CONFESS SLEAZEBAG BANK OF MONTREAL THEFT MYSTERY

Five Canadians Are Identified as Victims of Train Wreck in Indiana

FIVE CANADIANS DEAD IN DISASTROUS WRECK STORY OF TOWER MAN

London Man and Wife, Port Lambton Resident, One From Revelstoke, B.C., and Montreal Woman Among Victims - Telegrapher in Signal Tower Describes How Accident Occurred - Signals Were Set Against the Michigan Central Train, But Were Disregarded - Death List Now Placed at 37.

Porter, Ind., Feb. 28.—Identification of the bodies of the victims of last night's wreck, when a New York Central train crashed into the side of the Michigan Central train from Chicago to Canadian points, killing nearly 40 persons, revealed the fact that five Canadians were among the dead.

The identified dead were: Justin Collins, 36 Blackfriars street, London, Ont., an employe of the Canadian Pacific Railway, and his wife; Peter Cain of Port Lambton, Ont., who had been visiting in Regina; Gordon Campbell of Revelstoke, B.C., who had been attending a trade and engineering school in Chicago, and Mrs. Sarah Moss, Montreal.

A complete check-up by railroad officials and the coroner of the bodies in the Chesterton morgue at 9 o'clock tonight revealed that there were not more than thirty-seven known dead in the Michigan Central-New York Central wreck last night.

The discrepancy between this count and the one of more than forty previously announced by Coroner H. O. Seipel was found to be due to the inflated count of some of the dead. In some cases a body badly mangled had been counted as two.

Coroner Seipel announced the following official list of the dead: Bodies in Chesterton morgue—25 to 27. Bodies removed from Chesterton morgue—2. Bodies in Michigan City—2. Total dead—35 to 37.

Coroner Seipel said that it might never be known exactly how many were killed because of the way in which some of the bodies were mangled.

The coroner said he did not think more dead would be found under the wreckage, but this was possible. The morgue was closed for the night at 10 p.m. and no further identifications will be made until tomorrow.

Telegrapher's Story. Charles Whitaker, telegrapher in the signal tower which regulates the passage of the trains over the crossing where the accident occurred, told (Continued on Page 3, Column 2).

FAVORS A NAVY SECOND TO NONE

So Says New U. S. Naval Secretary, After Conference With Harding.

Detroit, Feb. 28.—A United States navy second to none, trained to the minute, and equipped with the best material, will be the objective of Edwyn Denby, newly appointed secretary of the navy, he said here today.

The statement was made upon his return from a visit to the White House, where he conferred with President-elect Harding.

Declaring he favored a larger navy, Mr. Denby asserted that the navy war with any power, but said that "the peculiar situation of the United States demands and justifies a strong first line of defense."

DEFER LEGAL ACTION ON VIADUCT QUESTION

Corporation Counsel Geary explained that he did not think it would be wise to go to the courts at this juncture.

MOVES TO ADJOURN AND APPEAL AFTER REDISTRIBUTION

Member for Nelson Proposes Sub-Amendment to King Want of Confidence.

ATTACK ON GRAIN MEN

BY TOM KING. Ottawa, Feb. 28.—None of the big guns wheeled into the firing line today, but a number of members continued the debate upon the address. Interest centred mainly about a sub-amendment offered by J. A. Campbell of the Pas, member for Nelson. Mr. Campbell was elected as a supporter of Union government, but has given that support since entering the house. At the last session, for example, he voted against the government on the budget. This afternoon he declined to say whether he would or would not support the King amendment to the address, which is a straight want of confidence motion. Believing that redistribution should precede the general election, but that such election should not be long deferred, Mr. Campbell moved to amend the King amendment so as to provide for the session being adjourned, after the passing of the estimates and other necessary legislation, for redistribution at the adjourned session in the fall, and to request the government to make the necessary arrangements for the redistribution of the tariff, but that the government should lay its tariff proposals before the house.

WRECK SURVIVORS ARE DABLY SHAKEN

Six From Wrecked Chicago Train Reach Toronto—Others Expected Today.

SOME VERY LUCKY ESCAPES

Contrary to expectations the C.P.R. train which arrived in the Union Station last night at 10 p.m. from Detroit, did not carry any passengers of the ill-fated flyer, wrecked at Porter, Indiana, Sunday night.

When questioned the conductor picked up that while he had orders to pick up the survivors, he had no connection with the wreck. The survivors, who arrived this morning at 8:23 a.m., were: W. S. Stout, Junior, Toronto; Miss M. Fisher, 75 Waverley road, Toronto; Mr. and Mrs. R. Orcutt, 1219 Madison avenue, New York; Mrs. Geo. Weir, Broadway, New York.

Complains of Accommodation. Mr. Stout, who was returning from a visit to California, stated that he was in the second coach behind the one that was wrecked, and both he and H. W. Allan had been awakened until 3 a.m. yesterday morning by a train to take them to Detroit. He did not think much of the accommodation. The coach, he was in during his trip back to Detroit, was evidently of an antique type.

Miss Fisher, who was returning from a visit to Chicago, said she had been with the people after the accident. "I don't want any experience like that again," said she. "I didn't go near the wrecked coach, altho it was next to ours, because I was severely shaken up."

Mr. Orcutt stated that he and his wife considered themselves very lucky. They were in the dinner when the crash came.

Mrs. Geo. Weir was also in the dining car and had her shoulder dislocated and received \$50 as compensation. People were thrown the whole length of the car. Dishes were smashed against the sides of the car, some of the occupants being cut severely by flying pieces. Mrs. Weir is en route to Ottawa.

DETECTIVE BART CRONIN.

To whose energy and shrewdness the solving of the Bank of Montreal theft mystery is attributable.

YOUNG MAN IS SAID TO HAVE CONFESSED HE TOOK PARCEL CONTAINING CASH AND CERTIFICATES FOR PURPOSE OF PROTECTING STOCKS HELD ON MARGIN—BROWN IN SERVICE OF BANK FOR SOME YEARS.

Edgar Brown, of 110 Broadview avenue, teller in the head office of the Bank of Montreal, Yonge and Front streets, was arrested at 9 o'clock last night by Sergeant of Detectives Bart Cronin on a charge of theft of approximately \$21,210 in cash and non-negotiable bank certificates on Thursday morning last.

In a statement to Inspector of Detectives George Guthrie at detective headquarters at 9.45 last night, Brown is said to have admitted the theft of the money and certificates. The reason he gave for taking the money, the police say, was to "cover up" on certain gold mine stocks which required more margin.

With Brown's arrest Sergeant Cronin secured an \$5,000 legal tender certificate, which the man is alleged to have had in his possession. The other tender, also for \$5,000, Brown is said to have destroyed. The cash in the amount of over \$11,000 the teller is said to have admitted using to protect stock holdings.

Sergeant Cronin's work in running down the alleged thief is worthy of the highest commendation and more than justifies his recent promotion to the rank of sergeant of detectives. Practically single-handed, he has worked day and night on the case since the theft occurred, determined upon "cleaning up" the mystery, which he had to work on were slim, as he admitted to The World on Sunday night, but despite this he has been successful.

Detective's Hard Work. So devoted to the work of clearing up the mystery has Sergeant Cronin been that immediately after he had secured the clerk's confession, he went to repair to his home with a sick headache, and went immediately to bed. Sergeant Cronin, however, very kindly granted an interview to The World thru an intermediary, who took the reporter's questions and secured answers from the sergeant, whose headache made sleep impossible for him.

How Brown managed to take the cash and legal tenders out of the bank and where he had it hidden while he, along with others, were submitting to being searched, Sergeant Cronin was unable to say. How he came to finally trace the money to Brown he would not divulge.

Brown, according to the police, occupied the next cage to Wright, from whose cage the money and legal tenders were stolen, while the latter was out in the rear making up his clearance slips for the day. Brown, along with two women employes, it is understood, placed the money in Wright's cage, and is the belief of the police that when the two girls left the cage, he hastily snatched up several of the packages. This would account for his taking the legal tenders, which, he, of course, knew would not be of any use to him.

G. G. Adams, manager of the bank, stated absolutely to discuss the case when called up at his home last night. "I have absolutely nothing to say to the press," he informed the reporter.

Brown, from what could be learned, has been in the employ of the bank for a number of years. He is 27 years of age and married.

SAYS O.T.A. SLEUTHS ACTED IMPROPERLY

M. M. MacBride Charges Immorality by Foreign Spotters at Brantford.

Brantford, Feb. 28.—(Special.)—M. M. MacBride, M.L.A., in an interview with The World today, stated that he would bring a case of the Brantford police court before the legislature during the coming week as a protest against the enforcement of the Ontario temperance act. The case, according to Mr. MacBride, was one in which foreigners were employed as liquor spotters, and in visiting the house, which was under suspicion, the spotters after consuming considerable liquor, conducted themselves in a very immoral manner. Mr. MacBride told The World that he would emphasize to the legislature that it was regrettable that the O. T. A. cannot be enforced without the violation of every moral law of the country.

### AUSTRALIA'S DEBT NOT FORMIDABLE

#### Commonwealth's Treasurer Says There Is Spirit of Economy in Country.

Melbourne, Feb. 28.—Preparedness must be the slogan for Australia, as there has been a failure to secure unanimity on the reduction of armaments, declared Sir Joseph Cook, treasurer of the Australian Commonwealth, in addressing the National Club of Sydney on the financial outlook.

Sir Joseph said the estimated revenue of the commonwealth and various states for the present financial year, should total £143,784,000, while the expenditures, including those of the states, out of revenues and from loans, would total £191,652,000. There was a general spirit of economy prevalent throughout the country, he declared, and he considered the future financial position of Australia as assured. The present Australian debt was £148 per capita, he said, which left the dead weight of the war at a figure which need not cause undue alarm, considering the extensive assets upon which the debt was based. He hoped, he added, that a joint commission would be appointed to manage the commonwealth and state loans, so as to give Australian loans a prestige they did not now possess.

Sir Joseph announced that numerous applications from United States and European companies for permission to register in Australia, were being dealt with by the federal treasury. There was evidence of big capital backing behind some of these concerns, he said.

### FIGHTING FOR BATUM DECLARED IMMINENT

Turks on Outskirts and Bolsheviks Racing Down the Black Sea Coast.

Constantinople, Feb. 28.—Hostilities between Russian Bolsheviks and Turkish forces for the possession of Batum is declared to be imminent in advance received here. Ten thousand Turkish soldiers under Kazi Karabekir, commander of the fifteenth army, are on the outskirts of Batum, and it is believed here that if the Bolsheviks should capture the city, Turkish operations in Armenia would not be possible.

The Bolsheviks are racing down the east coast of the Black Sea toward Batum, and were shelled by vessels of the French fleet at Sukhum Kale, which, however, the Soviet forces captured later.

General Hekker, commander of the eleventh Bolshevik army, which captured Batum, having effected a junction with Cosacki who had advanced to that city across the Caucasus Mountains from Vladikavkaz. Bolshevik troops numbering about 25,000 entered Tiflis Friday evening. It is said in a despatch received here. For a few hours on Friday there was considerable looting in the city by local communists. It is said, but later in the day the Soviet government began to restore order. The Italian, German, Russian and American consuls in Tiflis did not leave when the Georgian government fled and are still there.

The anti-Bolshevik government proclaimed in Erivan, capital of Armenia, about two weeks ago has been ousted from control, and the Bolsheviks have re-established a Soviet republic. Many members of the anti-Bolshevik regime have been imprisoned and the rest are said to be fleeing.

### FRENCH ON RHINE ARE GETTING READY

#### Preparing to Exact Penalties if Germany Proves Obdurate.

Paris, Feb. 28.—Great military activity was noted today along that portion of the Rhine occupied by the French near the Mayence bridgehead. The artillery which had been parked several miles behind the line was brought up, as also were long lines of ammunition trucks, while the airplane camps at Gourget and Villa Coublay began to show activity, commencing at noon today.

It is reported that the movement of Senegalese, Algerian and Moroccan troops, arriving at Marcellies during the past few days have greatly increased. Everything is in readiness to exact the penalties which were decided on by Premier Lloyd George and Briand at Chequers Court, also such penalties must be ratified by Belgium and Italy, whose delegates will have to be called into consultation.

The greatest secrecy is being maintained as to the nature of these penalties and concerning the military movements, but the Associated Press learns on good authority that a great naval demonstration by the British fleet is being planned in the North Sea, and that the Belgian and French troops will operate on land.

The Ruhr region, it is said, probably will not be occupied as the French desire to demonstrate that any movement taken by them is not directed against the German proletariat, but against the reactionaries, nationalists and imperialists.

The consensus of opinion in parliamentary circles is that no decision will be taken until the London conference is aware of the content of the latest radio speech of President Harding, as French officials are desirous of showing the United States that every step possible has been done to avoid stern measures, and also that they desire to have the moral support of the United States public opinion should a move forward into the latter of Germany become necessary.

No Counter Proposals Yet. Berlin, Feb. 28.—The German delegation will present a memorial to the allied powers in London tomorrow, explaining wherein it is impossible to meet the conditions framed at the Paris conference. The memorial will not include any counter proposals. A report probably will be submitted soon after the conference formally opened.

### U.S. LABOR APPEALS AGAINST BOLSHEVSKI

#### Federation Calls System "Bestial" and Lenine Followers "Savages."

Washington, Feb. 28.—Organized labor throughout the world is urged to raise its voice in protest against the "ruthless persecution and slaughter of labor unionists" in Soviet Russia in an appeal issued here by the American Federation of Labor.

"Let the Soviet savages know what labor of the civilized world thinks of their bestial system," the appeal declares. "Let every labor organization in the country respond."

The federation's statement declared that after "brutal" labor into supporting the Soviet regime, Trotsky and Lenine's lie leaders, began "carrying out their threats of extermination of the leaders of labor and peasant parties and also of so-called 'hostages'."

"The offence of the labor unionists was very clear," said the appeal, "they are fundamentally opposed to the so-called government set up by Lenin and his handful of associate dictators. As far as is possible, organized labor of Russia is everywhere in a state of full revolt. The organized workers are doing what they can to reach the hearts and minds of the laboring masses in all countries. WALTER DAMROSCH SCORES TRIUMPH

"London Symphony" Great Exposition of Descriptive Work.

Several features attending the concert of the New York Symphony Orchestra at Massey Hall last night combined to make it one of unusual interest. The attraction of hearing the big body of instruments added to the fame of its popular director, Walter Damrosch, would in themselves have been sufficient to mark the occasion as one of the outstanding events of the season. In addition, however, Toronto was to see and hear Miss Mona Bates, a child of its own nursing, who achieved success in a musical career in the country to the south, and who returned to win a triumph for herself and to radiate her success in a measure to the city of which she is so worthy a product. These causes combined brought together a large and enthusiastic audience who were generous in spontaneous applause throughout the evening.

Two New Numbers. Still another item of unusual interest was found in altogether new numbers of the program, the first being given for the first time in Canada. The first of these was the "London Symphony" by Vaughan Williams, which is a great descriptive composition, in which the author undertakes the almost herculean task of attempting to picture the most commercial centre of the world, and to interweave into its life touches of the thousands of incidents and episodes that make up its daily existence. The work is divided into four parts, the first slow movement depicting daybreak on the river, and the theme developing into busy life. The second "Lento" movement is a conception of the people in their hunger march and a nightmare of suffering. The "Allegro" brings the dancer back to the river and to the thought of its calm and mystery. To paint all this in musical terms, and to do so by contrasts that developed from one to the next, is a task which is not to be undertaken lightly. The composer, by directing street cries, hurrying of feet, raucous cries of the water carriers, and waves of sound, during which the music with dynamic power, controlled his men as they were with the wand of his art. It may take time and judgment by musicians to decide the value of the symphony as a piece of descriptive work, but it is, perhaps, the greatest exposition yet heard in Toronto.

The "Venetian Concert," by Casella, in which the "Dance for the Children" was a joyous picture of the dancing of the Old Ladies, with its quaint conceals, in which the instruments and the pianist's fingers seemed to take on a dry tone in keeping with the angular and precise movements of the dancers, was one of the most popular notes of the evening, the second movement being repeated in response to enthusiastic applause. The last number for the orchestra, "The Valkyries," in which the thunderous waves of Wagner's music envelope the hearers in an atmosphere of northern myth and triumphant sound, was one of the most popular notes of the evening. "The Valkyries" was one of the most popular notes of the evening. "The Valkyries" was one of the most popular notes of the evening.

Miss Bates scored a triumph from the moment she played the waltz opening chords in her solo work in the "Dance for Piano and Orchestra in E flat." Her work, which was an expression of finish, which seemed to be nothing that might be added. Character and subtlety of her playing, in which through a long and exacting composition she used no notes, but came in with the orchestra with a realization of perfection itself, her hands doing their work with unerring certainty and the flexible fingers producing sounds the most delicate and masterful. Purity of tone and poetry of expression, combined by the intelligence of the player were all noted in the performance. At the close of the number in which Miss Bates was most sympathetically accompanied by the orchestra, she was greeted with a rain of applause and showered with flowers. She had to appear five times and bow her acknowledgments before the audience had exhausted its applause. Her last number, which was under the management of J. P. Suckling, was in line with the fine tradition of artistic exhibitions that Suckling has brought to Toronto during the season.

ARREST FOLLOWS EXCITING CHASE. P. C. Case Captures Alleged Street Car Pickpocket With Civilian's Aid. Edward Renardson, who gave his address as 272 Silverbirch avenue, was arrested late yesterday afternoon by P. C. Case, of Pope avenue police station, on a charge of attempting to pick a woman's pocket at the corner of King and Yonge streets. Renardson was arrested after a chase of several blocks, in which the constable was aided by a civilian named J. A. Fountain, 22 Minto street.

H. Spence, who was off duty and had been downtown shopping with his wife, was boarding a King street car when he heard a woman, who was also boarding the car, scream. Pushing his way to her side, he was just in time to see a man, who later proved to be Renardson, break away from the woman's grasp and dash down Yonge street. Case took up the chase, which led down Yonge street, to the Globe lane, south to Wellington street, and east on Wellington towards Yonge. Johnston, who ran alongside the constable, went south in Yonge, and headed Renardson off, hiding material in his capture.

To the constable, the woman later stated that she felt Renardson's hand in the pocket of her coat, and, clutching it, thus preventing him from securing her purse.

FEWER ASK RELIEF IN YORK TOWNSHIP

But More Sickness Among Children—Council Authorizes \$170,000 School.

At a meeting of York township council yesterday afternoon application was made by A. Gilbert, chief of Mount Dennis volunteer fire brigade for a supply of water from this city, for seven factories now occupying what was formerly known as the Royal Products plant. This area is separated from the main road by a road by the railways. The water consumption per day is estimated at 5,000 to 7,000 gallons. The council promised to make application for permission to lay conduit under the tracks.

A report from the relief department stated that not as many children were on the increase. "Is there any way these cases can be investigated?" asked Councilor Joe Byrne. "Not very well before relief is given," he was told. "We send out and get the information we can, and we have the right to cancel an order within a certain time."

The application to build a public garage on Runnymede road by one Jenkins was withdrawn, there being 19 residents in favor and 12 against it. The police village of Kingsdale made application for trees for a park area. Petitions were received from Swanton and Danforth for street lighting. Roselands also made application for extended hours.

HOROLOGY SCHOOL HAD USEFUL CAREER. Passing of Institution Deplored at Meeting of Watchmakers' Guild. Under the auspices of the Watchmakers' Guild of Toronto, a well-attended open meeting was held in the grand hall, corner of Richmond and Bay streets, last night, with President W. W. Blackburn in the chair.

Established in 1890, the Canadian Horology Institute aimed to turn out its students as masters in their craft, second to none in America. Previous to its establishment, Mr. Playtner afforded out, continental Europe alone instruction in horology, and were for the most part backed by large endowments by the government. In this connection, Mr. Playtner said he had sent a letter to Hon. Dr. Cody, former minister of education, in which he suggested that governmental aid should be granted, but no notice was taken by the minister and the institute regretfully closed its doors. In conclusion, the speaker donated a library valued at \$25 to the guild.

Loss to City. H. Spence, in moving a vote of thanks to the speaker, regretted that the institute was lost to the city, and could not understand why the late Ontario government would not render support. Mr. Spence regretted that the Watchmakers' Guild was not then in existence or the government would perhaps have given sympathetic consideration.

E. W. Warner regretted that the government "went to sleep" and allowed Mr. Playtner to leave the country. "Hon. Dr. Cody, who proclaimed the excellence of the Technical School for mechanics," said Mr. Warner, "is in no position to train a student in the watchmakers' art even with a five year training."

Clever working models of various kinds of watches were exhibited, also two clever watch movements manufactured by Jerry Smith of Richmond Hill, were on exhibition. Refreshments were afterwards served, and a social hour was spent.

HAS GREAT RECORD FOR LIFE-SAVING

Harry Fowler Has Rescued Twenty From Drowning—Holds Two Medals.

It was due to the untiring efforts of Harry Fowler, one of Port Credit's best known citizens, that the body of the lad, Edwin Dixon, who lost his life on Thursday last when he fell into an airhole on the Credit River, was recovered. During his lifetime Mr. Fowler has rescued nearly twenty persons from death in the lake and river. He has had the sad task of fishing bodies from the water. He holds the government's silver medal for life-saving and also the medal of the Royal Humane Society. He is an expert swimmer and diver, and seems to possess an almost uncanny gift of being always on hand when a water tragedy threatens. It was he who, three years ago, while passing over the Credit bridge, heard screams from the frozen river and rushed on to the ice in time to save a little school girl who was clinging to the edge of a hole left by the ice-harvesters. A companion of the rescued girl had fallen into the hole and was drowned, her body being recovered by Mr. Fowler two days later. Port Credit is proud of the life-saver, and Toronto has reason to share in this pride, as Mr. Fowler was born in the city 42 years ago, most of his life having been spent on and around the lakes.

Port Credit Horticultural Society has arranged for a visit from Dr. Bennett, of St. Thomas, who will deliver a lecture on the subject of town planning. Dr. Bennett has the distinction of having transformed St. Thomas from a mud heap into a place of beauty by his original methods of town planning.

STOP IMMIGRATION OF UNDESIRABLES

B.I.A. Say Only Farmer With Capital Wanted During Unemployment Period.

"The British Imperial Association of Canada do hereby call upon the Dominion government to suspend all immigration to this country during the present time of unemployment and distress unless the immigrants are experienced farmers with capital." This foregoing resolution moved by G. Richards and seconded by T. Martin, was unanimously carried at an enthusiastic meeting of the British Imperial Association held in Earlscourt last night, over which George Willis presided.

It was further resolved that a copy of the resolution be forwarded to W. E. Mackay, M.P., for presentation to the Dominion House. Why should foreign immigration be permitted while the problem of unemployment is so acute? was the all-important question under discussion by the meeting.

During his discussion on immigration, numerous pointed questions were asked of E. Wilcox, of the Dominion immigration department, Ottawa, who declared that thousands of applications from Europe were turned down because the applicants advised not to come to Canada. Considerable heat was displayed over the fact that various companies and societies induced people to come to Canada, but Mr. Wilcox stated that the department had no control over them.

Regarding the investigations of individual cases, the speaker said that the department was there in this regard, and the transportation committee paid the expense necessitated by the return of undesirable. "Every mechanic," he said, "must have \$250 before landing." Advice to Old Country People. Any laws in connection with the arrival of immigrants were in his opinion it was not advisable for any person to come to Canada, especially if employed in the old country.

A hearty reception was given to W. F. Maclean, M.P., who said: "The Dominion government is responsible for people entering Canada, and if they are undesirable, they should be prevented from landing. It is your right to want it stopped. The idea is to encourage good settlers who will cultivate our lands. It is up to the various associations to prevent the immigration of undesirable, but it is not fair to the British soldiers to prevent the British from landing. There is a time when from landing, over-reaches itself, and the government must change its policy. Regulation must be made stricter," he concluded. He endorsed the stand taken by the association.

EX-Alderman H. H. Ball also spoke against limiting immigration. A resolution was passed that all immigration be prevented with the exception of British farmers, with sufficient capital for settling.

MAKE PRESENTATION OF GERMAN GUNS

Second School Recipients of War Souvenirs From Veterans.

An interesting event recently took place at Second School, Barrington avenue, when two German machine guns and four ammunition boxes were presented to the trustees board by the East Toronto branch G.W.V.A. The trophies will be mounted in front of the school building. The presentation took place at the regular monthly "at home" and dance held under the auspices of the veterans in the auditorium, and President J. McKenzie handed over the souvenirs of the great war to Sam Davis, chairman of the school board, who acknowledged the gift in a well-chosen speech.

The guns were the gift of the director of war trophies at Ottawa to the East Toronto branch G.W.V.A. Afterwards dancing was engaged in by the young people to the strains of an augmented orchestra and refreshments were served by the ladies' auxiliary. A musical program was also contributed by local artists.

CHURCH MEN FORM COMMUNITY CLUB

Deer Park Presbyterian Organization Off to Good Start—Officers Elected.

A very enthusiastic meeting was held in Deer Park Presbyterian Church last night, where some 200 men organized the Deer Park Presbyterian Men's Club with an idea of furthering social intercourse and community interest. Dr. E. A. Henry presided.

Addresses were given by Rev. Peter Ryce and Prof. Scott, of Indore College, India. Rev. Mr. Bryce dwelt on the importance of man, standing by man and understanding his fellows. He believed that only by co-operation and self-sacrifice could the value of a man be of any good to a community, and a force working in the interests of the church.

Prof. Scott, who has been chosen as foreign representative of the church, also dealt on sacrifice, only in a broader sense. A splendid banquet was provided by the Women's Association and a good musical entertainment was also given.

The following officers were elected: Hon. president, Rev. Dr. E. A. Henry; president, A. Whyte; vice-president, J. Bennett; secretary-treasurer, David Ross; chairman of service committee, Forbes Grassick; program, Sam Sylvester; finance, A. D. Godall; service, S. Allison.
