALIAN CONSUL

May Result in Temporary Conquest of Undine, But Italians Will Yet Sweep on to Victory in Austria

Anthony Milano, the Italian consul in Calgary, told the Albertan yesterday that while the main cause of the Italian defeat was the outflanking by the Austrians and Germans, he believed that the Socialist propaganda was a contributing cause. He explained that the crop have been below the normal this year. Italy usually imports much of her foodstuff anyway and when the difficulties of importation was added the crop failed headway in Turin and several other places, but the dissatisfaction is not general.

The General Hospital board would not consent to place a mortgage on its property for the purpose of erecting a nurses' home on property belonging to the city.

BRITISH NAVY IS STEADY ANCHOR OF ALLIED CAUSE

(Continued from page one)

Despite hidden foes and black piracy, it had preserved the highway of the seas for Britain and her allies. Since the war began the navy has transported 12,000,000 men, 10,000,000 tons of explosives and supplies, 50,000,000 tons of coal and oil fuel for the fleet, armies and needs of the allies. Out of these 13,000,000 men only 3,000 had been lost, of which only 2,700 through the action of the enemy. All that was apparent from the prodigious quantity of food and other material, totaling a hundred and thirty million tons, were the British ships, reported in British ships. This indeed had been a triumph for the navy.

LARGE STORES WILL HAVE NIGHT SHIFT OR CLOSE SATURDAYS

Factory Inspector Explains Working of New Act to Retail Clerks' Association Employe Cannot Work More Than Eight Hours

Hours of Labor No Employe May Start Day Shift Before 7 a.m. and Employes Cannot Work More Than 8 Hours at Night

Mrs. Margaret Lewis, factory inspector for southern Alberta, was the chief speaker last night at the bi-weekly meeting of the Calgary Retail Clerks' association, and in explaining sections of the factory act for the protection of persons employed in factories, shops and office buildings, brought her audience to a realization of just what the enforcement of the act, which begins next Monday, means to the public of Calgary.

It will affect the public chiefly on Saturday nights, as the act is drastic and forbids the employment after 6 p.m. in view of a scarcity of labor, closing down will be imperative, as the act admits of no exception in its application.

Mrs. Lewis explained that "day shift" refers to the hours between 7 a.m. and 5 p.m. and "night shift" refers to any other hours of the day where any part of being at a wage less than \$1.50 per shift, it shall be deemed a night shift.

Effective at Once. Although the act was passed last April it has never been enforced until now, and on Monday Mrs. Lewis will commence her campaign in the city to see that the provisions are enforced.

Another clause of the act that Mrs. Lewis pointed out was that in any shop in which women are employed, and keep therein a sufficient and suitable chair or seat for the use of every such woman art employe, and shall permit her to use such chair or seat when not necessarily engaged in the work or duty for which she is employed, and the employer shall in no way intimidate or in any way prevent any female employe from using such seat.

Mrs. Lewis called attention to the fact that no person shall be employed by any employer in any factory, shop, or office of being at a wage less than \$1.50 per shift, except in the case of an apprentice, who may be paid a wage of not less than \$1 per shift. The minimum wage being \$2, except in the case of an apprentice, the minimum wage in that case being \$2.

The strict ruling in the matter of hours of labor was explained as follows: The hours of labor for any person in any one working day shift shall not exceed eight hours, and shall not be earlier than 7 o'clock in the afternoon, and the hours of labor for any person working night shift shall not exceed eight hours, and shall not be earlier than 6 o'clock in the afternoon, and shall not be later than 6 o'clock in the morning.

Mrs. Lewis said that an employe cannot work one shift in one store and go to another store and work another. Such employe cannot work more than one shift a day on any account.

Employers must keep a record or register of all employes, and the hours lost through sickness, and in case of too many hours being lost in one place, it will be assumed that there is something wrong in the environment and an investigation will be made by the inspector.

Celestial Labor. Laundrymen will not be allowed to work on Saturdays.

WHAT THE COUNCIL DID LAST NIGHT

Voted to give the governor-general a respectful, but inexpensive reception on the occasion of his visit to Calgary, December 1 and 2.

Decided to increase the pay of the electric house employes. Repairmen get an increase of 2-3 cents per hour. Trimmers now receiving from 22-24 to 27-29 cents per hour to receive 275 per month. Assemblers (three) from 32 cents per hour to 430 per month, and engineers an increase of 48 per month. In other departments: Teamsters, stablemen and truck drivers get an increase of \$2.50 per month. Operators on mechanical billing machines get 45 per month increase.

Passed a resolution guaranteeing to Bassano that before any other money bylaw be submitted, the city will submit to the ratepayers a bylaw for a sewage disposal plant.

Decided not to push prosecutions against bakers for past offenses before the next council meeting, but forbid them to sell 20-ounce bread in the meanwhile.

Decided to seek a charter amendment to permit the city to collect rents on improved property in arrears for taxes.

Laid over gasfitters and plumbers' bylaw until next meeting.

Extended the period for 5 per cent discount for taxes until November 20.

Voted to spend up to \$500 for the entertainment of the U.F.A. convention.

Instructed the police to enforce weights and measure inspection.

Awarded the contract for pea-jackets and trousers for firemen to MacLeod Brothers.

Sent a telegram of protest to the Dominion government against the damming of the St. Lawrence river by private enterprise.

Decided to ask a city coal dealer, who is making 65 cents per ton profit on his coal, to show reason why he should not be reported to the fuel controller.

Turned down the suggestion of Ald. Arnold that the license tags for dogs, horses and newboys be made of wood, instead of brass.

EXHIBIT AND SALE OF DAIRY CATTLE, SHEEP AND SWINE

Event Opened Yesterday at Victoria Park With Large List of Classy Exhibits; Judging Completed Last Night and Sales Start Today

BREEDERS' MEETING

Alberta Horse Breeders Association Held a Meeting Yesterday; Arranged to Allow Sale of Horses at Annual Horse Show

The big sale of dairy cattle, sheep and swine of the Alberta Cattle Breeders' Association and the Alberta Department of Agriculture, opened yesterday afternoon in the horse show building at Victoria park.

At two o'clock the Alberta Horse Breeders' association held a meeting, at which it was decided to permit the sale of horses to be held on the exhibition grounds during the winter fair by Alberta horse breeders, providing the stock is considered reasonably fair.

All stock of breeding age will have to be qualified by the seller. The executive committee, and Messrs. E. A. Adams and G. E. Brown, of the horse show committee, will be the judges.

Mr. D. Adams was appointed to represent the Alberta Horse Breeders' association on the stallion enrolment board.

The present were: Messrs. D. Thomson, A. L. Dollar, N. Christie, W. Durno, C. F. Drake, C. R. de la Verge, G. E. Goddard, Geo. Spence, G. E. Brown, W. E. Moodie, W. H. Riddie, W. B. Thorn, A. McKillop, A. McIntosh, Prof. W. L. Campbell and the secretary, E. L. Richardson.

RIGID ECONOMY IN USE OF METALS IS STRONGLY URGED

Demand in United States for All Kinds of Metal at the Present Time Abnormal

SHORTAGE IN CANADA

Scarcity of Material Required for War Materials Is Not Impracticable

Ottawa, Oct. 29.—The situation in regard to the iron steel supplies remains serious. Rigid economy in every scrap of metal is strongly urged.

Arrangements have been made to secure the articles he needs in the United States. It is pointed out here, however, that demand in the United States is abnormal.

A committee of iron and steel men is now investigating the iron and steel situation in Canada.

Washington, Oct. 29.—Important developments are impending in the great war, Secretary of War Baker indicates in his official review of the week's operations on all fronts, which concludes with the first statement that certain units of the American forces in France have taken their places on the battlefield to complete their training.

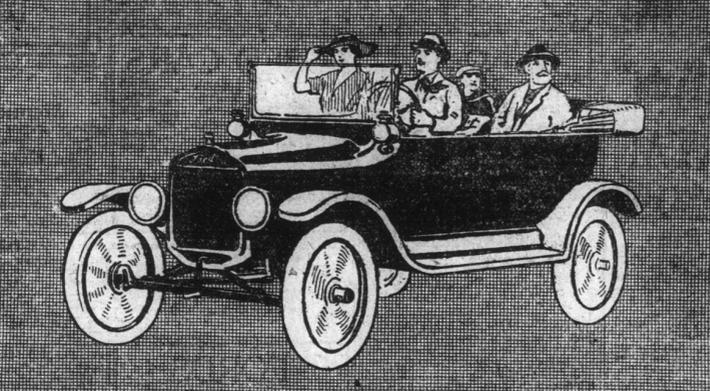

It is the wave of activity during the week on many fronts that has attracted the secretary's attention. Significant operations are in progress, he says, both in the west and east.

Italy is passing through a difficult moment, Mr. Baker says. The Austro-German forces, which have been driven relentlessly into their lines by the British and French.

Rome, Oct. 29.—The Italian war office has issued an amended version of the official statement on operations issued early yesterday afternoon, the first sentence of the announcement reads: "The violence of the attack and the failure to resist on a part of some units forming our second army allowed the Austro-German forces to break into our left wing on the Julian front."

DISLOYAL PREACHER SOUNDLY WHIPPED

Taken Into the Brush and Thrashed by Indignant Loyalists

Cincinnati, O., Oct. 29.—Herbert S. Bigelow, head of the People's church of this city, one of the leaders of the People's Council, Socialists, and Pacifist, was taken into a dense wood near Florence, Ky., last night and thrashed and whipped by men "who wore long robes and hoods, similar to those described as worn by the renegade Klu Klux Klan and who informed Bigelow "that in the name of the poor women and children of Belgium he ought to be whipped." They warned him afterward to keep away from Cincinnati.

ELIMINATE HARD WORDS

We Offer Remarkable Values in Winter Coats

Makers of women's ready-to-wear garments are inclined to conserve their wool materials, due to a great extent to a "shortening" of the market. A wire to our manufacturers (one of a group of four) brought us by special express 100 coats to sell at prices that practically represent the cost of the materials alone! There are—

Heavy Blanket Tweeds, Heavy Plaid Fabrics, Striped Velvets, French Cloths, Wool Whitneys—Each a distinct value—each a winter coat that most women would value far above the price! Some—

At \$14.50

Show a line of striped velvets, French cloths, smart tweeds in Donegal and Harris patterns. Full, smartly-fashioned coats with wide convertible cape collars, deep cuffs, all-round narrow belts. Colors include brown, blue, Oxford grey and fancy colored mixtures. Would sell at \$25.00.

At \$18.50

Here are fancy mixture tweeds, in green shades, with large plush collar and cuffs. They are all fashioned on the very newest lines, many having all-round belts, while others are in full, loose raglan styles. All have the large wrap collars. Values to \$32.50.

At \$24.50

In an assortment of all-wool Whitney cloths, in shades of brown, grey, Oxford grey, navy blue and black. These are beautiful coats on full loose lines, with narrow all-round belts, and wide cape collars, deep cuffs and fancy patch pockets; also a few velvet coatings, with wide cape collars of fur in shades of grey and blue. Would sell at \$36.00.

And Winter Suits

The difference between the coats above and these suits is that the latter constitute regular Hudson's Bay stock—and are not part of this special coat garment "buy."

To \$18.50

Is a line of Cheviot Serge Suits, in shades of navy blue, black and Russian green, smartly tailored and semi-fitting, with all-round belt and convertible military collar. Formerly selling to \$27.00.

To \$24.50

These suits of serge are absolutely guaranteed, the coat linings of "Skinner's" satin, which is guaranteed for two years' wear. Coats are also box pleated into yoke with narrow all-round belt, convertible collar, deep fancy pockets. Skirts are plainly tailored with patch pockets. Former values to \$35.00.

To \$29.50

Are 14 Tweed Suits, in Donegal patterns; many suitable for large figures. Skirts are plainly tailored. Formerly selling to \$50.00.
