WARRING NATIONS OF EUROPE DECLINE MEDIATION BY UNITED STATES; IT WILL BE A FIGHT TO A FINISH

RUSSIAN FLEET WANTS TO GET OUT OF BLACK SEA; DEMAND MADE

Requires Turkey to Give Passage of Dardanelles--Unconfirmed Reports of Defeats of Austrian Navy by English and French

London, Aug. 17--(6.40 a. m.)--A despatch from Copenhagen says the Politiken publishes a telegram from Constantinople stating that Russia has demanded from Turkey permission for the unrestricted passage of the Russian Black Sea fleet through the Dardanelles.

The Russian fleet in the Black Sea since the beginning of warlike operations, has captured 100 German and Austrian merchant vessels trading in those waters, many of them were tank steamers conveying oil.

AUSTRIANS WHIPPED IN ADRIATIC? London, Aug. 17--(6.40 a. m.)--A despatch to Reuters' Telegram Company from Nish, Serbia, under date of Sunday, says: "A naval battle between French and Austrian warships began off Budua, Austria, in the Adriatic, at one o'clock this morning. The French squadron coming from the southwest, attacked the Austrian warships. Two Austrian ironclads were sunk, one was set on fire and a fourth fled northwards, towards Cattaro. The fight lasted over an hour."

BRITISH BATTLESHIPS CHASE AUSTRIANS London, Aug. 17--(12.15 p. m.)--A despatch from Rome to the Exchange Telegraph Company says it is reported from Ancona, that four British battleships chased the Austrian cruisers Aurora and Salgetvas, which were blockading the Adriatic. The British vessels were pursued until they took refuge in the naval station at Pola.

CRIPPLED GERMAN CRUISER London, Aug. 17--(12.15 p. m.)--A despatch from Amsterdam to the Central News says the captain of the Dutch steamer Epilon, on his arrival at Yumuden today, reported seeing a German Drednought in the harbor at Trondhjem, which had been put out of action. Her funnels were smashed and on one side she was scarred with holes from shell fire. The official news bureau here. No confirmation of the report has.

GERMAN CRUISER AT SAN FRANCISCO. San Francisco, Cal., Aug. 17--The German cruiser Leipzig which, stripped of action, has been patrolling the coast of this harbor for the last week, entered San Francisco bay early today and anchored just inside the Golden Gate. The vessel sent word ashore that it desired to communicate with the German consul.

Austrian Captured. Alexandria, Egypt via London, Aug. 17--The big new Austrian Lloyd liner Martenland was captured on Saturday by British warships near here, while on the voyage from Bombay to Trieste. She was brought into port.

Vancouver, B. C., Aug. 17--The British sloop-of-war Albatross, which had an exciting trip up the California coast, dodging the German cruiser Leipzig, is now safe in Esquimalt Harbor.

Members of all units in the city are now actively engaged in drilling, preparatory either to leaving for the overseas service or to aid, if necessary, in the defence of Canada, with headquarters at the Lower Cove Armory, which is crowded with uniformed men. The infantry volunteers recruited by the 69th regiment officers are up to the required quota for the European service, but more are each day being added for the home defence. With the artillery, more men are needed for both the home and foreign service, and recruiting is being steadily advanced.

It is not definitely known as yet just when the local units will leave for Quebec prior to sailing for the old country, but the probability is that it will be at least a week. The infantry and signalers will very likely leave first, while orders to Col. B. R. Armstrong, commanding the 8th Regiment Canadian Artillery are that that body will continue to fit themselves for service in St. John. Their departure therefore, will be somewhat later than that of the infantry. Lt. Colonel J. Phelan and Phelanand WEATHER BULLETIN Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis--Since Saturday showers have occurred in many portions of the western provinces, also over the greater portion of Ontario.

Fair and Warm Maritime--Moderate west to south winds, fair and warm Tuesday, with scattered showers, but mostly fair and warm.

New England Forecasts--Unsettled tonight and Tuesday, probably occasional showers, gentle to moderate shifting winds.

These British tars are seen working one of the deck guns of a cruiser. Note the hood protecting the gun crew and the mechanism of the breech.

BRITAIN LOSES NOTED GENERAL

Sir James M. Grierson Dies Suddenly in Train at Home

London, Aug. 17--Lieutenant General Sir James M. Grierson died suddenly in a train in England today. He was born in 1849 and was one of the foremost of British military leaders. He had a long war record, and at the time of his death held the eastern command in the British army.

GERMAN SPIES IN ENGLISH UNIFORM

Nine Executed in Liege--Four Others Dressed as Women

London, Aug. 17--The Daily Telegraph's Rotterdam correspondent says that nine German spies were executed in Liege, Belgium, on Saturday. Four of them were dressed as women. The spies were caught in the city of Liege, which was under German occupation. They were found in possession of military secrets and were charged with espionage.

GERMAN BID FOR SUPPORT FROM POLES AND JEWISH PEOPLE

London, Aug. 17--A Reuters' Copenhagen despatch says: "Copies of several German newspapers have reached here. The Berlin Morgen Post for Thursday says that the Austrian commander-in-chief's proclamation to the Poles, calls upon them to join the Austro-German army as Austria brings them freedom from Muscovite rule."

RESERVISTS IN CAPITAL CALLED ON BY BRITAIN

Scott Act Fine in Fredericton--Bride and Groom to British Columbia

Fredericton, Aug. 17--English reservists living in this vicinity have been ordered to join the colors. The proprietor of Long's Hotel was convicted of a first offence under the Scott Act this morning and fined \$50. In George Street Baptist church this morning, Miss Ella B. Clark, only daughter of John T. Clark, was united in marriage to C. O. Wells of Salmon Arm, B. C., formerly of Bay Verte. Rev. A. F. Newcomb performed the ceremony, assisted by Rev. Dr. MacDonald of St. John. The bride's father gave her in marriage. Mr. and Mrs. Wells left by train for Bay Verte to spend a few days before proceeding to their future home in the west.

WANT GOVERNMENT TO CONTROL WHEAT PRICE

Winnipeg, Aug. 17--The annual convention of the Bread and Cakes Manufacturers' Association in convention passed a resolution requesting the Dominion government to regulate and control the price of wheat.

A WANDERER

About ten o'clock last night Policeman Dykeman found a horse wandering about in Prince William street. It was placed in Worden's stable for safe keeping.

BRITAIN AND FRANCE, THE KAISER AND AUSTRIA, ALL DECLINE WILSON'S OFFER

Official British Report Tells of French Advance--Allies' Artillery Fire Deadly--Captured Eagle Over The French War Office Door

Washington, Aug. 17--Great Britain, France and Austria decline President Wilson's offer of mediation. Germany also declines American offers of mediation.

EFFECTIVE WORK BY ALLIES' ARTILLERY

London, Aug. 17--The official press bureau of the war office and admiralty has issued a statement saying that French troops in the course of a rapid advance along the valley of the Scheldt have taken a thousand prisoners.

The some of the fighting of the last few days, the official announcement continues, shows the great destruction effect of the fire of the allies' artillery. The trenches occupied by the enemy are filled with killed and wounded.

A despatch from Paris to the Havas agency says French troops have occupied the town of Schreck, seven and one-half miles beyond Saales in Alsace. They took twelve field guns, twelve cannons, and eight rapid fire guns. The French cavalry then pushed on to Mulbach and Letzelhausen.

Paris, Aug. 17--(11.05 a. m.)--An official announcement today by the French war office, says: "The advance of the French armies continues to develop. Our troops have taken the heights to the north of the Alsatian frontier in German territory, and the French line now passes through Abrechtville, Lorquin, Aoudouange and Marsal."

"In the Don or Rougemont region we have occupied Schreck eight miles from Saales in Alsace and we have captured twelve German field guns, eight machine guns, and twelve gun carriages with ammunition.

"Our cavalry has penetrated as far as Letzelhausen and Mulbach or Rosheim. "Farther to the south we occupy Ville, east of Durbuis on the road to Schiestadt and Saint Croix-Aux-Mines, and some heavy field artillery has been captured by the French troops.

"In Alsace we have a strongly supporting line from Thann through Colmar to Bannermatt."

Captured Prussian Eagle. Paris, Aug. 17--The first Prussian Eagle captured by the French during the present war today above the entrance to the French office in Paris. It is the red and black flag bearing a Prussian eagle in the center, which was borne into battle by the first lower Alsatian infantry regiment, No. 182, of the German army, when it came into action at Sainte Blaise, also known as Sainte Marie Aux Mines and Markirch. The regiment came from the German fortress of Strassburg.

The flag was taken by the 10th battalion of French rifles, and was brought to Paris last night by Colonel Marcel Serret, formerly French military attaché at Berlin.

Crowds of Parisians stood hour after hour, this morning staring at the captured standard.

Auto Proving Its Worth Paris, Aug. 17--For the first time in history, the automobile is proving its worth in war. General Joffre, the French army commander, is enabled by its use to cover miles along the front and has inspired his men by his presence. The French general uses a racing automobile, and his chauffeur is Georges Bellot, a three times winner of the Grand Prix. He was an army reservist, and when he answered the call to the colors, asked for an assignment which fitted his profession.

Different Than in 1870. London, Aug. 17--Reports from Belgium say the German prisoners have no regimental insignia on their uniforms, and have been instructed to refuse information as to what regiments they are attached to. In 1870, the English newspapers gave full account of the German and French regiments, where they were and what regiments composed each army.

Over all these details, the armies engaged in the war in Western Europe, except perhaps the Belgian, have folded a shroud of mystery concerning the men who play the greatest parts in the drama of beginning.

Stimulating the Russians London, Aug. 17--The Standard's St. Petersburg correspondent says the Russian authorities are using two mighty forces to stimulate the zeal for war among the people--religious fervor and racial solidarity.

The marching Russian troops are preceded by a bearded and robed priest of the Orthodox church, carrying a cross. Bands play alternately religious music and barbaric airs.

"It is not merely war," added the correspondent, "it is a holy crusade and also a crusade in accordance with the pan-Slavonic ideal."

Marconi Ready Rome, Aug. 17--William Marconi, inventor of wireless telegraphy, has written to friends in Rome, saying that he will return to Italy to offer to his own country all the assistance he can in case of need, his scientific knowledge or his arm, which ever may be most useful.

Fears for Austrians in Canada Montreal, Aug. 17--Hans Von Hanzenheim, late Austrian consul general to Canada, left Montreal last night for New York. He expressed fear that, owing to the feeling against the Austrians in this country, many hundreds of them day afternoon service at 1 o'clock.

Whole Day of Fighting At Dinant; London Times

Man on Ground Tells of It

Chiefly Artillery Engagements and Likely Many Killed and Wounded--French

London, Aug. 17--The French embassy issued a statement this afternoon saying that the battle of Dinant was the most successful in which the French have engaged in the present war.

London, Aug. 17--(6.30 a. m.)--The Times' correspondent at Namur, Belgium, who witnessed the fighting at Dinant on Saturday, says: "The battle occupied a whole day, but was made up of two actions. The first continued from morning until two o'clock in the afternoon. The second occupied the remainder of the afternoon."

"In the early morning Germans took possession of a part of Dinant on the left bank of the Meuse, and a regiment of French infantry advanced at the same time from the south to north and occupied the other side of the town. Skirmishes between the forces proceeded throughout the forenoon."

"In the afternoon the fighting took the form of an artillery engagement. The French artillery withdrew from the town into the woods at the side of the Meuse from the river. The artillery then took charge of the battle. At the same moment a French infantry regiment advancing along the Meuse on the right bank, struck the Germans in the town, and, aided by artillery, drove them off. Then, from three o'clock until six, the two armies were engaged in an artillery duel across the town. It was always the Germans who were retiring, along the hills to the south of the town, and always French who moved forward, their batteries little by little. Gradually the French drove the Germans southward, probably along the road to Han-sur-Lesse, pursuing all the time with artillery and chasseurs."

"To all appearances the French artillery made better practice than the Germans. The number of killed and wounded must have been heavy. "Several attempts have been made by the Germans to destroy the town by means of attack with aeroplane bombs within the past few days. (On Friday an aviator dropped three bombs during a flight across the city. One of these fell on the sidewalk of the bridge D'Onaloux, injuring five men. The other bombs did no damage. Saturday a bomb struck the roof of the railway station, injuring one man, but doing slight damage to the building. Seven bombs dropped altogether in points of the town did no harm."

Belgians Capture Standard of Crack Regiment

Brussels, Aug. 17--(Via Paris 5.08 a. m.)--The standard of the famous German regiment, of the death head Hussars, which was formerly commanded by Crown Prince Frederick William, was captured by the Belgians in the battle at Haalen, and is now at a town hall at Diest.

The newspapers are permitted now to appear in the evening only. Crowds, eager for news, gather at the railway stations, watching for travelers.

TURKEY AND GREECE GET NEAR TO STATE OF WAR

London, Aug. 17--Official despatches say Greece has received information that Turkish troops are crossing Bulgarian territory and marching in the direction of Greece.

The Hellenic government, in consequence of these reports, has notified Turkey that if this news should be confirmed, corresponding military and naval measures will be taken immediately by Greece.

TWO GERMANS SAIL ON STEAMER WITH FRENCH RESERVISTS

New York, Aug. 17--The Fabre line steamer Patra started for France yesterday, with 600 passengers, most of whom were reservists bound for France.

Only six women were among the passengers. Many of the returning reservists had put on French military uniforms when the steamer left.

There were two Germans on board. They refused to say what had led them to take passage on the French liner or to tell where they were going.

HUERTA IN ENGLAND ON HIS WAY TO SPAIN

London, Aug. 17--Victorio Huerta, former president of Mexico, accompanied by General Blanquet, landed at Bristol on Sunday from the British steamer Patia from Jamaica. He will resume his journey to Spain today.

Want To See The Downfall of Germany

A MENAGE TO FREEDOM P. A. O'Farrell, Newspaper Man, Predicts Destruction of German Sea Trade and Disruption of Its Colonial Empire

(Montreal Gazette) P. A. O'Farrell, the Irish-American Journalist, who has travelled over a good part of Germany, and who returned from New York yesterday, stated last evening that a wave of indignation is sweeping over the American republic against the German Empire for its monumental crime against civilization.

Every true American, he met proclaimed his sympathy with Great Britain in her new crusade to save the world from preparing for this titanic conflict for twenty years. For this he has deepened the Kiel Canal to give free passage for his ships from the North Sea to the Baltic while the natural channel was still in his hands.

There are, he added, some Germans in the United States and there are some who are not so well informed as to understand that England and France as well as Belgium are today warring heroically for the preservation of liberty and civilization. The German autocrat aims to crush and trample upon all free institutions and to dominate the trade, commerce and politics of the world.

Do the people over the border look for a year or more, he longer it lasts the better it will be for the English speaking world. The more destruction this war will bring to Germany, the more will be the doom of the Kaiser. He will be driven from his throne and the German and Austrian peoples will form a commonwealth of Teutonic states. During this colonial conflict all of Germany's colonies will be taken from her and added to Canada, England and France. Her commerce and ships will be swept from the sea and her ports will be closed.

The German shipping industry will be hopelessly bankrupt, and ere this war is over, the Canadian Pacific, the Canadian and the Atlantic, the Curat and the Allans will be able to purchase many of the Hamburg-Amerika and the North German Lloyds at thirty cents on the dollar. When the war is over, if it should last long enough the German flag will have disappeared from the sea for generations while the British Empire and the United States will prosperly never before known in the history of these countries. The markets and the finance of the world will be theirs and what more can they ask?

In the opinion of New York bankers can Germany finance this war? Germany is even now hopelessly involved in financial difficulties. She has built up stupendous enterprises on vast credit systems, her banking system is a device to finance colossal enterprises without money and do not forget that Germany's money is not gold but fiat currency. In the Bank of France at Paris \$600,000,000 in gold and \$600,000,000 in currency is stored.

VERY LITTLE DAMAGE An alarm about 9:30 o'clock this morning from box 14 took the fire department to Harrigan's alley for a slight blaze in a house occupied by a colored man named Kennedy. The fire was extinguished without the aid of water and only slight damage was done.

COUNCIL TODAY The regular weekly meeting of the common council is being held this afternoon. The commissioners will meet in time to get through with the business in time to adjourn for the public meeting at 4:30 o'clock when measures on behalf of the volunteers are to be considered.

CONSCRIPTION MAY BE ORDERED BY GOVERNOR-GENERAL

Militia Act Provides For Compulsory Service By All Males Capable of Bearing Arms, Between Ages of 18 and 60

(Montreal Mail) "All the male inhabitants of Canada, of the age of eighteen years, and under sixty, not exempt or disqualified by law, and being British subjects, shall be liable to service in the militia provided that the governor-general may require all male inhabitants of Canada capable of bearing arms to complete a corps at any time, either for training or for an emergency, and enough men do not volunteer to complete the quota required, the men liable to serve shall be drafted by ballot."

(2) — 18 to 20 years, single, or widowers without children. (3) — 18 to 45 years, married, or widowers with children. (4) — All capable of bearing arms, 45 years and upwards. Drafts, as required, would be made from these four classes in order of priority.

The total militia strength of the Dominion, as thus constituted, is divided into the "active" and the "reserve" militia. According to section 16, paragraph 2 of the act, the active militia of Canada shall consist of: (a) Corps raised by voluntary enlistment. (b) Corps raised by ballot. This active militia need not necessarily be an "active service contingent," but is simply Canada's formal military establishment. And, "the Governor-in-Council may order the active militia, or any portion thereof, to drill or train for a period of not more than thirty days in each year."

Active service is provided for, however, by Section 69, which says: "The Governor-in-Council may place the militia, or any part thereof, on active service in any part of Canada, and also beyond Canada, for the defence thereof, at any time when it appears advisable so to do by reason of emergency."

Military men interpret this act to mean that in case of a prolonged war the Dominion of Canada could, without any further legislation, become as thoroughly a military state as even Kaiser Wilhelm could wish for.

PRESENTATION TO TRAVELER As a mark of appreciation of the esteem in which he has been held by his associates in the staff of Vassie & Company, Limited, in King street, Ralph Estabrooks was on Saturday presented with a handsome case of pipes. The presentation was made on behalf of the staff by W. E. Foster. Mr. Estabrooks is leaving this week for Perth where he is to take over the dry goods business formerly conducted by C. L. Olinstead. He has been a popular member of the Vassie traveling staff for about ten years.

CANADIAN WHEAT FIELDS AND THE WAR
(Times Special Correspondence)
London, Aug. 4.—Canada is very much in the public eye in another connection. It is realized here, as it never was realized before, how much Great Britain depends on the wheatfields of the dominion for her food supplies. The fact that the wheatfields of the dominion are being attacked by hostilities is a matter of national importance, and one that is causing the question of food. What the result of the conflict of nations will be no man can tell, but it is certain that the provision of national granaries will be one of the first questions after the war is over.

2,000 BELGIANS SAIL FROM MONTREAL.
Montreal, Aug. 16.—Two thousand Belgian reservists sailed from Montreal Saturday on board the Allan liner Ionian for London.

Trusses Like These Are A Crime

Such Makerships Have Forced Thousands Into Risking Dangerous Operations.

Wearing elastic and spring trusses year after year is almost sure to shorten your life. You can't make them hold, even when drawn so tight you can scarcely stand to keep them on.

They usually let you get worse all the time—that's why every year they are forcing thousands of people into undergoing operations.

They are simply a crime against the human body, often causing strangulation—dig into the pelvic bone in front—press against the spinal column at the back—make life miserable for nearly everybody who wears them.

The Pain Truss Is This
You can't possibly get well—can't even keep from getting worse—unless your rupture is constantly held in place. Just as a broken bone can be held, unless held securely together.

And just as a bandage or splint is the only way a broken bone can be held, so the right kind of truss is the only thing that will keep a rupture from coming out and growing worse.

You'll feel like a new person from the day you put on that kind of truss. But you know as well as we that you'll never find such a sure-to-hold truss at any drugstore.

Yet it's easy enough to get. And you can test it first—by sixty days trial—without having to risk a single cent.

It's the famous Clathe Truss or Clathe Automatic Massage—absolutely guaranteed to hold, and won't cost you a cent if it doesn't.

It's so utterly different from everything else for rupture that it has received eighteen separate patents.

Made on an entirely new principle. Instantly and automatically protects you against every strain so your rupture can't possibly be forced out. Self-regulating, self-adjusting. Far more just a truss.

In addition to constant holding it provides the only way ever discovered for overcoming the weakness which is the real cause of rupture.

Just how it does—entirely automatically—and how it has thus completely cured hundreds and hundreds of people whose cases seemed almost hopeless—is all explained in the free book which the coupon below will bring you.

No Belt—No Leg-Straps—No Springs
The Clathe Truss does away with the use of belts, leg-straps, and springs. Thousands say it is as comfortable as their clothing. It is water-proof—will hold in the bath. Also perspiration-proof and easily kept clean.

Be Sure and Come To Our Bombarding Sale!

The St. John boys have been busy bombarding our Boys' Clothing Department, in order to get a new School Suit at their own price.

We are now willing to surrender our profit on all our Boys' Clothing and Furnishings, Hats and Caps for 10 days, and now, boys in the city and surrounding country, this is your opportunity.

Never before has any firm ever dreamed of selling Boys' Clothing, just before school opening, at prices that we will now offer you at this opportunity.

SPECIAL SALE, WHICH WILL START ON WEDNESDAY MORNING, AUGUST 19 and Last Till September 1st.

Here is another Special Offer—With every sale of a Boy's Suit we will give one pair of Stockings and a ruler, and we want every boy to come in and see us. Our guarantee stands, as usual, behind every sale. Money back if you are not satisfied.

Be sure and read our ad in Tuesday evening's Times for prices.

The Sale starts Wednesday morning at 8 o'clock. Store will be open every evening till 9 p.m.

The Young Man who takes a box of **JANE TODD'S HOME MADE CHOCOLATES** with him at the week end runs no risk—They always please.

CANADA MAY BENEFIT
(Montreal Mail)
Sir William C. Van Home before leaving for St. Andrews last evening made a concise statement as to the effects of the war on Canada. "I do not imagine any harm can come to Canada, and the longer it continues the better it will be for Canada and the United States. Our crop of wheat, oats and coarse grains will obtain prices that will more than recoup Canada for any outlay she may decide to make on behalf of our Empire."

SOUTH AFRICA WILL GO INTO CATTLE RAISING

Country Able to Raise from Five to Eight Crops of Alfalfa in a Year.

London, Aug. 15.—Great Britain will soon have a new source of meat supply in South Africa, in addition to that from the United States, Canada, Argentina and Australia. It will come through the South African Union, an organization having the backing of the farmers of that part of the empire. The country is able to raise from five to eight crops of alfalfa per annum, and the area can be enormously increased by irrigation. Blooded stock has been imported, and a party of farmers are now visiting England for the study of stock raising and, in particular, the handling of frozen meat.

The first of the new meat will be shipped to England next February. Whether the supply will do more than merely to meet the growing British demand is problematical. At any rate, it is not expected to influence the market price of meat to any extent for some years.

Foster Howe Found Dead.
M. Foster Howe, a well known athlete, formerly a student at U. N. B., and also at Acadia, was found dead in the woods a few miles from St. Martins on Saturday. His body was found lying in about three feet of water in a pool in the Salmon river. Foster Howe was the third son of Mr. and Mrs. Frank Howe of Hilsdale, Kings County, and is survived by his father and mother, four brothers and five sisters. He was twenty-five years of age and had been employed as a cruiser and forester by the Prescott Lumber Company of St. Martins. The body was taken to his home for burial. Deputy Chief Jenkins of this city, is an uncle.

The Evening Times and Star

ST. JOHN, N. B., AUGUST 17, 1914.

The St. John Evening Times is printed at 27 and 29 Cambridge Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE WAR NEWS.

The war correspondents continue to speculate upon the great battle which it was thought would have been fought some days ago, but which is still in the future. They are not sure where the greatest trial of strength will occur, since the Germans and the allied armies confront each other on a line more than two hundred and sixty miles in length, from the border of Switzerland to the border of Holland.

United States buying up German merchant steamers, putting them under the American flag and using them to carry food supplies to Germany and Austria. No doubt the inequality of these correspondents will be able to find other startling conditions or prospects if they give full rein to their imagination.

Japan has now taken decisive action, and has sent an ultimatum to Germany, giving her a week in which to agree to the withdrawal of her warships and evacuation of Kailu Chau. If Germany declines, Japan will take steps to enforce her demand.

Today's cables tell of a naval victory by the French over the Austrians in the Adriatic. The combined French and British naval forces in the Mediterranean should have little difficulty in destroying the whole Austrian fleet.

There appears to be some prospect of serious internal trouble in Germany. One report says that the Socialists are rising in revolt. While this statement may not be true at the present time, there is reason to believe that as the war progresses and hardship and hunger and all the horrors of war press more heavily, the Socialists will turn against the Emperor, and incite the people generally to rid themselves of the whole system of autocratic military government which has brought this great disaster upon the fatherland.

Every day brings renewed assurances of the safety of the Atlantic sea routes, and commerce between Britain and America is being restored on a steadily larger scale. The problem of food supplies is thus practically solved. The action taken by Japan will no doubt in a very short time make commerce safe on the Pacific.

LET CONFIDENCE PREVAIL. The Financial Post of Canada gives wise counsel when it calls upon all business men to meet the present situation with calmness and confidence. It points out that while our first duty is to aid Great Britain there is another duty not less important, and that is to keep the business of the Dominion moving as normally as possible, so that there may be the least possible interference with the daily life and the daily work of the nation.

While the German plan of campaign is said to be to break through the centre of the French line near Luxembourg, the French are said to be pressing forward in Alsace, to threaten the German army in the rear and cut off its line of communication.

There is still doubt whether the heaviest German stroke will be levelled against the allies in Belgium or in Luxembourg. Hitherto the heaviest fighting has been in Belgium, but the Brussels correspondent of the London Standard says it is believed the main part of the German army is now concentrated in Luxembourg.

The New Brunswick members of the first contingent for foreign service will soon receive marching orders, and it is fitting that their courage and devotion should receive due recognition. To that end a great meeting of citizens will be held this afternoon in the Imperial Theatre.

It is of the greatest importance that everyone should endeavor to act as if great events were not impending. Were confidence seriously disturbed, business would come practically to an end, and our ability to face the difficulties that may be in front of us would be seriously impaired. Orders should be given, factories should be run, and everything should be arranged to maintain as far as possible the productive power and the income of the country.

The Canadian parliament will be in session tomorrow. It will be a short session, and will show to the world how Canadian statesmen can set aside all partisan feeling in the face of national danger, and devote the resources of the country to the great task of Imperial defence.

To this the Financial Post adds: "Courage in the fight for the Empire is not more necessary than courage in the maintenance of the industry and commerce of the country."

Mr. J. K. L. Ross of Montreal has contributed half a million dollars to the government for general military and naval purposes. From the citizens it is able to contribute so great a sum to the woman who gives her mite to the fund for the hospital ship, all Canadians are giving evidence of the patriotic spirit by which they are animated in this crisis in the affairs of the British Empire.

This is wise counsel. Already some industries are slowing down as a result of the war, and the conditions are such as call for a spirit of determined confidence and energy on the part of all who are engaged in industrial and commercial affairs. Some industries will be stimulated, because their goods must take the place of goods which hitherto came from the other side of the Atlantic. The country has a great crop to harvest, and is in no danger of invasion by an enemy. The soldiers of Canada are ready to face whatever conditions may be imposed in the performance of their duty to the Empire, and a like spirit must animate the business community in keeping the business of the country as near as possible to a normal condition.

Against Gambling. Bern, Switzerland, Aug. 17.—The federal government has received a petition signed by 101,970 voters, demanding a change in article 35 of the constitution which permits gambling. About the only gambling in Switzerland is in the casinos, patronized by tourists, and with bookmakers on English and French races. Public opinion on the subject has been growing steadily for several years. An anti-gambling committee, with members from all the cantons has organized the petition, which must be considered by the government as it has 50,000 signatures and under the law this is sufficient to bring the matter to the attention of the authorities.

NEEDLESS ALARMS. In the interval before the great battle between the German and allied forces, some press correspondents, having nothing better to do, are endeavoring to involve the United States in the general struggle on the side of Germany and Austria. One appears to see danger to American interests on the Pacific in the action of Japan. Another sees the

Mr. J. K. L. Ross of Montreal has contributed half a million dollars to the government for general military and naval purposes. Hints for the Cook

Lemon Pie
One cup hot water, 2 egg yolks, 1/2 cup sugar, small piece of butter, 1 teaspoon lemon extract, 1 teaspoon cream of tartar, 2 tablespoons cornstarch. Egg whites for frosting.

Cocoa Pudding
Mix 2 heaping tablespoons of cocoa, 1/4 cup of sugar and a little salt. Add 1/2 pint of milk, bring to a boil and thicken with 2 tablespoons of cornstarch dissolved in a little cold water. Add 1 teaspoonful of vanilla and pour into baking dish to cool before putting on meringue. Beat the whites of 2 eggs very stiff, add 1 tablespoonful sugar and drop in spoonfuls or "islands" on top. On top

of each island sprinkle coconut and a little sprinkle of sugar. Put in the oven until a delicate brown.

A PARIS SENSATION.

A French blouse in crepe Georgette trimmed with striped silk. The sleeves are shirred in cuff effect and finished with self-ruffles.

This has been a record season for Paris for beautiful waists. There is a delightful simplicity about all of the new models, but the one shown here commands attention because of the simple way in which it is trimmed with striped silk.

The waist is developed in that most fashionable of blouse materials, crepe Georgette. The vest and major part of the collar are of black and white striped silk. Note the odd finish of the sleeves, the shirring forming a cuff effect with a self-ruffle at the top.

The material required to make the waist is as follows:
3/4 yard 44-inch crepe at 21 yard..... \$2.15
1/2 yard 2-inch webbing for belt at 1c..... .15
1/2 yard 1/2-inch striped taffeta for vest and collar..... .15

Fill in this blank and mail it with price of pattern, 15c.

PROHIBITS AUSTRIANS FROM LEAVING CANADA

Ottawa Government Issues Order to Arrest Any Attempting to do so—Those Who Pursue Their Avocations Shall not be Interfered With so Long as They Observe the Laws and Proclamations.

Ottawa, Aug. 16.—Following England's declaration of war on Austria last week, an order-in-council has been passed forbidding the departure from Canada of Austrian reservists.
The order-in-council states that Austro-Hungarian reservists shall not be arrested, detained or interfered with, unless there is reasonable ground to believe that they are engaged in espionage, or attempting to engage in acts of a hostile nature, or to give information to the enemy or unless they otherwise contravene any law, order-in-council or proclamation.
"All Austro-Hungarian officers or reservists attempting to leave Canada at any port on the Atlantic or on the Pacific shall be arrested and detained."
"Precautions shall be taken at all important points such as Halifax, St. John, Quebec, Montreal, Kingston, Toronto, Niagara, Hamilton, London, Windsor, Sarnia, Sault Ste Marie, Port Arthur, Fort William, Winnipeg, Regina, Moose Jaw, Calgary, Lethbridge, Revelstoke,

Sicamous, Mission Junction, New Westminster, Vancouver, Victoria and any other similar points in the discretion of the minister of militia, to prevent Austro-Hungarian officers or reservists from leaving Canada for the purpose of entering the United States and thence proceeding to Austria-Hungary, and any such officers or reservists making any such attempt shall be arrested and detained."

The Best Quality at a Reasonable Price

The Price of a Diamond

The Money you pay for a Diamond purchased of a reliable dealer secures for you full measure of intrinsic worth that time will not depreciate.

Buying a Diamond is a sound financial investment, plus the pride, satisfaction and pleasure of owning a beautiful jewel that is always in fashion.

The price of a Diamond is governed by the size and quality of the stone. You can buy a Diamond of good quality at Sharpe's for as little as \$10.00—a genuine cut stone.

You can buy larger stones of the first water, in Rings and other ornaments for \$25.00, \$50.00, \$75.00, \$100.00 and upwards. The fact that a Diamond comes from Sharpe's brings satisfaction of more than sentimental value.

We will be glad to show you Diamonds.

THE WORLD FAMED "Burberry" Overcoats For Men

We are now showing a greater range than ever of these world-famed English-made Coats, and the models now in stock afford many novel features.
Long, loose-fitting Ulsters are featured with wide convertible collars and wind-shield sleeves for storm protection. Another style has kimono cut body and half spliced sleeve effect, something very new and attractive.

These coats are made of soft, deersy cloths, with plaid backs and have silk shoulder and sleeve linings. Materials are Combed Fleece, Whitney, Mountain, Nap Cloths and Fancy Tweeds. The colors are browns, greens, greys, blues, plain effects and fancy mixtures; all are weather-proofed by Burberry's special three-process proofing and, next to rubber, nothing will withstand as much storm.

Prices range from \$38.00 to \$47.00
Burberry Coats in lighter weights for early Fall wear, in Tweeds, Cheviots and Saxony, all the leading shades in fancy mixtures, stripes, checks and plain weaves. All weather-proofed, cut on loose, easy-fitting lines; ideal garments for motorists.
Prices from \$23.00 to \$40.00

MEN'S CLOTHING DEPARTMENT.

NORTON GRIFFITHS IS RAISING 2,000 FORCE

(Times Special Correspondence)
London, Aug. 4.—"Empire Jack," or Norton Griffiths, M. P., almost as well known in Canada as in Great Britain, has been highly successful in his efforts to raise a force of 8,000 men of the overseas dominions resident in this country. In response to his invitation men from all over the country are joining this force.

ONE LIFE LOST AND TWO PAINFULLY INJURED WHEN MOTOR BOAT EXPLODED

James Dunlavy lost his life, it is feared, and Frank Craft and Frank Dykeman were painfully injured in the explosion of the gasoline tank on the motor boat also owned by Mr. Dunlavy, in the harbor last night about eleven o'clock. Some gasoline in the bottom of the boat caught fire and the three jumped into the water. A few minutes later the tank exploded and that was the last seen of Dunlavy. The other two men, painfully burned about the face, were rescued by James Keefe and taken to

NEW I. C. R. ELEVATOR OF CONCRETE AND STEEL WILL BE ERRECTED

From Ottawa comes the announcement that a new elevator of steel and concrete construction and thoroughly modern in type and equipment will be built for the I. C. R. to replace the one destroyed by fire on Wednesday night last. The site of the new structure has not yet been announced.

At Daniel's

An Important August Sale of Home Furnishings

A SAVING OF 20c ON EVERY DOLLAR DURING SALE. SALE COMMENCES WEDNESDAY MORNING.

Let us help to put cheerfulness into your rooms or halls before you settle down in your houses for the Fall and Winter.

It's easily done with perhaps a few new curtains, a portiere, or a few yards of pretty chintz on the furniture. Then, again, we are going to do it for you at a saving of 20c on every dollar you spend in our furnishing department between now and the end of August.

You see, August is ordinarily the duller period in this department. But we purpose making it a busy one by sharing our profit on all furnishing goods for the rest of the month.

Remember, too, that we are not asking you to buy job lots or any off-style goods, but the very best and newest class of merchandise.

Of course, it is for a limited time only, after which all goods go back to regular prices.

Every one who has been in the habit of buying in our furnishing department knows the close prices at which our goods are marked, and this August Sale will mean a saving of 20 per cent off even these low prices.

This 20 per cent reduction is worked out on every sale tag alongside the regular price, so that you may see at a glance what the 20 per cent means in dollars and cents.

SALE WILL COMMENCE WEDNESDAY MORNING AT 9 A.M.

AGENTS WANTED AGENTS—Make \$3.50 DAILY, introducing new household necessity, ways considered that they could remain rivals without becoming foes. Indeed, he has strongly favored and has argued that political friendship would inevitably follow in its wake. He is the ground that specific Anglo-German agreements regulating prices of great staples like coal, steel and iron. These agreements, were of much more vital significance and practical value than mere treaties on political lines, and provided a scheme whereby each country should confine itself to specialties, and thus secure a mutually beneficial competition in neutral markets.

Million Dependent on Him August Thyssen, now about seventy-five, is a self-made man, having started in the late sixties with a capital of \$6,000, with which he obtained control of a rolling mill employing sixty workmen. When the present war broke out he had worked in Germany alone numbered more than 50,000 and their wives and children brought to the table of plenty. He has been in Germany and more or less under his control, up to a quarter of a million tons a year, and his mines, 1,500,000 tons of pig-iron.

LA MARQUISE DE FONTENAY

Noted German Ironmaster Who is Hard Hit by War—The New Royal Babe

(Copyright, 1914, by the Brentwood Company)

August Thyssen, a veteran German ironmaster and one of the most powerful captains of industry in the Teuton Empire, has been hard hit by the present war, which he declares could have been avoided, if England had been repaid at the conclusion of the war. He is the president of some great steamship company and if Germany had been in the same way repaid at the conclusion of the war, he would have been able to purchase the ironmaster's great Lorraine iron master or manufacturer.

An ardent advocate of the internationalism of commerce, he possesses huge mines, ironworks, docks, and even harbors in British India, France and in Russia, all of which have now been taken possession of by the governments of three countries as property belonging to the German enemy; while if Holland is dragged into the fray, in spite of her endeavors to preserve her neutrality, his newly acquired docks and shipbuilding works will likewise be lost to him.

These he secured through the agency of the German legation at the Hague, in behalf of the Vulcan Iron and Shipbuilding Company, which was, at that time, under the control of the German government. He had given a contract for the construction of a large new harbor, with a depth of twenty-seven feet, and a dock big enough to hold a battleship and huge wharves. He likewise had arranged for the building of a lofty wall around the entire property, so as to ensure complete privacy, the inference naturally being that it was intended much for commercial purposes, as for the repairing and coaling of German warships.

His mines and ironworks in France are situated at Montigny and Maizières, while his headquarters are at Düsseldorf, in Prussia. His principal base in Russia is at Nikolaisief, on the Black Sea, where he owns virtually everything in sight. He admits that England is the principal rival of Germany in the struggle for the world's markets, but he believes that political friendship would inevitably follow in its wake. He is the ground that specific Anglo-German agreements regulating prices of great staples like coal, steel and iron. These agreements, were of much more vital significance and practical value than mere treaties on political lines, and provided a scheme whereby each country should confine itself to specialties, and thus secure a mutually beneficial competition in neutral markets.

Million Dependent on Him August Thyssen, now about seventy-five, is a self-made man, having started in the late sixties with a capital of \$6,000, with which he obtained control of a rolling mill employing sixty workmen. When the present war broke out he had worked in Germany alone numbered more than 50,000 and their wives and children brought to the table of plenty. He has been in Germany and more or less under his control, up to a quarter of a million tons a year, and his mines, 1,500,000 tons of pig-iron.

He insists that the secret of his success is his adherence to the principle of industrial concentration, and his belief in trusts as factors for preventing trade crises is very pronounced. He himself holds the German's leading company in the steel, the coal, and the pig-iron trusts. He calls the cheapening of the cost of production the best thing that has ever happened to his industry, and that is why he mines his own ore, ships it in his own ships, hauls it up the Rhine and the other German rivers on his own barges, unloads it at his own wharves, and converts the by-products of coal, steel and iron at his own works, into commodities which he himself sells.

Thyssen is a great character in his way, and is utterly devoid of ostentation. The motto on his coat-of-arms, "Hilf mir, ich helfe dir" illustrates his character for being the hardest worker of his thousands upon thousands of employes. In the glorious old castle, high up on the wooded slopes of the river Ruhr, where he makes his principal residence, he has a great work-room, immediately adjoining his bed-room, and may be found there at all hours of the day and night, directing his vast operations. His life is of the simplest. In fact, it might almost be described as austere, and nobody has ever seen him in a suit of clothes that could have cost more than \$20. Very reticent, he never talks unless he has something to say, and this he says with a minimum expenditure of vocabulary. Yet he speaks several of the foreign languages with remarkable fluency, notably English. He is very good to his army of workmen, but declines to coddle them, but shuns society, loves Nature, is deeply religious, and a devout member of the Catholic Church. He received his business training at Antwerp, where he spent his early days. His one great sorrow in life is his father, who has been twice bankrupted, with debts of some \$12,000,000, and who has served sentences in prison, both for duelling and for libelling some of his father's friends and chief lieutenants. Old Thyssen on several occasions has made an offer to his eldest son to pay off what he regards as his legitimate liabilities of \$4,000,000, and to assure him an allowance of \$80,000 a year, beyond the reach of his other creditors, if he would renounce his rights to his large share in the inheritance of the fortunes of his father, after the latter's death.

But young Thyssen, who is perhaps the greatest, and certainly the most widely known spendthrift in Germany, has treated the proposal with derision, declaring the allowance of \$80,000 a year

AUCTIONS

We are now prepared to receive goods for our next sale at our auction room, 96 Germain St. Please send list with goods.

R. F. POTTS, Auctioneer.

The little boy whom the young Duchess of Fife has just presented to her husband, Prince Arthur of Connaught, occupies a place higher in the succession to the throne than his father, and has prior rights to that monarch's eldest sister, the Princess Royal, widow of the non-royal Duke of Fife, and after her death to her eldest daughter Princess Arthur of Connaught, then to the latter's new-born son; and after him to the Princess Royal's younger daughter, the still unmarried Princess Maude. Prince Arthur himself comes very much further indeed downwards in the line, the daughters of Prince Alfred, Duke of Edinburgh and of Coburg, having all of them prior rights.

Many inquiries reach me as to the identity of Lady Hope, who has been staying at Newport, Narragansett, and other eastern seaside and summer resorts. Strictly speaking, she is Mrs. T. Anthony Denny. She has been twice married. Her first husband, whom she married in 1871, as his second wife, was Admiral Sir James Hope. He died four years later, and in 1888 she married T. Anthony Denny, who died in 1909. If Hope, it is as a matter of courtesy, for her legal name is Elizabeth Denny, according to the ruling of the English court she could appear there only as Mrs. Denny. Lady Hope, her father was an Indian general, Sir Arthur Cotton.

THINKS WAR WILL HIT MCGILL HARD. (Montreal Gazette Cable). London, Aug. 16.—Principal Peterson, who is staying in the country some distance from London, in a conversation with the Gazette representative, expressed the fear that McGill would suffer badly this year. He said he had been inundated with verbal or written inquiries from both past and present students here, seeking advice or recommendations in order to join defensive forces. Replying to the question when he intended to sail, he said he had no plans as yet, but added that he must get back before the opening of the term, even if he had to run the gauntlet of a few cruisers. Rev. Charles Williams, of St. James Methodist church, now in Ireland, is still hoping to sail a fortnight hence, and in the event of his being prevented, intends to offer his services as chaplain to the Canadian forces on this side of the water.

ST. JOHN EXHIBITION. September 5th to 12th, 1914

Royal Family of Italy Which May Be Brought Into Europe's War

Italian King, Queen and their children. Reading from left to right, Princess Matilda, Queen Helena, King Victor Emmanuel, and, at bottom, Princess Giovanna, and Crown Prince Umberto.

ST. JOHN PEOPLE IN THE OLD COUNTRY AND ON THE CONTINENT

Mr. and Mrs. Joseph A. Lively, their daughter, Miss Jessie and their son Dr. D. S. Lively of New York, who have been traveling in Great Britain and Ireland, expect to sail for Montreal on Aug. 20.

Thomas Bell has received a letter from his daughter, who has been delayed in England owing to the disorganization of the steamer services. When she writes Miss Bell was in Cornwall and saw little prospect of getting home but, as conditions have improved since then, she may be able to secure passage earlier than she had expected.

No word has been received from Miss Hegan, daughter of Mr. and Mrs. Geo. S. Hegan of Hasen street, since her cable at the first of the month when war was declared. At that time she was in Germany and her friends are, naturally, somewhat anxious about her.

Miss Dick, daughter of Mr. and Mrs. George Dick of this city, is expected to arrive in Montreal today from England and will likely be the first person from St. John to return from Europe since the outbreak of the war.

HAS RECOVERED.

Friends of Mrs. Collins, wife of John Collins, of the I. C. R., will be pleased to learn that she is almost entirely recovered from the effects of the injuries she received several weeks ago while stopping a runaway. Mrs. Collins is now at home looking after her household duties.

A GREAT SUCCESS.

S. Cecil Irvine wired a friend in St. John today as follows, from Ottawa: "Princess Patricia's Canadian Light Infantry is an immense success. Unable to accept any more, but hope if necessary to raise two or ten more battalions. Every officer and man a soldier—in fact a very Legion of Honor." Page 10.

To Wed This Week.

The marriage of Miss Mildred Walker, daughter of Mr. and Mrs. Joseph Walker, of Fredericton, to Robert S. Machum, of St. John, is arranged to take place at the home of the bride's parents on Wednesday afternoon, August 19th, at four o'clock.

MOUNT PLEASANT OFFER NOW AS SITE FOR THE TUBERCULOSIS HOSPITAL

A new proposal for the county tuberculosis hospital has been made and is receiving some consideration from the hospital commissioners. Plans for the erection of the building in East St. John have been delayed owing to the lack of a water supply.

A communication was addressed to the common council about a month ago asking for terms on which connection with the city's water supply could be made but so far no further action has been taken. In the meantime contracts for the construction of the hospital have not been signed and will not be signed until this matter is settled one way or the other.

While the project has been held up an offer of another property for use as a hospital has been received. This property is located on Mount Pleasant, has ample grounds, a commodious building and is said to be well suited for the purpose.

A SALUTARY LESSON.

Two men and four boys in Fredericton, charged with making insulting remarks to soldiers who have volunteered for foreign service have been arrested and fined, and Magistrate Limerick says the next offender will get a much heavier penalty.

ADOGRAM No. 5

The man who is always cheerfully willing to "make good" seldom has to.

The merchant who has built up the reputation of his establishment through advertising is usually eager to refund the money if the purchase is not satisfactory. There is security to the purchaser in dealing with the men who advertise.

But merchants of this kind are seldom called upon to do any refunding—because they watch closely goods and service.

CHARGED WITH RESISTING POLICE

Joseph Dickson Sent to Jail For Ten Months — Other Cases Dealt With This Morning

Joseph Dickson pleaded guilty in the police court this morning to being drunk in Harrigan's alley at noon on Saturday. He was also charged with resisting Deputy Chief Jenkins, but said he did not remember it. Captain Jenkins said that he was called in to eject Dickson and was assisted by the colored folk in getting him into Brunswick street, while a man drunk in Pond street, was fined \$8 or two months in jail. Asked where he got his liquor, he said he did not buy it, but some fellows had some rum and gave him some.

William Hunter charged with stealing a watch from Edward LeBlanc in King Square on Saturday, was remanded for preliminary examination on the charge of robbery, for which the magistrate said he was liable to seven years in Dorchester. LeBlanc also was arrested charged with drunkenness. He pleaded not guilty, but later admitted that he was not very drunk. He was sentenced to \$8 or two months in jail.

LeBlanc gave evidence against Hunter and the latter was committed for trial.

RICH PRIZE TAKEN BY THE BRITISH

German Steamship With Valuable Cargo For Boston Seized at Gibraltar

Boston, Aug. 17.—The Hansa Line steamship Schnerfels, bound from Calcutta and Colombo for Boston, with a cargo of tea, gunnies and other merchandise, valued at over \$1,000,000, has been seized by the British at Gibraltar. Vague rumors of the seizure of the rich prize were received here yesterday, and the confirmation came today.

The Schnerfels, a brand-new freighter on her first trip across the Atlantic, left Calcutta July 3, and Colombo July 18, for this port. She was last reported passing through the Suez Canal, July 23, and the consignees of the cargo and the underwriters had hoped that she had eluded the British warships and passed out of the Mediterranean in safety. It appears she was captured by the British war vessels on August 6, and was taken to Gibraltar, where she arrived the same day.

The steamship and her cargo constitute one of the most valuable prizes yet taken by the British. The underwriters, both in this country and abroad, will be hit hard by the seizure of the freighter.

I. O. G. T. GRAND LODGE
The New Brunswick Grand Lodge, Independent Order of Good Templars, will meet in the city tomorrow and delegates from all over the province, numbering about fifty people, will be in attendance. The meeting will open in Clayton's Hall, Waterloo street at nine o'clock tomorrow morning and will continue all day and probably Wednesday forenoon. On Tuesday evening a public meeting will be held in Temple Hall, Main street. The local grand lodge officers are E. N. Stockwell, Grand Chief Templar and W. N. White, Grand Marshal.

THEIR DAUGHTER DEAD
Mr. and Mrs. Walter Shepherd, 370 Haymarket Square, will have the true sympathy of their friends in the loss of their only child, Lillian, aged fifteen years. The young girl who had been ill for the last six months, became worse yesterday and died at four o'clock this morning. The funeral will take place on Tuesday afternoon at Fernhill, service at the house commencing at 2.30 o'clock.

BULLET PASSES THROUGH CAR

Passengers on Ocean Limited Near Bathurst Have Close Call—Not Known Where it Came From

While speeding at the rate of more than forty miles an hour between Dalhousie Junction and Bathurst about eleven o'clock yesterday morning, the Ocean Limited, bound east, was struck by a bullet which entered a window of the second class car from the left side of the track and, whizzing past a passenger on the engine driver's side of the car, pierced the window a few inches from his face, entering the woods again.

Naturally, the man who had been sitting quietly in his seat was greatly agitated on hearing the bullet whiz past his head and on being showered by pieces of glass. The bullet must have been a very large one as it made a hole in each window nearly half an inch in diameter. Although it made a clean hole, it caused one of the panes of glass to crack in all directions. Where the bullet came from is a mystery. The train was passing through a stretch of wooded country at the time and it was thought useless to stop the train. It is thought by some that the bullet might have been aimed at the engine driver and that the man with the rifle or revolver did not allow for the speed with which the train was moving. It is said by others, however, that residents of that district do a great deal of shooting in the woods on Sunday and that it might have been a stray bullet which passed through the car. Wherever the bullet came from the passengers on the car are thankful that they did not happen to be passing the window at the time.

Moncton, Aug. 17.—E. C. R. police are probing the smashing of windows on the Ocean Limited, northbound, at Nash's Creek on Sunday afternoon. A bullet went through two windows of the second class car and some passengers had narrow escapes. Railway men are inclined to the view that the bullet was fired by someone shooting at game.

RECOGNITION OF THE VALOR OF ST. JOHN'S VOLUNTEERS TO WAR

Meeting Being Held This Afternoon to Discuss Matter—A Suggestion From J. A. Pugsley

Great interest is being shown in the public meeting called by Major Frink for the purpose of considering plans for the recognition of the valor of the men who have volunteered for service at the front. The meeting will be held at 4.30 this afternoon, in the Imperial Theatre and is open to all citizens.

In response to his request the mayor has already received a large number of suggestions which will be submitted to the meeting this afternoon for consideration.

Among the offers which have been received is the following communication: City of Saint John, Aug. 17-14. To His Worship Mayor Frink: Dear Sir—I note by this morning's papers that you are open to suggestions as to the best means of entertaining those who have so bravely offered their services in defense of the Empire.

It would seem to me that one of the most delightful ways in which to entertain the volunteers and the large number of citizens who would naturally desire to be present, would be to hold a garden party, with light refreshments and music.

For this purpose I am pleased to offer the Glen Falls property at Coldbrook and, as my share, a special train and the services of the regimental band of the 62nd Regiment Saint John Fusiliers.

In addition to music and refreshments I believe a good programme of sports could be arranged with the co-operation of the various athletic associations.

Assuring you that it would give me a great deal of pleasure should you decide to accept the above suggestion, I beg to remain,

Yours very truly,
(Sgd) JOHN A. PUGSLEY.
