(Canadian Press.) New York, Aug. 9.—The Pirates were in third position today and making a bold bid for the higher berths held by the Giants and Cardinals, as a result of a slugging streak, surprising even the most violent batting outbursts this season and rivaling the best on the record books.

DEMPSEY AND BILL BRENNAN

Question of Permission for Challenge from the "Twilight."

Indianapolis, Aug. 9.—It was learned today that whether holding of the proposed heavyweight championship bout between Jack Dempsey and Bill Brennan at Michigan City, will be permitted, probably will be determined after an interpretation is placed on the Indiana boxing law by the attorney-general of Indiana.

New York, Aug. 9.—Jack Kearns, manager of Jack Dempsey, today received a telegram reading: "Charleston, W. Va.—Offer \$500,000, with twenty-five per cent. picture privilege, for Dempsey box 'Twilight' at Luna Park, Labor Day."

(Signed) J. A. HORGAN. The message was sent closed. Kearns paid the fifty-three cents charge. Asked what he meant to do with this "offer" out of the clear blue, Kearns said his first move would be to find out who "Twilight" is.

Conference May Fail; Possible Rupture Of Entente Spoken Of

Things Cannot Go On as They Are, Says Poincare.

Situation Over German Payments Very Difficult and Efforts Being Made to Prevent Breakdown of Conference—Britain and France Further Apart on German Question.

(Canadian Press.) London, Aug. 9.—Premier Poincare of France and Premier Lloyd George are apparently further apart on what is to be done with Germany than before they met, and the conference of allied statesmen is in danger of breaking up with Franco-British relations worse than they were and with no decision of moment on the reparations question. They may, however, agree to a short moratorium for Germany.

Premier Poincare has indicated to Lloyd George that things cannot go on as they are and that France may be compelled to take independent action. French newspaper correspondents attending the conference today, reported that the three premiers breakfasted together in Lloyd George's official Downing street residence at 9.30 a. m.

The committees of finance ministers and experts met again this morning to pass upon the terms of their report to the full conference later in the day. The only part of Premier Poincare's programme agreed to by the British was that regarding the taking over of the state forests and mines on the left bank of the Rhine.

Benevolence, Belgian expert, was requested by the committee to draw the report in a non-committal manner, simply arranging in order of least opposition the various proposals, with the estimates of the probable yield of each if adopted. The report begins with the suggestion that the proposed twenty-six per cent tax on German exports shall be collected as the shipping leaves Germany, and that the allied importing countries when the goods arrive at their frontiers.

C. G. M. M. SHIPS

This week's sailing list of the C. G. M. M. shows much activity along all the routes covered by the ships of the Canadian Mail. None are yet scheduled for lumber cargoes on the north shore. Eight more are still laid up at lake ports, having been taken there last fall. The Carrier, Commander, Ranger, Rancher, Trooper, are at Montreal, and are not routed out on the list, so it is possible that they may also be put into the coal service, although no announcement has yet been made.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "I heard a good oration story today." "The away," said Hiram, "I guess I can stand it." "It was in the good old days," said the reporter, "and a group of St. John leaders in financial straits were in London seeking legislation in the interests of the widows and orphans who had interest in the St. John street railway of that day. They were most pathetic in their appeal in behalf of the orphans. Tears dimmed their eyes and grief shook their bodies. He embraced the group in a sweep of his hand, and said:—'Behold the orphans!' The story may be exaggerated, but it is good—don't you think?" "Good enough to be true," said Hiram. "Yes, it's good enough to be true. I guess then fellows were the orphans all on the job. You don't hear to go for to look for 'em—nuther."

LEAVE FOR CHINA IN SEPTEMBER

Miss Jean H. Sommerville's Plans are About Completed for Her Missionary School Work.

Miss Jean H. Sommerville, who has been appointed by the foreign mission of the Presbyterian Church in Canada as teacher in the missionary school in Yveling, France, will leave St. John for there about September 10. Arrangements are being made by the St. John presbytery for her departure. She will probably take place in the first week in September in St. David's church. She will leave here about September 10, and spend a few days at Lunenburg and Winnipeg en route to Vancouver, via which place she will sail on September 21 on the C. P. R. steamer "Albatross."

NOT SERIOUSLY HURT.

A serious accident was narrowly averted this morning at the corner of Charlotte and Prince streets when a little girl named Kane was knocked down by an automobile and nearly run over. She and her mother and another child were crossing the street when the automobile turned into Princess from Charlotte street. The little girl was the last to leave the sidewalk and was knocked down before the driver saw her. The front wheel caught her foot, but fortunately the car was brought to a stop before the weight had passed over the little limb. Dr. F. T. Dunlop, who was passing in his automobile, decided that she was not seriously injured, and took her and the mother to their home where he made a more careful examination and found that the little one was more frightened than injured.

CATHOLICS IN WORK FOR PEACE

Try for Better Understanding by Ulster and Free State

Twelve Hour Battle Before Newcastle Captured by the Nationalists—Report Lee River Blocked at Entrance to Cork.

(Canadian Press Cable) London, Aug. 9.—Prominent Catholics of Dublin and Belfast are trying to effect a better understanding between the Ulster and Free State governments, according to the Daily Mail. This newspaper further states that all efforts to this end, which have all been taken with the advice and approval of leading English Catholics, are without official character.

Dublin, Aug. 9.—Nationalist forces defeated the Nationalist forces in a twelve hour battle, in which twelve irregulars were killed. The casualties of the Nationalists were less than those of the irregulars.

Dublin, Aug. 9.—A transatlantic steamer arriving here today reported that upon reaching Queenstown harbor yesterday her officers were advised that a vessel had been sunk across the narrow part of the Lee River, thus blocking entrance to Cork city.

New York, Aug. 9.—Seizure by Irish irregulars of cable stations controlling all but five of the thirteen lines over which most of the messages that pass between Great Britain and the U. S. are transmitted, brought about congestion and delay yesterday in communication between here and the British Isles.

Already overburdened because of the Commercial Cable Company's five lines being put out of commission when the cable was cut by the activities of the Y. W. C. A. and the I. O. O. F. Her departure means a great loss to St. John. Her activities were varied and her interests unflagging in every good cause.

Not far from Waterville. Armed forces, local officials of the company said, occupied the station and refused to allow it to be operated. The officials did not say whether the plant had been put out of commission or was merely being held in silence.

SCHOONER PUTS IN; SUFFERED IN THE BIG STORM

More evidence of the strength of Monday night's storm was afforded last evening, when the schooner Bertha Maguire limped into port crippled. The schooner left here on Sunday bound for Hamilton, Bermuda. On Monday evening when off Grand Manan, the storm struck the schooner as she was proceeding. The hurricane broke away her main top mast and split her sails to ribbons. She lay over night, and proceeded back to port yesterday. Fortunately, the blow did not last long enough to cause very high seas, or a greater misfortune might have occurred. The Bertha Maguire is a vessel of only 100 tons, and is commanded by Captain Maguire, and has a full cargo of whiskey.

EIGHT SHOT IN NEW YORK STREET

Auto Dashes Into Crowd and Firing Begins.

A Bootleggers' Feud, Say the Police, With Attempt to Kill Joseph Nasser at the Door of His House—Wild Scene.

(Canadian Press.) New York, Aug. 9.—An automobile carrying four men burst into a crowd of clothing strikers gathered in front of Beethoven Hall, in East Fifth street, yesterday, opened fire and dashed away, leaving eight men lying wounded in the street.

First reports indicated that the fray might be part of a labor war, but the police decided the shooting occurred in connection with a bootleggers' feud and that the wounded had been shot when they attempted to stop the car feeling after an attempted murder in Second avenue, just around the corner. Reports from Bellevue Hospital indicated that three of the wounded might die.

So dense was the crowd that assembled after the shooting, and so wild the confusion, that it was many minutes before police reserves could clear the scene and treat the injured. The car was lost track of.

The story starts at Second avenue and Fortieth street, where Joseph Nasser, was standing in front of his home. Nasser, according to the police, is out on bail in connection with the shooting of Silvio Tagliamanna, at Grand and Mulberry streets about two months ago.

REFUSE THE HARDING OFFER

Decision of 25,000 Railway Shop Workers

Mark Time Until Friday in the General Situation in the States - President Wants House in Session in Case of Emergency.

(Canadian Press) New York, Aug. 9.—Twenty-five thousand rail shop craft workers, through David Williams, secretary of the eastern strike committee, today sent a telegram to B. M. Jewell, at Chicago, putting themselves on record as refusing to accept President Harding's proposal for submitting the seniority question to the railway labor board.

Washington, Aug. 9.—The rail strike situation in the U. S. appeared destined to mark time until next Friday, although executives of the striking shop craft unions were in Washington today to consider President Harding's second proposal for a voluntary termination of the walkout.

Shop craft federation leaders here have stated that the reply to the president's communication proposing immediate resumption of work and reference of the seniority issue to the railroad labor board for decision would be submitted to the general conference of railroad labor heads here Friday before it was sent to the White House. As the railroad executives will meet today in New York to draft their answer to the administration plan, active developments in the situation before the end of the week were improbable.

Rejection of the administration plan by the workers in general accepted as certain. Forecasts as to the course of the managements are not so definite.

Mr. Harding yesterday indicated to house leaders that he was desirous that the house remain in session when it recesses next Tuesday and abandon plans for a series of three day recesses to await senate action on the tariff and other matters.

With both senate and house in session it would be possible for the president to carry the rail and coal strike problems before the law making body next Tuesday, if he so desired, and ask for legislation that would permit the government to move directly toward restoration of industrial peace with the power of law behind it.

CLAIMS CLIENT IS OF CONSPIRACY

Montreal, Aug. 9.—Declaring that D. C. Macarow, former general manager of the Merchants Bank of Canada, charged with making false statements in the October, 1921, return to the federal government, was the victim of a conspiracy on the part of two or three persons, who, having decided to destroy "their house" proceeded to build up a reason or an excuse for themselves, N. K. Lafamme, K. C., representing the accused, this morning conducted the address to Judge Desaire he began at the opening of the trial yesterday.

COLOSSAL FIRE LOSSES

Fire losses in the United States in 1921 were more than half a billion dollars. Fire loss adjustments made by insurance companies in the United States and Canada during the past fourteen years amounted to \$3,414,726,220. The average yearly loss was \$246,628,200. The loss for 1920 was \$380,853,828.

Losses from fire in the United States average \$3 per capita per year. France has a per capita loss of forty-nine cents; Great Britain, thirty-three cents; Germany, twenty-eight cents, and Holland, seven cents.

During the past fourteen year period U. S. fire losses were 28.1 per cent of the value of new building construction. In 1920, although an abnormal amount of building was done, the fire losses were 23.5 per cent of the value of new buildings.

Startling as these losses are, they do not tell the whole story. They represent only the actual insurance adjustments made. They do not take into account losses due to the fact that buildings are seldom insured for more than 80 per cent of their full value, nor do they include losses not covered by insurance. The insurance adjustments made probably do not exceed 70 per cent of actual fire losses, including both insured and uninsured.

REFORMS IN FIJI ISLANDS

Minor reforms have been obtained in the Fiji Islands, according to Rev. W. R. Steadman of Suva. Most important of all is the closing of bars on Sunday. The general idea of Europeans in the Islands is that the natives should be restrained from getting liquor, but that the Europeans themselves should suffer no such restraint. Nevertheless, according to Rev. Mr. Steadman, Prohibition sentiment seems to be gaining.

Deprived of its four per cent beer, South St. Louis, former centre of the brewing industry of the United States, has now taken to water. Water Commissioner Wall told the Board of Public Service that since Prohibition the consumption of water in South St. Louis has increased enormously. As his recommendation the board approved the expenditure of \$190,000 for a new pump in the district of supplying an additional 20,000,000 gallons of water daily.

DOUGLAS AVENUE AUTO CASES

Some traffic cases occupied the attention of the police court this morning. With the exception of one case, all reports about speeding in Douglas avenue in ordinary motor cars were characterized by some sharp passes between the policeman who made the report and the motorist.

Policeman McBrien for speeding in Douglas avenue at 7:10 on the evening of August 7, Mr. Wetmore was fined \$10.00 for speeding. The car was going at 40 miles an hour, and was going and was told between eighteen and twenty miles an hour.

Questions as to how he knew the car was going at that speed the policeman said he had a distance of 450 feet staked out, and going at twelve miles an hour, the speed allowed by law, a car should take forty-four and a half seconds to travel the distance.

Mr. Wetmore then maintained that he was not on the avenue at 7:10 that evening. He went on the stand and swore that at that time he was at dinner in the Dufferin Hotel and had not left the hotel until about 7:25. Asked by the magistrate if he would swear that he did not pass out the avenue that evening at a speed greater than twelve miles an hour Mr. Wetmore said he would not, as no car that traveled the avenue kept to the speed limit. A fine of \$10 was imposed and allowed to stand.

Ernest G. Mowry, driver of a truck, was passing out the avenue on Monday at twenty miles an hour. He was assessed \$10.00, which was allowed to stand.

QUEBEC HAS A LARGE SURPLUS

Quebec, Aug. 9.—(Canadian Press)—The final report of the province of Quebec for the fiscal year ended June 30, 1922, shows a surplus of \$5,033,445. In ordinary operations, the province's ordinary receipts were \$21,609,396.10; ordinary expenditure, \$16,575,951.03. These figures surpass those of the previous year, but it is necessary either by the prime minister or by the government.

COMPROMISE ON THE SUGAR DUTY

Washington, Aug. 9.—The senate approved yesterday a rate of 2 1/2 cents a pound in the tariff on sugar; rejected a plan for a government bounty of \$9,500,000 for domestic potash producers in ordinary operations and voting an impost of two cents a pound on white arsenic. The tariff in the existing emergency act was a compromise between the 2 1/2 cents proposed by the house and approved by the finance committee majority. It is three tenths of a cent above the tariff in the existing emergency act, and 1.05 cents above that in the Underwood act.

CLOSE WORK IN QUEBEC RIFLE SHOOTING MATCH

Montreal, Aug. 9.—Conditions generally were good for the first day's shooting here yesterday at the Pointe Aux Trembles ranges of the 47th annual prize meeting of the province of Quebec Rifle Association.

Two events were completed yesterday. The first was the Tyrone match, re-named this season the Molson match, which was won by Guardsman J. Douglas, who graduated out of his class with a score of 47.

The team match in connection with the Molson match was won by the Canadian Grenadier Guards. The chief event of the day's shooting was furnished by MacDonald's "Brier" match, won by Sgt. F. Trempane, of the Voltigeurs of Quebec, with 84 at 800 yards and 32 at 600 yards.

Major T. Pugh, of the local headquarters staff, came second with a total of 65 and beat out for the place Major S. G. Bacon, Royal Canadian Garrison Artillery, Halifax, who also had a total of 65 and had 33 at the 800 yard range and each 82 at the 600 yards, but Major Pugh ended with a bull while Major Bacon had an inner and the difference lost second place.

IN WALL STREET

New York, Aug. 9.—(10:20)—Opening prices on the stock market today were irregular in relatively light dealings, but tended downward later on selling of high-grade rails, Studebaker, Baldwin and Mexican Petroleum. In so far as rails were concerned, the government's bumper crop report apparently was offset by publication of statistics showing a decrease in car loadings of revenue freight, Northern, Canadian and Union Pacific declining large fractions to one point. Active bidding for People's Gas lifted it 2 3/4 points to a new high for the year. Dome Mines and American Steel Foundries also reached peak prices on moderate advances. Mexican Petroleum was off a point, and Corn Products dropped 1 3/4. Baldwin dropped a point, while lesser losses were registered by Studebaker, Kelly Springfield, United States Alcohol, Cuban American Sugar and Cuba Cane Sugar preferred. Kresge, with a gain of two points, led the specialties, other strong features of which were Burns Bros., A. Lyan.

Demobilize the Fascist. Rome, Aug. 9.—It is announced that Benito Mussolini, leader of the Fascist organization, has instructed the secretary general of the Fascist to order by telegraph the demobilization of all the Fascist throughout Italy.

MUST PAY DAMAGES DONE BY FIRE CAR

Interesting Judgment in Peterboro Relative to Chief Rushing to Fire.

Peterboro, Ont., Aug. 9.—A county court judgment of considerable interest locally and elsewhere was handed down by Judge E. C. S. Huycke, in which William Nottall was awarded \$98.40, the amount of his claim, together with costs in an action brought against the city. The action was the outcome of an accident in which Nottall's automobile was struck by a fire department car. This car was which former Fire Chief George Grange to a fire.

The suit involved the question of the traffic rights of motor-driven fire apparatus, and in this case the fire department was held responsible for the collision. Judge Huycke ruled that fire vehicles must keep to the right side of the road, and in this particular case decided that the chief car was being driven on the wrong side of the road, making the city liable for the damages to the plaintiff's car.

Interpreting the statutes the judge found that the municipality is responsible for its fire department officers in the discharge of duty. In a letter which will reach the city council, City Solicitor C. R. Widdifield opines that the

TIRE OF LIFE, TRIES TO DIE.

Girl Collapses After Taking Iodine but Will Recover.

New York, Aug. 9.—She was "tired of life" was the explanation of Kate Cavanaugh, 25 years old, of 641 Tenth Avenue, for mixing iodine with a widely advertised nerve tonic she had just purchased at a soda fountain.

The young woman collapsed in the street and was removed to Bellevue Hospital. It was found that the dose had been small and that she probably would live.

CHINA'S PARLIAMENT MEETS AFTER FIVE YEARS

Peking, Aug. 9.—China's parliament, resuming yesterday the sittings began on August 1, after a lapse of nearly five years, due to internal disorders, faced strong representations for the speedy adoption of a constitution.

Luan Hung, president, and Wu Pei Fu, whose military successes paved the way for Li's resumption of office, have gone on record as favoring an organic law in the same form as that of the United States.

NEW BLACK CARVING OF THE MADONNA OF LORETTO

Rome, Aug. 9.—The duplicate which the late Pope Benedict XV ordered made of the famous Madonna of Loretto is now completed. The original statue was burned last year together with the altar on which it stood at Loretto. It is a small black image of the Virgin and Child, and, like the original, was carved from Lebanon cedar. The original was popularly believed to have been sculptured by St. Luke, but the workmanship suggested that it dated from the latter half of the fifteenth century. The Pope

The Value of Time

By KRONOS

Publications by HAROLD DELAY

CAESAR'S every campaign, his every act, proclaimed his mastery grasp of the Value of Time.

While Caesar's foes debated, Caesar struck. Forced marches across the Alps brought his legions from Rome to Geneva in eight days, an average of a hundred miles a day. To checkmate the German hosts invading Flanders, Caesar built in ten days his famous bridge across the Rhine.

His enemies at home decreed his resignation by a stated day. Caesar instantly declared civil war by plunging across the Rubicon. His punitive war in Asia Minor lasted five days. His message of victory was put into three words. His battle cry was "Now!"

Caesar's greatest contribution to the art of timekeeping, the Julian Calendar, stood for sixteen centuries. It came within three hundred years of bridging the gap between the crude water clock of ancient Rome and those marvelous timekeepers of our own day—

Elgin Watches

Caesar's achievements with the Roman water clock, prior to his invasion of Britain in 55 B. C., showed him that the night was shorter in that month, necessitating vital changes in his plan of campaign.

her body were found on a nearby beach next morning.

Attorney General Merlín Wiley is in the city and is taking a personal interest in the investigation, renewed since the finding of new evidence.

Deputy Attorney-General Converse and two state troopers concentrated their attention on the mystery recently and two suspects have been arrested—Clifford Harrison, eighteen years old, and Mrs. Ruth Knulson. Both are charged with digging up the body of the woman.

Authorities of the entire district and citizens, incensed by the robbery, at the time did all possible to bring about arrests. They were unsuccessful, and for nearly two years solution of the mysterious crime has apparently been at a standstill.

Then state officers arrived, and search was renewed. The first tangible evidence was found last Thursday, although what it was the authorities refused to say. A number of others, persons possibly prominent in the life of the district, are believed implicated. Arrests are expected at any time.

Citizens are wrought up over new evidence, bits of which have seeped out and have grown with the passing from month to month. In certain quarters threats against the two held have been heard, and the authorities are making an effort to insure their safety.

HELD ON CHARGE OF ROBBERY GRAVE Woman and Youth Under Arrest—Two-year Mystery May be Solved.

Sault Ste. Marie, Mich., Aug. 9.—Chippewa County and State officials believe they are about to tear away the veil of mystery surrounding since the fall of 1919, the Drummond Lake grave robbery. The body of Mrs. Anna Fairchild, an aged woman, suffering at her death from a peculiar paralysis, was exhumed at that time and backed bits of

Scardigil, a waiter, to request quiet. Durnherr, who apparently had been drinking, slammed the door in the waiter's face. Scardigil later reported to the police that in the brief moment the door of the furnished room was open he saw Mrs. Durnherr prone on the floor, bleeding.

About an hour later screams, which attracted not only the attention of patrons of the cafe but also persons in the street, brought Mrs. L'Homme to the Durnherr room to add her appeal for quiet. She was assured by Durnherr, who came to the door, that "nothing's the matter." She said she also noticed Mrs. Durnherr, seemingly unconscious, lying on the floor bleeding from the left side of the neck.

A third visit to the room by Mr. L'Homme continued later, when the quarreling couple, elicited the reply from Durnherr, it was said, that "it's all over now."

The murder of Mrs. Durnherr, one of the most gruesome with which the police have had to deal in recent months, was the culmination of a prolonged quarrel between Durnherr and his wife. The couple, in their room on the fourth floor of the rooming house, made so much noise Saturday night that Charles L'Homme, proprietor of the Cafe Francaise on the first floor, sent Reuben

PARENTS' ACT IS AIDING TORONTO

A Case Before Judge Mott Shows Working of New Law. Toronto, Aug. 9.—Toronto is saving money by the operation of the unmarried parents act, which recently became law. Judge H. S. Mott, of the Juvenile Court, is administering this act. A typical case which came before him shows how it is aiding the law payers. A man who was said to be the father of a child born out of wedlock was brought before the judge. The unmarried mother had little or no means. "Yes," said the man, "I paid her \$100, with I am not admitting that I am the father of the child."

However, it was not hard to prove it and in a few minutes the judge had made the necessary order declaring the man to be the father. Then he ordered the father to pay twelve weeks' board for the unfortunate woman, and to pay \$4 a week for the keep of the child until it reaches the age of 16.

That meant a total of \$320. In this case the child would have been made a ward of the children's aid society in all probability, and the cost of its upkeep would have been charged to the city.

IS ARRESTED FOR CLOCK MURDER

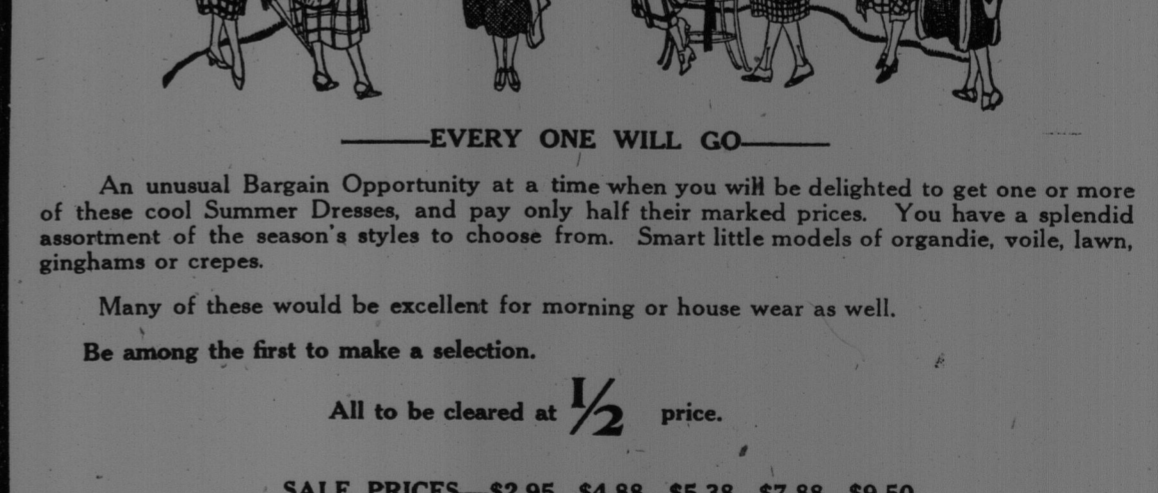

Leo Durnherr, Asleep With Bloody Clothing Near by, Found in Hotel. New York, Aug. 8.—Leo Durnherr, 38, said to be a member of a prominent Rochester, N. Y., family, was arrested in the Hotel Scarborough, 206 West Forty-third street, four hours after Mrs. Dorothy Durnherr, his wife, 33, had been found dead in a rooming house at 112 West Forty-fifth street, her skull fractured and her body badly mutilated by an alarm clock with which she had been beaten. The husband, his clothes clotted with blood and his shoes bearing tell-tale strands of a woman's hair, is said to have admitted his guilt to the police.

Durnherr, who used various derivative names, such as Dunber, Duinhen and Dreinharr, was arraigned on a short affidavit alleging suspicion of homicide and held by Magistrate Sweetser in the West Side Court for examination. He was said to have told Detective William A. Moore, one of the arresting officers, that he was out on \$5,000 bail for an offense the nature of which he declined to divulge.

Lloyd George pointed out that the allocation of Smyrna and the two adjoining vilayets to Greece was the action of the five powers at Versailles, and that they were handed over to Greece because they were predominantly Greek in population, wealth and historic association.

Supposedly, demanded the Prime Minister, Armenians were in control of Asia Minor and had been guilty of the atrocities, would this country not have been bound to intervene?

Mr. Lloyd George said the position now was that the Allies were defending Constantinople against the Greeks, who undoubtedly would occupy it forthwith if the Allies were not there.

There are even suggestions," he continued, "not altogether without foundation, perhaps, that the Kemalists have been re-equipped from Europe, and under any other conditions the Greeks would have been entitled to blockade the coast of Asia-Minor and prevent arms from going to Turkey."

ISLAND OF CEYLON FOR PROHIBITION

Legislature Has Passed a Resolution Asking for a Dry Law.

(By William E. Johnson.) Ceylon, an island off the South Coast of India, comprising a British colony in itself, is about to go dry, largely because of American leadership and influence.

On November 11, 1921, the day before my departure, the Buddhist members of the legislative assembly thought it an opportune time to propose a national prohibition resolution. The resolution called upon the government in the usual way to prepare and introduce a prohibition bill to take effect as soon as practicable.

THE COMMODORE AND THE SUNSET

Commodore Stewart of the Chatham World, in a letter to his paper describing a trip in a tramp steamer from New York, gives the following description of a sunset at sea:

"But the sunset—the sunset! It was the loveliest, the most gorgeous and the longest of life of any sunset I remember. I've seen them on the Atlantic, or the Pacific, and in the tropics, but this was the best I ever saw, and it lasted for an hour or more, changing its form and hues without lessening its beauty.

NEW LAW WILL BAN RISKY AIR STUNTS

Pending passage of the re-drafted Wadsworth-Hicks bill providing for a Bureau of Commercial Aviation in the Department of Commerce and which now provides for unified air control, the draft of the safety code is tentative, but its original provisions will include:

Inspection of aviators and aircraft in connection with the granting of licenses to pilots and air transportation companies prohibition of dangerous proximity of aircraft in flight; rules governing personnel and equipment of airframes, including medical and signal equipment, aircraft radio regulation rules for landing fields; lighthouses for night flying and landing.

MONARCH LIFE ASSURANCE COMPANY. Head Office—WINNIPEG. PURPOSES ESTABLISHING AGENCIES WITHIN THE MARITIME PROVINCES THIS FALL. Correspondence is invited which will be treated in confidence.

On November 11, 1921, the day before my departure, the Buddhist members of the legislative assembly thought it an opportune time to propose a national prohibition resolution.

When a fellow needs a friend—EVER wake up in the morning feeling fagged and foggy? Tired muscles and weary brains call for a breakfast of Grape-Nuts, the friendly, easily digested food, to fortify against exhaustion.

NEWS NOTES ABOUT PROMINENT BAPTISTS

(Maritime Baptist)

Rev. Clarence F. Blakney has accepted the pastoral care of the North River, P. E. I. group of churches succeeding Rev. H. G. Melick as pastor. Mr. Blakney is one of our own young men, having been born in New Brunswick. He has for some three years, served as pastor of a church in Bridgewater, Mass., whose papers speak highly of his work. These papers state that Mr. Blakney has been particularly interested in young people, knowing their needs and reaching them on familiar ground. His energy and enthusiasm have carried him into work beyond his immediate congregation so that he has become well and favorably known throughout the city of Bridgewater. The pastors of the North River group, Mr. Blakney will find full scope for his energies.

 Want to Play St. Stephen.

The Newburyport is anxious to arrange a game with the St. Stephen team, according to reports. A game was advertised there on the occasion of the last trip of the team here earlier in the season, but owing to a misunderstanding the Newburyport outfit was unable to fill the date. Manager Ford hopes there a satisfactory arrangement can be completed with the border team within a day or two.

LOST WORD STARTS LIVE ONE TO MORGUE
 "Dead Drunk" Said Cop, but the Desk Sergeant Got it "Dead."

New York, Aug. 9—There is nothing in the record to show when Stephen Schim got it, but the entry on the blotter at the Kings Bridge police station says that he spent a wet Sunday. So thoroughly was Stephen moistened, in fact that along after dark he lay down on the sidewalk at Jerome and Burnside avenues in the Bronx, to dry out. A benevolent citizen walked by, saw the motionless form impeding foot traffic, concluded that he was gazing upon a lifeless man telephoned to the police station.

Lieutenant Holihan sent Patrolman McDonald to deal with the case. McDonald's diagnosis was swift and easy; this was no case of sudden death on the highway.

"Unidentified man, dead drunk, send the wagon for him," was his telephone message to the lieutenant.

Now Holihan was laboring under the power of the benevolent citizen's original suggestion, and moreover there was a bus on the wire, so the order he conveyed to Mat Shields, driver of the patrol wagon was:

"Go over to Jerome and Burnside and take a dead one to Fordham Morgue." While Shields was getting started, Holihan telephoned to the Medical Examiner's office, and Dr. Karl Kennard set out to investigate the death.

The wagon arrived and Shields and McDonald lifted the inert young Mr. Schim into it.

"He's taken him over to the house and book him for being drunk," said McDonald.

"We'll take him to the morgue," said Shields.

"He's alive," said McDonald.

"He's officially dead said Shields.

"The lieutenant told me to take him to the morgue and to the morgue he goes."

"It's a nasty place for a fellow to come out of it, with all those around," said McDonald.

"Orders is orders," said Shields. More of that, and then the two policemen, unable to agree, decided to refer the whole affair back to the desk lieutenant for arbitration. Holihan agreed to be one of those men, who is able to change his mind, and his orders, and readily consented that Schim should be brought to the station or taken to a hospital.

Dr. Kennard came in time to confirm McDonald's diagnosis and Dr. Allison, arriving in a Fordham Hospital ambulance agreed that the best place to sleep it off was in a cell.

They disturbed Stephen just long enough to learn his name and that he lived at 4278 Third Avenue and followed taking as a trader. Then they let him go peacefully back to sleep, all unaware that he had come very nearly to spending a night among the totally dead ones.

HOOVER UPSET OVER BREAKING OF SHELL
 Champion Sees His Prized Boat Badly Damaged by Expressman.

Walter M. Hoover, world's champion sculler, who was at Philadelphia for the Golden Jubilee regatta of the National Association of Amateur Oarsmen, left for his home in Duluth downcast—his prize shell was broken.

After the regatta a dozen shells belonging to the Duluth Boat Club, were packed and sent to the express office for shipment. Among them was the shell in which Hoover won the gold challenge cup at Philadelphia and the diamond shells in the English Henley. One of the employees of the express company was walking across the array of craft when he slipped and fell. His foot went through the champion's shell, ripping a big hole in the bottom. Hoover witnessed the accident. He said the craft would be repaired in Detroit.

NEWBURYPORT AND ST. PETERS THIS EVENING

The fast Newburyport (Mass.) baseball team will be back here this evening for another game with the St. Peters. The visitors are out this evening on a schedule without suffering a defeat, and they have been successful in this ambition thus far, but the locals are determined to stop their winning streak tonight. McCourt, who pitched the game for the visitors last Saturday afternoon, will probably twirl for the Newburyport team.

Vienna today, has dispatched a note to the Allies couched in diplomatic terms, expressing fear that the release of liens on Austrian property has come too late. The note hints at the possibility of defaulting in government debts and urges the powers to provide adequate guarantees for the new Austrian bank of issue, which is now being established.

ENJOYED IT GREATLY.
 Members of the Last Car Club spent last evening at the home of Mr. and Mrs. S. Coddell, Riverview, Pokok, where Mr. Crane was next at the weekly meeting of the club. The prize winners at progressive whist were Mr. Olson and Mrs. Nielson. Consolation prizes went to Mr. McLean and Miss Carier. Delightful refreshments were served and the hours passed pleasantly and all too quickly.

LOCAL NEWS

POLICE COURT.
 One man, arrested yesterday morning in the city market for drunkenness was fined \$8 this morning in the police court.

A GOOD SIGN
 That interest is already being manifested in the coming exhibition was evident this morning when a number of small boys went into an up-town store and asked one of the clerks, "how much are the exhibition tickets for little fellows?"

AT SAND POINT
 The work of repairing the trestle at No. 3 shed in West St. John is progressing favorably and the city workmen have all but three tents raised. When these have been properly placed the C. P. R. will take over the work and put on a deck of stringers and ties.

BUSY AT THE DEPOT
 Depot officials were bending every energy today in getting the picnic crowds transported to Torrvurn safely. The first three trainloads were transported in good style. On account of the large number of children the trains were run out very slowly.

BASEBALL
 The machine gunners and the re-entry team will play at 7 o'clock tonight on the Barracks diamond.
 The Live Wires accept the challenge of the Long Whir & Maple Leaves for a game on the RR kwood Park diamond on Thursday night.

NO MORE
 Commissioner Bullock recently received a communication from the Board of Health complaining that decayed material was being dumped near the mill pond in West St. John. City Engineer Hare investigated and found a large quantity of decayed meat about eight feet from the bank near the corner of Ludlow and Rodney streets. The meat was buried and a sign placed there prohibiting any further dumping.

HANDKERCHIEF SHOWER.
 A very interesting surprise was given to Mrs. W. E. Hamm of Pleasant Point on Monday evening, when the Golden Rule Class met at the home of her daughter, Mrs. Ernest Arbo, and tendered her a handkerchief shower in honor of her birthday. Mrs. Hamm has been ill for several months, and friends who also gave her a handkerchief shower through the mail will be glad to hear that she is greatly improved.

PROBABLY ALL RIGHT
 Judging from reports from the General Public Hospital this morning as to the condition of Leslie Gordon Stevens, the little boy who fell from an upper window the other day, he is probably all right. He is a little if any the worse for his experience. He was able to sit up in bed this morning and eat breakfast. He appeared quite bright and talked to the nurses as though nothing had happened.

WIDEN APPROACHES
 The C. P. R. are planning on widening the approaches to their freight sheds from Mill street. Yesterday afternoon Engineer C. C. Kirby, Commissioner Frink and road Engineer C. N. Hutton went to Mill street and looked over the site where the proposed changes are to be made. The expense of the work will be borne by the C. P. R.

THIS AFTERNOON
 Another step forward was probably be taken this afternoon when those interested in the making of a New Brunswick film will meet Ernest Shilpan, who is promoting the project, and discuss various matters pertaining to the carrying out of the idea. It is expected that something of a definite nature will be decided on this afternoon. The meeting will be held in the Board of Trade rooms in Prince William street.

HOME AFTER CONVENTION
 Dr. W. P. Broderick and Mrs. Broderick returned to the city this afternoon after an extended trip. While away Dr. Broderick attended the sessions of the 4th degree Knights of Columbus at Montreal, and also the supreme convention of the K. C. at Atlantic City from August 1 to 8. Doctor and Mrs. Broderick also visited New York, Boston and Philadelphia while in Philadelphia they were speaking to Harry Belyea.

COLWELL-GILLMOR.
 At the Germain street Baptist parsonage on August 8, Miss Althea Ash Gillmor, daughter of Mr. and Mrs. Hampden Gillmor of Bonny River, was united in marriage to Roy Burton Colwell, son of Mr. and Mrs. J. Colwell of this city. The ceremony was performed by Rev. S. S. Poole. The bride looked charming in a suit of navy blue tulle with hat to match. She carried and carrying a bouquet of Opillia roses. The bride is a graduate of the General Public Hospital, St. John. Many beautiful presents were received, among them being a chest of silver from J. M. Dimock & Co. and staff, with whom the groom is employed. After a short motor trip Mr. and Mrs. Colwell will reside at 140 Victoria street.

ARE RE-UNITED AFTER 20 YEARS
 The Times Again Proves the Happy Medium of Bringing Relatives Together.
 After being separated for more than twenty years, two sisters enjoyed a happy reunion yesterday through the agency of the Times. It was chronicled in this paper last evening that Mr. and Mrs. W. M. McLeod, of Stoneham, Mass., formerly of Penobscot, were visiting in the city, the guests of Mr. McLeod's sister, Mrs. N. M. Campbell, 285 Charlotte street. While here Mrs. McLeod had been making endeavors to locate her sister of whom she had lost track. It was thought possible that she might have been in St. George. All efforts were fruitless, until Mrs. McLeod was advised to try the Times. Less than two hours after the paper appeared last night, the two sisters were in each other's arms. Mrs. McLeod's sister is now Mrs. Matilda Gallant, of St. Patrick street. Her husband is dead. Needless to say, a very happy evening was spent last night by the re-united sisters, and both feel very grateful to the Times for the help which it was able to give.

WHAT THE HEALTH CENTRE WILL DO

Means Much for Good of City and Province

Drive of August 15 Should be Great Success—Final Arrangements for Tag Day Being Completed—Some of the Workers.

A movement has been started in Saint John to open a health centre for the people of Saint John and vicinity. Several suitable buildings are under consideration at present, and the centre will have the roof of all agencies working for better health conditions in this city as—

Tuberculosis Dispensary; V. O. N. day quarters and infant welfare clinics; sub-district board of health of Saint John city and county; free dental clinics for children; school medical inspector's office and clinics; eye refraction clinic; pre-school age clinic, (for well children 2-4 years old, for physical examinations in order to correct early defects); posture clinic and nutritional clinic, (through which it is hoped to develop open air classes and schools for those children and later on summer homes); mental hygiene clinic; social hygiene clinic and director public health nursing service of New Brunswick.

It is also hoped to establish here a school for the training of public health nurses for service in the Province of New Brunswick, also to establish here a summer school for the partial training of the rural woman in bedside care as "trained attendant" thereby giving to the rural areas a very valuable nursing service and one which will be within their means.

The new building will be used as a demonstration centre in public health both in Saint John and the entire province and the greater the success of the drive of August 15, the greater will be the immediate effectiveness of the centre.

The infant mortality during 1921 in Saint John was 187 per 1000 births i. e. (187 children out of every 1000 born died before reaching one year of age). In the Province of New Brunswick the number was 188 per 1000 births and, excepting Quebec province, New Brunswick had by far the highest death rate of infants in Canada. Three quarters of the rate is unnecessary, and answerable to intensive public health civilization, and our infant mortality is the criterion of our civilization.

It is better cheaper to save and to keep in good health our own Canadian babies and children than to bring in immigrants and hope to make good Canadians of them. Canada loses 25,000 infants every year, and eighty per cent. of all infants are born ill, that is free from disease. New Zealand has reduced their infant mortality to forty per 1000.

The final arrangements for the coming tag day are being completed by the local health authorities, under the direction of Miss Jessie McLeish. The various districts have all been divided among the workers and a convenor has been appointed to see that every person has the opportunity to contribute towards this good work.

The wards and districts and the convenors appointed for them are as follows:—
 Guys and Brooks, Mrs. E. A. Young; Lorne, Mrs. J. A. Mowry; Lunenburg, Mrs. L. Miller; Stanley and Millidgeville, Mrs. J. Fraser Gregory; Dufferin, still undecided; Kings, Daughters of Empire, Mrs. L. Leases; Queens, Mrs. A. C. D. Wilson; Catholic Women's League, Mrs. Richard O'Brien; Sydney, Mrs. F. E. THEIR CARDS ARE ON THE TABLE

The Hardware Clerks Association Can See No Cause for Secrecy.

Roy A. Willet, president of the Hardware Clerks' Association, said that this morning there had come to his ears one or two reports that a certain organization resented the action of the hardware clerks in reporting their meeting to the press before the meeting of the executive of the United Organizations. Mr. Willet added that so far as the Hardware Clerks' Association was concerned they were working with the cards on the table, and the public know just where they stood. Their association had no axe to grind, and neither looked for nor expected any favors from anyone, but was working entirely in the interests of the citizens of St. John, and considering the number of communications that had been received from approving taxpayers, urging the hardware clerks to keep up the fight, it was felt they were on the right track. "We shall give the press a full report of our actions at all times," said Mr. Willet, "and we are now lining up for a big campaign, if necessary, in order that the wishes expressed by the voters in April last shall be carried out."

TO WORK AT NIGHT
 Commissioner Frink announced this morning that he will put a crew of men to work on Prince William street to-night so as to rush the paving through to completion.
