The question, HOW IS YOUR LAUNDRY WORK DONE interests you, does it not? We ask for your patronage, feeling confident that we can please you. We wash your goods perfectly clean without destroying with chemicals in order to save time and expense in washing. We handle goods in the most careful manner; are yours returned ripped and torn?

LADIES

Patronize THE SARATOGA LAUNDRY CO. because we make a specialty of Ladies' and Children's work. We pride ourselves on the work of this department, none can excel us and few can equal; we employ only the most expert fancy ironers—goods liable to crushing delivered in hampers. Prices quoted for Household work on application.

GENTLEMEN

Patronize THE SARATOGA LAUNDRY CO. because we make shirts, collars and cuffs a beautiful clear colour, with exactly the proper degree of stiffness. Gloss or dull finish, whichever you desire. Why do you find collar button-holes destroyed before collar is half worn out? Because they are sealed hard and have been ruined by trying to get collar button through. We make button-holes soft and pliable by a device solely our own, preventing destruction of your collar. Do you notice that the edge of your collar feels like the teeth of a saw after it is worn a short time? You will find edges of collars laundered by us round and smooth. Wing points of collars turned without breaking; it is impossible to break a collar by our process. Underwear washed in most careful manner—soft and pliable, without shrinking. IF YOUR GOODS NEED MENDING, WE WILL DO IT FREE OF CHARGE. Will it not be in your interest to give us a trial?

PREFACE.

THIS book is the yearly official publication of the Convocation of Trinity University, Toronto.

One copy is given to any graduate or other friend of Trinity who cares to apply for it. Applications for copies should be made to the Clerk of Convocation.

The expenses are almost entirely met by the advertisements; and friends of the publication are reminded that its continuance must largely depend upon its value as an advertising medium.

The thanks of Convocation are due to the many graduates who have helped to complete the Directory, but there are still some addresses which it has been impossible to obtain. If every graduate who receives this book would take the trouble to send to the Editor such corrections and additions as he can make, there would hardly be a mistake or an omission in the next issue.

November, 1900.

Trinity University, Toronto.

FOUNDED BY ROYAL CHARTER, JULY 15TH, 1852.

Founder.—THE HONOURABLE AND RIGHT REVEREND JOHN STRACHAN,
D.D., LL.D., FIRST BISHOP OF TORONTO.

THE year 1900 marks at least one event of more than ordinary importance in the history of Trinity. By the appointment, early in the year, of the Rev. Canon Welch to the Rectory of St. James' Cathedral, Toronto, the two important positions which he had held at Trinity with such acceptance for nearly five years were rendered vacant. In seeking to find a man to appoint in his place as Provost of the College and Vice-Chancellor of the University, the Corporation came to two preliminary decisions of some interest. The first was that, other things being equal, preference would be given to a Canadian; the other, that the vacant offices might be filled by either a priest or a layman of the Church. After mature thought the unanimous choice of the Corporation fell upon the Rev. T. C. Street Macklem, Rector of St. Simon's Church,

Toronto. Being notified of his election, Mr. Macklem asked for time to make some investigation into the affairs of the University, and after having done so, addressed a letter to the Corporation setting forth his views as to the general policy which the University should follow, and stating that he did not wish to accept the positions offered him unless his views commended themselves to the Corporation. A special meeting of the Corporation was held accordingly, and the views promulgated in the letter were fully discussed. The result was the passage of a resolution, to which there were only three or four dissentient voices, endorsing these views and pledging the hearty support of the Corporation in the endeavour to give effect to them. Mr. Macklem thereupon accepted the election, and on the first day of May, taking up his residence in the College, entered upon the active discharge of his duties as Provost; and on the eighteenth day of the same month, at the Annual Medical Convocation, was formally installed Vice-Chancellor of the University. A happy incident marked the commencement of the proceedings on this day. Anticipating a crowded Convocation Hall, the visitors came half an hour before the appointed time, and after they had all assembled in the Hall, but before the Chancellor and other dignitaries had entered, word reached the city of the relief of Mafeking. A reporter brought the news immediately to the College and communicated it to the Chancellor, who made the welcome announcement to the large gathering before the formal proceedings commenced. It is needless to say the news evoked wild demonstrations of joy.

A short verbal and financial Report of the University for the year ending 30th September, 1899, was prepared by the Provost in June last, for the several Synods of the Province of Ontario. Although this report was published at the time in the *Trinity University Review*, we think it of sufficient interest to quote it here in full, because it not only shows the condition in which the affairs of the University stood a few months prior to the Provost's appointment, but also serves to exhibit his own view of the situation, and the hopeful anticipations he has formed of the future.

" REPORT OF TRINITY UNIVERSITY.

" The Annual Report of Trinity University is herewith presented to the several Synods of the Province of Ontario.

" It is perhaps hardly necessary to point out that Trinity University is the joint property of all the Dioceses in the Province of Ontario, belonging not more to the Diocese of Toronto, in which it is situated, than to any other Diocese of the Province.

" The Church in this Province has in Trinity a very valuable asset, amounting to considerably over half a million dollars. Such a splendid property is, from the mere business point of view, worth more care and attention than has heretofore been given to it by the several Dioceses. We feel, therefore, that we are only urging what is to the manifest interest of all parts of the Church in this Province when we ask that each Synod shall do its utmost to render this valuable asset fully and richly productive.

" Every Diocese in the Province, except Algoma, is represented on its governing body by the Bishop of the Diocese and four other members, while the Missionary Diocese of Algoma is represented by its Bishop alone.

" The Financial Statement for the year ending September 30th, 1899, is as follows :

" While this statement is certainly far from satisfactory, yet we
" must bear in mind that every great public institution is subject to
" occasional reverses, and Trinity has just been passing through a period
" of adverse fortunes. We believe, however, that the tide has already
" turned, and that subsequent statements will show increased and in-
" creasing prosperity. It needs only that the whole Church in the
" Province should rally to the support and strengthening of our Church
" University, for Trinity to be put, in a few years, into a stronger
" position than ever before.

" Trinity is thoroughly well equipped for carrying on the large and
" important educational work entrusted to it. We have a full and
" efficient staff of Professors and lecturers in residence, with additional
" examiners and occasional lecturers not in residence. A distinguished
" honour was conferred upon the Senior Professor on our Staff, the
" Reverend Dr. Wm. Clark, of the Chair of Mental and Moral Philos-
" ophy, by his election to the Presidency of the Royal Society of Canada
" for the year just closed. And it will be fitting to draw attention here
" to the high estimation in which the Church holds the former Provost,
" the Rev. Canon Welch, as shown by his advancement to the most
" important and influential parochial charge in the Province of Ontario,
" the Rectory of St. James' Cathedral, Toronto. We are happy to be able
" to state that Trinity will still enjoy the services of Dr. Welch as
" lecturer and examiner.

" The extensive range of the work of Trinity University may be
" inferred from a consideration of the Faculties in which degrees are
" conferred, and of the affiliated Colleges in which instruction is given.
" The Faculties are seven, namely Arts, Divinity, Medicine, Law, Music,
" Pharmacy and Dentistry. The Colleges in affiliation are five, namely,
" Trinity College, with residence for men, St. Hilda's College, the resi-
" dence for women, Trinity Medical College, the Ontario Medical College
" for Women, and the Toronto Conservatory of Music.

" The number of Degrees conferred in the Academic year (ending
" September 30, 1899), is 115, including one honorary degree, as follows:
" D.C.L. (honoris causa), 1; D.D. (jure dignitatis), 2; D.C.L., 1; B.D.,
" 2; M.D., C.M., 68; D.D.S., 1; M.A., 8; B.C.L., 7; B.A., 23; Mus.
" Bac., 2.

" The new St. Hilda's College is now completed, and has been
" occupied since October last. The building, which is heated by steam,

"lighted by electricity and supplied with complete sanitary arrangements, is situated in the University grounds, two minutes' walk from Trinity College, where the young ladies attend the lectures. The exceptional advantages which this College affords to young ladies who desire either to proceed to a University degree, or to add one, two or three years to their School course, should be made as widely known as possible throughout the Province.

"The most important department of the work of the University is, of course, Trinity College itself. The residential system, which forms so important a feature in the education of our young men, receives here the most careful and constant attention, and its influence upon the students is unmistakably good. The young men who come under our care enjoy exceptional advantages and associations which make for strong and self-reliant character. The constant and friendly intercourse between professors and students, living together in the same building exercises a salutary and refining influence; while the daily chapel services, with the doctrinal teaching given in the lecture rooms, help to lay, deep, strong and abiding, that foundation of faith and trust in God without which our young men cannot be fitted to take their places as leaders of thought and action in the literary, professional and political life of our great and growing Dominion. Trinity College, while based originally on the model of the grand old Colleges of the Universities of Oxford and Cambridge, may now, after fifty years of growth *pari passu* with the development of our national life, fairly lay claim to be a thoroughly Canadian Institution, and it is the firm purpose of the present Provost, who is the first Canadian to hold this office, to keep Trinity always in close and sympathetic touch with Canadian life and Canadian needs.

"To those who may be unable to take the full course of three years which is necessary to obtain an Arts Degree, we desire to point out that both Trinity College and S. Hilda's College are open to students taking partial courses. Such students are not required to pass the matriculation examination, and may select from the curriculum any partial course of study they desire to pursue. Students preparing for Holy Orders, after taking the three years' Arts' Course in common with all other students in that faculty, remain in College during two years longer for a special Divinity Course.

" In conclusion we will quote a paragraph from our Calendar :—
" The fundamental object of the University is to supply to the people of
" the Province an academic education of the highest kind, in which
" secular instruction shall not be dissociated from religious teaching.
" The University is under the control of the Church of England, but
" open to all who desire to avail themselves of its advantages.

" Respectfully submitted on behalf of Trinity University,

" T. C. STREET MACKLEM,

" *Provost and Vice-Chancellor.*"

It is not necessary for the Editor of the Year Book to add much to this Report, which gives a comprehensive view of the position of affairs. There are, however, one or two matters of interest and importance which have transpired since Dr. Macklem's appointment to office, and these we shall briefly indicate.

The Centennial Celebration of the University of New Brunswick was held on the three last days of May, 1900, and the Provost was appointed by the Executive Committee to represent Trinity University at the commemoration festivities in Fredericton. On the first day of the proceedings the Provost, in common with the representatives from other Universities, received the degree of LL.D., *honoris causa*. The festivities were carried out with the most signal success, and the occasion marked a notable gathering of men of high standing in the educational world from near and distant parts. The Centennial is of special interest to Trinity at the present time, in view of the fact that the year 1901 marks her own Semi-Centennial or Jubilee, and doubtless we ourselves shall be engaging in festivities similar to those so successfully carried out by our honoured elder sister in New Brunswick.

At the first meeting of the Corporation held after the induction of the present Provost, two important measures were carried. One was the appointment of a small Commission empowered to complete negotiations with the Government of Ontario and Senate of the University of Toronto, looking to the Federation of Trinity with that University. We are informed that satisfactory progress is being made towards the accomplishment of this Federation, but it will necessarily take some considerable time to complete matters of such difficulty and delicacy. The other important resolution referred to was one constituting a new "Board of Endowment and Finance for Trinity University," composed of men prominent in the business and financial world in Toronto and elsewhere. This Board will have full control and management of all monies which may be raised during their continuance in office, and we are given to understand that the Board hopes to obtain a large supplementary endowment for the College. When the proposed Federation with the Provincial University is accomplished, this additional endowment will help to maintain Trinity as a thoroughly efficient and powerful College, and enable her to take that prominent position in the Federation which the College of the Church of England in Ontario certainly ought to occupy.

Convocation

EXECUTIVE COMMITTEE, 1899-1900.

Chairman :—BARLOW CUMBERLAND, M.A.

Clerk :—REV. G. F. DAVIDSON

Ex officio :—THE CHANCELLOR, THE PROVOST, THE DEAN, THE REGISTRAR, AND THE TRAVELLING SECRETARY OF THE CORPORATION.

Elected to 1900 :—DR. J. T. FOTHERINGHAM, REV. H. O. TREMAYNE, REV. C. H. SHORTT, REV. H. B. GWYN, DR. J. A. WORRELL, D. T. SYMONS.

Elected to 1901 :—PROFESSOR MONTGOMERY, REV. A. U. DEPENCIER, REV. W. H. WHITE, G. L. SMITH, F. J. S. MARTIN, C. W. BELL.

Representatives of Local Branches.

Convocation is the degree conferring and consulting body of the University. During the past twelve years it has done a great deal in the way of enkindling the enthusiasm of graduates, and enlisting the sympathy of other friends. Various fruitful schemes have originated at its meetings and a large sum of money has been handed over to the University for the establishment of Lectureships and the extension of the work generally.

It is capable, however, of doing an even greater work, if a large number will join its ranks during the coming year, in which the Jubilee of the College will be commemorated. Special efforts will be made to increase the

membership. Application for admission should be made to the Clerk.

Convocation is composed of two classes of members :

- (1.) *Full Members* :—Masters of Arts and graduates in Medicine, Law and Divinity. The Annual Fee is \$5. Bachelors of Arts, in the first four years, succeeding their graduation may be Full Members for \$2 per annum.
- (2.) *Associate Members* :—All others who, by enrolling themselves, wish to show their interest in Trinity, and their agreement with its principles. The fee for Associate members is also \$5 per annum. But in the case of clergy of the Church of England who wish to become Associate Members, the fee is \$2. A clerical graduate has the option of becoming either a Full or an Associate Member. Members of the Divinity Class of Trinity College may also become Associate Members upon payment of \$2 per annum.

Convocation elects fourteen members to the Corporation or governing body of the University. These represent graduates in Arts, Divinity, Law and Medicine, and Associate Members.

The nominations are made at the Annual Meeting, and ballot papers are subsequently sent out to all Members and Associates in good standing.

St. Hilda's College

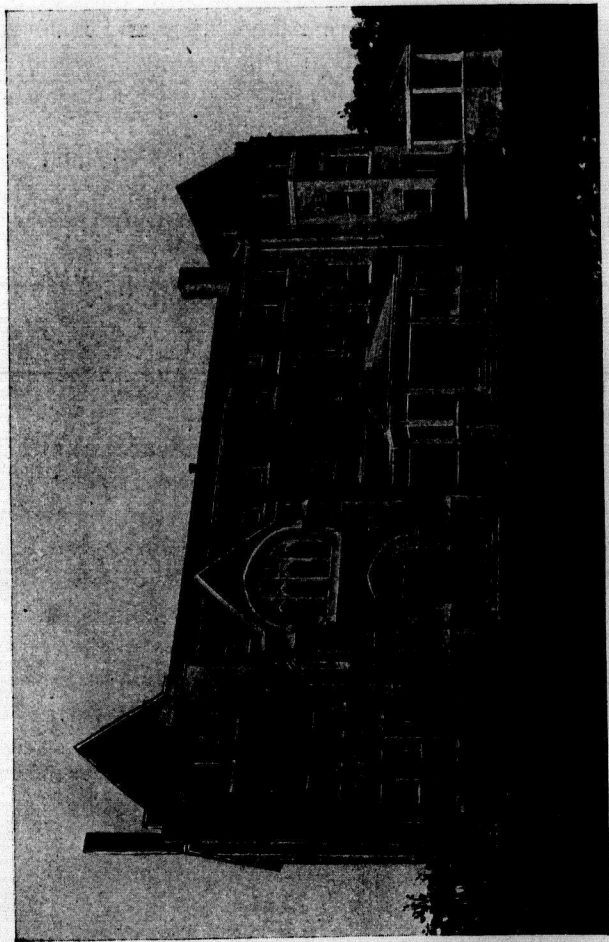

THE UNIVERSITY RESIDENCE FOR WOMEN,

Was founded in 1888, with the object of affording to women a University education combined with religious instruction, and to give the social advantages of Collegiate Life in a residence under wise and experienced control.

For eleven years the College carried on its work in rented houses. At the beginning of the twelfth year, it entered into occupation of its own building, situated in the beautiful grounds of Trinity University, of which the College is a part.

The corner-stone of this building was laid by Her Excellency the Countess of Minto, on April 14th, and the formal opening took place on Tuesday, October 24th, 1899. The religious service was conducted by the Lord Bishop of Toronto.

The building, which is carefully planned, is spacious, well lighted and well ventilated; it is heated by steam, lighted by electricity, and supplied with the most modern sanitary arrangements.

St. Wida's College.

The Students' rooms are large, bright and comfortably furnished; while the Dining-hall, Drawing-room, and Students' Common-room are well adapted for the purposes of the common life.

There is a beautiful little Chapel for the daily use of the Students; rooms for tuition and Committee work; also an infirmary which can be isolated from the rest of the building.

The St. Hilda's Athletic Association has provided a good Court for Lawn Tennis.

The head of the College is the Lady Principal, in whom is vested all responsibility relating to the internal life and discipline of the Institution.

Students are classified as undergraduates (proceeding to the degree of B.A.), and occasional students. The former follow the full curriculum and wear the academic dress. The latter take what lectures they may select, subject to the approval of the College authorities.

St. Hilda's College is a separate Corporation quite distinct from that of Trinity College. The Corporation of Trinity has granted the use of the requisite land, and owing to the generosity of a few friends it became possible to erect the building. It is now hoped that the many friends of higher education throughout the Province will manifest an interest in the work.

Trinity Medical College

This successful College is, and has been for many years past, an independent, self-sustaining, and self-governing body, incorporated since 1877 under a special Act of the Legislature of the Province of Ontario.

In June, 1850, Drs. Hodder and Bovell considered the time opportune to establish a new Medical School, and all necessary arrangements to carry out this decision were made without delay. The name selected for the School was the "Upper Canada School of Medicine." They associated with themselves as its Faculty, Drs. Badgeley, Bethune, Hallowell, and Melville, practitioners of eminence, then resident in Toronto.

In November, 1850, the new Faculty tendered its services to Bishop Strachan as the Medical Faculty of the University of Trinity College which was then being founded by His Lordship. The offer was gratefully

accepted, and on November 7th of that year the first session of the new medical department was opened with the usual introductory lectures. Dr. Hodder was Professor of Obstetrics, Dr. Badgeley of Medicine, Dr. Bethune of Anatomy, Dr. Hallowell of Materia Medica, Dr. Melville of Surgery, Dr. Bovell of Physiology and Pathology. The regular courses of lectures were delivered in a building on the West side of Spadina Avenue, a little north of Queen Street, which was fitted up for medical teaching purposes.

This Medical School was from the first a decided success, although it did not last very long. Owing to circumstances, which could not now occur, the professors resigned in 1856.

In 1871, under entirely different conditions the Medical Faculty was re-established on the broadest and most liberal basis. The time chosen for its re-establishment (the spring of 1871) was most opportune. The late Honourable Dr. Rolph, (who died in 1870), Dr. Geikie, and soon afterwards, the late Dr. John Fulton, had withdrawn from the medical department of Victoria University which, under Dr. Rolph's deanship, had been for many years carried on with great efficiency. Drs. Hodder, Bethune, and Hallowell, former members, gladly co-operated with Dr. Geikie in the restoration of the Trinity Medical Faculty. The University Corporation carefully considered the matter when brought before it, and the Medical School became once more an accomplished fact. At Dr. Geikie's suggestion, Dr. Hodder the senior member of the former Faculty, was appointed Dean, although the hard work incident to the complete success of the resuscitated Medical

Department devolved for many years upon Dr. Geikie, the Professor of Medicine and Clinical Medicine, was appointed Registrar and Treasurer, and threw himself energetically into his laborious duties. His experience of more than fourteen years with Dr. Rolph in the establishment and conduct of a medical college proved invaluable to the new undertaking.

The new Faculty at the outset held examinations in April, 1871, for such Primary and Final students as might desire to take advantage of the opportunity of presenting themselves. The number of candidates who presented themselves far exceeded the most sanguine expectations, and was considered a reliable indication of future success.

A commodious building was erected on Spruce Street, near the Hospital, and by October 1st, 1871, was ready for occupation. Here the session 1871-2 was opened with a large class and from that day to the present, the progress of this Medical School has been all that could be desired.

In 1877 the Government of Ontario sanctioned a change in the terms of affiliation of all medical bodies with the Provincial University. Up to that time all of these since 1853, had been affiliated under the statute constituting that University. The chief change made in 1877 was, that no medical teaching body which formed part of any other University empowered to grant degrees in Medicine could continue to be affiliated with the Provincial University. Some of the Trinity students had availed themselves of their legal right to go up for the examinations of the Provincial University, and had been so fortunate as to carry off gold and silver medals. It was

said that the change effected in the affiliation regulations, was made in order to prevent competition of this kind in future. Although it was thought at the time by her rivals, that the effect of it would be injurious to the prospects of Trinity Medical School, it proved just the reverse, for it was one, and perhaps the best of the many pieces of good fortune which have happened to her since her resuscitation. No sooner was the affiliation change announced than the Trinity Medical Faculty, with the full consent of Trinity University, applied for and obtained from the Legislature by unanimous vote, an Act of Incorporation as an entirely independent medical teaching body under the name of "Trinity Medical School," with power to affiliate with "*any University or Universities* empowered to grant Degrees in Medicine," thus affording the students of this Medical School every facility for obtaining such degree in Medicine as they may desire, after having undergone all examinations prescribed by the respective Universities before which they may present themselves.

This change in no way injured Trinity University, but proved advantageous, as it relieved the University of all financial liability in connection with the Medical Faculty, which liability rests on the incorporated medical teaching body alone.

Under its special Act of Incorporation "Trinity Medical School" at once sought and obtained affiliation with Toronto University on the same terms as were required from all other affiliated Medical Colleges, and it was indeed the first medical teaching body to affiliate after the change had been made in the regulations. Trinity Medical School

suffered no injury whatever, but in various ways has gained a great deal by a change which was certainly not brought about with that end in view. In 1888, her special Act was amended, and "*Trinity Medical School*" was raised by the Legislature to the standing and dignity of a College, becoming "Trinity Medical College."

During the whole period since the re-establishment of the Faculty in 1871 up to the present, unceasing vigilance has been exercised over all the interests of this institution. Much labour and very great responsibility have been involved in promoting the gratifying prosperity which the College has for many years enjoyed, and securing for it the high position it now occupies. We sincerely bespeak for it a long and prosperous career. May it be as successful during the next twenty-eight years as it has been during the twenty-eight which the Spring of 1899 brings to a close.

Under its special Act of Incorporation the College is fully affiliated with Trinity, Toronto, Queen's, and Manitoba Universities, and is fully recognized by all the Royal Colleges in Great Britain and Ireland which grant medical and surgical diplomas, besides having all the powers required by a Medical College actively and successfully engaged in teaching.

In 1878, Dr. Hodder, the first Dean, died, and Dr. Geikie, heretofore Registrar (and Treasurer also for some years.), was appointed his successor and is still in active discharge of his professional and other duties.

Ontario Medical College for Women,

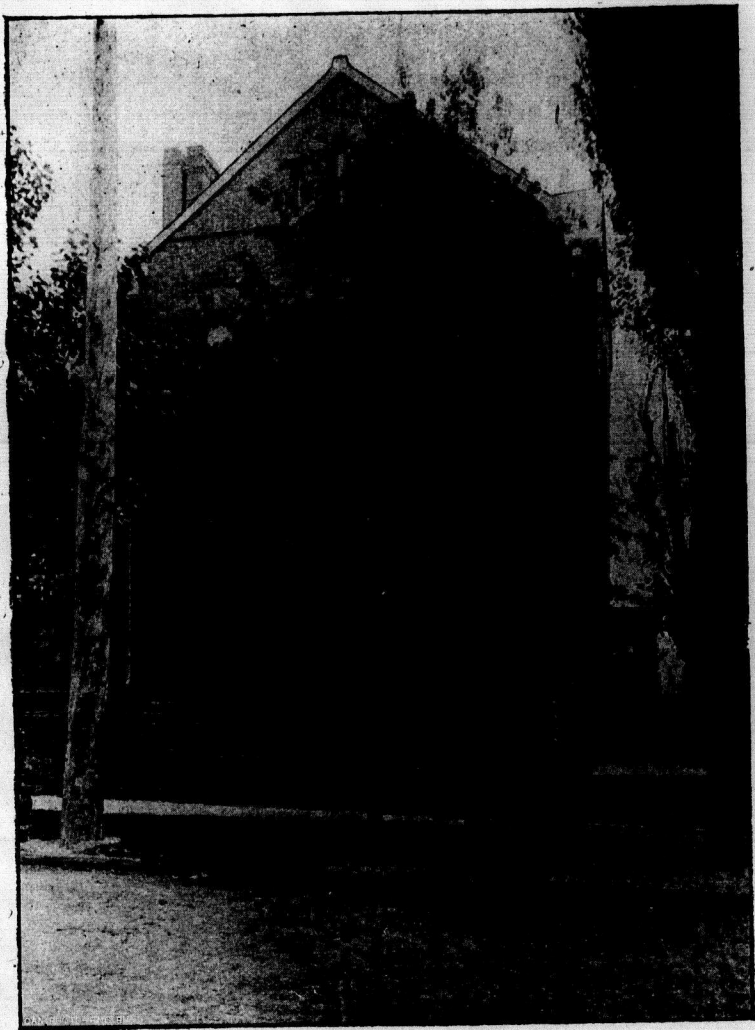

LIMITED.

Patroness:—HER EXCELLENCY THE COUNTESS OF ABERDEEN.

The initial steps to the formation of the first Medical College for Women in Canada were taken at a meeting held in Shaftesbury Hall, Toronto, in the spring of 1883, the late Honourable Justice Patterson being in the chair. On motion of Dr. Carlyle, seconded by Prof. Thomas Kirkland, M.A., a committee consisting of the Rev. Prof. King, M.A., Dr. Carlyle, James Beaty, Q.C., M.P., Dr. M. Barrett, M.A., Mrs. James Gooderham, Mrs. Adam Miller, Mrs. A. W. Lander, Mrs. S. McMaster, and Mrs. McEwan were appointed to carry out the project.

Later on a Board of Trustees was appointed by the subscribers to the funds consisting of James Beaty, Q.C., M.P., Chairman, Rev. Prof. Caven, Dr. M. Barrett, M.A., Dr. George Wright, M.A., Dr. Adam Wright, B.A., Mr. Irving Cameron, Mrs. James Gooderham, Mrs. John Harvie, and Mrs. McEwan, Secretary. The Trustees purchased the house and lot at 227 (now 291) Sumach Street, for the sum of \$1,411.39.

The formal opening of the Woman's Medical College, Toronto, took place at 2 p.m. on October 1st, His Worship the Mayor of Toronto being in the chair, and a lecture was delivered by Dr. Michael Barrett, M.A. During this session three students were in attendance.

The College.

The Dispensary is now open every week-day. Over 6,000 treatments have been given since its commencement two years ago.

The Clinics are as follows :

Monday—Dr. E. Lelia Skinner.

Tuesday—Dr. Lelia Davis.

Wednesday—Dr. Ida Lynd.

Thursday—Dr. Jennie Gray.

Friday—Dr. Jean Cruickshank.

Saturday—Dr. Katherine Bradshaw.

There were eight of the Final Class who graduated in May, and the First Year Class numbered ten.

An earnest movement has been set going towards the establishment of a Hospital in connection with the College, where the women practitioners can have the Hospital facilities they require. Dr. Bertha Dymond is the Secretary of the Committee. Every graduate of the College has an interest in the success of this movement, and may show it practically.

The graduates who have attended College since 1883, will regret to hear of the death of "McDowall."

The Staff.

The following changes have occurred during the year :—

Dr. Jennie Gray is Associate-Professor of Gynæcology. Dr. Ida Lynd is Lecturer on Materia Medica. Dr. Lelia Davis is Lecturer in Histology. Drs. G. Silverthorne and W. Dr. Minerva Greenaway has returned from Philadelphia, where she spent a very profitable year.

Dr. Jennie Hill, 1895, of China, was married, in the spring, to Mr. McKenzie of Honan, China.

Drs. Jeanie Dow, 1895, and Margaret Wallace, 1898, of the Presbyterian Mission in China, arrived at Cheefu in safety.

Dr. Margaret Wallace is now on the Hospital Staff of the British Royal Navy, at Wei-Hai-Wei, China.

Toronto Conservatory of Music

THE HONOURABLE G. W. ALLAN, *President.*
DR. EDWARD FISHER, *Musical Director.*

The Toronto Conservatory of Music has long been well and favourably known for the excellence and high standing of its educational work and as being the largest music school in Canada, as well as holding third place on the Continent of America as respects the number of students enrolled. Since it was founded in 1886 the development of the Conservatory has been strong and rapid, with the result that the attendance during the season, which closed in June last, amounting to 1,150 was the largest in the history of the institution, a splendid tribute certainly to the high educational standards of artistic musical culture established and maintained by Dr. Edward Fisher, the musical Director and eminent founder of the Conservatory.

The Faculty is unusually strong, the best of teachers being provided in all branches of music and elocution, the whole staff being carefully selected in view of their superior excellence as specialists in their respective departments,

and numbering amongst its members those who are foremost in the musical profession in Canada.

The thorough and artistic character of the Conservatory's work is clearly indicated by the great number of positions as teachers and performers now held by its graduates and undergraduates, and particularly by the large number of students who attend the institution to be specially trained for the profession of music teaching.

Being affiliated with both Trinity and Toronto Universities the Conservatory gives special attention to preparing students for University examinations for the degrees of Mus. Bac. and Mus. Doc. The fact of this affiliation gives additional strength and dignity to the Conservatory system of Examinations which are now open to all candidates without restriction, an advantage eagerly sought for and enjoyed by many teachers and pupils throughout Canada. Graduates of the Conservatory in the theory department are exempted from the first two examinations for the degree of Mus. Bac. at both Universities, clearly showing that the educational standard of the institution is of a high order. Diplomas, Certificates, Scholarships, and Medals are awarded in the various departments. The Conservatory also awards, annually, Scholarships of the value of \$2,000, thus enabling students of ability, even those of limited means, to obtain advantages very essential to their musical progress.

The location, buildings and facilities of the Conservatory are unexcelled in America, comparing favorably also with the best institutions of the kind in Europe. The fine new building being most favorably situated in the

educational heart of the City, in close proximity to Queen's Park with its group of legislative and educational centres, brings the student into an atmosphere of refinement and culture which inspires a spirit of earnestness and devotion in his work.

A prominent part of the Conservatory's splendid equipment is a large three-manual concert organ, contained in the Music Hall, a thoroughly modern instrument constructed on the electro-pneumatic principle, available for lessons and daily practice, also a smaller two manual organ erected in a studio on the ground floor and specially designed for practice purposes. These instruments are of much value to organ students and greatly appreciated by them. The studios and class rooms, fifty in number, lecture, chorus, and concert halls, reception room and offices are all spacious, comfortable and thoroughly modern in all their appointments. A valuable and useful musical reference library is contained in the reception room, comprising works of much importance to the students—books historical, biographical, theoretical, technical, æsthetical and elocutionary, as well as full scores of the symphonic, oratorio and operatic works of the great tone-masters. This library, which contains works not available in ordinary libraries, is free to Conservatory students, and largely patronized by them.

The Conservatory School of Elocution, under the direction of Miss Maude Masson, the principal, assisted by her eminent and efficient staff of teachers, is making most gratifying progress. The present season promises to be more successful even than the last, which was the best in the history of the School.

Trinity College School

"Beati mundo corde."

The School was first established in the village of Weston, near Toronto, and was opened on the first of May, 1865, under the Head-mastership of the late Rev. C. H. Badgley, M.A. During the summer of 1868 the School was removed to Port Hope, and in January, 1872, the first portion of the permanent buildings was completed and occupied. The School premises now consist of over twenty acres of land, affording ample space for large Cricket, Tennis and Football grounds and Skating-rink, situated on high land outside the town of Port Hope, and commanding beautiful views of Lake Ontario and the surrounding country.

In 1895 new buildings were erected, and were thus described in the *Toronto Globe* of July 2nd, 1896:—"The new buildings are both extremely imposing and handsome externally, while within they are wonderfully substantial and commodious, as well as perfectly laid out and planned so as to suit the purposes for which they are intended. In rebuilding, it was found necessary to pull down all that remained of the old School, with the exception of the tower, new and deeper foundations even being necessary to bear the weight of the massive structure to be erected upon them. The building is four stories in height, the south front being about 300 feet, and the west over 100 feet in length. At the eastern end is the beautiful chapel, more

lofty and stately in appearance than its predecessor, and under it is the dining hall. Under the whole length and width of the building are tunnels, ten feet wide and eight feet high, in which are all the ventilating, heating, water-works and sewerage pipes, so that in case of anything needing repair or alteration it can be done expeditiously. The ventilation of the building is carried out in a most scientific manner, while the heating arrangements by means of steam pipes are very satisfactory.

"The building is as nearly fireproof as it is possible to make it, little if any woodwork being visible in any part. The floors in all the corridors are of Deseronto terra-cotta, covered with cement, while in the rooms they are made of wood, double, with asbestos between them. The ceiling girders are of steel and the exterior walls are lined with terra-cotta brick, with rough finished plaster over them. In the corridors and up the stairways there are deep dados of brick, while at the stairways the brick archways and the wrought iron railings are most effective in appearance. The whole building is divided into five sections, with fire-proof walls between each, and each portion has its own stairway, some being made of iron and others of stone. The roof is of slate.

"The beautiful situation of the School at such an altitude above the town and lake is an attraction not only from an artistic point of view, but also as insuring pure air and perfect drainage, while the large grounds afford ample provision for cricket, tennis, and all other outdoor sports, to which, if one might judge from the sun-tinted faces, the boys are much addicted."

The Bishop Strachan School.

The object which this School was established to fulfil was that of giving a thorough general education based on Church principles, and though the scope of such an education has steadily widened since the year 1867, when the school was founded, the School has constantly kept pace with the demand by the addition of subjects to its curriculum, and the adaption of its methods to the changing needs.

It has four departments : the Preparatory, Middle and Upper Schools, and the College Form where parts of the First and Second Year University work may be done by pupils who are not desirous of going on to a degree, or are too young to undertake full University work.

The work for matriculation, in part or in full, may be done in the Senior Form of the Upper School.

An excellent course of manual training is provided, including the Domestic Arts:—Cooking, Plain Sewing, Dressmaking, Millinery, Lace Making, and Art and Ecclesiastical Embroidery, together with Leather Modelling and Wood Carving.

Music and Painting in all their branches are taught by well qualified masters.

It having been the object of the original promoters of the School to establish a Church School where good tuition could be obtained at as low a price as is consistent with efficiency, no greater fees are charged than will cover the cost of management.

The School is situated in large grounds, which afford ample space for tennis and croquet lawns, a nine-hole putting green, a bicycle track, and a cricket field, and insure

pure healthy air even in a populous centre. It is within easy walking distance of the best lectures, concerts and operas; the cars of the College Street route stop at the main entrance, and afford ready connection with the Belt Line, Yonge Street, and the Union Station.

The sanitary arrangements are modern and very complete.

A new wing is being built for the purpose of adding a gymnasium, four class rooms, and a new studio.

The "NATIONAL" scores "a touch down."

No more broken button holes,

Razor edged collars and limp neck bands,

Broken cuffs or peeled shirt bosoms.

The "NATIONAL" non-tearing equipment does away with
all that.

NATIONAL prices just the same as linen-wrecking common laundries.

The NATIONAL is the only laundry in the city giving
that beautiful, ~~linen-saving~~ genteel, domestic finish.

All good dressers wear domestic finished linen.

The Rossin House

...TORONTO...

TO Globe Trotters, the name "The Rossin"—the finest hotel in Ontario—has long stood a synonym of cosiness, home-like comfort and up-to-date luxury, attributes which are much advertised, and in reality possessed little by other pretentious houses.

While being the most centrally located of the Toronto hotels, it is happily remote from all the noise, dust and smoke of the railways, yet only two blocks from the Union Station up York Street, at its intersection with King Street, Toronto's historic and most fashionable promenade.

In capacity, "The Rossin" can comfortably accommodate 400 guests; fifty of its rooms having bathrooms attached.

As a protection against fire, it is built with brick partitions throughout. There are five stairways from the upper to the first floor, and nightly watchmen patrol the corridors, ensuring the perfect safety of guests.

An additional feature of the house is the absence of winding passages—all the hallways being attractively wide and lofty. In every respect, the architect, with an eye to safety, health and comfort, wrought on a generous scale. In fine, the house is, like its management, like its cuisine, like its patronage, the best and most modern in the city.

This hotel home, it will be known with no surprise, has numbered among its guests, at various times, members of the Royal family, of the nobility, and the leading men of the day.

A. & A. NELSON, Proprietors.
