SEVENTEENTH YEAR

A Former Torontonian in an Awful Tragedy.

PLANT KILLS HIS WIFE AND BABY

When Hard Pressed by Police He Takes His Own Life.

The Murderer is Edgar Plant, the Twenty-Two-Year Old Son of S. J. Plant, who Left this City Three Years Ago and Went to Clayton, Mass., with His Parents—Shot His Wife and Stabbed His Child to Death.

Great Barrington, Mass., May 4.—One of the most horrible tragedies that can be charged to the account of Berkshire County, when Edgar Plant, 22 years old, shot and killed his young wife, whom he was forced to marry a few weeks ago, stabbed his infant child, and then, three hours later, put a bullet through his own heart.

Clayton is a village near the town of New Marlboro, and young Plant was the son of S. J. Plant, superintendent of the Clayton White Brick and Terra Cotta Co.'s works, working for his father as a moulder. The plants came here from Toronto, Ont., about three years ago.

The murdered woman, whose maiden name was Sanford, came here with her parents about two years ago, and ever since that time she and young Plant have been on terms of intimacy. This intimacy culminated in the birth of a child on April 14, and on the following day, under pressure brought to bear by the girl's father, Plant was forced to marry her. The birth of the child was displeasing to Plant, and since that time he has shown his displeasure in his changed manner toward his wife. His parents were opposed to the match, and after the marriage they went to board with the Sanfords, where they remained two weeks. Then they removed to the house of Daniel Condon, where they have boarded ever since.

This morning, the girl's parents decided that the young couple and their baby could come back to live with them, and sent their domestic over to the Condons' house to inform them of the fact. Plant, his wife, baby, and the servant girl thereupon started for Sanford's house, taking a short cut through the woods. After going a short distance, Plant went back after the baby's nursing bottle, and after he had returned and the party had proceeded some distance further, the wife discovered that she had left her shawl behind, and the servant girl was sent back after it. It was while the latter was absent on this errand that the fiendish crime was committed, and no one will ever know the exact circumstances that led up to it.

When the servant returned she was horrified to find Mrs. Plant lying on the ground with three bullet shots in her back between the shoulder blades, while by her side lay the baby, which had been stabbed four times with a dirk.

After committing the deed, young Plant, revolver in hand, went to the factory and told his father what he had done, enquiring at the same time for Harry L. Yall, the bookkeeper, against whom he had some grudge. He was unable to find Yall, however, and then went to the bank of Irving, where he lay down, and ate some food that he had induced a boy to bring him.

Meantime news of the tragedy had spread and a crowd of excited townspeople attempted to capture the murderer, whose whereabouts had been quickly learned. With his revolver, however, he kept the crowd at bay. Great Barrington officers had been apprised of the murder, and Deputy Sheriffs Norton, Cropper and Douglas started for the scene with all possible haste.

Plant threatened to kill the first man who attempted to lay a hand on him, but the officers closed in on him, and, seeing that capture was inevitable, he fired a bullet into his left side, fell to the ground and rolled down the bank into the river. Deputy Sheriff Cropper, not knowing the nature of his wound, called to him to come out of the water, but Plant replied that he could not and disappeared beneath the surface. When the deputy sheriff took him out a moment later he was dead.

Medical Examiner Small viewed the remains of the murderer and his victims, and the latter were taken in charge by the dead woman's parents. Plant's mother is an invalid and all knowledge of her son's terrible crime has thus far been carefully kept from her. She was taken to Toronto this afternoon by her husband in order that the secret could be more closely guarded. Plant's remains were turned over to his nephew.

Reported Death of the Pope. London, May 4.—No news has been received here to support a story that reaches this city from the United States to the effect that the Pope is dead. The Standard in London to-morrow will publish a despatch from Rome stating that the Holy See today gave audience to the Archbishop of Cologne and the Bishop of Alghero.

ARE STORES TIMES AHEAD?

A London Writer Says Lord Salisbury is Keeping a Cool and Level Head and That He Needs

New York, May 4.—Lillian Ralph cables from London. Stormy scenes are preparing for Parliament. Politicians of all shades are piling up questions respecting recent developments in South Africa, and Mr. Chamberlain is going to have a warm time of it. The Colonial Minister can usually give as good as he gets. This time his action from the start has been so transparently honest and straightforward that he personally will come out of the ordeal unscathed, there is no doubt, though he may have to give the accused colonial politicians on the altar of public indignation.

Britishers are at the present moment very uneasy, very anxious, and even alarmed. The following extract from a to-day's Observer shows why the engagements in Egypt, the sudden death of the Shah of Persia, the complications in the Far East, Venezuela, and the growing ambitions of Russia and France, furnish sufficient material for reflection by the most patriotic orators or writers on the South African question.

Foreign affairs rarely have borne a more disquieting appearance than at the present time, and although the embroilment of England with the might of Russia, France and Germany as much as it did enchant our own imaginations, a wiser policy will be followed by the Government.

If France and Russia come to a mutual agreement respecting Persia and Egypt, which extremely likely, since their interests do not clash, and only a policy of bartering and compromise is necessary, the result would find itself on both continents in a serious predicament.

I venture to assert that this is what will happen, in which case Great Britain will probably decline to tamely submit to be ousted, and so lose her influence.

Another great trial of strength between European diplomats is coming, and I am by no means sure of the result. Lord Salisbury, at all events, seems to be keeping a cool and level head. He needs it.

TRAGEDY AT SOPERTON.

Alfred Thomas, 21, Deliberately Blows Out His Brains Because His Love Was Not Returned by Miss White.

Brookville, May 4.—An awful tragedy in real life was enacted at Soperton last night. Alfred Thomas, son of Henry Thomas, a well-to-do farmer, has been paying attention to Miss White, a girl of his own age, for some time past, but being teased by several in the neighborhood because of these attentions, she refused last night to allow him to escort her from the Soperton Methodist Church, upon which Thomas drew a large horse pistol and shot himself through the brain. He expired about an hour later. He was 21 years old.

THEY WANT S. H. BLAKE

Ontario Liberals Said to be Chasing After Him.

SIR OLIVER STILL HAS A STRING

On the Premiership of this Province.

He is Not Certain that, Even with His Personal Assistance, Mr. Laurier will Carry the Country—Many Liberals are Disappointed Because the Premier of Ontario Showed Himself to be so "Canary" in His Letter—How the Letter was Received at Montreal and at Ottawa.

The sensation created by Sir Oliver Mowat's decision to join Mr. Laurier, first announced in The Sunday Worker, has not yet subsided. Politicians everywhere are talking of the likely effect of this move on the part of the Liberals. It is generally conceded that Sir Oliver's record as a supporter of separate schools will ensure him at least a large proportion of the Catholic vote in Ontario, but this very strength may prove a weakness when he asks the suffrages of the great Protestant majority of the province.

There is an undertone of disappointment in the Liberal rejoicings over Sir Oliver's step, because that step proved so half-hearted as it did. The Reform party has been for weeks counting on the Premier's cutting loose altogether from provincial politics and resolving to "make a break" with Laurier. The "G.O.M.", however, is cautious as ever, and after mature deliberation he has decided to keep a good hold on the "bird in the hand" until his grasp on the uncertain fowl in the Ottawa bush is good and secure. Although he is willing to lead the Ontario Liberals in the pending campaign, he will not resign the Premiership until Hon. Mr. Laurier really has a portfolio to offer him. This fearfulness on Sir Oliver's part, it is felt, will greatly reduce the weight he will be able to otherwise carry with him in the contest.

What He Has His Eye On. It is pretty well understood that if the Liberals should win the elections, Sir Oliver will become Minister of Justice in the Reform Government. This is Mr. Laurier's suggestion, and in the event of success the present Attorney-General will accept the portfolio attached to that office, unless the latter should prove too frail to endure the onerous duties of the position.

They are After S. H. Blake Too.

But not satisfied with securing Ontario's Prime Minister, the Liberals are bent on obtaining another well-known Ontario man to help win the fight in Ontario. While the Conservatives are using two great names to conjure with, the Liberals think they can conjure a little, too; so, in opposition to the Tupper-Macdonald plan, they hope to enter a Mowat-Blake team.

Within the last day or two an influential deputation has waited upon Hon. S. H. Blake, praying him to stand in an Ontario constituency, which they will secure for him. It is understood that so influential a person as Hon. A. S. Hardy has used his influence with Mr. Blake, and that the latter is now considering the proposition. It is said that should Mr. Blake stand and be elected, Mr. Laurier will give him a seat in his Cabinet, perhaps without a portfolio. The reason of the party's anxiety to get Mr. Blake out is the same as that which led the latter to call for Hugh John Macdonald. Each reflects some of the glory of a distinguished relative.

Should Mr. Blake refuse to run, he may be taken into the Ontario Cabinet. In the event of Sir Oliver going to Ottawa.

Hangs on to the Substance.

Montreal, May 4.—(Special)—It goes without saying that Sir Oliver Mowat's promise to the Hon. Mr. Laurier to abandon the Ontario Premiership after the elections are won creates very little enthusiasm here in French Literary circles and they naturally contrast Sir Oliver's promise with Premier Tallon's courageous act in throwing up the leadership of his party to accept office, not after the elections, but before they are won. Leading Liberals declare that Sir Oliver is not doing a thing more for the party than at the previous Federal election, although, as before stated in The World, they never expected that so cautious a man as the little Premier would throw up the substance for the shadow.

Viewed in Ottawa.

Ottawa, May 4.—(Special)—It is generally conceded here that the "Canary" is typified in Sir Oliver Mowat's letter to Mr. Laurier. That letter is calculated to do the Liberals more harm than good owing to the incautiousness of its utterances. Sir Oliver has overreached himself and the more one examines the letter the clearer it seems that Clarke Wallace's epithet of "wobbler" will apply to the little Premier. Let us see the unproduced reader Sir Oliver's utterances on the school question or on the trade policy of the Liberals. But it is in the natural inference to be drawn from Sir Oliver's position that the greatest damage is likely to accrue to the Liberals. Sir Oliver is just as astute and as far-seeing a politician as is to be found in the country. Jim Sutherland, when he recently, put on a very bold front as regards the Liberal outlook, he told everybody that the Grigs were to win, but clearly his Ontario leader and fellow-county man, Sir Oliver, does not hold the same view. If the "Little Premier" really believed that the unproduced reader would undauntedly go into the fight manfully, as The Montreal Gazette puts it, Sir Oliver is only prepared to eat the cake if Mr. Laurier bakes it.

THE QUEBEC PREMIERSHIP.

Is There Anything in the Story That Lieutenant-Governor Chapleau is Anxious for a Coalition?

Montreal, May 4.—(Special)—Now that the crisis at Ottawa is past, it looks as if something of the kind would take place in Quebec. Ever since Premier Tallon gave up the seat of office, a good deal of uneasiness is felt as to the ex-leader's successor. Hon. Mr. Nantel's friend pretend that the Minister of Public Works has a ready-received on intimation from His Honor that the former will be called upon to form a government, but this is not all. It is said that the Governor will now assume something like a reality and that if Hon. Mr. Nantel is called he will eliminate certain gentlemen with so-called Castor leanings, and fill their places with leading Liberals. Such a move would no doubt be very distasteful to the great bulk of the Conservative party in the province and a great many people think the Governor would be better advised to let the matter rest until the Premier and his supporters.

SIR CHARLES' MEETINGS.

The Premier's Dates are Being Rapidly Filled—Will Speak in Toronto on Thursday, May 11.

Ottawa, May 4.—(Special)—The Premier informed your correspondent to-night that his engagements for the night would be made as speedily as possible. Up to the present his program is as follows: Winnipeg, Friday; Toronto, May 14; Montreal, May 18; Quebec, May 20.

Thence Sir Charles goes to Cape Breton, and after that he will address a few meetings in Nova Scotia and New Brunswick. The Premier will spend the balance of the time before June 23 in Ontario. He trusts that Mr. Macdonald will be able to address some meetings with him in Ontario.

IS MR. FLYNN THE MAN?

Remember That Mr. Tallon Recommends That Hon. L. J. Flynn be Called to the Quebec Premiership.

Quebec, May 4.—It is rumored here that Hon. L. O. Tallon has recommended Mr. Flynn for the Quebec Premiership. Mr. Flynn is the son of Hon. Mr. Chapleau, who accompanied his father-in-law, Col. Mackenzie Bowden, to the United States. Mr. Flynn was probably left there to-day for New York. He is expected to arrive in Montreal Friday, and it is believed he has been well since the death of Mrs. King, which occurred lately.

DISASTER AT CINCINNATI.

A FIVE-STORY BRICK BUILDING COLLAPSES.

And Many People are Now Being Taken from the Ruins—Some are Dead and Others Dying—The Ignition of a Gasoline Tank in the Basement Said to be the Cause of the Awful Wreck.

Cincinnati, May 4.—What may prove the most disastrous calamity of the year occurred in this city to-night, when a five-story brick building, named Drach's saloon, completely collapsed and fell, burying the unfortunate inmates beneath the ruins. It is impossible to say how many persons have been killed, but the number is high as high as 40 and others as low as 15. No accurate statement can be given at this time, but the debris shall be cleared away, which will certainly take a few days.

The explosion was situated on the east side of Walnut-street, just south of Fifth, the lower floor being occupied by Drach's saloon. The upper apartments were rented out to lodgers. No one knows what caused the collapse of the building. People for several blocks around where the disaster occurred were startled by a terrific explosion which was heard at 10 o'clock. A fire alarm was instantly turned in and in a few moments half the fire department were on the scene. The work of rescue was instantly begun.

BEAR-GARDEN SCENE

Lively Times in St. George's Hall Last Evening.

OPPOSITION TO MR. COATSWORTH

His Conduct Regarding the Remedial Bill Denounced.

Ex-Mayor E. F. Clarke is the Dark Horse—Proceedings at Ward Meetings—All Peaceful Except in the Second Ward—It Was Indeed a Boisterous Party—Fights Turned Out and Fought Called in—Description of the Fun—Some Bear Unpleasant Reminders of the Scrap.

There were four ward meetings of the Liberal-Conservative Association convened last evening for a purely business purpose—the election of delegates to the convention to be held for nominations of Parliamentary candidates. At three of the meetings—in Wards 4, 5 and 6—although great enthusiasm prevailed, the utmost order was maintained. Not so, however, in Ward 2. St. George's Hall was turned into a bear-garden, and instead of calm discussion there was hooting and jeering, hisses and groans, succeeded by a free fight, and the intervention of the police. It was, indeed, a disgraceful scene. Vainly the chairman sought to maintain order, and to rule the turbulent elements present at the meeting; but he was overpowered, and the late evening was brought very high by the late representative's conduct in regard to the Remedial Bill, and Mr. Coatsworth came in for a large share of invective last night. But this ebullition of opposition did not justify conduct which would have been a disgrace to a backward gathering, nor did it give an intimation of a straightforward, manly fight during the next few weeks. There was an absence of the serene, and resolute, and calm, and self-possessed attitude which the demands of the affairs of a great nation demands.

THE SECRET DIVULGED. Ex-Mayor Clarke is "the Dark Horse" the usual total of the business. The dark horse that the anti-Remedialists have secured is none other than ex-Mayor E. F. Clarke, as it is recognized he is about the only man who can unite the divided forces. Mr. Clarke is as popular in the east as in the west, and a great supporter of the National Policy and squarely against Remedial Legislation.

NO TWO WARD. Ailing by the chairman of No. 2 Ward Conservative Association, that only members of the association could be elected, in choice of delegates, and a refusal to allow the election of any new members, and the election en bloc of all the members on the books of the association as delegates, was the subject of a discussion which transpired at St. George's Hall last evening.

At 7 o'clock a crowd began to gather on the sidewalk outside the hall; at 10 minutes to 8 the doors were opened, and every seat was immediately filled, and standing room was soon at a premium. Mr. W. J. Hamby, as president of the ward association and convener of the meeting, took the chair. Among those present were: Emerson Coatsworth, Jr., Ald. W. P. H. Drayton, E. P. Roden, John Thompson, T. H. Whiteside, E. J. S. Viera, John Stewart, John Crowbridge, James Adamson, W. L. Ramsey, J. J. Cosgrove.

The one announced that they would at once proceed to the election of delegates, in which business only members could participate, and he called on all non-members to retire.

Objection to New Members. The objection of new members from several quarters was promptly ruled out of order, the chairman refusing to allow an appeal from his decision.

Then for an hour the proceedings were a scene of confusion and there was continuous uproar and wrangling. At 9:30 the chairman, during a temporary cessation of the disorder, read from the rules of the central association the clauses relating to conventions. He said that No. 1 Ward was entitled to 67 delegates, No. 2 Ward to 184, No. 3 Ward to 24, and the Young Conservatives to 18, making, with the four presidents and secretaries, a total of 201 delegates. There were, he said, just about as many members as there were delegates to be chosen, and it was proposed that every member should be elected a delegate.

The crisis of the evening was answered by cries equally of "No," but the motion was said to have been carried, and the chairman declared the meeting adjourned.

Then Came the Fun. An attempt to put the gas over the platform was resorted to, and for 20 minutes there was a continued scrap, and as often as the gas was put out it was reignited. An effort more than usually determined to extinguish the lights led to a free fight, in which 40 or 50 took part.

Two policemen endeavored in vain to preserve order, and a further detachment of police, with Inspector Breckenhead, arrived at 10 o'clock, and commenced to clear out the occupants of the hall one by one.

Obstructionists Not Vanquished. Immediately after the hall was cleared it was re-occupied by the obstructionists, led by Dr. Noble. John Hewitt was installed chairman. Associated with him on the platform were Dr. Noble, Ald. Thos. Davies, Dr. B. G. Thompson, Wm. Dobson, Mr. Wm. Eastwood, Wm. Lee, J. E. Leeson, E. P. Roden, ex-Mr. Chas. Foster and others, while the rear of the hall contained the erstwhile chairman and his followers.

In opening the meeting, Mr. John Hewitt repudiated the statement made earlier in the evening, and the president of the association was voicing the sentiments of the majority of the Conservatives of East Toronto.

Mr. Kane was called on to act as secretary. The bid declined; but later on took a place on the platform. Mr. Reed thereupon volunteered to act as secretary.

The Fifth Resolution. This was moved by Dr. Thompson, who made a vigorous speech. It was seconded

TO RACE AGAINST A TRAIN

The Contest to Take Place on June 5-Central on a Straightforward Track Near Poughkeepsie-The Distance is One Mile and the Athletes Must Beat of Seconds.

NEW YORK, May 4-One of the most extraordinary races on record is scheduled for the 5th of next month. On that date six athletic cyclists, headed by Dan Cabanne of St. Louis, all riding on one machine, called a "sextuplet," will endeavor to beat a "sextuplet" train of the New York Central Railroad, near Poughkeepsie, and here the test will be made.

It is necessary that the track should be five miles in length, as the full speed of the sextuplet cannot be taken two miles to come to a stop, so that the six riders may alight safely. The train, therefore, will be over the third or centre mile of the track. The start will be so timed that both train and cyclists will commence the racing a mile together, and then both will be sent along at the utmost speed.

Chauncey M. Depew is greatly interested in the coming race. "I doubt if the riders can beat our train," he said. "If they do, they will have to cover the mile in less than 47 seconds. Every facility will be afforded. The track will be laid, I understand, will be as smooth as a billiard table. It is easy to understand that at such a speed as they expect to make the smallest inequality might prove disastrous. The railway company will probably run a special train to the scene of the race, as it is anticipated that the affair will excite much interest among wheelmen, and there will probably be a large attendance of spectators.

THEY'RE COMING IN

Orders for the twenty dollar Men's Spring Suits that we are making to order for \$12.95 follow every day in nearly every case where we have mailed samples of material to out-of-town requests.

BUT THE QUICKEST ORDERS

are the orders that we get from men who call at the store—who see the surpassing variety of new spring patterns and effects—who have seen qualities elsewhere—and who all frankly admit that our offer is fully worth taking.

You select any pattern you wish from over a hundred different effects of the choicest and most fashionable Spring Tweeds in the house, and the style and quality is so distinctly and unmistakably good that you really feel that you are getting exactly what we offer—a twenty dollar Spring Suit made to order for \$12.95.

And Men's Natural Wool Underwear—guaranteed all wool—the softest, smoothest garments, specially suited for the season—never sold for less than \$1.25 per garment elsewhere—offered as a special at 89 cents the garment here. We also have other good grades, and at lower prices.

The true test of merit in cycle construction is in lasting qualities. All wheels run well at first, but it is those that improve rather than deteriorate by use and time that recommend themselves to riders.

Still Selling Drugs!

It seems that we haven't stopped selling Drugs and Medicines in spite of all that's been done to prevent us.

These are the prices that have caused all the trouble. Keep coming until we tell you to stop!

THRESHING OLD TOPICS. COUNCIL TALKS OF THE JOHNSON SUIT AND COSTS. All About the City's Responsibility—Presented Against the Reduction of Tax Collectors' Wages—To Investigate Collection of the Unemployed—Vandals in Toronto.

All the members of the council were present at the meeting yesterday except Ald. Beckett, who was excused on account of ill-health.

There was a lively discussion upon the following clause of the report of the Board of Control: "Moved by Ald. Preston, seconded by Ald. Hallam, that the City Treasurer be authorized to pay the costs of the suit against the City of Toronto, in the sum of \$2700 already expended by Mr. Johnston in carrying the suit so far."

Ald. Sheppard asked what the city's liability would be. It meant the taxed costs as between party and party to the suit. This \$2700 was to cover what might be regarded as the share of the \$2700 already expended by Mr. Johnston in carrying the suit so far.

MICHIE & CO. HIS BLOOD CALLS FOR VENGEANCE. But no incriminating evidence came out at the Martin inquest—The jury agreed the fatal spot.

No evidence to show who are the murderers of Joe Martin came out at the inquest conducted by Coroner Stewart at the General Hospital yesterday.

Matthew Fraser, a tailor, who lives at 11 Trinity-place, and is a cousin of deceased, testified that Martin was at his house at about 7.30 on Tuesday night, and that he left for the Woodbine.

Charles Boyle, the well-known turfman, had known deceased for years, and knew he was in the habit of carrying large sums. He was the first to reach the body of the wounded man after the boy snider had given him the alarm.

Mr. S. Sharp has at last secured No. 75, Yonge-street, which is just one door north of King and Yonge-streets, and right next to the well-known firm of W. & D. Dineen.
