DRIVEN FROM HOME BY FIRE IN EARLY MORN

George Totten and Family Flee as Flames Grip House—James McQuade Also Suffers Loss

Fire, which broke out in Hartley Vanwart's house at 128 Adelaide street, about three o'clock this morning, not only gutted the structure, but came near adding to its toll the lives of George Totten and his family.

The fire, which started in the kitchen, spread rapidly through the house and the building and its contents were soon a prey of the flames.

The house, a two and a half story structure, was faced with brick. The ground floor was occupied by James McQuade, who carried on a meat, grocery and general provision business, and the remainder of the house was occupied by Mr. Totten.

Mr. Totten had not a cent of insurance on his furniture and he lost nearly everything he possessed. Mr. McQuade estimates his total loss at \$1,500. He had \$200 on his store fixtures and \$250 on his stock. He said that he had stocked up pretty well for the winter. The house was partially insured.

BIG NEWS FROM NORTH SEA IS EXPECTED IN WASHINGTON

Desperate Germans Said To Have Begun Fleet Movement

ARE THEY COMING OUT? New York Herald Has Hint of Stupendous Operations Which May Change Whole Aspect of War—Grand Fleet to Venture Into Open or Effort to be Made to Get Cruisers Out for Raiding

New York, Oct. 10.—(Montreal Gazette despatch)—The Herald states this morning:

The United States government is momentarily expecting cable messages which will relate to a naval operation of transcendent magnitude in or near the North Sea, one of such importance that the whole aspect of the war may be changed.

There is reason to believe that the long-expected "desperation move" by Germany has been started, and that it is being resisted with all the power that the great fleets of the allies can bring into play.

The British, French, American and Italian naval forces are fully alive to the world importance of the operation now in progress.

At this time, when official news has not been received, it is impossible for the Herald to state that the German grand fleet, which has been in course of preparation since the war began for final engagement with the allies, has left its base to give battle to the allies.

It was made clear that the Trafalgar Day campaign would be solely for the British Red Cross Society and that all the money collected will be for that purpose.

SHOW BERNSTORFF'S AS DIRECTING HAND

Washington, Oct. 10.—In the latest exposures, the state department believes it has removed the last doubt that Count Von Bernstorff was the directing hand of the German machine for espionage in America. The revelations of the part played by Jeremiah O'Leary, was not suggested by Sir Roger Casement, who later was executed in England on the charge of treason, already had been indicated in earlier disclosures made by the department. The injection of the name of "Dr. Hale" into the German organization was something new, and was intended to give immediate rise to speculation as to just what individual was meant. Dr. Wm. Bayard Hale, acting as a newspaper correspondent, was then in Germany and admittedly close to the Berlin government.

Secretary Lansing adhered to the same policy of silence today as has characterized previous disclosures, adding this last chapter of German perfidy without comment or interpretation. It has been understood that the department and the department of justice have other records of Bernstorff's activities.

COAL SITUATION IN THE UNITED STATES

Washington, Oct. 10.—Whether there would be a coal shortage in the United States this winter depends, Dr. H. A. Garfield, the fuel administrator, declared today only on the coal situation in the west, which has not been disclosed. "If our industrial development from the war and other causes," said Dr. Garfield, "has grown beyond our ten per cent. increase in production over last year then we must go short. We have no figures at hand to tell what that development has been."

LATEST USE FOR SAWDUST

Dr. C. E. Coates, dean of the Audubon sugar school of Louisiana State University, has discovered a new substitute for boneblack, now extensively used in sugar making as a decolorizer. According to a statement made in a recent issue of the Manufacturers Record he has found a method by which sawdust, preferably yellow pine sawdust, can be changed into a decolorizing agent which is said to be a more efficient substitute for boneblack than the sugar char recently shown to be practicable by actual refining tests at the sugar experiment station at Audubon Park, New Orleans.

The discovery of a cheap substitute for burnt animal bone has long been sought by others, and Dr. Coates has been from the beginning one of the leaders in the greatest white sugar manufacturer campaign started in Louisiana several years ago. Experiments were conducted by him with both cypress and pine sawdust, but the pine seems to be the better adapted of the two substances for this purpose. Numerous laboratory tests have proved the charred sawdust to be a perfect decolorizer.

Eyestrain is overtaxing muscles in order to focus light rays for clear sight. The cause is usually a defect in the shape of the eye.

The constant strain breaks down the muscles. If allowed to go too long, permanent harm is done. Glasses help out the muscles by correcting the defect. They are the only cure for eyestrain.

ELECTION MAY NOT BE TILL FEBRUARY OR MARCH IF ALL NOT READY FOR DECEMBER

Ottawa, Oct. 10.—Whether or not the voting in the dominion elections takes place on Monday, Dec. 17, depends largely upon the date upon which it is possible to complete the appointment of the returning officers. As seven weeks must elapse between the issue of the writs and the voting, they will have to be sent out within a short time if the voting is to take place before the Christmas holidays. It is generally conceded that a January election would not be desirable in the event of it being decided that the writs cannot be issued in time for a December election, it is quite possible that the voting will not take place until late February or early March.

Our "Matchless" Troops Lady Byron has richly earned her title of Dame Commander by her sensible and practical war work. When war broke out she heard that the army had cigarettes but no matches, so she promptly sent 100,000 boxes for our soldiers, each box bearing the inscription: "A match for our matchless troops from Lady Byron." One of these boxes, says the London Daily Dispatch, will be preserved in the new war museum.

Our War Carrier-Pigeons Our carrier pigeons are doing their bit splendidly at the front, and here, even, says the London Daily Dispatch, been equipped with the latest gas helmets. It is well known, of course, that both sides are using these birds, and consequently the greatest care has to be observed with regard to shooting any that may appear on the scene. It is not unusual for our own birds to be shot from the other side of the enemy lines.

THE WHOLE PROBLEM

In his address to the Canadian Club of Toronto the other day, Lord Northcliffe said that the whole problem of the war on the Western Front is one of ships and shipping. Sir Joseph Macleay, shipping controller, estimates that the Americans will have to build six million tons of shipping—two thirds of our own, and we are the greatest shipbuilding nation in the world. We do not say the Americans will do this, but I address the fact to show you some of the difficulties of the war.

Touching on the fight of the submarines round the British coasts, Lord Northcliffe seriously stated that "the Germans are pinning their faith in victory to the submarine, and they have not changed their views. They are even building larger and faster submarines, as we know from trusted captains who have had to escape from them. We in the United States are pinning our faith in victory on the fact that we have the greatest shipbuilding nation in the world. We do not say the Americans will do this, but I address the fact to show you some of the difficulties of the war."

BIRTHDAY SURPRISE

There was a gathering of young folks at the home of Miss Jean Finlay, Loch Lomond road, on Oct. 8, when a surprise party in honor of her seventeenth birthday was held. The evening was much enjoyed by all, spent in games and music. They presented to her a lock of hair and the happy party broke up a little after midnight.

It is customary for a certain type of Englishmen to disparage the capacity of Canadians to do big things. It may be said that this late stage of the war might be difficult about getting steel plates, but the difficulty was known three years ago, and if the Borden government had not been asleep or criminally negligent, it would have taken measures to provide for the emergency. Had it not, in pursuance of its "unholy alliance" with the anti-British Nationalists of Quebec discarded the Laurier naval plan, we should now have in Canada not one but several shipyards in operation, and be in a position to contribute materially to the solution of the whole problem.

SULTAN OF EGYPT IS REPORTED DEAD

London, Oct. 10.—The Daily Telegraph says it learns that the Sultan of Egypt died at noon on Tuesday. Hussein Kemal was chosen by Great Britain in 1914 to succeed his uncle, Khedive Abbas Hilmi, as ruler of Egypt simultaneously with the proclamation of a British protectorate. His father was khedive from 1868 to 1879. The British acting high commissioner in Egypt in his letter notifying Hussein Kemal of his appointment said there was ample evidence that Abbas Hilmi had thrown in his lot with enemies of Great Britain, with the result that "the rights over the Egyptian executive exercised by the Sultan of Turkey and the late khedive are forfeited."

WANTED ONE MILLION WOMEN TO REPLACE MEN Could You Take Your Brother's Place? A girl in New York did. And in a hardware shop, too. Selling machinery that required technical knowledge. Why was she there? Because her brother was drafted into the Army. All along the line this sort of thing is now taking place. In large cities, girls are replacing men in elevators. In Massachusetts the wife of a clergyman has been unanimously elected to his pulpit. He has gone to war. A large piano company is advertising for woman to replace salesmen. The Pennsylvania Railroad has taken on 500 women for the first time in its history. The Municipal Civil Service Commission in New York is holding its first examination to admit women to be city draftsmen. This is what the war is doing in America. One Million Men's Jobs Will be Vacant In about a month there will be 500,000 men who have been drafted into the Army whose positions will have to be filled by women. Another draft of 500,000 will shortly follow. You cannot take one million young men away without leaving gaps that have to be filled. Women must fill them. "What the War Really Means to Women" The above is the title of a remarkable article in Pictorial Review for November, written by Mabel Potter Daggett who braved the submarine peril to go to Europe to gather material for it. What she saw over there took her breath away, and she has returned with a message of such vital significance to the wives and mothers of America, that no one can afford to miss it. There is a scheme afoot to have Gen. H. H. McLean nominated as a "win-the-war" candidate in the new constituency of Royal, which comprises Kings and Queens counties. Posters have been issued, without any signature, calling a convention of the "win-the-war" party at Gagetown.

ON THE BRITISH FRONT

The American war department last week issued an admirably clear review of the war situation on the British front, which is all the more interesting in view of the fresh drive begun by the British and French yesterday. We quote: "The attention of the world is focused on the titanic struggle now going on in Flanders. The battle raging there is providing an engagement of wholly unprecedented scope and potentialities."

ing out of Bruges are threatened. The supreme test of the battle strength of the contending belligerents is taking place. Allied ascendancy would appear decisive. The two immediate contributing factors of this success are: Air control and shell supply. The former made it possible for the Allies to locate enemy concentrations, the latter to break them up before they could develop into serious offensive actions.

GERMANY WEAKENED.

The French general staff has furnished data upon which is based a review setting forth the great decrease in the military strength of Germany. The review says: "Worn down and driven back by the never-ending pounding of the Allies on the western front, the Germans have made their supreme military effort, after drawing heavily upon their inactive reserves in the east and calling out their 1918 and part of the 1919 reserves. Thus, while the Allies have reached and are prepared to maintain their full strength while awaiting the coming of America's great army, the enemy's resources are diminishing at the very moment when the military situation demands that they increase. This shows the decisive character attending the operations in 1918, when three great democracies, England, France and America, will unite their entire strength in attacking the enemy, in conformity with the only sound principle of war."

JEWISH RELIEF FUND GETS \$500,000 IN DAY

Contributions Made on Yom Kippur Will Be Sent to Sufferers in War Zones

The American Jewish Relief Committee announced in New York the other day that on Yom Kippur, the Jewish Day of Atonement, about \$500,000 had been contributed for the alleviation of distress among the 6,000,000 Jews left homeless by the war.

"The \$10,000,000 asked of the Jews of this country is purely for life-saving necessities for the barest necessities in the war-ridden regions. Their sons are in the trenches, leaving behind only the aged and infirm, the women and children."

"If every Jew in this country assumed his duty of giving according to his means, if necessary \$10,000,000 sought could be raised overnight. The Yom Kippur million asked for should be contributed without fail. It is highly important that it be realized, and those synagogues that failed in the task on Yom Kippur will have the opportunity to make the appeal today."

"There remains one duty that is less fashionable, but nevertheless crying, and that is to look after the people who are left at home," said Mr. Warburg. "We are charged with the duty to provide the charitable institutions with sufficient funds to enable them to run them. We have raised about \$700,000 more than the institutions ever had at their disposal, and still, in consequence of the war, we are not able to provide properly what the institutions need. Such an increase could never have been foreseen, and it is most fortunate that the federation has been established."

Mr. Lewin asked for volunteers for the committee to do social work, saying, "Let us all do our bit in every sense."

Yesterday an extraordinary number of the Royal Gazette was issued containing a proclamation of His Honor, the Lieutenant Governor-in-Council bringing into force certain sections of the Public Highways Act passed at the last session of the legislature. This statute, as we have before pointed out, provides for the creation of a provincial highways board to have general supervision over the maintenance and construction of the highways of the province.

The statute under which the duty is cast upon the governor and council to make the appointments became law on May the 9th last. Nearly five months have now elapsed, and as yet this important duty remains undischarged. The proclamation published yesterday for the appointment of the members of the highways board, and it is to be presumed that the people of the province who earnestly desire an improvement in our system of road maintenance and to the members of the highways board who are to be appointed to undertake the very important duty of improving the highways of the province. To further delay in making the appointments would be unfair to the legislature which committed the duty to the governor-in-council, to the people of the province who earnestly desire an improvement in our system of road maintenance and to the members of the highways board who are to be appointed to undertake the very important duty of improving the highways of the province.

East Must Be Considered in Union Plans

Ottawa, Oct. 9.—The consummation of union government depends upon the sincerity, patriotism and firmness of Sir Robert Borden. That seems to be the conclusion to be drawn from the result of the second decisive day of conference of the western Liberals with Sir Robert Borden and Hon. Arthur Meighen. The invitation to reconsider union proposals extended by Sir Robert Borden week before last through Hon. J. A. Calder to the western Liberals was understood to mean re-consideration only on a basis of real union, representing eastern as well as western Liberalism. It was on this understanding Messrs. Calder and Gerard consented to resume the negotiations broken off abortively last August.

She Went Days Without Food

When Hospital Treatment Failed an Operation Was Advised—But Cure Was Effected Without the Use of the Knife.

Glouce Bay, N. S., Oct. 8.—Here is a case which sorely puzzled the hospital doctors. It was evident that the great suffering from pain under the left shoulder-blade was due to torpidity of the liver, but no medical treatment seemed to do any good.

In fact medicines failed, and the doctors said an operation in the neighborhood of the liver, but Mrs. Watkins hesitated before the enormous risk of an operation and decided to try Dr. Chase's Kidney-Liver Pills first.

The result was that she was perfectly cured three years ago, and feels now that she can repeat the cure as though it were a new thing. This is not an isolated case, but proves that this great medicine cures when ordinary prescriptions fail.

Mrs. Annie Watkins, New Aberdeen, N. S., writes: "I think it is time for me to give my experience with your wonderful Kidney-Liver Pills. For seven months I suffered with what the doctor called indigestion; but whatever it was, I suffered terribly. The pain would start under my left shoulder, and pass down my side until it reached the pit of my stomach. It just seemed as if the flesh were being torn from the bone. At times I used to go without food from one morning until the next. I had no energy left for work at all. At last our doctor sent me to the hospital for a month. For four days and nights I never broke my fast except for a drink of water. After four weeks' treatment there I returned home, and was back only four days when the pain came back worse than ever. Then I was told I would have to undergo an operation, but I would not consent to that. At last I read about Dr. Chase's Kidney-Liver Pills and started to take them. At first I did not notice much difference, but still I kept on using them, and by the time four boxes were used I was perfectly well again. That was in 1914, so you see I can safely say that I was cured. I shall always be grateful to Dr. Chase's Kidney-Liver Pills, as they did more for me than four doctors."

**GERMANS ACKNOWLEDGED
GOOD TREATMENT GIVEN
PRISONERS BY BRITISH**

The Hague, Sept. 15—(Correspondence)—At a recent conference held here British and German delegates to discuss the question of treatment and exchange of prisoners, the Germans entered the conference room from a door on the side of the room and the English men a door on the opposite side. The stch delegates were always already seated at the table in the midst of the om. No conversation took place except on the business of the conference. Before the conference ended, the chief

of the German delegation rose and insisted upon thanking the British warmly for the way in which their prisoners had been treated. He said no other country had behaved so well. The English commissioners bowed their thanks, but did not return the compliment.

**NEWS NOTES ABOUT
PROMINENT BAPTISTS**

(Maritime Baptist)
Rev. W. E. Carpenter, who for nearly
three years has labored faithfully at
Murray River, P.E.I., has been called to
the Whitefield field.
Rev. Asaph Whitman is being pros-
pered in his work in the port Medway field.
On the last Sunday in September three
candidates were baptized.
Not long since the name of T. J.

Kinley of Paradise appeared in the list
of casualties. He is the eldest son of
Rev. R. B. Kinley, one of our veteran
pastors. We are glad to report that his
wound is not serious.

The Westbrook and Southamton field
is enjoying the ministry of Rev. W. H.
Robinson. Under his inspiring lead-
ship the churches are making progress
in almost every department. During
the summer three adults were baptized.
Rev. Earle A. Kinley, son of Rev. R.
B. Kinley, who has so fully proved his
worth as pastor of the church at Bath-
urst, is resigning his work there to vol-
unteer for combatant service. His de-
cision has caused keen regret at Bath-

urst, and no doubt an effort will be
made to persuade him to reconsider it.

SUCCESSFUL DRAWING.
At a meeting of the Valcartier Chap-
ter, I. O. O. F., held last evening, the
drawing of a nightdress and towels, do-
nated by Miss Helen Russell, took place.
The winners were tickets No. 41, Miss
Tapley, Holly street, who drew the
nightdress, and ticket No. 108, Commis-
sioner Russell, who drew the towels, and
which he kindly returned to the chap-
ter to be redrawn. On the second drawing
Miss Marion Moor, holder of ticket No.
6, was the fortunate one.

**TO RAISE A MILLION
FOR JEWISH FIGHTERS**

New York, Oct. 10—Colonel Harry
Cutler, chairman of the Jewish Board
for Welfare Work in the United States
army and navy, announces an active
campaign for a fund of \$1,000,000 in be-
half of the board, with which to pro-
cure welfare work among the Jewish
soldiers at the various cantonments of
the national army and at the front in
France, as well as in behalf of the Jew-
ish sailors in the navy.
There are more than 50,000 Jewish
soldiers in the national army and en-
listed in the regular army, a percentage
far in excess of the ratio of population
of the Jews. The American Jewish
Soldiers' Bureau, of which Dr. William
J. Strovitch, of New York, has been
temporary chairman, has agreed to turn
over to the Jewish board for Welfare
Work its entire lists of membership,
card catalogues and data of every sort.
This organization will soon go out of
existence, giving the entire support to
the organization of which Colonel Cutler
is the head.
Other organizations which will do all
their work for the soldiers under the
Jewish Board for Welfare Work in the
future, are the Jewish Chautauques, of
which Abram I. Elkus, ex-ambassador
to Turkey, is the head; the Federation
of Temple Sisterhoods, the Council of
Jewish Women and the B'Nai Brith.

**KERENSKY'S DISEASE MAKES
BETTER PROGRESS THAN
REVOLUTIONARY CHANGE**

Geneva, Oct. 10—Premier Kerensky
has written a sad letter to a former uni-
versity comrade here. He says calmly
that his disease—tuberculosis—is mak-
ing better progress than the Russian re-
volutionary cause, and that he is burn-
ing the candle at both ends in order to
save his country, and hopes not to die
before Russia is liberated from the Ger-
man yoke, and the present anarchy de-
velops into a real Russian democracy.
If in a single season the people of
the United States can produce in "war
gardens" \$35,000,000 worth of food—
the amount estimated by Charles La-
throp Pack, president of the National
Emergency Food Garden Commission—
there is reason to hope that while the
war lasts the farmers of the country
will bring their output to a level above
anything heretofore known.

To the electors of the Parish of Lancaster, Ladies and Gentlemen: Considering that it is not in the best interests of our parish to allow the present councillors to be re-elected by acclamation I have decided, after many solicitations from electors representing the different sections of the parish, to offer myself as a candidate for the coming contest.

Holding interests both as a business man and property holder, the same should be sufficient evidence to the electors to warrant the very best that is in me, regarding the welfare, prosperity and administration of the parish, and should I have the honor to represent you after the 16th, I make one promise that is fair consideration to all sections.

In such a short campaign it will be impossible to see all the electors personally and I thank those who will see their way clear to render me their support before and at the polls.

Thanking you in anticipation of such support, I remain in the best interests of the electors. Yours faithfully, GLENDON H. ALLAN. 10-16

TURMEL'S WIFE IS ARRESTED IN PARIS Paris, Oct. 10.—Madame Turmel, wife of Louis Turmel, deputy for Coates du Nord, was arrested yesterday. The newspapers say she often changed Swiss bank notes at a Paris bank.

Louis Turmel recently has been under investigation by the French chamber of deputies, because of a charge that he had been dealing with the enemy. Hints of a German bribe in connection with his case were answered by Turmel that he had received a large amount of money for acting as legal adviser from France.

The N. C. O's and men of the No. 8 Field Ambulance, C. E. F., were the guests of Captain and Mrs. McVey at the Chocolate Shop in King street last evening. Following the dinner the men were the guests of Manager Walter Goding to the second show at the Imperial Theatre.

Washington, Oct. 10.—Publication of the German foreign office message referring to Jeremiah O'Leary caused many smiles of grim satisfaction at the White House. It was recalled that during the last presidential campaign, O'Leary, as president of the American Truth Society, telegraphed the president that he and many other Americans would not vote for Mr. Wilson on account of his international policy.

RUSSIAN SITUATION IS RESULT OF LONG YEARS OF SUFFERING

Paris, Oct. 10.—While France, in common with the rest of the world, follows events in Russia with absorbing interest, it is doubtful whether even in Petrograd itself each new turn of the kaleidoscope causes greater excitement than in the Cafe de la Rotonde in the Boulevard Montparnasse, which Paris knows as the chosen den of cubist painters and long-haired poets.

All Should Co-operate. A youngster in the uniform of the Foreign Legion, with a military medal, shoulder strap and the badge of the wounded in his buttonhole, summed up for me the Rotonde opinion as follows: "We made a mistake at first in thinking that the masses alone could govern. All parties should co-operate in the national life—the bourgeoisie and manufacturers, too, even the aristocrats, though perhaps they should not be allowed to hold office until later. But the world should not be hard on Russia. When you think what some of our people have suffered it is not strange that they lose their heads a little. Only be patient. Russia will work out her own salvation."

War Would Rage 3 Years, 5 Months

Remarkable Document Penned in 1701 Found in Bible of Wismar Monastery

"Fiery Dragons Will Fly Through Air"—America's Preponderating Entry Foretold and "Lower Rhine Will Tremble!"

(New York Herald) While razing the old Monastery of the Holy Ghost in Wismar, Mecklenburg, two months ago, an old Bible was found which contained a remarkable prophecy regarding the present world war. It was written in 1701 by one of the monks on parchment that is now yellow and seared with age. It is now on exhibition in a glass case in the city hall of Wismar. So much publicity has been given to the prophecy in the papers of Germany that thousands have flocked to Wismar to see it.

When Malignity and Hatred Rule

"Lord, have mercy on Thy people despite the fact that they are turning more and more away from Thee; that they are destroying Thy monasteries and cloisters and forgetting Thee. A time will come in Europe when these people will feel the weight of Thy hand, when malignity and hatred will rule. It will be at a time when the papal seat will be vacant, and the confederacy will come as the result of the murder of a prince. Seven nations will rise against the eagle with one head and the eagle will have two heads. The birds will defend themselves furiously and viciously with their talons, and their wings will protect their peoples. A prince from their very midst, a sovereign who mounts his horse from the wrong side, will be encompassed by a wall of enemies. His slogan will be 'Onward with God!' The Almighty God will lead him from victory to victory and many will meet their death."

America's Entry Foretold

Here follows a reference to America, which was in those times often referred to as the "country of the seven stars." "The people of the Seven Stars will attack the ring of steel and suddenly fall upon the bearded nation in the rear and rend it in twain. The whole of the lower Rhine will tremble, but nevertheless will endure to the end. "The land in the west will be one vast desolation, and the land in the ocean will, with its king, be crushed and suffer all the pangs of hunger. The land of the bearded people will still endure for a long time to come, and following the war the world will be united in one great brotherhood. "The victors will carry a cross, and between four small cities and four steeples of equal height the decisive battle will be fought. Between two linden trees the victor will fall upon his knees before his army, lift his hands to heaven and thank God. Following this all dignities will disappear; the indecent dances that prevailed before the war will be seen no more, and God will reign in Church, State and family. "Peace in Time for Christmas"

"The war will commence when the grain is ripening and will reach its height when the cherries bloom for the third time. Peace will be consummated by the prince in time for the Christmas mass." All German newspapers have commented on this amazing prophecy. "It is remarkable," says one paper, "how accurately this monk has predicted events as they have thus far occurred. We sincerely hope that the longed for peace will come, as he says, in order that we all may breathe freely again."

Belgian Government Refutes Charges About Attacking Teuton Troops

Havre, Oct. 10.—The Belgian government has issued a Grey Book refuting allegations against Belgian civilians contained in the German White Book of May, 1915, in which it was said Belgian civilians savagely attacked German troops in the early days of the war, and that the measures adopted by the Germans were necessary in the interest of preservation of the German army. According to the Grey Book, between 40,000 and 50,000 houses were destroyed by the Germans. It gives the approximate number by provinces as follows: Antwerp, 8,588; Brussels, 5,881; West Flanders, 16,000; East Flanders, 2,500; Hainaut, 500; Liege, 444; Limbourg, 123; Luxembourg, 8,000; Namur, 5,248; In the city of Ypres, it says, 8,700 houses were destroyed, and in Louvain, 1,120.

MEXICAN PROPERTIES SEIZED

Mexico City, Sept. 30.—(Correspondence)—Properties the value of which will reach several million dollars, held in the names of private individuals, have been taken over by the government on charges that in reality they belong to the Catholic Church and that the persons in whose names they stand are pretended owners. Under the new constitution all church property becomes property of the nation. The properties are located in the state of Puebla, Durango Michoacan and Jalisco.

CHILDREN HATE PILLS, CALOMEL AND CASTOR OIL

If Cross, Feverish, Constipated, Give "California Syrup of Figs"

Look back at your childhood days. Remember the "medicine" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them. With our children it's different. Mothers who cling to the old form of physic simply don't realize what to do. The children's revolt is well-founded. Their tender little "insides" are injured by them. If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach; and that a teaspoonful given today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

DESTROYERS SINK TWO SUBMARINES

London, Oct. 10.—The Admiralty records just published show that recently honors do not rest only with the flyers of the navy. They relate how a division of destroyers, patrolling in the North Sea, sighted a submarine and dashed forward at full speed. The war vessels crossed over the submarine just as it dived and dropped explosives on the spot. A large object came to the surface and then promptly sank, and wreckage and oil at once appeared. In another incident several destroyers while accompanying light cruisers, sighted a small sail on the horizon, which turned out to be a submarine. One destroyer altered its course toward the submarine, which had dived, but soon raised its periscope and then again dived within ten seconds. The destroyers went at full speed for the spot. The submarine's bow suddenly broke the surface a half mile away, showing the conning tower and a large vertical rudder. The war vessel then rammed the underwater boat while going at a speed of thirty knots. The enemy craft sank vertically, bubbling like a gigantic empty bottle, in more than a hundred fathoms of water.

LAW SCHOOL OPENS

A large attendance heard the address of the dean, Chief Justice McKewen, at the opening of King's College Law School in the equity chambers last night. There will be two new members of the staff this year: Dr. W. W. White and J. D. P. Lewin. The ex-dean, Dr. Silas Alward, spoke in an eloquent manner on the subject of the Triumphs of Roman Law. Dr. Alward received enthusiastic applause from the students and professors present. Among the students were: W. McMonagle, Edward P. O'Toole, Joseph Melliday, Lawrence E. Manning and A. W. Carlen of Fairville. The freshman class is smaller than this year on account of war conditions. The new men are: Robert B. McDade, St. John; Edgar Trueman, Lancaster; F. W. W. Bartlett, Hampton; A. P. N. McLaughlin, Buctoche; and E. J. J. Chambers, of Sussex.

Nothing Like it for Rundown and Nervous People

Von Ormy, Texas—"I suffered from a general run-down condition—anaemia, loss of appetite and cough, so I was unfit for my work. I tried different medicines without help, and through my druggist learned of Vinol. I took it; my appetite increased, my cough disappeared, I gained in weight and I am now well and strong, so I can conscientiously endorse Vinol." FORT FAIRFIELD FARMERS STORING THEIR POTATOES

Refuse to Sell at Present Price—Must Get \$3.50, They Say, to Break Even

With the market breaking at the \$9 mark on Thursday, very few potatoes were being brought in by the Fort Fairfield farmers. The majority of the farmers are storing their stock as fast

as it is taken from the ground in anticipation of higher prices later in the season. Many farmers say that, to break even this fall they must get at least \$3.50 for their potatoes, the increased price of production and the decidedly poor crops making this condition. With farm laborers and help scarcer than ever before in the history of this famous Aroostook industry, wages have mounted to a level never before equaled by the farm laborer. The average wage be-

ing paid in Aroostook to the laborers on the farm is \$4 and \$4.50 and board.

Small Fortune Lost

London, Sept. 28.—(Correspondence)—An iron box containing \$28,000 in silver, sent for the relief of the Serbian army after its march across country to the Adriatic, fell into the sea at Durazzo when being landed. Announcement of the loss was made by a war official in giving evidence before the committee

of public accounts. Divers were sent down in an effort to locate the treasure, but failed to find it.

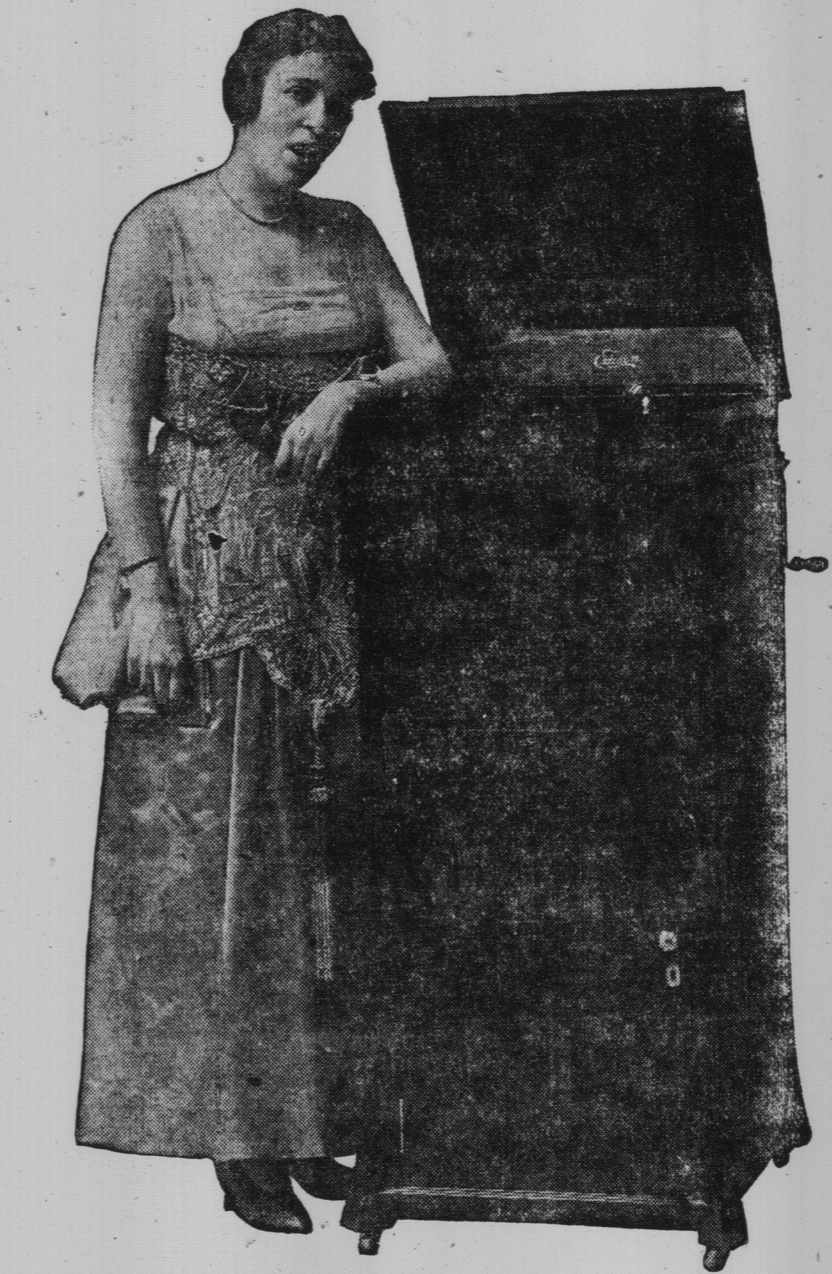

Million Dollar Fire

THE EDISON WAY

Yesterday Afternoon At THE IMPERIAL THEATRE The NEW EDISON "The Phonograph with a Soul"

was subjected to this searching test BY MARIE MORRISEY the great contralto

stood beside the New Edison. An Edison Re-Creation of her voice was placed on the instrument. Miss Morrisey stood beside the instrument and sang. Suddenly and without warning she ceased singing, and the New Edison took up the song alone. The Re-Creation of Miss Morrisey's voice was so perfect that those who listened, with eyes closed, could not tell when she had ceased to sing.

PHILLIP SCHEIB the talented violinist, gave a similar convincing demonstration with his violin.

THE NEW EDISON and MUSIC'S RE-CREATION ALONE STAND THIS CRITICAL TEST

Every singer whose re-created songs are listed in the Edison Catalog can successfully make this comparison. Over thirty different singers, including Anna Case, Marie Rappold and Christine Miller, have appeared in public tests with the New Edison. When artists of this calibre consent to make this comparison in public and in this intimate, crucial way it means: The Birth of a New Art, a New Chapter in Musical History. There is but one literal Re-Creation of Music—Edison's. Come and hear the performances of great musicians literally re-created. No obligation to buy.

MADE HALF MILLION BY "MONEY FACTORY"

New York, Oct. 10.—Miss Rae Hyman, proprietor of a so-called "money factory," was convicted of grand larceny in general sessions. It was alleged that her victims numbered more than a thousand and that she had taken in more than \$300,000. Reuben Hein, a skirt-maker, of 615 Sackman street, Brooklyn, one of the witnesses, said he had met Miss Hyman last January and she had said she represented Wall Street operators.

"She said the men she represented had many munition contracts with foreign governments and the profits were so great that they were paying fifty cents a month on every dollar invested," the witness testified. "She said she would accept an investment from me and give me interest at that rate, and I gave her \$250.

"A month later I went to her house and she gave me \$125 as my first month's interest, and said it was a

shame I did not have more money to invest, because such profits could not be made for long. I gave her back the \$125 and told her to invest that and to invest my interest every month as it came due. The next time I went to look for her was in June. I wanted to get a little money to pay some expenses, but she was gone and so was my money."

ARTISTS HEARD IN COMPARISON WITH REPRODUCTIONS

Miss Marie Morrissey, a celebrated American contralto, and Phillip Scheib, violinist, were heard yesterday afternoon by a large and appreciative audience at the concert given in the Imperial Theatre under the auspices of DeMons Chapter, I. O. D. E. The unusual feature of the concert was the reproduction of selections by the same artists on the Edison phonograph as well as other selections by famous artists. Premier Foster presided.

"Ave Maria" and "Chant Sans Parole" and also reproducing the same solos by Fleisch and Spalding. He also later played two classic selections at the same time producing recreation on the Edison of the same selections by Mr. Spalding practically playing a duet with the latter.

Miss Morrissey sang "Dost Thou Know the Land" from Thomas O'Carroll Mignon and also "Just a Wearyin' for You" and the comparison with her direct singing to the audience and the re-creation of her voice on the New Edison was wonderful.

Mr. Scheib gave violin solos playing artist. Miss Morrissey in singing "Loch Lomond" and "Flow Gently Sweet Afton" sang a duet with herself by reproducing on the Edison the same airs, which had been previously sung into the phonograph by herself.

At one stage of the entertainment Miss Morrissey sang the Flower Song (Faust) and a recreation of her voice in the same song was given on the Edison. The theatre was darkened and it was impossible for the audience to tell the difference between Miss Morrissey's direct singing to the audience and the reproduction by the Edison.

Recreations of bass solos and also of orchestral music were given on the Edison phonograph. The concert closed with the singing of the National Anthem led by Miss Morrissey. The proceeds of the concert will be devoted to patriotic purposes.

The ladies of DeMons Chapter I. O. D. E. were able to secure Miss Morrissey through the courtesy of Thos. E. Edison, Inc., and W. H. Thorne & Co., Ltd.

An accident occurred in Sackville on Tuesday which may prove fatal. An automobile driven by Robin O'Brien struck Thomas, the nine-year-old son of Mr. and Mrs. T. H. Cochrans, and he was thrown violently to the ground, striking his head on the sidewalk. His condition is considered serious.

SHOT BY HIS FATHER

Tragedy in the Home of a Port Arthur Lawyer

Port Arthur, Ont., Oct. 10.—A coroner's jury last night found that Robert McBrady came to his death from wounds received on the night of October 2 from a shotgun in the hands of his father, Wm. McBrady, a lawyer. Crown Attorney Langworthy read an ante-mortem statement by the young man in which he said that when his father came home that night he (Robert) was asleep in one room and his mother asleep in another. The father made

considerable noise, demanding admission to his wife's room. Robert, the son, left his room to interfere. He then found his father in his own room, with a gun at his side. The father told him to leave, or he would shoot him. He started to leave the room, and was shot. He did not know whether it was an accident or not.

The crown attorney said that after shooting his son McBrady called him on the telephone, suggesting that he come over and take "Bob's" ante-mortem statement.

Mary—"I am sure there are many girls who could make you far happier than I could." Bertie—"That's just the difficulty; they could, but they won't."

Gallant Feat Of British Troops

In Capture of Ramadiah English and Indian Forces Dashed Across 200 Yards of Enfiladed Ground

London, Oct. 12.—Edmund Candler, representative of the British press with the expeditionary force in Mesopotamia, telegraphs from Ramadiah as follows: "Our forces moved in two columns on the night of September 27th, one column on the right, the other on the left, and at dawn attacked Mushaid ridge, a low line of dunes running north and south from the Euphrates to the Habaniyah canal. To clear the ridge and to cross the canal was the first objective. By three o'clock in the morning the dam of the canal fell into our hands and was rendered passable for all arms. At dawn we bombarded the main crest of the ridge, but the Turks had evacuated it. As soon as it became clear that the Turks were evacuating Mushaid ridge, we changed our line of attack. The right column was withdrawn, and swinging around to the west behind the left column, became the left wing of the force. Our front, three and a half miles in breadth, now lay between Habaniyah canal on the right, and Adasiyah canal on the left, at a point nine miles from the Euphrates.

NEW TREATMENT THAT KNOCKS RHEUMATISM

A 50c. Box Free to Any Sufferer. Up in Syracuse (N. Y.), a treatment for rheumatism has been found that hundreds of users say is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the very worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous clogging waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish. The treatment first introduced by Mr. Delano is so good that his owner wants everybody who suffers from rheumatism or who has a friend so afflicted, to get a free 50c package from him to prove just what it will do in every case before a penny is spent. Mr. Delano says: "To prove that the Delano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed, I will, if you have never previously used the treatment, send you a full size 50c package free if you will send your name and address with 10c to help pay postage and distribution expense to me personally." F. H. Delano, 777C Wood Building, Syracuse, N. Y. I can send only one Free Package to an address.

COMMON COUNCIL'S TRIBUTE TO LATE CITY ENGINEER

The common council met yesterday afternoon and passed a resolution expressive of their appreciation of the long services of William Murdoch, the late city engineer, the loss sustained by the city in his death and their sympathy with his family. A copy of the resolution will be sent to his widow and the members of the council will attend the funeral. Each of the commissioners voiced a personal tribute to the late engineer. Out of respect to his memory, the council adjourned without transacting any business; the next session will be held on Thursday morning.

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell. The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage. Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

WARFIELD REFUSES MILLION FOR YEAR IN MOVING PICTURES

The New York Times says that David Warfield, in a speech made in the west a few days ago, referred to an offer of \$1,000,000 if he would spend one year in the films and make "The Music Master" and "The Auctioneer" into movies. He refused the offer.

Most Gallant Affair

"The capture and holding of Ramadiah ridge by the British and Indian infantry was a most gallant affair. It offered no cover of any kind, and our infantry became visible to the Turks fully two hundred yards before they reached the top of the rise. As soon as they came into view the enemy opened concentrated rifle and machine gun fire on our front, and on our right flank, while their guns, which were perfectly registered, opened intense enfilade fire from batteries on our left. At night the infantry were holding the enemy between the two canals, while our cavalry was astride Aleppo road, five miles west of Ramadiah, completely cutting off their retreat. At night our cavalry, who occupied strong positions on a front of three miles along the ridge, prepared for a desperate struggle. The expected attack began after three, when the Turks tried to break through between the cavalry and the river. The action continued for two hours till dawn, when it degenerated into casual sniping. It was now daylight and the cavalry, whose gallant defence rendered the Turks' case well nigh hopeless, had the unique experience of watching the battle from the rear of the enemy. A small detachment of Turkish cavalry swam the river and escaped with a score or so of infantry, but the main body, with all their guns, was trapped, and their one hope of salvation lay in determined counter-attacks against the line of cavalry who held the road to the west. Our cavalry soon saw dark masses of the enemy approaching and apparently prepared for a bloody battle. They watched this advance, as they thought it, for over an hour, but there came a moment when, to their astonishment, they saw the Turks turn and walk in mass formation towards the British. The

Why He Went For Third.
Chicago, Oct. 8.—Urban Faber, late of Cascade, Ia., Chicago American league pitcher, and a base running strategist, left behind with his friends on Sunday night an explanation of his attempt to steal third base on Sunday, at a moment when Weaver was exercising squatter sovereignty in that precise spot.
When I hit and reached second on the throw to the plate, Faber is quoted as explaining, "I saw Weaver rounding left as I pulled up and thought he had scored. Perrett took a slow wind up and I fit out for third. That's how it happened."

IRISHMAN SAVED BY BRAVE HUN CAPTIVE
German Could Have Escaped, But Sat for Two Hours in Hole Stopping Bleeding Artery
London, Oct. 10.—Perry Robinson, describing a recent battle, says what variations of speed in advance happened were generally due to bad ground. In some places "it was so bad often our men sank up to their chests and were with difficulty extricated. I know a case of a brigade officer who spent twenty minutes going one hundred yards merely owing to the difficulty of pulling his legs through the mud. After their capture, prisoners on going back are often taken in an escort or to carry back their own wounded. I am sorry to say there is no doubt some of these men were killed by a German aeroplane gun. There is no question the air man knew precisely whom he was killing. "As regards the German boasts that they still hold Beckmanc and Chelwell they might as well boast they hold Bruges and Ghent. The two villages were not in our objective, and, like Bruges and Ghent, can wait. "Some Irish troops before the battle made a petition to be allowed to go, and when they went could hardly be restrained. They had a difficult job because the front they had to attack

During the last few days at Aqueduct turfmen have been busy discussing the most interesting feature that has been arranged in many years, and the majority of them are laying plans for a hurried trip to Laurel to see the rivals in their third meeting. Thousands of other sportsmen are expected to make the trip from Washington, Baltimore, and Philadelphia.
Though Omar Khayyam has defeated Hourless on the two occasions on which they met this year, it can safely be said that on neither time was it demonstrated that Omar Khayyam was so far superior as to establish his claim to the three-year-old title. In the Brooklyn race, Hourless, unsuited by the track and, probably affected by the illness that kept him in the barn later, was so badly outrun that it was generally understood that it was not the real Hourless that was beaten. In the Realization there was only the margin of a nose between victory and defeat for Mr. Belmont's colt, and that nose is attributed by Trainer Hildreth to the loss of Butwell's whip at a critical moment.
The difficulty at the University of New Brunswick over a point of discipline has been settled. A fine of \$25 was struck on each student. This fine has now been lowered to \$5, owing to the fact that the students have signed a document in which they express regret for what they did and promise on their honor to desist from holding such initiations in the future.

EXTREME SOCIALISTS LOSE GROUND IN FRANCE
Bordeaux, Oct. 8.—The proceedings of the national socialist congress today showed that the extreme section of the party is losing ground owing to the spirit of conciliation manifested by the majority Socialists. The first definite test came when the minority proposed that Deputy Raffin-Dugens should preside at one of the sessions, but the proposal was defeated by a vote of 1,493 to 1,369 after a long and heated debate. There were eighty-three absentions.

SISTER OF CHARITY ISSUES WRIT AIMED AT CHURCH DIGNITARIES.
Kingston, Ont., Oct. 9.—On Saturday a writ was issued in the supreme court of Ontario. The plaintiff is Sister Mary Basil. The defendants are Archbishop Spratt, Mother Francis Regis, the Sisters of Charity of the House of Providence, Dr. Daniel Pielan, Police Constable Naylor, Sister Mary Vincent, Sister Mary Magdalene and Sister Mary Alice.
The plaintiff has for twenty-nine years been Sister of Charity of the House of Providence. She claims that in September, 1916, her room at St. Mary's On The Lake was broken into by Police Constable Naylor and that, assisted by three sisters, an attempt was made to abduct her to the province of Quebec.
The issue of the writ has caused quite a sensation in legal circles.

I. W. W. MEMBERS GIVEN SHORT SHIFT IN CANADA.
Winnipeg, Oct. 9.—Belief that prompt action on the part of the immigration officials alone prevented I. W. W. strife in Canada is strengthened by recent developments at Yorkton, where five members of that organization have been jailed.
All the men carried I. W. W. literature and badges and were found to have entered Canada illegally, according to a communication filed with J. Bruce Walker, commissioner of immigration. They will be deported from the country after serving one month in jail.
It is understood that the Forestry draft company in Sussex, under the command of Lieutenant Currie, which are at the present time under canvas, are soon to be quartered in the Agricultural Dairy School building in Sussex.

LOCAL NEWS

LITTLE ONE DEAD.

Friends of Mr. and Mrs. Edwin Cobham of 81 Market Place, West End, will be sorry to learn of the death of their little daughter, Wanda Juanita, which occurred yesterday.

NOT THE GUILTY ONES.

A paragraph in last evening's Times conveyed the impression that certain acts of vandalism committed at a Ketchikan cottage and orchard were committed by a party of school children from the city who were out on holiday. Mrs. Sydney Young, who chaperoned the young couple in question, who are all members of well known families in the city, informs the Times that they committed no acts of vandalism, and that such a charge against them is wholly unfair and unwarranted.

LINEN SHOWER.

A number of friends of Miss Margaret Carney assembled at the home of her sister, Mrs. Alfred R. Winslow, East End, and tendered her a linen shower in anticipation of a nuptial event which is to take place on Oct. 28. She was the recipient of many beautiful and useful gifts. The evening was greatly enjoyed with music and dancing. A delectable luncheon was then partaken of, after which the evening was brought to a close, all wishing Miss Carney every good wish for her future happiness.

WELCOME FOR SOLDIER.

The United Soldiers' Helpers of Fairville, performed a very patriotic and thoughtful act when two of their members went to the train on Monday to meet Private Arbo, one of the Lancaster lads who has done his bit and is now home from the great war. A welcome was extended the young soldier by Miss Mary O'Brien, president of the United Soldiers' Helpers, and he was conveyed to his home in an auto with much honking from the claxon, and everybody in the vicinity turned out to extend a greeting. Such a kind service is recognized as very fitting to our khaki lads on home coming.

The Man In The Street

The effort to keep tab on the war situation, the political developments and the world series all at one time is causing a serious strain on some quarters.

Bad weather postponed the ball game yesterday, but it did not interfere with the attendance at an interesting event on the western front.

Yesterday's drift was no joy ride for the parties of the second part.

The only feature that made it look like a joy ride to the Germans was the casualty list.

FAIRVILLE PEOPLE WANT THROUGH CAR SERVICE

The new schedule of steps as published by the N. B. Power Co. omits changes of any kind in the Fairville route, though it was hoped a through line to the foot of King street would be in operation this winter. At present there are three cars running to Fairville, and it has been pointed out that with the addition of one more car, the present time-table could be adhered to, and no-change trips made from Barnhill's corner to King street in about 22 minutes.

In the morning, at noon and at supper time especially traffic is heavy and the Fairville passengers who have filled their own car have little or no chance of a seat on the main line, when a change is made at Douglas avenue.

WOMEN'S MEETING HERE

Resolutions to be Sent to Food Controller—Arrangements Made for Distribution of Pledges To Housekeepers

At a meeting of women in the Imperial Theatre this morning, arrangements were made for the distribution of the pledge cards issued by the food controller. Mayor Hayes was chairman of the meeting, which was very well attended, and with him on the platform were R. E. Armstrong, secretary of the board of trade, Mrs. J. W. V. Lawlor, president of the Housewives' League, and Mrs. A. W. Adams.

Mayor Hayes introduced the first speaker, Mr. Armstrong, and said the object of the gathering was to arrange for the distribution of cards to be signed by every householder in the city, promising to obey, so far as possible, the suggestions of the food controller, in his efforts to alleviate the food situation in Canada.

R. E. Armstrong explained the system and the reasons why it has been adopted, laying much emphasis on the present necessity for food conservation. He read over the pledges. The circulation of these pledges, he said, was but the start of a great food conservation whirlwind campaign.

Mrs. Lawlor said that in the coming campaign every women's organization in the city must stand by the Housewives' League. She suggested that a resolution be forwarded to the food controller at Ottawa favoring the elimination of the manufacture and sale of ice cream in Canada as useless and wasteful. She also favored the admittance of oleo-margarine into Canada. The farmers, she said, were holding up the people for their own prices and the only way to prevent this was by introducing a substitute. "Don't waste any sympathy on the farmer," she said, "in my opinion there is no class that needs it less. I do not want to draw class distinctions, but I think that it is high time the farmer got a calling down."

Mrs. Lawlor said that condensed milk could be used more extensively than at present and that it was every bit as good, if not better, than the plain milk for infants. It could also be used to a great extent in cooking.

Both motions, the one concerning the elimination of ice cream and the other concerning the introduction of oleo-margarine, were moved by Mrs. Richard Hooper and seconded by Mrs. Lawlor. They were passed unanimously.

Commissioner Wigmore spoke on the effect of the elimination of ice cream. From six to seven million pounds of butter fat would be released for food if the manufacture of this luxury were done away with. There was some opposition from those who say that they have thousands of dollars tied up in the business. Mr. Wigmore thought that it should be that line of action which does good to the many which should be adopted. When liquor was abolished millions of dollars worth of machinery was a total loss to the owners. Why, he asked, should the food controller hesitate to act in the lesser case when the people had shown their approbation as regards the greater? Ice cream was six times as expensive as the same amount of butter fat would be if in the form of butter, and was used mostly in the summer months, when fatty foods were scarce. These statements, the commissioner said, were based on the researches of Professor Ney Smith and were authentic.

The commissioner said that too much money was being spent on the farmer. Money was provided by the people to educate him, to help him plant, to help him grow them. In return he did everything in his power to keep up the price.

Mr. Wigmore said that he had been in charge of the work of organizing New Brunswick and Prince Edward Island for the coming campaign for food conservation. Men had been sent through the country to learn the attitude of the people and the reports were to be all in or on before the 20th inst. He said that it was his opinion that Food Controller Hanna would act in a right manner when the time for action arrived.

The distribution of cards throughout the city has been arranged for as follows:—Fairville, Miss O'Brien; West Side, Brunswick chapter, I. O. D. E.; Queens ward, Royal Standard chapter, O. D. E.; Dukes, Women's Canadian Club; Kings, Y. W. P. A.; Victoria, Housewives' League; Wellington, Victoria chapter, I. O. D. E.; Prince, DeMonts chapter, I. O. D. E.; Sydney, St. Monica's Society; Lorne, Loyalist chapter, I. O. D. E.; Lansdowne, St. Elizabeth's Society and the Willing Workers of the Main street Baptist church.

LORNEVILLE WEDDING

This afternoon at four o'clock, at the home of Mr. and Mrs. Joseph Galbraith, Lorneville, their daughter, Sarah L. Galbraith, was united in marriage to William Steeves of Seaview. Rev. A. J. Langlois performed the ceremony in the presence of the immediate friends of the contracting parties. The bride, who looked charming in a costume of blue crepe de chine with hat to match, carried a bouquet of bridal roses, was given away by her father, while little Miss Margaret Galbraith, niece of the bride, acted as flower girl, dressed in pink silk and carrying a basket of sweet peas. The groom's gift to the bride was a diamond ring, and to the little flower girl a pearl pendant.

Immediately after the wedding luncheon was served, and Mr. and Mrs. Steeves came by auto to St. John, where they took the Halifax express for an extended honeymoon. Many beautiful and practical gifts testified to their popularity. They will make their home in Seaview on their return.

REVIVAL SERVICES.

There was a deep spiritual interest in the Coburg street Christian church revival last evening. A good sized audience, for a stormy night, attended. Mrs. George Horton sang a solo nicely. Rev. S. B. Culp spoke on "The City of God," text Psalm 46:4-5.
